WHEN SENTENCED TO PRISON

Mental Examination Mentioned by Leach

David W. Leach went back to jail Friday in a different fashion than when he left. He hurried along tip-toe like at the urging of Deputy Sheriff Mardell Sheppard. The urging was felt from the force of deputy's strong hands—one grabbing the seat of the prisoner's pants, the other clamping his belt.

Sheppard hustled Leach back to jail from 32nd District Courtroom immediately after Judge A. S. Mauzey formally sentenced the captured escapee to a year in prison. A jury had determined Leach's guilt to illegal possession of a pistol Monday night and was preparing to return

to the courtroom when the defendant walked away. And of officers didn't catch up with him again until 10:45, Saturday morning at Pecos.

Before pronouncing sentence Friday morning, Judge Mauzey asked the prisoner if he had any comment.

"I sure do, judge," Leach quickly replied.

"Then, he said, he would like for a 'couple of doctors' to examine him.

Leach referred to a psychiatric examination and declared that he believes he (Leach) needed the exam.

The prisoner, since his capture, had mentioned to others the possibility of study of his mental condition.

Although receiving the 1-year sentence Friday, Leach still faces another felony court trial on the charge of destroying property—for the damage caused recently to the cell in which he and Charles Reed were held.

Defense counsel in this second case could ask for a separate hearing on the question of Leach's sanity or base the defense on a mental condition if the situation appeared to merit such action.

However, there has been some indication that the next trial for Leach may be moved to another county because of the publicity attached locally to the prisoner's escape from the courtroom Monday night.

Leach, who was returned to Colorado City Thursday afternoon following his capture at a Pecos roadblock, told officers how he sneaked through

Attend Church... You're the One Who Will Be Blessed

so loved the men of this world that He gave to them to express that love His only Son. So unflinching and complete was that love that He suffered the pain of their rejection and even allowed them to take him as a common prisoner, try him as a criminal and execute him on a cross. Even this series of acts did not stop His love for He made the very cross a symbol of the eternal presence of His Love. To this day and to eternity, whoever will open his eyes to the magnificence of God's love laid open and made forever present in the event of the cross will receive as a permanent gift - the land of beginning again. A new life will be his.

Is something wrong with your life - an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and restore. Through the church God has committed the provisions and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. *Everyone should be in the church and the church in everyone.*

BY 1949 STUDY CLUB MEMBERS

Final Plans Made for Annual Pilgrimage of Homes Monday

Final plans for the 1949 Study Club's annual pilgrimage of homes Monday night were made by club members when they met in the home of Mrs. Frank Kelley Thursday.

Homes for the 1949 Study Club's Pilgrimage Monday night from 7 until 9:30 p. m. will be Mr. and Mrs. H. G. Andrews, 1441 Dallas St.; Mr. and Mrs. Jay Adams, 745 East 15th St.; Mr. and Mrs. Jay Craddock Jr., 1441 Walnut St.; Mrs. Bryan Porter, 905 Walnut St.; and Mr. and Mrs. John Turner, 735 East 16th St.

Newly elected officers took charge of the meeting. The new officers are Mrs. Dwayne Feaster, president; Mrs. Max Caddell, vice president; Mrs. Bill Holbert, recording secretary; Mrs. Austin McClell, corresponding secretary; Mrs. Jack Jordan Jr., parliamentarian and Mrs. Willie Landau, historian and librarian.

Guest speaker for the day was Mrs. Juanita Umberson of Snyder.

Mrs. Umberson related to the group the importance of wood in the home of today. "The trend for 1960 is complete freedom with the key note of 'return to elegance,'" Mrs. Umberson said.

The speaker suggested the new shades of citron yellow and green among the French provincial furniture.

"Italian Provincial is becoming increasingly popular because the pieces of the furniture are softer and appeal to people with a taste for modern furniture," she said.

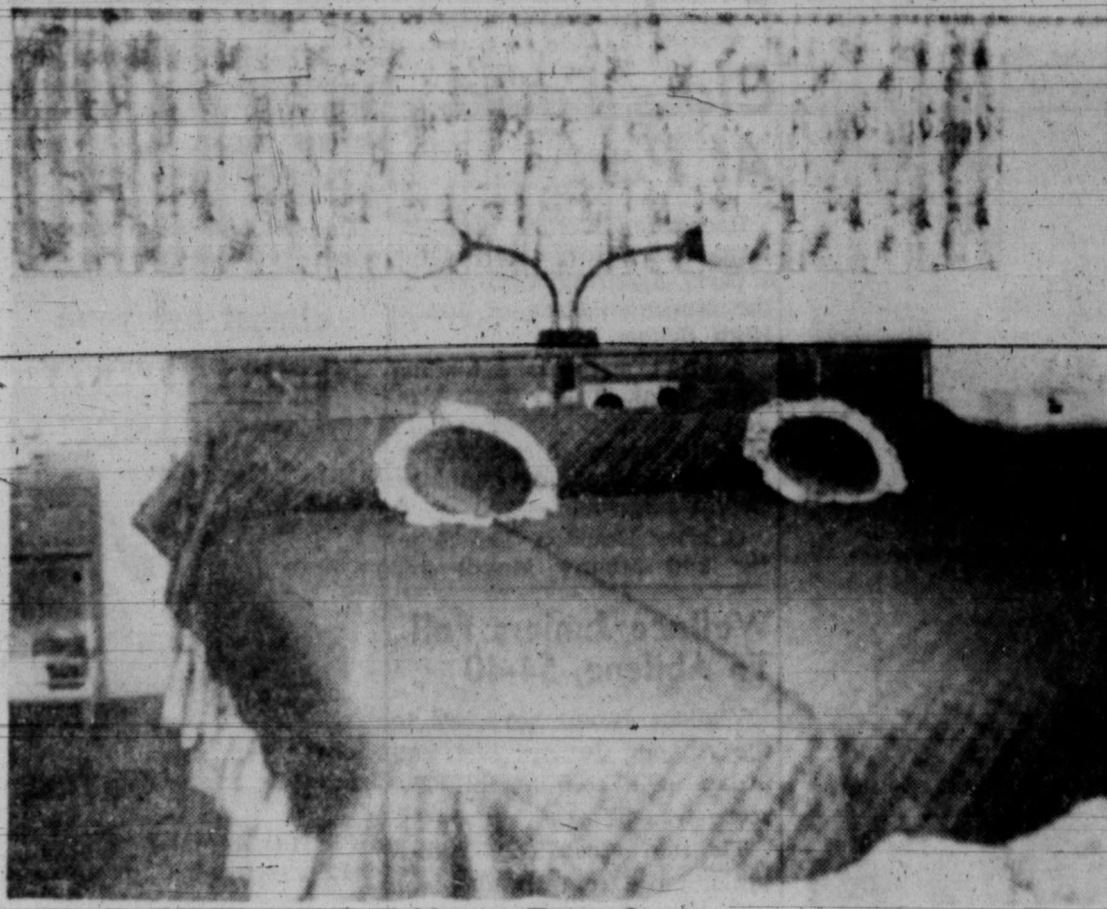

Mrs. Umberson also told about the new trends in Early American and how your room can be made more interesting by using a different wood, or a present piece, but accent it with a color of red or buff.

"The 1960 pace-setter," she said, "is to follow a design and color throughout your home to make it more effective."

The speaker stated that the new trend in color is electric blue and green along with your original basic colors.

She pointed out that a basic color scheme and a blend of colors will add drama and excitement to your home with just enough color contrast to make things smooth.

"Draperies," she said, "are throwers and Mrs. Kelley."

The home of Mr. and Mrs. John Turner will be one of the featured points of the 1949 Study Club's annual pilgrimage of homes Monday night. Here is pictured one of the fashionable bedrooms in the brick residence.

Featured on the program was Mrs. Bill Everett.

"Which one of us is not stirred by the many romantic episodes, colorful incidents and stories of real heroism which are part of our heritage as Texans?"

"We can look behind the well-known facts in the history books," she said, "to other happenings no less important despite their obscurity—past those famous names like Crockett and Bowie to other unsung heroes of the faith whose courage in the face of religious tyranny and wild savagery was just as stirring as the courage displayed by our heroes at the Texas Revolution."

Mrs. Everett stated that before the coming of Stephen Austin to Texas in 1821, only 1 or 2 Methodist ministers and one Baptist had invaded the territory occupied by the few bold Anglo-American settlers who drifted eastward from Louisiana.

The Baptist minister, she said, was a friend to Moses Austin.

"Sick and disconsolate, he was returning from San Antonio to await news of his son Stephen's success in securing the first 300 colonists, but died before seeing his dream fulfilled," she stated.

Thomas J. Pilgrim, a young Texas teacher, contributed to the organization of the first Sunday School in Texas, she emphasized.

"These pioneers had many hardships in their religious work, but their worst enemy was the Indians of that time," she said.

The speaker stressed that in spite of the many troubles by 1836 there were 31 ministers in Texas.

"We need to be proud and grateful for the fine Christian heritage that our forefathers fought for so many years ago," she continued. "Had it not been for them and their bravery we might not know the true meaning of Christian freedom as we do today."

"And we need to be very grateful for the privilege of freedom of religion in Texas," Mrs. Everett concluded.

Members attending were Mrs. Brooks Teague, Mrs. R. M. Reed, Mrs. S. Crabtree, Mrs. Everett, Mrs. A. H. Jackson, Mrs. P. H. Pace, Mrs. Winifred Fox, Mrs. Sam Bullock, Mrs. Arlene Morris, Mrs. Newt Miller, Mrs. Wayne

JAYCEES THURSDAY NIGHT

Nation's Defense Discussed by Club

Strong and weak points of our nation's defense were explained to the Jaycees and guests Thursday night in the Civic House.

Lt. Richard Jackson of the 68th Aircraft Control and Warning Squadron of the Sweetwater Air Force Base was guest speaker.

To describe his talk to its fullest point, he used color slides.

There are approximately 20 radar stations in Texas, he reported, and the purpose of these stations is to detect unidentified aircraft.

"The nation's weak point of defense is over the Mexican border because of the lack of co-operation from the Mexican government," he said.

The speaker stated that the fastest and shortest route of attack from the Soviet Union would be over the North Pole. It would only take a matter of hours for enemy aircraft to reach our soil and, perhaps, even destroy some of our large cities.

"One of the newest United States weapons, he said, is the side winder missile. This sidewinder can be fired from an aircraft to seek out and destroy enemy aircraft by the attraction of heat.

HESPERIAN DAUGHTERS CLUB

Mrs. Jack Selcraig Presents Book Review to Study Club

A book review, Moss Hart's "Act 1" was presented by Mrs. Jack Selcraig to the Hesperian Daughters Study Club when they met in the home of Mrs. Laurence Rudd Friday night.

"Moss Hart and the American Theater of the last 25 years seem to be synonymous," stated Mrs. Selcraig.

"Alone and with George S. Kaufman, he has written some of its most successful plays and with scores provided by Irving Berlin, Cole Porter, Kurt Weill and Ira Gershwin, some of its memorable musicals," she said.

She stated that his "Lady in the Dark" starring the late Gertrude Lawrence remains on the musical theatre's most cherished memories; "You Can't Take It With You" and "The Man Who Came to Dinner" written with George Kaufman are still 2 of the highlights of American stage comedies.

"Mr. Hart is the director of his own plays and musicals, as well as the works of others, his latest directorial effort being the now legendary, 'My Fair Lady,' she said.

"He is married to Kitty Carlisle, actress and television star and is the father of two children, aged eleven and 8.

Westbrook Girls Tie For Championship

Westbrook girls basketball team lost its Friday night game to Ira, 47-57. This result leaves Westbrook and Ira tied for District 16-B girls basketball championship.

Last week, Westbrook defeated Ira by one point, 38-37 to take a lead in the playoffs, but Friday night's game gave Ira a victory and tied the two teams for district championship.

Third game of the series has not been set but will probably be in Snyder next Thursday or Friday.

Linda McMahan of Westbrook took scoring honors in Friday night's game by meshing 34 points. On the other side of the score board, Lena Farmer was the big wheel with 28 points.

Better Times ... for You

No other word starts out so many hard luck stories. No other word explains so many failures. Yet it's the backward-looking word which crystallizes our experience ... and, when used as a guide, enables us to look forward with more wisdom.

For example, we might say "IF every dollar of local money that has been needlessly spent outside of this trade area in past years had been spent at home, those of us who live in this community would be far more prosperous, happier, and more secure."

Thus ... as we contemplate what might have been ... IF ... we can make our plans to avoid the errors of the past. We can see more clearly

how a dollar here and a dollar there, saved from dribbling away into some other economic stream, will soon add up to brighter and more prosperous times ... for us and our families, our friends and our neighbors

15 TO BE ON STAFF

Berman Leads Census Crew

H. I. Berman, civic leader and retired merchant, will serve as crew leader for the 1960 U. S. Census in Mitchell County.

Appointment of Berman was announced Saturday by Earl E. Kerr, census supervisor for the Lubbock District, which includes Mitchell.

Berman will be in charge of recruiting, training and supervising of the census staff which will operate in this county.

His staff will include 14

enumerators and 1 field reviewer, according to Kerr.

Selection of the staff is still in progress, according to Berman, and enumerators are still needed in several areas of the county.

"Preliminary plans are for 7 enumerators in Colorado City area, 1 in Lorraine, 1 in Westbrook and the area south of Westbrook, 1 each in five other areas—northwest part of the county, northeast part of the county, area south of Colorado City, and southeast of the county.

Berman will be in Lubbock March 7 with other crew leaders of the district for induction and preparatory training.

Training of the county crew will follow later in March. Berman, who retired more than a year ago from retail business here, is past president of Chamber of Commerce and currently is lieutenant-governor for Kiwanis Division 22.

FOR SPECIAL TRAINING

Low-Level Jet Flights To 'Swoosh' Our Area

Don't get excited if an Air Force jet swooshes low across the flat landscape as it tries to see how close it can fly to the ground.

It's all in a vital defense training plan and the Colorado City area is right smack in line with the flight plan.

That is the word from Webb Air Force Base, which operates an auxiliary jet landing strip northwest of Colorado City in Mitchell County.

Training jets are observed almost daily at the auxiliary strip practicing emergency landings and other routines in comparatively slow speed. But this new swoosh, if you happened to see or hear it, will be different—low flying flight plans rigidly controlled to bypass cities and towns and avoid interference with users of the airspace.

The aircraft on these special low flights are supersonic F-100 Super Sabres from Cannon Air Force Base, Clovis, N. M.

S. S. Class Votes to Buy Shade Trees

Westbrook — Ruth Sunday school class of First Baptist Church voted Tuesday to buy shade trees for the lawn of the church parsonage. A committee of three has been appointed to carry out the project. They are Mrs. Rex McKenney, Mrs. Junior Smith and Mrs. Alvin Clemmer.

The project was decided upon during the regular monthly meeting of the class in the home of Mrs. T. E. Lewis.

Devotion for the meeting was by Mrs. W. T. Brooks, teacher of the class. She has had her talk on love and used the 13th chapter of Corinthians as her reference. Prayer by Mrs. Herman Parsons ended the devotion period.

Secret pal gifts were exchanged at the meeting. Next meeting is to be hosted by Mrs. Charles Ranne and Mrs. Keith Williamson on March 15.

Refreshments were served to those attending. Misses W. A. Bell, Ira B. Richmond, Barbara McCartney, Donald Taylor, Parsons, Brooks, H. E. Sullivan, Royce Moore, Don Henderson, Smith and Lewis.

Webb Air Force public information office informed the Record that the Air Force is seeking to inform civilian flyers, airport officials and general public that these low-level navigational missions are being scheduled as a necessary training plan.

Here's what Webb's public information office tells Mitchell County residents about the flights:

The low-level, high-speed attack has two primary advantages in combat. First, it is difficult, if not impossible, for radar to acquire low-flying, high-speed targets in sufficient time to prevent attack. Second, it provides a method of precisely navigating to a given target under minimum weather ceilings with a limited all-weather capable aircraft. Precision low-level techniques at 500 knots allow no margin for error. These techniques must be practiced on a continuing basis if the required level of proficiency is to be maintained.

The pilots of the F-100 tactical fighter aircraft must do a tremendous amount of flying to maintain the high level of combat skill required for their immediate alert mission. These pilots and aircraft have been needed on extremely short notice in the past. Combat units have been deployed from Cannon AFB to the Far East and Europe 10 times in the last two years, most notably to Formosa during the crisis in the autumn of 1958.

Four training routes have been selected, all chosen to provide the best possible margin of safety and avoid heavily populated areas. The one

nearest the Big Spring area runs eastward between Loveland and Brownfield, south of Tahoka on a line toward Colorado City, turning north east between Big Spring and Snyder, and passing out of the area on a line west of Snyder, Spur, and Dickens. One of the other routes comes south to a point just west of Littlefield and then veers southwest alongside Morton, across the state line, and away past Tatum, N. M.
