Voters Decide \$500,000 Bond Issue For Nursing Home Mar. 17

Eligible Crockett County voters will be called upon to cast their ballots March 17 on the question of authorizing the issuance of bonds for the purpose of building a nursing home wing onto the present Crockett County Hospital facility.

The order for the election was passed and posted by the Commissioners Court at a meeting called for the purpose February 19. During the meeting the court met with architect John Chiles Allen of Austin, who had presented plans for a 61-bed facility at the regular meeting of the court February 12. Allen presented new plans which cut the facility from 61 beds to 40 beds. After a few alterations, the plans were accepted.

The Court's action was in response to a petition signed by 308 citizens asking that such action be taken in order that these facilities might be provided for the elderly citizens of the county. A group of citizens met with the court several months ago to ask that this matter be considered, and the petition and the court's work with the architect followed.

The proposed 40-bed addition to the hospital would be constructed at the north end of the present facility. It would be constructed with a separate entrance and exits. Adjacent to the existing structure would be the foyer, rest rooms, staff dining and conference room, employee

rest rooms, and mechanical room. In the same area will be the nourishment center which contains the kitchen, patient dining room, serving area and the patient recreation area. The nurse's station is situated in the center of the 3-wings which contain patients' rooms. Eight rooms will be built into a wing on the west, which will also have a large day room and enclosed patio. A four-bed wing will be built to the east of the nurses' station. Each room in both wings will accommodate two patients and all rooms have baths. The wing which extends to the north will be built especially for ambulatory patients. It contains eight patient rooms, a day room and two large central bath areas with patient and nursing aids.

The only change in the existing structure will be a new office, which will be built to the left of the present hospital entrance.

The facility has been planned and will be constructed so that if the need arises, the last few rooms in the north end of the hospital may be used for nursing home patients.

The proposition to be voted upon is whether or not county bonds, in the total amount of \$500,000 bearing interest at such rate or rates as shall be determined by the Commissioners Court and to mature in not more than twenty years, be issued for the enlarging and equipping of the hospital for the purpose of a nursing home. Also, to levy a tax upon all taxable property in the county for the purpose of paying interest on said bonds and create a sinking fund sufficient to redeem them at maturity.

Architects estimate the total cost of the building at \$350,000. The remainder of the bond issue would be used to equip and furnish the facility. County Judge Troy Williams said it is unlikely that taxes would be raised for the purpose of paying off the bonds, as federal revenue funds have already been allocated by the court for that purpose. However, in the event the facility is not self-supporting, taxes might possibly be raised for maintenance.

All polling places will be open for the election from 7 a.m. to 7 p.m. Absentee voting will be conducted at the County Clerk's office from March 3 through March 14.

Crockett Fields Gain 2 Wildcat Locations

Crockett County drew two wildcats Tuesday.

American Quasar Petroleum Co., Midland will drill a 9,200-foot wildcat in Crockett County, 15 miles southeast of Ozona, 2 1/2 miles east of a dual 7,890-foot Pennsylvania gas producer in the Davidson Ranch multipay gas field and a producer in the DePaul (Strawn gas) field. It is the No. 1-26 Jean Scheuber.

Location is 1,320 feet from the north and east lines of 26KLTGFF. Ground elevation is 2,446 feet.

The firm has four deep wildcats in the vicinity, all of which are "tight". 3 1/2 miles north-northwest of the one well Angus (Strawn) gas field.

Robert M. Wynne, Midland, and W. H. Price, Granbury, will drill a 1,750-foot wildcat in Crockett County, 15 miles north of Ozona, 1 mile north of the depleted Wamoco (Canyon oil) field, which was re-entered for recompletion attempt in the San Andres, and two miles northeast of the depleted Midway Lane.

Northeast (San Andres) field. It is the No. 1 Moncrief-University.

Location is 660 feet from the north and 1,980 feet from the east lines of 13-42 University.

The Wamoco opener, W. A. Moncrief Jr. No. 1 University, was finished Jan. 22, 1972 to pump 56.02 barrels of 39.4 gravity oil, plus 5.43 barrels of water with gas-oil ratio of

2,633-1 through perforations at 7,377-856 feet. It topped Grayburg at 1,192 feet and the San Andres at 1,590 feet on ground elevation of 2,619 feet.

It was re-entered by Moncrief and plugged back to 1,600 feet and abandoned June 5, 1972.

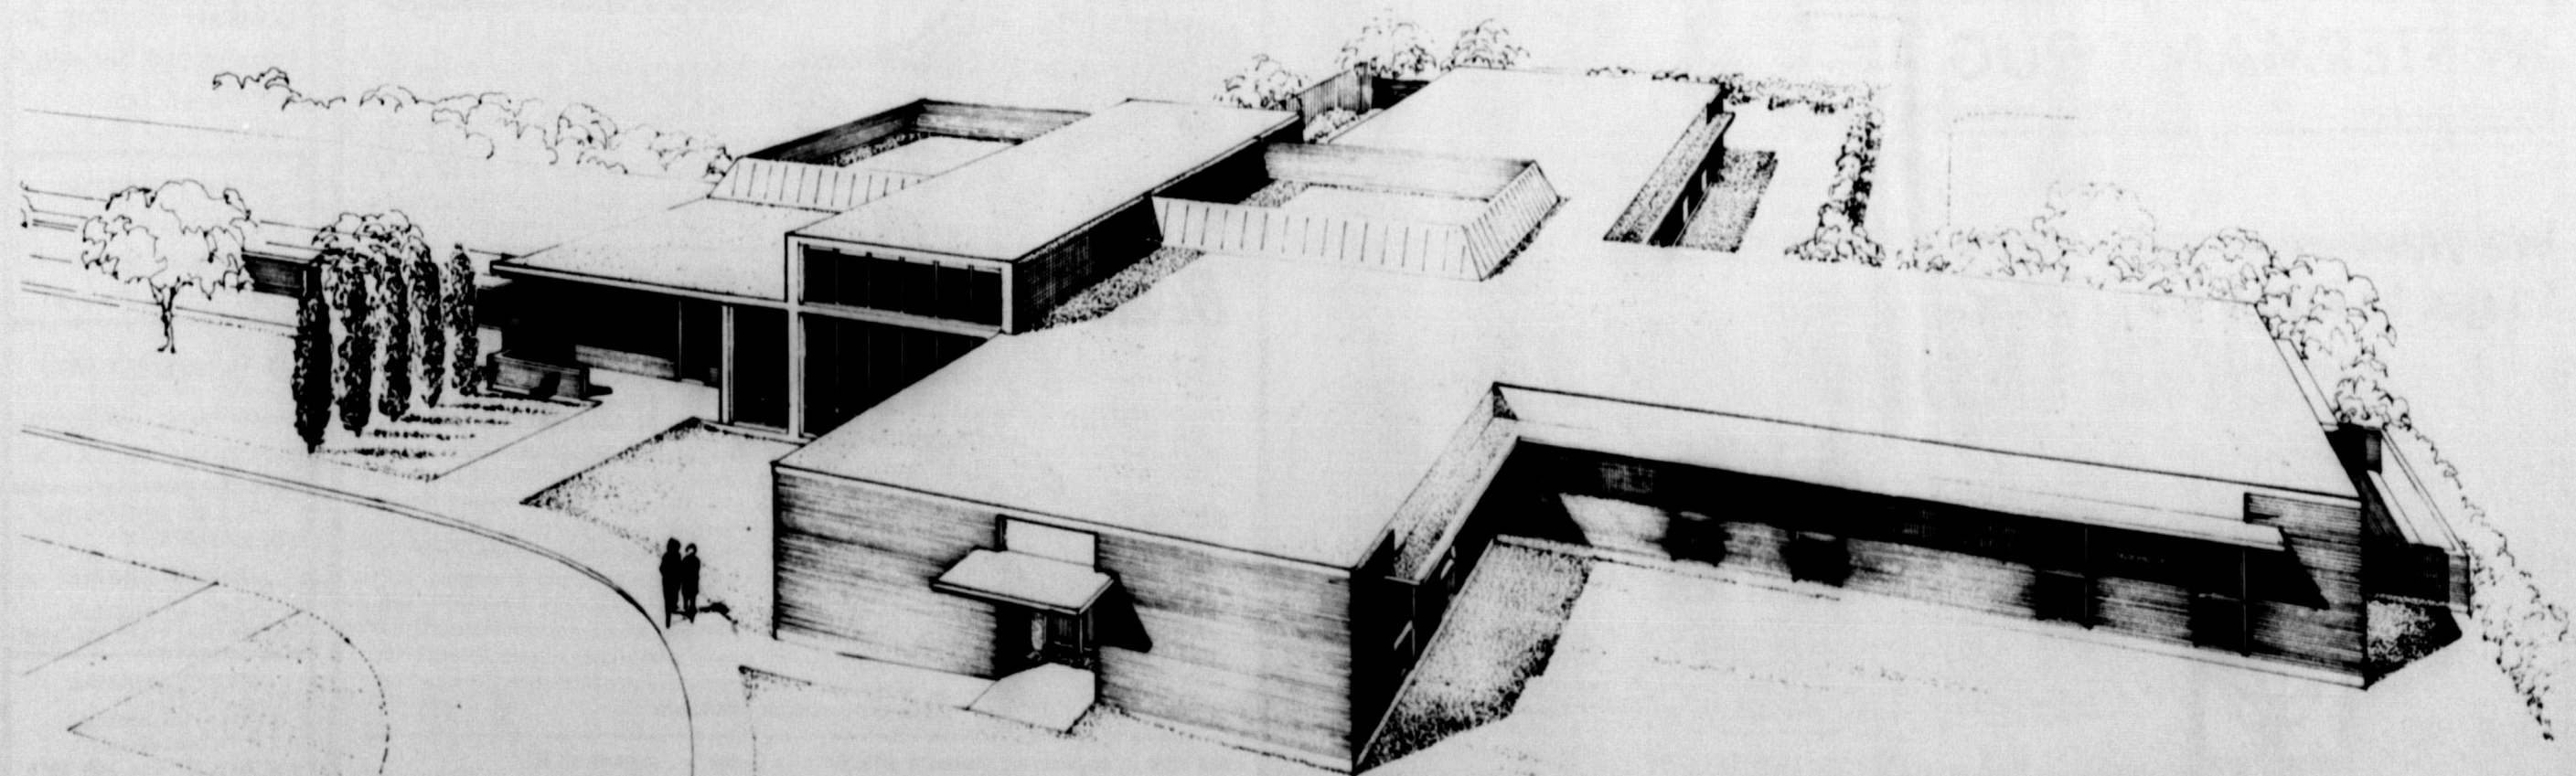

OHS Golfers 4th In Andrews Tournament Sat

Coach Charlie Spieker's OHS Golf Team made a good showing in the annual Andrews tournament over the weekend, coming in fourth in their division.

The first day, Friday, they played on the Odessa course due to weather conditions in Andrews, and had a bad time as a team on the first nine holes of the tournament. However, the second 18 holes on the Andrews course Saturday saw considerable improvement.

Ricky Webster led the team effort with a 27-hole total of 116. Lesley Russell was second with a score of 124, followed by Mike Williams with a 125, Steve Wilkins with a 126 and Jack Baggett with a 135.

The only other team in the district to finish ahead of the Lions was Crane with a third place. The Lions start district play next Saturday with the Big Lake tournament.

Tips For Gardeners

From the
Ozona Garden Club
by
Mrs. Bailey Post

Though the past weeks have been dreary and unpleasant for normal out-door activities, everyone should be grateful for the beautiful moisture received. Most all plants are ready to burst into spring growth or bloom though many chores have had to be postponed until more favorable weather. That means we need to be busy when a warm sunny day comes our way.

Pruning should be finished before new buds are too far advanced on evergreens especially. Roses between now and March 15th is the best time for them.

Crepe Myrtle should be pruned severely before new growth begins if you want larger clusters of flowers this season. Cut plants back as much as you wish to reduce their size, and then thin out excess growth. To have a well shaped plant prune in an even heights with highest in the center. If you keep old flower heads removed during the blooming season, your plants will continue to produce flowers. New plants need to be planted in a place that will have full sun, but will tolerate partial shade.

Pampas grass also needs to be pruned before new growth appears. In a small garden the large over grown plant can become a problem, so may need to be cut back and divided. To divide, lift out of ground with either a fork, sharp shooter or ax to separate the large clump of roots into several small divisions that can be easily replanted. If to be left as a large specimen, cut top back near the ground with sharp pruning shears. If planting new plants, choose a place with plenty of room, best in a sunny location. Pampas is a fast grower in rich soil, but will grow in any type of soil, dry or wet, acid or alkaline. Last fall there were many showy groups, or single specimens over Ozona.

DON'T OVER - CROWD
YOUR ROOMS

Many years ago a famous decorator said, "The right way to furnish any room is with the least number of pieces of furniture and not with the most". That principle still applies today.

Too many rooms in too many homes look like displays in furniture stores--terribly over-crowded.

Many people seem to have a fear of leaving any open floor or wall spaces in their rooms. But, actually there is nothing worse than the "cluttered" look.

Sufficient spacing is an important factor in decorating. It is often the difference between "decorating" and "furnishing".

Enough space between the different pieces of furniture and wall decoration in any room will allow the individual items to "stand" on their own feet" and display their own personality.

We are always ready to give you decoration advice and help with no obligation. Come on in and talk over your decoration problems with us. We welcome the opportunity to visit with you.

Heading Higher

When an aviator encounters a storm, he directs his plane through the clouds and goes higher. In that clear, rare atmosphere he is free from fear and difficulty.

Similarly, when we find ourselves surrounded by clouds of doubt, we need to direct our lives into a higher level where we may free ourselves of weaknesses and seek the will of God.

How can we attain these heights? Through the Church! It offers continuous opportunities for new growth, new life, new understanding. We need not wait for a more convenient time. We can enter into the life of the Church NOW.

Methodist Women To Observe Day Of Prayer Fri.

Observance of the World Day of Prayer by Church Women United will be Friday at the Ozona United Methodist Church in the Parlor and Chapel.

The group will meet at 9:30 a.m. for coffee and the program will begin at 10 a.m. Mrs. L. B. Cox, Jr. is program leader and Mrs. Roy Killingsworth is president.

Theme for the observance is "Alert in Our Time."

World Day of Prayer is observed in 168 countries under auspices of an international committee. In the United States, CWU is official sponsor. That group's national committee has adapted the service prepared by women in New Zealand for use in this country.

The offering taken during observances in approximately 8,000 communities across the nation will be administered by CWU and "will enable church women to fulfill our

goals in many places through persons who have languages and skills which we do not have and in ways in which no one unit of CWU could achieve alone."

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.
