English Theatres Are Bought By Levelland Man

After nearly twenty years in the show business in Tahoka, Mr. and Mrs. D. B. English Tuesday turned over the management of the Ada and English theatres to Wallace B. Blankenship of Levelland, a life-long friend and operator of 12 other movie houses on the South Plains.

Ted Waggoner arrived here Tuesday from Ralls, where he has been in charge of one of Mr. Blankenship's shows, to assume charge of the English theatres. Mr. Waggoner is an experienced show operator, having been with the Interstate chain before joining Mr. Blankenship. Though the policy of operation will be changed, the new management says the theatres will be a continuation of the same high type manner in which Mr. English has operated the business.

Mr. Blankenship, or "Wallace," as he is better known, is owner and general manager of Wallace Theatres, an organization operating theatres in Levelland, Seagraves, Sundown, Morton, Ralls, Lorenzo, and Ropesville, and now Tahoka. He is assisting in management of the 14 theatres by Jimmy Thornhill of Seagraves, vice-president and partner in the organization.

Sale of the English theatre business here included the two shows now operating, the buildings, the Ada being one of the most modern small-town theatres in West Texas, and the old Ada theatre building adjoining Tahoka Drug.

Mr. and Mrs. English are keeping their home place in North Tahoka, and their many friends are glad to learn that they will continue to make this their home.

The Englishes, then operating a theatre at Lamesa bought the old Star Theatre on Main Street in the fall of 1924, which they have remodeled from time to time. Later, they built the new theatre at the beginning of the "depression." But after a few months the new show closed, and they bought half of the old Harris-Applewhite building and opened a new show there. With the return of prosperity, they reopened the new theatre. Both shows are equipped with the latest and best in sound equipment and furnishings of fine quality.

Mr. English has always operated his show business on a high plane, which the people of the town have appreciated. The shows have been assets to the town, drawing business here from neighboring towns and communities.

A few months ago, Mr. English's health became such that he could not actively manage the shows, and Mr. and Mrs. Maurice Small, the latter his daughter, have managed the shows, maintaining his policies. He states that he regrets to depart from the show business here, and would not do so at all except for his health.

Many Changes In Theatre Policy

Changes in names of Tahoka theatres, the opening on Sept. 1 of the old Ada, and general remodeling of all three shows, was announced this week by Wallace Blankenship and Jimmy Thornhill, new owners.

The New Ada will be changed to the Rose Theatre, named after Rose Blankenship, wife of Wallace Blankenship, and the English will be renamed the Wallace Theatre. These names are a tradition with Wallace Theatres in each town where the company operates more than one theatre. The old Ada will be renamed the Ada English after both Mr. and Mrs. D. B. English as a gesture of friendship and good will between the present and the former owners.

The Rose, formerly the Ada, will receive a new theatre sign, and the projection room will be remodeled, including a complete overhaul job on the machines and sound. This theatre is already one of the finest in this section of the state, and (Cont'd. on page 6.)

Invasion News Has Interest of World

The invasion is on! That news, flashed to the world by radio in the wee hours of Tuesday morning, has held the attention of many peoples in many lands.

With possibly a hundred or two, possibly more, Lynn county boys in England, many of them have doubtless taken part in the invasion.

Daily papers and the radio networks are levoting most of their time and space to the long-awaited event.

Three Elevators Under Construction

Three grain elevators are now under construction in Tahoka.

Jim Purleson's new elevator is now well advanced toward completion, though it will be several weeks yet before it will be ready for service. With four bins having a combined capacity of 5,100,000 pounds or 102,000 bushels of grain, this will be the largest elevator in Tahoka, even larger than the one Mr. Burleson built last year.

The bins extend to a depth of 27 feet below the surface of the ground, and the top of the elevator will be 90 feet above the surface. The other dimensions are about 34 by 34 feet.

V. F. Jones, former county agent of Lynn county and for the past few years serving in the same capacity for Lamb county, is building a smaller elevator here, just east of the railway tracks north of the Tahoka-Post highway. Its dimensions are 28 by 18 feet and 36 feet tall.

Mr. Jones has resigned as county agent of Lamb county, and expects to move here about July 1st. His residence in Lamb county has been at Amherst.

On Thursday of last week excavation work was begun for the construction of an elevator by the Farmers' Co-operative No. 1 on a site just west of the railway tracks (Cont'd. on last page)

Negro Is Victim Of Cutting Scrape

Tommy Anderson, colored, is in a critical condition as the result of a cutting affray late Saturday afternoon in the Negro section of town. John B. (Jim) Griffin is out on bond charged with aggravated assault as a result of the affray.

Anderson, who is alleged to have started the fight, received knife wounds on the left arm, neck, and a stab wound which penetrated the left lung, causing it to collapse. It was feared he might not live.

Charges were filed against another colored gent early Sunday morning after he had allegedly beaten and kicked his wife.

Charley Malone, another Negro, has made bond for the fourth time, Sheriff Sam Floyd reports, on charges of possession of liquor for purpose of sale. On a recent raid made on his premises, Malone is said to have poured a quantity of liquor in a bucket of slop. Officers, not to be outdone, however, took possession of the bucket and its contents, and an analysis of the fluid showed a strong presence of liquor.

PYTHIANS ARE GOING TO LAMESA TONIGHT

Many local Knights of Pythias are going to Lamesa this afternoon and tonight to attend a great Pythian occasion there. Many Lubbock Pythians are also scheduled to be in attendance and much degree work and a lot of fun is in prospect, the Knights say.

Miss Rae Fern Pennington, who underwent a serious operation in the West Texas Hospital in Lubbock about three weeks ago, is now recovering satisfactorily at the family home here, having been brought home last week. She is the daughter of Mr. and Mrs. Garland Pennington.

Tahoka War Veteran Is Recovering

Battle casualties from all theatres of war now convalescing at McCloskey General Hospital, Temple, spend leisure time on their favorite hobbies in the occupational therapy department, preparing for their return to civilian life. Two of these men are shown here.

Pfc. Edmund V. Macha, left, of Rt. 4, Tahoka, and Pfc. Weldon Stokes, Button Willow, Calif., spend much spare time in the Hospital carpentry shop. They expect to return to farming eventually.

Pfc. Macha participated in the invasion of Africa and later in the battles of Tunisia as a truck driver with the 1st Armored Division. He received a broken leg and jaw when an anti-personnel mine exploded about 15 feet from him. He wears the Purple Heart.

Pfc. Macha's companion was wounded in Sicily, and likewise wears the Purple Heart. LATER: The News was advised Thursday noon that Pfc. Macha would be one of the two war-wounded soldiers who is to speak here next week.

Paying Oil Production May Have Been Found In Test on Lynn-Garza Line

First oil production within trading range of Tahoka is believed to have been found Sunday in the Honolulu and Devonian No. 1 Payton, located just over the Garza county line, east from Gordon, Lynn county. The test is 18 miles from Tahoka.

A report from the well Wednesday stated that operators were continuing their swabbing operations. Packer had been set at 3,696 feet, below a pay zone from 3,546 to 3,566 feet.

With packer set at 3,520 feet, 170 barrels of fluid had been recovered in twelve hours, 62 percent of which was sulphur water and 38 percent pipeline oil. That would indicate a possible production of 64 barrels in 12 hours or 128 barrels per day.

Of course production might settle down to a much smaller amount than this but on the other hand, acidizing the hole will more than likely greatly increase the production.

The well was contracted for a depth of 6,000 feet, but operators were reported to be undecided whether to complete at present depth or drill deeper.

This well is situated less than a half mile east of the Lynn county line, and the prospects are that it will greatly stimulate drilling activities in this and Garza counties.

Rig is being set up and drilling will start at an early date on the Texas Company test about seven miles southeast of Tahoka on the Roy V. Tunnell farm. Contract is for a 6,500 test.

The Phillips Co. Gray No. 1 ten miles east of Tahoka is still "fishing for tools at about 4,300 feet.

Hen Scratches Up One Dollar Bill

T. R. Cathcart, custodian of the courthouse, is also custodian of a stray white Leghorn hen just now that he thinks is a gold mine or sumpin'.

This hen made her appearance on the courthouse lawn a few days ago and proceeded to make herself a nest under the shrubbery. Monday morning T. R. went out to collect and found a perfectly good one dollar bill in the nest. Besides, she lays an egg most every day. Think he intends to set the eggs and see if he can raise up a whole brood of hens that will lay one dollar bills.

Mr. and Mrs. Carl Griffin and Carl Jr. left Friday for Bryan where Carl Jr. was to enter the summer term of Texas A. & M. College. Mr. and Mrs. Griffing expected to visit relatives in Dallas on their way home.

Fifth War Bond Drive Starts Monday; Free Picture Show and Talks By Two War-Wounded Heroes Are Scheduled

.37 Rain Fell Here Wednesday Night

Rain Wednesday night in Tahoka measured .37 inch in the Government gauge kept by the News. Overcast skies Thursday gave prospects of loosing more moisture on the Plains.

Though most of the county had received enough rain to get by on for a while, most farmers welcomed this rain, while a few were in dire need of rain.

Changes Are Made In Ration Boards

As a result of the resignation of Judge C. H. Cain, chairman of the Lynn County War Price and Rationing Board, a few days ago, the board has been re-organized with D. W. Gagnat as general board chairman.

Mr. Gagnat's duties, as explained to The News by a representative of the district office at Lubbock, will be to advise with and co-ordinate the work of the various panels.

Only change in the Tire Panel in the re-organization of the rationing set-up here, is the appointment of W. O. Thomas as chairman. Other members of the Tire Panel are Lynn West, Howard Henderson, Oscar Roberts, W. W. Caswell, and W. L. Gardenhire.

The Gasoline Panel remains the same, with A. M. Cade, chairman, and Luther Thomas, S. L. Williams, J. R. Hamilton, and W. C. Saula being the other members.

Scope and membership of the Price Panel has been enlarged. Jim Burleson became the general chairman.

The Food Panel is composed of Garland Pennington, John Simms, and Walter Anglin.

New panel members are: Restaurants: Borden Davis, Cliff Lambert and D. S. Waldrip.

Food Stores: Frank Liddell, Wash Hickerson, and Jim Banister.

Services: Henry Maasen, Perry Howard, and Harve Smith.

Textiles: Mrs. W. O. Thomas, Mrs. Joe Thompson, and Fred Bucy.

Much Interest In Airways Routes

A fight is well under way for post-war feeder airlines that will cover most of West Texas, serving practically all the county seat towns.

At least four companies are now making application to serve this area with Amarillo and Lubbock as their central points, these being one major company, Braniff Airways, Inc., and three smaller ones, Southwest Airways of Fort Worth, Lindsey Nunn and associates, and Robert Houck and associates, both of Amarillo.

The News is informed that all of these companies, except Braniff, include Tahoka on their proposed routes. However, Braniff, is the company which seems to have the inside track. At any rate both the Lubbock and the Amarillo chambers of commerce are backing the Braniff application.

Many Tahoka people are wondering why Lubbock and the Braniff officials are slighting Tahoka, and propose to ask that this city also be included in their application.

MEETS BROTHER IN AFRICA

Sgt. Roy Hicks, formerly of the local Piggly Wiggly, who is in North Africa, recently unexpectedly met up with his brother, Cpl. John Edwin Hicks, also in North Africa, according to O. L. Kidwell.

No doubt, the boys had a joyous reunion.

Jan and Deenie Edwards, daughters of Mr. and Mrs. E. R. Edwards, are visiting relatives in Bell and Williamson counties this week.

"Invasion Punches," a 50-minute battle-front picture with sound effects made by the U. S. Army and talks by two war-wounded heroes, in person, fresh from both theatres of war, will open the Fifth War Loan drive in Lynn county.

The show will be absolutely free to everyone. The picture will be shown in Tahoka on the court house lawn Monday night at 9:00 o'clock, in O'Donnell at the theatre at 6:30 Tuesday evening, and in Wilson at 9:00 p. m. Wednesday night.

The two war-wounded heroes are from McCloskey General Hospital at Temple, where they are recuperating from wounds received in action. They will tell some of their experiences in battle. The two boys are being brought here by the Army and the local War Bond committee.

The picture, "Invasion Punches," will be furnished by the Army, and shows captured German pictures of their own English Channel fortifications, enslaved labor of Europe working under the Nazi yoke in old French seacoast towns. It contains the usual story of a B-24 Liberator flying to the rescue of a Liberty ship, a vivid record of the taking of Cape Gloucester and Arawe, the wear and tear of mud on our men and equipment, portable oil lines in Italy, and Piper Cubs in action.

This stark, jolting film now daringly reveals the gentle art of rugged hand-to-hand combat.

No high-pressure bond sales methods will be used at the meeting, Chairman Truett Smith promises, but the show is brought here as a public service. However, it is believed every person attending will be inspired to do his utmost in the 5th War Bond drive.

Name Committees For Bond Drive

Truett Smith, Lynn county chairman for the Fifth War Loan drive which starts Monday and continues for one month, has called a meeting of all Lynn county community committees to meet in the county court room in Tahoka Saturday to map plans for the drive. METHODIST CHURCH

The doors of the Church have been open this week for all people to enter the Church and meditate and pray. Many have taken opportunity to remember the boys who are in the invasion and others who are in other battle zones. Tuesday night special prayer services were had for our boys. The church doors will be open daily for all who care to enter and pray.

The Vacation Church School closed Wednesday, and at night an exhibit of some of the things done during the 10 day school was on display. Also, songs and many other things were included in the program. Under the direction of Mrs. James Clinton as dean, the school was a great success. Some 75 attended regularly—very few falling out. We were very happy to have in this school children from other churches. The corps of teachers was loyal and capable and we appreciate them greatly. The school was a success from every angle.

Sunday morning the pastor will discuss the subject: "Is There No Balm in Gilead?" or "Is There No Cure for the World's Ills Now?" Anxiety is in every heart today and what is the remedy that will still the tempest of an upset world? We shall be glad to have you worship with us, parents, wives and all who have loved ones in the war today.—The Pastor.

These are distressing times. More is being said about prayer than ever before. People have come to the point that they realize that it is not within their power to direct their steps, therefore they are calling on God Almighty.

Turf to and study carefully the following verses: Jno. 9:31. "We know that God heareth not sinners: but if any man be a worshipper of God, and do his will, him he heareth." John says God hears prayer if any man be a worshipper of Him and does His will. Again we read, Prov. 28:9, "He that turneth away his ear from hearing the law, even his prayer is an abomination." In the will and law of the Lord there are things to be obeyed that we might be justified in his sight. Salvation is promised to those that believe that Jesus Christ is the

To the People of this Community

The next time you write to your fighting man or fighting woman tell him or her what you have done about the Fifth War Loan. You can take the word of General Eisenhower that your man or woman in uniform will be deeply interested.

Your War Bond buying is a good tip-off to them about the state of affairs in your home. The headlines in this newspaper or the progress of the drive, the items about participating individuals, the character of the Fifth War Loan special events—all these things reflect the morale back home.

Do you like to read a sorry headline about the invasion fronts? Our fighting forces, made up of individuals with the same reactions to good and bad as you, will not be heartened to read: "Fifth War Loan Lags."

Your silence in your letter about your part in the Fifth War Loan will mean non-interest, perhaps non-participation to the recipients. It's up to you to make your letters cheerful. Write today. Write often. Write about your war work, your war support. Double your best previous War Bond buying record and then shout it to the house tops—just to that special service man.

THE EDITOR.

The long expected invasion of Hitler's Fortress Europe was begun early Tuesday morning. It is hoped that it will indeed prove to be the beginning of the liberation of all the countries now under Hitler's heel. The American and British forces are yet a long way from Berlin and they may encounter many bitter struggles before they get there, but they are on their way. That war spirit in the German people is going to be thoroughly crushed this time, and we predict that this will be the end of dictators and wars of pillage and conquest in Europe for at least several generations. May it be so. In the meantime, all honor to our brave boys on the invasion fronts.

Dorothy Thompson, news commentator, Norman Thomas, leader of the Socialist party, and other elements in this country are chiming in with the Pope of Rome in the suggestion that peace terms should be proposed before Hitler and the Nazis are thoroughly licked. War is a terrible thing and all of us hate it, but we did not start this war. It was started by those international thugs and robbers, Hitler, Tojo, and their henchmen, and it must be continued until they are crushed. What would you think of the peace officers and the people of your town if they should propose peace to a bunch of bandits who had raided your town and were still shooting while undertaking to escape with their loot? We don't think red-blooded Americans would think of quitting at that stage of the game.

tion of the inhabitants of the city from the cruel grasp of Hitler and the Huns may not have been an event of as much military and strategic importance as the capture of Paris or Vienna would be but the psychological effect was necessarily tremendous. The hysterical joy with which the American and British soldiers were met by the Roman citizens is convincing evidence of the hatred and aversion with which they regarded the Nazi oppressors. The crushing blow delivered by Allies, the vast number of prisoners taken, of German dead left on the battlefields, of fighting equipment captured or destroyed, and the entire German army in retreat, must have brought consternation to many of the German people and a sickening pain to that arch fiend of modern times, Adolf Hitler.

I remember from school.

I once had to do a composition about the world's greatest invention being wheels. Just think of gear-wheels, water-wheels, and especially all the wheels for transportation! But right now the greatest thing of all, I'd say, is to keep wheels going; keeping your car in service, for instance. There's this and that to help you. There's one motor oil and another. Now from what I know, the explosions in any engine must produce acids, which brings up the bright idea of safely OIL-PLATING your engine's insides with Conoco Nth motor oil. You want to prevent damage from acids... internal corrosion! Some things are specially good at fighting corrosion, and OIL-PLATING comes in that class. Even chromium plating, just for comparison, couldn't stay closer to working parts than this protective OIL-PLATING. It battles corrosion, so as to help you preserve your transportation as soon as you switch to Conoco Nth oil.

Theatres . . .

(Cont'd. on last page)
with a few minor changes will be "The Theatre Perfect."

The Wallace Theatre, formerly the English, will receive a complete face-lifting, including a new theatre sign, new theatre front and marquee. The inside will be completely refinished and all equipment repaired.

The Ada English, formerly the Old Ada, will be remodeled from the front to back door. This work will include complete remodeling of the entire building, with a new front, theatre sign, box office and new lobby design, new seating arrangement, new screen, and complete booth equipment including both picture and sound machines.

Applications for materials have already been made and work on the theatres will start as soon as they are approved.

Matinees and Prevues For Theatre Patrons

The new management of the local theatres announced today that starting Monday, the Wallace, formerly the English Theatre, will start daily matinees. The theatre will open at 1:30 each afternoon and will show continuously with the box office closing at 10 p. m., and a complete show showing after the box office closes. There will be a prevue each Saturday night at 11:30 showing the picture booked for Sunday and Monday. The prevue picture for the first prevue on Saturday night is "Sailor's Holiday" starring Arthur Lake and Jane Lawrence.

The Rose Theatre, formerly the Ada, will open each evening at 6:30 with the box office closing at 10:00, and a complete show will be run after this time. The Rose will also run a prevue each Saturday night on the picture showing on Sunday, Monday and Tuesday. The prevue this week will be "Cover Girl," a technicolor feature starring Rita Hayworth and Gene Kelly.

Better Pictures For Tahoka Theatres

Better pictures will be brought to Tahoka as a result in the change in the booking policies. Ted E. Waggoner, new city manager of the Wallace Theatres, which maintains a picture booking office in Dallas, where bookings for the entire Wallace circuit are handled.

Andrew Sisk, who for the last ten years has been connected with

Dallas motion picture film exchanges, has been head of the booking department for three years, and will assume the booking of the local theatres within the next month.

With an office maintained in Dallas for contact with the exchanges and an office in Tahoka for contact with the patrons daily, better results are obtained.

Old Employees Will Remain With Shows

There will be no change in staff of employees at the theatres in Tahoka, now being operated by the Wallace Theatre Circuit, the management announces.

At the Rose, formerly the Ada, the employees are Lane Jones, chief projectionist; Kenneth Reed, student house manager; and Bobby George Oliver, popcorn machine attendant.

At the Wallace Theatre, formerly the English, Bobby Weaver will remain as chief projectionist; Joe King, student house manager; and Billy Joe Oliver as the popcorn machine attendant.

Ted E. Waggoner Is Manager of Theatres

Ted E. Waggoner has been named by Wallace B. Blankenship as the city manager for the theatres in Tahoka now owned and operated by the Wallace Theatre circuit of Levelland.

Waggoner, although a young man, has had 19 years experience in show business, starting out in Ranger in 1925 as doorman and clean-up boy, and building up to the present position through the management of theatres all over the state.

Mr. Waggoner is married and has one child, an eight year old daughter, Suzy. Mrs. Waggoner is managing a theatre for Wallace Theatres in Ralls, however she will move to Tahoka to join her husband within two weeks, and will take an active part in the operation of the local theatres.

New Theatre Owner Native of West Texas

Wallace Blankenship, new owner of the theatres formerly operated here by D. B. English is a real native of West Texas and the South Plains.

He was reared near Ropesville at the northwest corner of Lynn county. After graduating from Texas A. and M. College, he started in the theatre business in a small store building in Ropesville twenty years ago. One year later, he moved to Levelland and built the old Rose Theatre, in which he ran the machines and his wife sold the tickets.

In 1925, Mr. Blankenship built the Wallace Theatre and began what is today the Wallace Theatres composed of 14 theatres operating in Levelland, Seagraves, Morton, Sundown, Ralls, Lorenzo, Andrews, Ropesville, and Tahoka.

Although no longer active in the box office, Mrs. Blankenship is still a close business advisor her husband, and in each town where the circuit operates more than one theatre they are named the Rose and Wallace Theatres. Mr. and Mrs. Blankenship are assisted in their work of directing the entire circuit by two sons, W. B. and

Veterans of War In Italy, Africa Will Talk At Meeting

The two war-wounded soldiers, to appear for talks in Tahoka, O'Donnell and Wilson Monday, Tuesday and Wednesday evenings, respectively, are Pfc. Edmund V. Macha of Rt. 4, Tahoka, and Cpl. Ralph E. Mosier of Miles, according to authorities at McCloskey General Hospital.

Pfc. Macha was reared in this county, was inducted on Feb. 10, 1941, and spent 15 months overseas. He was wounded in the battle of Kassarine Pass, in North Africa, April 12, 1943, by an anti-personnel mine. He received severe wounds in the legs, arms, and face. A few weeks ago, he was here and talked at the Tahoka Rotary Club.

Cpl. Mosier, squad leader of Co. C, 142nd, 36th Division, went into action at Salerno. He was hit on Dec. 5 near Cassino in right elbow by mortar shell. At Altavilla he was wounded in the right leg by a rifle bullet. Then concussion of mortar shell knocked him out, and it took 30 hours to get him off of the hill by litter. He was evacuated to Naples and sent to McCloskey.

Caution, Use Only as Directed

To the People of this Community

This is a home front community on the most vital war action now in progress in every community of the land—the Fifth War Loan.

We are advancing on our objective. However, we must make certain that we reach and pass our goal by July 8. This can be done if every one of us puts something extra of ourselves into the fight. No one needs to remind you that it is an American trait to go into a sprint with the goal in sight. We started this push June 12. Reports from every city and town in America tell us that the number of individual buyers of extra War Bonds today has reached an unprecedented total. We all know that in addition to numbers we need fire power. Your extra War Bond is absolutely essential. The greater the stockpile of War Bonds, the easier it will be for us to get this war over. This very moment our boys are waging a life-and-death struggle. Every additional War Bond you buy will play its part in the outcome. Last month's War Bond, last week's War Bond, yesterday's War Bond are already in the combat of foxholes. Today is another day for the home front just as today is another day for the boys on the battlefronts.

County Ginners Plan Program For Fall

Representatives of Lynn county ginners, owners, and managers met Thursday morning, June 1, in the County Agricultural Agent's office, for the purpose of taking the initial steps for qualifying Lynn county in order that Lynn county farmers through the cooperation of the Lynn county ginners, the Extension Service, and the Cotton and Fiber Branch of the United States Department of Agriculture, may participate in the free cotton classing program as set up under the Smith-Doxey program of cotton classing.

Frank J. Riordan, specialist in Cotton Classing of the Lubbock office of the Cotton and Fiber Branch of the USDA, spoke to the ginners.

These ginners, representatives of the thirty gins of Lynn county, will be filling out the necessary forms during the next few weeks in order to secure this program for the county this coming harvesting season. The Smith-Doxey Cotton classing program will continue in 1944 as in 1943 practically without exception.

Individual farmers may be called upon in some instances by ginners in order to determine their planned cotton acreage for 1944 and other information. Farmers new in communities or who for other reasons will be new customers of specific gins can be of assistance in this program by notifying the gins with which they expect to do their ginning of their intentions. This will assist by making sure that their name is included on the list of some gin. However, failure of any farmer's name to appear on a gin list will not prevent that farmer from receiving the service, but cooperation in this regard will be appreciated because of statistical value.

JOIN GULF'S "Anti-Breakdown" CLUB TODAY!

BEFORE THIS WAR is over, there may be only two kinds of people in America...

1. those who can still get to work in automobiles,
2. those who are forced to walk.

If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job. (8 out of 10 war workers use automobiles to get to work.)

Here's Gulf's Protective Maintenance Plan..

1 It protects your car at 39 danger points!
GULF's Protective Maintenance Plan includes Gulfex Registered Lubrication which reaches up to 39 vital engine, body, and chassis points. Six different Gulfex Lubricants are used to reduce wear.

2 It helps keep your motor in "A-1" shape!
IT'S IMPORTANT to change your oil regularly... and to give your car a really good motor oil like Gulfprime, "The World's Finest Motor Oil," or Gulfube, an extra-quality oil that costs a few cents less.

3 It helps stretch your gas coupons!
ASK YOUR GULF DEALER to clean your spark plugs, clean your air filter, and flush out your radiator, to help give you as much as 10% more mileage per gallon of gas!

Gasoline powers the attack... Don't waste a drop!

...for better car care today... to avoid breakdowns tomorrow

It will be hardly as large as either of the Burelson elevators but will be large enough to take care of a lot of grain.

The development of combine maize is directly responsible for the erection of these new grain facilities. It has given great impetus to the raising of maize because of the ease and reduced expense of harvesting the crop. Mr. Burelson estimates that the feed acreage this year will show an increase of at least 33 1-3 percent over last year.

R. R. Adams of the Lynn County AAA office reports that the grain sorghum acreage assigned to Lynn county this year is 185,000 acres, but that there is an unassigned acreage of cultivated lands in the county amounting to 62,569 acres. He is of the opinion that most of this also will be planted in combine maize and that the entire acre of combine maize in the county this year will be approximately 225,000 acres.

The cotton acreage assignment for the county this year is the same as last year, 150,000 acres.

Congratulations—

O'Donnell Sergeant Is Awarded DSC

With the Fifth Army in Italy.—For action on the Fifth Army front near Cairo, Italy, T/Sgt. Robert H. Healer, O'Donnell, has received the Distinguished Service Cross, given comparatively few infantrymen in this war.

During a company attack against a strongly fortified enemy-held hill, a platoon was pinned down by machinegun fire and hand grenades. Healer was ordered to take his unit to the left rear of the enemy position. Moving around a hill his platoon was suddenly faced with another German machinegun. Exposing himself to fire, Healer crawled forward and tossed hand grenades, destroying the emplacement. He then led his platoon against three additional machinegun nests. As a result of his actions, Healer's company successfully accomplished its mission.
