Commission Delays Action On Ordinance

Action on the second reading of Ordinance 488, providing for a new Building Code for Pampa, was postponed today by the City Commission.

In explaining the reason for not taking action, the commissioners said that they were informed by Bob Gordon, city attorney, that changes were required in portions of the ordinance before it could be passed.

The new ordinance will provide for a department within the Public Works Department. This department will be responsible for issuing permits for all construction work in Pampa and will inspect all construction to see that it meets city specifications.

The ordinance will include all specifications for construction and will provide penalties for not complying with the ordinance.

Also discussed by the commission today was the need for a full time plumbing inspector. At the present time one man does all inspection of plumbing and electrical connections.

Jimmy Wilkerson, president of the Associated Plumbing Contractors of Pampa, spoke to the commissioners. He presented a request of the plumbing group for a ful time inspector and for more enforcement of the requirements for permits for new plumbing work.

The commission instructed the city manager and director of public works to make efforts to secure a plumbing inspector so that Red Payne, present plumbing inspector and electrical inspector, could spend full time on electrical inspections.

Late this morning no other action had been taken by the commission.

First Aid Groups Meet Tomorrow

The second lesson of the First Aid classes being taught in Pampa will be held from 9 until 11 a.m. tomorrow.

One class will be held at the Woodrow Wilson school and will be taught by Dan Lewis. Mrs. Wayne Jones will teach a class at the Church of the Brethren and Mrs. Walter Noel will teach her second lesson at the Seventh Day Adventist Church.

There will also be a makeup lesson in every class for those who missed the first lesson.

The First Aid instructors invite anyone interested in First Aid to attend these classes.

Billy Graham On Foreign Policy Needs

DALLAS (UP) — Evangelist Billy Graham said Monday night our foreign policy needs "shaking up" and aimed more at the common people.

Graham, who stopped over in Dallas en route home at Charlotte, N. C., following a 17-country tour of the Caribbean and Central America, said that the United States is failing in propaganda and public relations.

"The Communists campaign like evangelists and they are making real advances down there."

The 39-year-old famed evangelist said more foreign aid must be directed to Latin America.

Feel Neglected

"Americans are unaware of the growth and potential strength of Latin-America and Latin-Americans feel neglected by Washington," he said.

Graham listed Panama, Guatemala and Mexico as the Communists' prime targets.

"In one country—I won't tell you which—the U.S. ambassador told me there was no communism around. An American Legion leader there studying the country told me it was honeycombed with Reds."

Graham said many U.S. ambassadors in Latin-America are operating in a world 50 years ago.

Royalty Days Over

"The day is over for royalty and the 'society' people who are entertained by some ambassadors in all parts of the world I've visited. This is the day of the common people."

U.S. Ambassador to Mexico James Hill recently threw a party for Mexico's labor leaders and is throwing another for cab drivers, Graham said.

"There's an example they should follow," he said.

Graham will make his next crusade in California, starting in April. He will speak in Fort Worth en route to the eight-weeks meeting in California.

FACING THE SITUATION

She's getting a "booster" shot for protection against diptheria at Santiam grade school in Lebanon, Ore. The doctor is Dr. J. W. Guepe.

Administration Won't Try Buying Prosperity

By WILLIAM J. EATON
United Press Staff Correspondent

WASHINGTON (UP) — The administration's legislative and ecomony high command today ruled out attempts to buy prosperity with a federal "spending orgy."

It also said no to anti-recession tax cuts now, banking instead on expections of a business upswing in mid-year and on ecomony-bolstering programs already started.

Senate Republican Leader William F. Knowland said after a White House breakfast meeting that "merely going on a spending orgy is not the solution of our economic problems."

He said a tax cut would not be "advisable, feasible, or wise at this time" because of heavy government obligations and the need to hold the federal debt line.

Meet without President

The administration, Knowland said, feels the economy will pick up by the middle of the year. If it doesn't, the situation will be reviewed before Congress adjourns.

Republican legislative leaders discussed the recession with administration economic leaders over bacon and eggs at a White House conference in President Eisenhower's absence. The President, who usually presides at the weekly legislative meetings, is vacationing in Georgia.

Presidential Assistant Sherman Adams attended today's breakfast, but a White House spokesman said that no one presided. He said it was an informal round-table discussion.

Meeting with Knowland and the other legislative leaders were Treasury Secretary Robert B. Anderson, Commerce Secretary Sinclair Weeks, and Secretary of Labor James P. Mitchell. Also sitting in were William J. Saulnier, chairman of the President's Council of Economic Advisers, and Gabriel Hauge, another of the President's economic aides.

As the Republicans conferred, congressional Democrats were calling for increased federal spending on public works to pull business out of its slump.

Increase Highway Spending

The administration already has proposed a two-billion-dollar post office building program spread over five years. Knowland said anti-recession programs already projected will have a "beneficial chain reaction effect throughout the economy."

Knowland cited stepped up spending on the federal-state highway program and increased defense expenditures in addition to the proposed post office construction program as steps that would benefit the economy.

The GOP leader also said that private housing starts showed an upturn in January and would total 1,100,000 if continued at the January rate.

Weeks reported that $2,100,000,000 will be spent on the highway program in 1958 compared with 750 million dollars spent in 1956.

Knowland said Mitchell reported that unemployment is expected to decline by April, when the figures for March are released by the government. Unemployment was

(See FEDERAL, Page 2)

Burglars Failed To Enter Safe

The burglars who attacked safes in two local businesses over the week end were unsuccessful in entering at least one of the safes.

Jim Conner, chief of police, reported this morning that the safe at Motor Inn Auto Supply, 416 W. Foster, was opened last yesterday by a repairman from Amarillo. Conner stated that the repairman determined that the safe had not been opened by the burglars. Nothing was removed from the firm but three wrist watches and an electric shaver, taken from the desk of Crawford Atkinson.

It is not known as yet if the burglars were successful in opening the other safe attacked over the week end. As yet the safe, which also had the door shut when the burglary was discovered at Scott Oil Co., 400 E. Tyng, has not been opened. Conner said that plans call for a repairman to work on the safe tomorrow.

Local officers are still investigating evidence left at the scene of the two burglaries.

Three Are Held In Plot Against Cuba

HOUSTON (UP)— Three men, including a former Cuban Army sergeant who said he has been living in Miami, Fla., for the past year, were held today on charges in connection with a reported plot to invade Cuba and overthrow the government.

Hearing for the men was scheduled at 2:30 p.m. before U.S. Commissioner Ralph L. Fowler. The men were charged with violation of the national firearms act.

The trio included Pedro Luis Chaviano Reyes, 44, who said he was a former Cuban Army sergeant and had lived in Miami the past year.

Also charged were Silverio Villamia, 34, who said he was a tool and die maker in Miami, and Francisco Obregon, 38, who said he was a Miami television repairman.

A fourth man arrested Monday in a crackdown by federal and local authorities at nearby Pasadena was Angel Banos, 23, who said he had been a waiter in a Miami hotel. However, he was released after questioning.

Chaviano was among eight men who were indicted Feb. 13 by a federal grand jury in New York on charges of conspiring to transport arms in a military expedition against Cuba, in violation of United States' neutrality.

Authorities declined to comment on whether they found a reported cache of weapons and ammunition, although the charges filed against the three men appeared to indicate that they did.

Egypt, Sudan In Land Area Dispute

By WILLIAM J. FOX
United Press Staff Correspondent

Egypt and the Sudan rushed troops, political commissars and armed police to a disputed border area today in a new Middle East incident denounced by the British press as a "land grab" by Egyptian President Gamal Abdel Nasser.

A statement issued in Khartoum, capital of the 2-year-old Sudanese republic, accused Egypt of trying to bring the mineral-rich border areas into the new Syrian-Egyptian Republic and settle by force Egypt's claim to a larger share of the waters of the Nile.

A communique issued today in Cairo said Sudanese forces had moved into an Egyptian border area in "flagrant violation" of an 1899 treaty and of Egyptian sovereignty. It asked for a peaceful settlement, called for withdrawal of the troops and denied Sudanese charges Egypt wanted the valuable mineral resources.

Rival elections on both sides of the border brought to a fiery head the long-standing border dispute. Sudan is holding general elections on Feb. 27. Egypt is holding a plebiscite Feb. 21 on setting up the United Arab Republic with Syria.

The dispute was so serious Sudanese Premier Abdullah Khalil dispatched Foreign Minister Mohammed Mahgoub to Cairo, 1,000 miles away, today to try to reach a settlement. Khalil tried to reach Nasser by telephone Monday but was told he was busy.

The Khartoum dispatch said so far there had been no fighting in the disputed area.

The Sundan, whose 5,000-man armed force is no match for Egypt's Communist-equipped armies, announced it was taking "security precautions" in the border area.

The British Foreign Office withheld comment but diplomatic sources said the sudden crisis foreshadowed "empire building" as an outstanding feature of the newly created Syro-Egyptian federation.

The British Press, mindful of Britain's remaining interests in the Sundan, said Nasser was out to "grab" all Sudanese territory north of the 22nd Parallel in defiance of frontier agreements. Some newspapers said Egypt was trying to "occupy" the areas.

Rebels Fight In Effort To Escape

HAVANA Cuba (UP) — Cuban rebel leader Fidel Castro and a large segment of his forces were reported battling desperately today to escape an army encirclement after three days of continuous fighting in the foothills of the Sierra Maestra.

The reports came from provincial correspondents who said at least 16 persons had been killed since Saturday in heavy fighting near the town of Bayamo in Oriente province.

The dead included 14 rebels and two government soldiers, the reports said. An army communique had confirmed 11 of the fatalities. Unconfirmed reports said there were many injured on both sides.

Witnesses reported a strong army column led by armored cars was trying to encircle the rebel forces, which were attempting to retire to the safety of the mountain tops.

The army also was reported using B26 medium bombers against the rebels.

Correspondents in Bayama said lumber mill owners in the area reported continuous gunfire all day Monday in the vicinity of La Bayamese Peake, the second highest mountain in the Sierra Maestra range which has been the rebel hideout.

Mardi Gras Celebration In Climax

NEW ORLEANS (UP) —A 10-day carnival celebration burst into a Mardi Gras climax today despite effects of the coldest carnival season since the turn of the century.

Seven parades and two grand balls were scheduled today in the Crescent City and masking was the order of the day. Forecasters called for cloudy skies with a few showers and temperatures in the mid 30's.

Rex—king of carnival and Mardi Gras—ruled the city, and nearly a million people responded with shouts that will not die down until the toll of midnight, when Ash Wednesday ushers in a season of sobriety—Lent.

Rex in real life is Joseph Merrick Jones, a New Orleans civic and business leader. Miss Augusta Ainslie Dinwiddie rules beside him as queen.

Begins at Noon

Rex's claim on the city as his domain begins shortly before noon. But not before the King of Zulu invades the city from the Mississippi River for one of the zaniest parades anywhere.

Alonza Butler, a Negro waiter, debarks from a Mississippi River barge to lead some 500 Zulus in a

Korean Communists Reject UN Demand

PANMUNJOM, Korea (UP)— Communist North Korea today rejected a United Nations demand for return of a hijacked South Korean airliner. It seemed certain the Reds planned to use the 34 persons aboard as blackmail for recognition of the Red regime.

Two Americans and two Germans were aboard the plane which disappeared into North Korea Sunday.

The Republic of Korea Red Cross cabled the International Red Cross in Geneva asking help in effecting return of the plane's 34 occupants after the Communists rejected the U.N. demand.

U.S. Navy Capt. George W. Kehl of Kittery Point, Maine, presented the U.N. Command demand for return of the plane at a meeting of the joint U.N.-Communist Secretariat here in the neutral zone dividing the two segments of Korea.

North Korean Col. Kim Choon Kyung bluntly rejected it.

Kim claimed the two-engined Dc-3 of the Korean National Airlines entered North Korea "voluntarily" in a righteous action to escape the war policy of the American imperialists and the puppet Syngman Rhee clique."

Therefore, he said, return of the aircraft was not a matter for the military armistice commission to discuss and it should be taken care of in "direct" negotiations between the South and North Korean governments.

North Korea has tried unsuccessfully for years to promote direct contact between the North and South governments. South Korea's President Rhee has stonily refused to recognize either the armistice or the Communist "illegal puppet government in Pyongyang."

The missing plane was piloted by Willis P. Hobbs, 36, of Vallejo, Calif. It's co-pilot was Lt. Col. Howard W. McClellan of Buchanan, Mich., an Air Force officer aboard to get in some flying time.

The plane landed at an airstrip about 25 miles north of the North Korean capital after by-passing its destination at Seoul and crossing the demilitarized zone.

Kim refused even to accept a U.N. command list of the passengers and cargo aboard the plane.

Businessmen Leave For Clinic

Three Pampa businessmen left this morning for Denver, Colorado to attend a National Affairs Clinic being held Wednesday at the Cosmopolitan Hotel, sponsored by the United States Chamber of Commerce.

Included in the party are E. L. Henderson, President of the Pampa Chamber of Commerce, Mack Hiatt, Chairman of the National Affairs Committee, and Chamber Manager E. O. Wedgeworth.

United States Chamber of Commerce President Philip M. Talbot will head a team of experts in the field of National Affairs including Clarence R. Miles, Manager of the Legislative Department, U. S. Chamber of Commerce, Dr. Emerson P. Schmidt, Director of Economic Research of the U.S. Chamber, and the distinguished writer Felix Morley who will handle questions dealing with the background of legislative issues.

Eight of these regional clinics are being held throughout the United States and are designed to bring information on the national level to local communities and to get the thinking of Mr. Average Businessman.

The group will return to Pampa on Thursday, February 20.

Independents Lead 'Oscar' Nominees

HOLLYWOOD (UP)— Independent movie producers scored a 5-0 victory over major studios today in nominations for best picture of 1957 as "Sayonara" ran off with 10 nominees in the 30th annual Academy Award competition.

The four other contenders announced Monday were "Peyton Place," "The Bridge on the River Kwai," "Witness for the Prosecution" and "12 Angry Men". All were produced by independent film magnates.

Glamour girls contending for best actress honors March 26, award night, will be Deborah Kerr for her performance in "Heaven Knows, Mr. Allison;" Elizabeth Taylor, "Raintree County;" Lana Turner, "Peyton Place;" Joanne Woodward, "Three Faces of Eve;" and Anna Magnani in "Wild is the Wind."

Best actor nominees were Marlon Brando in "Sayonara;" Anthony Franciosa, "A Hatful of Rain;" Alec Guinness, "The Bridge on the River Kwai;" Charles Laughton, "Witness for the Prosecution;" and Anthony Quinn in "Wild Is the Wind."

Probe Of FCC By House Continues

WASHINGTON (UP)— A House investigator said today Col. Gordon Moore, a relative of Mrs. Mamie Eisenhower, should "come forward" if he can throw any light on charges federal regulatory decisions were "influenced" by the White House.

Chairman Oren Harris (D-Ark.) of the House subcommittee on Legislative Oversight today continued its investigation of charges a "White House clique" applied improper pressure in some cases before the Federal Communications Commission and other agencies.

UP for public questioning today were Coral Gables, Fla., attorney Thurman A. Whiteside and three other Florida men concerned with the controversial award of Miami's television Channel 10 to a subsidiary of National Airlines.

Whiteside Called "Fixer"

Former subcommittee counsel Dr. Bernard Schwartz identified Whiteside as a "fixer" for National Airlines who gave $2,650 to FCC Commissioner Richard A. Mack after Mack allegedly "pledged" his vote for National.

Labor Secretary James P. Mitchell was reported ready to urge a modest job-creating program at a White House breakfast of GOP congressional leaders and top administration economic officials. The program apparently would be on top of the two billion dollar post office construction program already advanced by President Eisenhower.

Long Time for Changes

In the next 10 years of the cold war, an authority on Soviet education said, America will have to fight with "the brains we already have." Alexander G. Korol of the Massachusetts Institute of Technology, in testimony prepared for the Senate Foreign Relations Committee, said changes contemplated in the U.S. educational system would take some time.

"We face the immediate problem of using more effectively our present — and abundantly superior — resources of talent in the interest of ourselves and the free world."

Assistant Senate Democratic Leader Mike Mansfield and other Democrats endorsed President Eisenhower's strong stand in his latest note to Russia. Mansfield seconded the administration's stand for preliminary negotiations to a heads-of-state meeting with Rus-

(See PROBE Page 2)

The Janitor Was A Lady!

MORRISTOWN, N.J. (UP) — Death Monday ended the masquerade of Louis Wolf, a night watchman who for 20 years had been known as a pipe or cigar-smoking "regular fellow" who enjoyed a drink with the boys at a tavern when not on duty.

Wolf, 78, was found dead Monday beside the boilers he had tended in a building now occupied by the Morristown Plumbing Supply Co. He had lived for at least two decades in an adjoining 8 by 12 foot basement room.

Wolf, who had no known relatives, was well known to company employes, friends and the policeman on the beat as a slightly eccentric but "regular guy," quite small, who spoke in a rather high voice, walked with a stoop, and frequently joined patrons of a nearby bar. Papers and bank accounts left by Wolf all were in the name of "Louis Wolf."

But the undertaking firm of Lanterman and Hughson announced after a postmortem, which showed death was from natural causes, that Wolf should have been named Louisa.

Though none had suspected it, they said, the janitor was a woman.

Civil Case Trial To Start

The only civil case, of 18 cases on the docket this week in the 31st District Court in Gray County, set for trial will be heard beginning at 10 tomorrow morning.

Three other cases may be tried later in the week, but attorneys report there is a possibility that the cases will be settled out of court.

Of the remaining cases, two cases were reset for trial at a later date, one case was passed by the court and the remaining cases have been settled out of court, according to Helen Sprinkle, district clerk.

The trial of Eugene 'Possum' Grice, Pampa, who is charged with the murder of Matiga Washington, is scheduled to begin in District Court next Monday. Bill Waters, district attorney, said today that the case is ready for trial at that time.

'Autograph Party' Is Slated Friday

Authors of "The Rawhide Tree", Mrs. C. C. Wilson of Wheeler and Mrs. C. E. Terry of Skellytown and the heroine of the book, Mrs. Florence "Grandma" Reynolds, will be guests of honor at an Autograph Party to be given on Friday afternoon at 2 p.m. in the home of Mr. and Mrs. E. E. Groninger, 2101 Chestnut.

"The Rawhide Tree" is the story of Grandma Reynolds early days working rodeos and as rodeo queen. The book, illustrated by he cowboy artist, Harold Bugbeen, has reader-interest in this part of the country because of the local people and activites that have been featured.

Mrs. Groninger invites devotees of western-lore to attend the party for the authors and heroine.

If it comes from a hardware store we have it. Lewis Hardware.

Weather Slows Plane Search

NAPLES, Italy (UP) — Poor weather today hampered the five-nation search for a U.S. Air Force transport missing with 16 persons aboard.

The plane disappeared Saturday midnight on its way from Naples to Athens. So far there have been no clues as to what happened to it.

The U.S. aircraft carrier Saratoga was on its way to Naples with all its planes ready to fan out in the search for the C47. About 30 Americans, British, Canadian, Italian and Greek planes resumed their search at dawn today.

World Guessing On Tunisian Question

By WALTER LOGAN
United Press Staff Correspondent

Tunisia kept the world guessing today whether it would press its charges of "aggression" against France in the United Nations Security Council.

Britain, France and the United States feared they had lost their battle to prevent open U.N. discussion of the Tunisian and Algerian crises. They said open debate would wreck Anglo-American efforts to settle the dispute quietly.

But a dispatch from Tunis, quoting well-informed sources, said Tunisia had agreed "in principle" to suspend the debate to allow Britain and the United States to use their good offices in settling their dispute.

Demand Troop Withdrawal

But there was no official announcement, and a Tunisian government official said any statement would have to wait until today's security council meeting at 2 p.m. c.s.t. The report said new instructions would be sent today to the Tunisian ambassador.

It still was not clear whether Tunisia actually would press its charges against France or use them as political leverage to win major concessions from Paris.

Tunisian Ambassador Mongi Slim broadened his country's complaints Monday night to include his government's demand for withdrawal of all French troops and to take in the entire question of the Algerian rebellion.

Hint at Adjournment

But in Tunis official government spokesmen strongly hinted they would adjourn the whole U.N. debate if France would agree to remove its 22,000 troops by March 20, the second anniversary of independence from France.

Tunisian President Habib Bourguiba, backed by world opinion in Tunisia's complaint against the French bombing of Sakiet Sidi Youssef, also had other important leverage—Western fear of opening North Africa to Russia.

Both the United States and Britain were reluctant to let the North African question come up for a general debate for fear Russia would use it to further its own propaganda. This could weaken the whole Western cause in North Africa.

Soviet Aid Offered

Russia already was cashing in on the discord. It sent "relief supplies" to Algerians in Tunisia and has roundly condemned Big Three "colonialism" in broadcasts beamed to the North African peoples. Today it offered Soviet Red Cross aid.

Above all, France opposes world intervention in the Algerian crisis which it regards as a purely domestic problem. Its greatest fear has been "internationalization" of the rebellion and a possible loss of its position in North Africa.

A Paris dispatch today said France even was having second thoughts about taking up the Anglo-American offer of good offices to end the dispute with Tunisia because of the possible threat to its position of dominance in North Africa. It officially accepted the offer Monday.

On The Business Scene

By UNITED PRESS

The Bell System overtook General Motors as the nation's biggest corporate money earner. The system also retained its lead as the biggest investor owned institution. Net income for the system in 1957 rose to $852,904,279 from $777,791,083 in 1956. General Motors earnings slipped to $843,592,435 from $847,396,102. The company looks for "another year of intense competition" in the auto industry this year.

Space age requirements will cause corporations nearly to double their capital spending over the next eight years, Keith Funston, president of the New York Stock Exchange, reported. He predicted corporations will spend an average of 45 billion dollars a year in the eight year period, against actual spending of 27 billion dollars in 1957.

Truckers insisted before Congress that the present "precarious" condition of the railroads was largely of their own making. John R. Turney, Washington attorney and transportation specialist, said the rails could restore their earning power by improving service and attacking the 700-million - dollars - a - year passenger deficit in a "realistic" way.

Steel scrap prices in Chicago declines as much as $2 a ton. That was the first setback since mid-December when scrap quotations started their recent rise on higher broker bids.

Twelve Die In Burning Dwelling

ATLANTA (UP) — Flames touched off by radiant heaters roared swiftly through a two-family dwelling in Atlanta Monday night, killing 11 children and a woman.

The victims were a mother and her four children from one family and seven youngsters from another. Parents of the seven escaped with burns, and a second couple and their five children got out safely.

Shortly after the apartment fire a three-alarm blaze broke out in a three-story building supply and paint store in the heart of Atlanta and it was still raging out of control early today. Firemen said apparently no one was in the structure.

Firemen fought the duplex blaze in weather 11 degrees above zero and were able to save most of the structure. But the fire flashed through so rapidly that the victims apparently did not awaken.

"They never had a chance," said Assistant Fire Chief C.W. Poole. "The fire must have started on the ground floor on one side and they were all asleep upstairs."

Larry Jewel Jones, 29, and his wife, Sarah, 28, were hospitalized with burns. Jones told his wife to flee, then tried to save the children—but flames were so widespread he had to jump for his life.

The dead were the seven Jones children; Jones' sister, Mrs. Mary Ellen Rowe, 31 and her four children. All are Negroes.

Ages of the children ranged from 2 months to 7 years.

Doubt Tax Cut

Some economists have suggested tax cuts to bolster consumer purchasing power and jack up the economy.

But Knowland said he believes a tax cut is "not likely" to be part of the administration's legislative program this year.

Knowland said that if the anticipated upturn does not take place by mid-year, an expanded public works program would have "further consideration." Such programs, he said are always under review by federal agencies.

He said the administration's programs to combat the business slump "will put people to work quicker . . . than other types of programs at this time." He added that "we will have reached the peak of unemployment by mid-year — April, May, or June."

Correction

The story on the amount of bond set for Neal Swain Herd, charged in District Court yesterday morning with driving while intoxicated in yesterday's paper, was in error.

The story in yesterday's edition reported that the bond was 71,500 and should have read $1,500, which was set by Justice of the Peace D. R. Henry.

Scientist Warns Of Russian Advances

CHICAGO (UP) —Dr. Wernher von Braun, chief of Army rocket experts, warned Monday night that within a "few years" Russian scientists could put up a satellite equipped to relay televised reports on military movements.

As it made its circuit around the world, it could report on construction and on naval and Air Force operations, Von Braun told the fourth national military-industrial conference.

The director of the Army Ballistic Missile Agency which launched the U.S. satellite Explorer said at a news conference earlier that the United States could strike a definite target in Russia with a nuclear missile very soon.

And vice-versa, he cautioned, making it clear Russia was in very much "the same position" as the United States.

Such action, however, would do neither country any good in the event of war, Von Braun said.

"What really is needed," he said, "is reliable quantity production and training. This means time."

President Eisenhower's "open skies" proposal for international disarmament has been rendered a purely "academic" problem, since a fact - reporting world-encircling satellite is imminent, he said.

Von Braun reminded his listeners there was no use pretending German brains were responsible for Russia's beating the United States in putting a satellite aloft. Russian scientists did it on their own, he said, and their achievements are considerable.

Other Soviet achievements were possibly in the offing, including "the safe return from orbital flight of a space vehicle," Von Braun said.

Little Rock Schools Expell Girl

LITTLE ROCK, Ark. (UP)— Minnie Jean Brown, one of the "Little Rock Nine" who integrated Central High School under protection of federal paratroopers last fall, has been permanently expelled from school because of troublemaking.

The 16-year-old Negro schoolgirl has been involved in five racial incidents in the school since integration began last September.

Permanent suspension of the girl was recommended to the School Board last week by Sept. Virgil T. Blossom. Blossom himself does not have authority to expel students, only to suspend them. Expulsion is up to the School Board.

Minnie Jean was first suspended Dec. 17 after she poured a bowl of chili on two white students in the school cafeteria. Since that time she has been involved in a kicking incident, had a purse thrown at her, and has been subjected to two soup "baths."

Cold Centers In North East

By UNITED PRESS

Sub-zero winds howled into the snow crippled Northeast today and punched deep into Dixie, piling new hardships on the winter-weary eastern two-thirds of the nation.

Tragedy marched hand-in-hand with the bitterest weather of February's marathon cold wave, claiming a heavy toll in multiple fatality fires and in deaths from exposure, over-exertion and traffic accidents.

At least 141 persons have been killed in the latest blast of wintry weather which began during the weekend. New England counted 32 deaths, and Pennsylvania, Mississippi, New Jersey and Georgia reported 20 victims each.

Flash Fire Kills 12

Among the Georgia victims were 11 children and a mother of four of them who were killed Monday night when a fire blamed on a radiant heater engulfed their two-unit apartment house in Atlanta.

The latest deaths brought to at least 347 the number of fatalities blamed on the weather since a cold wave invaded the Midwest Feb. 6 and began its sweep from the Rockies to the Atlantic.

The storm marooned hundreds of persons in trains and cars stalled by towering snow drifts, isolated scores of rural residents, forced schools and industries to shut down in the Northeast, the Midwest and South, and interfered with the work of Congress.

State of emergency were in effect in snow-paralyzed Springfield, Mass., and Michigan City, Ind., and in fuel-short Huntsville, Ala. Gov. Theodore McKeldin declared a legal holiday today in snow-covered Maryland.

Maryland was buried under a snowfall of up to 19 inches, including a 16-inch blanket at Baltimore, the heaviest in 16 years. In Massachusetts, state officials estimated it would cost one-half million dollars to clear roads.

Government Workers Off

All government workers in Washington, D.C., were given today off in the wake of a 14-inch snowfall, the biggest in 22 years, and near zero temperatures. Corridors were empty in government buildings Monday and less than 100 of the 431 House members showed up.

In Michigan City, hit by a freak 42-inch snowfall, some 70 pieces of snow removal equipment fought to free the city, but ran into the problem of what to do with the snow, already piled into small mountains along the sides of roads.

Fifth Army headquarters in Chicago pressed a helicopter into service late Monday to rescue 21 Boy Scouts and six adult leaders trapped in deep snow near Westville, Ind. The boys had been snowbound since Saturday and ran out of food Monday morning.

Helicopters also were used in Pennsylvania, lashed by its worst snowstorm in 20 years, to remove two boys requiring emergency treatment to hospitals.

Emergency crews rescued 850 boy and girl Scouts marooned Monday by 10-foot drifts in New Jersey, and at least 150 Boy Scouts remained snowbound in mountain encampments in the state. About 1,000 Boy Scouts were stranded by snow in camps in New York State.

Overnight temperatures plunged toward zero for the second straight night in all of the nine Southeastern states except Florida. Atlanta recorded a low of 2 above zero.

Mayor R. B. Searcy of Huntsville declared an emergency in the "Missile City" because the zero weather had drained the natural gas supply. He ordered gas shut off to the city's 9,639 users, most of them homeowners.

Mrs. Kunkel Rites Set

(Special to The News)

McLEAN — Funeral services for Jennie Lenora Kunkel of McLean will be held Wednesday at 2 p.m. in the First Baptist Church of McLean with Rev. Jessie Leonard officiating.

Burial will be in Hillcrest Cemetery with Richerson - Lamb in charge.

Mrs. Kunkel was born on Sept. 28, 1891, in Malaga, N.M., and moved to McLean in 1904. She married Sidney Kunkel in 1912 at McLean and both joined the First Baptist Church in McLean.

Mrs. Kunkel is survived by her husband of McLean; two daughter, Mrs. F. H. Terbual of Groom and Mrs. N. J. Bunch of Sulphar, La.; three sons, G. F. Kunkel of Portland, Calif., B. J. Kunkel of Amarillo and B. L. Kunkel of Dumas; her mother, Mrs. E. L. Minnix of McLean; one sister, Mrs. George Colebank of McLean; three brothers, Carl Carpenter of Sundown, Harold Carpenter of Louisiana, and Rev. D. I. Carpenter of Seeward, Alaska.

There are no border guards along the United States-Canadian border, only customs inspectors.

Police Hold Man For Assaults

AUSTIN, Tex. (UP)— Officers thumbed through an address book containing the names and phone numbers of 61 Texas women today in an attempt to throw more light on the activities of a New Jersey soldier arrested for rape.

The soldier, Stanley Norman Press, has been charged with committing rape and sodomy upon two girls who said he kidnaped them from the sidewalks of Austin. Press is from Atlantic City, N. J., and is stationed at Fort Hood, Tex.

Sheriff T. O. Lang refused to speculate whether the 61 women whose names and addresses were found in Press' book were victims. He said Press will be questioned about a rape of a 12-year-old girl and the murder of a Negro girl.

Insisted On Names

The two victims Press is told officers he insisted in getting their names, addresses and telephone numbers afterward.

Press was arrested after a couple told officers they saw him force an Austin waitress into his car. They took his license number.

The waitress was in Press' car when he was arrested. She told officers Press raped her twice.

The second victim, a secretary in the Texas State Department, said Press forced her into his automobile Saturday, drove her into the country, beat her and made her commit an unnatural sex act.

Find "Girlie" Magazines

Lang said that besides the address book, 15 "girlie" magazines, a nudist publication and five gift boxes of perfume were found in the automobile.

Lang said Press will be questioned about the rape of a 12-year-old girl in Austin Christmas Eve and the mutilation murder of Carrie Mae Syms, a Negro, near Marlin, Tex.

Press refused to talk to reporters. He pulled a blanket over his face in his jail cell and said "I'm sick."

Brother Of Pampan Dies

Mrs. Harold Payne, 943 E. Francis, received word this morning that her brother, C. H. Corothers of Oklahoma City, Okla., died in an Oklahoma City hospital at 9:30 this morning.

Funeral arrangements for Mr. Carothers are pending.

He is also survived by a nephew who lives in Pampa, Ronnie Payne, 711 N. Gray.

Group Attends Convention

William A. Hunt, director of choral music, Pampa High School, left today for the Texas Music Convention in Galveston.

Accompanying Hunt is Winton Rountree, Clo Ann Johnson, Barbara Lunsford, and Linda McDonald. This group will sing in the All-State Choir at the close of the convention and will return home Sunday.

SWINGS HIS BRIDE—Jayne Mansfield's new husband, strong man Mickey Hargitay, swings his bride around the stage during their opening-night performance in Las Vegas. Five hundred persons paid $50 each to witness the opening act which raised $25,000 for the March of Dimes. Jayne has a million-dollar insurance policy with Lloyds of London to protect her in case Mickey loses his grip.

Algerian Conflict 'Internationalizing?'

NEWS OUTLOOK
By UNITED PRESS

United Press correspondents around the world look ahead at the news that will make the headlines.

Backfire

The French cabinet would never admit it, but the Algerian conflict seems on the way to internationalization.

American good offices in the French - Tunisian dispute may end with the establishment of a joint or international police force—the first giant step towards internationalization. The second no less big step could be the planned rebel spring offensive backed up diplomatically by the formation of a nationalist government. Such a government undoubtedly would be recognized by many Afro-Asiatic nations supporting the rebels. Any French cabinet which at present would mention internationalization would be overthrown in a minute. But the Sakiet bombing may have set into motion a proces which the French cannot stop.

Open Door

King Saud of oil - spouting Saudi Arabia is really the key man to the future of the Iraqi-Jordanian merger. He wouldn't join Kings Hussein and Feisal in the union of crowns proclaimed last week — but the 22-year-old cousins have not given up hope. The new constitution leaves the door open for Feisal of Iraq to step down as "senior king" if Saud can be persuaded to join. If he does, well over half of the Middle East's vast oil deposits would be "unified" under one loose but potent federation. As a power bloc it would win a loud voice in the East-West politics—and oil economics.

Space Deterrent

Congressional sources in Washington say the United States plans to study the effects of nuclear explosions in outer space during the Pacific test series starting in April. The plan is to hurl at least two nuclear warheads into space above the atmosphere and detonate them there. The theory is that radiation from the bombs would travel unimpeded in space until they hit a target such as an intercontinental ballastic missile. On striking the target, these radiations would be converted into heat energy which might vaporize the missile.

Chinese Checkers

It will come as no surprise to Far Eastern experts if Red Chinese Premier Chou En-Lai should announce withdrawl of Communist Chinese troops from North Korea even if the United Nations forces remain in the South. The move would be good propaganda — but little more since the troops could be pulled back across the Yalu River where they could re-enter Korea in a few hours. Incidentally, though the Reds keep calling for the withdrawal of U.N. troops, there is some reason to believe they wouldn't be too happy if they did go. The Reds are said to feel the presence of the U.N. troops will keep President Syngman Rhee from ordering an attack on his own.

Big Switch

Look for the Los Angeles Dodgers and the Cleveland Indians to stir up the baseball trading marts once the spring training season opens on a full-scale basis next week. The Dodgers are desperate for a first string catcher to replace the injured Roy Campanella and are looking to Cincinnati for either Ed Bailey or Smokey Burgess. The Redlegs are interested in big Don Newcombe. General Manager Frank Lane insists the Indians must strengthen their infield and he still is looking for a leski,a stradeb ait.
second baseman, offering one of his ace relief pitchers, Ray Narleski, as trade bait.

Oily Medicine

North American Indians found oil seeping up through cracks in the earth and coming out on top of water in springs. They were using it for medicinal purposes when Jesuit missionaries came to Nort America early in the 1600s.

Miniature "Paint"

Certain paintings are called miniatures because they were painted with minium, which is either native cinnabar or red lead. The paint, not the size, was responsible for the name.

Maintains Balance

A vice president is not allowed to vote on measures before the Senate except in case of a tie, because to do so would disturb the principle of state equality. If he were given this right, his home state would have three votes as against two for the other states, because each state is represented by two senators.

Mid-East Situation More Complicated

Foreign News Comment
By CHARLES M. MCANN
United Press Staff Correspondent

Two rival Arab federations have now emerged to complicate the Middle Eastern situation.

First Egypt and Syria proclaimed a United Arab republic, of which President Gamal Abdel Nasser is to be the dictator.

Kings Faisal of Iraq and Hussein of Jordan have retorted by forming an Arab federation which they will rule jointly.

Both moves were hailed by their sponsors as dramatic steps toward Arab unity.

Actually, they appear to be promoting disunity.

The kings of Iraq and Jordan have formed their federation as a defensive move against the ambition of Nasser to make himself the master of the entire Arab world, extending from the Middle East to Morocco on the Mediterranean Sea.

Yemen Will Join

Tiny Yemen is expected to join the Egyptian - Syrian union soon.

The two little states of Kuwait and Bahrein on the Persian Gulf are talking about joining the Iraqi-Jordanian federation.

Just how the two unions could do anything to promote Arab unity, it is difficult to see.

The fact is that there is only one uniting factor in the Arab world. That is bitter enmity toward the state of Israel.

Egypt and Syria started the new situation in the Middle East when they decided to seek arms from Soviet Russia and its satellites.

Naturally, the Arab kings and ruling Sheikhs want no parts of Communism. They also have no desire to risk losing their thrones by permitting Nasser to become the dictator of the Arab countries. And Iraq, Kuwait and Baahrein have rich oil resources to protect.

Foreign Countries Unhappy

An interesting feature of the Egyptian - Syrian and Iraqi-Jordanian federations is that no foreign country, West or East, is very happy over them.

The United States and its allies, and Soviet Russia, all have said that they welcomed the federations.

Actually, it is pretty plain that they are smiling through their diplomatic tears.

The United States fears that Iraq eventually may withdraw from the Middle Eastern Treaty Organization — the Baghdad Pact against Communist aggression — of which it is the only Arab member.

Russia Fears Merger

Russia fears that the Egyptian-Syrian merger may harm, and not help, its interests. For one thing, Nasser has done business with Russia for his own interests. He does not tolerate Communist activity in his own country. He is believed to be worried over the strong pro-Communist trend in Syria, and he may do something about it now.

The Egyptian - Syrian merger is rather an artificial one. The two countries are widely separated by Israel and Jordan. Yemen, which may join, is separated from both by Saudi Arabia.

At least, Iraq and Jordan have a common frontier and both adjoin Saudi Arabia, whose King Saud may decide to hook up with them. King Faisal of Iraq and King Hussein of Jordan are cousins.

How the new situation will work out remains to be seen. At least, Nasser's dream of making himself the big Arab dictator seems to be far from fulfillment.

Court Appoints Attorney For Caril Fugate

LINCOLN, Neb. (UP)—An attorney was appointed Saturday for the 14-year-old girl friend of confessed mass killer Charles Starkweather, 19, and a move was made toward transferring her case to a juvenile court.

Caril Fugate, who is charged with first-degree murder in connection with one of the 11 slayings Starkweather has admitted, faces a March 8 preliminary hearing in District Court unless jurisdiction is changed to juvenile court.

A juvenile court cannot pronounce the death sentence, although it may impose a life term for conviction of murder. The move to transfer the case was made by the University of Nebraska's Legal Aid Bureau.

The bureau, which had sought vainly to find an attorney for Caril, finally applied to District Court requesting appointment of counsel. Judge Harry A. Spencer named John McArthur.

McArthur, 47, an attorney here for the last 23 years, said he had "no hesitancy" in accepting the appointment.

"I'll do my best," he said, adding that he felt an attorney in such a case should "make every effort to assist the accused" or refuse the appointment.

The girl's role in the Starkweather murder rampage remained a mystery. Starkweather contended she was a willing accomplice, but Caril said orally after her capture that she was a hostage.

Chemise Top Silhouette For Young

(Woman's View)
By GAY PAULEY
United Press Women's Editor

NEW YORK (UP) —The chemise reigns today as the number one silhouette for the younger set.

"It's the right shape for kids. Shapeless," said Stanley Love, general sales manager for Joseph Love, Inc., one of the largest manufacturers of girls' wear from tots to early teens.

"They love the chemise," he said. "Kids can wiggle underneath. . .and they were born to wiggle. This is the most important change in children's fashions in the last five years. . .since the long torso came in."

Surprising Development

The children's wear industry seemed astounded at the immediate success of a fashion which mamma also is just getting into.

"Children's fashion trends usually trail a year behind adults," said Mrs. Albert Konheim, president of Connie Sage, Inc., which outfits girls 11 through 13.

Some manufacturers of girls' wear showed the unadulterated, or maybe I should say unbelted, chemise. Others, such as Connie Sage and Yolande Corp. break its severe lines with two-piece effects or actual two-piecers. Sage is shipping belts with its pure chemises, just in case.

Combo Biggest

Yolande said its biggest seller for spring is a combo, with Navy cotton broadcloth skirt, narrow-pleated, with a blue and white overblouse of cotton duck.

"There's hardly such a thing as a waistline anymore," said Love, which has 40 to 50 variations of the chemise.

The chemise is number one, but not the only silhouette around for spring. There are still some dressy nylon, silk and organdy frocks with full skirts and big sashes.

Other trends manufacturers report for spring:

Apricot and turquoise have edged out the pale pinks and blues in many collections.

A departure from the coat and dress combination, replaced by sleeveless dress with pleated skirt and cardigan jacket.

CERTIFIED QUALITY only LONE STAR has it!

IT'S A CRIME!—Yup—there's a crime being committed here. It's a crime against the No. 1 taboo of Western movies—that the hero should never, but NEVER, kiss a gal. Commandment-breakers here are James Garner and Thelma Bryant, in TV's "Maverick," but they've got plenty of company. Heroes in modern Westerns are knocking the movies' traditional 10 commandments all galley-west.

SPECIAL GIFT CERTIFICATE

This Certificate and your present hearing aid, regardless of age, make or condition, entitles to a total cash saving of $250.00 towards the purchase of Acousticon's Twin BINAURAL HEARING Units for both ears. Model A-235.

IF YOU PREFER

1. You can use this certificae to purchase Hearing Unit No. 1 and obtain A Cash Saving of $125.00
2. You can then purchase within 90 days thereafter Hearing Unit No. 2 and obtain an additional saving of $125.00

Making a total Cash Saving of $250.00

For complete information and Free demonstration come to the Monthly Hearing Aid Service at the Adams Hotel, Pampa. Wednesday February 19, from 11 a.m. to 5 p.m.

MARDI GRAS TONIGHT—Putting the finishing touches on the decorations for the annual St. Margaret's Guild Mardi Gras Pancake Supper and Dance to be held tonight in St. Margaret's Episcopal Parish Hall, 727 W. Browning, are left to right, John Mead, Corky Cambern, and Trudy Roraback. Serving of pancakes and coffee, all-you-can-eat-for-a-nominal-fee, will begin at 5 p.m. and continue until 7:30; admission fee is also good for the dance to be held at 8:30 p.m. $1 (adult) and 50c (children) tickets are available at the door. The public is cordially invited to attend. (News Photo)

Rebekahs Plan Bake Goods Sale

Pampa Rebekah Lodge No. 355 met in regular session on Thursday evening in the lodge hall, 210 W. Brown.

Mrs. Hattie Holt, finance chairman, announced that there would be a bake sale in the lobby of the Hughes building on Feb. 21; and, also, a rummage sale on Feb. 21-22 at 321 S. Cuyler.

Mmes. Bonnie Wharton, Eula Thornhill, and Gladys Mayo were in charge of the program. Valentines were given to each member.

The hostesses, Mmes. Mary Dell McNeal, Virginia Beard, Billie Wilson served cake and coffee to the 24 members and two visitors present.

Nominating Committee Elected During B. M. Baker's Founder's Day Meeting

Mrs. R. A. Mack presided at the Feburary meeting of B. M. Baker PTA in the school auditorium.

Article V, Section 2 of the by laws, "Officers and their Election," was read by Ms. J. H. Trotter. A nominating committee, Mmes. J. H. Trotter, B. G. Gordon, and Mr. John Evans, was elected by acclamation.

Mrs. Jack Foster and Mrs. James Lewis were welcomed as visitors by Mrs. Mack.

Mrs. Lewis presented the Founder's Day program. Among the interesting points brought out by Mrs. Lewis was that the Founder's Day gift, which we send to the state office each year is used for extension work for workers, who are sent to the state workshop. "This enables our representatives to bring back information, which enables members to be better informed," she said.

Mrs. Lewis reminded the members that the school lunchroom program as we know it today, had its beginning as a PTA project with mothers bringing hot dishes from their homes each day.

A poem, "Just For Today," was read in closing by Mrs. Lewis.

A cake, decorated with "61", signifying the 61st birthday of the National Congress of Parents and Teachers, was served by Mrs. Roy Jones, Founder's Day chairman and Mrs. Glen Dearborn, hospitality chairman.

Mrs. Evans introduced a new member of the faculty, Mrs. Phoebe Stephenson.

It was announeed that the room count had resulted in a tie with Misses Sibyl Turner, Mary McKamy, Lela Clifford; Mmes. Aubrey Jones, Frank Dial's rooms announced the winners.

Mr. Edna Daughtee was winner of a cake baked by Mrs. Boyd Bennett.

The executive board of the PTA met in the office of John Evans on Tuesday with Mrs. Mack presiding.

Mrs. Trotter, parliamentarian, read a section of the by-laws, reminding members that a nominating committee would be elected at the general meeting.

It was decided to have a Teacher's Appreciaton dinner during Texas Education Week, on Mar. 4.

Those present were Mms. Evan Jones, C. N. Gage, Don Haynes, J. H. Trotter, Elmer Darnell, Boyd Bennett, Glen Dearborn, Roy Jo Warren Jackson, R. A. Mack and John Evans.

Horace Mann Unit Hears Band Music

Horace Mann PTA met on Thursday afternoon in school auditorium.

An executive board meeting was held prior to the general meeting with Mrs. Kenneth McGuire, president, presiding.

The City Council PTA report was given by Mrs. Harry Gordon, representative, who reported that the PTA Spring conference will be held in Shamrock on April 2.

Mrs. T. M. Brooks made a report on the nursery that is held in the music room during the PTA meetings for children 2½ years and older.

Two members from the executive board were elected to the nominating committee for next year. To serve are Mrs. Gordon, chairman, and Mrs. Ott Shewmaker.

Mrs. McGuire presided during the general meeting and introduced Mrs. Charles Thut who gave the devotional, "Great Commandments."

Charles Meech, band director, presented the Hoarce Mann school band, which played several selections.

Three persons were elected from the PTA unit to serve on the nominating committee. They are Mmes. C. S. Cobb, James A. Reeves, and M. K. Griffith.

RUTH MILLETT

"Some day," said a pert and pretty woman's page editor, "I wish you'd write a column on questions women hate to be asked."

"What kind of questions do you mean?" I asked her. And she started me off with:

"For heaven sakes, haven't you had that baby yet?"

"Why do you allow that child to suck his thumb?"

I think I got the idea of what she wanted from her two sample questions. So here goes:

"Why hasn't an attractive woman like you ever married?"

"Haven't you gained a little weight since I saw you last?"

"What color did you hair used to be? (A woman never realizes how gray she is getting until someone asks her that one.)

"Aren't you ready yet?" (This one is invariably asked by a husband whose wife has been interrupted in getting dressed for a party from 15 to 30 times by various demands of the family.)

"Are you going to buy all new furniture for your new house?"

"Did you make this cake from a mix?"

"I never see you any more. Where have you been keeping yourself?" (This seems to imply that you've been out of circulation just because you haven't been going to the same places as the questioner.)

"How does it feel to be a grandmother?" (There's a hint in this question that you should suddenly be feeling old.)

"Aren't you wearing bifocals yet?" (This, of course, implies you are old enough to need them, even if you don't.)

"Aren't you lonely with your children all living so far away?"

"Do you mind if I ask you a very personal question?" (The silent answer to that one is "yes" — but you always feel as if you have to say, "No, go right ahead.")

Pick at least one dress in orange or tangerine for your spring wardrobe and make it a silk print and solid color. Then add shoes in tangerine leather.

A pale pink or mauve chiffon scarf does far more than its price tag would indicate to brighten up a winter coat this time of year.

Missionary Society Of Central Baptist Has Study In Homes Of Members

Central Baptist Women's Missionary Society met recently in the homes of members for a varied program.

MARY NELL GILES

Mrs. Hershel Saunders was hostess to the Giles Circle with Mrs. J. H. Reeves conducting a business meeting. Mrs. Reeves read the prayer calendar. Each member offered prayer for missionaries with birthdays that day.

Mrs. Harold McCleery gave a portion of the mission book, "Look, Look, The Cities."

Mrs. R. C. Brown dismissed the meeting with prayer. Four members were present.

RICHARD LUNSFORD

Mrs. Sam Batteas was hostess to the Lunsford Circle with Mrs. Leon Brown offering the opening prayer.

Mrs. Charley Thomas gave the devotional and read the prayer calendar. Prayer was offered for the missionaries.

Miss Maud Mathis, retired Methodist missionary from Brazil, who is now residing at 275 Robincroft Dr., Robincroft Home for Retired Missionaries, Pasadena, Calif., gave an interesting discussion of her work during her 34 years service in Brazil. Miss Mathis discussed the country, people and their ways, and her affiliation with the church there. She is visiting with her nephew and family, the W. L. Browns.

Two members of the Sara Beth Short Circle, Mrs. Ralph Prock and Mrs. Leon Brown, visited the gan and A. H. Barrick.

circle, Mrs. Charley Thomas, president and Mrs. T. O. Upshaw were also visitors.

Central Baptist Women's Mis- Mrs. George Wing was presented with a pink and blue gift from the circle.

Others present, not already mentioned, were Mmes. A. P. Hollihome of Mrs. Herman Wagley with Mrs. Jim Conner offering the opening prayer.

Mrs. M. O. Burns conducted a short business meeting. Mrs. Charles Broxson gave a portion of the mission study book, "Look, Look, The Cities."

Mrs. Burns dismissed the meeting with prayer. Refreshments were served to the five members present.

It was announced that on Wednesday at 9:45 a.m. the WMS will meet in the church for Bible study taught by Brother T. O. Upshaw.

Women's Activities

Doris Wilson, Editor

PEANUT butter and rolled oats give these cookies their good-anytime flavor. Chocolate wafers go on top right after baking.

COOK'S NOOK

Chocolate Polka Dot Cookies Are A Treat At Any Party

BY GAYNOR MADDOX
NEA Food and Markets Editor

For that pre-Lenten dinner party, or when your youngsters entertain, or the PTA meets at your house, these chocolate polka dots are a treat.

We learned about them in Lincoln, Nebraska. They have a pleasing 1-2-3 taste: peanut butter, rolled oats with nutlike flavor and the chocolate candy wafer that goes on top.

CHOCOLATD POLKA DOTS
(Makes 3½ dozen cookies)

One and one-half cups sifted enriched flour, 1 teaspoon salt, 1 teaspoon soda, ½ cup granulated shortening, soft, ½ cup peanut butsugar, ½ cup brown sugar, ½ cup ter, 1 egg, 1 teaspoon vanilla, 3 tablespoons water, 1½ cups rolled oats (quick or old fashioned, uncooked), 42 chocolate candy wafers.

Sift together flour, salt and soda into bowl. Add sugars, shortening, peanut butter, egg, vanilla and water. Beat until smooth, about 2 minutes. Blend in rolled oats. Shape into 3½ dozen small balls; place on ungreased cookie sheets. Bake in moderate oven (375 degrees F.) 12-15 mirutes. On removing cookies from oven, immediately place one chocolate candy wafer in center of each cookie.

APPLESAUCE DROP COOKIES
(Makes 3 dozen cookies)

One-half cup fat, 1 cup sugar, 1 egg, 1 cup sifed flour, ½ teaspoon baking powder, 1 teaspoon soda, ½ teaspoon salt, 1 teaspoon cinnamon, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ cup seedless raisins, 1 cup quick-cooking rolled oats, 1 cup applesauce.

Cream together fat and sugar; stir in the egg. Sift together flour, baking powder, soada, salt, cinnamon, cloves, nutmeg. Mix in raisins and rolled oats. Add to creamed mixture in three portions alternately with applesauce in two portions. Beat well. Drop dough by teaspoonfuls onto greased baking sheets. Bake at 375 degrees F. (moderate oven) about 15 minutes.

TOMORROW'S DINNER: Fricassee of chicken, steamed rice, buttered snap beans, baking powder biscuits, canned pears, chocolate polka dots, coffee, tea, milk.

Mrs. Huckins Has HD Club Meeting

(Special to The News)

SKELLYTOWN — Skellytown Home Demonstration club met recently in the home of Mrs. Gertrude Huckins. Mrs. Janie Fletcher, Carson County agent, presented a program on "Herbs in your garden and in your kitchen." The THDA creed was read in unison by the members.

Mrs. Cecil Shipley, president, had charge of the business meeting in which Mrs. George Porter was elected to be a representative from the Skellytown club for a THDA delegate.

Coffee, salad and wafers were served to Mmes. Barbara Snodgrass, Garrell Huckins, Clifford Coleman, Leslie McKenney, W. S. Berry, Junior Ellis, Leon Atkins, Pat Rogers, George Porter, Wayne Mathews, R. C. Heaton, Everett Crawford, Shipley, C. C. Hoskins, and Fletcher.

Mrs. Boyett's Music Groups Meet For Musical Ratings, Election Of Officers

(Special to The News)

McLEAN — The Double Sharp Music Club met in Mrs. Boyett's studio recently.

Miss Nancy Dickinson presided during the election of officers for the second part of the year. They are: Janice Saunders, president; Linda Smith, vice president; Shirley Bybee, secretary; Miss Dickinson, assistant secretary; Mrs. Truitt Stewart, reporter.

Miss Elaine Baker played a repertoire of six numbers. Misses Martha Drum, Debra Denise McClellan and Trudy Fultz played three numbers each.

Rating first for the club was Miss Donna Fultz. Miss Sarah Coleman was second and Misses Martina Giesler and Janice Saunders tied for third.

First ratings for January are Elaine Baker, Linda Allen, Sarah Coleman, Beth Dalton, Nancy Dickinson, Martha Drum, Martina Giesler, Debra McClellan, Janice Saunders, Gary Turner, Glenda Turner, Eltorina Roberts, Marilyn Williams, Shirley Bybee, Donna Fultz, Trudy Fultz and Linda Guill.

Second ratings are Sharon Hicks, Joyce Saunders, Linda Smith, Paula Stewart, and Eddie Windom, who played solos. Martina Giesler played an accordion solo.

The hostesses, Mmes. Baker, McClellan and Drum served refreshments of cookies and punch to 52 members and guests, including members of the Musical Dozen Club.

Following the social hour with the Double Sharp Club, the Musical Dozen Club met in regular session in Mrs. Boyett's studio with Betty Dilbeck, vice president, and Sandra Baker, assistant secretary in charge of the meeting.

Sandra Baker was presented in repertoire playing of six memorized selections. Misses Betty Dilbeck, Nancy Jean Hess, Margie Railsback, Laura Mae Switzer, Bobby Jean Turner and Alta June Watson played two numbers each. All took part in piano playing and group singing of "There's Music in the Air," "Long Ago," "Old Folks at Home," "Wonderful Words of Life," and "Battle Hymn of the Republic."

First ratings for January include Misses Sandra Baker, Betty Ruth Dilbeck and Laura Ruth Switzer.

Second ratings are Misses Dixie Jo Burroughs, Judy Glass, Nancy Jean Hess and Bobby Jean Turner.

Mrs. Crawford Is Lodge Valentine

(Special to The News)

SKELLYTOWN—Rebekah lodge met recently in the IOOF hall with Mrs. R. E. McAllister, noble grand, in charge of the meeting. Letters were read from Mrs. Lyle Zmotony, of Pawnee, Okla.; and Mrs. Olga Allan of Tacoma, Wash.

An Obligation Ceremony was held with Mrs. R. S. Marlar giving the obligation.

Mrs. Everett Crawford was declared the Lodge Valentine, and presented a gift, by the noble grand.

Following the next regular meeting, a hillbilly party will be held with Mmes. Johnnie Wyatt, Miles Pearston and Violet Rapp as hostesses.

Present were Mmes. McAllister, Marlar, R. C. Heaton, Clifton Hanna, W. H. McBee, C. C. Hoskins, Crawford, Rapp, Fred Genett, A. W. Shubring, J. H. Wedge, Fred Wall, J. W. Weaver, Roy Sullivan; Mr. and Mrs. C. M. Estes and Miss Addie Fern Lick.

SAFE, FOR NOW—Seated comfortably across the trolley tracks, this snow bear seemingly isn't worried about the possibility of being run over in Kansas City, Mo. Streetcars were discontinued in the city several years ago, so friend bear is in no danger of destruction—at least until the weather warms up.

Movies, Like A Shipwrecked Sailor, Are Going Asiatic

By VERNON SCOTT
United Press Staff Correspondent

HOLLYWOOD (UP) — Movies are going Asiatic like a shipwrecked sailor.

In the past year about 10 pictures have been filmed in the Orient, most of them co-starring a dashing Hollywood hero with a fragile Eastern heroine.

The trend began three years ago with "Love Is a Many-Splendored Thing" when William Holden wooed Jennifer Jones, who was made up to look like a lotus blossom. Since then genuine Japanese actresses have been giving movie-goers the tongue-twisting twitches.

Michi Kobi starred in "Dateline Tokyo," followed by a double header, Myoshi Umeki and Miiko Taka in "Sayonara." There were others in "Hong Kong Incident," "South Pacific," "Stopover Tokyo" and "Bridge on the River Kwai."

Now comes Eiko Ando, a delicate Japanese beauty who plays pattycake with John Wayne in "The Barbarians."

Studies Pronunciation

Transplanted from Tokyo to Hollywood, Eiko (pronounced ay-eek-o) was found in the office of 20th Century-Fox producer Eugene Frenke attempting to improve her English pronunciation.

Both Frenke and Eiko played it straight.

"Now zay it zis vay, but zlower and from zee bottom of zee hott," said Frenke in a Russian accent thicker than borscht.

Eiko bowed her head gracefully and read a line, speaking far more clearly than her instructor. She was embarrassed when Frenke showered her with effusive praise.

"So, vee are improofink all zee time," he said. It was then explained that Eiko was to be interviewed and that she should answer all questions freely.

Was Miss Ando pure Japanese?

Parents Are Japanese

"She is Mongolian, Tartar, Japanese and Russian," Frenke answered before Eiko could reply. "But both her parents are Japanese," he beamed.

Was Miss Ando's beauty typical of other Japanese girls?

"Vomen in Japan are more beautivul zan anywhere elze in zee world," the producer said with authority. "Zoon Western vomen dress like Japanese — picant and elegant." The phrase pleased Franke. He repeated it. "Picant and elegant."

Eiko was asked if she was anxious to become a movie star.

"No," said Frenke, smoothing his thinning hair. "Whan I virst met Eiko I vas nod impressed. But John Huston liked her right avay. Then I was impressed alzo."

What about the United States? Did Eiko like this country?

"Of cawze," Frenke smiled. "She likes everyting about id."

Eiko nodded agreement with each of Frenke's pronouncements. She even managed a few sentences about Japan's post - war growth, its modern buildings and how kind Americans have been during her two-week stay here.

Surnames First

In Chinese, surnames are always written first and that order usually if followed when they are written in English. For example, in Sun Yat-sen, Sun is the surname, while Yat-sen corresponds to the Occidental first, or Christian, names.

Promise Of A Calloused Index Finger

By DOC QUIGG
United Press Staff Correspondent

NEW YORK (UP) —Sometimes it seems that the wave of the future most certainly holds the promise of a human race with a perpetual callous on the index finger. It will be the price we have to pay for a constant privilege, nay necessity—the pushing of buttons.

In my house, right now, you have to push a button to get toothpaste, another to get shaving cream, another to get insecticide, and still another to get pink instant wallpaint.

All these either spray out, foam out, or ooze out when I push the button on the top of their various cans. Since the cans are all the same size and are sitting side by side in a medicine cabinet, a calamitous vista is opened.

Some morning, a certain bleary-eyed someone — namely, me—may stumble into precipitous action and, in a trice: wash out his mouth with shaving soap, dentifrice his whiskers, pink a mosquito on the wing, and exterminate a bathroom chair.

Forges Major Breakthrough

The toothpaste industry broke through into the age of button-push this year, one year behind the automobile industry, which pushed into button-drive in 1957. However, the toothpaste folks are having themselves quite a package this year, trying to doff the tube.

One company introduced toothpaste in a squeeze bottle. Another one decided to stick with the old-fashioned tube but to doll it up so it would exude paste striped pink like peppermint candy, and if they know their business they won't stop there.

Button Top Introduced

They'll go into polka dots. (Whatever happened to Chili Williams?)

The third entrant into what has been called "The 1958 Dentrifrice Derby" — and don't laugh; dentifrice sales hit 160 million dollars last year — introduced the can with the button top which eliminates the squeeze from tooth burnishing, a historic first. It's an aerosol can. The stuff oozes out at a comfortable rate onto the brush.

This marketing race among the toothpaste folks may become so intense that they have to come out with new models every year, longer, lower, gaudier, and more powerful, like the auto people.

If that happens, I'd like to suggest that the canned toothpaste idea could be improved next year by utilizing the now-wasted propulsive power latent in the moving past by installing a small music box under the button and having it tinkle a happy morning tune as the cleanser emerges.

More Comfort Wearing FALSE TEETH
Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

Lefors Holds First Town Hall Meeting

(Special to The News)

LEFORS — The first, in what is hoped to develop into a monthly affair, "Town Hall" meeting of citizens of the Lefors and surrounding community was held in the civic center, Thursday night, Feb. 13, under the sponsorship of the Lefors Volunteer Fire Department.

J. R. Sparkman served as moderator and the following citizens were recognized for their special positions in the community: Mayor Fred Blackwell; Perry Davis, Fire chief; John Archer, asst. Fire chief; W. R. Combs, Justice of the Peace; Mrs. R. H. Barron, city secretary; Paul Blankenburg, Ground Observer Corps head; Arlie Carpenter, county commissioner; Charles Blankenburg, water man; Bob Call, H. L. McCarley, Ted Gustin and Sparkman, councilmen; D. M. Jones, gas man; Coaches Eugene Collingsworth and H. W. Callan; Jerry Jacobs, supt. of schools; B. J. Deihl, tax board chairman; R. E. McDonald, sec. of Fire Dept.; Mrs. Charles Roberts, reporter; Mrs. A M. Dickerson, Home Demonstration Club; Mrs. R. H. Barron, Art and Civic Club; Combs, Boss Lion; and Melvin Jayroe and W. T. Seitz, representatives of the Southwestern Public Service Co.

It was disclosed that school zone signs, limiting speed to 15 mph, are to be set up within the next two weeks at stragetic points to eliminate speeding in the school areas.

A financial report of the Fire Department was made by R. E. McDonald, revealing the purchase of two new nozzles and extra hose.

The citizens were reminded that one blast of the fire siren indicates a fire; two blasts indicates a training session; and three blasts means a tornado or disaster.

Sgt. G. W. Brazil, who was scheduled to address the audience on the Ground Observer Corps, was unable to attend; however, a lenghty discussion was held on the subject as to the building on top of the tower, repair of tower, and volunteers to man the tower. The women were reminded that a supply of clean towels and washrags are very necessary items in case of tornados or emergencies and were urged to get and keep a supply in one designated place.

A demonstration of the resucitator was given by Perry Davis and John Archer. The machine can aid and is available for use in case of heart attack, electric shock, smoke, drowning, car accidents, gas poisoning, asthma attacks, etc. If the resucitator is needed by any person it can be had by calling the fire department just as in reporting a fire.

The subjects of getting a deputy sheriff, proposed highways, Southwestern public service, and gas and water rates were also mentioned.

The next meeting is scheduled for March 6, under the sponsorship of the Lions Club, at which an insurance agent will be present and also a quartet is to entertain from McLean.

Approximately forty persons were present for the meeting.

Coffee was served by the Fire Department.

Real name of Melba, the famous opera singer, was Helen Porter Mitchell.

NAME YOUR BRAND—Well branded is this telephone booth in Tucumcari, N.M. What appears to be "Greek" lettering on the glass of the booth is in reality the cattle brands in use throughout the area. Two Tax Factors

Some clear thought is urgently needed in respect to taxes. There are two factors to the present tax picture, both as it affects us locally and nationally that must be understood.

The first, and perhaps the most urgent item to come under our attention is this: With what appears to be a general turn down in business activity, tax rates, which are, in the main, percentage rates relating to total nets, will result in fewer tax dollars for the government than these same rates have provided in the past.

Thus, if the government is going to obtain as much money as its present budget calls for, present tax rates in all probability won't do the job. However, if the government raises the tax rates beyond their present outrageously high levels, widescale bankruptcy, confiscation and poverty will be the inescapable results.

Representative Wilbur D. Mills of Arkansas, chairman of the House Ways and Means Committee, has already sounded this warning. In a speech at the annual tax conference in New York City sponsored by the Tax Foundation, Inc., Mr. Mills had this to say:

"The midyear budget review for 1958, released October 1, showed an estimate of total recepts of $73½ billion, total expenditures of $72 billion and a surplus of $1½ billion.

"But those estimates assumed that military spending by the Department of Defense would not exceed $38 billion in the current fiscal year, and, as we all know, this estimate is probably about $1 billion too low.

"In addition, it is quite likely that the midyear review estimates of receipts may be on the high side.

"The staff of the Joint Committee on Internal Revenue Taxation, on November 27 last, informally estimated receipts for fiscal 1958 at $1.3 billion less, or $72.2 billion.

"Even ignoring the probability that expenditures may well exceed the October estimates, therefore, the actual budget results for fiscal 1958 may well be no surplus at all, and the prospect of a deficit can not be ruled out of consideration."

Mr. Mills' views are far too conservative. According to information already made available, current defense spending will rise from $1 to $3 billion above the midyear estimates. Further, the downturn in general business activity has already brought sharp alarm from tax collectors who are now indicating that returns, dollar wise, may be off anywhere from $1 to $3 billion. Thus a possibility exists that instead of a billion dollar surplus, a deficit will be encountered which could be as large as $4½ to $5 billion.

The second factor to the tax puzzle has been very well voiced by E. C. Alvord, an attorney and a trustee of the Tax Foundation.

"The fight (in the coming session of Congress) is not going to come over dollar expenditures. It is going to come over authorizations. Mr. Mills was 100 per cent correct in his analysis of the possibility of increasing expenditures during 1958. You can adopt all the programs that everyone is suggesting, including atomic energy, more navy, more army, more armament, more missiles, more planes, and very few additional dollars can go out of the Treasury between now and the first of next July.

The scrap is going to come over abligations authorizing the administration to make commitments in advance. Your dollar stress is coming in 1960, 1961, 1962 and 1963. If we are not interested in that, our children are, I am sure. So I think we probably ought to be interested until they take over."

This is a point too frequently overlooked. Although the original idea within the federal government expressly provided for expenses to be met and debts to be incurred on a yearly basis, the current practice is to obligate funds far into the future, thus harnessing our incomes and resources for years to come. This nation, and indeed, this city, are both being run on the installment plan and not on a pay-as-you-go basis.

It becomes mandatory, in view of these factors among others, that ALL governments, local, state and national, immediately undertake a major tax revision with the benefits of that revision to be found in an overall tax reduction.

Sukarno Showed Marxist Beliefs In 1956 Speech

By HOWARD KERSHNER, L. H. D.

It's Up To You

In 1956 the United States Government welcomed and feted President Sukarno of Indonesia as an Asian "George Washington." The most recent evidence of this fearful slander of the Father of our Country was an article written by Dr. Sukarno extolling the Bolshevik revolution of 1917, and identifying its precepts with Asian nationalism. This remarkable document was published in the official Communist magazine New Times of Moscow in November 1957.

We are not surprised, for the speech we heard President Sukarno make in the Town Hall Club in New York, surrounded by dignitaries and introduced by an official of our State Department, plainly revealed his Marxist beliefs.

The extent of the concentration of authority and financial power in our country is evidenced by the recent action of the City of Philadelphia in appropriating money to hire a lobbying firm to "look out for the city's interests in Washington." Many cities have lobbied on a temporary basis, but this is the first instance we have noted of a great city seeing up a permanent lobby.

Other cities, no doubt, will follow suit — and so the campaign to get money out of Washington increases in tempo. The more the states, the cities and the pressure groups get from Washington, the more they will be robbed to pay the bill. A foolish people are only deceiving themselves when they try to believe that money from the Federal Government does not come out of their own pockets. Spending one's money via Washingto also causes enormous loss for maintenance of the bureaucracy.

BETTER JOBS

By R. C. HOILES

"Do American Educators Know What They Are Up To?"

Would that every reader who is interested in the well-being of our country could obtain a copy of the February issue of the Ladies' Home Journal and read an article written by Dorothy Thompson under the heading, "Do American Educators Know What They are Up To?."

She makes some startling and interesting statements in this article. She points out that a couple of years ago an article appeared in the Journal "that Russia was annually graduating from higher institutions of learning many thousands more scientists, technicians and masters of other disciplines requiring high intellectual capacities than we;" that our "educators" and those who are interested in education paid little attention to this.

Mrs. Thompson pointed out that 40 years ago 70 per cent of the Russians were illiterate that it was quite an accomplishment, even if it was limited to specific fields, to be graduating more students than the United States.

Then she points out that when the Russians developed the Sputnik, American educators could no longer avoid the issue of the results of our education. She points out that: "It was right there in the middle of everything — and properly so."

Then she tells how some of the college "educators" tried to apologize, and remarks:

"But more mature-minded critics also realized that the mere upping of school appropriations and teachers' salaries would not, of itself, answer the $64 question of what American education was up to — and why. The question has been asked, and will go on being asked. Anyone, including the layman, who has followed the educational journals and the writings and speeches of professional educators cannot fail to conclude that there is no clear and comprehensible consensus regarding educational purpose.

"The Office of Education in the Federal Government has issued a report on Russian education. Belated as we consider it to be, it is well compiled, precise, and finds no difficulty in correctly defining the purpose of Russian education: to train the child and youth to be an obedient, industrious, enthusiastic and highly competent servant of the state, thoroughly prepared to perform the functions required by a state bent on stepping forward as the premier industrial and military power of the world.

"One can vehemently disagree —as this writer does — that this ought to be the purpose of education. But Russian education is goal-conscious. Because it is goal-conscious, it is succeeding in realizing its aims."

Cannot Define Education

"The Office of Education cannot define the purpose of American education in any concrete terms at all. Its purpose, says the report, is 'freedom, peace and the fullest development of the individual.' One's mind immediately asks, Whose freedom? What peace? Is the individual something in and of himself? How, via education, does one attain this so abstractly defined goal? And is it, in fact, the goal?

"Two generations ago, it was not difficult to define the purpose of American primary, secondary and university education. That goal was to create a patriotic, responsible American citizen, an industrious, self-reliant and independent person, equipped with the knowledge and skills essential to making his own way in the world at whatever level of activity his talents permitted, and with a character imbued with the Christian virtues."

It is a little hard to believe Mrs. Thompson is right when she said that two generations ago government schools were teaching Christian virtues. If they had been successful in teaching Christian virtues two generations ago, we would not be in the condition we are in today.

And how can government schools based on coercion successfully teach liberty and freedom? If they were successful in teaching liberty and freedom and self-reliance and responsible American citizens who attempted to live in harmony with the ideologies of the Declaration of Independence, then the students would not believe in compulsion. They would not believe in government schools based on aggressive force.

And, of course, as yet in America they cannot very well teach that the individual should worship the state and that there were no higher laws than those made by man. We have not quite gone that far, to put the state completely above the Golden Rule and the Decalogue. But since they dare not teach the Decalogue nor the Golden Rule because they are violating it, the American educational system can have no real goal.

It is, of course, true that two generations ago pupils in government schools were supposed to discipline their minds to work. They were not given a lot of snap courses, and attendance was not compulsory. So those who attended had a will to learn. Now that attendance is compulsory, those who have no will to learn have to be entertained while they are in school.

The American "educator" has indeed a very, very difficult, if not impossible, task.

Russians, of course, do not keep those in school who have no will to learn.

Which Button Did We Press?

National Whirligig

Knowland's Success To Have Effect On G.O.P.

By RAY TUCKER

WASHINGTON — The success or failure of Senator William Knowland's campaign for Governor of California may have a great effect on the Republican Party's future course. It may decide whether the GOP in 1960, and future years, will embrace President Eisenhower's "modern Republicanism" fully and permanently, revert to Taft conservatism or veer to a middle - of - the - road course. At the moment it seems to be drifting.

Knowland's try is admittedly the most spectacular political spectacle of the current political year, as well as a test of present-day sentiment in this vast and increasingly influential area. Every politician of the two parties, from President Eisenhower and Vice President Nixon down to city aldermen, will await the outcome.

The Senate Minority Leader faces two struggles. He must defeat Mayor George F. Christopher of San Francisco in the June primary. If he wins that contest, he must face a strong votegetter in Attorney General Edmund G. Brown in November.

GUBERNATORIAL CONTEST — Brown is leading Knowland in current newspaper polls, but the Senator's friends dismiss that as unimportant. The popular and affable Brown, they argue, is on the scene and getting around. Knowland believes that he can overcome Brown's lead when he returns to California at the close of the session in July or August.

The intense interest in Knowland's fate derives from the fact that, although he is Senate Minority Leader, he has opposed the Administration on several important issues. It is also recalled that, had the late Senator Taft been nominated in 1952 instead of Eisenhower, he would probably have selected Knowland as his running mate, not Nixon.

When Taft became too ill to attend sessions, he designated the Senator as his replacement.

NOT AFRIAD — Knowland's support of the Administration's legislative program has been far more regular than that of many of his colleagues, as he frequently notes. Nevertheless, he has not been afraid to stand out against the White House. He explains that he did not agree to sacrifice his conscience or the interests of California when he became the Administration spokesman.

He favors right-to-work legislation, which bars a closed union shop, whereas the Administration is silent or negative on this question. He opposes many budget cuts, including the plan to start no new reclamation or public works projects. California needs more water and electric power.

He will also fight the Budget Bureau's decision to cut back Federal financial aid to school districts in areas where there are large government installations, such as airplane factories, Navy yards, atomic laboratories. This kind of economy would impose onerous taxes and burden the already strained educational facilities of too many California communities.

STRONGEST FRIEND — Knowland steered through the Senate the Administration's requests for funds for solid, West European Allies, but he is skeptical about similar assistance for such suspect nations as Poland and

He also thinks that the State Detions as Poland and Yugolsavia. partment has been too soft on Asian Communists.

He is Chiang Kai-shek's strongest and most powerful friend in the United States, so much so that he has been dubbed the "Senator from Formosa." In response to Allied demands for recognition of Communist China and her admission to the United Nations, he said that he would resign from the Senate to speak and fight the movement. He is grim, sincere and unafraid.

He knows, of course, that Eisenhower and Secretary Dulles long ago lost earlier illusions about Chiang and President Syngman Rhee of South Korea. But they dare not reverse their Far Eastern policy so long as Knowland stands guard on Capitol Hill.

RELATIVE CONSERVATISM — Finally, it is evident that Knowland leans nearer to the politico-economic center than Eisenhower, and, perforce, Nixón. It is regarded as a tribute to his courage, and perhaps to his prophetic foresight, that he will carry a relatively conservative banner against the riproaring Democratic liberals in the state that produced Hiram Johnson and Chief Justice Earl Warren, not to forget Vice President Nixon.

PULSE FOR REFLECTION

...with JAMES C. INGEBRETSEN
President, Spiritual Mobilization

Well, the national legislative mill has begun to grind again and the other day several grists of labor legislation were tossed into the hopper.

Some of these reportedly follow the President's recommendations to Congress for such legislation.

These recommendations provide for a further extension of the sprawling Federal bureaucracy by the creation of the office of commissioner of labor reports. They also provide a cloak of legality for secondary boycotts against an employer performing "farmed - out" work for a struck employer, or engaged with him in a construction project.

Just why we should want any more bureaucracy, or any legalization of boycotts, is beyond me.

On the same day that this legislation was introduced, a California initiative measure was set in motion by receiving its title from the State Attorney General's office. This measure, which would outlaw the closed or union shop, is much more to the point in eliminating the evils of labor union racketeering. Organizations operating for laudable purposes do not need the compulsion of law to recruit members. Any organization that relies on compulsion to gain any part of its membership is, in essence, already a racket and is bound to be taken over by racketeers. Let us remove the compulsion which is the source of racketeering. Then we can do without the Federal labor bureaucracy which challenges the racketeering only after it has come to bloom.

They'll Do It Every Time

Mac Makes Up Entries In His Diary Now

By HENRY McLEMORE

PARIS — Pandit Nehru once told me (how's that for name-dropping?) that memories were all that made life tolerable for him during his many weary jail terms — memories of his happy boyhood, memories of lovely days in the Vale of Kashmir, and, especially, memories of far-away places to which he had traveled.

He also said he was looking forward to old age when his work was done and he would have time really to enjoy his memories.

I happened to recall this conversation shortly before I left home on this long trip, and I decided to do something about my memories. Even if a jail sentence didn't come my way, I stood a fair chance of getting old some day.

What about my memories? Would I be able to remember my memories? Could a man in the so-called prime of life, who was unable to remember his own phone number, hope to have any memories at, say, 95 to 103?

I decided no. I also decided that if I didn't want to sit around in my old age memoryless and miserable, that I had better start keeping a diary. So I bought a fine one, and the wheels of my plane had scarcely left the ground of New York's International Airport before I made my first entry:

"Left New York 5:25 p.m. Left my hat on ticket counter. Hungry. Hope something is served before we get to Shannon. Mate hungry, too."

For the next two weeks I was as faithful to that diary as Boswell was to his. So faithful, indeed, that I barely had time to do anything worthwhile writing about. One entry reads: "Madrid — Am writing in diary. Weather sunny. Had fried eggs for breakfast. Wish they had been fried in butter, not olive oil."

After two weeks of faithfulness, I began to backslide. I'd skip three days, or four days, and finally weeks would pass without my opening it.

Then I would sit down and try to catch up. This is impossible — for me, anyway. I couldn't remember what town I was in, much less what I was doing at a certain hour. So — and this is an awful admission — I just made things up. I wrote about seeing things, doing things and meeting people that were never seen, done, or met.

Yet I'm glad I did. I was reading my diary yesterday and I've got a good one. There are some swell memories for my old age (or jail, if it comes to that). Take this one for example: "Madrid — drove out to bull ranch and fought a young bull. Drew applause from ranch hands for my cape work, and owner told me it was a shame I hadn't taken up bullfighting when I was a youngster."

You couldn't get me to fight a hornless dilemma, much less a bull. But by the time I'm 99 and reading a faded old diary, I'm liable to believe I was lion-hearted in my younger days, and insist on reading it aloud to everybody in the Old Soldier's Home that will listen.

Listen to this recent Paris entry: "Danced all night and won a cup for the adagio. Also one for an apache dance. Finished up at Aly Khan's flat for caviar and buckwheat cakes."

That's a good memory, even if I didn't go dancing at all, but spent the evening reading a whodunit under a light bulb about the size of an onion, and went to bed at ten with a headache.

The Doctor Says

By EDGAR P. JORDAN, M. D.

MRS. H. writes, "While I know what the functions of the arteries and veins are, and what a capillary is, I am not clear about just what the entire circulation of the body depends on. In other words, just what is the function of a capillary?"

This interesting question is a little difficult to explain without pictures. Actually, the answers were unknown until 1628, when William Harvey of England published his famous paper written in Latin, explaining the circulation of blood in the body.

Before writing this article Harvey had made careful studies of anatomy in animals and human beings and had come to the conclusion that previous notions of blood circulation were incorrect.

In his studies on animals he proved conclusively the relations between the heart and the lungs and the differences between arteries and veins. For the first time the functions of the different chambers of the heart and of the heart valves became clarified.

TO THIS GREAT investigator we really owe our knowledge of circulation.

The hear is the pump without which both circulation and life cease. It pumps blood on one side into the lungs, where the blood receives oxygen. The blood flows back to the heart and is again pumped out through the arteries, thus reaching all parts of the body and supplying the elements of life itself.

As the arteries reach the tissues they become smaller and pass through beds of tiny blood vessels which are called capillaries.

When the blood comes back from these capillaries it flows through the veins and back to the heart and passes through this same cycle again.

OF COURSE Harvey did not know all that we now know about circulation, such as the chemical exchange of oxygen and carbon dioxide.

His studies, however, revolutionized medical ideas and had far-reaching effects, not only for the treatment of all heart conditions and diseases of circulation, but also in all other fields of medical research.

The views advanced by Harvey did not receive acceptance at once. Many of the leading scholars of the day opposed him violently, always citing tradition as the principal reason for their opposition.

But the weight of opinion gradually came over to his side and his studies and experiments are now considered to belong to the great classics of medical progress.

An education enables you to be confused on a higher plane.

Answer to Previous Puzzle

'Dick Clark Show' Hot TV Saturday P. M. Property

By WILLIAM EWALD
United Press Staff Correspondent

NEW YORK (UP) — Unless I miss my guess, and I usually do, ABC-TV has a hot Saturday evening property in its new "Dick Clark Show."

Clark, a baby-faced young man, has been operating an afternoon program, "American Bandstand", at ABC-TV for several months now. It's a cheapie show that features the records and artists the kids are buying. And let's face it, the kids are buying almost all the pop singles.

Clark's new half - hour show also is a cheapie — low budget, shoddy production and what looked like lip-synching to records by a couple of performing guests.

But Clark's offering has something all of the other TV music shows this season have lacked: vitality. Clark's show is alive and so are the kids in his audience. Clark knows what the kids are listening to and his show is built on his knowingness. He knows they're not listening to Eddie Fisher or Gisele MacKenzie or Kay Starr, a premise other TV progammers seem unable to comprehend.

New Names Come and Go

What the kids are listening to is a whole crew of new names who come and go, but who all have one thing in common—records with a big beat. Some of these names: The Royal Teens, the Silhouettes, the Diamonds, the Rays, Danny and the Juniors, the Crescendos, Billy and Lillie and such singles as Ricky Nelson, Elvis Presley, Paul Anka, Frankie Avalon.

Some of these appear occasionally on such shows as CBS-TV's "The Big Record," but Clark's show is the first network show to devote itself exclusively to these artists the teen-agers are buying.

Thus far, I haven't mentioned "Rock 'n' Roll" and purposely so. Rock 'n' Roll is a loaded phrase nowadays, a scare phrase. And obviously, it doesn't mean much anymore when such fine Blues singers as Ruth Brown, Little Walter, Bo Iddley, Ray Charles and Big Maybelle have had the label hung on them.

Debasing the Blues

What many observers object to, and rightly so, is the debasement of the Blues that is going on—the synthetic shouting, the ricky-tick posturing, the just plain bad musicianship of some of the performers the teen-agers seem to be gorging themselves on.

Saturday, Clark's show featured Pat Boone, the Royal Teens, Chuck Willis and Jerry Lee Lewis, all of them very hot products. Lewis (who comes equipped with leopard skin lapels and pocket flaps and a nonsense head of hair) is about as typical of the inferior Rock 'n' Roll as can be found right now. In his own way, he is as square as say, Lawrence Welk, but I imagine it'll take a little time before the kids figure it out.

Anyway, the Clark show is a show to watch. The teen - agers have had nothing on network TV slated exclusively at them until Clark came along. Clark has the formula and the inside track and I think he may wind up the dark horse in the ABC-TV stable this season.

Look back: Contestant Larry Rivers' curse word on Sunday night's "The $64,000 Challenge," touched off 37 calls at CBS-TV in New York minutes after the show. NBC-TV's "Wide Wide World" visit to a house in Webster Groves, Mo., Sunday was rehearsed to the point of stiffness. Sid Caesar's meatball sketch on ABC-TV Sunday was Caesar in his best groove, which means only the greatest. NBC-TV's "Rigoletto" was tastily staged Sunday as all NBC operas are, but tenor Kirk Oreste seemed to be a bit thin-voiced near the end. And strangely enough, at least one aria, "Caro Nome," almost looked as if it were lip-synched. Norman Dello Joio's lecture stint on CBS-TV's "Seven Lively Arts" Sunday was consistently interesting, but his new "Ballad for the Seven Lively Arts" sounded rheumy, a little like watered - down Gershwin. NVC-TV's "Sally" unpackaged a new format Sunday night, but the show was as vacuous as the old Sally.

The Channel swim: There are seven Westerns in the latest Nielsen top 10 — no Ed Sullivan or $64,000 Question. ABC-TV and radio landed rights to the annual college all-star football game for three years. NBC-TV's "Your Hit Parade" is chopping its top seven tunes to five. MGM has signed Bert Lahr to emcee a new TV cartoon series. Ted Mack's amateurs got the nod as sit-in for NBC-TV's "End of the Rainbow". NBC-TV's next "Omnibus" show, "Moment of Truth" will not only star Peter Ustinov, but Jason Robards Jr., Rosemary Harris and Fritz Weaver.

Developed Theory

Cybernetics is the science of control mechanisms. This theory, developed by Dr. Norbert Wiener, relates to communication and cntrol in man and the mchine.

GETTING READY — Elvis Presley, in a move to prepare himself for an impending Army haircut, shows how he has had his locks trimmed to a "normal" length, including abbreviated (for him) sideburns. Presley, photographed in Hollywood, will report for Army duty in March after completing a movie.

IMMIGRANT—Newest arrival at the Washington (D.C.) Zoo is this Pangolin, or scaly anteater, a native of Formosa. This specimen is almost three feet long and it's body is covered with horny scales. The anteater travels only at night on short strong legs and its toes are armed with powerful claws. It subsists almost entirely on ants and termites.

WHAT'S UP?—This "whatsit" might almost be a mournful escapee from a science fiction movie as it turns an apparently disembodied moonface to the world in Paris. Actually the inquisitive-looking fellow is a sea lion, poking its head above the surface of a pool in the Vincennes Zoo.

Church To Be Host For School

(Special to The News)

PERRYTON — According to Rev. Carroll B. Ray, the First Baptist Church will be host to the Associational Group Training School which began Monday and will continue each evening through Friday, Feb. 21. Baptist churches taking part in the school will be Booker, Follett, Gruver, Canadian, Spearman and Perryton.

The books to be taught are "Outlines of Bible History" taught by Rev. T. D. Whitehorn, pastor at Booker; "A Church Using its Sunday School" taught by Rev. O. L. Bryant, pastor at Spearman; "Building A Better Sunday School Through Weekly Officers and Teachers Meetings" taught by Rev. A. G. Purvis, pastor at Gruver; "When Do Teachers Teach" taught by Rev. Carroll B. Ray, pastor at Perryton and "Soul-Winning Doctrines" taught by Rev. John Stout, pastor at Follett.

Perryton Students Honored

(Special to The News)

PERRYTON — Dixie Conley was named "Most Beautiful Girl," and Sammy McLain was named "Most Handsome Boy" of 1958 in the annual high school contest. Each year photographs of the contestants are sent to some famous person to be judged. This year they were sent to John Robert Powers Modeling Agency in New York, City.

Pictures of all the winners will be featured in the 1958 Perryton High school annual.

Runners - up included Sydney Slack, Roberta Drake, Linda Spence, and Oma Dell Ryan in the "Most Beautiful" contest and Zack Miller, Don Tillerson and Sammy Carter in the "Most Handsome" contest.

Has Choice

Utah has two methods of execution for criminals. A doomed person there may choose to die either on the gallows or before a firing squad.

Miss Stokes Is Student Soloist

(Special to The News)

McLEAN — Caroline Stokes, daughter of Mr. and Mrs. T. C. Stokes and a junior in McLean High School, was chosen as student soloist for the Amarillo Symphony in an audition held in Amarillo recently.

Miss Stokes competed with students from all over the Texas Panhandle and judges who selected her as the top soloist were from Texas, Oklahoma and New Mexico.

In the competition she sang, "Musetta Waltz" from the opera La Boheme by Puccina and "At the Well" by Hageman. She was accompanied by her mother, Mrs. T. C. Stokes. She is a student of Madame Anna Bornemann.

Having been chosen the student soloist, Caroline will appear with the Amarillo Symphony in "Youth Concerto Program" scheduled March 30 in Stephen F. Austin

A. Clyde Roller is conductor and Junior High School in Amarillo. musical director of the Amarillo Symphony, Inc.

Congress created the service that inpects and grades meat in packing houses on June 30, 1906.

Lowest Temperature

Lowest official temperature ever recorded in continental United States was at Rogers Pass, Mont., in 1954, with a reading of 70 degrees below zero.

Harvesters Cinch Tie

★ ★ ★

Team Downs Lubbock By 77-53 Score

The hustling Pampa Harvesters cinched at least a tie for the District 3-AAAA crown last night by downing the Lubbock Westerners, 77-53, at Lubbock.

The Harvesters play the Plainview Bulldogs at Plainview Thursday night and if they win will be the undisputed winners of the 3-AAAA title.

The Game with the Bulldogs Thursday night is the last for the Harvesters in regular season play.

In last night's game the Harvesters hit a torrid 81 per cent in the first half on field goal efforts and 63 per cent in the second half.

Lubbock's 6'6" center Spitzer hit a total of 25 points to be the game's leading scorer while Pampa's Bill Brown, Mac Layne and Coyle Winborn each hit 13 points.

Pampa led the Westerners, 18-8, at the end of the first quarter and led, 42-19, at the half. It was 56-32 at the end of the third stanza.

Coach Clifton McNeely's team never left any doubt as to the outcome of the contest as it took an early lead which was never seriously threatened.

A total of nine Harvesters saw action in the game and five of them scored in the double digits. Five players also had perfect nights at the free throw line, Brown, Ray Stephenson, Layne, Bobby Gindorf, and Larry Cruise.

The Shockers lost their game to the Cowhands, 64-63.

ROYALS GET PLAYER

CINCINNATI (UP) — The Cincinnati Royals have re-acquired Tom Marshall, a guard, from the Detroit Pistons on waiver. The former Western Kentucky star was sold to Detroit last Dec. 10 after playing 18 games with the Royals.

Oscar Robertson Has A 'Hot' Night

By MILTON RICHMAN
United Press Sports Writer

Oscar Robertson had another one of his "hot" nights in his duel campaign to take over the national scoring lead and carry Cincinnati into the NCAA Tournament.

Hitting from both inside and out, the brilliant 19-year-old Cincy sophomore swished in 43 points in a 98-64 victory over Drake Monday night that moved the third-ranked Bearcats a step closer to the Missouri Valley Conference title, which automatically guarantees an NCAA bid.

Robertson did himself some good, too. He boosted his season point total to 706—tops in the nation—and his average to 33.6 points per game. Elgin Baylor of Seattle has scored 654 points so far but is slightly ahead of Robertson in average with 34.4 points per game.

34 For Wilt

Wilt Chamberlain, the third leading scorer, registered 34 points as fifth - ranked Kansas walloped Missouri, 84-69. Wilt the Stilt now has a total of 534 points and an average of 31.4 points per game.

Bradley handed seventh-ranked Oklahoma State a 57-43 licking in a game featuring ball control. Oklahoma State is one of the two teams already in the NCAA tourney — Connecticut is the other—but the Cowboys have lost two in a row since they were named after winning 16 of their first 18 games.

Second - ranked West Virginia, also shooting for an NCAA berth, registered its 21st victory in 22 games by mauling Detroit, 98-66. Bob Smith was high man for the Mountaineers with 21 points.

San Francisco won its 16th game in a row by defeating surprisingly stubborn Fresno State, 68-59. Fred La Cour led the Dons with 18 points. San Francisco, ranked fourth by the United Press Board of Coaches, has a record of 20 victories and only one defeat, suffered early in the season against Stanford.

Bowling Green of Ohio, which has received a "feeler" from NIT officials, trounced Marquette, 91-83. Dayton and St. Bonaventure were the first of 12 teams officially named for the NIT Monday.

MSU Strengthens Hold

Michigan State strengthened its hold on first place in the Big Ten with a 79-69 win over arch-rival Michigan. Forward Bob Anderegg paced the Spartans to their seventh triumph in 10 conference games with a 25-point performance.

Iowa, which still has designs on the Big Ten title, defeated Wisconsin, while Illinois licked Minnesota, 94-87, and Ohio State subdued Wisconsin, 93-83.

Kentucky, the Southeast Conference leader, edged Vanderbilt, 66-61. The victory marked the Wildcats' 10th in conference competition against one loss.

Little Bernie Kapner sank four free throws shortly before the final buzzer to help Houston upset Wichita, 72-70. The loss killed Wichita's final hope of sharing in the Missouri Valley Conference title which Cincinnati has just about wrapped up.

In other games: Oklahoma City defeated Loyola of New Orleans, 86-71; Nebraska clipped Colorado, 50-41; Mississippi nipped Florida, 67-65; Louisiana State upset Alabama, 58-49; Auburn beat Tulane, 63-49; William and Mary crushed Furman, 87-46; The Citadel defeated VMI, 86-54; Brandeis topped Boston U., 65-54; Miami (Fla.) beat Florida Southern, 76-58; Tulsa downed North Texas State, 81-49; California licked Stanford, 67-59, and UCLA got past Washington, 67-62.

Sandy Amoros Sold To Montreal

TODAY'S SPORT PARADE
(Reg. U.S. Pat. Off.)

By OSCAR FRALEY
United Press Sports Writer

NEW YORK (UP)—Sandy Amoros knew today what another little man named Al Gionfriddo found out 10 years ago.

In sports it's easy to be a hero yesterday and a bum today.

Sandy, the pint-sized Cuban, has been sold back to the Montreal farm club by the Los Angeles Dodgers. It's a trip Gionfriddo made with even greater suddenness just a decade ago.

Both of them received their walking papers after being World Series fielding heroes, a pair of sixth inning sensations who were frustrated in the end by anemic bats.

Al Robbed DiMag

Sandy, at least, can't complain that he wasn't given his chances. He lasted two years after the breath-taking grab which permitted the Dodgers to win their first and only world championship.

Gionfriddo was gone the next season after he robbed Joe DiMaggio of a home run. The answer might have been that his catch was in vain because the Yankees went on to capture that 1947 classic.

Little Al thus had only one moment in the warm glory of the baseball sun. It came in the sixth inning of the sixth game in '47 when, with Brooklyn leading, 8-5, the Yankees put two men on base and DiMaggio teed off on a Joe Hatten pitch with a shot which figured to tie it up.

Gionfriddo had been inserted into the ball game that inning for defensive purposes and he raced back to the left field bull pen to snare DiMaggio's belt at the 415 foot mark. It was one of the most spectacular catches in World Series history. It saved the game, although the Yanks won the next day.

Back to Minors

But the following spring, tiny Al was back in Montreal and from there it was down the ladder—Fort Worth, Newport News, Drummondville and Ventura in the Class C California League.

Sandy had his big moment in the 1955 series against those same Yankees who had flogged the Dodgers so often. Going into the sixth inning of the seventh game, southpaw Johnny Podres was sitting on a 2-0 lead and needed only 12 more outs to wrap up the first world championship for the Dodgers.

But suddenly Johnny had big trouble. Pesky Billy Martin teased him for a walk and went to second as Gil McDougald was safe on a bunt. Now it was tight-lipped Yogi Berra at the plate, swinging a bat which seemed to Podres as big as a base viol, and it looked like the game was all tied up as Yogi sliced a drive down the left field line.

It was a sure extra base hit—but the flying Amoros caught it, somehow, and, wheeling, fired to Peewee Reese for a relay which doubled McDougald off first. The threat was over and Podres went on from there to wrap it up.

Now Amoros is gone, just like Gionfriddo. But, then, so are the Dodgers, too.

EASED UP—When rain washed out a Yankee rookie workout at St. Petersburg, Fla., it took the pressure off Rinold Durens, left, who sat back in locker room and puffed a cigar.

Wilhelm Takes State Boxing Championship

Ailing Bobby Avenges Brother Gary's Loss

Bobby Wilhelm, battling Pampan, won the Texas amateur welterweight boxing championship in the finals of the state Golden Gloves tournament in Fort Worth last night.

Bobby fought twice to take the title, downing Bob McIntyre of Tyler earlier in the evening in his semi-final bout.

Wilhelm's opponent in the finals was Alton Allen of Houston, last year's champ. Allen was heavily-favored to retain his title but lost to the determined, aggressive Pampan whose win was called a "stunning upset."

Wilhelm stalked his taller, more experienced foe throughout the fight, piling up enough points to give him the judges nod despite a strong third-round comeback by Allen.

Wilhelm had been ill with an upset stomach yesterday afternoon but his two ring opponents last night couldn't tell it as he took both wins decisively.

Wilhelm, now boxing's "Pride of the Panhandle," jabbed and hooked his foe numerous times in the bout. Both boxers connected with several good combinations but Wilhelm's left hook scored the most, catching Allen's jaw and neck. The Pampan was the more aggressive and the strongest throughout the match.

Bobby greeted his brother, Gary, when he stepped from the ring as champion last night, saying, "this one was for you." Gary had lost a much-booed decision in Saturday night's action to Johnny Cloud of Corpus Christi. Gary is a lightweight.

Another happy Wilhelm at the tournament was Bobby's father, Ollie, who was coach of the Amarillo region team.

The regional team scored 16 points to win the state team trophy outright for the first time in the history of the tourney. Bobby, however, was the only champion on the team. The regional team had tied for the team trophy in 1939.

Amarillo region boxers who lost decisions in the finals were Borger's Scooter Darden, 126 pounds; Borger's Jerry Argovitz, 175 pounds; and Dumas's Carl McClure, heavyweight.

Wilhelm, Darden, Argovitz and McClure won semi-final bouts earlier in the evening with Eddie Gonzales of Plainview, another Amarillo region team member, losing his semi-final outing. He lost a split decision to Everett Hartman of Fort Worth in the 112-pound class.

Victor Graffio of Galveston was the only 1957 champion to repeat in the 1958 State Golden Gloves bouts, pounding out a brutal three-round decision over Johnny Cloud of Corpus Christi to take the lightweight crown Monday night.

In other fights, Houston's Bob May took heavyweight honors with a decision over Carl McClure of Dumas; Pete Noah, somber-faced Indian from Sherman won light-heavyweight honors with an unpopular decision over Jerry Argovitz of Borger, and Martin Diaz of San Antonio stopped Fort Worth's LaRue Williamson with a second-round TKO to win the middleweight championship.

Also, Gaspar Sanchez of El Paso won the featherweight crown with a paper-thin decision over Scooter Darden of Borger; Galveston's Gilbert Martinez won the bantamweight title from Carlos Rodriguez of Austin, and Jesse Leija of San Antonio won the flyweight crown from Everett Harmon of Fort Worth.

STATE GOLDEN GLOVES RESULTS
FINALS
Flyweight

Jesse Leija, of San Antonio, won a decision over Everett Hartman of Fort Worth.

Bantamweight

Gilbert Martinez of Galveston decisioned Carlos Rodrigues of Austin.

Featherweight

Gaspar Sanches of El Paso decisioned Scooter Darden of Borger.

Lightweight

Victor Graffio of Port Arthur decisioned Johnny Cloud of Corpus Christi.

Welterweight

Bobby Wilhelm of Pampa decisioned Alton Allen of Houston.

Middleweight

Martin Diaz of San Antonio scored TKO over Larue Williamson of Fort Worth in 2nd round.

Light Heavyweight

Pete Noah of Denison decisioned Jerry Argovitz of Borger.

Heavyweight

Bob May, Houston, defeated Carl McClure of Dumas (split decision)

SEMIFINALS
Flyweight

Jesse Leija knocked out Bob Walker of Tyler in the 2nd round.

Hartman won a unanimous decision in 3 rounds over Eddie Gonzales of Amarillo.

Bantamweight

Gilbert Martinez decisioned Pablo Avila of Odessa and Carlos Rodriguez decisioned Carl McNeill of Wichita Falls.

Featherweight

Gaspar Sanchez of El Paso won TKO over Nato Govea of Austin and Scooter Darden of Borger decisioned Julian Avila of Odessa.

Lightweight

Johnny Cloud of Corpus Christi scored TKO over Johnny Pointer of Odessa and Victor Graffio of Port Arthur decisioned Rudy Ortiz of Fort Worth.

Welterweight

Alton Allen of Houston won decision over Jerry Turner of San Antonio and Bobby Wilhelm of Pampa decisioned Bobby McIntyre of Tyler.

Middleweight

La Rue Williams of Fort Worth knocked out Robert Stokes of Hondo in 2nd round and Martin Diaz of San Antonio won decision over David Lopez of Austin.

Light Heavyweight

Pete Noah of Denison decisioned Dale Caldwell of Dallas and Jerry Argovitz of Borger decisioned Jim Hollingsworth of Wichita Falls.

Heavyweight

Carl McClure of Dumas decisioned Joe Flynn of Fort Worth and Bob May of Houston outpointed Rudy Pretzner of Rio Hondo.

Tannhauser, immortalized in Wagner's opera, was a real character. He was a German minnesinger, or minstrel, of the 1200's.

SPORTS

Kansas State Atop UP Poll

By EARL WRIGHT
United Press Sports Writer

NEW YORK (UP) —The Kansas State Wildcats, closing in on the Big Eight Conference basketball championship, today strengthened their grip on first place in the United Press major college ratings.

The Wildcats, who led West Virginia by only six points last week when they took the No. 1 spot from Kansas, widened their margin to 54 points in the latest balloting.

The 35 leading coaches who rate the teams for the United Press gave Kansas State (17-1) 23 first-place votes and a total of 321 points. The coaches based their ballots on games played through Saturday, Feb. 15.

WVU Holds No. 2 Spot

West Virginia (20-1) remained second with five first-place votes and 267 points, but was only five points ahead of the Cincinnati Bearcats. Cincinnati (18-2) received five first-place votes and 262 points after handing Oklahoma State its worst defeat of the season Saturday night, 71-59.

Cincinnati, which has been climbing steadily in the rankings, replaced the San Francisco Dons in third place. San Francisco (19-1) slipped to fourth.

Points are awarded on a 10-9-8-7-6-5-4-3-2-1 basis for votes from first through 10th place.

Kansas (15-3) remained fifth, while Temple, which has won 17 straight games for the nation's longest current major college victory streak, advanced from seventh to sixth with an 18-2 record and 152 points.

Oklahoma State Drops

Oklahoma State (16-3), already in the NCAA Tournament as an "at-large" entry, dropped from sixth to seventh. North Carolina State (15-4) advanced from ninth to eighth with 67.

Duke (14-5), one of the season's surprise teams, made its first appearance in the top 10, advancing from 13th to ninth. Michigan State (13-4) was the other newcomer in the select group this week, jumping from 16th to 10th.

Maryland, eighth last week, slipped to 11th. North Carolina Kentucky, tied for 10th last week, dropped to 14th and 16th, respectively. It was the first time coach Frank McGuire's North Carolina team failed to make the top 10 since March 6.

Bobby Shantz Signs His '58 Contract

By UNITED PRESS

Southpaw Bobby Shantz, one of the smallest players in the major leagues who made a big comeback with the New York Yankees last year, today signed his 1958 contract.

Shantz ran off a string of eight straight victories for the Yankees early in the 1957 season and hit the halfway mark with a 9-2 slate. He tailed off somewhat during the last half of the campaign but still wound up with a respectable 11-5 record.

The Yankees also announced that Tony Kubek will report to their instructional camp at St. Petersburg, Fla., this week for training at second base, renewing reports that they may trade Bobby Richardson to the Cleveland Indians for relief pitcher Ray Narleski.

If Kubek learns the second-bagger's job fast enough this spring, maybe that long-discussed Richardson-for-Narleski trade will be completed.

The Detroit Tigers announced the signing of third baseman Reno Bertoia and rookie pitcher Chuck Daniel. Bertoia, a former bonus baby, worked his way into the Tiger lineup last year, hitting .275 in 97 games. Daniel had a 9-12 record at Charleston last season.

Lew Hoad Ups Lead In Series

BOSTON (UP) — Professional tennis challenger Lew Hoad headed for Philadelphia today with a solid seven-match lead in his 100-match world tour with reigning champion Pancho Gonzales.

And promoter Jack Kramer said it would take "a superhuman effort" by the 29-year-old Californian to catch up to the young Australian.

The 23-year-old Hoad, a blond dynamo of energy, ran off his fourth straight win against Gonzales Monday night at the Garden, winning 10-8, 6-1, before 4,704 hardy fans who mushed through nearly two feet of snow and zero temperatures to watch the action. Hoad now leads, 14-7.

Again it was Hoad's blistering serves and pin-point placements that wore down Gonzales. The triumph gave the Aussie a 6-2 record since the troupe arrived in the United States. Gonzales has won only in Los Angeles and New York.

The two meet next Sunday at Fort Worth.

"I said last week that when Hoad gets six or seven up, he'll be unbeatable," said Kramer, "and I reiterate that now. I don't think Pancho will be able to do it.

"Gonzales hasn't the confidence he once had against Hoad. I can see it in every move he makes.

"Gonzales hasn't the confidence And now, even when he comes up with a great shot you can sense that he thinks he's just being lucky."

Russell Tops On Rebounds

NEW YORK (UP)—Bill Russell, the six-foot-10 jumping jack of the Boston Celtics, needs only two rebounds tonight to accomplish in 57 games what no other pro basketball players has done in a full 70-game season.

Official statistics from the National Basketball Association show that Russell, playing only his second season among the pros, has grabbed 1255 rebounds during this campaign. His first two rebounds against the Knickerbockers here tonight will break the NBA season record of 1256 set by Maurice Stokes of the Cincinnati Royals last season.

George Yardley of the Detroit Pistons continues to lead Dolph Schayes of the Syracuse Nationals in both NBA individual scoring (1625 points to 1538) and points per game (26.6 to 25.6).

Jack Twyman of Cincinnati, with a field goal accuracy of 45.2 per cent, leads Ray Felix of New York (44.8 per cent), and Russell (44.4). Schayes is top man in free throw accuracy with 90.3 per cent to 89.8 for the injured Bill Sharman of Boston.

Holmes Trims Perryton

Holmes Conoco team of Pampa won an Industrial League basketball game last night when it downed the Perryton Jaycees, 65-61.

The Holmes team had to come from behind to register the win, however, as Perryton held a 52-46 lead at the end of the third quarter. At the halfway point, Perryton led, 34-31. The first quarter score was Holmes, 18; Perryton, 14.

High-point man for Holmes was Roy Poole, who netted 20 points. Gene Brown of Holmes scored 16 points and Tommy Pletcher of Perryton got 18.

Last night's win cinches at least a tie for the league championship for Holmes, which now has an overall season record of 30 wins and five losses.

Disqualification In Last Night's Main Mat Event

The main event match in last night's wrestling ended in a disqualification.

Dory Funk and Don Evans battled in the final event which saw no winner when the wrestling commissioner disqualified the bout.

The semi-final bout, a two - out-of-three fall, 45 minute affair between Gypsy Rose and Doll Paige, went to Gypsy Rose.

Oni Wiki Wiki took the opener, a one-fall, 20-minute event, over Tommy Phelps.

The wrestling is sponsored each Monday night in the Sportsman Club by the Pampa Shrine Club. Proceeds from the attraction go to the organization's crippled children's fund.

Earth's 'Star Dust' Hits Astronomical Figure

By DELOS SMITH
United Press Science Editor

NEW YORK (UP)—By weighing cosmic dust (or "star dust," if you like) collected on two Hawaiian mountain tops, a geophysicist arrived at an estimate that 14.3 million tons of this fine-grained stuff from space settles down on the earth every year.

The estimation of Prof. Hans Pettersson found that twice this amount—28.6 million tons — is suspended in the earth's atmosphere at all times. It sounds like a lot until you realize he was figuring in all the atmosphere up to the height of 62 miles above the surface.

Just the same, it was almost four times larger than the largest of previous estimations, but scientific interest was as much in Pettersson's methods of arriving at his figures, as it was in the figures themselves.

Found Air Clean

A member of the faculty of the University of Vienna, he was at the University of Hawaii as guest professor of Geophysics. He found that the air at Mauna Loa Observatory, elevation 11,000 feet, and on the top of Mount Haleakala, 10,000 feet, was free of earth dust to "a remarkable degree."

Therefore, any dust around would be mainly cosmis dust derived from meteors powdered by collision with the atmosphere and settling downward to the earth's surface. He set up fine-pored filters which after filtering enormous amounts of air collected tiny amounts of dust.

In this dust was strontium-89 and strontium-90, the radioactive elements made by atomic bomb explosions. But Pettersson isn't ready to report on that. He is reporting now on the content of iron and nickel, particularly nickel.

Works From Nickel Percentage

Analysis of meteorites which reached the earth have shown that generally they're 2.5 per cent nickel. Having that percentage, knowing the volume of air viltered, and able to calculate the volume of atmosphere up to a height of 60 miles, Pettersson arrived at his figure of how much cosmic dust is suspended in the atmosphere.

Then, he took into account the famous eruption of Mount Krakatoa in 1883, to settle out of the atmosphere. It took the volcanic dust about two years to settle. Thus, by halving his figure for suspended cosmic dust, Pettersson concluded that 14.3 tons settle on the earth annually.

He assumed on these calculations that the cosmic dust in the atmosphere was entirely renewed every two years. But, as he pointed out, if a more rapid renewal is assumed, then the amount which reaches the earth annually would have to be correspondingly more.

Game, Fish Commission To Stock Ponds With Fingerlings

By JOHN G. WARNER
United Press Staff Correspondent

DALLAS (UP)—Long - awaited rain has filled thousands of Texas ponds and the state Game and Fish Commission's 13 hatcheries are preparing a bumper crop of baby fish to fill them.

A. W. Lewis, superviser for the commission's North Texas district, said nearly nine million fingerlings—baby fish 1-3 inches long—will be ready for the public in September or October.

The fish are free, and the hatcheries give them away until they run out.

Lewis said in order to acquire a pondful of fish, one must apply to his local game and fish commission office, making sure to list the accurate surface acreage of the pond to be stocked.

Some Persons Overstock

Some persons, Lewis said, "say they've got 50 acres when they have only got one. They do themselves harm because they overstock and the fish don't grow."

Lewis said the commission does not have the manpower to check the ponds of aspiring fish growers. Another nuisance, he said, are persons who show up every year asking for tanksful of fish.

A pond needs restocking only once every four years or so, Lewis said.

The most popular fish raised by the commission is the black bass, he said. Channel catfish, crappie and bream also are available.

Applicant Notified

When the fish are ready to be passed out, the applicant is notified to meet a truck bearing his fish. The fish are loaded into tanks of water agitated by electric paddles and hauled to the meeting. The new owner brings along tanks full of water from the new pond and takes his new charges home.

Lewis said new ponds should be fertilized before their first stocking, with barnyard manure or commercial fertilizer. Little red bugs, barely visible to the naked eye, are good signs in the pond since they indicate good fertilization.

Lettuce first was grown in Asia several thousand years ago. It was served to the kings of Persia 500 years before Christ.

Walter Rogers Reports:

Texas Dinner Was Subject Of Washington Headlines

HEADLINE ITEMS

Two matters of controversy in the National Capital fought for the headlines last week.

On one day both seemed to win in one of the Washington papers, as both appeared in equal headings on the front page. One of these matters involved Texas, while the other was concerned with the investigating Subcommittee in the House of Representatives digging into the Federal Communication Commission's activities.

The item involving Texas was the letter written by the Republican Chairman of Texas in connection with soliciting funds for a $100 a plate dinner to be addressed by Honorable Joseph Martin, the top leader of the Republican Party in the House of Representatives.

Texas is always fair game for headlines in this part of the country. This letter, which appeared to be soliciting funds for political activities and talking about the Natural Gas Bill, was just too much for the commentators and columnists back here in the consumer areas. They hopped onto it like the proverbial duck hopped on the June bug. The opponents of the Natural Gas Bill were in high glee over the whole affair. It furnished them new ammunition with which to carry on their continuing fight to centralize in Washington the powers now enjoyed by many of the states.

The entire transaction was a tragic setback to the proponents of the Natural Gas Bill, provisions in which are for the purpose of relieving independent producers of gas from domination by Washington bureaucracy. It might also be said that it was a setback to the forces that are continually striving to prevent further encroachment upon the rights of the individual, as well as the states. If the trend continues in the future as it has in the past, it would seem that the near future would bring control, either direct or indirect, of the rates on all utility matters into the hands of federal agencies.

The other headline item to which I referred also had to do with fedal bureaus. The investigation of these boards and bureaus will furnish a great deal of news material in the future. Just about two weeks ago I predicted in a radio broadcast that this Subcommittee would be in front page news during this session of the Congress.

I did not know at that time that it would land on the front page quickly. All of the present headlines have to do with only one of the several agencies that were intended to be investigated. If the headlines that came out of this agency can be used as a yardstick of what to expect in the future, the people can look forward to some interesting reading for the next several months.

Whatever may be the facts, the American people are entitled to know them in detail. The faster these are brought into the clear, the better for the country as a whole. If there has been wrongdoing by any of the boards or bureaus, proper action should and, no doubt, will be taken.

If there has been wrongdoing on the part of the accusers, proper action should be taken in that respect. But, in any event, the whole story is due the people of this country, and I have full confidence that it will be forthcomming. Certainly my efforts will be directed to that end.

THE RECESSION?

The question of whether or not there is a recession could be argued for a long time. The answer to the argument would be of little consequence. The real issue should concern what we are going to do about our economic situation to cure whatever recession might be present or to avoid whatever recession, if any, might be developing.

It is my opinion that the entire difficulty can be cured through one segment of our economy. That is, the segment of the economy in which it began, to wit, the agricultural economy. The last depression that this country suffered began in the agricultural part of our economy and continued because that situation was not corrected. Our present difficulties can be traced directly to agriculture, and the quicker these are corrected the quicker we will stop the trend toward economic difficulty.

A serious recession or depression in this country would be of more propaganda value to Russia than ten sputniks. Some people may ask what we will do with surpluses. The real question is, what will we do with the surpluses of individuals who are without work and hungry if we have a serious recession. In my opinion, surpluses of foodstuffs that God created for the preservation of man are a great benefit. Surpluses of individuals who cannot find work to feed themselves and their loved ones are a plague.

Thespians In Lefors Hold Initiation

(Special to The News)

LEFORS — The Thespian Troup number 423 of Lefors High School held a semi-formal initiation of new members in the home of Mrs. J. M. McPherson Thursday night, Feb. 13.

The club, orgznized in December, 1957, is a member, having received its charter, of the National Thespian Society. John Lee Welton, speech and English instructor in Lefors High School, is sponsor of the drama club.

The Valentine theme, in combination with the tragedy and comedy masks, symbols of the club, were used throughout the house as decorations. Candles and masks were used in the initiation service.

The new members being initiated were Bob Hood, Sammy Jordan, Mary Cole, Pat Winegert, and Mark Braly. One other new member, Tommy Johnson, was unable to attend.

After the initiation, refreshments were served and charades was was played by the group.

Others present were Sonny Dunn, June Henderson, Bill Barnes, Peggy McCarley, Linda Smith, Glynda Northcott, Janis Dunnam, Mr. and Mrs. John Lee Welton and the hostess.

CASH TRANSACTION — George Lubke rolls up another 10-dollar stack of silver dollars from the plentiful supply on his desk in Daytona Beach, Fla. Silver dollars—2,400 of them—came from a retired sea captain who handed a Lubke Real Estate Company salesman two buckets full of them in payment for a piece of land. The captain, who prefers to remain anonymous, had the money stashed away in his basement. Claims he foresaw the bank failure of 1932 and converted his finances into silver dollars at that time.

MAKES YOU WANT TO CRY when you think how many families need kitchen phones—and don't have them. Instead of grabbing the baby and dashing off to another room every time the phone rings, wouldn't it be easier to take calls right in the kitchen? Let the baby go on eating while you talk. Kitchen phones come in 9 beautiful colors or standard black. For color, there's a one-time-only charge. Call the telephone business office. MO 4-7491

END "ONE-PHONE" PROBLEMS WITH HANDY EXTENSION TELEPHONES. ONLY $1.00 A MONTH (plus tax and installation)

AMBITIOUS—Rita Hayworth, for many years the most glamorous of Hollywood's glamor queens, is hoping to start a whole new career as a serious dramatic actress. The "Love Goddess" of the 1940's takes off for the new stardom in a highly emotional role in the forthcoming screen version of the stage hit "Separate Tables." Photo shows her as "Salome" in 1953.

America's lowest-priced, full-sized Wagon!

The SCOTSMAN Station Wagon only $2055 equipped

This low price includes heater/defroster, directional signals, spare tire and wheel, double wipers, mirror Pay only local taxes, if any, and transportation from South Bend, Indiana*.

Imagine!—a full-sized station wagon at a price that saves you hundreds of dollars over nearest competing models. And at this unbelievably low price, you get clean, uncluttered styling, all the spacious comfort of a 6-passenger sedan (seats 8 with optional Hideaway Seat), plus more than 93 cubic feet of cargo space with the rear seat down!

Today, look at all the cars in the low-priced Scotsman series! And don't be led astray by price claims of the self-named "low-priced three." Compare prices and see for yourself! You'll find the Scotsman station wagon and sedans are actually the lowest-priced, full-sized cars you can buy. And they offer more real value, too! A drive behind the wheel will show you why. There's *new* riding comfort on an exclusive-design suspension system, *new* ease of maneuvering with responsive variable-ratio steering, *new* peace of mind with self-centering and self-energizing brakes!

See America's lowest-priced, full-sized cars, the Scotsman 2-door, 6-passenger sedan at $1795*, and the Scotsman 4-door sedan at only $1874*. Visit your Studebaker-Packard Dealer, today!

See the complete line of Studebaker-Packard sports cars, hardtops, sedans and station wagons.

Legal Publication

ORDINANCE NO. 486

AN ORDINANCE AMENDING ORDINANCE NO. 465 PASSED ON ITS THIRD READING ON JANUARY 2ND, 1957, PROVIDING FOR NO PARKING OR STANDING IN CERTAIN ALLEYS AND PROVIDING FOR THE EFFECTIVE DATE OF THIS ORDINANCE.

BE IT ORDAINED BY THE CITY OF PAMPA, TEXAS:

Section I.

That Article XIII, Section 103 of Ordinance No. 465, finally passed on January 2nd, 1957, shall be and the same is hereby amended by the addition of the following sub-section which shall be known as number 13:

"13. On the East side of Russell Street from Atchison Avenue to Foster."

"On the West side of Frost Street from Atchison Avenue to Foster Avenue."

"On both sides of Aft Street for its entire length."

"On the West side of Cuyler Street from Browning to Montague."

Section II.

That Article XIII, Section 105 of Ordinance No. 465, finally passed on January 2nd, 1957, shall be amended to read as follows:

"Sec. 105. PARKING IN ALLEYS.

That no vehicle shall be left standing in an alley situated in the fire zone when the same is unattended and unoccupied. That no vehicle shall be left standing or parked in any other alley within the City of Pampa when the same is unattended and unoccupied in such a manner as to block the flow of traffic through such alleys, taking into consideration permanent obstructions and other parked vehicles.

(a) All vehicles using the alleys as set out in Scedull may enter and leave the same by right turn, left turn, or proceeding across the streets intersecting said alleys, or at the ends thereof."

Section III.

This ordinance shall become effective on the expiration of ten (10) days after its final publication as provided by law.

PASSED AND APPROVED on first reading this 21st day of January, 1958.

PASSED AND APPROVED on second reading this 28th day of January, 1958.

PASSED AND APPROVED on third reading this 14th day of February, 1958.
