The ...s coming was received ...o have the club meet ...he came by stage from ...ng City and only telephoned ...ast minute.

...sident George E. Webb, of ...ub and Dr. John Abe ..., chairman of the railroad ...ittee, met Mr. Miller ...sday night and discussed ...th him in part the company's ...sires and what they would ...pect should the line be con...tructed through Tom Green county and this city. The proposition made by Mr. Miller is in substance: That San Angelo shall raise a bonus of $60,000, secure the right-of-way through the county and depot grounds in San Angelo; or that $100,000 worth of stock in the company be taken by Tom Green county citizens.

Mr. Miller stated that it was the intention of the road to have engineering forces in the field by the middle of December, and that work was to be rushed. That it would take about two years to complete the line from Big Springs to this city. Also that proper encouragement from San Angelo would mean that work would start at an early date and be rushed from both Big Springs and San Angelo to complete this portion of the road.

At the meeting Thursday evening Mr. Miller stated that he was to be at Sterling City Friday night and a meeting would be held there. Sterling City has been asked to raise a $10,000 bonus. Big Springs ... to raise an amount similar that proposed to San An... with conditions the same. ... citizens there have already s... scribed $4,000 to have the s... and have the whole thing carefully and rightfully considered every citizen in San Angelo should now prepare to be at the court house at 8 o'clock next Tuesday evening.—San Angelo Standard.

...t on the work. Mr. ...l of some of the men con... with the road. E. P. Spears, ...esident of the new company, is a prominent railroad contractor and a railroad builder. He is associated with Col. C. C. Slaughter, of Dallas, who is now working on a line partly constructed between Dallas and the Panhandle.

After the matter had been thoroughly discussed Mr. Webb and Dr. March agreed that the matter should be put before the public of this city and the Business Club. They set next Tuesday night at the court house as the proper time to bring the matter up. It is planned to make the meeting a representative one and to have the propositions of the West Texas & Northern Railroad carefully considered. To make the meeting a success every citizen in San Angelo should now prepare to be at the court house at 8 o'clock next Tuesday evening.—San Angelo Standard.

He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption." COTTON JUMPS 100 POINTS.

Ginners' Report Sent Futures Up a Glimmering.

Tuesday morning of last week before the ginners report, showing only 7,498,000 bales ginned up to Nov. 14, was received, January futures were quoted at 10.16, but when the report came in the market went up to 11:70 or 109 points at one jump. December and March quotations went up almost as many points and spots advanced half a cent.

The ginners report shows less than a 10,000,000 bale crop and there is no knowing how high cotton will go.

Quite a number of Brownwood people who play the boards were in before the big jump and realized a handsome profit.—Banner Bulletin.

Orient Will Come.

Jim H. Allison, of Coke county, was in the city Friday mingling with the carnival crowds. Mr. Allison is on the right of way of the Orient a mile from Tennyson and was one of the first men to work on the grade with his teams. He says that now the Orient will not have the trouble they formerly had in getting men to work, as the cotton picking season is over for the year. He expects the Orient to come to San Angelo with a whoop, and is sure that it will be in San Angelo on schedule time.

Mr. Allison waxed warm over the carnival and said that the people of Coke county would lay for the other fellows in the Concho Country next year and save some of their best products, taking away all of the prizes.

"We are not naturally selfish, but just want to show these Tom Green county fellows that we can raise a few things ourselves," said Mr. Allison.—San Angelo Standard.

Wm. Kellar Dead.

Grandpa Kellar, as he was familiarly called, died in this city Tuesday morning just before day and was laid to rest in the Robert Lee cemetery Tuesday afternoon with Masonic honors, being a member of that order. The services were conducted at the grave by Rev. W. K. Simpson, of the Methodist church.

The burial service was the most largely attended in the history of our little city. The Masonic order, about forty strong, accompanied the remains to the grave. Besides many friends and relatives, the entire school in a body attended the burial.

Wm. Kellar was 78 years of age at his death. He moved to Texas in the early 50's from Louisiana and was among the first settlers. He was a resident of this county for about 15 years, having moved here from Williamson county. Besides a host of warm friends all over the county he leaves a wife and three daughters, besides a number of grandchildren. His daughters, Mrs. R. A. Whiteley, of Florence, Williamson county, Mrs. Lou Bullion, of Water Valley, and Mrs. F. A. Green, of Bethel, N. M., were with him in his last hours. The Observer extends condolence to sorrowing relatives and friends.

The Observer made a mistake last week in the accounts allowed at the recent term of commissioners court. We made mention of a bill allowed Clark & Courts for $175.35 and placed it to the expense of W. W. McCutchen which was wrong. Uncle Bill is one of our most economical officials and had no expense account allowed by the court. The reporter just read the minutes wrong and we take pleasure in correcting the mistake.

A company of Robert Lee "home talent" will the next night after the school concert present the play "The Deacon's Courtship." Don't miss either night.

Jef... Pro... Bet... the ... Vau... Geo... der... d... desperate attempt... day afternoon to es... prison. It is consid... able that that they wi... on trial next week.

Investigation is b... ducted by Gov. ... and Warden Hall, the latt... having been summoned back ... rom his trip to Fort Leavenworth, Kan., where he was taking Federal prisoners to the Government penitentiary.

No one will be admitted to the penal institution during the investigation excepting those connected with the inquisition.

The convicts implicated refuse to divulge any information as to how they secured their weapons. Convict Blake of Grundy County, who was shot during the mutiny, died during the night. On his death bed Blake would only moan, "You don't know us; I'll never tell," and that is all the authorities have learned so far in their efforts to fix the responsibility for the outbreak.

Gov. Folk sat beside the dying convict and endeavored to persuade him to make a full confession. He was followed by officials of the penitentiary, and for several hours they pleaded, threatened or offered immunity for a confession of the details of the desperate plot to escape, but Blake steadfastly refused to divulge any information and finally death sealed his lips.

His death was the third resulting from the mutiny.

Connivance and assistance by some attache of the prison is strongly suspected, and the investigation that is being made will be of a strict character.

While Japan has had meteorological stations on some of her highest mountains ever since 1889, these were in use only in summer. Prince Yamashina, who is greatly interested in scientific research, has now provided an all-the-year-round station on Mount Tsukaba, near Tokio. Dr. Okada, who is considered one of the most promising of the younger men of science, has been put in charge of it. It is expected that he will be able to provide information of incalculable benefit to domestic and foreign shipping interests. Advice to Knockers.

If there is any chance to boom business—boom. Don't put on a long face and get sour in the stomach. Hope a bit. Get hold with both hands; then pull. Bury your hatchet. Drop your tomahawk. Hide your little hammer. When a stranger drops in, jolly him. Tell him this is the best town on earth. It is. Don't get mulish. Don't roast—just jolly. Get popular it's dead easy. Help yourself along. Push your friends with you. Soon you'll have a whole procession. Be a good fellow. No man ever helped himself by knocking other people down. No man ever got rich by trying to make other people believe he was the only man on earth. You can't climb the ladder of fame by stepping on other people's corns. They are their corns—not yours; and they are tender. Keep off their corns. All men are not alike. Once in awhile you may find one who is very much alike, but some are different—you are not the only one. If you don't like their style, let 'em alone. Don't knock—walk right in. Make yourself look pleasant—you'll get used to it. There is no end of fun in minding your own business, and it makes other people like you better. Better have others stuck on you than get stuck on yourself. Nobody gets stuck on a knocker—don't be one.—Ex.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle, with chronic stomach and liver trouble, but at last I won, and cured my diseases, by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold, under guarantee to do the same for you at Evans drug store at 50c a bottle. Get them today.

Social Production of Stupidity.

y dearth of ability from which vilized world may be suffer-, says Sir J. Crichton Browne, to be ascribed not so much to infertility of the cultivated sses as to the artificial production of stupidity in various ways, and to the incessant draining from the country—which is the fit and proper breeding place and rearing ground of intellect—of the best elements of the people, to be swallowed up or deteriorated in the big towns. The idea that the agricultural laborer is set apart from his followers by dullness of intellect is as untenable as the belief that the city urchin is clever and better endowed mentally than the little yokel. The rule seems to be that the mental development of children is hastened by city life, but soon stops short. Up till 13 or 14 years of age they are precocious and then come to a standstill. City life at its best is bad for children, involving as it does early puberty, exciting distraction, superficiality of knowledge, insufficient rest, and the want of soothing influences which the country affords. At its worst, with tight squeezing in squalid tenements, poor food, foul air, constant contact with vice, and manifold temptations, it is drying up the reservoirs of strength in the population and leaving an immense proletariat of inferior quality.

In Mad Chase.

Millions rush in mad chase after health, from one extreme of faddism to another, when, if they would only eat good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away. Prompt relief and quick cure for liver and stomach trouble. 25c at Evans drug store; guaranteed.

A Curious Custom.

In some parts of the Tyrol a beautiful though curious custom prevails. When a girl is going to be married and just before she leaves for the church her mother gives her a handkerchief, which is called a tearkerchief. It is made of newly spun and unused linen, and with it the girl dries the natural tears she sheds on leaving home. The tearkerchief is never used after the marriage day, but is folded up and placed in the linen closet, where it remains till its owner's death, when it is taken from its place and spread over her face.

At the home of the bride on ...st Sunday evening, Mrs. Callie ...arnes and Mr. A. M Bennett ...ere united in marriage. Both ...the contracting parties are ...ery popular in our town and ...ave the good will of all of our people.

We also understand that Mr. Ed Hickman was married to some young woman of sterling qualities on the same day.

This is Wednesday, and if there is not a hitch somewhere between now and five o'clock this evening Mr. Henry Key and Miss Bycie Ryan will be made one. Both are young people of noble character and of good disposition and we predict for them a happy life. Verily that mighty factor which sweeps everything before it, love, is getting in it's work here. Hasty preparations being made for the pairing of innumerable pairs of our young people, but this scribe is up against it, whither soever he turneth his attention the young woman hath a fellow all ready, and he is informed that the necessary steps have been taken to shortly change l...me.

Messrs Good and Hayley have just returned from a business trip to Sweetwater.

Dr. Key made an extended trip through the state and while gone he gatherod up his children and took them to the San Antonio fair, nice in him.

V. B. Bailey, the man that furnishes the best meat that can be had has just returned from a business trip up and down the Santa Fe.

Messrs Good and Hayley tell us that they are surprised, that such progress is being made to complete the Orient to San Angelo, but all will remember that this scribe, on his arrival, said that the next crop of Coke county would be moved by this road. Get ready to move to Coke county, it is one of the best in the state.

Miss Julia Hays, a sweet girl, spent last Saturday and Sunday with us.

Mr. Hays has just returned from a trip through the western part of the state. There is one man in existence whom we admire, and if we ever find the gentleman he can command me. He sent Mr. Hays a money order for five dollars and wrote nothing. Mr. Hays had accommodated him and he had to go to the instruction to find out who sent the money.

This scribe sold four thousand dollars worth of property to settle for a fellow who was not that good. CONTRIBUTOR.
