AROUND THE STOCK YARDS.

For the first time since the new stock yards opened, there were no hogs in today, and no market to report.

Dick Hovenkamp bought 396 head of stocker sheep, at $1.25 per head, to be sent to his farm near Fort Worth.

Five cars of range horses were unloaded for feeding today. They were shipped by R. E. Wrenn and W. G. Logan from Toyah and billed to Blackwell, O. T. One car had 23 mares and 21 colts in it, and some of the colts were bruised by overcrowding.

TEXAS CATTLE FOR ILLINOIS.

The Colorado City Stockman says: The Spade 3-year-old steers to the number of at least 1,000 head will be shipped to Illinois in September to go into the feed lot. While the Eastern corn crop is reported not as good as usual, it is said so much of it is soft that it will have to be fed to cattle or lost, and this considered in connection with the unusually good forage crops or roughness produced in the feeding states warrants the belief that those people are going to take a considerable number of feeders from the western ranges provided the prices are right.

His Logical Conclusion.

The following notice, according to an English paper, was posted the other day on the bulletin board of a famous London club: "Will the nobleman who purloined Capt. ———'s umbrella kindly deliver it to the hall porter?" A well-known peer, taking umbrage at this slight on his order, accosted Capt. ——— and demanded an explanation. "Well, you see," was the reply, "the rules state that this is a club for noblemen and gentlemen. I am certain no gentleman took my umbrella; hence there was no other conclusion to come to."

SHIPPERS MUST USE CARE.

Hogs Intended for Stocker Pens Should be Billed Plainly.

It is of importance that shippers of hogs to this point understand conditions of shipping to the stock pens. Hogs in these pens can be taken out and shipped anywhere, but in the quarantine pens they cannot. Shippers sending hogs to the stocker pens must see that the railroad agent bills them plainly "Stocker Hogs," and notice should be sent in advance to the commission agents handling the hogs, so that they may look after them at this end.

Speaking of the protection given to hogs in the new pens, Dr. Paxton said today: "The pens set apart for stockers are in the northern end of the hog sheds, and the quarantine pens at the southern end. Between them are the sheep pens. There is no connection of the stocker and quarantine pens. We cannot, of course, guarantee that no sick hogs will get into these open pens, for it is impossible to detect cholera in its early stage, but the best care will be taken to keep suspected hogs out. The pens will be cleaned frequently with disinfectants, and no animal that is suspected of having a contagious disease will be admitted. The pens are kept locked all the time, and an attendant is at the gate to see that no hog gets in without a clean bill of health."

OUR LARGE POULTRY TRADE.

There are 5,739,000 farms in the United States, and, officially, 252,000,000 head of poultry, or over 42 head of domestic fowls to each farm. This enumeration does not estimate chicks under three month old. It virtually ignores the great spring chicken supply. There are about 350,000,000 head of old and young chickens, ducks, geese, turkeys and other domestic fowls in the great farm of Uncle Sam. These fowls produce for market annually $150,000,000 worth of poultry and $250,000,000 worth of eggs. In addition to this enormous output which reaches the avenues of trade, fully 33 1-3 per cent more is consumed at home by the raisers of our chickens. Our poultry lay 1,500,000,000 dozen eggs for market. At 15c per dozen wholesale, it means $225,000,000. There still remains the great reserve for home consumption. The consumer, at an average of 22c per dozen for eggs, pays $330,000,000 for Uncle Sam's eggs alone. He also pays $300,000,000 for the poultry bought in the market. We produce annually more money value in eggs than in gold and silver combined, but we hear most of the money metals. The same is true of our yearly poultry output. Uncle Sam produced more poultry and eggs last year than the whole world together did in gold and silver combined. The comparisons might go further. We use eggs, the baker uses eggs, the cotton factory uses eggs—oh! and lots of other people and industries use eggs. Wherever albumen is of value, there the egg goes, and we produce 18,000,000,000 of them for commerce, domestic and foreign.

NEW WORDS IN OUR LANGUAGE.

Coined Expressions Guaranteed to Puzzle the Ordinary Citizen.

New words, many of which are not found in the dictionaries, are cropping up to puzzle proofreaders. The introduction of the automobile has developed the term "garage," which is frequently used. It signifies a place where automobile parts are stored, to be assembled, or brought together when required.

"Grog" is a term used by builders to designate broken brick.

"Savage," as a verb, originated on the race course, and is now used in coursing circles. It signifies to make a vicious, unprovoked attack—usually by a stallion or a dog.

"Racket store" is used in commercial circles to designate a store—often opened for temporary use—in which cheap goods are sold at "bargain prices." It some times includes what are usually termed "notions."—Typographical Journal.

Peacocks Better Than Watchdogs.

Bird fanciers are predicting a vogue for the peacock. They say that people who can afford it have been lately buying hundreds of them for their country places. Ornament is one consideration, but there is another thing that recommends the brilliant creature in a more practical way. Some one discovered not long ago that there is no watchdog equal to the peacock as a guardian against thieves and marauding tramps. Perched on the roof of an arbor or outbuilding of the estate, a peacock will announce in shrill, discordant notes that can be heard a mile away the presence of suspicious looking strangers within the grounds.

Wardrobe for an Ocean Trip.

The day was not very long ago when the wardrobe necessary for crossing over to England was discussed with as great earnestness as to the preparation of a trousseau. Now with a couple of business suits, a heavy coat, a soft hat and a steamer trunk full of linen the regular traveler is ready for the voyage. There is always one man who wears his evening clothes at dinner and the curious thing about him is that he always looks as if he had never worn them before. But there is usually only one of this type, just as there is one of the man who appears on deck the last day out with a silk hat.—Outing.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Harcourt Deceived Gladstone.

Gladstone hated tobacco in every form, and while premier of England said once reproachfully to a close personal friend, "You have been smoking this morning." The reply was, "I have been sitting for half an hour in the room of Sir William Harcourt, who is a great smoker." Mr. Gladstone said, with surprise, "I never knew he smoked. He must be always very careful in changing his clothes before he comes up to me." Harcourt being a member of the Gladstone cabinet.

To Purify Politics.

Bishop Coleman of Delaware at the annual convention of the Protestant Episcopal diocese of Delaware assailed corruption in the state and said: "A man must be made to feel that what he would be afraid and ashamed to do in his own social relations he is to be equally ashamed to do in politics. He is not to be allowed to use his church membership as a cloak under whose protecting folds he may be guilty of all manner of deceit and fraud."

W. S. Gilbert's Correction.

W. S. Gilbert, formerly of Gilbert and Sullivan comic opera fame, wrote as follows to a London newspaper recently: "There is a line in your issue of May 15 that must have sent a thrill of joy through many a worthy home. I refer to the line in an article headed 'A Naval Battle,' in which I am referred to as the 'late W. S. Gilbert.' I am always sorry to spoil sport, but common candor compels me to admit (reluctantly) that I am still alive."

NEW RING ORDERED.

It Is to Replace the One Taken Off Late Pope's Finger.

ILLNESS IS FEIGNED.

This Is the Charge Under Which a Member of the Noble Guard Is Being Held by Authorities at Rome.

Rome, July 29.—The Tribune says as that the fisherman's ring, which could not be found after the death of the pope, the camerlengo, Cardinal Oreglia, has ordered a new one for use in the symbolic ceremony which occurs immediately after the successor of Leo XIII. is chosen. The member of the Noble Guard who was overcome during the requiem wass in the Sistine chapel Tuesday while on duty beside the catafalque, was Count Stampa, who a few days ago, was placed under arrest for feigning illness. He had a slight attack of syncope. It is officially announced that in addition to the will of the late pope and separate from it Leo XIII. left a trifling present to each of a long list of relatives, members of the papal household, prelates, doctors, cardinals, etc. As many formalities have to be observed it will probably be some time before the gifts will be presented.

It is said the conviction at the Vatican is that the conclave will be short, because all those who have to enter the conclave to minister to the wants of the cardinals have been engaged for three days. The camps into which the sacred college is divided, appears to be becoming daily more irreconciliable and it is said that the anti-Rampolla raction has declared that if necessary to defend the opposition they will even go to the length of supporting a foreign cardinal.

The name of Cardinal Kopp, bishop of Breslau, was mentioned in this connection, but was hardly considered seriously, owing to the belief that under the present conditions the elevation of a German to the papacy might mean the irreparable loss of France to the holy see.

President Ban Johnson of the American league was detained at his home in Chicago by illness. Those present said the meeting was simply for conference.

Clark Goes to Chicago.

Gardner of the Dallas Baseball club and Manager Comiskey of the Chicago American league club the latter organization, at the end of the Texas Baseball league season, secures the services of Harry Clark, the crack third baseman of the local team. It is understood Mr. Gardner receives $1000 and the player is to get $350 per month. Mr. Clark, who is but nineteen years old, is declared by many baseball experts to be the greatest find of the season, his fielding, batting and base running being sensational.

AFTER CONVICTS.

Believed They Will Be Overtaken in a Short Time.

San Francisco, July 29.—At last accounts troops and posses organized by the sheriffs of different counties were keeping in close touch with the convicts who broke out of the state prison at Folsom and their prisoners, guards and jail officials whom they have taken with them in self-protection. The party is moving toward Colima, where citizens have armed themselves and are preparing to resist an attack. They have been warned of the advance of the convicts and will unite with the authorites in an effort to put an end to their existence. It is reported by the driver of a stage which passed between Pilot Hill and Colima that he saw the convicts walking close together. They all wore citizens' clothes and were accompanied by men who were evidently residents of the vicinity, whom they apparently forced to go with them as guides. A posse from Placerville under Sheriff Bostwick is reported not far behind them, following their trail.

The result of the fight between the convicts and officers at 7 o'clock Monday night near Pilot Hill, in Eldorado county, is the death of Fred Howard, a convict killed outright, and wounding of another convict negro, named Seavis. The coroner of Placerville, at the request of prison officials, will hold an inquest on the dead convict. When last seen the convicts were in citizens' clothing, while the prisoners wore stripes. The latter appeared to be having a hard time of it, as they were heavily laden with bundles and ammunition. The latest information is to the effect that another encounter has taken place between the fleeing convicts and their pursuers, resulting in the death of John Allison a convict, and another, whose name is as yet unknown. Posses and militia are closing in on the desperadoes and it likely they will soon be surrounded on all sides. The capture or destruction of the complete band is only a matter of a very short time, as the authorities now have them thoroughly in hand.

After Bexar County Bonds.

Austin, July 29.—The state board of education is now negotiating for the purchase of an issue of $500,000 Bexar county improvement bonds. Should the bonds be bought it is likely to exhaust the amount of funds on hand for such investment.

Ordinance Accepted.

Austin, July 29.—The mayor and city council were officially advised by Leroy Trice that the International and Great Northern railway had accepted the ordinance granting the road a franchise to use the Austin Dam and Suburban railway in certain parts of the city. Extension will begin at once. A number of warehouses will be built and other improvements made as a result.

BREAD RIOT.

In This Case it Was the Unleavened Article in Demand.

New York, July 29.—A "bread riot" has occurred in Newark, N. J., owing to the strike of Hebrew bakers, who demand a holiday on Saturdays. The supply of unleavened bread having become exhausted, two Hebrews journeyed to New York and returned with two wagonloads. They were quickly held up by a clamoring throng of hungry persons and a raid on their stock was made. Men and women fought their way to the wagons, and a riot was provoked when a number of men began throwing the bread into the crowd. Many persons were knocked down and trampled upon and several women were carried fainting out of the crowd. The police appeared when the trouble was at its height. After a vigorous fight they dispelled the rioters.

WHY THE HAM IS SO SALT.

Packers Compelled to Use the Saline as Preservative.

"We are having many complaints about the unusual saltiness of ham bacon and canned goods this summer," said a butcher, who does a large family trade. "I suppose it is the same everywhere else. Standard goods that we have been able to recommend for years are salt as brine now. The packing houses tell us that it is because they are no longer permitted to use the preservatives that got such a raking over the coals after the Spanish war. They simply must pile on the salt or their hams and bacon won't keep. The packers will be obliged to find some way out of the difficulty, or they will have to go out of business altogether. In the trade we are noticing the falling off in orders from hotels and restaurants. No man wants a rasher of bacon or a slice of ham for breakfast if it is going to send him around with a raging thrist all day."

Why He Married Many Times.

When Tolstoy was preparing to write "Resurrection" he frequented the criminal courts of Moscow and St. Petersburg. He tells, in a letter to an American friend, how a bigamist appeared one day before a Moscow judge. The man had married seven wives in three years. This he himself admitted. "Why on earth," the judge asked, "did you want to marry so many times?" "In order, sir," he replied, "to find a good one, if possible."

Bird's Nest in Letter Box.

At the village of Weald, near St. Neots, England, the public letter box contains a bird's nest with four eggs. The postman whose duty it is to take away the letters time after time found pieces of moss in the box and threw them out, but the bird always took them back, so at length he left the nest materials alone. The box is opened three times a day, but the bird sits on quite unconcerned.

Fear for Russian Forests.

The name "Wooden Russia" is familiarly applied to the vast forest areas of Russia in Europe, which cover 464,548,000 acres, or 36 per cent of the entire area of the country. Yet some fear is felt that the country may be deforested through the carelessness of private owners, and the government is considering steps for the protection of the forests. In Russia houses built of any other material than wood are almost unknown outside the cities, and wood constitutes the principal fuel.

Blow to Austria's Supremacy.

It used to be the privilege of Austria's representative, at any conference of representatives of the German states, to smoke, the others refraining. This was supposed to be an acknowledgement of Austria's supremacy. At the first conference that Bismarck attended as Prussia's representative he began to puff smoke across the conference table as soon as the Austrian diplomat lit up. That set everybody present to smoking on equal terms and Austria's supremacy got a blow.

Six Sturdy Brothers.

Six Shaffer brothers, sons of John Shaffer of Highland county, Ohio, were photographed in a group at Hillsborough, Ohio, a few days ago. The oldest is eighty-six years of age and the youngest seventy-four. Their united ages amount to 480 years. Their father's children numbered thirteen and the children of these six borthers number, respectively, eleven, eight, nine, thirteen, twelve and five, giving the list in the order of the fathers' ages.

London's Army of Horses.

In a recent paper on "Electric Automobiles," read before the British Institution of Civil Engineers, Mr. H. F. Joel stated that in London alone there were over 16,000 licensed horse-carriages, apart from private vehicles, tradesmen's vans, etc., and it was estimated that over 200,000 horses were stabled each night in London, necessitating the daily removal of more than 5,000 tons of manure and refuse.

Sultan Missed the Whiskers.

When the sultan of Jolo first met Gov. Taft he refused to believe that the man before him was really the governor of the Philippines under the new dispensation. Making inquiry through an interpreter, Gov. Taft ascertained that his personal appearance did not come up to what the sultan expected. "What's the matter?" asked Gov. Taft. "It's the beard," replied the interpreter. It seems that every high American official the sultan had previously seen had a flowing beard and he thought the beard was necessarily a part of every high American official's equipment.

The Bargain Event to which all Fort Worth and Country Surrounding Throng, Beginning Monday Morning at 8:30.

CROWLEY.

July 29.—After many long months unavoidable absence, poor Dudley is seized with an uncontrollable desire to again try a hand at journalism.

Our community was visited this morning by one of the hardest rains of the season.

The health of this community is good.

Threshing is over, with a fairly good yield of grain. Corn and cotton crops are very fine.

W. A. Decker, who has been employed as chief cook for the Sam Kemp threshing crew, returned home Saturday the 25th, looking hale and hearty, but rather greasy.

Our long-looked for rural route from this place has at last been heard from. The line will be opened September 1st. W. A. Decker has been appointed carrier.

Mrs. Cliff Kornegay has been visiting her father at Grandview for some time.

Mrs. William Colthorp is visiting her granddaughter in East Texas.

Mr. and Mrs. Walter Neely, who have been visiting in Tennessee for some time, have returned home.

W. G. Scarbrough, wife and daughter, of Greer county, visited Crowley friends last Sunday. They report crops good in Greer.

Master John Ham of Enon community spent Sunday and Sunday night at the residence of W. Decker.

Rev. J. R. Goode filled his regular appointment at the Baptist church Sunday and Sunday night. Attendance fairly good.

W. H. Pool, father of Mrs. Walter Decker, has been seriously sick for the past two months, but owing to the skillful treatment and careful watching of Dr. L. C. Grady, we are glad to note a vast improvement in his health for the past week.

A young man seemingly about 18 or 20 years of age was run into by a southbound freight train five or six miles north of this place, yesterday morning, and seriously if not fatally hurt. The unfortunate young fellow was brought here and remained some time, then sent back to Fort Worth on the first northbound train.

A number of our Crowley folks took advantage of the low rates on the Santa Fe Saturday and Sunday and took in Galveston. All report having a good time.

With best wishes to the old Citizen and its many readers, I am the same old

DUDLEY.

SMITHFIELD.

July 27.—As I have neglected writing to you for some time, I thought I would send in a few items this week. We are still at the old stand.

Everybody is busy hauling fruit and melons, and the town is almost deserted.

W. T. Shaw and his two little girls, together with Walter Marcum, have gone to Tennessee on a visit. Hope they will have a good time. Sam Miller will run the shop while Mr. Shaw is gone.

I understand that B. F. Darby and S. B. Turner were the lucky ones in the examination for our rural route mail carriers, and suppose they will be put to work soon.

Bro. J. M. Scott, our M. P. preacher, has gone to Vernon to see his daughter, who is very sick and not expected to live. We hope for the best.

Some of our people attended the singing convention at White's Chapel last Saturday and report a good time.

Bro. Green, the M. E. pastor, has resigned his work here, as we are informed the work did not support his family.

J. J. Marcum, deputy sheriff from Fort Worth, but late of our town, was out shaking hands with his old friends here. Come again, Jeff.

UNO.

FOSSIL.

July 28.—Farmers are about through threshing their grain. The yield in wheat was from 15 to 24 bushels. Oats yielded as high as 75 bushels per acre.

Health of the country very good. However, Jas. Knight had a slight spell.

Mrs. Ellis has a fine girl at her house. Mother and babe doing very well.

H. C. Cantrell has gone to Tennessee on a visit.

Will Cantrell has again taken charge of N. P. Anderson's farm and dairy.

M. J. Wilson and the Knight Bros. made a good sale of mules and beef steers last week. Seventy young mules and eighty-five beef cattle were sold for the handsome of nearly $10,000.

Eugene Stevens from Yoakum, Tex., a cousin of Mrs. Dora Parchman, is stopping with us now, and is an employe of the Swift packing company as electrician.

Mrs. Nora Parchman contemplates visiting relatives at Seymour this week.

We attended dedication services at the new Baptist church in North Fort Worth, Sunday. Dr. Gamble of Dallas preached the dedication sermon, which was an able effort. The house is a neat and creditable church.

Bob Barry and Joe Anthony are visiting the home folks.

J. T. Garner from Franklin county, Texas, an old friend of ours, stopped over with us Saturday night.

JAP.

SOUTHERN PACIFIC CHANGES.

The passenger department of the Southern Pacific announces the following important changes in its schedule:

Trains Nos. 7 and 8 now running between New Orleans and San Francisco, will, on and after July 26th, run between New Orleans and San Antonio on present schedule.

West of San Antonio, on and after July 26, these trains will run as follows:

No. 7 leaves San Antonio 8 a. m., arrive Eagle Pass 2 p. m.

No. 8 leaves Eagle Pass at 12 m., arrive San Antonio 6 p. m., handling all local business between Spofford and San Antonio except such passengers as No. 10 may have west of Spofford for points east; that train will stop to let off such passengers.

Passengers on No. 9 for points between Spofford and San Antonio will be transferred to No. 7 at San Antonio.

No. 9 will leave Del Rio at the same time as at present and arrive at El Paso at 6 a. m. instead of 7 a. m.

Nos. 7 and 8 will handle the St. Louis-Mexico sleeper.

Nos. 11 and 12 between Flatonia and San Antonio will be operated on the present schedule from July 26 until August 1; on and after that date (August 1) these trains will be discontinued and the St. Louis-Mexico sleeper and St. Louis-California sleeper will be delivered to the Southern Pacific by the M. K. & T. at San Antonio instead of at Flatonia as at present.

Wealthy New York Churches.

A New York church that keeps silence respecting its wealth is the Dutch collegiate, which is reputed to have an income from investments of $400,000 a year. Trinity church has an income from its investments of over $1,000,000 per annum.

The Umpire Problem.

"Too bad they can't train cats to understand baseball," remarked the fat fan to his neighbor on the bleachers. "They'd make ideal umpires. One life for each inning."

Few Full-Blooded Indians.

Of the 85,000 Indians in the five civilized tribes—Cherokees, Creeks, Choctaws, Chickasaws and Seminoles—less than 15,000 are full bloods.

Moss Litter Supplants Straw.

Moss litter taken from the bog lands is coming into use in many European army stables. It costs only half as much as straw.

A Royal Scientist.

The Prince of Monaco, who was prevented by a motor cycle accident from delivering his lecture at the Royal Institution of London, is perhaps the first of living oceanographers. When the British Association last met in Edinburgh the royal scientist drew large audiences to hear his accounts of his experiments upon the routes followed by the waters of oceans themselves, as distinguished from the voyagers upon them. The gambler at Monte Carlo would thus seem to serve science.

Old-Time School Barbarism.

For centuries cock-fighting was encouraged in English schools. Fitzstephen in the twelfth century mentions it as an amusement of Londoners and that yearly at Shrovetide the boys of every school brought cocks to their schoolmasters and all the forenoon was spent in school witnessing these birds fight. As late as 1790 the income of the schoolmaster of Appleross, in Ross-shire, was drawn partially from cock-fight dues. Down to 1815, at least, there was an annual exhibition of cock-fighting at the Manchester grammar school.

Japanese Use Bicycles.

Japan is getting the bicycle craze; it imported $2,700,000 worth of wheels last year, mostly of the cheaper grades, costing from $12 to $25. They are chiefly used for business purposes; also in the army.

Valuable Library.

The Worshipful Company of Goldsmiths has presented to the University of London the whole of the valuable library of economic literature which it purchased some ten years ago from Professor Foxwell.

PENS FOR STOCK HOGS.

Relief for Shippers From Present Quarantine Regulations.

The quarantine law that is in effect at all stock yards has operated to prevent the shipping out of hogs after having been penned. At the urgent request of shippers, a stock hog division has been established in the hog pens at the Fort Worth stock yards, which, being free from danger of infection, is exempt from quarantine.

This measure of relief for hog shippers went into effect yesterday. The northern tier of pens are now set apart for stocker hogs, no others being admitted to them. As they have never been used, they are free from all danger of former infection. Hogs from these pens may be taken out at will.

But shippers should bear in mind that such hogs should be billed plainly "Stock Hogs." If this is not done, they would go to the quarantine pens, and once there, they could not be taken out except for immediate slaughter.

Cassaday 14-inch Sulky Plows, $36.50; 17-inch, $38.50, at trustee's sale of Hall Hardware Co. stock.

FEEDING FOR FT. WORTH MARKET.

The Old Somerville Ranch Purchased by Two Experienced Stock Raisers.

Mr. H. L. Perkins was at the stock yards Tuesday, getting acquainted, with an eye to shipping to this market. In connection with Mr. B. M. Carter he has bought the old Somerville ranch, 12 or 13 miles west of Fort Worth, and will raise and feed stock for the Fort Worth market. Both of these gentlemen are from Ellis county, where they have been in the stock business, but seeing the advantage of being closer to the market, they have made the change.

The Somerville ranch comprises 1014 acres of well improved land, and will make an ideal stock ranch where feeding is to be carried on. Mr. Perkins says grass is fine now, and there is an abundant crop of Johnson grass, which will make hay for winter feed.

SHIPPER FAVORED BY FORTUNE.

Sends in Top Lambs, and is Putting Down an Oil Well.

Mr. W. H. Davidson was in from Hurnville with cows and sheep. The sheep were better than the average on this market, and some of them, weighing 95 to 110, brought $3.25. He had 25 well-bred Shropshire lambs of 62 pounds average that brought $4.50, the best price for lambs for a good while.

Mr. Davidson is in the "oil belt," and considers that he is favored by fortune—first, by coming from Iowa to Texas, and second, by getting land that promises to make him rich by its oil product. He has 240 acres. Land that was selling at $10 an acre before they "struck oil" is now held at $75 to $100, and going up. He has given a contract for a well on his place, that will be drilled as soon as the machinery can be obtained.

There are now 7 oil wells in this district, of an average depth of 272 feet. The oil is of a better quality than that at Corsicana or Beaumont, and burns well without refining. Many of the farmers have the oil fever and will have wells drilled and the mineral wealth of the district developed.

For 30 days we are cutting prices for cash. Largest stock of Buggies, Surreys, Runabouts, Phaetons. Our time prices are right too.

STOCK SALES AT SAN ANGELO.

The San Angelo Standard says: The auction sale of live stock that was pulled off at Nasworthy's stables Saturday afternoon was a complete success in every particular, everything put up was sold.

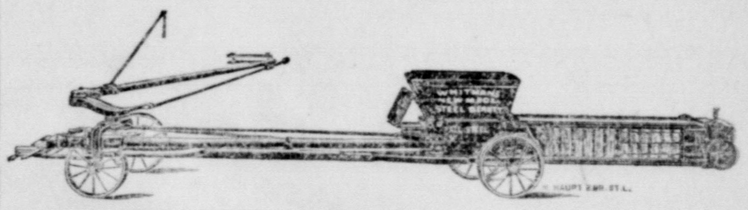

The stockmen of this district have concluded to have a sale once a month in the future, which will be of great convenience to stockmen, as they will be enabled to get what they want at headquarters without having to look it up. The attendance at the sale Saturday afternoon was good and a great deal of interest was manifested in the proceedings.

This sale consisted of selling eight high grade bulls, the property of C. B. Metcalf. "Gentry Briton 50th," the 2-year-old Hereford bull, sold for $125 to Phil Perner of Ozona, and the other seven head of shorthorn bulls sold to different parties, at about $40 around.

A good steel range from $18.50 to $37.50, at trustee's sale of Hall Hardware Co. stock.

G. S. HART, Trustee.

The National Provisioner says: The late G. F. Swift left a bequest of $4,000 in his will to Clinton P. Pledger, an employe of his company. Mr. Pledger is a Northwestern divinity student. He was employed by Swift & Company, and desired to enter Harvard. He impressed the great packer, who has provided the means for gratifying the young man's ambition. Mr. Swift was a big-hearted man in many ways, and his life is strewn with generous charities.

THE LONGING FOR HOME.

Nostalgia Recognized by Physicians as a Dreaded Foe.

Nostalgia—that is what the doctors call it. In ordinary phrase it is known as homesickness. It is a real disease. Strong men die of it in the Philippine Islands. To all ordinary diagnosis they are well. No organic trouble is apparent. The patient is literally sick for home and unless he is sent home he grows worse, and often dies. Officers of the army, private soldiers, civilians old, middle-aged and young—all these are subject to the illness. It is no boy's malady.

The American in the Philippines is like a fish out of water. Edward Everett in his "Man Without a Country" shows us how hardly an American can give up America. There is so much here to get homesick for.

To Let—A Beggar's Stand.

Benjamin C. Marsh, whom the University of Pennsylvania has recently appointed to a fellowship for the study of the tramp question, has a strange clipping from an old Scottish newspaper. The clipping comes under the head of "Business Opportunities," and it reads: "To let, a beggar's stand in a good, charitable neighborhood, bringing 30 shillings a week. Some good will is required. N. B.—A dog for a blind man also to be disposed of."

Government Demands Too Much.

The demand of the British government that the two new Cunarders it so heavily subsidizes shall maintain a speed averaging 25 knots an hour for a season has to this date prevented the letting of the contract. To have two vessels costing about $10,000,000 thrown back upon them would be a great hardship for any firm of builders. Twenty-three and a half knots is the highest record for a single voyage.

Weber Farm Wagons 2¾-inch, complete with gear, brake and spring seat, $65.00; 3-inch $67.00; 3¼-inch $69.00; 3½-inch $70.00.

Secures Imposing Monument.

H. P. Patterson of Aurora, Ind., a veteran of the civil war, recently, while on a visit to Gettysburg, succeeded in locating a large bowlder behind which he sought shelter during the furious attacks of the confederate troops on the exposed position of the union flank. Mr. Patterson was so well pleased with his find that, notwithstanding the fact that the rock weighed eight tons, he bought it from the Culp estate and had it shipped to his western home, where he intends to have it used as a monument to mark his grave after his death.

Older Than the Christian Era.

Some workmen, while digging gravel at Wenden, Saffron-Walden, England, unearthed a very rudely decorated cinerary urn, containing a quantity of dark earth mixed apparently with the cremated remains of a human being. The urn is probably 2,000 years old and of Celtic origin.

Steel Pens.

Early steel pens were so costly that makers advertised they would make such repairs as were necessary for a stated time, generally six months. When a man damaged his pen he carried it back to the factory and had it mended by an experienced mechanic.

A Joke on the Sultan.

Abdul Hamid, who lives in abject fear of assassination, insists on being told that the king of Servia died through an unfortunate accident. It would be a joke to kidnap the timid sultan and make him spend a Fourth of July over here.

Prof. J. W. Jenks of Cornell believes that women are well fitted by nature to become managers of large hotels, and suggests that schools of domestic science extend their courses to prepare educated women for the profession.

UNITED AT DENVER.

Consolidation of the Various Elements Effected.

ADDRESS IS ISSUED.

Committee Formulates a Platform of Principles and Requests All Favoring What Is Therein to Affiliate.

Denver, July 29.—The two factions of the People's party, each with a national organization, were amalgamated at the national conference of the People's party and Allied Reform parties, now in session in this city, the following address being adopted:

The manifest interest which everywhere appears in the nation demonstrates the dissatisfaction of the American people with the present management of government and argues the necessity for reform forces coming together into united action to the ballot box to obtain proper legislation whereby the right of the people to self government may be had for themselves and their posterity.

Therefore, we the Populists of the United States having this day at the city of Denver, united forces with the distinct understanding that all past differences shall be and now are permanently settled, and experience having demonstrated the futility of an attempt to secure enactment of our truth, either through the Republican or Democratic parties, we believe the time is now at hand, when the United People's party should declare itself emphatically opposed to any affiliation with either of these parties and unqualifiedly in favor of national political action.

Our fundamental principles are known to all Populists and are now here better stated than in that immortal document enunciated at Omaha, July 4, 1898. However, for the benefit of the uninformed we declare our unyielding adherence to the demands for "a money whether stamped on gold, silver or paper to be coined and issued exclusively by the government and made a full legal tender for all debts, both public and private.

B—A system of transportation and the transmission of intelligence only by the public and operated by the government at the cost of service.

C—Land for use rather than for speculation and abolition of alien ownership of land.

D—American ships for American foreign commerce without a cent of subsidy.

And as an open door for all economic reforms, we urge the rule of the people through the optional referendum and initiative and the recall of derelict officials.

Confident in the justice of the principles here set forth, firmly confident that their triumph in government would be for the best interests of the people we call on the patriotic citizens of this country to join with us in bringing about their enactment into law. With these principles firmly established, equal justice would prevail, special provisions would be eliminated and ours would be, as patriots everywhere desire, a government of the people, for the people and by the people.

Members of the Committee.

The committee appointed to select members of a committee of one from each state on organization to work in connection with the national committees was unable to complete its work and it was by resolution empowered to complete the committee at its leisure. The gentlemen to whom this important work is delegated are: J. A. Edgarton, of Colorado; Milton Park, Texas; J. H. Calderhead of Montana, and C. Q. Defrance of Nebraska. They are to be members of the large committee when it is completed.

The committee to nominate an organization committee reported its inability to complete its work at this time and its members were appointed an organization committee with power to add to its membership one man from each state and territory in the Union. This committee is to carry on the work of organization until the next national convention when it is expected that the formal amalgamation of the two Populist parties will occur. The conference adjourned sine die.

RESOLUTE STAND.

Japanese Press Continues to Maintain a Firm Situation.

Vivtoria, B. C., July 29.—Advices received by the steamer Tosu Maru from the orient are that the Japanese press is still maintaining a resolute stand on the Manchurian question. The general opinion is the time has gone by for warnings to Chinese or reference to Chinese statesmen. As the Japanese Times epitomizes it, "the situation with regard to Manchuria has passed the stage where questions of Chinese moral courage or cowardice are of any importance. The only possible way to permanently settle the trouble is to discuss the matter frankly with Russia, and there may be war or there may be peace, but either way settlement will be definite."

Merely a Recommendation.

Lake Charles, La., July 29.—Batson received the news of favorable action by the board of pardons in his case with his usual indifference and said he had never expected to hang. The action of the board of pardons, however, is only a recommendation to the governor, who is alone in having the right to commute the sentence. t

Want Merchants' Rates.

San Antonio, Tex., July 29.—At a meeting of the wholesalers and manufacturers, had at the Business Men's club, the San Antonio Jobbers and Manufacturers' league was organized as a sub-organization to the Business Men's club. Injured by Wild Cow.

Groveton, Tex., July 29.—While Colonel H. G. Williams of Austin was superintending the grading of cattle preparatory to shipping to Cuba, a wild cow ran over him and broke him up considerably. The doctors regard his condition as doubtful.

EWEN'S ARREST.

Result of Understanding Between Civil And Military Authorities.

Cynthiana, Ky., July 29.—The arrest of Captain B. J. Ewen is now known to be the result of a complete understanding between the civil and the military authorities. Captain Ewen came here as a witness Saturday and returned to Lexington Sunday night, where he gave out an interview that he had been promised military protection and when such was declined he fled for his life and refused to return. Captain Ewen stated in his interview at Lexington Sunday night that Cynthiana was full of witnesses for the defnse and others from Jackson, Ky., and that witnesse for the commonwealth were in danger. According to this interview, Judge Osborne had Ewen arrested on his return to Cynthiana last night and he is still held in camp as a prisoner in which capacity he can be protected to the fullest extent of the military public. Ewen understood why he was arrested and consented to the same. He feels more secure now than for months.

The motion of attorneys for Jett and White for continuance to the September term was renewed on the ground that sufficient time had not been allowed to consult witnesses. The court overruled the motion and the selection of the jury began.

TO BE COMMUTED.

Report That Batson May Not Pay The Penalty of Death.

New Orleans, July 29.—Excitement is at Lake Charles, over the receipts of the news that the board of pardons had decided to recommend the commutation of the death sentence of A. P. Batson, alleged murderer of six members of the Earle family. The hope is expressed that Governor Heard will disregard that the recommendation. Batson received the news Tuesday and was greatly pleased, asking that a message be sent his mother at once.

Offers Money For Home.

South McAlester, I. T., July 29.—Miss Bradley, the matron at the union passenger station, is in receipt of an offer from an eastern mission society to give $4000 toward establishing here a refuge home, or hotel, for the traveling public who are in distress. The offer is made upon the condition that South McAlester first raise $1000 in cash. Miss Bradley has taken the matter up with several citizens and they are much impressed with the plan. L. W. Bryan says he will be one of ten to give $100 each.

Bourke Cochran has returned to New York. He denies that he intends becoming a "naturalized Englishman."

MAGNIFICENT IS MASS

One of the Most Imposing That Was Ever Celebrated,

BY SACRED COLLEGE.

All of the Cardinals Were Present and the Diplomatic Corps of the Various Nations Attend in Bright Uniforms.

Rome, July 29.—The first great requiem mass under the auspices of the sacred college for the repose of the soul of opeP Leo was celebrated Tuesday morning in the Sistine chapel. All cardinals now in Rome, diplomatic corps, Roman nobility and many other distinguished persons were present. No such mass has been seen in Rome since the death of Pius IX.

In the Sistine chapel stood a huge white catafalque thirty feet high and on it upon two scarlet cushions rested a triple crown of gold, shining brightly in the light of 100 candles. The catafalque completely hid the altar. Flanking the catafalque on benches specially constructed sat almost all the members of the sacred college wearing scarlet capes over violet robes. At their feet on stools were conclavists, or secretaries, in violet. In the narrow aisles behind between the benches and the wall heads of religious orders, archbishops patriarchs, monsignors and monks knelt or stood in picturesque confusion. At the four corners of the catafalque burned candles ten feet high. Beside these stood Noble Guards motionless with drawn swords. Other Noble Guards were posted at the chancel entrance. Immediately beyond in reserved places were all the diplomats. Intermingled were the uniforms of France, Russia, Prussia, Austria, Spain, Belgium, Portugal, Brazil, Chile, Colombia, Guatemala and Bavaria, forming a vivid contrast with the simple evening dress of Roman princes and the crepe veils and black dresses of the princesses, who sat directly across the aisle. At the altar was Cardinal Serafino Vannutelli, assisted by Cardinals Agliardi, Vincenzio Vannutelli, Satolli and Richard, wearing white mitres and glistening vestments. Clouds of incense rose from the censers until Michael Angelo's famous "Last Judgment" was almost hidden from view. At the conclusion of the mass the choir again burst into song and Cardinal Serafino Vannutelli, preceded by a cross bearer, passed solemnly around the catafalque after sprinkling it with holy water. Each of the officiating cardinals followed in turn and the ceremony concluded with chanting the Oremus. It was after mid-day when Cardinal Vannutelli pronounced the final absolution. Cardinal Gibbons had no part in the celebration of the mass. He sat beside Cardinal Martinelli among the extraordinary array of cardinals, among whom was Cardinal Gotti, who instead of a scarlet cape wore the white mantle of the Carmelite order. During the ceremony one of the Noble Guards on duty beside the catafalque was overcome by heat and had to be led out. Another guardsman instantly took his place.

Enormous Congregation.

Landon, July 29.—A requiem mass for the repose of the soul of Pope Leo was celebrated at the Oratory Brompton in the presence of an enormous congregation. King Edward was represented by the Earl of Denbigh. Ambassador Choats, members of the United States embassy and representaties of all other embassies and legations and a majority of the Irish members of the parliament were present.

EWEN PRESENT.

Is at Cynthiana Under Protection of Soldiers.

Cynthiana, Ky., July 29.—Court opened at 8:30 a. m. Tuesday for the second day's trial of Curtis Jett and Thomas White for the murder of J. B. Marcum. One hundred men whose names were drawn Monday who were summoned to attend as jurors responded. Capt. B. J. Ewen, chief witness for the prosecution, is here under the protection of troops.

AT LONDONDERRY.

Edward First British Sovereign to Visit That Historic City.

Londonderry, July 29.—King Edward and Queen Alexandra were accorded a great reception on their arrival here. Large crowds from surrounding districts assembled to greet the first English sovereign who ever visited Londonderry. Their majesties were met at the railroad station by the mayor and corporation. The usual number of addresses were presented, replying to which King Edward expressed his pleasure.

Decorations Damaged.

London, July 29.—According to telegrams received from Cork, a special police force was appointed there to watch night and day in order to prevent the destruction of decorations by those who are opposed to the visit of King Edward and Queen Alexander to Cork. Decorations along the route to be followed by the royal procession, which were already far advanced, were found in several instances to have been pulled down and otherwise damaged.

IRATE INDIANIANS.

With Shotguns, Revolvers, Pitchforks and Clubs They Seek a Negro.

Logansport, Ind., July 29.—Armed with shotguns, revolvers, pitchforks and clubs, a mob of infuriated citizens of Harrison township are scouring the country for an unknown negro who on Monday evening attempted to assault Mrs. Joseph Watts on a road near her home, about three miles from Lucerne. The mob is headed by George Watts, son of the lady. The posse hopes to catch the negro on Sutter's prairie.

LIFE AT NEWPORT.

It Is Making Serious Inroads Upon Health of Young Ladies.

New York, July 29.—The strenuous life at Newport is making serious inroads upon the health of the young women, and hence a halt has been called by their parents or guardians, says the World. Long before the dew is dry on the tennis courts at the Casino bright girls, minus hats, and with flowing hair and arrayed in chic white gowns with short skirts, assemble to play tennis and patronize the squash courts. The players, mostly women, play until lunch. Then comes the driving hour, a visit to the golf club, then a reception, and at night they are expected at dinners. The strain is great and is particularly noticeable upon the wan faces of many of the debutantes. Several of the latter have been advised by their physicians to seek rest and are preparing to obey.

NEGROES LEAVING.

Hundreds Who Departed From Evansville Have Not Returned.

Louisville, Ky., July 29.—A Courier-Journal special from Evansville, Ind., says: Many strange negroes have been passing through the city en route to the south. Some of thm were from Danville, Ill., and points north. One of the refugees stated that over one-half of the negroes in Danville intended to leave the state and seek homes in the south.

Hundreds of the negroes who left this city during the recent riots have not returned. Several towns in southern Indiana are entirely free from negro inhabitants for the first time in years.

Will Be No Change.

Washington, July 29.—Fourth Assistant Postmaster General Bristow returned from Oyster Bay, where he conferred with the president regarding the postoffice investigation generally. Mr. Bristow had nothing to say regarding the performance. It may be stated, however, that there will be no change in the policy of the investigation.
