ILONA TANNER

### Bryant Girl Leads 2nd Straight Year

Tanya Bryant is keeping up the family tradition. Diminutive Tanya, this week was announced as valedictorian of the 1963 Olton High School graduating class.

Only a year ago, Tanya's sister, Alice Ross, ranked at the top of the honor list.

Parents of the girls are Mr. and Mrs. Leo Ross Bryant. Tanya ended her four years of high school with a 96.33 grade average.

Ilona Tanner, daughter of Mr. and Mrs. C. D. Tanner was named salutatorian with an average of 96.0.

Bennett Worley, son of Mr. and Mrs. Bob Worley, was the highest ranking boy with a 92.45 average.

Tanya, besides being a top honor student, was active in school extra-curricular activities.

She was a cheerleader for two years, was a member and officer in the FHA and FTA for four years, first in interscholastic spelling for four years, and was in the Spanish Club two years.

Other accomplishments include being Who's Who in English, outstanding sophomore girl, highest ranking freshman girl, four-year band member, student council representative, and "most likely to succeed."

She was in the National Honor Society three years.

Ilona was also outstanding in school activities.

She was outstanding junior girl, Who's Who in Social Studies, in the FTA three years and FHA for four years.

She was senior best citizen for the second six weeks, sang in the choir, placed in number sense, debate and typing in interscholastic league, was highest ranking sophomore in English II and was the highest ranking girl on the national merit scholarship test.

Worley, who has been making news with his band directing and science exhibits, will be attending college on a band scholarship.

Besides being a national honor society student, he was the highest ranking freshman boy, participated in both the junior and senior plays, was in the science club, and played in the Mustang band four years. Senior students in the national honor society and graduating with a 90 or better scholastic average are:

### Olton Man Escapes In Boat Tragedy

An Olton man and his brother narrowly escaped early Wednesday as Wilburn Chambers, 49, well-known gin owner of the Ropesville area, drowned when a boat from which the three were fishing overturned on Lake Kickapoo near Wichita Falls.

O. E. (Ott) Patterson, 43, Olton, and John T. Patterson, 50, Wolforth, swam ashore.

Chambers' body was recovered about 8:30 a.m. Wednesday, eight hours after the accident. Justice of the Peace Joe Fields of Archer City ruled accidental death by drowning.

Investigating officers said the three were in a new 14-foot aluminum boat with a 40-horsepower motor.

The motor propeller became entangled in fishing lines and the boat was swamped, officers said. It then capsized.

Officers said Chambers became entangled in the fishing lines and was jerked into the lake. The mishap occurred on a section of the large lake known as "Snag Alley."

Ironically, sheriff's deputies and a game warden were to have gone to the lake Wednesday to remove some of the large number of fishing lines in the area.

The body was returned to Franklin - Bartley Funeral Home, Lubbock. Services were pending Wednesday.

Chambers was owner and manager of the Farm Center Gin at Ropesville and had lived in that area all of his life.

## ORC Youth Center Idea Turned Down

Olton Recreation Club Members voted 43 to 26 Tuesday night against a proposal to establish a youth center in the ORC clubhouse.

The youth center was voted down when teen-age dancing became the chief issue.

President Laus Hair told the audience, "ORC board of directors elected last week to let the general membership decide on the question."

A notice was sent out last week to ORC members telling of the youth center and the probability of adult-sponsored dancing.

The center would have been sponsored by the Olton C-C-A civic affairs committee. Spokesmen for the group were C-C-A manager Melvin McReynolds and Lester Thompson.

About 75 persons listened while four high school spokesmen presented their case for having sponsored dancing. Richard Hall, a student representative, said before the vote, "There's not a lot to do in Olton, and I think a youth center would do a lot to keep kids off the street."

A woman in the back said, after costs had become the subject, "It takes a powerful lot of money to let our kids have the car and run up and down the street."

She added, "I had rather invest my money in a youth center than in gasoline."

Another woman said, "I don't see that it will be a youth center if just a couple of monthly dances are sponsored."

"Anyway," she said, "it seems dances could be better chaperoned by parents in the home."

"Who will be invited?" someone asked. "Olton boys and girls should invite the guests they wish to attend. We would want to eliminate stags," answered another party.

"Will there be room for 100 couples," a man wanted to know. "There won't be that many persons attend," said a student spokesman.

Charlie Burrus, high school senior, said, "We had hoped to have ping pong tournaments, game nights, swimming parties and dance instruction to divide the activities."

The question was posed, "How many members would withdraw their membership because of dancing?"

Someone answered by asking another question, "How many will we lose if we don't allow dancing?"

"We're going to lose some members if this thing comes off," said a third party.

Points of issue were: "Where do you draw the age line for students coming out here?"

"Who would chaperon?" "Why do the dances have to be held here and not in homes and garages?"

Hall said, "There isn't enough room in homes and garages, and besides those are the least chaperoned dances of all."

An assortment of questions were fired at civic representatives and students during the course of the hour-long meeting.

Burrus, speaking for the students, said, "We don't want to do anything that might hurt the club or its membership."

Voting was done by crossing out either "For a Youth Center" or "Against a Youth Center."

Names were signed to ballots to see that not more than one member of a household voted.

### Draw Project May Provide Source For Future Water

Will Olton have enough water for municipal purposes in the next 20 years?

That question was posed to civic and city officials last week when they met with soil and water-conservation men.

Attending the meeting were Melvin McReynolds OC-A manager; Gene Wilson, city mayor; Bob Gullett, councilman; and Percy Parsons.

Outlined in the meeting were ways and means Olton could get municipal water from the large multi-purpose dam to be constructed on Running Water Draw.

McReynolds said, "We need to think of it as future water to supplement our present supply."

Several neighboring towns are interested in the project for recreational, industrial and municipal purposes, he said.

Conservation spokesmen told the Olton men that the lake would be 5,500 acre feet. They explained water would be a foot deep in that amount of acres.

"It will hold 162 million gallons of water," one of the men said and will amount to a section of land, eight feet deep in water.

It was pointed out that Olton gained more in population last year than any other town in the county, hinting at the need for more and more water.

"We wanted to make sure that

HARVEY TO SPEAK

Paul Harvey, noted radio commentator, will speak Friday at 8 p.m. in the Plainview High School Auditorium.

The program is sponsored by the Plainview Junior Service League.

## Baseball Drive Off To Big Start

Charles Polk probably wasn't aware that his Little League fund raising motion to "proceed with vigor" would be so vigorous.

Polk made his motion Monday night when it was determined that \$4,400 would be needed to build a new Little League ball park.

As of Wednesday afternoon, approximately \$2,000 had been donated to that cause. Most of the money was raised Tuesday.

"We're going to have a rough time from here on," said Lynn Fite, chairman of the finance committee.

Fite was the man who kicked off the campaign by donating \$200. A list of donors will appear in next week's Enterprise.

The new Little League park, already under construction, lies west of the present baseball diamond.

Five lots were bought last week from an owner in the Dakotas.

Olton Baseball Association paid \$200 for the land with the stipulation that it must be used for a baseball park.

Carroll Cox, president said 70 boys have registered for either Pee Wee, Little League, Pony or American Legion ball this year.

Bub Holt will take the names of boys registering late. He can be contacted at the post office.

Cox told the baseball men that two rules would be enforced.

1. In order for a boy to participate in scheduled games, he must attend workouts.

2. Baseball uniforms, including caps, will not be worn except on the night of the game.

Delmer Givens said that Pony leaguers would need a copy of their birth certificates.

### Hart Re-Sets School Vote

Hart school patrons soon will go to the polls again to determine the fate of an expansion program in the school district.

A new bond election is being planned for Saturday, May 4, it was learned this week.

Hart school board was scheduled to meet tonight to call the election and spell out details of the new bond proposal.

The board met last Thursday night for the first time since the April 6 trustee election and re-organized.

R. G. Henderson, who was re-elected April 6, was named president of the board, while Lorenzo Lee was elected vice-president and Milton Sharp secretary.

Attending for the first time was a new board member, Deryl Clevinger, who was elected in the April 6 vote.

The board discussed pros and cons of the \$460,000 bond issue which was defeated by a narrow margin on April 6. It also canvassed the returns of that election.

"We have begun circulating a petition to call a new election on the bond proposal," said board president Henderson.

"We expect to call the election at our meeting Thursday night."

### Band Concert Set For Sunday

The annual spring concert by Olton school band members will be presented Sunday, it was announced this week by OHS Band Director Jim Priest.

The program will get under way at 2:30 p.m. in the auditorium. No admission will be charged.

THIS TWO-room structure and home of Jose Garcia and family was "guttered" by fire Tuesday about 11 a.m. Firemen were called after flames were already visible through the roof. The house was declared a "total loss". The fire was believed caused by faulty electrical wiring.

### OHS Monument Dedication Slated Monday

Olton High School student body will dedicate a monument Monday to the memory of five class mates who were killed last August in a car-train accident.

Principal Joe Turner said the dedication would be at 8:45 a.m. and that the public is invited.

The monument, built around a flag pole has the names of the deceased students engraved upon it. Its base and a plaque were made possible by this year's senior class.

The dedication has been delayed until United States and school flags arrived.

The five Olton students killed in the tragedy were Diane Smith, Sharon Miller, James Loveless, Barbara Fancher and Carolyn Carson.

### Memorial Fund

A four-foot cyclone fence has been erected around the Olton Cemetery with money which was contributed to a memorial fund for five Olton High School students who died in a car-train tragedy last summer.

A total of about \$1,900 from the \$2,000 fund was spent for the fence, Laus Hair, a member of the fund committee, told the Enterprise this week.

Balance of the fund will go toward a memorial entrance at the cemetery, Hair said.

# Olton Man, Leon George, Tells Of Thoroughbreds

Have you ever watched a race horse run? Probably so. Have you seen one being trained? Maybe so.

Do you know about a thoroughbred's temperament and special diet? Doubtfully so.

There is an Olton man who raises thoroughbreds, and he says the common person probably doesn't know much about them.

He is Leon George, Olton farmer and horseman. He has been raising race horses since 1936.

Presently, there are five thoroughbred brood mares, two colts and a prize stallion in his corrals. Two more colts should be born within the month. Over the years, after having been in the racing circles, George has picked up an abundance of knowledge about race horses.

For example, ask him what makes a winning race horse.

He will tell you, "Good bloodlines, spirit, a short back, short cannon bone, length from the knee up and straight hind legs are all important."

He will grab down his horse books and show you where ancestors to his horses were derby winners and contenders. "I go strictly for stock that will sell," says George.

He has part interest in two

horses that ran last week at the "Rillito Derby" in Tucson. The Olton man also has part interest, along with D.L. Parker and J. M. Machen, in a stallion, "Ricky T.", that crosses bloodlines twice with the famous Sir Gallahad III.

Sir Gallahad led the American brood mare sire list 10 consecutive years. He was also a big money winner.

Now, says George, in the first three generations next to "Ricky T.", all the mares and stallions, except one mare, are either stakes winners or stakes producers.

George says, "Comino" was the best horse I've ever owned. She won the Rillito Derby in 1957, won two races at Phoenix, and won several second and third places."

He pointed to "Miss Quote" and said, "There's 'Comino's' mother; the sire was 'Flitter-pere'."

Continuing his pointing at the several thousand dollar race horses, George said, "These mares are all registered and out of proven stock."

"I made a mistake," he said, "when I first started raising thoroughbreds by buying two unregistered fillies. I couldn't race them or their offspring."

They were hard to sell too, confesses George, because no

unregistered race horse can run on any associated track.

"I had rather raise thoroughbreds anyway than race them," George adds.

He told he had more success selling the colts when they were almost two years old.

George has a brother, Fred, who is a trainer. From him George has learned still more about thoroughbred temperaments and feeding practices.

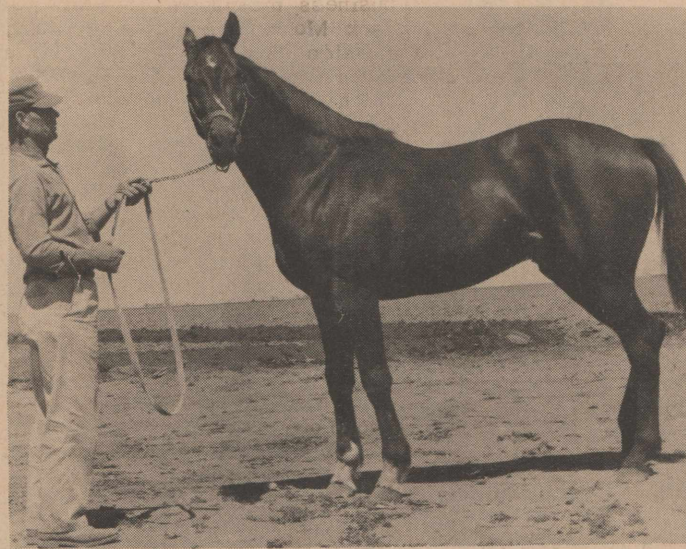

"Every thoroughbred has a different personality," said George, "and you have to treat every one a special way."

Thoroughbreds are high spirited and head-strong and often they develop bad habits that call for stern methods of correction, he revealed.

He outlined a feeding program of oats, corn, sweet feed, linseed meal, brands, salt, minerals and conditioners, which an animal usually is fed to run its best.

A race horse, George said, has a regular check-up. "If his blood count is down, he can't run his best," said the horseman.

Younger horses, especially are fed vitamins and given molasses to build their iron count. They must be in top condition to really run. The horse will have its ears slanted back

LEON GEORGE and prize stallion Ricky T. go for a stroll. The race horse is owned by George and two other Olton men and is a descendant of Sir. Gallahad III, renowned for superior bloodlines in offspring.

if it is running its best, George adds.

George explained methods of breaking a thoroughbred, saying, "A trainer usually takes them when they are about 17 or 18 months old and teaches them to lead behind a 'pony horse'."

Next a saddle and halter are put on the animal, and it is taught to "drive", still without a rider. Neck reining is almost never used on a race horse, said George.

When a jockey finally mounts, he teaches the horse to pace itself, helps it develop wind and endurance, and teaches it how to

change strides on the curves.

A race horse is taught steadiness at the gate; it must pay no attention to noise.

George said he and his brother put a "nanny" goat in with one of their nervous stallions to calm him down.

"At first," said George, "the stallion tried to trample the goat, but later he wasn't content unless the goat was a constant companion."

"Thoroughbreds are my kind of horse," says George. One might place an inside bet on this: Leon George, win, place or show.

## Honors Taken

Untreated plant

Di-Syston treated

Di-Syston Treated Plants Are Stronger, Straighter... Produce More Squares Earlier

West Texas and New Mexico cotton growers now have a new way to control thrip damage and early-season stunting... with Di-Syston granular insecticide. Di-Syston is placed in the soil with the seed or side dressed after planting. The chemical is then absorbed by the growing roots and carried to all parts of the plant through the sap stream—as soon as the plant emerges. No part of the plant is unprotected—even tender new growth as it is formed.

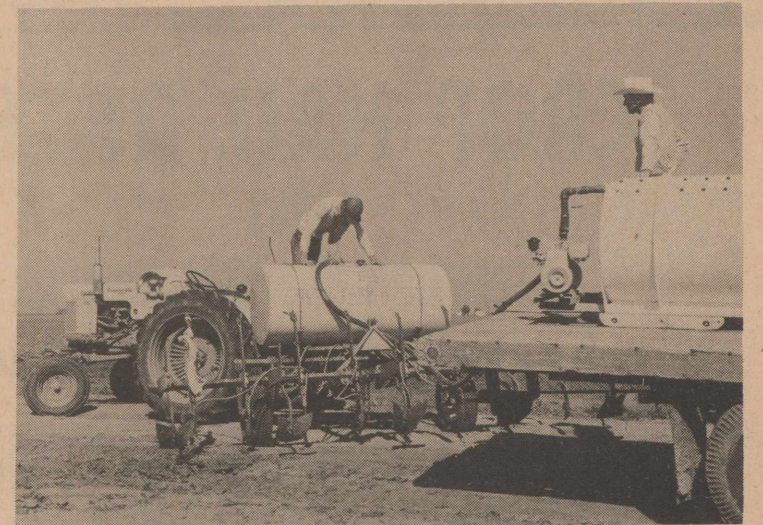

The result? With Di-Syston, your early cotton grows faster, has stronger, straighter stems, more vigorous foliage. Squares form earlier and the plant produces more of them. Many growers in the Lubbock area have reported full season control of thrip with just the one application. You get higher yields because of the good Di-Syston start. This year, get your crop off to a good start with Di-Syston. Complete instructions for use are printed on the label on every package. Use Di-Syston.

## Tryouts Scheduled For Flying Queens

Tryouts for high school senior girls wishing positions on the Hutcherson Flying Queens for next season will be held Saturday April 20, according to an announcement by Harley J. Redin, athletic director at Wayland Baptist College, Plainview.

High school seniors with good academic records and a desire to play college basketball are urged to contact Wayland's director of athletics to make arrangements. Practice session Saturday is scheduled for 8 p.m.

Three or four scholarships are offered each fall to fill slots on the team left by graduating seniors. This year four Flying Queens will be graduated.

"Girls already planning to attend Wayland in the fall are

not required to attend the tryouts," stresses Redin. "It is very difficult to judge a player's ability on the strength of two practice sessions and we would much rather have them enroll at the college for their Freshman year and then come out for basketball.

Scholarships are awarded for one-year basketball ability and academic record compiled each year. They are renewable each spring on that basis.

Girls planning to tryout April 20 may stay in a college Dormitory and eat in the dining hall as guests of Wayland College, but reservations must be made as quickly as possible. Those who will stay must bring their own linens and practice equipment.

### VISIT DAUGHTER

Mr. and Mrs. O. E. Bevers of Lakeview, visited Saturday and Sunday in the home of their daughter and family, Mr. and Mrs. E. J. McKnight.

### Conservation Practice Used

Lamb County ASC office manager L. D. Aten, Jr., this week released a summary of conservation practices used by the county's farmers during 1962.

The work was accomplished under the Agricultural Conservation Program for 1962, Aten said.

Total cost-shares used by the farmers in this county represent approximately 40 percent of the cost.

Most sought after practice was underground irrigation pipeline.

The practices, along with units and dollars used, were:

Planting of Permanent Grass--42 acres--\$35.80.

Deferred Grazing--781 acres--\$385.57.

Establishing Waterways--1000 square feet--\$116.62.

Construction of Diversion Terraces--9999 lin. feet--\$585.85.

Construction of Level Terraces--94,656 feet--\$979.42.

Underground Irrigation Pipe--70,100 acres affected---\$80,212.36.

Bench Leveling Land--56 acres--\$1179.57.

Deep Plowing Land--4428 acres--\$14,513.62.

Listing and Chiseling--22,272 acres--\$7949.14.

Control of Bindweed---16 acres--\$1007.37.

Spreading Cotton Burs--5412 acres--\$21,192.48.

In the back from left are adult leaders Mrs. Archie May and Mrs. G.D. Daughtrey.

### Registration Planned For Pre-Schoolers

Hey, Momma, when do I get to go to school? That question comes up more than a few times for mothers of pre-school age children.

Olton school officials are giving some parents the "nod" for students to sign up Friday, April 19.

That day, says Elmer Moore, business manager, has been set for per-registration of children six years old or before September 1, 1963.

First meeting will be held at 11 a.m. in the school auditorium. Children will be served lunch in the cafeteria, and registration will follow in the H. P. Webb Elementary School.

Members of the PTA steering committee will be on hand to haul children and parent to and from the school. Persons needing rides should call the school.

Moore said it is important that next year's first graders be enrolled now.

"Elementary officials need to plan next year's program and need the names and the total number of children," Moore said.

He also encouraged parents to bring their child's birth certificate.

On the PTA steering committee are Mrs. Eugene Sorley, Mrs. M. C. Church and Mrs. Elmer McGill.

### Cuke Acreage Is Available

Farmers! Do you want to contract some cucumber acreage?

If so, there are approximately 50 acres available says P. A. Nafzger, and he adds, "Dalton's Best Maid Products is contracting the cucumbers and will buy them just as soon as they are harvested."

Farmers who are interested should contact either Nafzger or Elvis Hatley.

"From all information I've received," said Nafzger, "bracero labor for cucumber harvest will be available."

Farmers signing up for acreage will be interviewed by Nafzger to determine if they can handle the crop and the housing of hired help.

Planting date for contract cucumbers will be around May 20.

### Regional Contests Two-Day Meet

Olton athletes and literary winners will be put to the big test Friday and Saturday in Lubbock when they compete in regional interscholastic league contests.

Students in conference AA, A and B will convene at Tech for contests in literary and sports events, including track and field tennis, golf, girls' volleyball, one-act play, debate, journalism and ready writing.

Other contests will be in type-writing, shorthand, number sense, slide rule, science, prose reading, poetry interpretation, persuasive speaking and extemporaneous speaking.

Going to regional in Golf for Olton are Rusty Sherman, Darrell Glover, Billy Cox and Clyde Galloway.

The team won first in the district meet.

### New Kind Of Advertising Appears In Today's Paper

The Enterprise is carrying this week the second of a series of three full-color full-page advertisements for Massey Ferguson and its local dealer, Dorris Machinery.

The series, which represents a new step in advertising history, is appearing in approximately 500 newspapers across the United States.

Dorris Machinery's ad, which appears in the Feb. 14 issue of the Enterprise and appears again today, marked the first time for this newspaper to carry four-color advertising.

The Enterprise is capable on its own of printing three colors through the use of a modern Goss offset press.

The Massey-Ferguson ads are known in the trade as "Hi-Fi Preprints" since they are shipped to the newspapers already printed.

The whole concept of Hi-Fi Preprints developed in New York City where, strangely enough, none of the newspapers print color of their own.

The year was 1958 when a large New York agency decided to look for a way in which color of magazine quality—a "must" for products needing color for eye- or appetite-appeal—could

be placed among the black and white pages of a newspaper, historically the place where buying-minded housewives could be reached.

The solution lay in having the advertising printed before-hand like wallpaper in continuous design, and shipping this preprinted material in roll form to newspapers who would run it into their presses, printing up the backing-up side in the normal way but leaving the front side as it was—already printed in beautiful color.

The final product was an ordinary newspaper with one of its pages in color, color equal in quality of reproduction to any national magazine.

The Massey-Ferguson preprint represents the maximum localization of this kind of advertising to date.

### 1963 Cancer Fund Drive Goes Over Top In Olton

Olton is well out front in its 1963 cancer fund drive.

With money yet to come in, chairmen have announced that approximately \$886 has been raised.

Olton's quota in the drive is \$840. Quota for Lamb County is \$5500.

Jean Caddel, chairman of the house-to-house drive, said Wednesday late that \$334 was the final count in that phase of the operation.

Ed Thompson, general chairman, said \$550 had been raised in the business section of Olton.

George Caddel is chairman of the rural area.

Helping with the door-to-door drive were Mrs. Don Spain, Mrs. Rex Chitwood, Mrs. M. C. Church, Mrs. Owen Norfleet, Mrs. Leo Ross Bryant, Mrs. Gilbert Robertson, Mrs. Bill Turner.

Mrs. Darrell Machen, Mrs. Elmer Houston, Jr., Mrs. Fred Thompson, Mrs. G. W. Locke, Mrs. Garrett, Bley, Mrs. Alva J. Spain, Mrs. W. L. Gardner, Mrs. Frank Struve, Mrs. Jim

Gregory, Mrs. Elmer McGill, Mrs. Earl Douglas, Mrs. Harold Mill, Mrs. Roy Roberts, Mrs. Virgil King, Mrs. K. L. Moss, Mrs. Johnny Clark, Jr., Mrs. Joe Turner, Mrs. Archie Sorley, Mrs. Ed Thompson, Mrs. Rufus DeBerry, Mrs. Wilton Bodkin and Miss Carmen Bley.

Helping with the business drive were Charles Polk, Rex Chitwood, Carrol Cox, Gerald Bizzell, Percy Parsons and Joe Turner.

### Eubanks Child Services Held

Final rites for the infant son of Mr. and Mrs. Doyle Eubanks were held Sunday in the Main Street Baptist Church in Muleshoe.

Dead on arrival at Green Hospital in Muleshoe was 18-month-old Danny Bryan Eubanks.

Mrs. Eubanks is the former Barbara Gray of Olton.

An attending doctor said the baby vomited while on its back, then breathed in, causing asphyxiation.

Services were conducted by John Lewis, pastor of the First Baptist Church, Olton; and by Lynn Stephens, Main Street pastor.

Burial was in Bailey County Memorial Park under direction of Singleton Funeral home.

Survivors are his parents, one sister, Chana, and grandparents, Mr. and Mrs. Floyd Gray of Olton and Mr. and Mrs. J. T. Eubanks.

Pallbearers were Jack Gray and Max Eubanks.

### Ford 6000 Tractors Out

Introduction of a new Ford 6000 series tractor, with more than 100 improvements and refinements has been announced by Adams Tractor Co.

The new tractor currently is coming off the production lines of the Ford Motor Company tractor plant at Highland Park, Michigan, owner A.D. Adams said.

Adams said the 6000 is designed to compete in the over-60-horsepower market, which represents the greatest growth potential for the tractor business.

Last Fall in its first major model change since 1957, Ford introduced an entirely new line of 13 four-cylinder farm and industrial tractors. The introduction of the new 6000 series which will be available in either a diesel, butane or gasoline six-cylinder engine, completes a program to improve every tractor in the company's line. The 6000 carries through the blue and gray styling theme of all Ford farm tractors.

Among the improvements in the diesel version, now in production, are better fuel economy and easier starting with direct fuel injection, a more rugged engine featuring stronger connecting rods, a new engine oil pump, new oil filter and a new air intake pre-cleaner which is standard equipment.

### New Members

Nadene Weaver reported 27 members and five guests present this week at the Olton Women's Golf Association luncheon.

Two persons became new members. They were Mrs. Jack Dye and Mrs. Howard Baker.

Hostesses were Mrs. Walter Malone, Mrs. Max Malone, Mrs. Henry Mathis, Mrs. Charles Loveless and Mrs. J. T. Hall, Jr.

### Science Show Set Wednesday

"Liquid sunshine" powers a portable radio. A small boat-shaped vehicle floats on a cushion of air. And a "misbehaving" suitcase illustrates principles used in modern guidance systems.

Olton High School and Junior students will see these and other interesting demonstrations when the famed General Motors science show, Previews of Progress, appears at the school Wednesday, April 24.

Two members of the General Motors public relations staff will narrate a 45-minute, non-commercial presentation.

### ATTEND FOOD EVENT

Mrs. Harry Thomas and Mrs. Paul McFadden attended a frozen food demonstration at Lady Claire Phillips' home in Littlefield last Tuesday afternoon.

AN IMPORTANT MESSAGE TO THE FARMER FOR 1963

The PANHANDLE MUTUAL HAIL ASSOCIATION has paid back to the farmers an average of 84¢ of each premium dollar over the last 4 years for HAIL LOSSES. The loss benefits is the important and simple crux of any insurance policy, and much sweeter than any token dividend or deviation.

TEN REASONS WHY PANHANDLE MUTUAL HAIL ASSOCIATION IS ONE OF THE LARGEST CROP HAIL WRITERS ON TEXAS CROPS:

1. All Texas policies are reinsured by the LLOYD'S OF LONDON with billions of dollar assets.
2. All liability is mapped and limited by section and township.
3. Approximately FIVE MILLION dollars paid to West Texas farmers for losses the last five years.
4. A-PLUS (EXCELLENT) RATING BY "DUNNE'S FIRE AND CASUALTY REPORT"
5. Required legal reserve (policy holders surplus) maintained at all times and deposits are kept in LOCAL BANKS throughout the West Texas area.
6. The PANHANDLE SPECIAL cotton policy DOES NOT have the REPLANT clause and we DO NOT use the PLANT POPULATION adjustment at any time on this policy.
7. We DO offer the FB-10 with (Replant Clause) and the Broadform policy—full effect on June 5th in Zone 2 at (noon) with replant clause before this date and plant population adjustment at a reduced rate.
8. The PANHANDLE Wheat Policy is the only policy with the "Extra Harvest Expense Award" benefits, also with the 10% credit on Tascosa and beardless wheat, only 48 hour waiting period and a nice premium saving in most counties.
9. Free cancellation on crop failures (See Dates) . . . arbitration clause.
10. Your PANHANDLE MUTUAL HAIL ASSOCIATION wants to serve you with "THE THINKING MAN'S HAIL INSURANCE".

Be sure and talk to your PANHANDLE MUTUAL AGENT now to compare and study the coverages and rates, because of the many coverages that are now being offered, you need to know which policy fits your West Texas farming conditions the best
