LOUISIANA DOCTOR CONFESSES LEROUX MURDER

ENIES FIRING HOT BUT SAYS HE AIDED PLOT

WIFE OF SLAIN MAN AND TRAPPER ALSO HELD IN LAKE TRAGEDY

(By Associated Press)
FRANKLIN, La., July 8.—A special term of court will be called soon to try Mrs. Ida Leroux, Dr. Thomas Dreher and James Beadle for the alleged murder of Mrs. Leroux's husband, James Leroux, District Attorney Emile Vuilleumet announced today.

Wife of Slain Man and Trapper Also Held in Lake Tragedy

(By Associated Press)
FRANKLIN, La., July 8.—Dr. Thomas E. Dreher, Morgan City physician today confessed to Sheriff Charles Peot that James J. Beadle had been murdered at his instigation as Leroux's rival in the fishing of Lake Palourde Friday night. Dreher, Sheriff Peot said, joined Mrs. Leroux in charging James Beadle, fisherman and trapper with the actual commission of the crime.

Woman Witnessed Murder

Previously Mrs. Leroux had told Sheriff Peot that she witnessed the killing of her husband by Beadle on Lake Palourde, but that after she saw her husband's corpse in his skiff, she turned back to her home, saying nothing of the matter to her neighbors. Three boats were on Lake Palourde on the night of the crime, Dr. Dreher said, asserting that Leroux had come for a boat ride, followed by Mrs. Leroux who was in another boat, alone. The third skiff was occupied by Beadle and himself.

Shot From Close Range

Dr. Dreher said that while he and Beadle talked, he pulled the skiff to within a few feet of the one occupied by Leroux when Beadle laid his shot gun across the bow of the boat and fired into Leroux's side.

Woman Denies Lure

Sheriff Peot said that Mrs. Leroux admitted writing to Dr. Dreher, but did not admit knowing that he was coming to kill her husband and denied luring Leroux to the lake for that purpose.

Instruction in aviation to those desiring to avail themselves of the service will be one feature of the Lubbock Aero Club, according to E. T. H. Oxford, president. It is likely, says Mr. Oxford, that the club will purchase a plane when the membership reaches sufficient number. The club is now composed of 29 members, and with an increasing number of requests being received daily the organization will in all probability reach a membership of 100 members within the next month.

U. S. ENVOY TO MEXICO HANDS IN RESIGNATION

SHEFFIELD TO QUIT AT WILL OF COOLIDGE HE SAYS TODAY

(By Associated Press)
RAPID CITY, S. D., July 8.—James R. Sheffield today gave his resignation as ambassador to Mexico to President Coolidge. The resignation is to take effect at the will of the president who has not indicated his intentions. Mr. Sheffield, however, has indefinite plans for returning to his post and upon leaving here expects to go to Europe for six weeks.

Wants Deny Being Recalled

The ambassador said today that he had not been recalled from Mexico because of the recent developments there in relation to the oil laws which it was clear he was concerned over. He said he came back to attend the Yale commencement last month.

Needs Good Rest

Mr. Sheffield said he needed a month's rest, he said, before he could be recalled to Mexico.

IS INJURED BY THREE MASKED MEN AT VERNON

Revolver in Play as Towerman Refuses to Signal Stop

(By Associated Press)
VERNON, Texas, July 8.—Although covered by a revolver and ordered to derail the northbound "West Texas" fast Port Worth and Denver passenger train, J. D. Ferguson, 74-year-old towerman at the Frisco-Denver crossing here, flashed the signal for the train to come ahead and frustrated what is believed to have been a plan to hold up and rob the train here early this morning. Ferguson was immediately attacked by three masked men who had forced entrance to his tower, and was knocked unconscious as the engine of train neared the tower.

Force Way Into Tower

The men knocked at the door of the tower this morning after the headlights of the train, which is due here at 1:45 was in sight. Mr. Ferguson struck him and one of them called out, addressing the tower man familiarly by his initials as "J. D." Mr. Ferguson went to the door and asked the names of the men on the outside before opening the door. As he did so, a revolver was thrust through a window nearby and Mr. Ferguson was forced to open the door.

Threatened by Death

"Threat the deal, or we'll kill you," one of the men said while the third stood at the door, revolver in hand.

# PIRATES ARE DETHRONED BY CUBS IN PRETTY PITCHERS' DUEL

## BUCS' RALLY IN NINTH STOPPED BY LIGHT RAIN

### GIANTS AGAIN GO DOWN BEFORE BROOKLYN IN HARD BATTLE

(By Associated Press)

The Chicago Cubs were leading the National League by a single percentage point this morning, having dethroned the Pirates.

The Cubs' 2 to 1 victory over the Buccaners which gave them the lead yesterday, came after a pitchers' battle well worthy of the two top teams it brought together. Rain as well as pitching played a part and if there was any partisanship among the elements they favored the Cubs.

**Shower Halts Game**

When a shower interrupted the game in the ninth the Pirates were in the midst of a rally that threatened the Chicago lead and Cubs supporters were not sorry when the score reverted to the eighth inning. Up to that point the game was a tight one with Dawson holding Chicago to three hits and Carlson granting the Pirates but four.

Pittsburgh has two more chances to end the Cubs' winning streak, which has run to eight games, and to win back the lead. In the last three game series between the two the Pittsburgh club came off on top.

**Robins Beat Giants**

In another hard fought battle between keen rivals, the Brooklyn Robins defeated the New York Giants 3 to 2, and threatened to push them out of fourth place. Ending a four game Giant winning streak the Robins made the most of Dazzy Vance's steadiness in the pinches to win, although out 3 to 4.

Two inter-sectional duels which marked the day's play went to the western clubs by wide margins. Hard hitting gave the St. Louis Cardinals a 12 to 1 decision over Boston and the Cincinnati Reds 11 to 4 victory over the Phillies. The Cards previously had lost six games in a row.

**Tigers Win Slugfest**

More hard walling appeared in the Detroit-St. Louis game, the only contest carded in the American league. Fourteen Tiger hits

## BANKERS SHUT OUT TERRYMEN

### MOODY SMITH IS RIGHT AND ALLOWS BUT ONE HIT IN GAME

Hurling no-hit, no-run ball, until the final inning, when Catcher Haley, of the Wholesalers, spoiled his record, Moody Smith, Banker right-hander, defeated the highly touted Wholesalers by a score of 1 to 0 yesterday afternoon, at Merrill park.

Terrific Terry, of the Wholesalers, took the mound for the losing squad, and while he allowed only three hits, was credited with the loss. The following is the box score:

## Harry Rice, Star Brown Gardener, Needs Only Poise To Make Him One Of Greatest Players, Says Evans

By Billy Evans

Poise is all that Harry Rice of the St. Louis Browns needs to be rated one of the star outfielders of the major leagues.

Poise in baseball is difficult to explain, mighty hard to define.

Poise means that a player must have sublime confidence in his ability without bordering on conceit. It means he must be able to accept the tough breaks and the good ones alike, therefore have the proper temperament. It means the ability to grasp situations quickly and take advantage of them.

You hear little of Harry Rice, first because he is a youngster just starting his third year in the majors; second, because as yet he hasn't been able to get the most out of the remarkable natural ability that he possesses.

Rice has all the physical assets to become a centerfielder of the Tris Speaker type. He is unusually fast. I doubt if there is a man in either major league who can step from the plate to first in better time. In the field his great speed enables him to cover a world of

territory.

I know of no player in the big leagues, with the possible exception of Bob Meusel, who has an arm that can compare with Rice. He gets great distance to his heavens and they are uncannily accurate. Baserunners take no undue liberty when a ball is hit in his territory.

Rice is a sure catcher, but he has yet to master the finer details of play that has always characterized the work of Tris Speaker.

Once Rice gets to know the opposing batters as Speaker does, thereby enabling him to play his man perfectly and save a step or two here or there in the proper direction as well as accurately sense distance and intuitively break in the right direction with the crack of the bat, he is going to share the headlines with the other outstanding stars of the game.

Rice, a sturdy athlete, who hits left-handed and takes a healthy swing, but does his throwing with the opposite wing, has been play-

ing professional baseball only six years. He began with Paris in the Blue Grass League in 1922 and was regarded as such a good prospect that St. Louis parted with all of 1000 simoleons for his services.

In those days Rice was an infielder, playing any position in the diamond, but being partial to third base. First, he was farmed to Danville in the Three-Rays League, then sent to Tulsa in the Western League on option.

Batting .403 in 34 games for Tulsa, he was considered ready for the big show and St. Louis recalled him at the close of the 1923 campaign.

During 1924 he played utility roles for the Browns. However, his ability to hit caused him to win a regular berth in the outfield. His batting average over the three years he has spent in the majors totals .325.

Once Rice gets confidence of the Cobb type in his all-around ability and doesn't let things of a minor nature irritate him, thereby throwing him off his stride, he's going to be a much talked about young man in baseball circles.

# TENNIS STARS BEGIN ANNUAL TOURNEY HERE

## SINGLES AND DOUBLES PLAY STARTS AT 9 O'CLOCK TODAY

With players from Amarillo, Childress, Snyder, Post, Plainview, Amherst, Slaton, Brownwood, Hamlin, San Angelo, Sweetwater, Abilene and Lubbock present and the Tech courts presenting a spick and span appearance, the fifth annual West Texas Tennis association tournament got under way this morning with 54 entries scheduled.

### Draw Held at 9 O'clock

Following the draw, which was held at 9 o'clock, play began in singles and doubles with all six of the Tech courts in use. Officials expressed the hope that all preliminaries in both singles and doubles would be played off by noon tomorrow.

Ray Mowery and Frazier McCrummen, of Lubbock, reigning doubles champions, will again team together in defending their title, won in 1925. A laying cup will be the award for the doubles winners while medals for champions, champion and the runner-up will be presented.

### Opening Rounds

In the opening rounds this morning several matches were featured with close play in both the singles and doubles. McCrummen and Mowery, defending champions, had a hard go with Johnson and Rogers of Amherst winning 1-6, 6-2 and 5-1.

Waters and Effer, another Lubbock doubles team, had difficulty in winning from Fartness and Hebery of Abilene, 4-6, 4-6 and 6-4. McKirnan and McDonald of Slaton won their opening match 6-1.

Both singles and doubles play continues throughout this afternoon and tomorrow. A large gallery will witness the contests this morning and more are expected for the afternoon and tomorrow.

Entries are: Slaton—Anderson, Taylor, Lanham, McKirnan and McDonald; Childress—Carter and Mithrie; Plainview—Hurlbut and Hanson; Lubbock—L. Mast, H. Mast, Whitesides, James and Charles; Water, Effer, Mowery and McCrummen; Hamlin—Ford, Blake; Post—Fartness; a. d. Deberry; Sweetwater—Mellory; Post—York; Abilene—Johnson and Rogers; Brownwood—Canady and Parks; Amarillo—Felsing; Snyder—Horn and Sparks.

## New Gas Pipeline Finished In Texas

GALVESTON, July 8 (AP)—The sixteen inch high pressure gas line of the Houston Gulf Pipe Line company has been completed from the Refugio field to White Point and Corpus Christi fields, a distance of thirty miles, it was announced here Thursday by company officials. The gas is delivered to the company at Refugio, giving a connection with the new gas fields with a daily flow capacity of more than six hundred million cubic feet of gas, it was declared.

## Johnson Resigns As President Of American League

NEW YORK, July 8 (AP)—Ban Johnson tendered his resignation as president of the American League today, effective on or before November 1, 1927, on earlier than request by the club owners in special session.

The text of Johnson's resignation: "After 34 years as your president, I hereby tender my resignation to become effective on or before November 1, 1927, on earlier should I see fit to do so. The compensation on end upon my retirement, Johnson's contract as league president had eight years to run at a salary of \$40,000 a year. He was the founder of the American league, with several associates, and founder of the Western League, parent of the present American league.

### Successor Not Named

No action was taken in naming a president to succeed Johnson and his resignation, it was said, at this time will be taken. It was said, it will be continued in health was considered to be the chief factor in the approaching retirement of the league executive although he said today shortly before announcing his resignation that he felt better than in the past few years and would be able to carry on.

### Resignation Accepted

The club presidents issued a statement: "The members of the American league greatly regret that after 34 years of distinguished service to this league and the game of baseball, Byron B. Johnson, finds it necessary to lay down the burdens and responsibilities incident to and connected with the office of president, secretary and treasurer of the American league. In accepting his resignation, effective November 1, the American league extends to Byron B. Johnson its good wishes and good will.

It is the general understanding that Johnson's active connection with the league will be terminated on November 1, possibly within the next few weeks as soon as the league's affairs are in shape for a successor to take hold.

## Fall Training Starts At Tech On September 6

The dump of cleared shoes in the gymnasium will resound in Lubbock again on September 6th, when Director of Athletics Edwin Y. Preland, of Texas Tech, will marshal his 1927 grid warriors for their opening practice session. It was announced here today. Planning a grueling practice period leading up to a stiff schedule of games, Coach Preland and his assistants will put the aspirants through two sessions every day until classes open to interrupt the program on September 19th. Practically every member of last year's team will be on deck to try for places and a large number of recruits are also expected.

### Officers Elected

MCKINNEY (AP)—New officers of the College club, elected recently, A. S. Legg, president, Chandler Atkinson, vice president, Byron Hope, secretary, treasurer.

## TERRIS MAY BE CHAMP YET SAY THE WISEACRES

### HIS PRESENT PAGE, IF CONTINUED, TO END AT TITLE BELIEF

BY EDWARD J. NEIL, Associated Press Sports Writer  
NEW YORK, July 8.—Bill Terris, long touted as New York's candidate to succeed Benny Leonard on the lightweight throne, has tried one full-strength right-hand punch with surprising results. So surprising were they that he now bids fair to realize his big ambition. At present he leads the pack "hot on the trail" of the champion, Sammy Mandell, the Rockford, Ill., fighter.

For the past two years, the speedy New Yorker, pride of the East Side Ghetto, has flashed a brilliant display of boxing skill and ring technique in his rise to title-contending position. But his bid for supreme honors in the 135-pound division has been taken with a bit of "fistic salt."

Ring sharps have accused the Ghetto boy of "dancing" his way past formidable opponents content to "jab and run" to earn a verdict. They said he willed under body punishment, had little or no flinching power in his right hand, and was not overstocked with ability to take a soaking and return to the "mat" with head up and fists flying.

Two fights within three months have changed all that. The first, a bitter seven-round victory over Billy Wallace, heavy-fisted Cleveland puncher, established Terris as a gamester. He rose three times to fight on with increased ferocity after vicious right hand punches had rattled his chin and dumped him, badly hurt, for counts of nine.

Punishment seemed to make Sid in that scrap and knock the science out of him.

The second battle—a sensational one-round knockout of Ruby Goldstein—not only vitrified his ability to "take it" but established him definitely as a right hand "slogger."

Ruby crushed a right hand to Terris' chin at the half-way mark of the round and Sid went down in a heap for a nine count. Fifteen seconds later the referee was carrying Ruby to his corner unconscious, victim of a terrific one-punch knockout.

Terris, jubilant at his decisive conquest of the formidable New York youngster, credits the comparatively new punching process to improved condition of his hands which he said, foreshadowed more victories by the same route.

### Flying Parson Is Given Suspension

BERLIN, July 8 (AP)—Berlin's flying parson, the Rev. Herbert Teubmann, who officiated at Tuesday's double wedding in an airplane, has been suspended from office by the evangelical church consistory, which rejects aerial marriages on the score that they are a degradation of a serious religious ceremony.

## Three Major Captains Plunk Out At Harvard As Traditions Of Old School Are Upheld By Professors

CAMBRIDGE, Mass., July 8 (AP)—Harvard, maintaining her tradition of education first, let the athletes fall where they may, has this season given an almost grim demonstration of her streak.

Three captains in major sports, football, baseball and hockey, failed to get their degrees. A fourth captain, a flaming red head and a former champion, too, upheld the tradition for the athletic body, however, by winning his degree, magna cum laude.

The unlucky ones, whose failure to get degrees crowned a disastrous year in the classroom for Harvard athletes, were Clement Coady, captain of the football team; Isidore Zarokof, captain of the baseball team; and William Ellison, captain of the hockey team. Therefore, the three young men, whose physical prowess brought them glory in the field of sports, must remain at the University until next January to qualify for their degrees.

"Red" Haggerty, track captain, was the conspicuous exception. He graduated with honors. Coady, Zarokof and Ellison had jugged along at a satisfactory clip all through their senior year, until they turned into the home stretch. But they were unable to clear that final hurdle—divisional examinations—and were disqualified.

Disaster overtook some of the athletes sooner, however, and two fell by the wayside in the first semester. The waterer boys, will make a lasting mark in his league baseball, unless I miss my guess.

## Paul Waner Has Everything, Is Opinion Of Bush

PITTSBURGH, Pa., July 8 (AP)—Paul Waner, of the famous Waner brothers of Ada, Okla., has demonstrated that there was no morning-glory aspect to his achievement last year, when he led the Pirate regulars at bat and finished close to the top of the National League list. Paul finished the 1926 campaign with the tidy mark of .335 but has been flying along ever since the 400 mark this season, driving in more runs than any other player in the league, besides contesting for the lead in extra-base hitting.

In the opinion of Manager Donie Bush of the Pirates, Paul Waner is one of the greatest natural ball-players the game has ever produced. Lloyd Water, sharing the Pirate outfield patrol with Paul, is "only a shade below" his brother, in Bush's view.

"Paul," says Bush, "is a finished star of the first class. He has everything. Lloyd, younger and less experienced, has the same capabilities but they haven't yet developed to their full extent. The waterer boys, will make a lasting mark in his league baseball, unless I miss my guess."

## Po-Tailors Lose To Auto-Barbers In Brratic Game

The Auto-Barbers could gather but a trio of safeties off the hurling efforts of Ribble at Tech park yesterday, but they managed to couple these base-hits with PO-Tailor miscue and win another game by the score of 4-1.

Stalaker, Mechanic Shaver pitcher, yielded five hits to the losing club but his playmates handled everything that came their way without an error, while the Hamilton 2b. was counting a half dozen miscues. Red Hamilton, PO-Tailor tosser, managed to shove the catching burden on R. Hule and get into the infield, playing at third base. He made two hits in a similar number of trips, one of which was a double.

### Stevens Reopening Store After Fire

Following very destructive fire of recent date at which time his stock of dry goods was considerably damaged, W. O. Stevens has had his claim adjusted by the insurance companies and his store will be opened again on Friday of next week.

Mr. Stevens said that while many articles were completely ruined, others were only slightly damaged, if damaged at all. However, he plans to stage a fire sale about July 15.

Summary of the game—Base on balls off Ribble 2, Stalaker 3. Two-base hits, Miller and Hamilton. Double plays, Miller assisted to Tippe; Hamilton, unassisted to Dowell. Hit by pitched ball, Ater by Ribble. Strike outs, Stalaker 4, Ribble 6. Umpire Bussey.

### No Haste Shown To Fill Vacancy

WASHINGTON, July 8 (AP)—Inquiries at the state department today as to the Washington government's plans as to the appointment of a new ambassador to Mexico were met only with the suggestion that the administration was looking around to find an exceptionally well qualified man but there appeared to be no haste.

The possibility that the post vacated by James R. Sheffield might not be filled by an immediate recess appointment was indicated in the department's attitude. Speculation whether the embassy would be left vacant for a time in order to improve further upon Mexico the serious view taken in Washington of the controversy over American rights as effected by the Mexican oil and land legislation recalled frequent reports in the past few months that Mr. Sheffield was to be withdrawn, all of which met prompt denial.

# Who's got the makin's?

THAT'S easy. P. A. has the makin's—the makin's of the best home-rolled cigarette that ever met a match. I'd better put that another way, because this cigarette never met its match in the home-made field. It stands alone, unmatched and unchallenged. You can prove it.

Just get yourself some Prince Albert and the makin's papers. Then do your little finger-exercise. Notice how easily this crimp-cut tobacco rolls. Doesn't flutter to the floor with the first little breeze. Stays put in the paper. But that's just an item after all.

Light up. Here's the big smoke-thrill. That cool, refreshing taste of good old Prince Albert. Mild and mellow as a morning in June. Mild, but with that rich, round body that makes every cigarette a smoke! If you've followed me so far, I can sign-off right here.

Maybe you've often wanted to smoke a pipe, but never were convinced that you could. I'd like to leave this thought with you: Prince Albert has done more for pipe-shy men than any other brand that ever was. It doesn't bite the tongue or parch the throat. I suggest you try Prince Albert.

P. A. is sold everywhere. And stands with every bit of bite and punch reserved by the Prince Albert process.

## Sugar

### ... the thing in canning

YOU'VE found that in the canning of peaches—or any other fruit—sugar plays an important part. It must be good—clean—pure cane sugar... for best results.

Thousands of housewives have learned to depend on Imperial Sugar. This sparkling white, pure cane sugar is related to the No. 1 sugar in one of the most modern refineries in the United States.

The most expensive filtration process is used in refining the new crystals, and they are vigorously washed with clear, Jersey well artesian water that requires no chemical doctoring. This gives a sparkle to the finely granulated crystals that is distinctive to Imperial Sugar. All of the sweetness is there—without the non-sweetening elements eliminated. Those who have made careful tests, find that Imperial Sugar goes farther—actually sweeter more with less.

Of course you want cane sugar—the Imperial trade-mark is your guide to the highest grade of cane sugar. Your grocer can supply you with Imperial Sugar in convenient 2, 5, 10, and 25 pound sacks.

Say Imperial—and be sure.

CHICAGO TRADING

CHICAGO, July 8 (AP)—Influenced by reassuring advices about black rust northwest, wheat averaged lower early today. Opening 1/2 cent decline to 3-8 cent advance. Chicago wheat underwent a moderate general set back. Corn, oats and provisions were relatively strong, corn starting unchanged to 1/2 cents higher, and subsequently showing a general upward trend.

BELLANCA

Commander Byrd and his crew also are returning to the United States.

Levine Makes Channel Jump
LEBOURGET, France, July 8 (AP)—Clarence D. Chamberlin, New York to Germany flier, said good bye to France today when he piloted the trans-Atlantic Bellanca monoplane Columbia, probably for the last time, into the air from the civil flying field here, headed for London.

Beside him sat Maurice Drouhin, French long distance flier, who if all goes well, will fly the Columbia over the Atlantic and back to Roosevelt field, New York, some time in August.

Levine Makes Trip
Charles A. Levine, owner of the plane, who will accompany Drouhin in the attempt, also went along on today's hop. He had found a few inches of space, just enough to let him lie down comfortably on the gasoline tank. The start was made at 12:32 p. m.

Mrs. Chamberlin and Mrs. Levine waved encouragement to their husbands and then the former entered another imperial airway machine to follow the Columbia to Crofton field, London. Mrs. Levine had planned to go, but decided not to at the last moment.

Before starting, Drouhin told the Associated Press he was most happy at the opportunity to pilot the Columbia on the return trans-Atlantic flight. "I am delighted," he said. "Of course, I would have preferred to go in my own plane with Lebriz, my own navigator, but it would take much longer to get my ma-

chine ready than to tune up the Bellanca plane." To Start in August. He said he would start some time in August, after the arrival of John Carlis, chief mechanic of the company that built the Columbia who is bringing spare parts.

In saying his farewell to Paris, Chamberlin was reticent and seemed almost downcast that he was about to take his last flight in the plane that had carried him across the ocean to a new world's distance record.

When camera men asked him to pose with Levine and Drouhin in front of the plane, he retorted: "I am not going to make the trans-Atlantic flight; I am just going to do my dirty work." Then he grinned widely, and took his place with the others.

Bellanca Returns To French Field

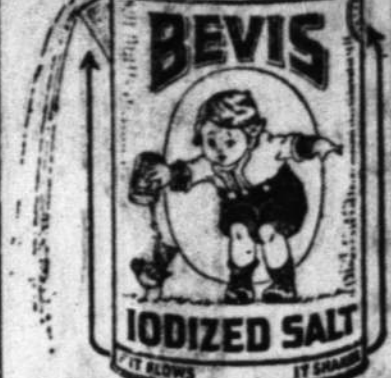

PARIS, July 8 (AP)—The monoplane Columbia, with Maurice Drouhin, the French aviator, as passenger, arrived at Le Bourget from Crofton, England at 8:05 p. m.

Service Stations Closed In Strike

CHICAGO, July 8 (AP)—Service stations of all the larger oil companies in Chicago and suburbs were ordered closed today by the companies after a strike of station and tank wagon drivers of the Sinclair Refining company had been called by union officers. The other companies said that no notice of the impending strike was given although negotiations on wage demands had been in progress.

read me as their enemy. Trusted friends with whom I have conferred recently have assured me in all sincerity that in their opinion the character of the charges and insinuations made against the Jews, both individually and collectively, contained in many of the articles which have been reprinted periodically in the Dearborn Independent and have been reprinted in the pamphlets mentioned, justifies the righteous indignation entertained by Jews everywhere toward me because of the mental anguish occasioned by the unprovoked reflections made upon them.

**Personal Attention**  
This had led me to direct my personal attention to this subject, in order to ascertain the exact nature of these articles. As a result of this survey I confess that I am deeply mortified that this journal, which is intended to be conservative and not destructive, has been the medium for resurrecting exploded fictions, for giving currency to the so-called protocols of the wise men of Zion, which have been demonstrated, as I learn, to be cross forgeries, and for contending that the Jews have been engaged in a conspiracy to control the capital and the industries of the world, besides laying at their door many offenses against decency, public order and good morals.

**Not Nature to Insult**  
Those who know me can bear witness that it is not my nature to inflict insult upon and to occasion pain to anybody, and that it has been my effort to free myself from prejudice. Because of that I frankly confess that I have been greatly shocked as a result of my study and examination of the files of the Dearborn Independent and the pamphlets entitled 'The International Jew.'

I deem it to be my duty as an honorable man to make amends for the wrong done to the Jews as follows: I have engaged in the task of retracting so far as lies within my power the offensive charges laid at their door by these publications, and by giving them the unqualified assurance that henceforth they may look to me for friendship and good will.

**Report Of Suit Settlement Denied**  
CHICAGO, July 8 (AP)—Aaron Sapiro, whose objection to anti-Jewish material published in the Dearborn Independent took the form of a million dollar libel suit against Henry Ford and others, is now in Saskatchewan, Canada. His law partner, Robert S. Marx, said he had heard nothing of a rumored settlement out of court of the libel suit.

Mr. Ford's statement is very greatly belated. This letter would have been very much greater to

**Publication Of Statement Planned**  
DETROIT, July 8 (AP)—Negotiations looking toward the publication of Henry Ford's statement that all articles in his Dearborn Independent hostile to the Jewish people had been ordered discontinued, have been going on for some time, William Henry Gallagher, chief counsel for Aaron Sapiro in the latter's libel action against Mr. Ford, said today.

**Sapiro Pleased At Ford's Action**  
SASKATOON, Sask., July 8 (AP)—Deep satisfaction at the reported withdrawal of attacks made on the Jews through Henry Ford's Dearborn Independent, was expressed here today by Aaron Sapiro of Chicago, who stated that negotiations for the settlement of the \$1,000,000 libel suit against Ford were in progress.

**Victims Of Double Shooting Buried**  
FORT WORTH, July 8 (AP)—Simple funeral services were held today for both Frances Hooker, 19, and her sweetheart, Homer Bonds, 23, and they were buried in the same cemetery. Their deaths occurred late Thursday following a double shooting early the day at the home of the young woman's sister, where Bonds had called to see her on his way to work. The young persons were alone at the time the shots were fired. They had been sweethearts for several years and friends ascribed the shooting to jealousy, and misunderstandings about engagements each had with other persons. Bonds was a star athlete in high school and college.

For The Gods

No authority on the classics of
ancient Olympus has ever reported
how often the gods had stomach
aches, calling such rich stuff as
honey and ambrosia the way they
did, but if these gods were anything
like our own Lindbergh, they
relished now and then an order of
ham and sunny side up, a good cup
of Java and a side of home fries.

Paris and sandwiches. If the St.
Louis lunch didn't stick his valves,
nothing will ever stick 'em.
In the name of long suffering
humanity, it is to be hoped that
there was some Samaritan in St.
Louis with common gumption
enough to take the poor kid out and
buy him a hotch of beans, a plate
of hash, or some decent fried
steak, mashed potatoes and gravy,
succotash, and pie.

Bait An Issue
With farm relief essential, with
the Geneva sums conference just
going into action, with an election
only a little more than a year away,
with the Chinese situation darkening,
with Nicaragua, Tegucigalpa and
Mexico all to be watched, with an
extra session of Congress im-
perative, it seems that there is
enough work in store for any num-
ber of able heads and unidle hands
to take care of.

On top of all these things, how-
ever, President Coolidge has seen fit
to thrust one more issue, thereby
making the situation pregnant
indeed. This is his stern ultimatum
to each South Dakota trout with
worms. Ignoring the presence of
artificial flies, he has waded into the
trout stream, with an agenda of
angeworms, and proceeded to
catch fish. Senator Borah said
he'd, quick to check the adminis-
tration of any weakness, have
naturally reacted to the episode, and
denounced this nefarious practice
with characteristic vigor.

Flapper Fanny
The president's southern policy
in this serious matter is no doubt
dictated by the soundest economy,
but in a situation of this kind,
with foreign diplomats watching
every move, the presence of the
country is at stake. If the Coolidge
movement for a third term is
entirely exploded, it will no doubt
be traced back to the one undiplomatic
move of the president's whole
political career—his insistence on
wading for his fishhook.

To Be First
In the never-ending competition
to be first at something or other,
there is an inevitable crowd of
followers-up and second string
grogg to trail along after the heroes.
There was the first man to swim
the channel, the first woman to
swim the channel, the first mother
to swim the channel, the first father
to swim the channel, and now,
it is reported, we are to have the
first twin to swim the channel, for
the thirteen-year-old Zitenfield
sisters are to make the attempt at
least.

Should they succeed, there is
still room for the other glory. We
have not yet had the first grand-
mother to swim the channel, nor
the first grandfather to swim the
channel. The first mother and son,
or father and daughter combina-
tion can't tempt it, and the first
entire family to do the trick will
be worth \$1000 a week or more on
any vaudeville stage.

THE PLAINSMAN

Back in days gone by the then
small army of prohibitionists often
used as an argument for their
views the fact that people closest
to the source of intoxicating liquors
were nearly all personally op-
posed to their use. The statement
still holds good in El Paso. The
Plainsmen believe. Across the
river from El Paso lies sprawling
in the sand the picturesque and
boom-carated little Mexican town
of Juarez. Everyone in this part
of Texas knows that Juarez is one
of the most popular watering
places of the Mexican border.
Everyone likewise knows that
thousands of people visit El Paso
each month just to have the oppor-
tunity of going to Juarez for the
strange siphon of the border
city and, incidentally, to list one
foot upon the rail and order up.
Convention after convention is vot-
ing to assemble in El Paso even
though that city is located far
out of bounds for the same reason.
In other words, The Plainsmen
is attempting to point out
that El Paso is getting millions
of dollars of business every year,
due to its proximity to booze, that
it is ordinarily would not get. Tak-
ing this indelible fact into con-
sideration do you suppose that the
American white population of El
Paso would ever vote to nullify or
even temper the prohibition law?
The Plainsmen is sure the major-
ity would not, which proves in one
case, at least, that those who are
opposed to liquor do most of us do
not care to have it brought to
them. This dissertation is neither
an argument for or against pro-
hibition, it merely points out what
prohibition has done for one city.

Grains of wheat, taken from
an Egyptian tomb which had
been closed for 4000 years,
were planted by a Welsh farmer
and grew to an exceptional
height. We have heard before
that some grain products im-
prove with age.

Postmaster, postoffice clerks, su-
pervisors and rural carriers have
held a meeting in Abilene, most of
them absent from home for three
days. Gosh what a bunch of vaca-
tion postal cards must have been
waiting for them to read by the
time they got back!

A number of ejim, conserva-
tive Lubbock business men,
members of the Rotary club,
admitted their boyhood ambi-
tions in public statements re-
cently made when that organiza-
tion held its regular weekly lun-
cheon. From all reports there
would have been a great sur-
plus of railroad engineers, fid-
elity, firemen and cowboys had
they all followed their chosen
bents.

The new Turkish government has
forbidden the guests Anatolian
system of male gnomes, beating the
drum and following the hapitals.

The Plainsmen wonders if the
government has extended its au-
thority to take in the tradesmen
too?

It's an ill wind that blows nobody
good, all right. Before the Snyder-
Gray trial The Plainsmen didn't
know what a "wash-weight" was,
but he's been living all these years
content to call them "winder
weights."

Sketch Your World Exactly As It Goes."—Byron

WASHINGTON LETTER

The Postmaster General's Unofficial
His West-Southern Political
Boss is Negro, Jew and
Catholic.

BY RODNEY BUTCHER
NEA Service Writer
WASHINGTON, July 8.—When
Postmaster General Harry New
commissioned Commander Richard
E. Byrd to carry the air mail across
the Atlantic, he dream began to
come true in a big way.

New, reminiscing the other day,
recalled that as long as ten years
ago he had discussed with Byrd
the feasibility of an air mail ser-
vice and other angles of the fu-
ture of aviation. Both had confi-
dence in the air mail idea.

Byrd was still a naval aviator
and New was then a senator from
Indiana, trying to sell air mail
legislation to congressmen who
wouldn't take it very seriously.

The postmaster general claims
virtual paternity of the air mail
service. He nursed it in infancy
and brought it up. It may seem as
if he had suddenly laid the child
on somebody's doorstep by sur-
rendering the service to private op-
eration, but New doesn't feel that
way. It's still the government's
child, that's being carried, and he
predicts a great future for the
service.

Your correspondent developed a
certain respect for New when he
found him in his office, on a warm
day, with his vest completely un-
buttoned. Other cabinet officers
are not to be seen in such a state
of undress. Now, if New would only
shed his vest completely—

Interesting characters come to
Washington from Louisiana, the
home of Senator Joseph Eugene
Ransdell, whose dignity and per-
sonal rectitude are so great that
he is called "Saint Joe," though not
to his face.
For instance, there is a Congress-
man Whitnell Pugh Martin, who
has served one term as a Progress-
ive, one term as a Republican and
four terms as a Democrat. He will
continue to serve as a Democrat
in the Seventeenth Congress. It is
explained on his behalf that al-
though Republican candidates in
Louisiana are as scarce as chicken
in a real stew, his district develops
markedly Republican tendencies
every time there is talk of reduc-
ing the sugar tariff.

Then there's Walter Cohen, the
state's Negro Republican boss and
collector of the port at New Or-
leans. Cohen, whose father was
Jewish, has solidified the vote of
Louisiana's Republican delega-
tion in his pocket, so he is one of those
southern Negro politicians who can
have anything he wants. Inciden-
tally, he is credited with consider-
able ability.
Walter Cohen was in Washing-
ton when the Ku Klux Klan action
was at its height.
I sure hope those Klans never
get after me, because it will be
hard going, he remarked.
"I'm a Negro, a Jew and a Cath-
olic."
All of which, somehow, was true.

TWO HOMES A DAY
During June 54 new homes with
a total valuation of \$164,153 were
started in San Angelo. In one sin-
gle month more structures to take
care of the ever increasing popu-
lation of this growing city of West
Texas.

The mere fact that this large
number of homes was started would
indicate a healthy increase in popu-
lation. But there is a more sig-
nificant angle than that to be con-
sidered—It is this: The population is
stable. It intends to stay here. The
people are planning homes of their
own—and in most cases are con-
structing homes that would do any
city justice. This then would indi-
cate that San Angelo's population
is in a home loving and desirous of
living in splendid homes. Also it
proves that the citizens have faith
in the development of the city, and
plan to live here permanently.

With the construction of the
fines of paved streets provided for
in the recent bond issue, an added
impetus will be afforded real estate
dealers, home builders and the city
in general.—San Angelo Standard.

TRIPLE RACE PROBLEM
A novel feature of the recent
refugee camps established in the
flooded areas of the lower Missis-
sippi valley is that in some places
there were three separate camps
for white Americans, colored Amer-
icans and Mexicans.

Thus the race problem grows
complicated. Instead of a two-fold
problem, it is now three-fold.
There are fewer negroes but
more Mexicans. As negroes have
moved north, Mexicans have pour-
ed in and taken their places in the
southwest and middle south.

There are said to be from 1,
500,000 to 2,000,000 Mexicans of
mingled Spanish and Indian blood
—the latter predominating—now
living in the United States. The
line of demarcation between them
and the native whites is not so
clean-cut as between white and
blacks, but it is pretty definite in
some communities. It brings new
social problems that cannot be ig-
nored.—Gainesville Register.

CHERCHEZ LA FEMME!
Twelve women were graduated
as mechanics from an eastern
school. The cutter pin, it seems,
has replaced the hairpin. The
trades are becoming so crowded
with the ladies that a man never
knows whether he's marrying a
carpenter or a hod carrier. With
a score of women plumbers in New
York, the trades are becoming so
crowded the next thing they'll be
taking up probably will be ditch
digging. With the fair sex turn-
ing more and more from fur-bows
to fags, we expect to read any day
now the headline: BABY BOIN
IN SMOKING CAR. Some day a
young miss is going to leave col-
lege with the intention of doing
housework. She'll be a heroine.

George Washington sponsored
aeronautics, the historians not re-
pent. Surely, he sent a whole Brit-
ish army up in the air.
Somebody steps up to predict the
end of the world in August. Girls
and boys could a better time have
been chosen?

IN NEW YORK
SEE-SAWING
and
DOWN BROADWAY

NEW YORK, July 8.—Pulsar-
tude is perhaps the most demand-
ed commodity in the New York
market.

Beauty, attractiveness, trimness
and just plain prettiness are to be
had in job lots, and most business-
men, from the Broadway show to
the arm-chair lunch counters, avail
themselves of it.
One of the first admonitions to
the young woman rapping at Man-
hattan's gate is "look your pretti-
est."

The entire city, from ghetto to
Brook, is permeated with the idea
of "looking swank." The windows
of Avenue A on the East side re-
flect the styles of Fifth Avenue
and out from the spider-webbed
and soot-blackened doorways of
drab tenement blocks come the
daughters of the immigrant fami-
lies, their hair worn in the latest
bob and their clothes, though of
cheaper material, bear a marked
similarity to the expensive modes
of the moment.

Advertisements almost invariably
specify "neatness and chic," and
this goes from stenographers to tel-
ephone operators.
The "dollar-down-and-dollar-a-
week" places reap a harvest from
this condition. Most Sixth Avenue
business places cater to installment
plan trade and tens of thousands
of working girls are on their lists.
Fur coats are frequently worn here
long before they are paid for.

It is estimated that there are
some 500 applicants a day to the
"beauty clinics." These are the
"beauty schools" where cosmetic
courses are given to students who
hope to get work in beauty parlors.
They do their experimenting on
women and girls who enjoy treat-
ments free, or very cheaply, in re-
turn for playing the role of custom-
ers.

Almost every institution de-
mands trimness in dress. In the two
larger movie palaces of Broadway
the ushers are given regular mili-
tary training. One employs a for-
mer officer of the Marines; another
has an ex-West Pointer. Each day
they drill and, at the opening of a
theater, they march in like military
cadets. Their department
during the show is similarly clock-
worked.

In the chain restaurants the girls
change costume styles at intervals
of every few months. Now it will be
demure blue with natty white ap-
rons and caps; then it will be taw,
with darker brown aprons and caps.
At the present it is immaculate
white with a hint of blue trimming.

Nursemaids in the Park Avenue
and Central Park hotels are out just
now in a new summer uniform that
is not unlike that of the hospital
nurses. The vogue for this costume
seems to have spread rapidly un-
til, within a single block, I passed
ten or more, each dressed exactly
like the other.
Cafes have costumes of doormen
and waiters to match their "atmos-
phere" and everything from Russian
cosaks to Japanese kimonos may
be found.

War On Mosquitoes
Meets With Success

AUSTIN, Texas, July 8. (AP)—
Gratified by success of the cam-
paign against mosquitoes sponsored
by the state department of health
during June, Dr. J. C. Anderson,
health officer, has promulgated a
final set of suggestions for use in
any localities that may have failed
to make the "war" successful.
Entitled the "last work on mos-
quito control," they are:
1. Drain small pools and puddles.
2. Clean out and straighten ditches.
3. Destroy all buckets, cans, dis-
card the casings, bottles and any-
thing capable of catching water.
4. Oil water barrels, ponds, grassy
marshes and ditches of water that
it is impractical to drain. Oiling
should be done once a week and
after every hard rain.
5. Put minnows in watering tanks,
ponds and underground cisterns.

PORTO RICANS WANT FREEDOM

WANT TO RETAIN ALL CHARACTERISTICS, BUTTE SAYS (By Associated Press)

AUSTIN, Texas, July 8. (AP)—Regardless of the divided Porto Rican opinions as to how their government should be run, all are agreed in the wish to perpetuate their own individual national character, and not become Anglized, Dr. George C. Butte, attorney general of Porto Rico says here.

Dr. Butte, former dean of law school of Texas University, is here on his vacation, and has been mentioned as a prospective president of the institution to succeed W. M. W. Spilawn, resigned.

Opinions Differ. "Some Porto Ricans," Dr. Butte said, "think they should have an autonomy, others a state, but they all want to retain their individual characteristics and don't want to be made Anglo-Saxon."

He reviewed the pressing national problems as to the future of government, how to educate the natives, how to conserve natural resources, since the mahogany and walnut forests have been depleted, has turned efforts to intensified agriculture, including raising of sugar cane, tobacco and coffee.

Porto Rico, he said, has 1,400,000 people or an equivalent of 28 persons per square mile. These include 200,000 negroes, 200,000 mulattoes and 1,000,000 Spaniards, who dominate the language and customs.

Lack of natural resources, since the mahogany and walnut forests have been depleted, has turned efforts to intensified agriculture, including raising of sugar cane, tobacco and coffee.

Languages Vary. Attempts at education find the Anglo-Saxon and Latin civilizations clashing, however, the students are obliged to turn suddenly to English. Proceedings in the judicial courts are in Spanish, while those in the federal are in English.

"There is the clash," Dr. Butte continued, "between the old Portuguese idea of labor and the ideas championed by the American federation of labor. The former makes labor of the servants while the other frees them from bondage."

Fearing that the birds would become a menace to crops, Australian officials sent a party of armed men, with orders to shoot to kill, in search of native English sparrows reported to have escaped from the steamer Calantha.

Johnston Named Senior Officer Of Brotherhood

CLEVELAND, Ohio, July 8. (AP)—Alvanley Johnston, grand chief engineer of the Brotherhood of Locomotive Engineers, and the senior officer of the brotherhood under a reorganization plan was unanimously re-elected for a term of six years at triennial convention here last.

Johnston, once a coal boy and engineer with the Great Northern railway, rose to be Great Northern chairman in the brother organization and was named grand chief engineer in 1925.

The convention's action tonight automatically abolished the offices of president, first and second vice president and secretary-treasurer, which were doomed to go under the reorganization scheme that was voted by the brotherhood last week.

William B. Prenter, 72, who succeeded to the presidency on the death of the late Warren S. Stone was relieved of all executive capacity and full executive control was invested in Johnston.

Louisiana May Lose Federal Road Aid

BATON ROUGE, July 7. (AP)—The state of Louisiana is confronted with "a possible withdrawal of federal aid funds for state highways" if it fails or refuses to construct the "Chef Menteur" and "Rigoleta" bridges, attorneys for the Louisiana highway commission declared today in their answer to the petition of Dr. John K. Griffith of Shreveport, who is seeking an injunction in district court here to prevent the commission from proceeding further with the bridge projects, bids for which were received yesterday.

Rice constitutes the principal item in the diet of at least one-third of the world's inhabitants.

# RUSH OF HOGS TO MARKET IN STATE HALTED

STAMPEDE TO SELL IS BELIEVED STOPPED BY GOOD RAINS

(By Associated Press)  
FORT WORTH, July 8.—That the hurried shipment of hogs to market, which for a period, notably during the recent drought, threatened to deplete the porcine population of Texas, may have been checked to the great advantage of the state is deduced by observers here from figures released by the Fort Worth Stockyards company.

Before the rains about the middle of June, the rush to market hogs assumed the proportions of a stampede, receipts at this principal market of the state breaking all records, but since the general precipitation receipts have taken a decided drop, which it is pointed out, cannot be attributable altogether to market fluctuation.

Continued in June  
The heavy movement to market which began in January of this year and reached a peak in March when 47,988 hogs were received here as compared with 23,124 in March, 1926, continued during the first two weeks of June, 4,867 hogs arriving here during the week ending June 13, the day of the general rains. During the week ending June 20, immediately after the rains, only 1,468 hogs reached this market, and the following week, ending June 27, 2,726 hogs arrived, observers pointed out.

"Because feed stocks were getting low and, as a result of the drought, prospects for grain and new feed were decidedly poor, hog raisers were becoming chary of the situation, and desirous of ridding themselves of hogs," was the explanation of the movement advanced by Col. C. C. French, agricultural agent for the Fort Worth Stockyards company and Belt Line railway, and an authority on hogs.

Broad Sows Included  
In many cases farmers were disposing of broad sows for which they had paid \$40 to \$50 and sometimes more, as mere butchers, thereby, seriously crippling their

chances for profitable hog raising in the future, it was said.

"Prices are fair, grain prices are high, and the hogs are fat; therefore let us sell," was the reasoning of the average farmer, observers here declare.

But the opinion that the marketing has been checked is not unanimous among authorities here, for others, while admitting that hog receipts are considerably less since the rains, believe that the marketing movement will continue on account of high grain prices which make it unprofitable for most farmers to retain hogs. The fu-

ture will depend on the grain prices these persons contend.  
High Prices Seen  
All are agreed, however, that unless the dumping has been checked there probably will be an era of hog scarcity and high prices, and raisers who have contributed to the one unloading their supplies on a full market will be unable to take advantage of the other. Packers, sensing the situation and familiar with the extreme fluctuations of the market, are said to be filling their cellars with meat, purchased at low prices, for the higher price era possibly in the offing.  
The packers do not welcome the stampede, even with its low prices,

however, well informed persons declare, for much of their careful work of the past year in building up the hog supplies of the state to insure a steady, normal market may be undone. Much of the profits which Texas farmers have reaped the past year must fairly be attributed to packers' efforts to increase the hog population.

On January 1 of this year there were about twice as many hogs in Texas as there were in the same date, 1926, figures being 2,300,000 as against 1,200,000. The big increase came from the offspring of about 80,000 bred gilts which the packers helped to distribute last year. It is said here.

What the farmer should where possible, experts here say, is to keep a common sense supply of hogs, especially the bred sows, possibly turning them out to pasture while the grain prices are steep and maintain a normal, year-to-year marketing movement which would result in profit to seller and buyer alike in the long run.

## Senior University Planned At El Paso

AUSTIN, July 8 (AP).—Dr. H. Y. Benedict, dean of the College of Arts and Sciences of Texas university, left today for El Paso to confer with officials of the university branch school of mines as to expansion of that institution into a senior university through the \$100,000 extra appropriation made by the fortieth legislature.  
Dean Benedict also will investigate the feasibility of Mount Franklin, near El Paso, as a site for an astronomical observatory. The University of Texas was bequeathed about \$1,000,000 for an observatory, in the will of the late W. J. McDonald of Paris, Texas. Nothing came of inspections made recently of hills about Austin as possible observatory sites.

## PECAN MEN TO HOLD SESSION

MEDAL IS OFFERED FOR MOST OUTSTANDING ACCOMPLISHMENT

(By Associated Press)  
GONZALES, Texas, July 8.—A medal for the person who has done the most outstanding work for pecan culture is to be presented at the annual convention of the Texas Pecan Growers' association here July 12-14. The medal will be presented on the evening of July 13 at a banquet to be held at the Gonzales county fair grounds and governor Dan Moody has been invited to make the presentation.

National Men to Attend  
Officers of the National Pecan Growers' association and National Pecan Growers' exchange will be among prominent speakers on the program. Representatives of state and federal departments of agriculture and pecan experts from numerous colleges will speak on many phases of pecan culture.

The convention will be in the nature of a school for all interested in this industry and an attempt will be made to solve some of the problems confronting the industry.

The convention is fostered by the South Texas Chamber of Commerce and the Gonzales Chamber of Commerce, and this city was selected because of its great output of high grade pecan which last year totaled 5,000,000 pounds and netted the growers more than \$550,000.

The state officers are: T. H. Ridgeway, San Antonio, president; Prof. J. A. Evans, Arlington, vice president; Oscar S. Gray, Arlington, secretary-treasurer.

Exhibit Planned  
Some of the interesting features of the convention will be exhibits, some of which will be from San Saba, Seguin, Lockhart, Cuero, Gonzales. The collection of Prof. Price of the University of Texas will be an interesting exhibit and there will be others from the national association. F. T. Ramsey, Tyler Nursery, Ross Wolfe, Mahan pecan exhibit, Monticello, Florida, and exhibits from manufacturers and pe-

can grading and shelling machinery.  
There are many problems confronting pecan growers which will be discussed at this convention—among which are, the overcoming irregular bearing, making trees sure producers annually, selection of suitable varieties for different localities; finding means for eradicating case borers; eradicating pecan scab; finding adaptable soil; developing marketing; top-working and developing native groves.

## Prosperity Shown In Bank Statements

SAN ANTONIO, July 8 (AP).—The general prosperity of Southwest Texas is reflected in figures released by San Antonio banks Thursday showing that deposits in the last six months were \$9,000,000 larger than for the first six months of last year. The opening of the Federal Reserve bank here is expected to enlarge this figure considerably in the next six months. Total deposits were \$73,251,016.79.

## Here's a New SALMON Delicacy

Try These Ideal Hot Weather Dishes:

DEMING'S JELLIED SALMON  
Soften 1 tablespoon granulated gelatin in 2 tablespoons cold water; add 1/2 cup of boiling water, 1 tablespoon lemon juice, seasoning; strain and cool until it begins to stiffen, add 1 cup DEMING'S SALMON, flaked, 1/2 cup chopped celery, 2 tablespoons peas. When stiff fill individual molds and chill. Serve with mayonnaise and sliced olives.

DEMING'S SALMON CANAPES  
DEMING'S SALMON Canapes make a nice first course for a bridge luncheon. With a cookie cutter cut bread a quarter of an inch thick, spread with butter and brown in the oven. Around the outer edges arrange chopped mushrooms, next chopped white of an egg, then the yolk of the egg after pressing it through a sieve. In the center, DEMING'S flaked Salmon. Garnish with parsley.

Canned SALMON is the best food value at the lowest cost of anything in cans.
