COTTON SAMPLES POURING INTO CLASSING OFFICE

Weather varied from warm and dry the first part of the week to scattered rain that fell Friday. Cotton harvesting progressed steadily says, B. B. Manly, Jr., Officer-in-Charge, of the U.S.D.A.'s Cotton Classing Office in Abilene, Texas.

A total of 34,324 samples were classed for the week ending November 8, 1963. This brought the total bales classed during the current harvesting season to 252,149, as compared to 127,662 total bales classed through the corresponding week, one year ago.

Due to favorable weather and the lack of a killing frost, sample receipts remained steady from District 2, and in the previous week 25,100 were classed. The portion of District 2 served by the Abilene Office is composed of the Counties surrounded by Dickens, Sterling, Runnels, and Jones.

Grades showed a slight decline over the preceding week. Eight percent was classed in the White grade category, 88 percent was Light Spotted, and 4 percent was Spotted. The predominant grade continued to be Middling Light Spotted, making up 63 percent of the total samples classed.

Staple length was shorter with 8 percent being classed as 7 8 and shorter, 59 percent was 29-32; and 32 percent was 15-16 and longer. Micronaire readings showed a slight decline for the week, one percent "miked" within the range of 3.0 to 3.4; 10 percent was 3.5 to 3.9; 44 percent was 4.0 to 4.4; 39 percent, 4.5 to 4.9; and 6 percent of the readings were 5.0 and higher.

CHAMPIONS

This time of year, when football is fading from the scene and basketball, track and other athletic events are coming into their own, every community hopes to be the district representative. We take pride in seeing our teams wearing the sweaters with the arm patch reading, "District Champs". It is something to be proud of.

But what is a Champion? Pat read the statistics on the game with Robert Lee. Touchdowns were even. Total yardage was just four yards less for Loraine than for Robert Lee. Pat does not recall the first downs but there was an outstanding fact revealed in the "stats" Loraine received no penalties while the opponents received twenty yards in the same.

These facts are saying in very loud tones that our boys played clean. Pat is not saying the others did not also. But it is very much to the credit of our men that no penalties were assessed against them. This is one mark of a champion.

The fact that our team lost by extra points reveals they were playing hard. They were giving their best. Pat knew a preacher that told the congregation he was among the best in that section of the country. A layman laughed at him and he replied, "Every time I preach, I give it my best. I cannot help it if someone else's best is better than mine." Pat thinks we will agree that our team gave it their best. That is another characteristic of a champion.

Working as a team is another mark of a champion. Our team did just that or they would not have made the great showing they did.

Pat thinks the whole community will join him in saying, "We are proud of you, in our hearts, you are still champs. PAT

Robert Lee Steers Edge Bulldogs To Cinch District Championship

The Robert Lee Steers last Friday night squeezed past the Loraine Bulldogs with a margin of four points to cinch the District 8-B title. The Steers have won all of their 9 games this season many of them by whooping big margin and have only one game left to play. Bronte will host the Steers next Friday night but even if they should defeat them the Steers will be district champs because Bronte has lost 2 games during the conference season. Had Bronte defeated Trent Friday night then went on to defeat Robert Lee next Friday the district would have been in a three-way tie for the title with Loraine, Bronte and Robert Lee sharing the honors.

The hard running of Derwood Coalsen paved the way for the defeat of the Bulldogs along with lost fumbles that hurt the Bulldogs.

The Bulldogs held the Steers on their first series of downs after the kickoff and forced them to punt. On the first play from scrimmage for the Bulldogs a fumble on their own 21 yard line was recovered by the Steers who scored two plays later on a 19 yard run by Coalsen around left end. Dodson went through the middle for the extra points.

Late in the first quarter Stanley Moore passed to Larry Delights for 8 yards and a touchdown. Garcia failed to get through for the extra points.

The second quarter was scoreless so the half ended with Robert Lee 8 and Loraine 6.

At the beginning of the third quarter the Steers held the Bulldogs and forced a punt. On the first play after the Steers took over Coalsen scampered 45 yards around right end for their second touchdown and then ran for the extra points.

Early in the fourth quarter Larry Rankin broke loose and ran 91 yards for the longest gain of the night and the Bulldog's second TD. Garcia again failed to get through for the extra points. This ended the scoring for both teams though the Bulldogs were knocking at the door for the third TD when the game ended after the Steers intercepted a pass from Moore to Garcia.

The Bulldogs ended the season with 7 wins and 3 losses. In district play they won 3 and lost 1. This reporter feels that the three "Rs", Ropesville, Roby and Robert Lee, jinxed the Bulldogs.

Farm Facts

A mobile packing unit developed by a Salinas, Calif., corporation helps get lettuce to market in a hurry.

The unit consists of a huge truck with its own generator. Wings attached to the sides can be spread out to operate as conveyor belts. The truck follows workers cutting and trimming the lettuce. Other workers walk behind the conveyor wings, pick up the cut heads, and put them on the conveyor.

The conveyor moves the lettuce inside where a crew on one side wraps each head in a sheet of "Polyflex," and thrusts it through an opening. On the other side, workers heat-seal the film and direct the packages to a heat tunnel where the film is stretched tight. The heads then go to the packers.

Lettuce cut and trimmed in the field reaches the heat-sealer crisp, moist, and with color intact. Each head is trimmed and ready for sale.

Lettuce is now wrapped in the field.

A carton filled with over-wrapped lettuce takes less space than one in which bulging unwrapped heads are packed. Nearly 60% more cartons can be loaded per freight car.
