

Editor Reports County Finances

As of Dec. 31, 1960, owed bonded debt of \$846,000.00 is due to mature this year and is to be paid from funds, together with accrued interest totaling \$256,757.12, and in \$8,453.12.

Westfall is son of Mr. and Mrs. Tom Westfall, who moved to Amarillo in 1942 from Floydada. Bobby finished high school in Amarillo. He was a member there of the golf team that won the state interscholastic golf trophy in 1954, and he was a member of the Texas Tech team that won the border conference championship in 1955 and 1956.

Pro For Four Years
Westfall turned pro four years ago. He spent two years as professional at the Liberal, Kas. Country Club and for two years has operated a driving range at Amarillo.

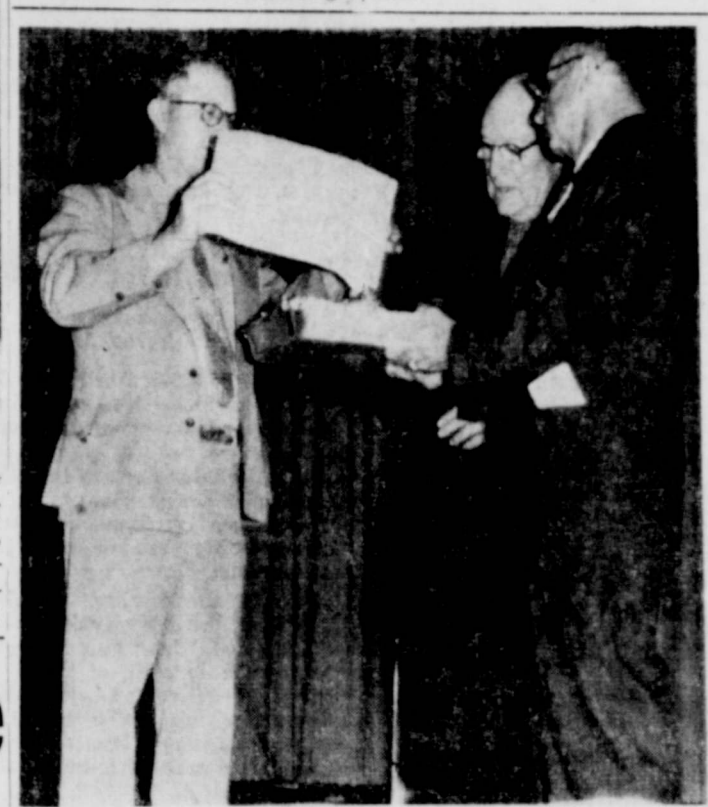

He and his family (a wife and little son, 2) have moved into the professional's quarters at the country club. He is anxious for his telephone to begin ringing with requests for free lessons for the women and juniors.

He reports Sam Gilbreath, greens keeper, who had a heart attack about the first of the month, as being on the road to recovery. Gilbreath had been doing a fine job of cleaning up the fairways and greens and cutting out underbrush in the adjacent terrain when he became ill, Westfall said.

Hold-over directors are Jones, R. G. Dunlap, and Jack Stansell.

TWENTY-THREE YEARS LATER. In 1938 Herman King, left, and A. H. Kreis, center, were co-signers of notes to Rural Electric Administration as officers of Floyd County Rural Electric Cooperative, borrowing money to bring the blessings of electric light and power to 3,000 or more rural homes in half a dozen counties of the plains. Saturday they were assisted by Manager Melvin Henry in the ceremony of burning one of the big notes for \$189,000, which has been paid. (Staff photo by Peggy Medley)

Business And Fun Are Mixed at REA Meeting

A well planned and versatile der at 9 a. m. with the reading program was presented Saturday of the notice of the meeting and at the day-long annual member-proof of the due publication and ship meeting of the Lighthouse mailing thereof, and reading the Electric Cooperative, Inc., in the minutes of the last meeting by High School auditorium at Floyd-Cloud Weathersbee.

Attendance was well over the 1000 mark, not including those in the number present for the free barbecue lunch, served outside the building. The register showed 424 members, which requires the registering of one member per family.

Ned Bradley, who was master of ceremonies for the affair, gave the welcome address and presided during the entertaining hours. Rev. Vance Zinn, pastor of the Calvary Baptist Church, brought the morning invocation.

The meeting was called to order by Herman King, co-op president.

Entertainment from each of the seven districts in the area, was enjoyed throughout the day. At 11 a. m. following a business report from Manager Melvin Henry, a film was shown, "Unchained Frontier" by Cotton John of KGNC, Amarillo.

During the afternoon business session, R. C. Rathel of District 1, Odell Breed of District 2, and Herman King of District 5, were all re-elected to the board of directors.

Three employees of the organization were recognized and presented ten year pins. They were Corky Guffee, Wanda Hickerson and Johnny Stutts. Also recognized were two new employees, Hazel Bradley, who is an assistant to Mrs. Nancy Morckel, home economist of the co-op, and Delbert Smith, who works with the line crew.

County Acre Yield Average Officially Set At 3,707 Lbs.

This week on Monday the Agricultural Stabilization and Conservation Committee of Floyd County had ironed out practically all of the details for handling the new Feed Grain Act, and by Monday will be able to send out notices on all farm units showing the base acreage permitted and the payment rates on 20 per cent reduction and 40 per cent reduction in acreage.

Farm operators who want to comply with the new set up will have until May 10 to make up their minds to sign a contract, said Thos. J. Hutchins, office manager of the county committee.

The Agricultural Marketing Service at Austin, taking the U. S. Census as a basis, gave 145,107 acres of grain feeds as a county total whereas the local A S C survey had set up the figure for the county at 139,457 acres.

Adjustments are being made without serious maladjustments, Hutchins thinks. The reductions are coming principally from farms where the operator has more acres than he can plant.

County Average 3707 Lbs.
In the calculations of the Agricultural Marketing Service Floyd County was given an average yield of 3,707 pounds, representing 100 per cent yield per acre. On this basis 20 per cent reduction would earn \$35.10 per acre, according to ASC figures, and if tractor to pull the vehicle out, another 20 per cent of the acreage is contracted, it would pull down \$42.10 per acre.

Mr. Hutchins said everyone of the 27 community committees responded to the call of the county committee to aid in setting up the production averages in their respective communities.

This was done in a meeting last week. Mr. Hutchins said the production figures for the farmers in the county ranged all the way from 15 per cent of the average to 140 per cent.

Tractor Is Overturned
The vehicles crossed a rough spot in the road and young Johnny lost control of the tractor's steering wheel when the machinery was jerked. He was thrown from the vehicle just before it turned over.

Daniel raced for the Hernandez home to get his parents while the Tucker youth stayed with his injured companion Johnny who was brought to Peoples Hospital by Mr. and Mrs. Hernandez where he died some two hours later.

Funeral rites for the Hernandez youth were held Monday afternoon in the Catholic Church in Floydada. Burial was in the Floydada Cemetery under the arrangements of Harmon Funeral Home.

Johnny was one year old when he came to the Harmony Community with his parents, who have been employed by the Tucker family for eight years. He was a student at Andrews Ward School.

Survivors in addition to his parents and the one brother are eight sisters, one of whom is a twin of the deceased.

Church Bonds Sold; Ready Soon To Build
The \$13,500 worth of six per cent bonds of the Calvary Baptist Church sold to carry on an extensive remodeling program, met ready response from buyers, and it was announced the first of the week that the issue had been taken up by friends of the church and investors.

Rev. Vance Zinn, pastor of the congregation, said plans for expansion of the auditorium, partitioning and furnishing the educational building, and paving of a parking lot is included in the work projected.

Harry Reeves was bond sales chairman. Members of the building committee which now is making ready to begin work include Buddy Cantrell, Clarence A. Foster, Travis Lightfoot, John Campbell, Jim Campbell, and C. A. Breeding.

City Secretary Continues To Be In Grave State

Still gravely ill but possibly in less danger of a recurrence of a cerebral hemorrhage this mid-week is City Secretary Lewis Norman, who is being treated at Peoples Hospital.

Norman collapsed at city hall Tuesday evening of last week while on duty at a council meeting. He has been in a coma since, but reportedly therapy has reduced his blood pressure considerably.

E. L. Norman, a brother, said that the extent of the brain damage, if any, from the hemorrhage, had not been determined yesterday.

Mr. Norman's two sons, Glad Lyn of Lubbock, and Don, a student at North Texas State, Denton, have been with his father periodically since his illness. An only sister Mrs. Wayne Gound, of Big Spring, has been here as so have brothers, E. J. of Childress, J. E. of Lubbock, W. O. of Abilene, Verner of Amarillo.

School Board Studies Bids For New School On North Ward Site

Henry - Owens Vows Taken At Dennison

Wedding vows between Miss Betty Claire Henry and Lt. John David Owens were exchanged in Dennison Friday evening at 6:30 with parents of the couple and other relatives present for the occasion.

The lovely and impressive ceremony was read in the couple's newly acquired home at 700-A Acheson Street.

Forming the wedding scene were two oval spiral candelabra bearing white tapers, which flanked a center arrangement of an elevated basket holding white glads, large yellow mums, candy tuff and greenery. Directly in front was a kneeling bench of white satin.

Captain Allen J. Patterson, Chaplain at Perrin Air Force Base, where the bridegroom is stationed, performed the double ring ceremony. Recorded organ selection of the "Wedding March," "The Lord's Prayer," "Because," and "Thine Alone," were played.

The couple's only attendant was Sam Henry, brother of the bride, who was the ring bearer.

The bride was given in marriage by her father. She wore a gown of ballerina length fashioned from white nylon lace over pale yellow nylon tulle and taffeta. The skirt fell full from a waistline underlaid with yellow satin. The bodice was styled with a round neckline bound with yellow satin ribbon, and accented by a ballerina jacket of matching colors with butterfly sleeves and buttoned at the back with tiny satin covered buttons.

She wore a shoulder length veil of white French silk illusion caught to a tiara of iridescent encrusted sequins, short white lace gloves, and wore on the waist of her gown a corsage of white spit mums and candy tuff embedded in white satin and velvet leaves and satin ribbon.

The bride carried out the traditional something old, something new, something borrowed and something blue. She carried a handkerchief which belonged to the late grandmother of the bridegroom, and wore a penny in her shoe bearing her birthdate.

Mothers of the couple served at the reception which followed in the home. The bride table was laid with a white linen, cut-work cloth and held a center arrangement of chrysanthemums, white candy tuff and mums. White tapers in crystal holders, yellow napkins with the names "Betty and John" and crystal appointments completed the table setting.

For traveling to Lake Texoma, Lodge Mrs. Owens chose a red and white plaid two piece suit with white accessories and wore a full length cotton coat accented by her bridal corsage.

The bride is the daughter of Mr. and Mrs. Clay Henry of Floydada, and is a graduate of Plainview High School. She attended Wayland Baptist College, West Texas State, Texas Tech and the University of Arkansas.

At the time of her marriage she was a student of nursing and plans to continue her studies.

The bridegroom is the son of Mr. and Mrs. R. E. Owens of New Orleans, La. He attended LSU at both Baton Rouge and New Orleans, and is at present stationed at Perrin Air Force Base where he is in the Air National Guard.

The next meeting will be on April 28 in Fellowship Hall of the First Methodist Church. At this time there will be a workshop conducted by a nationally accredited florist, Mrs. John B. Powers of Lubbock.

Members are to bring cut flowers, hardened, frogs, clay, snippers, containers and a sack lunch for the all-day meeting.

The workshop will start at 10 a. m. and continue until 3 p. m.

Henry Willis Has Painful Butane Burns

Henry Willis had the misfortune of sustaining a burnt arm, hand and a portion of his back Monday, when he was attempting to burn out an antbed on his farm. He was treated at Peoples Hospital for first and second degree burns and released.

This week Mr. Willis is finding he is able to eat and do what work he has to do with his left hand altho rather awkwardly. The accident could have been much worse had there not been a near-by ditch full of water, victim's wife said.

Mr. Willis had just poured butane on the ant hill from a bucket, and a Mexican boy about seven, standing nearby, thought he would help. He struck a match and was noticed by Willis.

The butane caught fire in the bucket and blazed up burning the man on his right arm and hand and around the left side of his back before he could toss the bucket away. He jumped for the ditch of water and put out his burning clothes.

It was indicated that the injuries, altho painful at times, will not leave scars after healing.

NEW VARIETY OF CASTOR BEAN RELEASED

A new improved castorbean adapted for production in irrigated areas such as the High Plains of Texas, Oklahoma, Kansas, and New Mexico has been released cooperatively by the U. S. Department of Agriculture and the Texas Agricultural Experiment Station.

The new variety is named Hale and is a dwarf-intermediate which yields well and has potential as a male parent in hybrid combinations because its hybrid offspring also yield well. Hale is resistant to bacterial leaf spot and Alternaria leaf spot.

A limited amount of Hale seed is available to seed producers for Oklahoma, Kansas, and New Mexico. It has some drought tolerance but is not generally recommended for dryland planting because satisfactory yields cannot be obtained consistently. And because of possible mold damage to the seed capsules, it is not recommended for areas of high rainfall.

Hale has a better root system than many other castorbean varieties. However, if it is grown under conditions of too much nitrogen and excessive soil moisture, its stems tend to be weak. Weak stems, coupled with heavy fruit set and high winds before harvest, can cause lodging.

Hale matures about one week later than Baker-296, the leading commercial variety on the High Plains, and about one week earlier than Dawn, a 1957 release. Hale produced as much as 2,325 pounds of beans per acre in 1959 on the High Plains in experimental plots in the same area. Hale averaged 2,479 pounds per acre compared with 2,037 pounds per acre for Baker-296 and 2,189 for Dawn.

Plants are well adapted to mechanical harvesting because the first fruiting spike is well above ground level and fruiting branches are erect. Seed capsules of Hale are non-shattering and are easily removed from the dry plants after frost by mechanical harvesters.

Seed weight, size, and quality are acceptable for planting and for crushing. Seed hulling and cleaning are easy, and nearly all foreign material separates from the seed. Oil content averages 51 percent, one or two percent more than in available dwarf intermediate varieties.

Hale has performed well in irrigation tests in the Southern Great Plains region of Texas, Oklahoma, Kansas, and New Mexico. It has some drought tolerance but is not generally recommended for dryland planting because satisfactory yields cannot be obtained consistently. And because of possible mold damage to the seed capsules, it is not recommended for areas of high rainfall.

PAWNEE HEADING SOUTH
The Steamship Texas at 5 o'clock this morning brings the following news: The United States steam sloop-of-war Pawnee left for the South this morning having on board 250 men.

Much alarm exists in political circles on account of military preparations of the government which preserves entire silence. — Galveston News.

TEXAS TO BE INVADIED
By mail we have the following additional intelligence to that published in our extra this morning: The employees of the United States Government were engaged all night last night putting stores and provisions on board the steamships Illinois and Atlantic, recently chartered as transports.

The excitement here on account of these movements continues unabated and their finale is awaited with painful interest. — Weekly Telegraph, Houston.

MAN CRUSHED UNDER CARS
An Irishman named Patrick O'Brien attempting to get on the cars just as the train was leaving for Beaumont, slipped and fell upon the track and was literally crushed to pieces by the cars. His body was terribly mangled, 3 or 4 cars passing over it, cutting off one leg, one hand and his body in two before the train could be stopped. — Liberty Gazette.

HOW TO SETTLE ARGUMENTS
When two caravans meet in the interior of Africa, the two head men approach each other, then go back a reasonable distance, lower their heads and butt. The one that goes down has to yield the right of way to the caravan who "downs" him. Perhaps this would be as good a way as any for President Lincoln and President Davis to settle the sectional difficulties. — LaGrange Issues.

SPRING CONVENTION DOUBTFUL
To such a pitch has the public mind been excited for the past three months that scarce a thought has been given to the Democratic State Convention, and the result is that no delegates have been appointed. Under the circumstances, it would be exceedingly unwise to undertake to hold the convention this spring. Such a convention could not be held to represent the masses to any degree of certainty. As to whether we have a demo-

Verse Writer Pays Honor To Minister

"Old ministers never die, they just fade away." But do we neglect and forget them too soon after they retire from public service? Being forced into retirement many times by failing health as well as age—their days become long, and lonely at times.

They have given their best to the Master, and to their congregations. Let us hold them up in prayer. Rev. C. A. Strickland is one of these such ministers. To know him is to love and appreciate him. I believe his many friends and neighbors will join me in the heart-felt words of rhyme written below.

**"This Is Your Life,
Brother Strickland"**

I wish there was something we could say That would serve to encourage and brighten your day.

But you're so much wiser and more Godly than we— Words seem so inadequate to say to thee.

God's word you have preached and taught for years. Through you — God has been able to quiet many fears.

You have been an example to young and to old. And no doubt you have led many sheep to the fold.

But I imagine you've wondered, as all of us do, Why life has been rough, and treated you so.

But He didn't say we would understand Why life is so thorny upon this land.

He said Trust in me and I will bring it to pass — Only when life's over will we have rest at last.

We love you Brother Strickland, and want you to know it. Tho sometimes, I guess, we fail to show it.

Keep on trusting in God and all will be right. For we know you're a man still fighting a good fight.

Special Washing Problems With Synthetics

Women complain that many of the new synthetics develop a dingy unattractive color in washing, which is hard to remove.

Much of this discoloration is due to one of three factors.

First, is the static electricity produced by some of the newer fibers. This attracts soil and dirt from the floor and surroundings. Ordinary washing will remove this.

So many I can't reach. Maybe this beautiful afternoon people are plowing or gardening.

Remember church Sunday.

Vandals Strip Working Girls Automobile

A Memphis girl, Helen Shackelford, who works as a telegraph operator at Lubbock, had double trouble on the highway near Floydada last weekend.

First, it was a stalled 1956 model automobile, which she had to abandon enroute to see her people, and find another way to get home.

And, second it was one of the most complete jobs of car stripping ever heard of when she came back by to get the car Sunday.

When she reported to the sheriff's department Sunday afternoon about 4:30 the car was located at the big caliche pit on the Hollums place adjacent to Highway 207 five miles north of town, stripped of:

Four wheels and tires, the back seat, the spare tire, battery, water pump, and voltage regulator. In addition clothes she left in the car were missing.

She had some insurance, Miss Shackelford told sheriff Walter Hollums.

Morton Wins District 2AA Golf Meet

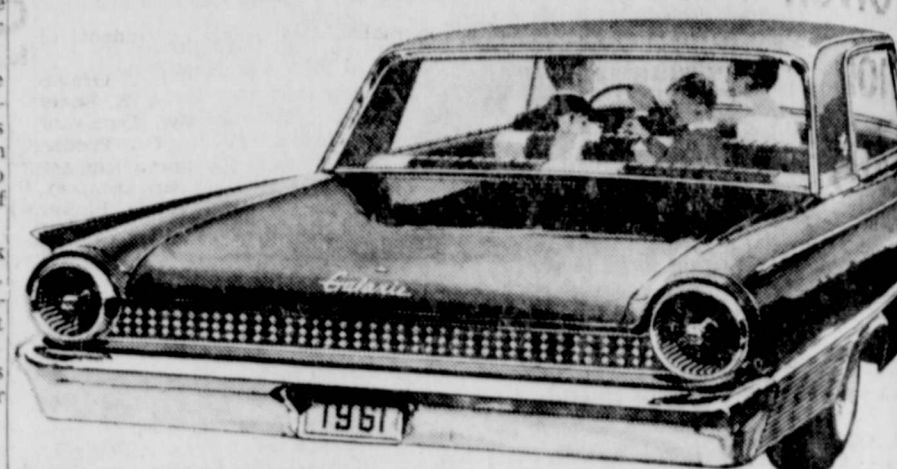

Floydada High golfers found the weather bad and the competition rough last week when they journeyed to Olton for the district 2AA golf meet. High gusty winds with blowing sand were the order of the day. This, coupled with the strange golf course and the tough competition spelled doom for the local entry.

Morton took the team title with a foursome score of 372, Olton posted a 381. Muleshoe a 385 and Floydada a 398. Hans of Morton also took medalist honors with an 18 hole score of 82, St. Clair of Muleshoe had an 85 and Ray Walker of Floydada an 89.

The Floydada team came in fourth with their 398. Scores other than Walker's 89 were Vernie Moore 96, Eddie Parks 100, Danny Martin 113, and alternate

Jay Holmes 116. The Morton team will represent the district at the regional meet, Silverton, visited here Sunday weekend on business with Mr. Callaway's mother, Mrs. Mr. and Mrs. J. A. Callaway, H. L. Rafferty and family.

Why is the Ford Galaxie head and shoulders above all the imitators

'61 Ford Galaxie is available with the Ford 292 V-8 that won the low-price V-8 class in the Mobilgas Economy Run with 21.3 mpg!

Because it's beautifully built to take care of

We're tickled to see so many other cars latching on to the styling trend started by Galaxie. But they can't copy that Thunderbird roofline—and more than they can match Galaxie's Thunderbird steering and handling.

What's more, Galaxie is the fine car built to cut your operating cost. For example, you can go 30,000 miles without a lubrication. And when you compare price, you find that Galaxie costs several hundred dollars less than some cars that give you less. Challenging statement? We're here to prove it—today.

STATE CAPITAL Highlights AND Sidelights

AUSTIN — Sometime between the grave and now and August 31, the Texas Governor Daniel urged Legislature must come to a show-mise through a "package" bill down, do-or-die, back-to-the-wall ingredients for the package, he decision on a big new money-said, might be gotten from Rep raising bill.

George Hinson's omnibus tax bill But many lawmakers believe and Rep. Ben Atwell's selective situation will have to have sales tax measure. Hinson's bill would hit in many left stage before such a decision areas — watches, jewelry, power can be made. To meet current tools and machinery, construction needs, say some lawmakers, the materials, natural gas, restaurant tax bill will have to be a big one meals, non-essential beverages, and it's bound to bring static etc. from voters.

Only way they can survive, sales tax except that it names said one, is to be able to say, "Look, I don't like this bill either. But what can we do... close the schools?"

SENATE COOL TO TAX — With less than bubbling enthusiasm, Senate State Affairs began hearings on the first tax bill sent over by the House. It is Rep. Charles Ballman's "loophole" bill designed to raise some \$43,000,000 toward retiring an expected \$63,000,000 deficit in the general revenue fund.

Senators listened with seeming sympathy to witnesses who criticized the bill's provision for a revised franchise tax formula and a gift tax. They listened, too, to a lengthy pro-sales tax discussion by Tom Sealy of Midland, chairman of the Citizens for a Sales Tax group. Under the Ballman bill's broad caption, the Senate could add extensively to its revenue-raising features, but most observers doubt the Senate will be eager to seize the initiative at this stage.

CAMPAIGN LIMIT KILLED — A bill to limit campaign expenditures to \$25,000 in a race for the U. S. senate or congressman at large was killed by the House, 83-to-50.

Sen. Martin Dies Jr., of Lufkin was sponsor of the bill which passed the Senate.

Supporters of the measure said that as things are "a rich man can buy his way into office." Opponents said the limit was unrealistic and that a new comer to politics could never become known with such restrictions on a statewide race.

FLOUNDERS — Sen. Grady Hazlewood's bill to get ground rules for state's merit rating auto insurance has had at least a temporary set-back.

Senate voted 16-to-13 to take up the bill. However, a two-thirds majority is needed to begin floor action.

Prior to this action, the State Board of Insurance announced extensive changes in the rating plan, effective August 1. Such violations as running a red light or stop sign, illegal passing or turning, negligent collision and breaking of drivers' license restrictions were removed from the list of actions causing a driver to pay higher insurance rates.

Senator Hazlewood was not satisfied with the changes. He criticized the removal of red light running from the list and the keeping of penalties for speeding, no matter how slight.

FREIGHT RATE BILL PASSED — A bill to simplify rate setting for railroads and truck-

House committee completed its study last year and was automatically dissolved at the beginning of this session, but the report was delayed.

Wilson hotly denied that he had failed or refused to take any action within the power and scope of his office. He said the criticism of him was "politically motivated" by Rep. Tom James of Dallas, vice chairman of the committee.

Meanwhile, the House — rather wearily, perhaps — voted against a bill that would set up House and Senate investigating committees every session, as a matter of law. Better, they decided, to establish such committees by resolution when special circumstances seem to warrant.

HOURS CUT APPROVED — A bill to cut the work week of state hospital employees from 44 to 40 hours was voted out unanimously by the Senate Committee on State Departments and Institutions.

Snow, cold rain and overcast, bringing the most prolonged spell of April precipitation to Floyd County lands recorded in at least three decades, has marked weather of the high plains since Saturday of last week. Recorded rain and snowfall in the period to yesterday at noon was 1.68 inches. Also unusual for such an extended period in mid-April have been the temperatures recorded. Only once since Friday has the thermometer risen above the 50-degree mark with thirties and forties recorded in plenty.
