Keeping tab on our neighbors:

"Now that the election is over, we can all get back to the nagging regularities of life—like why is the mail so slow?" says Jim Cornish in the Post Dispatch.

He goes on to give a timely example.

"Joe McCowen has more reason to ask the question than most of us. Last Thursday he received a check in the mail from Sam Bevers of Justiceburg. What was unusual about it was that the envelope containing the check was postmarked March 6, 1972.

"That means eight months to travel 14 miles,'" Cornish calculated.

"Stamped on the bottom of the envelope was this notation: 'Delivery delayed, found in supposedly empty equipment.' And on the back was a postmark, 'Detroit, Mich., Oct. 31, 1972.' Don't ask us to explain."

Somewhere down the line between Houston and Snyder they must have experienced a similar difficulty, although not so prolonged. Some of Henry Grover's campaign material postmarked Oct. 30 arrived here on Nov. 14, exactly one week after the general election.

A waitress in a Vernon cafe was confronted by a real odd couple, according to an item in the Vernon Daily Record.

"A 41-year-old Vernon man had a little problem being served at a local resturant Saturday evening," reported the Record.

"It seems that the man's friend also was refused service. The friend, which turned out to be a small pig, was turned over to the animal warden and city police arrested the man on a charge of drunkenness."

Perhaps the man thought he was befriending a defeated candidate.

Speaking of animals, officers at Big Spring looked hard for cat tracks as they investigated a burglary early this week. Among the missing items at the site of the break-in was one can of cat food and one quart of milk, which, according to the Big Spring Herald, "apparently was consumed at the scene of the crime."

If the burglar was indeed a cat, it must have had some help, however, because a little cash was missing, also. WACIL McNAIR

Economy Report Is Revised Upward

By BILL NEIKIRK
Associated Press Writer

WASHINGTON (AP) — The economy grew a little stronger and inflation increased slightly more than estimated earlier, the Commerce Department said today in a report on national economic output for the July-September quarter.

At the same time, the department said, profits of corporations before taxes showed a moderate increase in the same period, rising at an annual rate of $4.2 billion compared with $3.4 billion in the second quarter of the year.

Revising its estimate of the Gross National Product, value of the nation's goods and services and the broadest measure of the economy, the department said GNP grew at an annual rate of 6.3 per cent in the third quarter, a sharper rate of increase than the 5.9 per cent rate of increase reported only a month ago.

The revision was good news for the administration in one sense because it showed the economy is still recovering vigorously. But the fast rate of growth is raising fears in some quarters of the administration that the high rate of growth could trigger new inflationary pressures next year.

The rate of inflation, as measured by GNP figures, was 2.4 per cent in the third quarter, higher than the 2.2 per cent originally estimated and within the administration's forecasts for this year.

The report said GNP increased by $24.6 billion to a seasonally adjusted annual rate of $1.164 trillion. This was about $2 billion more than reported earlier.

As for corporate profits, the department said the third-quarter increase brought them to a seasonally adjusted annual rate of $95.8 billion.

Profits are expected to be strong this year as the economy continues on its upward path. They were held down in the second quarter because of flood damages in the northeast due to tropical storm Agnes.

Southern U Campus Quiet

BATON ROUGE, La. (AP) — Gov. Edwin Edwards says he will not negotiate with students at Southern University, where two young blacks died in a confrontation with police, until they renounce violence and return peacefully to classes.

The campus of the nation's largest predominantly black university was quiet today in contrast to the melee of Thursday, when a group of students occupied the administration building.

The campus was closed until after Thanksgiving, and only foreign and out-of-state students were still there, along with the guards who kept watch.

The two young men died of shotgun wounds when sheriff's deputies and state police advanced to clear out the occupied building.

When the officers moved in, a crowd of students was between them and the occupied building. Officers fired tear gas into the crowd, and when the smoke lifted, the two young men lay dead in a pool of blood on the sidewalk.

The officers said they never fired a shot, only tear gas. But students said they saw blue-shirted state policemen shooting shotguns.

Peron Arrives In Argentina

By ROBERT D. OHMAN
Associated Press Writer

BUENOS AIRES (AP) — Juan D. Peron returned to Argentina today, ending 17 years in exile. The former president's chartered jet airliner landed at Ezeiza International Airport, bringing the 77-year-old one-time dictator home on a mission of "peace and understanding."

Troops and tanks ringing the airport kept thousands of Peronists from reaching the airport to welcome Peron. Police and soldiers used tear gas repeatedly to disperse columns of marchers trying to reach the airport in southwest Buenos Aires.

The military government permitted only 300 Peronist leaders to go to the airport to welcome Peron and the 140 Peronist chieftains and celebrities who accompanied Peron and his wife, Isabel, on the flight from Rome. Peron flew to Rome from Spain where he has lived in exile for 17 years.

This nation of 24 million people watched on a national television hookup as Peron touched Argentine soil for the first time since he fled to a Paraguayan gunboat in the River Plate after being overthrown by the armed forces in late September 1955.

Argentina, South America's second-largest nation, was in turmoil. Peron found all activities paralyzed, both by a national holiday decreed by the military government and a general strike ordered by the Peronist-dominated General Confederation of Labor.

Hours before Peron's Alitalia jet landed, 60 noncommissioned navy officers mutinied at their training school in Buenos Aires.

The mutiny lasted four hours. Informed sources said the navy rebels apparently were left-wing Peronists planning to stir up demonstrations in support of their hero.

The mutineers took four hostages at the navy mechanics' school, piled into three buses, two trucks, an ambulance and a station wagon and headed down the highway toward the airport. Then they changed course and headed south through the suburbs.

Army troops, already out in force for Peron's arrival, surrounded the caravan and escorted it back to the school. The men surrendered at 4:25 a.m.

Peace Talks To Resume On Monday

WASHINGTON (AP) — Henry A. Kissinger will fly to Paris Sunday to resume Vietnam peace talks Monday with Hanoi's Le Duc Tho, the White House announced today.

Press Secretary Ronald L. Ziegler told newsmen:

"We expect the talks to last for several days—perhaps longer."

The announcement came as Kissinger and President Nixon were holding conferences at Camp David, the presidential retreat near Thurmont, Md.

Ziegler said Kissinger, who is Nixon's assistant for national security affairs, will be accompanied by his deputy, Army Gen. Alexander M. Haig Jr., who returned recently from meetings in Saigon with South Vietnamese President Nguyen Van Thieu.

Asked at a later news briefing if next week's talks would complete the negotiating process, Ziegler said, "I cannot predict the outcome of a meeting that has not taken place."

However, he did say he anticipates that, following the new round of Paris negotiations, there would be "further consultations with the South Vietnamese and perhaps with the North Vietnamese."

Declaring that the United States will enter the talks "with a constructive attitude," Ziegler said:

"If the other side enters into these negotiations with the same spirit of good will that has characterized the sessions since Oct. 8, we would expect a successful outcome."

At one point, Ziegler said the Monday date for resuming talks was proposed by Hanoi.

Asked if Kissinger might sign or initial a peace agreement while in Paris, he said, "I would not anticipate Dr. Kissinger proceeding in that way."

This will be Kissinger's 21st trip to the French capital for talks with Le Duc Tho, a member of the North Vietnamese Politboro, and Xuan Thuy, who is Hanoi's principal negotiator at formal peace sessions there.

Kissinger's most recent journey to Paris was on Oct. 17 for a meeting with Thuy. He held ground-breaking sessions with Le Duc Thuy on Oct. 8-11.

In keeping with a promise to give ample advance notice of Kissinger's travel plans, Ziegler said the American negotiators will leave nearby Andrews Air Force Base, Md., at 10 a.m. EST Sunday aboard a Boeing 707 jet from the presidential fleet.

They are due at Orly Afrport in Paris at 10:30 a.m. Paris time.

Ziegler said the party will stay at the U.S. ambassador's residence but he would not disclose the site of Kissinger's private talks with Le Duc Tho, who arrived in Paris today.

In a formal statement, Ziegler said:

"The negotiations between Dr. Henry A. Kissinger, assistant to the President for national security affairs, and special adviser Le Duc Tho will be resumed in Paris on Nov. 20."

Martin Approves Open Meetings

AUSTIN, Tex. (AP) — Atty. Gen. Crawford Martin ruled today that governmental bodies may hold closed meetings with their attorneys, but only for limited purposes.

Martin issued a detailed interpretation of the Texas Open Meetings Law to Criminal District Atty. Tom Hanna of Beaumont, who had asked about limitations on county commissioners' courts.

The opinion extends to all state and local government bodies.

Despite the fact that the law grants no specific exemption, Martin said, "a public body is entitled to hold closed meetings with its attorney when such body seeks the attorney's advice in regards to pending or contemplated litigation, settlement offers and similar matters where the duty of a public body's counsel to his client, pursuant to the rules and canons of the State Bar of Texas, clearly conflicts with" the open meetings act.

He emphasized that in closed meetings an agency and its attorney can discuss only those items.

Martin said a three-day notice must be posted of any open or closed meeting with an agency's attorney "if matters of official or public business, where agency policies affecting public business, are to be discussed with him."

The attorney general also said a public body could confer in private with its staff, and not post notice, as long as the subject was "internal administration, where no matters of official or public business, or agency policies that affect public business will be acted upon."

In 1969, the legislature amended the open meeting law and deleted a provision permitting private meetings with an agency's attorney. Later that year it approved a resolution saying it had not intended to abridge the privileged nature of communications between lawyers and clients.

Martin said that while the resolution did not change the law, it did show the legislature intended to preserve the right of private conferences between public bodies and their lawyers.

He said a public body could not go into closed session however, only to obtain legal advice about "matters of administrative procedure or public deliberation."

Heath Visits Irish Army Posts

By FRED COLEMAN
Associated Press Writer

LONDONDERRY, Northern Ireland (AP) — Prime Minister Edward Heath visited army posts in Londonderry today while outside Northern Ireland's second city a policeman was killed, bringing the toll of lives lost in the last three years of violence to 631.

Heath flew to bomb-shattered Londonderry in an army helicopter. He landed at an army post established on the fringe of the Creggan Housing Estate, bastion of the Roman Catholic-based Irish Republican Army until British troops forced them out in July.

Tight security was imposed for the prime minister's 90-minute visit.

He visited another army post at Ft. George, a short distance from the city center.

Heath did not mingle with citizens of Londonderry or meet local politicians during his visit.

During the first day of his Northern Ireland tour Thursday he underlined his distaste for both Catholic and Protestant paramilitary groups by refusing to see their representatives.

Heath warned Thursday that any Protestant attempt to seize unilateral independence would bring a bloodbath and lead to an end to London subsidies for Northern Ireland.

During the night a booby trap bomb killed a policeman and a politician's wife was beaten up.

The prime minister was to return to London tonight.

Heath's two days of meetings with leading churchmen, politicians and security chiefs were his first broad sounding in the province since he took office in 1970. They were designed to prod the Protestant majority and the Roman Catholic minority toward agreement on a new form of local government.

In an attempt to restore order in Northern Ireland, Britain suspended the Protestant-dominated provincial parliament in March and put the governments in the hands of an administrator named from London, William Whitelaw. The writ of direct rule runs out in March, and Heath would prefer not to have to extend it.

Should son visit dad in prison?

By Abigail Van Buren

[c 1972 by Chicago Tribune-N. Y. News Synd., Inc.]

DEAR ABBY: I'm a 40-year-old woman, but there are times when I feel like 16, and then again I feel like 100.

My ex-husband has been in prison for four years. We have a son, 12 years old, and they love one another even tho they have been separated since the boy was eight.

My family [parents, sisters, and brothers] think I am wrong to take our son to visit his father in prison. They say when the boy sees how easy the law is on criminals, he might decide it's not such a bad life after all.

All I know is, prison life doesn't look easy to me. Besides, it does so much for my ex-husband's morale when he sees the boy, I hate to discontinue those visits. My son looks forward to seeing his father, too.

I'll leave it up to you, Abby. Should I listen to my family or not? My present husband says I should take the boy to visit his dad and to tell my family to mind their own business.

UNDECIDED

DEAR UNDECIDED: I like your husband's attitude. That's exactly what I would have advised you to do.

DEAR ABBY: My poor, sweet, young daughter in law is half out of her mind because our son has left her.

Why did he leave her? Because she continually checked up on him and nagged him. Well, why wouldn't she check up on him? He is never where he says he will be, and she has caught him with other women several times. And she nags him because she loves him and doesn't want him running around with other women.

This lovely, intelligent daughter in law is crazy about our son, and he loved her, too, before she started nagging him. Now she wants to call him up and apologize for having nagged him and checked up on him. I told her she was nuts and she should have thrown him out a long time ago.

He tried to tell her that 95 per cent of the married men cheat on their wives—it's natural because men like a change. My husband who works in an all male business took a survey and found out that only 20 per cent of the married men cheated on their wives!

Abby, what do you think she should do? Even if he is our son, I think she should lock him out for good.

MISSOURI MOTHER IN LAW

DEAR MOTHER: I think your daughter in law should quit discussing her marital problems with you. She needs some professional objective advice from an impartial party. Since she hasn't asked for my advice, I'll not offer any. But I think you should bow out.

DEAR ABBY: I am not writing this just for myself. I am writing it for all the fat girls in the world, because I am sure they all feel the same way.

When I start liking a guy, I am told I don't stand a chance because I am fat. Okay, I'm fat, and I know it, but why should that make such a big difference to a guy? I think personality, character, and what a person is really like on the inside is what is important.

Maybe guys are embarrassed to be seen with a fat girl, but if he really loves her, her looks shouldn't make that much difference. Beauty is only skin deep, you know.

FAT AND LONELY

DEAR FAT: It's true, "looks" are not as important as personality and character, but most people are attracted to those whose appearance they find pleasing. It's unfortunate that so many worthwhile people are not approached and drawn out because of their "looks." But since it's a fact, why not accept it and do something about it?

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90069 and enclose a stamped, addressed envelope.

Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."

Restrictions Put On Turtles

WASHINGTON (AP) — The government today ordered major restrictions on the transport and sale of small pet turtles because of evidence they have caused about 280,000 cases of salmonella poisoning a year.

The Department of Health, Education and Welfare said the restrictions, to become effective Dec. 18, cover live turtles, tortoises and terrapins—of less than four inches—and their eggs.

The agency cited evidence that the turtles are a source of salmonella, a bacteria which cause abdominal pain, nausea, fever and diarrhea, and perhaps require hospitalization.

The agency estimated that 15 million small turtles are sold in the nation a year. It said 90 per cent sold as pets are produced domestically and the rest are imported.

New Cold Front Hits Texas

By THE ASSOCIATED PRESS

Wintry weather aimed a new punch at Texas today, and forecasters said a new Pacific cold front might bring light snow mixed with showers in the Panhandle by night.

Fog and temperatures a few degrees below freezing coated automobiles with ice in parts of the Panhandle-Plains sector in early morning, and the National Weather Service warned motorists to drive with caution. Visibility dropped to a few hundred feet in places.

The same frontal system prompted warnings against heavy snow at at higher elevations in New Mexico and widespread rain elsewhere.

There already were scattered showers in South Texas between Alice and Corpus Christi, and clouds covered most of that section, including the coastal plains. It was generally clear or there were only high, thin clouds over the northern twethirds of the state.

Forecasts called for increasing cloudiness throughout the state, continuing showers near the coast and light rain or showers along and ahead of the cold front as it moves through the Panhandle and western areas of the state.

Official observers looked for the leading edge of the cooler air to reach a line from near Wink southward into the Big Bend country of far West Texas by night. Skies were expected to clear in its wake as the front progresses eastward.

Temperatures near dawn dropped to 27 degrees at Amarillo and 28 at Dalhart, where it was foggy. It was 30 at Childress, 31 at Lubbock and 32 at Abilene. Readings at other points ranged from the higher 30s into the 40s and 50s in most areas, staying as high as 66 at Brownsville on the state's southern tip.

Top marks Thursday afternoon hit 75 at Alice and 76 at Houston while the mercury went no higher than 49 at Amarillo and Dalhart.

LBJs Wed 38 Years

AUSTIN, Tex. (AP) — Former President and Mrs. Lyndon Johnson celebrate their 38th wedding anniversary today under an optimistic prognosis for his recovery from a heart attack.

"I believe I am going to be as good as new by the new year," Johnson reportedly said Thursday to Tom Johnson, former White House aide who is an executive with the Johnson family business interests.

Doctors have told the former president he is "making substantial progress" in his recovery from the attack last April. He suffered a massive heart attack in 1955.

The Johnsons visited with their younger daughter, Luci Nugent, in a local hospital Thursday. Mrs. Nugent is recuperating from ear surgery.

Tom Johnson said he thought the former president and his wife would spend their anniversary "taking care of the grandkids."

Panel Support Is Questioned

By MIKE SHANAHAN
Associated Press Writer

WASHINGTON (AP) — The resignation of the Rev. Theodore Hesburgh after three years as chairman of the U.S. Civil Rights Commission has raised questions from other members about whether President Nixon supports the panel.

All six members of the commission have apparently been asked to resign, but so far the White House has said only Hesburgh's resignation would be accepted.

There are conflicting reports from the administration about why the resignations were requested in the first place.

Hesburgh, 55, president of Notre Dame University, said Thursday he was asked to resign and complied. Deputy White House Press Secretary Gerald L. Warren said the resignation would be accepted because Hesburgh has said he didn't want to stay on if Nixon were re-elected.

Hesburgh denies every saying that, claiming he was misquoted in news stories written before the presidential election.

Contrary to the understanding of some commission members, Warren said Nixon did not have the group in mind when he asked for resignations from top layers of the federal bureaucracy as part of a reorganization plan for his second term.

Commission member Maurice Mitchell, president of the University of Denver, said Thursday Nixon "has little use" for the commission.

He said a White House aide contacted commission members during a hearing on Indian rights in Albuquerque, N.M., and asked for their resignations.

Warren said that was due to a "misinterpretation." Only Hesburgh's resignation was sought by the President, Warren said.

Whatever the intent of the White House, Mitchell was bitter about White House relations with the commission.

"The President never consulted or saw the commission in the four years he has been in office," he said. "I doubt if President Nixon gave us more than 30 minutes of his time since he took office."

Commissioners Frankie M. Freeman of St. Louis and Hubert Rankin, a Duke University professor, said they have also resigned.

Gift Is Delayed 28 Years

WHITE SANDS MISSILE RANGE, N.M. (AP) — Christmas came a couple of months early—or 28 years late—for Duane H. Baldwin of El Paso, Tex.

Baldwin, a White Sands Missile Range employe, recently received the engraved silver wrist watch his mother mailed him as a Christmas gift in 1944.

The gift traveled around the South Pacific during the closing months of World War II. Baldwin then was a corporal with the 1st Cavalry Division.

He finally put the watch on his wrist during a recent 1st Cavalry Division reunion at Ft. Hood, Tex.

About the time the watch was mailed, Baldwin said, he was detached from his unit, then in New Guinea, with a squad of engineers. A series of events including a bout with malaria and a bullet wound kept him from ever rejoining the unit.

Meanwhile, a friend in the unit, expecting Baldwin to return, picked up the package.

Since Baldwin never got back to his unit the friend, M. M. Gilstrap of Cleburne, Tex., carried the package around the war zone in his duffle bag and finally brought it home to Texas with him.

Gilstrap finally delivered the package he had been saving 28 years at the Ft. Hood reunion.

The watch had been sent by Baldwin's mother, Mrs. L. A. Geeler of Vicksburg, Miss., and his sister, Mrs. Gene King, now of Napa, Calif.

Discipline Left To Principals

DALLAS (AP) — Dallas Schools Supt. Nolan Estes told high school principals today it would be up to them to apply discipline in accordance with the general guidelines laid down following Thursday's walkout of about 300 Negro pupils to attend a protest rally.

He also said the city's public schools would be kept open "so long as one student needs an education."

A spokesman for the schools administration said the rules for dealing with disruption of classes provide that any pupil involved cannot return to class until the principal has interviewed the parents.

"We insist the parents helping to control their children," he said. "But there will be no beating or anything like that."

Children whose parents don't appear for an interview will be sent home with a note that they are barred from classes until the parents show up.

Estes flew back to Dallas Thursday night from Atlanta to confer with Police Chief Frank Dyson and other police and school officials regarding the Thursday trouble, in which a number of black pupils were arrested. He indicated that penalties will be moderate in an apparent effort to ease the tension.

Bodies Uncovered

MEMPHIS, Tenn. (AP) — The bodies of three young construction workers buried in the collapse of a 28-foot-deep sewer trench have been found by rescue workers. Two other workers are feared dead under tons of earth and mud.

Cold weather, lack of electricity at the rural site and a crowd of spectators hampered night-long rescue efforts.

The cave-in occurred on Thursday in the Frayser area north of Memphis.

The men, employes of J & R Construction Co., Inc., were installing a sewer line to serve a residential area.

Two workers, Earl Spelling and William Dalton, said they ran from the trench as the walls began caving in.

"At first I thought I was just imagining something," said Spelling. "Then I saw it (metal supports holding back the vertical earth banks) quivering. I just started to run and a boulder hit my leg."

Wallace Disputes Blame

MONTGOMERY, Ala. (AP) — Gov. George C. Wallace says he has been blamed for a lot of things but getting blamed for Sen. George McGovern's presidential defeat is pushing it a little far.

The governor suggested Thursday that the Democratic candidate would have done better if the party had adopted the Wallace platform planks instead of having them "rejected by the liberal takeovers of the Democratic convention."

He said McGovern was wrong in attributing his defeat to Wallace's absence from the White House race.

"McGovern blamed me for losing the presidential campaign," Wallace said to a gathering of Alabama city officials. "I've been blamed for everything, but very few folks can lose a presidential race, especially when he's lying in bed."

The governor was hospitalized after he was attacked by a would-be assassin while campaigning for the Democratic nomination which went to McGovern.

Wallace's remarks referred to a statement by McGovern President Nixon benefited from Wallace's absence by running a campaign "that was really tailor-made to attract Wallace voters."

The governor told members of the Alabama League of Municipalities that his own platform was the same as the one "the Republican party adopted on local government, on defense, on school matters and others, the same plank rejected by the liberal takeovers of the Democratic convention."

Club Project Successful

The Snyder Kiwanis Club's recent candy sale was a tremendous success, bringing in $1,300, Doug Flynn, president of the club, has announced.

During the past year, the Kiwanis Club has donated money for several projects. They paid for the cost of moving a building to the Humble Smith School for use by retarded children plus costs of setting the building on a foundation, wiring it and plumbing it.

Other organizations that benefit from Kiwanis Club are the Girl Scouts, Day Care Center, girls softball team, Little League, American Field Service, Boys' State, Scurry Concert Association, Goodfellows, plus several scholarships at Western Texas College.

Couple Still Going Strong

Mr. and Mrs. T.F. Bryce of 101 Twenty-fifth Street are two very remarkable people. Both in their mid-eighties, they manage to maintain their home by themselves.

Bryce, who was born in Travis County on April 19, 1886, especially enjoys his yard. He does all of his own yard work including mowing and especially enjoys gardening. When asked if he ever had any help with his yard he replied, "Why hire someone when you can do it yourself?"

Mrs. Bryce was born July 9, 1884, in Burnett County. The couple was married Aug. 10, 1904 at Georgetown. They celebrated their 68th wedding anniversary this past August.

Mr. and Mrs. Bryce have lived in Snyder since 1948 having moved here from Ira. They have lived in Scurry County since 1923. Bryce worked as a farmer all his life until they moved here where he worked at odd jobs.

The couple had six children five of whom are still living. They are Lester Bryce of Snyder, Lilly Jordan, Odessa, Inalee Thompson, Dallas, Anabelle Israel, Odessa, and Eutha Fay, Odessa. They have 15 grandchildren, 14 great grandchildren and 6 great great grandchildren.

Verse Anthology Offered

THE NEW OXFORD BOOK OF ENGLISH VERSE, 1250-1950. Chosen and Edited By Helen Gardner. Oxford University Press. 974 Pages. $10.

The Oxford books of verse constitute the finest collection of anthologies we have today. There are others than those devoted to English and American poets—French, German, Italian, even Greek and Latin writers in the original, plus such companion works as Greek verse in translation.

Naturally, the volume of English verse has received the greatest devotion. For more than a generation, beginning in 1900, it was edited by a the Cornish scholar and critic, Sir Arthur Quiller-Couch, whose terse pseudonym was "Q" and who,paradoxically, was professor of English literature at Cambridge, Quiller-Couch, unfortunately killed by an American jeep in World War II, brought out "The New Oxford Book Of English Verse" in 1939, including authors of World War I vintage.

Now Oxford offers us what it also calls "The New Oxford Book of English Verse," "chosen and edited" by Dame Helen Gardner, Merton professor of English literature at Oxford.

With Dame Helen as with "Q," it is well to describe the selections as "chosen and edited" because any anthology is necessarily very subjective. In the 1900 edition "Q" surprisingly found no room for such bright lights as Rudyard Kipling, A. E. Housman, Oscar Wilde or even Thomas Hardy.

All of these, plus Gerard Manley Hopkins and some relatively recent bards like Siegfried Sassoon and Rupert Brooke, made it in 1939. "Q" apparently was trying to both times for something like an inadequate collection of verse in English, including some Americans—Poe, Whitman, Longfellow, Whittier, even William Dean Howells.

Dame Helen, in her choices from before Chaucer to after Dylan Thomas, wisely has dispensed with the Americans—except for T. S. Eliot, who after all moved to England, and less defensibly Ezra Pound, much more identified with the Continent than Britain.

Norell Firm Will Continue

NEW YORK (AP) — Norman Norell, Inc., the firm of the late designer, will continue in business with California-based designer Gustav Tassell as its new president.

Richard Dey Manning, attorney for Norell, made the announcement Monday. He said "Tassell was selected for his reputation for integrity of design and his serene purity of line..."

Manning said Norell wanted the firm to continue and was working on a plan for perpetuity at the time of his stroke and subsequent death on October 25.

"We will continue to have the same quality of workmanship as Norell," said Tassell, 45, who will begin work in New York in December. "It will be Norell through and through."

The Weeders Guide

By EARL ARONSON
AP Newsfeatures

The Thanksgiving season brings a challenge to the gardener as to how to decorate the house in addition to making sure the table is laden with food.

Nature offers a wealth of materials that can be collected late in the fall for winter bouquets and dried arrangements to provide new, changing accents to household decor in winter.

Several years ago, Prof. Raymond T. Fox, a specialist in flower arrangement at Cornell University, told us that "the materials that can be gathered are limited only by one's imagination, creativity and time." We might add that where you live makes a difference, but largely in the varieties available.

It is best to collect seed pods, foliage and flowers in summer and fall. Materials picked green will dry in green or light tan tones. These contrast attractively with dark brown tones of fall materials.

While it is a bit late now to harvest some foliage, remember that you can pick late beech and some oak branches and press them between layers of newspapers, books or bricks.

You can do the same with fern leaves. Even if ferns have turned dark brown, they make attractive accents for winter bouquets.

Mountain laurel, rhododendron, fresh magnolia and spiral eucalyptus—even if you buy it at a flower shop—may be treated.

Fox suggested this foliage treatment: make a fresh cut of the stem; pound an inch or two of the cut end to shred tissues; place the shredded ends in a jar of glycerine solution (½ warm water and ½ glycerine) and leave at room temperature.

If you don't keep the ends in the solution, the plant tissues will dry out and will not absorb the solution. In three or four weeks the foliage should turn dark brown, but remain flexible.

For contrast to the dark brown, mingle with flower seed pods such as Oriental poppy, peony, iris, canna, Dictamnus, yucca, castor bean, mallow and others.

You'll find interesting pods on lilac, rhododendron, leucothoe, roses, silverbell, bayberry and pearl bushes; on catalpa, locust, alder and witch-hazel trees. And there are bittersweet berries and red staghorn sumac fruit.

In the fields you'll find pods of many kinds.

Branches of trees in your yard will add distinctive lines.

And there are cones. Most drop in summer but those of larch and Mugho pines stay.

We suggest for brighter colors yellow yarrow, tan Hawaiian woodroses, red Indian corn and multicolor gourds; bearded wheat may be dyed orange; cattails, okra pods.

Generally, Fox noted, dried materials lack strong color; thus the effect is derived mainly from the form of the materials and the contrast of light and dark tones. He added:

"To take advantage of the form of the materials, it is wise to limit the kinds of material in any one arrangement to a relatively small number. Otherwise, the effect becomes too busy and jumbled."

Dried bouquets don't need water and thus may be arranged on wooden or stone slabs or in baskets, as well as in vases or bowls.

Name Got In Wrong Stack

RIVERSIDE, Calif. (AP) —"I am sorry you were not successful in the recent election," read the telegram from U.S. Sen. John Tunney to Walter Ingalls, a fellow Democrat who ran for the California Assembly.

Ingalls says he certainly intends to continue in public service because he won the election.

Why the telegram of condolences? "I guess my name got in the wrong stack," Ingalls said Friday.

Letters Reveal Life Of Mary Todd Lincoln

MARY TODD LINCOLN. Her Life and Letters. By Justin G. Turner and Linda Levitt Turner. Alfre A. Knopf. 750 Pages. $15.

Mary Todd Lincoln is certainly one of the tragic figures of our history. As the widow of our first assassinated President, she experiences little but sorrow thereafter.

Mary Todd Lincoln lost not only a husband but three sons—two as children during her husband's lifetime and the third as a youth only a few years after the assassination. There also was the estrangement from the fourth, Robert Todd Lincoln, who found it necessary to have his mother committed to an institution as insane.

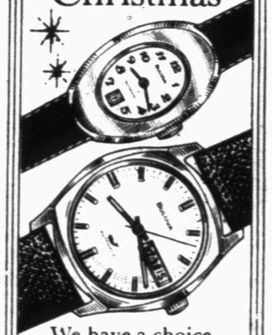

Justin G. Turner has been collecting Lincolniana for 40 years and, with the assistance of his daughter-in-law, Linda Levitt Turner, working on a major biography of Mrs. Lincoln for eight years. But as Turner points out in this preliminary work, no one could reveal her character so well as Mary herself in this most complete collection of her letters.

One's chief reaction to her self-revelation is inevitably compassion rather than sympathy. The reader keeps wondering how a woman of her obvious intelligence could have failed to get a grip of herself, even in misery such as few women must face. The wives of other assassinated Presidents have responded better. And the extent to which she meddled in politics—wring endlessly to Cabinet members, generals and others in behalf of friends and proteges—is appalling. Also, her irresponsibility in money matters is incredible. This collection of Civil War primary source material should be of major interest to students of the period.

Inland Areas' Interest In Trade Is Growing

By LAURANCE F. STUNTZ
Associated Press Writer

NEW YORK (AP) — Some people may still think the "Eastern establishment" is the heart and center of internationalism in the United States — but they would be wrong.

More and more inland areas are growing in understanding of the ins and outs of international trade, the pros and cons of protection vs. low tariffs. A trip through the area turns up bankers who are just as interested in imports and exports as their fellows in New York.

The Pacific Coast, of course, has always been interested in foreign affairs and their effect on foreign trade. But this interest is growing inland now, and Arizona bankers are just as knowledgeable about exchange rates and trade prospects as the San Francisco money men.

There are currently pockets of protectionist feeling, as in Detroit and Pittsburgh. Here auto and steel imports have hurt the local industries. But outside of these areas, the low-tariff bankers are as thick as in New York, the center of the export trade.

"We're not worried about competition from the Japanese," one Arizona banker said recently. "They are our best customers — they buy all their large-scale integrated computer chips from us. Don't put up any barriers to Japanese trade — it would hurt our sales."

You can hear similar remarks from bankers in Illinois, where the export soybeans grow and the farm machinery is built. And where they have just sold a fleet of tractors to Russia to lay gas pipelines.

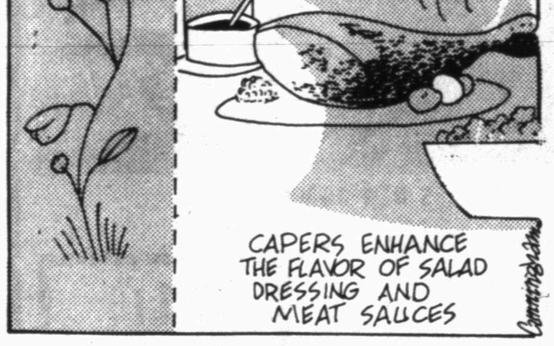

This growing interest in the midland toward overseas affairs and operations is shown by numerous recent developments. The Arizona bankers, in addition to watching Japanese developments, are specializing in Latin America and the opportunities there for Americans to make a peso or two. Chicago's Midwest Stock Exchange has just approved cut rates for European brokers dealing in stocks in Chicago. They hope to attract some of the expected business when overseas investors return to the U.S. market.

And that is coming — "I can foresee an American invasion in reverse when the Europeans really come in," said a Pittsburgh banker. He cited investments already made by the Japanese in U.S. coal developments and other reports of foreign interest in other American minerals companies.

This invasion has already started — foreign capital is not only buying shares in American companies but is also starting its own operations here. For example, Japanese capital has enlarged a soybean factory in Wisconsin and is launching a pork-butchering operation in Iowa. Sony is building electronic appliances in California.

These developments will increase the inland bankers' interest in foreign affairs even more. While the new foreign-owned companies may compete with existing U.S. clients, there will be off-setting advantages. The foreign companies will need local banking facilities for receipts and disbursements, for payrolls and for sending home the profits. This could make any country banker potentially an international one.

Junior Editors' Quiz on CAPERS

QUESTION: *What are capers and where do they come from?*

* * *

ANSWER: Capers are the immature flower buds of the caper bush. These unopened greenish flower buds have a pungent and slightly bitter taste. Capers are pickled and bottled for use in preparing interesting and delicious food.

The caper bush, cupparis spinosa, is a spiny shrub about 3 feet high. This trailing bush is grown in the Mediterranean countries and in the southern United States. It is also raised in greenhouses in northern United States, Canada and Great Britain. The caper plant has round leaves which drop off in the autumn. It produces tulip-shaped flowers which, if fully formed, are large and pinkish white. The most conspicuous feature is the mass of purple-tipped stamens. The berry-like fruit of the caper bush is used in pickles, relishes and similar condiment preparations.

Capers enhance the flavor of salad dressing, meat sauces and appetizers. Roast leg of lamb has a special flavor when it is garnished with capers. March marigold and nasturtium buds are often pickled and used as a substitute for capers.

Boyle Finds Change Difficult

By HAL BOYLE

NEW YORK (AP) — The biggest problem in learning how to be a widower is finding someone to sew on buttons for you.

After my wife Frances died four years ago of a pancreatic cancer detected too late, I made a surprising self-discovery: I no longer was really trained for life.

For nearly 31 years my wife had kept me as a kind of pet.

The only job I had to do was to do my job — bring home the bacon. Otherwise I was totally free. My wife handled all the household problems and protected me from all other cares except my work. As a result I guess I became something of a basket case.

"I will never be able to understand how you managed to go to three wars and get back without me along to help you," Frances told me more than once.

"I had Uncle Sam there to tell me when to blow my nose," I explained.

After a loved one dies, there is a gulf of grief and measureless loss to cross. Despair and guilt are a daily bread. But when that gulf is crossed — if it ever quite is — there has to begin a new accommodation to life.

In my case this was doubly difficult.

I did know how to take out the garbage — every wife insists that her husband at least learn that fine art. But I didn't know how to cook anything except canned chili. I didn't known how to get my income tax forms filled out, pay the rent, or get the laundry done, the windows washed, the rugs cleaned, the furniture repaired, the cat's box sanctified, the landlord mollified, peddlers at the door rebuffed, our teen-age daughter raised, or how to throw a cocktail party.

Or — most of all — how to get a new button sewn on a shirt.

"Don't worry about a thing," advised an older friend of mine, who had lost his wife a number of years before. "Before long there will be so many women trying to help you that you'll have to beat them off with a baseball bat. Believe me, I'm right."

Believe me, he was wrong.

I may be the apple of my dear old mother's eye, but I am not now — nor have I ever been-an orchard entire unto the fair sex as a whole.

Lady Is A Car Salesman

DALLAS (AP) — It takes a lot of smooth talking to be a car salesman. It also helps to have nice-looking legs.

Just ask Mary Ann Clote, 44, mother of four, former stewardess, model, magazine editor, secretary, actress and now car saleswoman.

"My kids have to eat same as anybody's," she tells the curious customers who can't believe the lady with the big green eyes is hustling cars.

"I owned a personal development school until the recession wiped it out. I saw an article about Peggy Ann Garner, the child star, selling cars in Hollywood. I though I could do that easy—I mean I've tried out everything else."

Mrs. Clote not only talked her way into a job opening, but made salesman of the week before the 20 men in the sales department could say "male Chauvinist pig."

"The other salesmen were great teaching me car-talk like 'positraction' and 'gross horsepower,'" she said. "I help push cars out of the showroom just like the men. But because I'm a 'lady' they still hold the garage door open for me."

Being a female on the sales floor has mixed advantages: "The women all look relieved and whisper to me they're glad I'm a woman because they trust me more. But then the women are usually harder to sell."

Mrs. Clote is working on a novel about a "victim of sexism" and is active in women's equal rights work.

"I just hate to say it, and I know my sisters in the women's movement would hate to hear it, but without fail, I sell twice as many cars when I wear a miniskirt as when I wear a pantsuit. The salesmen swear I'm discriminating against them. But then, they can tell dirty jokes and I can't."

TIP IN SHOT--Western Texas College's Fred Allen (24) goes high to tip in the ball during the basketball tilt with Fort Worth Christian here last night. Allen scored 16 points and the Westerners won 104-67. Other Westerners in on the action are Walter Hannibal (25), Danny McDaniel (23), James Houston (third from right), and Johnny Neff in the background. Westerners Rip Ft. Worth 107-67

The Western Texas College Westerners boosted their season basketball record to 2-0 here last night with a convincing 104-67 triumph over Fort Worth Christian.

The visitors from Fort Worth simply couldn't cope with Westerners full court press as the Westerners built a huge lead early. They were ahead 48-23 at halftime, and Coach Sid Simpson was able to get all 14 of his lads into the game in both halves.

WTC hit a torrid 42 of 83 shots from the floor for 52 per cent. They also connected on 20 of 30 from the foul line for 67 per cent. Fort Worth, on the other hand, hit only 27 of 84 for 32 per cent from the field and 12 of 26 for 46 per cent from the line.

James Houston and Fred Allen both were hot. Houston hit 8 of 13 from the floor and compiled 19 points. Allen hit 7 of 14 from the floor and connected for 16 points. Walter Hanibal, who led in rebounds with 15, also was in double figures with 13 points.

Christian had only two men in twin figures. Isaac Brown and Paul Fuller each collected 14 points.

WTC had a 72-28 edge in rebounds.

Johnny Neff, who netted six points, hasn't missed a shot from the floor this season, and he also played a good floor game. Steve Sparks, who also hit six points, also had a good floor game.

Coach Simpson said he was proud of the Westerners. "They played much better than they did in the previous game," he said.

Danny McDaniel, James Batteau and Jimmy Hill each meshed six points while Kent Horsley dunked in seven. All of the Westerners got in on the scoring. Others who scored: Eric Grant 5, Luis Blanco, Ronnie Allen, and Harold Ward, 4 each; and Joel Dyess 2.

The Westerners will host Cisco Junior College at 7:30 p.m. Saturday in the Scurry County Coliseum.

"They are big, strong and experienced," said Coach Simpson.

The Westerner mentor said he would start Walter Hannibal and Harold Ward and either James Houston or Ronnie Allen and two of the following three: Fred Allen, Johnny Neff or Danny McDaniel.

Ira Flails Flower Grove

FLOWER GROVE--Ira's Bulldogs flailed Flower Grove 73-6 here last night and then won a coin flip with Hermleigh and Bula to win the right to represent District 4-B Six-Man football in the bi-district game.

Ira will meet the winner of the O'Brien-Trent game tonight.

Richard Davis scored two touchdowns for the Bulldogs in the first quarter on runs of over 20 yards each. Kirby Sterling scored on a 29 yard pass from Donald Sellars, and he tallied again on a run up the middle from 22 yards out. Tom Daves tallied on a 30 yard run. Kirby Sterling kicked perfectly from placement four times following first period touchdowns.

In the second quarter, Flower Grove scored on a pass play that covered 60 yards.

Dale Wiggins ran 50 yards for one touchdown. Randy Sterling tallied from 8 yards out. Tim Murphy scored on a 70 yard run, and Mackey Holladay scored on a 10 yard run. Kirby Sterling kicked perfectly from placement twice more, and then he threw a pass to Holladay for another point.

Travis 9th Trips SA Glenn, 16-8

Travis 9th grade pounded San Angelo Glenn 16-8 here last night to boost their record to 6-3.

San Angelo returned a punt 60 yards for a touchdown in the first quarter, and they ran over for the two extrapoints.

Travis tied it up late in the quarter. Harvey Waller scored from 18 yards out on a reverse to cap a 90 yard drive. David Rodriguez added the two extra points.

There was no scoring in the second or third quarters, but Travis drove 90 yards again in the fourth quarter. The score was a 35 yard run by Chester Cobb. Cobb passed to Kenny Thompson for the two points.

Travis held Glenn twice inside the 10 yard line as the entire defense looked good. Earnest Brandon made two interceptions. David Rodriguez led the offense with 105 yards rushing. The total offense was 295 yards.

Lean John Stufflebeem once punted 83 yards for Randolph-Macon Academy. The football people at the U.S. Naval Academy remembered that and now Stufflebeem is their No. 1 booter.

Tigers Begin Cage Season

Snyder's Tigers inaugurate the 1972-73 basketball season at 8 p.m. Saturday in Odessa against Odessa High. Tipoff in the B team game will be at 6:15 p.m.

Coach Bob Moore of the Tigers has a sound nucleus of returning lettermen from which to build a team this season. Last year, the Tigers were 28-4 for the season and went to the regional round before being eliminated by Odessa Ector by one point. Estor went on to win the state championship.

Probable starters for Saturday's contest will be Fred Liner, 6-2senior guard; Jerry Brooks, 6-3 senior wingman; Kevin Jones, senior 6-4 post man; Gary Brooks, 6-3 wingman; and, Moell Blalock, 6-3 senior post man.

Jerry Brooks and Liner were starters last season while Jones and Gary Brooks saw considerable action. Blalock saw limited action on the varisty, but got most of his experience on the JV team.

"We'll use a double post offense," said Coach Moore.

Other Tigers ready for action are lettermen Mike Hinton (5-10), and Charles Anderson (5-7). Hinton is a wingman while Anderson is a guard. Another lad expected to see considerable action is Derryl Morgan, 6-0 senior guard, who had JV experience last season.

The roster also includes Tim Jones, V.T. Roberson, Larry Mosier, Max Underwood and Sam Byrum and two or three sophomores.

Richard Gorman will be out due to a fractured hand. Jimmy Don Dyess is still recovering from surgery.

"I don't know much about Odessa," said Coach Moore. "they have a real fine 6-2 guard named Wilkerson and they play a controlled offense," he said.

Travis 8th Loses

Lamesa's 8th grade football team blanked Travis 8th grade 34-0 here Thursday afternoon. It was the final game of the season for the local 8th grade team.

Eyes Record

ALBUQUERQUE, N. M. (AP) — With one football game left this season, University of New Mexico star running back Fred Henry is only 154 yards short of making the Western Athletic Conference record book.

Henry will be aiming at the WAC record for career rushing Saturday when the Lobos meet the University of Houston on the Astrodome's artificial turf.

Tigers, Bulldogs Tangle Tonight

The Snyder Tigers and the Plainview Bulldogs will ring down the curtain on the 1972 football season in Bulldog Stadium at 7:30 p.m. tonight.

Plainview, sporting a 5-4 record a 1-3 district mark, will be a solid touchdown favorite. Snyder is 2-7 for the season and 0-4 in district play. This will be the fifth meeting between these two teams. Plainview won 28-20 in 1952 and 34-6 in 1953. The Tigers won 39-19 in 1954 and 20-0 in 1955.

Neither team has shown up too well in the district race. In four district games, the Bulldogs are averaging only 147.5 yards in total offense. Snyder is averaging only 103 yards per district game. Defensively, the Bulldogs are allowing 221.4 yards per game while the Tigers are yielding 301.7 yards per game.

Plainview has one of the most experienced backfields in District 4-AAAA. Quarterback Mark Foote, a 155-pound senior, and halfbacks Scott Hallman and Larry Buckner are senior lettermen. Hallman and Buckner each tip the scales at 175 pounds. The fourth man in the Bulldog attack if fullback Arthur Wooley, who also is a 175-pound senior.

Hallman made all-district last season when he gained 621 yards rushing. This season, he has scored 42 points and has 546 yards on 116 carries. Wooley, the fullback, has a better average with 536 on 95 carries. Wooley also has scored three touchdowns. Foote is described as an adequate passer. He has completed 12 of 51 for 190 yards and three touchdowns.

The Bulldogs operate from the Wishbone T. Coach Maurice Hodges' Tigers wmploy the Winged-T attack. Guiding the Tiger T will be Tim Jones, 143-pound junior, who has connected on 13 of 34 passes for 131 yards and one touchdown. Tommy Welsh, 208-pound junior, will be starting in his first game at fullback in place of the injured Richard Gorman. At halfback will be Welton Cobb, 192-pound senior, who could be the fastest man on the field. At wingback will be either Kerry Smith, 138-pound junior, or Ralph Lewis, 176-pound junior.

Defensively, both units use the Oklahoma five alignment. Anchoring the Tiger defense is Welton Cobb, who made 27 tackles in the game with Hereford last week. He is one of the linebackers.

The Bulldogs have an experienced defensive secondary with three lettermen in the game. They are corner Dwight Adams, a 155-pound senior; halfback Danny Buckner, a 146-pound senior; and, safety Newt Wheeler, a 155-pound senior.

Victory probably will go to the team with the greatest desire. The Tigers demonstrated in the last half against Hereford that they have the will to fight until the final gun. The coaches are hoping the determination demonstrated in the Hereford game will carry over into a victory tonight.

Sophs Whip Lubbock 40-0

The Snyder High School sophomore varsity thumped Lubbock High 40-0 here last night in the final grid game of the season for the local team.

Dennis Young went around right end 80 yards for a touchdown on the first play from scrimmage. A run for bonus points was stopped short.

In the second period, quarterback Win Bunch swept left end from two yards out for another tally. The TD was set up by a fumble recovery on the 5 yard line. Bunch passed to Roy Lee Carter for the two extra points. The same combo connected on a 60 yard pass and run play to set up the next touchdown later in the period. Bunch turned in a 20 yard run to the one, then he swept right end for the TD. Bunch passed to David Mays for the two extra points with 1:11 remaining in the half as the locals took a 22-0 lead.

Ricky Howell turned in a 55 yard touchdown run on the first play from scrimmage in the second half, but a pass for bonus points missed.

In the fourth quarter, Greg Gafford passed 40 yards to Robert Ramirez for another touchdown with 20 seconds remaining in the game. Then, on the last play of the game, George Willis swept right end from 15 yards out for the final touchdown.

Wrestling Card Slated Tonight

Wrestling returns to Snyder at 8 p.m. tonight after a long absence. The program will be held in the Scury County Coliseum.

There will be a double main event.

The first main event will be Ricky Romero going against Karl Von Steiger. The popular Mexican wrestler, Ricky Romero, returns to Snyder after a long absence. He has long been the most popular wrestler ever to appear here. He will be in for a strong test tonight when he meets the rugged German wrestler Karl Von Steiger. Steiger will be making his first appearance here. He uses the deadly heart thrust to stop his opponents. Most people say it is a heart punch instead of a thurst. Steiger denies this. He has injured several wrestlers with the thrust, promoters said. No one has been able to stop him; but if anyone can, it will be the popular Ricky Romero.

The second main event will be a brass knuckles match. Ciclon Negro will be going against Moose Morowski. Both of these wrestlers are "equally disliked" by the fans. This will be one of the wildest matches ever seen in the Coliseum. Rules are taped firstwill be legal and a man can win by a 10 count knockout or a pin fall.

The special event will be a midget match. Wee Willie Wilson will be going against Little Bruiser. These are two of the greatest midget wrestlers in the world today. They will keep the fans standing with excitement with their high flying speed type wrestling. Wee Willie Wilson is the smallest midget in wrestling today. He weighs 83 pounds.

The opening match on the card will be a tag team. The Viking and the Black Devil, managed by J.C. Dykes, will be going against Ricki Starr and Nick Kozak. This could well be the best match of the evening as J.C. Dykes returns to Snyder after a long absence, with his masked Black Devil and the Viking. Also coming here for the first time will be Ricki Starr, the ballet-dancing wrestler.

Tickets cost $3 for ringside, $2 for general admission with children from four to 11 being admitted for $1.

Russia, US Clash Over UN Budget Cut Drive

By WILLIAM N. OATIS
Associated Press Writer

UNITED NATIONS, N.Y. (AP) — The United States' drive to get its U.N. budget assessment cut from 31.52 to 25 per cent has produced a Soviet-American confrontation in the old Cold War style.

U.S. Ambassador George Bush clashed with Soviet Ambassador Vasily Safronchuk soon after Sen. Gale McGee, D-Wyo., opened the drive Thursday in the General Assembly's budgetary committee.

McGee, introducing a resolution to reduce the U.S. assessment "as soon as practicable," promised that U.S. contributions to U.N. voluntary programs would continue high.

Safronchuk announced that he would vote against the resolution and said the wealthiest country's assessment should be based on the traditional yardstick of per capita income. He said this would make it 38.4 per cent.

The Russian said that the United States also got more out of the voluntary programs than it put into them because they bought things in this country. For example, the U.N. Children's Fund spent $27 million a year in the United States and got only a $24 million U.S. contribution.

Bush, red-faced, shook his finger and demanded, "Are you proposing, sir, that we cut off all support to UNICEF? I think this is selfish thinking."

He said that for the typical year 1970, the United States contributed 40 per cent of all the money paid into both assessed and voluntary U.N. funds, while the Soviet Union contributed only 7 per cent.

"When the U.S.S.R. lectures my country on who does what to help, please keep in mind these figures," Bush exclaimed.

There were these other developments Thursday:

The Assembly's main political committee approved four resolutions opposing nuclear testing by votes ranging from 81-4 to 106-4, but two of the nuclear powers — China and France — voted against them. The United States was among 15 abstainers on a resolution deploring the use of napalm, which was approved 100-0.

France lost a fight in the social committee to get action on a treaty to protect journalists in war zones. Soviet Bloc and Third World countries pushed through a proposal to postpone the issue until next year.

Guinea, Somalia and Sudan submitted a resolution to the Security Council calling on Portugal to negotiate with liberation movements in its African territories.

Captain's Kin, Friends Pleased

By PATSY GORDON
Sweetwater Reporter Writer
Written for Associated Press

SWEETWATER, Tex. (AP) — Although they would not comment, the parents of Capt. James W. Lanning, who live in the small west Texas Community of Sylvester, 25 miles north of Sweetwater, showed definite signs that they were very pleased that their son had been cleared of all allegations against him stemming from his command of a 24th Infantry Division company in Vietnam.

The captain was cleared by the Army Tuesday following an investigation of alleged atrocities by a military unit under his command in Vietnam in the spring of 1967. Capt. Lanning, a 1964 graduate of Texas A&M, was cleared by Lt. Gen. John Hay, commanding general of the 18th Airborne Corps at Ft. Bragg, N.C.

As word spread across Nolan and Fisher counties, many words of relief were heard. The same also was true in Trent, Tex., where Capt. Lanning graduated from high school.

The parents of the captain only told reporters, "no comment," to questions about investigators turning up no evidence to warrant action against their son.

On several occasions during the interview, the Lannings spoke of the incident as being finished now, and were hoping this would be the last time they would be asked for statements.

A close friend of the Lanning family at a service station in Sylvester commented, "no one in Sylvester had any doubt that the Army captain would be cleared of the atrocities" which allegedly happened in the same area as the My-Lai massacre only a year before.

When the report of the investigation was made public two months ago, friends and acquaintances of the Lanning family in Sylvester, refused to believe the man they remembered as an "All-American boy" would be responsible for the alleged atrocities.

At Trent, where Lanning graduated, several different reactions were seen, all of them on the happy side and everyone talking about how fine a person Lanning was.

Mrs. Edith Rudd, a third and fourth grade teacher, said, "I feel relieved and happy that he is cleared. I always thought he'd do what was right. I know how he was raised."

The high school custodian, Henry L. Tiddle, explained that he had know Lanning about 20 years and he was a good leader of boys. "There isn't a thing in the world wrong about him," Tiddle said.

Garnet Wilks, president of the Home State Bank of Trent, feels the clearance of Lanning justifies the faith that all the people of Trent had in the young man.

"All of the people around here know he was a fine young man and a good student and this sort of thing was foreign to his nature," said Wilks.

Newsmen To Honor Picket

NEW YORK (AP) — Walter Cronkite and other newsmen at the Columbia Broadcasting System say they have "reluctantly" agreed to honor picket lines set up by striking CBS technicians if ordered to do so by their union.

The on-the-air newsmen said in a statement Thursday that while they did not agree with the objectives of the technicians, they felt a "moral obligation" to go along with the decision of their own union.

Reached at Lenox Hill Hospital, where he has been undergoing tests for chronic hoarseness, Cronkite said he concurred in the statement. He said he expected to return ot work Monday unless prevented by the strike.

The statement was signed by John Hart, Douglas Edwards, Richard C. Hottelet, Douglas Sefton, Reed Collins, Stuart Novins and Hughes Rudd, among other newsmen.

The newsmen are members of the American Federation of Television and Radio Artists, whose own contract with CBS and other networks expired at midnight Wednesday. At the moment, they are continuing to work pending contract negotiations.

Wolf Killed

MILLINOCKET, Maine (AP) — A wolf-like animal killed by a deer hunter near this northern Maine town was a large eastern coyote.

Wildlife experts at the University of Maine at Orono examined the carcass of the 51-pound tawny creature Thursday and determined that it was not a Canadian wolf.

Wolves have not been sighted in Maine for more than 75 years.

Vein Transplants Are Helping Heart Patients

DALLAS, Tex. (AP) — A surgical procedure for some heart patients in which a vein is transplanted to improve blood flow not only relieves pain but apparently prolongs life, a Texas surgical team reports.

Little has been known about the long-term effects of the procedure, in which a vein from the patient's leg is transplanted to bypass vessels leading to the heart which have been partially stopped up by thickening of the arteries—arteriosclerosis.

Dr. Denton Cooley of the Texas Heart Institute, Houston, told a news conference that he and his colleagues have found that patients who have undergone this operation die at a lower rate than other heart patients, even those with the mildest coronary disease.

He emphasized that the number of patients studied so far is small but added that "we are encouraged."

Cooley and other surgeons at the scientific sessions of the American Heart Association spoke favorably of the bypass surgery, which has been growing in popularity, although they acknowledged that some problems remain to be worked out.

They emphasized that not all patients who have angina pectoris—sharp paints in the chest growing out of arteriosclerosis—are candidates for such surgery and that they must be carefully selected.

The American Heart Association estimates that since 1967 some 35,000 such operations have been performed, 20,000 in the last year.

Dr. J. Willis Hurst of Emory University, Atlanta, president of the association, told newsmen that "the flurry of everyone doing it may go down."

Dr. Gerald Austen of Massachusetts General Hospital, Boston, noted that "it did spring up that doctors in small hospitals" were performing the surgery.

Thanksgiving Service Is Set Sunday

The annual community-wide Thanksgiving service, sponsored by the Scurry County Ministerial Alliance, will be held Sunday evening at the First Baptist Church.

Guest speaker for the service will be Grant Teaff, head football coach at Baylor University. Teaff, formerly of Snyder, is the son of Mr. and Mrs. Bill Teaff and a former star athlete at Snyder High School.

The Thanksgiving service will begin at 7:30 p.m.

An offering will be taken at the service to further the benevolent work of the Ministerial Alliance. The alliance has assisted people in dire need of clothing, food and lodging.

Evangelism Workshop

Lutherans from the West Texas area will be attending a workshop of Key '73 Evangelism program.

This will be held at Grace Lutheran Church from 10 a.m. to 12 noon Saturday. Lunch will be provided.

Program will begin with a 50-minute motion picture, "There is A New Wind Blowing." This picture captures the enthusiasm of evangelism by examining successful church programs currently in operation in various parts of the country in different denominations.

After the film there will be a discussion about the film and options that each congregation may have to carry out the program.

Lutherans are expected from Midland, San Angelo, Miles, Vernon, Avoca, Sagerton, Lubbock, Sweetwater. Also, local Methodist churches will attend. Everyone is invited.

Turkey Dinner Sale Tomorrow

There will be a sale of turkey dinners and pies, cakes and cookies tomorrow at the Snyder Child Day Care Center, located at Thirty-fourth Street and Avenue K.

The event will begin at 11 a.m. and continue to 5 p.m. All proceeds will be used for items needed at the center.

Church Choir Is In Talent Review

The First Baptist Youth Choir and Handbell Choir will be competing in the First Annual Scurry County Talent Review to be held Friday, Dec. 1, at the Scurry County Coliseum.

The 55-member choir will present two or three choir selections and one handbell selection in the program. The group is made up of junior high, high school and college students and concentrates primarily on singing religious music with special emphasis on Christian folk music.

Organized in 1953, the choir sings for Sunday night worship services at the First Baptist Church, presents an annual Christmas Cantata and an annual folk musical. Director is Jerry Neill, youth director of the church.

The choir has performed before an audience of 1,000 at the Mt. Rushmore Amphitheater in South Dakota Black Hills and in Torreon, Mexico. In recent years, the choir has received a division one rating at both state and area church choir festivals.

"Our choir consists of about 12 handbell ringers. Each handbell is an expensive and perfectly tuned instrument. Each one has a precise note sound and is individually hand-cast," Neill said concerning the handbell choir. He further commented, "The handbell choir is becoming popular among church choirs today."

Officers of the choir are Jimmy Shelburne, president; Jimmy Browning, vice president; Pam Underwood, secretary. Accompanists are Darlene Abbott and Pam Underwood.

The Talent Review will be the final event of the Scurry County United Way Campaign. Tickets will go on sale Monday, Nov. 27 at a cost of $1.75 for adults and 75 cents for students. All proceeds will go to the United Way Fund.

WHAT THE LUTHERAN CHURCH STAND FOR

GOD is the Triune God of the Bible; Father, Son and Holy Ghost who has made of one blood all the nations of men to serve him.

THE BIBLE is the Word of God. It not only contains, but actually is God's Word and the only source of revealed truth concerning Christ, Faith and Salavation by which the Church is governed.

THE CHURCH is the body of all believers in Christ who are reborn by the Holy Spirit and brought to Faith in Jesus Christ through the gospel.

FAITH in Jesus Christ is the gift of God to man through which he is declared righteous before God and forgiven all his sins.

MAN, though created holy and innocent by his own choice fell into sin, thus separating himself from God.

SIN is every transgression of God's Law and leads man to death and eternal damnation unless he is redeemed.

REDEMPTION is the act of God revealed in the Bible and proclaimed by the Church whereby Jesus Christ the Son of God born of the Virgin Mary, died for the sins of the world and rose again from the dead to prove our redemption.

Read the 150th Psalm for a clue.

It begins and ends with a call for all men to praise God.

Let everything that hath breath praise the Lord. Perhaps we would do well to follow David in this matter of being Thankful. Our Pilgrim Fathers did. They put God right in the center of every Thanksgiving day. It was the Lord's Day . . . not just another day void of work. Then just what is there about Thanksgiving, about God, that makes me glad? What is it that lifts my face to Heaven when I am sad and when I am glad? Too many times we find the weak, the hungry, the sick and the sad way out in front with their Thanksgiving to God for His fairness, His kindness and His goodwill.

Certainly the Great God goes beyond justice to establish love as the central virtue. He gave up His Son to prove it to us beyond a doubt. He calls on us to be very Thankful for health, if we have it — for wealth, if we own it — and for that friend who can turn us on when our way is dark.

He invites all of us to live like women and men who know very well about God, . . . to be grateful for the few days He gave us which have been full of the trouble He promised. Don't ever let us say a final farewell to dear ones, but let us be Thankful for His promise that we may find them again.

Thank you, Lord, for these reasons and many more. Amen.
