PERHAPS ONLY now can Eastlanders fully appreciate how much the Earnest Sneeds moving back here means to our town. Mr. Earnest is a deeply religious, highly respected man, known far and wide, and you can be sure that he's told Eastland's story not only within Lone Star Gas Co., of which he is an official, but also everywhere he travels. They're the kind of folks who make Eastland THE place.

AFTER THREE grandsons and many months of tanning, "pink" the Joe Stepiens were rewarded Tuesday when son Stan called from Bryan to report that Mrs. Stan had just given birth to an eight-pound, 11 ounce girl. (Stan was so excited he couldn't remember the name of the hospital.)

MRS. BILL GOFF, wife of the Bethel pastor, was rewarded with a love offering during that church's revival when the visiting preacher suggested that each attendee bring a penny for each year of their age for Mrs. G. With a total of 33 pounds, one might or might not be able to figure the combined age of that congregation. Mrs. Goff was most appreciative.

OUR COUNTY is one of 8 to be served by the Outreach Center for Mental Health out of Mineral Wells. The center's primary function will be to provide outpatient care and followup for patients discharged from the state hospital at Wichita Falls. The County Commissioners Court has upped the contribution to Volunteer Fire Depts. from \$50 to \$100. We're turning over a \$1250 contribution from Mr. and Mrs. G. E. Massey of Arlington to the Eastland Volunteer Fire Dept. They'd read about a request here that funds be directed to the Volunteers in partial appreciation for the tremendous job that's been done this early spring with the multitude of grass fires in our area.

MIKE O'DELL, president of Explorer Post Seven, tells us Thanks for the use of previously unused upstairs rooms for post meetings. Receiving the Brotherhood Honor at the Spring Fellowship of Otena Lodge at Camp Billy Gibbons recently were these Order of the Arrowmen from Troop 6, Eastland: Tom Morren, John Marshall, Brent Parker, Jerry Boles, Charles Marshall and Stacy Blair.

CHESTER H. Breneman, Rt. 3, Ranger Morton Valley) has been named Eastland County Surveyor. He serves some seven other counties and up into

OLDEN CLUB TO MEET

The Olden Citizens Club will hold its regular business meeting, Friday, April 2, at 7:30. Several important topics of interest and concern will be discussed. Citizens are urged to attend.

Eastland Welcomes Newest Addition — Lone Star Gas Co. Regional Headquarters

Lone Star Gas Company has recently announced the reorganization of the Operational Departments of its Transmission Division.

According to H. H. Merritt, vice president, Eastland, Texas, will serve as the Division Southwest Regional Headquarters.

For all the field operations in the southwest area of the Lone Star system, these responsibilities will include pipeline operations, compressor operations, gas measurement and field operations for approximately 2,000 miles of pipeline.

H. B. Dempsey has been ap-

pointed regional manager for the newly formed Southwest Region. Dempsey joined Lone Star in 1931 and has been serving as superintendent of the pipeline department in the company's Dallas office.

The Lone Star Gas Transmission Division purchases, processes and trans-

ports the market place. "By naming Eastland a regional headquarters," Merritt said, "The Transmission Division now has more efficient use of oil transportation tools, work equipment and field office space and can greatly increase its service capabilities."

Official word of the establishment came at 3 p. m. Wednesday at a coffee hosted by the Eastland Chamber of Commerce at the White Elephant Restaurant when President Jeff Glazner presided. A number of Lone Star officials were introduced by Earnest Sneed, District Production superintendent. A great number of Eastland business and civic leaders, including Mayor James Reid joined in welcoming the important addition to Eastland's economy.

Among those introduced included Mr. Dempsey; H. H. Hanyan, manager Pipeline Department, Joshua; Terrill Nix, manager pipeline dept., Ranger; H. P. Monts, manager, pipeline, Abilene; Fred Scott, district manager technical service, Eastland; Sam R. Brewster, sr. foreman, pipeline dept., Moran; W. B. Lee, sr. foreman, pipeline dept., Breckenridge; R. G. Porter, plant superintendent, Pueblo; Jerry Carter, right-of-way agent, Eastland; Clyde Stansell, gas supply department, field rep.; James O. Zuppan, manager, distribution, Eastland; W. T. Eaton, manager, distribution, Ranger; Archie Robinson, manager, plants, Ranger; and R. D. McCrory, Sr., production foreman, production dept., at Cisco.

Mr. Dempsey spoke briefly,

and explained that the Southwest Region at Eastland is 1 of four established in the system to offer a combined effort and better service throughout the Lone Star system.

Combined here will be pipeline, compressor, gas measure-

ment and engineering which includes cathodic unit, dehydration, electrical and telephone linemen.

Headquarters for the region staff will be at the old Lone Star Production Dept. offices just off N. College St. on the

northwest corner of town.

The Southwest Region takes in an area bounded on the east by the Brazos River, on the west by Colorado City and expanded in this direction, on the north to above Stamford, and south to the coast.

Supervisory personnel under Mr. Dempsey have a combined total service to the company of over 230 years, he said.

The 15 districts which used to make up Lone Star have been replaced with the four regions implemented over the past two years.

Initially four families will locate here, another is expected in June and eight or nine by the end of the year, with more growth anticipated.

A "Welcome Lone Star" decorated cake, made by Mrs. Donna Brown, was served at the Wednesday afternoon reception.

READY TO COOK — Eastland Jaycee-Ettes display rattlesnakes skinned and ready to fry. From left to right: Mrs. Larry Rollins, Mrs. H. D. Alsop, Mrs. Jerry Buchanan, Mrs. Randy Butler, Mrs. Don Baird and Mrs. Richard Rossander.

The Eastland Parent Teachers Organization in cooperation with the State Health Department is sponsoring a mass Measles Immunization Program for all Pre-school Children and those currently enrolled in Grades 1 through 6 on Eastland Elementary School. All that is necessary for your child to receive the free vaccine will be for you to give permission by signing and returning the permission slip at the bottom of this page. The vaccine will be administered only to those students who return the signed permission to the school.

Preschoolers and all children over one year old are welcome. They should be there by 9:30 a.m.

Your Problems are our Business—

... or at least some of them are. For example, we Americans can't get along without the automobile. As a consequence, we have problems some of which may be very grave and expensive. So we look to insurance—which is strictly American—for what relief it will afford. It can't solve all of our troubles, but over the years, it has saved our customers an untold amount of money by simply having the kind of insurance that paid off when needed. Are you adequately insured?

CJC to Double Potential In 5 Years, Plans Show

Cisco Junior College will more than double its present capabilities in the next five years according to a master plan just submitted, President Dr. Leland Willis told members of the Eastland Lions Club at their regular luncheon meeting Tuesday.

With 1,170 students, 63 master-degreed instructors and an annual budget of \$1½ million, the school, Dr. Willis

said, "I prefer to call us a 'community college' because there's certainly nothing 'junior' about our operation," he said.

The three main areas are: general academic transferable programs, vocational-technical and other special projects.

With our master-degree minimum requirement for faculty, our students get, in most cases, better instruction than those in the large universities, where freshmen classes are often taught by senior and/or graduate students, the speaker pointed out.

Next year we'll be contracting vocational-technical courses for 11 public high schools in this area and our new voc-tech building, one of 18 on the campus, will help us provide this new service. The school has five new buildings and has gymnasium plans in works.

CJC's payroll exceeds \$600,000 annually.

Outlining the many assistance programs available, Dr. Willis said "Financing isn't an excuse for not going to college today. Any young person who wants to go to college can do so, if they really want an education. Just tell'em to talk to us."

Cisco Lions visiting with Dr. Willis at the Eastland meeting were Tom Stark, O. H. Kelly, Jack Ledbetter, Truman Kirk, and H. A. McCanlies. Other visitors were Herman Dempsey, regional manager for the Southwest District for Lone Star; and Jerry Nix, Lone Star Southwest District Pipeline Manager; and O. M. Boyle.

President J. B. Arther presided and Lewis Tiner will have the program next week.

Explaining that it cost \$800 a year to educate a full-time student, Dr. Willis said that the state pays \$575 of this and the remainder is made up in local taxes and in tuition.

Lightbulb Sales Chairman Bill Leshe announced that the Bulb Sale will be held soon and assortment packages will be sold for \$2.25 this year. Dale Bakker is advance bulb sales chairman.

Pollution Is Rotary Topic By Roy Smith

"It is a part of my job, as a plumber, to try to keep the water we have, from becoming polluted," said Roy Smith at the Rotary Meeting, Monday, March 29 at 12: noon, in the White Elephant.

Mr. Smith stated that the government is using its full power to try to place modern sewerage in towns everywhere. They are trying to get everyone to change from septic tank to sanitary tanks. Mr. Smith feels this would be disastrous to Eastland, and its water supply. "There is just not enough water to throw away. The water we have must be used over, and over, quotes Roy Smith to Rotarians.

Taken from a report Mr. Smith used as reference, he stated that there was absolutely no record of a septic tank resulting in any kind of pollution. This is taking into consideration that the tank is built and placed properly. Failure to be made properly, can be detrimental to ones health if not taken care of.

Carben, Olden and a few surrounding areas build their water supply, by using septic tanks.

Mr. Smith quotes "The Solution to Pollution is to dilute. Roy Smith feels that as stewards of this land, we each have a responsibility to it. He says, "I feel that if each person would do their best to make the land they leave in as good, if not better shape, than when he inherited it, we would have a happier, healthier world, in which to live.

CONVERSATIONS on CARPETING

Pete Brashier

By Pete Brashier
MAN-MADE BUT NATURAL

Today we are going to talk about acrylics, man-made fibers that most closely resemble the natural look and feel of wool. We will also talk a little about modacrylics, a term you've probably heard many times.

People often ask, "Why are acrylic fibers always compared to wool?" Like wool, acrylics don't soil easily. They are also highly resistant to crushing. Carpeting made of acrylic fibers tends to spring back from the pressure of heavy traffic. Because they resist abrasion, acrylics are extremely long-wearing. In addition, they're moth and mildew resistant and non-allergenic.

Many carpet owners actually prefer carpeting made of acrylics to carpeting constructed of natural fibers. For one thing, it's less expensive. You've also insured of uniform fiber properties and dimensions due to the scientifically controlled production of the acrylic fibers. Natural wool fibers vary a great deal in size as well as in their natural shades of grey.

As you shop for carpeting, you're going to hear modacrylics mentioned quite frequently. The term means "modified acrylics" and these are often used in blends with acrylics. This is one way of varying carpet construction to give a different or unique luster or texture.

Now that we've discussed those marvelous synthetics, you're ready to decide which one is exactly right for your home. Our trained carpeting experts will be glad to help you with your decision. Come in and talk with one of them today.

SNAKES ALIVE! 1,000 of them, totaling 803 pounds of rattlesnakes and copperheads captured in the area around Eastland for the first annual Eastland Jaycee Rattlesnake Round-up. Bill Ransburger, professional snake handler from Sweetwater, estimated that around 1,000 of the "Fat-test and healthiest snakes I have seen in a long time" were turned in during the two-day event held last weekend in the Eastland Sheriff Posse Barn.

Top prize money and trophies went to a team of Eastland men — Don McClendon, H. A. Collins, R. W. Kleiner, and Frank Koon. They turned in 326 pounds of snakes and received an award for snaring the largest copperhead. One of the members, R. W. Kleiner, received the only injury of the event when he was bitten on the hand while capturing

snakes in a den near Cisco. He was hospitalized in Graham Memorial Hospital for a short time.

Turning in 198 pounds of snakes was second place winner J. W. Morrison of Ranger. His team also had the largest rattlesnake, measuring 63 inches. D. C. Stapp of Breckenridge captured 178 pounds for third place honors and Dan Glascock of Merkel has 79 pounds for fourth place. Fifth place went to Bob Smith of Abilene, and sixth place to Jackie Hutcheson of Eastland.

The smallest rattlesnake was turned in by Mrs. C. R. Bear-den of Mingus and it measured 14 inches.

Approximately 600 people viewed the snakes and listened to talks given by Mr. Ransburger and his helpers as they worked with the snakes in the pit and explained various things about their habits and what to do in case of snake bite. Demonstrations on how to skin and use the various parts of rattlesnakes were also given. Eastland Jaycee-ettes handled the concessions and served fried rattlesnake to those brave enough to try it.

SISTER MARY SPIRITUALIST

Touch of her hand will heal you. SISTER MARY has the God-given power to heal by prayer. Everyone welcome at SISTER MARY'S home. What you see with your eyes your heart will believe. Are you suffering? Are you sick? Do you need help? Do you have bad luck? Bring your problems to SISTER MARY today and be rid of them tomorrow. She advises on all affairs of life. There is no problem so great she can't solve (how to hold your job when you have failed, and how to succeed, calls your friends and enemies by name without asking you a single word, and reunites the separated). Upon reaching womanhood she realized she had the God-given power to help humanity. SISTER MARY has devoted a lifetime to this work. From the four corners of the world they come to her. Men and women of all races and walks of life. Guaranteed to remove evil influence and bad luck.
