Sulphur Springs Trims Talco 4-2 Monday Night

By JACK WINN
Talco Oilers and the Sulphur Springs Eagles played one of the best games of the East Texas Amateur League in Sulphur Springs Monday night. When the final mud was scraped from the cleats the Eagles were the winners by a 4-2 score.

Dub Reeder, a recent Houston Buff, and Robert Abshire tangled in a pitchers' duel, to the delight of several hundred fans. Both pitchers were stingy with hits. Reeder struck out 18 Talco batsmen and Abshire whiffed 9 of the Eagles.

Talco plays Winnsboro Oilers here in Talco tonight (Friday). The same two teams meet here again Tuesday night, then move to Winnsboro Thursday.

More Money for New Wilkinson School Building

Wilkinson voters recently raised the ante on their proposed new school building from \$75,000 to \$100,000.

Previously, they had voted a \$75,000 bond issue to build the new building. Then after talking to the architect, they decided that \$75,000 would not be enough to build the type building they wanted. The architect advised them that it would take \$100,000.

A new election on a \$100,000 bond issue was called and the unofficial count shows that the election carried 24 to 0.

Wm. A. Messer Asst. Co. Agent

William A. Messer, whose former home is Belton, has been assigned to the County Agent's office in Mt. Pleasant as assistant in training to County Agent W. W. Grishman Jr.

Messer, a 1951 graduate of Texas A. & M. College, holds a Bachelor of Science degree in animal husbandry. He plans to make agricultural work his profession.

According to the Extension Service of A. & M., Messer will probably remain in special training in Mt. Pleasant for three to six months, after which he will be given a new assignment as Assistant County Agent somewhere in Texas.

spots. Criss, Beall and Buckman are improving on their hitting. Mac Pittman is letting his early season average slip.

We see where Tommy Parish, son of Talco's former manager, is clouting the ball at a .500 pace in the little league at Odessa to be in third place in hitting in that league. Maybe Talco can entice Tommy to play with the Oilers in a few more seasons. Attendance is on the increase over the league, with the race narrowing down; also plenty of hurb between players and umpires. Fans like to see a winner and also to see the near fights and some real McCoys.

Lee Forrest is going to Amarillo; Dub Reeder to Tyler and Ralph Marshall is reportedly taking over another job and will be unable to play with Sulphur Springs. Johnny Ghileri is back with Gilmer at short stop.

Humble Honors Safety Record With Picnic

To have worked 700,000 man hours over a three-year period without a disabling injury to any employee that kept him from his work one full day, is an outstanding record in any oil field.

That is the record established by the production department of Humble Oil Company employees of the Talco District, and the management staged a celebration in honor of the event on Thursday evening, June 28, with a big barbecue, to which wives and children of employees, supply men and other friends were invited.

There were about 500 present and it was held on the picnic grounds in the camp, with Production Superintendent G. N. Anderson and other executives acting as hosts. There was plenty of good barbecue, pickles, onions, potato chips, baked beans, cold drinks, ice cream, and no speeches.

J. U. Parker, Safety Engineer of Tyler, and Tommie Simons, Division Safety Engineer, whose district includes that of Talco, were enthusiastic about the safety record of the Talco district, when interviewed by The Times. Superintendent Anderson was no less so. He said:

"This unusual safety record can be credited to the acute safety-consciousness on the part of every employee in the Talco district. By working three years without a disabling injury the employees have demonstrated that safety is not only a matter of safe working conditions, good equipment and safety devices, but mostly the safety-consciousness of each man."

Numerous Humble executives and employees from other districts were present to honor the big Humble family at Talco. In addition to those previously mentioned, thru the courtesy of K. O. France, The Times man had the pleasure of meeting C. R. Vardman, assistant division superintendent from Tyler; Harry Pistole, division petroleum engineer from Tyler; Bob Sloan, district superintendent of Hawkins; Hubert Swan, chief clerk at Hawkins; O. L. Furse, district superintendent at Picton; C. P. Hinton, district chief clerk at Picton, and others we didn't have an opportunity to learn initials, locations and titles.

There are 114 men in Humble's production department at Talco. Oil field work has always been considered a hazardous occupation, but they have demonstrated that carelessness and indifference have no place in their work and that team work and safety-

Tax Measure Will Be Voted Saturday In Titus County

Next Saturday property tax-paying voters will go to the polls to decide if Titus County will continue to levy and collect a 30 cent ad valorem tax to be used for better roads and bridges in the rural areas of the county.

Previously this tax had been collected for state purposes, but the people adopted a constitutional amendment which did away with it, so if voters favor the tax in Saturdays election, their tax bill will be the same as it has been in the past.

All homesteads up to \$3,000 have been exempted from this state tax for a great many years, and it will continue to be exempted if voters favor the issue and the county starts collecting it.

The average home-owner, with tax renditions less than \$3,000, never has paid the state ad valorem, and if the county levies the tax he will not be required to pay.

In this, as in all other elections, the voter should study the issues carefully before casting his ballot. In this instance, if he is favorable to better rural roads, he will probably be in favor of the county ad valorem tax, which will bring between \$20,000 and \$25,000 annually into the local road and bridge fund.

Any man who has ever lived off paved roads and highways will be in sympathy with the measure.

Traffic Operating New Section 67

A section of new U. S. Highway 67 from Rockwall to Dallas was opened officially Saturday.

Frank W. Cawthon, State Highway Department district engineer, said the highway sign at Commerce and Lamar in Dallas was changed to direct Highway 67 traffic east of Commerce, Second Avenue, Grand Avenue and Samuell Boulevard to East Pike. Heretofore, Highway 67 traffic has been routed over Pacific, Gaston and Garland Road. Traffic east of Rockwall will use the old route of 67 from its connection with Highway 205 at the square in Rockwall until new 67 is extended further east.

The new highway is a fine two-lane affair, and the narrow, rough 67 from Rockwall to Garland will not be used by thru traffic. Getting away from the stench of Garland's sewer system will also be something.

Rodgers Becomes Executive of New Bank at Sunray

Dick Rodgers has resigned his position as cashier of the Talco State Bank to become vice-president and cashier of the newly-formed Sunray State Bank at Sunray in the Texas Panhandle, north of Dumas. He assumed his new duties on Monday. The new bank has a capital of \$75,000, surplus of \$25,000 and undivided profits of \$12,500.

Mr. Rodgers has been connected with the Talco State Bank for about fifteen years, a portion of that time as cashier. He was serving his second term as mayor of Talco, previous to his resignation. He and Mrs. Rodgers have been active in the social, civic and church life of the community, and have many friends who will regret losing them as Talco citizens. They take with them to their new home the best wishes of the people of this area.

Mr. and Mrs. Clifford Jones and Mr. and Mrs. R. G. Hood and sons are spending their vacation at Carlsbad, N. M., and other points.

Auto Drivers Responsibility Bill Signed Into Law by Governor

A new drivers license law, signed last week by the governor is calculated to reduce accidents by about 25 per cent. It becomes effective Jan. 1, and is calculated to make more careful drivers.

Its aim is to take from the highways drivers who are not financially responsible for accidents they cause. It is a safety measure tied closely with another act of the Legislature.

The other act requires an annual mechanical inspection of motor vehicles and a certificate as to their fitness before licenses can be issued. It becomes effective Sept. 7, 1951.

It is not a compulsory insurance law. But in time most motorists will get around to buying public liability and property damage insurance as the easiest and cheapest way of complying with it.

About 450,000 cars, or 15 per cent of Texas' motorists, now are covered by that kind of insurance. Insurance experts figure not more than 25 per cent will have insurance policies in force at the end of the first year of the new law.

The cost? Currently a policy for \$5,000 public liability covering injury of one person and \$10,000 for two persons plus \$5,000 property damage costs an average of \$27. It varies in localities.

Those are the amounts of liability one must prove he is able to pay if he has an accident causing \$100 property damage or injury to a person. But Mr. Motorist is not required to have either insurance or prove financial responsibility before he has an accident.

What happens to a driver after he causes an accident and is found at fault?

The Safety Department will enter an order suspending his license to drive and his right to have a registration tag on his car. After a court decides the damages, he must pay.

How many Texas drivers are going to have accidents and have to act under this new law?

Department of Public Safety officials estimate there will be 250,000 accidents next year, involving one or more cars. About 45 per cent of the drivers will be insured, the others not insured.

**Dallas Teen-Agers Land in Jail
Following Auto-Stealing Spree**

A car-stealing escapade by
three Dallas teen-agers ended
with their arrest in McCurtain
County, Okla.

The youths, two fifteen and
the other sixteen, were jailed in
Dallas just three days—and five
cars—later after they left on their
spree.

Highway patrolmen said the
youths admitted stealing a car in
Dallas Tuesday and driving to
near Paris.

At Paris, the first car was aban-
doned and another stolen and
driven to Beavers Bend State
Park, northeast of Broken Bow,
Okla., where some shoes and \$3
in money were taken from park-
ed cars at a bathing beach.

The trio drove a mile north of
the park, where the car was aban-
doned in a ditch. The youths
spent Wednesday in the football
stadium at Idabel, Okla., and
then stole a car at Idabel and re-
turned Thursday to Paris.

This car developed a flat so
the trio picked up a fourth in
Paris and crossed into Oklahoma
again, driving to Fort Towson.

One of the 15-year-olds left the
car at Fort Towson and stole a
car himself. He was arrested
later on U. S. 70 between Idabel
and Fort Towson.

The two other youths in the
fourth car escaped by taking to
a side road, but they were cap-
tured shortly afterward in Ida-
bel.

**Good Rain Falls
Sunday-Monday**

Rain totaling 1½ inches fell in
this section Sunday and Monday.
In other localities precipitation
was heavier. A cool wave accom-
panied the rain and temperatures
were at a comfortable degree
Sunday night.

The rain was fine on corn, gar-
dens and feed crops. Cotton was
in no immediate need of the mois-
ture. Continued rains during
June caused much foulness.
Farmers have had many hands in
fields in an effort to clean crops
of weeds and grasses. Most farm-
ers have poisoned cotton several
times prior to the rains.

July is still the month to make
application for school transfers.
The school laws governing the
transfer of scholastics have not
changed in the last several years.
The parents who wish to send
their children to a school other
than in the home district should
make application for a transfer
at the County Superintendent's
Office before the first of August.
This is true regardless of whether
or not the child's grade is
taught in the home district.

Colonial America relied on men riding

When national defense increases the

Alcorn Wants Somebody to Come Out In Favor of Rate Increase for Him

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, has joined the general trend, his letter this week reveals.

Dear Editor: For a long time now in nearly every paper I pick up out here I've been noticing that practically everybody these days is asking for a rate increase. The telephone company, the light company, the gas company, the water company, the government tax experts, children's allowances, barbers, tailor shops, coal miners, clerks, soda skeets, district judges, policemen, congressmen . . . everybody at one time or another has been asking for an increase.

Now I have always been in favor of everybody making as much as they can, never did like to see how cheap I could work, in fact had rather sit around doing nothing

than work at a rate which wouldn't return me at least 8 per cent on my investment, and I got my investment figured pretty high, same as a lot of other folks, but I have been reading and reading and I haven't found anybody who's demanding a rate increase for me.

All I can see is a big howl for a rate reduction for farmers, with this fellow DeSaille rolling back the price on cattle every time he's interviewed in Washington, even if his rollbacks do have a hard time finding their way on to the meat counter. I know cotton is selling for a pretty good price now, but ain't nobody much got any cotton to sell now. Wait until the stuff really starts flowing to the gin. If this year is anything like most years, us farmers will be in for a rate reduction, as sure as cotton is high at planting time and low at picking time, as sure as politicians reduce taxes while they're running and raise em when they get safely in.

Now I know a few stores in New York have cut the price on electric razors and aspirin tablets and a few similar items, but it ain't lowered the cost of living out here a bit. They could cut the price of locomotives half in two and it wouldn't affect me none. I got very little use for a locomotive at any price.

I ain't given up yet, I'm gonna keep on reading, but I'm still looking for some bird who has come out for a rate increase for me, but as far as I can tell I fall just as shy of making ends meet now as I did then.

Yours faithfully, A. A.

JOHNTOWN

By MRS. G. A. VAUGHAN

Visitors in the home of Mrs. W. J. Hawkins included Mr. and Mrs. W. P. Hood of Lorenzo, Mr. and Mrs. W. H. Dryden and two children, Mary and Charles of Cisco.

Mrs. Reba Cecil of Greenville, spent the week end with her parents, Mr. and Mrs. Tom Pirtle. Mrs. Maggie Hamilton and Mrs. Minnie Carroll of Bogata, visited Mrs. Nannie Pirtle Wednesday.

Mrs. John Blankenship and daughter, Jean, and Mrs. Willie Wilson visited Mrs. T. A. York Thursday.

The annual all day singing held July 1 at the Baptist Church was enjoyed. The heavy rain which began falling about 1 p. m. and continued throughout the afternoon, limited the crowd to "house full," but if the electric power hadn't failed, there would have been little inconvenience. The leaks in the roof being so evident, may prove a convenience—a new roof.

Mr. and Mrs. E. F. Stogner of Mt. Pleasant, were guests Sunday of Mr. and Mrs. Jim Hervey and attended the all-day singing.

Mr. and Mrs. John Moore and children of Clarksville, visited Sunday with her parents, Mr. and Mrs. B. Chesshir.

Simm Edd Dodd of U. S. Army, arrived Monday for a visit with his parents, Mr. and Mrs. W. N. Dodd.

Mr. and Mrs. E. J. Stansbury and children of Houston, were week end visitors of her parents, Mr. and Mrs. W. A. Cotten.

Mr. and Mrs. E. V. Price and children of Hawley, are visiting relatives here, and being former residents, planned their vacation so they could attend the annual all-day singing July 1.

Twyman Pirtle of U. S. Air Force of Ft. Worth, was home the past week end, visiting his mother, Mrs. Katie Pirtle, and other relatives.

Mr. and Mrs. B. Chesshir and grandson, Joe Canady, visited Sunday in the home of a daughter, Mrs. Roy Prater at Rugby.

Mr. and Mrs. Claud Kennedy and son, Lonnie, visited Mr. and Mrs. Jim Pirtle Monday.

Mrs. M. J. Dodd and children and three sons of Mr. and Mrs. W. D. Stringfellow of El Campo, are visiting Mrs. T. A. York and other relatives here. Word has been received since their arrival that W. L. Stringfellow had been in an accident and was a patient in the hospital there.

Earl Hawkins Jr. and Lynn Vaughan, who visited the past week in the M. H. Dryden home at Cisco, returned home Friday night.

Mr. and Mrs. Carl Jones of Commerce, spent the week end with her parents, Mr. and Mrs. J. E. Black.

JACK BROWN SPEAKS TO SENIOR FELLOWSHIP

Jack Brown, one of the sponsors of the Senior Youth Fellowship at the Methodist Church, spoke to the group Sunday evening on the topic, "The Christian Way—the Natural Way."

A contest is beginning this next Sunday between the girls and boys of the Fellowship. Winners receive an entertainment at the expense of the losers. Contest will continue through the month of July. The pastor, Rev. John Dvorak, will speak to the Senior Fellowship Sunday night, July 8.

Claud Parr II, student at Denton, spent the week end with his parents, Mr. and Mrs. Claud Parr.

Specialist Talks About Tomatoes And Low Prices

By J. F. ROSBOROUGH,

Horticultural Marketing Specialist, Texas A. & M. College

The tomato deal for Southeast Texas counties is slowing down. Growers and shippers feel that most of the tomatoes moving from the south end of the East Texas territory will wind up this week. At a price of two cents per pound for green wraps, growers are discouraged in applying any effort to the current crop. The canneries at Jacksonville, Timpson, Troup and Athens should be well supplied with tomatoes for the next ten days. Canning tomatoes are bringing one and one-half cents per pound.

Northeast Texas, involving Lamar, Red River, Bowie and surrounding counties will move a large volume of top quality tomatoes for the next week. At the same time, tomatoes from the Monticello, Ark., area will begin to move.

In summing up the opinion of growers and shippers for the current East Texas tomato deal, it would appear that current prices have not shown profits for growers. At the beginning of the season, it was the opinion of many that a lack of maturity of East Texas tomato shipments had definitely influenced prices. Others stated that tomato shipments during periods of rainfall caused heavy losses in Eastern markets. Still others claimed that fertilizers using too much nitrogen cause the tomatoes to break down.

This season tomatoes moving from all East Texas areas had adequate maturity on the vine, were fertilized properly and packed properly in most East Texas packing sheds. Prices were the lowest experienced in many years. It would seem that the major causes for influencing prices is the law of supply and demand. If East Texas growers will produce only 2500 cars of tomatoes in 1952, it is my opinion

that prices will be higher. There will be competitive buying which is a healthy situation in any market. It has not existed this year. A cut of fifty to sixty per cent of the acreage for next year may be helpful in bringing higher prices.

ATTENTION

FARMERS, RANCHERS, AND DAIRYMEN

We need an unlimited amount of burlap bags. Now is the time to sell, as the market and demand is very good. And remember, your holey bags that are mendable bring No. 1 prices when sold to us. We are also dealers in wool. We will shear your sheep and buy the wool on the spot at highest market prices. See us now for your wool bags and fleece twine.
