Free Measles Vaccine Available Here

The Donley County Health Officer, Dr. George W. Smith, has received a supply of free measles vaccine from the Texas State Department of Health, to be given to all children from age twelve months through Grades Four at some date next week. This vaccine is for children who have not been previously vaccinated for measles or have not had measles.

The Donley County School Board, Clarendon School Board and the Hedley School Board are jointly sponsoring a measles survey. If you have any children in school, they will bring home a survey form this week for each child age twelve months through Grades Four.

If you do not receive these forms this week, please call the office of the County School Superintendent, Maurice Risley in Clarendon or Kenneth Sams, the School Superintendent in Hedley. Dr. Smith states that measles is a very serious disease. Almost 400 deaths occur each year in the United States from this disease. One out of every six children who have measles suffer some type of complication, such as mental retardation, pneumonia, blindness or deafness.

Two CC Students Are Named State Officers

Two Clarendon College Freshmen students were named top officers in the Texas Junior College Agriculture Association last Saturday at their state convention held at Weatherford, Texas.

Clovis McCrary of Clarendon College was elected president and Wayne Stribbling was elected secretary-treasurer. McCrary's home town is May, Texas and Stribbling comes from Mobeetie, Texas.

This is considered quite an honor for Clarendon College, placing two of their candidates in top positions of the Association. Sixteen members of the local Aggie Club attended along with their instructor, Jerry Hawkins and Miss Linda Longan who was a candidate for State Sweetheart of the Association.

Funeral Services For Lela Ruth Heater Held At Dumas

Funeral services for Mrs. Lela Ruth Heater, 51, a teacher in Dumas Public Schools, were held at 10 o'clock a.m. Friday in The United Methodist Church with the Rev. Jack Ellzey, pastor, officiating. Eastern Star graveside services were at 3 p.m. Friday in Rowe Cemetery at Hedley.

Burial was by Boxwell, Morrison Funeral Directors of Dumas.

Mrs. Heater was born in Hedley and attended Hedley school. She lived in Dumas 22 years. She taught school nine years in Dalhart and 13 years in Dumas.

Mrs. Heater died Wednesday afternoon in Thurman's Nursing Home in Amarillo after a long illness.

She was a member of The United Methodist Church of Dumas, The Eastern Star Chapter, Hedley and Delta Kappa.

Survivors are her husband, Collier, a son, J. W. of the family home; a brother, Fred Watt, of Hedley and a sister, Mrs. Virginia Ayers of Kauffman.

Our-of-town relatives here for the funeral were Mr. and Mrs. Edwin Ayers, Kauffman, Mr. and Mrs. Hubert Green, Hatley, Mr. and Mrs. Henry Taylor and children, Fort Worth, Mr. and Mrs. C. R. Morris and Mrs. Allene Ledbetter of Dumas, Mr. and Mrs. Fred Watt of Hedley, Mr. and Mrs. Walter Johnson, Mrs. Mabel Bridges and Ike Rains of Hedley.

Blustery weather with numerous storm warnings dominated the weather over the week end and the first part of the week and the general outcome was excellent moisture over the entire county with the Hedley area as the focal point for the heaviest downpours.

Ruben Johnson of Hedley reported 3.25 Sunday afternoon and an additional 2.20 for Monday night. This brings their total for the month to 6.45 inches. Hubert Rhoades at Ashtola reported 1.50 Sunday and .90 for Monday night for a total of 2.40; Willard Knox at Lelia Lake reported 1.60 Sunday and 1.20 Monday night for a total of 2.80. Our official weather observer here in town recorded 1.35 Sunday, .21 Monday and .09 Tuesday night for a total of 1.65 here in town. The Goodnight area received from one to three inches Sunday.

The good moisture to the west made a run-off possible and Greenbelt Lake increased its depth 5 1/2 inches to the present reading of 2635.12 elevation. This 5 1/2 inch rise represents several million gallons of water and it will probably take several big gully washers to fill the lake on up as it will take 28.88 more feet of water in depth to reach the top of the Morning Glory spillway. At that point the lake will have an elevation reading of 2664. At the time we received the 6.33 foot rise last fall, the elevation reading was 2631.48 and the lake was considered one-fourth full at that time so it is still considerable less than half full at the present time. With the surface area of the lake growing with each rain, it takes a lot of water to bring the lake up even an inch.

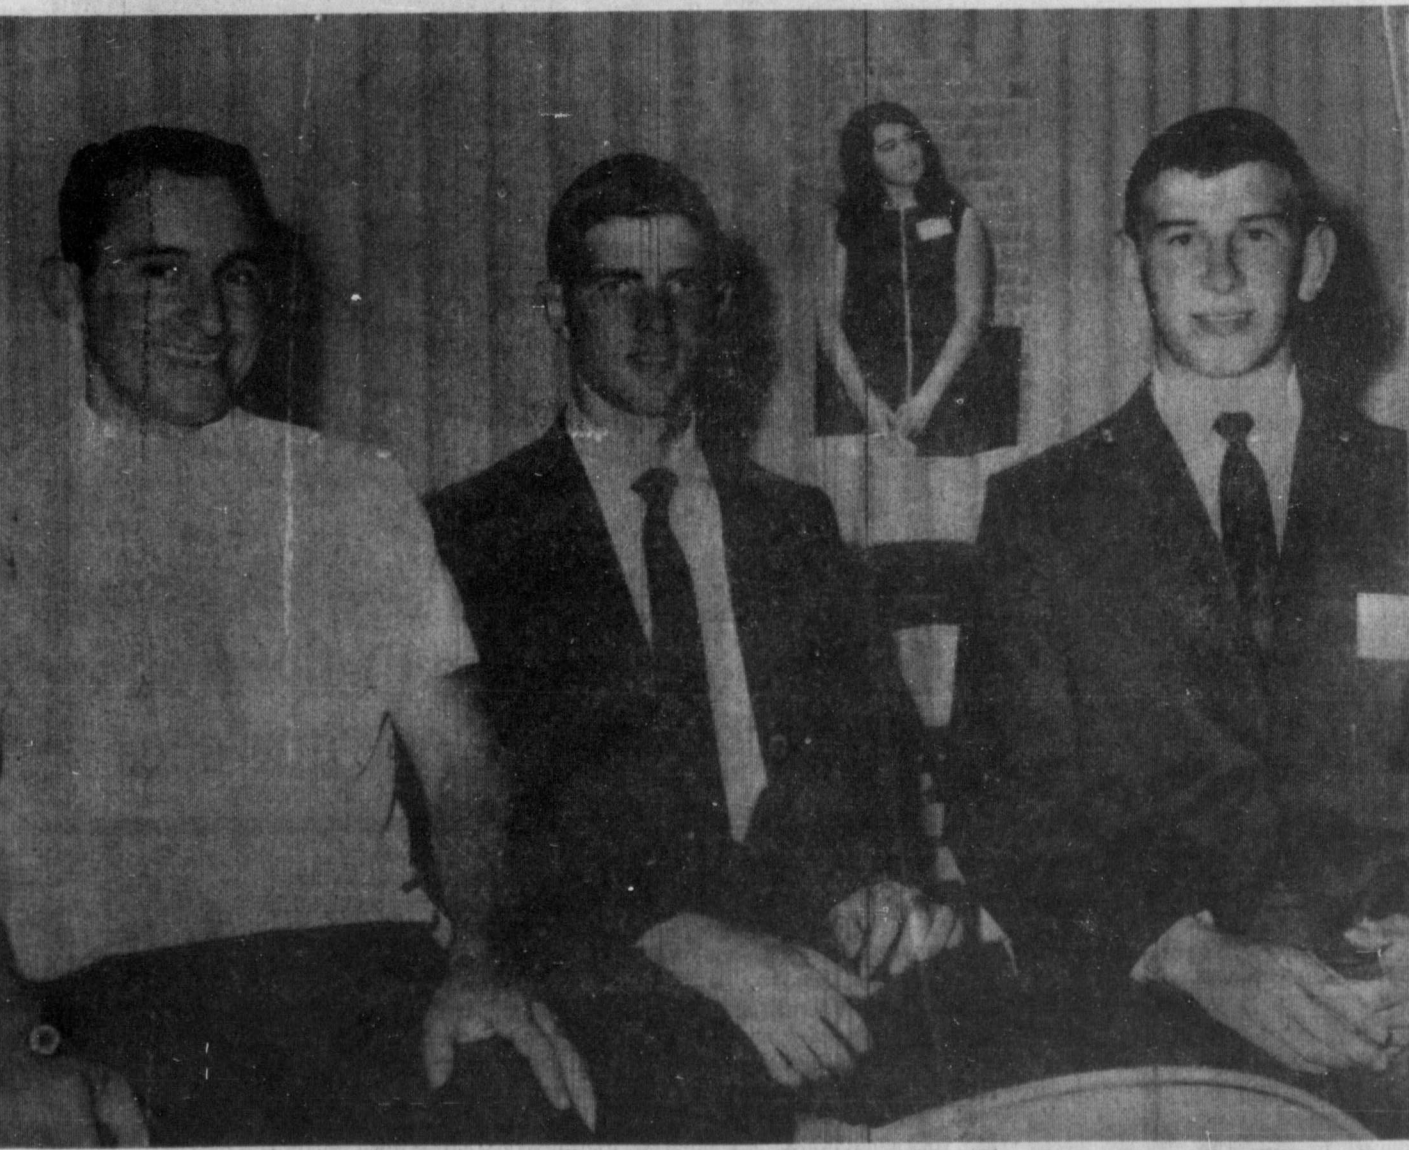

ANNUAL STAFF TO HAVE SALAD SUPPER SAT. NITE

The Clarendon High School Annual Staff is sponsoring a Salad Supper, Saturday, May 10, from 6:30 to 8 p.m. in the High School Cafeteria. The supper will precede the annual Senior Class Night program.

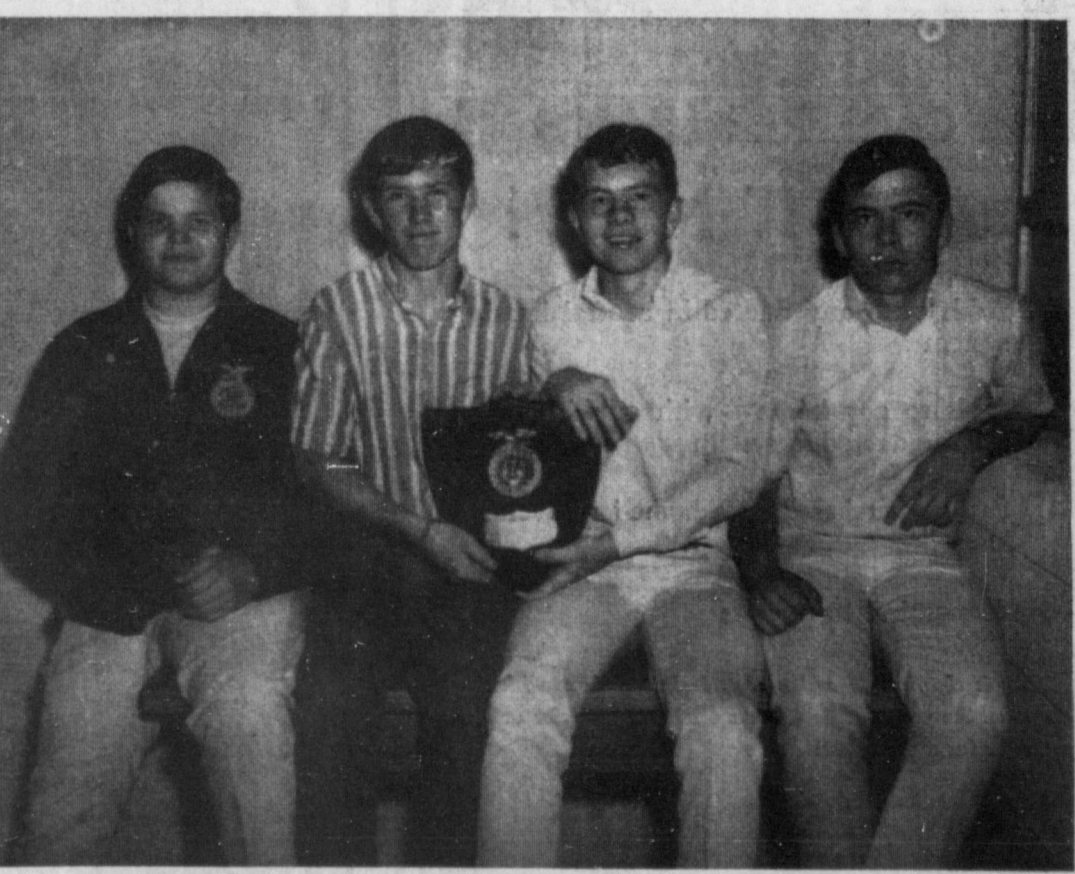

Tickets are \$1 for Adults and 50c for children. Proceeds will be used to help defray costs of this year's annuals.

ANNUAL FFA BARBEQUE SET FOR FRIDAY, MAY 9

The annual FFA Chicken Barbeque will be held Friday night, May 9, at the High School Cafeteria. Meeting time is 8 p.m. This is the annual students' Father-Son-Business Men's banquet.

NEW TJCA OFFICERS — Elected president of the Texas Junior College Agriculture Association Saturday at Weatherford is Clovis McCrary, left, of Clarendon College; Vice-President, Larry Bozeman, center, from Lubbock Christian, and at right is the new secretary-treasurer, Wayne Stribbling of Clarendon College. Inset is Miss Linda Longan, candidate for State Sweetheart, from Clarendon College.

These four FFA members, left to right, Byrd Adkins, Danny Hill, Ted Tyler and Jay Lamberth, represented Clarendon High School in the State Dairy Products judging team at Texas A&M Saturday and brought home the 2nd place award. Photo by Saye's—Leader Engraving

A Delightful Decision.

1969 Buick LeSabre.
What makes it such a Delightful
Decision? Just price one and see.

You heard us right. It's Delightful Decision time, an event at your Buick dealer's designed to make buying a Buick right now a very delightful decision. Even this beautiful 1969 Buick LeSabre 2-door hardtop is easy to own. And look what you get in addition to an impressive list of standard equipment that begins with a 350-cubic inch V-8.

You get AccuDrive, Buick's new suspension that makes steering over bumpy, winding roads so easy your wife may never let you have the car.

You get Buick's new upper level ventilating system. It does away with the need for vent windows as well as wind noise and uncomfortable drafts.

You get Buick's new ignition, steering and transmission control lock that lets you lock your ignition, steering column and transmission controls when you turn off the key.

And that's just a quick look at the new Buick LeSabre. Why don't you take a long look at your Buick dealer's soon.

We know you'll make a decision that will delight you.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT (HJR9)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows:

"Section 49-d-1. (a) In addition to Texas Water Development Bonds heretofore authorized to be issued by Sections 49-c and 49-d of Article III of the Constitution, the Texas Water Development Board is hereby authorized to issue \$3,500,000,000 in aggregate principal amount of bonds. No part of such additional bonds shall be issued prior to approval thereof by the vote of two-thirds of the elected members of both houses of the Legislature.

(b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund.

(c) The bonds herein authorized and all bonds authorized by Sections 49-c and 49-d of Article III shall bear such interest and mature as the Texas Water Development Board shall prescribe subject to the limitations as may be imposed by the Legislature.

(d) The Texas Water Development Fund shall be used for the purposes heretofore permitted by and subject to the limitations in said Sections 49-c and 49-d and in addition thereto for the purposes of general obligations of the State of Texas, both within the State and without the

State of Texas. Provided, however, that financial assistance may be made pursuant to the provisions of such Sections 49-c and 49-d subject only to the availability of funds and without regard to the provisions in Section 49-c that such financial assistance shall terminate after December 31, 1982.

(e) Under such provisions as the Legislature may prescribe, the Texas Water Development Board may receive grants and, in addition, execute contracts with the United States or any of its agencies, other states of the United States, foreign governments and others, for the acquisition and development of such water resources and facilities for the State of Texas. Such contracts when executed may be secured by the general credit of the state, and if so secured shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds. If facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment. The aggregate principal amount of Texas Water Development Bonds authorized herein and in said Sections 49-c and 49-d shall be reduced by the aggregate of principal payments committed under such contracts constituting general obligations of the state. The provisions hereof shall not be construed to limit the authority of the Texas

Water Development Board to execute contracts or issue revenue bonds when such contracts or bonds are not secured by the general credit of the state.

(f) Texas Water Development Bonds and such contracts secured by the general credit of the state shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

(g) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on Tuesday, August 5, 1969, at which election all ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment broadening the powers of the Texas Water Development Board and the purposes of the Texas Water Development Fund; eliminating the interest limitations on Texas Water Development Bonds; raising the authorized amount of Texas Water Development Bonds by \$3,500,000,000; extending the maturity schedule on Texas Water Development Bonds; eliminating the procedures for curbs on the date of financial assistance to be provided by the Texas Water Development Board."

1926 Book Club Holds Annual President's Dinner

Members of the 1926 Book Club closed their year with the annual President's Dinner at Patching Club House Tuesday, May 6. A salad buffet was served from a linen covered table centered with an epergne of roses.

Quartet tables were laid with white linen and centered with multi-colored balls of net together with iris.

The president, Mrs. Harold Phelps, presided with Mrs. Archie Pool giving the invocation. Hostesses were Mesdames Beryl Clinton, E. S. Ballew, W. R. Christian, and W. N. Pool.

A short business session was held followed by the farewell address by Mrs. Phelps, retiring president. Mrs. E. S. Ballew, incoming president, was introduced and made an acceptance address.

Visiting and general fellowship was enjoyed by the following: Mesdames C. E. Bairfield, E. S. Ballew, J. R. Brandon, Homer Bonos, Ellen Bryan, Jack Clifford, L. N. Cox, W. E. Clifford, Loyd C. Johnson, Otis Naylor, Harold Phelps, Archie Pool, W. N. Poole, and Frank White, Jr. Rep.

FHA Convention Held In Dallas May 1-3

The annual state convention of Future Homemakers of America was held in Dallas May 1-3 using as its theme "FHA Gateway to Dreams."

One of the outstanding speakers at the meet was Miss Nam Debur, a former Miss America. She related many interesting experiences and stressed the necessity of working to improve oneself so that one can rise to any occasion and enjoy the challenge. The State Chorus, presentation of State degrees and Honorary memberships, and various talent numbers presented by FHA members from over the entire state completed the program. New officers were installed at the third general session and scholarships presented by four business organizations.

Kathy Autry and Rhonda Goodman represented the Clarendon Chapter. These girls were accompanied by Mrs. Velma Bourland. Three charter buses met in Childress to take girls from the Panhandle area to the meeting which proved to be educational as well as a delightful social experience.

"TEXAS" TO OPEN IN PARK JUNE 27

The production Texas will hold Opening Night June 27 as decided at a meeting of the Board of Directors Monday evening.

Opening night is always a special and festive occasion and this year's opening will be no exception. International aspects will be stressed. Several buses filled with International Students will be present and foreign born families in the area will be invited as special guests, also. A number of foreign flags will be on display.

Last year visitors representing 63 countries attended the musical drama in Palo Duro Canyon State Park. The production is receiving much publicity abroad—Mexico City, London, and other parts all over the world through International Travel Service. Make your plans now to attend this year's production.

NEW ARRIVALS

Mr. and Mrs. Bobby Joe Wiggins of Amarillo, Texas announce the arrival of twins Tuesday, April 29, 1969. The young man weighed 7 lbs. 2 1/2 oz. and has been named Bobby Joe, Jr. The little lady weighed 6 lbs. 10 oz. and has been named Angela Robin.

Grandparents are Mrs. Edith Huff of Clarendon, Lloyd Huff of Vernon, and Mr. and Mrs. W. B. (Nookie) Wiggins of Hedley.

Mrs. C. C. Coleman of Seymour, her daughter and husband of Wichita Falls visited Mr. and Mrs. Emmett Bryson over the week end.

Freedom is old enough to speak for itself, and when it speaks, the world listens.

I want to express my thanks to friends and neighbors and especially to Mr. and Mrs. W. C. Ragan and Miss Mona Churchman for their cards, flowers, prayers, visits, and other kindnesses during my hospitalization and convalescence.

Tom Scoggins

We meet good friends upon the street

And say a glad Hello . . . This sort of lifts our spirits up In ways that bound to show.

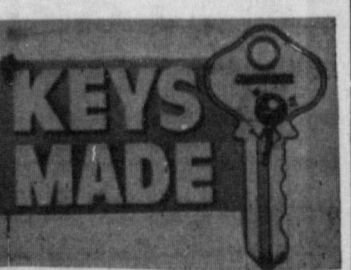

Then most usually we get a smile And give one right on back. This makes our path a smoother road And keeps us on the track.

Knowledge comes a lot easier when we realize our ignorance. A smart aleck is a fellow that has been vaccinated against learning.

It is so good to find a work—A job to do each day. This makes our life a bit useful—Helpful along life's way.

A politician thinks he has a right to a living off of the world. A statesman thinks he owes the world the right kind of living.

We need dear friends so very much Along the road of life. To help us share the good the bad.

TRAFFIC LAW QUESTIONS AND ANSWERS

Q—When stopping for a railroad crossing does the law specify where you stop and how long?

A—Yes. Whenever any person driving a vehicle approaching a railroad grade crossing must stop for a signal, flagman or approaching train, he shall stop within 50 feet but not less than 15 feet from the nearest rail and shall not proceed until directed by signal or until the way is clear.

Q—What is the accepted safety rule for being able to avoid cutting back to the right hand lane too quickly after passing another vehicle on the left?

A—You should wait until you can see the vehicle being passed in your rear view mirror.

Q—What are the universal signs of distress that a motorist may give to indicate to other vehicles that they need assistance?

A—A white handkerchief tied to the front door handle, radio antenna, and or raise the hood of your car.

Q—If there is no sign telling you of a minimum speed limit, how slow can a person lawfully drive?

A—It is illegal to willfully drive a vehicle so slowly as to obstruct or impede the normal, reasonable and safe movement of traffic.

Q—Can you legally operate a motor vehicle while under the influence of drugs that were prescribed by a doctor?

A—It is illegal to drive a motor vehicle while under the influence of drugs. The fact that drugs were prescribed by a doctor is not a defense for driving under the influence of drugs. This offense carries a maximum penalty of \$500.00, two years in county jail plus suspension of drivers license for one year.

Variety Of Meats Low In Cost

Variety meats, such as liver, kidneys, heart, tongue, sweetbreads, brains and tripe, qualify as good tasting, low cost meat.

According to Extension consumer marketing specialist Gwen-dolyn Clyatt, they provide the same essential proteins as muscle meats.

These meats carry low price tags throughout the year, adds the specialist, and are economical because they have no bone, excess fat or skin waste. Generally one pound of variety meat will make five servings.

In selecting these, look for plump, fresh and shiny, relatively firm and uniform color meat.

Avoid those which look dried out, rough or show a difference in color around the edge. These are signs that the meat is not fresh.

Heart and tongue from all animals are less tender than liver and need long, slow cooking in water or moisture. Beef heart, because of its size, needs longer cooking than other hearts.

Beef hearts require from three to three and one-half hours . . . cook them at simmering temperatures. Veal, lamb or pork hearts cook about 2 hours. Cook them under water, adding one teaspoon of salt for each quart.

Liquid Fertilizer Proves Profitable

Research shows liquid mixed fertilizers compared to solid, dry fertilizers give comparable results when the same rates of plant nutrients are used, says County Agent Ronald Gooch.

Liquid fertilizers can be applied as individual materials or as mixtures of the plant nutrients. Most liquid, mixed fertilizers contain two primary elements — nitrogen and phosphorus; some may also contain potassium.

Producers should keep in mind that it requires the same number of pounds of nitrogen, phosphorus and potassium from liquid sources to produce a given yield, as required from dry fertilizer.

The ease of handling is one distinct advantage in using liquid plant foods. They can be handled by mechanical methods (gravity, pump or air pressure) to avoid lifting and carrying fertilizer

bags. Also, with proper equipment, liquid fertilizers can be applied very accurately and combine easily with many herbicides, fumigants and insecticides.

Disadvantages include the necessity for special application equipment and storage facilities. Some nitrogen solutions must be handled under pressure. Also, with variations in temperature there is some chance the dissolved solids may "salt out" resulting in the clogging of storage facilities and application equipment.

Most agronomists agree the use of liquid fertilizer will continue to increase, but any advantage they enjoy lies in convenience and ease of handling and not in any special agronomic value, says the county agent.

To help your child develop responsibility, Jennie Kitching, Extension family life specialist at Texas A&M, suggests a parent let a child make decisions and involve him in family decision-making. Then let him learn to take the consequences of his decision.

Those Crazy Episcopalians!

such an unfriendly bunch!

It's true that Episcopalians don't make chit-chat during services. Or before. Or immediately after. Visitors occasionally go away saying, "What an unfriendly bunch."

Next time, don't rush away so fast.

Episcopalians don't mean to seem rude. They do mean to pay respect to God ... until they're well outside the church proper.

Next time, give them a few minutes to "warm up." Stick around and get acquainted. Join them for coffee in the nearby parish hall ... and perhaps some of their funny ideas will even make sense.

If you'd like to learn more about the Episcopal Church and its views, the nearest Episcopal minister would be flattered to discuss them with you ... without "twisting your arm." Who knows? He might even make sense.

SCS Makes Trial Plantings In The Salt Fork of Red River

By Monte Sowers
Soil Conservation Service

Last week the SCS planted 14 more varieties of grasses and legumes in the test plots in the Salt Fork riverbed on the R O Ranch. Only warm season varieties were planted at this time. Last October, we planted 18 cool season varieties in the east part of the plots. Of these, it now appears that at least 6 different cool season grasses have a potential in the sandy riverbed.

While the construction of the Greenbelt Lake meant recreation and good drinking water to many people, it meant something else

to many farmers and ranchers with riverbed land below the dam. Within Donley County, there is in excess of 7500 acres of river land below the dam. With the water being cut off, this land will rapidly be covered by button-willows, salt-cedar and poor quality sedges. Realizing this, the SCS is working as rapidly as possible to find a combination of grasses and legumes which will grow on the extremely wet and sterile sand. The R O Ranch has some 5,000 acres of this land has donated the land for the test plots and is working closely with us in the trials.

The cool season grasses planted last fall were subjected to some very harsh treatment last winter with the high water table, strong wind and "sand-blasting". The 6 grasses which survived indicate that they may have the physical ability to thrive under such conditions. It will be very interesting to see which of the warm season grasses make it through the hot summer ahead, when they will also be exposed to wind, sand and extreme heat.

Mr. and Mrs. Tom Scoggins were in Amarillo last week where Mr. Scoggins had surgery. He is able to be at home and is improving satisfactorily.

Why would anyone be planting a garden in the middle of the river bed? Actually this is part of the planting of warm season grasses in the trial plots on the R O Ranch. Left to right, Allen King, agronomist from Amarillo, John Wright, Range Specialist from Amarillo and Arnold Davis, Plant Materials Specialist from Temple.

Senior Citizens Day Saturday Big Success

Mature Citizens of Clarendon Day was a big success. Near one hundred came to Lions Hall for the first meeting of fellowship and recreation Saturday, May 11. Tables of checkers, games, dominos, forty-two, and person to person visitation was entered into by all.

A hot meal was served to everyone after a good old fashion sing-song. After the meal provided by citizens of Clarendon in covered dish style, there was a brief business meeting to see if another meeting would be enjoyed.

All voiced the desire and a need of more great days of fellowship like the one enjoyed. The first Saturday in June was set as the next day. Meeting time will be from 10:30 a.m. to 1 p.m. at Lions Hall.

Mrs. N. L. Jones was given a beautiful vase of flowers as she was the oldest youth present, 98 years.

RAIN DUMPS MORE IN GREENBELT LAKE

It's more like old times, good moisture and lots of lightning and thunder the past few nights. The heavier rains fell to the northwest and south of Clarendon Tuesday night. The Greenbelt Lake watershed caught good moisture with the lake picking up 12.01 inches of water by noon Wednesday and a good flow of water was still pouring into the lake.

Here in town we received .62 Tuesday night, .41 Monday night and .21 Sunday for a monthly total of 3.03 and 6.94 for the year. The total for May last year was 4.13 and the years total through May was 8.69 inches. Hubert Rhoades at Ashtola reported .30 Tuesday night and a total of 3.90 for the month. Willard Knox at Lelia Lake reported .52 Tuesday night, 4.14 for the month and 8.04 for the year. More rain is in the forecast.

WATER PLAN MOVING — Texas Water Rights Commission took just two hours to wind up hearings on a \$9 billion statewide water plan.

Commission promised a ruling by April 22 on whether or not it approves the plan. It must determine whether all existing water rights are adequately protected.

Lower Rio Grande Valley water districts wanted approval withheld unless the 390,000 acre-feet of upstream diversion of Rio Grande waters, as proposed in the plan, is prohibited. They claimed the diversion would "bankrupt" three lower valley counties.

Northeast Texas spokesmen didn't like the plan's stipulation of their water needs. While favoring use of surplus to help dry areas, they said they oppose "robbing Peter to pay Paul."

Meanwhile, a \$3.5 billion revenue bond constitutional amendment cleared both houses of the legislature for a place on an August 5 special election ballot. COURTS SPEAK — Court of Criminal Appeals threw out a 1967 law adding hallucinogens, including LSD, to the dangerous drug list. Court said the act is unconstitutional because of a defective caption.

A federal district judge in Austin dismissed the suit by VISTA anti-poverty workers in Del Rio for reinstatement. Gov. Preston Smith had asked that the Val Verde County VISTA programs be abolished on request of the county commissioners there.

State Supreme Court held that an Amarillo man is entitled to damages because of insecticide poisoning he suffered while spraying cattle.

A Kilgore city employee lost his Supreme Court appeal for damages under city insurance coverage due to illness caused by spraying insecticides.

APPOINTMENTS — Gov. Smith appointed James H. Millam of Lubbock to the State Securities Board to succeed Randall Jackson of Abilene. Former Gov. John Connally attempted to reappoint Jackson, but Atty. Gen. Crawford Martin said the selection should have been left to Smith.

Governor Smith still awaits a ruling from Martin as to whether Connally had the right to appoint three University of Texas regents in the 11th hour of his administration.

Smith reappointed Edgar F. Engelke of Seguin to a new term on the Guadalupe-Blanco River Authority. He also named to G-BRA Reagan B. Cates of Victoria, Arthur F. Leesch of Boerne, Howard C. McKenna of New Braunfels and Thomas A. Garner of Port Lavaca.

Col. Walter B. Staudt of Houston has been promoted to brigadier general in the Texas Air Guard and assigned here as chief of staff (air).

REHABILITATION PROGRAM CUT — Texas Education Agency has been notified by the federal government that federal aid to the state vocational-rehabilitation program will be cut by approximately \$5 million this year.

That would pare the program about 18 per cent, or specifically

from \$27,363,204 to \$22,537,694.

However, Assistant Education Commissioner C. G. Fairchild says the actual benefits of the program won't be reduced that much, because when the money situation gets tight, the TEA gets more and more cooperation from other agencies and individuals, such as physicians.

"So it's not all as bad as it may sound," he says. "After all, we started with only \$10,000 in 1929, and then all we could do was ask for free help. It's still available."

ATTORNEY GENERAL RULES — Atty. Gen. Martin has held in a new opinion that the Parks and Wildlife Department has authority, with consent of the governor, to set the selling price on maul, sand or other sedimentary materials to be removed from Galveston Bay and used as fill.

In another opinion Martin concluded that the county commissioners cannot use road and bridge funds or farm-market-lateral road funds for paying courthouse salaries, fire prevention services, tax evaluation services or hospital care of indigent.

RED MEASLES DOWN — Development of a new drug to combat Red Measles has cut the number of cases reported in Texas last year to only one-tenth the number in the past.

However, the Senate Health Department reports that the number of German Measles cases continues to climb, from 640 in 1967 to 2,923 in 1968. There's a new vaccine for that disease, too, but it has not yet been approved by the federal government for use in this country.

Statewide drops in the number of several diseases were recorded, including last year's leader, strep throat, which includes Scarlet Fever. In 1968, 32,263 cases were reported, compared to 37,408 in 1967.

SHORT SNORTS — Texas water law is dealt with in a new publication by the Water Development Board, titled "Laws and Programs Pertaining to Water and Related Land Resources."

Water Quality Board is calling for a series of work sessions with animal raisers to discuss possible water pollution from feedlots and holding pens. (Animal waste control has become a bit of a problem in recent years—with about two billion tons of manure produced each year in Texas.)

Sens. Ronald Bridges of Corpus Christi and A. R. Schwartz of Galveston have introduced bills to meet federal requirements so Texas will be eligible for the new federal flood insurance program.

Legislation is in the works to change the name of Naples Reservoir in East Texas to Marvin Nichols Reservoir — after Fort Worth's pioneer water engineer.

VISTA PROGRAM SIGNED — Governor Smith announced signing of a VISTA (Volunteers in Service to America) project to benefit aged in a 16-county Central Texas area.

Counties which have highest percentage over-65 population in the state include Coleman, Callahan, Concho, McCullough, Run-

Herman Wayne Vinson, science teacher at O'Donnell High School, spent the week end here and attended the FFA Banquet as a guest of his brothers, Bobby and Gary Vinson. L. G. Bobbitt of Dalhart was also a guest of the Vinson boys.

Mrs. John Blocker and Mrs. Rex Jones had as Mother's Day guests Mr. and Mrs. John F. Blocker, Jr. of Hereford and Mr. and Mrs. Maurice Miller, Shelley, Tiffany, and John Delmer of Dalhart. This was John's first visit with his great grandmother.

Sp-5 Jack Lockwood returned Friday from Vietnam after serving the past 18 months there. He will report for duty at Ft. Hood at the termination of his leave. His wife, the former Romona Braddock, will accompany him to Ft. Hood.

Mrs. C. G. Stricklin was a recent visitor at Hodges Gardens. Louisiana's fabulous "Garden in the Forest," in western Louisiana between Shreveport and Lake Charles.

The Gardens feature a year round succession of bloom.

Visitors in the home of Mrs. Joe Hall Sunday were George Hall and family of Alamed, Lowell Hall and family of Goodnight, Doyle Hall and children of Clarendon, Dale Hall and family and Glenn Hall and oldest son of Amarillo.

Dr. James D. Swift, Jr. of Wichita Falls spent Mother's Day with Mrs. J. D. Swift.

Luther Hall is reported to be improving in Groom Memorial Hospital.

nels, Brown, Blanco, San Saba, Mason, Mills, Llano, Hamilton, Eastland, Erath, Bosque and Comanche. Community Council of Blanco and Comal counties and Central Texas Opportunities Inc. will serve as delegate sponsors, and Hill County Action Association as prime sponsor or grantee. Twenty VISTA volunteers will assist in the area.

TEACHER-SHORTAGE GRANTS — U. S. Office of Education has awarded the Texas Education Agency six grants totalling more than \$600,000 to attract and qualify teachers to meet the critical teacher shortage.

A TEA spokesman said the projects represent a cooperative effort among six regional education service centers — at Amarillo, Austin, Corpus Christi, El Paso, Houston and Richardson — with local education agencies and colleges and universities.

State Welfare Commissioner Burton G. Hackney said that the plight of Texas' dependent children will worsen steadily unless a Constitutional amendment on welfare programs is approved in a special election August 5.

U. S. Supreme Court knocked out state residency requirements for welfare assistance, but decision will not have "tremendous effect" on Texas finances, welfare authorities report.

Land Commissioner Jerry Sadler banned mini-skirts and long sideburns for General Land Office employees.

Governor Smith has signed into law the bill to set up a procedure for handling development of the state's sulphur royalty interests in the West Texas sulphur rush, much as the state's oil interests are handled.

Vernon M. Arrell is new director of Program on Alcoholism for Texas Department of Mental Health and Mental Retardation.

Jack Revell, chief of Department of Public Safety Criminal Law Enforcement Division, will serve on National Organized Crime Advisory Committee of Law Enforcement Assistance Administration.

Love B. Johnson of Dallas is director of Negro Voter Division of Republican Party of Texas and Harry D. Pittman of College Station is director of Office of Field Operations and Candidate Support.

COMMERCIAL EGG CLINIC Representatives of the Texas egg industry will meet on March 26 in A&M's Memorial Student Center to discuss current trends in the industry and review current research and studies of interest.

Ben Wormell, Extension poultry specialist, said the day's program would get underway at 9:05 a.m. and would conclude with a meeting of the Texas Egg Council at 4:20 p.m.

THE LEGISLATIVE LOFT

By Rep. Tom Christian

The 61st Legislature is moving into the final month with a tremendous backlog of legislation, most of which will never reach the House floor.

One measure, however, that is certain to receive close attention before the legislature closes its doors is the appropriations bill. The first round ended two weeks ago when the state spending bill was passed out of the House with seemingly little debate.

It's now in a joint committee where substantial changes are anticipated. For instance, the House version did not include a teachers pay raise. A great deal of pressure is on the committee to insert a raise before the bill leaves committee.

Should the teachers receive their proposed pay raise it will cost the state \$220 million of the existing funds.

The committee has promised that the bill will spend only the revenue now in existence.

There has been discussion regarding a tax free year with legislators returning annually to consider the spending for the next year. It's my opinion we should face the problem now and decide the spending for the next two years.

A special session was held last June that cost the tax payers between \$30 and \$35 million. If we don't meet, it doesn't cost a

thing. That would be a tremendous saving alone.

The Tort Claims Act, which I voted against, was vetoed by Governor Preston Smith. Rep. Temple Dickson, of Sweetwater, who authored the bill, said he hasn't decided whether or not he will attempt to override the governor's veto. A two-thirds vote is needed to override the veto and the bill received more than that when it was first passed.

There are several measures that have received more than their share of attention recently. I am interested in finding out your opinion. Below are four questions; please send me your thoughts.

(1) Are you in favor of lowering the voting age?

(2) Are you in favor of public school teachers receiving a pay raise at this time?

(3) Should state aide be given to Parochial schools?

(4) Do you favor sex education in public schools?

NEW UPHOLSTERY FIBER SHRUGS STAINS

A new fiber makes possible upholstery with easy-care features and modern colors and designs, reports Bonny Lay, Extension housing specialist at Texas A&M. The fiber, new for upholstery is olefin or polypropylene, the indoor-outdoor carpet fiber.

Fabrics made of olefin fiber shrug off spots and stains, says Miss Lay. Most common household stains can be sponged away with water and light detergent suds without fear of fuzzing or pilling.

Olefin also is mildew-proof and non-allergic, she adds.

TRAFFIC LAW QUESTIONS AND ANSWERS

Q—What does the law require in regard to getting out of your vehicle and leaving it parked at the curb, store parking lot, etc.?

A—No person driving or in charge of a motor vehicle shall permit it to stand unattended without first stopping the engine, and effectively setting the brake thereon, and, when standing upon any grade, turning the front wheels to the curb side of the highway.

Q—What should a person do to drop from a commercial operators license to a regular operators license?

A—When you go to a drivers license office for re-newal of your license, tell the drivers license patrolman or clerk that you want to drop to an operators license. This is all that is required.

Q—If someone is going to an out of state college or is stationed out of state in the military service, how can they re-new their drivers license without appearing in person?

A—They should write to the Texas Dept. of Public Safety and ask for a re-newal card or have a friend or relative pick up a re-newal card from a drivers license office and send it to them. They should then take the card to an optometrist, medical doctor or drivers license patrolman in that state and have their eyes examined. The results of that exam will be entered on the back of the re-newal card and the license can then be re-newed by mail. You will have 45 days

upon moving back to Texas to go to a drivers license office and have your photograph taken.

Q—Even when there is no sign prohibiting a u-turn, when is it illegal to make a u-turn?

A—It is illegal to make a u-turn within a marked no-passing zone.

Q—How many people were killed and how many were injured in motor vehicle traffic accidents last year in the state of Texas?

A—There were 3,367 people killed and 205,308 injured in motor vehicle traffic accidents in the state of Texas for the year 1967.

Treat Now For Elm Tree Beetle

The elm leaf beetle has begun its annual invasion on the elm trees in Donley County. The first generation of the beetle is hatching now and is feeding on the leaves of the elm trees. The yellowish-green, 1/4 inch long beetle or the small yellow to black larvae can be found skeletonizing the under side of the leaf or crawling on the trunk of infested trees, according to County Agent Ronald Gooch.

This beetle can be controlled by thoroughly spraying the trees with one of the following insecticides: Sevin, malathion, lead arsenate or toxaphene. Two or more spray applications may be necessary to control later generations of the beetles.

Be sure to follow the label directions of the insecticide used, as insecticides by design are toxic; thus, care must be exercised in their use.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER SIX ON THE BALLOT (HJR7)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 64 to read as follows: "Section 64. All other provisions of the Constitution notwithstanding, bonds issued pursuant to constitutional authority shall bear such rates of interest as shall be prescribed by the issuing agency, subject to limitations as may be imposed by the legislature."

Sec. 2. The foregoing constitutional amendment shall be submitted to vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in August, 1969, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to remove the constitutional interest rate limitations, subject to limits imposed by the legislature, for bonds issued pursuant to constitutional authority."

Donley Residents Receiving \$63,000 In SS Benefits

"\$63,000 in monthly social security benefits was being paid to residents of Donley County at the end of December, 1968," Travis C. Briggs, district manager of social security, said. "Throughout the country, monthly benefits payable at the end of 1968 amounted to nearly \$2.1 billion. Approximately three-quarters of the increased monthly amount resulted from higher rates authorized by the 1967 amendments to the Social Security Act. The remainder of the increase was due to the greater number of beneficiaries."

Although retired workers comprise the largest group of beneficiaries, almost one-fourth of all people receiving benefits are under age 60. Almost four million children and a half million young widowed mothers receive monthly benefits.

In Donley County, 141 people under age 60 are receiving benefits. 761 60 or over receive monthly social security payments.

Many students are continuing their education with help provided for in the 1965 amendments to the law, which extended survivors and dependents benefits to students until their 22nd birthdays. In 1968, 470,000 students received benefits under this provision.

Monthly payments to the family of a worker who dies leaving a widow and two or three children range from \$82.50 to \$434.40 a month, depending on the worker's earnings under social security. Payments to the young family of a worker who dies at an early age could total as much as \$85,000 to \$100,000.

Briggs also pointed out that at the end of 1968, approximately 90 per cent of Americans 65 or older were either receiving cash benefits or would have been eligible for benefits if they or their spouse had not been working with high enough earnings to cause suspension of payments for all or part of the year.

Medicare provides hospital insurance benefits for almost all people in the country 65 or older. 95 per cent of all older persons have elected coverage under the voluntary supplementary medical insurance plan which helps pay physicians' fees.

A&M'S AG MARKETING AND RESEARCH BUSY

Five major marketing research projects are in progress and research grants of \$44,000 have been received by Texas A&M's Agricultural Market Research and Development Center since its beginning in February. The latest grant was made by a major national brand food marketing corporation.

Believed to be the first such market research and development program in the nation, the center is designed to help Texas producers analyze present and future food and fiber market trends, according to Dr. Robert Branson, manager of the Center. Through its research, improved marketing programs and strategies will be developed for Texas products.

In addition to working with producers, the Center offers assistance to local, regional or national food and fiber processing and marketing firms in improving markets for products of interest to Texas.

With primary concentration on market analyses and research needed for current operational marketing decisions, the center's research generally is set up to provide marketing answers within three to six months or less, Branson said.

Staff for the center is composed of personnel from A&M's Department of Agricultural Economics and Sociology, within which the center operates. It is a cooperative function between the Texas Agricultural Experiment Station and the Texas Agricultural Extension Service. In addition to Branson, personnel associated with the center include Dr. William Black, Extension economist for marketing and policy; Dr. Randall Stelly, associate professor; Dr. Thomas Sporleder, assistant professor; Dr. John Nichols, assistant professor; and Dr. Chan Connolly, associate professor stationed at the A&M Research Center at Weslaco.

Food technologists, home economists, marketing psychologists and advertising specialists are included in research groups as needed on various marketing problem assignments, Branson said.

Mr. and Mrs. J. F. White and daughter of Phillips visited Saturday with Mr. and Mrs. John White.

AIR POLLUTION HARMS CLOTHES

Air pollution affects clothing, according to Extension clothing specialist Kay Elmore at Texas A&M University.

Atmospheric contamination of fabrics has increased recently due to more varieties of pollutants and the different chemical makeups of new fibers, blends and finishes.

A study by Dr. Kenneth Salvin, home economics professor at North Carolina University, found that air pollution affects clothing, possibly as much as \$400 to \$600 per family each year.

Air pollution tends to fade blue fabrics, discolor white fabrics, change color of nylon carpeting and permanent press items and cause strength loss in natural and man-made fibers, the specialist says.

The textile industry is helping solve the problem by altering existing finishes and dyes and developing new ones that will resist atmospheric changes, the Extension home economist continues.

A division of the Public Health Service, the National Center for Air Control, has commissioned a national survey to further gauge the harmful effects of air pollution on textiles.

Consumers can help, too, adds Miss Elmore, immediately report uneven color shade changes on draperies or garments that have been stored for long periods of time to retailers or textile producers.

Mrs. Odie Smith of Wichita Falls attended funeral services for Mrs. T. D. Dever held here Sunday.

Mr. and Mrs. J. D. Jones, Jr. and family of Dalhart visited the week end with their parents, Mr. and Mrs. J. D. Jones, Sr.

PROCLAMATION

The Land is a gift from God which must be used with understanding and with total dedicated stewardship; and

Each individual is dependent upon the soil, whether he dwells in the country, town, or city, or whatever his vocation may be; its blessings and its demands touches all alike; and

Conservation is the preservation of our natural resources for food, fiber, economical use and for the preservation of the American way of life; and

These God-given resources of soil, water, plant and wildlife must not only be conserved and replenished but improved; and

The worthy obligation that confronts us as stewards today is to leave this country unpolluted in nature and undepleted in re-

sources; and

The responsibilities for the conservation of these resources is by law given to the Soil and Water Conservation Districts and their Supervisors in Texas, thus they are sponsoring Soil Stewardship Week.

NOW, THEREFORE, I, R. E. Drennan, County Judge of Donley County, do hereby designate the week of May 11-18, 1969 as SOIL STEWARDSHIP WEEK in Donley County, Texas.

In official recognition whereof, I hereby affix my signature this 9th day of May, 1969

R. E. DRENNAN,

County Judge of Donley County

ORDER FLAG MARKERS FOR MEMORIAL DAY

Now is the time to place your order for flag holders so that they may be on Veteran's graves in Citizens Cemetery for Memorial Day, May 30.

Memorial Day, May 30, is not far away and it takes several weeks to get these holders here. Many graves now have these holders but there are 50 or more in our cemetery that do not have them.

Anyone interested in having these flag holders ordered for Memorial Day should contact Barcus Antrobus.

Last Rites For Mrs. Julia M. Garrett

Funeral services for Mrs. Julia M. Garrett, 86, a former resident of Donley County, were held Monday, May 12, 1969 at 2:30 p.m. in the First Baptist Church with Rev. Allen Cartrite of Abilene and Rev. W. R. Lawrence, pastor, officiating. Interment was in the Citizens Cemetery under the direction of Murphy Funeral Home.

Mrs. Garrett died in the Val Verde Hospital at Del Rio Friday, May 9th. She was born July 13, 1882 at St. Johns, Kansas and came to Donley County in 1893 at the age of 10. She attended Clarendon Public Schools and Clarendon College and moved to Boise City, Okla. 1908. She had been living with her daughter in Del Rio for the past two years. She was a member of the First Baptist Church in Boise City, Oklahoma.

Survivors include two daughters: Mrs. Mary Kaintz of Marysville, Calif.; Mrs. Florence Mode of Del Rio; one son, John H. Garrett of Boise City, Okla.; a sister, Mrs. J. T. Cartrite of Sumray; five grandchildren and four great grandchildren.

Bearers were Erwin Cartrite, Kent Cartrite, Harvey Lynn Cart-

rite, Marshall Garrett, James R. Lovell, and Dick Churchwell.

FFA Father-Son Business Men's Banquet Held Friday

The annual FFA Father-Son Business Men's banquet and barbecue was held Friday evening, May 9, in the High School Cafeteria. Approximately 250 people were in attendance.

After the meal awards were presented to Steve Ellis as Star Greenhand; Monte McAnear as Star Chapter Farmer; and Jim Risley as Outstanding Chapter member.

Miss Cathy Craft was presented a Sweetheart Jacket in appreciation for serving as Chapter Sweetheart. Miss Shellah McAnear was presented a pearl pendant in recognition for serving as Greenhand Sweetheart.

Members of FFA and their advisors wish to express special thanks to John White, Hubert Rhoades, and Doyce Graham for the fine barbecuing of the chicken, Frank Phelan and Carl Almond for furnishing Cokes, and to Raymond Alexander for furnishing the Borden's ice cream.

Farm News

from County ASCS Com.

ACP — We have received over \$7,000 to pay producers who carried out ACP practices in 1968 after the 1968 funds were exhausted. These producers were advised that 1969 funds would be used and any amount earned would go against their 1969 limit. Making these payments will increase the 1969 limitations on all farms involved.

SPOT CHECKING — The community committees will meet Monday night, May 19, to review all wheat reports. Farms will be selected at that time for spot check.

John Wayne Stepp will begin measuring these farms soon after the meeting. We are again asking for your usual cooperation when he visits your farm.

SOYBEANS — The 1969 national average crop support price for soybeans is \$2.25 per bushel for Grade No. 1. We expect the rate for Donley County to be about \$2.16 per bushel.

1968 COTTON LOANS — The final date for placing 1968 cotton in the government loan is May 31, 1969. If you have some ware-

house receipts and class cards which you've been holding, now is the time to do something with them.

TERRY HOGGATT VISITS GRANDMOTHER HERE

Terry Hoggatt, A.M.H.A.A., U. S. Navy, son of Mr. and Mrs. Glenn Hoggatt of Perryton and formerly of Clarendon, visited recently with his grandmother, Mrs. Ralph Grady of Brice, and with other relatives in Clarendon. He also visited his grandmother, Mrs. I. T. Hoggatt of Memphis.

Terry had completed training in Aviation Structural Mechanics (Hydraulics) at the Naval Air Technical Training Center, Millington, Tenn.

After ten days at home, he reported to land base for a year at Chase Naval Air Base, Beeville, Texas.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT
NUMBER FOUR ON THE BALLOT (SJR6)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2, Article VIII, Constitution of the State of Texas, be amended to read as follows:

"Section 2. All occupation taxes shall be equal and uniform upon the same class of subjects within the limits of the authority levying the tax; but the legislature may, by general laws, exempt from taxation public property used for public purposes; all real and personal property owned by a nonprofit water supply corporation which is reasonably necessary for, and is used in, operation of the corporation in the acquisition, storage, transportation and sale of water as authorized as its sole legal purpose; actual places of (or) religious worship, also any property owned by a church or by a strictly religious society for the exclusive use as a dwelling place for the ministry of such church or religious society, and which yields no revenue whatever to

such church or religious society; provided that such exemption shall not extend to more property than is reasonably necessary for a dwelling place and in no event more than one acre of land; places of burial not held for private or corporate profit; all buildings used exclusively and owned by persons or associations of persons for school purposes and the necessary furniture of all schools and property used exclusively and reasonably necessary in conducting any association engaged in promoting the religious, educational and physical development of boys, girls, young men or young women operating under a state or national organization of like character; also the endowment funds of such institutions of learning and religion not used with a view to profit; and when the same are invested in bonds or mortgages, or in land or other property which has been and shall hereafter be bought in by such institutions under foreclosure sales made to satisfy or protect such

bonds or mortgages, that such exemption of such land and property shall continue only for two years after the purchase of the same at such sale by such institutions and no longer, and institutions of purely public charity; and all laws exempting property from taxation other than the property above mentioned shall be null and void."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in August, 1969, at which election all ballots shall have printed on them the following:

"FOR the Constitutional amendment to exempt nonprofit water supply corporations from taxation;" and "AGAINST the Constitutional amendment to exempt nonprofit water supply corporations from taxation."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election, and this amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

did you ever see one of their funerals? BRRR!

Some say an Episcopal funeral is cold. It's short, simple, and taken straight from the Prayer Book. Never maudlin. The casket remains unopened. It's covered with a pall, so you don't know if it cost a hundred dollars or a thousand. And there is no eulogy for the dead.

Episcopalians, though, say the funeral service affords one of the strong reasons for their faith in the Church, because it's conducted as much for the living as for the dead.

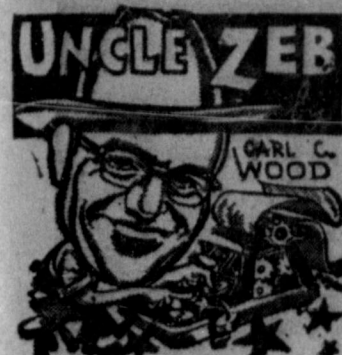

In such a context, eulogies seem hardly appropos. After all, we're all children of God and equal in his sight. How important, really, is the fact that "the departed" was highly regarded by his fellow man? It seems pretty insignificant compared to God's loving promise of eternal salvation.

Like its funeral service, the Episcopal Church is conducted for living people. Afterwards, it's between you and God. Your nearest Episcopal minister would be delighted to talk with you about this "living theology."

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT

NUMBER TWO ON THE BALLOT (HJR9)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows:

"Section 49-d-1. (a) In addition to Texas Water Development Bonds heretofore authorized to be issued by Sections 49-c and 49-d of Article III of the Constitution, the Texas Water Development Board is hereby authorized to issue \$3,500,000,000 in aggregate principal amount of bonds. No part of such additional bonds shall be issued prior to approval thereof by the vote of two-thirds of the elected members of both houses of the Legislature.

"(b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund.

"(c) The bonds herein authorized and all bonds authorized by such Sections 49-c and 49-d of Article III shall bear such interest and mature as the Texas Water Development Board shall prescribe subject to the limitations as may be imposed by the Legislature.

"(d) The Texas Water Development Fund shall be used for the purposes heretofore permitted by and subject to the limitations in said Sections 49-c and 49-d and in addition thereto for the purposes of developing water resources and facilities for the State of Texas, both within the State and without the State.

State of Texas. Provided, however, that financial assistance may be made pursuant to the provisions of such Sections 49-c and 49-d subject only to the availability of funds and without regard to the provisions in Section 49-c that such financial assistance shall terminate after December 31, 1982.

"(e) Under such provisions as the Legislature may prescribe, the Texas Water Development Board may receive grants and, in addition, execute contracts with the United States or any of its agencies, other states of the United States, foreign governments and others, for the acquisition and development of such water resources and facilities for the State of Texas. Such contracts when executed may be secured by the general credit of the state, and if so secured shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds. If facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment. The aggregate principal amount of Texas Water Development Bonds authorized herein and in said Sections 49-c and 49-d shall be reduced by the aggregate of principal payments committed under such contracts constituting general obligations of the state. The provisions hereof shall not be construed to limit the authority of the Texas

Water Development Board to execute contracts or issue revenue bonds when such contracts or bonds are not secured by the general credit of the state.

"(f) Texas Water Development Bonds and such contracts secured by the general credit of the state shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"(g) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on Tuesday, August 5, 1969, at which election all ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment broadening the powers of the Texas Water Development Board and the purposes of the Texas Water Development Fund; eliminating the interest limitations on Texas Water Development Bonds; raising the authorized amount of Texas Water Development Bonds by \$3,500,000,000; extending the maturity schedule on Texas Water Development Bonds; eliminating the procedures for curtailment and the curtailment date of financial assistance to be provided by the Texas Water Development Board."
