Ike Appeals To Women For Help In Cleanup

Hermleigh Well To Be Drilled Through Plug

American Trading & Production Corp. No. 2-A Elmer Howell, a one location southeast stepout to the Hermleigh - Ellenburger field, is preparing to drill the plug on surface casing cemented at 1,372 feet and drill deeper.

The No. 2-A Howell, which was staked in June, is 1,172 feet southeast of the No. 1-A Howell, a recently completed Ellenburger producer. The No. 2-A was originally set 660 feet from south and east lines of section 62-3-H&TC, but is now reported to be 1,932 feet from north and 660 feet from east lines of that same section, block and survey.

FLUVANNA FIELD

Superior and Intex No. 13-536 Florance Lanham, outpost to the Fluvanna field, is trying to shut out water before perforating casing for tests of the Mississippian.

The project is at total depth of 8,205 feet in Mississippian lime. A 35-sack cement plug is to be set on the bottom. Operator will then clean out to 8,185 feet and run seven-inch casing to that depth with perforations to be made higher in the hole.

SCURRY WILDCAT

Texaco No. 1 M. A. Fuller, North Scurry wildcat, is at total depth of 7,606 feet in lime and drilling out cement that got inside the pipe while operator was squeezing cement in back of the pipe. Tests are to be made on perforations at 6,760-765 feet to be sure that cement is holding there. If these tests show that the water has been shut out, the operator is to drill 25 to 50 feet deeper in open hole and test for production. It is understood that no tests have been made on the perforations already made.

STONEWALL COUNTY

Continental Oil Co. No. 1 Smith, 18 miles southwest of Aspermont in Stonewall County, is drilling below 6,695 feet in lime and chert after a one-hour drillstem test of the Pennsylvanian lime from 6,217-295 feet. Recovery was 30 feet of mud with no shows. A 50-minute test from 6,635-695 feet also recovered 30 feet of mud with no shows.

DRILLING REPORTS

Union Oil No. 1 William D. Loggie Borden wildcat 15 miles northwest of Gail, is at total depth of 8,809 feet in a zone identified as the Pennsylvanian and running a drillstem test.

Cities Service No. 1-B Leverett in Dawson County is drilling in Permian dolomite and lime after a drillstem test from 4,919-975 feet. With the tool open two and one-half hours, recovery was 1,090 feet of salt water, slightly cut with oil and gas.

Wilshire No. 24-182 Spires, Nolan wildcat, is drilling below 4,951 feet in lime and shale.

NEW LOCATION

Burdell Oil Co. has announced location for its No. 1 First National Bank of Snyder in the Sharon Ridge - Clear Fork field. It is 330 feet from north and east lines of the northeast quarter of the southeast quarter of section 129-97-H&TC, about four miles west of Ira. Contract depth is 3,500 feet, with operations to start immediately.

BIG RATTLER KILLED HERE

The big rattlesnake above was killed by an automobile on Twenty-fifth Street in front of the Rainbow Market just two blocks east of the square last night about 8:45. The reptile measured five feet three inches, and weighed about 15 pounds. Don Ramage, left, 1512 Avenue R, and Jerry Busby, 2200 Avenue R, were in the car which killed the snake. Mrs. Earl W. Stacey, bookkeeper for the Snyder Daily News, who is five feet two inches tall is shown at right to compare her height and the length of the diamond back.

4,000 Scurry Cars Still To Be Inspected

No vehicles can be registered next week unless a safety inspection which is required by law after Sept. 6, has been made on them.

Jim Ikard, county tax assessor-collector, said his office cannot issue registration certificates on new or used cars for this year unless safety inspections have been made. He added that 11,341 vehicles had been registered in this county this year by Aug. 26.

According to the eight firms who have inspection stations in Snyder, a total of 6,581 vehicles had been inspected by yesterday afternoon, leaving about 4,800 still to be checked before the deadline at midnight Saturday night. The inspection stations have checked a total of 722 autos since last Friday.

One firm reported that it will remain open until 8 o.clock each night this week to accommodate motorists who have not already had cars inspected.

Bill Zimmerman, highway patrolman, said the patrol office here has not yet received any special instructions as to what should be done with violators immediately after the deadline. He added that he expected instructions within a few days.

Baby And Taxi Driver Killed

WEATHERFORD, Sept. 3 (AP)—A taxicab - car collision near here today killed two—the cab driver and a baby girl who was with her mother and sister en route to join the baby's father in nthe Army.

Four others were injured.

Mrs. James C. Williams had engaged the cab at Mineral Wells to take her and her two daughters to Love Field at Dallas. There they were to catch a plane to California and join Cpnt. Williams at Fort McArthur, Calif.

The collision killed 18-months-old Penny Candace Williams and cab driver Herman A. Penrod, 53, of Mineral Wells.

Grand Jury Checking Over Oil Evidence

WASHINGTON (AP) — A federal grand jury seeking evidence of an alleged international oil monopoly assembled today to start sifting through the records of major petroleum operators.

The grand jury inquiry was organized at the request of Atty. Gen. James P. McGranery, who said a Justice Department investigation of more than a year indicated that seven large companies dominated the world oil market.

McGranery named Leonard Emmerglick, a top Anti-Trust Division attorney, to head a special Justice Department staff to present the case before a jury here. Emmerglick is best known for his successful prosecution of the Aluminum Corporation of America several years ago on anti-trust charges.

The government has subpoeaned the records of 21 large oil companies for grand jury examination.

Most have responded with the requested data. Some, including Standard Oil of California, have obtained extensions of time in which to present the requested information.

Others, led by Standard Oil of New Jersey, are resisting the subpoenas on grounds that they should not be forced to disclose corporate records which might eventually fall into the hands of competitors.

A Standard of New Jersey motion for withdrawal of the subpoena is scheduled for argument in District Court here on Sept. 10.

INTERESTING WITNESS

Caudle Testimony Makes Tax Probers Work Take Longer

WASHINGTON (AP) — T. Lamar Caudle proved to be such an interesting witness at a closed-door hearing yesterday that a House investigating committee chairman remarked after it was over that his group "has a lot more work than we thought we had."

"We've got a terrific September aheard of us," added Rep. Chelf (D-Ky) after listening to Caudle for more than five hours. Then he expressed doubt his judiciary subcommittee, which has been investigating the Justice Department, will be able to finish its work by Oct. 1 as planned.

Caudle, who was the governments chief tax prosecutor until President Truman fired him from his job as assistant attorney general last November, provided some information that was brand new to them, Chelf said.

The chairman said the discussion covered "a lot of cases and a lot of things."

Rep. Keating (R-NY), ranking minority member of the committee, told reporters that some of Caudle's information "related to previous attorneys general," but he didnt elaborate.

Caudle was brought into the Justice Department in 1945 by Atty. Gen. Tom C. Clark, now a Supreme Court justice. Clark was succeeded by J. Howard McGrath, who was head of the department when Caudle was discharged for "outside activity."

Today Caudle, telling reporters he was "delighted to co-operate," stood by for another private session with the subcommittee.

The time of his next appearance remained uncertain because of a public hearing scheduled today into the recent ouster of a veteran Justice Department lawyer, also for outside activity.

But both Chelf and Keating said Caudle may be questioned again before the end of the day. They said they expect eventually to put him on the witness stand at a public hearing.

Among witnesses called for todays hearing was James A. Mullally, long-time attorney in the Justice Department's Criminal Division, who resigned after his recent suspension by Atty. Gen. James P. McGranery.

In addition to Mullally, the subcommittee summoned several other attorneys for questioning about laws and regulations dealing with conflicts of interests of attorneys who leave the Justice Department and take up private law practice.

Caudle, 48 and now practicing law at Wadesboro, N. C., where he started his legal career, was affable, but not very talkative outside the committee room.

"I'm here to co-operate all I can," he told reporters before entering. And he suggested, without any obvious trace of rancor, that they not forget to put in their stories tha "Im he guy fired by that president."

"I am going to stay here until the committee is through,' he said as he left. "Im delighted to co operate."

Addresses Big Tampa Crowd On New Swing

TAMPA, Fla., Sept. 3 (AP)—Dwight D. Eisenhower appealed to the women of America today to throw themselves into the presidential campaign "to correct the things that are wrong with us."

The GOP presidential nominee's appeal to the women voters was made before a cheering crowd estimated at 9,000 gathered at the Tampa ball park.

Tampa followed the lead of Atlanta, Jacksonville and Miami in giving Eisenhower a rousing welcome on his sweep across Dixie that has been booming in such spectacular fashion.

"I am anxious to draw the spirit of women into the campaign I am trying to wage," Eisenhower said after he had been introduced by GOP national committeewoman, Mrs. Helen Lieb.

Standing under a broiling sun on a bunting-draped platform at home plate, Eisenhower declared "we must recall the spiritual and moral values of our forefathers" in government.

He said he referred to the situation in Washington as a "mess" because "that's what the opposition calls it."

"There is a difference between the two parties," Eisenhower said. "One is saddled with a mess. The other wants to clean it up."

Then he paid tribute to the civil service workers and said they must "hang their heads in shame" when they realize "that justice has been outraged in their agencies."

Turning to Webster's definition of the word mess, Eisenhower said it dealt mostly with food. But then he said:

"Mess can mean a confused, inharmonious, disagreeable mixture of things, a medley, a hodgepodge, a situation resulting from blunder or misunderstanding. A muddle. A botch."

Eisenhower urged the people to take part in their local politics to have influence in their government and in naming the kind of government they want.

"I am down here," he said, "to help, if I can, make certain there are two parties in the South." This statement brought cheers and applause from the crowd.

"Don't you be taken for granted," he said. "Please make every single individual who wants to serve you in public offcie come before you and say what's in his heart and mind. Dont let him take you for granted."

The reception given to Ike along his route posed the question of just how solid the Democratic South will be in the November election.

The GOP etc... 2nd graf ta29 under Miami dateline.

The GOP presidential nominee was drawing huge crowds at every stop along his campaign route. But none could say whether it was due to personal charm or political appeal — or a combination of the two.

Pair Held In Amarillo After $13,000 Holdup

AMARILLO, Sept. 3 (AP)—A handsome, curly-haired robber and his young wife were held by police today after a bold $13,258 robbery of a Montgomery Ward store here.

Robbery by assault charges were filed against William Booth Webb, 21, yesterday after a Highway Patrolman cornered him as he fled on foot. Webb said he was from Los Angeles, Calif.

Police also hunted for a new employee of the firm who they believed cased the job. It was in his car that the robber pitched the paper sack holding more than $6,000 in cash and some $7,000 in checks.

The district attorney's office said Webb made a statement which fitted all details of the robbery as related by witnesses but did not implicate the new M-W employee.

The dapper bandit, well-dressed and with 49 tattoos on his body, refused to talk to newspapermen.

Mrs. Sue Rede, assistant cashier, said the tattoo-decorated man walked into the store about 8:30 a.m. yeserday when the door was open for employes only.

He gave her a paper bag and demanded "all the money you have."

She said he held his hand in his pocket as if he had a gun, but police found none on him when he was arrested soon after the robbery.

With several employes chasing him, the handsome bandit raced out the front door of the store, threw the money into the missing employe's car, and continued to run.

Highway Patrolman Earl Reynolds, driving one of several police cars that hurriedly converged on the scene, sped against traffic on a one-way street to corner the fugitive.

Ike Polls High At Lions Club

Many Snyder Democrats may swing to the Republican ticket this year, if surveys mean anyting.

According to a survey conducted yesterday by the Daily News at the meeting of the Lions Club, 25 persons out of the 48 who balloted indicated that they would vote for Eisenhower.

The ballot stated: "If the general election were held today, I would cast my vote for:" and those marking ballots were given three choices: Eisenhower, Stevenson, or Would Not Vote.

Twenty - five said they would vote for Eisenhower, 10 would vote for Stevenson, and seven said they would not vote.

The survey will be conducted at civic club meetings throughout this week.

Cool Weather Helpin With Water Situation

The long Labor-Day weekend plus cool weather since then has permitted the city to rest all of its water wells for short periods of time, and has greatly relieved the water shortage here which developed at the end of August, Ralph Eades, acting city superintendent, said.

Eades said that Snyder's water supply will be in good shape if the weather continues cool a few days and keeps the water consumption low enough to permit resting the wells more.

"It will take a few days of rest to build the water level in the wells back to where it was when the hot weather hit, however," he said.

Hurricane Heading For North Carolina

MIAMI, Fla., Sept. 3 (AP)—Gusts of wind estimated at 140 miles per hour were reported today in the severe Atlantic hurricane swirling northwestward in open ocean 800 miles east of Miami.

The 11 a. m. (EST) advisory said the tropical disturbance probably would continue the present course for the next 12 hours, "with possible intensification."

Forward speed was estimated by a hurricane hunting plane at 12 to 14 miles per h ur.

Savage sustained winds of 115 miles per hour were registered near the center of the severe storm.

Hurricane force winds—75 miles per hour or more—extended outward 75 miles in the northern semi-circle. The terrific 140 mile per hour gusts were located in this quadrant.

All shipping in the path of the hurricane—the second of the season—was told to get out of the way in a hurry.

The advisory pinpointed the center of the storm near Latitude 26.2 North and Longitude 67.5 West.

The hurricane was still following a course about parallel and 100 miles north of the one taken by the season's first tropical disturbance last week.

Continued movement in this direction would bring it to the North Carolina mainland 950 miles distant in about three and one half days.

But hurricanes never move in a straight line. Weather observers said yesterday they believed the blow might swing more to the north away from land in the next couple of days.

Secretary Acheson Appeals To Mossadegh To Accept Our Offer

WASHINGTON, Sept. 3 (AP)—Secretary of State Acheson publicly appealed today for Iranian Premier Mossadegh to reconsider his rejection of proposals made by Britain and the United States for settlement of the Iranian oil crisis.

Acheson called the proposals "fair and reasonable." He told a news conference that the three-point settlement plan accepts nationalization of the British-owned oil industry in Iran "as a fact" and concerns itself with the problem of working out compensation.

The plan was put forward by President Truman and Prime Minister Churchill Saturday.

Mossadegh turned it down within a few hours after it was presented to him at Tehran. He has called a parliamentary session for Sept. 10 to consider a formal reply.

Rain Sweeps Korean Front

SEOUL, Korea (AP) — A tropical storm grounded U. N. warplanes today and lashed infantrymen on the Korean battlefront with up to 3½ inches of rain.

U. S. Fifth Air Force headquarters reported only weather reconnaissance planes took off.

No Reply on Charge Made Against Adlai

SPRINGFIELD, Ill. (AP) — Gov. Adlai Stevenson, drafting a major speech on farm policy, made no immediate reply today to a direct attack on his record in office in Illinois, and there were no indications that he planned an answer.

His strategy, a campaign lieutenant said, will be to ignore Republican accusations and concentrate on a series of "foundation speeches" to set forth his views on what he considers the major issues.

Stevenson's assistants had no comment on a speech last night by Sen. Everett M. Dirksen of Illinois before the Federation of Illinois Women's Republican Clubs. The Republican senator, speaking within a stone's throw of the governor's office in Springfield, asserted:

"Illinois leads all the states in the union for the gambling racket. When it comes to cleaning up corruption, I'm not very much impressed by Stevenson's record."

It was the most concerted attack to be leveled at Stevenson since he became the Democratic candidae for the presidency.

A member of his staff said, "I doubt if he even knows what Dirksen said, let alone making any plans to reply."

Instead of answering Republican attacks, Stevenson will concentrate on "getting the country accuainted with his views," onen of his aides said. The defense of the Democratic administration will be left mainly to President Truman, for the time being at least, his headquarters indicated.

The governor already has presented his views, in New York, on civil rights, and in Detroit he came out against the Taft-Hartley Act, advocating a broad new labor law to replace it.

The farm policy speech comes next, his campaign leaders said.

He is expected to deliver it Saturday at the National Plowing Contest in Kasson, Minn. From there, his route will take him through Wyoming and Montana to the Pacific Coast. In a series of speeches in the West he plans to expand further the program to be presented at Kasson.

A group of officers of the Committee for Agricultural Progress were in Springfield today for conferences with the governor on the agriculture policy speech.

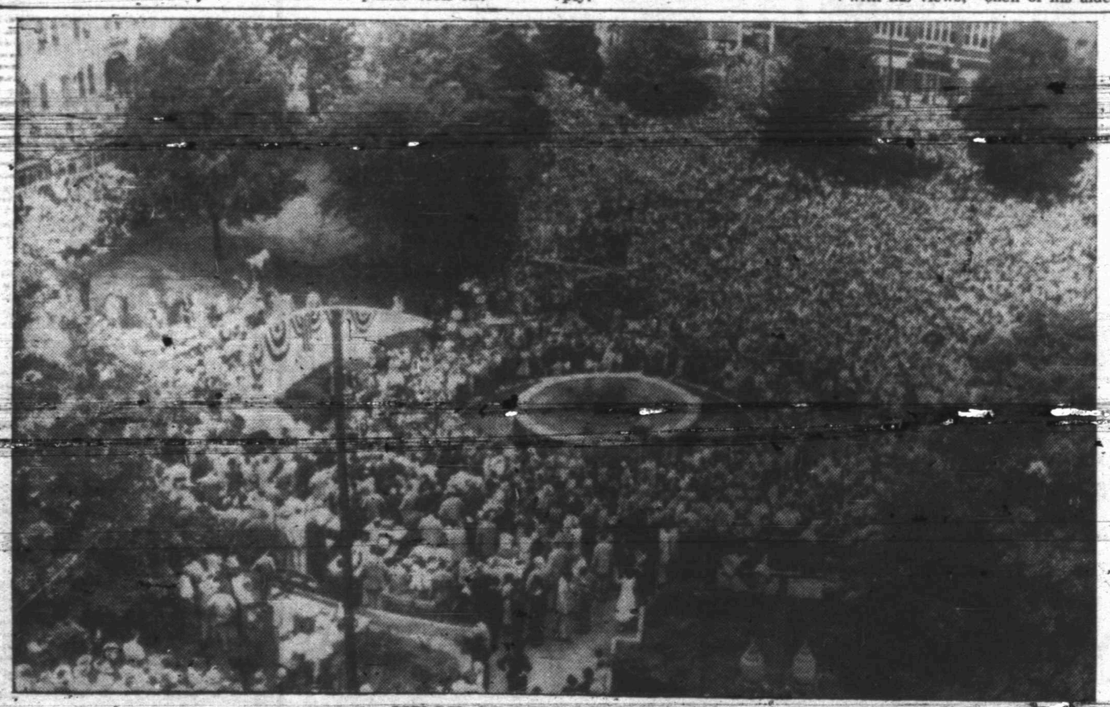

Among them was John S. Watson, Petaluma, Calif., agriculutral consultant to the Democratic Platform Committee. Watson is state chairman of the Committee for Agricultural Progress. The others were Alfred R. Barnes of Huron, S. D., and Ben Strong and Robert E. Allen of Chicago.

Stevenson's office declined to specify exactly what he will say when he outlines his views on agriculture. He has repeatedly stated, however, his support of the Democratic party platform, and at the Illinois State Fair last month, he said that the farm plank is "not socialized agriculture."

Lawyer Trying To Sue Truman

CLEVELAND, Sept. 3 (AP)—William W. Cavanaugh, 32, an attorney and Air Force veteran, asked Federal District Court today to require President Truman to take all U. S. troops out of Korea.

He also asked the court to reprimand the President for sending armed forces into Korea, and said Mr. Truman did so by executive order, without Congressional authority.

HUGE CROWDS HEAR IKE

Thousands of persons jam into every available space at Hurt Park in Atlanta, Ga., to hear Republican presidential nominee Dwight Eisenhower call for a cleanup job in Washington. This was Ike's first stop in his history-making swing throught the south. He addresses the huge crowd from the speaker's stand at the left.

WEATHER

WEST TEXAS: Fair and a little warmer Wednesday night and Thursday and in Panhandle and South Plains Wednesday afternoon.

NORTH CENTRAL TEXAS: Fair and a little warmer Wednesday afternoon, night and Thursday.

SOUTH CENTRAL TEXAS: Partly cloudy Wednesday afternoon, night and Thursday. Widely scattered thundershowers on the coast Wednesday afternoon. Not much change in temperature. Gently to moderate variable winds on the coast.

EAST TEXAS Generally fair and a little warmer Thursday and in north portion Wednesday afternoon and night. Moderate northeast to east winds on the coast becoming southeast Thursday.

County Evaluation Contract Is Renewed Over Protests

Disregarding the pleas of several citizen taxpayers, the commissioners court voted unanimously yesterday afternoon to renew a contract with Thomas Y. Pickett & Co. of Dallas, valuation engineers, for a two - year term.

Citizens visiting the court in its extemporaneous session mentioned no opposition to the court's awarding of a contract to the Pickett firm, but all requested the commissioners either to renew the contract for only a year or to wait a few days so that the matter could be discussed among other taxpayers. No announcement of the meeting had been made, and yesterday was not the court's regular meeting day.

Other than Pickett and members of the court, those who attended the meeting came for the purpose of requesting that the court renew the contract for a year so that it would expire at the same time the Snyder school district's contract with Pritchard & Abbott of Fort Worth will expire. They expressed themselves as hoping that the county's contract and the school district's contract could be made to expire at the same time so that the two bodies could have a choice of obtaining an engineering firm jointly, saving the taxpayers several thousand dollars a year now being wasted by duplication of services.

The contract with the Pickett firm was to expire Jan. 1. Pickett presented the commissioners with a typewritten contract prepared beforehand and providing for a fee of three cents on each $100 of the total valuation fixed by the firm for the county. This is a reduction of 5 per cent, previous fees being four cents on the $100 valuation.

$45,000 THIS YEAR

Pickett offered his firm's services at either the three-cent fee or a flat fee of $30,000. With the four-cent fee the county paid the firm a fee totaling $42,500 last year and is paying about $45,000 this year.

The Snyder school district last year was to have paid Pritchard & Abbott a fee of approximately $30,000, but the firm voluntarily refunded the district $7,900. The fee provided for in the contract is four cents on the $100 valuation. The contract is to expire at the end of 1953. The properties within the school district are most of the oil properties in the county. Both valuation engineering firms determine only the values of industrial properties, mostly oil.

Snyder's city government also uses the Pritchard & Abbott firm, and the fee paid by the city last year was $481.57. This made a total of more than $65,000 paid by the three governing bodies last year for determining values of oil properties, railroads, utilities, banks, and company equipment in the county, a service which could have been purchased for little more than the $42,500 paid the Pickett firm if all had used the same engineering company, some persons have stated.

Bob Dupree, a member of the school board, suggested at the meeting that the court renew the contract with the Pickett firm for only a year so that all contracts would be made to expire at the end of next year. He said that if such were done, the school district and the county government could call for bids then and award a contract jointly or separately to the firm making the best offer.

MAKING STUDY

Dupree repeatedly emphasized that the school board is now making a study to see whether or not a saving could be made in favor of the taxpayers. Pickett asked him whether the school board were dissatisfied with the services of the other firm.

"No," Dupree answered. "There is no dissatisfaction. But there is considerable talk of waste in our federal government because of duplication of services, and it seems we are wasting in the same way here at home. We will find out some time this year whether we are right or wrong. Maybe we will just use a geological engineer rather than a valuation firm. We are

(See COUNTY, Page 2)

COUNTY

(Continued From Page 1)

spending taxpayers money and are entitled to know what we are getting."

When the session first began, Pickett introduced his contract and stated his proposition concerning the fee. The first to speak concerning the renewal was Cullen Toombs, commissioner of precinct No. 2, who said: "I think Pickett has done us a pretty good job."

Walter Grant, commissioner for precinct No. 1, said, "If we give it to him again, I prefer to pay the percentage fee rather than the flat fee."

Toombs asked Pickett how much bigger the tax work for the county was than the work for the schools. Pickett said it was easier to handle the school work since the taxpayers did not fight schools like they did the county. He also said there were about six operations in engineering for the county whereas there were about two in the case of schools.

Houston Harte, one of the taxpayers present, mentioned the overlapping of services by the two firms and asked Pickett if his firm could handle the work for the school district. "I don't solicit the business of other firms," Pickett answered.

Harte explained that he and many others were hoping that the county's next contract would be for only a year so bids could be called for at the end of next year in an effort to combine the services done for both schools and the county.

NO COMBINATIONS

Pickett said he did not want combinations. "I think the two should function separately," he said, "because there is less friction when they do, both being political subdivisions." Doyle Parmer, commissioner of precinct No. 4, then asked Pickett if the court could give the tax roll prepared by him to the school district. Pickett said this would be all right with him.

Harte asked Pickett if a one-year contract between him and the county would not be all right. "Yes, but I see no reason I can't get a two or three-year contract if my work has been satisfactory," Pickett answered.

"Would you meet with the school board on the subject?" Harte asked.

"Not as long as they're satisfied with their firm," Pickett answered. Harte explained that the interest of those visiting the court was to save the taxpayers about $15,000 wasted by duplication. Pickett said, "If you have a joint contract and happen to have some controversy, you won't save much." He said canceling Pritchard's contract would be an injustice.

"I think no one has any intention of canceling the contract,' Harte said. "All we want is a one-year contract so that all will expire at the same time, and we can work out a way by which we can save." Pickett said he thought the same firm could do both jobs but that there would be friction if the valuations were "tied together."

SAME FIGURES

Dupree said he believed two contracts would be all right in case one firm did both jobs, "but the firm doing the work can still use the same basic figures and eliminate duplication."

"You're fixing to get taxes into politics,' Pickett warned.

Toombs said he thought a valuation engineer was as important as an engineer on a road or an architect on a building and that the county needed a man who studied the subject. Dupree then pointed out that the engineering firms hired men who determined values for them and that it might be possible for the school district to hire as good a man as Pickett, or Pritchard had. Dupree also mentioned the unitizing of the oil field here and the fact that relative values will then be set. "There will be a formula to work by then and not as much work.'

Grant then moved that the court hire Pickett's firm for two more years at a rate of three cents per $100 of the total valuation determined by the firm. During a lapse of about 20 minutes before a second was made, Dupree suggested that the court "wait about a week" and discuss the matter further. He said he believed the school board would be glad to meet with the court on the matter. Parmer then asked Dupree if the board couldn't just cancel its contract with Pritchard & Abbott. "I don't think so," Dupree answered.

Grants motion was seconded by Toombs, and the four commissioners voted in its favor.

New Water For Big Spring Set

BIG SPRING — Big Spring will celebrate the arrival of water from the Colorado River Municipal Water District on Friday night with ceremonies at the high school football stadium.

Mayor George W. Dabney will announce the arrival of the water, which will come from wells in the district's Martin County leases, and the abandonment of all restrictions on water use. Dr. P. D. O'Brien, pastor of the First Baptist Church, will pronounce the invocation. Other speakers will include Frank Kelly of Colorado City, president of the West Texas Chamber of Commerce, Joe Pickle, managing editor of the Big Spring Herald, and R. E. Piner, president of the CRMWD board of directors.

The program will be climaxed when city firemen turn water on the dry turf of the football field.

Big Spring has had a serious water shortage since April, when two small lakes which had furnished part of the supply went dry. Wells in Glasscock County have provided water since then, but automobile washing, lawn watering and other similar water uses have been banned to stretch this supply.

The Martin County water will be brought to Big Spring through a 27-inch line completed last week end. Tests of the line are now being made prior to tying it into the city's distribution system.

McLaughlin Chosen To Make Tour Of Defense Developments In Nation

C. T. McLaughlin, Snyder oilman, will be one of two Texans who will be taken on an orientation tour of recent developments by the Armed Forces.

Both McLaughlin and Raymond Buck of Fort Worth were invited by Secretary of Defense Loyett to make the tour. They will go to the Pentagon Sept. 23, where they will have more than a day of orientation before touring Quantico, Va., Marine base. They will then fly to the Navy base at Pensacola, Fla., Sept. 27, then go to Elgin Air Force Base, Fla., Sept. 30.

After going to Fort Benning, Ga., the group will spend a night on an aircraft carrier at Norfolk, Va., then return to Washington.

City Officials Slain

MANILA (AP) — Bandits wearing Army uniforms last night raided Cavite, a mountain town 25 miles south of Manila, and killed the mayor, police chief and two policemen.

Lt. (jg) Elmer Taylor, Jr., son of Mr. and Mrs. Elmer Taylor, 3104 Avenue T, has recently completed a course of instruction at the Navy Supply Corps School in Bayonne, N.J. He entered the Navy in March.

Kickoff Breakfast Held For School Faculties Yesterday

The school faculty got down to serious business at a kick - off breakfast yesterday after which they were addressed by the school superintendent and director of curriculum.

The breakfast, under the direction of Mrs. Artie Berzman, was held yesterday morning at the Southeast Ward grade school.

Mrs. Berzman, manager of the school cafeteria system, says that at the present there will be no federal aid for the student lucnh program. Aid has been cut from seven to five cents per meal with milk, and from five to three cents without, she says.

"I don't know if or when we will receive any surplus commodities, but the price per plate will be the same as last year," Mrs. Berzman states.

The breakfast session was presided over by M. E. Stanfield, assistant superintendent. Fifty new Snyder teachers were introduced at this time.

In the session following the breakfast Frank Wilson, director of curriculum, discussed plans for moving to the new high school, junior high and adjusting to the new elementary buildings. He also suggested evaluation and the course of study materials as possible long range programs.

Superintendent Cecil Yarbrough told the staff that parents in communities are asking the schools to do more for their children than they once did. "Parents still believe that the tools of learning, reading, writing, and arithmetic, are basically essential, but there are other fundamentals. Health, citizenship, social and family living, appreciation of the finer things of life and making a living are important, too," Yarbrough said.

Various teaching aids such as visual aid and standardized achievement tests were on display.

Preceding the breakfast the Rev. Clifford Taylor, President of The Ministerial Alliance, gave the devotional. Mrs. F. N. Baker, city P-TA council president, brought greetings to the school staff.

Former Manager For Odessa Chamber Of Commerce Succumbs

Funeral services for Houston Crump, former Odessa Chamber of Commerce manager, were to be held at 10 o'clock this morning in the Odessa First Christain Church.

Mr. Crump died yesterday after undergoing treatment for a cerebral hemorrhage since Saturday. He was 48 years of age.

As manager of the Odessa chamber for almost three years, Mr. Crump was active in the promotion of the Colorado River Municipal Water District as well as other civic projects in Odessa. He is survived by his parents, Mr. and Mrs. J. M. Crump of Deming, N. M., and a sister, Mrs. Allie Mathis of San Antonio.

$2,000 Left To Dead Dog In Woman's Will

CHICAGO (AP)—A "suitable" $2,000 memorial was authorized today for a 12-pound Pomeranian dog that died fighting off a big bull terrier that attacked a man.

The memorial and perpetual cemetery care was stipulated in the will of the dog's owner, Mrs. Ida L. Virtue, 75, who died Aug.12.

The courageous Pomeranian Sonny Boy, was killed defending a relative of Mrs. Virtue, Oliver J. Edwards.

Mrs. Virtue, a widow, left an estate of about $100,000.

Schools To Be Patrolled

Special patroling of intersections near schools will begin when school opens, Walter Suttle, police chief, said today.

"I have never been here before during a school term, and a few days may be required to learn where special patroling is most needed, but we will try to maintain the good safety record Snyder has set," Suttle said.

Road Contract Awarded Here

The commissioners court this morning awarded a contract for paving of two and three - tenths miles of county road for $26,674.38. The project is in addition to the $2,500,000 road paving program currently under contract which the county voted tax bonds to cover.

W. O. Pelphrey of Fort Worth, contractor on a large portion of the roads being paved in the county program, was awarded the contract on the short project which will connect two roads being paved under the 157-mile program. The new project will extend westward from the west extension of Thirty-seventh Street at a point about two miles west of town to the Union - Ira road.

Pelphrey was low bidder. The other two firms bidding on the project and their bids were Strain & Brown, San Angelo, $28,180.70 and E F. Smith, Abilene, $28,558.26.

Industrial Development

LISBON, Portugal (AP) — The Portuguese government announced last night a 13½ billion escudero (472½ million dollar) six-year development plan to help free the country from her age-long dependence on foreign producers.

The plan calls for expansion of existing industries and the development of new ones both at home and in Portugal's overseas territories.

EASY ON EYES—Pajama, in green embroidered with silver for at-home entertaining, was one of hit fashions displayed by designer Roberto Capeuci in Florence, Italy.

Baptist Leader To Support Ike

DALLAS, Sept. 3 (AP)—A Texas Baptist leader has commended the Republican Party and the candidacy of Presidential Nominee Dwight D. Eisenbower for "expressly championing the right of Texas to her public domain."

A. B. Culberton, executive vice president of the Baptist Foundation of Texas, said his statement yesterday was personal and did not necessarily express any official Baptist view.

The Democratic Party's stand on the tidelands issue, he said, should lead "any patriotic Texan to know how to cast his vote" in November.

He said Baylor University at Waco, a Baptist school, has a particular interest in the tidelands. Some mineral interests in the tidelands, he said, were given Baylor in the estate of Dr. H. H. Ogilvie, San Antonio physician who died in 1945.

'Plowville' Getting Ready For Ike And Stevenson Saturday

KASSON - DODGE CENTER, Minn. (AP) — "Open for business" signs blossomed today around the huge circus-like tent city erected for the combined plowing-political contests coming to this South Central Minnesota farming area Saturday.

"Now serving sandwiches and hot lunches," say the signs in front of many of the canvas eateries. They were among the first concessions to set up place for the National and Minnesota State Plowing Contests Friday and Saturday.

Operators of the establishments are mostly church groups. Their big business will come Saturday, when crowds, estimated at up to 150,000 persons are expected to converge at "Plowville" to hear the next president of the United States.

Gen. Dwight D. Eisenhower, Republican candidate for president, will speak at noon. Gov. Adlai Stevenson, the Democratic nominee, will mount the same stand four hours later.

In between and probably during the speeches, farmers on tractors will exhibit their plowing prowess before the trained eyes of judges.

Concessionnaires found they wouldn't have to wait until Saturday to do good business. There are a lot of hungry men already at Plowville. In fact, a veritable army is bivouacked there now.

Carpenters are flooring tents and building restrooms. Power company workers are setting poles and stringing miles of lines. Farm implement men are hauling machines and setting up exhibits. Communications crews are installing switchboards, telephone booths, and all types of communication lines.

Scores of tents already are in place, and many more will go up. Rows of shiny tractors are lined up for the farmers who'll compete in the plowing competition.

A keen onlooker has been Alf Larson, a Kasson farmer. Larson recalls it was he who last year invited the National Association of Soil Conservation Districts to hold their 1952 contests in Minnesota.

"I'm amazed by all this," he said as the town of tents and tractors grew.

Chairman of the reception committee for the big day, Larson thinks the appearance of Eisenhower and Stevenson will draw many persons more interested in politics than farming.

"A little knowledge of soil conservation should rub off onto them," he said. Larson thinks also farmers who come mainly to watch the plowing are bound to get more interest in politics.

Larson feels that as chairman of the reception committee, he should see to it that Eisenhower and Stevenson don't meet face to face.

"But I'll be switched if I know how we're going to avoid it," he said.

Cpl. Ira E. Maupin, son of Mr. and Mrs. I. O. Maupin of Ira, is now on security duty with the 1st Calvary Division in Japan. His unit was transferred to Japan in December after 18 months of combat. Maupin entered the army in February, 1951.

TALK OF THE TOWN

By SUE HOLMES

Five Scurry County women had a memorable time during the Texas Home Demonstration Association annual convention in Kingsville last week. The delegates included Mrs. M. L. ANDRESS, Mrs. B. M. DeLOACH and Mrs. H. J. SCHULZE, and Mrs. GUY STOKER and Mrs. GUY GLENN also attended.

Entertainment highlight was a tour of parts of the 940,000-acre King Ranch. The King mansion was the scene of a tea for the THDA delegates and marked the first time the home had been opened to visitors.

After the regular convention activities closed, the group took chartered buses to Reynosa, Mexico, where they had dinner and shopped. On the return they toured Corpus Christi and Austin and arrived home early Saturday morning.

Over 500 women from all parts of Texas attended the convention and the local delegates say Kerrville residents were a bit envious of the fact the King mansion was opened to the conventioners.

EVENTS OF THE WEEK

WEDNESDAY

American Legion Auxiliary membership tea, 8 p.m., Manhattan dining room.

Gift tea honoring Miss Ann Bucy, 4.30 - 6 p.m., given by Mrs. Gid T. Carlisle, West Thirty - fifth Street.

Send 30c for PATTERN with Name, Address, Style, Number and Size. Address PATTERN BUREau, Snyder Daily News, Box 42, Old Chelsea Station, New York 11, N.Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cent per pattern.

The FALL - WINTER FASHION BOOK, just out and beautifully illustrated in COLOR! Presenting fall fashions at their smartest. Over one hundred practical, easy-to-make pattern designs, for every age and type of figure. Be an early bird, order your copy now. Price just 25 cents.

Helps For Homemakers

Send your questions to "Helps for Homemakers", Snyder Daily News, or call 3-5426.

What size water heater is advised for a family of two? Mrs. M.

The Gas Appliance Manufacturers Association advises a 30-gallon tank is necessary for a family of two. But they offer a word of caution — in planning hot water requirements, remember that families are inclined to grow.

* * *

Could you tell me what this new vicara material is? L. O.

Vicara is a manmade fiber from the protein of corn. Acutally, the fiber is designed to be used in blends with othre textile fibers: wool, cotton, rayon, acetate and other manmade synthetic fibers. At to the particulars of the new fiber, it is moth and mildew resistant, non-itching and gives a wool-like character to the blends. It also adds crease-resistance, drape, softness and elasticity to fabrics.

* * *

We have made apple butter and are wondering if pear butter would be made similiarly? We were given some pears and would like to try the pear butter. N.

Pear butter is a favorite in many families. Crush washed and cored pears and cook in their own juice until the fruit is soft, stirring often. Put through a food mill or collander. Measure the pulp, and add half as much sugar as pulp. Cook rapidly, stirring constantly, reducing the heat as butter thickens Test by pouring a small quantity on a cold plate. When no liquid appears around edge of butter, cooking is completed. Stir in ½ teaspoon ground spices per quart of butter. Ladle, boiling hot, into hot sterilized jars. Seal at once.

Since we don't know how you make your apple butter, we don't know whether this method would be similiar. But it is one method.

Harrell Home Is Scene Of Party

Sittie Harrell and Gerry Lyn Hughes entertained recently with a slumber party at the home of Mr. and Mrs. Garrett Harrell, 1312 Twenty - eighth Street.

Those invited were Pat Taylor, Mary Ann Doak, Ann Fish, Judy Miller, Emma Lee Duncan and Betty Connell.

Mr. and Mrs. Ned White and daughters, 706 Thirtieth St., visited relatives in Stamford Sunday.

Recent guests in the home of Mr. and Mrs. Marsene Holt, 2906 Avenue Y, were her nieces, Miss Sandra Lynn Ellis and Miss Anna Katherine Ellis of Amarillo. They returned with their parents, Mr. and Mrs. R. C. Ellis.

Mr. and Mrs. C. B. Keever and infant son, Humble Camp, have returned from Ennis and Dallas. They visited his parents, Mr. and Mrs. C. B. Keever, Sr., in Ennis.

Ramage Family Reunion Held

Eight sons and daughters of Mrs. Bessie Ramage, 1512 Avenue R, were guests in her home over the week end. A picnic Saturday at Von Roeder Park near Midway community honored the out-of-town members of the family.

Those attending were Mrs. Horace Crumley and children, Alton, Clyde and Hilda, San Marcos; Mr. and Mrs. R. T. Ramage and daughter, Linda, Tuscaloosa, Ala.; Mrs. A. B. Thrasher, Alexandria, La.; Mr. and Mrs. L. B. Wall and daughter, Deedra, Fort Worth; Mr. and Mrs. W. C. Randolph and children, Bruce and Beverley, Pollar; Mr. and Mrs. Clint Sellers and children, Barbara, Clinton and Shirley, Midway; Don Ramage, Mr. and Mrs. George Ramage and children, Carla and Jimmie, all of Snyder.

Future Homemakers Have Buffet Meal

Officers and sponsors of the high school chapter of Future Homemakers of America met last night at the home of Francine Taylor for a buffet supper.

Following the meal, yearbooks were assembled.

Those present included Mrs. Frank Jenkins and Miss Vera Perman, sponsors; Margie Smith, president, Myrna Walker, historian, and Jan Stacey, reporter.

PERSONALS

Dr. and Mrs. Robert Hargrove and family, 3718 Avondale, returned Saturday from Houston where their daughter, Diane, was taken for medical observation.

Mr. and Mrs. Sam Wood and son, Sammy, of Midland were in town for the Country Club golf tournament Monday and visited in the homes of Mr. and Mrs. Gene Best Thirty - seventh Street, and Mr. and Mrs. Max Milam, Lamesa Highway. The Woods are former Snyder residents.

Mr. and Mrs. Pat Beene and son, Bob, 1107 Thirtieth Street, visited their daughter and sister, Mrs. Bill Ogden and Mr. Ogden in San Angelo over the week end. Bob remained for a longer visit.

Toni and John Best, daughter and son of Mr. and Mrs. Gene Best, Thirty - seventh Street, are in Albany visiting their grandmother, Mrs. Pearl Taylor.

Hal Battle, 2358 Sunset, has returned from San Marcos where he took a week's special course in driver training at Southwest State Teachers College. Mrs. Battle and son and daughter visited relatives in Big Spring over the week end and attended the Big Spring Junior Rodeo.

Mrs. Dwight C. Worley and daughter, Terrie Lynn, of Tampa, Fla., are visiting this week with Mrs. Worley's parents, Mr. and Mrs. W. A. McGlaun, 1200 Twenty-fifth Street. The McGlauns met where she was a bridesmaid in the wedding of Miss Margaret Elizabeth Smyth and Wilber Glynn Woods, Jr. Mr. and Mrs. Lee Smyth 3712 Austin Avenue, also attended the wedding Saturday and visited in Houston.

Dr. and Mrs John Hamblen and children, Jo Ann, David and James, 2103 Thirty - seventh Street, visited over the week end in Abilene with Mrs. Hamblen's mother, Mrs. Grace Jackson.

Guests in the home of Mr. and Mrs. Jack Wright of Union have been his sister, Mrs. Myrtle Banks of Fort Worth and a brother, Saxton Wright, of Hubbard, Tex.

STILL GOING DOWN

The odor of drying fish and sound of swarming mosquitos hang heavy over Lake Wichita near Wichita Falls, these days. Residents along the lake say it is going down more and more each day. Millions of gallons of water have been drained from the lake by evaporation and for city use. Here a solitary fisherman casts his line into three feet of water from a dock near the lake's pavillion. Next week he may find this spot dry.

ART GUILD FIRST

Study Clubs Start Year With Variety Functions

Snyder's federate club season opened last night with Art Guild's initial program at the home of Mrs. John Pratt.

Mrs. Dell Smith and Mrs. Ben Thorpe conducted a program on parliamentary procedure and read the club's constitution and bylaws. A refreshment plate was served to 17 members and one guest, Mrs. Truman Black.

Six other local clubs, also members of the Texas Federation of Women's Clubs, have planned reassembly functions between now and mid-September.

Alpha Study Club will hinge its programs on "Our American Heritage," using Henry Steele Commager's text, "Living Ideas in America" and Gerald W. Johnson's "This American People." The first program is to be a book review by Mrs. Ivan Dodson Sept. 23, with following programs based on the American political system, homes, American hymn writers, art and national issues. Mrs. Maurice Brownfield is president.

YOUTH FORUM

Art Guild has chosen "World Friendships Through the Arts" for the 1952-53 theme. Programs are to include defense mobilization, an evaluation of the United Nations art and world understanding and a forum discussion entitled "Youth Speaks Out." President of the club is Mrs. Armor McFarland.

Another international theme has been planned by Altrurian Club members who will base programs on "World Understanding." Mrs. D. M. Cogdell, club president, will be hostess for a reassembly luncheon Sept. 12.

"Preserving Our Democracy Through Responsible Citizenship" is the key of Altrurian Daughters' scheduled programs. The opening meeting is to be a breakfast Sept. 17 at the Country Club when a program on civil defense will be given. French Robertson, civil defense director of three states, has been contacted to speak at the breakfast, according to a member. Following programs will be based on one of three phases: Americanism, civil defense and business education for women.

Investments Studied

How to invest, how to bank and how to draw up a will are points the programs will include. Mrs. R. C. Miller, Jr., is president.

A luncheon Sept. 16 will begin the Twentieth Century Club's annual program. Mrs. R. E. Gray is to give the president's address. Following programs will include studies of women of different nations.

Cosmorama Club's opening meeting Sept. 24 will be a brunch. The United States and its possessions will be the basis of programs to include sections of the country and cities such as Washington, D. C. An election forum is slated for a late October program when five local men will take part. Mrs. W. J. Bryant, Jr., is president.

Yet another group, the Woman's Culture Club, is to begin the club year Tuesday with a luncheon at the home of Mrs. Henry Kelley, president. Mrs. A. C. Alexander will give the keynote of the year's study. Programs for the season are to be on "Better Living."

X-Rays To Be Given In Oct.

The preliminary meeting for securring an X-ray machine for tuberculosis detection in Scurry County was held this morning in the county court room.

The machine will be in operation in Snyder Oct. 14-18 says C. H. Hoover, field representative of the tuberculosis division of the state health department.

Mrs. J. D. Scott of 3600 Avenue U was elected general chairman by representatives of various clubs and organization present.

Hoover pointed out that the service comes to Snyder through the invitation of the local doctors. This is a tax supported program paid for by the taxpayers of Scurry County, therefore, it is not charity. This free individual service will cost the county the same whether five or 5,000 people are X-rayed," Hoover said.

Lubbock VFW Raided

LUBBOCK — Agents of the State Liquor Control Board and a sheriff's deputy seized 96 cases of beer from the VFW club, 1305 Thirty - fourth Street, here yesterday. A conference is to be held today to determine whether charges will be filed for possession of the beverage, Lloyd Owens, liquor board supervisor, said. The VFW commander said he planned to make a statement about the raid sometime today.

In World War II the British eliminated the race course and cricket fields at Gibralter to make way for a modern airfield.

Then I got Conoco's NEW 1-2-3
"50,000 Miles No Wear" Service!

Now Doctor Fred's a happy "med"... thanks to one of the greatest services ever offered the motoring public—a service that helps engines last longer, perform better, use *less* gasoline and oil!

It's exactly the *same* service that kept test cars *new* in Conoco's spectacular "50,000 Miles—No Wear" road test!

In that famous 50,000-mile test, with 1,000-mile drains and proper filter service, test car engines showed *no wear of any consequence:* in fact, an average of less than one one-thousandth inch on cylinders and crank-shafts. Gasoline mileage for the *last* 5,000 miles was actually 99.77% as good as for the *first* 5,000.

Now you can get this same 1-2-3 "50,000 Miles—No Wear" Service, at your Conoco Mileage Merchant's today!

HELPS YOUR ENGINE LAST LONGER, PERFORM BETTER, USE LESS GASOLINE AND OIL!

HERE'S CONOCO'S "50,000 MILES—NO WEAR" SERVICE

At proper intervals, Your Conoco Mileage Merchant will:

1. Drain out grit and sludge, preferably while the engine is hot!
2. Recondition all air and oil filters!
3. Fill the crankcase with great Conoco Super Motor Oil!

HOMER HOOPEE

THE ADVENTURES OF PATSY

Buddy Goode, SMU track star claimed by both Snyder and San Angelo, spends his summers in Snyder, where he works with his father at the Alamo Ice Co. Goode, who is a junior and captain of the track squad this year, will return to school about Sept. 15.

OPEN SEASON

By DALE WALTON

Snyder's most promising athletic figure in a couple of decades is Buddy Goode, who will return to Southern Methodist University this month as a junior.

Goode, who has brought home practically as many honors in his almost 20 years as has any person his age, spends his summers in Snyder, where he works with his dad, Homer Goode, at the Alamo Ice Co.

The track star, who specializes in sprints, is claimed by San Angelo, where he graduated from high school in 1950, but he and his family now call Snyder their home. The senior Goode even tells how he reminded an Associated Press sports writer a couple of times that Buddy hailed from here instead of Angelo, but the writer paid no heed.

After Goode took many honors for this alma mater last season, including practically gaining a berth on the U. S. Olympic team, he was made captain of the track team for the coming season.

The young athlete began his workouts early in high school under Jack Dillon, then track coach at San Angelo High School and now track coach here. While in high school, he won his district in the 220 in 1949, and he went to finals in the state high school meets in 1949-50 in the 100 and 220.

His best times since he entered SMU were 9.6 seconds in the 100-yard dash at Fort Worth, 10.4 in the 100 meter at the last Texas AAU meet in San Antonio, 20.45 in the 200-yard at the Southwest Conference meet in Dallas, and 20.6 at the Texas Relays in the 200 meter. As anchor man on the school's sprint relay team, he went with them to the Drake Relays after they had won second in the conference meet. Their best time was 42.2. He took first in the 200 meter at the Texas AAU and the Fort Worth Recreation meet and firsts in the 100 and 220 in three different triangle meets among SMU, Baylor, and TCU last year. He brought home a third in the 220 from Laredo and second in the 220 and third in the 100 from the conference meet.

Last June, Goode won the right to compete in the Olympic trials in San Francisco by running fifth in the finals of the 200 meter at the National AAU. He was chosen to the AAU's All-American team. He lost in his try for the Olympic team when he ran fifth in his heat of the 200-meter dash.

Just before leaving for the AAU meet in California, Goode was listed by the National Collegiate Athletic Association as tied with two other men, Red Richards of UCLA and Thane Baker of Kansas State, for the second best times in the 220-yard dash during the season. Paul Wells of Oklahoma A & M had the best time with 20.6, while Goode then had 20.8.

The football coaching staff of SMU had great plans for Goode this year, planning to take him into the grid squad and use him for much needed speed, but track mentors objected, telling them they would hate to see him finish such a good year of track then get battered during scrimmage.

After Goode returns to SMU this month, he and the track team will hold workouts twice a week until Jan. 7, when daily drills begin. They plan this year to make the Drake and Alabama Relays, and maybe even go to Miami.

Moffett Notes Prospects At Meeting Here

"Regardless of our schedule and the size of our team, we're going to put out a ball club worth seeing," Speedy Moffett, head athletic coach, told members of the Quarterback Club last night.

Moffett introduced coaches new to the staff here, Jack Dillon, Gene Gibson, and Jimmy Williams, then he went over the team's schedule and told the group that the 54 boys out for practice have shown more fight and desire than has any other team he has coached.

"The schedule reads rough" he said, adding "We've only played one of those teams before, Levelland, and they beat us 20-0 last year."

The group decided to elect officers at their next meeting next Tuesday night.

Bums Boasting Top Fielders

NEW YORK (AP)—The Brooklyn Dodgers, seeking to break the major league club fielding record, are also well represented among the individual fielding leaders today.

The pennant-bound Brooks, who boast a .984 defensive mark, contribute third baseman Billy Cox, shortstop Pee Wee Reese, catcher Roy Campanella and outfielders Carl Furillo and Andy Pafko to the National League's list of top men.

If the Dodgers continue their present pace they will eclipse the existing team record of .983, established by the Cleveland Indians in 1947 and again in 1949.

Cox heads the third sackers with a .982 average. Willie Jones of the Philadelphia Phillies is second with a .974 slate.

Reese is deadlocked for the shortstop lead with Boston's Johnny Logan at .975.

Campanella holds a slight edge over Del Rice of St. Louis. The burly Negro catcher shows a .995 mark to rice's .994.

Along with Sid Gordon of Boston Furillo and Pafko rate as the cream of the National League flychasers. Gordon's .996 average is only one point better than that compiled by the dodger outfielders.

A pair of Cincinnati players, Ted Kluszewski and Grady Hatton, round out the National League's defensive pace-setters. Kluszewski, with a .994 slate, heads the first baseman and Hatton, a converted third baseman, tops the second sackers at .990.

In the American League, the highlight is Clint Courtney's sparkling .998 mark. The St. Louis Browns' catcher shows only one miscue in 455 chances.

Johnny Lipon of Boston is the front-runner among the shortstops at .980.

New York's Gil McDougald, with 10 bobbles out of 349, is the leader among the third baseman with a .971 average.

Other top men defensively are outfielder Gene Woodling of New York, .995; first baseman Mickey Vernon, Washington and Detroit's Walt Dropo with .993 each, and second sackers Nellie Fox, Chicago, and Bobby Young, St. Louis, deadlocked at .986.

Uses For Electricity Even 100 Years Ago

CHICAGO (AP) — Electricity 100 years ago didn't give lights and power, but sometimes supplied amusement.

A science text book of 1850 tells of an electric machine that generated static electricity, and was popular at parties.

"The lady takes hold of a chain connected with the prime conductor. The machine then being put in motion, the gentleman approaches the lady, and immediately (as) he attempts to imprint the seal of soft affection upon her coral lips, a spark will fly in his face, which generally deters him from his rash and wicked intention."

M. D. Hooven, electrical engineer of Newark, N. J., told the story to the Centennial of Engineering today.

Blair TKO's Mexican

SAN ANTONIO, Sept. 3 (AP)—Texas featherweight titlist Jocky Blair toyed with Francisco Gaytan of Matamoros, Mexico, for three rounds last night and then scored a technical knockout in the fourth. Blair is a Dallas fighter.

Good Judges Must Know Their Twilight In Tennis Matches

By GAYLE TALBOT

FOREST HILLS, N. Y. (AP)—The length of time between sunset and pitch darkness doesn't mean a great deal to the average person and there is no reason that it should. However, if you are thinking of running a tennis tournament it is a very good thing to know.

If there is going to be a really nasty incident in the course of a tournament, chances are high that it will arise when some player who is ahead in the deciding set wants to keep on playing and his opponent claims he no longer can see to hit the ball. The decision always is a tricky one for the referee, but he can at least make an intelligent stab at the right answer if he knows his twilight.

There is a man here, a chipper retired naval engineer named Edward O. Cutler, who can take up a few tools and tell you at exactly what minute the sun will go down at any spot in the world on any given day in the year. Also he can tell you when it will become necessary to light the lamps.

Every year before the national championships begin, he sits down and draws up a chart showing precisely what the light conditions will be in the West Side Tennis Club Stadium minute by minute for the 10 days of play.

With his trusty chart at hand the official referee knows for example that the sun will duck behind the metropolitan hills today at exactly 6:24, that at 6:32 it will be necessary to halt play and that at 6:52 it will be as dark as the inside of a mule's stomach.

Thus armed, the referee is able to plan ahead. When things threaten to get sticky in an important match he simply strolls out stiff legged and advises the umpire when to call it off right on the dot. This takes the umpire off the spot and forestalls a lot of arguments.

Cutler has been providing the chart as a hobby ever since 1939, when there was the granddaddy of a row about playing the final set of a match between Frank Guernsey of this country and Ferenc Puncec of Yugoslavia. The system's only shortcoming, Cutler readily admits, is that all bets are off on a cloudy day.

British General In Talks With Gen. Clark

TOKYO (AP) — Maj. Gen. M. M. Alston - Roberts - West, new commander of the British Commonwealth Divisio in Korea, conferred today with the United Nations commander, Gen. Mark Clark.

West goes to Korea tomorrow to replace Maj. Gen. A. J. H. Cassels, who has commanded the joint commonwealth unit 15 months. The new commander arrived in Japan yesterday.

Galveston Head Quits

GALVESTON, Sept. 3 (AP)—Harry Gumbert, club president and general manager, had more managerial duties under his thumb today after the release of Stan Goletz as manager of the Galveston White Caps.

Goletz said he was "unconditionally released," but Club Secretary Ballinger Mills said Goletz asked the club to accept his resignation.

Billy Loes, rookie pitching ace of the Brooklyn Dodgers, hurled five no-hitters for Bryant High School in Queens, N.Y.

Which way

do you look at things?

WHETHER YOU SEE EYE-TO-EYE with Adlai or Ike, one thing is certain:

From now till November 4th, you'll want to know how they look at all the big issues . . .

Europe . . . Korea . . . taxes . . . controls . . . income . . . all the problems that reach into your daily life here in our town.

And to help you weigh each candidate day by day as each issue comes to light—you turn to your newspaper. Just as you've turned to it daily for dozens of other reasons since you first learned to read.

For the latest facts . . . for goings-on in our town, our state, our entire world . . . to see what's for fun and what's for sale. Not only what—but *where* and *when* and *how much it costs.*

And in the newspaper we read *all* about it . . . or only as much as we want . . . as many times as we want.

We read *any time* we choose . . . *any place* we choose.

That's why nearly everybody reads the newspaper nearly every day.

That's why so many people who sell advertised products insist that they be advertised in newspapers.

Because in newspapers an advertising message has a chance to reach *all* people who can buy. Not just sports fans or quiz fans or music fans or comedy fans . . . but *everybody.*

That's why all advertisers—both "national" and retail—invest more money in newspapers than in any other form of advertising.

The newspaper is first with the most *news* . . . first with the most *people* . . . first with the most *advertisers.*

The newspaper is always "first with the most"

This message prepared by BUREAU OF ADVERTISING, American Newspaper Publishers Association and published in the interests of fuller understanding of newspapers by THE SNYDER DAILY NEWS

Inmates Flee State Hospital

LIMA, O. (AP) — A search was underway over a wide area today for three inmates of the Lima State Hospital for the Criminal Insane who used two hostages to bluff their way to freedom last night.

Hospital officials said the three were John T. O'Bant, 51, of South Bend, Ind., a forger; John Auld, 33, of Toledo, O., a robber and Michael Chepak, 33, of Youngstown, O., a burglar.

Dr. R. E. Bushong, superintendent of the hospital, said all three men were "fairly dangerous."

He said the convicts seized Peter Sellers, an attendant, and forced him to open a cabinet in the barber shop where they armed themselves with straight edge razors. They then seized Miss Icle Keating, a nurse in a nearby ward.

Threatening to harm the two hostages, they bluffed guards to let them out of the building and out of the hospital gate. Once outside they released the two hostages and fled.

Truck Stops For Cats; Man In Rear Is Killed

SOUTH WHITLEY, Ind. (AP) — Merle Grogg, 20, Akron, Ind., braked his semi-trailer truck near South Whitley Tuesday night to miss two kittens crossing a highway he told state troopers.

A following truck crashed into the rear of Grogg's vehicle, killing the driver, James Myers, 30, Rochester, Ind.

NIGHT SHOT IN MEXICO

The arrow in the above picture points to a "ghost" photographed in Mexico by Joe Dave Scott, 3600 Avenue U, while the Snyder photographer was on a picture assignment to cover Mexico recently. The picture was made with a time exposure at night. (Joe Dave Scott Photograph.)

Photograph of Legendary Ghost By Snyderite On Mexican Trip

Every moonlit night the ghost of a young Spanish girl appears in the upper window of a Cathedral tower in Durango, Mexico, according to legend.

A Snyder photographer shot a picture of the ghost as it appeared there one night while he was on a commissioned assignment to cover Mexico pictorally for a number of Hearst Newspapers and magazines.

Joe Dave Scott, 3600 Avenue U, is probably the only photographer to ever capture the image of a ghost with his lens. To do it he sat his camera on a tripod, aimed toward the cathedral, and opened the shutter. Moonlight alone lighted his subject, and the clouds crawling across the Mexican sky over the cathedral give the picture an added ghost like touch.

The story of how Scott shot and processed the picture is interesting, but the legend surrounding the ghost is even more so.

Hundreds of years ago when the French were roaming in Mexico, a French soldier fell in love with Maria Luisa Arragon, a Spanish girl who found him sick and wounded after a battle in which almost all of the legion of French soldiers were killed.

Maria nursed him back to health, and the two fell in love.

The love affair was not blessed by Maria's parents, so their meetings had to be at night among the lonely palm trees around Durango, the town where the girl lived.

Time passed and soon it became apparent that Maria was going to become a mother. Both Maria and her lover were frightened at the knowledge of what their loves were bringing, so the young soldier, with nobility in his blood, and a sense of responsibility in his mind set off to cross the Sierra Madra Mountains and borrow money from a rich friend, so that he could return and marry Maria to give their child a happy home.

After the soldier left on his long journey to Mazathlan, a gold and silver shipping center on the west coast of Mexico, Maria, wishing to keep concealed from her parents the secret of her state of fortune or misfortune, went into Durango and got a job as a maid in the cathedral.

Each night after work she would climb the steep steps to the dow in the Cathedral tower and for long hours out the west window toward the Sierra Madras looking for her lover to return.

But time passed, and the soldier did not return. One night half a year after her lover had left her Maria flung herself from the window to the sharp cobble-stone pavement far below to die with her secret.

Every moonlit night the ghost of Maria Luisa Arragon appears in the same window and watches vainly for the returning lover.

That is the legend. In Durango it is believed to be true, and young lovers there rendevous on the cathedral grounds to watch Maria's ghost at night.

It is true that the French did make an unsuccessful attempt to conquer that part of Mexico, which is 542 miles southwest of Laredo.

It is true, too, that Scott got a picture of the ghost. Acutally the ghost is an optical illusion caused by moonlight entreing another window in the catheral tower and being reflected out t- window through which Maria vainly sought her lover.

To get the picture, a long exposure was used, then a special mercury vapor intensifier was used on the ghostly thin negative.

The picture will help illustrate stories to be written by Jack Yeaman, a free-lance writer who was commissioned to make a tour of Mexico for the Hearst papers.

During their trip Scott shot hundreds of pictures, color slides, and movies to illustrate the Yeaman stories.

Their trip covered the breadth of the North American continent, and carried them through the ruins and pyramids of the oldest cultures in this hemisphere, to the west coast of Mexico below the tip of Lower California.

Another big job for the young photographer has been commissioned to do is photography for the Snyder high school annual this year. Between the thousands of pictures he will shoot for the school Scott says he can sandwich in time for many home portraits, and he suggests that now is the time to start getting your Christmas-gift photographs made.

NO CO-OPERATION

Engineer Doubts Russians Have Even One Atomic Bomb

By ALTON L. BLAKESLEE
Associated Press Science Editor

CHICAGO (AP)—"I don't believe Russia has one single atom bomb," Carlton S. Proctor, prominent New York engineer who has worked in Russia, declared today.

"I think every one of the atomic explosions in Russia was just a premature explosion, in an effort to produce a bomb."

Proctor is president of the American Society of Civil Engineers, one of 64 engineering societies celebrating a Centennial of Engineering opening here today.

He gave his views on Russia during an interview telling of U. S. engineers' vast accomplishments in the last 100 years.

(The White House has announced three atomic explosions in Russia, referring to the second one as "another atomic bomb," without amplifying further. Other sources have estimated Russia has a stockpile of 100 or many more A-bombs by now.)

Proctor declares it takes teamwork and co-operation to make an A-bomb work, and that Russians don't trust each other.

Such co-operation, he said, "is essentially impossible in Russia or any other totalitarian state. There is no possibility of one man trusting another and integrating his efforts with any other man."

"There is no reward for co-operation. The only reward is for exposing someone, even in your own family. Any combination of effort comes under suspicion as a combination against the dictatorship."

In 1930, Proctor worked on building Russia's second largest dam, at Svirstroy east of Leningrad. In World War II he was an Army engineer, a colonel, building the Persian corridor road from the Indian ocean to funnel supplies to Russia.

"The Russians have no confidence in their own engineers," he said, "and I have never met a Russian engineer who was a Communist who was any good."

Soviet jet planes are good, "but the Russians got the practical end of how to build them from Germans whom they took over."

"The Russians have brilliant physicists and mathematicians, brilliant purely in theory. In jet propulsion, they are probably ahead of us in theory. But theory alone doesn't produce an A-bomb or an army, or morale.

"We've been bluffed and fooled into thinking the Russians have produced more than they have."

Byrd Doesn't Want Name On Texas Ballots

WINCHESTER, Va. (AP)—Regardless of how he feels about the presidential election, Sen. Harry F. Byrd (D-Va) apparently has no intention of taking part in any third party movement.

There hasn't been any word so far on the presidential choice of the senior Virginia senator, a foe of the Truman administration and a Virginia delegate to the Democratic National Convention.

Most observers believe Byrd will maintain his strict silence until after the November election without coming out for either the Democratic nominee, Adlai Stevenson, or the Republican candidate, Dwight D. Eisenhower.

But yesterday Byrd did try to spike a movement by the newly formed Constitution party to wage a campaign for electoral votes for him as a vice presidential running mate to Gen. Douglas MacArthur.

A spokesman said Byrd had wired Bard A. Logan, Constitution party convention chairman in Texas, to have his name taken off the ballot there. The action came the spokesman said, after Byrd was informed that a MacArthur-Byrd ticket had been filed in Texas. Byrd regarding the new party which was formed over the week end in Philadelphia. He had said previously only that he had "no contact with the group."

At the same time, the spokesman indicated today that Byrd also will seek to stop a move to have his name placed on the Virginia ballot as a running mate to MacArthur on a ticket sponsored by the America First party.

Miss Americas Start Contest

ATLANTIC CITY, N. J. (AP) — Fifty-two Miss America beauties take over center stage tonight after playing wallflower roles to bosomy, blonde screen star Marilyn Monroe yesterday.

The pretty pretenders to the coveted crown compete for all-important points in preliminary beauty and talent contests in Convention Hall.

A third will appear i evening gowns, a third in bathing suits and the rest will show the judges they can do more than look lovely by singing, acting or dancing.

There will be more of the same tomorrow night and Friday night until each girl has had a chance to appear in all three contests. The finals will be held Saturday night.

The girls were introduced to a cheering crowd of 150,000 in a colorful parade along the boardwalk yesterday but Miss Monroe's face and fortune filled most of the camera lenses.

The shapely blonde lanquished atop an open convertible car as parade grand marshal in a scanty, form-fitting black affair that featured a plunging "V" cut to the waist.

Earlier in the day, Miss Monroe posed for a picture aimed at attracting recruits to the women's armed services in a low-necked polka dot dress.

A few hours later, after Army officials got a look at the photograph, newspapers and wire services were asked to withhold it from publication.

Maj. Frank W. McWalters of the Air Force said Miss Monroe's pose was not in line with a program designed to convince parents the services are perfectly proper places for their daughters.

Air Tactical Talks

SEOUL, Korea (AP) — Gen. John Cannon, chief of the U. S. Air Force Tactical Command, arrived today to discuss tactical aspects of the Korean War with U. N. air officers.

The Tactical Command's primary mission is close support of front-line troops and fighter and fighter-bomber sweeps behind Red lines.

July 2, 1952, was the 90th anniversary of President Lincoln's signing of the Morrill Act which created America's system of land-grant colleges.

Royalty Gives Up Title For U .S. Citizenship

PHILADELPHIA (AP) — A young Frenchman who traded his royal coat of arms for a combat infantryman's badge formally renounced his title in U. S. District Court yesterday to become an American citizen.

The former Count Patrick Marie Hubert de Sercey, 21, fresh from combat in Korea, can trace his family back to William the Conqueror.

De Sercey, now a corporal in the U. S. Army, came to America six years ago and entered the Army last year.

The corporal's mother, the former Countess Ellen de Sercey, became a citizen last February and now lives in Kennett Square, Pa.

FOUR BEAUTIES

Four contenders for the title of Miss America pose prettily in Atlantic City, N. J., as the annual pageant to pick Miss America started. Left to right they are Joan Elizabeth Kayne, New York City; Jo Hoppe, Chicago, Jeanne Shores, California and Gwen Harmon, Alabama. The winner will be selected Saturday night.

Doctor Can't Stand Trial For Murder

WINSTON - SALEM, N. C. (AP)—Dr. Norma Holt, the woman doctor who two weeks ago stabbed three of her children with steak knives, one fatally, and then tried to take her own life, has been committed to the State Hospital at Raleigh.

A Forsyth County Superior Court jury yesterday found her mentally incompetent to stand trial for the Aug. 21 murder of her 3-year-old daughter Vickie.

Four psychiatrists testified that the 27-year-old pediatrician, wife of Dr. L. Byerly Holt, prominent eye specialist here, is "completely incompetent by reason of insanity."

Police said the other two children involved in the tragedy, Larry 9 months, and Anne, 4, have recovered from their wounds and are now living with relatives in Texas. Dr. Holt tried to kill herself after the stabbings with an overdose of sleeping powders.

The murder indictment brought by a grand jury is not nullified by the court's action, officials said. She must face trial if and when she is found mentally competent.

Putnam Says Fear Is One Cause Of Inflation

PHILADELPHIA (AP)—"Just plain fear" has caused more inflation than anything else, according to Roger L. Putnam, administrator of the Economic Stabilization Agency.

In an address before the 22nd annual CIO International Oil Workers Union Convention yesterday, Putnam said "scare buying" after the start of the Korean War pushed prices up.

But in the 18 months since price controls have been in effect, he added, the cost of living "has risen only about one-quarter of 1 per cent a month, instead of at the rate of 1 per cent a month as it was doing before."

Sparkman Tells Of Good Times Down On Farm

SACRAMENTO, Calif. (AP) — Sen. John Sparkman of Alabama contends that Democratic programs have helped bring prosperity down on the farm in California as well as elsewhere in the country.

The Democratic candidate for vice president, in his first campaign speech in the farm-rich Sacramento Valley, criticized his opposite number, Sen. Richard Nixon of California, for votes in Congress which Sparkman set down as hostile to the area.

He also declared that Gen. Dwight D. Eisenhower, Republican presidential nominee, is waging a me-too campaign "that has gone one better than the me-too campaigns we have seen heretofore."

Sparkman spoke last night before a City Plaza crowd estimated by police at from 1,500 to 2,000, then went out to the California State Fair. He planned to return to Southern California today for an address at Long beach.

"I know a little about farming," he said, "and I can't make heads or tails of the Republican farm planks."

Gov. Adlai Stevenson's running mate said the GOP platform is "like a cross-eyed astigmatic old man, trying to look both ways at the same time, and woefully afraid he is going to meet up with something Democratic."

Sparkman said hello to Gov. Earl Warren, Republican nominee for vice president in 1948. He remarked that he had met the governor before and "I like him very much."

Russians And Chinese Stress Unity Of Nations In Greetings

MOSCOW (AP)—Red China's leader Mao Tze-tung and Soviet Prime Minister Joseph Stalin emphasized Russian - Chinese unity in the face of "threats of new aggression in the Far East" as they exchanged greetings on the seventh anniversary of the World War II victory over Japan.

The lengthy telegrams sent by the leaders of the two huge Communist nations were published on the front page of the Communist party newspaper Pravda today. Both Stalin and Mao stressed that Soviet - Chinese friendship is "unbreakable."

Pravda in a lead editorial charged that Japanese reserve police troops are fighting in Korea.

In his message to Stalin, Mao declared:

"Now, when again Japanese militarism is being revived, when the aggressive forces of Japan again are lifting their heads, the unbreakable friendship and alliance between China and the Soviet Union are a firm guarantee of the prevention of a repetition of aggression from the side of Japan or any other state which should unite with Japan in acts of aggression, a firm guarantee of the maintenance of peace in the East and in the whole world."

Stalin said in reply:

"The great friendship between the Soviet Union and the Chinese Peoples' Republic is a reliable guarantee against the threat of new aggression, a powerful pillar of peace in the Far East and the whole world."

Stalin asked Mao to accept the congratulations of the Soviet people and the Soviet Army. He ended by hailing the Chinese Peoples' Liberation Army and the "inviolable friendship" between the Chinese Peoples' Republic and the Soviet Union.

In its editorial Pravda said the American "policy of threatening" is to no avail in the face of Soviet-Chinese unity, which it described as growing and strengthening.

Little Hope Of Success From Peace Talks

MUNSAN, Korea (AP)—The deadlocked Korean truce talks resume tomorrow, ending the fifth straight week-long recess.

The U. N. and Communist armistice delegations have met only once a week since July 26. A sixth recess may be called tomorrow when the negotiators gather at Panmunjom at 11 a.m. (9 p.m., Wednesday, EST).

A major shift in the Red stand on the war prisoner exchange seems needed before truce teams can make any progress.

For months both sides have refused to budge from their widely divergent stands on that stumbling block.

Maj. Gen. William K. Harrison, top man on the U. N. truce team, offered to send back 83,000 prisoners including 6,400 Chinese. An exhaustive screening of Communist captives showed the remaining thousands of prisoners have renounced communism. They declared they would fight — even to death — all efforts to push them back across the line. The U. N. Command staunchly refuses to force back any prisoner against his will.

Nixon Hitting Communists In Government On Maine Tour

ROCKLAND, Me. (AP) — Sen. Richard M. Nixon moves on through Maine today on a campaign kickoff tour, pledged to make "Communist subversion and corruption" in government, "the theme of every speech from now until the election."

The Republican vice presidential candidate began last night in Bangor what he announced as "the most intensive campaign in the history of American politics. . . ."

As he spoke, Republican presidential nominee Dwight D. Eisenhower opened in Atlanta, Ga., what Nixon said would be a fighting campaign for election and a chance to clean up "the mess in Washington."

Nixon, presented by a toastmaster as "the nemesis of Alger Hiss and other such miscreants," will wind up his second day of Maine campaigning with a Sam'rad address tonight. Before then, he will have spoken to Rockland and Auburn-Lewiston audiences. He is traveling by chartered plane.

"I had hoped, frankly," Nixon said at Bangor, "that Communist subversion in the United States would not be an issue in the campaign. I had supposed we were all against communism.

"But Mr. Stevenson has raised the issue. He has made light of the Communist threat. He has demonstrated a shocking lack of understanding of this deadly serious matter.

"He has referred to it not as a 'red herring' but as a phantom in our midst.

"In Augusta on Saturday night, I am going to talk about the Communist 'phantoms' and what they have done. I think you will be surprised."

Nixon told a press conference he would name names when and if it became necessary in discussing the administration's record. He said he does not believe Eisenhower will deal in names and especially will avoid direct references to Stevenson and Sparkman.

The 39-year-old Navy veteran told a cheering Bangor audience of 800 he will campaign on the record of the Truman administration.

"We can anticipate charges of smear, hatcheting and name-calling as we delve into the administration's sorry record," he said, "so let's get one thing straight right now:

"If the record itself smears, let it smear. If the dry rot of corruption and communism, which has eaten deep into our body politic during the past seven years, can only be chopped out with a hatchet — then let's call for a hatchet."

UN Will Not Wait On U.S.

UNITED NATIONS, N. Y. (AP) — An increasing number of U. N. delegates are expressing determination to carry on their international business as usual in the heart of New York City regardless of the heat of the U. S. presidential campaign.

It is fast becoming a sore subject to mention to the average U. N. delegate that American politics may have an effect on the U. N. meetings. The seventh General Assembly, originally scheduled to convene Sept. 16, was postponed weeks ago until Oct. 14 partly because some U. N. quarters feared that business could not be done until the United States decided on its next president.

Reaction to that move has been snowballing every since. The U. N. Secretariat now is polling the membership to find out if members want to postpone important policy debates until after the U. S. elections.

The guessing in U. N. quarters is that the decision will be to go ahead with the debate and not wait on American politics. The result may be known Friday.

Huge Turbojet Plane Is Put In Production

PHILADELPHIA (AP) — A 25,000-horsepower turbojet aircraft engine 2½ times as powerful as the combined four engines of a B29 Superfortress has been placed into production, the Navy announced.

The engine, claimed by Westinghouse Electric Corp. to be the most powerful turbojet in the world to qualify for production, was developed by the firm as an improved version of the original Westinghouse J40 engine.

The new engine develops its tremendous power, the firm said partly through use of an "afterburner" which reheats the exhaust gases after they leave the turbine and before they emerge as a jet stream.

Show Concern Of Pioneer Not HelpingSnyder

A showdown with Pioneer Airlines because of its failure to uphold its commitment to support air service for Scurry County was indicated yesterday when John Blum, member of the Chamber of Commerce air service committee, spoke to the Lions Club.

Blum made a quick survey of about 55 club members, and he found that eight of them now hold Pioneer courtesy cards, 15 are employes of firms who use Pioneer passenger service from Sweetwater and six firms use Pioneer air express.

Blum and Leon Huff, Jr. chamber manager, said that Pioneer had promised a group here that it would support the county's application for air service in hearings before the Civil Aeronautics Board but that in its brief submitted to the board for the final hearing, it gave no support. Huff said that the CAB's bureau council submitted a brief stating that Snyder could best be served from Sweetwater, giving the idea that Snyder and the county are yet too small to have air service.

Blum told the group that the time may come soon to show Pioneer that a large amount of its trade through Sweetwater comes from here and that they and others may be asked to take their trade to other airlines long enough to give Pioneer an idea of Snyder's potential trade.

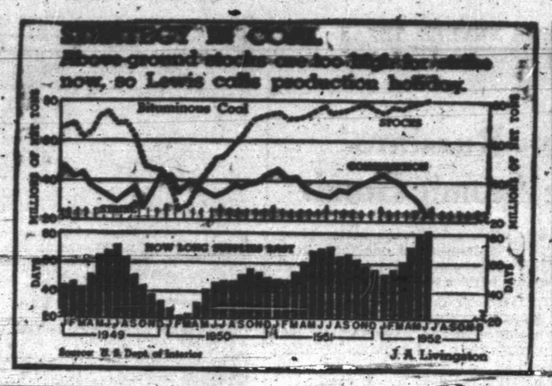

Huff said yesterday afternoon that he received about 25 calls during the day from persons who were inquiring about Pioneer's failure to support the county's application.

Tighter Controls On Goods Being Resent To Russian Satellites

WASHINGTON (AP) — A strict new system for keeping America's vital strategic exports out of Communist hands goes into effect Oct. 20.

The Commerce Department announced yesterday that the United States, Canada and 10 Western European countries have agreed to put 863 important materials and manufactures under much tighter control.

The new agreement requires that their export will be permitted only when the foreign buyer certifies to his government that the goods will not be sold to another country without official permission. This would prevent resale to Russia or its satellites.

BUSINESS OUTLOOK

Indications Point To Slump In Business Early In 1953

By J. A. LIVINGSTON

WASHINGTON, —This is still a boom. Employment is still right up near the peak. Prices are high. Wages are rising. But the boom's slowly changing its character.

Two highly significant studies made this clear. The latest Federal Reserve Board survey of consumers shows that 1951 was the first postwar year in which householders did not purchase more refrigerators, washing machines, automobiles, and other durable goods than the preceding year. People were caught up with their buying.

As for this year, aside from newer items, such as dishwashers, clothes dryers, or television sets, consumer demand is now directed toward replacement of old models with new. This applies particularly to refrigerators and automobiles.

CLINCHES POINT

As a result, buying plans are "less strong than in previous postwar years." R. H. Macy & Co. just verified that by cutting its quarterly dividend from 50 to 40 cents a share.

What is true of consumers is likewise true of business. All types of businesses have been adding to facilities since the war. So much so, that manufacturing capacity has increased by approximately 45 per cent and nonmanufacturing by 35 per cent, according to a joint study by the Department of Commerce and the Securities and Exchange Commission.

Not only that, but about two-fifths of all existing facilities are new. They were built postwar. They won't require extensive repairs, maintenance, or replacement. The inference here is that the edge is off the urge to build. Thus, the Commerce-SEC study points out that expansion by industries not associated with defense—trade, service, and finance —has "turned down."

Unquestionably, in some instances, programs were curtailed or stopped by government restrictions and limitations. But the easing in consumer demand was probably an even greater influence.

THE GREAT ENIGMA

Today, total expenditures on plant and equipment are running at a seasonally adjusted annual rate of $27,680,000,000 a year. That's 5 per cent higher than during the full-year 1951.

The great enigma is: What's to keep the capital - goods boom going? If it doesn't keep going, then the next major move of production, prices, and employment will be down.

You can argue the case either way. High employment and high payrolls generate high purchasing power. High purchasing power generates aspirations. The housewife who bought a washing machine and felt content with it begins to think in terms of a clothes dryer or a dishwasher. The automobile owner who has always had a second-hand car thinks in terms of a new one.

If that happens, then there will be demand for increased manufacturing facilities. Also, demand for merchandising and other facilities will be regenerated. The boom would get another lift.

LEWIS' VIEW

The other side of the argument is better known. We'd be in a slump now if Korea hadn't started a defense boom. Housing is off from the 1950 peak. Automobile companies are going in for extensive retooling for 1953 models so as to make '52, '51 and other postwar cars look obsolete. This fits the pattern of all capital goods booms. Consumers get caught up first. Then the need for business facilities drops. That's the case today.

In fact, John L. Lewis' strategy in coal affirms it. Lewis is worried and looking ahead. Stocks of coal are high. Demand has dropped (see chart). Lewis can't hope to keep all miners employed full time. So he is seeking a new spread-the-work contract. He would impose higher rates of pay on mines that operate more than three days a week in slack times.

Lewis' idea is to penalize low-cost mines so as to keep higher-cost operations going. In that way, he hopes to avoid desolate, no-work areas during periods of slow demand.

At the moment, as I see it, it's harder for business to move up to a higher plateau than to step down. Consumer demand isn't likely to rise sharply. And defense schedules have been stretched out again as a result of the steel strike. But the present high-level plateau is likely to last until a new President is inaugurated.

Sheik Signs New Deal To Get Bigger Cut

LONDON (AP) — The oil-rich Sheik of Qater, ruler of an independent Arab principality on the Persian Gulf, is going to be ever richer. He's now signed up for a 50-50 split on oil profits.

Petroleum Development, Ltd., yesterday announced the change in its concession agreement. The sheik formerly received only a fixed royalty.

Qater is a desert peninsula sticking out in the Persian Gulf from Arabia. It has been under British protection since the end of World War I. Oil production is running at the rate of three million tons annually.

Emperor's Daughter To Wed In Japan

TOKYO (AP) — Princess Yori, third daughter of Emperor Hirohito, will be married on Oct. 10 to Takamasa Ikeda, son of a former marquis whose ancestors were the feudal lords of Okayama Province.

The princess is 21. The groom, who is a gentleman farmer managing his father's estate, is 26.

The Emperor and empress and all other members of the imperial family will attend the wedding with the exception of Crown Prince Akihito, 18. No reason was given for the crown prince's absence, which puzzled Japanese newspapers.

Horseman Charged With Manslaughter Yesterday

WELCH, W. Va. (AP)—A horseman who rode over and fatally injured an elderly man was charged with manslaughter yesterday.

State Trooper C. H. Otto said the charge was placed against Bague Waldron, 30, of Avondale W. Va. The trooper quoted Waldron as saying he admitted he was riding the horse last Friday night when it ran over Oscar Christian 78, also of Avondale.
