Fishing At Lake Mackenzie Should Be Improving Now

With the weather warming up, fishermen and weekend campers are beginning to try their fishing skills at Lake Mackenzie. With the water temperature in the lower forties, fishing has been very slow; however, with spring just around the corner the temperatures will continue to rise and the fish will become more active and start moving from the deep water into the shallow warmer water.

Last summer, more bass, catfish, hybrid and walleye were caught than any previous year. As a result of fertilizing the coves three years ago, the crappie caught last spring were bigger and with another year's growth, even better crappie fishing is expected this spring.

The Marina is now open seven days a week, and they will have a good supply of bait, fishing equipment, groceries, ice, picnic supplies and fishing permits.

All permit charges will be the same as last summer. Annual Family Entry and Boating Permits are now on sale. They are $25.00 each and can be purchased at the Lake Office or the Marina. If you pay Mackenzie Municipal Water Authority taxes, you can buy your Annual Family Entry Permit at the District Tax Appraisal Office in the town where you pay your taxes for $20.00 (If all Mackenzie Municipal Water Authority taxes are paid, delinquent and current.)

Luncheon To Benefit Meals On Wheels

A St. Patrick's Bridge Tournament and Luncheon will benefit Meals on Wheels Wednesday, March 13.

The luncheon will be served at 12:00 noon. Door prizes will be given.

The tournament and luncheon will be held in the basement of the Swisher Memorial Building, 127 Southwest Second Street, Tulia. Entry fee is $10.00 per person.

Rustic Epidemic Possible In Briscoe County Wheat

The threat of a devastating outbreak of leaf rust in the Texas High Plains wheat fields is the greatest it has been in more than two decades, says Dirk Aaron, County Extension Agent. Aaron has been informed by Dr. Robert Berry, Extension Plant Pathologist, that he has not seen such active rust infections at this time of year in 22 years.

The disease requires moisture on the plant leaf and suitable temperatures, such as have occurred across the Plains in recent weeks. Berry said, "At 70 degrees, infection can occur in four hours and the complete cycle, producing spores which then repeat the infection of other leaves, takes 10 to 12 days. At 60 degrees, the cycle takes twice as long." A fungus, the rust appears as small, round orange spots or pustules. They appear right at the groundline on the oldest leaves of the plant. If the infection is heavy enough, it will defoliate the plant. "Even light rust will interfere with development of the grain," Berry warned. "Many fields which we saw in our survey have high weed populations. Many also have thin stands. These conditions don't promise a high yield potential," Berry noted.

He suggested that dryland producers who have thin stands and poor yield outlook may want to consider grazing out their fields hit by rust. "If an irrigated crop with good potential develops rust, the producer might want to consider a fungicide application at the jointing stage," he said. "It is generally thought that economically, fungicide should only be applied to wheat that has a potential for a yield in the 80-100 bushel range," he said. He noted that new fungicides, such as Bayleton, are very effective, but are rather expensive.

Caprock Camera Club Meets March 14

Caprock Camera Club will meet Thursday, March 14, at 7:30 p.m. in the community room of the First National Bank in Quitaque. This is your chance to learn how to use a flash with your camera.

The program from Kodak is titled, "Using Flash Effectively." Everyone is invited to bring their camera and flash attachment. If you have no flash, bring your camera and you can try out different flashes. This experience will help you decide if you want a flash, and perhaps what kind.

The photo topic for this meeting is people portraits, so members are asked to bring five or six pictures in order to be able to learn from one another. There is a poster on display at the bank in Quitaque with some of the club's February pictures. From the poster you should be able to tell that the club has no professionals in the group, just people that take pictures for the fun of it. Rural Life is the topic for the April 11th meeting, so you might be looking for pictures on this subject as you look for the People Portraits. Give it a try!

Pre-School Children Attend "Week Of The Young Child"

Students of Gail Wyatt's Children's Rainbow Preschool attended the Panhandle Plains Historical Museum's "Week of the Young Child," February 18 and 20.

On Monday, 33 children participated in Indian Day. The children were taught several words in sign language and learned how the Indians talked with one another. They also had a hands-on experience in stringing Indian necklaces. Next the group traveled on to visit a tepee, learn about corn grinding and sample beef jerky. To highlight the day the Kwahdi Indians performed several dances for the children's enjoyment and then asked the children to dance along with them.

On Wednesday, the children attended Bonz Day, in which a taxidermist told the children how animals in the museum were stuffed and made to look real. The children learned about the different types of dinosaurs and participated in a dig, finding fossil bones.

Both days ended with an exciting trip to MacDonald's for lunch where the group was joined by Cathey Weaks and Jackie Wheeler.

Children enjoying the trip were Kenzie Burson, Lacy Brunson, Lorn Estes, Will Hester, Katy Hester, Shauna Kingery, Erica Montague, Michael Reagan, Jeff Weaks, Krista Ziegler, Trey Ziegler, Lindsey Weaks, Laura McCammon, Brooke Garvin, Misti Mattheus, Robin Hutsell, Dara Ramsey, Misty Wilkerson, Traci Ham, Richie Hill, Patrick Whitfill, Walt Henson, Lindsey Jennings, Russell Patrick, Randi Brooke Powell, Russell Ramsey, Amy Stark, Holly Tiffin, Donny Ray Cagle, Micah Stark, Bobby Martin, Trey Wyatt and Daniel Reagan.

The group missed Donny Burson who could not attend because he was entering the hospital to have a tonsilectomy. The class made a get-well card for him and hoped he would be back at school soon.

A very special thank-you to all the mothers who graciously gave their time to help make this a special field trip for the children.

The mothers who helped make the trip possible were Marsha Brunson, Jimmie Sue Estes, Bena Hester, Kathy Kingery, Debbie Montague, Sheila Reagan, Gayla Ziegler, JonEtta Ziegler, Darrah McCammon, Paula Garvin, Tisa Whitfill, Janice Henson, Marilyn Patrick, Lorna Powell, Linda Stark, Donna Stark, Roma Martin and Anita Ramsey.

Police Officers Busy The Past Two Months

Briscoe County and Silverton officers were occupied during January and February with three felony burglaries, cleared by five arrests; two vandalism cases cleared through juvenile cases and handled by 110th District Juvenile Officer, Bill Hendrix. One case of vandalism and two thefts are still under investigation, according to Sheriff Dick Roehr.

Six DWI's were filed by local officers; five of these have already been tried and sentenced, having paid fines and accumulated jail sentences ranging up to one year in jail. These five, being first-time offenders, received probation.

The grand jury will act on five accused burglars on March 29.

Four juvenile reports were filed with Bill Hendrix, regarding alcohol beverage violations among juveniles.

LETTER TO THE EDITOR

Justice and the common good is not served when newspersons and institutions twist facts to create controversy in order to sell newspapers. In a recent Lubbock Avalanche Journal article ("Coffeeshop Talk on Booze," February 24, 1985) I was quoted as saying, "It is not so much a moral issue." The article did not define "it" and left the impression that I was saying the sale and use of alcohol is not a moral issue. The remark was taken out of context and is a distortion of what I said and grossly misrepresents my position. The Tulia Herald then published part of the article (February 28) without verifying its accuracy. The Herald published only the part that seemed to suggest a disagreement between myself and the local Churches of Christ. I suppose it makes good "copy" to highlight an apparent theological and philosophical disagreement between members of the clergy; however, one should do one's homework first. I do not feel this is responsible journalism. It is sensationalism and does injustice to the individuals and communities involved.

My remark was made in the context of a discussion about alcoholism and the church's role in educating and caring for people suffering from this horrible disease. A common misconception among church people is that alcoholism is merely the symptom of some moral or spiritual problem, that it is not a disease in its own right. It is true that the moral and spiritual problem may exist, but until one understands and receives proper care and treatment for chemical dependency, it is impossible to begin working to help the "whole person." A drunk or drugged person cannot respond at any reasoning level to counsel for emotional, marital or spiritual problems.

This was the context of my remark, "It (alcoholism) is not so much a moral issue . . . as it is one of educating and caring about people as human beings created in the image of God." Of course, the effects of alcohol and alcoholism on the lives of individuals and families and society is a moral issue. But first things first!

I hope and pray for the time when the church will care about human beings in pain. I hope and pray for the time when the media will care too!

Sincerely yours,

LETTER TO THE EDITOR

I would like to thank you for sending us the Briscoe paper, as we were raised in Silverton. We enjoy reading the news. So many people we knew are not there any more, although we still have kinfolks there. We have been gone from Silverton since 1939. We still like to read the news from Silverton.

Thank you.

LETTER TO THE EDITOR

Dear Editor:

Enclosed please find check in the amount of $9.00 for one year's subscription. I really do enjoy reading the News. I like "Think Silverton." A Scotchman and a Jew were talking. The Scotchman said, "One of my ancestors signed The Declaration of Independence," and the Jew said, "One of my ancestors signed the ten Commandments."

When I have time and think of it I enjoy reading "Footprints of Time in Briscoe County." I have told some of the ladies who are members of Briscoe County Historical Survey Committee that they did a super job in putting the book together and I again say thanks for the good work. I placed one in the main library here in Amarillo, in the genealogical dept. I am sure that many will find it useful in tracing their family. I still think of the celebration that the good people of Silverton and Briscoe County had last summer. The programs were very good, especially the one that was given by the Watters Sisters. I was about 2/3 way down the line at the bar-b-q and expected it to take much longer to get my food, but they kept the line moving rapidly.

When I see the number of family farms getting fewer and fewer and the small towns getting smaller, I keep thinking what Greeley Askey said one day in 1928 when the railroad was being built into Silverton. He said machines, railroads, and good roads would be the death of the smaller towns. Now I see that the State Legislature is talking of more small schools being consolidated. I would like to see more jobs created in the small towns so to encourage more young families to move in. I don't care how many parks, clubs and other organizations that one has in large cities, the warmth and closeness just isn't there. I see this more and more with each issue of the Briscoe County News.

Sincerely,
Henry H. Norrid

CLAY POSSIBILITIES

" . . . be ye transformed by the renewing of your mind" (Rom. 12:2). "Transformed" is from the Greek root word for "metamorphosis" which is the term describing a butterfly's development: worm, cocoon, beautiful insect!

Peter, the fisherman, had been, perhaps, a compulsive "cusser." At least, in a pressure situation he began "to curse and to swear" (Mt. 26). But there is no doubt that he grew into a self-sacrificing servant of the Lord.

John, "son of thunder," developed into the great apostle who so often said, "Love one another."

Paul, the persecuting Pharisee, submitting to God, was transformed into the Christ-workman who has never had a peer in heaven's service.

God molded and used these submissive men.

Any child of God can leave off "murmurings and questionings" and "become blameless and harmless," being "seen as a light in the world" (Philip. 2). Be a becomer!

Marvelous things are possible with the Master Potter. "I am the clay!" (Jer. 18)

Briscoe County Youth Bring Home Ribbons

Briscoe County 4-H'ers and FFA members attended the Houston Livestock Show and Rodeo February 22-March 1, according to Dirk Aaron, County Extension Agent.

The families and kids that attended did a fantastic job of feeding and fitting their animals which was proven when six of the twelve hogs established made the premium sale. Aaron also praised the efforts of the Vo-Ag teacher, George Martin, for his assistance at the show, by helping Briscoe County present itself as a united group of youngsters in 4-H as well as FFA.

Those exhibiting and placing their animals were Stephen Stephens, seventh place, lightweight cross barrow; Penni Fogerson, twenty-first place, lightweight Hampshire barrow; Robbie McWaters, twelfth place, lightweight cross barrow; Kristy Fogerson, twentieth place, lightweight cross barrow; David Schott, tenth place, heavyweight Chester barrow; Shavonne Lowrey, fifteenth place, heavyweight Yorkshire barrow.

Others who exhibited swine and sheep were Langdon Reagan, Clay Schott, Sloan Grabbe, Todd Reagan, Keeley Burson, Kim Burson, David Lane, Oleta Lane, Lance Smith, Russell Bingham, Kori Baird and Jeannita Stephens.
