PLAINVIEW DOCTOR IS SLAIN

Steel Plants To Reopen Under Troop Guard

Member of Associated Press—Day and Night Leased Wire Service

LUBBOCK EVENING JOURNAL

VOL. 13, NO. 209 LUBBOCK, TEXAS, "The Hub Of The Plains", FRIDAY, JUNE 25, 1937

Protection For Laborers Will Now Be Given

(By The Associated Press)

YOUNGSTOWN, O., June 25 — Steel mills of the Mahoning valley, strike-locked for 30 days, were told by Gov. Davey they could reopen immediately under the full protection of the national guard.

The famous "status quo," requested by Secretary of Labor Perkins and enforced in Ohio by militia was ended suddenly.

Men who want to work shall "enjoy that privilege;" those who wish to continue to strike "are entitled to do so," the governor said in a late night order to the adjutant general.

The governor acted immediately after President Roosevelt's three-man mediation board at Cleveland had made a final, unsuccessful effort to settle the strike with a proposed "man to man discussion around a conference table."

Can Not Sign With C. I. O.

"We are very sorry," said terse, identical statements of the Republic Steel corporation and Youngstown Sheet & Tube Co. "We cannot, in justice to our employes, sign a contract with CIO."

This was accepted generally as marking the definite collapse of the board's four-day efforts to find a common ground for mediation of the costly strike. The board members themselves were frankly disheartened.

Martial law was being lifted on another tense striking front—Johnstown, Pa., where state police, under orders from Governor Earle, forced closing of the Bethlehem Steel corporation's Cambria works last Sunday.

Fears were expressed by Johnstown officials of a "march of miners" into town today as a demonstration of miner support for the

British Government To Provide Millions Of Gas Masks To Citizens In Case Of War; Production Now Being Speeded

(By The Associated Press)

LONDON, June 25—The British government is speeding fulfillment of its pledge to provide every man, woman and child in the country with a gas mask in case of war.

Already masks have been manufactured for 9,000,000 of the 45,000,000 people in the British Isles, especially the Irish Free State. That disclosure was made yesterday by Geoffrey Lloyd under secretary of the home office, in the house of commons.

The present program calls for the production of 00,000,000 masks to supply immediate protection to inhabitants of the dense industrial districts.

Instructors on 30 trucks, equipped with special gas chambers, will visit towns and villages in every part of the country to test the masks under actual gas conditions and give demonstrations on use of the equipment. Volunteers will be allowed to enter the gas chambers wearing the masks so that confidence in them may become general.

Advertisements for a new apartment block in London's fashionable regents park district emphasize the buildings have bomb proof and gas proof shelters.

Wage, Hour Law Urged For Texas

(By The Associated Press)

HOUSTON, June 25 — Gerald C. Mann, former secretary of state of Texas, called today for a state minimum wage and maximum hour law and for correction of undesirable conditions "by appeal to constituted authority."

He pleaded before the Young Democrats of Texas, meeting in convention here, for fair play toward capital and labor but warned against appeal to violence, intimidation and mob spirit. "It is un-American and unbecoming to the true spirit of American labor," he said.

Demos Are Lauded

He lauded the Democratic party as "the friend of the man who toils for his daily bread," and said that its obligation was "to see that justice prevails among all men."

"All labor is entitled to a living wage," he said, "a day short enough to guarantee to him time enough to enjoy his own friends and proper working conditions. Capital is entitled to be secure in the ownership and control of its property."

The Texas club's national committeeman, Earle Mayfield, jr., of Tyler, gave the delegates a cue the contentious subject of the president's court reform should not be brought up for discussion.

Still New Dealers

"Essentially the Young Democrats are still New Dealers," Mayfield explained. "There is a divergence of opinion on policies, but we believe that the national situation is fairly well taken care of at this time." He said the court reform plan would not receive attention.

"We feel strongly, however, a need for judicial reform in Texas," he added. "We are going to ask that state judges be retired without pay at the age of 60 and that the number of judgeships in Texas be materially increased."

The convention also will ask for closer cooperation and combined federal and state control of labor in regard to strikes, he said.

About 1,000 were expected for the meeting.

Tom Mooney Gets Advancement In Job At San Quentin

SAN QUENTIN, Calif., June 25 (AP) — Tom Mooney, California's most talked of convict, has been promoted from peeling potatoes to growing them.

Captain of the yard Ralph New assigned Mooney a job as gardener after he returned from the San Francisco county jail because his potato peeling job was filled.

Houston Convict Faces Life For Slaying Of Another

HUNTSVILLE, June 25. (AP)—Homer Jack Turney, 26, Houston convict, faced a life sentence in prison today for stabbing to death Alton Crowson, a fellow-prisoner, in a penitentiary movie chapel last May.

A jury found him guilty last night of driving a knife into Crowson's neck as the China Grove convict watched a moving picture. Turney said the life sentence did not worry him.

FANNIE BRICE IN TEXAS

FORT WORTH, June 25. (AP) — Fannie Brice, famous Broadway comedienne and wife of Billy Rose, producer of the Frontier Fiesta here, arrived in Fort Worth today to attend the opening of her husband's theater-restaurant, Casa Manana, on Saturday.

TWO CHILDREN DIE

McALESTER, Okla., June 25. (AP)—Imogine Jones, 12, of Blocker, Okla., and Anna Lee Kincheloe, 13, of Franco,di ed here today from injuries suffered last night when an automobile struck a mule on a country road one mile south of Blocker.

The Weather

WEST TEXAS: Generally fair tonight and Saturday.

EAST TEXAS: Fair tonight and Saturday. Gentle to moderate south and southeast winds on the coast.

BRITAIN PLEDGES PEACE

Nation Urged To Keep Cool Over Crisis

German And Italian Ships Are Strung Along Spanish Coast; Other Powers Represented

(By The Associated Press)

Britain's Prime Minister Neville Chamberlain promised the house of commons today he would do everything in his power to keep the Spanish civil war from bursting into a general conflict.

He urged Great Britain to "keep cool."

He advocated renewed efforts to withdraw all foreign fighters from Spain and filling in of the gap in the neutrality patrol of Spanish shores that resulted from German and Italian withdrawal.

Ships Patrol Shores

While Chamberlain opened a commons debate, German and Italian warships were strung along Britain's "empire life line" in the Mediterranean, near Spain's bloody shores.

The sea power of Britain and France was well represented there, too.

France and Great Britain urged Germany and Italy to approve their proposal that Anglo-French warships take over the portion of the international patrol which Germany and Italy abandoned. That portion lies on the east, or Spanish government, coast of Spain.

Future Italian cooperation in the patrol was said in Rome to depend on Franco-British collaboration in presenting a firm front against "bolshevism."

Fears Are Felt

In Italian political quarters there were fears that some new incident might force Italy and Germany to withdraw from the European non-intervention committee as well as the patrol.

Spanish insurgents within the peninsula continued their advance on the northern Spanish civil war front. They swept government forces from the industrial region along the west bank of the Nervion river, west of insurgent-conquered Bilbao.

London Naval Treaty Of 1936 Ratified Today By France

PARIS, June 25. (AP) — France, ratifying the London naval treaty of 1936, expressed hope today that the accord quickly would become effective as a slight check, at least, on the world armaments race.

Great Britain still must approve the pact, limiting the size but not the number of signatories' warships and providing for exchanges of information on naval building programs.

The United States, the only other adherent, already has approved the treaty.

Several Riders To Mileage Bill Vetoed By Allred

AUSTIN, June 25. (AP)—Governor James V. Allred today vetoed several riders to the mileage and per diem bill, including one appropriating $3,000 to house the board of water engineers.

The highway department had asked the board to leave the highway building. The governor stated a $3,000 appropriation would be inadequate to obtain the space needed by the board and "the highway department should be willing to be a little crowded along with other departments of state."

The convention also will ask for closer cooperation and combined federal and state control of labor in regard to strikes, he said.

About 1,000 were expected for the meeting.

Huge Flying Boat Is Cruising Across Skies Of Nation

SAN DIEGO, Calif., June 25. (AP)—Flying at 150 miles an hour, Richard Archbold's big flying boat roared smoothly eastward today on a non-stop trip from San Diego to New York.

Archbold, seeking to make the first non-stop transcontinental flight for a flying boat, widelessed at 3:30 a. m. (P.S.T.) that he was over St. Louis, Mo. and proceeding at 160 miles an hour.

Corsicana Woman Is Killed When Car Strikes Truck

ENNIS, June 25. (AP) — Mrs. Ivan Bronskill, about 26, of Corsicana, was killed last night when an automobile in which she was riding struck a parked truck one mile south of Ennis on highway No. 75.

Capt. Lee Miller of the state highway patrol arrested the driver of a Dallas truck.

Bills To Outlaw Gambling Are Sent To Governor

AUSTIN, June 25. (AP)—The house today sent to Governor James V. Allred bills outlawing dog track betting and tightening the statutes against horse race bookmaking, thereby virtually completing work of the special anti-gambling session.

Where Lazy Lounger Can Languish Languidly

Lounging lassitude for the lazy man and why not, asks George Turney, Houston, who sits in his own invention, above, and relaxes contentedly. A convivial cabinet built into the generously-paddled chair's left arm, a radio in the right and a telephone handy, with a diffused reading light overhead. Turney calls it the lazy man's chair.

Several Hundred Farm Boys And Girls To Visit City

Registrations were to begin this afternoon to be followed immediately by the start of a program of fun and instruction at the annual encampment of Lubbock county 4-H club boys and girls at Texas Technological college tonight and Saturday.

Registrations for girls were to continue at the college gymnasium until about 4 p. m. Boys were to register at the stock judging pavilion. Games were to begin immediately.

The club members will participate in swimming and contests before their picnic supper at 6 o'clock. Songs and games will be directed after the supper, Homer E. Thompson, assistant county agent, who has charge of the encampment said.

Several Hundred Expected

An attendance of several hundred is expected at the two-day meet.

Saturday's program includes: 5:30, rising bell; 6 to 7, 4-H boys arrangements at pavilion; girls at gymnasium. Breakfast will be from 7 to 8, near the college gymnasium, with a sing-song from 8:15 to 8:45 o'clock.

The joint groups will hear J. D. Hassell, jr., president of the Lubbock Chamber of Commerce at a meeting at the gymnasium at 8:45, in a welcome address to the club group. Shirley Garrison, club boy, will respond to Hassell's message, and an address by President Bradford Knapp of Texas Tech. Judge J. J. Dillard, Lubbock county judge, will address members of the encampment.

Dividing into groups, the boys

Trail Of Crime Is Being Left By Escaping Texas Fugitives

(By The Associated Press)

COVINGTON, Hill county, Tex., June 25.—Four men, one of them believed to have been Harry Roberts, fugitive from Eastham prison farm, tied up a mechanic and night watchman here today, stole an automobile, kidnaped and later released a couple.

Harold David, 23, and Mildred Nearing, 18, said they were kidnaped last night at Corrigan where they had gone to attend a movie. The four men and their captives rode most of the night in David's automobile. The men, David said, searched for a night watchman in towns between Corrigan and Covington, to obtain gasoline, clothes and razor blades.

Auto Is Stolen

At Covington they forced Jim Holloway, night watchman, to go to the home of J. A. McNally, mechanic, and forced the latter to open the Love garage here. There they took an automobile belonging to M. T. Davis, bank president. One of the men got into the Davis coupe with David and his companion. The automobile was wrecked four miles west of Covington. The couple hitch-hiked back to town. The four men fled in the sedan they had taken from the couple.

Exchange Equalization Fund Of Britain May Be Boosted

LONDON, June 25. (AP)—Sir John Simon, chancellor of the exchequer, today asked the house of commons to increase the exchange equalization fund by £200,000,000 (about $1,000,000,000) to support Britain's monetary agreement with the United States and France.

This jump, Simon told commons, would bring the stabilization fund to £550,000,000 (about $2,750,000,000) and was made necessary by the unsettled international situation.

Farm Implement Dealer Dies As Result Of Shooting

DALLAS, June 25 (AP)—C. R. Wilson, 50, farm implement dealer, died today of four pistol bullet wounds suffered yesterday.

A Morrow, 49, farmer living near Rockwall, who surrendered to Deputy Sheriff Bill Decker after the shooting, was held in county jail.

BOY GETS MEDAL

PHILADELPHIA, June 25. (AP) — Marvin Long, 18, who did not know how to swim, received a gold medal yesterday forsa ving eight-year-old Elsie Lagler from drowning in 20 feet of water. He said "I just moved my feet and tried to walk."

Records Bared Of Dust Bowl

(By The Associated Press)

DENVER, June 25 — Geological records of the past 50,000 years tell what must be done if the midwest dust bowl does not mant to return to the desert it once was.

These records were given to the American Association for the Advancement of Science today by Dr. M. M. Leighton, chief of the Illinois state geological survey, Urbana.

This "bowl" was a geological maelstrom up to about 20,000 years ago. Since then it has settled down to a pastorial sort of peace, never really threatened with interruption until man started to settle it.

Terrific Dust Storm

Before the peaceful period there were dust storms so terrific that they deposited in Nebraska 42,000 square miles of the present soil, to a depth of soores of feet. This deposit extends into northern Kansas.

In other places in the midwest the present soil was also laid down in part by dust storms. Glacial outwash was another important builder of the present land.

Dr. Leighton said that recent dust storms have produced "blow out depressions" a number of feet deep and many acres in extent in South Dakota, western Kansas and eastern Colorado.

Only Little Warnings

But these are only little warnings of what happened in ancient times. Ancient "blowout depressions" 40 feet deep and two miles or more in extent have been found in the high tablelands of western Nebraska and adjoining states.

Even more startling is the warning of geology that these western

(Turn to Page 13, Column 4, Please)

Condition Of Governor Rivers Is Reported As Good Today

HOLLYWOOD, Calif., June 25. (AP) —The condition of Governor E. D. Rivers of Georgia was reported "good" today at the Cedars of Lebanon hospital.

Governor Rivers entered the hospital last night after suffering what he said was an attack of indigestion. He passed a comfortable night.

How's Business Coming Along?

Beginning Monday afternoon and continuing through Wednesday, The Evening Journal presents a series of articles by John T. Flynn, nationally known author and economist, on the economic state of the nation.

One of America's real authorities on business, Mr. Flynn checks the march of recovery to date and forecasts the future as measured by present conditions.

Watch for and follow this three-part series. It is well worth reading and studying.

Prisoner Grabs Cop's Gun And Starts Firing

(By The Associated Press)

PLAINVIEW, June 25—A 39-year-old transient was held here today after Dr. E. F. McClendon, 69, Hale county health officer, had been slain and Deputy Sheriff Bill Shook had been wounded in a shooting in the transient's cell at county jail.

District Attorney Charles Dean said a murder charge would be filed against the prisoner, who gave his name as Henry Egbert King. Deputy Shook and City Policeman Nath Burkett said Dr. McClendon was called to the jail early today to treat the prisoner, who had been arrested last night at Petersburg on a disturbance charge.

As the trio approached the man, the officers said, he struck Burkett with a piece of broom handle and grasped his pistol. Three shots were fired, killing the physician and inflicting a slight wound in Shook's left shoulder.

King had been working at a grain elevator. Thad Riddle, Petersburg constable, arrested him in the disturbance complaint. He was shouting and praying, Riddle said. The man was quiet en route to Plainview, but started shouting again early today. Jailers called Dr. McClendon.

Calms Down Again

After the shooting he calmed down again, but officers said he was unable to make a clear statement. Last night he gave his home as Harris county. Today he said he came to the harvest fields from Comanche.

McClendon, who had practiced here 2 years, is survived by his widow and one son, Edgar. He was a former quarantine officer at Galveston and practiced in San Antonio before coming to Plainview. Funeral services will be held here Sunday.

Retail Trade Gains Seen

(By The Associated Press)

NEW YORK, June 25.—Most divisions of trade were adjusted to a steadier rate of progress this week, Dun & Bradstreet said today in its summary of trade and business.

"Industrial operations shed a fraction or two," the agency reported, "but the major units revealed little retrogression, except for the interference encountered in localized strike centers."

Demands Increased

Retail trade, stimulated by vacation requirements and warm weather, reflected increased demands for gingham frocks, plaid linen jacket suits, hand bags, shoes and millinery, the review continued. Sales in men's suits were highest since Easter. Volume was mainly in gabardines, tropical worsteds and flanneis.

Retail sales for the country as a whole gained two to five per cent over the preceding week and pushed 12 to 22 per cent over the like 1936 week, the report said.

In major areas gains over last year's figures were: New England 10 to 18 per cent; east, 12 to 25; northwest, 17 to 23; south, 15 to 28; southwest, 10 to 18; and Pacific coast, 7 to 17.

Oil Uneasiness Partly Offset

By ALFRED WALL
Associated Press Staff Writer

TULSA, June 25. — The uneasy feeling in the refining end of the petroleum industry was offset only partly today by the continued strength of the tank car market for gasoline.

The action of Standard of Indiana in reducing the tank wagon price of gasoline continued to have repercussions in an "edgy" feeling on the part of refiners as they prepared to meet the anticipated heavy consumption over the Independence day holiday.

Many predictions were made that Standard and such midwestern dealers as had met the decrease would "up" the price again before the Fourth of July.

Marketers Fuming

Crude oil producers and marketers still fumed over the gasoline price, contending it had robbed them of an expected general advance in crude.

The bureau of mines estimate of the July demand for crude, up 57,800 barrels from June to a daily average of 3,423,800 barrels was interpreted here as an expected increase to meet the demand of the vacation period.

In the field drillers were busy, completing a total of 701 wells.

Tom Green Would Be Exempted From Jury Wheel Under Bill

AUSTIN, June 25. (AP)—The senate today sent Governor James V. Allred a bill which would exempt Tom Green county from the jury wheel system of selecting veniremen, in use in many counties of the state. Under the proposal, veniremen would be selected by three commissioners appointed by a district judge.

AMERICANS RELEASED

VALENCIA, Spain, June 25. (AP)—Two Americans who had been detained for questioning during an intensive espionage roundup in Catalonia were released today.

Four others were held for further questioning.

Agreement On Court Plan Predicted

Administration Leaders Claim Enough Votes In Senate To Approve A Compromise

(By The Associated Press)

WASHINGTON, June 25 — Administration leaders flatly claimed enough senate votes today to approve a compromise on the Roosevelt court bill.

Opposition leaders, however, said they would permit none of the compromises now being discussed to come to a vote, and claimed a good chance to sidetrack the entire issue.

Administration leaders said they had a minimum of 54 votes lined up for a compromise authorizing the president to appoint new justices to the supreme court at the rate of one a year for each incumbent over 75.

To Face Filibuster

They conceded they would face a filibuster but claimed strength to break it.

Private conversations of leaders on both sides indicated the first test would come on a motion to postpone consideration indefinitely or return the bill to the judiciary committee.

Administration forces said they could defeat such a motion. Opposition leaders said the result would be exceedingly close and no one now could forecast the outcome.

Informal "Harmony" Talks Being Launched Today

ANNAPOLIS, Md., June 25. (AP)—Informal "harmony" talks between President Roosevelt and Democratic congressmen, beginning today on pine covered Jefferson island, may have an important bearing on many administration proposals.

Although party leaders in charge of the week-end meetings at a two-story fishing lodge insisted they were primarily social, some of the 350 guests said these subjects might be discussed:

1. Compromise on the Roosevelt court bill, which the senate will take up next week.

2. The date of adjournment of congress, forecast by many members as late August.

3. Details of the wage-hour, government reorganization, housing, farm, and other administration bills.

Mr. Roosevelt cruised down Chesapeake Bay last night to be at the island this morning to welcome the first contingent of visitors.

Legislators' Pay To Remain Same Despite Amendment

AUSTIN, June 26 (AP)—Legislators' pay would remain $10 a day, Attorney General William McCraw believes, regardless of the action of voters August 23 on a constitutional amendment to restore the fee system of compensation for district officers.

McCraw expressed the opinion upon request after conflicting reports had been circulated to the effect it would empower the lawmakers to fix their own salary, since they were district officials.

He pointed out a separate constitutional provision set the legislators' wages.

English Movie Actor Today Is Reported Near Death

HOLLYWOOD, Calif., June 25. (AP) — Colin Clive, English stage and screen actor, was near death today from a pulmonary and intestinal ailment.

Attaches of the Cedars of Lebanon hospital said he was getting steadily weaker.

Al Fresco Parties Are Popular During Hot Days

Picnics Are Scheduled

As hot weather has put an end to indoor parties, the al fresco meal once more comes into its own as the most popular form of entertainment.

Several out-of-doors suppers have been planned for tonight. These include a yard party at the home of Judge and Mrs. Dan A. Blair, 2915 Twenty-first street, for Plainview and Lubbock members of the United Daughters of the Confederacy and their husbands.

Miss Carrie Little, who is moving to San Angelo, and Miss Margaret Caffey, who is moving to Abilene, will be named honorees when Mesdames M. J. Aderton and Ruby Skipper entertain for Kappa Gamma sorority with a picnic at 7 o'clock tonight at Buffalo Springs.

Entre Nous club members will be the guests of Mr. and Mrs. F. C. Pressley and Mr. and Mrs. Joe Joyner for a supper at the Pressleys' cabin at Buffalo Springs at 7 o'clock tonight.

The Fifty-Fifty class of the First Methodist church will attend a chicken barbecue tonight at 7:30 o'clock in the backyard of the G. V. Fulton home, 2703 Twenty-first street.

Colonial Needle club members are entertaining with a picnic at City park at 7 o'clock, having husbands as guests.

Miss Mary Lois Thompson entertained with a picnic at City park Thursday night for members of the Triple Four club.

Attending were Misses Ruth E. Ford, Erma Dene Hefner, Myrtle Ewell, Marguerite Whipp and Mesdames R. W. Bates of San Angelo, Vernice Ford, J. D. Jenkins, Lucile B. Smith, J. B. Stevens, G. P. Cunningham and Sherrill Boyd.

Needle Club Bee Party Is Given In Campbell Home

Members of the Needle Club Bee were the guests of Mrs. C. O. Campbell, 2105 Twenty-seventh street, Thursday afternoon. Mrs. Carl Higginbotham was received as a member.

Mrs. Leroy Smith of Mineola was a guest. Others attending were Mesdames M. K. Simpson, J. M. Lovelady, M. M. Page, F. N. Pogue, G. H. Hughett, W. H. Newton and L. D. Thomas.

The club will have a party at 5:30 p. m., July 8 in the home of Mrs. Pogue, 1627 Seventeenth street.

Bridge-Luncheon Is Given For Entre Se Club

Entre Se club members attended a luncheon and bridge party Thursday afternoon as the guests of Mrs. George Germany at Mexican Inn. Mesdames Wilbur Cooper and Dwain Rogers made high scores.

Others attending were Mesdames Robert Cooper, Ray Johnson, Charles Spencer, Ben Jenkins and Hugh Newton.

A semi-Mexican meal was served.

The club will meet at 3 p. m., July 8, with Mrs. Wilbur Cooper, 1211-B Fourteenth street.

Mrs. J. A. Bennett Is Club Hostess At Carlisle

Mrs. J. A. Bennett entertained for the Carlisle Needle club Thursday afternoon. The hostess served ice cream and cake after an hour of sewing had been enjoyed.

Attending were Mesdames R. R. Ballew, Clifford Bond, Ed McCrummen, J. V. Bush, William Goodpasture, Minnie Feazell, J. W. Randolph, W. M. Keelin and three guests, Misses Margie Bond, Jane Lofland and Mildred Bennett.

Mrs. Taylor Scott Gives Party For Club

Mrs. Taylor Scott, 608 Avenue M, entertained for members of the Needlecraft club Thursday afternoon.

Attending were Mesdames Tom B. Cox, Hugh Scott, Ted Zachary, Arthur Wright and Alva Vaughn.

Archie Copeland, supervisor of the Lubbock territory for the Gulf States Life insurance company, is in San Antonio to attend a life underwriters' convention today and Saturday.

Mrs. Colby Thomas of San Angelo, aunt of Mrs. S. C. Wilson, 1615 Tenth street, is spending a few days at the Hilton hotel. Next week she will go to Denver to spend the remainder of the summer.

Sports Apparel Is Being Subdued

Men's sport jackets are becoming quieter and simpler as the ultra-gaudy ones with loud checks and super-fancy backs run their course. Here's Preston Foster, dapper screen star, wearing one of the newer, more subdued sport jackets. It is a three-button, notch label model with patch-pockets and it's made of tan shetland with a quiet self-herring bone. With it he wears a rough cocoanut straw hat, with puggree band, white flannel slacks and shoes of white buck and brown calf in a new plain-toed, two eyelet blucher model.

One-Year-Old Boy Honored With Birthday Party

Mrs. R. V. Mullenix, 1916 Avenue N, entertained Thursday afternoon at 6 o'clock in honor of her son, Ronald, on his first birthday. Ice cream and cake were served to Linda Gay Richards, Betty Lou Williams, Betty Doris and Charles Owen Hamilton, George and Patsy Worrell, Don and Mary Dresser, Tommy Raney, Gail Gildewell and Richard, Thomas and Mary Helen Pirtle.

Bluebonnet Club Meets For Party In Bishop Home

Mrs. A. E. Bishop, 2806 Avenue Q, entertained for the Bluebonnet club Thursday afternoon. Mrs. T. J. Bishop and Misses Fae and Argie Bishop were special guests.

Members attending were Mesdames T. F. Cone, J. P. Worley and John McKinzie. The club will meet on July 8 with Mrs. McKinzie, 2019 Fifth street.

Mr. and Mrs. W. D. Norwood and son, Durward, of Los Angeles, are expected to arrive here today for a visit of several days in the home of Mr. Norwood's sister, Mrs. Charles Files, 3115 Twenty-first street.

How To Look Cool When It's Hot

BY ALICIA HART
NEA Service Staff Writer

The girl who wants to be attractive on the days when the thermometer soars to 90 and thereabouts should remember that the cooler she looks the cooler she'll feel. Neat, crisp clothes, a clean, carefully made up face, perfectly manicured nails and a smooth, immaculate coiffure make her, and those who look at her, forget to some extent how dreadful the weather is.

The most fundamental rules for grooming perfection are the ones to follow even more seriously in the summertime. A cool shower in the morning is just as important as a warm, soapy bath at night. Dresses, shoes and hats need to be aired before they are put in the closet. Hair may need to be washed oftener than once a week. Certainly a nail brush is doubly in order, and ought to be used on elbows as well as hands.

Freshen Makeup

Clean face and neck and arms several times a day and put on new makeup. If you have trouble keeping your face perfectly powdered, your might try a liquid powder. Several of these are especially good for oily skins. All come in various shades to match different skin tones and are to be applied with a piece of cotton and blended smoothly.

When the face is perspiring freely, rouge has a tendency to disappear all too soon, but don't let this problem tempt you to paint your cheeks like an Indian in the morning in hope that the color will stay on all day. Put on no more than is flattering at the moment, and take out time to apply a fresh layer when that becomes too pale.

Eau de cologne is a wonderful thing to have in the drawer of your office desk, in the car if you are planning motor trips, as well as on bathroom shelf. Get into the habit of soaking a large cotton pad with cologne and using it to freshen up arms, chest and neck.

Joli Femmes Card Party Is Given On Thursday

Mrs. S. A. Hamilton, 1904-A Avenue N, entertained for Joli Femmes club Thursday afternoon in her home. Bridge was played.

Mrs. G. A. Glidewell made high score and Mrs. C. C. Worrell high cut.

Other guests were Mesdames Alton Abbott, R. V. Mullenix, J. D. McKnight, J. A. Sullivan and Virgil Williams. The club will meet on July 8 with Mrs. McKnight.

Cake Baking Is Discussed At Idalou Club Meet

IDALOU, June 25 (Special) — Miss Clara Pratt baked a cake at a meeting of the local home demonstration club in the home of Mrs. Bailey Guess Wednesday afternoon. She also discussed six rules that should be followed in successful cake baking.

The club planned a picnic for the night of July 2 on the club house lawn.

Members attending were Mesdames G. E. Blanton, L. E. Countess, K. Coats, O. L. Fleming, A. P. Gallatin, T. L. Holt, J. R. Harmon, Claude Newton, J. C. Newton, H. A. Black, Roy Stense and Miss Clara Gallatin.

Mrs. Frank Powell of Abilene and sons, Billy and Bobby, visited Thursday in the home of a cousin, Mrs. Kate James Lee, 1620 Avenue O. Friday morning Mrs. Lee and her mother, Mrs. May James, were visited by the latter's granddaughter, Mrs. Roy Elliott, Mr. Elliott and their four children of Fabens, who were on their way to Amarillo to visit Mrs. Elliott's sister, Mrs. Wallace Winfield, who is critically ill.

Tech Exes Marry Here Thursday

CROSBYTON, June 25 (Special) —The marriage of Miss June Zotteralle and Orby A. Wilkes took place Thursday morning in Lubbock with John T. Smith of the Broadway Church of Christ officiating. Both are former students at Texas Technological college, the bridegroom having been graduated.

They left after the ceremony for a two weeks' wedding trip after which they will be at home at Canyon where Mr. Wilkes recently assumed duties as city plant superintendent for the West Texas Gas company.

Wednesday afternoon, the bride-elect was honored at a miscellaneous shower given by Mesdames G. M. McKee, Charles Brock and Robert McKee in the G. M. McKee home.

The house was decorated with roses and fern.

Misses Florence and Mary Frances Aynes, Mary Kathrine McKee and Lucille Allen assisted at the refreshment table and Miss Bessie Lou Matthews presided at the bride's book.

The program included piano numbers by Miss Doris Huddleston, a vocal solo, "Congratulations," by Mrs. Joe Boles of Lubbock and vocal numbers by little Ann and Nancy McKee. About 75 or 80 guests called.

Miss Zotteralle was again complimented when Mrs. David Aynes entertained with a breakfast early Thursday morning.

Place cards at the tables were tied to little blue cellophane bags filled with rice. Plate favors were small linen gifts which later were presented to the honoree.

Mary Kathrine McKee sang "Because" and Mrs. Robert McKee read "How To Cook A Husband."

Guests were Misses Matthews, Mary Kathrine McKee, Huddleston, Allen, Jimmie Flemins, Florence and Mary Frances Aynes, Mesdames Paul Rutstein, Robert McKee, Brock, Tilleman, Reeves, Bill Nixon, Odie Karr, E. M. Perkins, G. M. McKee, Frank Grogan, all of Crosbyton, and Mrs. Boles and Mrs. Leon Horn of Lubbock.

R. C. Reed and family and Mrs. A. G. Odom visited the latter's daughter, Mrs. Kenneth Davis, in Jal, N. M., Thursday. Mrs. Davis is the former Miss Lorena Odom.

I WANT THE BEST FOR MY FAMILY!

"When I buy Kellogg's Corn Flakes, I'm sure of top quality and value. They're made better — packed better — and taste better!"

No imitation has ever duplicated the flavor and crispness of Kellogg's — the *original* Corn Flakes. Exclusive methods of packaging keep them oven-fresh right to your table.

Delicious with milk or cream. Ready to serve. All grocers. Made by Kellogg in Battle Creek.

Say "Kellogg's" before you say "CORN FLAKES"

June Bride Is Honored By Two Hostesses Here

Honoring Mrs. Mason L. Eagle, who was Miss Maxine Erickson before her marriage Sunday, Mrs. Otto Tarter and Clara Nell Martin entertained at 1221 Ninth street, Wednesday afternoon.

After a series of games, a shower of gifts was presented to the honoree. The hostess served a salad course, beverage and dessert.

Guests were Mesdames Travis L. Hamblett, J. O. Alvey, J. B. Mauldin, Floyd Koen, A. Ecklund, B. A. Maddox, Pearl Sampson, R. D. Braden, Wilbur Parman, L. Huber, A. C. Belisle and Miss Martha Ecklund.

Mrs. J. O. Balzer and small daughter, Elizabeth Ann, of Houston, are the guests of Mrs. Balzer's parents, Mr. and Mrs. Jim Barrow, 1626 Nineteenth street.

TOOK VAN-TAGE AND FEELS LIKE A "NEW PERSON"

Had Gassy Stomach; System Badly Rundown; Another Western Lady Tells How Van-Tage Relieved Years of Misery; She Says It Is Wonderful!

Some of the Best-Known People of This Section are now coming forward daily with Remarkable Statements, praising and endorsing VAN-TAGE, which is the Amazing New Medicine, now being introduced to the local public at Mark Halsey Drug Store, 1219 Broadway.

MRS. CARRIE C. HAYWOOD

For Instance, just a few days ago, Mrs. Carrie C. Haywood, of 501 Empire Bldg., Denver, Colo., made the following statement describing the Great Relief she got from Van-Tage and recommending it to ALL WHO SUFFER.

Tired, Rundown Due to Years of Suffering

"It seemed like my whole system had gotten into an awful rundown condition caused by gassy, upset stomach. My food just REFUSED to digest properly. I felt tired out and didn't seem to have enough energy to keep going. I hadn't been able to get relief no matter what I did. Then I heard about Van-Tage and started taking it, and it has made such a change in my stomach and system that I'm like a NEW PERSON! Now I can eat my meals with real enjoyment, and I don't have that awful tight feeling in my stomach like I did, because Van-Tage has cleared away the gas that caused this suffering. My strength and energy are increased. I am happy to pass on the good word about Van-Tage, and I hope my statement will help others who are in misery like I was."

Acts On Bowels, Stomach, and Kidneys

VAN-TAGE helps invigorate bowel, stomach and kidney action. Its 21 Great Herbs and Other Splendid Medicinal Agents (over 30 Ingredients in all) have a surprising effect on suffering people. Another thing — due to the immense volume in which it sells, the price of Van-Tage is reasonable. So, don't hesitate. Get it — TODAY at Mark Halsey Drug Store, 1219 Broadway.—Adv.

Death Penalty Given Killer

LONOKE, Ark., June 26 — Lester Brockelhurst was convicted late Thursday of the hitch-hike killing of planter Victor A. Gates and cried at reading of the penalty—death in the electric chair.

"My boy, my boy," screamed his mother, Mrs. L. W. Brockelhurst, sr., of Galesburg, Ill., and gathered him in her arms.

Carried Back To Jail

The 23-year-old former Sunday school teacher was carried moaning back to jail, where his feminine companion of highway trips from Salt Lake City to New York, Bernice Felton, awaited trial today on a similar charge.

Brockelhurst's father also collapsed and officers summoned a physician to attend him.

"Oh why did he do it?" the mother cried. "I've never seen anything like it."

The jury deliberated 22 minutes. Prosecutor George F. Hartje said:

Seek Same Penalty

"We will try Bernice Felton in the morning. I shall leave no stone unturned in demanding the same penalty for her."

No woman has ever died in the electric chair in Arkansas.

Her attorney, W. P. Beard, said he would be ready for trial and enter "an outright plea of not guilty."

Robert J. Brown, Brockelhurst's attorney, said "of course we will appeal — this fight is just starting."

Brockelhurst's trial required less than nine hours.

No testimony was given the jury regarding the prisoner's mental condition, although his attorneys had pleaded him "innocent by reason of insanity."

Mr. and Mrs. Frank Bowers of Galesburg, defense witnesses, testified Brockelhurst had a good reputation at Galesburg before being sentenced to the penitentiary there for robbery. Mrs. Bowers described him as "a model boy until he got in trouble in 1935."

New York State Trooper Joseph Hunt testified Brockelhurst confessed the Gates' killing and similar crimes in Illinois and Texas. Hunt arrested the couple for having only one license plate on their automobile. Gates was shot through the head May 6.

Love-Making By Machinery Is Now Viewed As A Possibility

BY OTIS J. PUSEY

SALT LAKE CITY, June 25 (AP)—Love-making by machinery — it doesn't lie — was viewed as a possibility here today.

"We feel certain that whatever we do, say or think is accompanied by some type of radiation. We think such radiations are electricity," said Dr. Phillips Thomas of Pittsburgh, Pa.

"In the near future, we may be able to capture and interpret these radiations of personality and thoughts through electrical impulses."

"Every thought that flashes through the human mind, or even the slightest mental or physical movement," he continued, "has a meaning all its own, so far as its interpretation by electricity is concerned."

Thus, he explained, through a "radiation gadget" yet to be invented, sweethearts may be able to tell whether theirs is true love.

Dr. Thomas, research engineer for the Westinghouse Electric company, said various species of animal life utilize the "radiation system" to detect danger.

"Snakes capture and interpret aerial impulses by sticking out their tongues," he declared. "Ants pick them up by waving their head 'antennae'."

Jimmie Mattern Makes Test Flight In Ocean Plane

LOS ANGELES, June 25 (AP) — Jimmie Mattern, ocean flier, who has announced plans to fly from Oakland, Calif., to Moscow, Russia, in August, made a test flight late Thursday in the new $90,000 transport plane which M. L. Benedum, Pittsburgh and Texas oil man, had constructed for him.

"My polar flight from Oakland to Moscow is definite," Mattern said before his test hop.

"I'll take the best navigator in the country. I'll also take 'Mike', my robot pilot, to do some of the manual flying labor."

Mattern did not say whom he had in mind, but friends reported he had selected Harold S. Jones, navigator of the first Seattle-Tokyo flight with Reginald Robbins in 1931.

Mattern will fly his new ship to Dallas, Texas, about July 10, he said, and there his sponsors will christen it "The Texan" before he embarks on two weeks of "barnstorming."

After Ahmed Hussain, a Cawnpore Mohammedan, gave a demonstration of walking barefoot in a twenty-foot trench filled with white-hot coals at Carshalton, England, an English student doffed his shoes and socks and blithely emulated the Indian's achievement.

Makeshift Swimming Hole In Heart Of City Is Closed

SAN FRANCISCO, June 25 (AP) — Police and health authorities today closed a makeshift "swimmin' hole" —no bathing suits allowed — which sprang up unaccountably and flourished in the heart of a San Francisco residential district.

Dr. J. C. Geiger, city health director, said the water was found to be heavily polluted with dangerous bacteria. He expressed the belief the pool had been formed by leakage from a sewer.

Scores of adults as well as children used the pool, Dr. Geiger said, until neighbors complained of the spectacle. He said there had been no reports thus far of contagion.

Tea was originally used in China as a purely medicinal drink.

CLAIMED BY DEATH

GALVESTON, June 26 (AP) — Dr. Everett Powell, 62, well known East Texas physician, died last night at a local hospital, where he had been receiving treatment for illness since May 6. He had resided in Jasper for 25 years and is survived there by his wife and daughter, Miss Lamar Powell. He also is survived by a son, Jefferson Powell of Richmond Springs.

"Captains Courageous" Film is Tagged as Prize of 1937!
IT'S GREAT!
SAY ALL THE NEW YORK CRITICS!

"Belongs with the screen's few masterpieces."
—Howard Barnes, HER. TRIB.

"It ranks with "GOOD EARTH." An unforgettable picture made with beauty, sincerity and heart-warming appeal. Decidedly worth seeing."
—Rose Pelswick, JOURNAL.

"Approaches the perfect movie, making you laugh and glow. Majestic, thrilling and stirring."
—Bland Johaneson, MIRROR.

"Faithful carries along in the Actors long line of hits: 'GOOD EARTH,' 'ROMEO AND JULIET,' 'GREAT ZIEGFELD' and similar MGM pieces."
—Leo Mishkin, Telegraph.

"Magnificent, stirring and tender. Of course you will have to see it."
—Archer Winsten, Post.

"Inspiring film. Simplicity is one of the picture's chief claims to greatness. Fresh laurels for Freddie Bartholomew, Spencer Tracy."
—Kate Cameron, NEWS.

"Call it a great picture and you have the only possible description of "Captain Courageous."
—William Boehnel, WORLD TEL.

"Another of those grand jobs of movie-making we have come to expect of Hollywood's most prodigal studio. Metro can take pride in its production."
—Frank Nugent, TIMES.

Another sure hit. One of the seasons most enjoyable films."—Eileen Creelman, SUN.

DALLAS SALESMAN SHOT

DALLAS, June 25. (AP)—C. R. Wilson, about 50, a Dallas and Burleson, Texas, implement salesman, was shot several times in the chest, abdomen and legs here today during an argument over a tractor deal in a downtown office.

A 48-year-old Rockwall farmer walked to the county jail immediately after the shooting, surrendered to Chief Deputy Sheriff Bill Decker and signed a voluntary statement.

India is the world's greatest tea exporting country.

Paving Work Is Planned

The city moved to catch up with its paving today after the city commission had adopted resolutions at its weekly meeting Thursday afternoon which calls for the hard-surfacing of 23 blocks of residential streets and approximately 15 blocks of alleys.

The resolutions were described as the first necessary step to obtain the paving of any thoroughfare.

Although devoid of sensational features, the session was productive of several actions of importance to the city. Among them were:

Pledge of the commission's support to the movement seeking location of a new $817,000 West Texas state hospital in Lubbock.

Acceptance of an auditor's report on financial operations of the city during the fiscal year ending March 31, 1937.

Appoint Equalization Board

Appointment of an equalization board as a final preliminary to establishing assessed property valuations and setting tax rates for the current year, and setting July 6 as the first meeting date of the board.

Purchase of an air compressor for $1,416.80 from Clowe and Cowan, Lubbock firm, for use of street and other departments.

And call for bids to be opened July 9 on a Diesel engine of 2,000 to 2,750 horsepower to increase power production at the city electric plant by approximately 30 per cent.

The paving resolution was the first of its kind to be adopted in several months and involves the largest aggregate of work to be submitted in more than a year. All the paving for which provision is made was described as being badly needed.

The streets to be paved, if plans are carried out as proposed, will be: Avenue O from Sixteenth to Nineteenth; Avenue S from Twenty-third to Twenty-ninth; Twenty-fourth from Avenues S to T; Twenty-fifth from S to T; Twenty-sixth from S to X; and X from Twenty-sixth to Twenty-ninth. All the alleys are in the business district.

The procedure before the paving actually can be started, it was explained, will require several weeks. Among the important points to be decided in connection with each project is the type of paving to be selected.

The auditor's report, as made for Cornell and company, certified public accountants, by Wilbur E. Swenson, resident partner, and submitted by H. C. Brown of Amarillo, was a voluminous document. According to statement of officials, the report did little more than confirm those made by the city's own auditing department from month to month during the year. The commission accepted the report and ordered the payment of $460 to the auditing firm.

City's Accounting Praised

The introduction to the report stated, among other things, that "the city's accounts have been consistently maintained in accordance with accepted accounting principles." . . . "The records of the City of Lubbock have been kept in an exceptionally efficient manner." . . . and, "The monthly and yearly reports which are prepared by the city's accountant, Mr. (D. D.) Martin, are invaluable to the city, and are largely responsible for the efficient manner in which the city is operated." Only in minor particulars did it vary from the city auditor's annual report as submitted to and approved by the commission several weeks ago.

Assurance of the commission's desire to cooperate "100 per cent" in seeking the new state hospital for mental cases was given to a chamber of commerce committee composed of Asa W. May, Hurley Carpenter, W. T. Gaston and Mark Halsey.

Will Meet Requirements

The fact that the state board of control will not select the hospital site for several weeks made any specific action impossible. The committee was authorized, however, to tell the state board when it holds a hearing in Lubbock June 30 that the city commission will go as far as it can in meeting requirements if one of the six sites offered near here for the hospital is selected. Just what the requirements and needs of such a hospital would be is entirely problematical, it was explained, and the availability of such utilities as water, sewage disposal and electricity would depend on the particular site selected.

The discussion brought from Mayor Ross Edwards the comment that Lubbock "must expand its sewage disposal facilities at once to care for a city of not less than 75,000 population."

Appointed to the equalization board were Glen Hess, Harry Blocker, J. Louis Murfee and Raleigh Martin, one of whom will serve as alternate should all accept appointments. The board will hear portests of assessed valuations which may be changed from figures rendered by owners.

Save $600 In Purchase

The purchase of the air compressor, which will operate drills, hammers and the like, originally was planned a month ago. Delay was decided upon at that time, with the result that the purchase authorized Thursday enabled the city to profit by more than $600.

The $1,416.80 bid by Clowe and Cowan was upon a compressor and motor which will be installed in frame and chassis belonging to the city. The present compressor and motor, the commission was informed, have about reached the end of their usefulness. The frame and chassis, however, were declared "as good as new." It would have cost the city more than $2,000 to have purchased the equipment complete, including motor, compressor, frame and chassis.

Report On Tree Pruning

Among the matters of minor routine was the report that a crew of men are engaged in pruning trees so as to rid them of low hanging limbs over sidewalks. Commissioners suggested that additional men be assigned to the task, which otherwise might require three months for completion.

Those attending the meeting additional to the mayor, were Commissioners W. B. Price, W. G. McMillan and J. A. Fortenberry. Commissioner A. J. Richardson was absent because of illness which, however, was described as being not serious although he is confined to his home.

ACCORDION

JOIN OUR BAND

JERRY SHELTON
Accordion's Master Stylist

ONLY $1

A WEEK *pays for* EVERYTHING!

You can learn to play the accordion quickly, because it is the easiest to learn of any instrument. The accordion is most popular because it plays both melody and bass, and sounds like a whole orchestra in itself. You get 5 months of private lessons, 5 months of band lessons, 42 lessons in all, and all lesson material. All students are taught the Howell-Aretta System.

Come In! No Obligation! Periods Limited!

We supply everything you need. Just pay a small deposit on the new accordion—*and take it home.* Then only $1.00 a week. Classes now forming. Come in. Remember that we really teach you to play, and that you really play in an accordion band.

NEW INSTRUMENT! *including*
5 MONTHS PRIVATE LESSONS!
5 MONTHS BAND TRAINING!

Previous Good Record Wins Clemency In Court Case

His previous good record as attested in letters and petitions signed by prominent Lubbock citizens were credited Thursday night with having won leniency for L. T. Frizzell, 23, son of L. T. Frizzell residing near Lubbock, when he faced a charge of hit and run driving in a Sacramento, Calif., court.

The father reported that his son was placed on probation for two years and given a disciplinary jail sentence of two months after pleading guilty to the charge. The elder Frizzell returned Thursday from Sacramento where he appeared on behalf of his son.

A Sacramento paper said Frizzell's past "caught up with him today and, unlike some pasts, stood him in good stead."

Superior Judge Martin I. Welsh, before whom the youth was tried, said, "Ordinarily I would be inclined to send you or any other hit and run driver to the penitentiary. However, I have investigated your past and find that it is a good one. "I received dozens of letters and several petitions signed by reputable citizens of your home community vouching for your good character. "In consideration of your past, I will be lenient."

Young Frizzell had been arrested after he sped from the scene after striking down George Hartwig of Sacramento, said the Sacramento newspaper clipping which the boy's father had kept.

Medical Gathering To Close In City

Third and last of a series of postgraduate courses in pediatrics and obstetrics for doctors of the Panhandle and South Plains will be brought to a close at First Methodist church after a two-day session.

Previous courses, intended to become an annual event, were held at Memphis and Amarillo.

Dr. J. N. Burditt of Abilene pointed out that if proper pre-natal precautions were taken approximately 8,000 of the 12,000 to 15,000 mothers who die annually in the United States in child-birth could be saved. And although doctors are anxious to give this information, the public is lax in asking for it. He also said that the layman must be educated to the importance of such meetings as the one last night.

Old Theory Exploded

Dr. R. L. Nelson of Wichita Falls, speaking on preventable diseases, exploded the theory held by many persons that children be exposed to such diseases as measles and whooping cough while young to get it over with. The medical profession is trying to eradicate this belief by showing the dangers, not of the diseases themselves, but of the complications which result from them. Dr. Nelson said that a large per cent of children who come to a clinic now are well children coming for preventative treatment.

A serum for the modification and control of measles is now possible. A child may be given a light case of the disease without the danger of complications. He mentioned also the serum for definitely lightening scarlet fever, and the one to control whooping cough.

Dr. A. M. Shields, of the state department of health outlined the work done by the department in the control of epidemics, and in the divisions of vital statistics, sanitation, and the control of malaria and tuberculosis. Dr. Shields added that it was becoming the function of the state department of health to keep the public posted on developments in medicine, since developments were being made so rapidly.

Dr. M. H. Benson, president of the Lubbock-Crosby county medical society, introduced the three speakers last night.

Three Hundred School Kiddies Help Bury Sir James Barrie

KIRRIEMUIR, Scotland, June 25. (AP)—Three hundred school children who looked upon Sir James M. Barrie, creator of Peter Pan, as the fairy godfather of all girls and boys, helped bury him Thursday.

Most of those who attended the funeral for the man who made this little village famous as the "Thrums" of his Scottish tales were the townspeople and the children he had known.

The famous author died of bronchial pneumonia last Saturday.

PREACHER LEAVES CHICKEN

(By Staff Correspondent)

TAHOKA, June 25.—Believe it or not, here's one for the book. At Thursday's Rotary club luncheon in the American Legion hall, fried chicken was served, there being about four large platters for the table of 25.

Rev. George A. Dale, Baptist pastor, left nearly a half platter full of chicken, President Wynne Collier pointed out.

Wheat has been planted on 32,167,000 acres in India this year, and a good crop is expected.

One requisite of good health is balance, balance of the functions of internal organs. When all these synchronize a healthy body and a poised mind are developed.

Sinus infection, acutely painful, disturbs this balance. A dubious "cure" could increase it and drive it deeper. But medical or surgical measures, undertaken by your physician, can clear it and restore your health to harmony and equilibrium.

FOR THE MOST VACATION AT THE LEAST COST

GO IN YOUR CAR!

This year, don't merely go places. Go in comfort and go as you please. Make your own schedules. Take your own routes.

Instead of a one-sided view from a window, see all around you, miles at a time, right out to the blue horizon. Smell the good green earth. Breathe air that is washed clean by rain. And every night, rest in that deep dreamless sleep which comes after a day in the open.

To help you plan such a vacation, Phillips offers FREE road maps. The new 1937 edition is just off the press, complete with mileage figures, points of interest, and latest touring information. Ask for these informing and colorful State maps at any Phillips Service Station.

And while you're there, get a trial tankful of the new Phillips 66 Poly Gas. That will give you a preview of the performance, service, and savings, which you can expect on your long vacation trip.

Note how eager and responsive this motor fuel is. That is the result of the extra energy units crammed into every gallon by the patented POLYmerization process. Observe that changes in weather do not affect your engine performance, because Phillips 66 Poly Gas is 100% custom-tailored, matched and rematched to your climate every month.

You begin getting more for your money with your very first trial tankful. More miles. More power and action. More smoothness and quiet . . .

All without paying a penny more, at that well known sign of thrifty motoring—the Orange and Black 66 Shield.

HERE'S WHY FIRESTONE ALWAYS GIVES YOU SO MUCH

More for your Money

Higher Quality Raw Materials! More Efficient Manufacturing! Lower Distribution Cost!

These All Combine to Give You Extra Values at No Extra Cost

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it because they saw in it more value for their money.

"How does Firestone do it? How can they build so many extra value features into Firestone Standard Tires and yet sell them at such low prices?" The answer is simple — Firestone controls better-quality rubber and cotton supplies at their source, keeps manufacturing costs low by efficient factory methods and sells in such huge volume that distribution costs are held to a minimum. That is why Firestone has been able to give you such extra value features as Gum-Dipping, two extra layers of Gum-Dipped cords under the tread and eight extra pounds of rubber to every 100 pounds of cord, at no extra cost to you.

Make no mistake about this! The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. Its scientifically designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures.

Before you buy ANY tire at ANY price, see today's top tire value — the Firestone Standard Tire. Don't risk your life with thin, worn tires on your Fourth of July trip. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires.

THE GATEWAY TO GREATER TIRE VALUES

TODAY, from the jungles of Liberia, there has arisen a great rubber plantation on which the world's finest rubber is being produced.

From the Firestone-owned and Firestone-developed rubber plantations in Liberia there comes an ever-increasing supply of rubber, bringing greater savings to car owners in the form of extra values at no extra cost.

Tahoka Holds Annual Event

(Special To The Journal)

TAHOKA, June 25 — Pioneers of Lynn county rested today and pronounced their reunion here Thursday the most successful of the annual events ever held.

More than 500 of their descendents, including great-grandsons and daughters, gathered for the celebration to pay tribute to the thinning lines of those who settled on the plains from 30 to 50 years ago.

Main sessions were held in the auditorium-gymnasium of the new grade school. A barbecue was served across the road north of the high school, with between 300 and 400 participating.

McLaurin Elected President

The morning program was given over to talks, annual election and the starting off of the program, County Commissioner Waldo McLaurin was named president succeeding W. D. Nevels. McLaurin is from O'Donnell. Walter H. May, Wilson farmer and J. D. Donaldson were selected vice presidents and W. E. (Happy) Smith, postmaster of Tahoka, was reelected secretary-treasurer.

President Nevels presided over the morning session. P. W. Goad, county judge, on behalf of the county, welcomed the visitors and old timers. Wynne Collier, president of the Rotary club, for the organization and for the business men, welcomed the group and Mayor Deen Nowlin gave greetings on behalf of the city. The Moyer Brothers trio played a violin-guitar selection.

Truett Smith Speaks

Truett Smith, district attorney, and a "native son" who became eligible this year to the group whose membership includes those who have been in the county 30 years or more, spoke. Mrs. Berdie Doak Sanders, Gaines county, daughter of Charlie Doak, first sheriff of the county, read a paper by her sister, Jewell Doak Rogers, historian, who was unable to be present. She detailed the first commissioner's court and the first district court.

An old timer's quartet, composed of W. B. McCoy, W. M. Lee, Noah Ranney and Mrs. Lollie Murrah, sang.

Barbecue Served At Noon

Barbecue was served at noon. Claude Wells arranged the serving and Fritz and Rudy Nieman, Wilson, did the cooking. Beef, sheep, goat and chicken was served.

To advertise the afternoon pageant, a parade down town was held. A huge truck and five wagons led the parade, with many cars. Youngsters dressed as cowboys and cowgirls and Indians accompanied the group.

Mrs. Nettie Wells Edwards and Miss Obera Forrester were in charge of the pageant, depicting county history from 1876 to date, after music by the quartet six boys and four girls, dressed as Indians, depicted the history of 1876 to 1879. F. M. Sherrod, who first came to the county in 1876 was called to the platform by the ringmaster but said he had "never seen any Indians like these when I came here first." His daughter, Miss Floyce Sherrod, was presented.

Early 1900's Represented

Six cowboys and two cowgirls represented the years 1900 to 1906, singing a song. Miss Dottie Turrentine in a dress of the 1906-10 period was presented.

In on old fiddlers contest, the Moyer trio, sons of A. H. Moyer of Draw; F. Sutton and son, New Home; Audrey Redwine and W. E. Stier of Tahoka and Travis Montgomery, Tahoka, competed. Sutton won the most applause.

Gary White, Dixie, who had to be forcibly brought to the stage by his fans, danced the jig, as did Jack Blankenship, 72, Brownfield and for 20 years a Lynn county resident also jigged. Jim Weatherford and Mrs. Hall Robinson danced an early day number. Eight girls, four dressed as boys, dressed in early day costumes, also danced.

Square Dance Represented

An old fashioned square dance was given by the following: Jim Weatherford and Mrs. Tom Garrard; Thurman Wells and Mrs Jack Alley, Hall Robinson and Mrs. R. C. Forrester and Mr. and Mrs. J. C. Wells. Mrs. Edwards was the accompanist.

Nine American Legion members gave a tribute to the soldier boys of 1917-18. Ten girls sang "Way Down Upon the Swanee River," and three of them gave a tap dance.

Several young ladies, dressed in costumes of the age they were to represent, were presented, all of them were daughters or granddaughters of old timers. Besides Misses Sherrod and Turrentine, they were: Miss Athelda Shaffer, 1910; Miss Pearl Rogers, 1917; Miss Johnnie Lee Fulford, 1927; Miss Wanda Dyer, 1927; Miss Jo Belle Milliken, 1933 and Miss Eloise Roberts, 1937.

An old fashioned square dance was held at night.

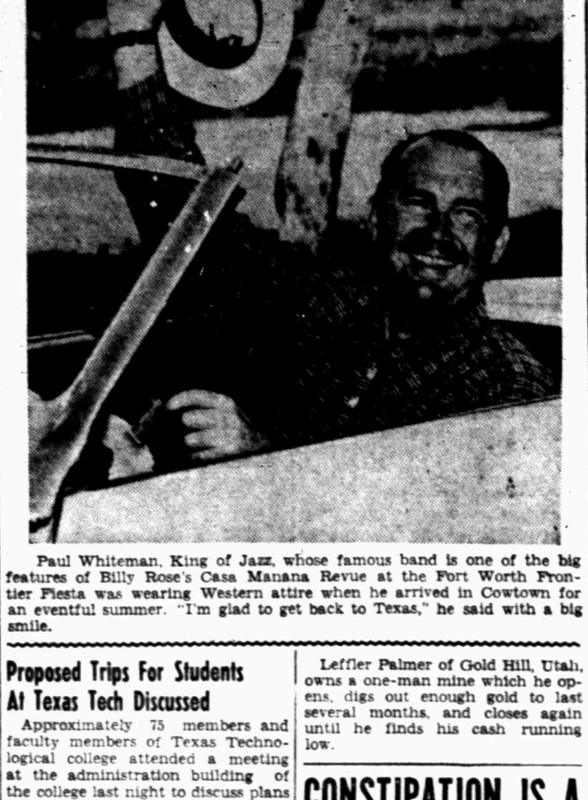

There were a number of Lubbock residents, former Lynn county pioneers, present. Among them were: Albert Taylor, president of the Lubbock county pioneers; J. K. Milwee, who went there in 1884, Don Hatchett, Mrs. Hatchett and Don, jr.; Walter Robinson of County Line, and family; Lonnie Bingham; Laverne Kershner, Mr. and Mrs. O. G. Kershner, Horace Randall and his grand daughter, Barbara and Jacoe Woodward.

Molten lava sometimes has a temperature of 3600 degrees F.

FORMER OFFICER DIES

CORSICANA, June 25. (AP)—John W. Stewart, 73, former Corsicana and Navarro county peace officer, died here today. He had been constable, sheriff, deputy sheriff and city marshall.

Mr. P. W. On Hand For Fort Worth Fiesta

Paul Whiteman, King of Jazz, whose famous band is one of the big features of Billy Rose's Casa Manana Revue at the Fort Worth Frontier Fiesta was wearing Western attire when he arrived in Cowtown for an eventful summer. "I'm glad to get back to Texas," he said with a big smile.

Proposed Trips For Students At Texas Tech Discussed

Approximately 75 members and faculty members of Texas Technological college attended a meeting at the administration building of the college last night to discuss plans for three proposed week-end trips to be sponsored by the institution, said Dean James M. Gordon.

The proposed trips and tentative dates are to Carlsbad, N. M., on the week-end of July 3 and 4, Grand Canyon, Ariz., the week-end of 10 and 11, and Fort Worth and Dallas expositions the week-end of 10 and 11.

At the meeting last night 12 indicated they would take the trip to Fort Worth and Dallas, 19 to the Grand Canyon and 26 to Carlsbad.

These are the only trips planned for the first half of the summer session, it was pointed out.

Leffler Palmer of Gold Hill, Utah, owns a one-man mine which he opens, digs out enough gold to last several months, and closes again until he finds his cash running low.

CONSTIPATION IS A MISERABLE THING!

It takes the pep right out of you — makes you feel tired and irritable — ready to worry over the slightest thing.

Yet it can be corrected in most cases so easily. Common constipation is usually caused by lack of "bulk" in the foods you eat.

Millions of people have learned that Kellogg's ALL-BRAN ends constipation by putting "bulk" back in the diet. Within the body, ALL-BRAN absorbs twice its weight in water, forming a soft mass and gently sponging out the system.

Kellogg's ALL-BRAN also furnishes vitamin B to tone the intestines and iron for the blood.

Two tablespoonfuls daily as a cereal with milk or cream, or in recipes, are sufficient. Three times daily in severe cases.

Sold at all grocers — and *guaranteed* by Kellogg in Battle Creek.

Long Quest For British Gold At Bottom Of River Ended

NEW YORK, June 25 (AP) — The year-long quest of Captain Simon Lake, submarine inventor, for $4,800,000 in British gold at the bottom of the East River ended today, without the gold.

The hulk the 70-year-old seaman was certain marked the site where the gold-laden British frigate, Hussar, sank during the revolutionary war turned out to be a pile of old water-logged boards, the remains of the Observation, a boat which blew up a few years ago.

White-haired Captain Lake, who spent thousands in his search for the Hussar, was richer for his efforts by exactly 86 cents — the amount found in nickels and dimes in the wreckage.

The cotton consumption in the United States increased in 1935-36 over that of the season before and was somewhat above the average consumption for the period 1923 to 1933, government records reveal.

IF Clorox were used only for bleaching, or for removing numerous stains, or for deodorizing, it would still occupy a rightful place in the homes of the nation. Clorox not only performs all of these duties surpassingly well, but it brings to home-cleansing jobs a gift of service that tops them all—a first aid in home-health protection. The above microscopic view reveals germs commonly found on a so-called "clean" drainboard, indicating the imperative need for regular cleansing of household "danger zones" with a safe and efficient disinfectant...Clorox!

Follow directions on the Clorox label as a guide to easier and safer housekeeping. It also lists many important personal uses. Clorox is always uniform in quality... concentrated for economy. There is only one Clorox... order by name.

CLOROX-CLEAN means GREATER HOME HYGIENE

Oil And Gas Leases On Texas U.'s Land To Be Sold Today

AUSTIN, June 25. (AP) — Oil and gas leases on 91 tracts of University of Texas lands in west Texas will go on the auction block today.

Col. E. Walters, veteran land auctioneer, will conduct the sale, fourth of its kind. The board for lease of university lands discontinued the sealed bid system of sale when it found the auction system yielded a greater return in cash bonuses.

Walters will sell to the highest bidders leases in Crane, Ector, Andrews, Upton, Crockett and Pecos counties.

Volume of building in Richmond, Va., doubled in 1926, according to records compiled by Building Inspector Henry P. Beck.

Sweetwater Woman Relieved of Gas and Bloat

Suffered 10 Years With Constipation Sour Stomach and Terrible Bloating

Mrs. Roy Dillon, 102 Beall St., Sweetwater, Texas, says: "I cannot recommend Williams S.L.K. too highly for the good it has done me."

Read Mrs. Dillon's letter. This letter is similar to many thousands we have received, stating usual cases of relief. Mrs. Dillon has not received a cent for this letter. She gave us permission to publish her letter so others will read it and they too may have an opportunity to secure Williams S.L.K. Mrs. Dillon's letter:

"I have been run down due to constipation for more than 10 years. I finally had to go to bed for 3 months. I had no appetite and when I did eat everything would sour on my stomach and cause terrible bloating. I had to get up many times at night. I got practically no sleep or rest. This caused me to be irritable and nervous. A friend told me of Williams S.L.K. Formula. From the very start I noticed results. Lots of my friends knew what shape I was in. I do feel much better now. S.L.K. seemed to act as a mild laxative and seemed to clear up the gas and bloating.

"I am resting at night now—I can eat without my stomach turning sour. In fact, my appetite has improved. I cannot recommend S.L.K. too highly for the good I got out of it. My friends and my relatives are now using it."

If you are in doubt in regard to this statement—write to Mrs. Dillon and she will tell you what S.L.K. did for her in her own personal letter.

NO SECRETS TO S.L.K.

There are no secrets to Williams S.L.K. Formula. It is merely a doctor's prescription. The ingredients in this prescription are plainly printed on the label.

S.L.K. acts at once to relieve suffering and pain in stomach, liver, kidneys and bowels by removing poisonous accumulations.

If you are suffering from sour acid stomach, bowels clogged with poisonous impurities, painful gas, loss of appetite, awful biliousness, sick headaches, sleeplessness from frequent night rising due to sluggish kidneys—you owe it to yourself to try this New Doctor's prescription.

Secure your bottle today at the John Halsey Drug Store, 1118 Broadway. Adv.

LUBBOCK, TEXAS, FRIDAY, JUNE 25, 1937

Red Sox Finding Long-Lost Power

Sidelights

by COLLIER PARRIS

Copyright, 1937

FOR THE FIRST time since the season opened, the local ball park will be closed Sunday. The Hubbers go to Littlefield, the Black Hubbers are resting for a spell, and the motorcycle polo team isn't quite ready to perform.

The Hubbers go into game No. 13 Sunday when they meet Littlefield. While they do not lean toward superstition, the boys are somewhat worried about this game. They have heard things about Littlefield, and they are a bit upset lest things go against them.

Littlefield, you remember, is the club which came here May 16, soon after it was organized, and caught the Hubbers in high hitting humor. The result was most distressing and embarrassing for Littlefield, the Hubbers scoring over 30 runs.

As Bill Pass, business manager of the Littlefield club said later, "Not even Dizzy Dean could have stopped the Hubbers that day; they were in a hitting frame of mind, and they hit everything that came over the plate." That, of course, is an exaggeration, but they do tell us (we were watching "The Hawaiians beat Amarillo that day) that the Hubbers were in fine fettle.

Littlefield has improved. It has a couple of new pitchers and one of them, Tommy Hall, is a worthy character when it comes to chunking. He's due to toe the rubber for Dick Ratliff's crowd Sunday.

It should be a big day in Littlefield. A lot of Lubbock folks are planning to drive over, and they're sure to be treated to a fair contest. Littlefield, in its own ballwick, will be tough. The Hubbers'll be lucky to get off with any kind of victory.

STEWART CHAMPLIN, the motorcycle expert, suggests that the motorized polo team, probably the only unbeaten club in the United States, is about to get in shape for another season. The club, which won the national championship in 1934, may be seen in action July 11 at the local park, but that isn't a definite date. It's an out of town date for the Hubbers, who go to Hobbs for a game with the Amerada Oilers, but Champlin isn't sure he can line up the opposition so early.

Last year's motorcycle polo season was abbreviated, starting late and ending after three games. Crowds were rather poor. Previously, when the club played out in the open, the games were attended by huge crowds. It should be so again, for, after all, here in Lubbock we have the country's class of motorcycle polo players.

Champlin, by the way, has been going good in the summer motorcycle circuit, winning one race after another and accomplishing other winning feats of derring do. He's recognized as one of the best riders in the Southwest, and his trophies bear out the advice of critics. He hit a snag last Sunday, however, in T-T races at San Angelo.

ATTITUDE TOWARD JOE LOUIS IS CHANGED

If you don't think the experts, most of whom have been against him all the time, haven't changed their attitude toward Joe Louis, young negro who finished scaling heavyweight boxing's heights Tuesday night, just take the following paragraphs, written by Paul Mickelson, and see for yourself. It's something entirely new this rallying of the sports writers to the Louis cause. There must be reason for it. Take it away, Mr. Mickelson:

Those who know Joe Louis are convinced the honey colored negro will be nothing but a distinct credit to his race.

The new heavyweight champion, second of his race to scale the pinnacle of the fight game, is a nice boy except when he fights for the blue chips in the prize ring. His sensational rise to the top has given him poise instead of a swelled head.

Louis has been lucky in more ways than one. Not only was he endowed with natural fighting ability but he trusted his fortunes to high class men of his own race who have done their work exceedingly well. They got Joe when he was young and unspoiled and convinced him the only way to live is the right way.

Danger threatened the former Alabama pickininy when he drilled at Lakewood, N. J., for his memorable fight against Max Schmeling. Joe found everything too easy. He began to loaf, and argued with his managers and trainer, sleeping and eating the days and nights away.

Louis isn't well educated. But he can read between the lines. He caught the general drift of criticism. Up to the day he signed to meet Jimmy Braddock for the world title he fought to overcome his overpowering desire to eat and sleep. He won his fight in training camp.

Sports writers, who never cared much about Joe, suddenly found they liked him. He talked and laughed but everything he said or did seemed to have respect written all over it. The change was refreshing.

All Louis' help and advice comes from men of his own race. His managers are Julian Black, a real estate operator, and John Roxborough, a lawyer and college graduate, who typify the best in the negro race.

One thing I've always noticed at Louis' camps is considerate treatment of visiting whites. Unless convinced you want to eat with them and join the hilarity, they set a separate table for visitors.

Sweat Popped Out On Louis

BY EDDIE BRIETZ

NEW YORK, June 25 (AP) — If you don't believe that was a clean knock down Jim Braddock scored over Joe Louis Tuesday night, go to see the slow motion pictures. . . . They show the sweat popping off Louis' brow when Jim hit him. . . . Mrs. Lou Gehrig has turned thumbs down on a Tarzan role for her Lou so he will appear as a two-gun man in "Boots and Saddles" to be filmed in Hollywood next fall. . . . Walter Kozak, the pro golfer, cleaned up $60,000 at Aqueduct the other day and staggered the betting ring. . . . Two-thirds of the winnings came when Saint Pierre romped home by five lengths in the opening race at 12 to 1.

* * *

Madison Square Garden officials were burned up when Bob Pastor (who is the heavyweight champion of New York state, no less) was introduced from the ring at Chicago the other night. . . . They'll be interested to learn Mike Jacobs isn't about ready to consider Pastor as a possible challenger for Joe Louis. . . . Bobby Cruickshank, Richmond golf pro, and Tommy Armour's brother, Sandy, spent the last month of the World war in the same German prison camp. . . . One year they faced each other in the finals of the Scottish amateur championship. . . . Harry Lenny, who told Joe Louis how to dodge Jim Braddock's right, is the first white man ever to work in the bomber's corner.

* * *

Mike Jacobs may take Joe Louis on a South American tour. . . . Note to all kids: Benny Huffman, the young catcher, who may get Rolly Hemsley's job on the Browns, jumped to the majors from Ray Doan's baseball school. . . . Dizzy Dean okays Van Mungo as the starting pitcher for the National league all-stars which just about makes it unanimous. . . . So far, Dean has a 97 to 96 lead over Mungo for National league strikeout honors. . . .

Two young heavyweights you ought to watch are Alex Kettles of South Bend and Max Roesch of Dallas. . . Freddy Fitzsimmons of the Dodgers is hanging up a rep as one of the fastest working pitchers in the majors. . . . His last two wins over the Pirates were scored in 1:45 and 1:38.

AUDIT COUNTY BOOKS

PLAINS, (Special)—H. D. Gorham of Gorham and Morgan, auditors, has completed an audit of the county's tax rolls, it is announced. He has also finished an audit of the books of the county.

Oklahoma City Far Ahead In Chase

(By The Associated Press)

Oklahoma City's Indians looked down from Olympian heights today on their lower-placed rivals, bitterly battling for what's left of Texas league honors.

The Indians have steadily increased their lead over the pack, and now are sailing along seven and a half games ahead of second-place Beaumont. The Shippers and three other teams, Fort Worth, San Antonio, and Tulsa are in stone-throwing distance of each other for runner-up honors.

Fall Into Tie

San Antonio did itself no good in its tussle with Dallas last night, dropping the game 5 to 3 and falling into a tie with Tulsa for fourth place. Fred Marberry allowed eight hits but knew when to crack down. Tulsa advanced a shade, dropping Galveston 9 to 6 after granting the Pirates a four-run lead.

Beaumont broke up a Fort Worth winning streak, 5 to 4, blowing Clyde Smoll out of the box in the eighth in a two-run rally. The Cats had won six straight to advance into the upper reaches of the circuit.

Houston continued as Oklahoma City's punching bag, dropping a 10-2 struggle that ran the Indians' streak to six straight. Four of the northerners' scores resulted from Houston bobbles.

YESTERDAY'S STARS

(By The Associated Press)

Jim Brown, Cardinals — Singled and drove in three runs in 13-3 win over Dodgers.

Monte Weaver, Senators — Held Indians to eight hits for 8-2 win.

Billy Herman, Cubs — Hit homer, triple and single, driving in three runs in 10-5 win over Giants.

Joe Cronin, Red Sox — His homer and triple sent in four runs, leading way to 9-0 defeat of Detroit.

Lee Grissom, Reds — Pitched hitless ball in one inning relief trick to save 6-4 win over Phillies.

Billy Dickey, Yankees — Hit homer and two singles, driving in four runs in whipping Browns, 9-6.

Rip Radcliff, White Sox — Hit double and two singles, and scored three runs in 7-2 win over Athletics.

Lou Fette, Bees — Stopped Pirates with effective pitching and drove in two runs for 9-6 victory.

Meadowbrook Golfers Are To Meet Slaton On Sunday

Meadowbrook golfers are recruiting strength from the club's ladder for a Sunday afternoon match at Slaton.

The fact Meadowbrook has lost no team matches this season has led Slaton to make especial efforts to handpick the 25 golfers who will represent that city, it was said.

Joe Byrne, club professional here, said Lubbock golfers who can make the trip should get in touch with him not later than Saturday afternoon.

TISSUE-THIN GINGHAM

NEW YORK (AP) — Once again, tissue gingham dresses, in cool patterns and fresh colors, are on the market. Housecoats, too, are made up in the fabric, with plaids and checks most popular.

Lubbock Poultry And Egg Is Victor Over Post Team

Pecking away in the first inning on a hitting splurge that totaled 21 safeties during the night, Lubbock Poultry and Egg softballers last night opened the season by beating out Post all-stars 15-6 in Antelope field there.

Breaking into the scoring column in the initial frame, Lubbock coasted thereout. While Duval and Sproul limited Post batsmen to scattered blows, Wheeler with two homers and Brown with one, not to mention Lingle, who hit safely three times out of four trips to the plate, paced Lubbock's assault with the bat. Lingle caught for Lubbock.

The world's potential shale oil production is estimated at 300,000,000,000 barrels.

Yankees' Lead Over Field Is Boosted

BY SID FEDER
Associated Press Sports Writer

After topping the White Sox in four straight and the Indians in two out of three, the Boston Red Sox just wound up taking two in a row from the Tigers, whitewashing the Detroits 9-0 yesterday behind the rejuvenated elbowing of Lefty Grove, now boasting a winning streak of three.

Since the Yankees, after spotting the St. Louis Browns six runs in three innings, came from behind to club out a 9-6 win, this defeat for the Tigers boosted the world champions' league lead to three full games, and left the third place White Sox only one game back of Detroit. The White Sox, like every other club in the loop, had a lot of fun with the weak and woeful Athletics and posted a 7-2 triumph.

Cubs Whip Giants

Chicago's Cubs retained their one game National league lead by banging out four hits for as many runs in an eighth inning splurge, to whip the Giants 10-5 in the "rubber" game of their series. The Cardinals bunched all their run-making into three big innings and trampled the Brooklyn Dodgers 13-3, thereby boosting their second place margin over the Giants to a full game.

Lou Fette, the new "old dependable" of the Bees, stopped the Pirates 9-6, ending Boston's 11-game losing streak, and the Cincinnati Reds took the Phillies sixth place standing by whipping the Quaker city clouters 6-4, with the aid of Lefty Lee Grissom's one inning rescue hurling.

CULOTTES FOR TENNIS

NEW YORK (AP)—Sun-back culottes are making their appearance on the best tennis courts. Chosen by women who dislike the extremes of both shorts and skirts for active sports, they offer a happy medium. Bolero jackets or loose capes in matching material may be worn after the game is over.

Developments Noted On Fight Front

CHICAGO, June 25. (AP)—Producer Mike Jacobs pulled the curtain on another act of his heavyweight show today and out on the stage—badge, nightstick and all—walked Officer James J. Braddock, late heavyweight champion of the world.

Jacobs insisted that if Max Schmeling hopes to get a match at the new titleholder, Joe Louis, the German first will have to meet Braddock, which appears to make Jersey Jim "policeman" to the title he lost this week to the brown bomber.

Other Developments

Other developments were (1) that Louis has an offer of 42 1-2 per cent of the gate receipts, with a $5,000 guarantee to meet Jack (Canary) Doyle or Len Harvey in Wembley stadium, London, next August, and (2) Braddock and Max Baer, the playboy ex-heavyweight champion, will fight in August, either here or in Los Angeles.

Back of the sudden renewed burst of promotional activity on the part of Jacobs—who seems to have the heavy situation well under control—apparently was a desire to do something about the "synthetic championship" battle between Schmeling and Tommy Farr, British titleholder, tentatively set for Aug. 9 at London's White City arena.

Planned Joint Promotion

Jacobs har planned a joint promotion with General A. C. Critchley of White City to match Farr with the winner of the Louis-Braddock engagement, but the White City group lined up Farr to meet Schmeling for the "title," inferring of course, that Schmeling was champion by virtue of once knocking out Louis and then being knocked out by Braddock last June 3.

With the idea being that any match involving Louis might "chill" the Farr-Schmeling event, Jacobs said he was seriously considering the Louis-Harvey-Doyle offer.

Quarterfinals Scheduled In Play Today

DENVER, June 25. (AP)—Sectional supremacy, as well as further promotion toward the throne was at stake in today's 36-hole quarterfinal matches in the Trans-Mississippi golf tournament at the 6,659 yard Cherry Hills course.

By an odd quirk of the draw each of the four engagements brought together players from the same neck of the golfing woods.

For instance, Johnny Dawson, still tenaciously defending the championship, faced a fellow Chicagoan, in Arthur L. Doering, Stanford university student, who teed off first at 9 a. m. Mountain time.

Gus Moreland, Peoria, Ill., locker cup player, tangled with another midwesterner in Eddie [illegible], 34-year-old St. Louis campaigner. Both Moreland and Held have been the title twice before.

The third match was an all-Dallas affair between Reynolds Smith, Texas amateur champion, and a Walker cup star, and Dicky Don Schumacher. Smith, the tournament medalist and who played 63 holes in eight strokes better than par.

The fourth match will decide the mile-high country's representative in tomorrow's semi-finals, with C. Kingsley, 22-year-old oil company worker from Salt Lake City, challenging Frank J. Enright, gray-haired Denver aluminum company official.

Sally Electrifies Fans

How times have changed for Sally Rand! Of yore she'd keep cool by stripping down to her fans; today you see her, seated in front of an electric fan, a long, cold drink in her hand, warming up to an evening at a New York night club. But blow of blows, Grover Whalen announced there'd be no place at the New York World's Fair for Sally and her fan dance, except in the wax figure museum.

Rural Recreation Association To Name Officers Tonight

Officers are to be elected at a meeting of members of Lubbock County Rural Recreation association at Idalou Community club house at 8:30 o'clock tonight.

The host club will have charge of the community singing and special music. The Cooper club will present a one-act play. Mrs. E. Johnson of the Broadview club will have charge of the games.

Mrs. John King of Liberty is chairman of the nominating committee. Each club is asked to send four representatives.

Hamilton — Williams interpretive dancers of Chicago, and an illustrated lecture by J. Frank Caveny, artist-sculptor.

Dr. W. A. Jackson To Attend Law Meet In Michigan

Dr. W. A. Jackson, one of the 50 men in the United States who received invitations to attend a sixth annual session on international law in Ann Arbor, Mich., left Thursday with Mrs. Jackson and their son, Billy, for Ann Arbor.

Doctor Jackson is head of the government department and of the graduate division of Texas Technological college.

Sponsored by the international law division of the Carnegie endowment and the University of Michigan, the conference that consists of lectures and group conferences dealing with problems and recent developments in the field of international law, will be staged from June 28 to July 30.

Dr. M. E. Ogden, professor of international law at Tech, attended the second session of the congress.

PAPER SIGNS CONTRACT

ST. LOUIS, June 25. (AP) — The St. Louis Star-Times announced today it had signed a contract with the St. Louis Newspaper guild covering minimum wages and setting up a five-day, 40-hour week for all editorial department employes. The contract establishes minimum pay of $20 weekly for beginners and $50 weekly for employes with five years experience.

The Jacksons will be gone until Aug. 2.

That Girl on Broadway says in our most fashionable society nobody goes to a party until everybody else is already there.

* * *

While he probably won't admit it, the average man has a feeling way down deep that he isn't quite good enough for his wife.

* * *

WHEN all the strikes are over and the last tear-gas gun and the last baseball bat have been laid aside, remember to check up on who was hurt the most.

You'll find that it won't be capital and you'll find it won't be labor.

It will be the great "in-between" class which is composed of innocent bystanders.

It won't be Tom Girdler and it won't be "Il Duce" Lewis—it will be you and The Plainsman and millions of others who will get it "in the neck".

* * *

Just as we "middle-grounders" pay most of the taxes, raise or buy most of the commodities and play the leading roles in keeping both capital and labor going, we'll be paying for the strikes which grip so much of the industrial world today.

Like the fellow who was waiting for a streetcar and was accidentally shot when two other fellows had an argument, we'll be the collective "fall guy".

But since we vote singly, rather than in packs, and since we are of that grand old stripe of Americans who believe in thinking and doing for ourselves as individuals, we can't expect the visionary New Dealers, from President Roosevelt to the freshest brain truster, to consider us.

That, fellow citizens and sufferers, is the way of the world. But for The Plainsman's part, he wouldn't trade one ounce of his individual independence for immunity.

* * *

IF there is anything at all in connection with the strikes that can be called amusing, it is the newly aroused fear in official Washington that the CIO will get out of John Lewis hands and cause trouble and loss of face for the Roosevelt administration.

All we have to say is that by throwing in with the most radical wing of labor, by being the only citizen within the nation's confines to fail to take public notice of the illegal sitdown strikes, and by pursuing a wishy-washy course in the face of anarchy, the President asked for what he's now getting and for the even worse that he probably will get before the whole business simmers down to normal.

Mr. Roosevelt faces an industrial upheaval that even his sunniest smile and most stirring radio croon can't dispel—which is a situation he can't blame on Raymond Moley, Rexford Tugwell, Hugh Johnson or any of the "whipping boys".

For when he instituted the second section of the New Deal it was he, himself, who marked the deck.

* * *

THINK THIS OVER: "Americans have been coasting toward a man-made future of desolation by living in ease off the stored-up wealth of geological ages."—Dr. Ray Lyman Wilbur, president of Stanford university and former secretary of the interior.

* * *

That Man on Avenue Q says intuition is that strange gift of mind which tells a woman she is right—whether she is or not.

* * *

AS the vacation season approaches and the summer period heightens, more and more people are going to get sunburned—either accidentally, or on purpose. Therefore, let Ol' Doc Plainsman pass out a little info along that line. It might help you, or You or YOU!

For the benefit of the flappers who are going to use the backyard, Buffalo Springs, or some more distant place to get a suntan: Remember, it takes a week or more to get an even suntan but you can get a terrific sunburn in an hour. Redheads and blondes are particularly in danger when the sun's direct rays beat down upon their lovely (or freckled) skins.

And don't overlook, girls, the fact that some types of skin just won't tan, no matter what. If yours is that kind of hide, forget about your desires for a suntan—or else get some that is artificially applied!

* * *

To the general public, let this column warn that while sunburn is usually more uncomfortable than serious, it can be and frequently is mighty dangerous.

When a burn begins, the human body suffers violent changes, much the same as if it were in a fire. A high fever, kidney derangements and a certain degree of prostration accompany the burn.

During the run of the burn, victims will do well to drink water with a pinch of salt in it when obliged to do physical work, but they're better off doing no physical work if they can arrange it. Hot places, heavy eating and serious drinking should be avoided.

All this information comes from an authority on the subject of sunburns. Better remember it if you're going to run a chance of being exposed to the sun's powerful rays!

* * *

HERE AND THERE: Hizzoner, Mayor Edwards, brings back the proof of his fish stories . . . Home from a Gulf foray he fetched a great, big denizen of the deep weighing 18 pounds and at least four feet long . . . The Plainsman doesn't know what kind of fish it was, but he does know it was practically without bones and made swell eating! . . . There must be at least 200 trailer houses in Hobbs, where there is, of course, a dearth of residences . . . About one in each 5,000 visitors to Carlsbad caverns is a victim of claustrophobia and has to be hustled out by rangers . . . "Claustrophobia," in case you've never run across it, is a $3 word meaning "fear of confining spaces" . . . Austin and Washington politicos are suffering from "third-termitis" since rumors began flowing that Jimmie Allred and Franklin Roosevelt will each seek a third term.

* * *

PERSONAL NOMINATIONS: For places high among the most charming of South Plains young matrons — Mrs. Bill Chesher, of Littlefield and Mrs. Edward A. Warren of Post. As most thoughtful toward friends who have had sorrow or reward—Head Coach P. W. Cawthon, of Texas Tech. As always broadminded and tolerant, yet steadfast in his principles—Judge E. L. Pitts. As among our most delightful and goodhumored conversationalists—Mrs. Ray Hinchey. As most immaculate among the younger citizenry—Miss Lorena Owens. As the handsomest among the community's little boys—Townsend Field, 8-year old son of Mr. and Mrs. Hugh Field.

* * *

PICKUPS: Opium is used as a medium of exchange in some isolated Chinese villages . . . G-men, during the past three years, have been forced to kill only nine criminals while arresting more than 1,200 . . . Kansas pastors have been having trouble ever since the state adopted use of tax tokens . . . Parishioners insist upon dropping them into collection plates! . . . A species of African bird spends most of its life perched on the neck of a giraffe . . . Approximately 180 automobile parts are made from coal and its by-products . . . Frank Gilbert, of Colorado Springs, has a saddle horse that drinks soda pop through a straw . . . It's against the law to build any frame house, garage or shop inside the city limits of El Paso. And that's that!

"Flame Trail"

BY MARIE DE NERVAUD
(Copyright, 1937, Marie De Nervaud)

SYNOPSIS: Saving a desperate young man (Ted Gaynor) from setting a forest fire to get a job, Kay Crandon offers him a place on the Lazy Nine; she believes he is decent. She rides home to find her ranch house and barn lost in flames. Josh Hastings, owner of the Flying Six, who wants to buy the Lazy Nine and marry Kay, invites her there, but she distrusts him. However, her young sister, Babs, and peppery Aunt Kate gladly visit Hastings. Ted joins Kay's outfit and rides to town with Kay and the insurance papers. Dan Steele, the banker, dashes her hopes of rebuilding—the insurance money has to go toward the mortgage.

Chapter Eight
Friend Or Foe?

"Even if this fire hadn't happened, you were sailing very close to the wind," said Dan Steele.

"Yes, and what made this fire happen?" Kay flung out darkly. "How far is Josh Hastings ready to go to get my ranch?"

"Kay, I'm amazed at you! Do you realize what you are implying?" Dan Steele gazed sternly into the rebellious brown eyes. "Don't say that again! I don't like to see you receive a friendly offer in such a spirit."

"Friendly offer!" Kay scoffed. "If he's so friendly, why doesn't he lend me the five thousand to rebuild?"

"I suggested that to him, but he feels that for your own good, you should face the fact now that the ranch is too much for you to carry, and give up the idea once and for all. You can't afford to antagonize a good freind, Kay. He's doing you a mighty friendly turn right now, in offering his hospitality to you all."

"Yes, he's got me in a trap, and he knows it." Kay sprang to her feet and faced Dan Steele with reckless abandon. "But I'll get out of it somehow. You mean to be a real friend, I know" she caught her lip to choke back a sob, "but how can you be a banker, when you can't see through that man? Why can he pull the wool over everyone's eyes but mine?"

She turned away and fumbled with the door-knob in a wild desire to escape before she broke down. Pulling the door open, she gave a little cry and recoiled a step. On the threshold, smiling and urbane, stood Josh Hastings.

How long had he been there? How much had he heard? Dimly conscious of Dan Steele's surprised and apologetic greeting, Kay pushed past the newcomer and ran out of the bank.

Preventing A Loan

"Well, well, Kay seems to be in kind of a rush," Josh Hastings gave no sign of having heard any of the conversation, but Dan Steele eyed him uneasily. He had never had much more than a passing acquaintance with Hastings, and as he looked now into his imperturbable eyes that resembled discs of bright blue china in his florid face, he wondered if possibly Kay was right in her estimate of this man. He certainly hoped that none of Kay's wild talk had been overheard.

"Reckon the poor kid took it kind of hard about the insurance," Hastings went on, and Dan Steele felt his vague suspicions dispelled by the genial sympathy of his tone.

"She did, poor child," he answered with extra heartiness to make up for his momentary unfriendly thought toward his visitor. After all, he mustn't allow himself to be influenced by a hysterical girl, which, in spite of her good sense, Kay obviously was at the moment. "She'd counted on having that money to rebuild."

"She didn't take any too kindly to my suggestion, I gather?" Hastings surmised shrewdly.

Dan Steele shot him a quick look and he added, "From the way she streaked past me I reckoned I wasn't rating very high with her right then. Poor kid!" His tolerant laugh again allayed Dan Steele's fears that he might have heard Kay's wild accusation.

"She'll probably come around when she gets over the shock and has time to think about it," Dan Steele said. "I told her your offer was a fair one and advised her to take it. Seeing how terribly she feels, though," he went on, half ruminating to himself, "I'm almost inclined to stretch a point and lend her a few thousand to rebuild myself."

"You'd be doing her anything but a kindness," Hastings argued earnestly. "It's far better for her to face the situation now, and take this chance to get out. This fire will really prove a blessing in disguise, in the end."

"Something in what you say," Dan Steele answered thoughtfully. "Still, the interest on five thousand isn't any too much to live on. And some day the ranch will be worth a whole lot more than that."

"Sure it will, if it's properly handled," Hastings agreed. "But with a girl struggling against all the odds she'll have to meet, it's a hundred to one she'll lose the whole thing without salvaging even a nest egg of five thousand."

"Reckon you're right," Dan Steele sighed. "Raising false hopes isn't any kindness, that's sure."

"As to Kay's future, with her hair and eyes she's got no call to worry about that." Hastings gave a sudden laugh. "I'd be willing to insure that myself, if worst came to worst! And she might do worse, at that," he ended jocularly.

"You mean . . ." Dan Steele looked up in surprise, and gave a knowing whistle. "So that's the way the wind blows!"

"Why not?" Hastings defended. "I'm only 37. That way, she can have the ranch with me thrown in! But I didn't mean to get off on that tack." He frowned at his momentary indiscretion. "Forget I said it, will you? The time isn't ripe for that yet. I just wanted you to realize that I've got Kay's real interest at heart."

"I do realize it," Dan Steele said heartily, "and you've convinced me I'd be making a mistake to lend the money."

"Then you'll keep on persuading her to accept my offer, will you? Though I don't see how she can help herself. There isn't any one else around here right now who has five thousand, that I know of."

"You've said it," the banker agreed. "I'll do my best."

"Say," Hastings paused as he reached the door, "who was that guy that came in with Kay? The fellow who was waiting for her outside?"

"I don't know," Steele answered. "I didn't see him. One of her punchers, I reckon."

Hastings shook his head. "Not unless it's a new one, and I doubt if she's engaging any new punchers right now. He looked like a bird I had a run-in with a few years ago. Only he's grown a lot thinner, if it is the same one." His jaw set in an ugly line.

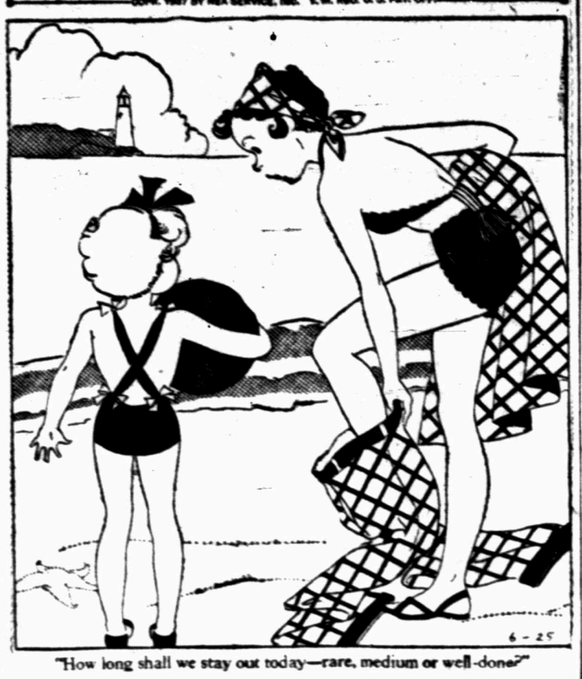

"Sorry I can't help you out," Dan Steele accompanied him to the door. "But I'll do my best in that other matter. I'll go out to the Lazy Nine in a day or so."

"Stop over and see us when you do," Hastings urged. "It mightn't be a bad idea to drop a word or two in Aunt Kate's ear. She's a sketch!" He gave a sudden guffaw and winked at the banker. "I'm getting her on my side, all right! It was a lucky break having her show up

"How long shall we stay out today—rare, medium or well-done?"

Today's Journal Editorial . . .

AS WE APPROACH THE "TYPHOID PERIOD"

Not long ago The Journal carried a considerable article quoting an inspector from the State Health department to the effect that Lubbock and its five closest neighboring counties were approaching the summer "danger season" in better shape to ward off typhoid epidemics than ever before.

That was, of course, good news and it is to be hoped that we will continue to so conduct our public hygiene that the dread disease will be unable to get any appreciable hold during the coming torrid season.

Although medical science is far from perfect and still has many knotty problems to solve, it has at least largely freed us from some of the perils which beset earlier generations. And, returning to typhoid, an illustration is provided in figures on the death rate from the fever, as compiled recently by the Journal of the American Medical association.

In 78 American cities last year, the death rate from typhoid fever was .94 per 100,000 of population. This compares with a death rate of 20.54 per 100,000 of population in 1910.

Here, in other words, we have the record of one dreaded disease which has been conquered. Doctors know exactly what causes typhoid fever and they know exactly how to prevent it. A malady that took thousands of lives yearly, a quarter of a century ago, is now reduced to comparative insignificance.

These figures form not alone a striking testimonial to man's success in fighting an old and bitter enemy, but they also make us feel more optimistic as we approach the "typhoid period" of the year.

A Thought . .

Blessed are the merciful; for they shall obtain mercy—Matthew 5:7.

Hollywood Chit-Chat

BY PAUL HARRISON
Journal Hollywood Correspondent

HOLLYWOOD, June 25. — Short takes: Most of the major studios have been holding sales conventions here, with each three-day program of festivities and activities climaxed by a super-colossal banquet and party for about 1200 guests.

Among the extra waiters hired for the Metro party was a handsome young man who, a bit late for his evening's work, dashed through the wrong door and into the arms of a reception committee.

SUNBURNED EYE?

A producer with a bandaged eye is having a hard time explaining it. And he didn't get punched, either. At the time of the partial eclipse of the sun he rushed from his office and looked at the spectacle through a magnifying glass.

The welcomers shook his hand, pounded him on the back, plied him with cocktails and escorted him to a movie table, where he met movie stars and executives.

The fellow really needed the $10 he would have received as a waiter, but by this time he had got into the spirit of the occasion so he just relaxed and had fun.

* * *

It's two strikes on Simone Simon: She has been replaced by Ann Sothern in "Danger—Love at Work!" because she couldn't control her accent, and the role is that of an American girl.

* * *

Ginger Rogers will be billed above Katharine Hepburn in "Stage Door," and Miss Hepburn is burning. Isn't stulking, though; she lunched at the writers' table in the cafe the other day, with 12 men.

* * *

Dodging The Fans

Hollywood, up to now a town with the dullest of night clubs as far as entertainment is concerned, is to have an oversize cabaret on the order of Manhattan's French Casino, with stage revues and dining.

One of the most talked-about features of this one, though, will be an auto entrance within the building so that customer-celebrities can get in without being mobbed by autograph hounds.

I'd still like to know how that radio commentator feels—the one who, almost up to the last minute, insisted that Jean Harlow's illness was just a publicity stunt.

* * *

Several actresses have been handicapped lately by the career-meddling of mothers and husbands. Gertrude Niesen is having papa-trouble.

Metro, with a nice contract in mind for the singer, wanted to give her an elaborate series of tests first, in a variety of makeups. But Papa Niesen said they'd have to take her the way she was.

Result: at this writing, No tests, no contract.

Stellar phobias: Claudette Colbert is afraid of the dark; keeps a dim light in her room all night.

Gary Cooper is scared to drive in city traffic, and Porter Hall won't drive a car at all.

Carole Lombard fears heights, Sylvia Sidney can't stand crowds and sometimes has to rush out of theaters and football games.

Fred MacMurray is a hypochondriac, though seldom ill. Also he worries about others' health; his solicitude sometimes makes people ill when they've been feeling fine.

* * *

Just Home Bodies

William Powell hasn't been farther east than Boulder Dam in the past seven years. But Robert Hopkins, the writer whose "San Francisco" was the biggest money-maker of 1936, never in his life has been out of the state of California except to duck over the Mexican border to a couple of gay spots.

* * *

One of the best-known of all Hollywoodsmen is Billy Wilkerson, editor and publisher of The Hollywood Reporter, a trade and screen colony daily. Leading item in his paper's gossip column a few issues ago was this:

"The Billy Wilkersons have definitely split. Mrs. Wilkerson will file papers for divorce today or tomorrow."

* * *

Pinky Tomlin has labored and brought forth a new tune—"You're Priceless," which you'll soon be hearing.

* * *

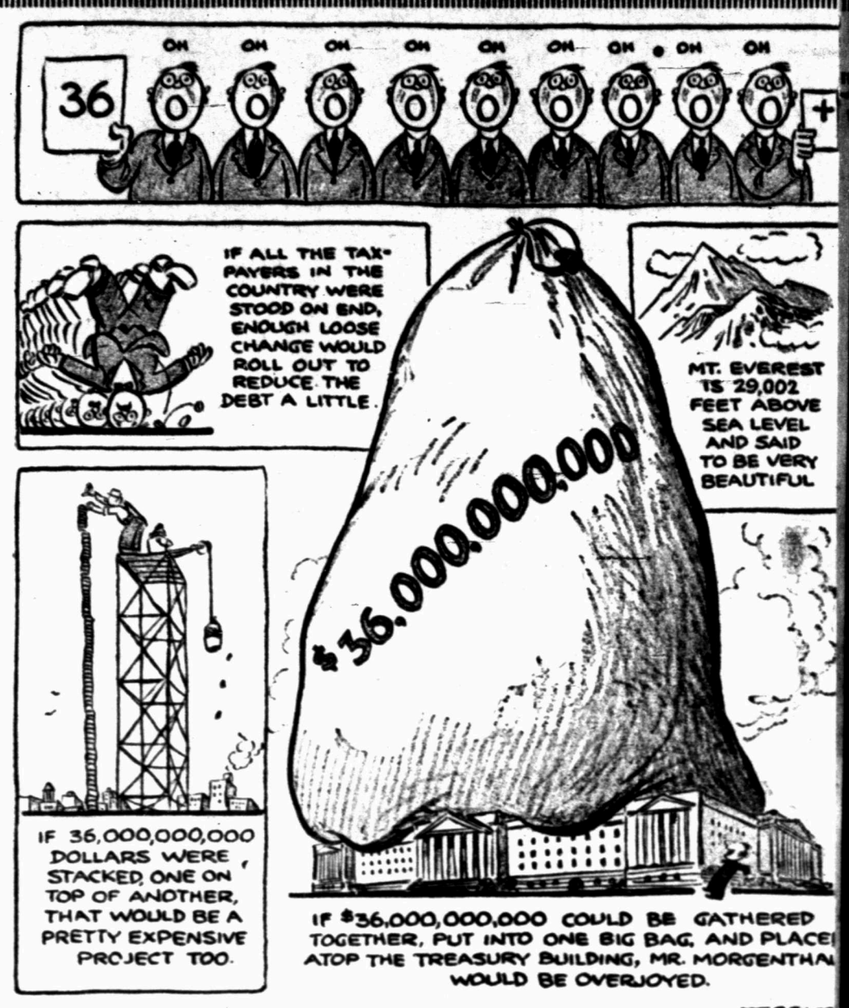

Maybe you remember seeing pictures in the papers of Rubye Zioncheck, widow of the late congressman. Well, she has been studying dramatics and dancing and singing, and she'll make movie tests.

* * *

A free-lance producer was being discussed in one of those side-walk conferences. "He's so crooked," someone declared, "that he can't work on a straight salary."

Let Us Consider The U. S. Public Debt

Corcoran-Cohen Myth Due To Be Explored At Jefferson Island Jamboree, Dutcher Says

BY RODNEY DUTCHER
Journal Washington Correspondent

WASHINGTON, June 25—One result of the Jefferson Island powwow between the President and Democratic members of Congress is likely to be an explosion of the Corcoran-Cohen myth.

The myth is chanted along two themes:

Dutcher

1—That Roosevelt is a nice, easy-going, well-meaning gent, but is completely bamboozled and pushed around by Tom Corcoran and Ben Cohen, who tell him what he ought to do and what Congress ought to do. And that Tom and Ben are radicals of a dangerous type.

2—That Corcoran and Cohen write all the New Deal legislation, sell it to Roosevelt and then go high-pressuring around Capitol Hill to get it passed.

All of which is just as silly as it sounds. It ought to be fairly plain to everyone, no matter how thorough is one's dislike of the President and his policies, that he is nobody's fool. Corcoran and Cohen take their orders from Roosevelt and carry them out with large measures of ability and devotion.

* * *

Jackson Makes It Trio

Assistant Attorney General Robert H. Jackson, another relatively young man, has joined up with the Corcoran-Cohen duet, to make it practically a trio. Jackson is acknowledged to be the administration's star trial lawyer and legal orator. Cohen is known as its most skillful legal draftsman. Corcoran is a brilliant, all-around handy man who keeps the troops pepped up, writes speeches, serves as White House liaison man with sympathetic members of Congress, does an amazing number of odd—and frequently important—jobs for Roosevelt and probably does as valuable behind-the-scenes job as anyone in coordinating the efforts of the many individualists and prima donnas of varying beliefs who populate the upper ranks of the New Deal. He is an unofficial presidential secretary and, like Cohen, customarily begins his working day at 9 a. m. and concludes it around midnight or thereafter.

Roosevelt obviously has gone consistently toward the "left" in the last year, but nearly everyone on the inside here attributes this mostly to his reactions to vitriolic attacks from the extreme right and his belief that he knows what a large majority of the voters really want. Corcoran, Cohen and Jackson occupy their present positions in his entourage because, after a long shakedown process, they turned out to be the most effective and efficient persons whom Roosevelt had used in their respective fields.

* * *

Many Helped Write It

Corcoran and Cohen have had a very large hand in certain New Deal legislation, notably the securities, stock market and holding company legislation. They had nothing to do with the drafting of the Supreme court bill or the preparation of Roosevelt's message to Congress accompanying it.

Critics of the new wage-hour bill call it the Corcoran-Cohen bill because among those who helped prepare it were Corcoran, Cohen, John Winant, Jackson, Hugo Black, the late Bill Connery, Frances Perkins, Sidney Hillman, John Lewis, Bill Green, Ernest Draper, the congressional leadership and most other interested parties, with the exception of the National Association of Manufacturers, Gen. Hugh Johnson and Don Richberg.

Cohen wrote most of the legal phraseology along the lines of the New York Minimum Wage act—which he himself drafted—and the rest of those mentioned decided what the bill's provisions should be.

Insofar as Corcoran's operations on Capitol Hill go, everyone who has known of his darlings here and there knows his contacts have been only with those members sympathetic to the Roosevelt program.

* * *

The "Whipping Boys"

Yet this gay young Irishman and this shy, retiring, boyish Jew taking a lot of rap these They're the administration's "whipping boys." The rap c from those who, for various rea prefer not to attack the Pres directly, from those who be President Roosevelt would be h capped if Corcoran and Cohen town, from those bitterly je because they are no longer nea throne or never were, and those who believe the Corco Cohen myth because of its eration.

One idea behind the Jeff Island party was that a few ators and congressmen who been protesting they were "da tired of Corcoran and Cohen" meet the President face to face their orders direct and unders that the President knows his mind.

Mr. Corcoran and Mr. Cohen be far away from Jefferson Is

CIO Organizers Beaten In Dallas

(By The Associated Press)

DALLAS, June 25. — The Dallas Times-Herald said today two CIO organizers were battered and bruised late yesterday after attempting to enlist local Ford Motor company employes in their ranks.

Identity of the organizers was not learned, the paper said.

Hostilities between the organizers and Ford workers started when the two men were ordered out of the Ford plant pharmacy, across the street from the vast Ford plant, by R. L. Gaskell, 40, owner. Gaskell told the Times-Herald he asked the men to leave when several Ford employes objected to their presence in the store.

Workman Knocks One Down

"Well, we've been thrown out of bigger places than this," Gaskell said one of the pair remarked.

Gaskell said a Ford workman knocked down the smaller of the two organizers at this point and that the larger man came to his rescue. Both were attacked, Gaskell said.

"The big, husky soon saw he was outnumbered and ran off," Gaskell said. "The other was bleeding rather badly and wasn't able to run, so one of the service men helped him down the street."

No report of the incident was received at police headquarters.

Special Invitation Extended To Plumbers Of Plains

Special invitations to plumbers of South Plains area to attend tonight's session of the water school which will continue another week at City hall was extended today by J. N. Hinyard, representing the vocation education department, industrial division, state department of education, who is instructor.

The program, he explained, will deal with the importance of plumbing in insuring sanitation in the operation of a municipal water department. It often happens, he explained, that water meeting the most exacting tests when it flows from mains into pipes serving a home becomes contaminated because of improper plumbing there.

Programs Monday, Wednesday and Friday nights of next week will bring the school to a close.

Rodeo Performer Is Charged With Murder After Accident

SAN ANGELO, June 25. (AP) — Charges of murder grew out of the death today of Louis Klaerner, 66, Fredericksburg, injured Wednesday afternoon here when the car he was driving was hit head-on by an automobile driven by Pecos Pete Meador, Eldorado, widely known rodeo performer and ranchman.

Meador is being held in jail here in lieu of $3,000 in bonds, $2,500 on the murder complaint and $500 on a charge of drunken driving.

Cotton Market

NEW YORK REPORT

NEW YORK, June 25. (AP)—Cotton futures opened very steady, up 9 to 12 points on higher Liverpool cables and British finance developments. There were only 83 July notices issued with spot house buying of July. July 12.24; Oct 12.30; Dec 12.30; Jan 12.33; Mch 12.35; May 12.36.

The British decision to increase the equalization fund by £200,000,000 and the smaller number of July notices than anticipated were the principal factors on the advance which carried prices to new high ground for the current movement.

Liverpool, commission houses and spot interests were the outstanding buyers while contracts were not especially plentiful. The selling was believed to represent scattered liquidation and a little hedging. Trading was active and the advances were extended after the opening.

October rallied from 12.29 to 12.39 and shortly after the first half hour was 12.34 when the list was 14 to 17 points net higher.

Liverpool responded to the British financial developments as indicating a continuation of the three-nation gold agreement. No rainfall was reported in the cotton belt and with temperatures higher the weather was considered generally favorable.

NEW ORLEANS REPORT

NEW ORLEANS, June 25 (AP) — Firmer Liverpool cables, trade buying and short covering influenced an opening gain of 8 to 15 points in the cotton market here today.

Such bearish influences as continued favorable weather and crop reports were ignored in early trading.

Notices for 2,950 bales of July cotton were issued here and although the tenders were allowed to circulate for a time after the opening, it failed to dampen buying enthusiasm.

July opened at 12.19, October at 12.30, December at 12.36, January at 12.37, March at 12.43 and May at 12.47.

Sustaining support continued after the start and towards the end of the first half hour active positions were 16 to 20 points net higher.

Cables attributed the bullishness at Liverpool to lessening foreign political tension, weevil complaints from the south and more cheerful United States labor news.

New Rail Pensions Act Signed By FDR

WASHINGTON, June 25. (AP) — President Roosevelt signed into law today the revised railroad pension act, giving to the nation's 1,150,000 railroad workers their own social security system. Conforming to an agreement between principle railroads and 21 rail unions, the law provides pensions up to $120 a month for employes retiring because of age or disability.

Seagraves Boasts Of Trailer Camp For Transient Workers

SEAGRAVES, June 25.—This busy oil town boasts a modern convenience that many resort cities do not have—a trailer camp.

Not only that, but there are numerous trailers over town, parked in the shade of some of the few good sized trees here.

Major Dale has turned a vacant lot into a camp. He has built a toilet and a bath house in the center and furnished gas and electric lights. The camp generally runs from six to eight and ten cars all the time.

Several residents have leased locations under their shade trees for a reported consideration of $8 per month, without use of utilities of any kind.

Texas Professor Cites Situation

AUSTIN, June 25.—According to latest estimates of the United States Department of Agriculture, world cotton production during the cotton year of 1936-1937, was about 30,400,000 bales of 478 pounds net it was pointed out by Dr. A. B. Cox, director of the Bureau of Business Research at the University of Texas and internationally known agricultural economist.

"Official and unofficial reports indicate a substantial increase in the world's acreage planted to cotton this year," he said. "World increase in production of synthetic fibers during the past year was the equivalent to over 500,000 bales of cotton, and a considerable part of this is displacing cotton, especially in Germany and some other European countries. Prior to the depression, the average annual increase in the world's consumption of cotton for a period of 25 years was about 250,000 bales. In view of these and other equally striking facts which confirm the above implication, does it not seem that some agency with the means to do so should make a thorough analysis of the world situation and trends as they apply to cotton? Does not consideration for the welfare of the two million growers deserve some consideration? Shall we wait until another emergency is upon us before we make a serious effort to get world data upon which to build a policy?

Should Revalue Resources

"Until some definite policy is adopted for restoring lost foreign markets, the wise thing for the South, and especially the Southwest, to do is proceed to revalue their resources to rebuild their agriculture in view of domestic markets.

"In spite of the unprecedented high consumption of all cotton in the world this year of over 30,000,000 bales it is possible that world carry-over of all cotton may be slightly increased due to an all-time high world record production. World carry-over of American cotton bids fair to be reduced by about 1,000,000 bales, but in spite of this the buying power price of American cotton is now less than it was at this time last year due to a strong rise in the price of other things. Last year at this time the actual price of New Orleans spots was 11.89 cents and the relative buying power was 15.17 cents. This year the price of New Orleans spots is 12.26 cents but the buying power is only 14.03 cents.

Supplies Are Lower

"Total supplies of cotton in the United States, June 1, were 5,959,000 bales, compared with 6,978,000 last year, 8,568,000 two years ago and an all-time high of 10,905,000, June 1, 1933. It is interesting to note that the buying power price of cotton is now less than it was in June, 1933, (14.2 cents) the date of the all-time high June supply of American cotton.

"Reductions in the supplies of cotton in the United States and of American cotton in European ports and afloat to Europe from June 1 last year to June this year amounts to 1,037,000 bales.

"During the past seven years a change of 100,000 bales in these items of supply has caused an average change in the index price of cotton of 19.68 points. If that same ratio should hold good now the index price should be 17.14 cents and the unadjusted price of middling 7-8 inch New Orleans spots should be 14.98 cents. When calculated on the basis of average percentage changes the price is 15.30 cents.

"The spinners ratio margin increased during May to 204 from 194 in April. During May, 1936, the index averaged 163. The pence margin reached another all-time high 7.46d compared with 7.11d during April and 4.16d for May last year."

Records Bared

(Continued From Page One)

plain soils in some places can blow away without drouth, and under moist weather conditions. They blew around that way during the wet glacial times.

To do it again, Dr. Leighton said, they only have to be stripped of vegetation by unintelligent agriculture.

Man Is Big Factor

Man himself, the geologist asserted, has become the new and important "geologic factor." He said man's activities are responsible for the dust storms of the "historical period."

In the western strip of these plains he declared the natural balance between desert and garden conditions is so close that "man must play the part of great caution, intelligence and skill if he is not to suffer the loss of his great reserve, the soil."

The climatic changes which brought on the present series of dust storms, he said, are not like those of glacial days, but "monor cycles."

"Any plan of soil conservation," he concluded, "must be such that it recognizes the most unfavorable parts of these minor climatic changes."

Railway Mail Clerks Want Air Conditioned Cars, Better Pay

HOUSTON, June 25. (AP) — Representative of railway mail clerks of four states took a stand today for cooler cars and pay increases in line with the speed of stream-lined trains.

At the closing session of their meeting here, executives of the eleventh division of railway clerks passed a resolution demanding air conditioning of railway mail cars and a wage scale to compensate them for the increased speed of trains.

Dr. and Mrs. Jack M. Lewis and daughter, Jacqueline, are expected to return this afternoon from Navasota, where they were called by the fatal illness of Mrs. Lewis mother.

Little Leak Is Costly Thing; Water Users Given Warning

A little leak is a costly thing, as employes of the city water department were prepared once more to attest today.

They had just listened to the complaint of an irate property owner that his water bill suddenly had jumped from an average of about 1,500 gallons per month to more than 30,000 for a single month.

The complaint was one of recurrent type and, as in most cases, the customer could not be persuaded that the cause was a leak somewhere in the water distribution on his premises — either a leaking underground pipe, a dripping faucet, a flowing commode or some similar explanation. He, as almost invariably is the case, insisted that the meter was at fault — that it suddenly had speeded up and had registered more water than actually passed through it.

Meters Do Not Speed Up

All of which brought from D. D. Martin, city auditor, the comment that never in the experience of the water department has an instance been found of a meter having "speeded up." The mechanism of the device is such, he explained, that if it does anything at all, it slows down, a condition held largely responsible for the fact that each month there is a difference of from one to several million gallons in the quantity of water pumped into the city mains and the quantity actually recorded by meters. This "distribution loss," as it is termed, totaled 19,481,000 gallons for the two months of last April and May, the latest period for which figures were available, according to the auditor's official report. Total pumpage for the two months was 135,021,000 gallons.

However, said Martin, even when the patron is willing to accept a leak as a partial explanation of the sudden boost in his bill, he is reluctant to believe that it can account for his increased water usage.

Many Gallons Lost

But, according to the auditor, most exacting tests have disclosed that the smallest leak pours out many gallons of water. A slow drip from one faucet, for example, means 450 gallons of water. A leak of one-thirty-second of an inch — slightly less than the diameter of an ordinary straight pin, dumps 7,920 gallons monthly into the drain. One-sixteenth inch — the size of the lead of an ordinary pencil, wastes 28,300 gallons in 30 days. One-eighth inch opening means 114,000 gallons gone down the sewer in a month and one-quarter inch — the opening for an ordinary commode, 450,000 gallons. All of course adds to the bill, starting at 60 cents per 1,000 for the first 3,000 gallons and scaling down to a minimum of 10 1-2 cents per 1,000.

Leaking commodes, said Martin, are probably the most common contributor to leakage bills. But any part of the yard plumbing may be responsible, ranging from feed pipes rusted through, leaking joints or dripping faucets.

Loss On Patron

When those things occur, it was added, there is nothing the water department can do about the bill. Until the water passes through the meter, it is the city's responsibility. But through the meter, it is the patron's water and any loss falls upon him.

Martin suggested as the best safeguard a careful watch for leaks or such indications of leaks as moist spots about the premises. If the patron suspects that something is wrong, a test of the meter will be made by the city. But if his plumbing is at fault, the responsibility must necessarily fall upon him.

Club Meeting

(Continued From Page One)

will remain in the gymnasium and the girls will go to the engineering auditorium. Homer Thompson; Ray Mowery, associate professor of animal husbandry at Tech; W. L. Stangel, head of department of animal husbandry and Dean A. H. Leidigh of the division of agriculture will speak. Each talk will be 20 minutes duration, and the program will close at 11:20.

Mrs. John T. King, chairman of the girl's club sponsors, will preside in the engineering auditorium. The program includes: a skit, "The Bedroom Demonstration," Marguerite Slone and Bonnie Ruth Walker, Acuff; "The Value of 4-H Club Work," Mrs. King; introduction of sponsors and presentation of gold star winners, Mrs. King; presentation of bedroom winners; "Personality of Dress," Mrs. Ruth Perry, Lamb county demonstration agent, demonstration, and "Table Service and Appointments," by Miss Margaret W. Weeks, dean of the division of home economics at Texas Tech.

TREASURY REPORT

WASHINGTON, June 25. (AP)—The position of the treasury on June 21: Receipts, $46,374,887.43; expenditures, $44,282,196.80; balance, $2,554,527,877.76; customs receipts for the month, $30,584,709.51.

Receipts for the fiscal year (since July 1), $5,152,019,246.17; expenditures, $7,936,094,366.59, including $2,771,943,383.96 of emergency expenditures; excess of expenditures, $2,784,075,120.43; gross debt, $36,390,836,351.34, an increase of $713,865.54 over the previous day; gold assets, $12,251,199,485.73, including $1,019,844,929.33 of inactive gold.

Brief Bits Of News . .

Three Women Held — Three women yesterday were being held by county authorities under orders of Dr. W. L. Baugh, county health officer, pending results of examinations and tests to determine whether they have venereal diseases. They earlier had been arrested by members of the police force for investigation.

Injured In Fall—Miss Inez Crow, waitress at the Hilton hotel, early last night suffered a slight arm injury and a hip injury when she fell when working. Injuries were to her left arm and left hip. Admitted to West Texas hospital for treatment, her condition early today was believed not serious. She lives at 1408 Avenue K.

Goes To Meet—W. L. Stangel, head of the animal husbandry department of Texas Technological college, leaves tonight for Dallas to attend a meeting of directors of the Texas Horse, Mule, and Jack association. The meeting will be held in the hall of state at the Pan American exposition Saturday morning.

Leach At College—T. L. Leach, 1934 graduate of Texas Technological college, and vocational agriculture teacher at Littlefield, is doing graduate work at Iowa State college this summer. Casey Fine, instructor in animal husbandry at Tech last year, also is studying at Iowa state.

Planes Stop Here — An Illinois Oil Co. plane stopped at the municipal airport Thursday for refueling, enroute to Oklahoma City from Hobbs. Another plane piloted by W. F. Green, left for Tulsa. Green arrived Wednesday.

Carnes Funeral — George Carnes, son of Mr. and Mrs. R. O. Carnes of Slaton, who died Wednesday in Walsenburg, Colo., was to be buried there at 3 o'clock this afternoon. He was fatally wounded by a bandit. His brothers, R. B. Carnes, Levelland and Otis Carnes, Lamesa and their families and Eugene Cook and Sherrill Boyd, boyhood friends, left Wednesday for the funeral.

Assign Mineral Rights — C. W. Bland has assigned oil and gas exploration rights in the west 250 acres of the west five eighth of section 128 block 29, to C. V. Lyman, Midland, according to papers filed in county clerk's office.

Go To Throckmorton — Dr. and Mrs. G. C. Turner have been called to Throckmorton by the serious illness of A. L. Sellars, father of Mrs. Turner.

To Examine For Jobs — Oral and written examinations for positions with the state highway patrol are to be given next week here, Captain W. W. Legge of this district, announces. Training of 150 men who pass the examinations, will begin July 2. They wil lgo on the force when they complete their training.

Merchants Watchful — Additional indication that Lubbock merchants are watchful for counterfeit money since recent warnings were given by the Retail Merchants association was seen when police received a call from Acme Seed company. A bill two men had offered was found to be good by a banker.

Brown Condition Good — U. Brown, deputy district clerk, was reported in "good" condition this morning at West Texas hospital, where he underwent an appendix operation Thursday morning.

Purification Of Air Latest Campaign For Scientists

BOSTON, June 25. — Harvard Scientists disclosed tonight a concerted drive to purify, even as water supplies have been purified, what they described as the last great medium of human infection—the air.

They invisaged, should it be successful, a drop in the high rate of, and deaths from, diseases entering through the nose and throat—such as the common cold, influenza, pneumonia, and many of the childhood diseases, including measles and diptheria.

Their hopes are based on an application of ultra-violet ray, with which, if tests by medical science support their laboratory findings, they will be able to purify the air of the schoolroom, the public meeting place, the hospital operating theater and the isolation hospital.

William F. Wells, Harvard school of public health, said bacteriology has shown that the organisms causing infections entering through the nose and throat, can travel upon the air from person to person. The laboratory, he continued, has demonstrated that, given the right conditions, the ray kills those organisms, when it hits them, almost instantaneously.

"Practical installations of the ray," he said, are now being tested in two leading Boston hospitals and one Baltimore hospital."

The intensity of the death ray which will destroy microbes in less than 60 seconds, Wells explained, has been found to have little or no effect upon individuals provided they do not gaze steadily at the light.

Rangers To Stay At Fort Worth, Johnson Says

(By The Associated Press)

NEW YORK, June 25.—Albert Sidney Johnson, chairman of the Texas State Safety commission who is here on a business trip, said late today he had heard nothing to warrant withdrawal of state Rangers from the gas company strike zone in Fort Worth.

"Naturally, having left Texas last Saturday and having heard nothing direct, I am somewhat in the dark," Johnson said, "but unless things have changed the Rangers will not be removed."

Johnson, an attorney, said Rangers were sent to Fort Worth three weeks after the strike had started only because police there had failed to protect emergency workers attending to duties agreed upon by the union.

Informed that the Fort Worth mayor was demanding withdrawal of the Rangers, Johnson said "the best way for them to get rid of the Rangers is for the police to take charge themselves and protect these emergency workers.

"We have had law and order in Texas through all these turbulent times, and we are going to keep on having it. If the police will keep law and order in Port Worth the Rangers will not interfere. They are instructed to do only what the police fail to do.

"The majority of the gas company workers want to work, and the Rangers will stay until the police have the situation in hand."

A shortage of male trout in California lakes and streams puzzles fish and game officials.

when she did."

"You're being mighty generous and hospitable," Dan Steele said warmly.

Hastings gave a magnanimous wave of his hand. "Glad to do it," he boomed, heartily. "If you think of any other way I can help out, let me know."

Dan Steele stood in the door and watched him stride over to his horse and mount.

"Kay's all wrong about that fellow," he soliloquized. "He's got her real interest at heart. I'm glad I didn't act like a sentimental fool and commit myself to lending her that money. It would be the same as throwing it away."

He turned back into the bank as Hastings headed off toward the mesa, a shrewd smile of satisfaction on his face.

A Snatch Of Gossip

As Ted sat waiting, with Flicker's reins tossed carelessly over the pommel of his own saddle, he noticed two punchers who met in front of the bank and stopped to chat.

Not really listening to their conversation, Ted nevertheless couldn't help overhearing it. But he paid no attention—his mind was busy with thouhts of Kay, and the miraculous change she had made in him from yesterday's low ebb of despair.

Suddenly he became aware that one of the men had mentioned Kay's name, and that the two of them were indulging in that particular brand of guffaw that indicates the appreciation of some more or less ribald joke.

Galvanized to instant attention, Ted keenly watched the two as they sauntered past him and made for a large red and black sign announcing that Mike Kelly welcomed the world to his "Puncher's Paradise."

"Sure, my boss says she's up against it. Reckon she won't be so proud and haughty at the next dance."

The puncher who was announcing this news with such gloating satisfaction, suddenly leaned close to his companion's ear and whispered, a leering smile twisting his mouth.

The next minute they had passed by Ted and were pushing in the swinging doors of the "Puncher's Paradise." There was no mistaking either the expression, or the quality of the guffaw, with which the other puncher received the whispered communication.

With narrowed eyes and his mouth set in a grim line, Ted dismounted, slipped the two horses' reins over a hitching post and strode after the pair.

Ted starts a fight—and finishes it—Monday.

TESTIMONY IS OFFERED

TOPEKA, Kas., June 25. (AP) — Testimony that the bullet removed from Federal Agent Wimberly W. Baker was fired by the automatic pistol removed from the coat pocket of Robert J. Suhay when he was arrested, was given today in the murder trial of Suhay and Glen Applegate.

Coroner's Verdict Of Suicide Returned In Girl's Death

BIG SPRING, June 25. (AP) — A coroner's verdict of suicide was returned today in the death of Minnie Anderson, 18-year-old cafe employe at Coahoma, 12 miles east of here, who died in a local hospital from effects of poisoning caused by drinking of a household disinfectant.

The girl was brought to a hospital here after a roommate, Opal Goodin, found Miss Anderson across a bed in their room, an empty bottle nearby. Efforts to revive her were unsuccessful. Miss Gooding told authorities Miss Anderson previously had threatened to take her own life.

Funeral arrangements were incomplete. The girl's father lives in California, and her mother at Colorado, Tex.

Only one Revolutionary war skirmish was fought in Florida. It took place at Callahan and 22 American and British soldiers were killed.

Hearing Being Held To Revise Freight Rates On Vegetables

SAN ANTONIO, June 25. (AP)—All railroads in Texas, Arkansas, Oklahoma, and Louisiana were represented at the opening here today of a hearing for the purpose of revising freight rates on vegetables.

C. R. Maier of St. Louis, a member of the rate commission of the Southwestern Freight bureau, presided at the meeting. Approximately 50 rail men and shippers attended.

Shippers were given an opportunity to present their views on suggestions by the railroads and other carriers regarding revising estimated weights on vegetables to more nearly approximate actual weight.

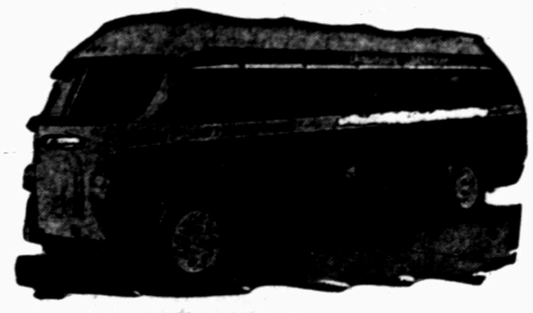

Any action taken here will be subject to approval by the Interstate Commerce commission.
