## Install Officers Of Lions Club At Annual Banquet

Jack Baggett Takes  
Over Presidency Lo-  
cal Service Club

Jack Baggett, local insurance  
man, was installed as the 1962-  
63 President of the Ozona Lions  
Club at the Club's annual Ladies  
Night program and installation in  
the High School cafeteria last Fri-  
day night.

The installation of the new presi-  
dent and his staff of officers was  
presided over by Lion Deputy Dis-  
trict Governor Harvey Farmer of  
San Angelo.

Included on the new staff of of-  
ficers were Bill Bradbury, first  
vice president; Doyle Elmore, sec-  
ond vice president; James Glynn,  
third vice president; Al Nix, sec-  
retary; Perry Hubbard, tail twis-  
ter; Ernie Boyd, Lion tamer, and  
Eddie Nations and Cecil Hubbard,  
new members of the board of di-  
rectors.

Also installed was Miss Cheryl  
Clayton, daughter of Mr. and Mrs.  
Joe Clayton, a senior in Ozona  
High next year, will replace Miss  
Jan Pridemore who has been the  
club's sweetheart the past year  
and a graduating senior at Ozona  
High this spring.

Entertainment for the night was  
provided by the West Texas Boys  
Ranch. A group of the boys pre-  
sented several numbers mimicking  
popular records and were warmly  
received by the audience.

Outgoing President Woody Mas-  
on presided at the meeting and  
was presented a gift in token of  
the club's appreciation for the  
many hours of work put in this  
year.

Miss Pridemore was also pre-  
sented a gift as a token of the club's  
appreciation of her service this  
year. Miss Pridemore was the Ro-  
deo Queen during the past year  
and is salutatorien of her graduat-  
ing class.

Reporting on the year's activi-  
ties, President Woody Mason re-  
vealed that in excess of \$8,000.00  
had passed through the club's  
treasury this year. Most of money  
made in various projects through  
the year was channeled back into  
the community and worthwhile  
projects of benefit to Crockett  
County citizens.

## Clock Hand Points To Judy Black As Winner Of Watch At Baker's

Miss Judy Black, daughter of  
Mr. and Mrs. Charlie Black, Jr.,  
won the Lady Bulova watch of-  
ered by Baker Jewelers in the an-  
nual Senior Clock Contest.

A big spring wind clock whose  
face was ringed with squares of  
numbers, each representing a  
member of the 1962 graduating  
class, was wound up recently and  
placed in the window. The clock's  
minute hand swept across the  
numbers day in and day out and  
when the motive power of the  
spring finally gave out the clock  
stopped and the minute hand stop-  
ped on the number representing  
Judy who was declared winner of  
the watch.

## Cities Service Gas Plant Near Completion Date

\$3 Million Installa-  
tion Shooting For  
May 28 Finish

With a May 28 completion date  
as a target, work is being rushed  
on the \$3 million dollars gas prod-  
ucts plant being built in north  
central Crockett county by Cities  
Service Petroleum Co. of Bartles-  
ville, Okla. and others.

While a big crew of pipefitters  
and other workmen are busy in-  
stalling the network of towers,  
some of which reach 110 feet in  
the air, rushing to complete the  
plant itself, a crew of workers em-  
ployed by Troy Williams of Ozona,  
contractor, are putting the finish-  
ing touches to a \$15,000 office  
building which the Ozona rancher,  
contractor and now county judge  
candidate, is building on the site  
for Cities Service.

The man who will operate the  
installation as plant superintendent  
is Leon L. Patterson, who has  
moved to Ozona to make his home.  
The Pattersons live at 108 Avenue  
M. Billy Webb is the engineer in  
charge of construction. It is un-  
derstood that Mr. Patterson will  
have two assistants in the push-  
button operation of the modern  
gas products plant. The plant site  
is 3 1/2 miles southwest of Powell  
Field in the West World field. It  
is on Shannon estate land.

The plant will process gas uti-  
lized in the West World and Ranch  
Strawn pressure maintenance  
units. It will recover as separate  
products approximately 50,000  
gallons daily of propane, butane  
and natural gasoline. The plant  
will be jointly owned by several  
interests in the two fields, ac-  
cording to the original announce-  
ment of the plant's construction  
made by Fred H. Ramsey, Jr., of  
Bartlesville, manager of Cities Ser-  
vice gasoline division.

The plant will be designed to  
process 15 million cubic feet of  
gas daily. The low temperature  
absorption process will be utilized  
and basic equipment, other than  
processing columns, will be skid  
mounted and shop fabricated.  
Hudson Engineering Corp. has the  
contract for installation of the  
plant equipment.

## To Dedicate New Post Office At Ceremony May 24

Dedication Program in  
Parking Area Spon-  
sored By Lions

Ozona's new postoffice, recently  
completed at the corner of Avenue  
F and 12th Street, will be for-  
mally dedicated at a brief ceremony  
on the parking lot Thursday  
morning, May 24, at 11 o'clock.  
Postmaster Floyd Hokit announced  
this week.

The event is being sponsored by  
the Ozona Lions Club and the  
Post Office Department will be  
represented by V. E. Bell of Lub-  
bock, real estate officer for the  
Department.

The new facility here is a part  
of the Post Office Department's  
commercial leasing plan under  
which investment financing is used  
to obtain needed facilities which  
remain under private ownership,  
pay local taxes and are leased to  
the Federal government. The new  
post office here was built by Troy  
Williams to the government's spe-  
cifications and then leased to the  
government for a ten-year period.

The Department is now concen-  
trating on constructing new postal  
units only where they are most  
urgently needed, a spokesman said,  
and in areas where it is practical  
to do so, existing buildings are un-  
dergoing renovations.

The public is invited to attend  
the dedication ceremonies in the  
parking area adjoining the new  
post office on the south. Chairs  
will be provided.

## MAHON OFFERED DIST. ATTORNEY POST IN 112TH

Announcement was made in  
Austin yesterday by Governor  
Price Daniel of the appointment of  
Dixon Mahon, Crockett county at-  
torney, as 112th Judicial District  
attorney effective June 1. The O-  
zonan has until that time to ac-  
cept or reject the appointment.

The appointment is to fill the  
vacancy created by resignation of  
Connell Ashley of Fort Stockton,  
who will become associated with  
a law firm in Odessa, and is un-  
til Jan 1, 1963, although Ashley's  
term was for two more years.

The unexpired term will be fill-  
ed by election of a DA in the Nov-  
ember general election. A com-  
mittee composed of party chair-  
men in the affected counties will  
name a nominee to run in the gen-  
eral election.

Mahon's successor as county at-  
torney of Crockett county, if he  
accepts the appointment, will be  
named by the Commissioners  
Court. Mahon being the only at-  
torney here, it will be necessary  
for the court to go outside to find  
an attorney to move here.

## Crockett History To Be Reviewed At Historical Society

Mrs. Carson To Show  
Slides Illustrating  
Talk May 19

The annual meeting of the Crockett  
County Historical Society will  
be held Saturday night, May 19th  
at 7:45 p. m. in the Crockett  
County Museum, located on the  
ground floor of the courthouse an-  
nex.

Mrs. Ira Carson will speak on  
the Early history of Crockett coun-  
ty, illustrating her talk with slides  
which she has made over a period  
of years. With her personal knowl-  
edge of the history of the county  
as background, and her real ability  
as a photographer and speaker,  
the program promises to be most  
interesting and informative. The  
public is cordially invited to at-  
tend.

At the meeting also the election  
of officers will be held and the  
future of the Crockett County  
Museum discussed. During recent  
months Miss Pamela Jones, assist-  
ed by Mrs. Mahlon Robertson, has  
opened the museum for regular  
hours each Monday. A number of  
new items have been donated, or  
loaned, recently and are now on  
display. Miss Jones plans to ma-  
jor in archeology when she returns  
to college this Fall.

Present officers of the Historical  
Society include R. L. Flowers,  
president and Miss Wanda Wa-  
son, secretary-treasurer. The Mu-

## Winds Blow And Blow Night And Day, Still They Bring No Rain

The weather man has a glib  
explanation for it — it's all the  
work of the high and low pres-  
sures that spin the wind clockwise  
or counterclockwise.

But for the man or beast who  
has to be out in it, the harassing,  
irritating, confusing and sometimes  
just plain hellacious wind, that  
blows night and day, hour after  
hour, constantly, all the time, is  
almost too much for the human or  
animal frame to endure.

This part of West Texas has  
had it now for nearly ten days  
without a let-up, winds that fan  
you, winds that slap you, winds  
that push you, winds that rip and  
tear at your clothing and your  
flesh, winds that slam doors, twist  
branches off trees, send hats sail-  
ing through the air, muss up hair-  
dos, constant never ending winds.

Many an old timer will tell you  
that if the wind blows from the  
southeast three days we'll get a  
rain. The area has missed three  
rains already and seemed only  
slightly nearer early this morning  
as the winds abated some and  
there was a light drizzle.

## COMMENCEMENT EXERCISES TONIGHT FOR RECORD CLASS OF 39 HIGH SCHOOL GRADS

The largest graduating class in Ozona High School's history will be

## Open House Here Marks Observance Natl. Hiway Week

Maintenance Dept. To  
Be Open To Public  
On May 25

As a part of National Highway  
Week, May 20-26, 1962 "Open  
House" will be held at the Main-  
tenance Section Headquarters at  
Ozona on May 25th, announced  
District Engineer J. A. Snell.

Any interested resident of the  
area may visit these facilities dur-  
ing the hours 8 a. m. to 5 p. m. and  
observe the daily functions of the  
public agency which is responsi-  
ble for the care in this area of the  
complex network of 2,200 miles  
in this District.

District Engineer J. A. Snell  
said the Open House will show  
the public how the Highway De-  
partment operates on a normal  
working day.

"I would like to extend a most  
cordial invitation to the citizens  
of this area to visit our Open  
House," he said. "Your neighbors  
who work for the Highway De-  
partment would like to show you  
through our facilities and demon-  
strate a few of the many operations  
we conduct daily to care for the  
highways."

Visitors to the Open House will  
see examples of two-way radio  
communications and the various  
machinery used to maintain ex-  
isting roads in smooth riding con-  
dition.

Scottie Houston, Maintenance  
Superintendent, is in charge of the  
local maintenance operations.

### Time To Burn The Flag?

The uproar over the "Liberal Papers", advocating surrender to the Reds on every front, is justified, not so much by their content as by the fact that they were sponsored by 35 members of Congress. That they are Democrats is less significant than the fact they are members of Congress, the body that has always been regarded by the common man as his shield against the ambitions, caprices and failures of the Executive Branch and the ever-expanding bureaucracy through which it operates.

Ordinary people who have not yet conquered a love for their country (once regarded as a virtue) begin to mistrust the meaning of words when they read: "As the cold war continues, it becomes difficult for decent Americans, humane enough to prefer peace to egocentric national honor, to be outspokenly and genuinely anti-Communist."

They are threatened with nausea to learn that we should invite Russia to "plug in" on our Distant Early Warning line of radar sentries in the Arctic; not merely recognize Red China but give Quemoy, Matsu and the Pescadores to Mao and invite him to take Nationalist China's seat in the Security Council; unilaterally abandon atomic testing and open up our defenses to UN monitors; recognize East Germany and realize that West Berlin is only a "moral liability" unsupported by law.

And if such quaint Americans are puzzled that there has been no denunciation of the Liberal Papers from the White House, they shouldn't be. Not after release last September of "Department of State Publication 7277" and formal submission to the UN of this three-

stage plan to scrap our weapons, military rockets, planes and ships and disband the US Army, Navy and Air Force — except for those elements turned over to the UN "Peace Force."

There can be little doubt that both of these blueprints for surrender sprang from the same fuzzy heads and that the Liberal Papers are but a free-wheeling endorsement and embellishment of the official State Department proposal. Their common root is the "Better red than dead" philosophy. But we should like to ask that 35 Congressmen, by what fatuous reasoning are they assured there will be such a choice? In any case, their political demise should be made certain in November.

### ... VANITY AND VEXATION

In case you just don't quite understand what all the furore over Billie Sol Estes is about (if anyone does), it begins to look as if you may have a chance to find out as Congressional investigations into Mr. Estes' remarkable influence and affluence are launched in both the House and Senate.

More important in the long run, certainly, than the conduct of Mr. Estes, the investigations should reveal the colossal vanity and foolishness of farm legislation by which politicians expect to control both nature and economics — and outlaw avarice. To be of any worthwhile benefit, these must break ground for a sane approach to the problems of producing and marketing the bounty of the soil.

IN HIS FIRST WASHINGTON PRESS CONFERENCE since leaving the White House, General Eisenhower labelled the Kennedy power-drive "a threat to liberty in this Republic" that he considered more ominous than the "sudden, calculated onslaught" of an enemy. He deplored "a steady erosion of self-reliant citizenship" and "excessive power concentration . . . in growing Federal bureaucracy".

The remedy, he indicated, is a Republican House of Representatives. But, he might add, they had better not be the type that are over-awed by this power.

### CHICKEN FEED

Did you ever see a million dollars? You will, if you go to this year's Seattle World's Fair. A million silver dollars — weighing 30 tons — will be on display.

It's a sure bet that most viewers will be thinking, "Boy, if I only had that pile of dough!" Who wouldn't? But the sad truth is that if you earned a million in the course of a year, and if you head the average American family of four people, you'd have to pay out \$356,910 in federal income taxes — plus whatever state and local taxes you are liable for.

Moreover, that million dollars,

big as it looks to the vast majority of us, is a tiny drop in a huge bucket when it comes to government spending. It would, for instance, meet the interest costs on the national debt for just one hour and three minutes — or pay the salaries of federal civilian employees for a mere hour and 27 minutes.

So, the question becomes: "Where is a million dollars chicken feed?" Answer: "In Washington, D. C."

### WILLING WORKERS CIRCLE

The Willing Workers Circle of the Methodist WSCS met Wednesday morning in the home of Mrs. Paul Perner to study "Ministry", a theme on meekness, listening, helpfulness bearing and authority by D. Bonhoeffer. Mrs. Morris Bratton directed the study. Attending were Mrs. George Bunker, Mrs. L. B. Cox, Jr., Mrs. S. M. Harvick, Mrs. Bill Groves, Mrs. Bud Cox, Mrs. J. S. Pierce, III, Mrs. L. R. Dorsey, Mrs. Bill Bradbury, Mrs. J. A. Fussell, Mrs. O.

"Thank You, fellow Texans, for the wonderful support you gave my candidacy for ATTORNEY GENERAL in the first primary." — Waggoner Carr

WAGGONER CARR

Election returns tell the story of public confidence in Waggoner Carr's qualifications and his stand for clean, progressive government:

- 43.7% voted for Carr in a field of six candidates.
- Twice as many voted for Carr as for his opponent in the runoff.
- 212 out of 254 counties were carried by Carr on May 5.

## RANCH RECORD

Are More Important

Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

A recent addition to the museum is the metal part of an ancient shotgun, believed to have been an English hand-made gun, found by Bryan Montgomery on the Mrs. Myrtle Mitchell ranch. The gun has a name engraved on each side, but until further scientific study is made, no conclusion has been reached as to whether it is the

the name of the original owner or the manufacturer. One barrel of the gun had been broken off and the other bent back from the broken barrel, suggesting the possibility of an overcharge in one barrel and the consequent sudden demise of its owner at the spot where the wrecked gun was found.

## Quartet Of Graduates Honored At Supper

Pamela Perner, Bill Jacoby, Janet North, and Betty Baggett were honored by their parents with a supper and swim at the Ozona country club on May 9.

The U-shaped table was decorated with a honeycomb world wearing a graduation cap. Styro-foam silhouettes of boy and girl graduates and crystal vases of red roses completed the table decorations.

A barbecue supper was served to about fifty of the graduates and their guests and Mr. and Mrs. L. B. T. Sikes, Mr. and Mrs. J. A. Pelto, Hack Leath and M. A. Moody.

Now fightin' never settled much of anything. Of course Wash & Josh didn't damage each other much but they sure wasted a lot of energy.

All this could have been avoided if Wash & Josh had just looked in the local newspaper's files.

## President Resigns, Other Garden Club Officers Installed

Ozona Garden Club met Monday in the home of Mrs. J. B. Miller with Mrs. Frank McMullan as assisting hostess.

Reports of officers on work of the club during the past year and installation of the new officers for the coming year featured the meeting.

Mrs. A. S. Lock, president, announced her resignation from that office because of the press of personal affairs and her resignation was accepted.

No new president was elected but Mrs. Lloyd Sherrill, who was installed as vice president, will serve as the club head until a new president is chosen. Other officers installed were Mrs. Perry Hubbard, treasurer; Mrs. Glenn Sutton, recording secretary; Mrs. Frank McMullan, corresponding secretary; Mrs. Stephen Perner, historian and publicity chairman.

Mrs. John Childress, program leader, talked on health for roses. A round table discussion on plant care for the summer months followed.

Mrs. Lock announced that the Ozona Garden Club's year book won second place in the state exhibit. Mrs. Tom Ed Montgomery was elected to membership in the club.

Last Thursday, Mrs. Bailey Post and Mrs. Stephen Perner attended the Garden Club Workshop in San Angelo. Mrs. Perner gave a talk on the duties of a president. After lunch, the group toured the day-lily garden of Mrs. Hartgrove.

Other members attending the Monday meeting of the club here were Mrs. Floyd Henderson, Mrs. Sherman Taylor, Mrs. Monroe Baggett, Mrs. John Childress, Mrs. Lloyd Sherrill, Mrs. Perry Hubbard, Mrs. Glenn Sutton, Mrs. Bailey Post, Mrs. W. T. Bradbury, Mrs. Jess Marley, Mrs. Stephen Perner, Mrs. Harry Trulove, Mrs. Mahlon Robertson, and one guest Mrs. L. W. Goss of Rome, Ga.

## An Appreciation

I want to express my thanks to all who voted for me and who worked for my nomination as County Commissioner in Precinct 4.

I plan to make a vigorous campaign, as far as I am able, in the run-off, and plan to see as many of the voters in this precinct as possible before the Second Primary on June 2.

But the time is short and I may not be able to see everybody and I want to make this a personal appeal to all my friends and supporters to be sure and vote on June 2 or absentee by May 29. I will appreciate your continued support.

Speaker Jimmy Turman of the Texas House of Representatives led five candidates in the race for lieutenant governor. State Senator Preston Smith of Lubbock faces Turman in the runoff.

Bill Hayes of Temple won the republican nomination for this important office.

The GOP will have no runoff for state office on June 2.

County Judge Woodrow Bean of El Paso and former Rep. Joe Pool of Dallas went into the runoff for Congressman-at-large on the democratic ticket.

Former Speaker Waggoner Carr of Lubbock and Tom Reavley of Austin are in the run-off for attorney general.

No matter how the four top races come out — Texas will have an entirely new set of top state officials starting next January.

Some 114,000 Texans felt it was time to change parties and cast their ballots in the republican primary. State republican officials were "amazed and delighted" at

the vote, and felt it will grow to many times that by November 6.

**Textbooks Back in Limelight** — After seven months of hot controversy in Board of Education and House Investigating committee hearings, over textbooks recommended by the 1961 State Textbook Committee, a new cycle of interest began Friday as the newly-appointed 1962 committee held its first meeting.

The committee, made up of 15 educators from various congressional districts in Texas, has the awesome task of studying every book offered by textbook publishers. Five books on each public school course due for new material will be submitted to local school boards for selection.

Commencement and parents night will be held on Friday at 7:00 p. m. with the students receiving their awards and displaying their projects.

### THE COMMUNIST FRONTS

At the very height of his power in Europe, Adolf Hitler ruled eighty million people. The communists today rule more than nine hundred million. This is the shocking situation that now exists, with the United States as the only possible roadblock to the communists' march toward domination of the whole world. Small wonder that the destruction of the United States and of the American system of freedom is the principle aim of the sinister Mistaken conspiracy.

We need to be mindful of the fact that the most important single tool in the arsenal of this conspiracy is the so-called "communist front" organization. There are hundreds of these "fronts" and they are even more dangerous, in some ways, than the espionage cells and the training schools and all the rest of the paraphernalia the communists use against us. They consist of organizations, usually headed up by hidden hard-core communists and veteran communist sympathizers, that strive to induce naive persons with big names to serve as sponsors. The "big names" give a spurious res-

pectability to the subsequent policies and pronouncements of the group.

Not all the communist front organizations have been officially cited by the Federal authorities. However, one can judge for one's self by determining just how closely such groups follow the official communist line. Often such an organization will have a highly commendable or learned title with an almost unimpeachable announced purpose. The true nature of the organization will not be revealed until an imposing list of highly respectable sponsors is lined up. Then, after they are signed up, the organization will change gears and become an all-out pro-communist outfit, operating under the umbrella of respectability the prominent names on its letterhead have given it. Just how effective has this all been? Has the communist conspiracy been able to accomplish anything of importance within the United States?

It has done exceedingly well. For example, consider Asia. Lenin said very early in the game that Asia was the key to the encirclement and eventual strangulation of America. The seething, ill-fed masses of China were ideal for communist infiltration and persuasion. But in order to take over China, the communists had to control public opinion in America, especially the thinking of those who led public opinions. They had to get their leaders into key spots. They formed a really effective "front" organization — the Institute of Pacific Relations. Through this front they pushed forward the essential big lie that the Chinese communists weren't really communists at all, they were merely agrarian reformers having no connection with Moscow. The word "communist", we were told, was merely a poor and misleading translation from the Chinese. Many of you will remember this extremely successful public relations propaganda campaign.

In November of 1945, William Z. Foster, titular head of the Communist Party in America, said in the Daily Worker, "On the international scale the key task is to stop American intervention in Chi-

na . . . The war in China is the key to all our problems on the international front."

Intervention in China was stopped. The Chinese Nationalists were denied aid. More than 400,000,000 Chinese were permitted to fall under domination. The Korean War came out of this and, as a result, thousands of American boys were killed in a war they were not permitted to win. Generals Mark Clark, George Stratemeyer, James Van Fleet and Edward Almond, and Admiral Joy have all testified before the Senate Internal Security Committee as to how their hands were tied in the Korean War. All this was because the Communist Party carried out most effectively its number one objective here in America.

The recall of General Douglas MacArthur from Japan was another top communist objective. As early as 1945, the communist publications in this country started raising the cry, "MacArthur Must Go." As the Daily Worker said, September 21, 1945, "MacArthur is building up Japan into a possible bulwark against the Soviet Union and the progressive forces in Asia." The hue and cry was picked up and amplified until, finally, MacArthur was recalled. On May 19, 1955, the Daily Worker openly bragged of the success the Communist Party had in mobilizing public opinion in favor of General MacArthur's recall.

The Communist Party has always been a strong advocate of negotiation in international matters. The reason is that negotiation at high level conferences is a tactic of war to the communist leaders, not a means of seeking peace. As the New World Review told communists in this country, "We must press with all our strength for truce, negotiate, negotiate." This demand was picked up and amplified throughout the country. Eventually it led to our disastrous policy of summit conferences, a policy which has lost us so much in the way of friendship and prestige throughout the world.

More examples? The communist conspiracy has been instrumental in guiding public opinion to the point where a resumption of trade

with Iron Curtain countries has been made possible. It has helped in weakening the Government's security program to the point where it is almost impotent. It has succeeded in damaging the prestige of Congress and creating an absurd and false public image of Congress in the minds of many people. It has been able to weaken the effect of congressional investigations. It has done much to invent the atomic fall-out scare. It has fostered the promotion of welfare state schemes which strengthen centralized government

and bring collectivism closer to our homes. The communists have done exceedingly well against us. Remember these facts when someone next tells you that the communists in the United States are a small, ineffective and almost ludicrous group who pose no real problems for the future security of the nation. They are, in truth, intelligent, dedicated foes — organized to the hilt, completely ruthless, and sworn to the destruction of all freedom, all decency and all legal principles within our borders. Our government, through

the Attorney General, has published a list of Front Organizations. It is to do is consult that list and the communists lie in wait and action. People that are formed can easily be misled. It is essential that what the Mistaken consists of, how powerful what is up to. Armed knowledge we shall fight it effectively — for the sake.

SOIL STEWARDSHIP WEEK  
MAY 27—JUNE 3, 1962

## Importance Of Water Stressed Stewardship Week Observance

Ship Week will be during the period of, according to R. A. man. Crockett Soil District.

events scheduled service are conser- for local ministers vices in observance

Soil Conservation tributed especially- programs, bullet- booklets to church- who request them. are prepared each National Association vation Districts in th an advisory com-

mittee of church leaders presently consisting of: Dr. E. W. Mueller, National Lutheran Council; Dr. Lewis Newman, Southern Baptist Convention; The Rev. J. G. Weber, National Catholic Rural Life Conference; Dr. Henry McCanna, Department of town and Country, National Council of the Churches of Christ; and The Rev. William Davidson, The National Council Protestant Episcopal Church.

The booklets and leaflets suggest that Americans consider the importance of water.

"It is the universal liquid of life and part of our very being. It is everywhere around us, in the air and earth. Without it we could not survive, nor could any plant, animal, or other living thing.

"It is a final necessity, for which man has devised no substitute. "Water can be abundant as to waste and neglect. It can be so scarce as to set man in earnest contest for its vital uses.

"It demands understanding and respect. It has the power and direction to turn the mighty turbines of Grand Coulee. Unmanaged, it can strike in the angry form and force of floods.

"It can produce crops, trees, and grass — or the ugliness of raw gullies cut into an unprotected countryside.

"Water provides the drama of Old Faithful, the majesty of the Mississippi, and the grandeur of Niagara Falls. In its infinite variety it is a thirst-quenching drink for the children of Atlanta, a cooling accessory for the steel mills of Ohio, and vital irrigation for the sunward fields of Arizona.

"It appears as soaking rain on Olympia's forests, the fleecy hush of a Vermont snowfall, and the quick excitement of a Kentucky thunderstorm.

"It is a miraculous gift of God, given to us for our refreshment and endless uses. But our neglect can waste it; our misuse can turn it into offensive sewers of pollution.

"Water tests our sense of responsibility to God and man. It asks for care, requires our self-discipline, and responds to management.

"This priceless water has been here before and by God's plan will be returned again and again for us to use according to our maturity, either with wisdom or with shameful neglect.

"Consider our water. Consider it well."

timely message about one of "the best things in life" that isn't free

# Why you save more than money with U.S. Savings Bonds

One of the best things in life—freedom itself—really isn't free at all.

We pay for freedom many ways. With our vigilance as free men. With taxes. With our commitments to millions of other free men all around the world.

And there's another way, a quiet way, we Americans help pay for freedom. That's to buy U.S. Savings Bonds. For Bonds are more than just a way to save money. Bonds are also a way to help Uncle Sam guard your very right to enjoy the money you save. Let's say you're saving for a home. With U.S. Savings Bonds you also help save a better world to build it in.

Doesn't that sound like a good reason to buy Bonds now?

These days more than ever you'll be saving more than money.

Keep freedom in your future with

## U.S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

This man would say: "Don't buy Bonds". No wonder. The more Bonds we buy, the stronger we grow as individuals and as a nation.

Not all the benefits of Bonds are in dollars. Bonds help Uncle Sam pay the price of liberty itself.

### Four-H Club Members To A&M June 5 For Annual 4-H Roundup

College Station — Four-H Club members from every section of the state will assemble at Texas A&M College on June 5 for their annual statewide 4-H Roundup. The big day will be June 6 when an estimated 1,800 will be participating in 27 judging and demonstration contests.

The boys and girls who will be trying for state honors have already been named county winners and placed either first or second in their respective district elimination contests. They will be accompanied to the Roundup by their county extension agents, adult leaders and/or coaches. Also in attendance will be members of the Texas 4-H Club Recognition Committee and Friends of 4-H.

The annual barbecue, sponsored by the Recognition Committee, will be the program feature for the first evening of the Roundup. Special entertainment on the second evening is also made possible by the Committee.

The contests on June 6 will get underway — some by 7 a. m. — and all will be concluded by mid-afternoon. Winners will be announced later in the afternoon, and several will be eligible to participate in national contests to be held later in the year.

After breakfast on June 7, the annual statewide 4-H meeting will be officially over but as has been the case for more than half a century, it becomes an unforgettable experience to the 4-H members who participate in its activities and contests.
