BISHOP WRITES ON EXHIBITION

Says Exhibit Attracted Great Deal Of Favorable Attention At Dallas Fair

Brown Bishop, secretary of the Chamber of Commerce, at our request, has given us a report of his work at the Dallas Fair as exhibitor of the Lynn county booth. This report follows:

For the fifth consecutive time the booth assigned to Lynn county was occupied with the products raised. Although the exhibit did not draw down large money, but was placed in the money class, the score made was not to be ignored. The class of exhibits at the Dallas Fair this year excelled any ever shown according to the judges and the Superintendent of the Agricultural Department. The location of the booth afforded every one who came to the building an opportunity of seeing it and no one ever passed by without stopping and inquiring about the Tobacco that we displayed. This Tobacco was grown on Henry Hillens farm three miles northeast of Wilton and no doubt many folks in Lynn county did not know that the plant would thrive here. Of course we did not feature this crop, as cotton was featured both on board and backgrround, but the presence of it caused many people to stop and make inquiries about the country.

Competition among agricultural lines is growing keener each and every year, due to the fact that so many counties have Farm Demonstration agents who work among the farmers in the spring and encourage them to plant the best and thereby enabling the county to produce the best grain. As a matter of fact our county out classed many of the sixty three counties that were shown at Dallas and many of them that our farm agents put in all cases where a county made a very high score, the farmers of that county have and have had an agent with them to help them to select seed and also with them about their crops and to select the exhibit. As stated cotton was featured and it will be interesting to know that our score was 185 out of 200 possible points. Three other counties outscored the cotton by two of the three showing one staple cotton and therefore made a higher score. If the readers have been noticing the Fort Worth Record and the Dallas News no doubt they have seen several news stories about Lynn county and its agricultural products, especially cotton. The reporters were very kind to the exhibitor while in Dallas and seemingly accorded us much attention as anyone on the grounds and seemingly accorded us much that came as a surprise.

There was no change in the score card for another year the only change in the rules was that the display on the background should consist of agricultural products and them in their natural colors and that no pictures of oil or paint should be placed upon it.

The exhibitor provided a register for the visitors to sign and many people signed it. The signers consisted of people who lived in other sections of the state and stated that they were interested in Lynn county.

The matter of assembling the exhibits is a matter of no little time and expense. If the remuneration value was the only thing considered it would be a financial failure as the expense attached is always greater than even the highest premium that is paid. The Chamber of Commerce of Big Spring considers their efforts and time paid for if they are successful in getting one family to move to Howard county. Midland county says that it pays as a medium of advertising only. The idea of advertising and encouraging better crops and diversification is the most prominent feature in the minds of everyone.

Lynn county was ranked as the leading Cotton county of the south plains because of the nature of its exhibit. Other counties of the plains showed cotton to some extent but Lynn county was the only one that made that product the outstanding feature. Many persons from the cotton countries of east and central Texas took notice of this feature and that fact gave us very much prominence.—Brown Bishop.

JUSTICE COURT BUSY MONDAY

Monday morning was appearance day in Judge Metcalf's court. A number of judgments were taken by default, there was one plea of guilty to an assault charge, and two civil cases were tried. Another civil case that promises to attract considerable local attention will be tried Saturday. It was filed as a result of a controversy between the owner and a tenant of one of the old frame buildings that was burned on the west side of the square a few weeks ago.

Cotton Thieves Busy Working County

Several complaints of cotton having been stolen from the field have come to the sheriff's office recently. The heaviest loser thus far reported is Bush McGonagill, who resides a few miles west of O'Donnell. A whole bale was taken from his wagon in the field one night last week. The wagon was standing at the end of the rows adjacent to the pasture fence. Tracks of a truck just inside the pasture were plainly visible the next morning. The cotton had been loaded from the wagon into the truck.

Marvin McCord and J. H. Gray, living near Grassland, each report the loss of several hundred pounds of cotton from wagons in their fields on Monday night of this week. Truck tracks identical with those found at the McGonagill place were also found near their wagons, and officers believe that the same truck was used in all of these thefts. A number of other cases of cotton theft have also been reported to the sheriff's office recently. In fact, the sheriff says that cotton thefts have become almost a nightly occurrence.

Troy Cowan Hurt In Lamesa Gin

Troy B. Cowan of the South Ward community was the victim of a most serious accident which occurred last Thursday at a gin in Lamesa where he was employed. While running the press at the round bale gin, his hand was caught in the cogs and before the engine could be stopped his arm was crushed almost to the shoulder. An ambulance was called and he was rushed to the Lovelace and Bennett Hospital, where an operation was performed. His arm was amputated between the elbow and the shoulder. At last report, he was doing as nicely as could be expected and it is thought that he will recover, though the accident came near costing him his life. Mr. Cowan has many friends at South Ward as well as Tahoka and Lamesa, all of whom deeply sympathize with him in this terrible trial.

American Legion To Bring "The Storm"

"The Storm" will be presented by The New York Players at the High School Auditorium on Tuesday night, November 3, at 8 o'clock.

This is the first number of the lyceum course to be given here this fall and winter under the auspices of the American Legion.

This is reputed to be a very fine play, presented by a company of players who are artists in their line. An evening of delightful and gripping entertainment is promised. You will not regret giving the boys your support by attending this performance, for you will more than get your money's worth.

2 Football Games Here This Week

Thursday afternoon at 4 o'clock the Pups (Tahoka's second team) will meet the second team of Slaton on the local gridiron.

The Bulldogs will meet the first team of O'Donnell on Friday afternoon at 4 o'clock on the local field.

The same ticket will admit to both games. Tickets for Thursday's game will hold good for the game Friday afternoon.

There will be a Halloween party at Midway School House on Saturday night. Small admission fee charged, proceeds to be used for benefit of the Sunday School. Let everyone come, have a good time and help a good cause.

OIL DERRICK BEING BUILT

Work Started Monday: Well To Be Spudded In Soon On Lease Four Miles West

The derrick of the Hart Oil Company is now under construction at the location recently made by their geologists four miles west of Tahoka. A car of timbers and material arrived last week and some of it was unloaded and trucked to the site immediately. Work did not begin in earnest till Monday, however. Since that time the big timbers and other equipment have been placed on the ground and a crew of workmen got busy Wednesday morning constructing the derrick. A standard rig will be used and is expected to arrive sometime next week. It is expected that everything will be ready to 'spud in' this well within the next two or three weeks, according to Judge J. J. Hart of Fort Worth, president of the company, who arrived Wednesday morning and is here looking after the affairs of the company.

The location selected is a beautiful one. The derrick is being built on a gentle incline, a few hundred yards from the top of the fold, from which point a commanding view of Tahoka and a vast stretch of country to the east is obtained. The derrick when completed will be plainly visible from the city. The editor accompanied J. B. Nance to the site Monday afternoon, and all of the fine points of the landscape as a probable oil field were pointed out to us. While this is strictly a wild cat proposition, and while the bringing in of a big gusher would spoil a lot of fine agricultural land, yet the beautiful situation and thoughts of oil spouting from a dozen holes in the ground, caused the editor's heart to palpitate just a bit and his mind to imagine vain things.

Mr. Hart and several Tahoka citizens have been working hard to get a block of leases southeast of the city and we understand as we go to press that they have practically succeeded. If there is oil beneath the surface of these south plains, the big oil companies of Texas want to know it, and we predict that a number of derricks will be pointing heavenward in this county within the next six months.

LITTLE CHILD DIES

On last Sunday morning the death angel entered the home of Mr. and Mrs. J. A. Sanders of the Edith Community and called their baby boy to a better world.

Thomas Marlin was two years and twenty days of age when the end came. He had only been sick since Tuesday night. Loving hands did all that could be done but God said come up higher and Marlin answered the call.

He was such a golden haired, blue eyed darling, the light of the home, and the pride of his parents' hearts.

One precious to their hearts has gone, a voice they loved is stilled. A place made vacant in their home can never more be filled. But God's will be done.

He is survived by his father, mother, sister and brother. May God's richest blessings be theirs in their bereavement.—Contributed.

Uncle Ike reports the marriage at his residence in this city Sunday afternoon of Mr. D. H. Brown and Miss Eva Dawes. Mr. Brown is employed at one of the gas while his bride is one of the telephone operators here. These are most excellent young people and they have the good wishes of many friends. May their days be many and happy.

Rev. B. N. Shepherd made a trip to Matador, Tulia, and other places on the central plains last week-end, and he says that the recent frost caught all of the late feed and cotton in that section. In no county did he find crops quite as good generally as they are in Lynn county.

Mr. and Mrs. Hardy Swope and daughter, Middle, of Killen were here the first of the week guests of J. W. Minor and family. Mr. Swope was incidentally prospecting. It is to be hoped that these people will decide to locate in Tahoka, for they are most excellent folks. Mr. Swope is a brother of Mrs. Minor.

BUTLER RANCH LAND SELLING

23 Rannels County People Buy Lynn County Land: To Build School

Walter Neely and L. C. Underwood of Winters were here this week, Mr. Underwood prospecting and Mr. Neely looking after some deals that he had pending.

Mr. Neely is a real estate agent and has worked with the Zappe Land Company in the sale of the Butler Ranch lands lying west and southwest of New Home. Nearly all of these lands have been sold in quarter sections to citizens of Rannels county, according to Mr. Neely, and all of these quarters will be improved and placed in cultivation before the end of the year, or at least in time for next year's crop. Homes are being built already on four of these quarters and three or four others are to start soon. A total of twenty five quarter sections have been sold, Mr. Neely taking one himself. These lands lie about eighteen miles by dirt road almost due northwest of Tahoka. They are rich in agricultural possibilities, and their conversion into farms will mean much for this county and for Tahoka. It is the plan, according to Mr. Neely, to have a new school district carved out in that vicinity and a new 3-room brick school building constructed sometime in the near future for the benefit of the families who will reside upon these lands. Most of the purchasers will live on their respective tracts themselves, but a few of the tracts will be occupied by tenants. The purchasers of these lands, as given to the News by Mr. Neely, are as follows: M. W. Renfro, W. J. Stokes, G. P. Wilson, J. P. Knight, J. F. Miller, Hubbard Young, Dr. Fred Tinkle, W. T. Knight, M. L. Barker, J. R. Wilson, J. B. Park, R. N. Enns, W. L. Conrad, Henry Heck, R. M. O'Dell, Walter Neely, T. R. Ganaway, John Heck, J. P. Unfried, W. E. Puckett, C. E. Ganaway, all of Rannels county and O. B. Adams of Tahoka.

Stork On Strike In Lynn County

The stork is playing off on his job. Only one visit has been made to Lynn county since our last report, according to the county clerk's records. We think that the governor should convene the legislature in special session to investigate the matter. If this bird is not going to visit Lynn county more than once a week, we think that his salary ought to be stopped. It must be admitted however, that he brought and left a tremendously valuable package on this one trip. A little fellow, who has been christened Edward Eugene, was presented to Mr. and Mrs. R. S. Ward on Saturday, October 17th. Possibly Mr. Stork has made other visits since then but if so Happy Smith has not found it out.

Workers' Conference Held In Tahoka

The Workers' Conference of the Brownfield Baptist Association met with the Baptist Church here Monday night and Tuesday. Rev. Graves Darby of Wilson filled the pulpit Monday night, and he brought a very able message which was much enjoyed by all present.

The program proper began at 9:30 Tuesday morning. After devotional services led by Emmett Whitaker and addresses delivered by C. E. Ball of Brownfield, W. K. Horn of O'Donnell, and W. P. Markham, missionary of the Brownfield association, Rev. W. A. Bowen of Lubbock delivered an able discourse.

A most sumptuous dinner was spread at the noon hour, prepared by the ladies of the local church.

A most interesting program was rendered by the ladies in the afternoon, participated in by Mesdames W. H. May of Wilson, Ernest Walker of Central, J. R. Parris of Edith, Scott of O'Donnell, Bannister of Redwine, B. N. Shepherd, Martin, Duvall and Jeff Higginbotham of Tahoka.

There were quite a number of visiting preachers and other church workers from various parts of the association present, as well as some who reside outside the association.

INFANT BURIED TUESDAY

Annabel, infant child of Mr. and Mrs. S. H. Howell of Amarillo, died in that city Monday. The remains were brought to Tahoka Tuesday for interment. Funeral services were conducted by Rev. B. N. Shepherd at the home of Mr. and Mrs. H. B. Howell in this city at 2:30 Tuesday afternoon, and interment followed in the City Cemetery.

The bereaved father and mother and other relatives have the sympathy of their many friends here.

THIEVES DRAW JAIL SENTENCE

Chicken Thieves Plead Guilty: Get Fine of \$25.00 And 6 Days In Jail; Other Cases Tried

The County Court has been busy this week in the trial of criminal cases. It has been the busiest week so far as the criminal cases are concerned that the court has had in recent months. A few cases which have been on the docket for a long time were dismissed upon motion of the county attorney and a few others were continued, but two cases have been tried before juries and several pleas of guilty have been entered.

Ray Ratliff was tried before a jury Tuesday on a charge of chicken theft. He and three other boys were charged in separate indictments with the theft of forty chickens early in September from C. Carson, residing a few miles east of O'Donnell, near the Lynn-Dawson county line. The jury found the defendant guilty and assessed his punishment at 30 days in jail. He was represented by attorneys C. P. Rogers of Lamesa and W. H. Crunk of O'Donnell. They filed a motion asking for a new trial. A new trial was granted by Judge C. H. Cain, presiding, and the defendant then entered a plea of guilty. The court assessed his punishment at a fine of \$25.00 and confinement in the county jail for six days. His brother, Clyde Ratliff, thereupon also entered a plea of guilty and the same punishment was assessed against him by the court. It is said by the court officials that the other two accused boys made confessions to their guilt and it is the understanding that at the next term of the court they will also enter pleas of guilty when the court will probably assess about the same punishment against them. These four boys, according to the testimony, were jointly guilty. They took the chickens from the house of Mr. and Mrs. Carson one night early in September while the Carsons were attending church services in O'Donnell. Upon returning home, something attracted their attention to the hen house and upon investigation they found that a big bunch of their fine Rhode Island Reds were missing. Officers were notified and a search was instituted. One of the defendants, Ray Ratliff, was caught the next morning by Mr. Carson in the act of unloading the chickens from a car at the poultry yard in O'Donnell. He and his companions went to Carson's home later and explained that they had found the chickens in a sack on the prairie but afterwards admitted their guilt.

On Wednesday Curtis Johnson was tried on a charge of having deserted his child in destitute and necessitous circumstances. He and his wife had separated before the child was born and he had failed to contribute to its support after birth, except in a very meager way, according to testimony. The jury returned a verdict of guilty and assessed his punishment at a fine of \$25.00 and confinement for ten days in the county jail. Through his attorney, B. P. Maddox, he gave notice of appeal.

John Tate, colored, entered a plea of guilty Monday morning to a charge of having given a 'cold check', and he drew a fine of \$15.00 and 20 hours in jail.

R. M. Middleton pleaded guilty to 'cold checking', and he was given a fine of \$25.00 and 20 hours in jail. Pery L. Oliver of Slaton also entered a plea of guilty on a 'dry check' charge, and the court gave him a \$25.00 fine and seven hours in jail.

Hugo Pinkert of Hackberry was fined \$10.00 on a plea of guilty to a charge of disturbing the peace.

H. D. Meissner of Hackberry also pleaded guilty to a charge of disturbing the peace; fine \$10.00.

J. J. Caddell pleaded guilty on Wednesday morning to the offense of drunkenness alleged to have been committed Tuesday night and a fine of \$15.00 was assessed against him.

The bond of E. G. Winton was forfeited upon his failure to appear in court on a 'cold check' charge. He appeared later, however, and will doubtless ask that the forfeiture be set aside.

A pistol case was set for trial Thursday.

Mrs. D. B. English is in Lubbock this week at the bedside of a sick daughter.

CARD OF THANKS

We wish to thank our neighbors, friends and doctor for all of the kindness and consideration shown us during the illness and death of our baby boy.

May God's richest blessings be yours.

Mr. and Mrs. J. A. Sanders, and family.

Mr. and Mrs. I. J. Hill of Lufkin this week arrived in Tahoka to reside. Mr. Hill is a brother of C. A. Hill of Lamesa, the Buick dealer in that city, and he will be Buick salesman here. His territory will embrace Brownfield and other points in this section of the South Plains. We are glad to welcome these good people into our city.

Dr. L. O. Dudgeon of Sweetwater has purchased from W. D. Cooper a half section of land lying near South Ward school. Dr. Dudgeon is not only a great physician but also a long-headed business man, and he knows where to invest his money in order to get the surest and best returns. Come to Lynn county.

Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that may
appear in the columns of the News,
will be gladly corrected when called
to our attention.

There is quite a stir just now in
state official circles. Attorney Gen-
eral Dan Moody is preparing to file
suits asking for the cancellation of
numerous road contracts made by
members of the State Highway De-
partment on the grounds that the
prices to be paid are exorbitant.
Incident to the filing of these suits,
he has impounded \$421,000 collect-
ed by the American Road Company
on contracts with the highway de-
partment and deposited in a Kansas
City Bank. These funds he re-
quired to be sent back to Texas and
deposited in a Dallas Bank to await
the outcome of these suits. In the
meantime, Governor Ferguson re-
ferred all work under the contracts
stopped. She and her husband, Jim
Ferguson, have denounced the at-
torney general for the course he has
pursued and charged that he is mer-
ely playing politics. Chairman Lan-
ham of the highway department is
protesting that there is nothing
wrong with the contracts let by him
and Jot Burkett is assuring the peo-
ple that if Moody will show that the
prices on contracts let by him are
too high he will ask the commission
to cancel the contracts. Just what
the suits will show is a matter of
speculation. Dan Moody claims
that a revelation of the facts will
ruin the Fergusons. The people of
Texas should keep an open mind un-
til the facts are revealed. If the
governor or Jim Ferguson or mem-
bers of the highway commission are
shown to have betrayed the inter-
ests of the state, we will be just
as quick as any other honest, fair-
minded citizen to condemn. On the
other hand, if they shall be vindicated
by the facts, then the people of Tex-
as should give them full credit for
honest and patriotic service. Let
the light be turned on, let all the
facts be made public, and let the peo-
ple form a just and righteous judg-
ment in the matter.

A little more than two weeks ago
a multimillionaire died. His name
was Duke, and he made his millions
by manufacturing and selling Duke's
Mixture and Bull Durham. He pro-
fessed great piety but his business
was one that only cursed the world.
Because of his great wealth he had
his countless flunkies, those simple-
minded people found in every com-
munity who like to be thought well-
to-do when they are not, or who dis-
dain to associate with good ordinary
folks but seek their associates among
the wealthy. When Duke died he
was given a pompous burial. The
multitudes attended the funeral. An
eloquent funeral oration was spok-
en over his casket. The people
said that a good and mighty man
had fallen. But Duke was twice
married. Twenty years ago he di-
vored his first wife to marry the
second. Before his death he had
written a will. By this will he be-
queathed the bulk of his millions to
his second wife. He gave not one
cent to his first wife. He had not
given her one cent since he had di-
vored her twenty years before. On
the day that the contents of Duke's
will was made public, his first wife
was stricken with a cerebral hem-
orhage superinduced, the papers say,
by malnutrition—in plain English
by starvation. Last Saturday night
she died, a pauper. Until a few
years ago she had had wealth, when
a New York banker swindled her out
of all she had. Since then she has
been teaching music for a livelihood.
She struggled against Fate and Pov-
erty until they won the victory, and
she went to her grave unhonored
and unsung. But was she less
worthy than her honored husband?
Was she less worthy of praise than
he? If he had been an ordinary
gentleman he would have had com-
passion on her in her distress and at
least saved her from starvation. She
was doubtless a thousand times bet-
ter than he. A plain slab will mark
the resting place of the broke and

broken-hearted little wife that he di-
vored for another woman. A great
marble monument will tower above
his tomb. For one we refuse to honor
the scoundrel. We even refuse to
chew his tobacco. We are against
his sort. We are for the little wo-
man. Away with snobbery. Away
with this slobbering over the wealthy.
Only character merits our praise.

Five big railroads entering Chicago
have been flagrantly violating the
National prohibition law, according
to evidence said to have been gather-
ed by the Internal Revenue Dept.
It is charged that these roads have
been hauling into Chicago from East-
ern breweries nine million dollars
worth of beer each year. Just what
steps the prohibition officers and the
attorney general's department will
take to punish these offenders re-
mains to be seen. The national
prohibition laws will not be adequa-
tely enforced until the federal authori-
ties begin bringing the "higher-ups"
to justice. Officials of great railway
systems who will openly flout the
laws of their country are no better
than the common bootlegger who is
wearing stripes in the penitentiary
and they ought to meet the same
fate.

Sam Samford is making splendid
progress in the grading of the Gla-

ready graded and placed in fine con-
dition north to Lubbock. It is hop-
ed that in the near future the High-
way Department will be able to put
the Post-Brownfield road in just as
good condition. It is also hoped that
the county next year will have suffi-
cient funds to improve all of the later-
al roads of the county and to place
them in tip-top shape. The new
road to Wilson is being opened now
and it is said that when finished it
will be a good road. It is hoped
that good roads may soon be laid out
and opened up from Tahoka to Three
Lakes, Wells, and Newmoore. We
are for good roads all over the
county.

steadily, it must become evident to
all that additional room must be pro-
vided next year. A handsome and
commodious high school building for
Tahoka is the vision that many have
already caught. We should be get-
ting ready for it.

IN HONOR OF A GREAT EVENT

Birthdays are always very im-
portant occasions, especially if one is
very old or very young. Before long
the Youth's Companion will be a
hundred years old, and the event is
going to make a memorable one for
The Companion's many friends. So,
although the date is not until April
16, 1927, preparations will begin with
1926.

In honor of its birthday The Com-
panion will come to you next year
at the new low price of \$2. It will
be dressed in its party clothes, with
new cover designs, enlarged illustra-

ACHING LIMBS

And Many Other Common Ills
Relieved by Black-Draught.

Mrs. John Skaggs, residing near
Lanes Prairie, Mo., on the Ozark
Trail, says: "I have taken Black-
Draught for a number of years,
about fifteen, and it is about the
only purgative medicine I ever
take. It is the only kind that I've
found that doesn't hurt me."

"I take Black-Draught for in-
digestion, for colds and headaches.
I take it for aching in my limbs and
shoulders. It helps this trouble. I
take it for four stomachs."

"We think Black-Draught is
splendid and never without it in
the house."

"I suffered with gas on my stom-
ach that affected my breathing, and
Black-Draught helped this trouble."
"For such common complaints, I
think Black-Draught is the best
medicine a person can use."

For millions of others, Black-

The Famous T-Bar Ranch Lands

This ranch consisted originally of 126 sections, or more than
80,000 acres. Twenty sections of this land lying north of the
Tahoka-Brownfield highway and west of the Tahoka-Lubbock
highway and adjoining the townsite of Tahoka has
been placed on the market. A part of this land
has been sold and converted into farms and as fine cotton as
can be found on the south plains may be found today on these
lands. We are selling these lands out in quarter and half sec-
tions. This is your chance to get a home. Lynn county pro-
duced more than 38,000 bales of cotton last year. It is conser-
vatively estimated that it will produce 50,000 bales this year.
Fine land, fine water, fine people; complete crop failures almost
unknown.

Price \$35.00 and up

WEST TEXAS NEWS
 By W. T. C. of C.

Throckmorton: Survey of the proposed new Post-Fort Worth line of the Santa Fe is progressing rapidly. Three gangs are pushing the work and at the rate the work is moving the gang should be in Fort Worth within a fortnight. One of the gangs which ran a line from Double Mountain formed a liaison here with the other two gangs indicating that the line might run direct from Haskell here. No public announcement of the Santa Fe policy will be made until the action of the Inter-State Commerce Commission on the Denver case has been taken.

Brady: Abolition of meter rents and material reductions in water and light rates has been announced by the City Water Board. Water rates receive a flat fifty cent per 1000 gallons cut while light rates are designed to benefit large users of electricity.

Amarillo: The Southwest is growing better according to Judge Wilson. The extremely light criminal docket of the United States District Court reflects the prosperity of the Southwest and crime has all but disappeared. Good crops and plenty of work for all labor is the answer.

Brownwood: The Brownwood Bulletin, a popular central Texas daily newspaper, celebrated its twenty-fifth birthday with a special edition. The Bulletin was founded October 15th, 1900. Harry Schermer printer who started with the paper is still on the job. Hervey Mayes, original business manager, retains his former position.

Austin: A deficiency appropriation to Texas Tech by Governor Ferguson. The money is to be used to pay instructors salaries and defray the general expense of the year.

Balmorhea: The Toyah Valley News is a newspaper to be published here. The owners are Lee Kingston and George Price and publication has already begun.

Eastland: Local citizens will vote on October 29 to decide whether the city will take over the local gas company and operate it as a municipal utility.

Slaton: The City Commission has called an election for November 17 to pass on a proposed \$100,000 paving program here. The Slaton Public Square will be the first unit to be paved.

Snyder: The R. S. & P. Railway here is erecting a modern depot adequate to take care of Snyder and the city's needs. This city is making great strides in civic progress and the new station is necessary in order to keep pace with the growth of the city.

Olney: A new natural gasoline plant will be erected here at once. This will be the third such plant to be erected here and it has been made necessary because of the increased production of wet gas in this field.

PRESBYTERIAN SERVICES

Rev. W. K. Johnson of Lubbock will fill his regular appointment at Tahoka next Sunday. Preaching morning and night at the Primitive Baptist Church. Our friends and members will please keep this date and place and hour in mind and let us have a fine attendance at this service. The Women's Auxiliary at Tahoka was a grand success due to the spirit of our ladies there and our Tahoka people. Presbyterians in the west are not so many in numbers but they know how to do things and are always ready to co-operate. The women's circle there will meet Monday and take up the educational work and program of this Fall in dead earnest. Preaching 11 a. m. and 7:15 p. m. Subject Sunday morning: "The Triumphant Church, Its Making and Cost." Let us have a good song service and a fine attendance. Subject at night: "The Law and the People." Who is back of law enforcement today? We shall be glad to meet you in our services Sunday.—IN-Vitation Committee.

SABBATH DESECRATION

How should people observe the Sabbath? Should it be in revelry or solemnity?

Let us see the origin of the Sabbath day. In all God's creation, man included, the Sabbath or seventh day was the only thing that God sanctified. He pronounced everything else good. Some will say that was to the Jew, but God only made two people, and if it was binding on the Jew it was binding on the Gentile also, because there was no Jew nor Gentile when God added the seventh day to the six. Now if God pronounced it holy, then should we keep it in revelry?

Some will say that this is a modern day. Yes, it is a modern day, in the desecration of what God pronounced holy. For full proof of this listen over the radio on Sunday evening or night and hear the reports of baseball or football games being played from one side of the nation to the other. Not only the radio, but read the newspapers. The writer once went to a house where a mother and a grandmother were each lying a corpse. When the procession went to the cemetery, they passed a baseball ground where a game was in progress. The players did not have enough respect for the dead to stop playing while the procession passed, and this was on a Sunday evening.

You may call me old-fashioned but bless your life, I am glad that I am old-fashioned. God's ways and God's plans are old-fashioned. They are not modern. Man is trying to improve on God's plans and ways, but he tells us in Revelation, Chapt. 22:18-19: "For I testify, and every man that heareth the words of the prophecy of this book, if any man shall add to these things God shall add unto him the plagues that are written in this book; and God shall take away his part out of the book of life and out of the holy city."

What do we see at this season of the year? If we travel around on Sunday we will see men and women on the lakes, sometimes with their children, duck hunting, and yet we boast of our twentieth century civilization. It looks like we are retrograding back to the dark ages. It is bad enough for a man or a woman who do not make any pretension to Christianity to participate in such things, but when it comes to men and women with their names on some church book doing such things I will say right here that they are hypocrites. We have more preaching today than the world has ever known but you seldom ever hear a preacher condemning these evils. Modern ways and modern practice have locked their mouths.

Man has become wise in knowledge and wisdom but it is from a worldly standpoint. If I am correctly informed about the cities, the preacher will preach to his congregation on Sunday morning and some of his congregation in the amen corner will holler "Amen!" to what he says; then in the evening will attend a baseball game with a larger congregation, sometimes the preacher with the rest, and holler "Amen!" to the desecration of the Sabbath. If this is Christianity, someone please give me the true definition of Christianity.

Here are some references: Exodus 16: 23-29; 8-11; 31:14; Acts 13:43;

LOOK-READ-COME

Meet with Circle A in the W. M. U. every Monday. We meet at 3 p. m.

We met in the home of Mrs. H. P. Caveness Monday, October 26th and took up the lesson, Chapter 1, in the study of the Wandering Jew in Brazil, written by S. L. Ginsburg, who was a converted Jew, becoming a Christian when quite a young man.

He tells of some very thrilling experiences which he had undergone, of the peculiar customs and beliefs of the Jews, and of the many ways in which he was tortured. He was born in Poland. He was sent to school in Germany at the age of four but was returned to his father at the age of fourteen, having finished grammar school and lyceum. He was a very brilliant pupil. His father was very careful that he should be brought up and taught the Jewish religion and in order that he might become a Jewish teacher. But as we read about and study this wonderful Christian character, we can see the hand of God leading all along the pathway. While still a very young man he came to London. Hearing the gospel the first time when the 53rd chapter of Isaiah was explained to him, this became the turning point in his life. After he accepted Jesus he testified in his glorious happiness to his uncle, a Jew, into whose home he had been received and where he lived until he was baptized. Then he was expelled from his uncle's home, a very painful experience. Then his life began anew, for he began to realize more and more that Jesus had something for him to do. He proves himself such a beautiful Christian character—cursed and disinherited by his own people, banished from his home, but never fearing and ever letting God lead him, he takes up training for missionary work. In his first attempt in service he was beaten, and at another time was thrown down a spiral staircase. The persecutions and cruel treatment that he received convinced him that God had not called him to preach to the Jews but to the gentiles. He tells of finishing his work in college and of his farewell. Listening to the call of God he goes first to Portugal, where he learns the Portuguese language. Being compelled to flee from Portugal, he goes to Brazil where he has still more exciting experiences. This interesting story will be continued, on and on, until we reach the close of the book.

We invite every Baptist lady in Circle A to meet with us and study this great mission book. We have not even begun to tell of this wonderful first chapter, just a brief outline. It is wonderful. We invite you one and all to come. You are missing something great. Perhaps you too have a work to do. Come and be inspired by his life and teachings and his faith in God.

T-BAR NEWS

The health of the community is good. The writer and Mrs. Terry are still improving.

There are quite a number of strangers in our community. We try to make them welcome, while they are in our community picking cotton.

On account of unfavorable weather the attendance at Sunday School was smaller than usual. The title of the lesson fit the times. When it comes to the money part, the dollar seems to be uppermost in the minds of the masses of the people, and not Christ.

The box supper at T-Bar, considering the weather, was a success. The net proceeds of the supper was about \$90.00.—Uncle Jim.

WOMANLY AILS

Kentucky Lady Got Well After Taking Cardui.

"I got down in health—suffering from womanly troubles which caused me much pain and worry," says Mrs. Rhoda Canary, of R. F. D. 6, Owensboro, Ky.

"My stepmother had taken Cardui when she was in my same condition, so I got to inquiring around among my friends about it and found several women who were taking it at that time. They all told me how good it was, so I told my husband to get me a bottle to try. That night he came home with a bottle of Cardui."

"I had a... which left me in a very serious condition. I had been in bed eight weeks and was unable to move in bed without help. By the time I had taken half a bottle (of Cardui), my strength began to come back. I could sit up in bed."

"I finished up that bottle and by that time I was able to walk across the floor. I continued taking Cardui for several months and I got well."

Methodist Ladies Study Latin America

For different reasons there were only ten present at the Study Class of the Methodist Missionary Society Tuesday afternoon, but those ten learned so much about the youth of Latin America that helped them. It is an established fact that it takes the young and impetuous to start new ideas and the students of the schools of Latin America are striving to better the conditions of their countries. Before they began to be educated they were dissatisfied with their religion and government. In their uprisings they would cry, "Down with the Priest!" and "Death to the foreigners!" But since they are becoming better educated much of this hatred is going out of their hearts and they are demanding, "Luz mas luz," light, more light. Mrs. Eldridge always has something to tell the class on the subject for the day. Mesdames Slaton and Callaway told much more about the Youth of Latin America. Reports from the Methodist school were given. Mrs. C. A. Thomas gave an account of the work of James Thomas, an educator and missionary of South America. She brought out very impressively what even one person can do for Christianity and education.

After studying about these young people, and the day being so beautiful and balmy that when Mrs. Eldridge suggested a picnic, we thought a dryad had kissed us and the years had fallen away and left us young maidens again. There was a scurrying here and there for various and suspicious looking packages that had been brought in by various members of the class. They were opened and placed on a cloth spread in the living room which in our imagination was a shady spot in the forest. When all were opened and spread on the cloth, h! there was a picnic lunch that would delight the heart of anyone. We know those who were absent will be sorry to learn that we ate and ate, but couldn't eat up their share of this picnic spread. What did we have to eat? Sandwiches galore, fruit salad, olives, potato chips, pickles, tea and cakes.

The next lesson will be Chapter V "Santas and Senoritas of the South." Come out and see what you can learn from "Ham Stewed Weathers Slaton."

Let's clean Tahoka!

Sam Jones.

Prof. C. L. Davis of Austin, Director of Agriculture of the Department of Education, spent the day here Tuesday on his annual inspection trip. He reports the work in

the agriculture department of our school to be doing well but he thinks a great many more pupils should be taking this work. He urges the farm boys to avail themselves of the opportunity to gain a knowledge of that which will be of practical value to them throughout life. He hopes that more of them will find it possible to enlist in this work.

CHURCHILL-WYATT

George Vernon Churchill of this
city and Miss Rose Wyatt of Midway
were united in marriage in O'Don-
nell Sunday night, Rev. W. K. Horn
performing the ceremony.

Mr. Churchill is employed at
Craft's Tailor Shop. The young
couple will procure rooms here at
the first opportunity and will make
Tahoka their home. The News
joins a host of friends in extending
good wishes and congratulations.

Messrs J. B. King and Dock Pow-
ell, constituting the J. B. King Land
Co. of Brownfield, were in Tahoka
on business Tuesday afternoon.
Mr. King has also been in the nurs-
ery business many years and he is
said to be well versed in the habits
of trees and knows what trees are
best adapted to this climate and soil.
He ordered an ad inserted in this
paper. If you are interested in
trees read this ad. If not inter-
ested get interested, for nothing
adds to the attractiveness of a home
or a town more than does the pres-
ence of stately trees.

Dayton—Sign of Intelligence

To divert their minds from greater troubles, the British people, or such of them as are articulate in their more intelligent Press, amused themselves with the doings at Monkeyville in America, as they playfully described Dayton, Tennessee. A rather disgusting element of the celebration was furnished by some visiting Americans who were not beneath currying British favor by seeming to ridicule their countrymen.

Now, however, rises Professor George McCready Price, M. A. (some time contributor to the Dearborn Independent), in the English Review of Reviews and informs the English people that the proceedings at Dayton, so far from revealing the Americans as a backward people, prove that the "United States is a more advanced country than England." Such a revolt on a scientific question would not be possible in England, says Professor Price, because the country people of England are not taught the elements of science. The fact that in the mountains of Tennessee there can occur an event which attracts the attention of the world that event growing out of a method of scientific teaching in the schools of even the more remote parts of the mountains, is the best indication that the Americans have gone further in popular education than the nations which interpret Dayton, Tennessee, as a sign of national ignorance. Professor Price practically says that if you wish to put over some of the speculations of so-called "science" to-day, you must select an ignorant community, for it can not be done in an educated community.

Dr. Price quotes Dr. Ritter of the University of California as seeing "signs that the whole battle ground of evolution will have to be fought over again; this time not so much between scientists and theologians, as among scientists themselves." Dr. Price, himself a geologist, follows this course; he keeps the challenge within the lines of science itself.

These are views to which the Editor of the English Review of Reviews invites the "serious consideration" of his readers. And they constitute a statement worth considering in this country. That Professor Price goes on to show how easily possible it is for men of the highest intelligence and best education to take issue with the evolutionary hypothesis on scientific grounds, does not call for comment now. But that the widespread interest of Southern States, in the doctrine of evolution in its relation to other things should have been used in this country as an example of the ignorance of those States, indicates how thoughtlessly Americans may bow to the tenor of un-American publicity. Intelligence enough and mental independence enough to call scientists to the bar, may be expected in a people who in the past have called the political science of the world to the bar and condemned it, and who now are sitting in judgment upon the economic science of the world. Men who ask questions, and refuse to stand cap in hand, are worthy the scientists' best mettle. To treat such people with scorn, shows weakness.—Dearborn Independent.

Judge B. H. Howard of Crosbyton was here Saturday night and Sunday, the guest of his daughters, Miss Dete Howard and Mrs. Frank Hill.

SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

CLAY BENNETT

Beginning in this issue, there will be in each edition of the Tumbleweed a write up of some Senior written by a Junior.

Clay Bennett, the son of Mr. and Mrs. Corley Bennett of Tahoka, is a member of the senior class of '26. Clay started his high school career in Post, Texas, 1920. He completed his freshman and sophomore year while there, making the highest grade in Algebra.

He moved to Tahoka, October 6th, 1924 and joined the junior class. Clay played football, basket ball and baseball. Last year, he was captain of the basket ball team, playing center. In football last year, his place was playing left end. This year it is right half back.

In 1925 he took part in the track meet. He ran both the 100 yard and 200 hundred yard dash and jumped in the high jump contest. This year, Clay is the president of the senior class, also the athletic club. These two offices proves the popularity among the student body and his capability of leadership.

HOME NURSING GIRLS VISIT LUBBOCK SANATORIUM

The Home Nursing girls, under the direction of Miss Griffin, went to Lubbock October 19, for the purpose of visiting and inspecting the Lubbock Sanatorium. Miss Yates, the head nurse, very carefully directed and explained every phase of the sanatorium work. The laboratories were visited first. Such preserved specimens as tumors, gall stones and appendicitis were exhibited here.

The next room visited was the X-ray room where Miss McIntire, a special nurse, explained the X-ray machine and the radiographs. At this an X-ray was taken of two of the girl's heart beats, which gave the visitors a chance to see the action of the human heart.

The class was then conducted to the nurses rooms. There the sterilization of linens and the making of patients beds were observed. This part of the trip was particularly interesting since this had been the class project for the past two weeks.

Another interesting observation was the Alpine lamp, which is used in the treatment of skin diseases. This is considered a very rare machine due to the strong rays of light produced while in operation.

Before leaving, the class was granted the privilege of watching an appendicitis operation. Dr. Krueger, the surgeon, explained very definitely each step of the operation. Some of the girls were unable to stay the entire time, and left before the operation was completed.

This trip was not only interesting but highly instructive. Such a practical lesson proves that both the pupils and instructor are doing an excellent work in the Home Economics field.

WHERE IS OUR PEP?

Are our boys doing their best in football this year? Can they do their best without any encouragement from the student body? Must they unaided, win the honors for the school? What part of the burden should rest upon the other students? Where is our pep? our school spirit?

In order to do their best, the boys must have the support and co-operation of the students of the school. If success is to be achieved in any undertaking there must be enthusiasm and co-operation. The school is what the student body makes it. Since it has undertaken the task of having a good football team, it must support its players. Let's get behind the boys. When visitors come to our games, let's show them that we put up a great fight and make them realize what they are up against.

As the home industry prospers, it reaches out. The new Main Street becomes inadequate for their housing, and they begin to look for quarters on the side streets. One effect of this will be to increase the value of the lots; residence lots will become the site of business houses. We sink or swim together. Some people have a mania for buying out of town. They fail to investigate. They forget to visit the local merchant, but blindly send away their money and trust to luck that it will prove satisfactory.

Compare
these Better BUICK Sedans
with "Coaches"

These finer closed cars are built on the famous Buick chassis with the 21-year-proved, 60 and 75 horsepower Buick Valve-in-Head engines. Extra power!

And they have the famous "Sealed Chassis" and the new "Triple Sealed Engine." No other car, regardless of price, furnishes this completeness of protection for driving parts.

And these Buicks have the characteristic Buick charm of body profile. They are finished in Duo. They seat five full-grown people in roomy comfort. They have the Fisher VV one-piece, ventilating windshield, automatic windshield wiper, and a host of like necessities. Buick's exacting closed car standards prevail in their Fisher-built bodies.

Come in and see how much superior these Better Buick Sedans are to "Coaches", before you spend your money!
