The Gay Philosopher

By J. W. S.

THE DEER HUNTING season opens up Monday, and a good many local sportsmen are getting their shooting irons ready. And all indications point to a successful season, as the deer crop is reported to be very good. Late summer rains helped the outlook.

Some ten or twelve local men are completing plans for their 4th annual hunting trip out to the Alpine country. Those planning to go this year are A. D. Anderson, Carl Lamb, Albert Hansen, Zan Burroughs, I. J. Henson, Pete Dunning, R. E. Grantham, Joe Ben Hammrick, Bob Sanford of Dallas, and Bill Tyler and Jack Anderson of Rising Star.

They plan to take two cooks and camp equipment for a 5-day stay.

THE CISCO Garden Club has advanced the date for their Pilgrimage to Tuesday, Nov. 17. The event was originally planned for Nov. 21. It will be held Tuesday afternoon at the Philpott Florist from 2:30 to 4:30 p. m. with Mrs. W. D. Scarlett, Mrs. Marshall Jones and Mrs. Shy Osborn as hostesses.

GLAD TO SEE Mr. John Dunn out again. He underwent an operation a week or so ago at Fort Worth and has been doing splendidly. He expects to be fully recovered in another few days and is already back to work on a most-of-the-time basis.

SAW JIMMY Cheshire in town Saturday. He's working up at Grand Prairie and reports that the U. S. Army has extended him an invitation to join up, which he will do shortly . . . Mr. E. R. Bibby of the Flamingo Courts brought down a beautiful white rose — a sample from his fall flower garden. It's huge and attractive.

MR. W. B. STARR showed us a letter from the state office of the American Friends Society (Quakers) to say how very grateful they are to the people of this area for contributions in the recent Korean benefit drive. Some 300 pounds of clothing and $43 in money was donated locally, and Sunset Motor Lines hauled the clothes to Austin without charges. Mr. Starr, the local chairman, added his words of appreciation for help.

DEAR EDITOR: Yesterday evening, I returned to my car to find a small red ticket nestling under the windshield wiper. This morning, I called at the mayor's office as the ticket directed. I was met with courtesy, understanding and leniency. This is just one more thing that has made a "new comer" love Cisco.

The above letter came in our mail Saturday morning.

MR. B. A. BUTLER reports that local business firms will begin giving out tickets on November 23 for the Christmas turkey program. Plans call for giving away a flock of turkeys every Wednesday afternoon in December — before Christmas. Business firms may obtain their supplies by dropping in at the Chamber of Commerce office, Mr. Butler says.

THE CofC MANAGER says they can now predict a sellout for the R. G. LeTourneau banquet here Saturday night, Nov. 21. More than 100 tickets were sold the first day they went on sale, and over 200 had been sold Saturday. You can get yours at the First National Bank or at the Chamber of Commerce office . . . Mayor G. C. Rosenthal reports that he and Mrs. R. plan to depart early this week for a vacation trip to Louisiana and Mississippi.

THE FOLKS UP at Mineral Wells Friday night were of the opinion that Comanche's Indians were quite lucky when they won over MW a week ago by an 18-14 score. They indicated that the powerful Mountaineers generally out-played Comanche in every way except scoring . . . . A good crowd from Cisco attended the game, and our Lobo Band won a lot of applause with a splendid half-time show . . . The Loboes go to Comanche next Friday night to end their season . . . See by the papers that Stephenville beat Weatherford last Friday night in their conference game.

COME WHAT MAY—Autumn weather can be deceptive, and Sayam Zar Prak was taking no chance on it in London. The wary Siamese cat was an entrant at a cat show in the British capital, and while not on exhibit he rested up this way for his next appearance.

Opening Of Beauty Bar Announced Here

Mrs. G. V. Cunningham has announced the opening of The Beauty Bar at 903 West Seventh and has invited Cisco women to visit her new shop.

Mrs. Cunningham moved to Cisco recently when her husband was transferred here by the Halliburton Oil Well Cementing Company. She obtained her operators license in 1940 and recently took a refresher course. She has studied for her instructors examination.

Fish Hatcheries Discourage Ducks

AUSTIN, Nov. 14. — The annual hassle to convince migrating wild ducks that state fish hatcheries are exclusively for fish is now under way, acmording to the Chief Aquatic Biologist for the Game and Fish Commission.

He said practically all of the thirteen state hatcheries have been invaded again this fall.

Some of the traveling waterfowl become a problem, especially the diving ducks which penetrate the bottom and sides of the ponds. These insistent ducks sometimes feed on vegetation along the walls and puncture the sides, causing seepage.

The Chief Aquatic Biologist said the ducks don't bother the fish, but that some of the touring shore birds and black bass and other species.

He said a good word for the geese. They may drop in for a short stop at an isolated tank but usually get up and get going without making a nuisance of themselves.

Strong Mineral Wells Team Defeats Lobo Eleven, 37 to 0

The fine running of Don Burris, Frank Bevers and Cleve Thomas, plus a heavy and mobile forward wall proved too much for the Cisco Loboes in Mineral Wells Friday night as they fell before a good Mountaineer eleven by a 37-0 score.

For a quarter and a half the Loboes fought the heavier and more experienced Mountaineers on even terms, but about eight minutes deep in the second period Bevers broke loose for 65 yards to start a parade of touchdowns that kept the Loboes off balance for the remainder of the game. In the same period, some two minutes later, Cleve Thomas, fullback, went 75 yards to score.

During the third period the Mountaineers put across three more touchdowns, one on a pass, one on a plunge from the one and one on a blocked punt. With the first team still in late in the fourth quarter, Mineral Wells put across the final tally on a quarterback sneak from the one.

The fast charging Mineral Wells line kept the Loboes off balance during the game and the offense was never able to get going. Cisco's only threat came in the second quarter when they worked the ball to the Mountaineer 25 only to lose it on downs. The Loboes were held to four first downs and 90 yards on the ground. It was the most decisive loss of the season for the Loboes, who were unable to reach the peak of performance.

Comanche won the AA-9 championship this week without playing a game. Stephenville eliminated their only threat by downing Weatherford 13-6 Friday night. The Loboes wind up their season Friday in Comanche in a game that will have no bearing on the race.

The Loboes came out of the game with no serious injuries. Buck Whitehead, who played an outstanding defensive game, was hurt on two occasions when he threw vicious tackles, but was able to continue playing. His play and the running of Marcus Gallegos were the highlights of the game for Cisco fans.

Cisco won the toss and elected to receive. Kent Davis took the opening kick on his own 15 and returned to the 34. Plunges by Pippen and Davis netted a yard and the Mountaineers recovered Reynolds' fumble on the Cisco 40. Thomas and Bond carried to the 15, but a holding penalty set the Mountaineers back to the 30. Bevers picked up six to the 24 but a penalty on the next play set them back to the 39. Thomas and Burris carried to the 12 but the Loboes took over at that point on downs.

In three plays Gallegos carried to the 48 for first and 10. Two plunges and a pass picked up one yard and Smith dropped back to kick. Knight broke through to block the kick, and Reasoner fell on the ball at the Lobo 25. Bevers and Burris carried to the 12 for first and 10. Three plunges netted eight yards and on the fourth down Jim Reynolds stopped Bevers two yards short of the first. Tom Reynolds picked up eight and Gallegos carried to the 22 as the first quarter ended.

The Mountaineers held for downs and Smith got off a short kick to the Mineral Wells 45. Thomas returned to the Cisco 45. Bevers, Thomas and Burris carried to the Lobo 25 where the ball went over on downs. Three plays failed to pick up a first down and Smith kicked to the

Important Oil Strike Appears As Mangum Wildcat Test Flows

Potential Due To Be Taken Monday For Ranger Well

An important oil strike for Eastland County appeared in prospects Saturday after a wildcat test near Mangum, seven miles southeast of Cisco, flowed in completion tests. The well is the Clark P. Chandler et al, San Angelo, No. 1 Ethel Hittson Coats.

Importance of the strike was given impetus with the announcement of plans for five offset locations in the same general area. Drillsite for the No. 1 Coats is one mile southwest of Mangum in the west central part of the county — 330 feet from the north and west lines of the southwest quarter of Section 9, Block 3, H&T Survey.

The oil flowed from the Ranger sand, accoding to information here. The pay zone was topped at 3,309 feet and a drill stem test was run after cutting 18 feet of sand. The drill stem test, which was run early last week, showed flowing oil.

After pipe was cemented and allowed to set for 72 hours, completion work was begun Friday afternoon. The well was opened and the plug was drilled. Oil then flowed for one hour and ten minutes into tanks before being shut-in. The well was opened again Saturday morning and flowed for 20 minutes.

Before running a potential test, probably Monday, the well was to be treated with 500 gallons of mud-acid. In the initial tests, the well had 1,374 pounds of bottom hole pressure and 400 pounds of flowing pressure.

Although a potential test had not been run, observers termed it a "big well." One oil man called the well "the most important strike for the county in several years."

It was understood that the Chandler company has a block of 2,000 acres in the vicinity of their discovery well. Their No. 2 Coats is located about 1,500 feet due east. Nearest production is some two and a half miles away — McElroy Ranch Company's Wright Ranch lease and an Ellenberger well at Carbon.

Original plans called for a Hickory sand test to 5,200 feet, and it was understood that one of the offset tests would be carried to that depth to satisfy terms on the contract.

BEST AND WORST GOVERNORS

The nation's "best" governor is Thomas E. Dewey of New York, according to a poll of newspaper and radio-TV correspondents who covered the recent Governors' Conference in Seattle. The results of the poll, conducted by two reporters from Pageant Magazine who canvassed correspondents from all over the country, were published in the current issue of the magazine. They show the press representatives' answers to the following questions:

1. Who are our best governors?
2. Who are our worst governors?
3. Which are Presidential material?

Runners-up in the class of "best" governors were:

Second: Earl Warren, Republican of California, who has since been appointed Chief Justice of the Supreme Court.

Third: Alfred Driscoll, Republican of New Jersey, who is retiring from office at the end of this year.

Fourth: Allan Shivers, an "Eisenhower Democrat" of Texas.

Fifth: Frank Lausche, Democrat of Ohio.

Dewey's triumph was solely on the basis of being the ablest administrator. Many correspondents were outspoken in their personal dislike of him — but still they gave him their vote.

Only one out of every four newsmen queried felt qualified to answer the question, "Who are the five worst governors?" One correspondent maintained that there are "none so bad as to be obviously worst" while another took a grimmer view: "Looks like a 48-way tie."

It is significant that the majority of governors named on the "worst" list also appeared on the "best" list — but of the 12 who received one or more votes as "worst," only five got that label exclusively, failing to get a single nomination in any of the "best" categories. They are:

1. John S. Fine, Republican, Governor of Pennsylvania since 1951.

2. Herman Talmadge, Democratic Governor of Georgia since 1948.

3. Charles Russell, Republican, Governor of Nevada since 1951.

4. Edwin L. Mechem, Republican, Governor of New Mexico since 1951.

5. Edward F. Arn, Republican, Governor of Kansas since 1951.

An always-interesting speculation — what governor is the best presidential bet" — provoked a variety of answers when Pageant pollsters queried political reporters at the Governors' Conference. One out of every two queried stated flatly that there wasn't a governor in office they'd want to see in the White House.

The remaining fifty percent gave the nod to the with Warren finishing first, Dewey second. The newsmen's chief reason for putting Warren ahead of Dewey was their conviction that Dewey has proved twice that he cannot win.

Mountaineer 41. A penalty put the ball back to the 35 and from that point Bevers ran 65 yards for the first score of the game. Knight failed to convert.

Mineral Wells kicked to the Cisco 30 and Lipsey returned the ball to the Mineral Wells 44. Gillespie and Davis carried to the 20 and Hayes fumbled on a handoff. Wampler recovered for the Mountaineers on the 25. Cleve Thomas broke through the line at that point and went 75 yards for the second touchdown with five minutes remaining in the second quarter. The remainder of the first half was played on even terms.

Mineral Wells took the kickoff on the 20 and returned to the 41. Three plays lost 18 yards and Burris kicked to the Cisco 48. Reynolds, Davis and Gillespie carried to the Mountaineer 20 where the ball went over to the Mountaineers on downs. On the first play Thomas went to the Cisco 26. Bevers and Thomas carried to the one and Thomas carried over to bring the count to 18-0. After an exchange of punts Mineral Wells had possession of the ball on the Cisco 47. A pass play and two runs put the ball on the Lobo 14 and at that point Cardwell threw to Bevers who caught the ball in the end zone to bring the score to 24-0. The final touchdown in the third period came when Floyd Reasoner, Mountaineer end, blocked Arvell Hise's punt on the Cisco 20, and picked up the ball to score. Smith split the uprights for the only point after touchdown of the game.

Late in the fourth quarter Cardwell scored the final touchdown of the game on a quarterback sneak over center from the one to bring the count to 31-0. The game ended with the Mountaineers going to the air to attempt to run the score higher. Alert defense held them on the mid field stripe.

IT'S TRADE-IN TIME FOR A BETTER DEAL
Want top allowance on your present car? See us this week for a deal that will raise your pride. Now is your chance to drive a moneysaving bargain.

It raises your pride *and races your pulse*

You feel it the moment we turn over the keys to you.

You now own the handsomest "hardtop" around — a Buick Riviera — and the warm glow goes all through you.

But not alone for the racy beauty of the car.

You feel that prideful surge, too, from the fact that here you bought yourself a whale of a lot of automobile — a whale of a lot of room and power and soft luxury and ride steadiness—for a lot less than you expected.

For the automobile pictured here is a Buick Special Riviera—*which means it delivers locally for just a few dollars more than the "hardtop" models of the "low-price three."*

But it's only when you drive away in your bounteous new beauty that the real thrills begin and the satisfaction deepens . . .

When the highest Fireball 8 power in Buick Special history whispers away the miles with effortless ease . . .

When Twin-Turbine Dynaflow* gives you instant getaway response with silken smoothness, and the Million Dollar Ride levels every inch of your way . . .

When the deep wide seats cradle you in spacious comfort and the great glass areas give you visibility practically unlimited.

Surely you ought to look into this great Buick that's so prideful to own, so thrilling to drive, so easy to buy.

We'll be happy to arrange a sampling. Can you visit us this week?
