

MARLAND HAS ANOTHER GUSHER

Levee Workmen Lose Fight When Water Pours Into River Valley

FARM LAND IS INUNDATED AS FLOOD BREAKS

Missouri Area Will Be Covered Near Kennett

SOUND IS HEARD FOR MANY MILES

Red Cross Cares for Homeless Family Groups

KENNETT, Mo., May 20.—(P)—An army of workmen lost a terrific fight with flood waters of the St. Francis river when the levee crumbled about 7 miles northwest of Kennett last night. The break was expected to inundate approximately 45,000 acres of farm land and cover highway 84 to a depth of several feet. No towns were endangered.

Between 700 and 800 men had been working desperately along a stretch of levee 4 miles long to prevent a crevasse. While about 300 men were working at Millhouse levee, considered the weakest point, there was a rumbling sound and a roar as flood waters swept away the dirt barrier and poured into fertile farms, ruining all crops in its path. The sound of the rushing water was heard for miles and farmers were awakened in time to make preparations to leave their homes. The crevasse had widened to 200 feet this morning.

Nearly every man in Kennett was on duty yesterday or last night at some point along the levee. Army engineers, who have been supervising the work, today concentrated their efforts farther south, although it was believed the break would relieve the situation. About 100 men were in the vicinity of Holcomb and Browns' ferry where the levee seemed in danger, although the water was falling. Engineers also sent about 100 men to a point four miles south of Kennett.

Possibly fifty families will be homeless by night as a result of the break. They will be cared for by the Red Cross which established an emergency office here Saturday.

"Zep's" Motors Are Being Tuned for the Home Flight

CUERS, France, May 20.—(P)—Motors of the Graf Zeppelin were being repaired today to permit the dirigible's departure for its Friedrichshafen hangar.

Two of its five motors were placed in commission yesterday, both upon testing emitted a tuneful drone, which delighted Captain Lehmann, left in charge of departure of Dr. Hugo Eckener for Germany. Two new motors arrived from Friedrichshafen will be installed as quickly as possible.

Investigation of the causes of the engine failures of Friday has not lessened the mystery attached to them. Three crank shafts were broken clean against the joint where they entered the bodies of the motor. There was no evidence of previous weakness.

THE WEATHER VANE

WEST TEXAS: Cloudy, possible showers tonight and Tuesday; warmer tonight except in southwest portion.

—AND A SMILE

NEW YORK.—(P)—In the retirement from the stage which Eddy Cantor plans at the age of 37 in order to enjoy his fortune, Mrs. Eddy is to figure considerably. "We were kids together," Eddy explained. "I used to carry her school books. Now she carries my bank book."

TEN LOCATIONS IN NEW POOL SOUTH OF PAMPA

The Tulsa World, speaking of Gray county's new oil activity, says "The Operators pool, located west of the Bowers-McGee pool, east of the Lefors pool, and south of the Wilcox pool, is giving that Panhandle field a drilling boom. Ten new derricks are being built and several tests are on top of the pay."

Ten bright and shining new derricks are in various stages of erection in the new area. Five good wells have already been brought in and three are on top of the pay and will be drilled in this week.

The new locations are the result of new production. They have been made by six major companies.

The locations: The Operators' Oil company's No. 2 Cook-Faulkner, one location north of the same company's No. 1 which is in the southwest corner of the west 90 acres of section 30, block B-2.

The Operators' Oil company's No. 1 Cook-Faulkner in the southeast corner of the west 90 acres of section 30, block B-2.

The Champlin Refining company's No. 1 Cook-Faulkner in the southwest corner of the west 180 acres of the east 270 acres of section 30, block B-2. It is an east offset to the Operators' No. 2.

The Texas company's No. 4 Cook-Faulkner, a south offset to the Champlin Refining company's No. 1 and 4 locations east of the same company's No. 1.

The Texas company's No. 3 Cook-Faulkner, a south offset to the Operators' Oil company's No. 3 and three locations east of the same company's No. 1.

The Marland production company's No. 3 Finley-Brown in the northwest corner of the east half of section 32, block B-2, and an offset to the McMan Oil company's location in section 31, block B-2.

The Marland Production company's No. 4 Finley-Brown, one location east of the same company's No. 2, and a south offset to the Phillips Petroleum company's No. 3 Palmer in section 31, block B-2.

The McMann Oil company's No. 1 Palmer in the southeast corner of center one-third of section 31, block B-2.

The Phillips Petroleum company's No. 3 Palmer in the southwest corner of the east one-third of section 31, block B-2.

McMurtry Heads Grain Dealers

L. C. McMurtry of Pampa was elected president of the Texas Grain Dealers' association at the close of the organization's convention in Fort Worth Saturday. He previously held the office of vice-president.

Other officers of the association: Julius W. Jockusch, Galveston, and W. L. Newsum, Fort Worth, vice-presidents; and H. B. Dorsey, Fort Worth, secretary-treasurer. Directors are A. V. Nelson, Claude; E. E. Wendland, Temple; and J. S. Criswell, Graham.

The next meeting place will be chosen later by the executive committee.

Two Boys Hurt by Negro's Truck

LUFKIN, May 20.—(P)—Talmadge Red, 15, and Daniel, 19, were in a serious condition today as the result of two accidents almost a day apart, in which Joe Ballinger, negro truck driver, figured.

The Red boy was struck down by the negro's truck as he was crossing the street Saturday night. He was reported suffering from concussion of the brain.

Daniels was walking along the sidewalk yesterday when the negro's truck crashed in to a small automobile, turning it over on Daniels. He received a broken leg and other injuries.

TEXAS SOLONS NEAR END OF SECOND TERM

Several Bills to Be in Workable Form Next Session

LOCAL MEASURES FINALLY PASSED

Gas and Automobile Taxes to Arouse Battle

By R. W. BARRY, Associated Press Staff Writer
AUSTIN—Winding up more than three months work tomorrow, the 41st legislature is faced with at least another month's labor.

The all-important appropriation bills are yet to be considered. Unless sentiment changes, these measures will consume not less than two weeks steady work.

Much depends on Governor Moody whether there shall be a third called session. If he submits regulation of public utilities, revision of water priority laws and prison concentration in the event he vetoes the compromise measure on this subject now on his desk—it seems certain that state's business cannot be wound up in another 30-day period.

He has assured some of the members he would submit revenue and taxation in order to get a new gasoline tax and a revision of the existing motor vehicle registration fees.

To Repeat Tax Moves
Rep. T. N. Mauritz of Ganado, author of the income, intangible assets, and another tax measures, said the governor had indicated he would permit the consideration of these bills, following their summary execution at the hands of committees during the current session. Mauritz has announced for governor on the strength of his tax program, which would permit discard of the time-honored ad valorem levy.

An effort will be made to double the present gasoline tax of two cents, but stiff opposition will be encountered with the prevalent belief that a compromise on three cents will be effected. The fight by Rep. Ray Holder of Lancaster and others to cut present registration fees on privately owned passenger automobiles 50 per cent will be renewed in spite of the house's action during this session in passing a bill carrying a 35 per cent reduction.

The bill died without consideration by the senate committee. Representatives Leonard Tillotson of Sealy and R. M. Hubbard of New Boston, its authors, preferring that it not be passed at this time.

Rep. W. E. Pope of Corpus Christi, rapidly assuming a formidable following in the legislature, succeeded in getting into it an amendment that is distasteful to the highway commission. He fixed it so the highway commission could not spend money in construction within any county without the approval of the county commissioners' court. This amendment in effect was the essence of the bill Rep. Paul Finn of Sunset, directing that the highway commission should not reroute a highway away from a town of 200 or more population without the consent of the county commissioners' court, which passed both houses during the regular session and was vetoed by Governor Moody.

Some Late Action
The legislature, after more or less negligible results for three weeks, succeeded in grinding out more than 60 bills during the closing days. Although the vast majority of these have only local application or are to clarify existing statutes, there are in the making, with final passages almost assured, two measures of importance. They are the bills creating the board of education of nine members and a state auditor.

The only difference between the house and senate in the education bill is whether the state superintendent of public instruction shall be elected or appointed, and chances are good for an amicable settlement of this point and the measure saved from failure.

The state auditor bill seems assured of passage. It remains only for the house to concur in some unimportant amendments attached by the senate. It adopts in miniature form the civil service idea urged by Governor Moody. The auditor would, in addition to checking accounts of the department, study the efficiency of the personnel and clerical forces of the departments and also point out duplications and overlapping activities in the state government.

ANGORA, Turkey in Asia, May 20.—(P)—Thirty-nine persons were killed and 39 injured in a violent earthquake at 8:40 p. m., Sunday evening at So-ucherni, near Sivas, Asia Minor. A thousand houses were destroyed or badly damaged.

JOHNSON CASE IS CALLED IN LOCAL COURT

Trial Is Re-Set for Wednesday at 10 o'clock

After hearing arguments over a defense motion for continuance in the trial of T. C. Johnson of Wheeler county, charged with rape, Judge W. R. Ewing this afternoon re-set the case for Wednesday at 10 a. m.

Absence of material defense witnesses was cited, but the State asked an opportunity to reach them by wire in an effort to obtain their presence.

The seating capacity of the old Baptist church auditorium, now being used as the courtroom, was well filled when Judge W. R. Ewing opened court at 10 o'clock this morning.

A special venire of 75 men had been called in addition to the regular petit jury panel for the week, and prospective jurors for county court were likewise present.

County court was transferred to the annex, and setting of the docket was started by County Judge Ivy E. Duncan.

Plane Crashes Account for Six Deaths Sunday

By The Associated Press
Seven persons were killed, and eight were injured, three seriously, in six airplane crashes Sunday.

Major Joseph Noyes, 40, of Oklahoma City, United States department of commerce inspector of Illinois, was killed, and Frank Graves, 25, Lowell, Ind., was injured seriously at Kankakee, Ill., when Graves' plane crashed after a 2,000-foot attempted spiral landing.

Corporal Archibald Bryant, ninth-ninth squadron, third attack group, U. S. Air Corps, was killed, and Lieutenant Edward Hertzberg, pilot, was slightly injured at Galveston, in an attempt to take off. The machine nosed into the ground.

At Muskogee, Mich., George F. King, 28, and Morris R. Mellinger, 25, lost their lives in their home-made monoplane. A wing was torn from the fuselage while King was pulling out of a voluntary nose dive, and the ship crashed 1,500 feet.

A Calgary Aero club plane crashed at Calgary, Alberta, killing N. E. Stevens, and D. E. McCallum. A wing broke when the plane was making a loop and the machine fell from a height of 2,500 feet.

Louis Scott, 19, mechanic, was fatally injured, and O. G. Corben, pilot, was slightly hurt in a crash near Pawhuska, Okla.

Four persons were injured, two seriously in a crash of a plane in an attempted take off at Roosevelt field, N. Y. The seriously hurt were Dorothy, Guenel, 25, Baltimore, Md., and Mrs. Lucienne De La Paule, New York.

Six thousand Sunday visitors at the Lambert-St. Louis flying field in St. Louis saw a plane piloted by Oscar Heinze, 21-year-old transport pilot, crash from 150 feet. The pilot and his passenger, Will Lahgedorf, 21, were slightly injured.

The state auditor bill seems assured of passage. It remains only for the house to concur in some unimportant amendments attached by the senate. It adopts in miniature form the civil service idea urged by Governor Moody. The auditor would, in addition to checking accounts of the department, study the efficiency of the personnel and clerical forces of the departments and also point out duplications and overlapping activities in the state government.

ANGORA, Turkey in Asia, May 20.—(P)—Thirty-nine persons were killed and 39 injured in a violent earthquake at 8:40 p. m., Sunday evening at So-ucherni, near Sivas, Asia Minor. A thousand houses were destroyed or badly damaged.

WHEAT CROP PROBLEM MAY BE DIFFICULT

Fast Combine Harvester Gives Marketing Trouble

SHORTAGE OF CARS FEARED

Cutting Expected to Be Under Way By June 15

KANSAS CITY, May 20.—(P)—Southwestern wheat farmers, preparing to take from 40,000 acres nearly half of the nation's estimated 1929 winter wheat crop of 595,335,000 bushels, are facing new transportation and storage problems, the result of "combine" harvesting.

The machines which thresh as they reap have eliminated many of the old labor distresses and speeded up the harvest but may also throw suddenly on the market, beginning early in June, enough wheat to lower prices. And millions of bushels might be left in an unprotected condition subject to deterioration. Farm brains of Nebraska, Kansas, Oklahoma, Texas and Missouri are seeking a solution.

Railroads Preparing
A great burden of adjustment, too, has fallen upon the railroads. They are preparing to rush a tremendous number of grain-tight cars to loading stations and to move them when filled.

Kansas alone, the department of agriculture estimates, will produce 148,300,000 bushels. Texas farmers are expected to contribute 26,524,000 bushels. Early reports indicate a slightly delayed harvest in Texas and Southern Oklahoma where the cutting began. Within two weeks the singing harvester is expected to be heard in Texas. Wheat there, except in the northwest portion, is reported heading.

From Texas the work will spread rapidly north. W. A. Murphy, state labor commissioner from Oklahoma, after a survey, reported the harvest will begin a few days late because of a backward spring, but that the middle of June will see many operations.

Today railway repair shops hum with activity as strenuous effort is made to put every possible car into usable condition. As fast as the cars are repaired they are moved into producing sections.

Kansas Governor Fearful
Despite the heavy concentration of rolling stock, Governor Clyde M. Reed, of Kansas, is apprehensive of the situation. He has predicted the greatest transportation problem since 1922. Farmers of the Southwest have been urged by the Kansas governor to prepare additional storage facilities on their farms.

Harry B. Cordell, president of the United States board of agriculture, takes a more optimistic view of the situation, saying that many empty box cars are expected soon to appear on railway sidings. He admits, however, that enough cars to take care of the crop will not be available immediately, and that much wheat must of necessity be dumped in huge piles on the ground.

Little difficulty is expected in Texas by H. H. Schultz, statistician for the United States department of agriculture. Available room for 27,000,000 bushels is expected by Mr. Schultz to be ample.

Surveys prove conclusively that more combines will be used in the Southwest this year than ever before.

Johnny Evers Is Given Suspension

NEW YORK, May 20.—(P)—Suspension of Johnny Evers, assistant manager of the Boston Braves, for three days for "umpire-baiting" was announced today by President Heydler of the National league.

Evers had a run-in with Umpire Quigley over the batting order at Boston Saturday in the first game of a double-header with the Glens.

LARGEST CARBON PLANT WILL BE NEAR CITY

Gray county will have the largest carbon black plant in the Panhandle, and one of the largest in the world, when the Cabot company completes an addition to its plant in the Bowers field, 5 miles south of Pampa.

At present the plant is using 33,000,000 feet of residue gas and producing approximately 60,000 pounds of carbon black a day. A fourth unit of 56 smoke houses will be added to the present three units, which will give the plant a capacity of 44,000,000 feet of residue gas. It will produce 80,000 pounds of carbon black a day.

First carbon black from the same company's plant three miles west of here was burned Friday in 18 houses. When completed, the new plant will consist of 108 houses using 24,000,000 feet of residue gas from the Skelly and Empire casinghead plants. It is expected the plant will be in full operation by June 15.

More than 400 men are at work constructing the new plant. Ground was broken March 15.

Endurance Try at Fort Worth Is Progressing Well

FORT WORTH, May 20.—(P)—The first refueling of the monoplane Fort Worth, piloted by R. L. Robbins and James Kelly in an attempt to break the refueling endurance record, was completed at 6:30 a. m.

One hundred and ten gallons of gasoline, four and a half gallons of oil and food for the pilots were transferred to the flight ship by the refueling plane at an altitude of 1,800 feet. W. W. Hoffman and H. F. Jones were aboard the refueling plane.

The Fort Worth had been aloft 19 hours when it was refueled.

FORT WORTH, May 20.—(P)—The monoplane "Fort Worth," cruising over Mescham field, today entered its second day aloft in an attempt to set a new world's record for refueling endurance flight.

R. L. Robbins, commercial pilot, and James Kelly, co-pilot, took the air at 1:33 a. m., yesterday to try to beat the 151-hour mark set by Captain Ira C. Eaker in the Question Mark in California.

A 152-hour flight or better was the goal of the flyers, who would have to remain up until 7:33:23 p. m., Saturday to achieve it.

A clear, moonlight sky made it possible for watchers in Fort Worth to follow the ship through much of the night. The explosions of the motor were heard clearly at the field.

The refueling ship has a 75-foot hose for the transfer of gasoline. Oil, food and other necessary supplies were to be transferred by hanging ropes from the refueling plane. This ship was assigned to E. K. Hoffman, pilot, H. S. Jones was placed in charge of the hose and ropes.

Airplane Trip to Oklahoma City Is Made on Week-end

The new Spartan biplane owned and operated by the West Texas Air service here was used on its first long hop over the week-end. Dr. J. C. McKean chartered the plane to take him to Oklahoma City Saturday afternoon on a business trip. He was accompanied on the trip by Alex Rainnour.

The return was made yesterday afternoon. Miss Amy Smallwood, nurse at the McKean & Connor hospital returned in the plane. Mr. Rainnour remained in Oklahoma City to visit friends.

With Bill Morris at the stick, the Spartan left the local airport at 5 o'clock. A heavy headwind was bucked as far as Clinton Junction, where flying became easier. It took nearly three hours to make the trip.

The return flight of 205 miles, airline was made in less than two hours, Mr. Morris said. The plane landed here about 3 o'clock yesterday afternoon.

FINLEY-BROWN NO. 2 FLOWING 1,200 BARRELS

Powerful Flood of Oil Is Released on Sunday

NO. 1 STILL IS GAINING SPEED

Operators' Big Well Producing Very Steadily

Gray county's new pool continues to be the bright spot in the Panhandle's oil activities.

Today the Marland Production company's No. 2 Finley-Brown in the south east corner of section 32, block B-2, is flowing 80 barrels an hour from granite wash formation at 2,865 feet.

First pay was encountered Saturday afternoon at 2,860 feet, where drilling ceased. Yesterday the hole was deepened five feet and increased pay was found. There is 20,000,000 feet of gas with the oil.

The same company's No. 1 Finley-Brown in the northeast corner of the same section, made 470 barrels the last 24 hours. Pay in that test was temporarily lost when the Operators' Oil company's No. 1, a diagonal offset, picked up the big gas and pay at the same depth. The Operators' test flowed 4,345 barrels the last 24 hours.

The Operators' Oil company's No. 7 Jackson in the northeast corner of the north half of the northeast quarter of section 88, block B-2, Bowers-McGee pool, is drilling in at 2,760 feet. A slight show of gas was encountered at 2,365 feet.

This test is a south offset to the Texas company's No. 5 Bowers in section 89, block B-2, which came in last week for 3,400 barrels of high gravity oil.

MEMPHIS MAN CHARGED WITH MURDER TODAY

MEMPHIS, May 20.—(P)—John Rogers, 40, farmer, was under \$30,000 bond on a murder charge here today in the death of Bert Deshazor, 35, Dallas, shot fatally at a filling station near here last night. Rogers told Sheriff Sid Christian he fired in self-defense.

Officers, searching the filling station, said they found 18 gallons of whiskey.

Endurance Mark Broken Today

JACKSONVILLE, Fla., May 20.—(P)—Laurie Yonge, today established an unofficial world endurance record for light aircraft in his plane "The Holy-Totey."

Yonge surpassed Miss Elinor Smith's record of 13 hours and 19 minutes at 1:34 a. m. (eastern standard time). At that time, he signalled that his machine was running perfectly and his gas supply was holding up.

Yonge averaged approximately 83 miles an hour and flew at an altitude of 3,000 feet.

General Calles Will Take Rest

MEXICO CITY, May 20.—(P)—General Plutarco Elias Calles, minister of war and former president of Mexico, has resigned his portfolio and will return to the country to rest.

Officials' announcements today said General Calles, Mexico's "Iron Man" whose handling brought a speedy revolution to the recent military revolt, gave his resignation to President Portes Gil Saturday and would turn over the office to General Joaquin Amador.

"It's Like This—"

ROSSELL IS ONE OF THE BEST organized towns of its size in the world, according to one of her spokesmen, who added: "The impelling force behind every public matter is so powerful that every worthy call is answered."

Over-organization is a detriment, but that state exists only when organizations cease to function. As long as the duties of office are passed around so that the leaders have time to study their work, the result is apt to be good. This is an age of organization. And it is fortunate that public causes may be well aided through various groups; otherwise, busy business men would hear little discussion.

It is a mistake to elect officers because of their previous prominence. There is apt to be more work from a comparatively inexperienced officer than from an overworked one, however capable.

ALBUQUERQUE has a new airport organized as a corporation but designed to be operated on a maintenance cost basis. The field is square, and contains 160 acres. Buildings include a steel hangar, 60 by 80 feet with a 20-foot lean-to, and a headquarters building with recreation and rest rooms.

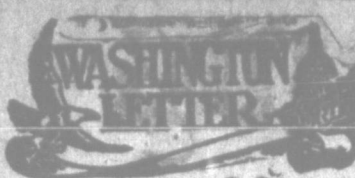

Hangar space is rented for the nominal sum of \$20 per month per plane, or \$1.50 per day. Those desiring the use of the field without hangar space are charged next to nothing, and maintenance and salary of the secretary are partly paid through sale of gas, oil, and supplies.

Albuquerque is so well located on the transcontinental routes that the airport should pay expenses from the start. This is not true of the average town, hence fewer accommodations can be provided.

However, many Texas cities are providing ample facilities for ordinary travelers. The state has more than 100 landing fields, with designations, and many others planned. Among the cities announcing new airport plans are Denton, Saint Jo, Pyote, Albany, Brady, Eagle Pass, Fort Stockton, Graham, McAllen, McCombs, Mercedes, San Diego, Tinson, Vernon, Ennis, Tulsa, Krum, and Muenster.

Denver has placed her airport under the department of parks and playgrounds—a logical arrangement. The city recently purchased 630 acres of land and will spend \$175,000 for buildings.

Thus the airport movement grows more rapidly. Moreover, there must be airports where planes are to land, and the best way to attract the birds of the air is to give them ample facilities.

BY RODNEY DUTCHER

WASHINGTON

Whatever the immediate results of strikes now in progress in southern textile centers may be, the work of organizing the underpaid mill workers apparently is going to continue on a large scale.

Discussion of the situation in the south was uppermost among leaders of the Women's Trade Union League, who have just wound up their terminal convention here and who decided to move their national headquarters from Chicago to Washington with the announced purpose of establishing a nearer base for their campaign to unionize southern industrial workers.

The apparent interest of the American Federation of Labor, as voiced by President William Green, has also astonished many persons who had never expected to hear from the A. F. of L. again. It looks as if the federation also intended to keep up the fight to rescue southern mill workers from what they contend are atrocious wage and working conditions.

Hard on the Women

Women mill workers, judging from stories told here, have been getting the worst of it. Stories of girls who were paid \$6 to \$10 a week and worked 60 hours a week appear to have startled some of the senators, who must decide whether there is warrant for an investigation of textile industry conditions in North and South Carolina and Tennessee.

Leaders of the Women's Trade Union League revealed that average yearly earnings of women in industry are lower than they were five years ago, despite the prosperity enjoyed by other classes. Men's earnings have increased.

"Latest official reports from three large manufacturing states, New York, Illinois and Massachusetts, show that women wage earners receive on an average about 55 per cent of the weekly earnings of men wage earners," says Miss Lillian Herstein of the Chicago Federation of Labor.

"The National Industrial Conference Board's reports on weekly earnings of men and women, covering 1800 plants in the United States, showed women's weekly earnings for all industries for November, 1928, as 70.5 per cent of the earnings of unskilled men workers and 54.9 per cent of those of skilled and semi-skilled men workers.

"One of the great future problems of labor is the fact that while the majority of women are in industry because of necessity, many are entering

because they want to turn spare time into cash and are willing to work for low wages."

This situation, the woman trade unionists asserted, had been especially hard on women workers in the textile, shoe manufacturing and garment industries.

Emphasizes Union Label

The league is working on plans for a campaign to persuade women generally to look for union labels on such articles of clothing as are made principally by women. It also seeks to educate the public generally to look for union labels on shoes and men's neckties. By so doing, it holds, women especially can do a great deal to improve the condition of women who work in mills and factories. Incidentally, the league voted to support a strike of 30,000 members of the International Ladies' Garment Workers' Union which is planned for June against three large New York employers' associations which have refused to recognize the union.

TWINKLES

Pampa has dozens of new Notary Publics, so be careful of what and where you tell things—they might certify some of your fish stories.

Mary Pickford is here in the talks, but we have not ascertained whether she totters like Mary Garden.

Twink has turned inventor. He believes he has a way to stop speeding. He would fix "puncture boxes" in every block, so that, should a speeder refuse to answer the cop's whistle, said cop could press a button and a row of nails, inserted below the pavement level, would raise up to flatten tires. Frankly, we don't think much of the idea, but worse once have been battered and sold for five cents.

DRY ICE!

INVESTORS—LARGE AND SMALL MEANS—TAKE NOTICE!

For each Dollar invested NOW in this new enterprise—the J. S. BELT Process and INTERESTS—you will receive \$5.00 in Company Stock when incorporated. Therefore, right NOW is the OPPORTUNITY to act—before it is TOO LATE—before the price is raised, \$10.00 minimum and \$5000.00 limit to any one person.

Beyond question, the J. S. BELT process of making DRY ICE—141-2 degrees colder than snow—from natural dry gas is THE outstanding twentieth century wonder in the field of SCIENCE and INVENTION.

From only \$4.00 worth of natural dry gas we make \$100.00 worth of DRY ICE, and at this figure, save the consumer half his present ice bill. The whole WORLD is our market—and not a single competitor. For full particulars, see me.

FOR SALE—A real BARGAIN in a good brick and tile business building, 37x88 feet, 13-inch party-wall built to support second story. This is good property, well located on South CUYLER and priced to SELL to make division of property interests between joint owners. Investigate this—it will stand minute inspection.

FOR RENT—Brick store room, 15x70 feet, suitable for any kind of mercantile business, cafe, barber-shop, etc. Well located on South CUYLER.

If you want to sell your property, be sure to see me, for, remember, list it with me. If you want to buy, I'll make money by making money for YOU, applying to BUYER and SELLER alike. So, let's get acquainted, because mutual friendship and genuine good-will is always helpful to both PERSONS and PURSES; and the more we trade and traffic with one-another the better times will be—for ALL.

DODD'S HATCHERY

PAMPA, TEXAS
115 S. Ballard Phone 9

Mrs. E. B. Guber, Mrs. Sunkel, and Mrs. Robert Shields acted as hostesses with Mrs. C. E. Hutchins in charge of the entertainment. The guests participated in a contest in writing rhymes and various games. Mrs. Hutchins gave a reading. Each of the honorees was presented a gift from the class.

Besides the hostesses and the honored guests, the following were present: Mrs. Fred Galt, Mrs. E. C. Fahy, Mrs. R. A. Webb, Mrs. Harry Marbach, Mrs. Hugh Isobell, Mrs. Alta Stanard, and Mrs. Paul Hill.

Birthday Dinner Honors J. G. Curry

Mrs. J. G. Curry entertained Saturday evening with a dinner party at the Canary Sandwich shop, in observance of her husband's birthday. Members and employees of the Stuckey Construction company and their families were guests.

Red and white carnations in tall bud vases were simple but attractive decorations for the table, where covers were laid for the following: Mr. and Mrs. Earl Stuckey and their daughter, Miss Ruth; Mr. and Mrs. H. C. Mitchell; Mr. and Mrs. Dan Mac Naughton; Mr. and Mrs. William Dee, Mr. and Mrs. Palmer Harrod, Mrs. Grace Higgins, William Wells, and Mr. and Mrs. Curry.

Baptist Girls' Sunday School Class Named

The Baptist Sunday school class of girls between seventeen and twenty years of age completed organization yesterday and named their class the "W. D. W." which means "Week Day Workers." As their motto they took the seventh verse of the ninth chapter of Second Kings: "This day is a day of good tidings." The class song chosen was "Memento Mori." The aim of the organization, as stated in the class record, will be: "To pray, study, and serve daily." The members chose green and gold as their colors.

Mrs. Hawkins is teacher of the class.

of twenty girls, Miss Anna Brown was elected president, and Miss Frankie Altman, secretary-treasurer. Members, officers, and the teacher have extended an invitation to all girls of the city of the ages of W.D.W. members, who are not already members of a Sunday school class to join their group. They expect that fifty members will be enrolled within a short time.

Why buy eggs of uncertain quality cheap when you can get fresh gathered fertile eggs at the Dodd's Hatchery very reasonable. 40 38-6c

CHURCHES

REVIVAL MEETING STARTED

Mud delayed the arrival of both evangelists at the Church of Christ. Evangelist Rice arrived on the Sunday afternoon train and evangelist Taylor drove up just a few minutes before services began in the evening. Brother Merritt preached the morning sermon on the subject, "Prepare to Meet Thy God." The largest audiences ever in attendance were at both services yesterday. Taylor showed himself to be a master singer at the evening services.

Better Summer Radio

Did you know that reception on a MAJESTIC RADIO is good the year around? Call us today for demonstration

ODEN MUSIC SHOPPE

"Service After the Sale" Phone 297
119 W. Foster

Rice preached a masterly sermon on "The Christian Religion." Special features of the services will be no collections, but congregational singing, gospel sermons and a church that will give every man woman and child a 100 per cent welcome to every service.

Day meetings will begin promptly 12:15 and close promptly at 12:30. One song, prayer, short sermon, and benediction. Just thirty minutes—and each one will have time to get back to work without the loss of time and still have time for your lunch.

Evening services begin at 8 p. m. Rice will preach tonight on "The Beginning."

"In the beginning God created the heavens and the earth."
"No one knows when that was, it might have been two million years ago or more. There is no conflict with true science and the Bible here. The beginning of things in each of the six days work of God in first of Genesis will be discussed."

"The beginning of the ages, known as the patriarchal age, the Jewish age, and the Eternal age will be discussed. Following this we will study what is known as the fifteen periods of the Bible showing when each one began and when it closed."

"In conclusion, we will show the beginning of some specific things in the

life of each one who becomes a Christian."

You are all invited to hear this sermon tonight. There is to be no "this Monday" this week.

RICH GIRL & POOR GIRL & RUTH DEWEY GROVES

© 1929 by NEA SERVICE, INC.

MILDRED smiled wanly. She knew that Mr. Judson was not joking, but the position—that had meant so much to her before would mean only heartaches now.

"Goodbye," she said and shook hands with him.

He watched her go, hurrying toward the nearest subway entrance, and there was something about the set of her young shoulders that tugged at his heart.

While Mildred hurried back to her office Pamela was on her way to the jeweler's. She was in high spirits, except when the memory of her recent bereavement intruded itself upon her pleasant reflections of her visit with Stephen.

She had burst in upon him with out warning. In the rather dim light of his cell she could not see the quick ebbing of his color.

With a bound she was in his arms, pulling his head down, showering kisses upon him, crying out how she'd abused her poor dear "Steveo."

To Stephen she was like the sun bursting out from heavy clouds. No wonder. She had spent the best part of two hours after Mildred had left her in her room at the hotel in making herself beautiful with the aroused intention of overwhelming him.

Her maid was at the moment having hysterics in the servants' quarters while a dozen costumes, brought out and discarded, still lay scattered about Pamela's dressing-room.

Stephen's arms tightened about her while his hunger for her satisfied itself with her nervousness. He was emotionally crazed. The power of self-hypnotism he had induced by endless hours of longing for her swayed him uncontrolled.

She was here! She was his! She had come to him! These were all his thoughts. There was no place in his mind then for the memory of his true valuation of her character.

"I hurt my pride so to think of anyone I loved being so full," she told him. "I didn't see how selfish it was of me, Stephen darling, but I couldn't come to you. I couldn't stand this horrible place; I knew I couldn't. But today I realized in a flash that I couldn't live any longer without you—and here I am. Oh, we won't ever part again, will we?"

"My father is going to get you out of here. Then we'll be married quietly and go away for a long while. Perhaps to Africa. I think it would be lovely to fly across the world. Don't you? I mean the high velocity with nothing but the blue sky over our heads. And if there should be a lion when we come down you won't let it eat me will you?"

She was clinging to him, laughing and sobbing.

Stephen's head was in a whirl. "Oh, Pam, Pam," was all he could say in a dazed, helpless sort of way.

"Honey boy," she cooed. "Honey boy."

She was clinging to him, laughing and sobbing.

Stephen's head was in a whirl. "Oh, Pam, Pam," was all he could say in a dazed, helpless sort of way.

"Honey boy," she cooed. "Honey boy."

She was clinging to him, laughing and sobbing.

Stephen's head was in a whirl. "Oh, Pam, Pam," was all he could say in a dazed, helpless sort of way.

"Honey boy," she cooed. "Honey boy."

She was clinging to him, laughing and sobbing.

Stephen's head was in a whirl. "Oh, Pam, Pam," was all he could say in a dazed, helpless sort of way.

"Honey boy," she cooed. "Honey boy."

She was clinging to him, laughing and sobbing.

Shell Nine Is Beaten by Texans

The Tackless Texans of Amarillo outlasted the Shell Petroleum company's nine at Metro park yesterday afternoon winning the opening game of the season, 6 to 3. Sled Allen, oldtimer, was the Shell stumbling block of the afternoon. The veteran got two hits, which scored three runs to decide the game.

Dickey and Edwards, Shell hurlers, held the hard hitting Texans to seven scratch hits but they were bunched to make runs. The Amarillo crew made five errors but were lucky. Nicklaus allowed the oil men only five hits, made by Cahill, Clayton, Guber, and Jones. Cahill hit a two-base ball.

A return game will be played here June 2.

Batteries: Shell, Dickey, Edwards, and Clayton; Texans, Nicklaus and Allen.

New Yorker Now Fighting for Third Place in Derby

MIDLAND, May 20. (P)—Seven more days in Texas faced C. C. Pyle's union derbyites today as they turned their eyes toward Odessa, 22 miles away.

United States athletes were fighting for supremacy all through the first fifteen places today. John Salo, Pascale, N. J., held first place by 21 minutes and 30 seconds, a wider margin than he did before over Pete Gavuzzi, England.

Sam Richman, New York, in fourth place continued his assault on third place held by Gino Unet, Italy.

Houston Loses Too Often—Now in Third Place

By GAYLE TALBOT, JR.

Associated Press Sports Writer.

While you may create good home-town suspense, the Alphonso and Gaston gestures which Houston and Waco have been making do not pay percentage dividends. That is a conclusion to which Houston awoke yesterday after bowing once too often and dropping to third place in the Texas league. The Sports from Shreveport, who had been bad medicine for some time, yesterday downed the league leading Waco Cubs, 3 to 5, to move into second place.

Houston plately lost to Wichita Falls 3 to 4 to maintain her standing as far as Waco is concerned, but the Sports never heard of the theory of relativity and today are a full game ahead of the Buffs and only two games behind Waco.

Farther down the percentage column San Antonio broke Dallas' winning streak of six games by taking the series opener, 5 to 3. The Indians were outlived 11 to 8, but five of their blows were doubles and five of them scored men. It was the fourth defeat Dallas has met in her last four starts against San Antonio.

At Fort Worth the Beaumont Exporters made their position at the bottom of the column a trifle more secure by dropping their game with the Cats, 5 to 0. Jimmy Walkup had one of his auspicious days and in spite of the fact that they had at least 90 opportunities the Exporters hit the ball only three times, and didn't make those add up to anything.

COLUMBIA, Ohio (P)—Wooley Fesle, the unheralded Wooley youth, who became an all-conference end last fall has won three varsity letters in his first year of competition at Ohio State university.

Fesle, a sophomore, has attained distinction in football, basketball and baseball.

The Youngstown boy drew an end position on The Associated Press All-Big Ten football team last fall. He is subject to a mortgage, the structure varies basketball squad and now is starring in the outfield for the school baseball nine.

Pittsburgh, Detroit and a number of other major league clubs are expected to start something hectic bidding soon for Gordon Slade, shortstop of the San Francisco club. He has been recommended to a number of big league teams as the best shortstop in the minors.

IN CONGRESS

By The Associated Press

Monday

House resumes general debate on tariff bill.

Senate continues consideration of census-reapportionment bill.

Senate hears Senator Norris, Republican, Nebraska, on federal trade commission investigation of power company interests in newspapers.

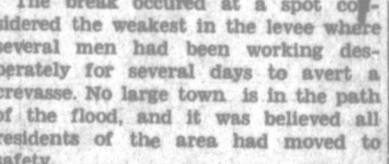

House ways and means committee Republicans consider amendment proposals from colleagues dissatisfied with tariff bill schedules.

Senate manufactures committee hears mill owners on proposal for investigation of textile industry.

MUCH LAND FLOODED

MEMPHIS, Tenn., May 20.—(P)—The St. Francis river levee near Kennett, Mo., gave way today endangering levees and property on approximately 50,000 acres of land.

The break occurred at a spot considered the weakest in the levee where several men had been working desperately for several days to avert a crevasse. No large town is in the path of the flood, and it is believed all residents of the area had moved to safety.

Alabama Couple
Sell Royalty in
Gray Oil Land

Mr. and Mrs. D. J. McLaughlin of Dallas county, Ala., through their representative, Siler Faulkner, local man have sold a 1-32nd royalty in and under the northeast quarter of section 33, block B-2, to Edgar C. Page. The land is situated in the new pool recently opened up between the Bowers-McGee and the LeFors pool.

A 1-16th royalty in and under the same section was sold to the McElroy Oil company.

The amount of the transaction has not been disclosed.

Briggs Is Helping
Plan Meeting of
C. C. Secretaries

George W. Briggs, manager of the Pampa Board of City Development, is in Amarillo today attending a meeting of the entertainment committee of the Panhandle Commercial Executives association. Mr. Briggs is president of the association. It was organized last fall at a meeting of executives in Amarillo.

A program for the next meeting to be held in Borger June 11 will be made out today, Mr. Briggs said this morning.
