3,000 Acres Burn In Weekend Brushfire

A brush fire which began south of the Rockport city limits last Saturday at noon was brought under control later that evening, requiring the efforts of the entire Aransas County Emergency Corps and Women's Auxiliary, and resulting in the charring of several thousand acres of woodland, varying degrees of damage to almost each unit of fire fighting equipment used and minor injuries to a member of the Lamar Volunteer Fire Department.

Fire departments remained on alert through the weekend to contain the threat of "hot spots" which developed into sizable blazes the following days. Smoke from one of those second day fires could be seen from Portland. To the north, witnesses reported seeing Saturday's column of smoke from Tivoli.

Fire officials still did not have an exact idea of the amount of acreage burned, but Elva Mullinax, city and county fire marshal, estimated that between 2,500 and 3,000 acres had been blackened.

Richard McCarty, 28, was taken to Memorial Medical Center in Corpus Christi Saturday after he suffered lacerations and bruises when the Lamar VFD's International Harvester fire truck rolled over while turning a sharp street corner. Officials reported the Lamar truck had sideswiped another fire vehicle in a separate incident earlier. No injuries occurred in the first collision.

Two other firemen were treated for smoke inhalation on Saturday and Sunday. They were treated locally and released.

A number of fire fighting

vehicles, other than the Lamar unit, were damaged as they drove through the heavy oak underbrush to get to the midst of the conflagration. Most units received some damage to bumpers, fenders and lights, and the Rockport No. 9 unit was reported to have as much as \$1,000 worth of damage to the transmission. Mullinax said that the emergency corps vehicles were, as a whole, damaged "pretty heavy."

A fire control center was set up late Saturday evening just south of the Club Lake area, and the roaming 6X6 converted army trucks returned from time to time to fill up with water from a tanker contributed by the Aransas Pass VFD, and fuel from the Aransas County road department.

Saturday, approximately a dozen units were set to the task of controlling the fire. Sunday about 15 units from Ingleside, Aransas Pass, Fulton, Rockport, Holiday Beach and Lamar were in action against the fire, which had developed two "hot spots."

Fire department officials thought the fire had started in a pile of brush off FM 1069 behind the Wagner residence, and grew as a result of strong winds. At one point Saturday firemen were thrown into a state of confusion when the wind suddenly shifted from the southeast to a more easterly direction. That shift turned the direction of the Saturday fire away from the Peninsula Oaks subdivision toward the old Wheeler Ranch off FM 881. Firemen managed to halt the fire just as it crossed onto the ranch although sparks ignited some small areas across the highway.

In the field, firemen reported that the blaze had actually backtracked in certain places, rolling under the wind and heading in the opposite direction.

No homes were lost in the fires, but at times on Saturday the McNutt residence and another home nearby were completely surrounded by flames. Firemen and residents of the area watered down roofs when the flames appeared to be headed toward the homes, and through those efforts, and the work of the 6X6's, a half dozen homes in the midst or on the perimeter of the fire zone were saved.

To the north, the fire was halted before reaching the Elliot residence on Club Lake Dr. The fire continued into the thicket roughly along a line from the Elliot residence to the Wheeler ranch. At the Wheeler ranch the boundaries of the burned acreage veered toward Aransas Pass and it was in this area that the "hot spots" continued to flare up during the

next day. Most of the burned acreage was in this back area, and the only real threat to homes was near the north end of the fire on

Saturday. Mullinax said that the lack of rain in that area had been the prime reason the fire had spread so rapidly. The area was

not hit by the rainstorm which passed over the Rockport vicinity a few days before. "We've got to start a rain dance or

(Continued on page 2)

FOR DAVID ILES, 5, AUGUST 22 WAS A RED-LETTER day as he entered kindergarten class for the first day of school. Shown with David is his father, Jerry Iles, and his first grade teacher, Ms. Phyllis Thompson. David is a student at Rockport Elementary.

Need For New Zoning Plan Aired

The need for an in-depth study and overall rezoning of the city of Rockport was aired Monday evening at the regular meeting of the Rockport City Council after the council and the Planning and Zoning Commission took actions on six zoning related items.

The need for a new study of the zoning restrictions in the city surfaced as the agenda entered Item Six in the first public hearing session of the night. Item six was the consideration of a proposal to amend the City of Rockport Zoning Ordinance No. 150 by clarifying the differences between the B-1 and B-2 (businesses and stores) zones. A

second section of Item Six was intended to provide 4300 square feet as the minimum lot area for a dwelling unit.

Designation B-1 calls for restriction to certain shops and stores such as retail stores, offices, parking lots, theaters (excluding drive-ins), cafes, public buildings and similar structures. B-2 calls for gas

stations, printing shops, shoe, tire or electrical shops, welding shops, tinsmiths and other similar businesses.

The complication which has

arisen in recent months is the question of whether certain shops, such as fish shops, are to be restricted to the B-1 or B-2

(Continued on page 2)

Storm Spawns Funnel In Bay Vicinity

The Rockport and Fulton areas just missed some severe weather last Friday as a storm front passed over the residential areas and dipped a couple of waterspouts in the Copano Bay vicinity.

Bob Howard, an official at Aransas County Airport, said that the front had displayed some severe weather activity, including the formation of a couple of small funnels.

Howard said that the weather was at its worst as it passed into the bay, and the funnel formations were sighted at that point. No damage occurred at the airport.

The front came from the southeast and passed over the residential areas at approximately 10:30 a.m. Friday. After crossing Live Oak Peninsula, the front continued in a northerly direction, toward Refugio.

FUNNEL SPOTTED AT AIRPORT

Enrollment Up From Last Year

A total of 2,237 students attended the first day of school in the Aransas County Independent School District on Monday, August 22. This year's enrollment compares to 2,175 enrolled on the first day last year.

The first day went very well according to the high school principal, Mr. Charles Barre, and the junior high principal, Mr. Pat Smith. With several new changes in procedure enacted, Mr. Smith said, "With all factors considered, it was a good day and the students were

Reporters Wanted

In order to bring complete coverage of area news and happenings, the Rockport Pilot is seeking correspondents from the communities around Rockport. Subdivisions like Holiday Beach, Copano Ridge, Woody Acres and others have events and happenings that should be publicized and given news coverage.

Anyone interested in providing this service to their area and community should contact Perry Carter at the Pilot office. The number is 729-2357. The column would entail the news and personal events in the community.

Best Year Reported By Shrimpers

Local and area shrimpers heard the kind of news they like at the Aransas Shrimp Association's dinner meeting Friday night, August 19. 1976 was the best year in the history of the organization with a 23 percent increase in volume over 1975, according to Bob Mauermann, retiring executive director of the Texas Shrimp Association

and the Shrimp Association of the Americas. This increase also signifies a 54 percent increase in value over 1975. Approximately 210 million pounds of shrimp was brought out of the Gulf of Mexico this past year.

Mauermann concluded his remarks to the crowd of approximately 175 persons by

noting that the Gulf fishing area is now "the most important fishery in the world."

In announcing Mauermann's retirement, the president of the Association, John Jackson of Rockport, also announced that Ralph Rayburn will succeed Mauermann and will be moving

(Continued on page 2)

JOHN JACKSON, PRESIDENT OF THE Aransas Shrimp Association, is shown with Ms.

Pat O'Keefe and Bob Mauermann at the Association dinner Friday night.

Reserved Tickets Ready

Rockport-Fulton High School patrons who purchased reserved football seat tickets last year are asked to claim those seats by Friday, September 2, if they still want them for the 1977 football season.

Season tickets may be claimed in the superintendent's office by the deadline date by paying \$10.00 per season ticket for the five home games.

Season tickets that are unclaimed at that time will be sold on a first come, first served basis.

All reserved seat tickets will go on sale September 6. These reserved seat tickets will be \$2.00 each. General admission for this season will be \$1.75 for adults and student admission will be \$1.00.

Injured Child Reported To Be Improving

A four-year-old Rockport child who was struck by a vehicle Sunday morning remains in intensive care at Memorial Medical Center in Corpus Christi, and her condition has been reported by a family member to be improving.

Geneva Leonard, daughter of Beverly Reed, was struck by a car as she darted from behind a parked vehicle on N. Pearl St. about 10:30 a.m. last Sunday.

A member of the family said that the youngster remained in the intensive care unit at the hospital after undergoing surgery to place pins in her damaged jaw.

Special Education Screenings Scheduled

The Early Childhood Program for students with special learning needs will be conducting a screening program at the Rockport Elementary School on Friday August 26.

The program, offered by the Aransas County Independent School District, is organized to place students who have special learning needs in appropriate classes.

Officials working with the project have supplied a list of questions which parents should ask themselves in determining the need for a screening:

1. Has the child been diagnosed by a doctor as deaf, blind, mentally retarded, physically handicapped, emotionally disturbed, or learning disabled?
2. Does the child not talk very much, point or make noises to get what he or she wants?
3. Does the child have a special problem? Can the parent and others understand the child when he or she talks?
4. Does the child have trouble learning songs, nursery rhymes, prayers, or what the parent asks him or her to do?
5. Can the child see well? Does he or she hold books extremely close, or sit close to the television for viewing?
6. Does the child seem to have a hearing loss? Can the child hear its parents talk to him or her?
7. Does the child seem to be

clumsy with his or her hands? Does the child tend to fall or stumble a great deal?

If the parent answers yes to any of the above questions, the program organizers suggest that the parents contact Rockport Elementary School at 729-6344 and set up an appointment on the above date.

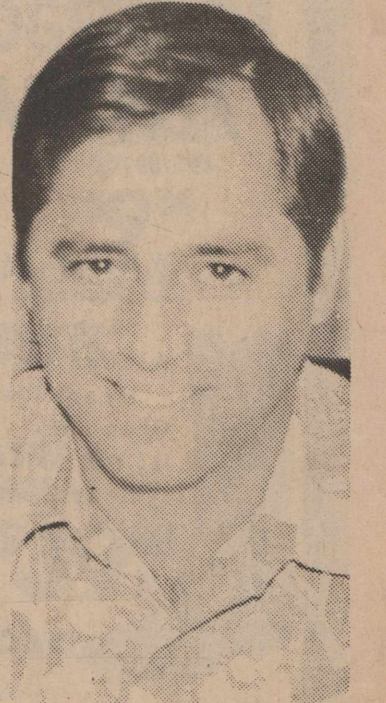

Rayburn To Head Shrimp Association

Ralph Rayburn, currently serving as the county extension marine agent for Aransas and San Patricio counties, will take on a new job beginning October 1. On that date, Mr. Rayburn will become executive director of the Texas Shrimp Association in Austin.

"I certainly hate to leave all the friends and associates I have here, but I felt that this was also a job that I could fill and it offers new opportunities to me," Mr. Rayburn noted.

As the marine agent for the Texas Agricultural Extension Service, operated through Texas A&M University, Mr. Rayburn for the past two years has led a brand new program for this area. "We have tried to offer here the same services to the marine resource user that the agriculture user gets from his county agent," he went on.

Brushfire

(Continued from page 1)
something," said Mullinax about the dry situation in the woodland area.
Mullinax also pointed out that conditions are dry enough now to restrict brush burning on windy days. Persons wishing to burn piles should contact Mullinax at 729-2132 to see whether conditions will permit

burning.
The fire marshal also expressed appreciation to the members of area fire departments for their assistance over the weekend. Mullinax said that the efforts had received help from the Aransas County Sheriff's office, the ACHVI ambulances, Rockport Police and the emergency corps

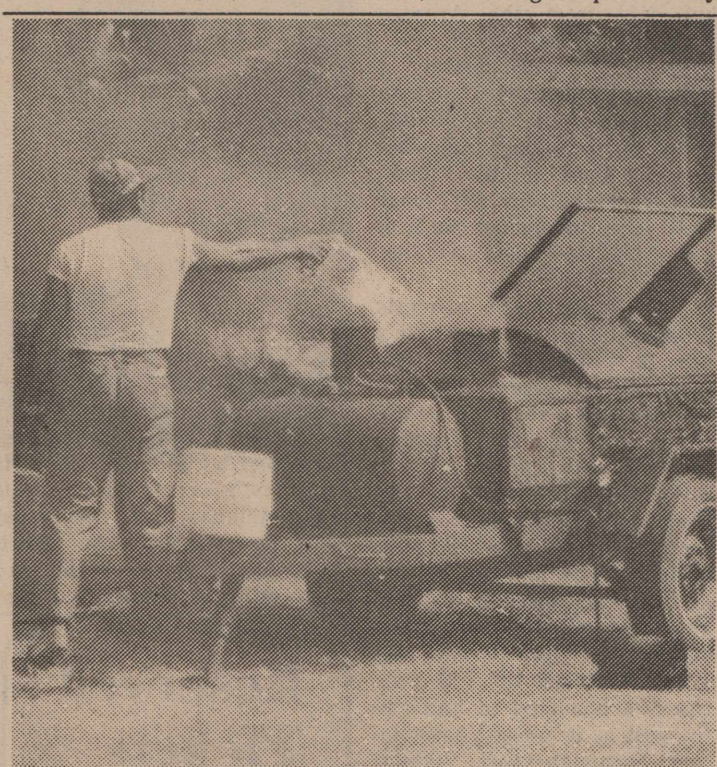

women's auxiliary, as well as a number of volunteer residents. Mullinax also reported that the large number of sight-seers in the area had cooperated thoroughly with the fire departments.
Despite the severity of last weekend's fire, it was not the worst brushfire in recent Aransas County history. In 1959 a

brushfire began in the Copano Cove subdivision area and charred "thousands of acres" according to Mullinax.
That fire, which required assistance from Corpus Christi and Robstown fire departments, destroyed seven homes as it swept into the residential sections of Fulton and north Rockport.

THE LAMAR FIRE TRUCK lies on its side as workmen prepare to winch it rightside again. The vehicle, involved in two accidents during Saturday's brushfire south of Rockport, sustained damage to the transmission, motor and cab, according to preliminary

reports. Two firemen riding in the truck were injured, and one was taken to Memorial Medical Center where he was released after examination. According to reports from the scene the brakes on the International Harvester truck had failed.

AN UNIDENTIFIED WORKER ATTEMPTS to put out a tar pot fire with water a few minutes before the Rockport Volunteer Fire Department arrived on the scene at Shell Ridge Road Tuesday morning. The firefighters quickly put out the smoldering blaze.

Notable Notes

REACT Officers

Gerald Owens was recently elected vice president of the Aransas County REACT Association, and he was joined by other new officers: Mrs. Rheinlander as treasurer and P. Monroe as information officer. The local REACT teams are seeking additional participants to help monitor the 140 hours of the week which they cannot yet staff. Peggy Monroe will be glad to offer information about REACT membership if you will call her at 729-5173.

Play To Be Presented

The award-winning play, "Waiting for Godot," will be presented by the Alpha-Omega Players at the First Presbyterian Church August 28 at 8:00 p.m. in the church auditorium. This will be a trial run for the company before they take the show on tour. The play is a stark drama dealing with man's adjustment to the world he lives in and has been reviewed as an artistic masterpiece of modern theatre.

To The Editor

Dear Editor:

On page 2 of the Rockport Pilot dated August 18, 1977, under the article, GOVERNMENT POLICIES HURTING AMBULANCE SERVICE, the following statement was made by Jerry Shaw. "This rate that the government pays to the ACHVI is not the same as is paid to Funeral Homes." This statement is not true as we are paid 25 cents a mile less than ACHVI. Jerry Shaw pointed

Rayburn

(Continued From Page 1)

to Austin to begin his new job October 1. Rayburn currently serves as the Marine Extension Agent for the Texas A&M Extension Service. The Texas Shrimp Association will be moving its offices from Brownsville to Austin in order to be closer to the state executive and legislative action.

The second part of the program was conducted by Ms. Pat O'Keefe, associated with Smith, Buckland and Associates of Chicago. The firm is contracted by the shrimp association to promote seafood, especially shrimp, across the United States.

With the help of a slide presentation, Ms. O'Keefe pointed out that her firm had used newspaper and other forms of media advertising to acquaint the American consumer with all the possibilities of shrimp cookery. Citing such magazines as Redbook, McCall's, and Woman's Day, Ms. O'Keefe assured the shrimpers that their advertising dollar was being well used to promote their product.

"The motto of the campaign, 'Good Times With Shrimp,' certainly means good times to the shrimp industry, which is so important to the economy of the area," Ms. Smith pointed out.

Other honored guests at the dinner included Dr. Russ Mejee, fishery specialist with the Texas A&M Extension Service. The Board of Directors of the association was also introduced. They included Nick Mirkovich, Buddy Galjour, Leslie Casterline, Richard Bishop, Dinko Smircic, Dick Ellis and Joe Militello.

out in this article that the ambulance service we give is not comparable. In a recent letter to the editor of this paper I wrote, I stated that Aransas County had the finest ambulance service in the state of Texas and possibly the United States. We do not compare our ambulance service with Aransas County ACHVI, even though we have upgraded our service and have added 3 Emergency Ambulance Technicians to our staff.

Jerry Shaw recently wrote a letter of complaint to the Aransas County Commissioners Court about a Marshall Ambulance making a call that he heard on the police radio. This complaint was verified as not being true according to the police log of the Aransas Pass Police Department. I called this to Jerry Shaw's attention, asking him to retract his complaint to the Commissioners Court and this was not done.
My wish is, for Jerry Shaw to be sure of his information and his knowledge before future statements are made and future letters are written. Another wish would be that differences and opinions might be resolved and that we all work together for a greater Aransas County.

Sincerely,
s/Charlie Marshall

Enrollment

(Continued From Page 1)

a good group."
The junior high enrollment this year is 553 students as compared to 559 last year. The high school count is 675 students. Last year at this time, there were 643 enrolled.

Fulton Elementary stayed the same as last year with 128 students. Rockport Elementary is up to 605 students over last year's enrollment of 574. Live Oak Elementary, with grades 1 through 4, reported an enrollment of 276 students on the first day. Last year's enrollment was 271.

The largest increase of students came at the first grade level with a total of 211 students compared to 172 for last year.

It is anticipated that another 50 or 60 students will enroll before the district reaches its peak enrollment in November.

You Tell Us

How do you feel about going back to school?

It was like going to prison. I mean all summer off and then I have to come back here. I guess I'll get used to it, but it sure is hard. The thing I like best is shop. That's a lot of fun and I enjoy it. GLEN PAYNE, 8th GRADE.

It was all right for the first day. I went to the wrong class once but I got that straightened out. All in all, it was a good day and I think school is going to be fun this year. DEBBIE REYNA, 7th GRADE.

Well, I guess it was O.K. I enjoyed most going to lunch. It's just going to be hard to get back into the new routine after being off all summer. The worst thing that happened was getting in line to get a soft drink and I had to go to class before I got mine. MIKE SUMPTER, 7th GRADE.

I had a very good time the first day of school. I got to eat in the cafeteria for the first time and that was fun. We got to color pictures and have recess. ANNALIES CORBIN, 1st GRADE.

It was both a good and bad day. Since I'm new here, I didn't always go to the right place. However, all the others were nice to me. I really did like the first day and all my teachers. MARTHA HOWARD, 7th GRADE.

The first day was a lot of fun. I got to color pictures and go to the library. We went outside to play and had exercises. The lunch was good, too. The thing I didn't like was to stay in the sun. I liked the mashed potatoes and the steak fingers. TRACY HATFIELD, 1st GRADE.

SMOKING, MATCHES AND FIRE

Smoking and matches are the primary causes of house fires which kill thousands of persons each year and result in millions of dollars of property losses. The first line of defense is to avoid these fire hazards in the home. Here are a few:

Use large, deep ashtrays, and never smoke in bed or in a chair when drowsy.

Make sure matches, cigarettes, cigars, and pipe ashes are completely cold before throwing them out.

Never use a match or smoke near flammable liquids or in places such as attics or closets or near stacks of paper.

Be careful that burning cigar or cigarette and pipe embers do not fall into crevices of upholstered furniture where they can smolder without being detected.

Use safety matches and strike a match away from you. Remove one match from the box or folder at a time, and close it before striking.

FULTON BEACH RD. FULTON, TEXAS 729-1185

Lady Bus Drivers Have A Busy Day

Attention to the men who design school buses: the ladies are behind the wheel now and would appreciate it if the buses were designed better. "You wouldn't believe the most unladylike positions I have to assume when I'm driving my bus," laughs Niki Corbin, who is 5'7" foot five. "I have to do everything on tippy-toe or get a block under the pedals," she explained.

Mrs. Corbin doubles as a bus driver when not behind her desk at the Fulton Elementary School, teaching the first grade. In her ninth year of teaching, the graduate of North Texas State University covers an area south of Fulton to Live Oak. She drives only in the afternoons and delivers all grade levels back to their homes.

Making both a morning and evening run is Louise Smith, also a teacher at Fulton Elementary. Mrs. Smith picks up and deliver the severely han-

icapped students, which means that she must also deal with wheelchairs and braces on occasion. "Because I also teach these same students in the classroom, they are used to me and that really makes my run easier," Mrs. Smith explained. Mrs. Smith goes all the way to Aransas Pass to pickup her students. "I try to make the trip a continuous learning process for my students the entire time. I talk to them continuously and they learn to read the signs and bill boards. They will also try to recognize all the vehicles and boats they see. In this way, they are learning as well as becoming familiar with the environment," she explained.

Mrs. Smith is a graduate of Texas A&I and has been teaching for 35 years, much of the time overseas. Since she can also teach driver's education to the handicapped, she knows the workings of the motor quite well.

Both ladies got into the bus driving business rather accidentally. Mrs. Corbin had gotten a commercial operator's license in order to take her students on field trips. When the school officials found out about it, they convinced her of the need. "I didn't actually volunteer," she explained, "but I really do enjoy it and the children are actually very good and behave quite well."

"In my case," Mrs. Smith explained, "there really was quite a need for me to drive the bus." According to Mrs. Smith, the handicapped students need to have their patterns uninterrupted and they get along better with the same person around them, if possible. "So by driving the bus, I fill a need for the schools and my students."

Neither driver reported any

specific problems other than children occasionally leaving things on the bus. "The thing I have to watch most is the younger students picking on the older ones. They really do. Maybe they think I'm like Momma and will protect them," said Mrs. Corbin.

According to Mrs. Corbin, the worst thing that has happened to her occurred during the driving test. "The bus I was taking the test in caught on fire. I think the officer was more flustered than I was," she recalled.

Bus drivers must now have a commercial operator's license and go to school for courses in handling the vehicle and passenger safety. "If my bus

breaks down," Mrs. Smith explained, "I stop and put out the safety flares and stop the first person with a C. B. and somebody comes to help me." According to both drivers, this does not happen too often thanks to Johnny Green, in charge of bus maintenance and mechanics. Mr. Green thinks both of his ladies to be very competent and that the size of the bus really doesn't make a difference.

Both Mrs. Smith and Mrs. Corbin expressed that the buses were easy to handle and that they turn surprisingly well for such a long vehicle.

How do the students react to a lady at the wheel? "The younger ones look at me like they're surprised to see me there, but we all get along well and after a while, the newness wears off and it's just part of their day," Mrs. Corbin related.

Six Are Charged In Connection With Rape Case

Six Rockport residents remain in Aransas County jail on charges related with the rape of a thirteen-year-old runaway from San Antonio.

Held under \$5,000 bond were Eulalio Rodriguez, 22; Estaban Sanchez Rodriguez, 21; Antonio Rodriguez Jr., 20; Antonio Zamora, 17; Terry Ray Langerman, 21; and David Allen Covarrubias, 19. Five of the young men were being held on charges of a rape of a child and the sixth was held on indecency charges.

According to Sheriff's Office reports, the attack occurred on the night of August 12-13. Five of the six charged with the crime had previous criminal records.

 Troops will begin their meetings the week of August 29. Cost of registration is \$2.00 for one year.

Parade Entries Needed

SeaFair Parade Marshall Bob Lawler wants to remind everyone to be sure and enter the parade early this year for SeaFair. "I really want to remind the kids to start getting their bikes ready for the contest," he noted. Last year, approximately 70 youngsters entered the gaily decorated bikes and Mr. Lawler is looking for even better participation this year.

The parade, which opens the festivities October 8, has already begun to shape up. Mr.

Lawler expects participation from the Aransas County Riding Association, the Shriner's motorcycle brigade, the Navy band, and the Rockport-Fulton High School band, as well as the floats entered by local businesses.

Starting at 11:00 a.m., in front of the post office, the parade will go down the business section and end at the SeaFair grounds. There will be winners in all categories and prizes will be given in each division.

Library Notes

From The Aransas County Library

Winners in the library's Summer Reading Club for drawings and interesting facts learned through research were announced this week. First Prize winner was Donald Cutcher. Patricia Cosby placed second while third place went to Mary Ellen Harder. Honorable mention went to Norman Spears III, Dan Rucker, Milissa Cosby and Amanda Solis.

The library wishes to thank Johnson Drug, Dairy Queen, and Cinema 35 for contributing the prizes.

The library gratefully acknowledges the following donations and memorials: Eugenia Kowalik, Mrs. Leland Fisher,

Mr. and Mrs. H.L. Shirey, Mr. and Mrs. Drew Harrell and Val Jean Eaton.

Rotary birthday donations came from Perry Carter, Bill Christian, Ed Armstrong, Pat Farley and Theil Sharpe.

Most popular fiction circulating includes "The Thorn Birds" by Colleen McCulloch and "The Crash of '79" by Paul Erdman. The most popular non-fiction circulating includes "The Camera Never Blinks," by Dan Rather; "Fishbait," by William Miller as told to Francis Spatz Leighton; and "The Book of Lists," by David Wallechinsky, Irving Wallace and Amy Wallace.

Band Ready To Perform

It begins early and goes to dark, but the Rockport-Fulton High School band will be ready for the first game, September 2, according to Peter Cheaney, band director. The band is currently holding morning and evening rehearsals at the band hall.

Drum major Mike Vermillion and his assistant, Mary Ballou, are working on several halftime routines that promise to be an

exciting new feature at this year's games.

Approximately 140 students will take to the field when school starts. Mr. Cheaney felt that the full number will not be known until vacation is over.

Head twirler for the band will be Valerie Ovenden. Others in the group include Gina Benavidez, Ann Corbett, Luann Little, Jean Flanagan and Teresa Pena.

Sophisticated 60" Ad/Living Room

Nursing Home News

The Aransas Pass Nursing and Convalescent Center had some nice entertaining activities last week.

Tuesday morning, Mary O'Quinn, our visiting volunteer, came out to visit our residents. Tuesday evening, the young people from the Aransas Pass Pentecostal Church of God, led by Cecil Cox, came out and visited and had prayer with our residents.

After several weeks without the exercise program, they were reinstated Tuesday morning.

Thursday morning, the Pruitt sisters and Mrs. Wilson came out for the Pentecostal Hour. Brother Pruitt will be back with the group soon.

Thursday afternoon, six volunteers from the Aransas Pass Ladies Auxiliary of the V.F.W. were out to play bingo with our residents. This is a very popular activity with our people.

Friday morning, Jean Windham and Dora Rodriguez were on hand to conduct our painting GIBill students encountering financial problems should ask the Veterans Administration about its work-study program.

class while Bonnie is out of town. We do appreciate these ladies very much and also Lois Kinney for making the picture plaques for our painters.

Friday afternoon was "Sing A-Long" time, with the Rockport chapter of the AARP. Evelyn Townsend and several others led the activity.

Saturday morning, Father James Hamilton was here for Holy Communion for our Catholic residents. Sunday morning church services were conducted by the Rev. Al Bankert. Sunday afternoon, Bro. Dee Blasigame and members of Baptist Mission On The Bay, at Ingleside, came over for their monthly program.

A sincere thank you to all who are so devoted to making others happy.

NOTICE OF APPLICATION FOR A BRANCH OFFICE AND OF HEARING THEREON

Notice is hereby given that application has been made to the Savings and Loan Commissioner of Texas by: FIRST SAVINGS ASSOCIATION, Corpus Christi, Nueces County, Texas, for the approval of a branch office of said association, such branch office to be located at:

intersection of Highway 35 and Fulton Beach Road, Rockport, Aransas County, Texas.

Notice is further given that hearing on the application is set for 9:30 a.m. on September 15, 1977, in the offices of the Savings and Loan Department, 1004 Lavaca, Austin, Texas, pursuant to authority and jurisdiction granted by Art. 852a, TEX. REV. CIV. STAT. ANN. The particular sections of the statute involved are 2.13 and 11.11. The particular rules involved are 056.01.00.003 through .013 and 056.02.00.003 and .004. Such rules are on file with the Secretary of State, Texas Register Division, or may be seen at the Department's offices.

The applicant association asserts: that operation of the proposed branch office will not unduly harm any other association operating in the vicinity; that there is a public need for the proposed branch office; that the volume of business in the community in which the proposed branch office will operate is such as to yield a profit to the association in a reasonable time and certain other assertions per rules .056.02.00.003 and .004.

Anyone desiring to protest this application may do so by writing the Commissioner at P.O. Box 1089, Austin, Texas 78767 and so indicating, or by appearing at 9:30 a.m. September 15, 1977, in the Department's offices and voicing such protest when the application is called.

If no protest is registered prior to or at the time the application is called, hearing may be dispensed with; if a protest is registered and existing when called, hearing on the application will be continued to a later date for the purpose of receiving testimony and evidence from the parties and to accumulate a record of pertinent information and data in support of the application and in opposition to the application. ISSUED in Austin, Texas, August 18, 1977.

The Rockport Pilot Sports

Pirates' Brent Glover, 10; Mark McCabe, 33; and Joe Brooks, 32, show their style in last Friday's scrimmage against the Ingleside Mustangs at Ingleside. The Pirates showed strong defense in the action.

First Mixed Doubles Tourney Held At RRC

Nineteen players participated in a Mixed Doubles Fun Night tennis tournament at Rockport Racquet Club last Friday night under the lights.

It was the first club event since Paul Snodgrass was named teaching professional of the local club. He was in charge of the program. It is planned to have similar events the third Friday of each month, Snodgrass said.

Partners were picked by lot for the first round of play. Thereafter partners were exchanged to give everyone an opportunity to play with as many different partners as possible. Scores were not important because player exchanges were made at the end of every 12 minutes of play.

Following mixed doubles, men's and women's doubles were played.

Playing in the tournament were Jim and Suzette Taylor, Claudia and Leon Bateman, Bill and Eunice Hansen, Fred and Mary Jean Bennett, Reece and Ann Rozzell, David and Gale Roaten, Ed and Nan Schlucher, Mary and John Lynch, Munson and Evelyn Smith, Dewey Lingo and T.J. Johnson.

Following the tournament a potluck supper provided by the players was enjoyed outdoors. George Falk, general manager of Rockport Racquet Club, contributed liquid refreshments.

New advance payment procedures for GIBill students have been changed. Contact the Veterans Administration to day.

The Rockport Pilot Fishing

KEY ALLEGRO MARINA

The wind kept much of the fishing down this past weekend, and the 18 to 20 m.p.h. gusts prohibited all offshore fishing. Those people who took their boats out of the docks and into the bay found a few speckled trout, but even those catches were sporadic. The weekend as a whole was pretty much of a bust.

ST. CHARLES BAY MARINA

The wind was bad in this area and catches were only registered by those folks who always seem to know just where to go and just the right thing to do to get their fish.

Those folks brought in some sizable trout and reds with shrimp bait, and one party had enough left over to give some samples to us.

The wind has had a tendency to muddy up the water pretty well for the next couple of days.

KLEIN'S RATTLESNAKE POINT FISHING CAMP

There wasn't a whole lot of fishing action down in this area, mainly because there weren't a whole lot of fishermen out over the weekend.

Those that did drop by got in some really nice night fishing and we saw some good-sized reds and drum.

The weather is perfect for fishing right now, and the water conditions—salinity, clarity and tides—are in good shape. Since 90 percent of the fish caught in this area are coming in at night, we recommend night fishing.

SEA GUN MARINA

Fishing has been spotty, to be honest, but a few fortunate fishermen have had some pretty decent luck.

One fisherman ventured out into the Gulf this week and brought back 25 kingfish. The Whooping Crane has been bringing back about 300 trout a day, but that average will drop sharply on the windier days.

Gafftop catfish are starting to show up on some of the excursions.

Water conditions are slightly muddy now.

DEEP SEA HEADQUARTERS

Very choppy water in the Gulf made fishing difficult and not always productive, and at one point the waves were high enough to cancel one of our excursions.

Ribbonfish were the most productive bait over the past week, bringing in a 40 and 54 and one-half pound kingfish on the Marlin Queen II.

Blue water cannot be found until about 20 miles offshore, so the best results will most likely be found on the longer trips into the Gulf. Four-hour trips are not providing enough time,

Sailing Club To Hold Cruise

The Rockport Sailing Club will conclude August Activities with a cruise, Saturday and Sunday, to the anchorage south of Lydia Ann Island.

Cruising boats from the Corpus Christi and Bay yacht clubs have been invited to participate in the event, according to Park Gerdine, RSC cruise chairman. A beach party and bonfire on St. Joseph Island are scheduled for Saturday night.

Gaye Harper won the August 17 board boat races with two first places and one second. The races were fourth in the six week fall series. Warren Gerdine placed second with a first, a second and third place. Third was Andy McMillan with a third, sixth and fourth.

In the RSC August Regatta, held two weeks ago, Walter Foster skipped "Teal" to win the first place. Gary Startzell in "Karen K" was second and Dick Harrington was third with "Tabasco."

Startzell captured first place in the second race with Foster trailing. Murray McMillan skippered "Moi Koi" to third place.

Summer Tennis Clinic Ends

With school just around the corner, the Rockport Tennis Association closed out its junior summer clinic program with a target tennis tournament and hot dog party, August 11. The winners of the tournament were Wes Wilhour and Susan Walston.

Those people who helped each Sunday afternoon at Memorial Park were Jimmy Aleman, Barbara, Lori and Steve Allen, and the instructor, Jimmy Allen.

Ingleside Scrimmage Reveals Defense

Football wars in Texas began last Friday night in the form of scrimmages, and for the 1977 Rockport-Fulton Pirates, Ingleside proved to be a worthy opponent in the 80-play session. The Pirates used the break-away speed of quarterback Darryl Green to score the only effort across the goal line by either team.

The Pirates, possessors of a potentially high-powered offense, showed only a few bright spots occasionally, while the defense controlled Ingleside's Mustang offense.

Green's score came on the Pirates' second series of downs after tailback Charlie Edler flagged down a Green missile which covered 50 yards before Mustang defenders could end the play. Two plays later from about the 10-yard line, Green

skirted his own left and broke clear, needing only a block by Jerry Kelly to insure a score after the Pirate linemen had detained the Mustang pursuers.

Defense, however, provided most of the fireworks in the session. Pirate linebacker Joe Brooks picked up where he left off last year by leading the tacklers with a total of ten hits, two of those for losses, in the first 20 plays for the Pirate defense. The other linebacker, Bill Adams, had five hits and pulled in a Mustang pass and returned it some 35 yards. In the second 20-play session for the Pirate defenders, line-backer Mark McCabe paced with six hits. At various times other Pirates made big individual plays to keep the Mustangs away from the Pirate goal line. In the JV sessions the

Pirates fought to a 1-1 standoff with the Mustangs, but again, the defenders of the Pirates were the real news. On only two or three plays did the Pirate defense give up yards in chunks, and on one of those plays the Mustangs scored and on another, Pirate defender Arthur Perez made a saving tackle after the Mustang runner appeared on his way to paydirt.

A host of Pirates stood out on

defense, but Troy Reynolds, Jeb Beall, Charles McLead and Jackie Mundine paced the team in tackles.

On offenses for the JV, James Stevens led all ball carriers with 93 yards gained in six attempts. The Pirates' score came on a 24-yard run by quarterback Esequiel Hernandez on a busted play. Both Hernandez and Jim Garrison looked especially good operating the Pirate offense.

The head man of Pirate football, Coach Volle Williams, had praise for his troops and stated, "I think this was a very good practice for us. We wanted to see everybody under fire, and we did. Our defense was especially good."

This week the Pirates will host a scrimmage with Bloomington which was 8-2 in the Class AA wars a year ago. Not unlike the Pirates, the Bobcats will be quick and speedy.

Williams Prediction Calls For Tough Year

Cautious optimism as to prospects for Rockport-Fulton High School's football team during the coming season was expressed by Coach Volle Williams at a luncheon meeting August 17 at Sandollar Restaurant.

Williams said he was very much encouraged by the turnout for early practice—75 candidates, the best in the three years he has coached here.

In addition, Coach Williams said he has several good prospects from the junior varsity which had a most successful season last year with eight wins and two losses.

Second-year lettermen on the squad include Bruce Barre, senior, at 195 pounds; Darryl Green, senior, 165 pounds; Jolly Lewis, senior, 165 pounds and Reggie Morgan, senior, at 195 pounds.

Other senior lettermen are Bill Adams, 170 pounds; Keith Barrett, 170 pounds; Charlie Edler, 165 pounds; Gary Heasley, 150 pounds; Newlin Parker, 195 pounds, and Sam Solis, 195 pounds. Lettermen who are juniors include Joe Brooks, 170 pounds, and Algie Simmons, 175 pounds.

Among other promising prospects for the varsity, according to Coach Williams, are Scott Casterline, 170; Jerry Kelly, 160; Mark McCabe, 175; Paul Harris, 195; Raymond Bauer, 200; Bill Howland, 175; Kenny Matlock, 185; Steve Naylor, 170; Charles McLead, 165; Craig Woodman, 160; Alvin Bardwell, 170; and Bill Schendel, 175.

In reviewing briefly current status of teams in the district Rockport-Fulton will play, Williams said Gregory-Portland is the strongest, having had 11 wins and two losses last year. Also, it has 21 lettermen returning and has not lost a home game since 1968.

West Oso also has 21 lettermen returning, including 11 starters. Their record last year was three wins and seven losses. Rockport-Fulton beat them 26-0 last year.

Beeville will have seven lettermen back. Six are reported to be definite starters. Their record last year was nine wins and one loss, finishing as district tri-champion.

Flour Bluff has 21 lettermen back and is reported to have an improved football program in the works. Their last year's record was one win and nine losses. The local high school beat them 36-6.

Tuloso-Midway won nine and lost one game. In the last three years, Tuloso-Midway has won 27 games and lost only three.

Sinton has 11 lettermen returning, including all-state punter Russell Gibson. Their record last year was six wins and four losses.

Calallen expects 12 lettermen back, including all-state Dwayne Pulsey. Their record was seven wins and three losses.

Plan

[Continued From Page 1]
category. A similar question has arisen with lounges.

City Secretary Herman Johnson got to the root of the problem by asking the semantic questions "...what is a shop? What is a lounge?" Johnson explained that the city's zoning laws do not provide explicit enough definitions for those types of businesses to restrict them to either of the B zones.

After hearing the discussion of the need for a more in-depth zoning study, the council voted to set up a workshop with the Corpus Christi based city plan-

ner Bill Anderson. Anderson, who is with a firm that specializes in large scale city planning, is to meet with the council in early September for a preliminary discussion of possible rezoning measures.

Though the firm Anderson is employed with does not work on smaller cities, it was reported that Anderson, who drew up the present Rockport zones, might be able to work on the project independent of his firm.

"Zoning is getting to be a hassle," sighed Johnson, and that statement was echoed several times through the course of the evening. Council-

man Norvell Jackson advocated that if the city was to successfully redefine its zoning regulations, the proper procedure would be to enlist professional assistance.

Both articles in Item Six were tabled by the council on a P and Z recommendation, until the council, commission and Anderson can meet.

Other zoning actions taken by the council on P and Z Commission recommendations included a special use permit for a boutique by Leon Eschberger at 1405 Broadway; denial of a permit for rezoning of a section of Block 12 S&W for a title

insurance business; approval of the rezoning of part of Block 124 D&M to R-3 duplex and apartment dwellings at the request of the Harritt, Harritt and Eller firm; tabling of a request by James E. Allen of Rockport to rezone a section of Block 51, Manning subdivision, for a category which would allow the construction of rental units; an OK to a request by Juanita Wagley to rezone several lots of Block 252 S&W to B-2; and the approval of a preliminary plat of Unit 5, Harbor Oaks Subdivision.

Other actions taken by the council as they waded through

a lengthy agenda included the approval of a Houston Oil and Mineral drilling permit on Lot 3, Block 3 of the Little Bay Shores Subdivision. The old permit given to HO&M had expired without drilling because of the unavailability of rig equipment.

The investment of revenue sharing funds from the Ninth Entitlement Period so that the city may use the money and interest to purchase a fire truck when the Tenth Entitlement Period funds arrive.

--Bid approvals for the construction of a vehicle storage facility at \$15,735 and repairing

of the city's 200,000 gallon water tank for \$4,250.

--The swearing in of re-elected city councilman Charlie Garrett.

--The change of name for Encino St. to Encina St.

--Discussion of damages to the fire department building by vandals, and methods to prevent further occurrences.

--The narrowing of the right-of-way of a section of Morgan St. pending approval by residents along the street. The move was made to accommodate the Harritt, Harritt and Eller multiple dwelling request heard earlier that evening so

that current city restrictions concerning square feet per dwelling unit could be met. A master plan for the city presently calls for most Rockport street rights-of-way to be narrowed to some extent.

--Discussion of a business under construction on Aransas County Navigation District No. One property which does not meet the city's master flood plain ordinance. Discussion was heard that the structure, a boat gasoline dock, may not have fulfilled permit requirements with the Corps of Engineers, after the city approved a vari-

ance for the structure's altitude above mean sea level.

Participation in college-level training is greater under the current GIBill than under either the World War II or Korean Conflict programs, according to the Veterans Administration.

Payment procedures for GIBill benefits has ended. Students are now paid at the end of each month, training, the Veterans Administration reports.

GOD and HIS CHURCH

AMERICA'S First Line of Defense

One Great Certainty

We go back to the old homestead, the old home town. Perhaps we have long anticipated that visit, but now we find that the changes are so disillusioning that we don't care whether we ever return. We meet a friend of years gone by and hardly recognize him. He too has changed. We compare the face reflected from our mirror with old photographs and realize that, without knowing it, we have changed. We try to use a map of yester-year only to discover that it is out of date.

We shudder a little as we wonder if there is anything that remains the same.

The Church tells us that there is. Through the centuries it is the one institution which points to the unchanging God, "the same yesterday, today, and forever." Worship customs may differ, but every Christian congregation seeks to lead men to the one great Certainty, which is God. That is why you will want to attend church regularly. Here is peace. Here is assurance.

THE CHURCH FOR ALL

... ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Outdoors 'n Things

By L.D. Nuckles

The brown pelican, once thought by many to be passing completely from the Texas scene, is making a rather dramatic comeback.

The ban on the use of DDT and other chlorinated hydrocarbons in the United States is felt to be the reason the bird is doing so well in the last year or two. Some other birds that eat fish such as the bald eagle are also doing better, as is the peregrine falcon who often feeds on fish-eating birds.

When the chlorinated hydrocarbons enter the water they are ingested by little micro-organisms called zooplankton and stored in the body. The little animal is strained out of the water and eaten by forage fish such as the menhaden and all the DDT is collected into the organs of the fish.

When the menhaden is eaten by a fish-eating bird, such as the pelican, all the pesticide is concentrated in the body of the bird. Rarely does the bird collect enough pesticide to kill, just enough to upset the chemical processes of the body and cause any eggs produced to be very thin shelled. These fragile eggs can seldom stand the rigors of incubation and are broken before the baby bird can hatch.

David Blankinship, Audubon Society biologist, believes that the pesticides also reduce the hatchability of the eggs since they find many that were not broken but just did not hatch. There also is some evidence that the pesticides act as a deterrent to the nesting instinct.

Even though some of the chlorinated hydrocarbons still remain in the environment, and probably will for a long time, the ban on their continued use has thinned them out to the extent that the pelicans now seem to be able to lay a few eggs that are strong enough to hatch.

Although accurate records were not kept on nesting brown pelicans before 1964, it was estimated that there were about 5,000 nesting adults in Texas in 1920. When the use of DDT became prevalent in the late 1940's, the pelican population started to decline. It went down until no birds were raised in 1964, 1965 or 1966. Only 40 brown pelicans were raised in the whole state from 1967 through 1974. In 1975 nine young were raised from 18 nests. The next year 16 young were raised from 14 nests and this year a total of 34 young pelicans were fledged from 17 nests.

Biologists who work with endangered species are encouraged by the changes being made in the ratio between nests and young fledged. More young are being produced per nest and this probably means that the egg shells are becoming stronger and more able to stand the sometimes rather rough treatment of incubation.

For the past few years all the baby pelicans born in Texas have been banded with colorful plastic bands and with wide aluminum bands by Audubon Society Biologists. If you see a banded pelican you should report it to: Bird Banding Laboratory, U.S. Fish and Wildlife Service, Laurel, Maryland 20810, or to any office of the Parks and Wildlife Department. Your report should include the color of the band, which leg (s) carried bands, the date of the sighting and the location. This is valuable information and can contribute to bringing back the brown pelican in Texas.

Even the most pessimistic observers now believe that the browns are on the come-back trail and, although we may never again have as many as 5,000 of them living in Texas, we will have these graceful birds sailing around and diving for fish in our coastal waters for a long time.

Rayburn

(Continued from page 1)

"Through education and various other projects, we have let people know that we are here and interested in their problems of a marine nature and try to find a solution," noted the agent. "Quite often," he laughed, "I've had to say that I didn't know, but that I would find out."

In his new endeavor, Mr. Rayburn will be working for the shrimp industry through governmental agencies and public knowledge and awareness. "We want to build a strong trade association," he explained. He went on to add, "If one considers a value basis for the product, the shrimp

industry is probably the most valuable one in the United States. Considering that a great share comes from the Texas gulf, it is easy to see why it is so important to all of us on the Texas coast," he noted.

A replacement for Mr. Rayburn has not yet been announced, but Mr. Rayburn noted that the post will be filled and the work he has begun will be continued. "I feel that we have done some good work in getting this office opened and underway. The people in the area have been of tremendous help and I certainly want to thank everyone in the area for their interest in the program," Mr. Rayburn concluded.

Cancer Society Close To Goal

With the close of the fiscal year coming August 31, the Aransas County unit of the American Cancer Society is only \$786 from having its best year ever, it was reported at a meeting of the executive board, August 17. A special effort will be concentrated on raising the money to achieve the best year standing for the group.

Eight-nine percent of the best year has been collected so far.

Special guest at the noon meeting was Helen Foster, field representative of the Corpus Christi office of the national organization. Others in attendance included Dr. and Mrs. J.F. Benjamin, Rev. Josef Barton, Alice Moore, Mrs. Barbara Carter and Mrs. Bill Janacek.

In other business, the board planned the films for September.

AARP Holds Card Party

Pearl Gaubatz was hostess for the weekly bridge and canasta card party at the Paws and Taws building, August 18. Stan Heath was high in men's bridge with Frank Lenoir running a close second.

High in ladies' bridge was Minta Lancaster and Irene Hopper was second.

Ray Axton and Bill Browne were the finale prize winners. The next meeting will be Thursday, August 25, at 1:15 p.m. All members are invited to attend.

Reclamation Board Hears Firm

A representative from the Houston area engineering firm of Walsh Engineering was present at last Friday's meeting of the Aransas County Conservation and Reclamation District to give the board a basic idea of the capabilities of his firm.

The board did not take action on hiring the company, but noted an interest in their capabilities and asked for a financial statement and statement of bonding capabilities of the firm. If the statements are acceptable to the district directors, the engineering firm will be asked to meet with the district at a later date.

In other action at the meeting, the district received and accepted bids for the depository of the district's funds. First National Bank of Rockport will be the depository for the next two years.

ABC School To Begin Registration

Registration for the 1977-1978 school year at the ABC Learning Center will be held August 22 thru 26 and August 29 thru Sept. 2 at the school, 114 Church St., for children who will be three or four years of age by Sept. 1. Hours are 8:30 to 11:30 each morning. School begins Sept. 6.

Children may be enrolled in a two-day-per-week program for \$16.00 per month; in a three-day program for \$24.00; or in a full five-day-per-week program for \$40.00 per month. Scholarship assistance is available. There will be a small registration fee.

Parents must have their children's immunization records and a recent doctor's statement of health. Since classes will soon be filled to capacity, it is

Labor Day Regatta Planned

Plans have been completed for Rockport Sailing Club's Labor Day weekend board boat races, according to Evelyn Gerdine and Gail Leslie, chairmen.

Races will be open to club members and their invited guests. Trophies and ribbons will be awarded to winners in seven events. The club will furnish soft drinks, beer and hot dogs.

Races which will begin at 12 noon, Saturday, September 3, are as follows: Beginners, advanced juniors, advanced seniors, adult lady skippers, husband and wife, old salts and an overload race.

NEWS FROM COPANO COVE

By Jerry and Roger Larimore

Birthdays: Lee Larimore and Sam Franklin.
Anniversaries: Roger and Jerry Larimore (Second).

Hugh Odell was down this weekend to work on his boat that is on Speckled Trout Lane. Hugh and his wife Sandie lived out here before moving to Houston.

Edward and Kitty Bernal have had as their guests their seven and nine year old granddaughters visiting from Austin.

Mr. and Mrs. Al Gonzales will have a friend, Martin Childress, from Charleston, S.C., coming in for a visit.

Joe and Ruth Burns have had their granddaughter, Kimberly Ann, visiting with them. Kimberly Ann is from Houston.

Mr. and Mrs. T.E. White, from Canyon Lake, have been staying with their sons, A.J. and Charlie White. Mrs. White has a sister in the Sinton hospital where she has been going. She and her husband will stay with their sons until returning home.

Rev. and Mrs. Barton have had as their guest, their daughter, Frances, and her family. Frances is a graduate student in journalism at the University of Texas. Her husband Dick is a research scientist on gasoline recovery for Texas Research Institute. The Leveriches also had their daughter, Jubilee, with them.

We would like to introduce you to one of our local residents out here in Copano Cove. His name is Jon Santos. He is the seven year old son of Eddie and Jeanne Santos. On July 14 of this year, Jon was struck by a car on Pine St. in Oak Terrace. He was taken to Memorial Hospital where he was put in traction for 15 days. On July 29, Jon was put into a body cast. With the cast, he was able

to return home to his parents on July 31. He will be in the body cast for another three and a half months.

Jon will be a second grader at Live Oak Elementary School this year, but he won't be able to start the 77-78 school year until the middle of November. His mother says he really enjoys school. She has made arrangements with Mr. Gillis, the principal, to pick up his school work so Jon won't get behind.

We asked Jon what the first thing he was going to do when he has his cast removed. He

said he will ride his bike before doing anything else. He has two bikes and loves to ride them.

Jon watches a lot of television these days. He really likes Captain Kangaroo. We're sure he would love to hear from friends and teachers. His address is: Jon Santos, Star Route 1, Box 409-B, Rockport, Texas 78382.

He is a very cute and sweet boy, full of smiles. We'd love to hear about him receiving mail. Please let him know we care. He is the only child the Santos have and they are very lucky parents.

Landrum And Ruttiger Take STSU Degrees

Warren Glyn Landrum and Kristen A. Ruttiger, both of Rockport, are two of the 880 students at Southwest Texas State University who have filed for diplomas which were awarded in commencement ceremonies on August 13.

Landrum is the son of Mr. and Mrs. R.W. Landrum of 2100 Bay Ave., and Ms. Ruttiger is the daughter of Mr. and Mrs. Frank Ruttiger of Start Route 1.

Landrum received a bachelor's degree in biology and Ms. Ruttiger received a bachelor degree in home economics.

Crisis Center

The Aransas County Hospital Volunteers Incorporated emergency ambulance service reports the following calls for the week beginning August 15, 1977:

--August 15 at 2:43 a.m. the unit was dispatched to an auto accident on S. Church St. One patient taken to Lyman Roberts Hospital.

--August 16, at 4:50 p.m. the unit was dispatched to S&R Drive In to transport a patient

to Lyman Roberts Hospital. A patient was suffering from severe nose bleed sustained in an earlier auto accident.

--August 16 at 12:58 p.m. the unit was dispatched to Goose Island State Park to meet boat carrying a heart attack victim in from a fishing. Transport made to Memorial Medical Center in Corpus Christi.

--August 17 at 8:09 p.m. the unit was dispatched to Copano Ridge residence to treat sick patient. Advise made to see family physician.

--August 18 at 11:21 a.m. the unit was dispatched to care for youngster who had fallen from a tree. Child checked and referred to family physician.

--August 19 at 7:02 p.m. the unit was dispatched to auto accident at Laurel and Broadway. Injured person checked and advised to see physician.

--August 19 at 12:42 the unit was dispatched to Las Brisas Motel to care for possible drug

overdose. Patient transported to Lyman Roberts Hospital.

--August 20 at 7:17 a.m. unit dispatched to scene of auto accident on Hwy. 35 near Live Oak State Bank. Patient taken to Memorial Medical Center in Corpus Christi with various injuries.

--August 20 at 9:08 a.m. unit

dispatched to Gulfway Trailer Park to treat child who had been injured in a fall. Child checked by EMT and parents advised to see physician.

--August 20 at 2:37p.m. the unit was sent to Peninsula Oaks to care for fireman who had been overcome by smoke. Pa-

tient treated and released.

--August 20 at 4:42 unit sent to Peninsula Oaks where fireman had been injured in fire-truck accident. Patient taken to Memorial Medical Center.

--August 21 at 10:41 a.m. the unit was dispatched to N. Pearl St. where young child had been struck by car. Patient treated

at scene and transported to Memorial Medical Center.

--August 21 the unit was dispatched to scene of fire on FM 1069 Where fireman had been overcome by heat, smoke

and carbon monoxide gas. Patient taken to Lyman Roberts Hospital.

United Fund

(Continued from page 1) well as contributors, it was reported.

"Because of increased expenses due to inflation, it was felt necessary to increase the goal total this year," McDavid said. Allocations approved for participating agencies are as follows:

American Red Cross, \$961; Aransas County Emergency Corps, \$500; Aransas County Youth Council, \$350; Boy

Scouts, \$3,500; Coastal Bend Mental Health Association, \$350; Aransas County Hospital Volunteers, Inc., \$1,400; Girl Scouts Paisano Council, \$2,000; local Girl Scouts, \$500; Family Counseling, \$200; ABC Learning Center, \$500; Salvation Army, \$3,000; Texas Rehabilitation Hospital, \$1,046; U.S.O., \$125; Council on Aging, \$1,000; Child Welfare, \$500; campaign costs, including postage, stationery and office expenses, \$900; subsequent

campaign, \$150.

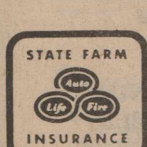

Three Boy Scout officials presented evidence to support their request for a fund allocation. They were Mike Everett, District Scout executive, Corpus Christi; Ray Smith, Scout executive of Corpus Christi, and N.F. Jackson, Rockport area Scout commissioner. It was pointed out that a total of 179 Aransas County boys and girls benefitted from the Scout program in the past year. At present there are two

Cub Scout packs, three troops and two Explorer posts, the posts being co-educational.

Presiding at the board meeting was Rev. Walter Clark, recently elected president of the Fund. Other directors attending were John McDavid, Jr., Mary B. Burke, Virginia Shivers, Lola L. Bonner, Ruby Hart, Dr. J.M. Shellenberger, Troy True, James H. Sorenson, Jr., Betty French, Bill Janecsek, Loyce Landrum and David H. Crooks.

Theft Is Major Offense Of Past Week

Theft made up the majority of offense reports filed at the Aransas County Sheriff's office and the Rockport Police Department over the past week.

The city received a report of the theft of approximately \$314 in cash and checks from the Rockport Tire Company over the weekend. Entry to the business was apparently gained

by forcing open a rear window.

The Aransas County Sheriff's Department received reports from Carl Crickenberger concerning the theft of a color television, eight-track stereo and transistor radio from his residence.

Morris Poteet reported the theft of a radio transceiver, a "fuzzbuster" and an eight-track

tape deck from his vehicle parked at Cove Harbor.

The sheriff's office investigated vandalism at the Rockport-Fulton Tourist Association's recreation hall at Aransas County Airport which had received damages similar to those

which occurred at the Rockport VFD the previous week. A

report indicated that pool cues had been punched through the ceiling at the center, and spray paint was used to paint "Srs. 78" and obscene matter on the walls of the center.

School Menus

MONDAY, AUGUST 29

Barbecue beef on bun, scalloped potatoes, cabbage and carrot salad, iced cake squares and milk.

TUESDAY, AUGUST 30

Meat loaf, tomato gravy, mashed potatoes, seasoned mixed greens, bread, brownies and milk.

WEDNESDAY, AUGUST 31

Pizza, seasoned green beans, tossed green salad, bread, gelatin squares and milk.

THURSDAY, SEPTEMBER 1

Beef pot pie, whole kernel corn, celery and carrot sticks, hot biscuits and butter, ice cream and milk.

FRIDAY, SEPTEMBER 2

Tuna salad, au gratin potatoes, buttered English peas, bread, applesauce cake and milk.

INTRODUCING THE '78 FIESTA IMPORTED FROM GERMANY BY FORD.

Fiesta with Decor Group.

The Ford Fiesta. It's outsold every new car nameplate ever introduced in Europe, based on sales in the first six months, even surpassing the most popular cars from Volkswagen, Renault and Fiat. Behind that success is Fiesta's dramatic level of automotive performance.

Contoured bucket seats of the Fiesta Sport.

ADVANCED EUROPEAN ENGINEERING

Fiesta is assembled by Ford in Germany, where its competition included some of the world's finest performance sedans. It was engineered for stability on Europe's high-speed autobahns. Yet for all its performance, Fiesta is engineered to be a simple, easy to service car.

FRONT-WHEEL DRIVE TRACTION

Fiesta has front-wheel drive, which helps give the car good drive wheel traction—even on snow and ice. This, in addition to Fiesta's MacPherson front suspension, rack and pinion steering, and Michelin radial tires, contributes to a solid feeling of controlled action.

QUICK AND MANEUVERABLE

Fiesta responds. In Ford tests it did 0-50 MPH in an average of 8.8 seconds (9.1 seconds for California emissions equipped models). And its front disc brakes brought Fiesta from 50-0 MPH in an average of 3.3 seconds.

**46 MPG¹
HWY
34 MPG¹
CITY**

\$3,680*

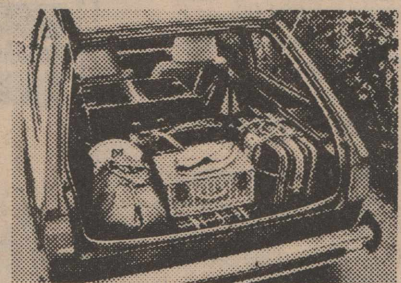

¹EPA estimates. Your mileage may vary depending on your car's condition, optional equipment, and how and where you drive.

*Base Fiesta sticker price excluding taxes, title and destination charges.

And Fiesta handles...with a precise rack and pinion steering system that gives it excellent control in tight corners and traffic maneuvers.

EASY TO SERVICE

Fiesta was engineered to be simple and easy to service. Owners will appreciate its highly accessible transverse mounted engine. And see-through containers that allow "sight check" of fluid levels in battery, cooling system, brake and windshield washer reservoirs. In addition, Fiesta has self-adjusting clutch and brakes, and suspension and steering system that require no scheduled maintenance.

Versatile rear hatch gate area of the Fiesta Ghia.

A SURPRISE INSIDE

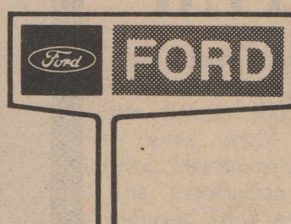

Fiesta's 4-passenger design has created more back seat legroom than any other imported or domestic car of its kind. In addition, Fiesta has excellent luggage space, and a convenient floor-to-roof rear hatch door.

Fiesta is available from more than 5,000 authorized Ford Dealers across America...thousands more than any other import.

A single test drive can show you why Fiesta is Europe's most successful new car in history.

Plummer's Sea Fare Restaurant Re-Opens

Completely remodeled and redecorated, the Sea Fare Restaurant, located at Fulton and owned and operated by Charlotte Plummer, is now open for business. After being closed for several months, the refurbished establishment features a rustic atmosphere with family

style dining. Darryl Luce, son of Mr. and Mrs. Walter Luce, supervises the kitchen and the menu features "Cajun cooking with a Dutch accent" according to Mrs. Plummer. Mr. Luce is a professional chef and a graduate of the Culinary Institute of

America at New Hyde Park in New York. Cooking professionally since he was thirteen, Mr. Luce specializes in seafood.

Specialties of the house include shrimp steamed in beer and seafood gumbo. The restaurant is open six days a week

from 5:00 p.m. until "everybody is full and leaves," said Mrs. Plummer. The decor features an old-fashioned player piano and an antique bar. There is even an antique cradle for families with infants and children under seven can dine free.

RE-MODELED SEA FARE OPENS FOR BUSINESS

Tourism In The Corpus Area Has 'Record Year'

Bob Conwell, Texas State Department of Highways and Public Transportation official in Corpus Christi, has called 1977 a "record year" with regards to tourism in the Corpus Christi area. Hotel occupancy in Rockport's big neighbor stayed in the upper 80 per cent according to release from the TSDHPT. Average occupancy across the state was 64 per cent. Judy Fort, an advisor to the executive staff of the Corpus Christi Area Convention and Tourist Bureau, said "Tourism prospects here look good for the next several years." Conwell predicted the rest of the year would be "great" as a result of an expected sizeable influx of winter vacationers after the Labor Day holidays temporary slack-off.

Aransas County Hospital Vols.

State Officials Warn Of Sun Related Cancer Occurrences

Does soaking up the rays of the Arkansas Bay sun really make you healthier and fill you full of vitality?

Does exposing yourself on purpose to the sun year after year in order to keep a good tan really improve your looks in the long run?

Or, does sunshine give you that needed vitamin D you ordinarily wouldn't receive in your normal diet?

The answer to all three of these is NO.

The benefits of the sun are mostly psychological and are heavily outweighed by the dangers, state health officials say. The bedrock truth of the matter is that too much sun is harmful. Too much sun can cause anything from sunburn and rapidly aging skin to cancer of the skin.

Almost all of the 300,000 cases of skin cancer developed by Americans each year are considered to be sun-related. Fortunately, if treated in time, most skin cancers are curable.

Fortunately, also, skin cancer has early, visible warning signs. These include a sore that doesn't heal, a change in size or color of a wart or mole, or the development of any unusual pigmented area.

If found early enough, most skin cancer can be removed with little trouble. But if it is found very late or is left untreated, serious scars and occasionally death results.

There is a rare form of skin cancer called melanoma, which accounts for most of the nation's skin cancer deaths each year. Even though it is not primarily sun-related, the warning signals are the same as those for sun-related skin cancers. So, it is very important to see your doctor if you see any of the warning signs.

Some people run a greater risk from the sun than others. Blacks are relatively safe because their pigment provides good protection from ultraviolet damage. Among whites, those with olive-toned skin usually tan quite easily. It is those with the fairest skins, notably blonds or those with red hair, who usually don't tan well. These are the people who should take special precautions.

What is the best method to protect your skin from the dangers of the sun? The best answer to that really sounds too simple—just stay out of bright sunlight if possible. But if you can't do that, then the next best thing would be to wear protective clothing. Wear loose-fitting beach robes, long-sleeved shirts and wide-

brimmed hats. In pioneer days, the women wore sun bonnets and long sleeves, back when the pale look was beautiful. They didn't have as much trouble with skin cancer in those days either.

Despite the possible damage to their skin, most people are unwilling to give up their sun-centered styles. If you are one of these, learn to sun safely.

Sun before 10 a.m. and after 3 p.m., when the ultraviolet rays are the weakest. If this is too restrictive, lie out a maximum of 15 minutes during the danger hours.

In varying degrees, commercial suntan preparations contain chemicals called sunscreens. These absorb some of the ultraviolet rays of the sun while letting others through.

To work effectively, sunscreens should be applied about 45 minutes before exposure and reapplied after swimming or perspiring. Even with a sunscreen, a good general tanning program is 15 minutes the first day during high radiation hours. Then, sun five minutes more each day thereafter until you have a good base tan.

Another type of chemical

protection is the sunblock, which doesn't allow tanning because it deflects the ultraviolet rays. It is most useful in shielding lips, nose and other extra-sensitive or already burned areas. A well-known sun blocking agent is zinc oxide, an opaque white ointment often used by lifeguards.

Here are some additional tips:

You aren't fully protected in the shade of a beach umbrella. Ultraviolet rays are only partially deflected and are bouncing toward you from all directions—off sand, water, patio floor or boat deck.

Don't count on being safe on a cloudy day or even under water. Seventy to eighty percent of the sun's rays penetrate clouds and over-cast. The rays

can even reach you three feet below the surface.

It's true that sunshine is a source of Vitamin D. But it's also true that you get all the vitamin D you need in a well-balanced diet.

Altitude plays a role. You don't have to be hot to be burned by the sun. There is less atmosphere on mountaintops to filter out ultraviolet rays.

Backpackers and skiers should also know that snow can reflect as much as 85 percent of the sun's rays.

The Texas Department of Health hopes that knowing about repeated exposure to the sun will help you decide if the careless pursuit of a tan today is worth tomorrow's damaged skin, or the threat of skin cancer.

Outdoors n, Things

By L.D. Nuckles

Informational Officer, TP&WD

Check on any good bay fishermen and you'll find that very seldom will he be found fishing in the open waters of the larger bays. He does most of his fishing in the shallow waters of the back bays of "flats."

What, exactly, is a "back bay." Well -- here in Texas we usually call them "lakes." In Florida it might be referred to as "the back country." In any event, they are small, sometimes tiny, little bays off the larger, deeper bodies of water. They are usually bordered by tall grass and this grass grows well out into the water itself. At high tide the water may be two feet or more deep in the grass.

This is the nursery grounds for shrimp, crabs and small fish of many kinds. For this reason the predator fish such as redfish, trout and flounder spend a great deal of time feeding there. This, of course, is what the fisherman is looking for -- larger fish in a feeding mood.

These shallow-water areas are not for deep-V hulls or inboard rigs. Here the little outboards and flat-bottomed boats are king.

In fishing the flats you may find that you need lighter tackle. The heavy line is just too easy to see and leaves too much wake in the water. The quiet water lends itself to smaller popping corks, if that's the way you fish and smaller, slower-sinking or floating artificial lures work better.

If you would catch good fish, work in protected waters that are not too adversely effected by wind and enjoy a certain amount of solitude in your fishing -- you should be working the "back bays."

DOUBLE TEXAS GOLD STAMPS WEDNESDAY
WITH \$2.50 PURCHASE OR MORE.

BOB BULLOCK
Comptroller of Public Accounts

Dear Mr. Bullock:
Your office notified me recently that my corporation's right to do business in Texas had been forfeited because of a franchise tax liability. Does this mean I have to close my business?

A. No, you don't have to shut down your business. But a corporation whose right to do business has been forfeited loses its access to the state courts to sue or defend itself.

The corporation's officers and directors also may be held personally liable for any debts incurred by the corporation.

A corporation loses its protections not only when its right to do business has been forfeited, but at any time it fails to file a franchise tax return on time.

I suggest you pay your taxes right away--for your own protection, as well as that of other corporation officers and directors.

Dear Sir:
Is the wood I buy for my fireplace subject to sales tax?

A. Yes, firewood is taxable.

Dear Sir:
I will turn 65 in September, and I understand I will become eligible for a special homestead exemption at that time. How do I go about getting the exemption?

A. A special homestead tax exemption for those 65 and over is optional under state law, so you will need to check with your local tax authorities to see whether they allow one.

The amount of the exemption varies among those entries granting it. The law specifies, however, that any exemption must be at least \$3,000.

Mr. Bullock:
Members of our congregation take turns purchasing the flowers for our Sunday worship services. Are we required to pay sales tax on those flowers since they are being used by the church?

A. If the flowers are purchased directly by the church, there is no tax. But since they are being purchased by individuals belonging to the church, they are taxable.

Ask Bob Bullock is produced as a public service to the taxpayers of Texas by the State Comptroller's Office. The answers here do not necessarily apply in every similar situation and should be used only as a general guide.

If you have a question, write Ask Bob Bullock, c/o Tax Information, LBJ Building, Austin, Texas 78774 or call toll-free 1-800-252-5555.

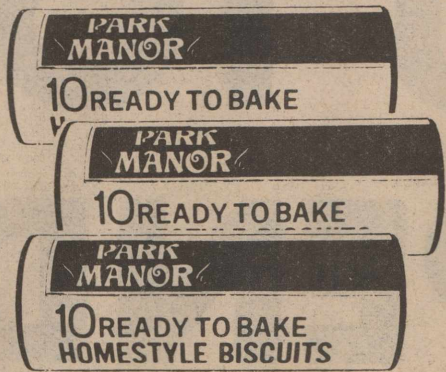

Wyatt Ponders Candidacy

State Representative Joe Wyatt announced Friday, August 19, that in the next few weeks, he will be making a traveling swing through the area to gather information on voter attitudes before making a firm decision to run for the United States House of Representatives.

Mr. Wyatt also announced that Mr. Zac Lentz had consented to serve as the committee chairman and that the Hon. Joseph B. Bumgardner will serve as his committee treasurer. Friday, Mr. Wyatt also filed a statement of organization with the chief clerk of the United States House of Representatives and the Federal Election Commission in Washington, D.C.

In a direct statement, Mr. Wyatt noted that, "It is my feeling that for too long the Congress has been dictating to rather than listening to the people. We need new leadership, a new spirit of cooperation between the citizens and their government and a congressman who will communicate with and listen to the people."

In order to feel the pulse of the people, Mr. Wyatt will visit places in the 14th Congressional District. After the fact-finding trip, Mr. Wyatt will then make a decision as to a formal announcement on his candidacy.

TEETH AND TROUT. Why are these three dentists smiling? It's not because they're trying to advertise, but because they brought in over 100 specks last Sunday after an outing with Captain Hugh Johnson aboard the Aggie J. Drs. Ken Baird, Paul Stubbs and David Carr, all of Austin, spent about six hours with Johnson on

both Saturday and Sunday and brought in well over 100 fish both days. The trio used live shrimp and speck rigs, and had their best luck in the early morning hours on Saturday, and the mid-morning hours on Sunday. (photo by Bob Pickens)

Chamber Sets Advertising Deadline

September 1 has been set as the deadline for placing ads in the Chamber of Commerce's upcoming guidebook to the Aransas County vicinity.

Loyce Landrum, Chamber manager, said that an agent from the publishing company which will print the book is in town visiting prospective advertisers. Mrs. Landrum advised merchants and business operators to contact the Chamber office if they would like to set up an appointment with the representative. The Chamber number is 729-6445.

The book, "New Guide to Aransas County" will be a special tourism promotion for the local area. It will be distributed to Texas tourist bureau welcome stations which are posted at a number of major highways leading into the state. It is also sent to groups, individuals or businesses which send inquiries to the Chamber concerning tourism and commerce.

Approximately 10,000 copies will be sent to the Chamber. Of those, 3,000 will be sent to the tourist bureau, and the remaining copies will be used on a local basis.

The guidebook is being printed by Our Town, a Corpus Christi firm. It will contain such information as a fishing guide and calendar, a tour guide, a community profile and history, and a general information section.

The books are scheduled for distribution in October.

ONE DAY FISHING TOURNAMENT

Bowling Benefits Muscular Dystrophy

With \$1,286

On Monday, September 5, a check for \$1,286.66 will be given to the Jerry Lewis Telethon for Muscular Dystrophy by the Coastal Bend Lanes in Aransas Pass on behalf of the people who bowled for the charity.

The participants got local people to pledge a certain amount for each pin knocked down in the games. Junior winners included Melissa Burnham, Gina Bryan, Dana Smith, Coral Alloway and Melody Alloway.

Adult winners were Tommy Worsham Jr. and Brad Howe.

Riley Taylor, manager of the lanes, and the Muscular Dystrophy Association would like to thank all local residents who participated in this worthy cause.

Most financial experts point out that before you take out a loan you should be sure that you know how much the loan will cost you in terms of interest you pay, and that you feel having the goods of service is now worth the extra cost.

FIREFIGHTERS BATTLE BLAZE. Aransas County Commissioner Ray Longino looks on as county firemen struggle to keep Saturday's brush fire from jumping a road. Firemen spent

nearly twelve hours fighting the brush fire which claimed approximately 2,000 acres between highway 35 and 881. The final blaze was stamped out around eleven p. m. Staff Photo

Schwartz Named To Top Ten In Legislature Poll

Aransas County's State Senator A.R. Schwartz has been named to a list of the ten most effective legislators in a survey conducted with the members of the 65th session of the Texas Legislature.

The survey, sent to members

of that legislature by the San Angelo Standard-Times, sought an "honest and candid evaluation" of the participants in the legislature as well as an overview of the accomplishments of the session.

Schwartz is the state senator for District 17, which includes the six coastal counties from Harris to Aransas.

Other sections of the questionnaire asked legislators for an overview of the session and what bills or actions in particular they considered the most important.

Most participants termed the session good, a smaller number called it fair, and about a fifth of the participants termed the 65th Legislature poor. No responses called the session excellent.

The Sunset bill was termed the most beneficial piece of legislation, followed closely by the highway funding and the anti-crime package.

The biggest failure of the legislature according to the questionnaire's results, was the

failure to pass a school finance bill during the regular session.

Media coverage of the session was termed poor by most legislators. The Dallas Morning News received credit for the best coverage, and the Harte-Hanks Austin Bureau was voted as the news organization providing the worst coverage of the session.

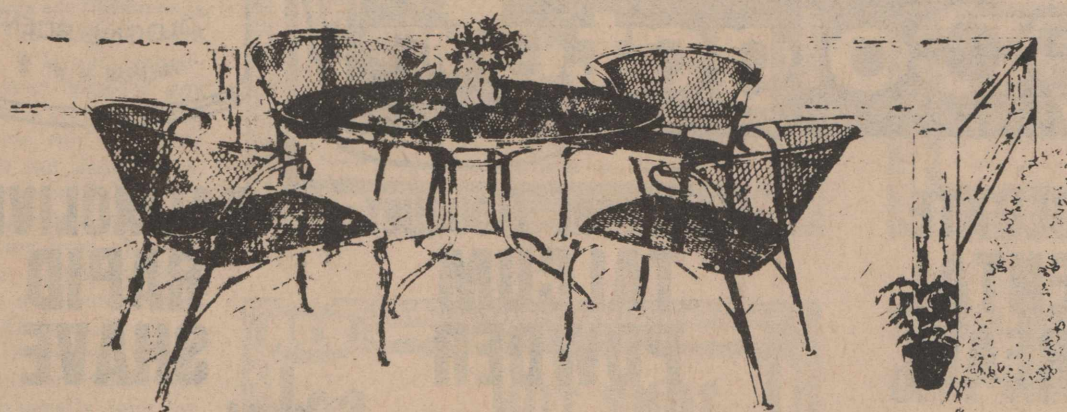

START LOSING WEIGHT TODAY

The hardest part of losing weight is getting started. Super ODRINEX will give you the power that extra push it needs to start losing weight today. Begin with this amazing tiny tablet. You'll eat less—turn food and excess fat into burned-up energy instead of extra weight as you follow the Plan.
