China, Japan Treaty

TOKYO (AP)-World War II enemies China and Japan concluded a peace treaty today which Chinese Vice Premier Teng Hsiao-ping said would contribute to friendship "for generations to come."

Many Japanese newspapers hailed the start of a "New Era" after the exchange of instruments of ratification of the pact signed in Peking Aug. 12, some 33 years after hostilities ended.

Guidelines Criticized

NEW YORK (AP)-The voluntary wage and price guidelines President Carter is expected to propose will not curb inflation, says a top economist of the previous administration.

Alan Greenspan, chairman of the White House's Council of Economic Advisers under former Republican President Gerald Ford, also said Sunday the United States is likely to have a recession sometime in the next two years.

Divers Resume Search

ST. INIGOES, Md. (AP)-Divers resumed their search this morning for nine men missing from a Coast Guard cutter that sank after a collision with a coal freighter. But a Coast Guard spokesman said, "I don't know if you call that hope or not."

The bodies of two other crewmen were recovered by divers Sunday. Petty Officer Charles Crosby of the U.S. Coast Guard Reserve Training Center at Yorktown, Va., identified them this morning as Fireman Apprentice James L. Hellyer, Newcastle, Pa., and James W. Clark, officer candidate, of Clovis, N.M. Their ages were not immediately available.

John Paul II Installed

VATICAN CITY (AP)-John Paul II marked his installation as the first pope from Communist-ruled Poland with an appeal to different economic and political systems to "open wide the doors to Christ."

An estimated 300,000 persons, one of the largest crowds ever, jammed St. Peter's square under cloudy skies Sunday for the investiture of the 264th pontiff on the steps of St. Peter's Basilica.

Finding Farm Owners

WASHINGTON (AP)-A new law that would set up procedures for foreign owners and purchasers to report to the secretary of agriculture on farmland they acquire is not meant to control who can buy land, says the chairman of the House Agriculture Committee.

Rep. Thomas S. Foley, D-Wash., said in a statement Sunday, "What Congress has done is create a system which will help us fine out, for the first time, whether foreign citizens are - or are not - buying up alarming amounts of U.S. farmland."

Dollar Dips In Tokyo

LONDON (AP)-The dollar fell on Europe's money markets today, and hit a new record low at Tokyo. Gold climbed.

Early exchange rates for the dollar Monday, compared with Friday:

Frankfurt - 1.8050 marks, down from 1.8110.

Zurich - 1.50424 Swiss francs, down from 1.5090.

Paris - 4.1775 French francs, down from 4.19625.

Amsterdam - 1.9723 guilders, down from 1.9780.

Milan - 809.75 lire, down from 810.50.

Soviet Blames Saucer

MOSCOW (AP)-A respected Soviet astronomer says a flying saucer may have caused the huge explosion that burned 1,250 square miles of central Siberian forest in 1908.

Felix Zigel of the Moscow Aviation Institute made the suggestion over the weekend based on research into the "Tunguska Mystery." The destruction included massive releases of radiation.

A score of scientific expeditions to the area have yielded dozens of differing answers ranging from impacts of meteorites or comets to collisions with remainders of collapsed stars.

Krueger Aide Sued

SAN ANTONIO, Texas (AP) - La Raza Unida senatorial candidate Luiz Diaz DeLeon said today he plans to file a civil suit against Bob Krueger campaign aide Mark Compos, after Compos said DeLeon asked for inducements to abandon his race.

DeLeon had earlier claimed that Compos, an assistant campaign manager for Krueger, had offered him inducements totalling nearly $2 million to withdraw from the race.

DeLeon said Compos told him the Raza Unida candidate could swing a close election away from Krueger to Republican John Tower by garnishing an expected two or three percent of the vote.

HOUSE RAZED—A house just off Highway 180 about two miles outside Snyder was razed by a fire late Saturday night. Ollie Chapman is shown directing a stream of water at a smoldering board. Cause of the fire is still being investigated. It was not immediately known who the owner is. The fire was reported at 9:55 p.m. (SDN STAFF PHOTO)

Arms Talks Dim Today

MOSCOW (AP)-Prospects dimmed today for quick conclusion of a U.S.-Soviet arms limitation agreement and Soviet Foreign Minister Andrei A. Gromyko said another round of negotiations "presumably" will have to be held.

"We are working, we are working very hard," Gromyko told reporters during a luncheon recess in the second day of talks here with Secretary of State Cyrus R. Vance. "The matter is very complicated."

With Vance at his side, Gromyko said: "We are a little closer than we were in Washington."

Added Vance: "I would agree with that. As I said before, these things are built brick by brick."

Washington was the site of the last round of talks, three weeks ago, in the joint effort to complete a SALT II treaty limiting strategic bombers and intercontinental ballistic missiles.

Vance's spokesman, Hodding Carter, refused to specify what the remaining obstacles were or what progress may have been made here. Asked whether the results measured up to Vance's expectations, Carter said, "This is roughly where he thought he would be."

The search for a treaty is now six years old. This is Vance's eighth set of negotiations with Gromyko in less than two years.

Soviet President Leonid I. Brezhnev was joining the final session in early evening.

Vance's schedule calls for him to leave for Washington Tuesday morning, and U.S. officials said they were virtually certain his stay here will not be extended. Gromyko is scheduled to leave on a visit to France.

If a Salt II pact is not completed now, U.S. officials have said, another round of talks probably would be held within the next month.

Vance said earlier in a luncheon toast the American side was determined "to do everything within our power to ensure the success of these negotiations.

"There are some problems that remain to be resolved," he said, but added: "We believe that there are no problems that cannot be worked out fairly and reasonably given good will and determination on both sides."

Vance noted that a large part of the treaty has been worked out over the last several months, and said, "We can take heart from the very substantial progress" achieved so far.

Ask Us

Q--How many families do we have on Scurry County Welfare rolls? Are they required to be looking for work? How much can a family of four make and receive food stamps?

A--We assume that by "welfare" you refer to those receiving food stamps, since part of your question refers to stamps. At present some 140 persons receive food stamps in Scurry County. You may or may not be interested to know that about 85 per cent of them are elderly (above 65). Persons on welfare who are able to work are required to register with the Texas Employment Commission and if they are offered a job they can perform and refuse it, they can be dropped from the rolls. Generally, a family of four with income of less than $607 may qualify for some food stamps.

12 More Miles...

Feds To Erect Fence Along Mexican Border

WASHINGTON (AP) - The government announced Monday it will spend $2 million to erect another 12 miles of fence at two locations along the Mexican border to reduce illegal immigration.

The Immigration and Naturalization Service said six miles of fence will be constructed at El Paso, Texas, and six miles near San Ysidro, Calif., to be completed in six months.

The INS said that there were nearly 1.4 million border patrol arrests at those two locations in the 1978 fiscal year that ended Sept. 30.

The agency said part of the fence at El Paso will be in the downtown area of the city. Officials said because it is a heavily populated area, those crossing the border illegally have been able to evade arrest by hiding in buildings and mixing in with the general population.

The fencing will be 10 feet high. In the El Paso area, it will include a concrete base three feet high. At San Ysidro, there will be four feet of steel grating extending one foot into the ground and seven feet of heavy chain link fence on top.

The government has already put up 27 miles of fence along the 2,000-mile border.

U.S. officials say the new barrier will be an uncontroversial improvement in border control techniques. At the State Department's Mexican Affairs desk, a spokesman said the department was aware the INS was building a new barrier but the move was not considered important enought to warrant a statement.

Front Brings Rain To Area

A fast-moving cold front brought light rains and falling temperatures to the Snyder area early today, and forecasters said most areas of Texas could expect cooler temperatures, cloudy skies and light rains to continue during the day.

A light drizzle began falling in Snyder late Sunday afternoon and continued most of the night and this morning. It had produced more than an inch by mid-morning.

Apparently the rainfall was general over a wide area. Over an inch had fallen at Lake J.B Thomas, but by mid-morning neither the Colorado

In Reunion At Ira...

WWII Soldiers Recall Exploits In Germany

By JOHN LONG

What does a group of middle-aged war veterans talk about? They talk about crossing the Siegfried Line into Germany 34 years ago, about the combat they saw in France and Germany, and about their comrades who never made it home.

At least that is what six of those who came home talked about over the weekend in Ira. They met in the J.L. Byars home for a reunion.

Attending the reunion were Dan Abernathy from Altus, Okla.; Clovis Walls, Chicago, Ill.; Elgin Maikell, Stephenville; Charles M. Mudd, Matton, Ill.; William D. Neisler, Paris, Tex.; and their host for the weekend reunion, Byars.

During World War II they were members of the 32nd Armored Regiment of the 3rd Armored Division of the 1st Army. Their unit was known as the spearhead division because they were the first to breach the Siegfried Line, first to shoot down an enemy plane from German soil, the first to fire an artillery shell at German soil, and the first to capture a German city.

They discussed those days, how they met and what they have done since 1945 when they met for their reunion.

They were serving Army hitches in Florida in 1941 when the war broke out. They were transferred to Europe and fought across most of France. By Sept. 12, 1944, they were poised at the Siegfried Line, the last line of defense between them and German soil.

Because of their army's blitz across France, the Germans were ill-prepared for them, Neisler remembers.

"There was more sniper fire than anything else, but no real heavy resistence," Neisler said. "They didn't have the people, and we were moving too fast."

Byars recalls their assault on the Siegfried began about 8 a.m. that September day. Dozers were called in to push dirt over the German ram-

Flood Hazard Study Set Here

A detailed study of flood hazard areas in the City of Snyder will be made under authority of the National Flood Insurance Act of 1968, the Federal Insurance Administration and the U.S. Department of Housing and Urban Development have announced.

The study will be performed for the Federal Insurance Administration by Albert H. Halff Associates, Inc., of Dallas.

Purpose of the study is to examine and evaluate the flood hazard areas in the community which are developed or which are likely to be developed and to determine flood elevations for those areas. Flood elevations will be used by the community to carry out the flood plan management objectives of the National Flood Insurance Program.

They also will be used as the basis for determining the appropriate flood insurance premium rates applicable for new buildings and their content as well as determining the rates to be used for the second layer of insurance on existing buildings and contents.

The announcement was made, the agencies said, to notify all interested persons of the study that they may bring any relevant facts and technical data concerning local flood hazards to the attention of the Federal Insurance Administration for consideration in the study. Such information should be submitted to City Manager George Patterson, who will forward it to the FIA.

basics of politics

Cracking the books and a top classroom performance may land a blue-chip job for a graduate, but building a career from that point on requires a different approach.

Or so goes the theory behind a career counseling seminar which, a wire report informs, has been instituted at Northwestern University this fall. It's entitled "Office Politics: Where Are You, Machiavelli, When We Need You Most," and the advice offered students for developing their professional careers lives up to the title.

- When it comes to getting ahead, hard work at the desk is the hard way; a drink after work with the boss can do more for you.
- Don't wait to be discovered, let the upper echelons know how good you are through memos and personal feeding of the office grapevine.
- Cultivate secretaries and clerks to find out where company bodies are buried.
- Better yet, get to know if possible a retired executive who can tell you how the present men at the top got there.

Students are advised to be realistic about advancing their careers, and that means recognizing that it is less a matter of what an individual knows and does than what the bosses think he knows and does.

It was not indicated under what traditional academic discipline the course was listed - presumably not ethics.

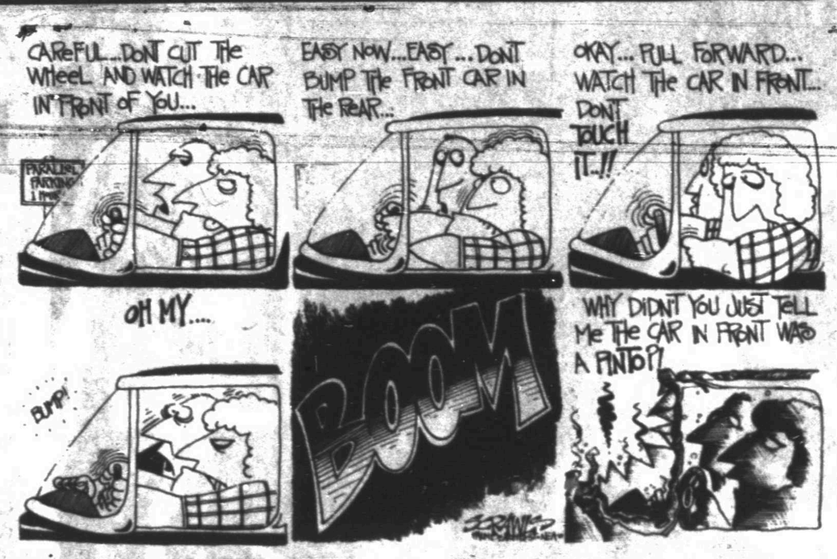

catching cheaters

The Internal Revenue Service, which has acquired considerable expertise over the years in catching tax cheaters red handed, is passing some how-to advice on to its own employees.

An IRS advisory, as reported recently by The Wall Street Journal, suggests discouraging desk-top snitching by sprinkling items with a colorless chemical, phenol-phthalein. The truth outs later whenever the snitcher washes hands, the chemical traces in combination with alkaline soap turning bright red.

That's not the end of this petty crime and punishment story, however. Phenolphtalein, an ingredient in many commercial preparations, also happens to have a laxative effect. If a snitched item happens to be edible, a culprit's subsequent experience may be considerably more moving than merely red hands.

The IRS remedy, as the Journal notes, may be turning a routine problem of petty pilferage into a gut issue.

at wits end

Have you any idea what fear was rated No. 1 in a recent survey among adults?

Speaking before a group.

That's right, the anxiety of standing before an audience beat out fear of death, fear of failing, fear of heights, and fear of alienation. (Come to think of it, they all mean the same thing.)

It occurred to me that this year a virtual army of amateur speakers will, for the first time, take to the podiums to conduct club meetings, volunteer seminars and instructional classes.

How do the professionals handle it?

-as Demand a podium capable of supporting a dead body (yours) up to 187 pounds. Throw yourself over it, being sure to hook your arm over the microphone so you won't slip away.

-as Adhere to the old wive's tale, "Feed a cold crowd, starve a speaker." It cuts down on spitting up.

-as Insist on a table near the restroom. For some unexplained reason, speakers have a kidney wish.

-as Never read a speech. Use note cards which serve a double purpose. You can rearrange them to fit your audience and in the event the person who introduces you used the jokes on your first eight cards, use the sharp cutting edges on your wrists.

Believe me, I know what you are going through. A couple of years ago, my son brought home a mimeographed memo from school announcing that the principal was having 12 parents in at a time to "engage in dialogue about the future of the school."

At the beginning of the meeting, he announced that before the session was over he wanted to hear from EVERYONE. If they didn't volunteer, he'd call on them. One by one, I watched them get it over with. Questions on what the administration was doing to raise standards of education...could he please interpret the test scores in relation to those given the previous year...

did he feel that schools were becoming isolated or were they addressing themselves to alternatives, such as technical or vocational classes.

As a professional speaker, I waited until he called upon me. Then I casually poked myself in the eye with a green felt-tipped pen and stood up to reveal the back of my dress which was super-bonded to my body. I opened my mouth to discover my tongue had dried up, causing my lip to shrink. I cleared my throat, folded my arms over my chest (the green ink would never wash out) and asked, "Yes, do the nuns really shave their heads?"

Snyder Daily News will be introducing its Scurry County Cookery contest this week featuring recipes from throughout the county. The best recipes will be announced Nov. 22.

Ronny Irwin and Carolynn Potts are the new managers of the Beacon Restaurant and are introducing several lunch specials.

Don Gressett of the Lota Burger was closed a few days last week as they resurfaced their drive.

Mac McCown celebrated the remodeling of his Food Baskets last week with sales in all four locations and cash give-away contests to end on Halloween.

Ken Gitner, manager of Eckerd's, returned Wednesday from a camping-hunting trip to Colorado which he reports was successful except for car problems on the return trip.

Ed Thrift, owner of Men's II on the square, left last week for Colorado to do some deer hunting.

Dwayne Seay, manager of Perry's spent Monday through Friday of last week in Littlefield where he was working with another Perry's store.

Jimmy Farmer, owner of Bill's Auto Salvage was in Lubbock last week at the car auction.

Art Feinsod, owner of the Purple Sage Motel is adding 6 new rooms to his motel. The rooms will be located on the northeast side of the motel fully equipped with the latest in motel living, according to Feinsod. Each room will be equipped with Holiday Inn furniture.

Fluid Packed Pump is a new business locally. Otis J. King is the shop foreman for the company which is relocating here from Sweetwater.

Midwest Electric plans to build new offices just north of Spanish Inn with Wadleigh Construction as the general contractor.

Mickey Nunley, president of RS&P Railroad, has been named as a director of the West Texas Chamber of Commerce.

Bill Collier and Tape Town can now be easily found at their new location as they received a new sign over the weekend.

Snyder Shopping Center is also getting a new sign which should name each business in that center.

Higginbotham-Bartlett Lumber received new pavement last week with Grimmett Brothers doing the work.

Babe Miller of Everybody's and Joann Ham of Snyder Athletic Center were in Paris, Tex., visiting relatives recently.

Snyder News introduced a new service last week called Business Card Directory for those business that need to keep their name in front of the public. If you need to be listed in this service contact the news office.

Seeking Way To Curb Texas Litter

AUSTIN (AP) - Texas has a $5 million per year litter problem, but mandatory returnable bottles aren't the answer, the House Liquor Regulation Committee says.

It said no new laws should be passed until a full-scale statistical study of the problem can be made, paid for by independent sources not associated with products that contribute to litter.

The committee did recomment more rigorous enforcement of the existing state law that provides modest fines for littering the highways, where the state now spends about $5 million to collect trash left by motorists.

Several states require deposits on bottles, prohibit throw-away beverage containers and tab tops and or impose fees on industries whose products contribute to litter.

The committee adopted a report that found "that nonreturnable bottle legislation is only a small part of the solution to a larger problem. People litter, and the litterer knows no bounds in terms of form or substance."

Rep. Ron Waters, D-Houston, a committee member, said he visited Oregon during a West Coast trip last week. Oregon requires deposits only all beverage containers and bans tab top openers.

"I am convinced that Oregon does still have litter. They have as much, or more, proportionately, as Texas does," Waters said.

He said he prefers California's and Washington's "more total approach" and plans to introduce a bill next session similar to laws now in force in those states. Washington levies a fee of $150 per $1 million in gross sales on all industries "reasonably associated with litter." California imposes a $10 to $30 annual fee on retailers selling products subject to the sales tax. In both states, the revenue is used to curb litter.

Letter To Editor

To The Daily News:

The Snyder High School Student Council would like to recognize the following who contributed to making the 1978 Tiger Homecoming a success:

KSNY Radio Station, Snyder Daily News, Mal Donelson Chevrolet Co., Wilson Motors Inc., Downtown Merchants, Varsity Square Merchants, Snyder Fire Department, Scurry County Towle Memorial Park Service, Snyder Police Department.

When a homecoming is as well-organized and carried out as this one was, it is the result of a good community effort. We could not have done anything without the community's support and participation.

Thank you very much,

WASHINGTON (NEA)- The Central Intelligence Agency is at it again-invoking "national security" in a belated effort to cover up its inept handling of a sensitive matter.

The current case involves Arkady Shevchenko, a Soviet Union diplomat who until last spring was the United Nations' undersecretary general for political and security affairs.

Shevchenko disappeared from the UN last April, then surfaced two weeks later to apply for asylum in this country. The request was granted.

But in early October, an embarrassed Shevchenko reappeared, in the company of a young woman named Judy Chavez who claimed that after she met the Soviet defector through her "escort agency" he paid for her companionship at an initial rate of $500 a night and later at $5,000 a month.

In addition, she claimed, Shevchenko took her to the Virgin Islands on a vacation and bought her a $9,000 sports car. The total tab came to $35,000 to $40,000, she estimated, with the money provided to Shevchenko by the CIA.

After the story was uncovered by James R. Polk, a reporter for NBC News and one of Washington's best investigative journalists, the CIA huffily denied everything. "The whole thing is the woman's story," said agency spokesman Herbert Hetu. "The implication is falsely made that the CIA is paying for a whore."

The CIA then quickly took the offensive, suggesting that NBC had somehow breached security. "Part of his (Shevchenko's) protection was his anonymity. Obviously it was blown," said Hetu.

"He was under cover until all this happened," added the CIA official. "Now the Soviets have got him pinpointed and we'll just have to relocate him."

The Soviet defector did indeed occupy a Washington apartment under a fictitious name. But last May he opened a personal checking account at Washington's second largest bank under "A. Shevchenko."

As recently as last month, Shevchenko was paying personal debts - including those owed to Miss Chavez - with checks bearing his own name.

The choice of location for Shevchenko's new home is equally curious because this city is rivalled only by New York in terms of the large number of Soviet diplomats, intelligence agents and other USSR officials allowed to freely roam the streets.

Shevchenko was a frequent visitor to Washington nightclubs and restaurants, no apparent effort was made to disguise his personal appearance and before his downtown apartment was ready for occupancy he was housed in two of the city's busiest hotels.

Privately, CIA and FBI officials point accusing fingers at each other, claiming that the sloppy security arrangements were the responsibility of the other agency.

Publicly, the CIA says "we have no control over any defector." The selection of Washington, Shevchenko's name on his checks and the decision to lead a very public life all were "his choice," claims an agency spokesman.

But earlier this year, the congressional committee investigating the assassination of President John F. Kennedy sought to gain access to Shevchenko to question him about Lee Harvey Oswald's life in the Soviet Union.

The CIA firmly rejected the request, insisting that security precautions surrounding Shevenchenko were so tight that he couldn't even by questioned by the committee in a guarded meeting closed to the public.

Miss Chavez' motives for providing much of the story to NBC News became apparent when she surfaced at the New York press conference less than a week after Polk's exclusive report to tout her forthcoming book about the experience.

Even if the CIA didn't pay for Miss Chavez' support, a far more compelling question remains unanswered: If Shevchenko's security was so lax that she could turn him over to a television network, what would have prevented her from turning him over to the Soviets?

secretaries advance

NEW YORK (AP)-Better times are coming for secretaries, those wonderful people who type the letters, order the supplies, maintain the records, pay the bills and sometimes keep the boss from being fired.

Better times means, for one thing, more appreciation, and appreciation is spelled the same as dollar. Five years from now, says one secretary, top grade executive secretaries will earn $24,000 to $30,000.

That's the forecast of Beverly Hamby, president of the National Secretaries Association and it applies to those who achieve through study and experience the rating of Certified Professional Secretary.

Her optimism for CPSs, who now earn about $16,000 to $18,000 a year, emanates from two observations: 1. "Jobs are going begging," and 2. Without a good secretary "executives can't get their job done."

Things are also looking up for well-trained, competent beginners, who now are being offered $750 to $800 a month. Five years from now, Mrs. Hamby predicts, they'll command "at least $1,000 to $1,200 a month."

Why the shortage. Mrs. Hamby, secretary to Albert S. Golemon, a Houston architect (senior partner of Golemon and Rolfe), believes the occupation has fallen out of favor with many young women.

"For one thing," she believes, "it's less attractive to women who have been exhorted to be assertive." And in her opinion the salaries aren't commensurate with the training and effort required by the job.

The foundation remains a solid high school education, but it must be built upon through private study and formal training.

"To be a proper aide, a secretary should understand financial statements, some law and management theory," Mrs. Hamby said recently. She learned them in night courses at Tulsa and Houston universities.

But the basic skills of shorthand and typing are still necessary too, although in offices automated with transcription and word processing equipment, neither is the same skill it used to be.

Still, in Mrs. Hamby's opinion a skilled secretary should be able to take dictation at the minimum rate of 120 words a minute, and be able to type a letter at 65 to 70 words a minute.

"Anybody who isn't able to do so is not really skilled," she said flatly, observing later that they should aspire to 15 words a minute in shorthand, regardless of the style, and 80 to 85 words in typing.

Neither, she commented, is quite as old-fashioned as some people might lead one to believe, and they must be accompanied by other skills and abilities, especially good grammar, punctuation and spelling.

Oswald: "Beginners are taught to draw trumps. This is good policy for beginners and is followed by experts most of the time, but there are other occasions when you really can't afford this."

Alan: "A good general rule is that you don't pull trumps when you need dummy's trumps for some other purpose."

Oswald: "South ruffs the second club and there is no reason not to lead his king of trumps. He can afford one round of trumps, or even two rounds in case a defender takes his ace and leads that second trump."

Alan: "What South can't afford is that third round. If his king is allowed to hold and he continues, West can take his ace and lead a third trump. South will wind up losing one trick in each suit."

Oswald: "South must plan to ruff his two little spades. After taking his king of trumps he must play ace-king and a third spade. He ruffs in dummy, comes back to his hand with the ace of diamonds, ruffs his last spade, leads dummy's queen of trumps and loses three tricks, not four."

A Wisconsin reader wants to know if we open one notrump.

We certainly do. For years experts have opened almost all 16 point 4-4-3-2 hands with one notrump. Today standard American bidders still require that a doubleton include the jack or higher so this hand meets everyone's standards.

Drive Registering All Free Bleeders

NEW YORK (AP)-The National Hemophilia Foundation has started a drive to locate and register all American hemophiliacs, launching the nation's first national hemophilia registry.

The registry is expected to provide for the first time information about how many hemophiliacs there are in the United States and where, what kind of care they are getting and how much it costs.

The foundation describes hemophilia as a congenital blood clotting disorder which results from a hereditary defect in the blood's clotting mechanism.

Hospital Auxiliary Meets

Women's Auxiliary of Cogdell Hospital met Thursday in the conference room. Recent projects announced were $300 for books for the inhalation therapy library; $500 for new Resusci-Ann for CPR training; two new portable televisions for patient use; and three new telephones.

The group making monkeys for sale in the gift shop will meet Monday, Nov. 13 in Snyder Savings and Loan meeting room from 2-4 p.m. On Friday, Nov. 17 the auxiliary will hold its annual bazaar in the hospital waiting room from 7 a.m. to 5 p.m. Proceeds will go to the nurses' scholarship fund. A scholarship was announced for Betty Thompson who is attending WTC.

Mrs. Monte (Virginia) Jones was introduced as a new member. She will work in the Snack Bar.

The auxiliary is in urgent need of Snack Bar workers. Shifts are 8-11 a.m. and 11 a.m.-2 p.m. The afternoon hours allow workers time to pick up school children. Workers in the Snack Bar do not cook. They take orders, fix drinks, clean tables and take money. No table serving is involved, orders are picked up at counter, explained Mrs. M.L. Duke, president.

Persons interested in being a member may call Cogdell Hospital and ask for the auxiliary for more information.

Ejaculation after surgery

By Lawrence Lamb, M.D.

DEAR DR. LAMB — Six months ago I had my prostate gland removed. Now, my problem is that whenever I have sex, and reach a climax, the ejaculation doesn't find a way out. Yet it feels like I have completed the act. What happens when the fluid doesn't leave the body? I am 73 years old and would appreciate your answer.

DEAR READER — I am always surprised by the large number of letters I get from men asking this question. Of course, prostate gland surgery is extremely common and that's no surprise. But what does surprise me is that a man will have surgery and not know what to expect afterward.

The prostate gland rests just at the outlet of the bladder. When it enlarges and shuts off the outlet of the bladder, it causes trouble, and that's the usual reason a person has to have surgery. There are a series of very complicated little valves at the outlet of the bladder that shut the bladder off from the rest of the organs. When a man ejaculates, this valve is closed and, therefore, he has forward or normal ejaculation.

When this valve is damaged or destroyed in any way so that the valve isn't shut off, the ejaculation may go backward into the bladder. We call this retrograde ejaculation.

Prostatic surgery almost always damages this valve mechanism at the outlet of the bladder. There just isn't any way that a surgeon can remove the diseased prostate without damaging the valve at the same time in most cases. For this reason, retrograde ejaculation is the expected normal event after prostate surgery.

Retrograde ejaculation does not interfere with normal sexual activity, or normal sensations, but it can sure worry a man if he doesn't know what's really happening. In the presence of retrograde ejaculation, the semen that accumulates in the bladder is simply eliminated the next time the bladder is emptied.

To give you more information about the prostate, I am sending you The Health Letter number 1-6, Prostate Gland. Other readers who want this issue can send 50 cents with a long, stamped, self-addressed envelope for it. Address your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

DEAR DR. LAMB — I would appreciate any information you can give me on the pituitary gland and what the loss of this gland can do to the body. I have a very dear friend who had a tumor of the pituitary gland about seven years ago. He went to a well-known clinic and had the tumor shrunk. In so doing, the gland was destroyed and he was placed on medication. I would like to know what effect the lack of the medicines would have on the body as a whole and anything else you can tell me about this particular problem.

DEAR READER — The pituitary gland is very small and located just underneath the brain and almost directly behind the eyes. It really has two parts. The back part releases hormones that stimulate the uterus to contract and can influence blood pressure.

The front part of the gland is the master hormone gland. It releases hormones that stimulate the thyroid gland, the adrenal gland, the ovaries in a woman and the testicles in a male. Without these governing hormones, the thyroid gland doesn't produce enough hormone, the adrenal gland doesn't produce the hormones it should and the sex glands will stop producing enough sex hormones. This produces a wide variety of symptoms but weight loss and weakness are two of the prominent symptoms that can develop.

Fortunately, the failure of hormone production can be pretty well replaced today.

Gas Regulations Called Most Expensive Ever

HOUSTON (AP)-Independent oil operators say they missed a chance to kill the new natural gas price controls bill and now must face the most extensive federal regulatory program ever developed in peacetime.

The natural gas policy committee of the 5,000-member Independent Petroleum Association of America discussed the new Natural Gas Policy Act more than two hours Sunday.

Ray Hefner, committee chairman from Oklahoma City, told the group the industry will have a tough and often frustrating task trying to continue to produce natural gas while coping with a regulatory nightmare.

The gas bill now awaiting President Carter's Signature would phase out some price controls by 1985 but would extend federal regulation to intrastate markets.

Hefner said producers missed a chance to kill the bill Oct. 13 when they were able to persuade only 20 of 58 Democrats from producing states to support a proposal to separate the bill from other energy measures on final House passage.

The proposal to separate was defeated, 207 to 206.

"We felt, and apparently the White House agreed, the gas issue could not stand on its own. This was the telling vote and everyone knew it," Hefner said.

"We, the producers dropped the ball. It is obvious we did not do the job we should have done with our own congressmen from our own states."

He said 10 Democrats in Texas, four in West Virginia, three from California producing areas, three each from Oklahoma and Mississippi, and one each from Colorado, Wyoming, and Montana voted against separation.

Hefner said the battle now before producers is "with an army of dedicated regulators armed with an unprecedented amount of regulatory authority."

Shooting, Assault, And Mishaps Are Probed

Snyder police were kept busy during the weekend investigating a shooting, an act of vandalism, an alleged assault, and a spate of traffic accidents.

The shooting victim was identified in police reports as 47-year-old Earnest James. According to the reports, James was shot once in the left ankle by a small caliber pistol. The incident is alleged to have occurred about 10:30 p.m. Sunday outside Norris Williams' cafe. James was taken to Cogdell Memorial Hospital where he was treated and released.

Formal charges have not been pressed by James, police reported.

Robert Mautz claimed early Sunday morning that he was the victim of an assault at the intersection of 18th St. and Ave. N.

As he was driving down the street, Mautz told police, his windshield was shattered. Getting out to investigate, he claimed he was jumped from behind and beaten. The complaint was filed about 12:30 a.m. Sunday.

Saturday morning, Mary Valadez said that her four $78 tires had been slashed. The incident was reported at 11:16 a.m. at 3404 44th St.

A two-car collision at the intersection of 28th St. and Ave. L resulted in minor injury to four persons and moderate damage to both vehicles.

Reports show that a 1977 Dodge van driven by Mary Martinez was in collision with a 1972 Ford driven by Steven Phariss. Reports also show that Angela Phariss, Anna Phariss, and Jeffery Sanders were taken to Cogdell by Galyean Ambulance Service. Mary Martinez was taken to Cogdell by private vehicle. All were treated and released.

The collision took place about 4:20 p.m. Saturday.

Other traffic accidents investigated by police Saturday occurred at the Cash Food convenience store, the Food Basket, and Virdie's appliance center.

At Cash Food, a 1972 Cadillac driven by James Tully was in collision with a 1973 GMC pickup driven by Jesus Robles. That mishap was reported at 10:36 a.m.

A 1978 Pontiac driven by Ronald Hester and a 1973 Ford driven by Darlene Abbott were in collision at a Foodbasket store at 11:20 a.m. Saturday.

At 3:50 p.m., a 1967 Oldsmobile driven by Ben Dickey and a 1972 Mercury driven by Evelyn Diggs were in collision at Virdie's.

Sunday afternoon, a 1976 Ford pickup and trailer being driven by Manuel Fowler of Andrews was in collision with a 1977 AMC driven by Ector Barboza of Snyder. That collision was at 5 p.m.

At 9:30 p.m., a 1978 Chevrolet driven by Monty Anderson was in a wreck with a 1975 Chevrolet driven by Terry Clark. That collision was reported at the Windridge Apartments.

Rain

River nor Bull Creek was flowing water into the lake. However, there were hopes that the lake would catch more water if the rains continued today and tonight.

The rains came at a pace similar to those which fell in early September and added more than 5,000 acre feet of water to Lake Thomas.

The official thermometer at the city water plant recorded a low of 40 degrees this morning, and cool weather was expected to prevail today and tonight.

The rains were welcome on ranges and fall grain crops in the Snyder area.

The National Weather Service reported that wind gusts up to 40 mph were reported Sunday night and early today in the Panhandle as the front moved through. Early morning temperatures ranged from the middle thirties in the Panhandle to near 70 in the Lower Rio Grande Valley. Amarillo had a low of 38 degrees., while Lubbock had 41.

parts. Once that was accomplished, American tanks then crossed. The crossing was finally made about 3 or 4 o'clock that afternoon.

It was eight months after the Siegfried Line was crossed that Germany surrendered. Once the Line was crossed, Walls said, the Americans crossed Germany with rapid speed.

"One day we advanced over a hundred miles," he said.

Walls recalled seeing columns of German soldiers lining the roads, trying to surrender to the Americans.

"But we couldn't stop, "Walls said. "We were an armored unit. We couldn't fool with prisoners. We let the infantry do that."

Before they got into Germany, however, Maikell recalled the gratitude of the French people.

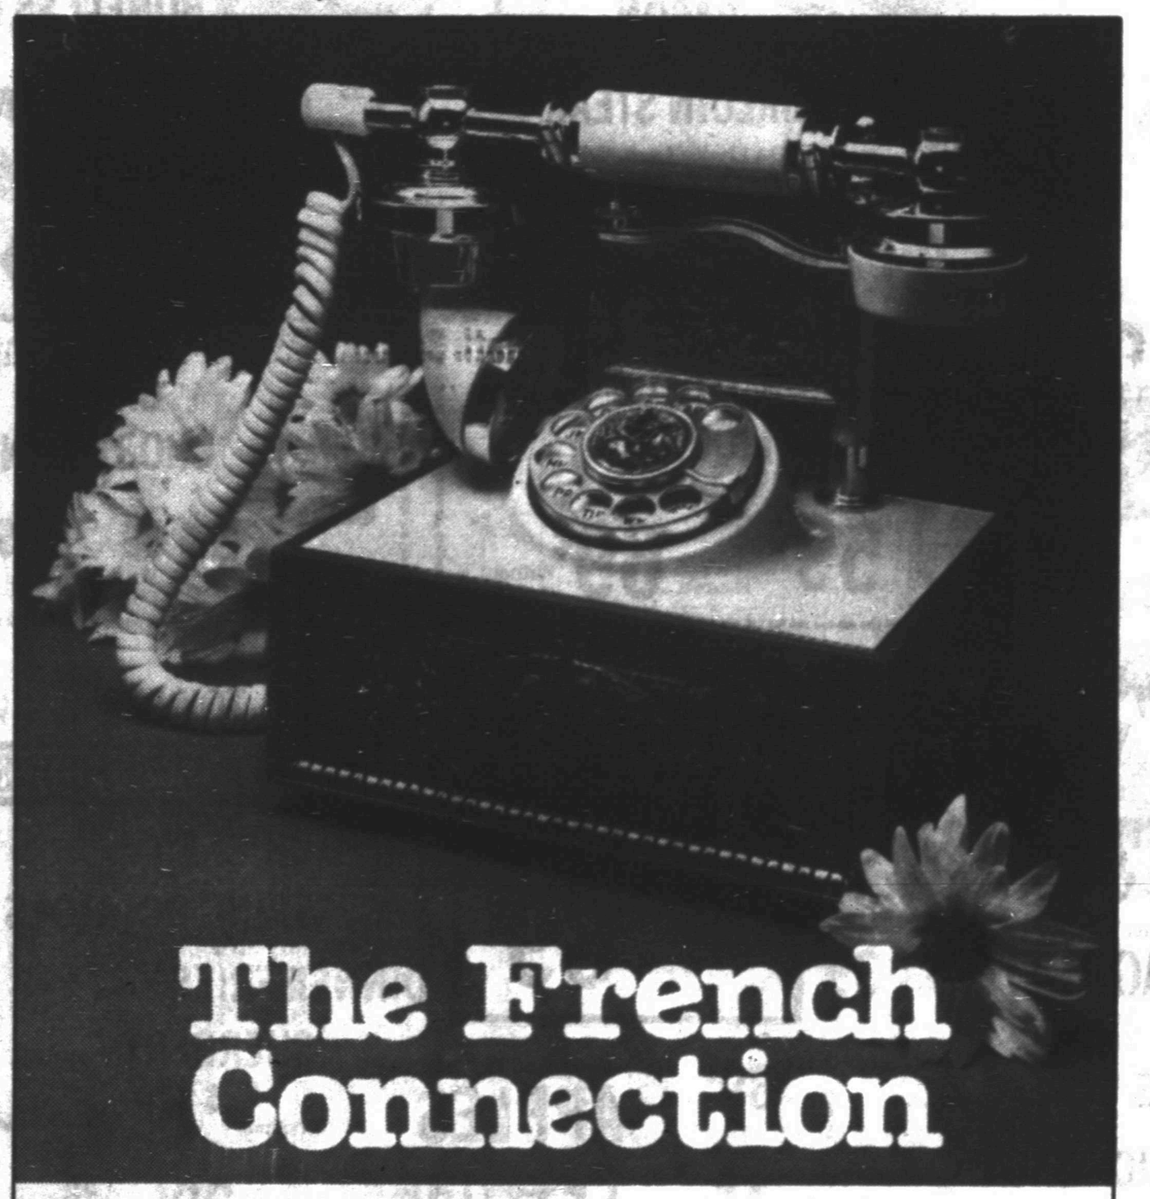

"The gratitude of those people is what I remember," he said. "They were so glad to see us."

Byars remembered seeing French people rush out and butcher German horses that had fallen in battle. They were starving and glad to have a chance of eating horsemeat.

After crossing the Siegfried line, however, "We all got split up and we went our different ways," Walls said.

They went their different ways for about 35 years. Then they decided a reunion might be in order.

Will they wait another 35 years to have a reunion? "I hope not," said Byars. "I hope we get to meet again sooner than that."

The glamorous French cradlephone has been reborn in America, where it's known as Antique Gold*. Its carved gold-colored figures and rich ivory trim make it the last word in period-style decor.

Dorsett Benched, Washington And LA, Too...

Upsets Infect Pro Ranks

By The Associated Press

Upsets, both on and off the scoreboard, were the order of business Sunday as the National Football League season aproached its midway point.

The Los Angeles Rams were knocked from the unbeaten ranks by the New Orleans Saints and Seattle and Tampa Bay flexed their muscles with impressive victories on a day which saw seven of 13 games go to the underdog.

Meanwhile, people were upset in Dallas, too.

Not the Cowboys, who defeated the Philadelphia Eagles 14-7 to climb into a tie with Washington for first place in the National Conference's East Division. It was their coach, Tom Landry, and their star running back, Tony Dorsett, who were at odds.

It seems Dorsett missed a practice session this week, a no-no the way Landry runs the Cowboys. So Landry benched Dorsett for the Eagles game in favor of veteran Preston Pearson.

Archie Manning fired a 19-yard scoring pass to Tony Galbreath with 2:28 remaining for the game's only touchdown as the Saints shocked the penalty-plagued Los Angeles Rams 10-3.

That leaves the Pittsburgh Steelers as the NFL's only unbeaten team. The Steelers play host to the Houston Oilers tonight, winding up the eighth week of the NFL's first 16-week season.

The two most recent expansionists both evened their records at 4-4, the Seattle Seahawks knocking off the Oakland Raiders 27-7 and the Tampa Bay Buccaneers beating the Chicago Bears 33-19.

Tampa Bay Coach John McKay said it best: "We're no longer a pretender but a contender."

In the day's other upsets, the Baltimore Colts trimmed the Denver Broncos 7-6, the New York Giants beat the Washington Redskins 17-6, the Detroit Lions stopped the San Diego Chargers 31-14 and the Kansas City Chiefs defeated the Cleveland Browns 17-3.

In other games, the Minnesota Vikings beat the Green Bay Packers 21-7, the New England Patriots defeated the Miami Dolphins 33-24, and Buffalo Bills blanked the Cincinnati Bengals 5-0, the New York Jets topped the St. Louis Cardinals 23-10 and the Atlanta Falcons defeated the San Francisco 49ers 20-17.

Cowboys 14, Eagles 7

Dallas got all its points in the second quarter, Bob Newhouse scoring on a one-yard run and Roger Staubach throwing an 11-yard touchdown pass to Drew Pearson.

Saints 10, Rams 3

The Saints scored the game's only touchdown by going 69 yards in seven plays after a razzle-dazzle pass attempt by Los Angeles punter Glen Walker was intercepted by New Orleans cornerback Eric Felton, setting up Mannings scoring pass to Galbreath.

Seahawks 27, Raiders 7

The Seahawks turned four interceptions thrown by Oakland's Ken Stabler into 17 points. Stabler has now thrown 19 interceptions in eight games.

Tiger JV Drills San Angelo 22-6

SAN ANGELO--Snyder recorded two wins over Lake View last week, finalized as the junior varsity Tigers whipped the Chiefs here Saturday, 22-6. Snyder's other win came on a 25-6 varsity game played Friday.

The Cats got on the boards in the first quarter as Trussell Thane blocked a Chief punt and recovered it in the end zone for six points. The kick after was wide left.

Lake View took advantage of a Snyder fumble on a 4-yard line to tie the totals however. The Chiefs went the short distance in four plays.

Snyder went ahead to stay in the third quarter with two scores. Quarterback Mike Roemisch found Thane from 19 yards out for the second Cat score. Keith McClain ran over the conversion.

Minutes later, Roemisch broke free on a 23-yard touchdown run. He then threw to Robert Rodriquez for a two-point conversion.

Leading rushers for Snyder were Rodriquez, with 67 yards, Roemisch 46, McClain 31 and Eddie Yuregas 29. McClain scampered for a 51-yard TD run, but the play was called back due to a holding penalty.

The Tigers, 5-1, will host Sweetwater at 7:30 p.m. Oct. 26.

Rambin Successful In Local Tourney

Buck Rambin recorded his first Men's Club Championship win as Snyder Country Club held that event over the weekend. Rambin shot a two-day 77-77-154 to win the Championship Flight.

Pop Kidd took second just a stroke behind, firing a 79 on Saturday and a 76 Sunday for a total of 155.

Joe L. League garnered first in the First Flight with a 79-77-156. Second was Larry Hildreth with an 83-75-158. His 75 was low round of the tourney.

Winning the Second Flight was Randy Mack with a 79-83-162. John Greene took second with an 81-84-165.

Mal Stevenson led the Third Flight with his totals of 88-82-170 and Duane Richard followed up with a 92-87-179.

Fourth Flight winners were, first, Tom Burton, 91-97-188, and second Freddie Everton, 105-89-194.

Upcoming at Snyder Country Club is the FTHOI (For the heck of it.) tournament, set for 1:30 Nov. 12. Play will be two best net balls of the foursome, and men and women both are invited to play. The tourney is for country club members.

Collegiate Unbeatens Dwindle To Handful

By The Associated Press

There are only five college football teams left with perfect records and this much is certain - there will not be five when the season comes to a close.

That's because second-ranked Penn State and No. 6 Maryland have a Nov. 4 date in State College, Pa., which looms as one of the most attractive pairings left in the regular season.

That upcoming clash took on added status over the weekend when Penn State throttled Syracuse 45-15 behind Chuck Fusina's four touchdown passes, while Maryland trounced Wake Forest 39-0 with Steve Atkins scoring twice and his backup, Alvin Maddox, getting three TDs.

The other unbeaten-untied teams are top-rated Oklahoma, which trimmed Iowa State 34-6 as Billy Sims rushed for a career-high 231 yards; No. 17 Navy, a 9-0 winner over William & Mary on Bob Tata's 27-yard field goal and Larry Klawinski's 33-yard scoring dash, and unranked Holy Cross, which was idle.

All the unbeatens have big games left. Oklahoma has road dates with Nebraska and Colorado. Penn State closes out the regular season with Maryland, North Carolina State and Pitt.

Maryland must face Clemson as well as Penn State. Navy will find out just how good it is the next two weekends against Pitt and Notre Dame while Holy Cross lists improving Brown and once-beaten Rutgers among its six remaining opponents.

The ranks of the unbeatens suffered one major loss over the weekend when third-ranked Arkansas lost to No. 8 Texas 28-21 as Randy McEachern threw two scoring passes to Olympic sprinter Lam Jones - including the winner with 6:15 to play - and one to Lawrence Sampleton.

For the most part, though, it was a form-following weekend, in sharp contrast to the previous week when there were more upsets than Los Angeles Dodger fielding lapses. Besides Arkansas, the only loser among The Associated Press Top Twenty was 12th-ranked Texas A&M, which bowed to previously winless Baylor 24-6.

Angelo State Faces Experienced A&I Club

By The Associated Press

Angelo State, a team with aspirations of a national and Lone Star Conference championship, hosts a team Saturday night which has been there before - Texas A&I.

Texas A&I has won numerous NAIA and LSC titles but is 4-3 overall and 2-1 in league play this year.

However, the Javelinas are good enough to challenge the No. 1 - ranked Angelo State club which whipped Howard Payne 38-22 Saturday night behind Jerry Aldridge's 147 yards rushing.

Angelo State is the only unbeaten LSC team at 3-0 in league play and 7-0 overall.

Texas A&I defeated Sam Houston State, 32-24, to stay within one game of the Rams. Quarterback Martin Strozman rushed for 113 yards and four touchdowns.

Sam Houston, which is also 2-1 in LSC action, roared back from a 19-0 deficit as Arthur Louis tossed for 287 yards and connected with the NAIA's top receiver, Clay Lowry, on a 33-yard score in the third quarter.

Southwest Texas State rallied for a touchdown in the fourth quarter by Paul Darby to defeat winless Stephen F. Austin, 9-0, and share a piece of second place along with Sam Houston, Texas A&I, and Abilene Christian.

Kelly Kent scored on a three-yard run with 9:14 remaining as Abilene Christina edged East Texas State, 28-27.

East Texas State's Paul Rice and Abilene Christian's John Mayes had big games. Rice rushed for 126 yards and two touchdowns and Mayes connected on 18 of 33 passes for 278 yards and one score.

Spurs Fall To Lakers...

Winters Keys Milwaukee Win

By The Associated Press

Marques Johnson sank the winning points at the final buzzer, but he never would have had that chance if it hadn't been for Brian Winters.

The score was tied 107-107 in the Milwaukee Bucks' National Basketball Association game with the Golden State Warriors Sunday night when Winters blocked a shot from Phil Smith, grabbed the ball and called time out with one second remaining, setting up a winning basket by Johnson.

Before that, Winters scored 37 points, including seven straight baskets that accounted for all but two of Milwaukee's points in the last 6:45. The other basket was Johnson's shot that gave the Bucks a 109-107 victory.

Lakers 134, Spurs 121

The Lakers won their first game of the season in their home opener after three road losses. Adrian Dantley had 30 points and Kareem Abdul-Jabar scored 27, grabbed 15 rebounds, had nine assists and blocked four shots.

Suns 124, Trail Blazers 116

Walter Davis and Paul Westphal combined for 48 points as Phoenix handed injury-riddled Portland its fourth loss in five games this season.

Davis had 28 points and Westphal added 20 for the Suns, while Larry Steele - in the starting lineup because of injuries to Maurice Lucas, Larry Gross and Lloyd Neal - led all scorers with 29.

Lacrosse was being played by the Indians when the French first settled in Canada.

Netters Compete Against Three

Snyder's high school tennis team came out with a win, a tie and a loss in the Regional 4-A Tennis Tournament held Friday and Saturday in Midland. Playing the best 4-A teams in the state, Snyder was the only 3-A team to enter the tournament.

Teams participating were Abilene Cooper, Midland Lee and Midland High, Odessa Permian and Odessa High, El Paso Ysleta, and El Paso Coronado and Snyder. In the first round of play Snyder lost to Odessa Permian, 18-0; tied Odessa High, 9-9; and defeated Ysleta, 15-3.

Next action for the high school tennis team will be Oct. 24, when the top nine boys and four girls host Colorado City, with play to begin after school hours.

SNYDER vs. EL PASO YSLETA (won 15-3)

Girls' Singles: Donna McGee lost to Virginia Rey, 3-6, 6-7; Connie Weber won over Chloe Montez, 6-2, 6-3; Belinda Scott defeated Lura Chaidez, 6-1, 1-6, 6-4; Martha Womack won over Yolando Ortega, 6-4, 6-0; Kelly Scott lost to Lupe Valles, 5-7, 3-6; Diane Sentell won over Marcela Garcia, 6-2, 6-4.

Girls' Doubles: B. Scott - McGee defeated Rey - Montez, 6-4, 6-3; Weber - Womack won over Ortega - Chaidez, 6-4, 6-0; K. Scott - Sentell lost to Garcia - Velles, 2-6, 6-7.

Only Four Left In SWC Race

By The Associated Press

It's not even November and the Southwest Conference football championship race has come down to just four teams - Houston, Texas, Southern Methodist and Arkansas.

Gone are the Texas Aggies, who couldn't score a touchdown against either Houston or Baylor.

Gone are the Baylor Bears, who stumbled coming out of the gate.

Gone are the Rice Owls, Texas Christian Horned Frogs and Texas Tech Red Raiders. All have two or more defeats.

No team has ever shared in a SWC title with two losses.

Alive are the Houston Cougars, who have regained the magic of 1976 when they stormed to the Cotton Bowl.

Alive are the defending champion Texas Longhorns, who have unleashed their talented freshmen and share the top spot with the Cougars at 3-0.

Semi-alive and still dangerous are Southern Methodist and Arkansas who took direct hits Saturday in their first SWC losses.

Houston outlasted Southern Methodist 42-28 in Dallas before a crowd of 64,000-plus in the Cotton Bowl.

The Cougars won't have long to celebrate.

The previously unbeaten Arkansas Razorbacks were rudely dumped 28-21 in Austin where they haven't won since 1966 by the Longhorns featuring senior quarterback Randy McEachern and unheralded frosh tight end Lawrence Sampleton. And Arkansas comes calling Saturday night in the Astrodome.

Texas must prepare its secondary for the trauma of dealing with SMU and its aerial blitz in a Saturday afternoon encounter.

Tigers Tipped From Tourney

Midland High knocked Snyder out of the local Junior Varsity Volleyball Tournament here Saturday morning, winning 14-16 and 9-15.

1. White was named to the all-tournament team.

Seminole won the tournament, edging Fort Stockton 1-15, 15-10 and 15-9. Taking third was Midland High with a 15-8, 13-15 and 15-8 win over San Angelo Central.

Big Spring defeated Odessa Permian 13-8 and 15-10 to win consolation.

Scoring for Snyder were Vanessa White 9, Demetra Cobb 5, Shauna Pate 3, Patsy Casas 3, Beth Ellison and Debra Nicholson

Steelers Host Oilers In Tough One Tonight

PITTSBURGH (AP)-Pittsburgh Steeler defensive tackle Joe ("Mean Joe") Greene says his fellow Texan, Houston Oiler Coach O.A. "Bum" Phillips, is up to something.

"He gives you that old soft sell, but he'll come out with both barrels blazing," Greene predicted as the National Football League teams prepared to renew their American Conference rivalry here tonight in a nationally televised game.

Greene will be helping the 7-0 Steelers in their effort to try to remain the only undefeated NFL team. He anticipates a clean game from "Bum's" boys, who trail the Steelers in the AFC Central Division with a 4-3 record.

"I'll tell you one thing about Bum," Greene said. "He'll meet you at high noon in the center of town, but he won't try to dry gulch you."

Earlier in the week, Phillips talked up the Steelers, Super Bowl champs in 1974 and 1975.

"I think they're better than when they won the whole thing," he said.

"Theoretically, we're still in there against Pittsburgh. But I don't think anybody can catch the Steelers.

"We're getting ready, trying to stop them, but there ain't nobody stopped them yet."

Both teams seem to be in good shape.

Oiler wide receiver Billy "Whiteshoes" Johnson was rested last Sunday while he recovered from a sprained knee, but the five-year veteran is expected to play.

There's apparently nothing wrong with running sensation Earl Campbell, last year's Heisman Trophy winner who's rushed for 608 yards his rookie season with the help of four 100-yard games.

He'll be trying to become only the sixth runner to gain more than 100 yards against the Steelers at Three Rivers Stadium.

It will be Steeler running back Franco Harris' ninth Monday night game. He's gained 806 yards in the first eight Steelers games.

Cats Host Denver City

Snyder volleyball teams will host Denver City beginning at 6 p.m. Tuesday. Denver City is one of only three teams that has beaten the Tiger varsity group this season.

Play will begin with a junior varsity tilt, followed by the varsity game at 7 p.m.

In other action, Snyder ninth grade was scheduled to host Sweetwater today at 5:30.

Midland High Cuts Snyder Golf Teams

Midland High edged both Snyder varsity and junior varsity in dual match golf action here Saturday at Western Texas College Course.

Midland defeated the Tiger varsity 315 to 329, and the junior varsity 364 to 368.

Lance McMillan and Randy Wolf took medalist and runnerup honors, respectively, with scores of 75 and 77. Other varsity members were Mike Wolf 87, Randy Chambers 90, Kip Wadleigh 92.

Kevin Donelson led the local JV with an 84. Others were Joe League 94, Leo Gallegos 95, Chris Rains 95 and Clint Potts 120.

Snyder will travel to Big Spring on Saturday for another "practice" dual meet. The acutal season begins in the Spring.

Unhappily Unmarried

By Abigail Van Buren

© 1978 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: I just read your answer to RENO—a widow, 44, with two nice children, a lovely home, no debts and a steady income, who wonders where all the decent men are. (All she meets are men who want to rush her into bed. You assured her there were still plenty of decent men out there somewhere.) Nowhere did you mention how lucky she was to have had *one* man, two nice children, a lovely home, no debts and a steady income (without working, probably).

I'm 45, have never had a husband, will never have children, and have supported myself for 25 years. I'm struggling to stay out of debt, and pray that my income will continue to be steady.

You're a little naive, Abby. There aren't that many decent men around—if you mean by that a man who wants to get married to other than a 22-year-old who's slept around for five years.

I can't find a decent man. RENO has already had one. That's better than some of us. Plus she's had all those nice fringes. Try it without a husband. No lovely home, no kids, and everyone thinks you're a lesbian because you've never married. Believe me, Abby, the widows and divorcees fare better.

J. IN CHICAGO

DEAR J.: Thanks. I never realized how lucky that 44-year-old widow was until you pointed it out. That reminds me of the man who complained because he had no shoes—then he met a man who had no feet.

DEAR ABBY: I hope you can help me. I am an alcoholic. I am also quite deaf. I have attended two Alcoholics Anonymous meetings and I couldn't hear what was being said so it didn't help me one bit.

I wrote to the A.A. main office and they suggested that I go to a certain chapter and explain my problem. Well, I did—and they started to shout at me. I know they meant well, but they sure didn't know how to deal with deaf people because shouting is not the answer. It only made me nervous. Naturally, I beat a hasty retreat.

Any suggestions? I am certain that I am not the only deaf person with this problem.

DEAF ALCOHOLIC

DEAR DEAF ALCOHOLIC: Have you considered lip reading? If not, that might be your solution. You don't say where you live. Please write again and let me know. Perhaps I can put you in touch with an A.A. member who shares your problem and has a better solution.

DEAR ABBY: A man signed "Me in Malibu" wrote that he was divorced and had two children, 9 and 11. He said his ex-wife refused to let their children visit him for two weeks in the summer because he had a live-in lady friend. You told him to tell his lady friend to get lost for two weeks so the kids wouldn't see how he was living.

I highly disagree with your advice, Abby. I am 12 and my brother is 9. Our parents are divorced, and we visit my father every summer for a month. The fact that he lives with a lady has not corrupted us. She happens to be a very nice woman. We would feel much worse if we weren't able to visit our father at all. It is better having a woman around the house than to have a different one come in every two days.

ME IN SCARSDALE

(P.S. My father made me write this.)

Do you wish you had more friends? For the secret of popularity, get Abby's new booklet: "How To Be Popular; You're Never Too Young or Too Old." Send $1 with a long, self-addressed, stamped (28 cents) envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

Supervisor 'Pooped' In Demonstration

SAN FRANCISCO (AP) - You can make people clean up after their dogs, but that doesn't mean you can make a dog poop on cue.

That's what San Francisco Supervisor Harvey Milk found out Friday, when he tried to show how dog owners could clean up after their pets as required by a new city ordinance that went into effect Saturday.

The dog brought along to a city park to provide Milk's prop seemed intimidated by a crowd of onlookers and wouldn't perform.

So Milk, who sponsored the clean-up ordinance, proceeded to scoop up plastic poop with a cardboard "Poochee Bag" - then stepped back into a pile of the real stuff.

"See what I mean," he laughed as he scraped his shoe. "All the parks are like this. You can't put a blanket down on Sunday afternoon, it's so bad."

San Francisco is now in the same bag, so to speak, as New York, where dog owners have had to clean up after their dogs since Aug. 1.

Exports Up

BUENOS AIRES, Argentina (AP)-Fruit exports from Argentina for the first five months of 1978 reached 13 million crates, a 24 percent increase from the 1977 period; according to government sources.

Spitting Women Not Yet Equal

BLOOMFIELD, Ky. (AP)-The Bloomfield Tobacco Festival no longer is a male-dominated affair.

However, the best shot by Judy Creech, the first woman to enter the contest in its four-year history, was only a third that of champ Toby Nichols of Springfield, Tenn. He won the contest over the weekend with a shot of 26½ feet. Mrs. Creech's best shot was 8½-feet.

Peggy Hood of Chaplin, Ky., struggling to keep from swallowing her plug of tobacco, dribbled out three short blasts. The third and youngest female contestant, Terry Owens, 10, of Taylorsville, Ky., failed to get competitive distances with her spits.

Mike Hahn, a local resident and winner for the past two years, held the old record, established last year, of 18 feet. Hahn's best shot this time was 21½ feet.

The world record is 34 feet and one-half inch, held by Harold Fielden of Central City, Colo. It was set in 1973.

The 26-year-old Nichols says he has been "chewing every day for the past two years." Although he had never before competed, he says he now "may go on tour."

Ali, the cousin of Mohammed, was famous among ancient Persians for the beauty of his eyes.

Rig Count Shows Gain

Drilling activity picked up in the Permian Basin last week, following a decline for several weeks, according to Reed Drilling Equipment's weekly survey.

The survey shows 265 drilling rigs in operation, compared to 54 the week before. At this time last year, there were 284 rigs running in the Basin.

Eddy County, N.M., topped this week's report with 29 rigs making hole. Pecos County was the Texas leader with 23.

Scurry County had six rigs running last week, one more than the week before.

Figures for other area counties, with last week and the week before, in order: Borden 3 and 2; Dawson 2 and 2; Garza 5 and 7; Howard 7 and 6; Kent 3 and 3; Mitchell 1 and 4.

Parlayed Habit Into Business...

Ex-Smoker Teaching Others How To Stop

PHILLIPSBURG, N.J. (AP) - For 22 years Jacquelyn Rogers tried to quite smoking. She spent two sessions a week and $2,000 on a psychiatrist; she underwent hypnosis; locked her cigarettes in the glove compartment of her car and parked it three blocks from her house.

Nothing worked.

She tried crash courses, watched movies of cancer ridden lungs being removed, tried cold turkey. She'd quit for a few weeks, a few months.

But always back to the cigarettes.

She was reduced to sneaking cigarettes lest her four children and her husband learned the awful truth. Jackie had failed again.

She became devious. She knew which friends were good hostesses, the type who keep cigarettes in the little silver urn on the coffee table. She would visit one for coffee in the morning, one for lunch, another for a later afternoon coffee.

Jackie smoked her last cigarette Feb. 1, 1968. A little later she founded SmokEnders, a company that now operates in 20 major cities in the United States and has recently invaded Canada and Norway.

She won't say what the company is worth, but it's big enough to have thrown over $1 million into a recent advertising campaign. And Lauren Bacall, Tom Tryon, Barry Manilow, and Joseph Califano have quit smoking by going to SmokEnders, she says.

Jackie's drive was largely inspired by her husband, John, a dentist in Phillipsburg. They met on the Fourth of July, 1947 - love at first sight. John had no idea the girl of his dreams smoked.

Later, he was to tell her: "I wouldn't have looked at you twice if I knew you smoked."

It wasn't that she was sneaking. She had promised her boss she wouldn't smoke for a year. But she was dreaming of the day she could light up again.

"I remember I had dreams of stealing and killing for cigarettes," she says. The boss had felt cigarettes were to blame for his heart attack. He also felt he had started Jackie smoking.

During cigarette rationing during World War II, the boss would ask Jackie to pick up a pack for him on the way to and from work.

"I felt they owed me something so I would take one. I felt very elated and very elegant," she recalls.

Suddenly she was hooked. But always fighting it.

"Never in my life did I buy a carton. I was always going to quit. I can't tell you how many time I threw them out of the car window and then went back and got them."

Meanwhile, there was marital tension. Her husband threatened, cajoled, tried persuasion. As a dentist, he had seen mouth cancer and the havoc wreaked by cigarette smoke.

When she was 43, the family had a proposition. They would take over marketing, housecleaning and cooking and mother would find out how to stop smoking.

She set a date to quit and did. Ten years later, she says she's never craved a cigarette.

Mrs. Rogers, who traded in two packs a day for a big business and a much happier husband, is 55 now, but she worries about every failure.

OBITUARIES

Mrs. Pierce

Mrs. Altha Pierce died shortly before noon Sunday in the Golden Age Nursing Home at Brownwood.

Black Cars Taboo

BRAZZAVILLE, Congo (AP) - The government has ordered owners of black automobiles to paint them another color within a month.

The decree said black was "strictly reserved" for cars of government officials and foreign diplomats.

Any privately-owned black car not repainted by Nov. 20 will be confiscated by the authorities, the decree said.
