Peanuts Profitable Crop that Offsets Drouth Stricken Grain Crop
The crop of wheat and oats in Scurry and other counties below the caprock in this section of West Texas will be short due to lack of rain, but there is a bright side to this not very promising report, namely: the more extensive growing of peanuts, a thrifty and profitable crop.

Some of the wheat and oat acreage will be planted to cotton if sufficient rain falls, but the percentage will be small.

A. J. Towle returned this week from Houston where he attended a meeting of the National Farm Loan Association, and from Galveston, where he attended the International Bathing Revue, etc. The long, hot, dusty trip, or something affected his eyes, which necessitated his calling on his brother, Dr. H. G. Towle, who pronounced his case of eye-strain due to over taxation from over concentration. A. J. says that he is confident that his brother's diagnosis is correct.

UP AGAIN--AND GOING

E. J. Anderson was taken with a heart attack Thursday and has been confined to his bed. Public Library Vital City Need

Would a Public Library succeed in Snyder? Would one of the social clubs of the city sponsor the idea? The Times-Signal believes that "Yes" could be the answer to both questions.
Take for instance the town of Uvitch, a town that has less population than Snyder—and they have 2,500 volumes in their public library, 81 of which were added since the first of this year. Two thousand books have been loaned since January 1, 1927, and 187 new patrons added in the same period of time.

NEWSPAPER'S FRIEND SUFFERS BAD FALL

The Times-Signal's good friend, J. V. Riley, doesn't look as if he ever had anything wrong with him, but he says that he is still sore from a fall from a wagon several days ago. He was tearing down and hauling away some corals out at the ranch, and took a tumble backwards out of his wagon upon the ground. He fell upon his shoulders, which, after a few days, he says, he would not doubt have broken his neck had he fallen on his head, as Mr. Riley is a very large man. He says that he has been in Texas 60 years, has handled cattle nearly all his life, and has had numerous accidents, but this was about the worst fall he has ever had.

LET GEORGE DO IT

Manager George Northcutt of Higginbotham Bros. & Company, stopped the Junior Editor dead in his tracks Friday with a fishing exploit that we didn't quite believe. So we told George the same thing. He hauled us into the store and showed us the head of a small mouth bass whose body measured 21 inches over all when he caught it. Now, we've heard of any number of other fish tales since coming here, but Mr. Northcutt surely put us on the barrel head and made us swallow what we had originally thought. Which goes to prove that a few honest boys live who do go fishing. Oh, yes, the fish weighed four and a half pounds. Modesty didn't prevent our telling George that when he wheeled in any more that size, that our phone number is 203.

CHORAL CLUBS PRESENT RECITAL

The choral clubs of Sweetwater, Colorado and Snyder, under the direction of Mr. Daves of Colorado, rendered a recital at the Palace Theatre Sunday afternoon. The program consisted of 12 numbers, which were very splendidly rendered by the clubs.

COMPANY "E" OF SNYDER RECEIVES HIGHEST RATING

W. E. Sorrels, who lives over close to the Colorado River, rather than an unusual fish story, which he declares is the unvarnished truth. Last Saturday he caught a 4-pound catfish, and was exhibiting his catch to a less fortunate fisherman when, with a sudden flip of the tail and a "knack" of money for the ties he mailed the "blind" men, or the ties returned.

CAUGHT SAME FISH TWICE

W. E. Sorrels remarked: "I'll give four bits to the person that will catch that fish." According to a friend sent a hook in the same hole in which the fish disappeared, and in a short time the very same fish was landed safely on dry ground.

TRAINED TOMATOES MOST PRODUCTIVE

There is no question of the advantage of growing trained tomatoes. It is a waste of space, time and tomatoes to permit the vines to sprawl about the ground in the old-fashioned style of gardening. There are a few dwarf types that may be grown without training.

BAPTIST TO CAMP AT SANCO FIFTH SUNDAY

Important indeed it is that all Sunday school and B. Y. P. U. workers of our Mitchell-Scurry Association, School and B. Y. P. U. Association, sacrifice if need be in the interest of our association. Since we are not receiving the Baptist Visitor, the writer's trip to the Southern Baptist convention, etc., there has been published no program for this meeting. That does not even indicate that there will be a program.

### Hermleigh News Notes

Miss Ina Mae Caswell is the authorized correspondent for Hermleigh, and as such is authorized to receive notices and new subscriptions. Co-operate with her in building a fine weekly news column for this thriving town.

#### School Notes

Dean Boyd McKeown of McMurry College, Abilene, preached the baccalaureate sermon Sunday at the Methodist church to a large and appreciative crowd of parents and friends as well as the seniors and teachers. He talked from Luke 2:52, "And Jesus increased in wisdom and stature, and in favor with God and man," emphasizing the fact that a true education brings growth mentally, physically, socially and spiritually. The other churches in town were courteous enough to suspend services and be with the seniors on this, their day.

Mr. Kerr and the seventh grade had the honor of giving the school's last program for the year Wednesday, May 18th. The following numbers were rendered: Enology of the seventh grade, Custer Williams. Song, Luke Barbour. Demonstration of first aid work in bandaging, Arlan Gardner. C. E. Leslie and several other pupils as "patients." Song, Ledlow Vick. Talk, "The Laboratory of Life," F. Malcolm Crouch, science teacher in the Snyder High School.

The county graded the road leading west from the schoolhouse to the highway Thursday, and after it was done the boys offered to put up the road leading north and south in front of the building if the bushes were grubbed out of the way. Mr. Kerr and a group of high school boys volunteered, and shortly after 9 o'clock Friday morning we looked out the window and were lost in amazement to see them actually working. That they were industrious is verified by the blisters on their hands. Monday a group of patrons bridged the two roads, and it is planned to put them in tip top shape by travelling them some time within the next year.

Final examinations are in order now (Monday and Tuesday), and we are all working hard to make the last entries in the 1926-27 record books good ones. If the seniors make high grades, perhaps their hands will expand enough to fill up those caps that are too large.

#### Locals

The high wind Friday night brought to earth the framework of the Fuller gin which was almost all up. However, work was immediately resumed Saturday morning and now (Monday) the framing for part of the building is again standing. Earl Thompson stepped on a piece of glass the other day and cut his foot so badly that it required two stitches to sew up the wound.

Mrs. George Hamil, Jr., and two children of Fort Worth are visiting her father-in-law, G. H. Hamil, Sr.

The Hermleigh nine went Sunday to return Longworth's invasion last Saturday. They were defeated, however, by a score of 8 to 7.

#### POLAR NEWS

We are glad to report that the "Old Fashioned Program" has at last been rendered. The rain and storm prevented people from coming last Friday night, but it was given Monday night. The part of the old fashioned girl was played by Juanita Read. All other girls were turned aside except the old

fashioned girl. All the parts were beautifully played, and a number of our popular songs as "Let Me Call You Sweetheart," "Just a Girl That Men Forget," and others were well rendered.

To utilize our material, we are planning programs for each room. Friday night, May 27, the primary folks will give their program. The following week the intermediate room will give a negro play.

The friends of Mrs. E. E. Wallace and children, Ida Sue and E. E., Jr., are glad to welcome them back to the ranch. The children have been in school at Snyder for the past term.

TELEPHONE TALE IS COLLEEN MOORE'S GREATEST

Love laughs at locksmiths—it also smiles at such barriers as poverty, position, and, in fact, all obstacles. Thus a humble little switchboard operator in a big hotel may attract the attention of a wealthy and handsome young man and—if she be as good as she is charming—ultimately win his love and a wedding ring.

That is the story, in a nutshell, of "Orchids and Ermine," in which Colleen Moore stars for First National, and which will be at the Palace Theatre next Monday and Tuesday, May 30 and 31.

Mrs. H. G. Towle, as a farewell compliment to the grade teachers in the Snyder public school, was hostess to a luncheon at the Wilford Tea Room Friday of last week. Mrs. Towle made it possible for a large number of guests to spend a most pleasurable hour together.

Circle meetings, and they proved a big help. D. T. Simons, secretary of the Texas Jersey Cattle Club, made a sound talk on Jersey development that was valuable and far-reaching in its scope. Mr. Simons is the best known man in the Jersey business in the country, and has been instrumental in placing the large number of good Jersey bulls that have gone to West Texas in recent years. He was very much pleased to see the condition and the way the bulls had grown out in the Scurry County Bull Circles. He said that the two circles in this county and one in Fisher had the best bred bulls in West Texas.

**Breeding Standard Set**  
The method of standing the circle bulls for service has always been a subject of considerable criticism in various parts of the country. However, this criticism does not seem to affect the Jersey breeders in the high goal they have set to reach. The introduction of registered female stock to save the blood of the circle bulls for future years causes a breeding problem—the saving of male offspring from these cows.

Every male calf from a registered cow can not be saved. The cow must make 1 1/2 pounds butterfat in one day at two years or 1 3/4 pounds at three and four years. This test is to be left to the honesty of the cow owner, and is to be made in one 24-hour day, two milkings generally, the man having the cow weighing the milk and bringing a sample in to the

local creameries for butterfat test. Of course it is of more value to get this test vouched for by interested parties. This will not put any one to any great amount of trouble, and will put an extremely high class of bulls on the market from year to year. This test may be made on the cow at any time and is not extreme. The cow on which the test is to be made must be registered.

It is generally understood that the breeding fee is \$5 to these bulls, except the calf be a male, in which case the breeding service charge is \$2.50. This is a very reasonable breeding fee for this class of service, and this amount of service gives the owners the right of certain options. This standard will always be building up, and why some of the best bulls in the place of a knock. If you do believe these bulls are worth the money, go look at their calves and look at them. The keepers of these bulls are: Circle No. 1, R. L. Lightfoot, Flannan; C. T. Shams, Lloyd Mountain; G.

H. Bishop, Sharon; L. L. Eubank, Knapp; Mack Neal, Snyder, Circle No. 2, H. M. Murphy, China Grove; Ross Williams, Hermleigh; T. E. Grimes, Dunn; A. D. Higginbotham, Hermleigh and D. P. Smith, Colorado.

Miss Alma Nell Ware left Thursday for Robstown where she will join her parents who moved there a few weeks ago from Snyder.

Mr. and Mrs. Lester Wilson, formerly of Texarkana, moved to Colorado Sunday after paying a short visit to Mr. Wilson's niece, Mrs. Coy Watkins.

J. L. Martin went to Rotan Monday morning to meet Mrs. Martin who returned to Snyder from a two weeks stay at Marlin.

### Bilious dull feeling

"My old stand-by is Thedford's Black-Draught—I have used it off and on for about 20 years," says Mr. W. S. Reynolds, of R. F. D. 2, Arcadia, La.

"I get bilious and have a bad taste in my mouth. My head feels dull. I don't just feel like getting around and doing my work. I know it isn't laziness, but biliousness. So I take a few doses of Black-Draught and when it acts well, I get up feeling like new—full of pep and ready for any kind of work. I can certainly recommend it."

In case of biliousness and other disagreeable conditions due to constipation, Black-Draught helps to drive the poisonous impurities out of the system and tends to leave the organs in a state of normal, healthy activity. Black-Draught is made entirely of pure medicinal roots and herbs and contains no dangerous or harmful mineral drugs. It can be safely taken by everyone. Sold everywhere. Price 25c.

OUR GRADUATES

So many things have come into the lives of Snyder citizens since they finished school, and business cares have set so heavily on their shoulders that they have lost sight of what was really a supreme event in their lives—the high school graduation. And yet, even though forgotten by those who have passed through it, or if not forgotten at least seldom recalled, the event is still rated as a red-letter day in the life of every boy or girl permitted to achieve the distinction of having participated in it.

We are again in the season of high school graduations, or commencements, if you prefer. Here and elsewhere boys and girls, just on the borderland of manhood and womanhood, are closing an event period in their careers. They are reaching a fork in the road, and directing signs to Success and Failure are not easily interpreted. Each must read for himself, each much choose the road over which he will travel through life. Graduation marks the point from which they launch their battle against the hard and exacting tasks of life—it is the day when they lift the burden of responsibility from the shoulders of their own parents and start out to carry it themselves.

We are proud of the young men and women this community is graduating this season. Many of them will remain in the neighborhood, carrying on in future years the tasks of those now in active business and professional life. Others will be scattered to far places, to stand or fall on the training they received in the old home school from which they are now taking a final farewell. We wish no greater thing for them than that each and every one lives as happily and successfully as have been the school years now brought to a close.

Messrs. John R. Covey and F. Malcolm Crouch left Tuesday morning for Austin where Covey will attend the summer session at the University of Texas. Mr. Crouch went on to his home in Grandview.

Miss Clara Mitchell, a former teacher in the Snyder school and for the past year a teacher in the Abilene High School, spent the latter part of last week in Snyder the guest of Misses Effie McLeod and Jo Haley.

Misses Mildred Robertson and Gladys Boren left Saturday morning for a short visit in Abilene with Mrs. Marie Palmer Green. From there Miss Robertson will go to her home in Paris, while Miss Boren will go to Ennis. Miss Boren has accepted a position as teacher in the Corsicana school next year.

J. A. Howell came down from Seminole the first of the week, and was accompanied home the latter part of the week by his daughters. Mr. Howell says that they will all be at home the coming year as his daughters will teach at Seminole the coming school term.

Miss Rubnell Johnson, who has been visiting in the home of her aunt, Mrs. Dixie Smith, returned to her home in Wichita Falls Tuesday. She was accompanied by Miss Dixie Ruth Smith who will pay her a short visit before attending the summer term of school at Simmons University.

A REAL BENEFACITOR

Most every Snyder citizen can recall that only a few years ago there was considerable prejudice against the auto. Not so many people owned them then, and those who did not were more or less resentful and quick to assert their anger at the motorist who, as they said, "always tried to hog the road."

But it's different now, and while there may be found here and there someone who still holds resentment, this community, like all other sections of the United States recognizes the auto as a real benefactor. They know it has been a vast aid to our social, educational and business life, and since it has become the world's greatest industry, with more than 3,000,000 men supporting themselves and families from it, they have come to figure it as an industrial blessing.

You'll find many strange autos passing through this section this summer. Now is an excellent time to see that your premises are made attractive, for well-kept homes are the first things noted by strangers. We can also stand a little improvement in our streets and sidewalks, too, and in that way also create a favorable impression. Whatever these strangers spend while in our midst contributes to the general prosperity of the community. And who knows, but that some of them might decide to become permanent residents? The blessings. Let's show we are de-

servicing of them by making our town so attractive that auto tourists will say a good word for us as they travel on.

J. A. WEST

J. A. West was born September 19, 1850, in Wedowee, Alabama, being 76 years, 7 months and 12 days old when he closed his earthly life at Snyder, Texas, May 1, 1927.

He had been failing in health for several months before the end came.

Deceased was married to Elizabeth Robertson in 1869, and to this union were born seven children, four boys and three girls. He was married a second time to Sarah C. Dobson on November 16, 1884. She died at Snyder, Texas, in June, 1925.

Throughout his long and useful life he was the champion of every good cause in his community. He was a good husband, a kind and loving father and an all round good man. His moral life and habits were at all times unquestionable. He was a firm believer in Deity, and was a close Bible student, dying in the hopes of the resurrection.

Deceased leaves to mourn his going and cherish his memory the following children: B. M. West, Snyder; N. W. West, Dunn; W. R. West, Lamesa; Mrs. Lena Blackard, Snyder; Mrs. H. D. Lowering, Kenedale.

A great throng of people came from far and near to attend his funeral which was held at the home of his daughter, Mrs. Lena Blackard. The remains were laid to rest in the Snyder cemetery to await the resurrection morning.

The pall bearers were his grandsons, Melvin and Odell Blackard, Leon and Louis West, Marvin West, W. J. West and Arnton West. —By a Friend.

**Flat Tread Balloon**  
The balloon tire with heavy, flat tread design is obviously stiffer and rides harder. The excess rubber, placed for appearance at the edges of the tread, is not wasted but produces hinging action causing ply separation and "shoulder breaks."

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

#### RAIN AND STORM

Our section of the country having been uncomfortably dry recently, the rain of last Friday evening measuring at Fluvanna one and one-fourth inches, was very acceptable and refreshing. At the same time the wind and hail were altogether undesired. The barometer stood at 29.08, which is on the border of real storm conditions. The maximum temperature for the day was 105. Late in the afternoon a cloud formed in the southwest and rapidly developed into a stormy condition—bearing the usual indications of a cyclonic condition—except for want of intensity due to the fact that the barometer was not quite low enough to make a really disastrous storm possible. Several poultry houses were blown over, resulting in the loss of quite a lot of young chickens; a few sheds and light barns were either demolished or unroofed, and a few windmills were blown down. There was also a considerable fall of hail, but this was very much localized—hitting some farms and missing others. Cotton, especially, on farms visited by the hail, was ruined.

Small grain had already been cut considerably short by the dry spell, but much of that which remained, and caught in the hail areas, was seriously damaged. Also, considerable young stuff both before and after the rain, had suffered from blowing sand. The rain, however, was timely and did great good, though not extending very far west of Fluvanna. Reliable weather forecasts indicate that these extreme conditions will even up by the latter part of June inasmuch that the farmer may reasonably expect much more favorable weather during the last half of the year.

**The Oil Situation**  
The test well on the Snodgrass ranch has been temporarily shut

pending the extension of the drilling contract. Work will probably be resumed in a week or two. At the same time arrangements for one or two other tests are pending. Evidently there is a great deal of wealth beneath our feet; the thing needful now is the bringing of it to the surface. Providence has richly endowed the land, but it is left to men to discover, harness and properly utilize the resources already within their reach. While we are striving to gain, let us also strive to us aright that which is committed to us.

**Church Activities**  
Rev. Charles Leslie, pastor of the First Baptist church, filled his pulpit here last Sunday at eleven o'clock. A large congregation heard the message. Following the sermon those in attendance repaired to the arbor where a bountiful dinner was spread. Of course, it is useless to describe the activities of the next hour. Immediately following the dinner, the people went back to the church where an all-afternoon song service was held with the aid of several visitors, whose names we did not get.

Usual services were held at the Presbyterian church last Sunday, except that as the people were assembling for the evening a blis-

tering cloud came up from the south and dispersed the crowd.

**School Affairs**  
The baccalaureate sermon for our school will be preached by Rev. W. F. Ferguson of Snyder at the Fluvanna Baptist Church next Sunday, May 29 at 8:30 p. m. Everybody in the community should attend this and the other commencement services. The commencement service for the grammar school will be held in the Presbyterian church on Thursday night, June 2. County Superintendent A. A. Bullock will be the speaker for this occasion. The Senior class play, "Her Honor, the Mayor," will be given on Friday night, June 3, in the school auditorium. The Senior Commencement will be held on Saturday night, June 4, in the Methodist church. At this time Dean B. M. McKeown of McMurry College, Abilene, will be the speaker. On Wednesday afternoon of this week the Village Preacher addressed the high school department.

**Sickness and Accidents**  
Mr. and Mrs. Guy Turner are rejoicing over the arrival several days ago of their fourth son, Young Paul, weighing ten pounds, is making a good start in life.

Buford Weems sustained an injured foot on Thursday of last week when a "spoil" horse which he was riding on the Craft ranch fell with him.

We understand that L. F. Beaver suffered a broken rib and other painful bruises last Monday while plowing on his farm a few miles southwest of Fluvanna. It seems that Mr. Beaver had the lines over his neck and shoulder when a colt ran between the driver and the team, jerking him over violently with the result here indicated.

**Visitors and Visits**  
Several prominent oil men have been in our town and community

recently looking over the situation and attending to business. Among these, as we understand, were Messrs. Guthrie and Oriol of Colorado City, and Hon. (ex-governor) J. C. Walton, of Oklahoma, who were here Monday.

Rev. M. S. Axtell, pastor of the First Presbyterian Church of Scottsbluff, Nebraska, was here Monday in the interest of the \$15,000,000 Ministers Pension Fund now being raised by the Presbyterian Church in the United States. Mr. Axtell was a noon guest in the V. P. home.

J. C. Garrett and family of Cross Plains spent last Friday night with Rev. and Mrs. Tate of this place.

John A. Stavely and family visited relatives in Southland last Sunday.

Mrs. A. Y. Flicher and children of Ferris, Texas, spent the week end here visiting the H. H. Haynes family.

D. T. Whatley and family of Wichita Falls were here the latter part of last week on business.

Mrs. H. Lanham and Miss Fay

Mears are visiting at Kress this week.

Miss Nealy Squyres of Clairmont spent the week end here with home folks.

Mrs. W. P. Sims is visiting relatives in Lamesa this week.

Mrs. J. R. Patterson and Mrs. Will Clawson and children visited in Hemleigh Sunday.

Frank Coleman has gone to the harvest fields on the plains.

Mr. and Mrs. Joe Strayhorn and daughter, Miss Lucile, and Joe Bartlett Strayhorn of Rotan, and Miss Mary Lynn Nation left Wednesday for Waxahachie to bring Miss Dorothy Strayhorn home from Trinity University.

A pretty home wedding was solemnized Sunday morning, May 22, at sunrise at the home of Mr. and Mrs. W. V. Jones, when their daughter, Miss Vera, became the bride of Mr. Charles Starkey of Amarillo. The bride's colors of pink and white were used in attractive decorations for the service, which was marked by beauty and simplicity, and performed by Rev. W. F. Ferguson, pastor of the First Baptist Church of this city.

The bride was unusually lovely in a gown of blue crepe while her going away costume was in the black and white with accessories to match.

Immediately following the ceremony the wedding breakfast was served, with all table appointments being in the chosen colors, where covers were laid for the bride and groom and Misses Ethel Melvin Newton and Mr. T. H. Duff.

### PRETTY DOUBLE CEREMONY TO BE SOLEMNIZED JUNE 2

Interest of Snyder and Slaton society and hosts of friends elsewhere of both the brides and the grooms centers for the coming week in the evening marriage of Thursday, June 2, when Miss Rhoda Martin, daughter of Mrs. W. F. Martin, becomes the bride of Mr. John A. Roberts of Anson, and Miss Lucile Taylor of Slaton becomes the bride of Mr. Floyd Jordan of Matador.

The ceremony is to take place at the First Baptist Church in the presence of scores of friends, with Rev. W. F. Ferguson, pastor of the church, reading the beautiful and impressive double ring ceremony.

A number of parties and entertainments honoring the bride-elect will be given; among those who will entertain are Mesdames C. E. Fish and H. J. Brice, who will compliment Miss Martin with a kitchen shower at the home of Mrs. Brice Thursday afternoon, May 26.

### BRIDE-ELECT HONORED WITH SHOWER

The grade teachers of the Snyder school honored Miss Rhoda Martin, bride-elect, with a miscellaneous shower at the high school Wednesday evening, May 18. A miniature well was erected where the honoree was asked to try her luck at drawing, when upon doing so the wishing well brought forth an abundance of good wishes in the form of daintily tied packages. Miss Joe Hailey, superintendent of the grade teachers, was also asked to draw farther down into the depths of the well, and to her happy surprise found many little well wishes for her in a shower of lovely handkerchiefs.

### FAREWELL PARTY GIVEN AT HOME OF MRS. WILLIAMS

Honoring their Sunday school teacher, Miss Rhoda Martin, with a farewell party and bidding welcome their new teacher, Mrs. Wraymond Sims, the pupils delightfully entertained at the home of Mrs. Wayne Williams Monday evening, May 23. A short business session was held, followed by the social hour in which the honoree was presented with a lovely gift by the class. A delicious ice course was served to a representative number of members and the departmental superintendent, Mrs. W. R. Bell.

### MISS WARE HONORED

Honoring Miss Alma Nell Ware, who is leaving to make her home in Robstown, a number of friends entertained with a slumber party

at the home of Miss Margaret Dell Prim Monday evening, May 23. The early part of the evening slipped by all too quickly and as usual a good midnight lunch was served. Those enjoying the all night chat with the honoree were Misses Vera Nell Grantham, Margaret Dell Prim, Martha Gray and Zilpha Webb.

Members of the ladies' Missionary Auxiliary No. 2 met at the home of Mrs. W. D. Beggs Monday afternoon, May 23, with a very good attendance. The hostess served a very delightful plate luncheon.

### ALTRURIANS MEET WITH MRS. YODER

The last meeting of the Altrurian club for the year was held at the home of Mrs. D. P. Yoder Thursday afternoon, May 19, with Mrs. C. J. Yoder as hostess. The annual reports of the various officers and committees were given, the reports as a whole showing a very profitable year from a financial standpoint, as well as marking a degree of progress in a civic and educational way.

The lesson was on "San Francisco and Alaska," with Mrs. W. W. Wilford as an efficient leader. Mrs. J. W. Leftwich gave an interesting paper on "The Yellow Peril," while Mrs. H. G. Towle gave an appreciated talk on "Alaska," based on facts noted from travel to those parts. The concluding topic of "San Francisco" was turned into a round table discussion, and was made delightful by the personal suggestions of each on the subject.

A very nice plate luncheon was served to Mesdames W. R. Bell, Earl Brown, C. R. Buchanan, Joe Caton, R. H. Curnette, W. W. Hamilton, A. C. Preuit, Lee T. Stinson, J. W. Leftwich, Hugh Boren, H. G.
