MURDER CHARGES HALT BURIAL OF LAWTON GIRL

Mrs. Stallworth Tells Jury Fear Of Attack Prompted Shooting Of Her Rival

JURY TO HEAR ARGUMENTS IN CASE TODAY

Evidence Completed With Testimony of Accused Amarillo Woman

UNWRITTEN LAW PLEA

Defendant's Brother-in-Law Tells of Conference To Avert Trouble

AMARILLO, Texas, June 5. (UP)—Evidence was completed tonight in the trial of Mrs. Levi P. Stallworth, charged with murder in connection with the fatal shooting of Mrs. Grace Morrison. Attorneys' argument will begin tomorrow.

Mrs. Morrison was killed in front of the Moore hotel here on May 15. Mrs. E. M. Stallworth, mother-in-law of the defendant, is also held in connection with the shooting, it being alleged that she held the victim until her daughter could shoot.

Mrs. Levi Stallworth took the stand in her own defense late today for the first time.

Feared Attack

"I fired because I thought Mrs. Morrison was going to attack me," she said. "She threw up her hands and it looked like she was going to jump at me. I saw a flash and thought she might have something in her hand to attack me so I fired. I don't know how many shots."

Mrs. Stallworth testified that Mrs. Morrison had grappled with Mrs. E. M. Stallworth and that she believed the woman was going to strike her next. It was evident Mrs. Morrison was angry, she declared.

The defendant declared she was weak, weighed 104 pounds and had just been released from the hospital whereas Mrs. Morrison was a woman of large stature.

She said she went to the rooming house where Mrs. Morrison stayed expecting to find her husband there. She said she first looked in the window, and then saw Mrs. Morrison leave the rooming house and go toward an automobile at the curb which she said both Stallworth and Mrs. Morrison used. Mrs. Morrison got in the car. Mrs. Stallworth climbed to the running board and asked her where her husband was.

Seized Pistol

"I don't know, and you had better leave me alone, you little—," Mrs. Stallworth quoted Mrs. Morrison as saying.

With this remark, Mrs. Stallworth declared Mrs. Morrison slipped to the right side of the car and pulled a pistol from the car pocket.

"As she started to open the car door, I grabbed the gun away from her," Mrs. Stallworth testified. "I threw it on her, demanding she accompany me to the police station. I had no intention of killing Mrs. Morrison or doing her bodily harm."

The witness said the pistol belonged to her husband, Levi P. Stallworth.

M. S. Boyer, Amarillo hotel owner said a short time before the shooting, Stallworth came into his hotel from a car parked across the street carrying a pistol in his belt. The

Condemned Man Smiles At Swindling Charges

DALLAS, June 5. (UP)—E. V. Allen, held under death penalty here for a bank holdup at Carbon, was little worried today when he got notice that checks he had sent to a Los Angeles firm were no good. "Why should I worry about a little check swindling charge when I am under death penalty," he reasoned. He gave the checks in payment for candy to treat the inmates of the county jail.

Thrift Is Liberty, Says Mytinger

J. C. Mytinger, prominent business man and civic leader of Wichita Falls, in speaking of the Record News and Daily Times Thrift campaign, said: "The uplifting of a community requires vision and leadership. The foundation of success is thrift and thrift is liberty. To encourage the people, young and old, of a community to lay the foundation and persist in the habit of saving in a small way is a most valuable service, and I earnestly hope that the people of Wichita Falls will appreciate the great benefits that must necessarily flow from this campaign."

Texas Family Killed by Explosion In House They Considered Renting

Abilene Man, Wife and Baby Die of Injuries Received In Blast Caused by Leaky Gas Pipes

ABILENE, Texas, June 5. (AP)—Mrs. Vera Lawler died here today from burns received in a gas explosion yesterday, bringing the toll in the accident to three. Her husband, Gene Lawler succumbed earlier in the day and her one-year-old daughter Doris died shortly after the accident.

The Lawlers had entered an apartment which they considered renting and the husband struck a match, igniting gas which is thought to have leaked from pipes in the house.

Funeral services for the family will be held here tomorrow. Burial will be in Dallas.

Police believed a leaky gas pipe was the cause of the explosion, and an investigation was ordered by Mayor T. E. Hayden.

The Lawlers formerly lived in Dallas.

SHRINE NAMES YOUNGSWORTH

Mystic Order Elects New Set of Officers

LOS ANGELES, June 5. (US)—Leo Youngsworth of Los Angeles today was elected imperial potentate of the Ancient Arabic Order of Nobles of the Mystic Shrine, now holding its fifty-fifth annual convention.

Others elected by the imperial council included Walter Sugden, Osiris temple, West Virginia, outer guard; James Burger, Denver, renamed treasurer, and James H. Price, Richmond, Va., re-elected imperial reporter.

With the exception of Frank Jones of Houston, who retires after a year as imperial potentate, all of the other shrine officers were moved up an office in accordance with the custom of the order.

Although there was considerable talk by those close to the imperial council that Atlantic City may be selected for next year's conclave, Toronto, Canada, appeared to the only city strongly bidding for the meeting. Selection will be made tomorrow.

Extension of Bridge Franchises Opposed

OKLAHOMA CITY, June 5. (UP)—The senate today adopted the bill by Senator Mac Q. Williamson and others prohibiting the extension of toll bridge franchises beyond the date for which they were originally granted. The vote was 31 to 0. The bill now goes to the house for consideration.

ANTON BETTER

CLOVIS, N. M., June 5. (AP)—J. Fred Anton, superintendent of the New Mexico division of the Santa Fe railroad, was reported "somewhat improved" at the company's hospital here today. He was injured in an automobile accident Monday.

Sooner Senators Flay Representative Owens

OKLAHOMA CITY, June 5. (UP)—Representative O. O. Owens, leader of recent Oklahoma impeachment proceedings, was bitterly denounced on the floor of the senate late today by senators who described him as "a jackass in gentleman's uniform."

Owens brought down the attack with a statement that the senate was "erecting a smoke screen to shield its real purpose." His assertion was made while he argued a resolution asking investigation of all testimony in senate court impeachment trials. The investigation was proposed by legislators who believed some of the witnesses had perjured themselves.

Death Demanded In 'Insurance Murder' Case

MACON, Ga., June 5. (UP)—The death penalty for Mrs. Sarah E. Powers, 71-year-old rooming house proprietress as well as for Earl Manchester, confessed slayer of James Parks, young printer, in an insurance murder plot, will be asked when the two go on trial, it was definitely learned today.

The aged landlady and her young roomer will be tried separately during the week of June 17.

Screen People Plead Not Guilty to Fraud Charges

LOS ANGELES, June 5. (UP)—Eleanor Boardman, screen actress, and King Vidor, her director-husband, have entered pleas of not guilty to fraud charges in connection with income tax returns. The cases were continued until the September term of the court.

HOUSE TO TAKE UP ROBISON'S CASE TODAY

Woodruff Introduces Motion to Impeach Veteran Land Official

SPECIAL BUSINESS

Resolution Climaxes Long Criticism of Texas Commissioner

AUSTIN, June 5. (UP)—A resolution asking that impeachment proceedings "be instituted against State Land Commissioner J. T. Robison, was introduced in the house of representatives of the Texas legislature today by Rep. Grady Woodruff, of Wise county.

Consideration of the impeachment resolution was set as special order of business for 10 o'clock tomorrow by the house. Speaker Barron asked delay to consider points of order regarding it.

In offering the resolution Woodruff withdrew one presented earlier today asking that Robison be requested to resign.

Robison Criticised

Today's action came as a climax to a series of criticisms of the operation of the state land office. An investigation committee appointed at the regular session of the legislature criticized Commissioner Robison's conduct of the department.

The investigation followed a demand by Governor Moody that Robison withdraw from sale large bodies of University oil lands upon which bids were called just before the regular session of the legislature.

Commissioner Robison refused to withdraw the lands, saying he was bound by statute to offer them for bids when there was a demand. A temporary injunction was granted preventing sales under the bids, but was later dissolved, the court upholding Robison's stand.

Meanwhile the legislature in a hastily passed bill withdrew all lands from the market. Another bill placed the disposal of university lands in the hands of a board consisting of the land commissioner and two regents.

The committee also investigated revaluations of school lands made by Commissioner Robison. In it's report the committee criticized severely the lack of a complete record of the cent-an-acre fund assessed on all land designated for revaluation. The report showed that $32,787 of the fund received by Robison was not accounted for.

Robison declined to comment today on either the demand for his resignation or on the impeachment resolution. The latter asks that the house act as a committee of the whole and that the speaker within 24 hours appoint a committee of five members with instructions to draft and present to the house articles of impeachment. It adds the provision that the same committee act as house board of managers if the impeachment articles are adopted by the house.

Colorado Delegates Will Confer in 'Couples'

WASHINGTON, June 5. (US)—Commissioners of Arizona and California in the tri-state conference on the Colorado river problem today accepted a suggestion made by Col. William J. Donovan, chairman, that each of them select one member to meet with him to try to reach tentative agreement on one phase of the water division problem.

Each state will announce tomorrow morning its selection of a member to confer with Colonel Donovan.

FUNDS VOTED

AUSTIN, June 5. (UP)—Judiciary appropriation bills were passed by both house and senate today. The senate engrossed $13,000,000 appropriation bill for eleemosynary institutions, but adjourned for the day while Senator Joe Moore of Greenville was trying to cut out an appropriation for a psychiatric hospital in connection with Baylor medical school at Dallas.

Body Of Zundelowitz To Lie In State Here Saturday And Sunday

Wichitans of many sects, creeds, professions and of every station of life will pay their final respects Saturday and Sunday to the name of A. Zundelowitz, a native Russian, a member of the Jewish faith, a man who drove a team of horses to Wichita Falls in 1886 and launched the business which was to bring him fortune, and the means of benefactions which made him beloved of hundreds in his home town.

Death claimed the aged philanthropist in a hospital at Santa Monica, Calif., at 4:30 o'clock Tuesday afternoon. His body, accompanied by relatives, will arrive here over the Fort Worth and Denver at 12:25 Saturday afternoon, and will be taken immediately to Temple Israel, where it will lie in state until 9 o'clock Sunday morning. Hundreds of Wichitans, from school children to pioneer residents, will have this last opportunity of passing in tribute at the bier of one known in every home of the city for his devotion to the best interests of Wichita Falls and its residents.

At 9 o'clock Sunday morning services will be held for Mr. Zundelowitz at Temple Israel, with Rabbi S. J. Schwab in charge. Other speakers will include C. H. Clark, chairman of the Wichita Falls school board; George W. Lawler, Masonic secretary here and prominent in Masonic circles of the state, and Dr. N. F. Grafton, pastor of the First Presbyterian church.

Following the services here at Temple Israel, the body will be placed on the Fort Worth and Denver at 12:40 in the afternoon and sent to Dallas, where Monday morning at 10 o'clock services will be held at the Scottish Rite Cathedral of Dallas. Burial in Dallas will be at the side of his wife.

Burial service of the Rose Croix, at which the Dallas Consistory of Scottish Rite Masons will officiate, will be said at the rites to be held at the cathedral there.

Rabbi David Lefkowits of Temple Emmanuel of Dallas will officiate at the services.

From the day of his arrival in the unincorporated pioneer town which was Wichita Falls in 1888, Mr. Zundelwoitz adopted the city as his own, fought with it through the early years of its growth and

SAVINGS OFFER OPEN FIVE DAYS

600 Now Enrolled In Campaign Here

One hundred and thirty-one Wichita Falls citizens took advantage of The Record News and Daily Times Thrift offer of the "World and 50 cents free" Wednesday, making a total of over 600 who have joined in the four days that the campaign has been on.

Only five days remain for you to clip the official coupon found elsewhere in this paper and bring it with your money to the North Texas Building & Loan association and secure your World bank and 50 cents added to your account.

Money Accumulates

To show how money accumulates, if a young man of twenty saved only 25 cents a day, with interest, he would have $10,000 when he became 65 years of age. Two dimes saved each day by a man of 30 will amount to $5,000 when he reaches the age of 65. If large beginnings are impossible, a small beginning is worth while.

Benjamin Franklin, father of thrift, once said: "The habit of thrift develops character. Thrift is merely the habit of foregoing unnecessary pleasure and luxury in order that the future may be provided for. The thrifty person must practice the habit of self restraint, and in so doing he develops willpower and character."

The late E. H. Harriman, one of America's greatest financiers, said: "Show me how a man uses his money and I will tell you what kind of a man he is. A thrifty man has a high opinion of himself and a sound sense of what he owes the community."

If you want to be "looking at the world through rose-colored glasses," clip the coupon at once and hurry

New Mayor to Wage Los Angeles Vice War

LOS ANGELES, June 5. (US)—With complete semi-official returns showing that he had been carried into office by a majority of 45,199 votes at yesterday's municipal election, John C. Porter strongly indicated in an interview today that one of his first official acts as mayor will be to order a vigorous vice crusade.

From the tone of Porter's statements, a majority of the police commissioners and a great many other persons in appointive jobs will find themselves seeking other employment after he takes office July 1.

King Able to Sit Up To Receive MacDonald

LONDON, Eng., June 5. (US)—King George was well enough to sit up in a chair today when he received Ramsay Macdonald and commissioned the British Labor leader to form the new government.

The king was propped up in a spacious chair when Macdonald, accompanied by his son, Malcolm, arrived at Windsor shortly after 11 o'clock, during the ceremony of the changing of the guard. The Laborite head wore a dark suit and an "Irou hat," and swung an unfurled umbrella.

33 to 1 Shot Captures Historic British Derby

EPSOM DOWNS, England, June 5. (AP)—Fortune turned her back on the experts today and sent Trigo, an unacclaimed Irish colt, out to win the derby, the world's greatest horse race, before vast multitudes on Epsom Downs.

Scantily backed at 33 to 1, Trigo, owned by an Irish merchant from Ulster, William Barnett, triumphed over a field of 26 of Britain's choicest 3-year-olds.

The Prince of Wales with his sister and brother-in-law was among spectators—some said a million but really nobody counted them—who saw the race.

Appointment of Cotton May Be Reconsidered

WASHINGTON, June 5. (AP)—Reconsideration of the confirmation of Joseph P. Cotton, New York attorney, as under-secretary of state, was demanded late today in the senate by Senator Wheeler, Democrat, Montana.

Don't Take Anesthetic While You Have Your Operation

FREEPORT, Ill., June 5. (AP)—Talking done while under an anesthetic on an operating table cost Ralph T. Calam his wife. The wife's name was Gertrude but the name he murmured endearingly was Florence. Mrs. Calam investigated the situation and today she got her divorce.

STATE INCOME TAX OPPOSED

Huff Heads Wichita Group To Fight Bill

Preliminary steps toward opposing the passage of legislation providing a state tax on incomes, as urged by Governor Moody Monday before the legislature, were taken Wednesday morning by a group of about 15 men prominent in business circles here at a meeting held in the office of J. A. Kemp.

R. E. Huff was chosen chairman of the group, with J. C. Mytinger as secretary. Although definite information was not available Wednesday, relative to exact measures for which Governor Moody asked support, it was assumed, according to Mr. Huff, that the same bill which was introduced and lost in the first called session of the legislature about a month ago will be re-introduced with the governor's active support.

Copies of the bill to be considered by the present session will be in the hands of the men who met Wednesday morning within the next two days, it was said, and a meeting is to be held Saturday afternoon at 3 o'clock for a detailed study of its provisions. Both Mr. Huff and Mr. Mytinger stated that they and their colleagues will actively oppose any measure similar in purpose to that introduced in the first special session.

West Texas Land Suit Goes to Supreme Court

AUSTIN, June 5. (AP)—The case of Mrs. Marrie A. Smith Against C. R. Sutton, involving title to valuable oil lands in West Texas, was withdrawn today from the commission of appeals by an order of the supreme court and set down for hearing before the court on October 30.

The court also invited attention of counsel for all parties in the case to certain constitutional provisions, statues and authorities, "in so far as they may throw light upon any issue in the case."

Payroll Suspect Held At Dallas for Warrant

DALLAS, June 5. (AP)—A man said to be wanted in Galveston in connection with a $6,400 payroll robbery and in Los Angeles on a murder charge still was held here today. Officers said he would be turned over to the first officer to arrive with a warrant for him.

Tariff for Long Staple Cotton to Be Considered

AUSTIN, June 5. (UP)—John H. Kirby, president of the Southern Tariff association, issued a call today for a conference to be held here Saturday at which an effort will be made to put long staple cotton and cotton seed products on the dutiable tariff lists.

COUNTY VALUES 60 MILLIONS

Few Assessment Raises Made, Says Marrs

Wichita county's tax valuations for 1929 will reach approximately $60,000,000, or practically the same amount assessed in 1928, according to estimate announced by John P. Marrs, county judge, at the close of the preliminary work of the board of equalization Wednesday.

New property added to the tax rolls has made it possible to maintain a general low level of valuation, the judge declared, and has limited the number of valuations raised by the action of the board.

Between 500 and 700 property owners will be given an opportunity to protest raises when the commissioners meet again during the week of June 24 as a board of equalization, Judge Marrs declared. Notices of the changes are now being prepared and will reach the owners within a few days. The board will probably remain in session throughout the last week in June, the judge said.

"We have tried to put all the property on the rolls and keep the average of valuation down" was the way Judge Marrs summed up the policy of the board during its first ten day's work.

Texas' Champion Goober Herder To Hold Auction

COLORADO SPRINGS, Colo., June 5. (UP)—Confidence that Bill Williams of Texas will succeed in pushing a peanut to the summit of Pikes peak in the allotted 22 days was elaborately expressed up near the mountain top today when bids were opened for the first time for the particular peanut that Bill propells to the pinnacle.

While the figures will not be made public until all offers have been scanned by Bill's "board of strategy" it is expected that she will make the announcement of the lucky souvenir seeker before the awaited climax of the push.

The box score tonight showed that Bill has pushed the peanut a total of 18.1 miles.

Fire in Ship's Hold At Houston Extinguished

HOUSTON, June 5. (AP)—Fire which broke out last night in the lower hold of the Southern Steamship Co. S. S. City of Houston, docked on the north side of the turning basin here, was extinguished today after causing damage to the cargo estimated at $20,000 by company officials. Two persons were slightly injured in fighting the blaze.

Action of Postoffice In Handling Check Approved

AUSTIN, June 5. (UP)—Holding that Mrs. Almeda Martin, of Fort Worth was trying to collect alimony when no divorce suit was pending, the state supreme court today upheld the Fort Worth postoffice in refusing to give an employe's pay to a receiver to divide with the employe's estranged wife.

STORY OF FALL FROM RUMBLE SEAT DOUBTED

Four Indians, Including Woman, Accused In Murder Charges

WEALTHY HEIR HELD

William Kosepeah Jailed In Highway Death of Mildred Speck

Special to The Record News.

LAWTON, Okla., June 5.—Arrangements for the funeral of Mildred Speck, 21, reported to have been fatally injured in a fall from the rumble seat of an automobile last Saturday night, were abruptly interrupted Wednesday afternoon when Comanche county officials ordered an autopsy and issued warrants charging murder against each of the girl's four companions on the fatal ride.

William Kosepeah, son of one of the leading Indian families in the nation and heir to an immense fortune, whose tribal name is "Red Elk," is among the four prisoners held without bond in the Comanche county jail. Kosepeah, whose wife and baby also live in Lawton, occupied the rumble seat with Miss Speck at the time of the accident, according to the stories told to John W. Tyree, county attorney. The others named in the murder charges, all of them Indians, are Willie Cox, Bertha Cox, and Louis Tippeconnie.

Skull Injury

In a written report to Mr. Tyree late Wednesday afternoon, the physicians conducting the autopsy declared that death had evidently resulted from an injury to the base of the skull, where a swelling was discovered, but they added in the statement that no abrasions or injuries to the back of the head could be discovered. Their conclusion was that the fatal injury could not have resulted from a fall, Mr. Tryee said. The physicians also observed that the girl's right wrist was bruised all the way around, a hurt they declared had not come from a fall.

Kosepeah and other members of the automobile party told officials that the girl had fallen from the rumble seat where she had been riding with "Red Elk."

"There was a flash and she was gone," her companion told the county attorney. Other members of the party told Mr. Tryee that they knew first of her fall when Kosepeah called to them from the back. She was picked up, put in the front seat and brought into town, the companions asserted.

Evidence Held

Investigations of the incident have been underway during the past several days. The county attorney declared Wednesday afternoon that the state had collected evidence indicating that the girl met with foul play. He explained that shoes, handkerchiefs and other bits of her clothing were found scattered along the road three-fourths of a mile back from the spot on the Fort Sill road where the accident was said to have occurred.

Accounts of the tragedy all said that Miss Speck had been occupying the left side of the rumble seat, Mr. Tyree added, but strands of hair and blood stains were found on the right rear fender, officers said. Conflicting stories of the companions and other evidence collected since Sunday led to the filing of the complaints Wednesday, the official explained.

Members of the Speck family, who have been pushing the inquiry, have employed the services of E. M. Geneman, criminal lawyer, to assist in prosecuting the case. The interrupted funeral services will probably be held early Thursday.

Aged Millionaire Drops Six Stories to Death

VIRGINIA BEACH, Va., June 5. (UP)—Suicide with the motive unknown was the unofficial verdict tonight in the death of Adolph Joseph Coors, 82, reputed multi-millionaire of Golden, Colo., who leaped from a six-story window of the Cavalier hotel today. Coroner R. W. Woodhouse viewed the body and said an inquest was unnecessary.

Lightning Plays Queer Tricks When Bolt Strikes Horrace Robbins' Home

"Freaks" of the electrical and rainstorm which hit Wichita Falls early Wednesday morning apparently were centered in the home of Horrace Robbins, 1306 Grant street, which was struck by a bolt shortly after 3 o'clock. Although considerable damage was done in the home, occupants escaping without injury.

The charge entered the house through the wire leading to the radio, completely shattering the instrument and leaving burned spots on the walls nearby. A heavy iron elephant on the radio stand was thrown across the room by the force of the charge. The electric meter was burned out and the telephone apparatus was thrown out of commission, necessitating replacement of these instruments Wednesday.

Several milk bottles on a refrigerator were thrown down and shattered. An electric light globe in one of the rooms dropped from its socket, leaving the metal part of the bulb in place. The posts of the radio aerial were thrown into the yard.

Three-Weeks Deadlock on Farm Aid Ends When Conferees Kick Out Fee

WASHINGTON, June 5. (US)—President Hoover scored another round in the battle over the export debenture plan today when the senate and house conferees kicked that provision out of the farm relief bill.

Agreement was reached on all other features in the bill, which sets up a federal farm board with a $500,000,000 fund to stabilize the agricultural industry, after the conferees voted 8 to 2 to eliminate the subsidy provision.

Three of the senate conferees—Senators McNary of Oregon and Capper of Kansas, Republicans, and Ransdell of Louisiana, Democrat—joined with the five house members in the vote to knock out the debenture, while Senators Norris of Nebraska, Republican, and Smith of South Carolina, Democrat, voted to retain.

Thus ends the three-weeks deadlock on the debenture. It is now up to the house and senate to ratify the action of the conference to write the measure into law. The house is expected to act speedily on Friday and the senate early next week.

NEGROES WIN PRIMARY VOTE

Virginia Law Held Unconstitutional by Court

RICHMOND, Va., June 5. (INS)—The Virginia law denying negroes the privilege of voting in a primary election was held unconstitutional by Federal Judge D. L. Groner today in the case of James O. West, negro, who sued precinct officials for nominal damages to test the law. He was barred from voting in the last Democratic primary. Judge Groner ruled the law was contrary to both the fourteenth and fifteenth amendments of the constitution.

Texas Case Recalled

WASHINGTON, June 5. (AP)—The decision of Federal Judge Groner holding the Virginia primary law contrary to the fourteenth and fifteenth amendments of the constitution recalled here that a primary election law of Texas denying negroes participation in Democratic primaries in that state was declared invalid by the supreme court in March, 1927.

The opinion, delivered by Justice Holmes in a case brought by L. A. Nixon, negro, who was excluded from voting at a Democratic primary in El Paso, held the constitution denied states the power to withhold from negroes equal protection of the law, the opinion adding that all persons, whether negro or white, shall stand equally before the law of the states.

Stating there must be no discrimination because of color, the opinion declared Texas attempted to forbid negroes from taking part in a primary election because of color alone.

Still Blast Takes Toll Three Lives

BRAINTREE, Mass., June 5. (INS)—With the recovery of two charred bodies from the smouldering debris and the death of a man in Quincy hospital, the double explosion at midnight in two stills in the plant of the Cities Service Refining company had taken a toll of three lives and caused property damage by fire estimated tonight at $500,000.

Burned almost beyond recognition, the bodies of night Superintendent Grant C. Chase, and laborer Wallace Minott, were found.

As the bodies were being taken from the flame swept debris of the two giant stills, Fireman Frank Ford, who had been rescued while a blazing torch, died of body burns in Quincy hospital.

PRINCE HENRY LANDS ON NECK

King George's Third Son Injured at Polo

VANCOUVER, B. C., June 5. (INS)—His collar bone fractured in a polo accident, Prince Henry, third son of King George, today was under the care of physicians in his quarters in the Vancouver hotel.

Prince Henry was hurled from his pony while leading a team on the exclusive Brighouse field near here. He landed on his head and neck when his mount was thrown violently to the ground.

He had planned to remain here three days before departing for London but the injury will necessitate a much longer stay.

The accident occurred shortly after Prince Henry's arrival here from the Orient where, as representative of his father, he conferred the Order of the Garter on the emperor of Japan.

The royal visitor was acting as captain of a team representnig the Tenth Hussars, his own regiment. Playing with him were Lord Airlie, Col. Reggie Chaplin and Eric Hamber. The opposing team was composed of British Columbians.

PLOT TO STEAL PLANE FAILS

Workmen Attempt to Take Roma to Italy

WILMINGTON, Del., June 5. (INS)—Bellanca Aircraft corporation officials today revealed a plot to steal the Sesqui-Plane Roma and fly it to Rome had been frustrated during the night.

The plot involved a half dozen workmen employed at the Bellanca plant near here, according to Alfred D. Chandler, manager of the plant. Only the fact that news of the daring scheme leaked out and state police were called prevented it from being carried out, Chandler said.

The Roma was left out on the field last night but when the conspirators slipped in to the plant and began carrying food and fuel to the plane which they had secreted in the hangar, state troopers and company officials appeared on the scene. The men escaped, however, in an automobile.

At least two of the workmen were recognized and several arrests will be made today, G. M. Bellanca, president of the Aircraft corporation said.

The Roma was built several months ago for a flight to Rome but the project fell through after Roger Williams, the pilot, had taken the plane at Old Orchard Beach, Maine, for the take-off.

Search Made for Three Believed to Be Drowned

M'ALESTER, Okla., June 5. (INS)—Search was instituted today for the bodies of William Cole and his two sons, believed to have drowned in Peaceable creek, following the finding of their wagon and team early this morning.

Cole and his sons, Klo, 11, and Presco, 14, have been missing since Saturday. The bodies of the horses and wagon were found in the creek. It is believed the trio drowned in attempting to ford the swollen stream.

CHICAGO, June 5. (UP)—Strains from a radio set that kept Asst. State's Atty. Harold Keele awake until the milk man's footsteps broke the gray silences of dawn were the cause of Mrs. Ella Liner and her sister, Mrs. Cecelia Ashworth, being in the house of correction today for contempt of court.

HE KNOWS, NOW, WHY EVERYONE IS PRAISING SARGON

"I've heard a lot of wonderful things about this new Sargon treatment, but I don't believe anybody ever got any finer results from this medicine than I did.

"For 10 years I suffered with

J. C. PILAND

rheumatism in practically every joint of my body, until my life was just one continual round of suffering. My kidneys giving me trouble at the same time, certainly did make it bad for me and I never could get a good night's sleep. I had sharp pains through my back and kidneys, and I would have to get up several times during the night. I was always constipated, and kept dosing myself with all sorts of laxatives.

"I spent a lot of money on medicines trying to get my health back, and I had about decided that nothing was going to do me any good at my age. But I kept reading where so many people, here in Fort Worth, were being restored to health by Sargon, that I made up my mind to try it.

"Well, sir, I can't hardly believe it myself, but this new Sargon treatment has driven every bit of the rheumatism out of my body. That kidney trouble is gone and I haven't got a pain or ache of any kind. I now enjoy sound sleep for the first time in years, and I get up feeling refreshed and full of life.

"Sargon Soft Mass Pills overcame my constipation and regulated me perfectly. My whole system is in fine condition and I feel like a strong, healthy man again.

"I can understand now why everybody is praising this new Sargon treatment. It does all and even more than is claimed for it."

The above grateful statement was made recently by J. C. Piland, well known retired merchant, whose address is Box 582, Route No. 4, Fort Worth. Mr. Piland belongs to the Odd Fellows, is a member of the Baptist church, and is highly respected by his friends and neighbors.

Sargon may be obtained in Wichita Falls from the Renfro Drug Co., Eighth and Scott streets, No. 1 main store, and Seventh and Indiana, No. 2; in Electra from Lough's Drug store; and in Burkburnett from Burkburnett Pharmacy.—Adv.

Ford's Entrance Into Russian Trade Has No Bearing on U. S. Recognition

WASHINGTON, June 5. (INS)—Participation of American capital in the $38,000,000,000 foreign industrial investment in Soviet Russia through Henry Ford's $30,000,000 contract with the soviet government, leaves recognition by the American government as remote as it has been during the past 11 years, officials indicated today.

Neither President Hoover nor Secretary of State Stimson has shown any particular interest in the Russian situation since March 4. Senator Borah, Republican, Idaho, staunch advocate of Russian recognition has refrained from pressing the matter.

Officials familiar with Russian conditions declared today that despite the growing impression that Russia is gradually returning to a capitalistic state, communism is marching slowly toward its ideal—complete state control of social, industrial and economic life. There is little that goes on in Russia that is being overlooked by American government officials assigned to watch developments.

NOISY SINNERS DRAW PROTEST

Soul Saving Services Too Boisterous, Is Claim

NEW YORK, June 5. (INS)—The noises in connection with soul saving rites by Rev. Rein Seehus were protested against today in Brooklyn court.

Tenants adjoining the headquarters of "The Scandinavian New Church of God" complained at the screaming and weird noises issuing from within until after 1:30 a. m.

Rev. Seehus, admitting there was a good deal of noise, asserted that there were some very bad sinners. He said they "got beyond control as they seemed to gain possession of the Holy Ghost."

The judge admonished the minister to enforce a normal amount of quiet in conducting his services and declared that loud noises were not essential to salvation, in his opinion.

Wheat Crop Looks Good In Hutchinson County

Special to The Record News.

BORGER, Texas, June 5.—Wheat in the north part of Hutchinson county is looking good despite the lack of moisture from recent rains, according to J. R. Kirk, county commissioner from the fourth district, who resides in the Holt community.

"The wheat looks pretty good, despite the dry weather," he said. "I believe we will have a good crop this year.

"If it does not turn hot very soon, the harvest will not start until about June 25 to 30. I think the binders will be able to go into the fields about the last of June. The combines will follow in about a week."

A couple of good rains, he added, before the harvest begins, will be the best possible thing for a bumper crop.

More farmers are breaking out land this summer than ever before. Next fall the wheat acreage should be nearly double what it has been.

'NOT A COUGH IN A CARLOAD"

DEBT REPORT BEING DRAWN

Reparations Text to Be Given Thursday

PARIS, June 5. (US)—The final draft of the reparations report will be submitted to the delegates on the experts' committee tomorrow morning.

Throughout today and late into the night, Sir Josiah Stamp of Great Britain, Thomas W. Lamont of America and others of the drafting group, worked continuously in putting the finishing touches to the English text, and ironing out minor differences over the wording.

The greatest obstacle to the completion of the formalities is the necessity of supplying the French and German official texts. All work in the drafting has been done in English, which has been the prevailing language of the experts' deliberations, since it is spoken not only by the Americans and English, but also by the Japanese, Italians and Germans. Translations, however, were made for France and Belgium.

Now the French have insisted on having an official report in their own language. One of the Japanese delegates, in contradistinction, laughingly stated that the delegates need not await an official Japanese text before leaving.

While there is a possibility that the signing of the agreement may be concluded tomorrow night, the prevailing view is that the formality will take place on Friday.

Hale County Leads In Tested Cattle

Special to The Record News.

PLAINVIEW, Texas, June 5.—Hale is the leading county in the state in the number of dairy cattle herds tested for tuberculosis, said Dr. C. R. Covington of Fort Worth of the Texas Livestock Sanitary commission, who finished his work in the county last week.

Four thousand head of dairy cattle, representing approximately 275 herds, have been tested by Dr. Covington, assisted by County Agent R. M. Milhollin, who was the guiding hand in securing the work of the commission here. The work was conducted at no expense to the owners of the cattle. Only one per cent tested reacted and they have been destroyed or are to be destroyed. Where an animal is condemned, the government allows $50.00 for damages if a grade cow, and $100 if the animal is registered.

An effort is being made to have Dr. Covington in the county again in July to do some more test work if additional herds are signed up. Dairy cow owners are being urged to have their herds tested. It is estimated that only about one-sixth of the dairy cattle in the county have been tested. Milhollin says that Hale county has 24,000 dairy cattle at the present time. Herds in this county average between five and 25 head to the herd.

The strawberry growing provinces of Canada look for a heavy crop this season, which extends from May until August.

Doctor at 83 Found People Preferred His Prescription

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practic, known to druggists and the public since 1892 as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, billiousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

Dr. Caldwell did not approve of drastic phy-ics and purges. He did not believe they were good for human beings to put into their system. If grown people want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs? All drug stores have the generous bottles.

Many is the family today that

W. B. Caldwell M D

makes it a rule always to have a bottle of this perfect preparation in the house. Keep it handy and observe these three simple rules of health: keep the head cool, the feet warm, and the bowels open.

Why not try Dr. Caldwell's Syrup Pepsin today?—Adv.

RAMSAY MACDONALD CABINET TO JOIN U. S. IN DISARMAMENT

DAWES TO GET HELP ON PLAN

New Labor Government Is Ready for Action

By ROBERT WELLES RITCHIE

LONDON, June 5. (US)—If Gen. Charles G. Dawes arrives here next week carrying President Hoover's invitation to a disarmament conference, Ramsay MacDonald's new government will strain every point to expedite consideration of the proposals. It is expected that Premier MacDonald will have Great Britain ready to answer "aye" before Aug. 1.

This celerity which will be in such marked contrast with Sir Austen Chamberlain's dilatory tactics, will be striven for two reasons:

1.—Because the MacDonald government believes its election a mandate from the voters of Great Britain to terminate all hostility-engendering diplomacy towards the United States.

2.—Because of the belief that by announcing itself ready to consider President Hoover's proposals the new labor government is hoping to forestall the beginning of construction of the first five cruisers that have been authorized.

This information has been given me by one who will without doubt have a cabinet position in the MacDonald government and who is in the new premier's closest confidence. MacDonald himself feels under present circumstances to comment on the Hoover proposal.

Whether or not the labor foreign minister will be able to give a prompt answer depends upon the admiralty, but there is good reason to believe that the new premier will be in no temper to permit the die hard sea lords to put any spoke in his determination to fulfill one of his strongest campaign pledges immediately and at the opportunity fortuitously presented by President Hoover.

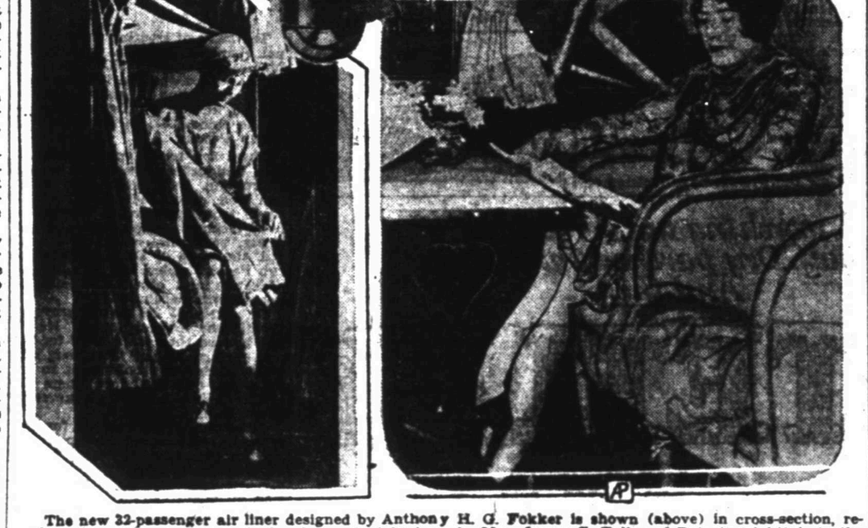

Who the first lord of the admiralty may be will not be known until tomorrow, but it is certain that he will be able to crack the whip over the bureaucrats in case they show dilatory tendencies inherited from the retiring first Lord Bridgeman.

In other reliable quarters it was learned that with the passing of Bridgeman and Sir Austen Chamberlain, the "regrettable" chapter in Anglo-American relations—particularly on the subject of disarmament—is considered closed, as witness this statement:

"After the Geneva disarmament conference in 1927 collapsed through misunderstanding, and the disappointment ensuing in both Britain and the United States was aggravated, particularly in the United States, by the Anglo-French pact, the situation required somebody with faith and enthusiasm to come forward with a new gesture looking toward disarmament. President Hoover has done that. The reaction on this side of the water is bound to be receptive."

Incidentally, from the same authoritative source it is learned that the answer to Secretary of State Kellogg's sharp message upon the Anglo-French pact, which Chamberlain so long delayed under the excuse that the dominions must consider the answer before sent, has been indefinitely postponed "because the changed situation no longer requires an answer to be sent." In other words, it is now tacitly admitted that Chamberlain had not the slightest intention of answering at any time.

Oklahoma Spanish War Vets Have Buffalo Feed

Special to The Record News.

LAWTON, Okla., June 5.—Between 200 and 300 Spanish war veterans and members of their families enjoyed an elk and buffalo barbecue at forest preserve headquarters Tuesday. Following the luncheon the delegates and visitors were taken for an auto tour through the Wichita mountains. Medicine park and Craterville park were visited.

The two-days' veterans convention closed Tuesday. Tulsa was chosen as next year's meeting place. William Hutchinson of Ardmore, was elected department commander. Other officers are: J. Frank Ferguson, Enid, senior vice commander; R. E. Stewart, Lawton, junior vice commander; W. O. Reese, Okmulgee, department adjutant.

Six-Hour Day and Week Of Five Days Under Discussion

DENVER, Colo., June 5. (US)—Delegates to the Colorado Federation of Labor convention today considered resolutions endorsing a six-hour day and a five-day week.

The resolutions committee was also considering a demand for restriction of Mexican immigration to the quota basis applied to Europeans and ratification of the federal child law by the next legislature. It was charged that "more than 5,000 children are kept out of school to work in the beet fields each year."

Burkburnett Rotarians Hear Convention Report

Special to The Record News.

BURKBURNETT, Texas, June 5.—The Burkburnett Rotary club met Tuesday noon in the annex of the Central Christian church with the president, Dr. Bain Leake, presiding. The entire meeting was acquired by Butler Westerfield, delegate to the Rotary International convention held at Dallas, May 27 to 31, who gave a splendid report of the convention.

He brought out the fact that this convention was one of the largest in attendance that has ever been held, which was exceptionally good, due to the proper weather conditions; and that the international phase of Rotary is receiving increasing interest by the higher officials.

MOTHER SEEKS WICHITA BOY

Karl Gardner, 18, Missing Since Tuesday

Karl Gardner, 18, son of Mrs. William Delaney, 906 Taylor street, has been missing from his home since early Tuesday morning, it was reported Wednesday. All efforts to locate the boy or discover his whereabouts have failed, police declared.

The boy left home shortly after breakfast Tuesday morning, promising his mother to return "in 15 minutes." Mrs. Delaney became alarmed when the boy failed to return during the day, and calls to friends offered no news as to where he had gone. When Karl did not appear for work Tuesday night, his employers at Spoonts Drug store No. 1, where the boy works as messenger, called his home to ask about his absence. His motorcycle had not been taken from the garage at his home since his disappearance.

He is about 6 feet, 7 inches in height, decidedly blonde, and has a very smooth complexion, according to Mrs. Delaney.

NEW 'BLUES'

Narcotic Agents Sing Direful Tune After Court Action

CHICAGO, June 5. (US)—Federal narcotic agents today had the "search warrant blues."

Judge Charles E. Woodward today granted Wesley Lewis, convicted drug peddler, a new trial when his counsel submitted proof that the agents who arrested Lewis and seized $50,000 worth of morphine did not have a search warrant.

The court took the agents to task for their illegal operations and urged them to study the law regarding search and seizure.

Okla. Governor's Term May Be Cut

OKLAHOMA CITY, June 5. (UP)—Two resolutions providing for submission to the people of constitutional amendments—one reducing the term of the governor and lieutenant governor to two years each and the other increasing the terms of the members of the state supreme court to 10 years—were introduced in the house today by Rep. Charles A. Moon.

Members of the court would be appointed by the governor and would be paid salaries of $10,000 a year. The chief justice would be designated by the governor as chief justice and would receive a salary of $10,500.

A bill to increase the gasoline tax from 3 to 5 cents a gallon was introduced by H. R. King of Tillman county. The counties would continue to get one cent per gallon of the tax while four cents of it would go to the state highway department.

Chicago Woman Attempts Suicide in Los Angeles

LOS ANGELES, June 5. (UP)—Susette Franco, 22, of Chicago, was near death in general hospital here tonight from injuries sustained when she attempted suicide by plunging from her third-story hotel room to the pavement. She was said by police to have despaired at failing to find work in the movies.

To maintain a slender figure, no one can deny the truth of the advice:

"REACH FOR A LUCKY INSTEAD OF A SWEET."

Frantic Campaigns . . . to substitute other cigarettes for Lucky Strike fail largely because Luckies' superiority so quickly demonstrates itself. Lucky Strike represents a milestone in the progress of cigarette manufacture. The toasting process makes Lucky Strike the brand of distinction, and, in the opinion of 20,679* physicians, is the reason Luckies are less irritating. No other cigarette enjoys this secret heat treatment which removes impurities and irritants, produces a flavor beyond comparison and assures the smoker the maximum of delightful smoking pleasure and comfort.

Young Hindu Philosopher Works Despite Injuries

VENTURA, Calif., June 5. (UP)—Jiddu Krishnamurti, young Hindu philosopher, conducted his star camp meeting of theosophists at Ojai Tuesday despite a serious wound on the forehead he received in an automobile accident here Monday. He plans to leave for the East immediately after conclusion of the meetings.

Famous Beauty Expert Tells Secret Of Lovely Hands

MRS. PEARL ECKER HUBBELL

NEW YORK, N. Y.—Mrs. Pearl Ecker Hubbell, dean of the National School of Cosmeticians, advises women on keeping their hands exquisitely white and smooth.

She says: "For women in their homes I can think of no better aid in protecting their hands than the use of Lux suds in all cleaning and dishwashing.

"In selecting the best soap for use in manicuring we chose Lux as gentlest to the hands. We use just a few of the delicate Lux flakes to make a bowlful of pure, sparkling suds. Lux suds cleanse so gently and soothe the skin, keep the hands beautifully white and smooth.

"Ordinary soaps may roughen and coarsen and age the hands, make them look prematurely old. Lux is so pure, so gentle, that it never irritates or roughens the skin, never dries up its delicate oils.

"Therefore I can't imagine finer beauty care for the hands of the home-maker than Lux suds in the dishpan."

STUDENTS NARROWLY ESCAPE DEATH IN LAVA

VESUVIUS GETS MORE SERIOUS

Molten Stream Widens To Cover Valley

NAPLES, Italy, June 5. (UP)—The eruption of Mt. Vesuvius became more violent this afternoon, threatening destruction of a number of mountain villages.

Twenty students who were attempting to climb to a position where they could study the crater of the volcanic peak at close hand were trapped by a sudden flare up and narrowly escaped with their lives. Several of them were injured.

Smoke and flames were spurting 500 yards above the peak.

At the same time hot ashes were thrown far into the air and fell thickly on the towns of Somma and Ottaiano. The inhabitants of the two towns remained calm although neighboring villages either have been evacuated or will be if the danger increases.

The evacuation of Terzigno, started late yesterday, was complete by early moring and the lava stream advanced on a 500-yard path through the outskirts of the village. One branch of the big stream of fiery lava was moving between Terzigno and Capitello, towards Adino. Another was near the Terzigno railroad station. Evacuation was carried out in orderly fashion and without the picturesque scenes which often mark such flight from mountain homes. The military authorities commanded the evacuation and transported the inhabitants in motor lorries.

An official observatory announcement said the great crater of the mountain had widened into a sea of curling, tumultuous fire with a great cascade of lava rushing from the peak down "Hell valley." Strong tremblings were felt in the observations and continuous registration of seismic needles.

The eruption has thrown up great fountains of molten lava and incandescent rocks, recalling the most spectacular outbreak in the history of the peak which destroyed Pompeii. Officials said the present eruption was comparable to those of 1810 and 1820.

LAVA SWALLOWS TWO VILLAGES

NAPLES, Italy, June 5. (US)—An incandescent sea of molten lava, 200 yards wide and 24 feet high, today wiped out two small Italian towns and rolled on like a Juggarnaut as Mt. Vesuvius continued its third day of eruption. The main lava stream is flanked by andother large flow and six smaller rivers.

Terisigno was evacuated at midnight, the inhabitants carting away all their movable belongings when a section of the town was engulfed by one of the smaller hot rivers. Campitelli, nearby, was evacuated soon afterward, and swallowed by the lava a few hours later. Terzigno was partially spared when one molten rivulet was diverted from its course, only to drive out residents of Pagani and smother the town, rolling ever onward down the slopes of the famous volcano.

At 8 o'clock tonight, Director Malladra said he believed the force of the eruptions was decreasing, but the constant explosions lessened hope for the towns in the path of the disastrous lava flow.

No Wrist Watches For K. C. Alderman

KANSAS CITY, Mo., June 5 (UP)—Al Gossett, Kansas City councilman, issued ultimatums to his friends today that the wrist watch he wore was a temporary adornment and that he had no use for "the dainty thing, or any of these new fangled ideas."

Ordinarily Gossett carries two of the turnip variety of watch, checking them against each other for exactness. He tried to wind one of the garden variety timepieces during a council session last night but the mainspring broke. He tried the other with the same result.

Councilman George Goldman, a jeweler, sitting nearby, took the disabled time keepers and strapped a wristwatch on Gossett. The "two watch man" flushed frequently and explained vigorously today while making a sweeping gesture with his left arm as per the "new fangled" mode of time telling.

Two Brothers Prove There's Romance As Well as Profit in Fine Cattle

Joe and Jack Shelton of Brownwood Start With Small Cash And Climb to Place of Leadership

BROWNWOOD, Texas, June 5.—It has been truthfully said that bread cast upon the water will return 10 fold. In so many words might the efforts and successes of the Shelton Brothers of Brownwood, Texas be summed up as it has come under the notice of the West Texas Chamber of Commerce.

Starting with a little money, some practical as well as theoretical training, and an unending faith in the future possibilities of registered Jerseys, the present site, land and buildings, were leased and eight cows were bought. This deal was made by Jack Shelton in the year 1919. In 1920 Joe Shelton closed a deal whereby he sold his crop and beef cattle and leased his land and was literally out of work. However, Joe is not the kind to sit idly by and do nothing and when Jack was offered the position of county agent, Joe accepted as active manager of the Shelton Brothers interests at Brownwood. This situation has existed until the present with the exception of two years when Jack Shelton quit the county agent's work to be near and have closer contact with the thriving enterprise. However, after two years of work with his brother, Jack was again lured away from Brownwood to take charge of the Luling Foundation farm at Luling, Texas, and there he has remained doing as constructive work for the Foundation farm as he and Joe did for themselves.

Joe Tells Story

To go into detail and tell of all the constructive work would be to write a very interesting story. But a few of the major points will serve to illustrate the possibilities that existed and still exist for the man who will work and will not be discouraged by adverse conditions.

Joe Shelton tells in his own words what has happened on this farm and in this herd:

"We put $3,000 into the business when we started, all other money that has been spent came from the herd, and one of the things we did was to buy a good herd bull. We found what we wanted in Jolly's Cowslip P. H. No. 190538. This bull was bought in 1920 and has been in active service ever since. Today he is one of the two silver medal bulls in the state and unless something happens he will be a gold medal bull soon for he now has two gold medal daughters and one more will make him a gold medal bull, the only Texas bred bull to qualify for either gold or silver medal honors."

"Another move or purchase that added materially to the success of our herd," he continued" was the purchase of the bull "Benedictine Ruler No. 21 51 13. This bull was bought and shipped to Texas as a calf on the strength of his pedigree and dam's performance. We have been justified in our assumption that he was well bred. In fact we have found he is a better breeder than we ever expected. His first five daughters went on test and qualified him for a silver medal. These same cows are now on their second test and we are confident they will make him a gold medal bull."

Testing Essential

When asked whether testing was a profitable operation or not, Mr. Shelton said: "That is the only way to have a herd. Test every heifer with her first calf, then you know what you have."

When asked about the cows he had put on test, when the first test was made, and what records had been made, Joe stated that, "Our first cow was started on test June 13, 1924, and since that time every registered heifer has a record of her production. In our five years of testing we have produced 59 register-of-merit cows, 58 are in our herd today. Nineteen of these are silver medal cows, and two are gold medal." Mr. Shelton further stated that every cow in the herd is either a register of merit cow or is in on test today.

Today in the Shelton Brother's herd we find 120 head of registered Jerseys and no grades. Fifty head are milking and have an average production of three gallons each.

When asked about the encouragement he received at the beginning of his adventure, Mr. Shelton told of trying to sell a registered bull to a man for $30 only to be refused, and he finally sold him for $25 and he went to the butchers shop. To prevent this and to interest his neighbors and friends in good cattle, Mr. Shelton started giving a man the service of a bull for two years for his keeping. In this way the value of his bulls became known and today we find over thirty registered Jersey bulls from Shelton Brothers herd in Brown county alone. Several of these are jointly owned by Shelton Brothers and dairy farmers. In addition to this there has been 10 bull calves given as prizes to 4-H club boys and as other prizes. So well established is the Shelton Brothers reputation and so great is the demand for this stock that today we find but very few bull calves in the herd for sale.

What one has done others can do also, and it is an inspiration to any man to study the Shelton Brothers plant and follow with them their development. From eight cows in 1920 (four of these grades) and $3,000 in money to one 120 registered Jerseys, 419 acres of good land, $20,000 worth of equipment and a United States accredited herd, is the success that has rewarded Shelton Brothers efforts in this adventure.

Shelton Brothers are considered in Brown county as authorities on Jersey cattle and a look at their plant is convincing that they are right.

Criminality Among Boys Declining, Warden Says

LANSING, Kan., June 5. (UP)—The percentage of criminality among youths is declining, Warden M. F. Amrine of the state penitentiary here believes. In 1916, he said, 11 per cent of prison inmates were between 16 and 20 years of age and in 1928 the percentage dropped to eight. Fifty-four per cent still are under 30, however, Amrine said.

Build Insurance into your Home with *Fire-Resistive* **FACE BRICK**

Insurance is good business. Every reasoning man insures his home. It is a big investment . . . he cannot afford to take the loss if it should burn. But insurance costs money. How much . . . depends on the fire-resistive qualities of the material used in the building.

One of the strongest arguments in favor of building with Face Brick is that it takes the lowest fire insurance rate possible to obtain on a building. That is ample and scientific proof of the fire-resistive qualities of Face Brick. But building with Face Brick gives you another kind of insurance . . . a kind which no insurance man can write you. It gives you depreciation insurance . . . for

THE KATY IS YOUR RAILROAD

Katy Grows with Southwest

Pioneer in its territory—the only railroad serving all the more important centers in Oklahoma and Texas through both St. Louis and Kansas City—the *Katy* is a distinctively Southwestern institution. Growing with the Southwest, constant improvement and expansion of its service and equipment, is the Katy's contribution to Southwestern growth.

Profiting with the Southwest, not from the Southwest, the Katy each year increases its investment in the improved and expanded facilities required to meet growing traffic needs. Katy capital expenditures for improvement purposes in the past thirty years have approximated $145,000,000. The aid of this added investment has been essential to the modern and efficient transportation service the Southwest enjoys, the additional investment during the thirty-year period having exceeded the Katy's profits from operation.

A distinctive factor in Southwestern development for more than a half century, the Katy solicits continuing public support and cooperation in policies under which the railroad may maintain its position as an institution increasingly useful to the Southwest.

The Katy as a Taxpayer

Taxes are one big factor in the cost of rail transportation over which the public has complete control. Katy tax accruals in the first quarter of 1929 consumed approximately seven cents of each dollar of revenue the railroad collected, almost equalling the Katy's locomotive fuel bill.

We Women

By BETTY BRAINERD

Marriage in Haste

"Dear Betty Brainerd—I am 24 and in love with a girl of 20. We met about a month ago but I know that what I feel for her is the real thing. She says she is sure, too. We want to be married but her parents won't hear of it. They say we couldn't possibly know our minds in such a short time and that if we are still in love after a year they will consent. Meantime we can be engaged.

"Where do people get all this stuff about the importance of long engagements? A marriage is just as apt to turn out badly where the parties have been going together for five years as when they've known each other for five weeks. It's a gamble anyway.

"I don't like the idea of eloping. It seems to me a sort of sneaking thing to do. My girl is willing to run away with me but I want that to be the last resort. Is there any argument I could make to convince her parents we are in earnest and not just the victims of a passing infatuation?"

Unfortunately time is the only argument that is effective in such a case.

Parents, you see, while not necessarily cynics, are older people. They are accustomed to the impermanence of human emotions and the changeability of human desire.

All life's rules are proved by their exceptions but that does not imply a lack of soundness in the rule.

"Marry in haste and repent at leisure" may not always of course be true.

The proof of matrimony is marriage and no matter how many years a couple have been engaged, no matter how happily they have weathered those years, the acid test of compatability comes after the ceremony.

There is no telling definitely in advance whether bliss or misery is in store. But an engagement or acquaintanceship of adequate length does lessen the chances of its being misery.

Therein your prospective in-laws are right. If you are wise you will respect their objections and agree to their stipulation. Perhaps they will not require a year's postponement. It is possible that you and your sweetheart could convince them of your seriousness in half that time.

But consideration for them and for their daughter's happiness, no less than your own, should make you refrain from the elopement you so rightly distrust.

Wait awhile—and while waiting try to lead as normal a life as possible; don't isolate, yourself or the girl from other society. Go about, make comparisons and give her a chance to do so. A month is only a twelfth of a year and marriage is, or should be, a lifetime.

Betty Brainerd will be glad to help her readers with their problems. Send a self addressed stamped envelope to her in care of this paper.

James Elkins Given Birthday Picnic

A birthday picnic given Tuesday afternoon at Bellevue park was the fete that celebrated the second birthday of James Elkins, son of Mr. and Mrs. J. L. Elkins.

Some of the guests took part in an interesting program: Mary Scheurer and Margaret Hodge did solo dances; Jean Schaeffer, Doris Cawley and Joy Agee gave readings, and Charlotte Ann Agee sang some beautiful little songs.

Favors for the girls were silver bracelets and for the boys, leather coin purses.

There was a birthday cake lighted with the proper number of candles and delicious refreshments were served to Maxine Collins, Jean Schaeffer, Margaret Hodge, Mary Scheurer, Joy and Charlotte Ann Agee, Doris Cawley, Beverly Helen Aynesworth, Dickie Naylor, Billy Wilhite, and Lester Agee and Mesdames D. L. Naylor, Ray Wilhite, L. Cawley and Aynesworth.

New Chicago Opera House Opens Nov. 4

CHICAGO, June 5. (US)—The Chicago Civic Opera company will open its $10,000,000 home on Monday night, Nov. 4, presenting "Aida," Verdi's great festival opera, according to Manager Herbert M. Johnson in a cable received here today from Berlin.

The Verdi work was chosen for the first performance of the old Chicago Grand Opera company on Nov. 3, 1910. Out of deference to the tradition established, the Verdi piece will again mark an important event in Central Western musical life.

The "Aida" cast for opening night has not been announced.

DIX APPROVES MARITAL BOARD

Every Community Needs One, She Says

Dorothy Dix Applauds the Plan for a Board of Marital Advisers in Every Community—Should a Woman Believe Her Husband or the Gossip About Him?

Dear Miss Dix—Don't you think that it would be a fine thing if there could be established in every community a board of conciliation, made up of a group of men and women of large experience of life and wide sympathies, to which disgruntled husbands and wives could appeal to straighten out their marital tangles when they found themselves in a snarl that they could not unravel themselves? I believe that such an institution would fill a long-felt want, and that it would save many a divorce and prevent many a home from being broken up and many children from being half-orphaned. —ELIZABETH.

Answer: I think that is a fine idea, Elizabeth, for sometimes we think about our matrimonal troubles until our thoughts go round and round in a circle and we get so befuddled that we cannot think clearly. Sometimes we magnify little faults until we make mountains out of molehills and then what we need is some kind and wise and dispassionate outsider to turn the searchlight on our problem and show it to us in its true perspective. And sometimes we need a simple home remedy more than we do the surgical operation of divorce.

Take the case, for instance, of a young couple who fight and scrap all the time, and where neither one can even make a remark about the weather without starting something. They are miserable. They find marriage a failure. They have decided that they have ceased to love each other and feel that they have come to the parting of the ways and that their only chance for happiness is in separation, but they hate to do that on account of the children that they both love and toward whom they both have a sense of duty.

If such a case as that was brought up before your board of conciliation, nine times out of ten the board could settle it and save the family by recommending the wife to go off on a six-month trip. That would give her and her husband time to realize how much like spoiled children they had acted and how foolish were the little things they had quarreled over. It would give them time to realize how empty life would be without each other. It would give them time to realize their own faults and shortcomings. It would give time for their hurt vanity to heal and when the probation was over they would be glad enough to come together again. Believe me, a railroad ticket would save many a divorce.

Then there are the cases in which an in-law is the bone of discord. Sometimes it is the man's mother who tries to boss the wife and run the house and manage the children and who keeps her continually upset and irritated. Sometimes it is the wife's mother who is cantankerous and disagreeable and who is always saying little, mean, spiteful things to the husband and implanting suspicions of him in his wife's mind. Sometimes it is other relatives who are enforced guests who are forever stirring up trouble between husband and wife.

Certainly the board of conciliation, if consulted in such a case, would advise the husband and wife to eliminate the cause of trouble and to get as far away from their families as possible.

"And don't you think that many an extravagant wife who is living beyond her income and running her husband in debt trying to keep up with the Joneses would begin to budget her income and nurse her dimes if the board of conciliation in her community advised her that it had its eye on her and felt in duty bound to warn her that she would lose a mighty good husband if she didn't watch her step in spending?

And might it not make many a grouchy husband cheer up and be more attentive to his wife if the board of conciliation tipped him off that his wife was tired of trying to get along with a sore-headed bear and was thinking of leaving him for some gentleman of a sunnier nature and pleasantlier domestic habits?

And couldn't the board of conciliation save unending domestic friction and keep the first of the month, when the bills come in, from being a day of wrath by being a court of appeals to which a couple could turn to have it definitely decided how much of an allowance a man should make his wife?

Certainly a board of conciliation could do a great work in harmonizing marital relations. Here's hoping some enlightened community will start one. —DOROTHY DIX.

Dear Miss Dix—I have been told that my husband is stepping out with a young widow and that he also has a love affair with a girl, but when I tell him about these reports he just laughs and doesn't bother about them. To tell the truth, I don't know what to think, because he comes home regularly from work, and while he goes out once or twice a week at night sometimes, he is back at 9:30 and sometimes at 12, and he spends all his salary on his home and is always cheerful. He is devoted to the kiddies, laughs and plays with them all the time and is teaching them to dance, sing and play the piano. Only when I get suspicious he calls me a crepe-hanger and a joykiller. So will you kindly tell me if I should believe what Mrs. or Miss So-and-So tell me, or just trust him? —JEALOUS BERTHA.

Answer: Trust your husband, Bertha, and refuse to listen to the women who try to make you jealous and break up your home. No woman who tells you evil of your husband is your friend or means well by you.

She is a malicious busybody who is trying to hurt you. She wants to see you suffer. If she were your friend, she would bite her tongue off rather than tell you that your husband was unfaithful to you even if she knew it to be true, because she would know that it would do you no good to have your trust in him destroyed and that there would be nothing you could do about it to help yourself.

As for your husband, he seems to have all the earmarks of domesticity and you are certainly going out of your way to hunt for trouble when you suspect a man who comes home promptly from his work and spends his evenings playing with his children and spends his money on his home.

And, as a clinching proof that he is a model husband and no gay Lothario, there is the fact that he spends his money on his family and that even when he goes out he gets home at 9:30. Believe me, it takes money to make whoopee, and the gay ladies have no time to waste on any man whose family have a prior claim on his pocketbook. Nor can you step very far if you get back home by early bedtime.

So the next time Miss So-and-So begins to tell you about what a philanderer your husband is, laugh it off. There is nothing in it. —DOROTHY DIX.

EAT WELL—AND EXERCISE WELL

Enjoy Your Food, Sweetened to Taste, and Take Exercise

"It is important to eat and exercise enough," a famous health authority recently told us in reply to a question about the benefits of exercise and diet.

"One of the most vital facts in this connection is that both food and exercise must be enjoyable if people are to get the most out of them. Exercise that is a duty, and the eating of foods simply because they are thought to be healthful, are only partial benefits.

"Enjoyment tends to improve the whole physiology of the body. That is why I advise taking the kind of exercise which people really like, and that is why I suggest having foods prepared in the most palatable way."

Speaking in more detail on the appetizing preparation of foods, this famous authority said, "Sugar is the ideal flavor for nearly all the foods people eat. It modifies fruit acids and makes fruits even more palatable. It heightens the enjoyment of vegetables, cereals, beverages and some meats. People who use sugar intelligently not only increase the enjoyment of their meals, but add to the value of their daily diet."

It is important to eat a variety of healthful foods every day. It is equally important to have them prepared in a way that appeals to your appetite. A sprinkling of sugar adds to the delicousness of most foods. Most foods are more delicious and nourishing with sugar. The Sugar Institute.

Ellard-Seals Wedding Event of Wednesday

A pretty wedding was that of Paul Ellard to Miss Jewell Seals at the home of the bride's parents, Mr. and Mrs. S. M. Seals on Wilson street, at 6:30 o'clock Wednesday morning. The ceremony was read by Judge R. V. Gwinn in the presence of relatives and friends.

Orchid and white was the motif chosen and cut flowers in these colors were used profusely.

The bride was gowned in a white georgette dress with tulle veil caught with sweet peas and brilliants. Miss Gracie Mae Seals, her younger sister, wore a basque model of orchid and white. Mr. Ellard was attended by Claude Moore.

Mrs. Ellard is a member of one of Wichita Falls' pioneer families. Mr. Ellard is in the engineering department of a local oil company.

Following the ceremony, the couple left for a trip to the Pacific coast. They will be at home to their friends after June 20 in Wichita Falls.

Oh, These Women

By LEOLA ALLARD

NEW YORK, June 5. (US)—A woman makes an annual budget for working girls that reads like a grim fairy tale.

"Coats and wraps, $35; hats, $20; underwear, $30; cleaning and repairing, $10; shoes and stockings, (silk) $40."

The girls who spend $40 a year on silk stockings and shoes, must be the ones I've seen who stop at the corner to pull off a loose flap of shoe, and the ones who spend evenings dodging bill collectors, or the ones who do both.

Meet Mrs. Alice Feld of Brooklyn!

She got a divorce. The court offered her alimony and said he would send her husband to jail if he didn't pay it.

Mrs. Feld answered: "I don't want any alimony and I don't want my husband in jail."

Then Mrs. Feld went to work to support herself and her child. Smithsonian Institution please note!

A Brooklyn girl wants $15,000 because she got fat after being injured in a taxicab accident. She said her glands were injured, causing obesity.

The jury said, "Oh, no! She merely comes from a fat family."

If someone hurt her heart and she became emaciated, she could sue for twice the amount, and the jury would believe it.

If you are going to be fat, be fat in the head. It pays better. Juries are that way so they can understand it.

Texas makes $150,000 a year off of "suckers" in New York.

Wives who stay home from these "business" trips, might think this over to advantage.

A Chicago woman married a man who owns 21 ships on the Great Lakes. He is 71.

To set sail on the sea of matrimony with 21 ships at the age of 71, is about as close as anybody could come to matrimonial insurance.

GAS FUMES FROM PIPELINE HOLE BRING DEATH TO WORKMEN

VICTIMS FALL IN EXCAVATION

Four Men Overcome At Construction Job

SPRINGFIELD, Mo., June 5. (UP)—Gas fumes issued from a pipe line hole, 27 miles north of here late today, overcoming workmen and those who rescued victims. Tillman Beasley, Emmett, Mo., and Art Wilson, itinerant worker, died from drowning when the gas toppled them into the bottom of the pit. Barney Clifton of Richmond, and Raymond Foust of Everton were critically ill from the gas. Hospital attendants said Clifton might not recover.

Beasley and Wilson died while attempting to rescue Clifton, who, working in the hole, was the first to be overcome and call for help.

Physicians brought from Ash Grove, nearby town, revived Clifton and Foust by artificial respiration, but pronounced the other two men dead when they arrived. Clifton was brought to a Springfield hospital, where he still was unconscious tonight.

City to Honor A. Zundelowitz

(Continued From Page One)

won in return the love and honor of a grateful city.

He was 17 years old when he left his birthplace in Krus, Russia, to sail for America and the remarkable career which awaited him in the new land. He arrived with empty pockets and the struggles of those early years in this country are believed to have helped form the generous love for youth which marked the philanthropic movements of his age.

Before he came to Texas, the young Zundelowitz covered most of the United States in his travels. After a year in New York his first move was to Chicago; his second to Cresco, Iowa. His first successful mercantile business was built up there. After several years, he moved to the west coast and spent a year in San Francisco. Louisiana claimed him next, and it was from Shreveport that he drove a team of horses into Wichita Falls which was to become the city of his adoption.

The newcomer cast his lot with the fortunes of the young town, working with it and for it through all the years of his residence here. He invested his savings in the stock of his first clothing store, on Seventh, near Ohio, and became the "One Price Clothier" whose sign board grew to be a land mark with the passing of the years. The success of that first venture laid the foundation of the fortune which grew with the years and the expansion of the drouth-ridden crossroads village into the city of today.

With success and fresh opportunity for service, Mr. Zundelowitz turned his attention to the philanthropic works which made his name famous throughout the land. His love for young men and boys led to the organization of the famous Zundelowitz boys' club in 1916. The club numbered 50 members at the time of its formation, half a hundred youths pledged to abstinence from the use of tobacco, from swearing and gambling, and sworn to, honesty and fair play through life. For each of those the benefactor started a savings account in a local bank to which he added as each year of obedience to the rules of the club went by.

Educational Aid

The work of many charitable organizations and institutions received the interest and the aid of Mr. Zundelowitz as his own success made the expansion of his service possible. His interests centered largely in education, and it was in this cause that his greatest single gift to the youth of Wichita Falls was bestowed. That gift came in 1925, when he gave $30,000 toward the construction of a new junior high school here. No Nov. 5, 1926, the Zundelowitz Junior High school was thrown open and its aged patron, who had traveled all the way from California to attend the ceremonies, greeted the students as they took possession. His message, read from the rostrum of the school contained the statement: "The greatest thing for the children of today is the opportunity for acquiring a good education."

The philanthropist was one of the founders of Temple Israel and was a leader in Masonic circles, having been prominent in the Blue lodge, Consistory, and the Shrine. His interests extended to every phase of the civic life of the city and he helped in the guidance of the city's affairs through many years of service on the council and in other official capacities.

Almost a quarter of a century ago Mr. Zundelowitz retired from active business. During the past few years he has made his home with relatives in California. Mrs. Zundelowitz died in August, 1924.

Hands Artists Rave About

Whenever New York artists or photographers want an exquisite pair of hands for "close up" reproduction they call in Annette Grandin. She has hands of rare beauty that can stand "close up" reproduction because they are so delicately white and smooth.

"The secret," Miss Grandin says, "lies not in any special care, or in the use of fancy lotions, but simply in a skin bleach of my own making. I get three ounces of Orchard White at the corner druggist and mix it with the juice of two lemons. This makes a full quarter pint of a remarkable, and at the same time perfectly harmless bleach. I rub a little into my hands—also my neck and face—every night and this keeps my skin not only clear and white, but soft and smooth."—Adv.

Lightning Hits Robbins Home

Investigation Wednesday morning revealed that beams in the attic of the house had been twisted and splintered. No indication of the lightning was apparent on the outside of the house except for several shingles which were torn away and small burned places on the roof, part of which is covered with a composition material.

Light showers fell in Wichita Falls and vicinity Wednesday night, but no general rains were reported in the area, according to railroad dispatchers. Cloudy conditions were reported from all sections, however.

Following clear skies Tuesday evening, a heavy downpour of rain, accompanied by wind, lightning and thunder, struck Northwest Texas and Southern Oklahoma early Wednesday morning with a total precipitation of 1.15 inches in Wichita Falls. Slight damage to fruit trees and crops was reported, and farmers were delayed further in planting of crops which have been held up for nearly a month. The territory visited by the storm extended from Altus, Okla., on the north, from beyond Fort Worth to the east, from Dublin and Munday to the south and southeast, and from beyond Childress to the northwest. Storms also occurred at Lubbock and south of Amarillo, it was reported.

VOTE OUTLINED BY RUTH OWEN

Bryan's Daughter Gives Her Tariff Views

WASHINGTON, June 5. (UP)—Mrs. Ruth Bryan Owen, Democratic congresswoman from Florida and daughter of the late William Jennings Bryan, believes she has defied neither party principle nor family tradition in supporting a Republican high protective tariff bill.

She explained to the United Press today why she cast her vote for the Hawley-Smoot tariff bill, which some Democrats have said will raise the tariff wall higher than it has ever been before, despite her party's traditional low-tariff attitude, her father's record as an opponent of high protection, and her own disbelief in this Republican doctrine.

"I voted for the bill because my constituents wanted me to," she said. "I am, as the title of my office implies, a representative of my people. I am here to do their bidding.

"There are two theories of presentation; that a representative is elected to do the bidding of his constituents and that he is elected with a mandate to follow his own judgment and inclination. I hold to the former theory. I conceive my duty to be that of a representative of my district and my state."

"Any comparison between my attitude toward the tariff and my father's would be invidious. He was here 30 years ago representing Nebraska. I am here in 1929 representing Florida. It would be impossible to draw a fair comparison without an exhaustive treatment of changed conditions and different party attitudes."

Bryan first attracted national attention in 1892, with an eloquent speech against the Republican protectionist policy. It was his first speech in the house and the present representative bearing the Bryan name was then a little girl of six years old.

Mrs. Stallworth Recites Shooting

(Continued From Page One)

man was intoxicated, Boyer said, and he persuaded Stallworth to replace the gun in the car. He identified the gun, and described the car.

Silence Broken

Mrs. Stallworth's statement from the witness stand was the first she had made since the night of the shooting when she was overheard remarking to Chief of Police H. L. Gaither, "I shot her because she was running around with my husband."

The fight of a woman to protect her home against alleged invasion by another woman was claimed by defense attorneys. Mrs. Morrison was shot in front of the Moore hotel here. Mrs. E. M. Stallworth, the defendant's mother-in-law, is also charged with the killing. It being alleged that she held Mrs. Morrison until the younger woman could get within firing distance.

"Warning" Given

Robert Stallworth, brother-in-law of the defendant, took the stand today. He testified that his mother, Mrs. E. M. Stallworth, interceded in behalf of her daughter-in-law who was ill in a local hospital and begged Mrs. Morrison to stay away from her son and not break up his home.

Stallworth, testified he and his mother took Mrs. Morrison driving several weeks before the shooting, at which time Mrs. Stallworth talked to Mrs. Morrison and told her to return to Plainview and leave the defendant's husband alone. He said Mrs. Morrison agreed to do as she was asked.

Other testimony today concerned relations between Mrs. Morrison and Levi Stallworth. Mrs. O. D. Earnest, rooming house proprietor, stated the couple occupied a room together from April 5 to 13. The room, she stated, was rented by Stallworth's brother, who was out of the city at that time.

District Attorney Edward W. Thomerson objected to evidence given in an attempt to show Mrs. Stallworth too weak to stand the excitement of trial as a result of two operations performed recently.

The courtroom was packed to standing room throughout the session today.

Herbert Kaufman's

HAIR-ROOT GOLD

Daily Editorial

THE GOLDEN age was a short spurred roster with an overgrown crow—richer in press agents than performance.

Comparison, the only accurate appraiser, finds a very inferior line of goods on its shelves. And mighty few pennies jingling in its pockets.

Croesus, the Lybian king, and the greatest coin collector antiquity knew, broke all previous records and won his scarehead in history with a measly eight million dollars.

In 1700, the shrewd Dutch and the industrious British, between them, could barely inventory a hundred million pounds.

And when Napoleon decided to make the world his exclusive oyster, the outstanding capitalist of Europe was Albrecht of Hesse, whose father founded the family fortune by furnishing cannon-fodder to continental armies at $65 per head.

The business was so remunerative that other governments were often compelled to bow and scrape to his balance sheet for the funds to meet current obligations.

A mere century ago, Metternich confessed how Austria abandoned well-laid plans of war, because Nathan Rothschild notified his brother at Vienna that an international rupture at the particular moment would be unprofitable for their firm, and therefore refused to finance the campaign. And Nathan Rothschild could even then remember when his concern borrowed $2,000 dollars to establish the bank which already held the fate of empires in its vaults.

MONEY DIDN'T begin to learn the multiplication table until steam and electricity became its schoolmasters and taught it the secrets of power.

Present surpluses simply represent recent savings in time and energy. We do more work in an hour than yesterday accomplished in 24. And civilization is correspondingly affluent.

As long as production and transportation were confined to manual labor, the past lived from hand to mouth and in a chronic state of bankruptcy.

It hadn't the necessary tools or methods profitably to exploit raw materials, transport them and realize the latent possibilities in men and matter.

Wheels, wires and laborators have only lately created the instruments which have lifted America's annual income to ninety billions—double the national wage for 1914, and several thousand-fold the entire federal revenue of our tallow-dip and stage-coach youth.

This enormous sum is just the dividends of efficiency. It came from saved clock-tickers; it grew in short-cuts; we found it buried in the air and gathered it with radio and aeroplanes; we dug it from dump heaps and distilled it from water falls.

We discovered it under thinking-caps—among the hair roots that cover the mother lode—the human brain.

I recall when a feller was purty obscure if he didn' own a private shavin' mug with his name on it. "In travelin' about the country with a trunk a quart should be tightly wrapped in not less than three undershirts," writes Miss Fawn Lippincutt for the household page o' the Weekly Slip Shot.

Losing the Real Thing

AL CAPONE, the bogey-man of the Chicago gangs, turns out to be a devoted family man, a loving husband and a kind and considerate father.

This is developed in a story dug up in Chicago recently by a correspondent for this paper and NEA Service. Most of us, probably, had supposed that Capone slept with his pistols and sought his relaxation in the manner of a Nero; but his private life, it seems, is like that of any contented, home-loving suburbanite.

But, naturally, it isn't all idyllic. Capone can't see his family often. Right now, of course, being in jail, he can't see 'em at all; but we're talking of normal conditions.

The perils that dog the footsteps of a gang leader are too great. Capone does well if he gets home once a week. Then he has a few brief hours of relaxation with his wife and child—after which he is escorted back to his hotel by a half dozen heavily-armed gunmen.

All in all, you could draw quite a moral out of all this if you cared to. It is apparent that Capone entered the gang world because of his ambition. He wanted to make life easy for his wife and his son and his aged Italian mother; his life is wrapped up in them, and he does the illegal, violent things he does for the same reason that the ordinary man works hard at an ordinary job—to make his home secure and comfortable.

But the very nature of his work thwarts him. His "business" if you can call it that—which gives him the money to provide for his family, also prevents him from enjoying family life. He has made himself rich, but he has shut himself out from the things he wants most.

Yes, you could draw quite a moral out of it all. But, really, Capone isn't the only man in that sort of fix.

Turn from the underworld to the realm of regular business and you will find parallels to Capone's course on every hand.

A young man marries and enters business. He becomes, say, a salesman. His one ambition is to make things nice for his wife and for the youngsters that begin appearing on the scene. He exists simply for them. So he works his head off in order that he may advance in his business, earn more money and give his loved ones the luxuries that they will enjoy.

What happens? His job takes so much of his time and energy that he has none left for his family. He rises in business, to be sure; by the time he is middle-aged he has a fat salary, a house in the country, three automobiles and so on. But he is out of touch with his family. His wife and children are out of his circle. He misses the very things that he worked so hard to get.

That isn't an uncommon occurrence. Indeed, in some degree, it happens to nearly every ambitious man in the country. We spend so much time making a living that we haven't any energy left to devote to living.

Al Capone isn't the only man who has found that you can lose a thing by pursuing it too hard.

The Federal Reserve Board Meets
(As it seems to innocent bystander.)

First Member: Well, well, well, we're meeting again, eh? What are we going to do today?

PHILLIPS

Second Member (in alarm): Do? Do? Don't use that word. It makes me shiver all over.

Third Member: I move we issue the regular warning and adjourn.

First Member: We've issued dozens of warnings already.

Third Member: I know, but the last one was several weeks ago and the public is getting nervous again. If it doesn't get a warning every week or two it gets awfully nervous.

Fourth Member: I saw a suggestion in the press that we cease warning and take some definite action.

Third Member: I joined this board on the assumption it was the one place a man could go and avoid action. That's been the wonderful thing about these meetings, they've been comfortable, quiet, restful sessions absolutely devoid of action. I sincerely trust that at this late date there is to be no change.

First Member: Don't misunderstand me. I don't care for action very much, either. But the criticism has been made that our uncertainty hurts business.

Sixth Member: Uncertainty is good for business. What America needs today is more uncertainty, good, big, fat uncertainty. I think a good slogan at this time would be "The Hoover Uncertainty Market."

Third Member: Complaints are being made that thousands of small investors have been wiped out in the stock market, that in many cases they have been utterly ruined because of the breaks caused by this board's policies.

Fifth Member: There shouldn't be any small investors. It's a bad thing for the average man to be able to buy stocks and be able to sit back and watch them advance rapidly. It destroys his stamina. It softens him. The Republic must not be softened.

Third Member: I've personally been very much disappointed in the small investor. In many cases he hasn't sold everything at a big loss. I feel he is still holding out on us.

Third Member: I have definite information that there are cases where small investors have gone so far as to purchase their stocks outright.

Fifth Member: That's absolute defiance!

Fourth Member: It's treason!

Sixth Member: I was about to suggest that we raise the rediscount rate, but in view of what you have said, this becomes out of the question. It might relieve the uncertainty and actually cause the market to rise. The occasion demands that we again do nothing but increase the uncertainty.

Chairman: All those in favor of continued uncertainty, say "aye."

All: "Aye."

Chairman: So voted!

The Day Book of a New Yorker

Broadway Chatter by Grant Dixon

NEW YORK, June 5.—There is a phrase that the late Joseph Pulitzer once used in which comes in handy at the moment in discussing the squabble over the "Casino for the aristocrats" in Central Park.

The old Casino, which catered to people of small means, was a failure and a blight to the park. Nok, just because certain blue-bloods want to use the casino, reconstructed at their own expense, for parties and a summer social center, there is an uproar of popular indignation. Why? The public certainly had no use for the old place. It was a failure. And now the cry goes up of "predatory plutocracy"—the rich are trying to seize a public park.

As a matter of fact, Central park is pretty big, and the comparatively small space to be taken up by the "predatory plutocrats" will not interfere with the happiness of the public. Besides, it would seem to me that the ownership of our public parks is not confined to the poor. Also, though I am by no means a bluebiood, I get impatient with predatory poverty, which seems to feel that all public places should be restricted to its own use.

John D. Rockefeller Jr. discovered the other day that he is the owner of a score or more speakeasies. Now, before anyone indulges in exclamations, let me explain: Recently he purchased the property between Forty-eighth and Fifty-first streets as the site for a great music and art center.

Only the other day, so the story goes, he learned that many of the buildings in that section housed speakeasies. But he's going to wipe them out. That section, indeed, has been, perhaps, the biggest high-class speakeasy center in the world.

Once in a while, you get a chance to be thrilled at the advance of civilization and the glory of human achievements, when you read of new inventions, new discoveries, the solution of ancient problems.

But then you can get another picture by visiting the Madison Square Garden and seeing, in the arena, a man sitting on top of a flag pole, a man and a woman, rocking champions, rocking in their chairs, and several frazzled couples with numbers on their backs moving about in a so-called dance marathon. And, even more mysterious, are the spectators who applaud such things.

Walk a fellow by the name of Billy Pierce, from Virginia, came to town and tried to figure out how to make a living. There are all kinds of rackets here. The problem is to select the right racket.

Billy, in his amateur moments, had made quite a bit of racket tap dancing. So he established a tap dancing school. They tell me it's the rage on Broadway. Everybody's tap dancing, including the people who live above me, as evidenced by the cracks in the plaster ceiling.

Beauty has been reduced to common denominators. I. H. Herk, president of the Mutual Burlesque association, informs me that hereafter he will hire no girls, regardless of their looks, if they don't fit into these measurements:

Height, 5 feet, 3 inches; shoulders, 13½ inches; waist, 26 inches; hips, 34 inches; bust, 34 inches; thigh, 18½ inches; calf, 13 inches; ankle, 7 inches.

I know a lot of young people in Greenwich Village who are writing vigorously—writing home for money. Very realistic writing, you might say.

In Christopher street, the village, there's a theater known as the Low-Down. You walk into a cellar which announces that "This is the Greenwich Village Low-Down club and nobody but members are admitted." It's one of those rare places where you may sit down, order a meal and some illicit drinks, and view a show.

It differs from the usual cabaret because it pretends to be strictly a theater, the exception being that the "audience" is allowed to sup and dine and make themselves at home. In a theater, you are expected to make yourself conspicuous.

TALKIES FACE ACTOR STRIKE

Equity Association Sets Out Stiff Requirements

NEW YORK, June 6. (INS)—An actors' strike which may gag the "talkies" today stared into the lenses of the moving picture industry providing arbitration methods fail.

The film producers received the 100 per cent unionization announcement by Frank Gilmore, president of the Actors' Equity association, with stiff spines. In fact, several went further and registered facial and vocal defiance.

"I don't see how any one can enforce such an arbitrary ruling," declared Fred Beetson, Hollywood representative of Will Hays, czar of the motion picture sphere. "If a thing like that is laid in your lap you cannot simply swallow it without doing something about it."

Stringent Terms

The Equity ruling, effective today, asserts that no member of Equity may engage in sound or talking pictures except on forms of contract prepared by the association and only in casts in which all the players are equity members.

"The producers will fight any attempt of Equity to completely unionize the motion picture industry," said Albert Warner, general manager of Warner Brothers.

"The rebirth of the picture industry, due to finding its voice, prompted this first serious effort by Equity to bore into the film field.

"The phenomenal success of sound and talking motion pictures has created such a demand for actors whose voices record well that members of our association have gone into them by droves," said Gilmore.

"Recently, conditions in the studios as far as the actors are concerned have gone from bad to worse. Many producers have been working their people unconscionable hours and keeping it up day after day."

24-Hour Shifts Worked

It is common knowledge that the studios have been working 24-hour shifts to meet the demands of the new talky market.

Gilmore further referred to the necessity of actors and actresses working in poorly ventilated, soundproof studios, suffering from the tremendous heat from blinding lights and struggling to retain hastily-memorized lines without the benefit of prompting such as was possible in the silent pictures.

The new Equity film contract specifies that 48 hours shall constitute a basic week with one-forty-eighth of the week's salary to be paid for every hour over 48 worked.

A bizarre clause in the contract asserts that no voice doubling for any actor or actress will be permitted without the actor's written consent.

"Equity does not anticipate much opposition from the motion picture producers," said Gilmore, "for their examination of the Equity contract will prove to them that it follows generally the best practices of the contracts that they themselves have drawn, with some necessary additions.

Discussion Likely

"In case the producers object to any of the rules in Equity's contract we are willing to discuss them around a table. If neither side can convince the other, then we are willing to abide by the decision of an independent umpire, so long as the producers guarantee to do the same thing."

Equity's chance of imposing a "closed shop" of the screen industry is enhanced through being a member body of the American Federation of Labor. The carpenters, electricians, motion picture operators and other artisans about the studios are all federation members and could be forbidden to work on films produced by companies battling Equity.

The new Equity ruling probably will prevent any other actor or actress pulling a Jeanne Eagels. The actress was suspended by Equity a year ago for failing to appear in "Her Cardboard Lover" when that production was playing in Milwaukee.

Miss Eagels uttered her defiance of Equity and signed with Famous Players-Lasky for "The Letter," a screen production, at a splendid salary.

CENSUS BILL FACES CHANGES

House Leaders In Panic Over Amendments

WASHINGTON, June 5. (UP)—Having tacked several revolutionary amendments to the senate's reapportionment-census bill, the house suddenly adjourned 15 minutes after convening today so that Republican leaders might go into close conference to find a way to repair the damage done.

The Tinkham amendment aimed at cutting down representation in the house from southern states, because of alleged disfranchisement of negroes, and the Hoch amendment excluding aliens from the tabulation upon which seats in the house are apportioned, have caused a panic among the house leaders.

A coalition of southern Democrats and Republicans from the rural sections forced adoption of the Hoch amendment as a thrust against eastern states, such as New York, which have large alien populations.

Then the rank and file of Republicans retaliated by putting through the Tinkham amendment, which is so distasteful to the South.

As the Hoch amendment was rejected by the senate, when offered there by Senator Sackett, Republican of Kentucky, and the Tinkham amendment undoubtedly would run into a jam in the senate, the Republican house leaders considered various parliamentary devices for killing both propositions.

The steering committee conferred with Speaker Longworth. Several members were insistent that each issue be voted upon by roll call in the house, while others desired that the Tinkham and Hoch amendments be voted upon together.

By combining the two propositions, it was believed they would both be killed. Southern Democrats would vote against both of them, rather than see the Tinkham amendment adopted, it was said.

As the bill has not been finally acted upon by the house sitting in committe of the whole, the proposition was put forward to offer a substitute paragraph for that containing the Tinkham and Hoch amendments.

Okla. House Fails To Retract Owens Measure

OKLAHOMA CITY, June 5. (UP)—A resolution authorizing Speaker Jim Nance to appoint a committee of three to apologize to the senate for the house having adopted the Owens resolution Tuesday was introduced Wednesday by Will Jones of Greer county.

Nance held the resolution out of order as he said he did not consider that the Owens resolution cast aspersion on the senate. Jones said the Owens resolution, by inference, cast aspersion on the integrity of the senate.

"I Feel Ten Years Younger," Said Mr. Duffey Since Taking Orgatone

Suffered for Years With Acute Indigestion But Feels Like a Different Man Declares Wichita Man

"It sounds like it would be enough to say that Orgatone has relieved me of my troubles that made me miserable for years, but that's not all this medicine did for me, for I've gained in weight and feel like a different man," said Virgil S. Duffey, of 101 Lee street, a railroad employee, while talking with the Orgatone nurse in the Allison's Drug Store, in relating his experience with Orgatone.

"I had a severe case of acute indigestion and stomach trouble, he continued. "I got to where I would get dizzy and sick at my stomach. Gas would form and press around my heart which would cause it to palpitate so fast sometimes I knew that I must do something for my condition which was getting worse all the time. A hard lump would form in the pit of my stomach and I would think that I were going to die. My system was all run down and I needed something to build me up. I read so many testimonials in the local papers that I decided to try a bottle of Orgatone.

"Since taking my first bottle I haven't had any trouble since. I feel ten years younger than I did. I have a good appetite and eat anything I want now, which certainly means a lot to me. I have gained several pounds in weight and am still gaining which I am thankful for. The food does not sour on my stomach any more, the pains in my back and sides have disappeared, and my constipation is entirely relieved. I think Orgatone is just wonderful for it has proven so in my case. I am certainly thankful for what it has done for me, and I am glad to get the opportunity to recommend it."

Genuine Orgatone is sold in Wichita Falls exclusively by the Allison's Drug Store.—Adv.

Opportunities of Rabbit Industry Told at Realty Banquet Here

More than 90 persons, representing the Wichita Falls Real Estate board, junior and senior chambers of commerce agricultural committees, and rabbit breeders of this community were guests of the Gilliam Realty company at a rabbit banquet given at the Kemp hotel Wednesday night and heard an extensive program of speeches on the subject of commercial production of rabbits.

W. S. Curlee acted as toastmaster for the program, which was broadcast through radio station KGKO. The principal speaker introduced was J. M. Gilliam, head of the Gilliam Realty company, who discussed the possibilities of extensive development of the rabbit industry in this community. Mr. Gilliam described the model rabbitry which is now in process of development on a one-acre plot located outside the city on the Petrella road, where the Gilliam Realty company plans the establishment of similar enterprises on a 110-acre tract.

J. L. Grady, proprietor of the Bluebonnet Rabbitry at Dallas, spoke on the history of the industry in this country, and declared that the United States produces only two per cent of the furs used in its various manufacturing enterprises.

Others who were called before the microphone by Mr. Curlee for brief talks included C. C. Hudson and Charles Winfrey, Iowa Park; Mayor J. W. Akin, J. T. Harrell, Hubert M. Harrison, P. B. Roberts, and R. E. Shepherd.

Miss Reba Newman modeled a coat tailored completely in this city from the skins of 33 New Zealand Red rabbits raised by Mr. Winfrey.

Entertainment numbers, interspersed with the speaking, were given by R. E. Shepherd, accompanied by Mrs. Shepherd; Honey Boy and Sassafras, and George Taylor.

Music Is Urged As Staple Study

CHICAGO, June 5. (US)—William J. Bogan, superintendent of schools, today pleaded that "music be regarded as a staple of education and not a frill."

Speaking before the delegates to the annual convention of the National Association of Music Merchants, Mr. Bogan deplored the fact that "music, which ought to be a fundamental element in the life of every citizen, is quite generally looked upon as a foundling on the door step of education."

P. C. O'Hair Claimed By Death at Home Here

P. C. O'Hair, 35, died at his home, 2906 Eighth street, about 7:30 o'clock Wednesday night, following an illness of three months' duration. He is survived by his widow.

Funeral services will take place Thursday afternoon at 4:30 o'clock with Rev. T. J. Furniss, pastor of the South Side Baptist church, officiating. Arrangements are under the direction of Hines mortuary. Interment will take place in Rosemont burial park.

O'Hair was an employe of the Tuf Nut Garment Manufacturing company. During the war he served overseas. Pallbearers will be P. E. McKain, Leslie Carter, W. E. Terrill, Harold Gouge, W. M. Palmer, and H. L. Merrill, all employes of the Tuf Nut company.

Winners Pay Fines, Losers Jailed, in Raid

A dozen dusky dicers, intent on the antics of a lively pair of ivories, Wednesday afternoon failed to note the approach of Constable Frank Morgan and his deputies.

Twelve men the officers counted, and even as they rounded off the dozen, one slipped through the window. Then there were eleven.

An agile deputy brought back the deserter, only to have him duck out once more and take to a pair of rapidly disappearing heels.

The eleven were taken to the county jail. Half a dozen paid fines. The five who had lost most heavily in the game spent the night behind the bars.

Thieves Remove All Of Plumbing Fixtures Of House for Pipe

Thieves entered a vacant house at 1100 Indiana avenue Sunday or Monday and took several pieces of lead and brass pipe, unbolting nearly every plumbing fixture in the house, it was reported to police Wednesday.

The hot water heater, lavatories, and other fixtures had been taken from their places and piled in the middle of the floor, probably with the intention of being carried off later, officials of the Williams-Dwyer Investment company, agents for George Golden, owner of the property, stated Wednesday. Damage to the property was small, it was said.

Mrs. H. H. Rogers Won't Discuss Her Reported Divorce

By GEORGE W. HINMAN JR.
(Copyright 1929 by Universal Service, Inc.)

PARIS, June 5.—"I'm sorry, but I have absolutely nothing to say."

Thus spoke Mrs. Henry H. Rogers this evening in her Paris home when confronted with the report that she and her husband, Col. Henry H. Rogers, Standard Oil magnate, had been divorced in Utrecht, Holland.

The same report stated that Colonel Rogers, father of the former Millicent Rogers, once wife of Count Sal Van Hoogstraeten, and now Mrs. Millicent Ramos, had immediately married Mrs. Basil Miles, widow of the well-known Washingtonian and a former resident of Paris.

All efforts to prevail on Mrs. Rogers either to confirm or deny the reported divorce proved futile. She maintained persistently:

"No; I am sorry but I cannot discuss the affair in any way."

FIRE DAMAGES HOME

A fire originating in a closet in the home of H. A. O'Neill, 2000 Lucile street, about 9:30 o'clock Wednesday morning caused damage estimated at $300, it was reported by fire department officials.

The flames quickly spread from the closet to the ceiling and furniture of the bedroom, but were extinguished by firemen before they had gained headway. Only smoke damage was reported in other rooms of the house.

Radio Man Rented Murder Apartment

LOS ANGELES, June 5. (UP)—Through asserted identification of clothing police today obtained additional evidence indicating that William C. Tallman, radio operator charged with the murder of Mrs. Virginia Patty, rented the apartment in which the pretty young woman's body was found. Tallman was held prisoner on the steamer Admiral Benson, on which he was a passenger and was to be arrested late tonight when the ship docks in San Francisco.

40 TO ATTEND LEGION MEET

Wichitans to Initiate "Goofs" at Vernon

Plans for attending the 13th district convention of the American Legion at Vernon on Saturday and Sunday, June 9 and 10, were made at the regular meeting of the Pat Carrigan post Wednesday night at the Memorial auditorium.

Members of the local voiture of the society, 40 and 8, are to have charge of the initiation of more than 30 candidates Saturday night, and indications Wednesday night were that approximately 40 of the local membership will be present for the event. They plan to leave Wichita Falls about noon Saturday, in order to participate in the festivities planned for the afternoon at Vernon.

Large numbers of legion and auxiliary members from this city are expected to attend the Sunday sessions of the convention, it was said.

PROGRAM DRAFTED FOR DISTRICT MEET

Special to The Record News.

VERNON, Texas, June 5.—Initiation of more than 20 "poor goofs" into the mysteries of the society of 40 and 8, at the hands of a "wrecking crew" furnished by Voiture 839 of Wichita Falls, is expected to feature the convention of the thirteenth Texas district American Legion posts here June 9 and 10.

The 40 and 8 ceremony has been set for Saturday night at 10:30 o'clock in the Legion home by the committee in charge of program arrangements. Octivities designed to make Saturday afternoon a gala occasion for Vernon include airplane stunts and parachute jumps, polo game and cavalry battle between Wichita Falls and Vernon, with participants mounted on burros, and a parade of the society, 40 and 8.

Thirty-eight rounds of boxing, presenting many of the best known ring artists of this section, will be the attraction at the Legion hall at 8:30 o'clock Saturday night.

Sunday's program will open with a public meeting at the Vernon theater at 9:45 a. m. The principal speaker will be State Commander Rufus Scott of Paris. Legionnaires and auxiliary members will be entertained at 11 o'clock Sunday morning wit ha Vitaphone matinee at the Vernon theatre, followed by a dinner at the Legion home. Business sessions of both organizations will begin at 2:30 p. m., the Legion meeting to be held in the new Wilbarger county courthouse, and that of the auxiliary in the Legion home.

Several hundred representatives from Electra, Wichita Falls, Bowie, Graham, and other cities in this section are expected for the two-day meet.

San Angelo Delegation Studies Dairy and Packing Plants Here

Roy French, J. W. Lamney, and Dr. R. L. Rogers Jr. of San Angelo, and R. L. Rogers Sr. of Fort Worth have been in Wichita Falls for the last few days inspecting the creameries, the Kraft Cheese company plant, the Wichita Packing plant, and similar plants for the purpose of learning methods used in these industries in order to apply them to proposed plants in San Angelo, it was announced Wednesday.

An ordinance modeled on sanitary ordinances used in Wichita Falls is pending adoption in San Angelo, Dr. J. M. Farrell, city food inspector, stated. Plans for the construction of a building in San Angelo to house a plant similar to the Wichita packing plant are being made by R. L. Rogers of Fort Worth, it was said. The ordinance will be considered in San Angelo within the next few days.

Pope's Apparent Clash With Il Duce Will Not Seriously Affect Treaty

ROME, June 5. (US)—The insistence of Pope Pius on the right of the church to educate the youth of Italy, with which Premier Mussolini appeared to disagree in his senate speech on May 25, will not disrupt the lateran treaty.

The pope's letter to Cardinal Gasparri, appearing today in Osservatore Romano, in which reference is made to "heretical expressions," declares that "peace between Italy and the vatican must last forever" because beyond their differences remains loyalty on both sides.

In his letter to Cardinal Gasparri, the papal secretary of state, and whom the ope has named as plenipotentiary in arranging ratification of the treaty between Italy and the vatican, the pope denies that Italian Catholics could dispense with religious marriage. He asserts that marriage under the church ceremony is compulsory under penalty of expulsion from the church.

The pope says that Italy has no need to fear any ascendancy of the church, since the church "has always benefitted Italy as well as the rest of the world."

Gas Poisoning.

Breathing poisonous gases still seems to be a favorite method used by those who wish to commit suicide. Usually, the gas from a stove or from a gas jet is turned on and the doors and windows stuffed with cloths to keep it from escaping. In a room thus prepared, the one attempting suicide will find release from this life in from 30 to 60 minutes.

Accidental deaths from this kind of gas will usually take much longer, owing to the fact that a great deal of gas escapes through opening in the room, such as the cracks in the door and windows.

In spite of all warnings, there are many deaths each day from carbn monoxide gas poisoning. This gas is formed at times from the improper combustion of the ordinary natural or artificial gas used in stoves.

The fumes from burning gas are ordinarily not highly poisonous, and only at times is the carbon monoxide gas produced. A housewife who does not have the proper vent to the cooking stove or to small heating stoves is constantly in danger of getting a breath of the carbon monoxid gas at any time. The important point to remember is that this gas is practically odorless and is also colorless.

Any exhaust from a gasoline engine may contain some of this poisonous gas.

Most deaths from carbon monoxide gas poisoning that are reported have occurred in garages. The engine is left running while the driver is in the garage and if for a few seconds the gasoline combustion is imperfect, enough carbon mfonoxide may be generated to make the victim unconscious almost as quickly as if he were felled with an ax.

There is very little warning. One full breath of air containing this gas may be sufficient to cause unconsciousness. This is because the carbon monoxide gas combines with the hemoglobin of the blood and destroys its ability to carry oxygen. Even if the victim is discovered and carried to fresh air, he may not recover, due to the serious blood change which has been produced. In case of recovery it may take months for the blood to be restored to its normal condition.

The air of the city streets is being more polluted each day with the exhaust gas from automobiles and although these odors may not be pleasant, there is only a small amount of danger from carbon monoxide due to its rapid mixture with freshly moving air.

The greats danger lies in the closed garage and in the heating gas devices without the proper vents.

QUESTIONS AND ANSWERS

Arms Get Numb

Question: M. J. writes: "Please tell me what causes the arms to go to sleep and get numb at night. Is this because of high blood pressure?"

Answer: If you know you have high blood pressure you have doubtless answered your own question, as this does cause the arms to become numb. Valvular leakage of the heart is also sometimes responsible for poor circulation and numbness of the arms.

Pellagra

Question: Mrs. R. C. H. writes: "I would like some information about pellagra. Can it be cured?"

Answer: The best dietetic treatment seems to be an occasional short fruit fast for four or five days at intervals of about a month apart, followed by a well balanced diet as outlined in my weekly menus. It is especially important that you obtain sufficient protein, such as meat, in overcoming this trouble.

Sauce for Vegetables

Question: J. J. N. asks: "How can one prepare a palatable sauce for green peas without discarding the juice, and without making a 'wrong' combination?"

Answer: A palatable sauce can be made by adding cream and butter to the desired amount of juice, and thickening with a little dextrinized, or browned, flour. The juice that is not used should be saved for soup, which may be made very appetizing by the addition of milk or cream and any finely chopped non-starchy vegetable you may wish.

Question: M. A. P. writes: "Please tell me how to prevent cysts forming on my eyelids. I have been having them cut out, but is there not some preventive? An examination shows nothing wrong with the vision. I have been told that a poultice made with milk and the bark of slippery elm, to be applied for an hour, would be helpful. Please advise me."

Answer: The tendency toward the formation of cysts seems to be caused by a condition of acidosis. This can be overcome by the use of a fasting and diet regime, as outlined in my Cleansing Diet course, which I will be glad to send you. Local applications of wet compresses to the eyes for about 20 minutes each morning and evening would be helpful. The efficacy of the remedy you inquire about is probably due to its demulecent mucilaginous property. This could also be obtained by various substances added to the wet compresses, such as flaxseed, Irish moss, glycerin, gum arabic, or starch paste.

Abe Atell Held for Speculation in Tickets

NEW YORK, June 5. (INS)—Abe Attell, former world's champion featherweight boxing champion ran afoul of the law today when, with three others, he was arraigned before Magistrate Peter Daly in Long Island city court on charges of speculating in prize fight tickets.

The four were held in $500 bail each for the court of special sessions.

The men were arrested last night by plainclothes policemen outside of the Queensborough stadium, Bridge plaza, Long Island City.

Bandits Force Couple to Remove Shoes and Hose

KANSAS CITY, Mo., June 5. (INS)—Two bandits forced a young man and women here last night to remove their shoes and stockings after robbing them and then used the girl's hose to tie the couple to a tree.

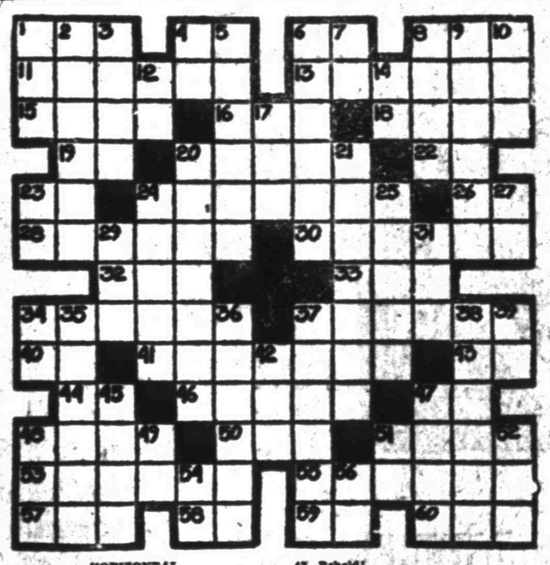

The couple were sitting in a drive-it-yourself coupe when the bandits appeared. The bandits apologized for their roughness and after taking $4.80 wished them a brief stay and drove off in the coupe.

Bank of Commerce at Tonkawa, Okla., Closes

TONKAWA, Okla., June 5. (UP)—Customers of the Bank of Commerce here today read a sign that the bank has closed its doors because of depletion of cash and sight exchange and the low price of farm products. The bank failed to open today.

Its affairs were in the hands of the state bank commissioner's office. Averaged deposits of the bank had been $800,000 for two years.

PANTHERS BEAT SPUDDERS IN JAMBOREE OF HITS AND WALKS

UMPIRE HELPS CATS' 11-6 WIN

Bennett and Freitag Clout Home Runs

By LARRY DAILEY
Record News Sports Editor

Cy Smith was ineffective and Rufus Meadows and Buzz Phillips were unsteady, and the result was a wild jamboree of hitting and walks out at the orchard yesterday in the opener of the Spudder-Panther series. Jake Atz' men got in their hits and passes at more opportune occasions, and their umpiring was also better than that of the home nine, and with some loose defensive work of the Spudders, Fort Worth eventually won.

The score of the see-saw combat was 11 to 6.

Smith allowed 11 hits and passed five; Meadows gave up five knocks and four walks and hit one for five runs when he was relieved in the fourth inning after one was out, and Phillips, although he yielded only one tally, allowed five blows, walked three and also hit one.

Umpire Helps Cats

The hostiles were materially aided by Cecil Griggs, who is an umpire. Indeed, Mr. Griggs handed the Panthers three runs, all by himself, when he called a Cat runner safe when the fellow was palpably out. It would have been the third out in the seventh, and as the Cats scored three runs after that decision, it will be seen that Cecil was quite an aid to the invaders' cause. Red Bennett and Whitey Freitag smashed home runs over the left field barrier, the Cat's wallop coming with a comrade on the base line.

Bennett smacked another blow, Ray Andrews finally started hitting by also clouting a brace of knocks and Howard Fitzgerald emerged from a slump to get a pair of hits.

Joe Bonowitz was the batting leader of the day with three knocks.

Spudders Start Scoring

The Spudders tallied a run in the first inning. Andrews led off with a base on balls. Turgeon singled to left, advancing Andrews to second. Bennett hit sharply to right and Cox threw a strike to Rensa, holding Andrews at third. Stapleton was hit by a pitched ball, Andrews ambling home.

Freitag's home run over the left-field wall, after Bonowitz had doubled, gave the Panthers the lead in the second.

Andrews doubled to right and scored on Fitzgerald's single to right to tie the count in the third.

The Cats scored two in the fourth. Grimes walked and Bonowitz singled to left. Freitag forced Grimes, Smith to Swenson. Harrington popped to Swenson. Rensa strolled, filling the bases. Meadows hit to the right-field foul line, scoring Bonowitz and Freitag and advancing Rensa to third. Bennett roamed far beyond the foul line to pull down Moore's hoist.

Spuds Take Lead

Wichita Falls took a 5-4 lead in its fourth by scoring four runs. Swenson singled to left after one was out. Sullivan, Lapan and Smith were passed, to let Swenson score. Phillips replaced Meadows. Andrews singled to right, scoring Sullivan. Turgeon's lift to Bonowitz sent Lapan home. Fitzgerald walked. Cox was under Bennett's fly.

Loose work gave the Panthers two runs and the lead, 6-5, in the sixth. Freitag, first up, walked. Swenson booted Rensa's grounder, and Freitag went to third, Rensa going to second when Swenson made a purposeless return. Phillips bounced to Turgeon and Smith failed to cover first. Harrington scoring, Rensa tallied while Turgeon was throwing out Moore.

Bennett's Ruthian smack over the left-field barrier again tied the count in the Spudders' half.

—Griggs Helps Cats

A rank decision by Umpire Cecil Griggs gave the Cats three runs and a 8-6 lead in the seventh. Freitag and Harrington singled after two were out. Rensa bounced to Andrews, who threw to Turgeon and the ball was two feet ahead of Harrington—but Griggs called the runner safe. Phillips doubled to center, scoring Freitag, Harrington and Rensa.

The Cats tallied two more in the ninth. Bonowitz smacked a sharp grounder through Swenson. Freitag filed to Bennett. Harrington beat out an infield hit. Rensa singled to center, scoring Bonowitz. Phillips' hoist to Fitzgerald tallied Harrington.

4 Wichita Falls Golfers Qualify In State Amateur Championship

Tommy Cochran, 151 and I. R. Sheldon, Morris Norton and Bob Alexander, 157 Each, Among 32 Survivors

DALLAS, June 5. (AP)—Playing like a champion in his first major tournament, Ralph Guldahl, 17-year-old Dallas stripling, breezed through with two fine rounds, 71-75, to win medalist honors from the greatest field ever to compete for the Texas amateur golf crown yesterday and today at Brook Hollow course here.

Two strokes separated Guldahl from his closest pursuer when the last of 200 entries had checked in just before dark today. Ossie Carlton, Houston, 1926 titleholder, finished strong with a 72, two over par, to place second at 147 strokes. Alvin Herold, Dallas city champion, with 73-76-149, and G. L. Campbell, Temple, 77-72-149, were tied for third.

Other Qualifiers

The other 28 players who qualified for the first round of championship play tomorrow were:

Gaston Feek, Galveston, 78-78-156; Tom Cochran, Wichita Falls, 77-74-151; Ed Connor, Dallas, 76-75-151; Jack Speer, Houston, (defending champion) 78-77-155; Gus Moreland, Dallas, 78-74-152; W. C. River Oaks Country club of Houston was awarded the 1930 tournament at the annual meeting tonight. Tom Gregory of the River Oaks club was elected president of the state body.

Bubby Eliminated

Clarence Hubby, Waco, veteran contender and a pre-tournament favorite, barely missed out of the title flight when he and eight others at 156 strokes engaged in a play-off for the last three places in the big bracket. A putt that would have given him a shot at the title rimmed the cup.

Idle Pirates Take League Lead as Champs Lose

ST. LOUIS, June 5. (AP)—The Giants dropped the Cardinals from first place today by defeating the National league champions, 6 to 4, while the Pirates were idle in the pain.

Chick Hafey's thirteenth home run with one on helped the champions to score three runs in the second, but Melvin Ott's twelfth circuit blow, with two on in the fifth, gave the Giants a lead which they never relinquished. Score:

Midland Gives Up Berth In West Texas League

SAN ANGELO, Texas, June 5. (AP)—Midland's franchise in the West Texas league was turned back to the league today because of "lack of funds," Dave Snodgrass, president of the league announced tonight.

Snodgrass said that the franchise would be placed elsewhere immediately. Indications are that the Big Lake Oil company will sponsor a team at Texon.

SPUDS, CATS PLAY 2 TODAY

First Game at Lot Here To Start at 3 o'Clock

The Spudders will play their first week-day double-header here of the season today, with the Fort Worth Cats as the opposition. The first game will start at 3 o'clock.

Milt Steengrafe, George Payne or Bill Goff, all righthanders, will be started on the hill by Skipper Jim Galloway, Foreman Jake Atz of the Panthers indicated last night that he will employ Jimmy Walkup, the Spuds' lefthanded nemesis, and Vincent Devaney, a youthful righthander.

Yesterday's victory while Waco was losing put the Panthers in a tie with the Cubs for third place.

Grimes made a sensational one-hand snatch of Smith's grounder over first base in the second inning yesterday.

Pierce, regular Fort Worth shortstop, was left at home yesterday when the Cats came here. He is suffering from a wrenched back.

Bonowitz pulled down Fitzgerald's smash off the fence in the sixth.

All the outfielders had busy days, Bonowitz and Bennett snared six drives each and Fitzgerald hauled down five.

DUFFS SWEEP SERIES

HOUSTON, June 5. (AP)—After "Lefty" Myres' ineffective pitching had spotted Waco to a four-run lead in the first two innings, the Buffs battled their way to a 5 to 4 verdict, sweeping the three-game series. Harris gave eight hits but they included three doubles, two triples and a homer. Score:

SOUND COMMON SENSE explains this GREAT PRICE DIFFERENCE

SCORES of 10c cigars were tested by unbiased experts. Dozens proved to be *no better than White Owl*, either in size or quality of tobacco ... yet they cost 10c, while 3 White Owls cost only 20c.

SOUND COMMON SENSE explains White Owl's economy. The enormous nation-wide sale of this fine, mild, foil-wrapped cigar enables us to reduce our margin of profit, increase value, and still reap greater reward in the end. That is why White Owl outclasses many 10c cigars; why millions of men realize that, in White Owl, they get all the thorough enjoyment they expect in *any* cigar.

Federal Penitentiaries Report More Prisoners

WASHINGTON, June 5. (US)—Reflecting the amazing increase in crime, federal penitentiaries on July 1 will have 1,000 more prisoners than on the same date last year, the department of justice estimated today.

The estimate was based on an increase from 8,871 on July 1, 1928, to 9,341 on May 20.

Paolino 7 to 5 Favorite Over Max In First Wagering on June 27 Go

Price Will Not Last Long, However, and Runyon Expects Herr Schmeling to Enter Ring as Public Choice

By DAMON RUNYON

(Copyright, 1929, by Universal Service, Inc.)

NEW YORK, June 5.—Jimminy goodness me, as Mr. Charley Harvey would say, if the old Beezark of the Basque isn't the favorite in the first flush of betting on his go with Herr Max Schmeling. The price 7 to 5. And the boys haven't even reached the sweating point in their training.

I doubt if that price will last long. It is merely a sort of feeler. I rather expect to see Herr Max reach the ring the favorite. He is apt to look better than Senor Paolino in training. They tell me the Beezark is just a good old truck horse in the gymnasium, where they don't pay off on fighters, by the way.

Herr Schmeling has some grace against the bags, and what-not. Also he is a curly wolf against his spar mates. He belts 'em sideways and crooked. That type always impresses in training. But it doesn't always get down there in front in the ring.

Herr Schmeling is booked for 15 long heats against the toughest, roughest galoot in the business. We'll know along about 11:30 o'clock on the night of June 27 whether the Black Uhlan of the Rhine can really fight, or is just a fellow around.

My operatives who have been inspecting the two training camps advise Hoosick Falls, the temporary home of the old Beezark, as the spot for a man of my temperament and legs. They tell me that Kunnel Bill Dwyer's jernt at Lakewood, where Herr Schmeling is grinding, has a country club atmosphere that I would scarcely fit into in knickerbockers.

A Home Cooking Tour

Hoosick Falls, which the boys insist on calling "Hoosis," has more the air of home cooking, as I understand it. It is a pleasant little town in a pleasant little vale of upstate New York, and it has produced three distinguished persons. They are the Hon. Bill Carey, president of Madison Square garden, the Hon. Bill Kennedy, the actor, and Miss Harriet Hoctor, the dancer.

The Hon. Bill Carey induced Paolino to go to Hoosick Falls because Mr. Carey wished to call attention to his old home town. The Hon. Bill Kennedy is spending the summer there and has volunteered his services as guide of the seeing Hoosick Falls sightseeing busses that will be run for the benefit of the visiting firemen. The old home of Miss Hoctor, the dancer, is one of the local sights.

It doesn't make such difference where a guy trains. After all, it is how he trains. Some fellows can get in better condition in a gymnasium in the heart of the town. But in the main the country atmosphere is best.

Both Paolino and Schmeling have European methods of training that surprise the American observers. The fighters do as they please, not as the trainers please. This is somewhat reminiscent of the system employed by Mr. Tunney. The average American fighter making ready for an important battle is usually wholly submissive to his trainers.

These trainers generally install a sort of school room atmosphere in their training camps. Personally it is always something of a laugh to me to see some age-headed trainer, who couldn't fight a lick if he ever fought at all, laying down hard and fast rules for an experienced gladiator.

Okay for Youngsters

The American training system may be okay for a young fighter in the formative stage of his career. But after a man has had 40 or 50 battles he ought to know what's good for him. He ought to be able to map out his own training course. That seems to be the European theory.

Paolino has always been strong for outdoor work. He likes to do a lot of wood chopping, which even our American trainers agree is great stuff for a man in training. The old Beezark is really a marvel with an ax. He can do stunts that make your blood run cold. He was a wood chopper before he became a fighter.

Herr Schmeling has never before gone in for the open air thing to any great extent. Those who have seen him in action at Lakewood say he seems to enjoy it. William Harrison Dempsey got an idea years ago that he couldn't begin training without putting in at least a month in the open, and all of our heavyweights of late years have trained outdoors when they could.

The exception is Jack Sharkey, of Boston. He likes to do his heavy lifting indoors. He trained for his fight with Jack Dempsey in a down town gymnasium in New York in the heat of the summer, and he got himself in shape to fight very well indeed until he decided he had had enough for the evening.

'Twas Smack on Chin

Afterwards some of his admirers tried to excuse his defeat on the ground that his indoor training had hurt him. But it didn't hurt him up to the moment he got the belt on the chin while he was trying to claim a foul. In fact, he almost knocked Dempsey's head off in the opening round.

In Boston, Sharkey trains in a gymnasium about the size of a hat box, and he always seems to get in pretty fair condition there. In New York he likes a gym that is not much larger, and quite as stuffy as the Boston institution.

So as I say, it isn't where a man trains. It's how he trains.

My operatives in the Schmeling camp report that Herr Max will have to be very careful that he doesn't go stale before the night of the fight. In that respect Paolino has a distinct advantage, because he needs just about the amount of work that he can cram into three weeks.

Baer Facts

By ARTHUR "BUGS" BAER

NEW YORK, June 5.—We cannot agree with educators who claim that homework is injurious to the immature intellect.

What a child learns at school should be brought home and endorsed by its old man.

When Demosthenes chewed pebbles in the barn he was doing home work for the valedictorian scrambles in the open oratorical tournaments.

When Lincoln figured out the dancing letters in an old book by the light of a log fire he was doing homework for a million homes.

When you prevent a child from doing homework you are canceling an essential section of its education.

And depriving its old man of an entire education.

The old parlor lamps are gone and midnight oil is figured out in kilowatts. But when you see a child doing its homework in red ink it takes you back 30 years with a suddenness that snaps the suspender buttons of history.

Once again we see old Mommie Cossett in the old schoolhouse at Ninth and Thompson. Those were the days when interscholastic athletics consisted of getting your hand smacked with a brass-bound ruler.

Mommie Cossett had one bad habit. When she crossed your palm with the silver of chastisement, she always placed your hand on her knee.

As the ruler descended, you pulled away your mitt and Mommie cracked herself on her floating cartilage.

Then she got smart and placed a book between your hand and her knee. But she would never have thought of this if she hadn't done homework when she was a little girl.

The penalty for pulling away your hand was extra homework. You had to parse the verb "to be" one thousand times in red ink. By the time you finished you were the finest two-word grammarian in the world.

In the old days homework was more or less a disciplinary business. If Henry Ford hadn't been a bad boy in school he would never have thought of the flivver. Henry did years of homework in his father's machine shop.

When we hear a little child spelling c-a-t with the pencil in its mouth our education comes rushing back in a torrent that drowns our information.

When the little child asks us what the equator is like and what happens to it after the third person, possessive, we are enabled to give it an answer that is amusing as well as wrong.

A little girl or boy who wants to be promoted to the next grade should never ask daddy what's what and how.

Homework should be juvenile and not erroneous. But, all we have to say, is that when a child is reading its lesson aloud, it is educating more than one person.

Purdue Head Welcomes Athletic Investigation

LAFAYETTE, Ind., June 5. (AP)—Dr. Edward Elliott, president of Purdue university, today said he would welcome a thorough investigation of charges made by Coach Everett Case, of Frankfort, Ind., that Coach Ward Lambert was guilty of proselyting athletes.

"If Mr. Case has any charges to make against Purdue, or anyone connected with the university, he is invited to make them before the proper authorities," President Elliott said.

Palm Beach Knickers For Boys

Palm Beach Cloth has a sturdiness unmatched in any other wash fabric on earth! And that's one reason why Palm Beach garments are found to yield *your money's most.*

Add to this: *The fact* that Boys' Palm Beach Knickers hold their shape and good looks, no matter how rough the going—no matter how frequent the washings; *the fact* that they do not show the dirt, for the good reason that dirt will not cling to their smooth surface; *the fact* that the wide and handsome diversity of patterns promises a new kind of smartness . . .

And you have a sum that totals the wisest purchase of summertime.

Boys' Palm Beach Suits and Knickers—at your clothier's. The little label sewn in every garment is proof of the *genuine.*

DEMPSEY HAS ANOTHER BID

Jack Sought for Agua Caliente Go in March

LOS ANGELES, June 5. (UP)—While Jack Dempsey's scheduled meeting today with Wirt G. Bowman, Agua Caliente, Mexico, promoter, was put over until next week because of Bowman's illness, the former heavyweight champion made a few disclosures regarding his possible return to the ring.

Dempsey said that if he received a tempting offer from Bowman, either in percentage or guarantee, he might consider fighting at Agua Caliente next March. As for an opponent, he asked why not George Godfrey, the negro.

Dempsey talked with James N. Crofton, also of the Mexican resort, but their discussion was informal. They will meet again later in the week, according to Crofton, and then will have the deciding session at Agua Caliente next week.

Plemons Man New Dean Of College at Clarendon

Special to The Record News.

BORGER, Texas, June 5.—W. A. Clark Jr., superintendent of schools at Plemons for the past two years, has accepted the position of dean of the Junior college at Clarendon, Texas.

Dean Clark was first named in charge of the summer school at the college. Later he was elected dean and director for the coming year.

During the time he was at Plemons, Mr. Clark secured the affiliation of the school with the state system. He maintained a high scholastic record last year and it is expected the school will be awarded additional credits this year. The Plemons school has been the only affiliated high school in Hutchinson county.

No successor to Mr. Clark has been announced.

Half-Strides

Eastern athletes wish Horace Greeley's advice had been about as follows: Go West, young man, and stay there."

When Schmeling's right hand meets Paulino's chin we should at last get the solution of an old problem as to what will happen when an irresistible force meets an immovable barrier.

So it may happen that two fighters will take a step beyond the limit of our leading scientists and prove again that matter is often superior to mind.

Dr. Einstein has worked out the theory of the fourth dimension, but when he presents a certain cure for a slice he will become the world's first hero.

Jack Dempsey is undecided as whether it is better to take a chance of getting knocked out or to be eternally haunted by the phantom of $500,000 for 45 minutes' work. This problem would worry us about one-third of one second. Or somewhat less.

Golfers who have played Winged Foot in preparation for the coming U. S. open are giving vent to nightmares in the midst of yawning chasms and abysmal grottos as they call out "throw me a rope."

Which recalls the story of a certain duffer bunkered in one of the deep traps at Garden City. He had played seven and was still lost to sight.

"Why don't you throw the ball out," his opponent called down. "Throw it out?" he yelled back. "Who do you think I am—Walter Johnson?"

"Ty Cobb is now a golf devotee," says a Georgia exchange. Devotee or divotee?"

"The easiest shot in golf," says Bill Fields in The American Golfer, "is the first shot at the nineteenth hole."

Other club owners may be interfering with their teams' chances, but there is no truth in the report that owner Wrigley is gumming up the Cubs' outlook in any way.

Said Melvin Ott to Jimmy Foxx, "I like to drive 'em from the box."

"I like to drive 'em from the lot," Said Jimmy Foxx to Melvin Ott.

In regard to the new golf ball no one yet has improved on Steve O'Neil's suggestion to invent one that will squeak when it gets lost.

A gorilla might beat either Max Schmeling or Paulino Uscudun, but his manager or managers would still collect most of the cut.

It is supposed to be a good break to "be in clover," but not when you have to play a long iron shot to a well trapped Winged Foot Green.

For this reason Nina Nobles, the club's mandarin, may be seen almost any morning putting on the big Nebuchadnezzar act.

"The art of self-defense may be a 100 yards in 10 seconds," as Hughey Keogh once put it, but that isn't what the clients pay their money to look at. They can see faster at a modern track meet. But not much faster than they see in many modern rings.

One trouble with the Yankees has been that Babe Ruth and Lou Gehrig can't keep some of the other clubs from making eight or nine runs.

"The head," as Jim Barnes says, "is anchor to the swing," but the trouble is that too many golfers are always pulling up anchor before the boat is set to travel.

Some of the present heavyweights might be able to beat Tommy Loughran if allowed to take a shotgun in the ring.

RUTH'S FORMER EMPLOYER DIES

Frazee Was Noted Theatrical, Sports Entrepreneur

NEW YORK, June 5. (UP)—Harry H. Frazee, 48, former president and owner of the Boston Red Sox and prominent theatrical producer, died at his home here tonight after a protracted illness.

Frazee, born in Peoria, Ill., produced his first show when he was 22, and shortly afterwards built the Cort theater in Chicago. Among his successes were "No, No, Nanette," and the play, "Nothing But the Truth."

In 1918, Frazee bought the Red Sox and it was during his administration that Babe Ruth was sold to the Yankees for $150,000. He had paid $1,000,000 for Fenway park, the Boston club and its franchise, and Ban Johnson called him "champion wrecker of the diamond." Frazee and Johnson were relentless enemies in baseball.

Frazee also was interested in pugilism and backed the Willard-Johnson heavyweight championship fight in Havana in 1915. At one time it was reported he offered Jack Dempsey $350,000 to fight Harry Wills, when the negro battler was in his prime.

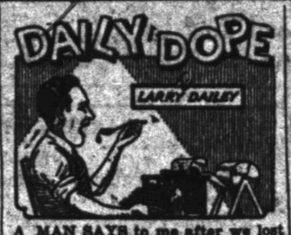

Paolino to Start Daily Sparring Drills Today

HOOSICK FALLS, N. Y., June 5. (UP)—After a day of rest tomorrow Paulino Uscudun, Basque heavyweight, in training for a match with Max Schmeling, will begin daily sparring against Jack Dorval, Jack Demave, Benny Touchstone and Buddy Howard, his sparring partners.

"Paolino was never in better shape to start the final tuning up," said Laul Arthus, one of the Basque's trainers and managers.

M'LEAN'S COLT WINS

LATONIA, Ky., June 5. (AP)—Jock, E. B. McLean's sensational 5-year-old colt, today won the $5,000 inaugural handicap at the opening of the Latonia race track.

A MAN SAYS to me after we lost Tuesday's ball game 4-1 to Dallas, "Why don't you get on the Spudders; give 'em a ramming." Well, in the first place, ramming isn't in my department; I leave that to the fans who pay their six-bits for the privilege. Though I hasten to add that the enthusiasts here are mighty loyal and fair-minded, and if they give vent to expressions of disgust it is reiterated that that's part of the admission price, and also a well-established good old American custom.

If I can report the ball games, what actually transpires, accurately and intelligently, I am fulfilling the job for which I am paid $100 a week, more or less. Of course, it is part of my job to point out errors of commission or omission as they occur in a ball game. But second-guessing or razzing, except in rare instances, isn't done by your conscientious and capable scribe; our troubles are enough in merely being reporters not to take upon ourselves the mantle of infallible geeks of marvelous wisdom.

◆ ◆ ◆

I KNOW as well as anybody that the Spudders haven't played the ball they should; I mean, that they do not occupy a high place in the standing that the presence of many capable ball players on the roster indicates they should. And I know, to a great extent, what has caused the failure of the Spudders. It is no secret. And it is something that just has happened. I guess you would call it fate, for want of some better term. And with that I grant that the Spudders have played some mighty loose baseball, which hasn't been the sort of baseball that such an imposing looking team should play.

That should appease the man who wants me to razz the Spudders.

◆ ◆ ◆

BUT HOW are you going to razz a ball club, at least very severely when that ball club has been beset by a flock of injuries and illness, with hardly a day that it has had its regular lineup intact? And why should you razz a bunch of ball players who are trying their durndest to win? And furthermore, why should that ball club be razzed, when the season is yet comparatively young, and with the close pennant race prevailing still an open affair?

I know Wally Swenson isn't playing good baseball. He isn't hitting and he isn't fielding as he should. But I know Wally HAS played good baseball. I know he is a clean-living and conscientious young man. Why razz him, then, when it's tough enough for him as it is, for his failure to achieve his form of 1927?

I know that Milt Steengrafe and Harold Wiltse have not pitched the sort of ball they should. And that George Payne was slow in achieving winning form. And that one or two other pitchers haven't delivered as was expected. But razzing won't improve them.

I know that some of the regulars aren't hitting at their average pace and that Ray Andrews, over-anxious, has not delivered as it seemed he would when he first joined the Spudders. But razzing won't help them get their eye on the ball and it won't serve to back up young Andrews.

◆ ◆ ◆

SURE, I get disgusted when the guys go out and kick away a ball game. But in view of the circumstances, of the injuries they have had, and hoping that they will snap out of it and yet come through, I try to be tolerant. Certainly J. Alvin Gardner's athletes have played good enough ball for several seasons for us to bear with them a while longer while they are in the doldrums.

U. S. Davis Cup Members Feted

Dinner Tendered Team Eve Of Sailing for Europe

NEW YORK, June 5. (UP)—Members of the United States Davis cup team were given a farewell dinner at the Racquet and Tennis club tonight on the eve of the players' sailing for Europe on the Berengaria early Thursday morning.

The players who were guests of honor were Wilmer Allison of Fort Worth, Texas; John Hennessey of Indianapolis and John Van Ryn of East Orange, N. J.

These players, with George Lott of Chicago, who will join the team in Europe a week or two later, won all three American zone Davis cup ties with the loss of but one match, winning from Canada, 5-0, Japan 4-1 and Cuba 5-0. The players will go directly to London to play the Wimbledon championships, starting June 24.

PANHANDLE TO CONTINUE GAIN

Big Gray County Wells Boost Production

BORGER, Texas, June 5.—With a gain of over 16,500 barrels per day in Gray county and with three other counties showing a gain over the previous week, production in the Texas Panhandle exceeded the 80,000 barrel mark the past week. This is the highest mark reached by the Panhandle for more than a year and indicates that the area is still in the running with the price of oil showing encouragement to drillers.

Gushers in Gray county boosted that county's production, the Bowers pool and the Marland pool adding considerable. The Magnolia Bowers No. 4, the Cook Faulkner No. 2 of the Texas, the Operators Cook Faulkner and the J. H. Palmer No. 1 of the Phillips are expected to keep up the production to a high peak.

In Hutchinson county the Marland Sanford C-1 and three Phillips wells, the Pulaski-Whittenburg No. 4, the Florence 5 and the Ford No. 2, will boost the next report, oil men believe.

The Marland-Johnson C-1 boosted the Hutchinson county reports the past week.

Eight new wells are reported the past week.

Comparative figures for the week are as follows:

County	Wells	Past Week	Previous Week
Gray	335	45,895	39,345
Hutchinson	1,007	25,965	25,255
Carson	160	6,725	6,680
Moore	12	1,840	2,010

Transcontinental Control Changes

NEW YORK, June 5. (AP)—Contemplated changes in ownership and management of the Transcontinental Oil company of Tulsa, Okla., included the election of Amos L. Beaty, former head of the Texas corporation, to the chairmanship of the board, were announced by F. B. Parriott, president, today.

He explained a new group, in which Mr. Beaty is prominent, had been organized to acquire the preferred stock held by the Benedum interests of Pittsburgh.

Iowa Park Revival Is Attracting Large Crowds

Special to The Record News.

IOWA PARK, Texas, June 5.—Somewhat unusual methods and messages, coupled with a forceful personality, are making an unusual success for the revival services held nightly at Iowa Park by Rev. A. B. McReynolds, Fort Worth evangelist. The services are being held in an open-air tabernacle at the Iowa Park Christian church.

Evangelist McReynolds is speaking to large crowds each night and attracting people from neighboring cities, delegations attending from Electra, Burkburnett, Seymour and other cities. Tuesday night a large number attended from Wichita Falls.

There is a junior choir of 150 boys and girls, ages 6 to 14, an excellent senior choir augmented by many singers in the audience which makes a spirited song service each night.

Rapid Progress Is Made On New Church at Borger

Special to The Record News.

BORGER, Texas, June 5.—Pouring of the walls for the first floor of the new church building at the First Methodist church has been completed, Rev. J. L. Willis, pastor and superintendent of construction, says.

Just as soon as the cement has set sufficiently the forms for the second floor will be built and pouring started.

Work on the structure is progressing nicely. The church will be used at first as a combination educational plant and church work structure. Later on the unit for the preaching service will be built.

Committees of the church, headed by J. H. Doty, chairman of the board of stewards, are at work raising money for the building program.

Farmers Society Will Build Gin at Memphis

Special to The Record News.

MEMPHIS, Texas, June 5.—At a general stockholders' meeting held last Saturday, the Farmers Co-operative society voted to build another gin, and raised $15,000 at this meeting toward the erection of the plant, which will be put under construction about June 1's.

The auditor's report showed this institution, which has only been in operation the past ginning season, to be in a very prosperous financial condition. A good dividend was paid each of the stockholders, which amounted to $5.50 for each bale that was ginned, and a 23 per cent dividend on the working capital.

This society ginned 5,547 bales last season, and is increasing its membership for this next year to 300 farmers and land owners with a total capital of $70,000.

Junior C-C to Plan Program at Lakeside

ROADS SEEK RAILS

NEW YORK, June 5. (AP)—Railroads are making active inquiries for rails and have placed some orders in the last few days. Southern Pacific is said to be about to place orders for 50,000 tons. Others in the market include Hocking Valley and St. Louis and Southwestern.

THE BUTTERICK COMPANY

The Butterick company is engaged in the publication and sale of periodicals, fashion magazines, fashion advertising matter and in the manufacture and sale of paper patterns. The principal publications are "Everybody's," "Adventure," the "Delineator" and "Romance." New interest acquired control of the concern in 1926 and made some radical changes to modernize the business. Some of the publications are printed in several foreign languages as well as in English. The distribution of Butterick patterns is world wide. The company has several subsidiaries and the latter have made valuable plants and holdings. The main subsidiary has branches in London, Paris, Toronto, Minnipeg, Chicago and San Francisco while its main offices are in New York.

As a result of gains in circulation and advertising combined with operating economies, net income in 1927 amounting to $611,424 nearly doubled that of 1926 which was $312,813. Net for the first nine months of 1928 was $405,300 or $1.29 a share which compared with $3.41 a share for the corresponding period of 1927.

Funded debt totals $3,954,500. Capital stock outstanding consists of 210,785 shares of no par value. The stock was changed from $100 par to no par early in 1928 the exchange being made share for share. No dividends were paid in 1927 or 1928 the last payment being $2 in cash and eight per cent in stock in 1926.

As of Jan. 1, 1928 total current assets amounted to $4,554,871. Current liabilities were $614,234 and net working capital was $3,940,637. Book value of the no par stock amounted to $22.24 a share.

NEW YORK COTTON

NEW YORK, June 5. (AP)—Reports of rains in the Southwest led to rallies from an opening decline in the cotton market today. After selling up from 18.73 to 18.93 for October contracts, prices broke to 18.65 for that position under a renewal of local, Wall street and western liquidation. October closed at 18.77 with the general market closing steady at net declines of 9 to 22 points.

The opening was barely steady at a decline of 4 to 14 points in response to relatively easy Liverpool cables. The weekly report of the weather bureau contained conflicting features and seemed to have no clear-cut effect on prices but after selling about 12 to 16 points net lower, the market steadied on covering. This was evidently prompted by the reports of rains in the Southwest, and was sufficient to carry prices up from 18.54 to 18.75 for July and from 18.90 to 19.08 for December, or about 4 to 7 points net higher.

Reports of renewed weakness in wheat and an easier tone in the stock market were accompanied by more or less Wall street and western selling, and the decline extended to 18.47 for July and 18.81 for December, or about 20 to 23 points net lower. Closing quotations were a few points up.

Considerable trade buying was reported during the earlier trading and there was further switching from near to late months with July closing 19 points under October compared with a difference of 17 points at the close of the previous day.

The weekly report of the weather bureau was regarded as reading favorably with reference to conditions in the eastern belt, which tended to offset the unfavorable feautres noted in the Southwest.

NEW ORLEANS COTTON

NEW ORLEANS, June 5. (AP)—After advancing more than $1 a bale from an earlier decline cotton worked lower this afternoon under selling induced by rumors of a probable advance in the federal reserve rediscount rate. There was a slight rally in final trading and October contracts closed at 18.87, 11 points net lower. The general market closed steady at net declines of 5 to 15 points with distant positions showing the maximum loss.

The market opened barely steady at a decline of 4 to 8 points. The initial loss was attributed to selling in sympathy with a decline in Liverpool and prices continued to ease in early trading until July traded at 18.70, October 18.71 and December 18.84, or 8 to 9 points under the previous close.

All active positions made new lows for the day after mid-session with July at 18.63, October and December 18.70, or 26 to 29 points down from the highs. There was a flurry of covering in late trading and final prices showed recoveries of 7 to 11 points from the lows.

BOSTON WOOL MARKET

BOSTON, June 5. (AP)—Trading in wool is quite unevenly distributed. A few houses, however, are closing sales on moderate quantities of graded territory wool, 56 60s to 48 50s quality. Demand for the finer grades is very slow, while few offerings of the low wools are available. Prices are within the range quoted for previous week.

CHICAGO COTTON

CHICAGO, June 5. (AP)—Cotton prices opened lower on disappointing cables and private reports of favorable weather over the belt. After breaking about 20 points the market turned upward and recovered early losses. In the afternoon prices eased off, closing fairly steady, 5 to 15 points net lower. With tables 15 to 21 American points lower than due, opening prices here were 5 to 8 points down.

COTTONSEED OIL

NEW YORK, June 5. (AP)—Cottonseed oil today was slightly easier for the active positions, closing unchanged to 5 points lower with sales of 11,900 barrels. Heaviness of grains, the setback in land and cotton, and reports of slow cash demand caused the unsteadiness. Prime crude nominal; prime summer yellow spot 9.65; July closed 9.78; Sept. 10.03; Oct. 10.10; Dec. 10.10; Jan. 10.10.

Coffee barely steady; commission house selling.

CHICAGO

Wheat easy; poor export demand; favorable crop reports.
Corn lower; large country offerings.
Cattle irregular.
Hogs higher.

Stock Traders Nervously Watch Today's Reserve Meet; Shares Lose

By BROADAN WALL

NEW YORK, June 5. (US)—Increasing profit taking was induced by belief that the market's recovery had been too rapid and caused decline in practically all groups today. There was some nervousness also as to tomorrow's meeting of the reserve bank directors because of the visit to Washington of dominant officials of the local bank.

Public Service of New Jersey was the outstanding feature of strength as it jumped to a new high and closed with gain of three points. Steel lost fractionally while other standard Industrials moved in narrow range. Utilities generally lost about a point with the Rails dropping to a slightly less extent. Montgomery Ward declined 3¼, Radio 2⅞ and other Industrials that benefited from short covering, Tuesday, dropped from one to two points. Coppers held strong with Anaconda gaining a point while the Oils remained rather quiet but displayed a firm undertone. The call rate held at seven per cent throughout. Volume of trading dropped below the 3,500,000 share level.

Call money held at seven per cent and while there was easing in the time market, there appeared little reason for hope for any decided drop in call rates this month. However, unless wild speculation breaks out anew it is believed that distinct improvement in the call money market will be evidenced in July. The reserve bank statements to be issued tomorrow afternoon are expected to be bullish and there is little likelihood of any change in the rediscount rates. It would be no surprise if brokers' loans showed a small increase for the week just closed. A few brokers report a condition that might indicate a decline but the majority look for a slight gain. Whatever increase in loans is reported, however, should be offset by evidence in the statements that the reserve is changing its open market policy and buying bills and government securities.

There is all manner of crazy tipping of the airplane stocks although all in the trade admit that most have discounted possibilities for months to come. At the same time competition is increasing and if the boom follows the example of other infant industries the weaker companies will be disappearing before long. The group in Consolidated Aircraft let it be known that the stock will be put over on the big board before long. It will be remembered that after numerous companies had been promoted and the stocks foisted on the public during the Radio and Refrigeration booms, two or three strong interests were found in control of those issues.

Much was made of the announcement of new interests going into Transcontinental Oil and the recapitalization that was planned. However the most pertinent development is that 2,500,000 shares of new stock are to be offered and the company already has plenty of stock outstanding. Standards, Pan American, Skelly and several other independents went along in the same steady manner that indicated that their sponsors are not making any particular effort to attract a public following. If things go as the leaders of the Oil industry hope there will be several merger announcements late this year. Ability of the Coppers to continue their recovery was due largely to the short interest although Cerro De Pasco and Kennecott enjoyed good buying by reason of knowledge of earnings that indicate further favorable dividend news.

Since the head of Atchison threw cold water on the hopes of stockholders as to earnings outlook, the Rails have proved disappointing. Prominent interests in other carriers, however, are not as gloomy as the Atchison official. They regard the O'Fallon decision as the most bullish development for the railroads since before the war. Unless there is a marked slump in general business they feel that most of the carriers will show increasing revenues over the next six months. Such roads as Central, Union Pacific, and others who no longer have to fear recapture, it is felt, will adopt more liberal accounting methods.

Grain

Recent Gains Mostly Lost

TEXAS CASH GRAIN

FORT WORTH, June 5. (AP)—Cash grain on the Fort Worth market followed the contract values downward Wednesday. Fair demand was reported for wheat and corn while oats were dull. Grain sorghums were the exception with a slight advance under increased demand.

Two cars of new wheat were reported loaded at Waco Tuesday—the first Texas wheat of the new crop to start to market. It is expected Fort Worth will get a car Friday.

Wheat—3c lower; fair demand. Exporters bidding $1.07 for ordinary hard delivered gulf ports. Mills bidding as follows, basis delivered Texas common points: No. 1 ordinary hard $1.00@1.10; 13 per cent protein $1.10@1.11; 15 per cent $1.14½@$1.15½; 18 per cent $1.15½@1.15½; 16 per cent $1.23½@1.25½. No. 1 soft red mixed delivered gulf quoted at $1.00@1.10.

Corn 1c off; moderate demand; No. 3 mixed delivered Texas common points 90c@1.01; No. 2 white or yellow $1.06@1.07.

Oats—No. 3 white delivered group one 53½@54c; group three 1c more. No. 3 red delivered Texas common points 53@54c.

Barley—Dull. No. 2 delivered gulf 66@65c.

Sorghums—Slightly higher; demand good. No. 2 milo per 100 pounds delivered Texas common points $1.44@1.48; No. 2 kaffir $1.34@1.36.

Sorghum Heads—Slightly stronger. Milo per ton delivered Texas common points $21@22.00; kaffir $19@20.00.

CHICAGO GRAIN

CHICAGO, June 5. (AP)—Impressive broadening of selling today swept the wheat market downgrade, partly wiping out recent gains. Notwithstanding word from Washington that a full half billion dollars, plus $1,500,000, is provided in a farm relief bill agreed upon today by senate and house conferees, friends of higher prices found themselves at a disadvantage. Defeat apparently owing in great measure to antagonism by foreign markets concerning advances in domestic grain values.

Closing wheat quotations were decidedly nervous, 1¾@3¼c below yesterday's finish. Corn closed 1⅛@⅛c down, oats ⅛@1¼c off, and provisions varying from 2c decline to a rise of 10c.

Houses with eastern connections appeared to be in the lead as sellers, taking the ground that price gains had been too fast, and that the market had become topheavy. It was also contended that advances in price had already more than discounted the market effects.

In the final 15 minutes of trading, something of a recovery was witnessed, but the close was ragged and uncertain, with crop news favorable and prices materially under yesterday's but still a good deal above what other countries were reported as offering wheat at abroad.

Increased country offerings were a depressing factor in the corn market. Oats took their cue from weakness of other cereals.

Provisions averaged firmer, sympathizing with changes in hog values.

Free Vaudeville Bill Completed

An additional number on the free vaudeville bill to be presented at Bellevue park Thursday night will be given by George Taylor, popular entertainer who scored several successes during the free show season last year, it was announced Wednesday by C. C. Bunnenberg, park superintendent.

Mr. Taylor is well known locally for his entertainment over the radio and in vaudeville programs. Other acts on the program for Thursday night include a saxophone solo by Wilson Gray, a piano duet by Miss Amy Ruth Highsmith and Mrs. Beatrice Fleming, A colonial dance in costume, by 12 students of Mrs. J. S. Pitman, and numbers by the Municipal band, under the direction of Paul Seeds, will also be presented.

FINE WORK, GEORGE

LONDON, June 6.—A collection of miniatures valued at more than $15,000 has been constructed here by George M. Sibbad. Leads traveler with the aid of a fine darning needle. His models include a horizontal engine, inside a cherry stone weighing only five grains, a gold revolver of 78 pieces inside an almond shell, a furnished two-room home in half a Barcelona nutshell, and a golden state carriage weighing only 17 grains.

WICHITA ASKS LEGISLATURE FOR DAIRY EXPERIMENT FARM

AREA'S NEEDS OUTLINED HERE

Kemp and Bullington Leave For Austin

Equipped with statistical and pictorial surveys reflecting the present dairying situation in this county and the possibilities of further development, Orville Bullington, president of the chamber of commerce, and J. A. Kemp, chairman of the board of directors of the City National bank, left Wednesday afternoon at 4 o'clock for Austin, where they planned to ask the house and senate appropriations committees Thursday to establish a state dairy experiment farm at the Wichita Falls state hospital.

The plan to be presented at Austin was laid before the directors of the chamber of commerce at a luncheon Wednesday noon by Mr. Bullington. The herd of registered cattle now maintained by the hospital were described as a good beginning for the proposed experiment farm. The supply of milk furnished by this herd, however, is not adequate to meet the needs of the institution, Mr. Bullington said. Of the 940 acres of land included in the hospital tract, it was said that 400 are good for pasture only. Following a plan suggested recently by Representative Robert Long in an address before the Wichita County Bankers' association, Mr. Bullington and Mr. Kemp will urge that the hospital herd be increased and a state experiment farm opened there.

Preparations of a program for the opening of Lakeside Park on Wednesday, June 12, were delegated to the Junior chamber of commerce, J. L. Randel being named as chairman of the committee from that body. Hubert M. Harrison, manager, was authorized to request the Fort Sill military band of Lawton, Okla., to be here for the occasion.

Discussion of the experiments with flax growing in the Wichita valley by Charles A. Mangold of Dallas indicated that samples of flax grown this spring are to be analyzed by textile experts in the North. Should the quality, and possibilities of quantity production, prove satisfactory, efforts will be made to obtain the location of a branch factory in this community, Mr. Mangold said.

The board of directors authorized the appointment of a committee to cooperate with the chamber of commerce at Denison in an effort to secure a federal dam across the Red River near that city in connection with the Mississippi flood control plan. Such a step would have the effect of making the Red River from Denison to Shreveport, La., a navigable stream, it was said. Government engineers have made extensive surveys of the Red River territory at least as far upstream as Wichita county, according to the report, for use in formulating the flood control program.

Mr. Harrison reported that he has already made several trips into Wichita Falls trade territory in the interest of local manufacturing, industrial and wholesale interests in line with a policy adopted by the board of directors about a month ago. It was announced that after June 15 even more time will be given by the personnel of the chamber of commerce offices to extension work in adjoining territory.

Ship With Passengers Feared Lost in Pacific

TOKIO, June 5. (UP)—The Japanese vessel Ugo Maru, carrying a large number of persons was believed in great danger or lost tonight off the coast of Kamchatka. Most of the passengers were fishermen en route to the fisheries.

The owners of the vessel were advised of a blaze which threatened the ship but many unfounded reports circulated here and the impossibility of communicating with the Ugo Maru prevented confirmation of details.

Candle Falling From Building Hurts Woman

WICHITA, Kan., June 5. (UP)—Mrs. Wilma Lamar was unconscious in a hospital here tonight, her skull fractured by a candle which rolled from a third floor window of a downtown building and struck her on the head. Mrs. Lamar was not believed badly hurt Friday when the accident occurred but lost consciousness the following day. Her recovery was in doubt tonight.

Two New Charges Filed In Oklahoma Robbery

OKLAHOMA CITY, Okla., June 5. (UP)—In an effort to expedite arrest of Charles Merritt and James Hayes, wanted in connection with the $75,000 holdup of an American First National bank messenger here, charges of robbery were filed against them today.

Chief of Police C. A. Becker expressed belief the men would be arrested soon. They were understood to be sought in several southwest cities, including Kansas City, Leavenworth and St. Joseph.

Degrees Conferred On 716 M. U. Graduates

COLUMBIA, Mo., June 5. (UP)—Degrees were conferred upon 716 Missouri university students today during commencement ceremonies in which the doctor of laws honorary degree was given Thomas Franklin Millard of Shanghai, advisor to the Chinese Nationalist governor; E. W. Hinton, University of Chicago law professor and C. W. Sturtevant of New York, member of the Mississippi flood control board.

Steamer Aids Rescues In Flooded District

LEXINGTON, Mo., June 5. (UP)—The government steamer Baldwin tonight aided in rescue work along the Missouri river near here where thousands of farm acres were flooded and farmers forced to move from their homes. Rise in the Missouri had backed up the Grand river, inundating much rich agricultural land in the northern part of the state.

Liquor Ships Are Reducing Cargoes

WASHINGTON, June 5. (UP)—Liquor law vessels clearing from Canadian ports for the United States have decreased their cargoes materially within recent months, figures made public by the customs service revealed today.

An official report prepared for Assistant Treasury Secretary Seymour Lowman shows liquor shipments cleared decreased from 607,102 gallons in March of this year to 200,114 gallons in April. Tentative figures for May show a still further large reduction in liquor clearances.

In the opinion of Frank Daw, acting commissioner of customs, the approximately 75 per cent drop in liquor clearances for the United States is attributable to efficiency of the reorganized customs border patrol at Detroit where most of the liquor is smuggled through. Some comes in also through Buffalo.

Figures on liquor clearances from Windsor, Canada, which is directly across the river from Detroit, show a progressive decrease from 118,000 cases in March, to 71,000 in April and about 50,000 in May, Dow said.

County Pays $16,000 In Road Area Bonds

T. W. McHam, county treasurer, Wednesday afternoon announced the retirement of sixteen $1,000 road district bonds in the fifth annual payment on a $500,000 issue voted in 1924. With the $26,000 worth of the issue re-purchased by the county in April, added to the new payment, the county has met $106,000 of its bonded indebtedness for road district No. 1, Mr. McHam explained, and is ahead of the required schedule of retirement.

The calling in of the bonds in April saved the county $16,280 in interest which would have accrued before their maturity, the treasurer declared. The $16,000 payment this week went to the Hanover National bank in New York.

Testimony Repeated In Second Trial for Adams

CORSICANA, Texas, June 5. (UP)—Repetition of testimony offered at his former trial was given today in the secon dtrial of V. Ray Adams, charged with murder in connection with the fatal shooting of Orville Mathews, Dallas bank employe. The case is being tried here on a change of venue from Dallas county, where the jury failed to agree in the first trial.

A long procession of state witnesses commenced their testimony after Adams pleaded not guilty. The shooting, according to the defense, followed Mathews' refusal to pay Adams a $2,000 election bet stake on the Mayfield-Connally senatorial race.

Galveston Man Is Shot By Jewelry Store Owner

GALVESTON, June 5. (UP)—Viron D. Mitchell, 47, was shot to death today by J. F. Hartwell, 50, owner of the Hartwell Jewelry store, just after Mitchell had returned from lunch.

Mitchell, a watch-maker in Hartwell's store, was shot once through the heart and once in the hand. A third bullet crashed through a show case.

THE WOMAN PAYS

MADISON, Wis., June 5.—According to the Daily Cardinal, student publication of the University of Wisconsin, the average woman student spends $148.80 more per year for her education than the average man. The survey revealed that the entire student body spent $8,555,531 a year, and that the average expenditure was $902.

HOW CAN COMBS LOSE?

HAZARD, Ky., June 5.—It looks like nothing outside of an earthquake could keep Mr. Combs from being elected jailer of this town. Even though he is running against 34 rival office seekers, he can rest easy. Twenty-four of the 35 are named Combs, and their relatives make up the majority of the town's voters.

BOARD RULES FOR WICHITANS

S. B. and C. R. Daniel Upheld in Depletion Claim

The U. S. Board of Tax Appeals, in a decision handed down Wednesday held that S. B. Daniel and Charles R. Daniel, both residents of Wichita Falls, are entitled to depletion for oil property owned by them during 1922 and 1923 on a valuation of $150,000, a Washington dispatch to The Record News said. The commissioner of internal revenue had fixed the value at $50,000.

It was brought out at the hearings that the brothers were given an undivided two-thirds interest in 600 acres of land owned by their parents and later, when the Magnolia Petroleum Co. offered $150,000 for the entire property they purchased the remaining one-third, less a 40-acre homestead reserved, for $80,000. The commissioner had held this was the value upon which he could allow depletion but the board holds that while they were not entitled to depletion on discovery value they were entitled to base it on the value of the entire property, as fixed by the Magnolia Petroleum offer.

Deficiency assessments of $3,681 for 1922 and 1923 against Charles R. Daniel and $5,832 for the same years against S. B. Daniel will have to be refigured on the new basis as fixed by the board, the dispatch explained.

Indian Clergyman Renounces Priesthood

OKLAHOMA CITY, June 5. (UP)—Albert Negahnquet, 52, full-blooded Pottawatomie Indian, today renounced his Catholic priesthood. Negahnquet, who was educated in Rome, was married last Saturday to Mrs. Edith Duncan in Fort Worth, Texas.

Children of Chicago's "gold coast" are less likely to reach the age of one year, than a child of the ghetto, a survey has shown.

KING HEADS LIONS CLUB

New Officers Elected At Luncheon Wednesday

James King was selected by the Lions club Wednesday noon as president for the ensuing 12 months succeeding Dr. R. H. Graham, who has held the office for the last three years.

Other officers named are as follows: R. O. Kenley, first vice president; G. T. Buchanan, second vice president; Dr. Gaines B. Hall, third vice president; Frank Cripliver, financial secretary; Cecil Metzger, corresponding secretary; K. C. Spell tail-twister; Roy E. Carter, lion tamer; Irvin J. Vogel, W. R. Little and W. B. Featherston, directors.

A committee composed of Sidney Gaines, chairman, J. W. Lyle, and Roy E. Carter was appointed to arrange for a baseball game with the Rotary club at an early date. It was suggested also that the Kiwanis and Optimist clubs stage an elimination game, and that winners of the two games meet to decide the service club championship of this city.

Entertainment at the luncheon Wednesday consisted of a reading by W. R. Little Jr., and a singsong led by Leo M. Underwood, George Kerner accompanying.

Credit Grantors To Elect Tonight

New officers for the coming 12 months will be elected by the Wichita Falls Retail Credit Grantors' association at its weekly meeting at the Kemp hotel Thursday evening at 6:30 o'clock.

Thursday's election will mark the opening of the second year in the work of the organization. Alvah Conner is the retiring head.

Besides the naming of new officers, the usual routine business will be given attention, according to Joe Bailey, secretary.

Officers of the organization asked for a full attendance of the membership Thursday evening.

Optimists Plan Formation Of Junior Club for Boys Here

Organization of a junior Optimist club among working boys of the city will be effected in the near future, according to plans adopted by the Optimist club in its weekly meeting at the Kemp hotel Wednesday noon.

Following the establishment of the first such junior club, it was said, others will be formed as the work develops.

Personal contact between men and boys with whom they are working was named by Frank B. Creighton, scout executive, as the most effective means of influencing their development.

Ira D. Brown, Rev. Patrick Henry and Thomas R. Glass were named as voting delegates of the local club in the Optimist International convention which is to be held in Tulsa June 19 to 22, inclusive.

Joel MacGregor conducted a club singsong, and Wilson Gray entertained with a saxophone solo.

There were 67 births and 26 deaths, indicating that during May the cradle has been 41 steps above the grave.

SUIT INVOLVES OIL LANDS

$60,000 Asked in Claim In U. S. Court

Damages totaling more than $60,000 and title to a 20-acre Wichita county oil lease are sought in a suit filed by Earl Abraham in the United States district court here Wednesday. The Wichita Petroleum company, the General Oil company, and the National Petroleum company are named as defendants in the petition, transferred from the 89th district court where it was first entered.

The plaintiff claims a seven-eighths' interest in all the oil and gas taken from 20 acres out of the Lewis Powell survey No. 820 during the period since Sept. 1, 1925. Three producing wells identified as the property of the three defendant companies are specifically named in the eight separate damage claims included in the petition. The claims aggregated $61,144.

JUDGES MEET SET JUNE 22

Date of Convention Here Again Changed

The meeting of the county judges and commissioners association for the 13th congressional district, postponed on May 25 because of heavy rains, is to be held in Wichita Falls on June 22, according to final word received Wednesday from from Judge H. N. Dearmore of Montague county, president of the organization.

The date for the gathering here had been tentatively set for June 15, but in a letter addressed to Judge John P. Marrs, the president suggested the further postponement in order not to conflict with the meeting of the Texas Press association scheduled for June 13, 14 and 15.

Judge Marrs announced Wednesday that the program on June 22 will follow the same outline as previously announced for the meeting last month.
