EDITOR'S NOTE: Harold Strahan of the Cottonwood Community is once again my guest writer. You are sure to enjoy his humorous fictional story based on some actual facts that he recalls. **Vanda King**

"Miss Emma"
By HAROLD STRAHAN

Miss Emma was a strait-laced Christian Saint with an excellent sense of humor. She was an eighty-five-year-old exuberant and vivacious Christian whose every action and reaction seemed to be dictated by Christ's teachings as stated in the Bible. In her latter years, she felt that every "it" should be crossed and each "i" dotted to absolutely guarantee her eternal salvation. For some unknown reason, to one and all, she became sure that all of her body had not been completely immersed during her first baptism when she was seven years old; and she wanted to be baptized again.

Now then, she could not be dissuaded from her idea that this second baptism was necessary. Everyone was very concerned about Miss Emma's health because it was conspicuously evident that her stooped condition was caused by a bone disease, osteoporosis. Her pleasant and pleasing, incessant request was finally honored but with guarded concern by everyone.

Pastor Lloyd was a square-jawed, well-set man with blue-gray eyes underneath bushy black eyebrows; and he was crowned with a head of milk-white hair. His countenance was that of a fearless warrior for he had a deep booming voice and blazing eyes that could burn a hole in your heart when he spoke of Christ. In his younger days, Pastor Lloyd had been an outstanding college football player, and it, also, was a well-known fact that he was an expert when karate could be used in self-defense.

That Sunday evening of Miss Emma's second baptism was planned to be an extra special service dedicated to her seventy-eight years of Christian life. Not a pew was left unfilled, and the choir was in full attendance sitting in their loft next to the baptistry.

Pastor Lloyd spoke of the continued "light" of Christ that Miss Emma let shine in her long life; and it took him almost forty minutes to highlight some of her more important Christian "works of love." Finally, Pastor Lloyd and Miss Emma met in the middle of the baptistry and all lights were turned off except a spotlight that focused directly and intensely upon the "two." The pastor placed a piece of cloth over the sister's nose and "completely" immersed Miss Emma into the very depths of the water.

Evidently, Pastor Lloyd didn't know Miss Emma wore a wig. So, when that wig came floating to the surface it was only natural that he mistook it for a rat. Rattling the whole church with an "Aieeeee!", and immediately giving the wig a karate chop, which clung to his hand, Pastor Lloyd screamed, "Rat!", and threw it with brute force and, just by chance, it wrapped itself around Mrs. Empson's throat. Mrs. Empson was a sturdy woman, with heart problems, who was standing at the head of the stairway of the baptistry to help Miss Emma after her baptism. Clutching her neck, Mrs. Empson shouted, "Rat!", and fainted before she fell head first into the baptistry, knocking Miss Emma's false teeth out of her mouth and covering the "complete" choir with one huge wave of water.

Standing there in the baptistry without her hair piece and teeth, Miss Emma, knowingly, stammered, "Th-th that wa-wa was a b-b big ra-ra rat!"

The sale of cigarettes or any tobacco product to a person under the age of 18 years is now **ILLEGAL**. The sale or provision of tobacco products to a minor is now prohibited by law and upon conviction, a maximum fine of up to \$200 may be imposed.

The new law became effective September 1, 1989 and is approved by the Texas Board of Health, Texas Department of Health, supported and funded by the Texas Cancer Council.

A parent can no longer send a child into a store to purchase cigarettes or tobacco, and a child can no longer purchase the products for their own use, if under age.

Smoking and chewing addiction may not be so common if the products are not readily available at impressionable ages. The real threat of cancer of the mouth and lungs should be further deterrent.

Burkett Church Of Christ Gospel Meet September 10-13

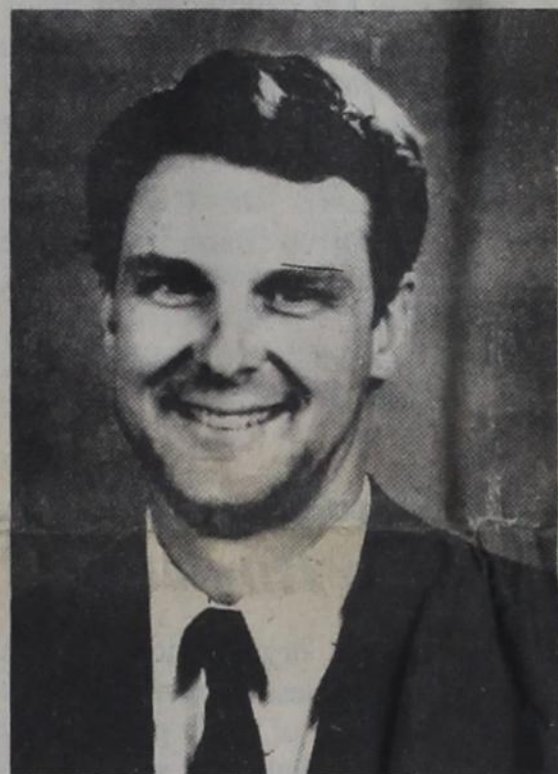

David Wallace, Abilene Christian University professor of Bible and Ministry, will preach in a gospel meeting at the Burkett Church of Christ, September 10-13.

Services will be each evening at 7:30 p.m. The Sunday morning worship at 10:45 will be followed by a fellowship meal at the Burkett Community Building. All guests and members are invited to the dinner.

Wallace served as minister in Cleburne, Midland and Waco before joining the ACU faculty.

Wallace was an all-state running back at Brownwood High School and a 4-year letterman in football at ACU.

Matt Morrison of ACU serves the Burkett church as regular preacher.

3 Brothers Injured In Accident

Monday, September 4, around noon the dirt bike ridden by Trey Fortune 14, Jody Fortune 9, and Seth Fortune 5 ran into the side of a vehicle traveling east near their home west of Cross Plains.

Help Keep Fire Station Emergency Line Available

The Cross Plains Volunteer Fire Department would like the public to be aware that the number 725-6234 is for fire emergencies **ONLY!!!** This number is strictly for informing the department of a threatening situation.

If you would like to know where a fire is or information concerning a fire, please use the non-emergency number 725-6371.

If you are using the 725-6234 number for anything other than to report a fire, you may be tying up the line when someone needs to call in an emergency.

Your cooperation in this matter would be greatly appreciated by the local fire department.

Library Rummage Date Set

The date for the annual Rummage Sale to benefit the Cross Plains Public Library has been set for Friday through Saturday, October 6 and 7, at the Garden Club.

This highly successful project, sponsored by the Friends of the Library, is the primary fund raising event designed to supplement the general operating fund of the local facility.

If you have items to donate to this sale, you may leave them at Arlene's Alteration Shop, First and Main. Arrangements to have larger items picked up may be made by calling 725-6879 anytime.

The Rummage Sale has grown steadily since the first one brought in slightly over \$600 three years ago. Last year found the sale topping \$1,000 — the goal this year is to simply increase that amount.

Two ambulances from the Cross Plains EMS responded to transport the children to Hendrick Medical Center in Abilene. Trey and Seth suffered lacerations and bruises. Jody also had lacerations and his leg was broken in three places. He underwent surgery Monday evening on his leg and to remove his spleen. At last word, he was reported in serious condition. All three remain hospitalized.

They are the sons of Steve and Linda Fortune.

Many EMS personnel assisted with the accident, coming in their personal

vehicles to render aid. Rolan Jones, Justice of the Peace, Deputy Sheriff Don Childress, and Highway Patrolmen, Don Gosnell and Jim Cook were also on hand.

Survivors include his wife, Jettie Werner Gilmore of Clyde; a son, Ricky Gilmore of Clyde; two daughters, Sharon Barnes of Clyde and Karon Dickie of Abilene; and six grandchildren.

SSI May Be Able To Help Homeless

Groups and organizations which work with homeless people should be aware that some of these people may qualify for supplemental security income (SSI) payments, Glyn Hammons, Social Security manager in Abilene, said today.

Because SSI payments are made to people with little income and few resources, who are age 65 and over, or blind, or disabled, a homeless person may have a good chance of qualifying, Hammons said. The fact that a person is without a permanent residence indicates the likelihood that the income and resource requirements of the program will be met.

Likewise, more than half of the people who receive SSI are disabled from a physical disability which interferes with their ability to work.

Because of the difficulty of reaching people who do not have a permanent residence, Social Security relies on groups which serve the needs of the homeless to refer them to apply for SSI benefits.

To find out some about SSI, organizations or individuals should call Social Security, Hammons said. The Abilene Social Security office is located at 142 S. Pioneer. The office is open 9-4:30. The telephone number is 698-1360. Those living outside of Abilene can call toll free 1-800-234-5772.

Rowden News

By MRS. N.V. GIBBS

We hope this dry, hot weather will change soon. Lightning was seen in the west last night, but clouds did not come over this area. One day this past week this writer heard geese on their journey south. They could not be located after going outside the house.

B.J. Anderson of Rising Star was by the Lizzie Burks and Emma Johnson home during the week, with a cantaloupe for their meal. Their other visitor was a nurse, Betty McDonald, from the Conceptive Care in Abilene.

Visitors over the weekend in the Bob Dye home were her mother, Anna Denny of Mason, and Julie and Bryan Patterson and son, Justin of Copperas Cove.

Robert and Dorothy Watson and sons, Wyatt and Cody, attended the football scrimmage in Baird Friday night. Dorothy also reported other news happening on their place. A fire at the northeast corner of their place and also on the Cook land on Wednesday afternoon. The Baird fire department was out. The landowners feel that someone threw out a lighted cigarette. All need to be careful about smoking and especially doing so under these dry circumstances. Dorothy also met up with a full grown rattlesnake in their hen house — but she was calm enough to shoot the snake, but in her mind she sees snakes when going in the building.

Ellen and John Carpenter and son, Dalton of Azle, spent the weekend with her parents, James and Dorothy Reynolds. On Wednesday Dorothy accompanied her cousin, Dori Carrico of Baird to Balmorhea to attend the funeral of their cousin, Frankie Kingston. They stayed overnight at Carley Lethco's in Alpine.

Claribel Gibbs visited Truitt and Lillian Hollingshead in Abilene Tuesday. She also visited Sterling Odom in the Anson Road Place II Nursing Home.

Vernie Belle Mauldin was found busy Saturday morning working on a beautiful wedding ring quilt. She was cutting out the solid color pieces before starting to piece the many printed pieces already cut out. This is for a member of her family. She is fast

at this work, so it will soon be finished. Their daughter-in-law, Faye Mauldin of Denton Valley, had been over to visit one day, but otherwise no company had been there.

Visitors of Lizzie Burks and Emma Johnson Saturday were relatives from Pine Bluff, Arkansas: Oscar and Bessie Burks. They have moved to Potosi where Oscar can get treatment for his arthritis at the Rehab Center in Abilene. Their daughter and family, Mark and Jan Romine of Arkansas and their young son, Miles, visited this weekend.

Peanuts are one of the six basic U.S. farm crops. Their value is placed at more than \$400 million.

James Ross Celebrates 6th Birthday August 26

James Ross was honored with a party at his home on Saturday, August 26, on the occasion of his sixth birthday, which was August 30.

Cake and lemonade were served, presents opened, and a pinata filled with candy was broken open and enjoyed by the following local children: Byron McNutt, Rusty Combs, Shena and Russell Thomas, Ryan and Amy Hale, Joseph and Amanda Dillard, and

Tony, Nikki, and Ashley Beggs. Mothers attending were Karen Combs, Roxie Thomas, Olinda Hale, Barbara Dillard, and Edith Beggs.

Family and relatives present to help celebrate were Charlie, Beverly, and Karen Ross, Roy Tatom, R.N. and Ellowayne Tatom, Mabel Ross of San Antonio, John Ross of Sugar Land, David and Jaime Ross of Austin, and Steven Ross of Abilene.

Texans, Japanese Meet In Tokyo

Texas and Japanese business leaders will be talking about agriculture and twin plants on the Mexican border at the 16th Japan-Texas Conference in Tokyo on October 17-20. The topics are timely with Japan expected to liberalize beef import standards by 1991 and 15 twin plants or maquiladoras already in operation.

The Texas Chamber of Commerce, the state's business organization, is serving as secretariat of the conference for the second year, along with the Japanese group. Larry Milner, President and Chief Executive Officer of the Chamber, said that a strong push is under way to recruit 80 top level Texas business executives for the trip to Japan. "We were pleased with the Texas delegation last year at the conference sessions in Austin and San Antonio and we hope to have another strong group this year," Milner said.

"We are trying to match Texas business leaders with people from the same level in the Japanese business community," Milner added. He pointed out that the Japanese delegation has usually included many senior corporate executives.

Other topics on the 1989 agenda are investments, technology, education and industry. Education ties in with the Texas Chamber's new emphasis on improvements in the Texas public education system and Texas A&M University's plans to open a campus in Koriyama, Japan in the near future. Texas growing importance in technology coupled with Japan's prominence in the field make that subject a natural. Investments and industry are perennial topics at the conferences.

Prior to the conference, the state government's Department of Commerce will open its own Japanese office in Tokyo, a project that was announced at last year's Texas-Japan Conference in Austin. Bill Luttrell, who is expected to head the office, has operated a privately funded state office from office space in the Tandy Corporation's Tokyo office. There is also a possibility that a second Pacific Rim office, in Taipei, will be opened the day after the Japan-Texas Conference.

Additional information of the Japan-Texas Conference is available from the Texas Chamber of Commerce in Austin. Deadline for registration is August 31.

these lighting tips.**

- ☐ When possible, move your light source around until you eliminate any shadows or glare to make it easier on your eyes.
- ☐ Look for a light source with soft, even illumination so the brightness is balanced down, out, and up.
- ☐ When buying bulbs, remember that the lumen rating tells you the light output of the bulb. The watts are how much electricity is needed to produce the light output. And bulb life is the estimated number of hours the bulb will burn.

Pictures, Pictures, And More Pictures

At the beginning of every year there are always several pictures that are taken. Last Wednesday, August 30, Miller Studio from Stephenville took Varsity and JV football, band, and cheerleader pictures.

On Tuesday, September 5, the Seniors had their Senior pictures taken, as did the junior high and cheerleaders.

The regular student school pictures are scheduled to be taken Tuesday, September 26. Additional information on those pictures will be sent home the week before the picture day. After that, the class officers and favorite pictures will be taken Tuesday, October 3, along with junior high football.

Chapter I Public Speaking

The Chapter I Program of Cross Plains I.S.D. will hold its annual parent meeting Monday, September 11, 1989 from 4:30-5:30.

You are invited to come at any time during this hour to visit the Chapter I teachers and facilities.

An explanation of the funding, program, and activities of Chapter I will be discussed from 5-5:30.

Anyone who is interested in Chapter I or who has children participating in this program is welcome.

Hawley here at home. A scrimmage does not have four quarters, but rather a set number of plays for each team's offense, which is established by the coaches.

Our first scrimmage was on August 24. Our opponent was Dublin, a AA school. The quarterback for the Junior Varsity scrimmage was Brandon Smith, a freshman. There were no scores made by either team in this scrimmage. Coach Coker's reaction to the Junior Varsity game was, "Defense played well. Offense was good at times, but needs more playing time."

The quarterback for the Varsity scrimmage was Deron Duffey, a senior. The score was 3 to 0, Dublin's favor. Coach Coker's reaction to the Varsity game was, "The coaching staff feels that the defense must improve to stop the sweep plays. On offense the Buffaloes move the ball well on the ground. They need to improve their passing game."

Our second scrimmage was on August 31. Our opponent was Hawley, also a AA school. The quarterback for the Junior Varsity scrimmage was Brandon Smith. The score was 1 to 0, Hawley's favor. Coach Coker's reaction to the Junior Varsity game was, "The J.V. played better and showed some improvement. The offense moved the ball well at times. The defense played well, giving up one score."

The quarterback for the Varsity scrimmage was Deron Duffey. The score was 2 to 1, Hawley's favor. Cody Odom scored the point with a 2-yard run. Coach Coker's reaction to the Varsity game was, "The defense is still having problems on the sweep plays, but much improvement was seen from last week. The offense moved the ball very good, scoring one time and having a good drive on their other possessions. Jody Brown and Cody Odom both ran tough and looked very impressive."

'Create A Commercial' Contest Sponsored By Highway Department

The State Department of Highways and Public Transportation is sponsoring a Contest for all area seventh and eighth graders. This contest, "Create a Commercial," is designed to help students get involved with the "Spread the Word — Not the Waste" part of the "Don't Mess With Texas" campaign. If your children are in the seventh or eighth grade and they have an idea for a "Don't Mess With Texas" commercial, encourage them to enter the "Create a Commercial" Contest.

State winners will have their award winning idea turned into a commercial to be aired on TV or radio. Other prizes being worked on at this time include: being a part of the making of their commercial, a trip to Sea World of Texas, trip to Austin, cameras, posters, etc. Contest rules and information has been sent to the Middle School Principals. If your child is interested, please have them contact their school principal.

Contel Customers Pay Lower Telephone Rates

DALLAS — Contel residential customers in Texas pay less for basic service than most customers across the nation, according to a study by the Federal Communications Commission (FCC).

The FCC study compared basic monthly residential telephone rates in 95 cities. The rates ranged from a low of \$6.60 in Fort Dodge, Iowa to a high of \$23.30 in Huntington, West Virginia. Nationally, the average monthly rate for basic residential local service is \$12.19.

The rates of six Texas cities were in the bottom third among the 95 cities surveyed:

*Houston ranked 57th with a rate of \$11.05 per month.
 *Dallas ranked 67th with a rate of \$10.40 per month.

*Fort Worth and San Antonio tied for 69th with rates of \$9.85.

*Corpus Christi ranked 78th with a rate of \$9.10.

*Brownsville ranked 81st with a rate of \$8.80.

Rates quoted on the FCC study include only rotary dial, unlimited calling and one-party basic service. The monthly rates do not reflect state and local taxes, long distance charges, custom calling or Touchtone.

Although Contel serving areas were not part of the study, the company's rates fell well within the bottom third category and, in most cases, are actually lower than the cities surveyed. Basic rate for residential service in the base rate area for most one-party Contel customers is \$8.10 in Texas.

Contel, a company with \$3 billion in revenue and sales, provides a broad range of telecommunications and information processing products and services through three sectors: Telephone Operations, Federal Systems, and Information Systems.

Contel of Texas, Inc. supplies local phone service to more than 161,000 rural customers across the state.

PERSONALS

Labor Day holiday guests in the home of Mr. and Mrs. Roger Watson were Max and Edith Watson of Houston and Billy and Carol Ann Watson and sons, Kelly and Alan of Richmond.

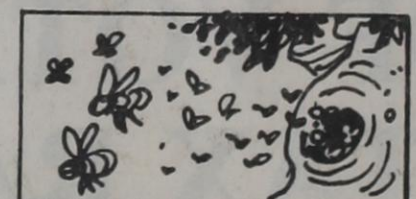

On Saturday, September 2, Kate Watson had a telephone conversation with Lee Ann Dominguez. Lee Ann was on a Labor Day weekend break from Baptist University in Dallas — happy to be in college.

On Sunday, Kate Watson visited after church with her cousin, Lucy Cade and her husband, Marvin Cade, and their granddaughter, Sharon James, who is a nurse and is taking care of her grandparents, the Cades. Lucy has had a very unfortunate seige of sickness lasting almost a year and she still is very weak and ill at home.

On Sunday afternoon, Lois Crist visited Kate. Kate's other visitors were Jimmy and Johnnie Conner of Plains with their little granddaughter, Lana Conner of Dallas.

On Sunday evening, hamburgers and ice cream were enjoyed at the Ray Conner home.

Present were Pat Allen; Bo Emery and Jamie Allen with Shanna, Heather, and Bodie of May; Randy and Jeanna Conner, Ryan, Lana and D'Ann, Carrolton; Jimmy and Johnnie Conner, Plains; Fred Marcus Fleming of Abilene; Sam and Eva Fleming; Ray and Brenda, Calley, Toby and the twins, Jayson and April, and Kate Watson all of Cross Plains.

MINUTE MUSINGS

By ESTHLOY S. DICKSON

It is 10 a.m. Labor Day morning — and I'm dog-tired. I've labored all morning. First, I walked to the highway for the Abilene paper, then I picked up an arm-load of pears off the ground. I wish someone needed these pears — I'm tired of mending with them.

I received a terrific letter from my one son last week. One of the "good news" items: Karen is going to enter the Longview branch of Stephen F. Austin University this month. She will receive her Master's Degree in School Administration, aiming for a higher position later on. Lisa Dawn will enter a new school for her fifth grade this fall. Chesley will start some ballet training soon. "D.J.," not quite a year old, is walking and talking.

C.V. Jr. has been really busy with Winchester Oil Company. He has had to work every Saturday this year.

I talked to Mrs. Norman Lee this morning. I have been missing her. They have finished cutting and baling their hay crop. She has finished canning the garden crops and the last of their pears.

Sally Roady visited on Tuesday with Billie Freeman in Cross Plains. They go to the nursing home to see Ms. Nettie nearly every day. Cindy and Charlie visited them often. Joe and Beverly of the McDaniel community visited them on Sunday. They had Sunday dinner at Regie's Barbecue.

A week ago, our long-time friend, Mildred Hobdy and Dorothy Mitchell visited our Sunday School class and attended the church services. Ms. Jewel Foster had Mildred with her on Sunday night. They ate out and had a wonderful visit together.

J.T. and Betty Beggs, Nell Fleming and the L.W. Mitchell's didn't answer this morning.

One morning recently I opened my front door early, and there on the lawn was a squirrel, a cottontail rabbit and a pair of quail — another morning, add a huge hawk. I've seen that hawk out near the corals several times.

My daughter called this past week. I appreciate her concern for me and my well-being. She urges me to "exercise" — oh, boy! If she only knew how much I exercise!

My good neighbors, David and Sherryl Goble, want to run some cattle in my pasture, and have erected a new fence out there to hold them. They have trimmed trees, shrubs, etc., changed the whole face of things around here.

10 Free Trees

Ten free trees will be given to each person who joins The National Arbor Day Foundation during September, 1989.

The free trees are part of the non-profit Foundation's efforts to encourage tree planting throughout America.

The ten trees are the Sugar Maple, White Flowering Dogwood, Pin Oak, White Pine, Red Maple, Birch, American Redbud, Silver Maple, Red Oak, and Colorado Blue Spruce.

"These trees were selected to provide benefits every season of the year: lovely spring flowers, cool summer shade, spectacular autumn colors, and winter berries and nesting sites for songbirds," John Rosenow, the Foundation's executive director, said.

The trees will be shipped postpaid at the right time for planting between October 15 and December 10 with enclosed planting instructions. The six to twelve inch trees are guaranteed to grow or they will be replaced free of charge.

To become a member of the Foundation and to receive the free trees, send a \$10 membership contribution to TEN TREES, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by September 30, 1989.

We are happy to report Mrs. Cliff Van Der Linden and Mr. H. "Burl" Hughes are home and convalescing after recent heart surgery in the past few weeks.

Mrs. Knox Waggoner received a fracture injury in a fall several weeks ago. Winona is getting around these days with support of crutches and doing a good job.

Russell Van Der Linden of Zeplin, Heim Rhein, West Germany was here during his mother's, Mary Van Der Linden's, heart surgery and for several days following her release from the hospital.

Russell Wheeler of San Antonio and Robbie Wheeler of Tarleton State University in Stephenville were at their parents, Mr. and Mrs. Charles Wheeler during the Labor Day holiday.

Mr. and Mrs. F.D. Schreengost and daughter, Heather of Anchorage, Alaska, are at the home of her parents, Mr. and Mrs. W.F. "Dub" Moore for several days. On Sunday, Patricia and Dud had all their children and families at home: Murtie and F.D. and Heather of Alaska; Jimmie and Mary Moore, Jason and Michael of Caddo Mills; Karen and Dan Starks and Cory Fulks of Lake Dallas and Chris and Tina Fulks and Christopher Raymond of Lubbock.

Welcome home to Mary and Fred St. Peter. They have returned to their place here in Cottonwood. Massachusetts has been their home for over a year.

Mr. P.M. "Red" Duncan returned home August 31 from his stay since July 19 in the Veterans Hospital in Temple. Mr. Duncan had hip surgery followed by therapy sessions.

Weekly Health Tip

MINERALS

Minerals not only give structure to bones and teeth, they are also essential for alert nerve and muscle reaction. Minerals maintain the acid-base balance and fluid-electrolyte balance throughout the body.

Calcium and phosphorus together form calcium-phosphate in the bones, but vitamin D is required to absorb and utilize the calcium. Balance is the key word for overall vitamin-mineral health.

Your better health is our concern.

FORD ANNOUNCES PEACE OF MIND

LIFETIME SERVICE GUARANTEE

NO CASH

The first time you pay for a repair should also be the last.

The Lifetime Service Guarantee means you'll never pay twice for a covered repair — parts or labor — for as long as you own your car.

No ifs, ands or buts.

Only participating Ford and Lincoln-Mercury dealers can offer this kind of Peace of Mind.™ And only Ford, Lincoln, or Mercury owners can get it.

Once your dealer makes a covered repair on your car, he guarantees that if the same repair is needed again, he'll do it free. For as long as you own your vehicle, whether it's new or used.

The Lifetime Service Guarantee covers thousands of repairs. And it's backed by certified technicians and quality Ford Motorcraft parts.

Developed by Ford Motor Company, this limited warranty is another example of the Quality Care programs offered by Ford and Lincoln-Mercury dealers.

Nobody guarantees car repairs longer. Or better. Quite simply, it's America's best car repair guarantee.

Come in and ask for a copy. It's the quality guarantee that can help stamp out your car repair bills forever.

FIRING ON THE SPOT...STILL APPROPRIATE FOR SERIOUS OFFENSES

Dear Commissioner Nabers, Does an employer always have to give a warning before firing someone? If not, under what circumstances can someone be fired on the spot?

—P.Y.
Plano, Tx.

Dear P.Y.: There is no general law that says an employer ever has to give warnings. However, because unemployment insurance law requires that an employer show work connected misconduct on the part of an ex-employee if the ex-employee is to be denied unemployment benefits, it is wise for employers to have some procedure for dealing with and documenting employee problems. Such a procedure will definitely help an employer prove its case for misconduct, but it is strictly up to the company whether to have such a procedure.

The Texas Unemployment Compensation Act does not distinguish between misconduct

COMMISSIONER
Mary Scott

and gross misconduct, but common sense dictates that there are situations which can call for immediate termination. Theft, intentional destruction of company property, intolerable insubordination, use of alcohol or drugs on the job, and criminal activity are some examples. An employer is not expected to keep a thief on the job while giving him a warning not to do it again, but an employer must still prove its allegations if the terminated employee is to be disqualified from receiving benefits. Proving serious charges is sometimes more difficult than proving minor ones, so be sure that you have firsthand evidence of the outrageous behavior.

Dear Commissioner Nabers, What is the current maximum amount of benefits that an unemployed person can get?

—R.W.
Texas City, Tx.

Dear R.W., The current maximum benefit amount is \$210 a week for 26 weeks. As of October 1, 1989, however, the maximum benefit amount will increase to \$217 a week

for 26 weeks. The new minimum benefit amount will be \$35 a week.

Mary Scott Nabers represents all Texas employers. If you have any questions you want answered, please write Commissioner Nabers at: TEXAS BUSINESS TODAY, 614 TEC Building, 15th and Congress, Austin, Tx. 78778.

More Than Half Of Childhood Cancers Are Curable

TEMPLE — Today more than half of childhood cancers are curable. A vast difference from only 30 years ago, when the cure rate was nearly zero. Some childhood cancers can now even be cured in 90 percent of cases.

However, according to Dr. Lawrence Frankel, Chairman of the American Cancer Society's Childhood Cancer Committee, "Even though these statistics show an encouraging improvement since the late 1950s, childhood cancer is still the number one medical cause of death in children under the age of 14 because every year in the United States, 8,000 new cases of cancer are discovered in children."

Dr. Frankel, Director of the Division of Hematology/Oncology in the Department of Pediatrics at Scott and White Memorial Hospital and Clinic in Temple, notes that "since Texas is one of the leading centers in the United States for research into and treatment of childhood cancer, the most important thing for people to understand is that the majority of childhood cancers are curable."

"Parents and others who care for children should not ignore signs of poor health in their children out of fear of detection of cancer," urged Dr. Frankel.

The American Cancer Society has issued the following eight warning signs of childhood cancer:

1. Continued, unexplained weight loss
2. Headaches with vomiting in the morning
3. Increased swelling or persistent pain in bones or joints
4. Lump or mass in the abdomen, neck or elsewhere
5. Development of a whitish appearance in the pupil of the eye
6. Recurrent fevers not due to infections
7. Excessive bruising or bleeding
8. Noticeable paleness or prolonged tiredness

"The signs of cancer in adults are not the same warning signs of children," said Dr. Frankel. "Parents should be aware of cancer warning signs, but not any one of the signs necessarily means that a child has cancer."

"The public needs to be aware that there is help available for children who have cancer and their families through the American Cancer Society and many of the centers which provide treatment throughout Texas and the United States," said Dr. Frankel.

Asked his advice to parents and others who care for children, Dr. Frankel stressed, "Don't ignore any signs of potential health problems in children. They are the future, and with our help, that future can be a healthy one for most of them."

Gardening Tips From Cross Plains Garden Club

(Taken from Lone Star Gardener)

A home's front entry does much to welcome guests. Does it say a warm "welcome," or does it discourage and repel? Entries should be a bit special; stand out from the rest of the landscape. Focus attention by using bright, warm splashes of color, special lighting or textures — anything tastefully that can channel the eye right to the entry.

Plants near an entry should be chosen with care. Consider both height and spread, evergreen or deciduous flowering season and color, fragrance and adaptability to soil and light conditions available.

Avoid plants with thorns, insect potential, bad odors, messy fruits or other bad traits. Many gardeners use potted plants for greater variety. Recessed and shaded areas, shaded entries are a common problem, as often the plants receive only a few hours of sun light. Again, container grown plants come to the rescue. Some plant choices would be azalea, ferns, dwarf holly, caladium, impatiens, coleus, begonia and English ivy.

Walks and steps may be the most prominent part of an entry way garden. Provide a wide entrance for a feeling of spaciousness — at least for two visitors abreast. Slight curving walks with steps of comfortable size.

Effective lighting can add a finishing touch to any entryway landscape. It can be dramatic white lighting or festive colored lights. Lights behind plants present an interesting pattern. You may need an experienced electrician for help on this.

High-quality buttons are perhaps the quickest tip-off about the quality of clothes. Good buttons are bone, leather, pearl or metal.

FACTS & FIGURES

Fifty-four million Americans—nearly 30 percent of the adult population—still smoke cigarettes. In addition to the 360,000 deaths cigarette smoking causes annually, smoking costs the nation over \$65 billion a year in added health care expenses and lost productivity.

Studies show ten to 15 years after a smoker quits, his or her risk of lung cancer is down to normal. One reason why it is so difficult to quit, according to the Surgeon General, is that nicotine is addictive. Fortunately, help is available. A prescription medication can be obtained from your doctor to help overcome nicotine with withdrawal symptoms. The gum is the first prescription drug available in the U.S. for use in smoking cessation programs. Why not join the one and one-half million smokers who quit each year. See your doctor.

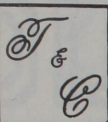

New Law Eases Vehicle Refueling For Disabled Drivers

Beginning September 1, service stations that offer full-service refueling must pump gasoline and diesel for disabled drivers, upon request, at the self-service price. Stations that have only self-service pumps are not affected by the new law, passed during this year's regular legislative session.

To receive refueling service at the self-service price, a driver must display a disabled persons insignia, validation sticker, identification card, or license plates issued by the highway department.

The new law allows Class C misdemeanor charges to be filed against a station manager who does not establish a policy providing refueling service for the disabled driver. Similar charges can be filed against an individual employee who is acting against station policy and refuses to provide this service when requested.

The law will be enforced by the attorney general or a local prosecuting attorney.
