Film Of Denver City Game Discussed At Booster Club

At a regular meeting of the Olton Booster Club Monday night, it was decided to slate meetings the second Monday of the month for the remainder of the year. Time will be 7:30 p. m.

Ray Schultz reported that approximately 4,000 persons attended Olton-Denver City bi-district football game held here Friday night.

Coach Beck, speaking on the outcome of the game, said he thought the boys played "their hearts out and wanted very much to win, but that is just the way life is -- we don't always get what we want."

"We, the boys and the coaches, wanted to win more than anyone. Some of you have been wanting to beat Denver City for a number of years I know and we thought this was the year for it, but it just didn't turn out that way," Beck said.

"Maybe this is a lesson for these fine young men. They wanted so much to win and didn't. They will be wanting other things very badly in years to come and they may be denied them also -- so maybe this is a good lesson for them."

The film of the game was showed and discussed by Coach Beck as the film progressed. Approximately 30 attended the meeting.

President K. Y. Givens reported that a Browning Automatic shotgun would be given away at a drawing Dec. 17 during halftime at the Olton-Farwell basketball game. The winner does not have to be present to win. Tickets may be obtained from any member of the booster club.

Of the seven who were named to all-district, two were unanimous choices of the coaches, both offensively and defensively, an honor not frequently given to players and very unlikely to be given two boys from the same team.

Trent Sharp Retains Top Spot In Season Football Contest

Going into the final weeks of the football guessing contest, Trent Sharp closed the gap a little more, racking up 126 correct guesses for the season.

Closest contender is Charles Didway, with 124, followed by Bob Allford and Chuck Saul, each with 122 points.

Still in the running are Zelda Beck, James R. Hyatt and Basil Sherman with 120 points.

Complete standings of those top guessers are listed on page 9 of this issue of the Enterprise.

Winning this week's contest was Lois Smith, who missed only one game. Martha Rudd and Trent Sharp were second and third respectively each missing only two games.

Mrs. Rudd was 15 points off on the tiebreaker, guessing it 14-7 Olton. Sharp was off 25 points with a guess of 17-14 Olton.

Others missing only two games were D'Lynne Hall, Bob Allford and James R. Hyatt.

From the 105 entries, only eight picked Denver City over Olton on the tiebreaker.

This week's contest will be the final one of the season. So this will be the last chance to pick up that first place money of $5 for the most correct guesses of the week. Second place is $3, and third is $2.

The season's best guesser will be the recipient of two tickets to the Cotton Bowl game and $40 while second place winner of the season will receive two tickets to the Sun Bowl plus $20.

Area Gins Report 5237 Bales Weighed

A check with three of the area gins late Tuesday night showed that approximately 5237 bales had been weighed in since the beginning of the harvest.

The gins reporting were Olton Co-Op Gin, Jack Straw Gin and Circle Gin. Thompson Gin and Farmers Gin were not reached before press time for a report.

About 500 bales were reported to be on the yard at Olton Co-Op Gin and about 175 at Circle Gin. No yard count was given by Straw Gin.

The cotton harvest, which had just begin to get into full swing was slowed by snow flurries and rains early Tuesday morning which lasted into the day, causing complete halt to stripping operations.

Cotton is reported to be turning out fairly well, ranging from three-fourths to a bale-and-a-third or better, depending on the amount of hail received earlier this year.

Grade of the cotton is said to be mostly middling-light spot and middling-spot , with a large amount also going strict low middling and light spot.

Little Theatre Group Make Plans For Play

Would-be actresses and actors and guys and gals with a flair for publicity, props, prompting or piddling are invited to join potential theatergoers in a meeting at 7:30 p. m. Thursday, Dec. 5 in the high school auditorium.

Principle object of the meeting is the adoption of a proposed constitution and election of officers for the Little Theater group. In addition, an official name will be selected for the organization.

The group is the out-growth of interest that developed when a local group presented three-act plays in the summers of 1967 and 1968 to raise funds for a summer baseball program.

The Little Theater group will sponsor their first play, a three-act comedy, "The Rainmaker" sometime in January. Olton Lions Club will sponsor the performance.

"The Rainmaker" calls for a cast of six men and one woman. Characters include a father, his two sons, the "rainmaker", and two law-enforcement officers with the feminine addition of "Lizzie", an unwed blessing.

Anyone interested in trying out for a part in the upcoming presentation is asked to contact Ruth Holladay.

The play requires many walk-on and minor parts, jobs in production and a job for any person interested in Little Theater in Olton.

STATE Capital NEWS

By VERN SANFORD

Lt. Gov. Preston Smith is making arrangements to take office as governor on January 21.

He already has selected some of his official family. Jim Oliver of the Legislative Budget Board, which Smith now heads, will become director of the executive budget office. Oliver is working on the budget which the new governor will recommend to the Legislature.

Jerry Hall, chief of the Capitol Bureau for Newspapers, Inc. -- the Austin, Waco, Port Arthur and Lufkin dailies -- will become Smith's press secretary.

Certain to have a top job, either as secretary of state or as chief administrative assistant, will be Harold Dudley, who managed Smith's campaigns.

SCHOOL -- New members of the Legislature came to Austin for two days to learn the ropes about the legislative process.

Speaker-to-be Gus Mutscher of Brenham, with the help of the Legislative Council, arranged the orientation sessions. Freshman legislators will thus have an insight into how the legislative process works when they start the 140-day session on January 14.

Turn-over in the legislature this year was low. Only 30 members were named to the 150-member House, and only three new senators among the 31-member Senate. Two of the senators have been in the Legislature before, so there are only 31 in all who have not had legislative service.

POVERTY-- With 28.8 per cent of the Texas families having incomes under $3,000, well above the national average of 21.4 per cent, Gov. John Connally feels that Texas should continue to make every effort to find and cure the cause of poverty.

In his report on operations of the Texas Office of Economic Opportunity, the governor said that $113,038,642 in Federal money was allocated to anti-poverty programs in Texas during the year ending August 31. Grants ranged from the $18,-055,846 used to operate the three Job Corps centers at San Marcos, McKinney and New Waverly to the $8,345,358 allocated to 94 colleges to provide campus jobs for 28,073 college students who needed jobs to stay in school.

COURTS SPEAK-- On January 8 the State Supreme Court will review an Amarillo man's suit against a TV station which identified him as a robbery suspect after he had been released as blameless by police. Lower courts held for the station.

High court will hear arguments January 15 in a suit wherein Ford Motor Company is charged as negligent in manufacturing a brake assembly on a new Ford truck that hit an Amarillo couple's car.

Trinity River Authority was loser in its effort to enforce a condemnation award for property it sought in San Jacinto County. Supreme Court overruled the application for mandamus.

Another loser was a Lubbock man trying to collect damages for arm cuts suffered when he accidentally rammed a fist through a liquor store glass door. Supreme Court declined to reverse the Tyler court of civil appeals rejection of a jury award of $2,524.

High court refused to order District Judge Woodrow Laughlin of Alice to throw out pretrial findings of a retired special judge in a South Texas couple's suit against an Alice hospital.

Secretary of State Roy Barrera recommended that Governor Connally deny a request for an extradition warrant for Paul Amos Sandblom, one-time Corpus Christi financier, paroled to Arizona after serving a federal prison sentence for selling securities without a license. Barrera argued that the state has no right to prosecute Sandblom further on state charges.

OIL YEAR BRIGHT-- For the fourth straight month the Railroad Commission left the allowable unchanged at 41.3 per cent of potential, permitting a December maximum production of 3,027,299 barrels daily.

December pattern will average out the year at 44.9 per cent of potential which (by the old standard) means 164.3 million flowing days -- highest since the 171-days of production during the 1956-57 Suez crisis.

Five of 14 major Texas crude oil buyers asked bigger allowable, three less and six the same.

LAND BOOM-- Buyers aplenty showed up at the Veterans Land Board's sealed-bid sale at which 233 repossessed tracts were offered to high bidders.

Total number of bids was 898, and the Board accepted the high bids on all the tracts except four. One 74-acre farm in Guadalupe County drew 90 bidders. High man was Marion A. Coulter, who bid $22,502.

Board even managed to sell a 350-acre tract in Maverick County on which no bids were received the first four times it was offered. It was one of the "block deals" from the veterans land scandals of the 1950's, and this time it drew 10 bidders.

WELFARE--Social workers for the State Department of Welfare soon will begin to spend their time trying to help solve the problems of people on welfare, instead of checking their income.

A new policy was announced by State Welfare Commissioner Burton Hackney, after the U. S. Department of Health, Education and Welfare decided to try the new system nationwide.

Persons applying for federal-state grants because they are needy will merely fill out a declaration form, and they will be accepted.

Hackney said states that have tried this system, and then tested it by spot-checking, have found that very few people give untruthful information.

So the time of the highly-trained social welfare workers can be spent trying to arrange job training or other programs to help get recipients off the welfare rolls. In the past, much of their time has been spent in a "policeman's role", checking to make sure that those who get old-age assistance, aid to dependent children, aid to the needy blind or totally disabled, did not have hidden sources of income.

Medical certification from a doctor still will be required on those claiming benefits as being totally disabled.

A pilot program has been under way in the Austin, Nacogdoches and Houston areas. It will be expanded statewide by July 1.

APPOINTMENTS -- Governor Connally named Judge F. Parker chief justice of the Ninth Court of Civil Appeals in Beaumont and picked Beaumont attorney Quentin Keith as an associate justice on the same court.

Glenn Biggs, former Abilene businessman, has been named president of National Western Life Insurance Company of Austin and chairman of the board of MidWest National Life Insurance Company of Tennessee. Biggs served for two years as executive assistant to House Speaker Ben Barnes.

TELESCOPE DEDICATED-- Ceremonies were held by the University of Texas Tuesday (Nov. 26) for the new 107-inch telescope at UT's McDonald Observatory on Mount Locke near Marfa in West Texas.

Built for the University by the National Aeronautics and Space Administration and the National Science Foundation, the huge telescope is expected to play an important role for NASA in investigating atmospheres of Mars and other planets.

Previously the main instrument at McDonald was an 82-inch reflector installed in 1939 when the observatory was dedicated.

AIR CONTROL STANDARDS --Air Control Board has suggested new regulations to ban industrial smoke which would cut visibility to less than three miles.

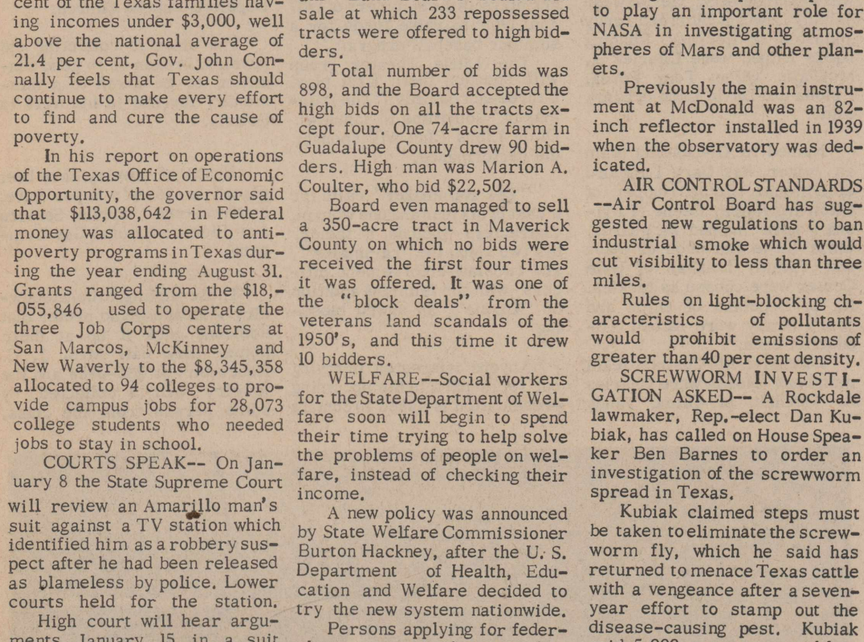

Rules on light-blocking characteristics of pollutants would prohibit emissions of greater than 40 per cent density.

SCREWWORM INVESTIGATION ASKED-- A Rockdale lawmaker, Rep.-elect Dan Kubiak, has called on House Speaker Ben Barnes to order an investigation of the screwworm spread in Texas.

Kubiak claimed steps must be taken to eliminate the screwworm fly, which he said has returned to menace Texas cattle with a vengeance after a seven-year effort to stamp out the disease-causing pest. Kubiak said 5,000 cases reported last month are more than when the anti-screwworm program began.

HEALTH SURVEYS SET-- U. S. Public Health Service will conduct health surveys of 12-17 year olds in Cameron and Harris Counties early next year.

Cameron County visits by PHS teams will begin January 22 and last for three weeks. Harris County survey will begin February 24. About 8,000 youngsters will be given complete physical examinations.

JULIET LOWE TEA, special guest, Mrs. Thelma Vestal, is served by Girl Scout Diana Stewart daughter of Mr. and Mrs. George Stewart. Brownie Kim Rose, daughter of Mr. and Mrs. Garland Rose, stands ready to offer the Field Director a choice of cookies.

Sue's Views

Seeing Red

I may be called a poor sport after this column is read but this morning I am seeing RED!

Not many of you were unhappier about the way the Denver City ballgame came out than I was, I don't suppose. But after going to see the film Monday night at Booster Club, I was even sicker!

But then when I got the Denver City paper down and read their account of all the events, I'll tell you right now, I just plain turned GREEN!

The writer starts his story out with "Whoever heard of a Red Mustang?" The blue Blue Mustangs of Olton! BLAH!

He goes on to tell about the sign our kids had fixed up and paraded around the stadium but .... he didn't even mention the fact they themselves did some parading around before our kids did. Or the fact that they got back to their side untouched, while the sign we were carrying was completely destroyed by their very unlady-like cheerleaders!

Then of all the nerve -- in a personal column, the publisher had the gall to say that "A-J has been on Olton's bandwagon for two years now, and each year, that wagon has suddenly developed a lack of horse power when it met the Mustang gridders".

HA! That is the biggest joke of the century! We NEVER did make the front page score board until Denver City beat us! And if that is what it takes to get on the front page . ... no but no thank you! And if they feel like we are on A-J's bandwagon, I would like to know what it would be like NOT to be! It was next to impossible to ever find our story on our games in Saturday's issue of the A-J.

Then he brags a little about Olton Mustangs, saying that we had "a fine ball club -- and don't let anyone tell you differently". (Then he flubs it again) "But they don't fight as hard as the Denver City Boys. Both teams played fine ball, but Denver City was the better squad."

BLAH! BLAH! BLAH!

He also states that we received a penalty for face-masking called against R. L. Copeland.

OOOOHHHH! I just wonder if he got to see a run of that film! I sure hope he got a real GOOD look at the play when Sel downed their player and caused him to fumble!

Oh, well there is just no stopping point and I have a deadline to meet. But it burns me up when the truth of the matter is distorted to fit Denver City's personal little pride!

ASK IRS

Q - I'm having calendars printed up this year and plan to give them to my customers. Is this a deductible business expense?

A - Yes, however, the law limits the amount you may deduct as business gifts to a total of $25 for any one individual during the tax year. For the purposes of this provisions, the customer and his spouse are generally considered one individual.

That means you can't give a $25 gift to a customer and a $25 gift to his wife and be able to deduct them both as a business expense.

Gifts which cost $4 or less are not subject to this $25 rule if your name is clearly and permanently imprinted on them and they are distributed in quantity. This would cover items like the calendars you plan to give away.

History Texts Omit Teaching Patriotic Pride

Nathan Hale, who said, "I regret that I have but one life to give to my country," is being left out of today's history books, a fact brought to focus at the Texas Congress of Parents and Teachers Convention last week in Houston.

Mrs. L. L. Ledger, State President, in her address to the convention remarked, "We need to build a patriotism that will give every young American a pride in his nation and community.

"Our young are as strong and weak as we make them. If they've lost what we and our fathers cherished, it's because we haven't made it meaningful to them."

Mrs. Charlotte Potter, supervisor of social sciences for senior high schools in Houston, announced that the State Department of Education is now working to establish guidelines for textbooks covering certain periods of history.

Theme of the three-day meeting was "Understanding Your Changing Families".

Delegates from Olton were Mr. and Mrs. Royce McFadden and Mrs. Charles Galloway. Mrs. McFadden is Historian for the local organization. Mrs. Galloway is president of Olton Classroom Teachers.

Poor Health Practices Cause Hospitalization

One out of every six older people will enter a hospital during 1969, many because of poor health and safety practices, according to a specialist for aging with the Texas Agricultural Extension Service.

Most people more than 65 years old stay in the hospital an average of two weeks, twice as long as the average stay of younger people. And the bill will be twice as large, adds Dorthy Taylor.

Persons more than 65 years of age often wait to see a physician until it is too late because they have inadequate resources to meet medical expenses, explains Miss Taylor at Texas A&M University.

Some are modest, some hope to avoid charity and others do not want to burden their families. So they put off seeking medical attention and hope the ailment cures itself.

Sometimes senior citizens try to treat themselves. From previous experiences, they feel capable of diagnosing their ailment. They may use home cures, medications from friends or the wrong medicines, warns Miss Taylor.

Senior citizens often are victims of poor diets. Food fads, food habits and lack of interest in eating when dining alone may lead to poor nutrition, says the specialist.

The older person's diet may be determined less by good judgment and more by the cost of the food or the ease with which it may be prepared.

Poor safety habits also can bring poor health. Two out of three accidents in which aged persons are involved occur in the home.

Recipes Of The Week

A housewife with "only 51 years experience" in cooking for her husband and family, Mrs. Charlie Jones, shares recipes with us this week.

Lorraine and Charlie Jones were married Nov. 25, 1917. Their first 25 years together were spent at their farm home near Springlake, their next 25 at their ranch, "Wild Acres", south of Olton.

"We started our second 50 years together in town" she remarks with a smile. Enthusiastically she adds, "We both love it."

The Jones' pretty new home reflects Lorraine's hobby-needlework and handicrafts of all kinds. She recently completed a needlepoint "painting". At present she is working on jeweled Christmas ornaments fashioned from styrofoam balls, bits of lace, braid, scraps of velvet, beads and sequines.

Mrs. Jones is also an avid reader and has helped activate a library at the First United Methodist Church.

The couple has two children, two grandchildren and two great-grandchildren.

'The Battle Of Palo Duro' Related By Mrs. Jim Fuller

Sixteen members answered roll call as Olton Study Club met, Nov. 25 with Mrs. Bill Yates, the hostess. Mrs. Paul Burrus brought devotional thoughts preceding the brief business session. Mrs. J. L. Carson Jr. presiding.

Program of the day continued the study "Along the Chisholm Trail" and included historical facts pertaining to an area close at hand.

"Palo Duro is an immense slash in the table land of northwest Texas, carved and eroded by ninety million years of flowing water. The chasm starts just south of Amarillo and flows a jagged arc 120 miles to the southeast . . . it's bluffs, boulders, brush, ravines and side canyons had been a haven for south plains Indians for hundreds of years.

"It's abundant growth of trees provided wood and the steep walls offered security from attack."

So said Mrs. J. E. Fuller as she recounted the last Indian campaign of the Panhandle, the Battle of Palo Duro.

She further explained that in 1874 some 3000 soldiers were mobilized under Col. R. S. Mackenzie to subdue these hostile Indians and send them back into the area provided for them in Indian Territory.

Fighting the elements, intense heat through days without adequate water supply, followed by awesome Texas thunderstorms that bogged progress by sticky mud, the troops eventually overcame the illusive hostiles on Sept. 29 by capturing and destroying 150 of their mules and 1274 horses.

This gives rise, said Mrs. Fuller, to the legend that "On Stormy nights a phantom herd of riderless horses thunders the rim of Tule canyon in the Texas Panhandle. The ghostly chargers with flaming eyes and flashing hooves wheel and gallop over the hills where, almost a century ago, they were shot to death by U. S. soldiers."

Mrs. J. M. Thomson of El Paso, an honorary member of the club was special guest. Others in attendance were: Mmes. Roye Aikman, G. H. Bley, J. C. Brown, H. B. Carson, Frank Cornelius, B. C. High School Senior Girls To Take Homemaking Test

Local high school senior girls will take a unique test Dec. 3 -- one on homemaking the only one of its type exclusively designed for girls at that educational level.

This written knowledge and attitude test on all facets of homemaking will be given simultaneously that day to more than half a million girls representing some 15,000 high schools in the nation.

Scholarships to colleges of their choice will be awarded to both state and national winners. The highest ranking girl in each state will receive a $1,500 scholarship and a chance to win one of four national scholarships. These range from $5,000 for the girl chosen Betty Crocker All-American Homemaker of Tomorrow, to $4,000, $3,000, and $2,000 respectively for second, third and fourth place winners.

Runners-up in each state will receive $500 grants with the first ranked girl in each school receiving a specially designed silver charm from General Mills, Inc., which inaugurated the Betty Crocker Search in 1954-55 and has sponsored it every year since then.

Climax of this national homemaking test will be an expense paid tour next spring of Colonial Williamsburg, Va., and Washington, D. C., for each state winner and her school advisor. Winners of the national scholarships will be selected and announced at a dinner in Williamsburg upon conclusion of the tour.

This scholarship competition is on the approved list of national contests and activities of the National Association of Secondary-School Principals.

Science Research Associates, Chicago, one of the nation's outstanding educational testing organizations, prepares the test and has charge of scoring and judging the contestants. Schools of state winners will be presented sets of Encyclopaedia Britannica by Encyclopaedia Britannica, Inc.

New Answer For Carpet

The answer to carpet paths worn by continuous traffic is here -- carpet tiles.

The tiles, not permanently attached to the floor, rearrange to create an original floor covering design, adds Bonny Lay, Extension housing and home furnishings specialist.

Since most carpet tiles can be applied directly on all types of floors, they also can be switched from room to room. When one moves, he can take up the carpet and move it with him, Miss Lay adds.

Carpet tiles come in various sizes, colors and textures. They are available in differing fibers -- a combination of animal fibers, artificial and synthetic fibers: polypropylene which is like some indoor-outdoor carpet; and other synthetic fibers.

For unusual decorative wall treatment, apply carpet tiles to a wall, suggests the Texas A&M University specialist. To attach these to the wall, double-stick carpet tape can be used very easily. All types of patterns can be created with the tiles.

Aubrey Oursbourne

I would like to thank everyone for prayers in my behalf, and for lovely cards received during my stay in the hospital. Friends of Olton mean more to me than words can express.

Ten Rules Suggested For School Buses Use

Ten suggested safety rules for unloading and loading school buses are being sent to superintendents across the state by the Texas Education Agency.

These safety rules were drawn up with one objective: to cut the number of accidents involving school buses on Texas city streets and country roads.

The need for greater school bus safety is underlined by the accident statistics, Richard M. Cummins, Agency director of school transportation, points out.

"Four children have already been killed this year in accidents involving school buses, all of them little tots in the first three grades," Cummins adds.

School buses were involved in a total of 209 accidents during 1967-68, including eight fatalities and 48 injuries, according to Department of Public Safety records.

Nearly half a million children ride school buses 481,475 miles each school day in Texas, travelling along 7,755 routes from big city neighborhoods to the scattered farms and ranches. A total of 399,040 of those daily miles are ridden on surfaced streets or highways while the remaining 82,435 extend along dirt roads.

One key safety suggestion zeroes in on young children, recommending that school bus drivers escort children in the first three grades across streets and roadways at all times. Other rules detail safe methods of boarding the school bus, discharging pupils who live on the right-hand side of the road or across the highway, how students should cross the highway to meet or leave the bus in safe areas, use of flasher lights, and backing (more importantly, not backing) the bus when delivering students.

Tax Man Sam Sez

The Commissioner of Internal Revenue gives these statistics on mathematical verification of individual tax returns in his Annual Report Summary for the Fiscal Year 1967:

-65.4 million returns were mathematically verified; - 3.9 million returns required correction; - 2.4 million were taxpayer errors that caused the taxpayer to underpay his tax. IRS collected $207.5 additional millions from these folks. However, - 1.5 million made errors in favor of the government, and Internal Revenue refunded $94.3 million to these taxpayers who had cheated themselves out of almost $100 million through their own bad arithmetic.

This may not prove that most taxpayers would flunk grammar school arithmetic, but it seems to prove Internal Revenue's repeated warning: "Check it again -- carefully -- before you mail it." That dollar you save will be YOUR OWN.

May Deduct Insurance Dues

Premiums paid on health insurance policies usually can be deducted -- up to a point.

According to Doris Myers, Extension home management specialist, deductions of insurance premiums as a medical expense are limited to payments which cover medical care. This means any money paid for the diagnosis, cure, treatment, or prevention of disease, for malfunctions of the body or for transportation primarily for and essential to medical care, she explains.

Premiums paid for insurance covering reimbursement for loss of limb or loss of time resulting from sickness or accident are not deductible, Mrs. Myers says. Premiums on insurance that provides only for reimbursement of prescription drug costs are deductible.

The Extension Service specialist at Texas A&M University advises keeping records of all medical costs. One never knows at the beginning of the year if such cost will be large enough to justify itemizing at income tax time.

ASK IRS

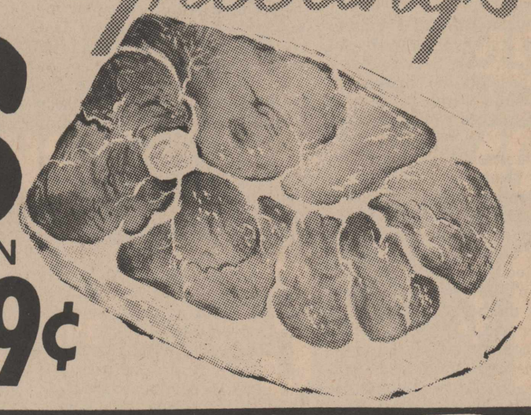

Q - Does IRS have the legal right to seize somebody's property or bank account for unpaid taxes?

A - Yes, Federal tax law provides several actions that IRS can take to protect the government revenue when a taxpayer refuses to satisfy his obligations voluntarily.

Before enforcement action is taken, a person who owes taxes is given ample opportunity to voluntarily pay his tax liability. A taxpayer is sent several written notices and invited to visit IRS offices to discuss the matter. If in response to any one of these notices the taxpayer cooperates, no enforcement action is taken. Only when all attempts to gain the taxpayer's cooperation in regard to the settlement of his tax liability have failed, does IRS initiate levy action to enforce the law.

Big Blue Loses Bi-District Bid 6-0

Olton's Mustangs lost a 6-0 heart breaker here last Friday night in bi-district play to the visiting Denver City Mustangs.

This was the second year in a row that the Denver City team has beaten Olton in bi-district play. Olton has never beaten the visitors from the south in football.

Friday night's game was a squeaker all of the way with neither team being able to do more than gain a first down or two until someone fumbled or intercepted a pass or was forced to punt.

Olton gained two penetrations in the first half of play before the half ended in a 0-0 tie.

Early in the third quarter Denver City's quarterback Gene Richardson went back to toss a screen pass and the hard charging Olton line recognized the play and fell back to cover the play.

Richardson's short receivers were covered so he threw long to one of his halfbacks. But as Olton's R. L. Copeland went for the interception, D. C. back Jimmy Youngblood, 'not the intended receiver', flew by from the side stealing the ball from the D. C. receiver and R. L. both.

Youngblood set sail for the goal line and Olton's Sel Sanchez made a diving tackle to bring him down on the Olton eleven yard line, causing him to fumble. An Olton Mustang landed on the ball but officials ruled the play dead before the fumble.

Halfback Robert Hernandez carried around his right end on the next play for the 11 yards and the winning touchdown.

John Powell's kick for the extra point was no good and Denver City was in the lead 6-0 with 7:24 remaining in the third quarter of play.

Olton threatened several times later in the third quarter and fourth quarters only to have a fluke play go bad or have a first down pass intercepted by Denver City's alert defense.

Denver City received possession of the ball the last time in the fourth quarter with 0:47 seconds remaining in the game and was content to run out the clock preserving their 6-0 lead and enjoy their victory over the Olton team.

Olton got a break early in the first quarter of play when a pass interference penalty gave the Olton Mustangs a first down on the D. C. 46 after moving from their own 20.

On first down from the 46 halfback Benny Akin skirted left end picking up 15 yards to the Denver City 31.

Charles A. McClain picked up Olton's first penetration of the night by carring to the D. C. 18.

On first down Kenneth Johnson moved to the D. C. 6 but had a penalty on the play nullifying it. The penalty and a fumble left Olton with fourth down on the D. C. 23.

Benny Akin's fourth down field goal try was no good giving the ball over to Denver City.

Olton's extra tough defense held the Mustangs from the South forcing them to punt on fourth down and Olton was in business again on the D. C. 43.

Both teams then had to swap punts as they were unable to penetrate each others defense.

Denver City then moved to the Olton 26 before having a hand-off go astray with Olton recovering on their own 38 yard line.

But on third down Denver City's Mike Terrell fell on an Olton fumble giving the visitors excellent field position on the Olton 33.

After being unable to move, Denver City's John Powell tried a field goal only to have it be off to the side and short.

Olton's R. L. Copeland fielded the ball and nearly broke away as he returned to the Olton 38.

Olton's fired-up Mustangs then moved to the D. C. 35 before a pass interception killed their drive as D. C. halfback Hernandez made the catch on the D. C. 20.

But on first down the Olton defense got to the D. C. quarterback as he passed and made him throw off target with Olton's Gary 'Bull' Durham intercepting for Olton on the D. C. 34, with 0:55 remaining in the half.

Olton moved to the D. C. 30 with McClain and Johnson doing some very hard running.

Benny Akin tried a field goal with 0:12 remaining in the half only to have it go wide.

Denver City got one play off before the half ended with halfback Hernandez carrying and nearly having to be carried off of the field as he really got hit on the play.

With the score 0-0 as the third quarter of play started D. C. kicked off to Olton and held them forcing Olton to punt.

On third down on their own 22 Denver City, then completed their only pass of the night to Jimmy Youngblood who carried it 67 yards to the Olton 11 before Sel Sanchez brought him down from behind with a diving tackle.

On the next play Robert Hernandez scooted around his right end for the touchdown and Denver City had put one in on Olton.

Extra point try was no good and the Big Red was in the drivers' seat 6-0.

Olton was behind 6-0, the first time this year they had ever been behind in a ballgame having been tied only once early in the Dimmitt game.

Olton's Mustangs came back after the D. C. touchdown with the intention of winning the game as Charles A. McClain picked up 18 yards to the Olton 38.

Copeland gained eight out to the 46 and Johnson picked up another first down at the D. C. 49.

Johnson picked up six more yards to the D. C. 43 and Akin gained four more to the D. C. 39 and another first down.

Then in comes a pass play and Don Orr's boys intercept the pass to nail the lid shut on the Olton drive.

Both teams then swapped punts with Olton using eight plays to move to the D. C. 39 before having a fourth down pass go incomplete in the end zone and having to give the ball up on downs.

Denver City picked up their other penetration by recovering an Olton fumble on Olton 35. On second down Q.B. Richardson carried to the Olton 17 before being brought down by Eddie Hooper.

But the Olton defense held with Denver City trying a field goal on fourth down only to have it go wide and no good.

Olton then put five plays together for two first downs in moving to the Olton 49 and then had a fourth down pass fall incomplete giving the ball over to D. C. with 0:47 seconds remaining on the clock.

Denver City smilingly used two plays to run out the clock and give them the bi-district trophy.

Later in the dressing room when asked about the game. Denver City head coach Don Orr who looked like the cat who had swallowed the canary just said 'It was a tough one'.

Denver City meets Iowa Park in Snyder this Friday night at 8 p. m. in their play off game for regional honors.

Olton's team played wonderful ball Friday night and did just about everything except score and beat Denver City.

All the boys played a great game with Eddie Hooper leading the way both on offense and defense.

Last Friday's game was the last football game for most of the boys tn the Olton team ,but for others it was just probably the beginning as several of the boys are capable of going on and playing college football.

Suiting out in the blue and white of OHS for the last time were - Johnny Lewis, Charles McClain, Dusty Rudd, Sel Sanchez, Monty Roberson, Kenneth Johnson, Guy Ballard, Benny Akin, Jason Latimer, Danny Sides, Frankie Buckner, Tony George, Eddie Hooper, Joe Hernandez, Kim Parker, Steve Burleson, Gene Warren, R. L. Copeland, and Joe Luera.

Christmas Seals Campaign Provides T.B. Tests, X-Rays

Money contributed to the Christmas Seal Campaign now underway will provide tuberculosis testing in the public schools, chest X-rays for any citizen wishing it, and a wide variety of other services, according to Mr. Ray Schultz, 1968 Christmas Seal Chairman for Olton and member of the board of directors of the West Texas Tuberculosis and Respiratory Disease Association.

Letters containing the attractive seals are now being mailed to some 80,000 residents of the 23-county area. The drive will continue through December.

The Christmas Seal Mobile Detection Unit goes to any county requesting it to take chest X-rays. During the past seven months, the unit made more than 19,000 X-rays, disclosing abnormalities in about one out of every 40 films. In addition to tuberculosis, these X-rays alert people to the presence of emphysema, heart disease, and cancer.

Over 30,000 school children are being tested for tuberculosis this fall. In many instances, a positive tuberculin reaction in a child, leads to the discovery of an active case in his immediate family. This testing service is available to any school upon request from the superintendent or principal.

The association cooperates in offering the services of an out-patient clinic in Lubbock, where doctors from the association see patients from throughout the area who are unable to return to the state hospital for check-ups.

A continuing education campaign makes available speakers and the latest films for bookings before schools, service clubs, church and civic organizations, presenting information about the prevention and treatment of lung disorders.

Seventy-five cents out of every dollar raised in the 1968 Christmas seal Campaign will remain for services in this 23-county West Texas Area. Another 18 cents will go to the Texas TB and RD Association for work best carried out on a statewide basis. Seven cents will go to the national office for its expenses and its educational research programs.

"A contribution to the 1968 Christmas Seal Campaign represents a bargain in health," states Mr. Schultz. "A community is safe from the contagion of tuberculosis only when all cases are found and treated. Early detection of other chest disorders can prevent much suffering and save much money. We feel confident that everyone who can contribute to this worthy cause will benefit."

CONSIDER THE *COMPLETE* COST

How much does it cost to get well these days — compared with years ago? If we figure only on the basis of Rx prices, it might seem that today's cost is greater. But the fact is that today's prescription generally cuts down on the number of doctor visits . . . and eliminates or shortens the hospital stay. As a result, the *complete* cost of getting better is much less now than it used to be. That's why we say . . .

Now don't let this question throw you. It's not a trick question, so we're sure that you can answer it correctly if you try hard enough. It doesn't have anything to do with a teachers meeting. No, it's not a practice for Christmas, and no, Mr. Turner didn't have much to do with it.

The question is simple enough -- Why do we get out early Wednesday? But with as little emphasis as has been put on Thanksgiving recently it might be a difficult question for some of us to answer, which is a very sad situation. Then again, why should we take Thanksgiving seriously? I mean, what do we have to be thankful for? Take a few seconds, if that's all it takes, a few moments, or a lifetime to think of something or some of the things you should be thankful for. Oh, and have a happy Thanksgiving.

We regret to report the loss of a very familiar member of our OHS student body. We just wanted to say, we'll miss you Red, and hope you'll be back to your old self soon (?)

The second six weeks best citizens are posted on the wanted list -- oops -- on the bulletin board. They are (Da-Da-Ta-Da) Seniors: Letha Estes, Eddie Hooper; Juniors: Marlana May, Mike Phillips; Sophomores: D'Lyle Wilks, Greg Smith; and at last the Freshmen: Rebecca Hodges, Fabian Minjarez. Congratulations, you lucky, neat, teachers' pets!!!

Chosen at random last week (which means we had another one of those disorganized class meetings) were the Favorites. Ha! The joke's on you winners. --- they didn't specify favorite WHAT!! No matter, the winners are Seniors (oh, we just love that word!) Letha Estes, Danny Collins; Juniors: Kathy Peterson, Ronnie Truelock; Sophomores: D'Lyle Wilks, Greg Smith; and last again, Freshmen: Teresa Wilks, Steve Stockdale.

Each class was also to choose an Annual Queen and King candidate. Surprisingly enough, with the aid of their wardens -- sorry -- sponsors, each class did this. The candidates are Seniors: Kathi Norfleet, Eddie Hooper; Juniors: Leslie Holladay, Gale McClain; Sophomores: Linda Upchurch, Jim Key; and those adorable Freshmen: Dona Sorley, Lonzo Springer.

The 1968 football season for the Olton Fighting Mustangs came to a close last Friday night. That game completed a two year record of 19 wins, 2 losses which tells a fantasic story in itself. Few, VERY few teams can boast of such a good record. We're more than proud of you, Mustangs, for your high spirits, your great ability, your desire to win and because of that desire you played your best at all times, and especially for your dedication to the game, the coaches and your will to honor OHS. We, as representatives of OHS, would like to say congratulations and a hearty thanks for such a great season, one that we are all proud of.

A district FFA meeting was held in Olton at the school Tuesday, but we're afraid that is all the information we have available at press time, except some of the boys weren't that bad looking, were they B. R., B. R., and M. P. ???

Somebody told us that girls basketball was getting started with a good team and great hopes for a winning season -- now what was that captain's name???

Let's hear it for -- 18th birthdays!!! Unexpected flowers -- getting out of school for a few days --- teachers that you can talk out of tests -- finding an album you thought you'd lost -- unexpected phone calls -- studying for the RIGHT things on a test -- girl friends who will chance wearing pants with you on a cold day-- "cookie" jars -- long letters from somebody else -- Quenette Redinger -- John Milton's 'Paradise Lost' -- boys in turtleneck sweaters -- May 23, 1969 -- the end of this column -- and Morgo as the friendly dragon.

The cutest award this week goes to a thing -- er--person (sorry again). May we have the envelope, please. It goes to -- Mr. Howton. Well, we think you're cute, Mr. Howton.

Just remember, Karen M. your - could be next-

And now -- our definition of Love.

What is Love? Love to a younger brother or sister is having you get up and watch the "Macy Day Parade" with them.

A & M Specialist Lists Good Buys

New crop citrus fruits, many from the Texas valley area, are adding holiday spirit to local markets, reports Gwendolyne Clyatt, Extension consumer marketing specialist.

Grapefruit supplies are increasing and price is decreasing. Oranges, tangerines and tangeloes are on the market.

Green-skinned Fuerte avocados are beginning to come in with more reasonable prices, according to Mrs. Clyatt, a specialist with Texas A&M University. Since the new crop is large, avocados should be plentiful this season.

Due to limited supplies, apples are not inexpensive but occasional bargains are in sacks of smaller apples. Most of these are the right size for eating out of hand and are as flavorful as the large fruit.

Mrs. Clyatt reports best vegetable buys in carrots, celery, cabbage, cauliflower, turnips, rutabagas, broccoli, sweet potatoes and dry onions.

Beef supplies are ample, but she expects no price changes in the near future. Chuck and rib roasts are currently featured. Figured on a cost per serving basis, boneless roasts often cost no more than the bone-in roasts and are easier to serve.

Turkey prices are up a bit as demand increases. Fryers are featured in many markets as good protein choice.

Egg prices are on the upward trend again as holiday baking and extra cooking gets underway, however, good values in large size grade A eggs are available, Mrs. Clyatt says.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

One of the favorite past times around our house this week, and for days preceding, has been counting the hours - you know, "It's just 72 hours until number one son gets home."

And down at A&M he's been subtracting, "Only 51 more hours until we start for home."

It's sort of like it was ages ago when I'd count off the days till Christmas to see what Santa would bring me.

Do you realize how our Thanksgiving Days have changed through the years? Remember how they were before we were blessed with that wonderful household necessity, television?

Why, those were the days when we had no Macy parade and football was missing from the menu! Can you imagine Thanksgiving Day or New Year's Day without their football games?

Say what you will about television - I'll just bet that the battle hasn't been fought yet that would equal the fight we'd have if someone tried to take television from us!

I can't remember what we used to do when we had old-fashioned family get-together Thanksgiving Day - besides eat and visit with each other, that is.

I've been trying to blow away enough cob-webs to remember how "us kids" used to celebrate the day. The only things I can remember are those wild activities such as "hide and seek" and Monopoly!

I have no trouble, however, remembering the Dinners! I think that my mother should have been awarded a Best Cook Trophy many years ago! And my aunts and grandmother were good, too!

I might add here that I surely am thankful that we live in the part of the country where dressing is made from cornbread!

I don't know why it was but one of our family holiday foods, when I was a girl, was potato salad. I don't mean JUST ordinary potato salad but the kind you make with diced potatoes and "everything but the kitchen sink." The rest of the year our potato salad was mashed up potatoes, pickles, onion and boiled egg. The GOOD kind was just for family get-togethers like Thanksgiving, Christmas, New Year's or Mother's Day.

Just imagine! Calling them the "good ole days"!

I'm getting hungry so - 30 - dear readers. May you have a wonderful Thanksgiving Day.

DID YOU know that if you are between the ages of 18 and 22 you can attend school on social security? That's an exaggeration but you can draw student benefits if your dad or mother is drawing and social security benefits may allow you to complete your college training.

School Menu

MONDAY- Meat balls and tomato sauce, cream style corn, green beans, pickled beets, peaches, cookie, rolls, butter and milk.

TUESDAY- Chicken salad sandwich, vegetable beef soup, peanut butter and crackers, sliced pickles, orange juice, doughnut and milk.

WEDNESDAY - Baked ham, sweet potatoes, marshmallows, broccoli, pineapple salad, banana bread, rolls, butter and milk.

THURSDAY- Enchiladas and sauce, brown beans, lettuce and tomato salad, apricots, peanut butter brownie, corn bread, butter and milk.

FRIDAY- Fried chicken, cream gravy, steamed rice, buttered blackeyed peas, celery sticks, spiced crabapple, date cake, rolls and milk.
