PRICE FIVE CENTS

POST IS FLYING TOWARD CANADA

Roosevelt Asks Five Million Employers To Raise Wages, And Shorten Hours

TWINKLES
A plaque on the new Texas highway department building depicts progress of the west moving eastward. More of that East Texas influence, we presume.

Maybe there isn't a greater supply than demand, but if there is why not plow up most of the spinach and raise the price on what is kept?

When New York bankers sell bonds to relatives at a loss and buy them back at a profit, it shows they know how to handle relatives, as well as income tax collectors.

China faces a flood peril. And now they can tell invading Japanese to jump in the lake.

Every town ought to have its "Scorchy". If you know a reg-lar fellow who is brave and clever, and have no good nickname for him, just call him SCORCHY. And be sure to follow SCORCHY SMITH daily in the NEWS.

Initiative of the sort which brought leaders from all parts of the Panhandle to Pampa to hear Marvin Jones is what Pampa needs and what builds this city in the estimation of this section. THE NEWS is glad to furnish its share of the leadership and promotion.

Omission of Frontier Days this year seems an act of wisdom, though it is not done without regret. Success of such big ventures depends on striking when conditions are right, and to risk a deficit might permanently end the celebration. It will be resumed in 1934.

Of course, Elliott Roosevelt's broken romance is regrettable, but if he must try it again, his choice of a Texas girl would be wise, indeed.

If everybody has been losing money, it must be about time for someone to start finding it.

Balbo goes to fight incognito, says a headline. And with those whisks? Impossible.

President Roosevelt's hope for an America in which only honest work will give rewards is probably the minimum expectation. Lady Luck can't be repealed.

There is hot oil in East Texas, but a lot of the operators are hotter. Uncle Sam is moving in.

Texas A. & M.'s bulletin of the week says that soil blowing can be prevented by using a duck-foot plow. Or, we add, by getting enough rain to swim a live duck now and then.

Hundreds of Pampa boys and girls need to learn to swim but are not financially able to get near the water. If somebody can't do something about that, it will be a reflection on our ingenuity. Any boy can muster a "short", and we think the city dads should figure out a way to let the boys to the water at stated intervals until they can swim.

"Come up some time" is a popular phrase. The come-tosee-us spirit suffered severe impairment in the last 18 months.

We're so modern and rooseveltesh that we'd rather plow up cotton any day than to hoe it.

All in all, we don't know much about our own southwest, Roswell, for instance has colder weather than Sitka, Alaska, and hotter summer days than Mombasa in equatorial Africa.

MORE EVIDENCE
That criminals at large are really enemies of peace officers was illustrated again in New Mexico. Gunman Frank Wallace is dead and Gunman Glen Hunsucker also, but it cost the lives of Deputy B. F. Leonard of Roswell and Deputy Tom Jones of Carrizozo. The gunmen and officers were similarly armed. If the gunmen had used machine guns, the toll of course, would have been even greater.

I HEARD—
Ain't heard nothin'.

AGREEMENT TO BE RECEIVED THROUGH MAIL

BADGES WILL BE GIVEN SIGNERS OF N. R. A. PACTS

By WILLIAM L. BEALE
Associated Press Staff Writer

WASHINGTON, July 21. (AP)—Every citizen today was summoned to a covenant with President Roosevelt to re-employ the jobless millions by Labor day.

To address a request from the president to join his national recovery administration in a mass attack on the depression by voluntary agreements to lift wages and shorten hours.

Powerfully driving this war-like plan for unifying the country in creating re-employment was a carefully mapped "campaign of education" that brusque Hugh S. Johnson said will "saturate the country with the hope on this thing."

President Roosevelt himself will take to the people the plan he and Johnson agreed upon finally late last night.

"I'm just as certain it will work as I am sitting here," said Johnson, back at his desk after the presidential conference. "I'm staking everything on it."

The heart of the plan: Every employer will receive thru the mail July 27 an agreement addressed to him by President Roosevelt. Upon signing, this binds him to maintain a fixed minimum wage and not to exceed a fixed maximum work week during "the president's emergency re-employment drive" from August 1 to December 1.

The basic hours, labor and wages: Child labor outlawed. \$14 to \$15 a week minimum and a 40-hour week for so-called white collar labor.

30 to 40 cents an hour minimum for a 35-hour week and an 8-hour day maximum for factory and mechanical labor.

Equitable readjustment of pay above the minimum.

Every signer receives a certificate and government badge showing the seal of N. R. A. (National Recovery Administration) and the words: "Member N. R. A. We do our part." This badge may be displayed on all equipment, goods, communications and premises. The signer may appeal for adjustments if a hardship is worked.

For every consumer who wishes to cooperate and become a member of the N. R. A. There will be a badge issued upon signing of this statement:

"I will cooperate in re-employment by supporting and patronizing employers and workers who are members of N. R. A."

Johnson exhibited a chart he called "the only significant chart there is." It showed that values had shot far upward, leaving purchasing power behind.

Even as the new voluntary plan was completed, the industrial administration continued hearings on codes proposed by different industries. Today's included lumber, coal and suit, shipbuilding and electrical manufacturing, while steel has been set for July 31.

(See EMPLOYERS, Page 2.)

E. A. Anderson of El Paso is a business visitor here.

MERCHANTS TO BACK FEDERAL RECOVERY ACT

Druggists In Cooperative Mood as They Discuss Plans of President.

Pampa merchants are taking the lead in this section in studying the national industrial recovery act and putting themselves in position to observe the wishes of the president.

Cleaners and barbers were first to hold meetings, and they have been followed by the druggists, who met at the city hall last evening for a lengthy discussion. George Briggs, manager of the Board of City Development, presided.

Another meeting will be held next week, when the druggists likely will organize. There has been little work on actual codes, which usually develop in sessions of wholesalers and manufacturers, but cooperation of retail merchants is regarded as valuable if not vital.

On next Tuesday evening, grocery merchants are to meet at the city hall followed by the druggists on Wednesday evening. Furniture dealers and automobile agencies may meet later. It is hoped that the great confusion existing in most cities because of the national industrial act will not obtain here.

Stocks Hurtle Downward Again In Wild Market

NEW YORK, July 21. (AP)—Stocks crashed downward today in the wildest market since 1929. Extreme losses generally ranged from \$3 to more than \$12 a share for shares of the country's latest corporations.

Trading in many issues was demoralized due to the absence of supporting orders. Pools liquidated stocks in enormous volume and there was tremendous selling from speculative margin accounts that had collapsed.

Not since the frenzied early stages of the decline four years ago had the market witnessed such a drastic deflation of values as occurred this afternoon. Stocks were offered for what they would bring and buyers, for a time, were scarce at any price.

The upswing that started shortly before 3 o'clock appeared due to heavy short covering as well as purchases by traders who were trying for "a turn" on the theory that a rebound was due.

The break coincided with a tumble of \$6 a bale in cotton not long after 1 o'clock. Until then the market had been steady to firm after an irregular opening.

The market was still climbing from its lows after 3 o'clock and by 3:10 losses had been roughly cut in half. American telephone at that time was off \$3.75 at \$120, while U. S. Steel was down \$4.50 at \$53.

Camp Fire Girls Selling Doughnuts

Pampa Camp Fire Girls are having exceptional success selling doughnuts in order to raise funds to buy ceremonial gowns.

They had sold 108 dozen early today in their first effort, and will conduct the sales one day each week.

The gowns are used in monthly ceremonial meetings. The girls also are planning a fall camp. Evelyn Bicknell is president and the sponsors are Mrs. Bo Barrett and Mrs. Nolan Harris.

E. C. Mead of Liberal, Kan., is visiting friends here for a few days.

COMPANY HAS RE-HEARING ON INJUNCTION

ISSUE OF 'HOT' CRUDE RAISED AS GAUGERS WATCH WELLS

Gray county oil field today included whether the Danciger Oil & Refining company has been running crude oil in excess of its allowable and whether a test of Danciger wells by the railroad commission now under way is a bona fide test of their potential production.

Gaugers for the local office of the commission reported, after examination, that they believed the wells were being produced at or near open flow in violation of state and federal statutes and that the production might be defined therefore as "hot" oil, although it admittedly was being run to Danciger's own refinery just east of the city.

Many Wells Tested
The local gaugers started a 5-day test on one Danciger lease yesterday and on another lease today, as well as on the first line offsets to Danciger properties. More than 50 wells are involved, with about 30 of them being produced by Danciger.

By tonight all Danciger wells and offsets and a number of other flow production wells will be under the 5-day test. The former 10-day test has been abandoned for the present.

Danciger attorneys, however, have obtained a re-hearing on an injunction granted yesterday preventing Danciger employees from interfering with agents of the railroad commission. It is contended that because of this rehearing the present test is illegal and, because the wells are not conditioned for the test, it is inaccurate as well. Danciger had maintained that if its wells were to be tested, every well in the field should have a similar test.

For many months, Danciger wells produced in excess of allowable under court injunctions. Three weeks ago a three-judge federal court ruled that present orders of the railroad commission are legal and equitable. Accordingly, Danciger officials were served an order to conform to the field allowable, and a test of the potentials of the various Danciger wells was announced.

Taking Test Oil
With the beginning of the test, there is temporarily no question of production legality, and owners of the various wells are taking the test oil. Danciger attorneys have advised officials of the company that the firm is now under prorator restrictions until after the injunction re-hearing July 28. This is denied by the Texas attorney general's department, which, sustained, could invoke also the federal restrictions should U. S. agents now in East Texas be interested.

The Danciger allowable temporarily totals about 2,000 barrels of crude oil daily, but railroad commission allegations are that more than 4,000 barrels is being produced. The company also buys some oil for its refinery.

PARDONS TWO

AUSTIN, July 21. (AP)—Governor Miriam A. Ferguson today gave conditional pardons to two convicts. They were Raymond Armstrong, serving five years for burglary and theft and Martin Lambert, convicted last October for child desertion and given 18 months imprisonment. Armstrong was convicted in the district court of Stephens. Young Callahan, Jack and Gregg counties and Lambert was sentenced from Dallas county.

Thieves Steal 8 Auto Tires

Four Pampans Are Victims Of Marauders Who 'Work' North Part of City.

THE TIRE theft epidemic broke out anew in Pampa last night when eight casings were stolen from five Pampa citizens. A tank of gasoline also was stolen during the invasion of the thieves. All the thefts were in the north part of the city.

The heaviest loser was Calvin Davis, porter at the Davis hotel. He reported to city officers this morning that three tires and wheels had been taken from his car, parked beside the servant quarters at the R. Earl O'Keefe home. A rim from another Ford was used to hold the car up while the tires were being removed. It was left under the care of Frank Chapman, 921 North Somerville street, lost a tire and wheel from his Ford car, parked by the side of his residence. The jack was removed from under the wheel and the axle was dropped into the dirt. Bill Weible, 515 North Frost street, lost a tire and wheel off his Ford car. J. T. Lockard, 720 North West street, was the other tire victim. He lost two casings and wheels. Thieves were seen tampering with

First To Ask Home Loan Aid

FIRST of the nation's mortgage-burdened home owners to seek relief from the federal Home Owners Loan corporation was Mrs. Leandra Boni, widowed mother, pictured in the top photo as she discussed her plight with John F. Hamilton, Michigan manager, when the Detroit office, first in the country, was opened. Below are the leaders in the crowd of 2,000 eager applicants who jammed corridors and stairways leading to doors of the Detroit office.

ELLIOTT ROOSEVELT AND RUTH GOOGINS OF FORT WORTH WILL BE MARRIED IN IOWA TOMORROW

Mattern Awaits Orders From His Backers at Nome

NOME, Alaska, July 21. (AP)—Greeted by his relief expedition Jimmie Mattern, round-the-world flier, today awaited further word from his New York backers about his future activities, at the same time seeking further news of the progress of his rival, Wiley Post.

In a big Soviet seaplane flown by Pilot Levanovsky, a Russian flier, Mattern made the 600-mile flight here yesterday from Anadyr, Siberia, near where he crashed on June 14 on his globe-girdling flight. The plane arrived at 1:10 p. m. (7:10 p. m. E. S. T.) yesterday.

Within six miles of Nome, they reported, they ran out of gas and were compelled to land, before resuming their flight.

Another pilot, two mechanics and a navigator made up the remainder of the seaplane's crew. They planned to remain here until tonight or tomorrow, before returning to Siberia.

Mattern still wishes to complete his globe-girdling flight to New York, he said, but his plans are not definite. The plane in which he left New York on June 3 is a wreck 50 miles from Anadyr.

PASSION PLAY SOON WILL BE GIVEN IN CITY

Kiwanis Club Will Sponsor Coming of Great Play; To Be In English.

The great European Passion play in English will be presented here at the city auditorium July 31 and August 1 under the auspices of the Pampa Kiwanis club. It has its high purpose in that the members of the company believe they have a mission to perform.

They wish to reach the majority of the people rather than the exclusive minority. Living the history of the New Testament days is the religious element in their action. To them the New Testament has become vigorous actuality. They know their native village and their play is theirs. Little changed in text from the play of centuries ago, they know that it was performed in front of the cathedral in 1264, long before America was discovered.

The Crusaders were not older—the spirit of fierce exultation still lingers in Europe—The Normans were strengthening their grip upon England—Frederick the Red-beard had no more than gone asleep in his great hall—Italy was the welter of quarrelling principalities—cities had not gained that independence and richness which was later on to contribute to the splendor of the Great Passion plays of the Renaissance. The common people in that era of feudalism were cramped between the vast power of ecclesiastical autocracy and the nobility—they were sunk in ignorance hardly understandable in this day and age. The most fantastic superstitions were accepted as truths.

They had few pleasures, few forms of entertainment. The people had nothing. The noble, walled within his castle, alone enjoyed the meager luxuries of the day, and because they had so little and their masters comparatively so much, it was the people who turned eagerly to such spectacles as the Passion play. In Europe, in the middle ages, there was no entertainment to compare with it. With the purest form of the Passion play in its day of glory, history, and legend credited it with being the outstanding example of medieval magnificence.

The present production, no expense has been spared to make it the most beautiful and elaborate spectacle ever presented to an American audience. Hundreds of costumes are carried by the company, for a large extra list of people used. Among the ensemble of this sublime spectacle we find young ladies as angels, while others appear as water carriers, with their jugs and gourds, many as virgins, and followers of the Master. A great nondescript crowd of men and women and children are dressed of the period of the time. The players come to the atmosphere of this sacred drama to the hearts of both portrayer and the hearer.

Young Roosevelt will arrive here by plane today, accompanied by his sister, Mrs. Anna Curtis Dall. Mrs. Dall will be Miss Googins' only attendant.

Who will attend Mr. Roosevelt was not ascertained. Only immediate members of the two families will be present at the wedding in the home of George C. Swiler, brother of Mrs. J. B. Googins, mother of the bride to be.

The hour for the wedding has not yet been set, the Associated Press was told. No formal statement will be issued until after the wedding and the couple has departed for a honeymoon "in the west," it was learned.

(See ROOSEVELT, Page 2.)

Counterfeit Oil Company Checks Are Circulated

Pampa Business Men's association today was warned that counterfeit Continental Oil company checks were being circulated in Texas oil fields.

The checks are perfect replicas of those issued by the Security Bank & Trust company of Ponca City, Okla., and the names of R. W. Mann and J. H. Hagle of the oil firm are cleverly forged.

The names are selected from local communities and the sums are usually from \$40 to \$80 in amount. Merchants are warned that all Continental checks should be carefully watched and the ones passing them questioned or identified. The company is investigating.

REGULATORS AT AUSTIN

AUSTIN, July 21. (AP)—J. Howard Marshall and Norman L. Meyers, representing Secretary Ickes of the interior department in an investigation of threatened violations of federal production regulations in the East Texas oil field, were here today.

FLIER SLEEPS WHILE PLANE IS REPAIRED

NEXT SCHEDULED STOP IS FAIRBANKS; THEN EDMONTON

FLAT, Alaska, July 21. (AP)—Wiley Post, Oklahoma flier, resumed his aerial jaunt around the world today at 7:28 a. m. Fairbanks time (12:28 p. m. E. S. T.).

Joe Crosson, who brought a new propeller for Post's plane from Fairbanks, circled over the field here at 7:25 a. m. and three minutes later Post joined him in the air. Both planes headed east for Fairbanks where Post will refuel for his flight to Edmonton.

The weather was good. Fairly well rested, Post said, after during six and seven hours of sleep during the night, following his arrival from Khabarovsk, Siberia, yesterday afternoon, he superintended the final repairs to his plane, which was damaged when it nosed up on the small landing field, in a cross wind.

The preparations for the start, with the destination set by Post as Fairbanks, about 375 miles away, were delayed somewhat by an hour of darkness about midnight.

The plane was only 4,000 miles from his goal, New York, when he landed after a 22-hour battle with the elements on his flight from Siberia. He was undaunted by his plane's nosing over in a stiff cross wind when he finally glided down to earth at the airport here at 3:30 p. m. Fairbanks time (8:30 p. m. E. S. T.) yesterday. The propeller was broken and the landing gear was damaged.

Fraud Charged In Tennessee Repeal Voting

NASHVILLE, Tenn., July 21. (AP)—Charging that "the grossest possible fraud" was perpetrated in Memphis and Nashville in yesterday's referendum on the 18th amendment, John P. Baggett, chairman of the prohibition campaign, said in a statement today that the vote is being "very carefully studied with a view to contesting the election."

Mr. Baggett said "we have the city machines of Nashville and Memphis to thank for the very narrow margin which the wets are claiming."

Returns from 2,007 out of 2,232 precincts gave for repeal 123,650; against repeal 114,401. This was a repeal majority of 9,249.

The missing boxes are scattered over the state and are small, with an estimated total vote not in excess of 5,000 or 6,000.

I SAW—

Ain't saw nothin'.

Heat-o-Graph

The forecast:
The temperature in Pampa at 1:30 o'clock today was 96 degrees; sky largely overcast.

FARM COLONIES TO AID OUR CITY WORKERS

One of the most interesting of all the experiments the Roosevelt administration is going to make will be its venture in "subsistence farming" for industrial workers on the fringes of big cities.

A \$25,000,000 fund is available for this work, and the first colonies will be established soon. What the stunt will amount to is simply this:

Land will be obtained on the edge of a city and will be subdivided into small farms of one, two and three acres. A small home, perhaps to cost \$3000, will be established on each plot. In the middle of the colony will be a store, a playground and social hall, and the like.

Occupants of these homes will be industrial workers from the city. Each family will have enough land to raise vegetables, chickens and a little fruit—and possibly, to keep a cow. And the idea is that these workers will not only get the benefits of fresh air, open country life, and so on; they will be far more independent of the uncertainties of industrial life than any workers can possibly be under ordinary conditions.

If the factory that employs one of these men shuts down, for instance, the man doesn't starve. He stays at home, raises his own food, keeps his expenses down to a very low minimum and has, on the whole, a pretty fair sort of time.

Furthermore, while he is working he has his own source of supply just the same. The arrival of the shorter work week gives him ample time to cultivate his garden and look after his place. He does not need to spend as much on his day-to-day expenses as he did formerly. His money goes farther. He is more secure in every way.

That, at any rate, is the theory; and it looks as if the \$25,000,000 that will go into this experiment will be money very well spent.

To be sure, it may not work out as expected.

It is quite possible, for example, that it will painfully narrow the market for the regular farmer. It may lead the worker into debt and give him more worries than he already has. There are half a dozen ways in which it may prove impractical.

But the experiment is very much worth making. It may be that a big part of the solution to the modern worker's problem is to be found in some such thing as this, and it is tremendously encouraging to know that Uncle Sam is going to spend money to find out about it.

EMPLOYERS

(Continued from page 1)

Johnson gave out two documents after leaving the White House. One was a copy of the agreement every employer receives, the other a bulletin describing "the president's re-employment program."

"The agreement began with a note 'to every employer' and was signed 'Franklin D. Roosevelt,'" it read: "1. This agreement is part of a nation-wide plan to raise wages, create employment and thus increase purchasing power and restore business. That plan depends wholly on united action by all employers. For this reason I ask you, as an employer, to do your part by signing."

"2. If it turns out that the general agreement bears unfairly on any group of employers they can have that straightened out by presenting promptly their proposed code of fair competition."

The bulletin described the plan. It explained an agreement would hold until a code for the particular industry was approved, fixing wages and hours. It warned that for every trade or industry which has not submitted a code by September 1, the president will exercise his authority and order hearings to proceed on the preparation of one.

"Swift-moving changes require swift action," the bulletin said. "A rapid rise in prices and mass production is going on. Mass purchasing power must rise as fast. . . in this national emergency we can not delay broad re-employment while we wait for codes."

"Before Labor day—six weeks away—it is possible to solve the problems of re-employment through

individual agreements with the president. But to do this the country must act quickly, vigorously and boldly as one man—get together in one powerful effort—declare a truce on selfishness."

"The employers' part is to act at once and all together to submit and scrupulously comply with agreements with the president to shorten hours and raise wages and to cooperate with employees in peaceful adjustment of differences."

"The employees' part is to do their best on the job and to cooperate with N. R. A. and employers in peaceful adjustment of differences. More can be done now for workers through this cooperation of 125,000,000 people than can ever be done by discord and dispute."

"The public's part—and especially the part of women (who control the bulk of buying)—is to support all those employers and employees who do their parts to put breadwinners back to work."

"There is no force here except conscience and opinion. . . But this is not a ballyhoo campaign. . . This is a test of patriotism."

Seven-membered recovery boards are created in each of the commerce department's 24 districts to supervise the work. A nine-membered recovery board is created for every state. All members will serve without compensation and will be named by the president to represent the various classes of society.

asserted. Miss Goggin and her mother rested this morning at the home of J. W. Swiler, father of George Swiler.

Mrs. Goggin refused to make a statement. Interrupted at breakfast, she came to the porch of her brother's home, talked for a few minutes with newspaper men and returned to her breakfast.

She returned again shortly, nibbling at a doughnut in her hand, and asserted: "Nope, we won't talk."

BURLINGTON, Iowa, July 21. (P)

The telephone besieged mansion of George C. Swiler, uncle of Miss Ruth Goggin of Fort Worth, Texas, was again with activity today, but whether in preparation for the wedding of Miss Goggin of Elliott Roosevelt son of the president, no one would say.

Miss Goggin and her mother arrived here at midnight from Chicago.

"Newspapermen and publicity drove us out of Chicago," Mrs. Goggin said. "I don't know whether or when Ruth will marry Elliott. I'll tell you all about it in a statement Sunday."

"I'm here visiting my brother," Mrs. Goggin said, "and that's of no interest to the public."

The president's son, Elliott, was expected here by plane today. It was learned that he had reserved four seats on a west bound air liner

Grain Markets

Closed For Day

CHICAGO, July 21. (P)—The grain trade drew a long breath and relaxed today as trading was suspended at all the American exchanges to allow rest from the violent sessions which culminated yesterday in the worst price collapse in many years.

Following the action of the Chicago board of trade in suspending dealing for the day, Kansas City, Minneapolis, St. Louis, and Duluth were quick to fall in line and take a holiday. When trading is resumed tomorrow there will be limits on daily fluctuations.

The action taken by directors of the board of trade late last night caused little surprise. The reason given for the suspension of trading was that tired employees needed some rest, but veteran observers saw it as a means of checking the frenzy which characterized transactions late yesterday. Then wheat dropped upwards of 17 cents, rye 26 and other grains in proportion.

DRIVE AGAINST 'SNATCH RACKET' RESULTS IN MANY ARRESTS

FOUR ACCUSED OF KIDNAPING JOHN FACTOR

ILLINOIS CITIES PLAN TO DRIVE OUT ALL UNDESIRABLES

By The Associated Press.
A CONCERTED anti-kidnaping drive was producing results in various sections of the country, officials claimed today.

Captain Daniel Gilbert, chief investigator for the Cook county state attorney's office in Chicago, asserted he had reliable information that three of four members of the gang of Roger Tuohy of Chicago, arrested in Elkhorn, Wis., were involved in the recent abduction of John Factor, the speculator.

The police at Elkhorn said the prisoners were identified as Tuohy, Willie Sharkey, "Gloomy Gus" Schaeffer, and Ed McFadden. They added that Schaeffer had \$1,200 in \$10 bills in his possession. Reports at the time Factor was released were that his ransom, reputed to be from \$50,000 to \$200,000, was paid in \$10 and \$20 bills.

The suspects were returned to Chicago to be questioned about Factor's abduction as well as about the kidnaping of William Hamm Jr., St. Paul brewer.

At the same time, progress was claimed by officials in their investigation of the abduction and subsequent release of August Luer, Alton, Ill., banker, with the announcement that one of five suspects—Percy Migerald—had confessed participation in the crime. Mayors of fifteen municipalities near Alton met to formulate plans to rid their localities of undesirable persons.

Almost simultaneously with these developments came an announcement from Senator Louis Murphy of Iowa that the federal government was investigating all forms of major racketeering, and especially kidnaping, with the idea of strengthening laws to cope with the situation. Two other members of a senate subcommittee are engaged in investigations in Michigan and New York. They are Senators Vandenberg of Michigan and Copeland of New York.

Meanwhile, however, kidnapers still held young John J. O'Connell Jr., who was snatched by abductors in Albany, N. Y., July 7.

Bowers Named In Check Suit

A verdict for the Simms Oil company as to a debt incurred by S. B. Crossman was returned by a jury yesterday in 31st district court, which also found that another defendant, H. E. Saunders, was not a partner of Crossman at the time.

A new civil suit is that of Hotel Childress against J. B. Bowers, alleging that Mr. Bowers gave the hotel checks amounting to \$8,000, which have never been honored. Attorneys for the hotel are J. C. Mahan and C. C. Broughton of Childress.

MATRESS BURNS
A mattress was burned and a portion of a window sill destroyed when fire broke out at 107 South Hobart street last night. The fire department extinguished the blaze and damage was estimated at \$20. The fire department has answered six calls this month but all have been minor alarms. Total damage will not exceed \$50, it is believed.

E. R. Parr of Amarillo visited in the city today.

School Transfer Deadline Is Near

Pupils to be moved from one district to another or from one county to another must be transferred before August 1, it was announced today.

If such transfer is not made, tuition may be charged the pupil. County Supt. John B. Hessey is expected to return today from a trip to Ohio, Tennessee, and other points.

MOVIE STARS HIRE GUARDS

Kidnapings Rouse People In Movies to Action; Plan 'Scotland Yard'

HOLLYWOOD, July 21 (AP)—Last filmdom's millions attract a buzzard's swam of kidnapers, Hollywood is taking its ounce of prevention.

Fear of kidnaping, always present among the colony's 20,000 actors and

actresses, has been heightened by recent abductions in the east and midwest.

Major studios with their police are discussing formation of a "Scotland Yard" to protect their film stars and directors, and Los Angeles county and city officials are taking precautionary steps.

Sheriff Eugene Biscailuz announced the creation of a special group of secret investigators to handle kidnaping cases, and warned wealthy families to be on their guard.

R. E. Steckel, chief of police, ordered out his men to keep a finger on bootleggers who have been forced out of business by repeal of liquor

laws, and has issued orders to shoot to kill in combating kidnapers.

Hollywood's concern is not one of idle apprehension.

Two men convicted several years ago of contriving a plot to abduct one of the most famous of its film celebrities, Mary Pickford, are serving sentences of from 10 to 30 years.

Marlene Dietrich, the German actress now in Europe, had bars put on her Beverly Hills home, and later hired guards for her young daughter 24 hours a day. An armed guard accompanied them to Europe.

Ann Harding has a special guard for her daughter, Jane Bannister. Harold Lloyd, the millionaire, be-

spectacle's funster whose estate is a showplace, has a guard for his three children. So has Gloria Swanson.

One studio already is perfecting an undercover organization in its private police system to keep an ear close to underworld movements which might bode evil for its stars and executives.

So marked has become the apprehension of film personages they are accompanied by bodyguards even when they attend theater premieres and other public functions. When a star travels, studio officials frequently arrange with police departments en route to afford them special protection.

Two Executed In New Mexico Prison

SANTA FE, N. M., July 21 (AP)—New Mexico's home-made electric chair, used for the first time today, functioned perfectly in executing Tom Johnson, 43, a negro, and Santiago Garduno, 40, a Spanish American.

The executioner was R. E. Owens of the Oklahoma state prison.

Johnson was convicted of slaying Angelina Jaramillo, an 18-year-old Santa Fe girl, after she was assaulted last fall. Garduno was sen-

tenced to death for poisoning his stepson this spring. He was a resident of Truchas, N. M.

W. B. Wilson of St. Louis was in the city yesterday.

MONTGOMERY WARD

TENNESSEE REPEALISTS CONTINUE TO HOLD 10,000-VOTE LEAD

WETS EXPECT A VICTORY IN OREGON TODAY

DRY LEADERS BELIEVE THEY HAVE ONLY A FIGHTING CHANCE

NASHVILLE, Tenn., July 21. (AP)—Repealists continued to hold their advantage of approximately 10,000 as additional precincts reported today on yesterday's prohibition referendum in Tennessee.

Portland, Ore., July 21. (AP)—Oregon, which tabored liquor in 1915, votes on proposed repeal of the eighteenth amendment today. Wet leaders predicted a two to one vote for repeal. Dry organizations said they believed they had a "fighting chance."

The polls open at 8 a. m. for a popular vote on the 18th amendment and the remaining state constitutional prohibition statutes. Last November by a vote of 206,619 to 138,775, the enforcing acts of state prohibition were repealed. This, in fact, nullified the constitutional provisions which remained. Voters will elect 116 delegates to a constitutional convention on repeal of the 18th amendment.

BALBO'S AIR ARMADA SHOWN IN NEWSREEL AT LaNORA THEATER

Striking scenes of the preparations and flight of the fleet of 25 seaplanes at Orbetello, Italy, on their mass air voyage across the Atlantic under the command of General Italo Balbo, Italian air minister: spectacular views of stunting airplanes at the National Air races at Los Angeles and colorful scenes at Campobello Island, N. B., as President Roosevelt ends his vacation and attends to frankfurter roast before boarding the new cruiser Indianapolis for his trip to Washington, are to be seen in the

By the World FORGOT

SYNOPSIS: George Bancroft has hurried to Nicholas Boyd's apartment immediately after his return from Germany, a disappointed man because the operation he has undergone has not removed the scar that ruined his movie career. George tells Nicholas that he is married, but flusteredly confesses that he cares for George. Meanwhile Bernie Boyd, Nicholas' wife, has decided to attach Bishop, George's wealthy stepfather, to her string of admirers.

Chapter 41 BERNIE'S CONQUEST

BERNIE'S hand touched Bishop's coat-sleeve again. "Now, your wife, of course, is quite different. I do admire her so. You are a most fortunate man."

He moved a little, squaring his shoulders with a sort of weariness. "In the course of my life, which is a fairly long one," he said thoughtfully, "I have made the interesting discovery that all people appear to be happy and fortunate until one knows them well, and then the enigma door opens—perhaps only a trifle and the skeletons peep out. No doubt you have noticed that."

"I have, indeed, I have," Bernie murmured. She was rather superstitious, and the mention of skeletons made her shiver.

"I suppose none of us are really happy!" she murmured.

Bishop's grave mouth twisted into a smile. "You are an exceedingly observant woman," he said.

"I suppose to look at me," she said with a pathetic note, "people would say that I am perfectly happy and contented." She waited for a comment, but Bishop remained silent, and the long lashes swept upwards again, revealing her starry eyes. "But I am not. Life has been a big struggle."

"One can hardly imagine so, with a husband so famous," Bishop said. Bernie sighed. "Poor Nicholas! It's too sad. I really do not know what will become of him. Since his terrible accident he seems to have changed so much. I am afraid we shall never be able to live together again."

"You amaze me," Bishop said. "It is quite true," Bernie insisted sorrowfully. "He left America without a word to me. I was nearly beside myself."

"Naturally."

"You are so understanding," she murmured.

There was a little silence, then Bishop said, "Fortunately divorce is comparatively easy in your country."

"In my country, yes, but Nicholas is an Englishman, and it rather complicates matters."

"Otherwise, of course, you would seek your freedom," Bishop urged softly.

The pretty outlines of Bernie's mouth hardened.

"It would need a lot of consideration," she said. "There are so many complications, and I should hate people to think that I had deserted him just when he was in trouble."

"Surely nobody could think that?"

"I am afraid so. Of course I married when I was terribly young—little more than a child."

"A charming child, I am sure," Bishop said courteously. "And, that being so, don't you think it will be a thousand pities for you to remain tied to a man you no longer care for?"

"Why, do you want me to divorce him?" she asked slowly.

Bishop's weary eyes seemed to open a little, and their usual somberness was lit by a sudden flash.

"Supposing that is the reward which I hesitated to ask of you," he said.

FOR three days George managed to be almost happy; she had much confidence in Nicholas Boyd, now knew that he cared for her. She was still a little afraid to use the word "loved."

It was the fourth day after her meeting with Nicholas that Clifford Asher called at the hotel. George had not seen him for some time, and she felt a little shy as she waited for him to come up to Evelyn's sitting room.

"I thought I was never going to see you again," she said. His eyes scanned her face unsmilingly.

"I've come to say goodbye," he said. "Goodbye!" George's brown eyes dilated. "Why, where are you going?"

"I've had an offer to go to South America, my uncle's firm. It means better prospects. I go next week."

She paled a little.

war birds rise into the air on the most ambitious formation flight attempted in the history of aviation.

Other outstanding news events reported by McNamee include remarkable views at Longchamp, France, as crowds gather to watch the running of the classic Grand Prix and to see the latest styles displayed by pretty girls; amazing scenes at Sierra City, Calif., where miners are rushing a search for gold; appalling scenes of the wreckage caused by a freak 17-minute cyclone at Elgin, Ill.; exciting views at the finals of the U. S. marble championship tournament at Ocean City, N. J., and a striking exhibition of horsemanship by cowboys riding bucking broncos and wild steers at the Camas, Wash., rodeo.

Children Will Get Proceeds Of Play, Games

The Kiwanis club has booked "The Passion Play" in English to be presented at the city hall auditorium July 31 and August 1. Committees on arrangements are already at work and making every effort to complete details as soon as possible. Sam Clayman, chairman of the committee, has his members appointed for detail work. The club's share of the proceeds will go to the underprivileged children's fund.

Three baseball games to be played by the Magnolia Mags and Dandiger Roadrunners are scheduled for July 26, 27, and 30. The proceeds from the games will also go to the underprivileged children's fund.

Travis Lively made an interesting and educational talk on the N. R. A. He pointed out that the American people were working out a way to help themselves to thorough business recovery.

There will be no noon meeting of the club next Friday, but instead the meeting will be held in the form of a picnic with members and their wives and friends attending.

President McGraw appointed an "On to Enid" committee to find out how many members could attend the Kiwanis district convention at Enid, Okla., on September 2, 3, and 4. He also appointed a ladies' committee composed of Mrs. Glen Poole, Mrs. M. P. Downs, and Mrs. Howard Buckingham to assist in ticket sales to the Passion play.

Visitors today included Bill Castleberry, P. Sewell, Mr. and Mrs. Floyd Stuber of Amarillo, Hal Gruber and Mr. Spurburg.

Tire Engineers Tell Motorists How To Make Their Tires Last Longer

AKRON, Ohio, July 21.—Because the heavy summer driving season is well under way, careful motorists will be interested in knowing how to make their tires last longer.

More powerful motors, providing quicker pickup and increased speed cause tires to wear faster than present modern automobiles. At 50 miles per hour for instance the rate of tread wear is twice as fast as at 35 miles per hour. Furthermore, the demand for low, speedy cars has required manufacturers to use wheels with smaller diameters and, naturally, the smaller the wheel diameter, the more times it must revolve to the mile, according to Goodyear tire engineers.

In addition, they point out, hot dry roads cause tires to wear faster than cool damp highways. For example, driving on a dry road at temperatures around 90 degrees the rate of tread wear is more than twice as fast as at 50 degrees.

Engineers of The Goodyear Tire & Rubber company point out five things to watch to insure getting the full mileage from tires:

First—Avoid overinflation, getting too much air in tires, which makes the driving wheels bounce and spin on the road, creating fast tread wear. Avoid underinflation, not keeping enough air in tires, because this causes scuffed treads and uneven wear. Check inflation in tires each week, because at the comparatively low pressures at which tires are inflated now, a pound or two makes a great deal of difference in results.

Second—Have car wheels checked at least twice each year for misalignment and other mechanical irregularities, so tires ride the road properly.

Third—Keep brakes in proper adjustment; avoid sudden stops, slow down gradually whenever possible.

Fourth—Avoid starting the car up too rapidly and drive at a moderate rate of speed around turns.

Fifth—when you replace your tires with new ones always put in new tubes too, because the old ones, worn, stretched and wrinkled will cause pinching and chafing, resulting in leaks or blowouts.

Engineers of The Goodyear Tire & Rubber company point out five things to watch to insure getting the full mileage from tires:

"Apparel for Women"

STUDENTS AT CANYON COLLEGE MAY PAY FEES IN INSTALLMENTS

CANYON, July 21.—Not all the new deals are being planned by the United States government; the West Texas State Teachers college has proclaimed arrangements which will make it a real opportunity school for eager boys and girls who want to go to college this fall. Under the new plan even the flattest parental pocketbook may bring from its depths enough cash to help John or Mary get an education.

When the college opens this fall it will be upon the semester basis, that is, two terms of eighteen weeks each instead of three terms of twelve weeks each. But this does not mean that \$25 tuition must be produced on September 19, for the first semester will be split into two equal parts, each complete in itself and the student may pay his fees at the beginning of each half, presenting \$12.50 for tuition and \$4.00 to pay for text-book rental, athletic events, lyeum attractions, the college newspaper and hospital service; any boy or girl can attend college for nine weeks, and then continue the remainder of the year if at that time another similar amount can be raised from today's reduced monthly salary or through the egg, milk, butter or other produce checks which his family may receive.

Not stopping here, the college has also arranged so that students who want private instruction in piano, violin, voice or band instruments can get it, paying in small amounts monthly.

If the boy or girl does not have this much money he may get semi-private instruction in a group of not more than six, with weekly individual attention at the nominal cost of \$6 for 13 weeks.

Cooperative Living. College students have to eat and eating costs money. Money being scarce in Texas today, the college has converted Randall Hall, girls' dormitory, into a cooperative home where at least 80 ambitious girls can live together, doing their own work, for a charge tentatively set at \$13 per month, but which will be lowered or raised as the need arises. Moreover, \$6 of the lucky 13 can be paid in approved produce. To prevent the use of poor food stuffs, produce used in payment for board and room must be of as good quality as that demanded by the 4-H club standard. Already the word has gotten out, and bright-eyed girls and hopeful mothers are filling their pantry shelves to provide for college this fall.

A member of the college staff will live in the cooperative home, go bar-

Robbers Trained. SAN ANTONIO, July 21. (AP)—All roads leading to the Mexican border were guarded today as officers sought to apprehend two men who robbed the First State bank at Somerset of approximately \$6,000. Somerset is about 15 miles south of San Antonio.

Church Bombed. HAVANA, July 21. (AP)—The explosion of a large bomb badly damaged the sacristy of the Mercy Catholic church early to day after a night of disturbances during which 19 bombs exploded, most of them harmlessly.

gain hunting for supplies that must be purchased, plan menus, see that each girl does her share of the work and that all have the good times which are a part of college life.

Death by gunshot wound, self inflicted, was the verdict returned by Justice of the Peace W. S. Baxter last night following the death of Joseph Albert Rotter, 33. Mr. Rotter had been in ill health for some time and was under the care of a physician. He was particularly despondent yesterday, his family said.

Mr. Rotter used a 12-gauge shotgun to end his life. He placed the mouth of the gun barrel in his mouth after tying a string to the trigger and placing the string over his foot. He resided on East Crawford street.

Mr. Rotter was an ex-service man. He served 23 months in France. The body is at rest at the C. C. Malone Funeral Home. Funeral arrangements have not been made.

Mr. Rotter was survived by his wife and two daughters, Jeanette Lois and Donna Jane. Other survivors are his parents, Mr. and Mrs. J. V. Rotter, two sisters, two half-sisters, and a half-brother.

Mrs. Post Wrong, Say Fliers Wives

ST. PAUL, July 21. (AP)—Maybe Mrs. Wiley Post is under a strain, the St. Paul chapter of Loving and Loyal Wives of Aviators surmised today—but young women, they decided, should not be warned away from aviator husbands.

Apparently Mrs. Post, whose husband is now attempting a single-handed flight around the world, left too much of an opening when she advised members of her sex not to marry fliers.

"If you find yourself hopelessly in love with an aviator—so hopelessly that life without him would mean nothing—marry him," Mrs. Post had stated. "Otherwise find a husband among the salesmen, business men—anyone so long as he keeps his feet on the ground."

Replied wives of Twin Cities fliers: Mrs. M. B. Freeberg—"Oh, I don't know about that. He would be doing something else if he weren't flying."

NEW YORK, July 21. (AP)—To the cheers of an enthusiastic throng described by police as the greatest since the welcome to Colonel Charles A. Lindbergh six years ago, New York City today gave its official reception to General Italo Balbo and his 96 gallant Italian fliers.

GENERAL DEFIANT. PEIPING, China, July 21. (AP)—Gen. Feng Yu-Hsiang again defied the central government today in a telegram saying he would fight for the recovery of Manchuria "as long as one breath is left in my body."

AMERICANS LEAD. LONDON, July 21. (AP)—The American contract bridge team had increased their lead over the English to 7,740 points at tea time today when the fourteenth hand of the afternoon and the 214th of the 300-board match was concluded.

ing—and manage to be away from home just as much."

Mrs. R. J. McNowen—"That is a lot of honey. My husband is just as safe up in the air as he would be on the ground."

Mrs. Forest Kelch—"It doesn't make any difference to me."

BRITONS U. S. STAR IS CONQUERED BY 'WEAK' PLAYER

AMERICANS DAZED BY
LOSS OF FIRST
NET MATCH

ROLAND GARROS STADIUM, Auteuil, July 21. (P)—The British Davis cup tennis forces put their American rivals to rout today in the inter-zone finals with two spectacular straight-set singles victories.

Fred Perry, British No. 1, conquered Wilmer Allison, 6-1, 7-5, 6-4, after Henry W. (Bunny) Austin, second ranking Englishman, strung a sensational upset by trouncing Ellsworth Vines, the American champion, 6-1, 6-4.

The double blow came as a shocking blow to the American team, virtually crushing their high hopes of forging into the challenge round against France next week.

With the doubles match scheduled tomorrow and two concluding singles matches Sunday, the British need only one more victory to gain the challenge round, whereas the United States now needs three straight to capture the series.

The Americans had entered the inter-zone finals as 6-5 favorites, supposedly tipped to convert pitch, but they quickly became the victims of a startling upset and saw their Davis cup chances crash with a reverberating echo in the boiling hot stadium.

ROLAND GARROS STADIUM, AUTEUIL, France, July 21. (P)—Henry W. (Bunny) Austin, 26-year-old British tennis star, handed the American Davis cup forces a terrific jolt today by trouncing Ellsworth Vines, United States champion, in straight sets in the first singles match of the Davis cup inter-zone competition. The scores were 6-1, 6-1, 6-4.

Austin, the second ranking player

P. G. A. TOURNAMENT DATES
NOT LIKELY TO BE CHANGED

Squabble Continues. With Sarazen and Armour As Leading Debaters.

MILWAUKEE, July 21. (P)—The most recent flareup in the ranks of the Professional Golfers' association, occasioned by the outspoken refusal by several members of the Ryder cup squad to play in the annual title tournament at Blue Mound unless a change in dates is made, reached the conference stage today.

Gene Sarazen, Walter Hagen, Denny Shute, the new British open champion; Craig Wood, and Joe Kirkwood, started it by saying they would not play unless the tournament were shifted from August 8-13, to September.

C. B. Johnson, chairman of the Milwaukee committee which has arranged for a guarantee to underwrite prize money and expenses, yesterday countered by announcing the guarantee would be withdrawn, unless the Ryder cup stars complete, leaving the pros with the alternative of playing for shares of whatever might be taken in at the gate.

Johnson and Albert R. Gatos, business manager of the P. G. A., and R. W. Treacy, secretary of the organization, planned to confer today on what to do about the situation. Johnson said there was no possibility that the dates would be altered, and that the P. G. A. either would produce Sarazen, Shute, Hagen, Kirkwood, and Wood, or the tournament could get along without the \$8,000 guarantee.

With Sarazen as its spokesman, the Ryder cup group has made it plain that previous business arrangements, tours and exhibitions, made before the tourney dates were set, must be fulfilled regardless of the championship tournament. Sarazen's bristling comments, in which the P. G. A. management was severely criticized, has generated a long distance battle of words between the Ryder cup squad spokesmen, and Tommy Armour, who has held just about every major title.

Armour charged Sarazen and his associates with "killing the goose that lays the golden eggs." Sarazen's comeback was that the eggs had been hatched and that Armour had broken one when he let the national open title slip from his grasp at the North Shore Country club last month.

Armour today agreed that he had dropped a golden opportunity at North Shore, but said he felt bound to point out that Sarazen had matched him on the fourteenth hole at St. Andrews where the British open was played.

FLIER KILLED
SAN ANTONIO, July 21. (P)—Second Lieut. Keith A. Thompson, Kelly Field student officer, was killed last night in the vicinity of Hallettsville when his plane crashed after the motor quit while he was returning from a cross-country flight to Galveston.

The officer's body, in the cockpit of the plane, was found today by a searching party of six Kelly Field planes.

BALBO ARRIVES
NEW YORK, July 21. (P)—General Italo Balbo, Italian flying ace, and more than 30 of his flying companions, arrived here at 8:58 eastern standard time today after an overnight train trip from Washington.

Mrs. V. D. Powell of Groom was a shopper here this morning.

J. T. Barnard of Clarendon visited with friends here yesterday.

of the English team and considered the "weak" link in the singles, outplayed Vines from start to finish in one of the biggest tennis upsets of recent years. He pounded the American's backhand to pieces in the first two sets, during which he broke through Vines' service five out of seven times, and had sufficient reserve to beat back his rival's last desperate attempt to stem the tide in the third set.

Vines never looked like a champion after winning the first game of the first set. He was wild, he double-faulted frequently and seemed altogether baffled by the Briton's splendid control and keen tactics. Once he found Vines uncertain, Austin never relaxed the pressure.

The outcome stunned the Americans as well as the British gain an unexpected lead, before their No. 1 ace, Fred Perry, tackled Wilmer Allison in the second singles match.

BUFFS SMASH OUT 11 RUNS IN 3 INNINGS

GALVESTON NOSES OUT
TULSA INDIANS
4 TO 3

By BILL PARKER
Associated Press Sports Writer

Whip 'em quick and play 'em friendly few innings later is the new motto of the league leading Houston "Buffaloes" Thursday night at Oklahoma City, the Buffaloes accumulated eleven runs the first three innings. They won, 11 to 1.

Seven runs in the first, one in the second and three in the third smothered Oklahoma City's hope for victory. Ed "Caveman" Green went the route for Houston to pitch his 19th complete game this season. It was his 17th victory against five defeats. It gave him the league lead in games won, complete games pitched and second in innings pitched with 191. Houston collected 14 hits off Kennedy, King and Coleman. Greer was rather big-hearted. He gave Oklahoma City 10 hits but was stingy with runs.

The Buccaneers of Galveston flashed sweet news back to the island city with a 4 to 3 victory over Tulsa. Hutchinson, tried out by Dallas and found wanting, tolled for Galveston. He allowed eight hits against the nine bingles Galveston got off Cromer and Blvin.

Lefty Minogue, Dallas cast-off, out-pitched Joe Vance to give Fort Worth a 3 to 1 victory over the Steers. Minogue limited Dallas to five hits and received perfect support.

San Antonio and Beaumont were idle because of Wednesday's double-header which San Antonio won.

Roadrunners To Play Canadian Team on Sunday

Only one ball game will be played in Pampa Sunday afternoon. The Shamrock Irishmen will come to Pampa for their last game of the season with the Magnolia "Mags" in a Cotton-Oil league fixture. The game will be called at 3 o'clock with admission 25 cents. The Danger Roadrunners journey to Canadian Sunday afternoon to meet the fast Canadian Wildcats.

The Pampa Magnolias won their first two encounters with the Irishmen and hope to make it three in a row. However, the Irishmen are coming to Pampa with a revamped lineup in an effort to take the odd game.

Next week will be the biggest week of baseball in the city this year. The "Mags" and the Danger Roadrunners will play a three-game series and next Sunday McLean will come to Pampa for the first game of a doubleheader. Proceeds from the Magnolia-Roadrunner series will go to charity.

McLean Noses Out Denworth In Mound Duel

McLEAN July 21.—McLean won the best played game of the season here yesterday afternoon when the team defeated Denworth 3 to 1.

Harris hurled the first four innings for McLean and only one man got to first base. He was walked. Harris fanned four men. McCabe finished the game, allowing one run and six hits. Hessler was behind the bat.

Watson went the route for Denworth and allowed the McLean sluggers only eight scattered hits. He sent eight McLean batters to the b. ch by the strikeout route. Wilkins was on the receiving end.

Harris with a three-bagger and B. Bailey with a double led the McLean attack. Denworth made the first triple play of the season when Humphreys to Moore retired R. McCabe. Moore to Dowell retired "Little" McCabe, and Dowell to Wilkins to Huff to Back put out Bill Bailey.

NEW RESOLUTION
LONDON, July 21. (P)—In a last minute effort to save the principle of a truce in economic warfare, Cordell Hull, American secretary of State, introduced a new resolution in the world economic conference today under which the United States might take such action as would be necessitated by the raising of wages and shortening of hours of labor.

Mrs. Velma Robinson entered Wesley hospital for a major operation this morning.

America's Tennis 'Hope' Crushed

DAZED AMERICAN tennis fans were trying today to determine what happened to Ellsworth Vines, No. 1 tennis player of the United States, when he was routed this morning in straight sets by "Bunny" Austin, weakest English player whom Vines had trounced repeatedly. Favored to beat England in the current Davis Cup matches and rout France in the finals, America's chances were greatly diminished by today's holocaust. This excellent action picture was taken at the Wimbledon, England, matches recently.

Scout Golfing Title Of U. S. To Be Decided

Responding to the tremendous increase of golf interest within the last few years, especially among the younger generation, "Boys' Life," the Boy Scout magazine, is conducting a unique golf championship among the youth of the country.

The championship is most unusual in that it permits the selection of a real champion without bringing the contestants together in actual play. The boys engage in match play against the par of the course they are playing and send in their scores, properly attested by an adult who plays around with the contestant and an official of the club. It is not necessary for the boys to declare in advance the round of golf they will enter. Their score can be made in any regular match with others, the score itself being interpolated into match play against par later.

In the event of ties arrangements will be made to have the contestants play special matches on their respective courses during a specified time.

In order to equalize age differences, two trophies are to be awarded for age groups under fifteen and between that and eighteen.

The trophies themselves are being donated by Mr. Frank Presbrey, golf enthusiast and founder of the Father and Son association and the U. S. Seniors' Golf association.

Full details of the contests appear in the July and August issues of "Boys' Life."

Several Pampa Scouts plan to enter the tournament and they will receive full particulars from C. A. Clark, executive, at his office in the city hall.

Among the best Scout golfers in the city are Buck Talley, life Scout who lacks only two credits of being an Eagle Scout; Max Brown, star Scout, and Buck Mundy, life Scout, who lacks only two credits of being an Eagle Scout. There are probably other local Scouts who would like to compete in one of the divisions. They should see Mr. Clark immediately.

Moreland Entered In Amateur Meet

NEW YORK, July 21. (P)—Approximately 500 players, including virtually every leading simon-pure in the land, have entered the national amateur golf championship, to be decided at the Kenwood club, Cincinnati, starting September 11.

Thirty-six hole qualifying rounds in 22 districts August 8 will cut the starting field at Cincinnati to 150 including C. Ross Somerville, Canadian holder of the title who is exempt from the qualifying test.

Other leading entrants include Johnny Goodman of Omaha, American open champion; Francis Ouimet of Boston, and Chick Evans of Chicago, former winners of the title; Walter Emery of Oklahoma, 1933 intercollegiate champion; John F. Fischer, George T. Dunlap Jr., Jack Westland, Gus Moreland, Don Moe, and Dr. Oscar F. Willing.

HERMAN HITS THREE HOMERS AND A SINGLE

CUBS ONLY TWO AND A
HALF GAMES BEHIND
LEADING GIANTS

By HUGH S. FULLERTON, JR.
Associated Press Sports Writer

A prodigious burst of hitting by Babe Herman, benched only last Saturday for hitting weakness, again has pointed out that the Chicago Cubs may be the team the other four National league pennant contenders will have to beat to win the flag.

Herman got his chance yesterday because Riggs Stephenson was laid up with a cold, and wallowed three home runs and a single and drove in eight runs in a 10 to 1 triumph over the Phillies. Kiki Cuyler contributed a triple, double and single, and Lyle (Bud) Pincus pitched effectively in the pinches to become the 18th Chicago pitcher to go the route in the last 23 games.

The Cubs have won 17 of their 23 contests since June 28 and are only 2½ games behind the New York Giants, who dropped a 6-5 decision to the Pittsburgh Pirates yesterday. Pittsburgh remained only a half game behind Chicago.

The Boston Braves drew up to a spot only a game and a half behind the fourth place St. Louis club by beating the Cardinals 3 to 2 when a homer by Pinky Whitney and a triple by Rabbit Maranville brought in the winning runs in the eighth.

The American league duel between the New York Yankees and Washington Senators remained in status quo when both leaders dropped tough games to second division clubs.

Mel Harder of Cleveland limited the Yanks to three hits to give the Indians a 3-1 triumph and Tommy Bridges of Detroit beat Alvin Crowder of Washington in a 1 to 0 flinging duel as each team got only four hits.

The Cincinnati Reds drew up a half game behind Brooklyn and Philadelphia, which are virtually tied for sixth place in the National league by defeating the Dodgers 1 to 0.

More good pitching cropped up in the American league as George Pipgras limited the Chicago White Sox to five blows while the Boston Red Sox won 5-0. Lefty Grove of Philadelphia and Roland Stiles of St. Louis yielded four runs apiece in the first inning, then settled down for a fine mound duel that ended in the tenth when Pinky Higgins singled with the bases full.

GOLFERS CROWD GRAY COUNTY COURSE TO FINISH 54 HOLES

Scores Checked Daily; All
Holes Played Must Be
Checked on Cards.

Waiting until nearly the last minute, Pampa golfers started finishing play in the Gray County club handicap tournament yesterday, when the course was dotted with players from early morning until dark. Entrants must play 54 holes by Sunday night to be eligible to compete for prizes.

Several good scores were registered during play yesterday, but the 54-hole route is a long one and anything can happen. The "dub" golfer usually wins the prize because he usually shoots one good round during the distance while the good golfer has to stay steady and one disastrous round ruins his chances.

The tournament committee meets daily to check the scores and decide the tournament scores of players completing their 54 holes. Several players have been playing 18 or 27 holes and just turning in their best scores for 9 or 18 holes. The tournament committee may decide to disqualify them. Before starting a round of tournament play the entrant should receive a card from Buster Kaufman, club pro, and every hole played must count.

The committee urges as many as possible to finish their 54 holes before Sunday so that the course will not be crowded.

Miss Madalene Pursley of Miami visited friends here last night.

D. Harvey was admitted to Pampa hospital for treatment yesterday.

ed and gave the Athletics a 6 to 5 victory.

Helen Says U. S. Will Win Davis Cup Net Trophy

NEW YORK, July 21. (P)—Whether the United States or England wins the interzone Davis cup finals starting at Auteuil today, Helen Wills Moody thinks France is doomed to lose the international tennis trophy in the challenge round next week.

"Fred Perry is playing splendid tennis and will give both Ellsworth Vines and Wilmer Allison hard matches," the woman's champion said on her arrival from England yesterday, "but unless Jean Borotra plays singles, which he may do, France scarcely seems able to hold the cup. Henri Cochet is not playing as well this year as he did last." Mrs. Moody's own immediate tennis plans will take her into the Wightman cup matches Aug. 4 and 5 and the national championships later in that month. She will be seeking her eighth American title. She also may play in the Madison club invitation tournament at East Hampton late this month.

BETTER LATE THAN NEVER

BROWNSVILLE, Pa., July 21. (P)—A Morrow, manager of a grocery, approached a customer with that what-can-I-do-for-you look. The customer handed him a \$10 bill saying:

"One of your clerks gave me \$10 too much in 1918 when I bought a sack of flour."

Then he walked out.

ELEVEN WILL LEAVE THIS WEEK-END FOR STATE SHORT COURSE

COUNTY SENDS TWO ENTRANTS FOR CONTESTS

PARTY WILL SPEND A WEEK AT COLLEGE STATION

IN THE van of Gray county's delegation of 11 to the annual state short course, Miss Ruby Adams, home demonstration agent, Mrs. O. Pinnell and daughter, Opal, of Hopkins, will leave this evening for College Station.

Mrs. G. G. Frasier of Kingsmill, Fred Kendrick of Pampa, M. C. Doss of Bell, W. D. Champion of the Busy Bee club, C. A. Tignor of Priscilla, and J. C. Browning of Merit will leave by train Sunday, when Mr. and Mrs. Clyde Carruth will drive down.

The short course program will begin Monday, with a full five days of demonstrations, talks, and recreational features. State contests will end during the period.

Women Seek Honors
Two entrants in contests are going from this county. Mrs. Carruth will enter the state wardrobe contest in class one, and Mrs. Tignor in class two. Mrs. Tignor was second place winner in class one last year.

En route to College Station Mrs. Pinnell and daughter will visit in Dallas, while Miss Adams will make a brief stop with her mother in Denton. Her annual vacation will begin at the close of the short course, and she will remain in the northeast part of the state when other Gray county visitors return the last of next week.

County Farm Agent Ralph Thomas had planned to attend the short course, but received instructions this week to remain here to supervise the cotton acreage reduction program.

THAT BET'S SETTLED
SAN DIEGO, Cal. (AP)—John Odom, wharfinger at Fisherman's pier, walked the plank because Arkansas did not go west 3 to 1. He had bet Albert D. Olsen, who like Odom come from Arkansas, that it would.

Odom, fully clothed and with a huge ball marked "350 lbs" tied to his neck, walked off a ten foot plank and splashed to the water 30 feet below the steamer dock. The weight turned out to be an inflated rubber ball. But Olsen agreed that a tuna clipped by pumping its bilges on the spot, evened things up satisfactorily.

R. C. Bailey entered Pampa hospital last night for treatment.

NOELETTE GIRL GIVEN BIRTHDAY PARTY AT HOME

Personal Mention Of Residents Made In News Letter

NOELETTE, July 21.—Mrs. O. L. Satterfield invited little friends of her daughter, Virginia Lee, to help celebrate her eighth birthday recently.

After games were played Mr. Satterfield assisted by Mr. Glen Termant in serving lemonade and cake to the following guests: Bernice McCollem, Betty Mary Jo, and Agnes Ann Hickman, Katherine Watt, Norma Dewey, Janie May, Buddy, and Marie Campbell.

Mrs. Albert Bartz and children, Roy and Connie Jo, and Mrs. R. A. Simmons were recent visitors in LeFors.

Mrs. W. J. Bartz and children of LeFors spent Thursday in the home of Mr. and Mrs. Albert Bartz.

Return from Bedside
Mrs. J. E. Carlson and son, Milo, have returned after a visit with Mrs. Carlson's mother, Mrs. Alse, an, her sister, who has been seriously ill but is reported improving.

E. W. Larwood has returned to his home in Kansas after a few days' visit with his uncle, A. H. Brewer, and family.

Mrs. E. H. Canady has returned to her home in Sharon, Okla., after a visit in the home of her son, G. L. Canady.

Mr. and Mrs. Henry Lamb and daughter, Frances, have returned after visiting two weeks with relatives in Sulphur Springs.

Mr. and Mrs. George Demoss and children, Dorothy and June, left Saturday to visit relatives in Petrolia and Albany two weeks.

Tulsa Visitor
J. A. Adleman of Tulsa is visiting in the home of Mr. and Mrs. Gus Shofner. Mr. Adleman is Mrs. Shofner's father.

Mr. and Mrs. Joe Eversole and children, Lilly and Ted, of Borger were recent visitors in the home of Mr. and Mrs. O. L. Satterfield.

Mr. and Mrs. Glenn Chambers and daughter, Mary Jane, accompanied by Misses Athine and Irene Brewer, left Sunday for a visit with relatives in Tulsa.

Mr. and Mrs. Joe Marselle and

Film Romance Is Reality

A MOVIE romance in which George O'Brien, cowboy actor, and Marguerite Churchill, screen favorite, played the part of lovers in a western drama developed into a real romance, it was disclosed the other day when they filed notice of intention to wed at Santa Barbara, Calif. Here are recent pictures of the two.

Picnic Given For McLean B. Y. P. U. By Its Sponsor

McLEAN, July 21.—Mrs. R. L. Appling, sponsor, was hostess to the Senior B. Y. P. U. members Wednesday evening with a picnic on Skillet creek.

The following were present: Misses Elizabeth Wilkerson, Bonnie Bell, Bobbe Appling, Odessa Kunkel, Naomi Hunt, Eunice Stratton, Ethel Whitehead, Oleta Holloway, Sybil Young, Margaret Glass, Martilene Riddle, Adda Bee Mantooth, Mr. and Mrs. Ralph Caldwell, Mr. and Mrs. John Cooper, Messrs Boyd Meador, Obie Kunkel, Clyde Andrews, Durwood Riddel, and Mrs. Appling.

Mr. and Mrs. S. D. Shelbourn and Mr. and Mrs. Chas. Cooke left Thursday afternoon for a fishing trip to Creed, Colorado.

John Carpenter and Jim Boyles made a business trip to Amarillo Thursday.

Editor and Mrs. T. A. Landers left

Couple Honored On Anniversary

Mr. and Mrs. R. W. Lane were honored on their twentieth wedding anniversary last evening. When a surprise party was given for them by their daughter, Miss Josephine Lane.

Games of forty-two were enjoyed during the evening, and delicious refreshments were served. Those present were the honorees and Mr. and Mrs. W. M. Lane, Mr. and Mrs. C. V. Lane, Mr. and Mrs. Earl Lane.

Mrs. J. T. Manson of LeFors shopped in the city yesterday afternoon.

for Oklahoma City Thursday afternoon to visit relatives.

Mrs. Witt Springer and Miss Viola Smith of the City Drug Store were in Amarillo Thursday.

Royal Service Program.
Mrs. Bob Thomas was hostess to the Woman's Missionary Union of the Baptist church Thursday afternoon. The Royal Service Program on "Africa Waiting for the Word" was given by circle 2, with Mrs. Ben T. Jackson as leader.

Those present besides the hostess and program leader were: Mesdames Claud Hunt, Reep Landers, Geo. Colebank, John Cooper, Ralph Caldwell, Harvey Grigsby, Ruel Smith, Tom Holloway, Lee Wilson, O. E. Lockeridge, Cecil G. Goff, J. W. Burroughs, Ernest Abbott, Norman Johnston and sister, Miss Jessie Hazel Harris of Jester, Oklahoma.

Misses Elbie and Jessie Hazel Harris of Jester, Okla., are visiting their sisters, Mrs. Norman Johnston and Mrs. Frank Howard.

Mr. and Mrs. Murray Boston and little son, Billie, returned Thursday from Whitesboro, where they visited Mr. Boston's parents.

CHAUTAUQUA TO BE REVIVED BY VAWTER PARTY

TONIGHT'S PROGRAM IS OF TYPE POPULAR DECADE AGO

AN old-fashioned chautauqua program, the kind older residents remember with pleasure as feature summer events of a decade ago, will be presented by the Vawter party at the First Christian tabernacle this evening.

Music lovers of the vicinity are invited to hear this special program, which will begin at 8 o'clock. It will include instrumental selections on the Notre Dame chimes, rosewood marimba, saxophone and piano.

Program Varied
There will be patriotic numbers, standard selections, Irish songs and some of the better grade of popular numbers played.

Mrs. Vawter will sing three groups of songs. Her first group will consist of Gypsy songs sung in gypsy costume. Her second group will include two numbers especially for the children: "Little Orphan Annie" and "The Big Brown Bear." Her third group will be sung in the old time southern costume and will include the old southern favorites and one number in which she and Dr. Vawter appear together dressed in the costume of long ago.

Billy Reeves will sing a group of songs and will whistle. Howard House will appear twice on the program. His first offering will be a group of pictures including trick pictures, cartoons, rag pictures, transformations mixed with magic. His second will be a group of musical numbers played in the Scotch Highland Kilties.

During the intermission a group of pictures of local people will be shown on the screen.

Tomorrow night will be the regular evangelistic meeting with recitals on the chimes, marimba and piano, songs by Mrs. Vawter and other features of interest.

Prexy's Daughter Will Wed Former A. & M. Officer

COLLEGE STATION, Tex., July 21. (AP)—Announcement has been made here of the engagement and approaching marriage of Miss Little Mae Walton, daughter of President and Mrs. T. O. Walton, of Texas A. & M. college, to Frank Edward Bortle, of Longview. The wedding will take place early in September.

Miss Walton is a graduate of Baylor College for Women, Belton, having received the bachelor of arts degree after three years and one term of study. In school she was a member of the Royal Academic Literary society. She also did graduate work at Texas A. & M. college during the summer sessions here.

Mr. Bortle is a graduate of Texas A. & M., having received his bachelor of science degree in electrical engineering in 1931 and the master of science degree with electrical engineering as a major subject in 1932. During his senior year at A. & M. he was colonel and commanding officer of the college cadet corps. He holds the commission of second lieutenant in the

Before the Mast

WORKING on a square-rigger beats typing in a city office any time! So Miss Betty Jacobsen, 19-year-old Brooklyn, N. Y., typist, declared when, as pictured here, she arrived in New York after serving as an apprentice before the mast of the four-masted bark Parma on a 15,000-mile voyage around Cape Horn. This was during the windjammer grain races from Australia to England.

BUSINESS MEN'S BIBLE CLASS
Meeting at City Hall, 9:45 a. m. A splendid program was arranged by the president last Sunday. We continue the intensely interesting lesson on the return of the Jews from 70 years of captivity. Another interesting program and fellowship is offered.

corps of engineers reserve. For the past year he has been an instructor in mathematics at the Consolidated high school here.

CHURCHES

CHRISTIAN SCIENCE CHURCH

Room 2, First Nat'l Bank Building. "Truth" is the subject of the lesson-lesson in all Churches of Christ. Scientist, Sunday, July 23.

The golden text is from Psalms 100: "The Lord is good; his mercy is everlasting; and his truth endureth to all generations."

Passages comprising the lesson-lesson include the following from Zechariah 8: "These are the things that ye shall do: Speak ye every man the truth to his neighbor; execute the judgment of truth and peace in your gates."

The lesson-lesson also includes the following from the citations from the Christian Science textbook, "Science and Health, with Key to the Scriptures," by Mary Baker Eddy: "The best sermon ever preached is Truth practiced and demonstrated by the destruction of sin, sickness, and death."

"We cannot build safely on false foundations. Truth makes a new creature, in whom old things pass away and 'all things are become new.' Passions, selfishness, false appetites, hatred, fear, all sensuality, yield to spirituality, and the superabundance of being is on the side of God."

We cannot fill vessels already full. They must first be emptied. The way to extract error from mortal mind is to pour in truth through flood-tides of love. Christian perfection is won on no other basis" (p. 201).

Sunday, 11 a. m. Sunday school, 9:30 a. m. Wednesday, 8 p. m.

BLOW-OUTS never give WARNING!

Play safe—Prevent them with this 3 Times Safer Tire

HE would have laughed if you had told him he might have a blow-out. Weren't his tires practically new? Hadn't he checked them carefully only an hour ago? Why, a blow-out simply couldn't happen in those tires.

But it did happen. Like a bolt out of the blue... BANG! The right front tire flattened... the rim hit the road... And a terrible drag set in... Like some unseen monster pulling his car off the highway.

What causes blow-outs

It's the terrific heat generated inside the tire by today's high speeds that causes blow-outs. Rubber and fabric separate. A blister forms... inside the tire where you can't see it... and grows... bigger and bigger... until BANG! A blow-out! And you're headed for trouble... or worse!

But now Goodrich has developed the amazing Life-Saver Golden Fly. This new invention—an exclusive feature of the new Goodrich Silvertown—resists heat—prevents rubber and fabric from separating. Thus blisters don't form inside the tire... the cause of blow-outs is eliminated.

The tread, too, is safer from skidding. Its squeegee drying action gives your car extra road grip and reduces danger of skidding to a minimum.

Isn't this the type of tire you want for your car? Especially since the new Goodrich Silvertown costs no more than standard tires.

Buy Now! WHILE PRICES ARE STILL LOW
No extra charge for Life-Saver GOLDEN FLY
GOODRICH SILVERTOWN BLOW-OUT PROTECTION IS FREE

FIFTH AVENUE FASHIONS

By ELLEN WORTH
Black and White and Chic All Over

Linen is among those present wherever there is fun going on these days. And black-and-white linen is the latest proposition in plaid—very charming, very gay and very good for your spirits! Here it is, cooled off at the top with a yoke and sleeves of plain white linen. This white-at-the-top trick has a wonderful effect on your complexion and it broadens your shoulders as nothing else can do. Don't overlook the stem-like skirt and the wide belt of the plain material—they're important, too.

Wear it with black accessories for town, with white for country. Add a dash of red costume jewelry one day, a bunch of purple violets the next. It's a frock that just begs you to change your mind. If you have never sewed before you'll want to make this because it is so easy. And if you are an experienced dressmaker you'll want to make it because it is so smart. It requires almost no material to make as the pattern envelope shows.

Pattern No. 5216 is designed for sizes 14, 16, 18, 20 years, 32, 34, 36, 38, 40, 42 bust.

PLOWED-UP COTTON STALKS ARE RICHER IN FOOD THAN ALFALFA

STATE COLLEGE, Miss., July 21 (AP)—A hundred million dollars in added wealth for cotton farmers is seen as a potentiality of the new method of curing the cotton stalks they have agreed to destroy under the government plan.

Cotton stalk hay is the means to attain the wealth, says J. C. Holton, commissioner of agriculture in Mississippi, who based his proposal on analyses made last week by Dr. W. P. Hand, state chemist, which show cotton stalks at the present stage to be richer in crude protein and fat than alfalfa.

If all the cotton to be removed from cultivation in Mississippi should be turned into hay, Holton estimates farmers of that state would profit to the extent of \$10,000,000 and the entire cotton belt's potential value from this source, he says,

would be about ten times that amount.

Dr. Hand's analysis was made of cotton grown in the vicinity of state college. His report on the content of the stalks shows:

Water 10 per cent; ash 10.57; crude protein 17.31; fat 4.0; crude fiber 15.49; nitrogen free extract 42.63.

Alfalfa hay, Dr. Hand says, compares as follows:

Water 8.6 per cent; ash 8.6; crude protein 14.9; fat 2.3; crude fiber 23.3; nitrogen free extract 37.3.

Commissioner Holton points out that the palatability of cotton hay is, of course, untested except in the prevailing custom of permitting farm livestock to devour cotton leaves and twigs after picking is done.

He says the yield of cured cotton stalk hay is subject to conjecture.

Taking soy beans as a basis, he estimates that an acre of waist-high cotton should yield not less than a ton of hay.

FIRST PRESBYTERIAN CHURCH
The services Sunday at the Presbyterian church.
Sunday school at 10 a. m.
Sermon, "What a Wonderful Change," 11 a. m.
Evening, "Seasonal Christians," 8 p. m.

We cordially invite you to worship with us this Sunday and to make this your church home.

CALF SALE ANNOUNCED
FORT DAVIS, July 21. (AP)—Complete plans have been outlined for the Highland Fair association registered cattle and feeder sale to be held during the fair at Marfa, Oct.

HOME PARTY

(Continued from Page 6)

Mrs. Bert Walker of Stockton, Kan., are visiting in the home of Mr. and Mrs. V. J. Castka.

W. H. Brewer of Keifer, Okla., is visiting in the home of his uncle, A. H. Brewer, and family.

Picnic With Friends
Mr. and Mrs. R. E. Showers and son, Junior, attended a picnic with friends Sunday at Nature's Park.

Mr. and Mrs. E. A. Sellars and children of Tulsa and Mr. and Mrs. A. Buzzell have returned from a vacation trip to New Mexico.

Mr. and Mrs. W. E. Estes and children have returned from Wichita Falls, where they were called

due to the serious illness of Mrs. Estes' father, Mr. Patrick.

Mr. and Mrs. Joe Randle and daughter, Monty Jo, Mr. and Mrs. Ellis High and children, and Mrs. High's mother, Mrs. Sturdevant, left Saturday to visit two weeks with relatives in Oklahoma and Missouri.

Mr. and Mrs. L. A. Snodgrass and children, Jack and Tommie Jean, are visiting relatives in Fort Worth.

Letha, small daughter of Mr. and Mrs. John Rush, who has been seriously ill with an ear infection, is reported much better.

The Rev. Floyd W. Lee and family have returned to their home in Warwick, Okla., after a visit with Mr. and Mrs. Don Dewey.

Mrs. W. J. Searle of Merimac, Okla., visited friends here several days this week.

Texas company employees and their families enjoyed a picnic at LeFors Wednesday.

'HOOVERCRATS' WHO BOLTED THE PARTY IN 1928 WILL BE GIVEN 'AXE' SAYS TEXAS COMMITTEE

BRANCH BANKS PERMITTED IN DOZEN STATES

NATIONAL BANKS CAN HAVE BRANCHES WITHIN STATE

By NATHAN ROBERTSON
WASHINGTON, July 21 (AP)—American banking rounds another historic turn with enactment of the branch banking section of the Glass Steagall law.

Under it, national banks located in states which let their state banks have branches now can establish state-wide branch banking systems.

Argued for months in congress, the issue involved has been a subject for dispute since early days of the republic.

It reaches to whether a country-wide chain system has more to offer in the public and national good than banking only in independent units.

Some banking authorities believe this new law is the first step toward a national system such as in Canada and England, where there are a few big chains instead of innumerable individual banks.

Indeed, there is talk already of the administration's planning even more absolute legislation toward that end for the congress to meet in January.

Opponents of branch banking have contended it would centralize the nation's banking power and drive individual small bankers out of business.

Friends of the proposal argue that it would strengthen the banking system to have small rural banks tied up to big city institutions, benefiting from their broader experience, greater resources and wider interests.

Branch banking beyond state lines is not permitted, however, in the Glass-Steagall law. A bank in San Francisco could establish branches in Los Angeles, Sacramento or San Diego but not in Portland, Oregon, or Denver, Colorado.

What effect such branch banking will have on the average depositor or borrower is a matter of dispute.

Some hold it will be more difficult to obtain credit, because the businessman will have to deal with a manager responsible to a big out of town bank instead of with a local banker who knows his reputation and his ability.

Friends of branch banking say it will provide greater safety for the depositor.

They contended that at present, a bank in the wheat area is entirely dependent upon that crop and if that fails the bank is in trouble.

Under branch banking, they say, that bank will be supported temporarily by associates in other sections where wheat is not a dominant business, and then be ready to return the aid at some other time.

National banks will be permitted to have branches in about a dozen states. Which these will be is a matter of interpreting the law and must be finally determined by the comptroller of the currency.

It is now believed, however, that Arizona, California, Delaware, Maryland, North Carolina, Rhode Island, South Carolina, Vermont, Virginia, Oregon and Washington will be included.

Other states may change their laws later to qualify.

Bernard Boyd received treatment at Worley hospital yesterday for a head injury.

Born to Mr. and Mrs. J. M. Cole at Worley hospital today, a daughter.

AUSTIN, July 21 (AP)—Maury Hughes of Dallas, chairman of the Texas democratic executive committee, is a firm believer in party regularity and discipline but it is said he has not found the duty of applying the party yardstick of regularity a congenial task.

Shortly after the Lubbock convention, the executive committee passed a resolution directing that only those who had not bolted the 1928 presidential ticket and remained faithful to party candidates in the 1932 presidential and state elections should receive any of the party's patronage.

Hughes was directed by the committee to carry out the resolution and to protest to the appointing powers the nomination of anyone whose fealty was questioned.

It appears there were many protests filed by committeemen against candidates for the numerous public offices. They caused, Hughes said, no end of bother and trouble and required several trips to Washington to confer with high party officials.

Also it proved embarrassing at times he said, because protests were lodged against some of Hughes' friends and he was required to present these along with others.

Hughes termed the task "odious" and said that he would like to have a special committee appointed to handle the executive committee membership to aid him in handling the protests.

The wish was granted immediately. Appointed to the "bolter" committee were Dr. J. H. McLean of Fort Worth, L. J. Sulak of La Grange and W. I. Hooks of Tascas.

Dr. McLean, who was made chairman, remarked: "There's a democratic office holder in North Texas who is going to be glad when he hears I have been named to this committee." He indicated he would take delight in striking this person from the list of prospective appointees.

"It may be distasteful at times, but I believe I'll enjoy giving the axe to some of the political turncoats," commented Sulak.

"You can put me on that committee," said Hooks. "I think I'll enjoy the work."

MARGIN STILL SAFE
NASHVILLE, Tenn., July 21 (AP)—Returns today from 1,990 precincts out of 2,232 precincts in yesterday's referendum in Tennessee on the eighteenth amendment gave: For repeal 123,013; against repeal 113,561, a margin of 9,452 against prohibition.

Mrs. J. H. Dalton of Roxana was a shopper here yesterday.

Mrs. Bill Smith of McLean visited friends here today.

Mrs. L. S. Briggs of McLean was a Pampa shopper yesterday.

GOWN FASHIONED OF MOUSSELINE DE SOIE

TENINO, WASHINGTON, GOT ITS NAME FROM AN OLD LOGGING LOCOMOTIVE, "NO. 1090," WHICH OPERATED FOR MANY YEARS IN THAT DISTRICT.

THE GREYBEARD PLANT, OF BRAZIL, NOT ONLY GROWS ON TREES, BUT ON TELEGRAPH WIRES AS WELL. BIRDS USE IT FOR NEST-MAKING, AND THE PLANT CONTINUES TO GROW, MAKING A LIVING FABRIC OF THE NEST.

THE GREYBEARD, known in Brazil as Barba de velho, has no roots, and its leaves are so small that they appear to be mere scales. The plant absorbs moisture from the air, and does not harm the object on which it grows, and is not a parasite. At certain times of the year the plant throws out tiny flowers.

San Angelo Man Will Sail With Admiral Byrd

SAN ANGELO, July 21 (AP)—Captain Alan Innes Taylor, who resided in San Angelo for some time and became widely known throughout this section, will sail Sept. 1 with Admiral Richard E. Byrd to the Antarctic. It has been learned, Captain Taylor will be in charge of the dogs as he was on the last expedition.

The trip is to be one of purely scientific nature, the chief purpose being to find out what resources are in the frozen area. Once that region was tropical, Captain Taylor said, and he believes great deposits of coal will be found.

T. S. James of LeFors visited in Pampa yesterday.

Mrs. L. B. Wright of Kingsmill visited friends here last night.

C. L. Carruth of Miami visited friends here today.

RECAPTURE CLAUSE WAS ONE OF UNWORKABLE LAWS OF COUNTRY

WASHINGTON, July 21 (AP)—One of the "unworkable" laws of the nation went into the limbo of repeal when congress wiped the "recapture clause" from the transportation act.

This relieved the railroads of the possibility of some day having to find \$378,000,000 or more to pay in to the treasury—funds that never could be used for government purposes, but which would have to be kept in trust for loans to needy carriers.

Back in 1920, when the railroads were almost as hard pressed financially as in the last two years, a group of security holders conceived the idea of a compulsory recapture fund in the United States treasury from which roads in monetary difficulties could borrow.

The plan, backed by the late Senator Robert M. LaFollette, father of the present senator from Wisconsin, was written into the Esch-Cummings railroad bill.

It provided for valuation of the railroads for rate-making purposes any payment to the government of one-half of all income above an earning of six per cent. on that value, the money so taken to be used for loans to weak roads.

The interstate commerce commission was given the task of enforcing the law, which from the outset was a center of contention.

About 100 short line railroads paid into the treasury slightly more than \$10,000,000, most of it under protest.

A half a dozen very small lines paid small sums without protest.

This fund, with interest from its investment by the treasury approximately \$13,500,000 and is being returned to the roads.

J. W. Hartin of Roxana visited in the city last night.

W. J. Akers of Skellytown was a Pampa visitor today.

Gay Lawn Dance Entertains Crowd

Unique among the numerous outdoor social events of the summer was a dance at which Miss Mary Ann Moyer was hostess Wednesday evening at the home of her parents, Mr. and Mrs. J. H. Moyer.

A pavilion had been built for the dancers on the lawn, and about 25 couples enjoyed the cool evening to the music of a colored orchestra.

The young hostess served punch and cakes to refresh the guests.

BOND ISSUE URGED
AUSTIN, July 21 (AP)—A group of county judges, city officials and others were preparing today to launch a campaign in favor of issuance of \$20,000,000 in Texas state bonds, proceeds of which would be used for unemployment relief.

A proposal to amend the Texas constitution to permit issuance of the bonds will be submitted to the electorate in a special election on August 26.

Mrs. H. C. Dittberner of Pampa handled shopping in the city yesterday.

Mrs. L. J. Atkinson of LeFors was among the shoppers here this morning.

FERGUSON SPLIT WITH SEVERAL LONG-TIME FRIENDS AT RECENT ANTI-PROHIBITION CONVENTION

AUSTIN, July 21 (P)—Some long-time, strong political friendships have been snapped over anti-prohibition in Texas recently. The element against prohibition, eager to have the eighteenth amendment removed from the constitution, certainly stirred plenty of trouble for itself.

There was the case of former Governor James E. Ferguson and Jno. M. Mathis. For thirty-five years they had been warm political friends. They always had stood together and always agreed on principles and policies.

Along came Texas' campaign to repeal the eighteenth amendment and the two men every one expected to stand shoulder to shoulder on the firing line of the repealists are widely separated.

Mathis was put forward for chairman of the anti-prohibition state convention. Ferguson's friends

wanted the former governor to hold that office. Both became candidates. Mathis and Ferguson could not agree on that detail. The parting of the political ways came to two old war-horses and cronies.

Mathis did not permit his candidacy to go through but he opposed Ferguson to the end. The upshot of it was neither Ferguson nor Mathis won the place. Ferguson's next best friend, Charles C. McDonald of Wichita Falls, received the assignment.

Before McDonald was put forward to bring the warring factions together behind the move to repeal there were some bitter things uttered.

Congressman Joseph Weldon Bailey of Dallas, a long-time friend of Ferguson, was against Ferguson for chairman. He had to tell the convention why, and Ferguson promptly gave the convention his

This Wife Killed Husband's Ballot

BRISCOE, Ark., July 21 (P)—The wife of one of the election judges in Upper Hill township of Prairie county cast the only vote there against repeal of the eighteenth amendment today.

With all votes in the township accounted for at 10:30 a. m., the officials announced the result as 44 for repeal and one again.

"I couldn't do anything with her," said B. C. Purvis, the judge, who himself voted for repeal.

It was the first precinct in the state to report in today's repeal referendum.

T. M. Almond of Dallas was here on business Saturday.

estimation of Bailey, which was not the high regard he held only a few days before for the son of the former United States senator.

While the anti-prohibitionists were fighting among themselves, the prohibitionists were in perfect step, at peace with the world—except the anti-prohibitionists, who in spite of internal troubles were a unit about this repeal proposition.

Sister MARY'S KITCHEN

By SISTER MARY
NEA Service Writer

The man or woman who has spent the day in an office, the woman who has spent a good share of her day in the kitchen or anyone who has been indoors all day will find infinite pleasure in meals served in the fresh air. Not only will appetites be whetted but nerves will relax and digestion be aided.

When meals must be served away from the dining-room plan to reduce the number of dishes to a minimum. A one-dish combination of some sort with a salad and dessert simplifies both serving and dish-washing. An attractive bowl of salad makes it possible for each member to serve himself on his plate. If you use compartment plates, the salad plate is quite unnecessary.

Casserole Dishes Are Handy
Casserole dishes combining meat and vegetables, fish chowders and meat and vegetable pies are splendid main dishes for fresh air dinners. Dishes of this type keep hot longer than steaks and chops and preclude the serving of extra vegetable dishes.

Bread and butter sometimes presents a problem in porch and garden meals if served separately. Bread and butter sandwiches or buttered hot rolls will be found a most satisfactory solution to this because they combine two foods in one.

Planked corned beef hash is an economical one-piece dish that is easy to make and appetizing for hot weather. If you use the canned corned beef the dish is extremely simple to prepare and takes very little time.

Tomorrow's Menu
BREAKFAST: Chilled melon, scrambled eggs with bacon curls, whole wheat and raisin muffins, milk, coffee.

LUNCHEON: Mixed vegetable salad, toasted muffins, apple snow, iced chocolate.

DINNER: Planked corned beef hash, rye bread and butter sand-

NEW HIGHWAY BUILDING, COSTING \$450,000, OCCUPIED AT AUSTIN

AUSTIN, July 21 (P)—The Texas highway department, after weeks of delay, has moved into its new building.

For many years the department's Austin headquarters were scattered over the city. The executive offices were in the state office building; the state highway patrol and specifications and design division were housed in a privately owned building. Now all are under one roof and have spacious quarters.

The highway building is a pleasing addition to the Austin skyline and to the group of state buildings. It lacks, however, the austerity of the massive red granite structure that is the main capitol, being modernistic in design and finish.

The building sits on an eminence and presents an imposing sight to the traveler entering Austin from the south.

Occupancy of the building was set for April, but delays in finishing the interior caused the postponement.

It was erected at a cost of approximately \$450,000.

The board of water engineers, the reclamation department and the United States geologic survey also will be given offices in the building. The state board of health and the industrial accident board will occupy the quarters vacated by the highway department in the state office building. These departments have been using rooms in the main capitol set aside for committees of the legislature.

The main entrance to the highway building displays a plaque explaining the idea that "westward is the course of empire." But the plaque shows the course of empire to be going east.

It was a technical mistake that displeased commissioner W. R. Ely of Abilene.

ONLY \$45,000 QUALIFIED TO VOTE AUG. 26

AUSTIN, July 21 (P)—Thousands of Texans have been disqualified and will be unable to cast ballots in the August 26 election on the controversial prohibition question because they failed to pay their poll taxes.

Figures compiled with the aid of the state comptroller's department indicate the total will be one million in years notwithstanding that questions to be decided have usually brought more voters to the polls than any other issue.

At the Aug. 26 election, Texas will vote on amendment of the state constitution to permit the manufacture and sale of 3.2 per cent beer and on ratification of repeal of the eighteenth amendment. Both were burning issues in the 43rd legislature and have stirred the electorate for years.

The comptroller's figures show that only \$45,776 voters paid their poll taxes before Feb. 1 of this year. Another estimated 200,000 persons will be eligible to vote because of exemption from poll tax payments, making a total qualified electorate of approximately 300,000.

Calculations based on the ratio between the qualified voters and the ballots actually cast in previous elections indicate that the vote at the special election will probably not exceed 600,000. Some estimates place the vote as low as 500,000 as regarded as more likely.

In the democratic primaries of 1932, the highest vote polled by any candidate was 973,041. It was recorded for Lieutenant Governor Edgar E. Witt, who was unopposed. An estimated 1,235,000 persons were eligible to vote in this election, 1,035,803 on paid poll taxes. Slightly more than 21 per cent did not go to the polls.

Those familiar with election figures believe that the 1932 primaries attracted to the polls the largest percentage of the qualified voters of any election ever held. They predict that the vote in the prohibition election will fall far below the percentage in the 1932 primaries. It was figured that an average of 60 per cent of those qualified to vote actually take the trouble to mark a ballot.

The most reliable forecasts obtainable were that between 60 and 75 per cent would go to the polls in the prohibition election.

In the 1930 primaries, 1,275,791 persons were qualified but only 835,442 voted, or approximately 65 per cent.

Those who indulge in speculation upon election results believe the prohibition issue will not arouse the voters to the feverish heat of the 1930 or 1932 primary campaigns, when the state was closely divided between R. S. Sterling and James E. and Miriam A. Ferguson over the governorship.

NEW HIGHWAY BUILDING, COSTING \$450,000, OCCUPIED AT AUSTIN

AUSTIN, July 21 (P)—The Texas highway department, after weeks of delay, has moved into its new building.

For many years the department's Austin headquarters were scattered over the city. The most reliable forecasts obtainable were that between 60 and 75 per cent would go to the polls in the prohibition election.

In the 1930 primaries, 1,275,791 persons were qualified but only 835,442 voted, or approximately 65 per cent.

Those who indulge in speculation upon election results believe the prohibition issue will not arouse the voters to the feverish heat of the 1930 or 1932 primary campaigns, when the state was closely divided between R. S. Sterling and James E. and Miriam A. Ferguson over the governorship.

New Members Are Received By Club

One new member, Iva Ben Bowery, was initiated, and another, Eva Neil Kelley, was voted into the club when the girls of the A. B. C. club met at the home of Ethel Hamilton yesterday afternoon.

A bouquet was sent by the group to Waldean Dickinson, member who is ill. The afternoon was spent informally, with refreshments of chicken salad sandwiches, pickles, cookies, and iced tea.

Two guests, Winnie Mae McClure of Canadian and Mary Gocher of Tulsa, were present with the following members: Mary McKamey, Grace New, Helen Jo Daugherty, Christine Dickinson, Willie Isbell, Roberta Montgomery, Minnie Olive Montgomery, Anna Mae Gocher, and Mrs. Inez Sumner.

The most reliable forecasts obtainable were that between 60 and 75 per cent would go to the polls in the prohibition election.

In the 1930 primaries, 1,275,791 persons were qualified but only 835,442 voted, or approximately 65 per cent.

Those who indulge in speculation upon election results believe the prohibition issue will not arouse the voters to the feverish heat of the 1930 or 1932 primary campaigns, when the state was closely divided between R. S. Sterling and James E. and Miriam A. Ferguson over the governorship.

Division Engineer Commits Suicide

FORT WORTH, July 21 (P)—John J. Mead, 68, division engineer for the state highway department for six years, was found mortally wounded on the floor of his garage today a few minutes after he had told his wife, "don't hurry breakfast."

A pistol was beside him. A note, fastened to the door of his automobile, said:

"My darling: I am doing this because I love you. Love to all my friends. I'll be with you in the glorious kingdom."

He died an hour later.

FIRST BAPTIST CHURCH
Corner Kingsmill and West Streets
Services begin Sunday with Bible school at 9:45. There was a substantial gain over a year ago in attendance last Sunday. Vacations are no longer reducing the total attendance at all of the services as they have through all the weeks of this summer. That, at least, is one encouraging phase of the work. Worship at 11 a. m. and 8 p. m. Amara Mission at 2:30. Training service at 6:45. Our people are no longer thinking so much about what is wrong with the church, but the many things that are right in the church. These things that are right are challenging the highest and best. A welcome is extended to all the services.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Isaiah Denounces Drunkenness and Other Sins.
Scripture Lesson: Isaiah 5:8-12, 18-24.

8. Woe unto them that join house to house, that lay field to field, till there be no room, and ye be made to dwell alone in the midst of the land!

9. In mine ears saith Jehovah of hosts, Of a truth many houses shall be desolate, even great and fair, without inhabitant.

10. For ten acres of vineyard shall yield one bath, and a homer of seed shall yield but an ephah.

11. Woe unto them that rise up early in the morning, that they may follow strong drink; that tarry late into the night, till wine inflame them!

12. And the harp and the lute, the tabret and the pipe, and wine, are in their feasts; but they regard not the work of Jehovah, neither have they considered the operation of his hands.

13. Woe unto them that draw iniquity with cords of falsehood, and sin as it were with a cart rope;

14. That say, Let him make speed, let him hasten his work, that we may see it; and let the counsel of the Holy One of Israel draw nigh and come, that we may know it!

15. Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter!

16. Woe unto them that are wise in their own eyes, and prudent in their own sight!

17. Woe unto them that are mighty to drink wine, and men of strength to mingle strong drink; that justify their wicked for a bribe, and take away the righteousness of the righteous from him!

18. Therefore as the tongue of fire devoureth the stubble, and as the dry grass sinketh down in the flame, so their root shall be as rottenness, and their blossom shall go up as dust; because they have rejected the law of Jehovah of hosts, and despised the word of the Holy One of Israel.

Golden Text: Righteousness exalteth a nation; But sin is a reproach to any people.—Prov. 14:34.
Time: Isaiah began to prophesy (Beecher) in B. C. 766, and died about B. C. 679.
Place: Jerusalem.

Introduction

Isaiah, the greatest of the Old Testament prophets, lived in Judah, and prophesied during the reigns of four kings, Uzziah, Jotham, Ahaz, and Hezekiah. He was a man of the court, the counselor of kings. He lived in times of his country's degeneracy, and his strong voice was constantly raised in denunciation of the national sins; and yet he was the prophet of hope, pointing forward more definitely than any other prophet to the advent of the Messiah, the Deliverer of the world from sin. The first six chapters of his Book are devoted to rebuking the wickedness of his people, and our lesson is taken from that section.

Parable of the Vineyard
Palestine was—and is—a land of vineyards, and references to the cultivation of the grape are common throughout the Bible. Our readers are familiar with Christ's frequent use of such similes. Isaiah's best known parable pictures the owner of a field. The soil was rich. He carefully removed the stones. He set out the choicest vines. He built a watch-tower in the center of the field from which thieves might be discerned. Out of the solid rock he cut a space in which the grapes might be trodden out, the juice flowing into a rock-receptacle at a lower level. All this done, he waited expectantly for the harvest; but, alas! the vineyard so carefully prepared and tended produced only worthless wild grapes. What should be done with the vineyard? Isaiah's word is stern, even fierce. Take away the hedge. Break down the wall. Let in the wild beasts. Lay it waste. Do not prune it or hoe it. Give it over to briars and thorns. Even the clouds shall not rain upon it. Let it be a desert. The vineyard represents the wayward house of Israel.

Snare of Intoxication
"Woe unto them that rise up early in the morning, that they may follow strong drink." Strong drink has always been one of the greatest spendthrifts of time, as of strength and intellect. One of the first gains noted when the United States outlawed the saloon was the almost universal cessation of the Monday difficulty among working-men, who in the saloon days had been in the habit of spending the Sabbath in spees which lasted over into Monday, so that the shops were sadly short of laborers on the first weekday of the week. Now all that is happily a thing of the past, immensely to the advantage of both employers and employees. "That tarry late into the night, till wine inflame them." That is what the devotees of strong drink seek—in intoxication, to become beside themselves, to lose their senses. They want liquor "with a kick," liquor that propels them out of decency and self-control into mad frenzy. This is what the Eighteenth Amend-

ment forbids—intoxication, madness.

The improvidence of drinking men is notorious. They take no thought for the future. They waste their resources. They make no provision for their families. One of the innumerable gains resulting from the adoption of prohibition in our country has been the enormous and unexampled increase in savings bank deposits and in life insurance.

A People in Captivity

The prophet goes on to paint a terrible picture of a nation given over to drunkenness. Many of them will be taken captive by wide-awake and strong enemies. Their rich people, now living in luxury, will be pinched with hunger; now guzzling their liquor, they will even lack water to quench their thirst. Worse still, hell as a hideous monster will open her mouth to receive multitudes of them. Down to the grave will go all their pomp, Great and humble, lofty and lowly, will be plunged into a common misery.

"The fascination of evil, how subtle, how mighty, how tremendous! The appetite that is within us, how often uncontrollable! how it takes no heed of decency! how it sinks into Sodomite shamelessness! An officer was commended to King Alphonso as a man who could drink much, and retain what he drank. Said the king, 'That is an excellent quality in a sponge, but not in a man.' Mahomet said, 'In every grape there dwells a devil.' This is no hallucination of the modern mind, with its fine-spun ethics, and its new philanthropy, and its moral veneer and conventional appearance. If the devil had been a liar and a murderer from the beginning, so has strong drink; it has no good history; its whole record is a bad one."

Sin of False Reasoning
"Woe unto them that call evil good, and good evil." This is the fifth Woe, directed against false reasoners, men who twist arguments, sophistical pleaders for evil, skilled to make it appear as good. "That put darkness for light, and light for darkness." These speakers and writers set forth moral midnight as if it were the dawn of righteousness; they can turn even the night to day. "These words are a denunciation of presumptuous rebellion against recognized law. A man's moral attitude most surely affects his power of dealing with truth. 'Sowing wild oats,' is spoken of by many as if it were the most natural and appropriate occupation of youth. And how readily youth accepts the sweet heresy! Conscience is silenced by this calling evil good, and putting darkness for light. Yet all the time they are not deceived. They know that darkness can never be light, that evil can never be good; that under no circumstances can two and two make five."—Rev. John Pollock, D. D. Thus the "wets" call indulgence in intoxicants "extending their personal liberty," as if man ever had a

personal liberty to weaken his own physical, mental, and spiritual powers and undermine the foundations of national health, prosperity, and integrity. Intoxication is always

evil, dark, and bitter, and no amount of specious pleading can make it good, light and sweet. Blind Self Conceit
"Woe unto them that are wise in

their own eyes, and prudent in their own sight." This, the sixth Woe, is directed against blind self-conceit. Such is the arrogance of the advocates of intoxicating liquor. The

wise men of all ages have condemned strong drink; but what is that to them? The universal experience of mankind has shown the evil of intoxication, but they care noth-

ing for that. Science has proved that "moderate drinking" is deceitful, that indulgence in intoxicants to only a slight extent weakens one's judgment, deadens one's alert-

ness, lessens one's skill; but a fig for science! This is the attitude of those who seek to remove from our national Constitution the prohibition against intoxicating liquor.

Hot Weather FOOD SPECIALS

At Furr Food Stores Friday, Saturday and Monday

We Reserve The Right to Limit Quantities

A most important feature of Furr Food Stores service is supplying YOUR table with the freshest fruits and vegetables available . . . not just lettuce or lemons, as the case may be, but a wide selection of the very finest the market affords. . . .
