Fox Might Have Rabies

Police officers Mark Kirkpatrick and Kenneth Abbott killed a sick fox in the back yard of a Colorado City residence Friday morning and sent the head off for tests as veterinarian Dr. J. D. Williams said it might be rabid.

The call to the police dispatcher came at 9:10 a.m. Friday from the Rev. Loren Gardner at 1446 Oak Street, as he reported a sick fox in his back yard.

Officers Abbott and Kirkpatrick killed the fox and on the advice of Dr. Williams, prepared it for shipment for analysis.

The presence in the city of even the possibility of a rabid animal is occasion for reminding city residents to keep their animals vaccinated against rabies. It is a city ordinance that dogs and cats be vaccinated for the disease each year.

Marijuana Crop Found

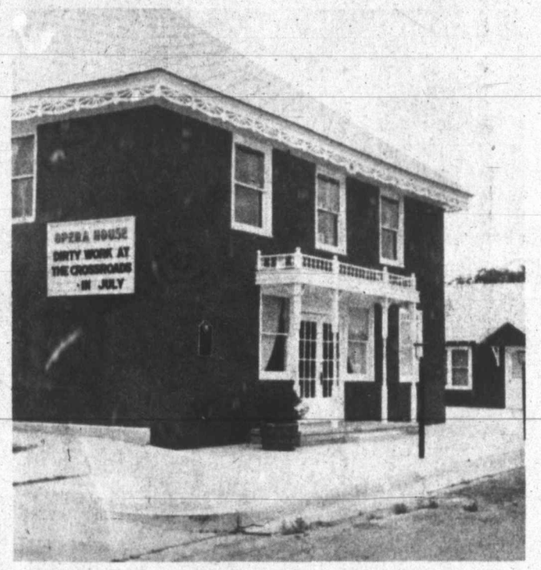

Andrew Gonzales, 18, of 128 S. Houston, was arrested last Sunday afternoon at his residence and charged with possession of more than four ounces of marijuana, a felony, following discovery of some growing marijuana plants in a vacant lot at 1333 College.

Police officers Mark Kirkpatrick, Jerry Register, Sergeant Pat Fuller and Chief Jesse Browning discovered the plants and pulled them after taking photos. The roots were washed and then the plants were weighed and weighed in at nine ounces. They were sent to Midland for analysis, a standard procedure.

Checks totaling $48.9 million went to 846 towns and cities in Texas from the Comptroller's office, a rebate for the month of June.

Museum Started In 1960

According to Mildred Campbell, Curator, the Colorado City Historical Museum was established in 1960 under the leadership of the late Harry Ratliff, with the help of club groups and interested individuals.

There are too many deserving people to mention, she said, but one who should receive special recognition is Mrs. Douglas Burns who, over a period of years, accepted the responsibility of keeping it open and looking after its business affairs.

At that time, the Museum was located in the American Legion Building at the corner of Chestnut and Third Streets, and was open to visitors two afternoons a week.

In 1966, the City of Colorado City purchased the Museum and has operated it since then. There is a Museum Committee composed of 14 members and a Chairman, currently J. Lee Jones Jr.

In December, 1969, the City purchased the Fuller Foods Building at 175 West Third Street, and in September, 1970, the Museum was moved into this building where it is now located, and is open daily from 2 until 5 p.m., except Mondays.

A deep flounce at the hem of the gown formed the train. The sleeves were fitted in the Venecian lace from shoulder to elbow and ended with a butterfly sleeve of sheer lace accented with Venecian lace.

The headpiece was a crown made of satin lace and seed pearls. A three tier veil was attached to the crown and was edged in Venecian lace. She carried a bouquet atop her white Bible.

The bride placed a penny in her right shoe, given to her by her parents for something old; her wedding gown and veil was something new; for something borrowed, the bride wore shoes borrowed from Mrs. William Jones of Teague and carried a white handkerchief, borrowed from Mrs. Joe Coldewey. She wore a blue garter for something blue, given to her as a birthday gift from Mrs. Raymond Fuller.

The bride's attendants wore identical dresses made of daron crepe, light blue color with a V-neckline and high waist band. The bride's mother made the attendant's formal length gowns.

The matron of honor carried two long stemmed carnations and each bridesmaid carried a single rose.

The attendants wore wide brimmed hats and a headpiece of the same material as their dresses. Two ribbons trailed in the back of each hat.

The flower girl, Aimee Adams, niece of the bride from Abilene, wore a cotton dress of light blue with small clusters of flowers made similar to the bride's attendants' gowns. Her dress was also made by the mother of the bride.

Ringbearer was Ricky Clark, nephew of the bride from Smithfield. The pillow on which he carried the bride's ring, was made by the bride's mother.

Candlelighters were James Wayne Adams, nephew of the bride from Abilene and James Myers, brother of the groom from Colroado City.

The wedding reception was held in the Fellowship Hall of the church. The reception was catered by Billie Ruffin of Colorado City.

A three-tiered wedding cake was topped on the white icing with a blue fountain flowing through the center. A crown of two wedding bells and two love doves accented the cake.

Crime Prevention Series

By Sgt. Sydney Lyle

Crime prevention! Who needs it? With crime of burglary, theft, and assault on the increase, we all need it.

Crime prevention, like the medical field, finds it necessary to identify the disease in order to prescribe the remedy. So let's look at just one type of crime. Burglary. Most people think of the burglar in terms of the professional criminal they observe on television.

Actually, the difference between the average burglar and his television counterpart is so great it would take an enormous imagination, and an act of congress just to associate the two in the same train of thought.

The average burglar is between the ages of twelve and eighteen years old (hardly the professional type). He is a below average student, or a dropout. His actions will usually cost the victim more financial loss due to vandalism than the value of the items taken, and he is seldom alone in the crimainal act, and lives within six blocks of the victim.

Most of his residential victims are selected on the basis of one major category. That is, working households. Unlike the commercial victim a residence is usually targeted for daylight crime. The reasons are numerous. People will leave their homes unlocked, because it is too inconvenient to unlock the door when they return, or they will leave the doors open so that their children can get in after school. Not only does this make the thief's work a snap, it further reinforces his belief that crime does indeed pay.

So with this approach, let's look at both sides of the problem. Firs tof all, only 23% of the total burglaries are ever cleared with the arrest of the offender. Even in most cases where the offender is arrested, recovery of the stolen items are only partially achieved, and restitution becomes a laughing-stock of the criminal justice system.

Many people who have never been burglarized will openly boast, "I don't have anything a burglar would want." That attitude is not only incorrect, but it also helps the thief. If we become careless in our efforts to maintain the basic security of our homes, we will likely become his next victim.

When we lock our homes with locks that work, encourage your neighbors to look after each others property, leave a light on at night, and become aware of criminal opportunity. We will have reduced the likelihood of becoming a burglary victim by 85%.

The fact is, only 15% of the thieves are really determined to get into your home, and if they want it that bad, the chances are you will not be able to keep them out. Fortunately most burglars are not that determined. They are looking for the easy opportunity. The one careless habit that makes the criminal's job profitable. We must not permit carelessness to override good judgement. We are all responsible for preventing criminal activity. Crime prevention is not what someone else does, crime prevention is what each citizen must do in order to preserve his sense of well being, and maintain the ownership of his personal property.

For a thief to commit a crime, two things must be present: desire and opportunity. There is nothing we can do about his desire to steal, but we all can do something about the opportunity for him to carry out that desire.

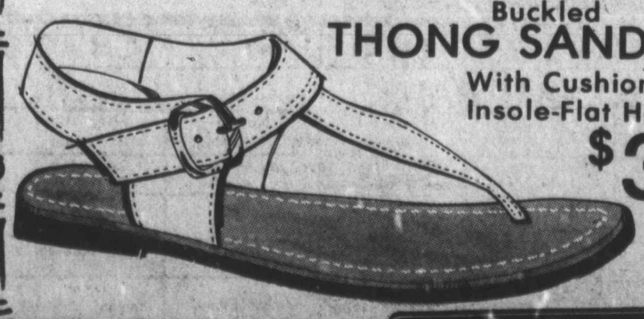

Crime prevention. Who needs it? With crime increasing eleven times faster than the population, you need it.

Youth Library Program Starts For Summer

Young readers at Mitchell County Public Library are participating this summer in the Summer Reading Club, sponsored by the library and the Texas State Library.

They are among more than 100,000 youngsters from throughout the state who will be spending part of their summer vacations reading for fun this year. They will be keeping records of what they have red in red, white, and blue reading logs.

"Movin' On...Then and Now" is the theme for 1976. Children dressed in appropriate costumes are shown in a canoe, horse-drawn trolley, balloon, early train, stagecoach, early automobile, steamboat, biplane, helicopter, and moon rover.

These pictures appear on the posters as well as on the reading log/activity books that each participant will receive. Each reading log also includes a cut-out figure that may be used to move across a time line that shows vehicles in their proper place in history.

Public library summer reading programs focus upon reading for enjoyment. Public library collections include a wide range of both informational materials and fiction.

In addition to the books they read as participants in the Reading Club, youngsters will also see films, puppet shows, and other programs that will be carried on in the libraries.

Project coordinator is Mrs. Boyd Dozier.

THE MOST VALUABLE PART OF YOUR BACTERIA IS GONE WHEN YOU HAVE IT PUMPED!
This is important! When someone calls at your home with a truck and tells you that your tank is almost full, that is correct. It has to be full to be filtering properly, and the most harmful thing you could do would be to have it pumped, for pumping destroys the most valuable part of your bacteria. Pumping doesn't clean your lines or eliminate odors and you pay an enormous price for the harm done.

Tom Barber Wins Silver Medal In Western Olympic Trials

Tom Barber, son of Dell Barber of Colorado City and Mrs. Mary Blassingame of Hurst, was the silver medalist for the Western Division in the middleweight finals of the Western Olympic trials.

A decisioned-victim, Barber was edged out of winning by Ricky Reese, although the crowd watching the single elimination didn't agree with the decision.

Champions from every state west of the Mississippi river including Alaska and Hawaii gathered in Carson City, Nevada May 19 for the middleweight competition.

On his way to the finals, Barber beat the Pacific AAU champ, Southern AAU champ and his first victory was a third round knockout and the other two were decisions.

The runner-up spot in the Western trials has given Barber an amateur middleweight ranking in the top five and the alternate spot in the Eastern trials where the National AAU, Golden Gloves and Western trial champs meet.

Barber is working on his master's degree in social work at Denver University.

Tips From The City Of Colorado City

The City of Colorado City is now taking applications for an animal warden and also for a caretaker for Colorado City Cemetery.

Detailed Telephone Bill To Be Issued

A newly-designed telephone bill with more detailed information will be mailed out by Southwestern Bell to customers in Colorado City starting this month.

Bill Gilliland, manager for Southwestern Bell, said the monthly statements have been revised primarily because of growing cost consciousness on the part of consumers.

Gilliland said the new monthly statements will include greater detail of long distance service.

"Our computers will now print the time of day or night each long distance call was placed and the number of minutes talked," Gilliland said.

Gilliland added the new bills also will denote the classification of each long distance call--customer dialed station-to-station, operator-assisted station-to-station, or person-to-person. Whether a call was interstate or intrastate will be indicated, as well as the rate period that applies to each call.

"In addition to more information on long distance service," Gilliland said, "the revised statements will show any adjustments from the previous month, as well as any unpaid balance. If there is no unpaid balance, this will be indicated to let customers know their accounts have been properly credited."

The manager pointed out, too, that federal excise taxes will be listed separately.

The new bills will specify a "due by" date to let customers know when payment is expected. "We believe the new bill format will help our customers keep a sharper eye on their budgets--at least the portion that goes for telephone service," Gilliland said.

New Testament Living

"As for the obligation of the firstfruits, ye shall offer them unto the Lord:" Leviticus 2:12a KJV

Most Christians know the Bible has an Old Testament and a New Testament. But many are not aware that there is a vast difference in Old Testament and New Testament living.

In the Old Testament you received first, then you gave. To teach God's ownership, God did things for people and after they received they were to give back to Him. It was a debt. You owed it. You owed God your time--the Sabbath; you owed Him your money--the Tithe. Everything was something you owed to God. But the debt was insurmountable; man could not pay it. God sent His Son to pay the debt. He gave Jesus. When Jesus went to the cross and paid our debt by giving himself, He opened up a whole new dimension of love and giving. It makes all the difference!

This is a whole new framework of living! You can no longer give to God to pay a debt because Christ has already paid it. You come out of the Old Testament with its heavy requirements into the joy of New Testament living. You give not as a debt you owe, but as a seed you sow!

"Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it." Malachi 3:10 KJV

Jesus changed the Old Testament custom of receiving and then giving, to giving first that you might receive. Jesus said; "Give, and it shall be given unto you; good measures, pressed down and shaken together, and running over, shall men give into your bosom. For with the same measure that ye mete withal it shall be measured to you again." St. Luke 6:38. KJV

Giving as emphasized by Jesus is different from tithing in that you give before you have received, not after. In *tithing* you give one tenth of your income to God after you have earned it. It is a debt you owe. This is why so many people give us duty, carelessly and without interest in a superficial way. Without any joy.

Jesus mentioned tithing once.."Woe unto you, scribes and Pharisees, hypocrites! for ye pay tithe of mint and anise and cummin, and have omitted the weightier matters of the law, judgment, mercy, and faith: these ought ye to have done, and not to leave the other undone." St. Matthew 23:23 KJV...and He commended it. Jesus indicated that there is a higher form of giving based on the New Testament Convenant which He brought--giving, not as a debt you owe but as a seed you sow. Your giving is a seed you sow first to meet the needs of others, which God then multiplies back in a miracle to meet your own personal needs. (See I Kings 17:8-16 for an illustration of this principle concerning a woman and her needs being met.)

Eddie Mitchell, local manager for the Sweetwater Production Credit Association office, holds plans for a new office building to house SPCA here at 5th and Walnut.

New Building, 5th & Walnut For Production Credit

A new office and new location are in the makings as the new Colorado City SPCA office building will be built at 5th and Walnut. Work is to start soon and will be completed sometime this fall by contractor Virgil Stone.

Since its origin in about 1934, Sweetwater Production Credit Association's Colorado City office has been located at 2nd and Walnut in the old City National Bank Building (now Barber Building). However, for a short time the first field office manager, Mr. J. W. Watson, was located in an old building on Oak Street south of Costin Implement Co.

R. B. Baker took over the office in 1945 and retired in May 1974. In 1973 Eddie Mitchell joined SPCA and took over the Colorado City office when Mr. Baker retired in 1974. Sibyl Walding has been secretary since 1946.

The office was located for years on the 2nd floor of the Barber Building over-looking the corner of 2nd and Walnut streets. Then it moved downstairs in the same building to the northmost office and then to the corner office where it is now.

Production Credit Associations were established in 1933-34, at a time when depression and hard times were common and farmers and ranchers were being driven out of business financially. Establishment in 1933 of PCA's was done by Congress and about $250,000 was borrowed from the Government to start operation.

In 1949 all of the Government capital was repaid and since that time it has been an association solely owned by the member farmers and ranchers.

The primary purpose of PCA is to help raise the income and well being of agricultural producers and their families by providing them with adequate, sound and constructive credit and closely related services necessary for efficient farm and ranch operations. A dependable source of credit is essential to farmers and ranchers for them to continue in the business. We get our loan funds from the sale of securities in the nation's money market through the Intermediate Credit Bank of Houston.

The Sweetwater PCA serves Nolan, Mitchell, Fisher, Borden, Dawson, Scurry and part of Kent Counties. The Association loans $40,000,000 to $45,000,000 annually and keeps around $23,000,000 outstanding daily loan balance.

Directors are T. L. Finley Chairman of the Board (Loraine); W. J. Harvey Jr., Vice Chairman (Roby); Audry Head, (Snyder); Othell O'Kelly (Trent) and L. D. Echols (Lamesa).

1. SOURDOUGH STARTER

1 package active dry yeast
2½ cups warm water (105° to 115°)
1 cup instant nonfat dry milk
2 tablespoons sugar
4 cups all-purpose flour

a) Stir yeast, water, dry milk and sugar in 2½ quart crock or non-metallic bowl until yeast is dissolved. Stir in flour gradually until a smooth batter forms. Let stand loosely covered in warm place, 3 to 5 days. Stir down batter occasionally. Store loosely covered in refrigerator.

b) Replace exact amount of starter used for each recipe by stirring equal amounts of homogenized milk and flour back into starter. (For example, replace 1 cup starter with ½ cup homogenized milk and ½ cup flour). Let stand loosely covered until it bubbles, overnight. Stir down. Each time this process is repeated, the starter becomes more active and develops a more sour flavor. Note: if stored as much as two to three weeks between usings, just pour off the watery layer on top and replace following procedure in (b).

2. SOURDOUGH BREAD STICKS

1 cup instant nonfat dry milk
1 cup warm water (105° to 115°)
1 cup Sourdough Starter (see Recipe No. 1)
2 cups all-purpose flour
3 tablespoons vegetable oil
2 teaspoons salt
2 teaspoons sugar
½ teaspoon baking soda
½ to 1 cup all-purpose flour
¼ cup butter or margarine, melted

a) Mix dry milk, water, Sourdough Starter and 2 cups flour in non-metallic bowl; cover loosely. Let stand in warm place until mixture is coarse and bubbly, at least 8 hours.

b) Mix oil, salt, sugar and baking soda into sourdough mixture. Stir in enough of the remaining flour to make dough easy to handle. Knead dough lightly on well-floured board, about 2 minutes.

c) Roll dough into rectangle, 15 x 10 inches, on well-floured board. Cut into fifteen 1-inch strips. Roll each strip into even round strand, about 14 inches long. Double strand over and twist to form bread stick. Place bread sticks on greased baking sheet; brush with melted butter. Cover with plastic wrap. Let rise in warm place until double, 1 to 1½ hours.

d) Heat oven to 375°. Bake bread sticks until golden brown, 30 to 35 minutes. (Makes 15).

Cowboy Reunion And Rodeo Held

On Wednesday June 23, the Big Spring Cowboy Reunion & Rodeo as well as the City of Big Spring will honor one of its most outstanding citizens. This, the first day of the rodeo has been proclaimed Toots Mansfield Day not only by the rodeo directors but also by the Mayor of Big Spring, the honorable Wade Choate.

One of the most highly thought of men in the sport of rodeo, Toots has given tirelessly of his time to help promote the sport.

He was the first president of the Rodeo Cowboys Association and served in this capacity for seven years.

He has been named World Champion Calf Roper seven times, a feat has been equalled by only one man.

Toots was Champion Roper in 1939, 40, 41, 43, 45, 48 and 1950, runner-up in 1947, third in 1955, fourth in 1949, and fifth in 1951.

During these years he was also consistently high in the all-around standings as well as the single steer roping.

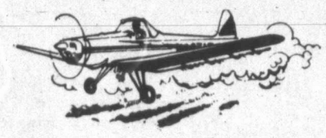

He is considered by most, the toughest match roper to ever nod for a calf.

Toots became the first to originate the idea of roping schools to teach youngsters the art of calf roping, Since his first school; it is now possible to attend not only roping schools but a school in all of the major rodeo events. This is just another example of Toot's contribution to rodeo and young people alike.

The Big Spring Cowboy Reunion and the people of Big Spring are indeed proud of this man and of the contributions he has made to the rodeo, his community, and the State of Texas. The Association extends a cordial invitation to everyone to come out the first night of our rodeo and honor Toots on this, his special day.
