Flood Water Loss Runs Into Millions

Reparations Conference Makes Full Settlement In Paris

GERMANY TO PAY BIG SUM

Negotiation Between Two Powers To Continue

PARIS, June 1. (UP)—Germany and Allied creditor parties after nearly four months of negotiations today reached complete agreement on all points involved in settling the huge post war reparations problems.

Thomas Lamont, American delegate, announced that the principal question, that of the Belgian franc claim against Germany, would be left for direct negotiations between Berlin and Brussels.

Money will be paid on the installment plan. Within the next 59 years Germany will pay an average of \$488,000,000 annually as her penalty for the World War.

MARKS FLOOD BELGIUM
PARIS, June 1. (AP)—Reparations experts came to full accord on the reparations settlement today with exception of the troublesome question of remuneration to Belgium for German marks left in that country by German armies of occupation.

CMTC BOYS WRITE APPRECIATION OF TRAINING CAMPS

Major General William Lassiter, 8th Corps Area Commander announced today through The Reporter-Telegram that six young men in the 8th Corps Area who attend Citizens' Military Training Camps this summer will be awarded baseballs and bats autographed by Babe Ruth, "King of Swat."

Each year since 1924 the Louisville Slugger Company, makers of the famous "Louisville Slugger" bat, has donated baseballs and bats to be presented to the outstanding athlete at each C. M. T. Camp held throughout the country. Fifty one such awards, one at each camp, will be presented this year.

One boy in each of the six camps to be held in the Eighth Corps Area this summer will receive this coveted prize. Keen competition among the 2000 boys enrolled for this summer's training is anticipated. Choice of the winner at each (Continued on Page 6)

DOES YOUR CHILD LIKE TO BE INTERVIEWED?

The Reporter-Telegram will begin a series of interviews thought to be the first of their kind ever handled by the press.

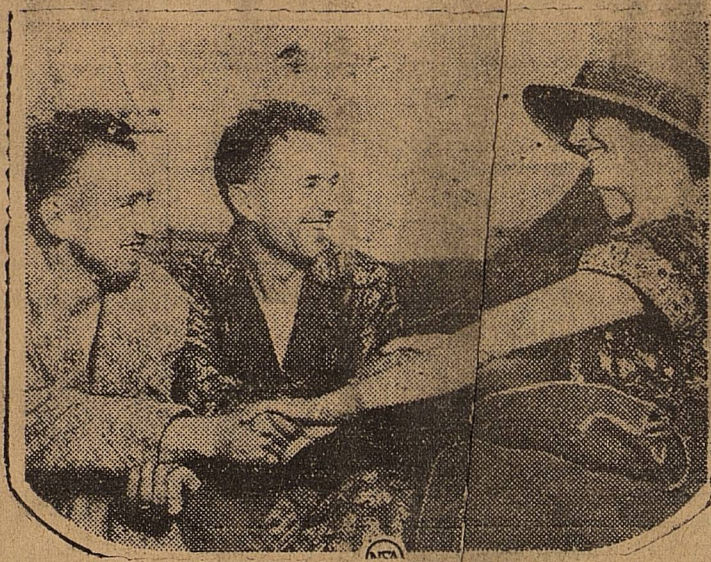

Children of the age just below school classification will be interviewed by a staff writer and their statements published on the front page under their pictures.

One interview a day will be printed. Mothers who are interested in giving the child something he will be glad some day to look back over are asked to get in touch with the city desk of The Reporter-Telegram for additional information.

Boys and girls alike will be interviewed. Subjects such as dolls, pets, nursery stories, games, dresses, playgrounds, etc., will be handled. Anything the child says by way of showing individual characteristics will be published—and in the manner spoken.

Call the city desk at once. The interviews will begin immediately. Cuts will have to be ordered. Then the stories will begin running daily.

Before Lady Heath Flew Midland

Above are seen Lady Heath, noted English woman flyer, and Reg Robbins and Jim Kelly, endurance flyers of Ryan monoplane "Foil Worth" which broke the sustained flying record of the army plane "Question Mark." Lady Heath took off soon after picture was made, for Midland, where she refueled her tiny Avia plane and again took the air, after first asking Field-Manager Beche to call Pecos for a ham sandwich to be ready for her there.

Dramatic Suicide For Maniacal k-War Vet

CHICAGO, June 1. (UP)—The dramatic suicide before a speeding Northwestern passenger train today ended the drink rampage of Ferdinand Preuss who killed two policemen and a merchant and severely wounded three others late last night while defending himself against capture.

County Farmer Asked by Letter Of Experiments

Noah Kennimore, Midland county farmer who has had profitable results from his employment of mulch paper in raising truck vegetables, is receiving letters each day regarding his experiments.

A typical letter was that received Saturday morning from W. S. Shipp, attorney of Belton, who said: "I notice from the papers a write-up of the success with which you have had in using paper mulch, rather mulch paper in gardening."

"I have been interested in this matter for several years and have urged a number of my farmer friends to use it, but have not, as yet, succeeded. You know some farmers are slow to take hold of any new idea or project."

"We have, in and around Belton, quite an acreage devoted to berries and gardening, and much of the berry acreage is in the sandy soils, and the result is that it dries out too soon. Whenever we do have a real good crop the berries are filled with small sandy grit and this, of course, effects the sale."

"I have used mulch paper, in and around rose bushes and other plants with marked success as it does, as is stated in the write-ups of your place, preserve an even temperature, and above all things conserves the moisture."

"The cost of \$50.00 per acre for mulch paper is small as compared with the returns because of this paper."

"I would be glad to have you write me the name of the concern and address from which you secure this mulch paper, and for which information I beg to thank you in advance."

"You are doing a real service to humanity and I trust that your rewards here will be greater than you can even hope for."

Merchants Are Making Plans For Decoration

More than 95 per cent of the citizens will have their Julood time. This meeting was planned to be held on the roof of Texas Flag and Scenic company, but due to the fact that it would interfere somewhat with construction arrangements at present, and that the committee wanted to hold the meeting as early as possible, it was decided not to wait.

HE MIGHT HAVE DRIVEN
LOWELL, Mass., June 1. (UP)—While sitting in his parked automobile, the engine of which was not running, Michael Lewdon was arrested on a drunken driving charge. In court, he was given a two months' jail sentence.

SUMMER SCHOOL OPENS MONDAY AT HI SCHOOL

Summer school will open at the high school Monday morning. The grammar school grades will be in charge of Miss Annie Frank Stout, and additional teachers will be available if the demand for high school work should arise.

The term will consist of six weeks of work, and a high school student will be permitted to attempt one new course or two courses that he has had in that time. Grade pupils will be permitted to attempt one-half grade only. Pupils in the high school who have failed to make all their courses, will be permitted to attempt two of those courses in summer school, and those who desire to make a new course will be permitted to attempt only one for this summer term.

Classes will be conducted each forenoon in the high school building, probably for six days each week. In the event only five days are used, it will become necessary for the school to continue for one additional week.

Superintendent Lackey will be in his office to confer with those who may desire advice or instruction as to their courses, and to approve the various schedules. All students who are planning to attend the summer school are advised to report at the high school building Monday.

MRS. WILLEBRANDT FLIES OVER CITY; WIRES C. C. HERE

Mrs. Mabel Walker Willebrandt, assistant United States Attorney General, said she was at least "glad to see your city from the air today," when she telegraphed the Midland Chamber of Commerce Saturday she could not make an address in Midland due to the necessity of her returning to Washington soon.

The famous woman prosecutor flew over Midland Saturday enroute to El Paso and undoubtedly gave more than perfunctory attention to Midland, as she had been cordially urged by the Midland Chamber to stop here to make a speech, a letter having been mailed her from Midland early in the week.

MOVE HERE FOR QUARTERS IN NEW OFFICE BUILDING

The Shell Oil company was expected to move its offices to Midland Saturday where it will have space in the 12-story Petroleum building, it was learned at noon Saturday.

Maps were being hung by a representative of a Tulsa map concern for the Barnsdall Oil company, which has moved its general office here from Cisco. Furniture had already been brought here from the old office.

Postal Telegraph was to move into its quarters during the afternoon. A call to the office of T. S. Hogan, owner of the building, revealed that many families are expected to arrive in Midland during the next few weeks, during which time major oil companies will begin the move into the building.

German Guns and Other Equipment Received Here

War relics picked up on the field during the stirring days of '18 have been received by the Woods W. Lynch post of the American Legion. These will be exhibited in some place later to be decided.

The relics consist of machine guns, Mauser rifles, bayonets, trench tools, medicine kits, insignias, belt buckles, a helmet, and various other equipment.

One of the most interesting machines exhibited, possibly, is the belt loading hopper for machine guns. The equipment was sent to the local post by the state post for work done in a membership campaign last year, during which Midland had the second best record of the state.

PRATT PRAISES DALLAS FOR ITS ENTERTAINMENT

An account of the most successful Rotary International ever held was given of the Dallas meeting by W. I. Pratt, one of the Midland Rotarians who returned here Saturday.

Pratt called attention to several features of the meeting, among them the change in methods of resolving problems concerning groups of like size; entertainment features; the versatility of Dallas' reception; and the great attendance of Rotarians from the U. S. and overseas countries.

"We studied the different phases of Rotary," Pratt said. "The aims and objects were taken up under community, club and international service."

Pratt gave Dallas the honor of having shown that the city knows entertainment and how to entertain its guests. He cited particularly pageants for ladies, teas, tournaments, concerts, and a great carnival night at Fair park, at which ever concession available was thrown open to free usage of the Rotarians and their guests.

"Rotary has grown," Pratt said. "There were representatives from 52 countries present at the meeting. More than 140,000 members now belong to the international organization. Many of those present attended in their exotic clothes, making for a colorful gathering. More than 9,000 members were at the convention."

Pratt spoke of the entertainment provided by a 100-piece band from Memphis, the Simmons Cowboys, and the Lutch Stark boys from Orange. An orchestra composed of Amarillo Rotarians was also featured.

CRANE SHERIFF IS DEAD IN LUMBER TRUCK SMASH-UP

WINK, June 1. (AP)—Jack Allen, known throughout the state as a peace officer and sheriff of Crane county, was killed last night when the car he was driving crashed into a truck loaded with lumber.

The cause of the accident is unknown. Midland oil men who arrived on the scene of the accident shortly after it happened, say that a great siver of split lumber was thrust through the body of the dead sheriff, who was well known here to have been unusually efficient and honest in the discharge of his duty.

Kuykendall Has Automobiles Of Four Classes

Addition of the Peerless line of automobiles has given the Jack Kuykendall Motor Company of Midland four attractive price ranges of cars, having already the agency for De Soto, Chrysler built cars.

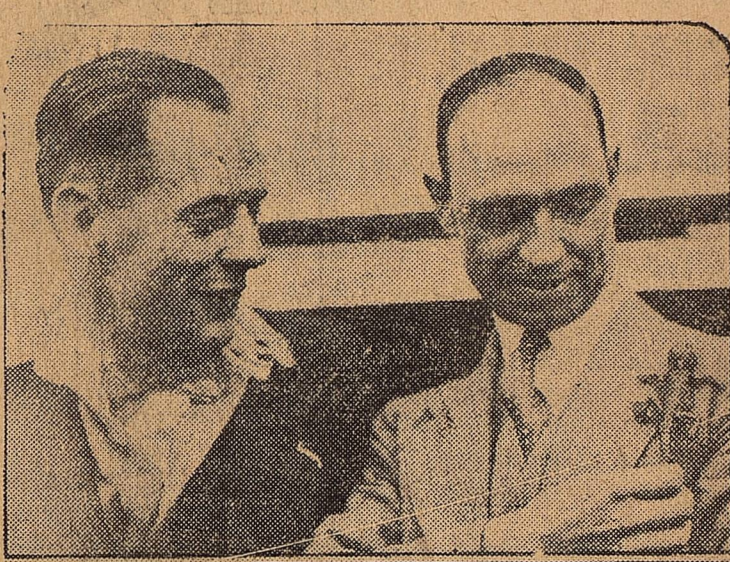

Mr. Kuykendall is now displaying two models of the Peerless Six, the 61 and the 81; and he also sells the Straight 8-125. He has recently delivered a Peerless 6-81 to G. W. Dunaway, and a De Soto sedan to J. A. Throver.

Along with the extensive improvements at the Jack Kuykendall Motor Company, a first class top body and fender shop, in charge of W. A. Smith and wife, experienced in this line, is now being opened up. Mr. Kuykendall says that with their present equipment and some wood work equipment which is being installed, the shop is one of the best in this section.

Banks Close Monday Account Birthday Of Jeff Davis

Banks will be closed Monday for the legal holiday given in commemoration of the birthday of Jefferson Davis, president of the Southern Confederacy. This holiday is celebrated in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, South Carolina, Texas, and Virginia. In Tennessee, the day is called Confederate Memorial Day.

Flyers and Mascot Ready

Awaiting fair flying weather for their projected trans-Atlantic hop to Rome, Capt. Lewis M. Yancey, left, and Roger Williams are pictured above at Old Orchard, Me., the take-off point. That's an iguana on Captain Yancey's shoulder and the tiny reptile has been chosen official mascot of the flight. Below is the monoplane "Green Flash" drawn up on the beach and fueled for the start.

Late Wire Messages Say Nueces Is Rising

Late wire reports from Associated Press say that the Nueces river near Beaumont has broken the record for high flood again and that it is several miles wide in the orange country.

The river is still rising and the highways are completely blocked. Few trains are attempting to run. The crest is due tonight, reports say, but a new raise is expected from Rockland Wednesday.

Industrial plants at Beaumont have closed down, the reports say. Airplanes are humming over the flood waters, trying to give any assistance available to flood sufferers.

Oil field workers at South Liberty are unable to reach a hospital following an explosion, because of high tide.

CHAMBER PLANS WORKED OUT IN MEETING FRIDAY

"The Big Pot will be put in the Little One" at Midland July 3 and 4. These are the words of Dr. J. D. Young, who is co-operating with General Chairman Paul L. Young in arranging the formal opening celebration of the 12-story Hogan Petroleum Office building.

A special train from Fort Worth and Dallas, a barbecue, a speaking program by distinguished Texans, golf, a ball game and a banquet are on the schedule for July 3, as suggested by Dr. Young.

Paul L. Young announces as his tentative July 4 program three band concerts, a speaking program, daylight fireworks, free picture shows for out-of-town women and children of 12 and others who live outside the city limits of Midland, horse racing, a brief rodeo program, night fireworks, ring events, airplane stunts, and a free street dance. Young has already been at work on getting the city decorated.

Reporters Find Work Entailed In Golf Match

Four apostles of Duffer went out to the Country Club Friday for a "few minutes" with the Scotch pastime, and emerged from the jungle rough just before nightfall with an even dozen balls behind them, bear grass cleared before northwoodsmen strokes, and a score which would remind one more of an adding machine contest than of a game.

The foursome was made up of Reporter-Telegram men. High and low scores at the first hole determined the pairing and high low won the match with two up. The lowest score player counted ten strokes on one hole. The next highest made No. 8 with a birdie 3. The lowest score holder won fewer holes than the player with the highest score. In perturbation it was finally decided that golf was for Scotchmen—those men who are sparing of words, especially as concern their own blunders.

(Continued on Page 6)

HOUSTON IS HARDEST HIT

Traffic Is Stopped In Several Parts of The State

HOUSTON, June 1. (AP)—Houston city flood losses were estimated today at high in the millions as the floods receded. The central water plant is paralyzed, making fire hazard imminent.

NUECES OVER BANKS

BEAUMONT, June 1. (UP)—The Nueces river passed the highest level in history today, according to recordings. In places it was more than three miles wide. It began pouring from its banks yesterday. Beaumont is isolated. Traffic has been halted in all directions. Scores of motorists venturing into the orange country yesterday abandoned their cars and returned by freight cars. Hundreds of negroes had to abandon homes and flee to safety.

BRIDGES COVERED

LOOKHART, June 1. (UP)—The flood situation is improved in this section today despite another heavy rain late yesterday. The San Marcos and Guadalupe rivers are receding slowly from the cotton land, covered for a week. Highway traffic between here and Gonzales is cut off, with bridges covered with swiftly flowing water.

DENY DROWNING REPORTS

HOUSTON, June 1. (AP)—Millions of dollars damage lies as the wake of flood waters of Buffalo Bayou. Damage was heaviest to business houses, homes, bridges, roads and camps of this vicinity.

Officers discounted reports of two persons having drowned. The officers say that one of those supposed to have been drowned had been rescued and that no authentic report had been given on the other case.

Highway Markers To Be Erected On City Streets

Markings for State Highway No. 1 and Federal Highway No. 80, which run along the Broadway of America and through Midland, will be placed on Wall street in the business district in order to make the route more convenient for the tourist.

Chamber of commerce officials here took the matter up with District Road Foreman Wilson, who assured them the work would be done within a few days.

Directors of C. C. Meet Monday

Directors of the chamber of commerce will meet Monday night. The July 3-4 committees will be present for reports, and other business will be taken up. The meeting will be open to the public, and all members may make whatever suggestions and proposals they have to offer.

FLAPPER FANNY SAYS:

Women quite often make it plain that they think their rivals are.

NO CAUSE FOR WORRY

People who are afraid that the supreme court's decision in the O'Fallon case may bring about a speedy upward revision of railroad traffic rates are doing a lot of needless worrying.
To be sure, the decision empowers the roads to raise their rates if they wish. But it is a pretty safe bet that it won't be done—except, perhaps, in a few isolated instances.
The heads of our railway systems are shrewd business men. In common with all other American business men, they realize perfectly well that the old custom of charging "all the traffic will bear" is as out of date in modern America as the old-time stage coach. Big profits don't come that way.
For years the railroads have realized that their prosperity lay in giving better service and in instilling greater efficiency and economy into their operations. They have done wonders along these lines. It is a safe bet that the O'Fallon decision will not cause them to abandon this track.

THE NEW CAR

The introduction of a new automobile is no mere formality on the part of the modern automotive engineer. Instead it is the introduction to the public of a product that has already been operated for thousands and thousands of miles and put through tests of every conceivable sort.
When one manufacturer recently came out with a new car, the information was given out that this new automobile had been three years in the making, that more than a score of engines of different designs had been tested to the limit until by process of elimination the one finally decided upon came out the victor, that every little detail in the construction not only of the motor but of the chassis and body were thrashed out thoroughly and convincingly, and finally that the finished product had to prove itself as a unit by severe operating tests.
Hereafter, whatever the product, we may expect an automobile that has been thoroughly tested in every possible way except that of public usage.
This long preparation is a tribute to the American automotive industry and a compliment to the good judgment of the public.

TODAY'S CROSS-WORD PUZZLE

REPRESENTATIVE HERE FOR STREET DECORATIONS

A representative of the Texas Flag and Scenic company, A. J. Shirley, has been in Midland conferring with officials of the chamber of commerce and merchants on decoration of streets and stores for the July 3-4 celebrations.
Shirley says his company will decorate streets with three lines carrying a total of 11 flags when merchants in that block subscribe 75 per cent to decoration of their stores by his company; three lines totaling 17 flags when 100 per cent subscription is made.

The matter of decorating fronts of stores is up to the decision of merchants, the chamber of commerce only making available the services of the flag company for the convenience of those who say that economy of time and money results from having the work done for them.

Merchants are showing inclination for making the same preparation for having the best dressed city in the Southwest on the Fourth that merited attention of the section last year.

ABSENT-MINDED THEFT OF LOCOMOTIVE FOILED

SHELBY, Mont., June 1.—(UP)—Shelby claims to have apprehended the world's prize shoplifter.
John Hunter, former locomotive engineer, was caught in the act of trying to "lift" a huge Great Northern locomotive from the shops here. He had started the engine before his plans were discovered and he was unceremoniously transferred from the cab of the locomotive to a private berth in the city jail.

IS TWICE CAPTAIN

FORT WORTH, June 1.—Lester Brumbelow, Jackboro, was elected captain of the "T" Association, the men's varsity athletic society at Texas Christian University, at the annual banquet held recently. Lester is also captain of the varsity football team for next year.
Ralph "Buster" Walker, Cleburne, was elected vice-president, Cy LeLand, Fort Worth, secretary-treasurer and Buck Barr, Kaufman, sergeant-at-arms.

SPRINGFIELD, Mo., June 1.—(UP)—Finding of a bear's head carved from sandstone near Warsaw, Mo., has attracted attention of archaeologists.

The crude yet very plain figure may be more than 1,000 years old and might have been worshipped as some sort of idol by prehistoric races which once roamed America 500 years before the landing of Columbus.

The mysterious stone figure, plowed up on an Ozark farm where apparently it had been buried for countless years, now rests in the museum of Drury College here. The figure is two feet square.

Experts in archaeology and geology so far have offered little more than guesses as to its origin.
Dr. Edward M. Shephard and Prof. D. S. Libbey of the Drury geology faculty are studying the model to determine whether or not it was fashioned by a white man, American Indian or primitive races of dimmer ages.

"It resembles very strongly some of the Aztec and Mexican effigies I have seen in Mexico and Central America," Dr. Shephard said. Both, however, declined to call it an authentic carving by prehistoric people, pending further examination.

Midland County Farmer Receives Many Inquiries

Noah Kennimore, Midland county farmer who has made record sales from truck farming through the use of much paper protection and other innovations for this section, is receiving inquiries from throughout the country no his methods.
Kennimore one day this week gathered more than \$4 worth of English peas from only one short row of his truck patch. He is an apostle of the theory that "any thing can grow in Midland county."

OLDEST TWINS?

MELROSE, Mass., June 1.—(UP)—This city claims to have among its residents the oldest twin sisters in the country. Mrs. Martha Collins and her twin sister, Miss Mary Black, will celebrate their 87th birthday anniversary next September 29.

HONORS ANNIVERSARY MILWAUKEE, June 1.—(UP)—On the first anniversary to Harold Nimmer, Mrs. Josephine Nimmer obtained a divorce decree there.

Reporter-telegram Blas

An "undersigned authority" whose commission has been taken the acknowledgement of a young lady who writes her for a suitor that her affection for him has cooled somewhat, and she prefers the official who styles himself as the "undersigned authority." This sad document has caused consternation in commercial organizations and jubilation among the house managers.

A new Texas mayor from a city larger than Midland, dentally has higher political aspirations as he has sent out a story in himself in mat form, and also a card by which newspapers order another cut of him for the gorge.

In attempting to solve the dump ground problem, Midland might get a good idea from Big Sig where the city dump has been used for oil drilling purposes.

against the long-time St official. Representative Grady Whiff of Decatur gave notice during the regular session that he would ask action by the legislature, justice to the State as well as to Robinson. But there is soberer thought which seems amply stem the tide. Observers do believe Mr. Woodruff's movement will attract little more than a well-known "corporate guard."

Considering this an acute disposal of the Robinson matter there looms ahead only columns and volumes of figures.

Expenses of the State government for the next biennium will be computed and finally total between \$40,000,000 and \$50,000,000.

Considerable adding and subtracting will be done to arrive at financial needs of the highway department for the next two years, this fixed, the legislators get down to brass tacks and pass adequate gasoline tax and motor vehicle registration bills. No is able to say whether the gas tax will be three cents or four, it is pretty safe to say the present two cent tax will be increased by 50 or 100 percent. Likewise, is not an invasion of the real of speculation to state that the present registration fees will be reduced some 35 percent. Those deductions come naturally from the attitude exhibited during the regular first special sessions.

With the figuring out of the there will be nothing much left to dispose of except regulation of public utilities, taking for granted Governor will give a trial to prison concentration bill held out in the closing days of the called session.

Newsboy To Spend Summer at K. C.

Bobby Lee, accompanied by his mother, Mrs. W. A. Lee, and by his little brother and baby sister, left yesterday morning for Kansas City to visit his uncle this summer. Bobby has been a salesman of Midland Reporter-Telegrams, and also of publications of the Curtis Publishing Company, and his cheery smile is well known to many Midland customers who will miss him this summer.

He has agreed to write to the Reporter-Telegram force, and his letters will be published.

Gene Tunney calls the \$500,000 breach of promise suit a joke. Not nearly so much of a joke, however, as that million dollar Chicago fight was on Jack Dempsey.

GARY'S SINGING VOICE OF REAL BURLY TIMBRE

All singers thrive on flattery, and Gary Cooper is no exception. Paramount's handsome young star who is featured with Lupe Velez and Louis Wolheim in the frontier thriller, "Wolf Song," at the Ritz Theatre today, Mon. and Tues. was the recipient of high praise the other day when Richard Whiting, one of New York's leading composers, heard him sing "My Honey, Fare Thee Well," one of the featured ballads of the production.

"A regular 'he-man' voice of excellent quality," said Whiting, after the audition, which occurred in Hollywood where Whiting met the star. Whiting wrote the music for the song, a rollicking ballad with a feeling for the rugged life of the mountaineer, and Leo Robin, his team-mate from New York, wrote the words.

Studebaker Adds Two More Records Of Endurance

Two more members have been added to motordom's Academy of Immortals, composed of stout-hearted cars that refuse to wear out. The leading candidate is the 1922 Light Six Studebaker in which Jose Mario Barone, Italian race driver and aviator, drove from Rio de Janeiro to New York on the first trip linking South and North America by motor car. Barone's car had seen more than 100,000 miles of service before it started this epoch making trip. In spite of some 20,000 miles of the most grueling treatment, the battered Light Six kept pace with its motorcycle escort at 40 miles an hour on the way to meet New York's welcoming committee.

The second car admitted to the portals is a Studebaker Big Six bought by an Oregon stage line as a second-hand car in 1923. In five years of steady service it piled up a total of 350,000 miles on its speedometer before the owners traded it last winter for a new President Eight.

The endurance and stamina of these two cars are only two outstanding examples of the experience more than a thousand Studebaker owners have had with veteran cars which have been enrolled in Studebaker's famous 100,000 mile club. Each of the thousand and more cars had been driven a minimum of 100,000 miles before they were added to the long roll of honor maintained at Studebaker headquarters in South Bend.

Listed on this service record is the veteran Studebaker operated by Pickwick Stages of California, which ran 415,000 miles before being turned in. There are the two cars which served the Hal Roach Studios in Los Angeles on many a motion picture "location" for 296,000 and 210,000 miles respectively. And there are no less than nineteen veterans who survived the severe demands of taxi and bus service in the Kentucky hills for distances ranging from 101,000 to 254,000 miles—all owned by three Lexington transportation companies.

The inbuilt stamina in these cars is summed up in a single phrase painted on the battered side of Barone's Pan-American car: "Studebaker—it bends but will not break."

She Is Youngest Leading Lady

Only a short time ago one of the leading young ladies of Spokane, Wash., Marion Marchante, above, is now a young leading lady on Broadway. In fact, being only 21, she probably is the very youngest. Her blonde loveliness graces "Music in May", an operetta, in which she is prima donna.

Airmen Begin Course for Certificates

SAN ANTONIO, Tex., June 1.—(AP)—One hundred and eleven army officers enlisted men and cadets will begin an eight months' training course at Brooks Field, July 1, which will lead to their assignment as fliers in government service. Texans seeking to earn their wings include: George E. Rodieck, San Antonio; J. E. Grasty and Wray A. Ryan, Austin; France K. Mixon, Clifton; Willis G. Carter and Doyle Williams, College Station; Private Theodore C. Castle, Texas National Guard; Alden R. Hefler and Richard H. Jones, Houston; James M. Tuggle, Kemp; Reginald L. Needham, Lorena, and Roger V. Ray, Mission.

An article on the woman's page of a British newspaper is headed, "How to Exercise the Chin." Newspapers over there exert a lot of wasted effort.

going strong. I wonder if the older boy's mother didn't adopt the same method when he was little. If so, what was left him but deceit? Perhaps not—deceit can of course be caused by other things, but this pained attitude of parents toward children is not apt to encourage confidence, that's sure.

STOP, LUPE AND LISTEN! Hear Lupe Sing of Yearning Love!

She sings! Her wild mountain lover gallops to her window at night. Carries her off in his arms. To his love nest on a lonely, rocky crag. Opens to her and to you the delights of love that leaps mountains and class lines. Against a background of song and music, the most lovely ever lavished on any picture. Lupe sings! Gary sings! A swelling chorus of mountain roisters sings the haunting melodies. It's wonderful.

A Railroad Automobile

The We Pacific Railroad uses a Chevrolet "locomotive" for inspection trips by its executives over the company's lines. Its route from Sacramento through the steep Feather Canyon to Salt Lake City. The car can make a speed miles an hour, and the Chevrolet transmission allows it to climb the steepest grades.

Small Party for Little Folks Best Plan

By MARY Service Writer

The mother who is planning a birthday for her small son or daughter confronted with several problems but the urge for "something different" is not one of them. In are creatures of convention regarding birthday candles, games and ice cream, and if they are in evidence the party need of success in the eyes of small guests and host or hostess.

Much thought and care should be given to entertainment as well as to the decorations. A party is sufficient out-of-the-ordinary in the lives of children to cause a certain amount of nervous strain. Too much and rich food with too many luring games can cause an upset for young party-goers.

Small Party Best

Wisdom in the wise mother who try to have too large a party for a child under ten years of age. A safe and sane rule is to invite for "each year." Two or three parties are much better than one overcrowded one.

Table decorations which are simple and to the point. A Jagger pie is always a source of amusement and can be made at or ordered from any large department store. Children love

pretty things and appreciate color and beauty to a great degree.

The birthday cake with candles is imperative. Ice cream is desirable, but a gelatine or custard attractively served can be used if necessary.

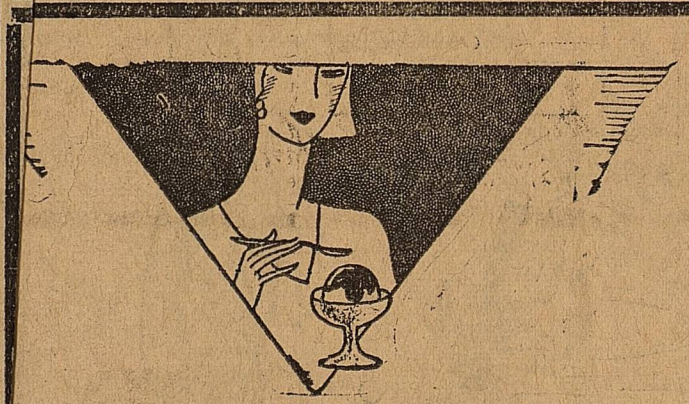

Menus for children's parties must be simple but with a party air. Since most children under ten or twelve have a nearly plain meal at night it seems most sensible to end an afternoon party with a little supper which will take the place of the evening meal at home.

A busy mother who finds it impossible to serve supper for six to ten children will please her small guests if she serves milk and cookies cut in fancy shapes about three o'clock in the afternoon. This will not "spoil" their evening meal at home.

Candy is best given in cunning containers of some sort to take home. Children love "souvenirs" and begin collecting early.

Clear broth or a creamed vegetable soup with croutons, creamed chicken with twice baked potatoes or scrambled eggs with peas, celery, whole wheat bread and butter sandwiches cut in fancy shapes, ice cream and birthday cake compose a suggestive menu.

A dozen boys at Towanda, Pa., were discovered to be making moonshine during the school recess period. The thing to do in that case, it seems to us, is to make a law against recess periods.

Pangburn's CLASSIC AND ALMOND TOFFEE Ice Cream

SPECIAL! Here is really something new in ice cream. Pangburn's Classic and Almond Toffee. They're the preferred refreshment for every occasion. For Dessert... for afternoon "tiffin"... after the show... during the bridge game... at all times welcome. Come by and try a dish today.

And don't forget our light lunches! They are just the thing for this warm weather... make you feel good the remainder of the day.

Many Teams Were In Interscholastic League At Austin

AUSTIN, Tex., June 1.—(P)—The delegation from Perryton, in Ochiltree County, was the first to register at the University of Texas Interscholastic League meet, held here recently. Four hundred and sixty-two schools were represented in the events.

Seven hundred individuals participated in the preliminaries in track and field, 54 debating teams started the first round and 54 tennis teams entered the contests. There were 108 in the declamation group and 27 contests in the extemporaneous speaking eliminations. There were 40 art contestants, 48 in journalism and 30 in typewriting.

Dane Seran of Castle, Oklahoma is in the city visiting his sister, Mrs. Jimmie Harrison.

SPEAKING OF MECHANICAL DEVICES

BRUSHING UP SPORTS . . . By Laufer

Every year about this time someone generally brings up the subject of what effect golf has on a ball player's batting eye. The subject gets discussed more and more each season but a definite conclusion is as far removed as ever.

Managers of big league ball clubs differ in their opinions and both factions can offer plenty of argument. Some enforce rigid prohibition of golf for their players while others even encourage it. With John McGraw's Giants, the game is taboo. Miller Huggins is an enthusiastic golfer himself and if the Yanks

FRANK O'DOUL MADE OVER BATTER, IS TOPPING NATIONALS WITH .422

New YORK, June 1.—(P)—Frank O'Doul, the reformed pitcher, continues to do much better with his bat, now that he has transferred his main headquarters from the polo grounds to Philadelphia. The one-time southpaw owns a gaudy mark of .422, the only 400 or better percentage for a national league regular, according to averages issued today and including games of last Wednesday. O'Doul's heavy sticking has played a big part in keeping the Phillies at the top of the team batting heap with .314, the only 300 club in the league.

O'Doul also leads in runs scored with 37, while Chick Hafey of St. Louis and Charlie Grimm of Chicago are tied for the top in runs batted in. Each has 34. Andy High of St. Louis has collected the greatest total of hits, 55, while his teammate, Frank Frisch, has hit 17 doubles to lead. Lloyd Waner of Pittsburgh sets the pace in triples with six and Melvin Ott of New York,

MAINE KEEPS 'EM HOME

AUGUSTA, Me., June 1.—(UP)—Maine has taken definite steps to state. The Maine Development Commission has appointed an employment committee to aid young men, through the co-operation of the various industries, in finding jobs. Thus it is hoped to discourage Maine youths from seeking their life work outside the borders of their native state.

High, St. Louis, 332; Stephenson, Chicago, 370; Cuyler, Chicago, 367; Frisch, St. Louis, 365; Herman, Brooklyn, 364; Klein, Philadelphia, 356; Friberg, Philadelphia, 353; and Terry, New York, 348.

Rogers Hornsby just misses the first ten, despite the surge which carried him from mediocrity to a mark of .343 within two weeks. He is twelfth, behind Walker of Cincinnati, who has .347.

Following the Phillies in the team batting table are the Cubs, who have .294, a single point more than the Pirates can show. The Cubs lead in team fielding with .974, two points more than the Giants have. The Phillies are third with .970.

By Knick

AMERICAN LEAGUER LEADS HITTERS WITH .424 AVERAGE; IS A PHILLY

CHICAGO, June 1.—(P)—Topping the onrushing athletics with an average of .424 Jimmy Fox, Connie Mack's versatile workman who is enlisted as first baseman this season, replaced Bill Kamm of the White Sox, as American League batting leader at the end of the sixth week of play, according to unofficial figures today.

Fox added 43 points to his average during the week, and his teammate Mickey Cochrane, picked up another 38 points to go into second place with .332. Kamm dropped 29 points and slipped into third place with a mark of .366. Other leaders: Jameson, Cleveland, .388; Narkesky, Boston, .357; Fothergill, Detroit, .357; Manush, St. Louis, .355; R. Johnson, Detroit, .347; Dickey, New York, .346; Gehring, Detroit, .341; Alexander, Detroit, .341.

Detroit found the pitching a little more difficult to hit during the week and sloughed off 13 points, dropped to .304, while the Athletics boosted their average from .297 to .306 to grab the leader in team batting. Both of the leaders have six men in the .300 class.

Other clubs in the league had yet to defeat old George Uhle, of the Tigers. The veteran right hander was forced to pitch 29 innings in two games, but he won them both and raised his mark to nine straight. For the first time of the season Uhle required help when he was relieved. After the twentieth inning of the long game with the White Sox, Bob Grove, of the Athletics, participated in only a part of one game and his mark was satisfactory at six victories and one defeat. Grove still topped the strike out list with 53. Rip Collins, of St. Louis and Eddie Rommel of Philadelphia, each won one during the week for marks of three triumphs and no defeats.

St. Louis continued to lead the team fielding with an average of .976, and the Senators remained in second place with .975.

Other leaders: Home runs, New York, 34; individual home runs, Gehrig, New York, 11; doubles, Alexander, Detroit, 16; triples, Blue, St. Louis, 5; triple plays, New York, 1; Chicago, 1; runs batted in, Simmons, Philadelphia, 43; runs scored, Gehring, Detroit, 38; team runs, Philadelphia and Detroit, 232; opponents runs, Philadelphia, 133.

SHREVEPORT ROOKIE BATTING .462; SANGUINET HAS SCORED 38 TIMES

DALLAS, June 1.—(P)—Francis Starr, sensational Shreveport rookie, who has been hitting at better than a .700 clip for the past fortnight, had a .462 average through games of Thursday and was far ahead of his closest Texas League rival, Hanson of Beaumont, with .373. Other leading batters were: Wetzel (SA), .370; Langford (SV), .367; Blackberry (WA), .363; Sullivan (WF), .363; Lapan (WF), .359; R. Moore (DS), .359; Bennett (WF), .355; Snyder (HN), .349.

Another Shreveporter, Whelan, led in runs scored, with 46. Blackberry and Sanguinet, Waco, Martin, Houston, and Urban, Fort Worth, each had counted 38 times.

Randy Moore, Dallas gardener, had banked the most hits, 71. Wetzel, San Antonio, and Davis, Dallas, had 67 and 69, respectively.

What Comes AFTER the ORATORY

Frederick the Great once wrote to the Duchess of Gotha: "Heaven is on the side with the biggest battalions."

Paraphrasing the epigram, coined by this celebrated military genius, we might say that sometimes in selling automobiles "Heaven is on the side with the biggest adjectives."

With the support of a heavy barrage of superlatives, even a weak car may take a customer by storm. But the real test comes after the oratorical barrage has lifted and the car must try to live up to the oratory—when it must speak for itself.

That is the time when you are sure to find the Chrysler-built De Soto Six pointing proudly to a record that more than substantiates every claim made in its behalf.

UNIVERSITY STUDENTS HERE FOR SUMMER ON EVERY TRAIN

Though every train this weekend has taken away Midland people leaving on vacations and public school teachers bound for their homes and other points for the summer, the same trains have brought students returning from terms in universities and colleges to spend the summer with their parents.

State University
From State University at Austin seven will come. Miss Margaret Francis, daughter of Sheriff and Mrs. A. G. Francis, arrived this morning from Austin after completing a year's work there as a freshman student. She will spend most of her vacation with her parents here.

Miss Lucille Thomas, daughter of Dr. and Mrs. Jno. B. Thomas, arrived last night from Austin. She was also classified as a freshman in State.

Clinton Dunagan, junior in state, will arrive this afternoon by car from Austin. He is the son of Mr. and Mrs. H. B. Dunagan and will be in Midland this summer.

Barron Wadley, son of Mr. and Mrs. Addison Wadley, accompanied Mr. Dunagan from Austin. He has done first year work in Austin this year.

Mrs. Alma Thomas and her sons, Thaddeus and Louis, who have all been in state this year are expected to return to Midland this week.

Simmons University
Fred and Foster Brown, sons of Rev. and Mrs. Geo. F. Brown, will arrive here today after spending a year in Simmons University at Abilene. Fred was a junior this year and Foster a sophomore.

Walter Elkin, who has been in Simmons for two terms this year, has also returned to be at home with his parents, Mr. and Mrs. W. S. Elkin, during the vacation.

T. C. U.
Misses Dorothy and Frances Ratliff daughters of Mr. and Mrs. Geo. Ratliff are expected early this week from Ft. Worth after a year in T. C. U. Frances has completed sophomore work and Dorothy first year course.

Miss Jeanie Elkin, daughter of Mr. and Mrs. Frank Elkin, is also expected from T. C. U. after doing first year work in the university.

A. & M.
Milton Orson, son of Mr. and Mrs. Frank Orson, will complete freshman work in A. & M. this week and return to Midland for the summer.

Dorsey Pinnell, son of Mr. and Mrs. D. M. Pinnell, will arrive home this week from A. & M. He will also spend his vacation here.

John Will Dorsey, A. & M. freshman will be in Midland sometime this week for the summer vacation with his parents, Mr. and Mrs. H. B. Dorsey.

Jno. M. Speed, son of Mr. and Mrs. J. M. Speed, is also expected soon from A. & M. He has also completed first year work there.

From Other Universities.
Miss Emily Flanagan will arrive tonight from Georgetown, where she has been in Northwestern University for the past year. She will spend the summer with her parents, Mr. and Mrs. J. M. Flanagan.

Miss Virginia Hale will arrive this afternoon from Alpine where she has been a student in the sophomore class and also secretary to the president of Sul Ross. She will be at home with her parents Mr. and Mrs. Clarence Hale.

Miss Dorothea Johnson arrived yesterday afternoon from Alpine. She has been a freshman student there this year and will spend the summer with her parents Mr. and Mrs. Roy Johnson.

Other students will arrive during the week for the summer here.

Guest Honored By Miss Myrtle McLarty Friday

Miss Myrtle McLarty entertained a number of friends at her home Friday evening, following a jolly theatre party, to the Ritz theatre. The affair was given in honor of Miss Sue Gooch who is visiting here.

Those present were Ella Mae Newland, Luanice Reeves, Ruby Brown, Virginia Garrett, Sue Gooch, Barney Grafe, Allen Dorsey, Mervin Haag, Joe Godsey, and A. B. Cooksey.

Baptist Women Urged to Meet Monday Afternoon

Members of the Baptist Women's Society are especially urged to be present at the regular monthly business meeting to be held at the church Monday afternoon starting at 3:00 o'clock.

The president will have charge of the meeting and also a short social period is being planned by the social committee of the society.

Executive Board Of Presbyterian Auxiliary Meets

Presbyterian Woman's Auxiliary will meet for Bible Study at the church at 3:30 with Mrs. J. M. Caldwell in charge of the class on the Bible.

After the Bible class there will be a meeting of the Executive Board of the Auxiliary. The board is composed of the general officers of the Auxiliary, the secretaries of causes and the four circle chairmen. Each member of the board is requested to be present as the work for the summer must be planned before several of the general officers leave for their summer vacations.

Wallace Wimberly and Bob Whipple of Odessa left here yesterday for Abilene where they will attend the ex-graduates of Simmons University banquet.

Arthur Jury returned Friday evening from Dallas where he attended the International Rotary Convention.

T. L. Griffin and family are moving tomorrow to San Angelo, where he will be in charge of the Kimberlin Bros. Store in that city. Mr. Griffin has been manager of the local store and will be succeeded by J. A. King, Jr.

Mr. and Mrs. M. B. Hazeltine of Prescott, Ariz., are guests in the home of their son, Mr. Jack Hazeltine and wife. They came to Midland from Dallas, where they attended International Rotary Convention. Mr. and Mrs. Jack Hazeltine were also in Dallas as guests of his parents last week.

Jno. B. McKnight, cattleman of San Angelo, was in Midland yesterday transacting business.

R. G. Carr of the Northrup-Carr Oil Company of San Angelo was in Midland yesterday on business.

Mr. and Mrs. A. C. Gaswell and children left this morning for California, where they will visit relatives for the next two weeks. They are making the trip by car.

Herman Spaulding of Lubbock, who is spending several days looking after business at Crane and Royalty, spent Friday night in Midland.

Dance Students Presented in Colorful Revue

One of the most colorful musical revues ever presented by a local group was given Friday evening by dance students of Mrs. Paul T. Vickers at the Ritz theatre.

Opening with a jazz dance ten students were dressed in jazz suits with Queen Elizabeth collars and wore high top hats and carried canes.

The most picturesque scene of the evening was that given by little Miss Delores and Master Billie who were delightfully received by the audience. The setting for the number was in moonlight with a huge silver moon covered in tinsel in the background. They sang "Moonlight and Roses" as a duet. Each was dressed in pretty colonial costumes.

Miss Doris Harrison was one of the best received dancers by the audience in the dance of the Glow-worm. She was attractively dressed in chiffon over studded rhinestone and duvetyne. Her encore was a short interpretation of the same piece.

The Flower dance was well applauded when little Miss Francis Burris danced in a fluffy costume draped in roses.

An interpretation of a pirate number was given by Eddie Blanche Cowden and Mary Elizabeth Scruggs, who were frocked in gay pirate costumes.

"Mazurka" was danced by Misses Annette Dorsey and Ernestine Holder who were costumed in pink georgette.

Little Miss Francis' Lyn Meek prettily frocked in a light butterfly outfit was presented one of the best applauded numbers.

Dressed in suit, Betty Joe Longabough and Nellie Ruth Bedford were featured in a beach scene while Dolores Barron, Mary Sue Cowden, Jane Hill and Francis Lyn Meeks were also in the scene.

Again Miss Doris Harrison was presented in a colorful Spanish number. She was dressed in bright red.

The closing feature of the evening was a colorful colonial dance by students of the class who were attractively dressed in colonial frocks. The introduction to this number was in the form of a reading by May Beth Jenkins.

On account of illness two numbers by Lexie Jabe Cragin and Duff Stanley were postponed but will be presented at the Ritz soon. Accompanists for the revue were Mrs. Clyde Barron and Mr. Wallace Wimberly. Miss Janelle Edwards was master of ceremonies.

Those taking part in the colonial and jazz dances were Mary Elizabeth Scruggs, Ernestine Holder, Eddie Blanche Cowden, Dorothy Evans, Mary Elizabeth Howe, Carleen Sisk, Darleen and Gertrude Vance, Jessie Lyn Tuttle, Lamoine Sindorf, and Francis Burris.

Roy Chancey, formerly of Childress and recently of Abilene, has moved to Midland and is now holding a position as abstractor for Hyatt, Mims and Crane.

Mrs. Lawrence F. Hill, of Columbus, Ohio, arrived yesterday for a day's visit with her sister, Mrs. T. Paul Barron. She was enroute to Alpine to spend the summer. Her husband, who is professor of Latin-American history in the University of Ohio, will join her in a few weeks and will spend some of the summer in Old Mexico.

Mrs. J. E. Burris and son of Colorado are visitors in the home of her sister Mrs. F. G. Dale this weekend.

Mrs. Boon Hardin of Big Spring is visiting in the homes of her sister Mrs. Carl Reeves and her brother H. H. Meeks. Their mother Mrs.

ETHEL - By Ethel Hays

WYLER SERVICE, INC.

F. A. Tandy returned with Mrs. Hardin after visiting here two weeks.

Mrs. Jno. Edwards is visiting relatives and friends in Sweetwater for the next week.

Dr. and Mrs. L. B. Pemberton and Mrs. Brooks Pemberton have returned from Dallas where they attended the Rotary convention and visited friends. While there they were guests in the homes of Mrs. Gentry and Mrs. T. B. Cooper, former Midland residents. Mrs. Cooper will leave Dallas soon for New York and sail from there to Europe where she will spend the summer months.

Miss Vera Mims is visiting relatives in San Angelo this weekend.

A. G. Robertson, of the Reporter-Telegram force, received a phone call Saturday afternoon, telling of the birth of a baby daughter to Mr. and Mrs. W. S. Robertson of Stanton. W. S. Robertson, who is connected with the Stanton Reporter,

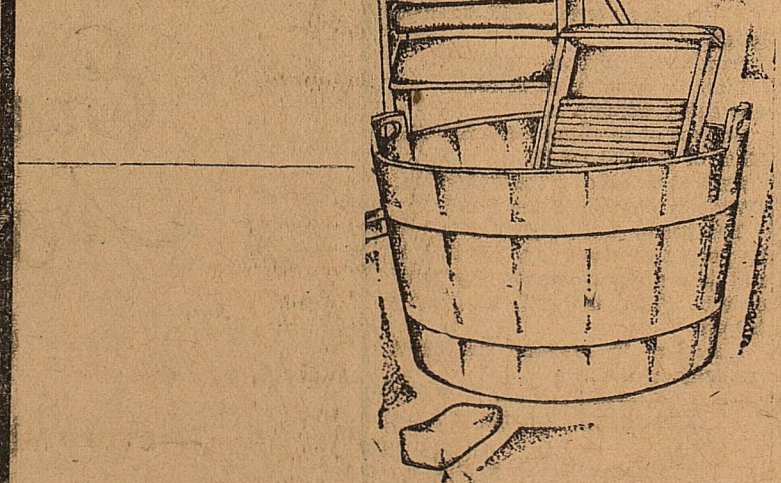

is well known in Midland, and Mrs. Robertson is a daughter of Mr. and Mrs. Dick Mitchell. Their many friends here extend congratulations.

Now and then you see a woman as pretty as a picture, and it turns out that she's just another talkie.

The next thing for Dr. Schacht, the German reparations expert, to turn his hand to might be the writing of a book entitled, "Famous Installment Collectors I Have Fooled, and How."

Let us install your new system, keep your books by the month, make your collections, audit your books for the past year, and make your Income Tax Report. Office in Llano Hotel Building.

Mrs. G. T. Sandidge Honored by Young Baptist People

Mrs. G. T. Sandidge, who is leaving next week for her new home in Abilene, was the honor guest at a delightful surprise party given by members of the Young People's Department of the Baptist church.

The group gathered at the Baptist church early in the evening and "rushed" Mrs. Sandidge at her home on South Main. As a remembrance from this department of which she has been superintendent she was presented a handsome breakfast set and waffle iron.

The lighted lawn, furnished a delightful place for games and other entertainment after which refreshments were passed to the group which included Messrs. and Mesdames Fuller, J. D. Hudman, J. M. White, Heit, Roy Tillman, T. T. McCasland, Dr. and Mrs. D. M. Ellis, Mrs. Radney Ellison, Misses J. Emeline Glaspie, Allie Mae and Annie Frank Scott, Elsie Cone, Dora Wall, Jewell Midkiff, Lois Walker, Messrs. Jerry Urban, Rex Long, Archie Cassie, R. O. Walker, Dr. D. K. Ratliff and Mrs. Clarence Ligon.

Neighborhood Picnic Given in West End

A neighborhood weiner roast was given by Mesdames W. S. Blodgett and J. J. Kerby in West End on Friday evening.

Following the supper the group found fun in out-of-door games and contests.

Guests present included Bobbie and Buddy Blodgett, Lorene, Helen and Robert Dungan, Robert, Lloyd and Billie McKinney, Vann Mitchell, Dennie and Jack Long, Billie and J. W. Sudderth, Leola, Leo, Ruby and Maurice Kerby, Miffett Gilson, Mr. and Mrs. Jamieson and the hostesses.

We're a little ahead of Mexico, anyway--We don't call our bank robbers revolutionists yet.

and robbed victims was captured by police the other day. In other words, a knockout.

City League Holds Picnic At Cloverdale

Sixty members of the Christian Young People's League of Midland were guests at a jolly picnic held Friday evening. The scene of the event was at Cloverdale southeast of town.

Lively contests and games were directed during the evening by the entertainment committee and at the close of these ice cream cones were passed to the guests.

Other socials are being planned by the social committee for the summer months.

Miss Collins to Dallas for Summer Speech Arts Course

Miss Elma Collins is leaving Monday morning for Dallas where she will enroll as a student in the Dallas Academy of Speech Arts which is affiliated with Southern Methodist University there.

Miss Collins will be gone about four weeks as she is taking a summer course in this school. She is a popular reader in Midland and is well known in speech arts groups. Last year she completed her senior work under Mrs. Paul T. Vickers, local expression teacher, who presented her in a recital at that time.

BOSTON SINUS EPIDEMIC

Boston has been suffering a severe epidemic of sinus and mastoid ailments. The victims have included all classes of people and many students who had tossed their caps and hats aside as handicaps to getting the most out of the prevailing weather. Physicians and surgeons in Boston attributed many of the cases to the passing hatless fad.

If you go into the stock market, always remember that a loss is a speculation and a gain is an investment.

Exhibits Show Products From County Farms

Window exhibits of dewberries, onions and peas from the truck garden of Noah Kennimore were exhibited Saturday at the chamber of commerce, along with cotton plants from the field of H. A. Jesse. Kennimore is known here for his practical experiments in the farming profession. Jesse has several acres of cotton which measures more than six inches in height.

CMTC Boys—

(Continued from Page 1)

camp will be made by the Camp Commander after close observation of the athletic ability of all boys under his command.

General Lister has directed that appropriate ceremonies be arranged and that the leading member of a baseball team playing near the camp be invited to present the award.

The balls are of the regulation "League" size and weight. The bats are the trade marked "Louisville Slugger." Babe Ruth type, just like the one the "Babe" uses to clout the "apple" over the left field fence.

Expert instruction in all forms of athletics is given at C. M. T. Camps and boys attending are given ample opportunity to engage in their favorite sport. Regular games and meets form a part of the camp schedule.

Letters from boys who attended the camp last year shown a Reporter-Telegram staff member this morning attest to the popularity of the C. M. T. C. with them. Midland boys who went to El Paso last year will probably go again this. Fifteen acceptances have already been made. The Judge says that the camp opens July 25, boys wish-

ing to attend should see him at once.

Below are the 25 boys from Midland who went last year:

Mike W. Allen, Joseph P. Archer, William T. Blakeway, Robert S. Caldwell, Aaron Damron, John W. Dorsey, Winston F. Elkin, Archie C. Estes, R. A. Estes, Dennis Fleenor, Robert Fleenor, Ben H. Franklin, James H. Fryar, Chester Harris, Wayne M. Hill, Henry R. Paddock, Doris M. Pinnell, Earl H. Ray, J. Ford Schrock, Herbert W. Smith, John M. Speed, Jr., Emil R. Story, Harry L. Walters, Harwell C. Whitmire, Witzel Whitmire.

WORLD'S STAMP FAIR

HAVRE, France, June 1.—(UP)—Sixty-five million francs worth of postage stamps, many of them unique in the world, are being shown in the World's Stamp Fair now in progress here and fostered by the French government through the Under-Secretary of State for Posts. Among the American exhibitors is Alfred Lichenstein, of New York, who is showing a collection of stamps worth \$150,000.

THESE COLLEGE WITS

FORT WORTH, Tex., June 1.—(UP)—Among those who voted in the recent elections at Texas Christian University, if names on election ballots can be taken at face value, are Charles Lindbergh, Rin Tin Tin, Herbert Hoover, Al Smith, Red Grange and Jack Dempsey.

NEW GULF SALESMAN

H. L. Young, has moved to Midland from Vernon, and is the new district salesman for Gulf Refining Company products. He is being introduced to Midland and vicinity by A. W. Stanley, Gulf distributor, and states that he likes the new location.

Oust 'Christian General' In China

Charging that he is receiving 5,000,000 rubles monthly from Soviet Russia and that he recently negotiated a secret treaty with the Soviet for support against President Chiang Kai-shek of China, the Christian General Feng Yu-hsiang, above, has been dismissed from the ministry of war in China by the National State Council. Other charges against Feng are disobedience of the Sun Yat Sen principles and increase of his army from 300,000 to 500,000.

Midland Farmer Beats Sandstorm At Its Own Game

When the heavy sandstorms recently blew out most of the cotton of the farmers and made it necessary to replant, Pat Bodine saved almost 100 acres by a simple expedient.

The ground, terraced already, had furrows running in vermiform curves. Taking a middle buster and a team of four mules, Bodine "cross furrowed" the land so that the wind blew sand into the deep furrows he had plowed rather than covering his cotton.

"One has to do all sorts of things in this part of Texas," Bodine said, "when the wind and sand get together and conspire against every growing thing."

Bodine said that he would have plenty of cotton blooms by July 1. He has plenty of plums of unusual size. Dewberries grown in his garden are as large as an ordinary plum. Peaches on trees in his orchard are so thick that they will have to be thinned out, he thinks.

Chamber Plans—

(Continued from Page 1)
A possible means of interesting them in a financial way in Midland. About 200 people are expected at the barbecue. Clarence Scharbauer has already donated a beef for this feature of the entertainment.

Entertainment Features

A demonstration in calf roping, bull dogging and bronc riding will be given at the barbecue for entertainment of the Easterners.

The afternoon will be occupied with golf, the West Texas League ball game, and seeing the city.

The banquet will start at 8:30. This will be open to every member of the Chamber of Commerce and all home people will pay for their own plates. Distinguished out-of-town visitors will be guests at the banquet. The first 200 people who apply will be sold tickets. The president of the Chamber of Commerce will be toastmaster.

Impression Sought
It is Dr. Young's ambition to so well entertain the financiers who come to Midland that they may be impressed to make investments here, as well as to show them Midland's hospitality and to advertise the city.

CHURCHES

THE FIRST BAPTIST CHURCH

George F. Brown, pastor

All regular services will be held today.

Sunday school begins at 9:45.

Morning worship at 11:00.

Evening worship at 8:30.

Subject of morning sermon: "The Kind of Revival we Need."

Subject of the evening sermon: "What Is That in Thine Hand?"

The pastor will be greatly helped by your presence today, but that is not the greatest reason for your coming. You, too, will be greatly helped.

Strangers in Midland are most cordially invited.

METHODIST CHURCH

Rev. Stanley Haver, Pastor

Sunday school classes will be held this morning at the regular hour but no church services will follow as the pastor is out of town holding a revival.

The evening services for the Epworth Leagues will be held at 7:15. The Junior League will also meet at 7:15 with a new leader in charge. No preaching services will be held in the evening.

PRESBYTERIAN CHURCH

The morning services will be held at 11 o'clock with a sermon by the pastor on the theme, "Preventing Summer Slumps." Special music by the choir will be given.

At the evening hour there will be no public worship as the pastor will attend the services at Odessa and assist in dedicating the new church building. Members of the congregation are invited to attend that service.

Sunday School at 9:45 and Endeavor meetings as usual.

MAY PERMITS RUN PAST \$200,000 AND BUILDING GOES APACE

SUBURBAN SITES
ALIVE WITH
HOMES

With permits for the month of May running past the \$200,000 mark for a yearly total of more than \$600,000, more than 30 residences of the substantial type that lends beauty to a city under process of construction, the 12-story Petroleum building rapidly nearing completion, the Cragin Lumber company completely installed in its new and expensive quarters, El Campo Moderno, expensive and artistically built tourist camp, almost finished, grubbing and clearing going on in a new sub-division on the old Henry M. Half property, the new Scharbauer addition topping out of the ground—one of the most substantial building eras ever recorded in the growth of the city is in progress.

Suburban Districts Growing
It would be difficult to give a graphical description of how different the suburban districts are from their respect several months past, the first of the year, for example. Midland's outskirts additions might well be those of a city of several thousand more inhabitants than are listed by the census. Orderliness, modernity, individuality, little touches that make for residential sections that mark a town small city—all is observed in Midland's recent construction.

Good Materials Used
One of the most noticeable factors of present construction is the material employed in that building. New homes are using expensive stone and brick. Some are having landscape gardeners draw plans for garden and lawn. New features and innovations are being introduced.

Hogan Building Finishing
At the big Petroleum building the finishing work is going on on all twelve stories; a plasterer is finishing the big theatre's interior; elevators are running; Postal Telegraph, first tenant has moved into its ground floor office, and light fixtures are to be installed this week, engineers on the job think. Mural painting and etching and other interior decorations including plastic work will soon be undertaken by skilled decorators out of New York.

Scharbauer Tops Out
The Scharbauer addition is being topped out today, forms being put up for the steel columns under the second floors, and a full crew at work.

Cragin Lumber company, general offices for companies of the same name in Breckenridge, Big Spring, Pyote, Wink, Kermit, Jal and Carlsbad, has moved all equipment into

By CORA W. WILSON
NEA Service Writer

Bungalows are popular with a great many home seekers in this modern day of high cost of servants and the tendency toward compact living quarters.

Here is a house that is characteristically English, though it is small and therefore perfectly at home in the most exclusive neighborhood.

This English house built of white stucco on frame construction, half timber and ornamental plaster over the large bay windows, slate roof of variegated colors shading from red to gray and blue shutters. A stone wall runs around the house enclosing a terrace.

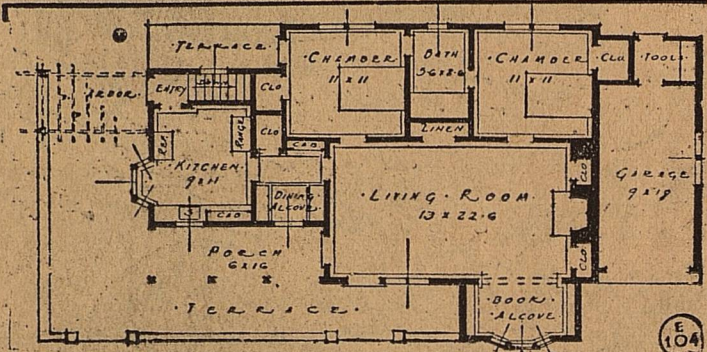

Look well to the plans of this cleverly designed comfortable house and note how every inch of space has been utilized.

On entering the terrace one goes directly to the living room which is 13x13.6. A group of leaded glass casement windows forms a bay, another casement window is of small panes and shuttered. At the further end of this room is a lovely fireplace with book cases on either side; to the right of this room is the garage. In the back of the large living room are two nice sized bedrooms, both square with closets, a bath and linen closet separating them. These rooms look out on the garden in the rear.

On the left of the living room is a dining alcove just nice for a light its new stucco home near the high school. General offices are upstairs, service offices and supplies on the ground floor.

This company will begin construction of a \$25,000 residence for Roy Parks the first of this week. The home will be located in that part of the West End addition now clustered with fine, expensive residences.

Big Camp Is Modern
El Campo Moderno, latest big camp to be built here, is almost finished. Built in an oval, of expensive brick, well arranged with every convenience known to camps between the west and east oceans, the camp preserves traditions of Midland hostilities, which says that every new place must be to the nth degree in accordance with the most modern structures of its kind in the country. There is to be a greensward in the center of the wall inclosed space; a fountain will play; every apartment has its garage and shower and other conveniences, and everything about the place, even to

Painted set of furniture and leading from this room is the large kitchen. It has every modern improvement and two deep closets.

Such a house can be built on a 60-foot lot and will cost between \$8000 and \$9000.

For additional information and a cost estimate, write to Mrs. Cora W. Wilson, 420 Madison avenue, New York City, and be sure to enclose the clipping from this newspaper.

the finishing touches of color, reflects the ultimate in camp construction.

Sub-Division Proceeding
The new subdivision at the Henry M. Half place shows signs of being converted into building lots, a playground and park and swimming pool, gardens and other aesthetic divisions within a short time Nance Thompson promises to build one of the most beautiful additions at that place known in the Southwest. Grubbing and clearing of ground has already begun.

The impetus given park building by the special zoning commission appointed recently by Mayor Leon Goodman has caused much comment in Midland.

The Place Where It Is Entirely Safe to Trade

Labor Party Leads
In England Votes

LONDON, May 31.—(UP)—The Conservative party under Premier Stanley Baldwin, which has governed England since 1924, was routed in the general election by the socialist Labor party of J. Ramsey MacDonald.

As the returns of yesterday's voting were nearing completion late today, the Labor party rode on the crest of popular endorsement toward becoming the largest single party in Great Britain.

On the basis of a few districts yet to be heard from, it is almost impossible for the Conservatives to

get more seats in Parliament than Labor.

At 5:27, with 570 districts reported, of a total of 607, the parties stood as follows:

Labor 281, gain 122.

Conservatives 239, loss 120.

Liberals 45, gain 8.

Others 5, loss 1.

Veterans of the World War shouldn't throw away their trench hats. There always will be friendly little games of bridge in which they may be worn to advantage.

SPLINTERS

VOL. 1

JUNE 2, 1929

NO. 18

Published in the
interests of the
People of Midland
by Wm. Cameron
& Co., Inc. A. B.
Anderson, Editor.

We think it is fine to pause for a day each year to do reverence to those who lived and fought the battle of life before us. Our forefathers in their wisdom, set aside Memorial Day realizing that it would make better men and women of us all to, once a year, lay a flower at the grave of one who helped to make the world better.

Screens need painting! It saves 'em! We have a special Minnesota screen paint that is just the stuff.

Poisoned Dagger
He: "The man who married Ethel got a prize."
She: "What was it?"

We have just put in one room of Imported English Wall Paper in the new home of Mr. and Mrs. S. M. Francis on S. Main. We wish more people would use better papers.

This is the season of the year when a man decides his house needs more paint and his daughter less.

Painting your home is not an expense; it's an investment. Have you ever looked into the advantages of Minnesota paint—we have it in any kind or quantity you want.

We have just completed the carpenter work on the offices of the Bell Telephone Company in the Petroleum Building. Mr. L. T. Bibby was the contractor in charge of the work.

The biggest howl to make a club or a

lodge exclusive usually comes from the member who just barely managed to slip in himself.

Andy Gump says: "About all a married man can save these days is tobacco coupons." We'll bet Andy does not own a home of his own with space on the lot for a garage, or he would be saving storage charges on his car as well as cigar coupons.

We have a mighty nice looking town here, but let's clean up and paint up and it will look even nicer.

Mr. J. G. Gossett is remodeling his home on West Missouri. Mr. M. G. Blaydes is the contractor supervising the work.

Sign on a Midland street:

SLOW
MEN AT WORK
No doubt its true, but why advertise it?

Varnishing a floor isn't a difficult task. And it gives the room a richer appearance. Sets off the rugs and furnishings as nothing else can. We carry the Minnesota famous varnishes.

Mexico is cutting out bull fights and taking up baseball. The umpire will take the place of the bull.

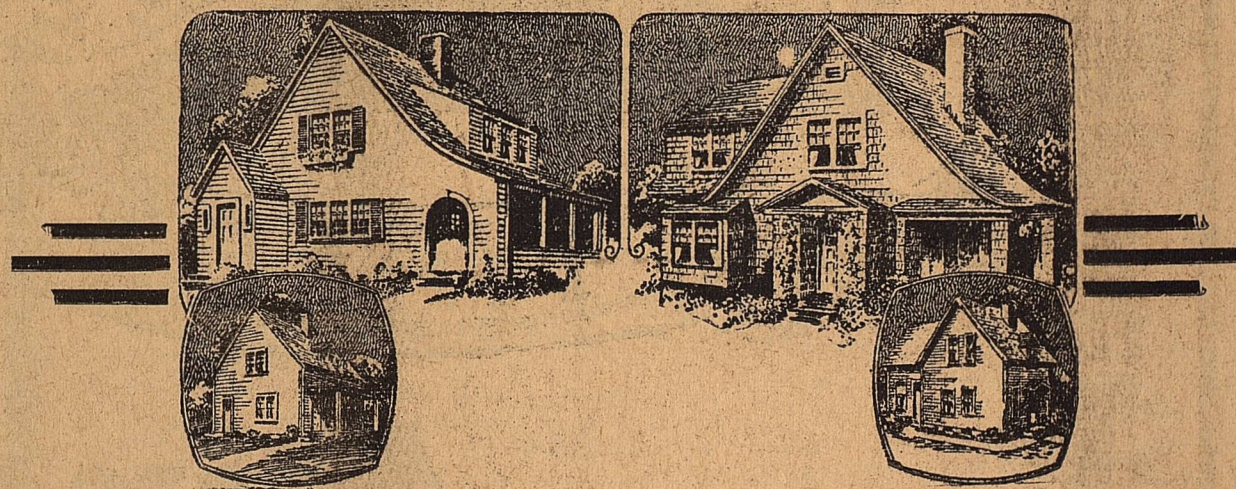

Mr. H. W. Montgomery has just completed remodeling his farm home and is well pleased.

Announcing!

Buick

For years the leader in the finer car field, welcomes its new Companion Car, the Marquette. With the introduction of the Silver Anniversary Buick this year Buick again demonstrated the policy always used in connection with its slogan, "When Better Automobiles Are Built Buick Will Build Them." Visit our showroom today and see these greater Buicks. Get behind the wheel on the road, get the feel of driving one of these new models.

Marquette

Marquette brings to its price field new and impressive characteristics of performance. The new Marquette L-Type powerful, 67½ h. p. motor, 75-pound counterbalanced crankshaft of special carbon steel, steel-backed bearings, silchrome exhaust valves, pressure lubrication system, thermostat-controlled cooling system, transmission standard sliding gear type in unit with engine, clutch single plate type. And other features which for comparison will make it necessary to go to a car in a price range far higher than the Marquette. Several of the new models are now on display on our floor, come in today and see the latest triumph of General Motors, the greatest automobile building concern in the world. In the present-day time when speed and dependability are so necessary the Marquette offers more for your automobile dollar than any other make or model of car. See them today.

Service

More than four thousand Buick dealers, now Marquette dealers as well, with authorized service departments guarantee that your Marquette car will receive the same intelligent, interested care enjoyed by Buick owners everywhere—service which has helped to uphold the Buick reputation all through the many years during which the service organization was being built. In order to better service our new and used cars, we have spent time and money studying the needs for a high-class service department. We now announce to Midland automobile owners the finest equipped shop between El Paso and Fort Worth. With a top and body department in connection we are able to offer you the best of service possible for your car. While you are here make it a point to visit our service department. A full staff of trained mechanics are maintained by us at all times.

SCRUGGS BUICK COMPANY

MIDLAND, TEXAS

Marquette Enters Motordom in Midland at Scruggs-Buick

NEW SIX IS VIEWED BY CROWD

Entry of the Marquette, latest addition to the General Motors family, and a product of the Buick Motor Company, was made Saturday morning when the Scruggs-Buick company displayed two attractive models of this new 6-cylinder car of the \$1000 class in their newly decorated show room.

Scruggs is showing a sport roadster, with six demountable wood wheels and a standard equipped five passenger sedan.

Throughout the day, an interested public visited the show room, registered names with Miss Ruth Norwood, who was in charge.

The Marquette is given an impartial description in the following article by Israel Klein, science editor of the NEA service, especially for the Reporter-Telegram, and is written after his thorough inspection and testing at the General Motors Proving Ground.

By ISRAEL KLEIN
Science Editor, NEA Service

FLINT, Michigan, June 1.—Buick dealers open their showrooms throughout the country today with a new product on their floors—the Marquette, a six-cylinder L-head automobile to be sold in the \$900 to \$1000 price range.

The Marquette, titled after that famous French explorer whose adventures are linked with the pioneer history of Michigan, is a surprise in more ways than one.

First, we see an L-head motor made the companion of a valve-in-head favorite. Second, we find a comparatively large-sized automobile for the price it is being offered. Third, we are introduced to features in this smaller car that have heretofore been exclusive to its higher priced companion. And finally, we discover a low-priced machine into which high quality materials and workmanship have been put.

So far as the car's motor is concerned, it is nothing new in principle. But it does feature itself in the way it is put together and the various accessories applied to it to make what its manufacturers claim as "the best performing engine in its price class."

Shines in Performance

The cylinders have a bore of 3 1-8 inches and a stroke of 4 5-8 inches, larger than those of all other sixes in its price range. As a result the motor develops 67.5 horsepower and shows remarkable performance for its size. Tested for more than 250,000 miles at the General Motors Proving Grounds, the motor has been able to accelerate a standard four-door sedan with two passengers, or 450 pounds load up an 11.6 per cent hill 1400 feet long from five to 25 miles an hour in high.

The same car, driven under unbiased test conditions has shown to accelerate from 5 to 25 miles an hour in 8.8 seconds, from 10 to 25 miles an hour in 6.3 seconds, and from 10 to 40 miles an hour in 13.4 seconds.

It has been shown to attain a maximum speed of nearly 66 miles an hour, measured accurately by means of the "fifth wheel speedometer," and its average fuel consumption is about 17 miles to the gallon. Its engineers say freely that the car can be driven constantly at 60 miles without fear of harming the motor.

Built Well Throughout

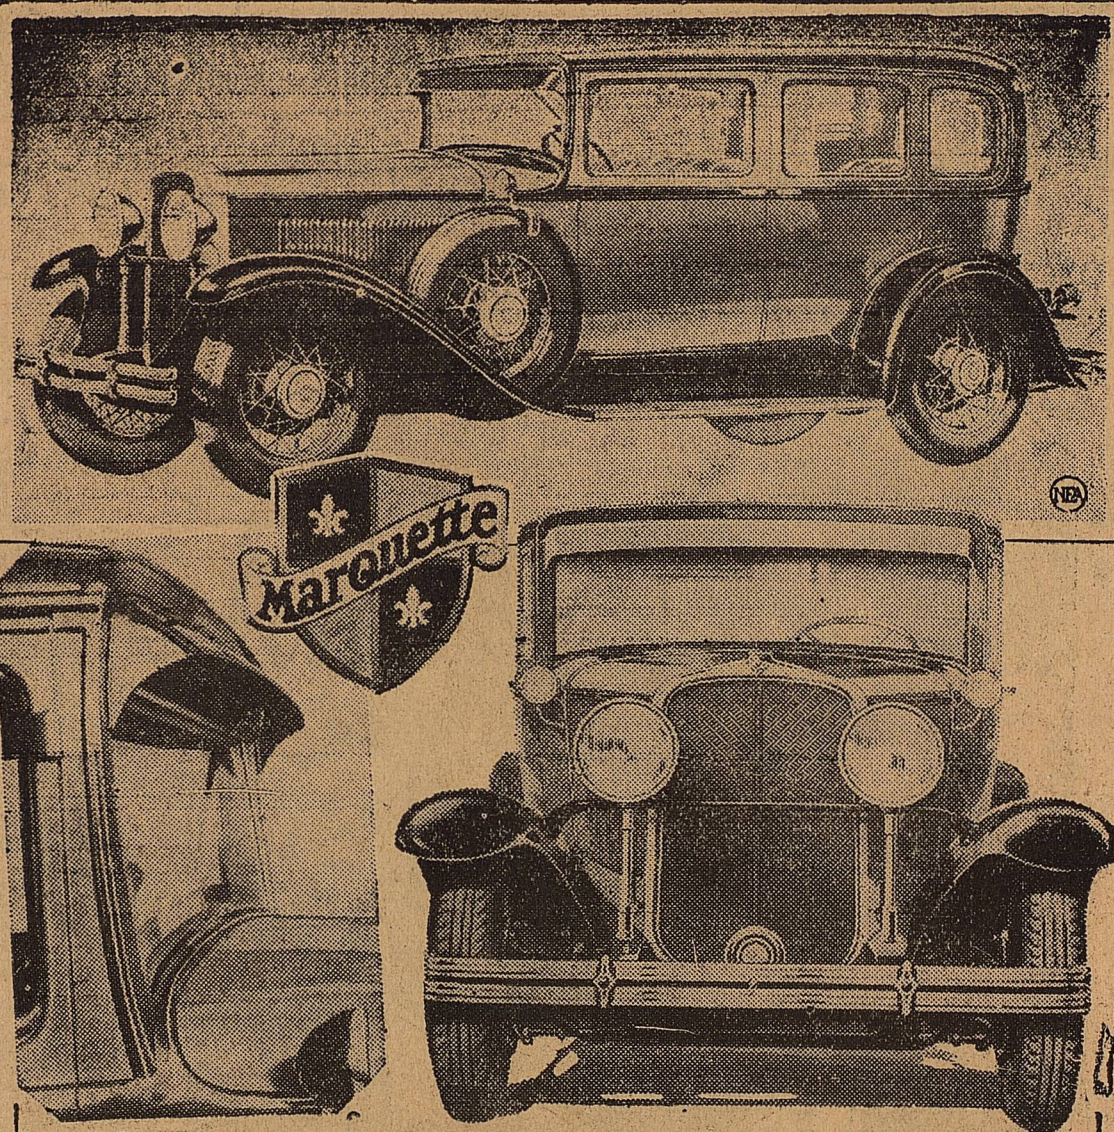

Their assurance of such performance is based on the sturdy construction of the engine as well as that of the chassis and its constituent moving parts. They have put into it light cast iron pistons on the assumption that these will be able to stand the strain and heat of a fast operating motor better than aluminum or alloy pistons.

Another basic improvement in the low priced cars that has been introduced in the Marquette is the use of steel-backed bearings for the crankshaft. This type, in place of brass backed bronze bushings, are said to be much sturdier, and to last much longer, although they cost more and a harder to make.

L-Head engine are notorious for their hard starting, even in comparatively warm weather. So to facilitate easy starting in the Marquette the Buick engineers have not only provided a thermostat arrangement to prevent the water of the cooling system being further cooled by passing through the radiator too soon, but have added an automatic heat control unit of the type used on the Buick.

By this, the first exhaust puffs are immediately returned over the intake to heat the incoming fuel mixture to a gaseous and more inflammable state. As soon as the motor is warm enough, the heat control opens wide to allow the exhaust gases to leave the proper way.

Many Good Features
Other good features of the Marquette power plant are:

The Marquette, brought out by Buick, as it looks in the four-door sedan model shown above. Front view is shown at lower right, with inset of the Marquette emblem, while at left is a view of the slanting windshield with tapering corner post, peculiar to this car.

A counter-weighted, four-bearing crankshaft of heat-treated steel, with its bearing stepped down in size to insure minimum of weight and maximum of rigidity.

Accessibility, from the side, to the valves.

Full pressure lubrication, with a gear type pump placed deep in the oil pump of the crankcase to insure a constant flow of oil to the engine.

Full crankcase ventilation thru a special breather at the side of the engine.

Gasoline pump fuel feed and air cleaner.

An especially large muffler, with a long pipe out to the rear, keeps

the noise of the exhaust down almost to a purr.

In the transmission the single disc clutch has a series of small shock-absorbing springs built into it to absorb any slight vibrations that might occur between engine and transmission. Adjustments to the clutch are made merely by taking up on the foot pedal.

Sturdy Chassis

Even more striking in quality than the engine is the chassis. It is made of a heavy steel frame tapered from the front to a width in the back that gives ample room for three passengers. Its springs are attached by sturdy self-lubricating shackles that are kept from rattling by

means of a tight spring. The stiff frame also permits heavier construction in fenders and running boards.

Proceeding from one part of the car to another, nothing but quality and sturdiness of material can be noted. The brakes are of the two-wheel, fully enclosed type, and the system is so constructed that if there happens to be a break even in the servo cross-member, which is most serious, although hardly probable, at least one side of the braking system can still be used.

The wheels have heavy wood spokes or thick steel spokes, sturdy enough to carry twice the weight of the Marquette. On them are especially

large tires which help keep the car to the road at its highest speed.

A steering gear of the worm and nut type, adjustable for wear, is of a size that permits easy steering under slow traffic conditions, while at the same time it holds the car well in control at high speed.

Has Slanting Windshield

In accordance with this construction the bodies, of six types, are also well built and finely designed. Perhaps the outstanding feature of the body is the slanting windshield to cast downward the glare of headlights from behind. This is the first closed car to incorporate this feature.

As a result of this, the corner posts have been widened at the base assuring greater firmness, and thinned out upward so as to afford greatest possible outlook at the line of sight.

Every part of the body is well fitted and of the same sturdy construction as the engine and chassis. The headlamps rest on strong chromium plated supports, besides being held in place by a strong crossbar. Even the tail-light, instead of coming out of the rear fender on a curved sheet of metal, is

fastened to a thick pipe through which its wires are carried and which reaches out from underneath the body in back.

The bumpers are fastened firmly and directly to the ends of the chassis frame instead of being carried on extending bars of spring steel. They seem to be there to stay.

With all this attention paid to the firm construction of the Marquette, its engineers have not overlooked the great demand for beauty of line and color. So they have brought out bodies that are sure to attract widespread attention and interest.

As E. T. Strong, president of the Buick corporation puts it:

"We haven't skimped the least bit in designing and constructing the Marquette. We have done our best to put the highest of quality into every little detail of the car, even to the size and construction of the hub caps and the design of the emblem."

Farmer Gets Money Redeemed

CARROLLTON, Tex., June 1.—(P)—W. W. McCoy, farmer, has received from Washington \$275 in

money redeemed by the federal treasury for money he lost while plowing three years ago and recovered this spring badly mutilated. This sum represented about 60 per cent of the currency lost, the other 40 per cent being so badly damaged that identification marks were not plain enough to justify the treasury in making a complete redemption.

FRESHMEN CHECKED AT U.

AUSTIN, Texas, May 31.—(UP)—Freshmen make A's in 7.26 per cent of their courses at the University of Texas, according to figures issued by the registrar.

The percentage of B's is 15.44, C's 31.73, D's 18.19, E's 9.13, and F's and G's, 9.44. A general average of all high school grades of the students are made each year and the statistics are sent by the registrar's office to the high schools for comparison with grades of the same students in their freshman year at college.

Maybe one reason why we don't have women presidents is that few of them ever reach the required age.

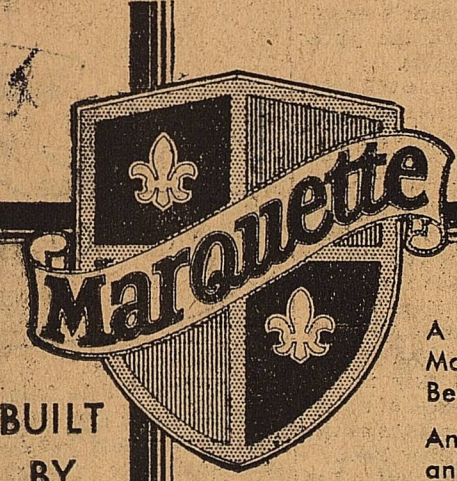

BELLE BENNETT'S VOICE TO BREAK LONG FILM SILENCE

Belle Bennett, in the company of Joe E. Brown, Alberta Vaughn and Charles Byer, comes to the Grand Theatre, Sunday in the Tiffany-Stahl production "Molly and Me." It is the first time the voice of Belle Bennett has been heard from the screen—Alberta Vaughn's talking debut, too, but for Joe Brown sound pictures are an older story. RCA Photophone recorded the talking, singing and musical accompaniment by Hugo Riesenfeld.

"Molly and Me" is an original story by Lois Leeson, largely concerned with the romance and fame of Molly and Joe, who, after tripping together for many years with never an unhappy note in their lives as husband and wife and as a burlesque team, find discord when the plaudits of Broadway lifts one of them to the fame of which both had long dreamed.

Maybe we wouldn't have to have a crime commission if the still small voice hadn't become confused with the term speakeasy.

THE Marquette IS HERE

BUILT BY BUICK

A great new achievement in the automotive world—Marquette, built by Buick Marquette is the smartest of the smart. Low-swung, rakish, hug-the-road lines. Beautiful color harmonies. Tailored and fitted to perfection.

And what a performer this remarkable car is! Imagine flashing from 10 to 60 miles an hour in 31 seconds! Think of accelerating from 5 to 25 miles an hour in high gear up a long 11.6% grade! (The average road grade is 7%). Think of riding at 68 to 70 honest miles an hour with complete safety and comfort. That's the kind of pick-up and power and speed you need in a car nowadays—and that's what you get in the Marquette.

THE MOST COMPLETE CAR EVER OFFERED IN THE \$1000 FIELD

Long rakish lines—114-inch wheelbase—a full size car in every respect.

Body by Fisher. All closed bodies are the latest product of the world's finest closed body craftsmen.

Non-glare Fisher VV type ventilating windshield—a brand new feature. With the tilted windshield the driver is not annoyed by headlights in back of his car or coming toward him—there are no distracting reflections.

New type mohair upholstery—has rubberized back—is waterproof and dustproof—a new development by Fisher, first shown on the Marquette—a great improvement.

Spacious rear seat—47 1/2 inches in width—three adults can ride in perfect comfort.

Ample leg room in front and rear compartment—interiors are spacious and comfortable, no feeling of being cramped in this car.

Adjustable front seat—driver can adjust seat at will, for his personal comfort and convenience.

Automatic windshield wiper.

Rear vision mirror—all models.

Remarkable power plant—motor develops 67.5 brake horsepower and provides the most brilliant performance ever achieved in this price field.

Piston displacement 212.8 cubic inches—a bigger displacement than in any other car in the \$1000 field, indicating power to meet every demand.

High-compression cylinder head—special non-detonating design.

Rubber engine mountings—at all four suspension points—shocks and jars to chassis frame are absorbed before they reach the engine.

Counter-balanced crankshaft—vibration eliminated and power delivered in a smooth, silent flow.

Automatic heat to carburetor—saves fuel and insures quick warm-up and easy starting in all seasons.

Completely sealed engine—oil filter, fuel strainer and air cleaner prevent dust, dirt and water from entering engine. Crankcase ventilator prevents oil dilution.

Forced lubrication—to all main bearings, connecting rod bearings, cylinder walls, camshaft bearings, and chain drive—the best engineering practice.

Crankshaft bearings stepped in size from front to rear—reducing vibration to a minimum.

Crankshaft weighing 75 lbs. is placed in both static and dynamic balance—to assure a smooth, quiet motor at all speeds.

Lovejoy hydraulic shock absorbers, both front and rear—perfect riding ease.

Four-wheel internal-expanding brakes—Duo-Servo type protected from dirt and water.

Brake cross shaft is equipped with three bearings as an added protection—providing useful braking power in every event. Controlled with self-aligning bearings which are not affected by chassis strains and twists.

Adjustable steering wheel—driver can have steering column raised or lowered to suit his particular preference.

Hydrostatic gasoline gauge on dash—a much-appreciated convenience.

Guide tilt-ray lamps—a fine car feature unusual in a car in the \$1000 class.

Full-crown one-piece fenders—add distinction and beauty to appearance.

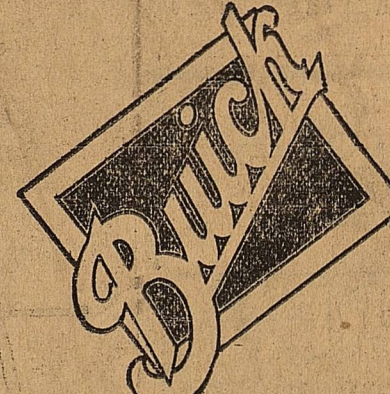

A host of other extraordinary features that combine to make the Marquette America's most complete car in the \$1000 field.

You must see the Marquette to get a true impression of its marvelous value. On display today at Buick and Marquette dealers.

More doctors
more lawyers
more business men
buy Buicks than any
other fine car

Professional men know automobiles. Their very standing in their communities demands that they drive cars of outstanding merit and reliability. It is significant therefore that more doctors—more lawyers—more business men the country over buy Buicks than any other fine car!

You will find these discerning owners agreed that Buick combines the maximum of tasteful luxury and distinction... and, in addition, a margin of clear-cut leadership in power, getaway, swiftness and stamina so remarkable as to single out Buick as the great performing automobile of the day!

As a result of this leadership—in traffic—on hills—on the highway—Buick wins more than twice as many buyers as any other car priced above \$1200 and pleases them so thoroughly that Buick owners alone purchase more Buicks than the total production of any other quality car.

AIR TRAFFIC

AVIATION MAGAZINE ASKS REPORTER-TELEGRAM TO CRITICISE AN ARTICLE

The Reporter-Telegram has been asked because of its outstanding position among the papers of the state in the promotion of aviation, to criticize an article which appeared recently in *Aeronautics*, an air journal. The article deals with the Coolidge policy of air defense.

"Your opinion on this matter will be very much valued," wrote W. B. Ziff, the publisher.

Ziff said that papers which feature aviation as does The Reporter-Telegram are outstanding and colorful. He said that aviation would grow in proportion to such support.

"Our magazine stands unequivocally in back of General Mitchell in this matter and beginning with the June issue we are not only putting up a strong case for the separation of the Aeronautical service from the Military and Naval services but we are also contending and continue to contend in the future issues that a separate military college should be built for the training of our officers for the aeronautical military service, similar to the colleges at West Point and Annapolis.

"We also contend that this Military College should be located at some spot in the middle west, believing that there are many and cumulative reasons which would call for this location.

"We feel that the entire middle west will be back of us on it and that it has not only the sympathy of the people of the middle west but the full sympathy of the people of the nation."

EXCHANGES ONE LIFE FOR NINE

MINOT, N. D., June 1.—(UP)—Concerned for the safety of a cat perched among high tension wires, Charles H. LaFrenz, farmer, sacrificed his life to save that of the animal.

The cat was stranded at the top of a pole among the wires when LaFrenz, donning lineman's hooks, went up the pole on his rescue mission. As he took hold of the cat, one of the metal hooks touched a ground wire on the pole, and the current, speeding through the cat, killed LaFrenz. He and the cat dropped 30 feet to the ground while a small crowd of spectators stood helpless.

LaFrenz was instantly killed. The cat, unconscious for several minutes, recovered and appeared none the worse for its experience.

BAR, MOUNTED ON WHEELS TO FOIL FEDERAL ACTION

GREAT FALLS, Mont., June 1.—(UP)—The latest scheme of Great Falls bootleggers disclosed during the federal court session, consisted of mounting their liquor establishments on wheels. As soon as abatement proceedings were brought against one of these traveling bars, the owner merely hooked an automobile onto the structure and moved it across the street, or to any vacant lot located within easy walking distance of the business section. Of course, if vacant lots gave out, there would still be the wide open spaces outside the city limits.

That plan was found to be easier than moving bars and other equipment from one building to another, and proprietors claimed that fewer bottles were broken en route.

"MOLLY AND ME" ALL TALKING AND SINGING

The special feature at Grand today is Belle Bennett's first all talking and singing picture, "MOLLY AND ME." She is supported by Joe E. Brown, Alberta Vaughn and many other players. This Tiffany-Tone production reveals one of the warmest love episodes ever adapted from the life of the spoken drama. It's a story of a burlesque team who yearned for Broadway for many years and when the coveted goal was reached only Jim Wilson, the comedy clown of the team was awarded fame.

Joe Brown as Jim Wilson is said to be funnier than ever before, yet he is responsible for a few tears in the tensest scenes of dramatic situations. Belle Bennett, Nationally famous stage artist as Molly, is permitted to wear many more gorgeous gowns than has been her fate in picture work before. As the team of "Molly and Me," the popular stage and screen stars are given wonderful opportunity to display their ability.

The picture is one hundred percent talking, singing and dancing. With a story said to be tender enough to touch any heart, funny enough to bring applause and cheering, enhanced by gorgeous chorus scenes and beautiful settings, another step forward is scored in talking pictures. Carl Emmy's Pets, a gorgeous animal vaudeville, is the Metro Movietone Act supporting the feature. A News reel and comedy will be the silent little features of the program. The show is scheduled for a three day run at the Grand.

Christening Plane to Link Americas

Eight thousand miles—almost the length of two continents—is the flight that lies ahead of this giant Sikorsky plane "Washington," which is here shown being christened by Mrs. William P. McCracken, wife of the assistant secretary of commerce for aviation. The plane, carrying two pilots and ten passengers, soon will be used to inaugurate regular air service between New York, Rio de Janeiro and Buenos Aires.

HERDER A SPARTAN

ENTERPRISE, Ore., June 1.—(UP)—With his right foot badly burned, Phil Hollis, sheep herder, tended his flock for three days until aid reached him. Hollis had built a campfire to warm himself. He retired while the embers were still warm. A breeze sprang up and fanned the sparks onto his canvas shelter, igniting it. He was awakened when the tent filled with smoke. He dressed the burn and waited three days until a camp tender came before leaving the flock.

WALE'S HAT PEG ABUSED

LONDON, June 1.—(UP)—The Prince of Wales' hat peg is badly abused. In the House of Lords he has a special peg in the lobby. On visitor's day hundreds of persons, many of whom are Americans, hang their hats there for a few minutes—just to give their headgear a "Royal hang."

CUSTARD PIE THROWING NO GROUND FOR DIVORCE

HARTFORD, Conn., June 1.—(UP)—Custard pie throwing may be good slapstick comedy but it isn't grounds for divorce. Superior Court Judge Edward M. Yocmans has ruled.

In his unsuccessful attempt to gain a divorce, William Fitzpatrick testified his wife threw a custard pie at his face. Mrs. Fitzpatrick admitted it—with some pride—but denied throwing dishes, hot water and a poker.

A Big String of Fish

You don't catch that proud string of speckled beauties by giving up when the throb of the first nibble is slow in coming.

It takes patience to fish, but it is a pleasure, too. It likewise takes patience to build up a handsome bank account. There is often the temptation to give up at first, when money seems to accumulate so slowly.

But patience wins, and saving money becomes a joyous satisfaction—especially with the modern arrangements which a bank like our makes for you.

"Flying Pullmans" to Take to the Air Soon

HUGE PLANES WITH SLEEPING ACCOMMODATIONS FOR 16 PASSENGERS WILL CUT TIME BETWEEN LOS ANGELES AND NEW YORK TO 27 HOURS

By DAN THOMAS
NEA Service Writer

LOS ANGELES, June 1.—The era of the "flying Pullman," carrying passengers across the continent in little more than 24 hours' time and giving them regular sleeping car accommodations en route, is just about at hand.

Sometime this summer New York and Los Angeles will be connected by a 27-hour passenger plane service, which will use giant Fokker planes of a type thus far talked about but not seen.

These planes—huge four-motored affairs, capable of a speed of 145 miles an hour—will contain the most elaborate, most luxurious passenger accommodations yet found in any airplanes.

Thirty-four feet of the fuselage of each plane will be devoted to passenger space. The width of this 34-foot section is to be nine feet, and the average height will be a little over eight feet. There will be two lavatory compartments, a kitchen, and a steward's pantry at the rear, then comes four passenger compartments where the passengers will ride.

Can Sleep 16 Persons

In the daytime each of these compartments can hold eight comfortable chairs and two folding tables, so that one of these planes used for day flying exclusively can carry 30 persons. The planes designed for night flying, however, will have four Pullman type sleeping berths, each three feet wide, in each compartment. Thus, at night, the planes will carry 16 passengers.

Opening of this service will bring the east and west coasts nearly as close together as New York and Chicago now are by train.

Western Air Express and Universal Air Lines are to operate the links in the transcontinental line, and the work of setting up the organization and charting the routes is now under way. Western Air Express is already operating as far as Albuquerque, N. M., and the run will be extended to Kansas City in the near future. The next step, of course, will be establishing the night service from Kansas City to New York.

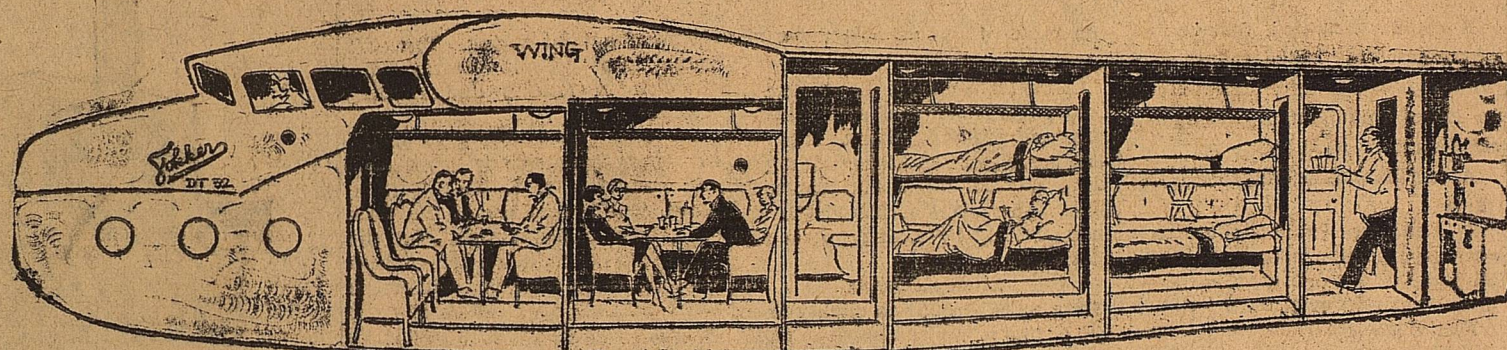

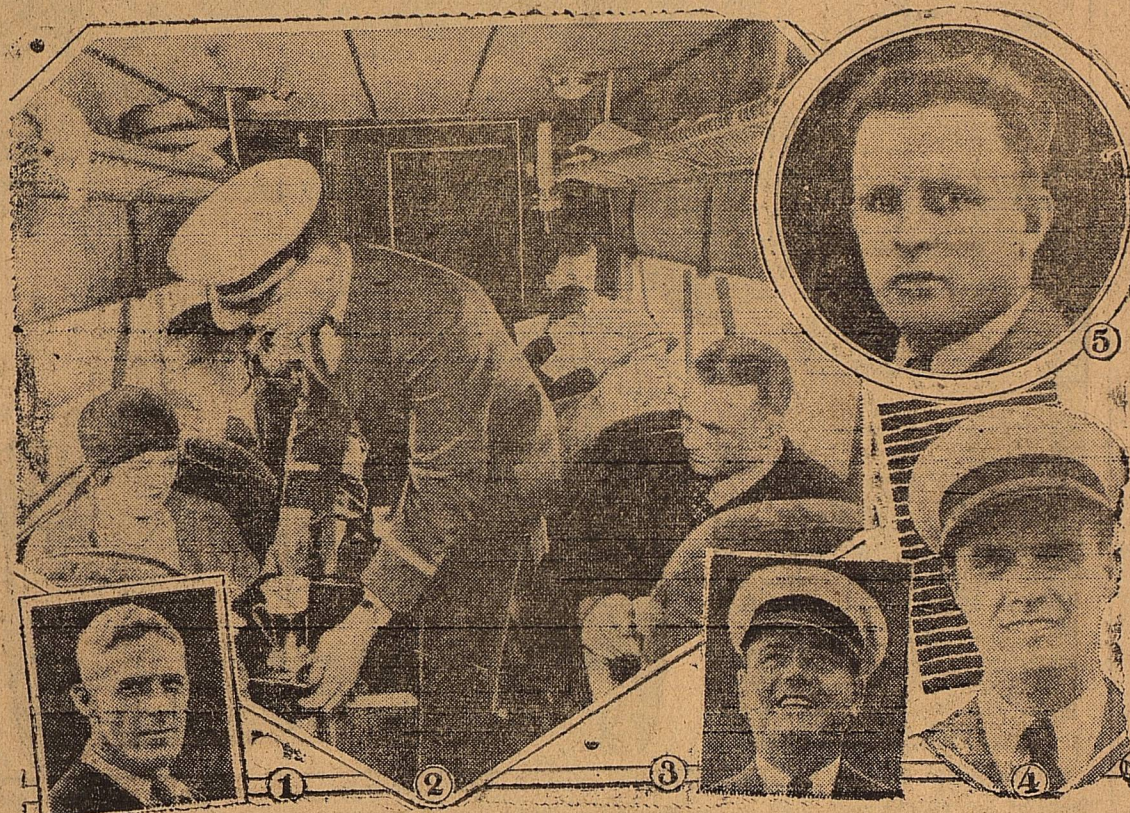

On the present schedule the hop from Los Angeles to Kansas City will take just 14 hours—37 hours ahead of the fastest train time. Two meals will be served en route, and the fare will be somewhat less than twice the fare on the fastest trains.

Have Crack Pilots

Four pilots have already been assigned to the Albuquerque run, and they will form the nucleus of the pilot corps on the extended flight as soon as it is started. These men are Silas Morehouse, Peyton Gibson, Halbert Holloway and George Rice. Three of them—Peyton, Morehouse and Rice—were with the American air forces in France during the war, and Holloway received his training at Brooks Field, Texas, in 1924, and later served as army bombardment instructor. All men have had long experience in commercial flying.

The new "sleeping car planes" which will carry passengers across the country at night are not only the last word in luxury; every effort has been made to make them perfectly safe. The Fokker company points out that any two of the four engines carried will keep the plane in flight even when it is fully loaded, and it has been calculated that the chance of two engines out of four stopping during a flight is less than one in ten thousand.

The interior of a big Western Air Express passenger liner with a co-pilot serving coffee with luncheon is pictured at the right in No. 3, together with some of that organization's crack pilots. 1, George Rice, 3, Halbert Holloway; 4, Peyton Gibson; 5, Chief Pilot Silas Morehouse. Below is a diagram-sketch of the interior of one of the new Fokker "flying Pullmans", now building, which can accommodate 32 daytime passengers and sleep 16.

Each plane will be fully equipped for night flying and night landing, carrying complete lighting equipment serviced by two engine-driven electric generators, in addition to two parachute flares for emergency use. Under each ship's cockpit, high up in the forward end, will be a special cabin for navigation equipment and radio sending and receiving.

These ships, powered by four Wright "cyclone" engines of 520 horsepower, will have a speed of 145 miles an hour, will climb 1400 feet in the first minute and will be able to maintain an altitude of 18,000 feet.

EUROPEAN QUEENS HAVE BEAUTY AND GRACE APLENTY

By HORTENSE SAUNDERS
NEA Service Writer

NEW YORK, June 1.—If you don't believe that modes, manners and haids have become standardized, you need only see the eight international beauties who have just landed in our country to vie for the world title.

And if you believe the flapper is dead, put that idea firmly outside your consciousness, for she lives in every land.

From Seville, supposed city of mantillas and shawls, comes bobbed haired Senorita Rosario Valasquez with a navy blue tailored suit. Miss Rumania covers her raven locks (they're bobbed, too) with a cloche that is almost a dead ringer for the model worn by Miss Holland.

The Short of It
Every beauty wears her hair and her dresses short, and together they form just as typical a group as you can find on Broadway or "Main Street."

The only noticeable different occurs when one attempts conversation. "Como esta Usted," asks Miss Spain. "Wie gehts?" inquires Miss Germany, cordially and Miss France, wishes you "Bon Jour" in her most Parisienne manner. Beauty may be a universal language, but there are lingual complications when eight flappers try to discuss their beaus in as many different languages.

There are those who might think this an advantage, since none of them would be the wiser if a slur against her pulchritude were uttered.

Two Nations Prefer—
The two outstanding blondes are Miss Ingeborg Grahn, representing Germany, and Germaine Laborde, of France. If Miss Germany has more pep, Miss France has the advantage, possibly, of greater chic.

The extreme brunet types are represented by Senorita Rosario Velasquez from Seville, Miss Spain, and Magda Demetrescu, Miss Rumania. Miss England, Bennie Dicks, is not the typical Nordic, but has red-gold hair and a cut that is little short of perfection. Miss Austria, Lisl Goldarbeiter, has dark hair, but a very fair skin. Kitty Hipp, Miss Luxembourg, and Johanna Koopman, who brings greetings from Holland are but what is known as intermediate types.

A Dearth of Dignity
When it comes to dignity, they have little advantage over the American flapper. They all sit with their legs crossed, showing generous expanses of silk stockings and knees. They all register immediate attention at the sight of a good looking man.

Miss Spain answered emphatically that she would view an American millionaire with great favor if he presented himself as a matrimonial offering, and that she would think over a poor but handsome specimen of American manhood. Miss France rolled her eyes and became a second Anna Held when the millionaire idea was translated into French for her, and Miss Germany clapped her hands ecstatically.

Before the beauties go to Galveston, Texas for the international beauty contest, they are having a vacation in New York. The Galveston pageant is scheduled to begin June 8.

PROGRESS MOVES ONWARD

EAST GREENWICH, R. I., June 1.—(UP)—A century-old iron bell in the tower of East Greenwich Academy has bowed at last to modern efficiency. The big bell which for many years served as a municipal alarm clock has been replaced by an electric bell system.

A Bad Flue Causes Fires

Defective chimneys cause many fires. Be sure your chimney is clean and that all the holes are covered with tight metal caps. Prevent this common cause of loss and waste.

Fire insurance is necessary but should not be made the excuse for carelessness. Insure but do your best to guard your home. Get your insurance of this agency of the Hartford Fire Insurance Company.

Fast Freight Merchandise Train Put On

Installation of service from a new merchandise freight train over the T. and P. lines, gives Midland merchants faster freight shipments from east of Dallas, including Dallas and Fort Worth, according to J. J. Hamlett, local agent for the T. and P.

Freight will be received at Fort Worth, for instance, as late as 4:30 p. m., the freight train leave Fort Worth at 9:30 p. m., and arrives in Midland about noon the following day.

Local freight handlers will work the train as fast as possible, in order to give Midland merchants the fastest freight service available.

WALES' GOLF HOME

LONDON, June 1.—(UP)—For the second year in succession the Prince of Wales has taken Middleton House, Sunningdale, for this summer golfing home.

Soviet Political Status Reviewed

(EDITOR'S NOTE: Frederick Kuhl, Berlin manager of the United Press, recently returned from a trip to Moscow during which he was able to observe the soviet political situation. The following article dealing with the gradual loss of sympathy for Leon Trotsky among his own men and the approachment between leading soviet factions was the result of his observations and knowledge of the situation.)

By FREDERICK KUH

United Press Staff Correspondent

BERLIN, June 1.—(UP)—Both the followers of Leon Trotsky and the so-called right wing of the opposition headed by M. Bukharin, A. I. Rykoff, and M. P. Tomsy evidently have concluded a peace or at least an armistice with Joseph Stalin, the virtual head of the soviet government.

Both oppositions realized that they incurred a severe set back following Stalin's victory at the Bolshevik party conference this month. Moreover, the economic difficulties now confronting the government, notably in connection with the grain supply, has hastened reconciliation between the oppositionists and Stalin.

Trotsky's articles attacking Stalin, written since his arrival at Constantinople and published in the "anti-socialistic" press throughout the world, served to alienate the sympathies of Trotsky's own adherents in Russia.

Several leading Trotskyists still in exile told their friends they considered Trotsky's articles an irreparable blunder. Two of the principal ones among them, Kark Ra-

Boy King Reviews His Troops

Most little boys have only tin soldiers to entertain them. But 100,000 real, live soldiers—his own army—were passing by when this picture was taken of Rumania's boy King Michael in the reviewing stand at Bucharest. His 8-year-old Majesty is shown at the right, saluting the colors, and beside him is his royal cousin, Young Prince Paul, of Yugoslavia, who wasn't to be outdone in military courtesy. Behind Michael is his mother, Princess Helene, and at the right is Marie, the Dowager Queen. The capital was celebrating the tenth anniversary of "greater Rumania."

dek, prominently associated with Lenin at the beginning of the revolution and M. Preobrajensky, former editor of Pravda, were expected to be allowed to return to Moscow shortly and resume their work.

Preobrajensky, in fact, went to Moscow supposedly to confer with high soviet officials regarding his return, but he went back to exile, the negotiations evidently having failed.

The two men were expected to communicate to the party their disassociation with Trotskyism.

Bukharin, Rykoff, and Tomsy, leaders of the "right wing oppositionists," have been urged Stalin to slacken his pace in industrialization and show more leniency to the "rich peasants." They argued, in some cases openly, that the rich peasants would be more sympathetic toward sovietism if they in turn were given greater consideration.

The group now, however, has silenced its guns and come to terms with Stalin, who welcomed a reconciliation with it, comprising as it does some of the most outstanding political leaders in the country.

According to Rykoff's own figures, a critical grain situation will arise in 1929, and owing to the six per cent decrease in the area the peasants are cultivating, cereal crops will be 6,500,000 tons less than in 1928 and 12,000,000 tons less than in 1927, which may signify partial famine in local districts.

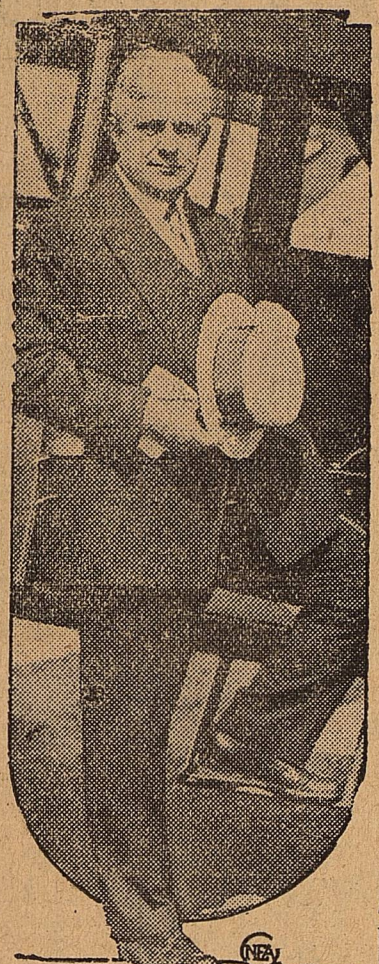

Although the government hopes to prevent such a condition in the country generally, by the introduction of short rations, Stalin opposed consistently any importation of foreign wheat in 1929 while the Rykoff-Bukharin faction was reported in favor of restricted wheat imports not exceeding 500,000 tons.

In either case, an acute shortage in available grain has facilitated a political reconciliation of the oppositionists.

Rykoff's removal as president of the union council of people's commissars was in no way the result of his earlier disagreement with Stalin, but merely a desire to relieve him from overwork.

Besides that office, Rykoff was a member of the politbureau, the highest governing body of the communist party, and also chairman of the soviet of people's commissars of the soviet union. He retained those offices.

Secretary Davis Air-Minded

Add the name of Secretary of Labor James J. Davis to the vast number of those who are becoming air-minded, for he is now employing this mode of travel. The cabinet member is shown here as he boarded a plane at New Orleans for a flight to Atlanta on a recent trip south.

REINDEER CALF IN U. S.

BEVERLY, Mass., June 1.—(UP)—What is believed to be the first reindeer calf ever born in the United States is doing nicely at Lodgeham's North Beverly estate. The young reindeer is jet black and quite long-legged.

Texas Weekly Industrial Review

The following record of industrial activity lists items showing investment of capital, employment of labor and business activities and opportunities. Information from which the paragraphs are prepared is from local papers, usually of towns mentioned, and may be considered generally correct.

Construction of San Marcos' \$60,000 theatre building well underway. Johnson City—Additional equipment installed at local drug store.

Wheeler—New jail building will be constructed here in near future. Highway No. 72 being improved through Shiner.

Actual construction work on Nueces dam ten miles west of Goliad will begin in near future. Lamesa—Catholic Church being built at Miller and South Second streets.

El Paso—Construction of warehouse of Abdon Produce & Cold Storage Company completed at cost of \$250,000.

Contract awarded for erection of \$400,000 Hilton Hotel at Lubbock. Wheeler—Modern sanitarium under construction here.

Plans underway for new highway between Coleman, Winters and Sweetwater.

El Paso—Work progressing on El Paso Electric Company's power plant being erected near the Rio Grande at cost of approximately \$3,000,000.

Theatre building under construction at Johnson City.

Crystal City—Celebration will be held upon completion of Zavalla County's courthouse.

El Paso—13-story office building will be erected at Stanton and Texas streets.

Final 12-mile stretch in Webb County of Laredo-Corpus Christi highway will be paved shortly.

Rio Grande Oil Company will build oil refinery at El Paso at approximate cost of \$750,000.

Nacogdoches—\$40,000 plant of Pure Milk & Ice Company completed recently.

Prospects bright for construction of Federal building at Beaumont. Sherman—Municipal airport formally opened.

Annual Farmers' Short Course at A. & M. College of Texas will be held July 29.

The Refrigerator of the FUTURE

Mechanism on top, hermetically sealed... never needs oiling... quiet, all steel, cannot warp... electrically operated.

\$215
At the Factory
with conveniently spaced payments

THE same group of engineers and scientists who perfected the hermetically sealed mechanism of the General Electric Refrigerator, now have designed and produced an all-steel refrigerator cabinet—the first all-steel refrigerator ever built!

It is a small-family model—entirely of steel—strong and durable as a safe. It has no wood in it. It cannot warp. No cold can seep out, no heat can creep in.

Quantity production and the employment of the most efficient manufacturing methods have made possible this very low price—\$215, at the factory. Never before has any single refrigerator been built in such great quantities... never before has such high quality been available at such a low price.

You will readily understand why this has been called "the refrigerator of the future" when you examine it yourself and compare it carefully with all others. Be sure to come in and see it. This, or any model, may be purchased on easy payments.

Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over N. B. C. network of forty-two stations.

TO THE NEW ADVENTURE!

A Real Home Outfitting Service To BRIDES-TO-BE

A young couple came in the other day and did a wise thing: They told us they wanted to outfit a tasteful home and they told us how much they could afford to spend.

We didn't just show them through the store and point out the price of this item and that item; no, we really studied their problem.

We made up a budget of expenditures for each room. We showed them furniture that was correct in relation to other furniture. We planned out various possible assortments and made the whole outfit meet the requirements set. We didn't boost the total above what was planned.

We are happy in the thought that we've helped outfit a real home, and we aided a young couple in a practical way.

That's the kind of service this store stands for. May we serve you?

Complete outfits for the modest apartment or for the elaborate mansion.
