THOUSANDS ATTEND RELIGIOUS SERVICES IN THE PENTAGON

The great concrete structure housing the U. S. Department of Defense, across the Potomac River from Washington, D. C., has a new distinction. Here on each working day members of all faiths among the more than 30,000 military and civilian personnel may attend church services of their chosen faith. Depicted above is the illuminated building in the direction of Chaplain (Col.) William B. Estes two auditoriums have been set aside as chapels. In one of these at 12 o'clock noon mass is said by a Catholic chaplain. At the same hour in another chapel a chaplain of the Jewish faith holds service. Protestant worship is held at 12:45 p. m. when chaplains of the various protestant denominations from time to time conduct the services. Civilian pastors occasionally are invited to participate.

Plastic Pipe Proves Boon to Oil Industry

Light weight of this new butyrate (Tenite) plastic pipe for the oil fields speeds installations, cuts costs. Worker in picture carries three 20-foot lengths—about 60 pounds—with ease. Equivalent in cement lined steel pipe would weigh approximately 720 pounds. The butyrate plastic pipe is corrosion resistant when used for oil gathering, salt water disposal and repressuring lines. Paraffin does not accumulate and obstruct passage of oil through the pipe according to Tennessee Eastman Company, manufacturer of the plastic.

Mrs. E. F. Peterson, of Harris county, Texas, receives trophy from John C. White, Texas commissioner of agriculture. Her flock of Hy-Line hybrids averaged 277.7 eggs per hen housed to win the national Hy-Line farm flock laying contest.

DWI Fines Here in February

Four men pleaded guilty to charge of driving while intoxicated during February and one in March, according to records of the county Court Judge G. A. Wynn, presiding.

Fined \$50 and costs of \$22.70 during February were Manuel Aguirre, Ignacio Mancha, and John Caselman, Jr. Alvin Arvay was fined \$100 and costs of \$22.70. Joe McCracken was fined and costs March 9, after pleading guilty to DWI charges.

J. P. Court Fines

Fines in Justice of the Peace Alfred Cooper's court during February included the following:

William Bland Brooks, over-length trailer, \$14.

James R. White, defective clearance lights, \$14.

James R. White, no trailer plates, \$14.

William H. Gierisch, reckless driving, \$28.

Santos Cervantez, speeding, \$14.

Ben King Green, speeding, \$14.

Otis Hanson Brown, no operators license, \$14.

Andrew Davis Burton, defective

Light Docket Seen As District Court Convenes Here Monday

A light docket was forecast for the spring session of the 112th District Court, Judge Garland Casebier of Fort Stockton presiding, which begins Monday.

Two damage suits, both previously postponed, may be tried and several divorce actions are pending.

The civil cases include G. E. Seals vs. J. B. Tubb, suit for damages over alleged breach of contract involving an oil field deal.

J. B. Rosamond vs. Ben L. Keyes, Inc., suit for damages involving workman's compensation. Rosamond alleges that while working on a rig in Sutton County March 28, 1950, some dynamite was set off near where he was working with the result that he lost his hearing.

Jury commissioners for this term were V. F. Hamilton, Ben Mittel and Joe M. Vander Stucken. Grand jurors are: A. W. Awalt, Francisco Abila, J. D. Cowart, Marion Elliott, Herbert Fields, Robert V. Kelley, Pedro Galindo, Leonard Gibbs, S. M. Loeffler, Thomas Morris, Andrew Moore, Gene Shurley, C. W. Taylor, Bill Wade, Libb Wallace and Duke Wilson.

On the petit jury panel are: Theo Cahill, Gay Copeland, Ben Cusenbary, J. M. Adamson, Robert Doran, Jim Decker, Jack Drennan, J. W. Duckett, Thomas Espy, Batts Friend, Jimmie Gatlin, Wesley Granger, Dr. W. T. Hardy, Clayton, Glen Hay, C. T. Jones, Jr.

E. E. Johnson, Harry Kiser, Earl Lomax, Seth Lancaster, Dick Morrison, R. G. Nance, Louis Perez, J. B. Renfro, O. L. Richardson, J. C. Stephen, Harold Schwiening, R. V. Sewell, Wayland Stubblefield, Wesley Sawyer, Thomas B. Thoro, A. B. Truden, Leova Jrias, James Wilson, Henry Wyatt and Lawrence Nichols.

SOIL CONSERVATION IS EVERYBODY'S JOB
By W. H. Hill

3rd Place Winner in SCS Theme Contest

Today man faces two important things. One is soil erosion, the other is war. War is perhaps the most important. But as strange as it may seem, erosion is the most destructive!

Soil erosion has gone so far today that it is one of the things the farmers and ranchers face as a most pressing problem.

Soil is perishable and is not permanent, and even though people forget it, it continues to be lost. For the shocking truth, look to these figures: there has been twenty to forty acres lost each day during the last hundred and fifty years.

In the United States alone, it takes three acres of farm land to furnish a nutritious diet for one person. But in about thirteen years from now there will be less than three acres to feed each man, woman and child.

One thing we can do definitely happen. If we can the soil it will be our children who will have to go hungry.

The soil, however, is not saved for the lands' sake. The timber is not conserved because the forest is plentiful. We don't save the water to keep it from running in the ocean. Saving the soil is done to provide a better living for the people of the future.

Everything we breathe, eat and drink comes from the soil, and if the soil is poor, the people can expect a poor diet. But, if the soil is good and fertile, the people will prosper.

Farmers to day have a very big and important job to do and that is soil conservation. Yet no country has found a way to keep erosion from blowing and washing away the soil.

The United States has done more than any other country but it has not conquered. "So Save the Soil and Save Texas."

Attends Medical Assembly

Dr. J. F. Howell is in New Orleans this week attending the New Orleans Parish Annual Post-Graduate Medical Assembly. While there he plans to visit his son, J. F. Howell, Jr., who is attending Tulane University.

Dr. Tom C. Sparks of the Methodist Memorial Hospital of Houston is here while Dr. Howell is away. Dr. Howell plans to return Saturday.

Attend SOME Church Sunday

Ella Mae Graves, disturbing the peace, \$28.

Rex Gordon LeBleu, driving on left while not passing, reckless driving, \$113.

Sonora Girls Take 1st. Half 6-A Volleyball

Sonora girls defeated Eldorado 35-23, to take the championship of the first half of the District 6-A girls volleyball play here Tuesday night.

That win had given the local two victories over its opponents in the double round robin play, Eldorado and Ozona.

In a B game, Sonora stopped Ozona 37-31. Sonora will play the winner of the Menard-Junction bouts at a time and place to be set later.

USDA Proclaims Texas Counties Disaster Areas

All Texas counties are now under designation as disaster areas by proclamation of the U. S. Department of Agriculture. The action qualifies farmers who have suffered crop losses and who are unable to obtain credit elsewhere for loans for the Farmers Home Administration to put in 1952 crops. Announcement of the designation was made at Dallas, headquarters of the Farmers Home Administration by L. J. Cappleman, State Director.

Bad weather conditions in 1951 reduced crop yields materially and tightened up credit conditions, to the extent that many farmers were unable to finance crop plantings. Disaster loans are now available to each county. Farmers who have sustained production losses on crops and livestock may apply for loans to pay for seed, fertilizer and materials for insect control where needed, and oil for tractors, feed, medicine, essential farm and household expenses, machinery repairs and other expenses to insure the production of a crop.

Credit is granted under authority of the law 38 and is available to farmers who have sustained losses, and who cannot obtain from local sources the funds needed to plant a crop this year. Before a county made a County Committee of free farmers must certify that the applicant suffered a substantial production loss. Farmers may apply for loans at the office of County Supervisor Denny O. Sullivan located at San Angelo in the Tom Green County Courthouse.

Funds will be available to ranchmen whose herds have been depleted by the drought. They can borrow to restock their pastures. Farmers who qualify under the disaster loan regulations may discuss their needs with the county supervisor.

Better farming practices are emphasized in the FHA loan program. These will be discussed and agreed upon by the county supervisor and the applicant when the loan application is prepared.

Personal Notes

Mr. and Mrs. B. D. Roberts of Menard are guests of her sister and family, Mr. and Mrs. C. C. Stroud, this week.

Mr. and Mrs. Curley Williams and Mr. and Mrs. G. W. Kisselburg spent last weekend in Lamesa visiting in the home of Mr. and Mrs. Bobby Fuller and Mr. and Mrs. J. A. Fuller.

Mrs. J. H. Hines and Mr. and Mrs. W. T. Hines all of Tahoka were here last week visiting Mr. and Mrs. Truman Hines.

Mr. and Mrs. W. B. Morgan of Boyd, Mr. and Mrs. James Morgan and Mrs. Archie Shurley of Ft. Sumner, New Mexico were all guests of Mr. and Mrs. J. S. Morgan this week.

Mr. and Mrs. Gene Lightfoot of Junction were here this week on business.

Miss Daphne Jungk of Houston was here visiting her mother, Mrs. C. F. Bode and Mr. Bode.

Boyd Lovelace is in Abilene this weekend on business.

Mrs. Bertie Rutledge is in Ozona this week guest of her daughter and family, Mr. and Mrs. George Russell.

Mr. and Mrs. J. C. Stephen spent last weekend in Austin visiting their son, Ernest, who is attending

Halbert-Fawcett Sale Brings \$122,000 Monday

Halbert and Fawcett's polled Hereford breeding stock sale Monday at their place at Miller, Mo., realized the owners \$122,000. Sixty-one head were sold, ten of them bulls. Walter I. Tenny, Grover, Colo., paid \$10,050 for the highest priced bull, E. E. Moore, Senatobia, Miss., paid \$3,150, the highest price for a female.

Attending from Sonora were Mr. and Mrs. Bryan Hunt, Mr. and Mrs. George H. Neill Mr. and Mrs. Gay Copeland, Mr. and Mrs. Harold Schwiening, Mrs. Fred Simmons, Miss Alice Karnes and Nann Karnes.

Thomas Espy, who underwent major surgery this week in a San Angelo hospital, is reported to be recovering satisfactorily.

G. E. Ellis and his sister, Mrs. Nellie Allen, left this week for a three-weeks trip to Tucson, Arizona, where they will be guests of their sister, Mrs. Lillian Roberts.

Humble Spends Nearly A Billion On New Facilities Since The War

By mid-1952, Humble Oil & Refining Company will pass the billion-dollar mark for expenditures on new facilities since the end of World War II.

The huge postwar total became known when Hines H. Baker, Humble President, announced that the Company plans to spend this year \$245 million for drilling wells and other facilities, including the cost of dry holes. Since the Company has already spent \$872 million for similar purposes during the past six years, the plans for 1952 will raise total expenditures to more than a billion dollars about middle of this year. The program projected for 1952 is substantially larger than in 1951.

Last year the Company spent \$188 million on new facilities, including \$29 million on dry holes. These expenditures exceeded those of the previous year, 1948.

Humble's expenditures have been part of its \$1 billion capital expenditures made by the petroleum industry during the postwar years. The Company's investments were necessary to meet the increasing demands for petroleum products. Total demands in 1952 will exceed those of 1949 by 25 per cent, and will be more than double the amount required by the American people in 1940. The oil industry is currently supplying about two gallons of oil products each day for every man, woman, and child in the nation.

These enormous investments by the oil industry provide the additional oil wells, the new pipe lines, the added refining capacity and distribution facilities to make available the oil for normal requirement and to provide for national security.

All this new capacity is being added at a much higher cost than before the war. For example, the average well drilled by Humble year cost more than three times as much as it did ten years ago. This 1951 average was \$81,500 per well, but some dry holes cost as much as \$500,000 and one producing well cost more than a million dollars to complete.

Humble's tax payments in 1951, excluding gasoline taxes collected by the Company for federal and state governments, amounted to \$85 million and have added up to more than \$335 million during the postwar years.

ing the University of Texas.

Hugh Shaw of Pecos was home last weekend visiting his family.

Miss Peggy Reiley who is attending SMU was home last weekend visiting her parents, Mr. and Mrs. Dantes Reiley.

Mr. and Mrs. Granville Barker have as their guest, his father, Jess Barker of Tucson, Arizona.

Nancy Hunt and Vickie Savell were the guests of Mr. and Mrs. Frank Roddie in Brady over the weekend.

Miss Jane Wilson of Big Lake spent the weekend in the home of Mr. and Mrs. Boyd Lovelace.

Fred Earwood is in Washington, D. C. this week on business.

Mrs. C. A. Tyler has just returned from a weeks visit with her daughter and family, Mr. and Mrs. W. H. Taylor of Rocksprings.

Miss Margie Sue Ory is a San

Diphtheria Outbreak Here Under Control; 700 Get Serum

N. W. (Newt) Poteet, constable of Precinct No. 1, announced recently that he will seek reelection. Poteet was city watchman for 17 years and was first elected constable in 1946.

The outbreak of diphtheria in this area, which resulted in the death of a child in Ozona and two adult cases in Sonora, has evidently been brought under control, according to local physicians.

The first case was that of a 4-year-old Latin American child who died in Ozona Tuesday. About the same time two adult cases were reported here, one, a Latin-American living in town, and the other, an Anglo-American living near Sonora. Both adults have practically recovered, their physician said.

According to one local doctor, "If we can get through Saturday with no further outbreaks, we can feel reasonably safe." Incubation period of the disease is three to seven days.

Meanwhile, the offices of both Dr. Charles F. Browne and Dr. J. F. Howell were taxed as over 700 persons took immunization shots. The bulk of this number was of school age between 6 and 12. Quite a few were pre-school age and a few adults took shots. Most youths over 12 were given Schick tests to determine whether immunization would be necessary.

Taking no chances on an epidemic, the commanding officer at Goodfellow Field ordered all personnel to be immunized. This order was given on the strength of the Ozona death and before it was known there were two cases here.

According to local physicians, babies have a natural immunization for the first 5 or 6 months. Most babies are given their first diphtheria shot at this time. Two more shots follow, spaced a month apart.

Diphtheria is rare in this country these days, since practically all children are immunized. A generation ago, however, it was fairly common to see a person with scar tissue at the base of his throat, where a tracheotomy had been performed to save his life. Today, diphtheria is much easier to handle if caught in the early stages.

SAVE A LIFE

Thousands of Korean children are inadequately fed and clothed. In freezing weather one child had only his shorts and undershirt. No coat, no shoes, and no hat, only filthy underclothing. The National Honor Society of Sonora High School is starting a drive for clothing for these children. If you have any clothes, shoes, or hat of any size that are in good condition, we would be glad to send them.

Remember: You may have saved some child's life.

Call any of the following people, and we shall pick them up after school.

Miss Anne Palmer 27731
Billy Scott 24851
Jack Ratliff 21801
Rita Renfro 26071

Capt. Alan Saunders has just returned to Mountain Home AFB, Idaho after a fifteen day leave.

Mr. and Mrs. Tex Farr and children if Houston were here last weekend visiting her parents, Mr. and Mrs. H. V. Morris.

C. C. Stroud was in College Station last week attending a State Highway Engineers Meeting.

Life is Every - Day Living

By W. H. Marshall

In life, all of us seem to know what we want, but do we know what we must give up in order to get it? Some one said, "Be pretty if you can, be witty if you must, be agreeable if it kills you." Some people have a ONE-IDEA. In trying to convey an important idea to another person, the Irishman said, "If I can get this one idea into your head, you will have it in a nut shell." No one has cornered the stock market on ideas, even though they think they have. Some one brags that he has an open mind. But there are some minds so open that they need to be closed every once and awhile for repairs.

Every-day living does call for the open mind, but it also calls for the selection mind; the ability to appraise values; the courage to say "yes" to the best that is in you.

In every man there is a devil and there is a saint. Keep company with your saint and for your life will have a lot of heaven in it.

Pfc. Phillip Cooper who is stationed at the Marine Air Station, El Toro, California, is home on leave visiting his parents, Mr. and Mrs. Alfred Cooper. Cooper's next station will be overseas.

PRICE CONTROL CLINIC IN SAN ANGELO MARCH 20

Businessmen from Sutton County can secure assistance with price control questions March 20 at the San Angelo Board of City Development when a representative of the Fort Worth District Office will conduct a price clinic.

The business analyst will be available from 9 to 5 o'clock to assist any businessman who has questions or problems concerning the price stabilization program.

Ellis H. Boyd, Fort Worth district OPS director, urges all businessmen who are in doubt concerning any part of the program as it relates to them to visit the price clinic for a personal consultation.

Miss Ethel Alley of Big Lake was here over the weekend visiting her parents, Mr. and Mrs. J. V. Alley and friends.

Mr. and Mrs. J. F. Andrews of Pleasanton were here over the weekend visiting Mr. and Mrs. Don McGara at Station B.

SUBSCRIBE TO THE NEWS

The purpose of the clinic is to be of service to businessmen, Boyd stressed.

Reactor Operator

OAK RIDGE, TENN.— Cecil B. Barker, graphite-uranium reactor (pile) operator at Oak Ridge National Laboratory, uses long tongs to remove uranium slugs from a bucket hoisted from a 20-foot-deep pool of water after "spent" uranium slugs are ejected from the pile. The slugs are caught in a bucket at the bottom of the pool, and because of their extreme radioactivity, must be handled under water. Oak Ridge guard Roy Beeler is watching the operation.

Congratulations To These NEW PARENTS

Mr. and Mrs. Frank Leonard of Austin are the parents of a boy, Edward Allen, born February 27, and weighing nine pounds.

Maternal grandparents are Mr. and Mrs. J. A. Marton, Jr., of Sonora. Paternal grandparents are Mrs. Terah Leonard of San Angelo and Terah Leonard of Dallas.

Mrs. Stanley Loyd of Gloucester, Virginia was here last week visiting relatives. She is the former Miss Dolly Allison.

Mr. and Mrs. Marvin Woodberry and children were in San Antonio last weekend on business and pleasure.

Wes White is in Del Rio on business this week.

QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION

Q — I plan to obtain a GI home loan, but I lost my original discharge papers which I'm supposed to present to the lender. What should I do?

A — You must apply for a certificate in lieu of the discharge papers from the branch of service from which you were discharged.

Q — I am a World War II veteran, entitled to a pension because I lost my sight. Do I have to show actual need for the aid and attendance of another person, in order to qualify for the increased rate of \$120 a month, authorized by a recent law?

A — No. Blinded veterans are not required to show need for aid in getting about, in connection with the recent pension increase.

Q — I am attending school under the GI Bill, and I have about two years of entitlement remaining. Will I be allowed to take the summer vacation off, and resume next fall, or must I stay in training all year round, so as not to lose out under VA's post cut off date regulations?

A — If your school's practice is to have a summer vacation for all students that want it, you may take that vacation and resume your studies in the fall. The regulations require you to remain in continuous training except for interruptions, such as the summer vacation, that would apply to all students, veterans and non-veterans alike.

YOUR HEALTH

Commenting on the unusually high incidence of dysentery in Texas at the present time, Dr. Geo. W. Cox, State Health Officer, described dysentery as being an infectious disease characterized by diarrhea, pain in the abdomen, and toremia. It is caused by a specific bacteria or germ. These germs cause inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the

body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines they find conditions favorable to their growth, and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally; however, he said, it may occur at any age. It is usually more prevalent during the summer season, and the great number of cases now being reported are unusual for spring.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons who still discharge the germs after they recover are called carriers, and they occur more frequently in this disease than in the majority of other infectious diseases."

"Food protection and adequate sanitary measures are urgently needed now than ever before if we control the potential possibilities of epidemic dysentery in this State."

SOUTHWEST'S TALLEST BUILDING INCREASED IN SIZE

Two additional floors have been added to the Republic National Bank Building, now being erected in Dallas. The floors have increased the section facing Pacific and Ervay Streets to seven stories and have resulted in the floor space of the building being increased to 822,000 square feet. Certain other changes have been made in the exterior of the building base, all of which adds materially to the appearance of the building and further enhances its place in the already impressive Dallas skyline. This 40-floor building—tallest in the Southwest—will rise 598 feet above the ground and will incorporate every modern convenience.

CENTURY CAKE

CHICAGO—Towering twenty-feet tall and aglitter with 101 candles (there's one on top to grow on), this giant cake rises to the occasion of Marshall Field & Company's one-hundredth birthday. Since its founder first declared, "Give the lady what she wants," the Chicago store has grown with this city, the Midwest and the nation. Now visitors from all over the world gather around the century cake at Field's to help celebrate.

Twin Beauty

Carolyn St. Clair tries out a new twin-cylinder outboard motor that develops three horsepower yet weighs only 30 pounds. This "Lightwin," made by Evinrude, meets the need for an easy-handling motor as more women and youngsters take up boating. It features "fisherman drive" that permits full-power operation in thick weeds, and functions effectively over shoals, rocks and snag-filled waters.

Drs. Tom White and Joe B. Logan attended a dental meeting, at San Angelo District Dental Society, Monday evening at San Angelo.

THE DEVIL'S RIVER NEWS

Sonora, Texas Friday March 14, 1952

Miss Kate Adele Hill

Miss Kate Hill Speaks To Club

Miss Kate Adele Hill was guest speaker at an open house given Thursday by the Sonora Woman's Club. Miss Hill spoke on "Pioneer Women of Texas" and presented a copy of her book, "Home Builders of West Texas," to the club.

Hostesses were Meses. E. E. Sawyer, Edwin Sawyer, Robert Kelley, and S. M. Loeffler.

Before the program, Mrs. Charles F. Browne honored Miss Hill with a covered dish luncheon. Attending were Meses. J. W. Neville, Armer Earwood, Anella Stites, Norman Davis, J. T. Ratliff Clay Puckett, Carl Cahill, George Brockman, E. S. Mayer, Herbert Fields, Ben Cusenbary and Rip Ward.

After graduation from TSCW, Miss Hill taught school at Sonora and later was a social worker in a girls' training school. Her first extension service appointment came in June 1925 when she was named county home demonstration agent for Cameron County. She was transferred to the headquar-

ters staff at College Station on June 20, 1929, to become a district agent, a position which she held for 21 years. She has served in five different extension districts within the state and is at present Studies and Training leader for the extension service located at Texas A. & M. College.

Miss Hill is a member of the Texas Agricultural Workers Association, the Texas and American Home Economics Association, Epsilon Sigma Phi and the Bryan-College Station Business and Professional Women's Club. She was listed in the 1942 edition of Who's Who in American Women and has written one book, "Home Builders of West Texas," published in 1937.

She was chairman of the extension service committee that conducted a detailed survey in Lubbock county and she later prepared a bulletin entitled "The Lubbock County Study." She voiced a radio program over station KCBC, Lubbock, each Saturday morning.

Mrs. W. K. Regeon entertained the Junior Boys of the Baptist Church in her home Monday evening with a chicken supper.

A. & M. Mothers Elect Officers

The Teras A. & M. Mothers Club met Tuesday at the home of Mrs. Roy E. Aldwell for a covered dish luncheon and annual election of officers. Mrs. Aldwell was reelected president; Mrs. George Brockman, vice-president; Mrs. W. T. Hardy, secretary-treasurer and Mrs. E. S. Mayer, Jr., was elected historian.

The state meeting to be held in College Station in May was discussed. Plans for the muster continued with several reports from various committees.

Others attending were Meses. Joe Berger, Wilfred Berger, G. H. Davis, Jack Grafa, O. L. Richardson, Sr., Sears Sentell and Cashes Taylor.

Joy - Crites Rites Read Friday

Before a background of colorful spring flowers, Miss Carrie Crites became the bride of John Wesley Joy Friday afternoon at 2 o'clock at the First Baptist Church. The Rev. J. E. Eldridge officiated at the single ring ceremony.

Mrs. Joy is the daughter of Mr. and Mrs. B. H. Crites of Sonora. The groom is the son of Mr. and Mrs. Artie Joy of Sonora.

Given in marriage by her father, the bride wore a pale blue tailored suit with navy accessories. She chose as her wedding flowers pink carnations. The matron of honor, Mrs. Bobby Jie Granger, twin sister of the bride, wore a pale blue suit. She wore an orchid colored carnation corsage.

Wesley Sykes was best man. Mrs. Jim Baldwin sang "Because" preceding the wedding. Mrs. Rex Lowe accompanied her at the organ and also played the traditional wedding march.

The reception following the ceremony was held at the home of Mr. and Mrs. J. A. Letsinger, uncle and aunt of the bride. The table was laid with a madiera linen cloth centered with a bouquet of assorted carnations.

Miss Johnny Johnson served the three tiered cake topped with a bride and groom. Miss Wanda Merriman served coffee and tea.

After returning from their trip to Wyoming, the couple will make their home in Sonora.

The bride is a sophomore in

Sonora High School. The groom was a graduate of Sonora High School in 1949.

ELSIE EARWOOD FETED ON FIFTH BIRTHDAY

Mrs. Armer Earwood honored her daughter, Elsie, with a party on her fifth birthday March 10 in her home.

Several games were played and Diane Cahill won the prize for breaking the pinata.

Pink daisy corsages were given as favors to Diana Cahill, Peggy Lynn Grobe, Kara Lynn Rogge, Linda Stroud, Clara Margaret Schwiener, Hazel Cowser and Jo Ann Lowe.

Pink decorated cake, ice cream and punch was served. Pink carnations were used as decorations.

SATURDAY NIGHT CLUB MEETS AT SHURLEY HOME

Mr. and Mrs. E. D. Shurley were hosts to the Saturday Night Bridge Club in their home Saturday evening. High club was won by Mrs. Edwin Sawyer and Harold Friess. Mrs. Ben Cusenbary and Tom Ratliff won high guest. Mrs. A. E. Prugel and Howard Kirby won bingo and E. A. Broadhead won slam.

MRS MCGILVRAY HOSTESS TO THURSDAY BRIDGE CLUB

Mrs. B. C. McGilvray was hostess to the Thursday Bridge Club in her home Thursday afternoon. Mrs. John Bunnell won high club and Mrs. Louie Trainer won high guest. Bingo was won by Mrs. S. M. Kerbow and low was won by Mrs. Jack Kerbow.

A sandwich plate was served to Meses. O. G. Babcock, Laura Trainer, Claude Stites, Joe Berger, Robert Rees, H. V. Morris and guests, Tom Sandherr and Arthur Carroll.

Potted plants were used as decorations.

W. S. C. S. MEETS WEDNESDAY

Mrs. Joe B. Ross was program leader at a meeting Wednesday of the Woman's Society of Christian Service, Methodist Church.

Taking part in the program were Mrs. Herman Smith and Mrs. W. L. Davis.

Others present were Meses. J. C. Stephen, Clarence Valliant, O. G. Babcock, E. E. Sawyer, Cashes Taylor, Harry Kiser, Wes Hill and Dan Cauthorn.

Members attending were Meses. and Meses. Edwin Sawyer, Rip Ward, Harold Friess, A. E. Prugel, Howard Kirby and guests, E. A. Broadhead, Ben Cusenbary, Tom Ratliff, and Mrs. Belle Steen.

You're off in a Swirl of Power!

WE'RE willing to wager that not one person in a hundred knows what really goes on inside an automobile engine—so let's take this by easy stages.

The instant you nudge Buick's Fireball 8 Engine into action—a whole string of things starts to happen.

Eight sparks begin to crackle in well-timed sequence. Eight pistons start gliding up and down with rhythmic precision. Eight pairs of valves dance open and closed—to let fuel charges in, exhaust gases out of cylinder after cylinder.

All right, you say, what's so complex about that? Can't anyone build an engine that does this to perfection?

Well, we'd better add, these things happen at the rate of more than 10,000 times per mile—and that's 100 times per second at 35 miles an hour!

So—it's important to know that Buick uses a deep-breathing valve-in-head design that shoots a fuel charge in—cleans exhaust gases out—in a hurry.

It's important to know that all the power released by the fuel concentrates its driving force right on the head of each Buick piston. (Everyone who has recently built "new" high-compression engines copied this "Buick first.")

But most important of all—Buick adds one more twist which others still haven't copied.

Every charge of fuel rushing into a Buick engine becomes a twisting, swirling, high-compressed ball that flashes with sudden, consuming completeness the instant the spark sets it afire.

And to add this all up: clean, complete combustion—10,000 times per mile—is the secret of getting more power—more

miles—from each gallon of gasoline.

So we're not simply using picture words when we tell you that Buick—and only Buick—has a FIREBALL ENGINE—or that you're off in a swirl of power with one of these high-powered performers under the hood.

1952 has brought a lot of sparkling new improvements which you'll want to see and admire when you come to our showrooms.

But the thrill of thrills is still what you and a Buick—and a Fireball 8 Engine—can do out on the road. When do you want to try a sample?

Equipment, accessories, trim and models are subject to change without notice.

Sure is true for '52

When better automobiles are built

BUICK

will build them

CENTERPOISE
POWER

Vibration and power impulses are "screened out" as engine is centered and rubber-cushioned between new high-side mountings.

BODY
BY FISHER

Fisher Body sets the standard—for styling, for craftsmanship, for comfort! Fisher Uni-steel construction is extra strong.

LARGEST
BRAKES

Big 11-inch brake drums apply more leverage for more stopping power. Stops are smoother, safer, with less effort.

UNITIZED
KNEE-ACTION RIDE

Chevrolet's famous Knee-Action ride is now even softer, smoother. New shock absorbers give even finer ride control.

WIDEST
COLOR CHOICE

26 rich new colors and two-tone combinations... widest choice in Chevrolet's field. New De Luxe interiors are color-matched.

WIDEST
TREAD

Chevrolet measures 58¾ inches between centers of rear wheels—a broader base to give you more stability, less sway!

Only the New Chevrolet
brings these fine features
to the low-price field!

Lowest priced in its field!

This beautiful new Styline De Luxe 2-Door Sedan—like many Chevrolet models—lists for less than any comparable model in its field. Continuation of standard equipment and trim illustrated is dependent on availability of material.

4-WAY ENGINE
LUBRICATION

Chevrolet's exclusive engine lubricating system supplies exactly the right kind and amount of lubrication to each moving part.

CAST IRON
ALLOY PISTONS

The same material as the cylinder block, pistons expand and contract at same rate. This reduces wear, lowers oil consumption.

SAFETY PLATE GLASS
ALL AROUND

Chevrolet alone in its field gives you safety plate glass in windshield and all windows, for a clearer, truer all-round view.

No other car in Chevrolet's field offers you a single one of these features. Yet you'll find many of them in America's most costly cars. Here's proof that you're value ahead with Chevrolet... again in 1952 the lowest-priced line in its field! Come in and look it over.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

POWERGLIDE
AUTOMATIC
TRANSMISSION

Simpler with fewer parts to wear. Smoother—no complicated intermediate gears. Optional on De Luxe models at extra cost.

MOST POWERFUL
VALVE-IN-HEAD
ENGINE

Teamed with Powerglide is the most powerful valve-in-head engine in its field and an outstanding performer in any field!

WASHINGTON
Letter

IN THE FIRST SHOW-DOWN VOTE the Congress has taken on UMT, the House last week scuttled the proposal by a vote of 236 to 162.

It was regarded by some as an election year about-face, the House having approved the principle of UMT a year ago by a 10 to 1 margin. The sole question before the rules under which the program would function. Without these rules written into law, the training machinery will remain inoperative. I voted against scuttling the program.

Actually, the training rules, prepared by a civilian-controlled commission and the House Armed Services Committee, eliminated most of the objections that have been raised by the public. Among these were:

1. The plan voted down last week prohibited any military control over the training or the trainees—that control being committed to a civilian-dominated commission subject to the direction and control of the Congress. After training, the reservists thus created would be subject to active duty only by special action of Congress.

2. The training plan provide the maximum of protection against undesirable environment and immoral influences while training—even more so than can now be provided in most of the colleges.

3. When fully effective, as a reserve pool of "ready reserves" would be created the standing forces would be substantially reduced without reducing the Nation's security, at an estimated saving to the taxpayers of \$13 billion annually.

AT THE SAME TIME, if the UMT program had been approved, the Korean veterans and other veterans—would have been given a break. Men on duty, under present law will when released after two years, automatically be subject to six more years of standby duty in the reserves. If another war or expanded emergency should develop in the future, these veterans reservists may be the only "ready reserves" of fighting men available.

That happened when we got into the Korean war. With our embattled forces facing possible disaster and pushed back to a small periphery around Pusan, the Pentagon turned to the trained reserves—nearly all of them veterans of the last war—and called 800,000 of them away from the wives, children and jobs. That was done even though there were around two million young non-veterans who had reached military age after 1945. They were available for draft, but it would have taken months to train them and General McArthur called for trained men immedi-

Personal Notes

Mrs. Rip Ward and son, Albert, and Dorsey Carroll spent the week-

ately.

The whole purpose of UMT is to give basic training to non-veterans, then return them to civilian life in a ready reserve status, subject to call in case Congress should in the future decide an emergency should justify their call to active duty.

But with the defeat of UMT, the only ready reserve forces that can be counted on, in the main, will be those who have fought in Korea and in World War II. Many of us think that burden should not be confined to veterans of other wars but should be primarily assumed by youthful non-veterans-products of UMT.

On the subject of fairness, a good question was asked: "Isn't it fairer to train four trainees for six months than it is to draft one recruit of the same age for 24 months of service?"

end in Brady where Mrs. Ward visited Mr. and Mrs. Baker Henderson, and Ward and Carroll attended a dance given for the attending bands.

Mrs. Jack Ellingson who has been receiving medical treatment returned home Monday after several days in the Hudspeth Memorial Hospital.

Mr. and Mrs. C. F. Cox of Alpine were here last week guests of her parents, Mr. and Mrs. Wes. White.

For Normal Driving - It Loafs!

You cross over the boundary into another state—and there are the posted rules and regulations.

Maybe the daytime limit for passenger cars is "forty-five"—or "fifty-five." Or, maybe no limit at all... just your own good common sense and the general rules of safety.

Well, whatever the legal limit, your Golden Anniversary Cadillac is going to "loaf"!

Down under its hood is the most powerful engine ever used in a standard American passenger car. There's more power there than you'll ever need—except for emergency.

But don't think that power doesn't work for you—even when you're driving within the legal limits!

It works for your safety... because a great reserve of power is a wonderful safeguard in most of the driving emergencies that present themselves.

It works for your comfort... because no car rides so well, or handles so superbly, as when it "coasts along," with a great percentage of its power still under the accelerator.

And it works for your peace of mind... for it is

unbelievably comforting to know you have tremendous acceleration, should the necessity for it arise.

Of course, power has to be harnessed and handled in order to be your friend and servant.

So the Golden Anniversary Cadillac has superb new brakes—larger and more efficient—and designed and built to double the span of their endurance.

And those who want the ultimate in easy handling may order at extra cost Cadillac's new power steering that eliminates up to seventy-five per cent of normal steering effort.

It would take a volume to tell you all the things that have been done to make this a "car among cars." But it will take but a mile or a minute for you to sense what it means in terms of pleasure and satisfaction.

It means something wonderful... too wonderful, in fact, to miss!

Better come in today—for a look—and a ride—and a revelation.

What's going on in Sonora

Auto license tag sales are a little slow, according to Mrs. L. E. Johnson, deputy collector. Through February 6, 185 tags had been sold; the total yesterday had reached 355. About 800 will probably be sold by April 1, the deadline, Mrs. Johnson said. . . . Sonorans coming and going: the Sam Logans and daughter arrived this week from Saudi Arabia, where they lived for the last two years. Mr. and Mrs. Lawrence Nichols are leaving to make their home in Christoval. . . . More honors for Sonora ex-students: Martha Renfro has been elected to Alpha Lambda Delta, national honorary scholastic society at the University of Texas. She was elected on the basis of her exceptional freshman grades. . . . Fred T. Earwood and Joe M. Vander Stucken are in Washington this week conferring with government officials about the wool industry, etc. . . . They are still planning on paving five miles of the Bond Road.

Music Club Gives Texas Program In San Angelo

The Sonora Music Club presented a program for the San Angelo Philharmonic Society Tuesday evening at the Massie Clubhouse. The program was on Texas music and music by Texas composers was presented.

Mrs. Rip Ward spoke on "Music in Texas." Miss Nancy Royster sang, "My Heart Is A Silent Violin" and "The Tempest" by Oscar J. Fox. An arrangement by David Guion was played by Mrs. E. D. Shurley, pianist.

Piano numbers, "Western Romance" by Reuben Davies and "Country Jig in C Major" by Guion, were played by Miss Dorothy McLure. Mrs. Louie Trainer is president of the Sonora Club and Mrs. Stanley Mayfield was chairman of the program committee.

Congratulations

To These

Ever go "over the side"?

IT ISN'T EASY with the roll of the transport and the clumsy sway of your heavy full field pack. And, at the foot of the landing net, the risky drop into the cold, crowded landing craft bobbing in the choppy sea.

Then, finally there's the tense, terrible run toward an angry beach and a destiny you cannot even guess.

It's all very serious and dangerous and hard. Yet thousands of American youngsters have done it—and are ready to do it again, if need be, in defense of our country and you.

But defense is your job, too. And you can do your job, in an important way, by buying U.S. Defense Bonds.

For these bonds make you and your family secure at home. They provide the economic stability that's needed behind our effective military power. And they help keep America at peace because they help make America strong—in a world where peace is only for the strong.

So, for the sake of the boys on the landing nets—and for your own family's security—invest your savings in United States Defense Bonds now!

The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

PEACE IS FOR THE STRONG... BUY U.S. DEFENSE BONDS NOW!

'52 FORD VICTORIA with V-8 engine only

Come in and "Test Drive"

THE ABLEST CAR EVER BUILT for the American Road!

Here it is . . . the car that is destined to change the industry.

Farsighted planning by the largest single engineering department in the industry has made it possible for Ford to bring you an all-new car for 1952 . . . a car that is designed to do more things for more people for less money than any other car ever built! It's the ablest* car on the American Road!

For this new Ford leads the industry with a choice of V-8 or Six, both packed with new power . . . with the Full-Circle Visibility . . . with smoother riding, corner-hugging Automatic Ride Control . . . with the new weather-sealed comfort and safety of Ford Coachcraft Bodies . . . and with new convenience features like Center-Fill gas filling.

*Meets the widest range of motorists' needs.

OUT-PERFORMS THEM ALL!

Choose either the new 101-h.p. high-compression, low-friction Mileage Maker Six, or the 110-h.p. high-compression Strato-Stor V-8, most powerful engine in the low-price field.

OUT-SIZES THEM ALL!

The '52 Ford has longer wheelbase, wider front tread and greater length. It's big outside and big inside, with spacious seating for six . . . the largest luggage locker in the low-price field.

OUT-RIDES THEM ALL!

The '52 Ford with Automatic Ride Control, lets you take the curves on the level . . . out-rides all others in the low-price field.

White sidewall tires if available, optional at extra cost. Equipment, accessories and trim subject to change without notice.
