Mrs. Donald Huffaker Is Honored For 4-H Club Work

An outstanding local 4-H adult leader, Mrs. Donald Huffaker, Abernathy Community 4-H Club, will be honored next week as one of the outstanding 4-H club volunteer adult leaders in Texas, according to Ollie Limer, Hale County Agent.

Mrs. Huffaker will be one of 24 Texans to receive the Volunteer Adult Leader Award. It is the highest State Award conferred annually by the Texas 4-H Development Foundation.

She will receive the honor at a special presentation luncheon next Wednesday, June 2, during 4-H Roundup on the Texas A & M University Campus in College Station.

The Volunteer Adult Leader Award goes to the outstanding man and woman 4-H club leader in each of the state's 12 Extension Districts.

Mrs. Huffaker was nominated for the honor because of her high quality leadership and ser-

Ninety-eight percent of the members of the Abernathy Club are junior age, under 14. The club has excellent participation in method demonstrations, dress review, foods, livestock and in special local and county events.

"Leaders like Mrs. Huffaker make it possible for our county to have one of the largest and finest 4-H programs in the state," Limer said. "Thanks to volunteer leaders like her, we have been able to bring the benefits of 4-H to more of our youth."

Mrs. Huffaker is a member of the 4-H Committee of the County Program Building Committee. This department has been worked up largely as a reflection of their business. All articles have been compiled by a representative. These people are all leaders in their various lines of who helped make this department possible is sincerely appreciated.

A. L. HARTSFIELD & FREDDY POTEET

There are a number of successful executives in Lubbock who have gained recognition for their dependability, and two well-known insurance counselors who belong in this category are A. L. Hartsfield, general manager, and Freddy Poteet, representing the Western National Life Insurance Company, whose fair dealings with many of our readers has earned for their company a host of friends and policy holders throughout this area.

They are well established in the forefront of the business life of the city. And the ethical manner in which they have conducted their business affairs is but one of the reasons for their outstanding success.

In addition to their insurance activities, Mr. Hartsfield and Mr. Poteet have also accepted their share of responsibility in aiding civic projects. As the result of the combined efforts of men like them, Lubbock is firmly established in the minds of the people as the logical business center for this section of West Texas.

We congratulate A. L. Hartsfield and Freddy Poteet for their success in business and civic affairs, and trust they will continue for many years to enjoy that success which they have so justly earned.

HUGH M. AND EDWARD J. LESTER

Hugh M. and Edward J. Lester, who just a few months ago assumed the operation and management of the Ace-Wrecking Company, at 201 North Avenue H., now known as Lester's Wrecking Company & Garage, quite readily demonstrated their unusual ability by their quickness to appreciate the obligations and responsibilities of their new endeavor, and to conduct their affairs accordingly.

Although they have been operating the business for a comparatively short time, they have made many friends and satisfied customers for their used auto and truck parts, and automotive repair.

The Lester's are active, energetic individuals, whose sincere and friendly personalities and desire to be of service, have always earned a rightful place for them in this district. They have always taken an interest in community activities, and their efforts in this connection are worthy of commendation.

Edward and Hugh Lester deserve a few words of praise for having so adequately established themselves in their new venture, and we are pleased to give them this brief, but most sincere mention.

TOM WILKINSON

At the head of one of the district's more prominent wholesale paper firms, and as a leader of recognized ability in community life, Tom Wilkinson stands out today as one of the best liked men on the panorama of Lubbock activity.

His friends are numbered by the hundreds, and all of them are of the lasting fibre which comes of worth-while associations, both in the world of business and in the realms of neighborhood life.

The Graham Paper Company, of which he is the manager, has been a strong factor in the growth and progress of Lubbock; and Mr. Wilkinson's own efforts in many instances, have been the stimuli behind the outstanding accomplishments of this reliable company. The case is an excellent example of a man weaving his own personal prominence into an executive's life, with lasting benefits to both organization and individual.

We take pleasure in expressing these few words of commendation to a man who is doing so much to promote the growth and progress of this district.

FINIS W. VAUGHN

One of the more progressive realtors of Lubbock, and one whose success can partly be attributed to a deep insight as to the direction in which the city will develop is Finis W. Vaughn, with offices located in the Whiteside Building. He has a sound basic knowledge of real estate values, and has turned that knowledge to the advantage of the people with whom he does business. And his honest methods, coupled with his sound and practical ideas, have made the services he has rendered to the people more valuable, and materially contributed to his well-earned success.

Mr. Vaughn is also civic-minded, and has always shown cheerful willingness to contribute his share of time and energy to the promotion of community projects.

It is because of the activities of such dependable business men that year after year, Lubbock continues to show such a healthy growth and expansion, both as a residential and industrial city. We are glad to pay tribute to Finis Vaughn for the part he is playing in the onward progress of this entire region.

BILL BALDREE

Lubbock has attained a prominent position in the business and commercial life of this section of the state because of the foresight of those men who had the ability to envision the possibilities of the community, and the trade area it serves. And a wide awake progressive man who justly should be included in this category is Bill Baldree of the Gordin Machinery Company.

Such men have, many times over, proven their worth to the community, both as business men, and as active workers in the civic betterment and progress of the city. And Mr. Baldree has earned the good will and respect of his fellow citizens for contributing his bit to the general welfare of the city, and the people as a whole.

It is our duty to include Bill Baldree in that group of conscientious and civic-minded individuals who have done so much for Lubbock, and to express the wish that he will continue for many years to forge ahead with the success which he has enjoyed in the past.

M. C. "DOC" ROGERS

A restaurant operator of Lubbock who has based his success upon the belief that the public will appreciate good food, well prepared, and appetizingly served, is M. C. "Doc" Rogers of Doc's Cafe, whose many friends and customers by their daily patronage of his popular eating place, attest to the soundness of his policy.

It is not only because of the successful operation and management of his cafe that Mr. Rogers has come to be recognized as an asset to the community; but is also because of his policy of "looking ahead", and endeavoring to sponsor or take part in those community activities which will, in some manner, benefit the Hub City and the people as a whole. He is another of those men who has shown his appreciation for his success by a willingness to contribute of his time and efforts to the promotion of community projects.

It is such men as "Doc" Rogers whom we are privileged to include in this review, and to publicly give him due credit for his success in business and civic affairs.

BILL R. SPRUILL

It is desirable in this review of progressive Lubbock business men that we acquaint our readers with the man to be credited with having maintained Peerless Pump Hydrodynamics Division of FMC Corporation, in the enviable position it holds in the business and industrial life of this region. That personality is Bill R. Spruill, the manager, whose genius for organization, and for converting new ideas into actual deeds has played a vital part in the distinctive reputation which this reliable firm now enjoys throughout this entire district.

Mr. Spruill has found time, in addition to his business interests to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Peerless Pump Hydrodynamics, Division of FMC Corporation has rendered to this section of West Texas.

E. L. HUGHES

Conscientious business men too frequently do not receive the credit they have earned, and are entitled to, for the time and energy they have put forth to glide the destiny of Lubbock in which they are active. It is therefore with real pleasure that we call our readers' attention to the fine work and decisive leadership of E. L.

progressive citizens, who are too often inclined to give the "other fellow" most of the credit. It is not praise that they expect or desire. It is the victory of doing, and accomplishing civic projects for the general betterment of the community from which they get their satisfaction.

But we cannot refrain from pointing out the unselfishness along these lines by such men as Mr. Hughes. As far as his fellow citizens are concerned, he has always done his part in the way of civic betterment and community progress.

W. T. "BILL" SESSUMS

It is a privilege in this review of progressive men and firms that have been such a great aid to the growth and development of this section of West Texas, to place such a man as W. T. "Bill" Sessums of the A-Jax Roofing Company, on an equal plane with all others in this category. In the past, few have exceeded him in contributing of their time and energy to the onward progress of Lubbock and the surrounding country.

Mr. Sessums is generally recognized as one of the more dependable roofing contractors in this district, and he retains that distinction in the admiration and respect of his wide circle of friends. Also his interest in, and the very valuable assistance he has rendered to the many projects of a civic nature, reflect the principles which he has always so successfully applied to his business affairs.

We congratulate "Bill" Sessums on his record, and sincerely hope that his career will be as useful, and completely successful in the years ahead as it has been in the past.

C. L. SIEWERT AND K. O. PETERSON

In every community, there are a number of business men who can be pointed out as having taken a three-fold part in the onward progress of their city. Two well known executives of Lubbock who belong in this category are C. L. Siewert and K. O. Peterson of the Great Plains Construction Company.

Their leadership in the pipe line contracting business is recognized throughout the entire country. And their furtherance of civic activities, and a support of those organizations whose main objectives are directed along lines of civic betterment and community progress is well known to their immediate associates.

Mr. Siewert and Mr. Peterson are men who are equally well liked and respected by their intimate friends and colleagues. They are loyal to the community, thankful for their success in business, and have shown their appreciation by their contributions to various civic movements of benefit to the city.

We congratulate K. O. Peterson and C. L. Siewert for being good citizens, dependable business men, and boosters of their community.

LENA OVERFELT

A city grows and prospers by reason of the public-spirited men and women who take an active interest in its development. Lubbock has its share of these progressive and civic-minded people, and one who is deserving of recognition is friendly, likeable, Lena Overfelt of L & M Builders Incorporated.

Her business ability, coupled with a thorough knowledge of the business have been major factors in maintaining L & M Builders Incorporated in a position of leadership throughout this area. She not only in her business activities, but also in her attention to civic duty, assumes an active part in community affairs.

She has always been ready and willing to contribute her time and energy to the promotion of any project promising to benefit the community as a whole, and has often sacrificed personal interests to be of assistance to the city. Her efforts are deserving of commendation and support.

We congratulate Lena Overfelt on her past achievements which, in our opinion, indicate a similar successful career in the years ahead.

J. L. AND PAULINE DUNAHOO

To serve the public honestly, efficiently, and cheerfully, is the basic foundation many progressive business men and women of Lubbock have found to be the shortest route to success. In making this statement, the two we have in mind are J. L. and Pauline Dunahoo of the Dairy Mart. The popularity and patronage enjoyed by their many services accentuates the ideals of courtesy and efficiency which they have consistently applied in the management of the business, and in the servicing of its patrons.

The conduct of such businesses, and the people who operate them, have done much to make Lubbock the business center for many miles around, and it is fitting that we give credit where credit is due to such citizens as the Dunahoo's for their part in the onward progress of the city. In doing so, we are merely putting into words the opinions of those who know them.

Pauline and J. L. Dunahoo have earned their success by the methods in which they have served the public, and accepted both civic and business responsibilities, and we wish them every success in the future.

J. D. GOODWIN

One of the more conscientious business men of Lubbock, and one who deserves the respect and good will of a great many residents of the city is capable, friendly, J. D. Goodwin of the J. D. Goodwin Battery Service, whose wide knowledge and long experience in the battery sales and service business, and automotive repair and maintenance, has brought him to the forefront in his particular vocation.

It is because of this that the J. D. Goodwin Battery Service has earned a reputation for reliability—second to none.

Mr. Goodwin is also civic-minded, and has always been ready to contribute his time and energy to any plan which promises to benefit this entire district. . . . And the people of Lubbock may regard with complete satisfaction the many services which he has performed in the interest of progress and civic betterment.

We urge our readers to look to J. D. Goodwin as a progressive business man of whom we may well be proud. His devotion to the city has been constant, and his achievements well merited. We wish for him further success.

TOMMY R. TUCKER

We desire in this Lubbock review to call the attention of our readers to the well-earned position which Tommy R. Tucker has reached in the business life of this region. During the comparatively short time he has been the manager of Famous Brands Shoe Store, he has made many personal friends as well as having earned the good will of his associates for the straight-forward manner in which he has conducted his business affairs.

Mr. Tucker has worked hard to deserve the confidence which the people of the community have in him, and he continues to work hard to maintain in every way, that high standard which he has set, not only for himself, but for the operation and management of the Famous Brands Shoe Store as well.

He has also shown a willingness to assist in every manner at his disposal in the growth and development of Lubbock, and is always ready to lend his support to civic projects. Tommy Tucker deserves our heartfelt congratulations on the splendid record he has already established, and we sincerely hope for his continued success.

PAUL L. AMMON & R. P. McADAMS

In bestowing credit upon some of the more progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both civic and business conditions, we wish to publish a few words about Paul L. Ammon and R. P. McAdams of the Ammon & McAdams Texaco Service Station.

Mr. Ammon and Mr. McAdams have set a standard for themselves, and the operation of their business, that under present existing conditions, has been very difficult to maintain. However, that they have done so is proven by the large volume of business which their Texaco station continues to handle, much of which is due to their unceasing attention to detail, and their ability to cope with

new and unexpected problems. R. P. McAdams and Paul Ammon are also civic-minded, and have, when asked, cheerfully cooperated on those civic activities to which they have been able to lend assistance. They more than deserve the respect and good will which they have earned, and their many friends and satisfied customers are confident that they will continue to maintain their usual integrity and high standards.

WAYNE JANSEN, MAXIE BROOKS, & BILL HICKS

Performing an outstanding service for the people of Lubbock and the surrounding territory, Wayne Jansen, Maxie Brooks, and Bill Hicks, agents for Allstate Insurance Company, now located in their new and modern building at 50th & Canton, have achieved enviable reputations for their progressive policies of business administration. Their constant study of the protection the people both need and can afford, have been important factors in their well-earned success.

They are men of ideas, and they are as practical as they are progressive in putting those ideas to beneficial use in furthering the service they render to the public, and one of the three will visit our own community each week. Their unwavering honesty are characteristics which place them in the front rank with other business leaders of the city. Yet, they are unassuming and modest in their personal contacts with the people; always ready to listen to their ideas and desires.

We are glad to pay tribute to dependable citizens of this type, for it is such men as Wayne Jansen, Maxie Brooks and Bill Hicks who have caused Lubbock to become recognized as the metropolitan center of this section of the state.

COBY BRIEHN

Coby Briehn, manager of the In Town Inn Motor Hotel, has won the universal respect and good will of the people of Lubbock, and the surrounding country, for the progressive manner in which he has kept this popular motor hotel in the forefront of the business life of this entire district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Briehn is not the kind of individual who makes himself conspicuous by the manner in which he conducts himself, either in business or other matters. Yet, his quiet reserve, and air of confidence mark him as a man of sound judgment, whose opinions and advice are sought after, and listened to with respect.

We compliment Coby Briehn for the successful operation and management of the In Town Inn Motor Hotel, and in so far as his constructive advice and help on those civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

JACK WORLEY AND JAY MURDOCK

Due to the efforts of a group of wide awake business executives, the city of Lubbock has attained a dominant position in the commercial and industrial life of this section of West Texas. And two of those who have justly earned credit for being progressive members of that group are Jack Worley of TIMCO, and Cutron Manufacturing Company, and Jay Murdock, general manager.

It is because of the successful operations of such a business as this that the Hub City has earned the reputation of being one of the more progressive communities in this region.

Mr. Worley and Mr. Murdock have been conspicuously successful in spite of the fact that they have repeatedly neglected their own private affairs to devote a part of their time and efforts to the successful promotion of civic projects.

It is considered a privilege to include Jack Worley and Jay Murdock in this Lubbock review, and to publicly give them credit for their success in business, and for their many contributions to the general welfare of this entire area.

J. FRED HODGES

Recognized as an authority on all cement contracting problems, J. Fred Hodges has turned his knowledge to the advantage of the people of Lubbock and vicinity. More than that, Mr. Hodges is a man who has always been vitally interested in the civic betterment and progress of the city, and has backed up his interest by lending assistance, in one form or another, to the successful promotion of many things which

have benefited the community as a whole. Lubbock owes much to such men for their part in making the city the business center of this area.

He has always been alert to the many opportunities for service, and more than ready to recognize and accept his share of civic responsibilities.

Because of these things Fred Hodges has become accepted as a conscientious business man who is an asset to both the business and industrial life of the city, and we trust he will continue to serve the people of Lubbock and the surrounding area in his present capacity for many years.

JOHN B. MALOUF

Logically a man who has earned the reputation of being one of Lubbock's more dependable dealers in fine men's suits and furnishings would in so doing, have earned the friendship and good will of a great many people throughout this entire district. And one who justly deserves that distinction is modest, efficient, friendly, John B. Malouf of Malouf's, who numbers a great many of our readers as some of his best satisfied customers.

Mr. Malouf is the type of individual who would be an asset to any community, not only because the successful conduct of his business plays a definite part in the general civic scheme, but because the ultimate measure of his value to the city and this district lies in the fact that he is untiringly zealous, and remarkably successful in the promotion of civic progress.

We appreciate the opportunity of including John Malouf in this group of conscientious and civic-minded men who are actively taking part in the evolution of the business life of Lubbock.

A. W. KEITH

It is a well-known fact that a man's true character must come through in his work; whether in business or professional activities or in public life. So when a man conducts himself in such a manner as to cause the public to recognize in him certain qualities, over and above the average, he is deserving of a few words of praise. Such a personality is A. W. Keith of the A. W. Keith Company, a leader in the business and industrial life of the South Plains.

In addition to being one of the districts more dependable authorities on grain elevator repairing, Mr. Keith was never one to shirk his civic duties. More than that, he enters cheerfully, and with enthusiasm and optimism into those civic affairs in which he has time to take a part. And seldom does he fail to find time to do his share.

A. W. Keith deserves his share of credit for being one of those progressive citizens of Lubbock who has contributed so substantially to the onward progress of the city. It is a pleasure to include him in this group.

A. V. GENTRY

In singling out some of the more progressive business men of Lubbock, we would be censured should we fail to include A. V. Gentry of the A. V. Gentry Company. He is a man who has never spared himself in his participation in both the business and civic activities of the city.

Mr. Gentry has always been conscious of his civic responsibilities, and is ever ready and willing to meet in every detail, those opportunities which come to his attention to further civic enterprise. He may well be proud of his achievements along these lines.

A. V. Gentry deserves a great deal of credit for the honest and successful manner in which he has conducted his business affairs. He is a friendly and likeable personality, whose sincere desire to be of service has gained for him a host of friends and business acquaintances in and around this region who would, if given the opportunity, join us in wishing him many more years of continued success.

JACKIE MATTHEWS

Jackie Matthews has proved his progressiveness by constantly adding to, and increasing the service which the Medical Center 66 Service Station has extended to the people. The large volume of business handled by his Phillips 66 station proves that "service" to him, is not "just a word", but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close at-

tention to his business affairs, Mr. Matthews was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets all business and civic obligations. He is a credit to his community, and is thoroughly established in the forefront of the business life of the city.

Jackie Matthews has many friends and customers throughout this region, and it is a pleasure to bring him before our readers in this review of progressive Lubbock business men.

S. S. DAKOUR

It is not always the kind of a business which determines its importance to the community. But, more or less, the methods used in its management. The services rendered to the public. And the manner in which it meets all business and civic obligations.

The cheerfulness of the entire personnel of the North College Department Store, in their contacts with the public. And the ready acceptance of all business responsibilities by S. S. Dakour, proves conclusively that he is a man who is well-versed in the principles of successful business management.

As most people know, this firm is a leader in their line of business. This is partly so because of their long experience, but also because of a never ending policy of keeping abreast of the times in their particular field.

It is a pleasure to compliment S. S. Dakour for the successful operation and management of the North College Department Store, and for his many contributions to those civic projects aiding in the growth and development of Lubbock and the adjacent territory.

JIM AND DOROTHY BOYER

Jim and Dorothy Boyer of Dorothy's, are two of those dependable type of citizens upon whom the community depends a great deal for leadership in business or other matters. They are also civic-minded and have in the past, and no doubt will continue in the future to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are never broken by an unfriendly act on their part, and they spare no efforts in order that their services to the surrounding area shall be more dependable.

The Boyer's are never known to inject themselves into a situation for the mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity. We do not hesitate to recommend Dorothy and Jim Boyer to our readers as good examples of the more progressive type of business people who have aided in the growth and development of Lubbock and the surrounding region.

TOM M. GARCIA

In critical times such as these, it takes business men of more than average ability to carry on their operations successfully. In making this statement, the one we have in mind is one of the more dependable used furniture and appliance dealers, Tom M. Garcia of the Garcia Furniture Store, who has a wide circle of personal friends and satisfied customers scattered throughout this entire district—many of whom reside in our own community.

His contagious optimism, and steadfast belief in the assured future prosperity of the people of Lubbock and its metropolitan trading area, are characteristics which are to be appreciated in a progressive business man. He has always taken an interest in community affairs, and has shown a willingness to shoulder his share of the civic load.

It is such men as Tom Garcia who, because of the honest and successful conduct of their business and private affairs, and their eagerness to contribute to the public good, who are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief tribute.

LOUIS MEMMOLO

We wish in this edition to pay tribute to Louis Memmolo, manager of The Caravan Club, for his many services to the Hub City, and his splendid record of achievements in the business and social life of the city.

Mr. Memmolo probably has as wide a circle of friends as any other man we could name, because he is just naturally the kind of individual who makes friends with almost everyone,

PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK VICINITY
(Continued From Page Six)

and always conducts himself in such a manner as to deserve the respect and good will of all who know him. Lubbock is fortunate in being able to number among its more progressive business men, citizens of this type.

He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

He may be depended upon, and his services to the people are many in number to be mentioned.

6th—Dorothy Reeves, Ann McCune; Refreshments Chairman—Vicki Havens; Music—Billie Ann Thomas.

We will have a cookie and juice shower in order that anyone desiring to help provide the refreshments will have an opportunity to do so. There will be a box in the foyer on Sunday, May 23 and May 30, in which cookies may be placed.

Those brought on the 23rd will be frozen to keep them fresh. Any frozen juice should be placed in the refrigerator in the church kitchen. Canned juice will also be suitable and the juice may be in any flavor. It would be helpful if you would put your name on the cookies or juice you bring.

ner of the base. Made of white backboard with black letters, the sign, according to John Logan, Chamber manager, "fills a definite need, since previously there had been no appropriate sign near Highway 116 identifying the base to passersby."

The sign costs approximately \$2,000. Money was donated by several Lubbock businessmen, the Lubbock Rotary Club, Lubbock

Kiwanis Club, and individuals. "The sign is another indication of the fine friendship between the citizens of Lubbock and the people of Reese," Mayor Max Tidmore stated at the ceremonies.

Heading the project for the sign's construction was Dr. O. W. English, chairman of the Reese Relations sub-committee of the Armed Services Committee.

Plans for the sign began several months ago, when the Reese Relations sub-committee identified the need for the sign.

During the ceremonies, Logan presented Col. Faver a letter of title which states, "We, the citizens of Lubbock, hope that this sign will serve as a reminder of the close cooperation which always has existed between the personnel of Reese Air Force Base and their neighbors of the South Plains". David Bates, the Chamber's Armed Forces Day chairman, acted as master of ceremonies.

Everyone involved with making the sign's construction a reality was invited to attend the ceremonies. They were guests of the base for lunch at the Officer's Club following the presentation.

After sorghum has emerged, spray Atrazine to control weeds and grasses.

The idea is to spray Atrazine 80W herbicide right after sorghum has emerged, but before weeds are 1 1/2 inches high. This one application, moved to the weed root zone by rainfall, will control most annual broad-leaf weeds and grasses in sorghum for the entire season.

Control of weeds and grasses in sorghum with Atrazine can greatly reduce the need for cultivating. And so your crop goes through the entire season without weed competition for moisture and soil nutrients.

The results of weed control in sorghum are higher yields and lower production costs. And you can now graze or feed forage to livestock from treated sorghum fields 60 days after Atrazine application.

Contact your local supplier now for Atrazine 80W herbicide.

Doctor Bags Two Bears On Alaskan Hunt

Dr. Kenneth Gregory of Abernathy Medical Clinic returned home Friday from a two-week hunting trip in Alaska. He went by jet from here to Los Angeles, to Seattle, landing in Juneau, Alaska. Dr. Gregory, along with an Alaskan guide, hunted bear on Admiralty Island.

Dr. Gregory killed a black bear with a bow and arrow and a brown bear with a gun. Commenting on the bow-and-arrow kill, Dr. Gregory said his guide was backing him with a gun just in case the arrow failed to hit its mark.

In addition to bear-hunting, Dr. Gregory also shot about 15 seals which bring \$30.00 each on the market in Alaska. Fishing was good, too, Dr. Gregory said. He caught a large number of trout, weighing up to six pounds. He threw most of them back because of the high price to have them shipped home.

The most confusing experience, Dr. Gregory said, was the long hours of daylight. It didn't get dark until about 11:00 p.m. and daylight began returning about 2:30 a.m.

The black bear which Dr. Gregory killed with a bow and arrow measured seven feet, two inches, and weighed about 450 pounds. Full grown, the black bear reaches a weight of 600 pounds.

The brown bear measured 8 feet, one inch, and weighed about 550 pounds. Weight of a grown brown bear is about 1,200 pounds, Dr. Gregory said.

A 22-year-old Abernathy farm laborer was in good condition at Hi-Plains Hospital, Hale Center, Saturday following a shooting incident on a farm shortly after noon.

Police said the victim, Trinidad Morales, underwent surgery to have a bullet removed from his right leg.

Hale Center Police Chief Orval Watts said Morales told officers he was driving a tractor on a farm northwest of Abernathy when three men drove up in a car.

Morales said he thought the men wanted to talk to him and got down from the tractor. As he started toward the vehicle, Morales told police, one of the men shot him.

Watts said Morales could not identify his assailants.

SIZE IT UP

CHEVELLE MALIBU by Chevrolet

Eye-catching Chevelle Malibu Sport Coupe.

A good 16 inches shorter than the full-size Chevrolet outside, so it's very easy to handle and park. Plenty of room inside. You get it with our spirited, smooth running 120-hp Hi-Thrift Six or you can order from a family of powerful V8's.

That Malibu has a vacation-size trunk plus plenty of luxury—foam-cushioned seats, full carpeting, rear ashtrays and more. Some great options and accessories available for it. And our trade will make your payments as comfortable as its ride. So size it up. Try it with America's most popular 6-cylinder engine in its most popular intermediate-size car.
