Two Sections—16 Pages

NUMBER 4

Fuller's Monday

Fuller, a resident of the community for 29 years, Monday afternoon at 3 p. m. at the Peryton Hospital. He is 65 years of age. He had been in ill health for several years. Funeral services will be held at the Boxwell Bros. chapel Monday afternoon at 2:30 o'clock with Rev. Jim H. Sharp officiating. He was engaged in a wide variety of occupations. He was at times a suit salesman, a salesman, mechanic, carpenter, plumber, and painter. He headed a dance several years, and could play any instrument in the band. For the past year or so he confined his activities to selling polo and insurance. His survivors include two sisters, Mrs. Chick and Mrs. Ray of Peryton, a half brother, Enzel of Edmond, Okla., nephews and nieces.

Western Dance Saturday Nite

Mid-time Western dance will be held Saturday night at the Peryton Hall for the benefit of the Peryton Community Center. The dance will be square dancing, dancing, and lots of fun. Admission is \$2 per couple. Everyone is invited.

Ericksen Partnership

Announcement has been made by J. W. Ericksen and J. H. Brashears, accountants and tax collectors, with offices located at 101 N. W. Ericksen and J. H. Brashears, accountants and tax collectors, in the consolidation of their business. Ericksen will also maintain the estate and insurance business.

Rangers Meet Phillips Friday, Last Home Game

The Rangers will play their final home basketball game Friday night when they meet their arch rivals, the Phillips Blackhawks, in the local gym. Both the A and B teams will play, with the first game starting at 7 p. m. Peryton edged Phillips 30-27 last week in the only other meeting of the year between the two teams. The teams are evenly matched and with the torrid school rivalry thrown in for extra measure, fans are assured of a good contest. After this game, the Rangers will play Canyon and Dalhart away from home before competing in the district tournament at Dalhart on Feb. 18-19.

New School Tax Collector Named

J. W. Erickson has been appointed by the board of trustees, Peryton Independent School District, as tax assessor and collector for the next year, and will begin his duties on February 1. He succeeds F. B. Sumpter, who has handled school taxes for several years.

Couple Injured Saturday in Pickup Wreck

Mr. and Mrs. Verbon Smith suffered minor injuries Saturday morning when their Ford Pickup turned over about four miles south of Peryton on highway 83.

They were traveling toward town when the vehicle hit a strip of icy pavement and got out of control. It turned over and came to rest on the side opposite the driver. Mrs. Smith was pinned inside the cab and Mr. Smith was thrown out. See No. 1, Page 8

Ranger Basketball Schedule

Feb. 1—Canyon, there
Feb. 8—Dalhart, there
Feb. 18—District Tournament, Dalhart

CHAMBER OF COMMERCE OFFICIALS—Officers and directors of the Ochiltree County Chamber of Commerce pose for a picture at the annual C. C. banquet. They are, left to right, Jake LeMaster, Tom Slack, Cecil Dodd, Harry Nail, Lee Little, Earl Waide, Miss Mary Ruth Taylor, Fred Osborne and J. H. Brashears.—(Herald staff photo.)

The Earthquakes You've Been Hearing Lately Are Strictly Man-Made; It's Only Dynamite

Those earthquakes that you've been hearing lately are strictly man-made.

Residents of a wide area centering north of Peryton have been disturbed by thunderous reverberations the past week, and when the house trembles, it feels like an earthquake. But it isn't.

The trembling is caused by a new process of seismicograph exploration, being done in this area by the Republic Exploration Co. of Tulsa, Okla. Mel Burr, in charge of the 9-man crew working in this area, stated that this is a brand new process and this crew is the only one in the country using it, as far as he knows. This method consists of shooting off dynamite charges above the ground, in contrast with the conventional method of drilling a hole and setting off the charge in the bottom of it.

First National Installs New Deposit Boxes

The First National Bank has completed installation of new safety deposit boxes which offer patrons the latest in this type of protective equipment.

These new boxes were specially made to fit the new vault built when the bank was remodeled several months ago. There are 855 boxes, in five sizes, all of fireproof polished nickel construction. The old vault contained 350 safety deposit boxes. There are seven large safe-type boxes, with combination locks, which are rented to the school, county, city, or business, whose volume of records necessitate a larger than usual storage space.

The safely deposit boxes were custom made by the Herring Hall-Marvin Safe Co., one of the most famous firms in the field. The vault has a full wall size mirror at the east end, making the vault appear twice as large as it is.

With a vault wall 12 inches thick, a heavy fireproof door, and the fireproof safety deposit boxes, the customers are assured complete protection in case of fire.

Halliburton Co. Location in Peryton Now Seems Definite

Reports that the Halliburton Oil Well Cementing Co. will locate a bulk cement plant in Peryton are true, as near as the Herald can find out. Although Halliburton Co. has not been completed, the Halliburton Co. has made arrangements to lease a 400-ft. trackage site from the Equity.

C. L. Bell, Halliburton district manager, has been in Peryton several times during the past month or so, making arrangements to locate the plant here.

The crew has been working just across the state line, about 10 miles north of Peryton. The blasts have been felt by a man living a mile south and a mile west of Beaver, and a man living a mile east of Balke had some plaster shaken off his walls, he reported to Mr. Burr. The Balke man was 11 miles away from the blast.

The charges are set off in a 13-point pattern. Each charge is put on top of a steel stake about eight feet above the ground. For a while, Burr said, they used 10 lbs. of dynamite for each of these points, but that made too much of a blast, and they have now cut it down to 5 lbs. per point, making a total of 65 lbs. of dynamite exploded at a time. The blast from this can easily be heard for 20 or 30 miles.

The instruments are located one-half mile from the blast pattern, Burr said. While reports have been turned in regarding window panes being blown out 10 miles away, the men operating the charges set them off only 300 feet away, and suffer no ill effects. Burr and the crew are living in Beaver at present. He stated that they would work on south across the state line. This, then, should serve to reassure the more nervous of our population regarding the earthquakes in the vicinity. If we still have earthquakes when this crew leaves, then we may place some credence in the reports of nature-made earthquakes.

Monday is Last Day To Pay Poll Taxes

Monday, January 31, is the last day to pay poll taxes, as well as all property taxes. This year will be an off year, politically, but there are two local elections coming up as well as the possibility of a state constitutional amendment. Both the city and school elections will be held in April, and both elections are important to Peryton. There have been only 1,195 poll taxes paid thus far, compared with a total of 1,971 last year.

PTA to Meet Monday Night

The meeting of the Peryton Parent Teachers Association, which was scheduled for Monday night, January 24, has been postponed because of the bad weather to next Monday night, January 31.

Mrs. O. L. Anderson, high school homemaker teacher, will speak on "The Home—A Practical Laboratory to Train for Home-making and Economic Independence."

The senior high school chorus, under the direction of Miss Len Lowe, will sing several numbers.

Monday is Last Day To Pay Poll Taxes

This year will be an off year, politically, but there are two local elections coming up as well as the possibility of a state constitutional amendment. Both the city and school elections will be held in April, and both elections are important to Peryton. There have been only 1,195 poll taxes paid thus far, compared with a total of 1,971 last year.

C of C Membership Drive to Start in Near Future

The 1949 membership drive of the Ochiltree County Chamber of Commerce will start in the very near future, "just as soon as the weather clears off." That's the decision of the membership committee, headed by chairman Louis Bryan.

A new high for C. C. membership will be attempted this year, with many more business firms establishing in Peryton since the drive last year. In 1948, membership was raised from 214 to 249.

Members of the committee are Louis Bryan, chairman, Lester Baumann, Clifton Bell, C. W. Foote and Paul Loffin.

Assistants who will help during the drive are Jim Anderson, Bob Drake, J. D. Pritchard, E. D. See No. 2, Page 8

Mrs. Wilbanks Dies Thursday Of Rifle Shot

Mrs. Virgil Wilbanks of Spearman died at 8:30 a. m. Thursday in the Sanford Hospital, the victim of an accidental rifle shot wound received Wednesday afternoon. She was brought to the hospital at approximately 4:30 p. m. Wednesday and was operated on shortly after. Although she recovered consciousness and rallied somewhat, the wound was too serious to overcome.

The accident occurred Wednesday afternoon, at approximately 4 p. m., while Mrs. Wilbanks and her husband, prominent rancher of Hansford county, were at their ranch south of Spearman, near the Canadian river feeding cattle. They noticed a coyote nearby, and Mr. Wilbanks took a shot at it.

When he laid the gun down in the car, it discharged, shooting Mrs. Wilbanks in the stomach. The husband rushed his wife to Peryton, arriving at the hospital about thirty minutes later.

Longest Cold Spell of Winter Hits Plains; Thaw Due Today

Moisture Total Over Inch During January

Moisture totals for the current three-day spell of snow and sleet amounts to 3.3 inch, according to the official rain gauge maintained by Judge Jack Allen. This is a total of two inches of sleet during Sunday, Monday and Tuesday, with a trace Wednesday. Total moisture for January now stands at 1.34 inches, as follows:

Jan. 10	.39
Jan. 11	.57
Jan. 14	.05
Jan. 23	.04
Jan. 24	.16
Jan. 25	.13
Total	1.34

Peryton Markets

Tuesday, Jan. 27, 1949

Wheat	\$1.95
Barley	1.05
Oats	.85
Milo	2.00
Stags	.26
Heavy Hens	.22
Light Hens	.22
Fryers	.38
Hides	.61
Cream	.61
Eggs	.35

Weekly Livestock Summary

Top hogs went at \$19.25 at the Peryton Sales Ring this week, and heavy hogs ranged from \$15 to \$15.50. Choice shoats were selling high and there was a nice run of these pigs.

Baby calves were up and choice grades were bringing \$20 or better. One baby calf only a few days old brought \$30.

Heavy bulls in good flesh brought from \$19.50 to \$20.00. Heavy cows in good flesh brought from \$15 to \$17. Small heifers and steers in good flesh brought \$20 to \$24. Lighter stock cattle ranged from \$17 to \$19.

Kid ponies brought a good price and other grades of horses sold at a lower level. If weather conditions are favorable this Friday, a big run of fat cattle and stockers are expected at the sales ring.

Near-Zero Temperatures Since Sunday; Snowfall Thursday On Top of Two Inches of Sleet

The longest cold spell of the winter moved into the Plains Sunday night, bringing sleet, snow and near-zero weather. The thermometer plunged from 55 degrees to 4 degrees above zero when the cold front moved in Sunday night. Two inches of sleet came with the cold on Monday, Tuesday and Wednesday, and Thursday, the day the weather was to break, opened with a heavy snow, still falling as the Herald went to press.

1949 License Plates Go On Sale Feb. 1

The 1949 license plates for Ochiltree county have arrived. Sheriff Ray Phagan has announced that car owners may purchase and put on their new license plates any time between Feb. 1 and April 1. Until last year, plates could not be put on until March 1, but they can go on as soon as purchased now.

The new plates are orange, with black numerals and figures, a reverse of the color scheme last year.

Phagan stated that owners of any vehicle bought between now and April 1 will have to purchase a 1948 license plate, because 1948 time does not expire until March 31. However, owners may purchase a 1949 plate at the same time and put on their new plate then if they wish.

This ruling applies to cars bought in Texas or outside the state. In either case the car will have to be registered for the unexpired time.

Title to the automobile and the 1948 Texas registration receipt must be presented when the 1949 tags are bought.

Numbers of Ochiltree passenger car tags for 1949 range from AD 6400 to AD 8799. Truck tags are MA 7550 to MA 8049 and farm truck tag numbers are from RA 7650 to RA 8649.

The Peryton schools were dismissed Tuesday because of low gas pressure. The Balke schools did not operate Monday or Tuesday and the Waka schools were closed Tuesday.

Quite a few cases of frozen water pipes had been reported to the city by Wednesday and more pipes were considered in danger if the cold continues.

Highways, although dangerous, have been passable, and busses have run on schedule.

C of C Budget Set at \$12,470

The budget committee of the Chamber of Commerce has set up a budget of \$12,470 with which to operate the organization during 1949, it has been announced. This is an increase of \$390 over the budget for 1948.

Members of the budget committee are Vance Apple, Virgil Castle, Fred Osborne and J. D. Pritchard.

Peryton Boxers In Golden Gloves Meet at Amarillo

Peryton boxers were lucky in the drawing at the regional Golden Gloves tournament in Amarillo. All three boxers drew byes into the semi-finals, and one drew a bye to the finals.

Clyde Jones, competing in the open heavyweight division, will fight in the semi-finals Friday night, and if successful will fight again Saturday night in the finals. Barney Baker, 126-lb. school class, will fight also in the semi-finals Friday night.

Raymond Powell, fighting in the lightweight open class, drew a bye to the finals on Saturday night. His opponent will either be Jose Perez, last year's middleweight champ, or Robert Quisenberry of Lockney, whom Powell beat last year for the school lightweight title.

Dean Maberry, who won the welterweight schoolboy title in the district tournament at Borger last week, has withdrawn from competition in the regional meet.

Jones did not compete in the district meet at Borger, but took the place of Virgil Patterson, winner without opposition in the district meet. The switch was made with both fighters' approval. Jones has had considerably more experience than Patterson.

Neighboring Towns Invited at Station KEYE Formal Opening

Radio station KEYE, on the air since November 19, will hold its formal opening and open house for the Peryton area on Saturday and Sunday, Feb. 5-6.

Featured in the formal opening will be a series of "home-town" radio programs from neighboring towns and communities.

There have been 13 neighboring towns invited to attend, and acceptances have been received from many of them, stated I. R. Buchanan, station manager.

Those invited to participate are Higgins, Canadian, Shattuck, Folett, Darrouzet, Booker Spearman, Gruver, Hardesty, Balke, Beaver, Laverne, and Miami.

These 25 minute programs will be given to the groups from each town, to present any kind of a program the local groups see fit.

These "home-town" programs will be heard during the day Saturday and Sunday.

Open house at the station begins at 9 a. m. Saturday, and will be held all day. Sunday open house will begin at 1 p. m. Souvenirs and refreshments will be served to guests during the two days.

Work Starts Remodeling Virtue Store

Work started Friday on remodeling of Virtue's department store, a project which will modernize every feature of the building.

Construction plans call for a modern glass brick and tile front, glass door, new tile floors, completely new fixtures, and re-arrangement of the various departments and office.

Carl Barrett, store manager, stated that Virtue's would remain in operation during the remodeling, except for a few days when the floors are laid.

LOOKING IT OVER—Part of the crowd that thronged to the Peryton Motor Co. last Saturday to see the new 1949 Chevrolet automobile. Approximately 1,500 visitors came to the open house to see the new car. The man in the center is Garland Redfern of the firm, explaining features of the automobile.—(Herald staff photo.)

AND OFFICERS—D. D. Monroe of Clayton, N. M., (left), with Cecil Dodd (center) and J. H. Brashears (right) at the Chamber of Commerce banquet held last week. Monroe, a past president of Rotary International, was principal speaker. Dodd is vice president and Brashears is president of the Chamber for 1949.

HAPPY DEER HUNTING—Archers P. R. Childs, left, and Tom Loveland, of Alameda, Calif., bring home the deer after a hard day's hunting. Hunting by bow and arrow, a throwback to primitive days, became increasingly popular during 1948.

Railings—Between Friends

CHICAGO (AP)—Two painters—brothers—came to repaint a home in suburban Deerfield.

The older brother told the lady of the house the decorative railing on the roof of the sunporch should be torn down.

"One strong wind," he said, "and poooof!" The railing was removed.

The next day the younger brother came to the woman, pointed to the discarded railing and said: "May I have it? I'd like to put it on my house."

He did, too.

Mosses are essential to many higher plants, conserving moisture and preventing erosion. Bears use moss plants for bedding for their long winter hibernation.

Thirty Texans Have Won Congressional Medal Of Honor; 24 of Them in World War II

WASHINGTON (AP)—Thirty Texans have won the nation's highest military award, the Congressional Medal of Honor, while serving in the Army.

All except six of the decorations were bestowed for valor in World War Two.

Their feats are recounted in a new 467-page handsomely bound volume. Prepared as an official publication of the Army, the book does not include Navy and Marine Corps winners of the Medal. Since the Medal of Honor was established by Congress in 1862, only 2,116 have been awarded to soldiers. More than half of the total, 1,200, were granted for heroism in the Civil War, Texas, on the side of the Confederacy, has not a single man among those honored in that conflict.

The next largest group receiving the award were those who fought in the Indian Wars throughout the West between 1861 and 1898. The decoration went to 416 fighters in these campaigns.

Sixty-one of the medals issued for Indian fighting grew out of skirmishes in Texas, mostly along the Brazos River, Wichita River, Red River, Upper Washita, Pecos, Kickapoo Springs and at Staked Plains.

Unfortunately, the record in regard to these battles is barren

of details. As full an account as given in any citation is that Sgt. Zacharia Woodall of Alexandria, Va. for his encounter with Indians along the Washita River, Texas, Sept. 12, 1874. It reads:

"While in command of five men and carrying dispatches, he was attacked by 125 Indians, whom he with his command fought throughout the day, he being severely wounded."

Three Texans were among the recipients of the Medal of Honor for Indian campaign fighting. They were:

John J. Given, a cavalryman, born in Davis County. His award, issued Aug. 25, 1870, was for "bravery in action" a month earlier along the Wichita River in Texas.

Robert L. Howze, cavalryman, born in Texas and entered service there (no localities mentioned), won the medal for "bravery in action" at White River, S. D., Jan. 1, 1891.

John McLennon, an infantryman, born at Fort Belknap, Tex., was awarded the medal for "gallantry in action" Aug. 9, 1877 at Big Hole, Montana.

Seventy medals of honor were issued to heroes of the Philippine Insurrection, between 1899 and 1913.

One Texan is on this list. He was Pvt. George M. Shelton, a native of Brownwood, who entered the service at Bellington, Tex. His citation, for a deed at Hlongas, Leyte, P. I., on May 6, 1900, reads:

"Advanced alone under heavy fire of the enemy and rescued a wounded comrade."

With the outbreak of World War One the requirements for winning the Medal of Honor were made far more stringent. For this reason only 95 were issued to those in World War One—including two to Texans—and only 292 to those in World War Two.

It is to be borne in mind these figures are only for the army and the Air Force. The latter had not yet become a separate branch of the armed forces.

The man, the Army says, that received more decorations in World War Two fighting, than any other soldier is a Texan. He is Audie L. Murphy of Farmersville, who as a Second Lieutenant of an infantry company won his Congressional Medal of Honor for bravery in an encounter near Holtzwihr, France, Jan. 26, 1945.

His citation reads: "Second Lieutenant Murphy commanded Company B, which was attacked by six tanks and waves of infantry."

"Lieutenant Murphy ordered his men to withdraw to prepared positions in a woods, while he remained forward at his command post and continued to give fire directions to the artillery by telephone. Behind him, to his right, one of our tank destroyers received a direct hit and began to burn. Its crew withdrew to the woods. Lieutenant Murphy continued to direct artillery fire which killed large numbers of the advancing enemy infantry."

With the enemy tanks abreast of his position, Lieutenant Murphy climbed on the burning tank destroyer, which was in danger of blowing up at any moment, and employed its 50 caliber machine gun against the enemy. He was alone and exposed to German fire from three sides, but his deadly fire killed dozens of Germans and caused their infantry attack to waver.

"The enemy tanks, losing infantry support, began to fall back. For an hour the Germans tried every available weapon to eliminate Lieutenant Murphy, but he continued to hold his position and wiped out a squad which was trying to creep up unnoticed on his right flank. Germans reached as close as 10 yards, only to be mowed down by his fire."

"He received a leg wound, but ignored it and continued the single handed fight until his ammunition was exhausted. He

then made his way to his company, refused medical attention, and organized the company in a counterattack which forced the Germans to withdraw.

"His directing of artillery fire wiped out many of the enemy; he killed or wounded about 53. Lieutenant Murphy's indomitable courage and his refusal to give an inch of ground, saved his company from possible encirclement and destruction, and enabled it to hold the woods which had been the enemy's objective."

Medan Port Nearly Ready

MEDAN, Sumatra (AP)—The Dutch are nearing the end of a three-year struggle to clear away mud and sunken ships which have clogged their gateway port to rich East Sumatra. At Belawan, Port for Medan, freighters as large as Liberty ships can slip into the quay one at a time to load rubber, palm oil and fine tobacco.

Within a few weeks, Dutch Navy crews expect to finish the exacting task of cutting and lifting underwater sections of a loaded ammunition ship blocking an important section of the harbor. Then five ships can take one cargo at one time.

The Japanese swept into the Indies in early 1942, blasting Dutch ships at Belawan and partially sealing off the shipping point. For years, Dutch engineers had been dredging away river mud that washed into the harbor. The Japanese neglected the work. A large bar formed.

The port, where large ocean liners with drafts of 36 feet could tie up before the war, could take only small craft with 16-foot drafts by last spring. Navy technicians and civilian workers dredged the part to a depth of 22 feet by July. Now a channel 28 feet has been cleared. Ships of 10,000 tons can enter.

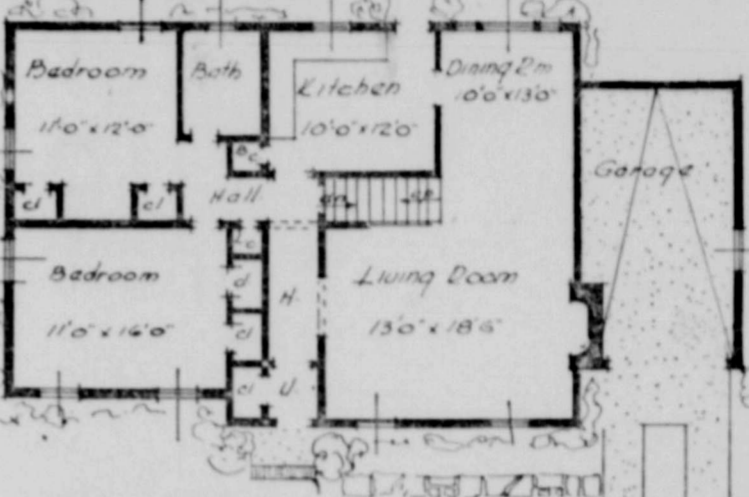

To clear away wrecked ships, a 300-ton crane was sent from Europe in March. It was lost in a storm in the Mediterranean. Another crane, with a 200-ton capacity, started out again by sea and finally arrived two months ago. Clearing the harbor has progressed rapidly since then.

There were 2,800,000 tractors on United States farms in Jan. 1947.

One of the great unsolved puzzles is how birds find their way during migration.

The largest mosses in the southern United States may reach four feet or more in length.

HOMES FOR AMERICANS

"THE WANTAGH"

(AP) Newsfeatures MODERN VERSIONS of the Cape Cod style of house hold their popularity among home buyers and conservative mortgage lenders. Here is a plan, "The Wantagh," by Arthur E. Allen, architect, 90-04 161st St., Jamaica 2, N. Y., that combines the traditional features of an old colonial home with the modern open plan for living and dining areas. This house, exclusive of garage, covers an area of 1,200 square feet and has a volume of 26,400 cubic feet with full basement. It has an expansion attic. Rooms are arranged efficiently around a center hall which gives direct access to any room. Seven closets in addition to basement and attic provide ample storage space. The plan lends itself to a wide selection of standard building materials for economy of construction.

Poison Aids Thieves

SILMA, India (AP)—Thieves in the East Punjab Railway were operating on a new technique before they were found out and 14 of them arrested. Dressed in military uniform, they used to offer poisoned food to traveling military officers. After the victims became unconscious, the thieves stole their belongings.

In November, 25,126 feathers were counted on a whistling swan.

Wet Drillings Reduces Silicosis

MOSCOW (AP)—The "Medical Worker" has reported progress in the battle against silicosis.

The paper states that experiments in the Urals in "wetting" have resulted in a 50 per cent below the danger level in the respiratory area.

It was noted that the largest mine in the "wet drilling" system.

More than \$12 worth is wasted annually by age farm tractor owners in the United States, according to experts.

Families Can Get More for Money by Planning Ahead With Home Accounts

ALLEGEE STATION, Dec. 12.—Natural for farmers to want to look ahead and give some consideration to planning their farm operations. Sometimes these same "ahead" folks forget about family expenses and the in that pays these expenses that's really "ahead" from people don't think about Gladys Darden, assistant management specialist of A. & M. College.

Many families find it hard to stay within the income any especially in these recent years of high prices. Some get more for their money by planning ahead rather than "spending out" from just the 233 Miss Darden, budgeting the income, and unnecessary things are left until later.

A few questions come up: What to do with the in some folks wonder whether to buy more land, or get on the mortgage paid on another family has to be. Another sending Johnny to college or buying a new tractor. The whole family should go to huddle in matters such as these, says Miss Darden.

There is a guide to better planning offered by this special: (1) Know your income. Family can figure this percentage from past year's records and present outlook. (2) Know your needs, and decide what is most important. (3) Know what to look for, read labels and make comparisons. (4) Keep records of the what goes out on both operations and family and expenses.

Someone dear as a birthday near!

your "happy birthday" will mean ever so much more when you remember with a fine Gibson card from our wide selection.

Warrior Printing Co.

Miss Darden says that families who keep records for the first time are pleased at the amounts spent for unnecessary items during a year. To help avoid keeping records and still get the best value for their money, she suggests getting a record book with such headings as: shoes, foot clothing, household repairs, "units" type equipment, medical care, recreation and miscellaneous.

This makes the whole job easier when it's possible to bring down the expenses in the present column. And if you get the book now, it will be ready to work for you January 1.

Put a pencil with the record book and keep them in a handy place—in the business center of the house, so you'll know where it is. Having a regular time for entries, suggests Miss Darden. Some families find once a week is convenient. Others may prefer a day to day basis.

Getting bills and sales slips as the purchases are made takes the guessing and forgetting out of the record keeping.

Keep the record book handy.

Degrees Set Record

NEW YORK (AP)—A record breaking number of degrees were earned by college graduates during the year 1947-48.

According to Robert C. Story, Educational Statistician, U. S. Office of Education, approximately 314,000 degrees were conferred during this period. This exceeds the previous record, set in 1939-40, by almost 100,000.

Of the group, 173,000 men and 95,000 women received the bachelor's degree and 46,000, advanced degrees.

On the bachelor's level most degrees were conferred in business and commerce; in engineering and in education. The leading fields of study on the master's level were education, engineering, and business and commerce in the order named.

The universities granting the largest numbers of degrees included: New York University, 6,359; University of California, 6,307; University of Michigan, 5,801; University of Illinois, 5,797; University of Wisconsin, 4,731.

English was the subject in which the greatest number of institutions conferred bachelor's degrees: History, chemistry, education, mathematics and biology.

The rabbit was domesticated by the ancient Greeks and Romans.

The Genie

Jack and the Beanstalk

The Cyclops

THERE WERE GIANTS IN THOSE DAYS—Scientific discoveries of ancient giant ape-men make you wonder whether the stories about these giants are fact or fiction. Scientists have uncovered remains of a giant near Peking who weighed 1,000 pounds when living. The Java giant had a jaw twice as large as a gorilla.

SPORTS AFIELD

By Ted Kesting

In Nature the battle does not always go to the strong and fierce. Consider the cottontail, and his vigorous prosperity, advises Byron Dairyple, author of many outdoor articles.

The well-loved little rabbit, known everywhere in the United States and hunted from border to border and coast to coast by millions, is not, as he has always been portrayed, a cute little bunny of bedtime stories, or a cartoon character. He is actually a sly, crafty soldier of fortune who has padded silently about, chucking inwardly over the hoax he has perpetrated upon his neighbor, including man.

He has managed this great hoax by taking the role of forage beast in his world of enemies. He has aroused our sympathy and love by posing as the meekest of the meek, all the while prolifically reproducing his species. He has attained an enviable position in the world of wildlife; he consorts with mankind and prospers!

We must assume that the cottontail started in some restricted territory. Yet today his beat covers almost every section of the United States—and more. He has pushed his trails up mountain slopes of the West, out into southwestern deserts, felt his way into the cold of southern Canada, probed the tropics below our borders and on down into South America. No timid spirit ever colonized such vast, varied and dangerous lands.

To the rabbit, every moment is filled with personal danger. Hawks, owls, foxes, wolves, bobcats, house cats, dogs, hunters seek him always and everywhere. Yet he leaves the mark of his hunger for adventure everywhere. He goes out in plain view of all the dangers which beset him.

Perhaps his philosophy is primarily one of fateful resignation, but certainly there's nothing defeatist about it. Curiously, he holds a wry sort of natural power block, for by suddenly stopping his breeding, he could starve his enemies and thereby shattering alter the entire wildlife economy.

Approximately 8,000 tons of garbage are handled every day in New York City.

Daring Boys Killed in Berlin Ruins

BERLIN (AP)—Western Berlin's newspapers are waging one of the world's strangest safety crusades—designed to stop daredevil children from digging for scrap materials in bomb ruins to earn money.

Under the slogan "Death Lurks in the Ruins," the campaign is prompted by an alarming increase in the accident toll involving youngsters killed or maimed under collapsing walls in the city's acres of ruined buildings.

Hardly a day passes but some German is a victim of such an accident, especially as fall winds and wet weather promote the collapse of weakened masonry. A further hazard is unexploded bombs and shells still buried in the rubble.

The newspaper "Sozial Demokrat," leading the safety campaign, has demanded criminal prosecution of adults who hire children to go picking scrap

metals and wood out of ruins. The newspaper also demanded action against parents who permit their children to engage in this business and of scrap metal dealers who buy from children.

Some adventurous kids are said to make neat earnings in their scrap hunting. But they have to be daring—or just foolhardy. Some are seen climbing up pipes to reach third and fourth story balconies or along ledges to pry out surviving window frames. They often clamber where experienced salvage crews equipped with ropes and safety belts, hesitate to operate.

Their chief booty is old plumbing fixtures and cable and wiring.

Liverworts are close relatives of mosses, but are more primitive in structure.

Liverworts are found in damp shady places, clinging closely to decaying logs, bark, or leaves.

Many losses still have names given them by the Greek botanist Dioscorides and the Roman naturalist Gaius Plinius.

Rules of Etiquette Okay, But Rules of Road Good Bet, Too

The American public has high regard for the rules of etiquette in the drawing room, but another code of conduct enjoys less esteem—the rules of the road.

That is the conclusion of the National Safety Council after a check of the nation's traffic accident statistics, which show that in almost every one or more drivers were violating some traffic law.

A speed violation was a contributing factor in one out of every three fatal accidents. Drivers under the influence of alcohol were reported in 8 per cent of all fatal accidents. Other improper driving contributed to one-half the fatal mishaps, according to the Council.

Education Planned

The frequency of traffic law violations has led the Council to sponsor a "Know Your Traffic Laws" educational effort in February as part of the continuing

3. Slow down before you reach an intersection. Anticipate a car on the cross street.

4. Despite the legal rules, don't insist on the right-of-way at the risk of an accident. Humility is a small price to pay for safety.

Horse Makes Record Run

MIAMI (AP)—Horse players may do well to keep an eye on the racers trained by L. A. Brulie this winter? Are they fast? They were the first to arrive at Hialeah for the season and were 12 hours ahead of schedule. The explanation: the express car bringing the eight horses were hooked to a streamliner in Washington by mistake, and made the trip to Miami in record time.

Rain is formed by the further condensation of the moisture in a cloud.

Mosses lack vascular tissue, and hence rarely attain great size. The vascular tissues provide a system of pipes or tubes for transport of water and food.

Some Race Tracks Run When Horses Are Gone

Newsfeatures
NEW YORK—The racing fan probably thinks of the race track as a rather desolate place during the off-season and for the most part it is, but there are times when it is abuzz with activity other than equine.

Many Thoroughbred Racing Association tracks are used by community groups and organizations for activities ranging from kite-flying contests to flower shows and Narragansett Park is each year the scene of the seven-day Shrine Circus for the benefit of the Shrine crippled children's hospital.

Proceeds of a horse show held annually at Garden State Park benefit the West Jersey Hospital, and Suffolk Downs at East Boston, Mass., is turned into a speedway once a year for the running of the "Soap Box Derby."

The California International Flower Show is scheduled for this Spring at Hollywood Park and current plans materialize Tanforan at San Bruno, Cal., will be used for community sponsored concerts.

Pure-bred cattle and livestock shows are no strangers to race tracks, such as Ak-Sar-Ben at Omaha; Timonium in Maryland; and Keeneland at Lexington, Ky. Belmont Park, Churchill Downs, Santa Anita and others have been the scene of numerous picnics and outings held by church groups, the Boy Scouts of Amer-

ica, the YMCA, and various civic and youth groups. In addition to providing two playgrounds on property adjoining its grounds, Belmont Park has opened a new 16-acre parking field as a play area during the off-season.

In addition to its use for truck rodeos, parade formations and other activities, Hollywood Park's grandstand provides storage and sorting space for the local post office during the Christmas rush.

Hialeah Park in Florida, nationally known for its horticultural beauty, is open the year around as a park to which the admission is free.

Lehman Infant Dies Monday

Simple funeral services were held in the Boxwell Bros. chapel Tuesday afternoon for Sandra Sue Lehman, infant daughter of Mr. and Mrs. Ted Lehman. The baby died at birth, Monday, Jan. 24.

Rev. Charles E. Boatman conducted the services.

Survivors include the parents, Mr. and Mrs. Ted Lehman, brother, Donald Ray, Beaver, and paternal grandparents, Mr. and Mrs. John Lehman, Gray.

Mrs. George Cutler has been ill at home with the flu this week.

BOAT ON A HILL—A ship standing on a hill near Milwaukee may startle visitors. But Daniel Saloupis, the builder, is no Noah. Fact is, the ship's anchored in concrete and wouldn't float even if there was a flood. It is 40 feet long and 15 feet wide. Saloupis, a Milwaukee barber, figures it will be cheaper than a house. And he had training in ship building as a youth in Greece. At the right Saloupis is shown at work on the job. At the left is a view of the ship from a distance. Saloupis is a bachelor and expects to make his home in the ship when he gets it finished. But he is in no hurry. He thinks maybe he can finish the job some time next spring. His only plans are in his head and he has spent about \$300 on his project so far. And think of the fun he is having as his own builder!

Boom on for Italian Soccer; Stadiums Aren't Big Enough

By C. E. BRUSINI

Newsfeatures
ROME—For millions of Italians, 2 p. m. Sunday is the big hour of the week.

That is kick-off time for soccer, the country's No. 1 sport.

Soccer—interest in which is heightened by heavy bets and by nationally played pools which make new "millionaires" (in terms of lire) weekly—is constantly expanding its audience.

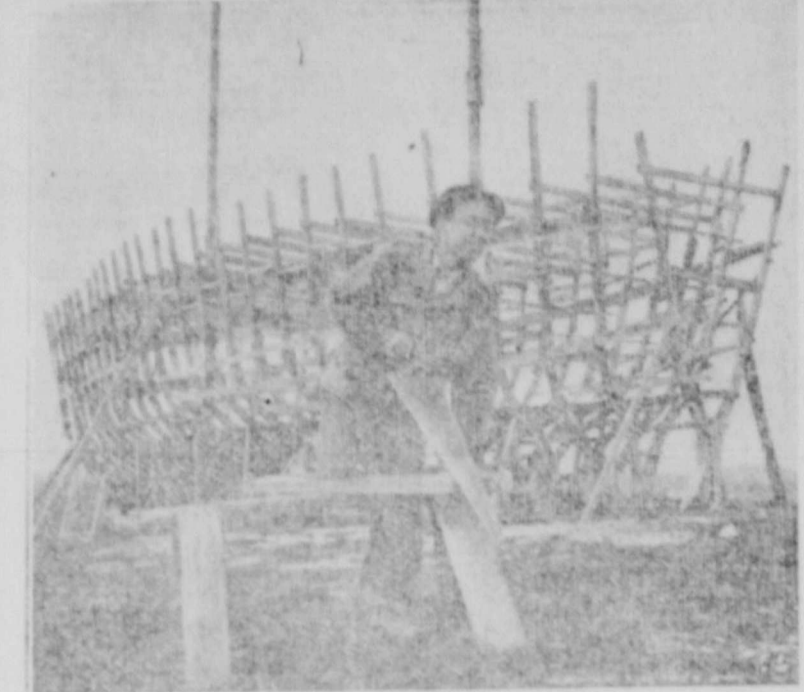

Most cities in the soccer big-time now find their stadiums the biggest of which will hold 60,000 spectators, too small for top-flight attractions.

Teams are divided into three big classes—A, B, and C. Top crowds are drawn by the 20 teams of the "A" class. They meet each other twice in the season, which extends to June, 1949 in their schedule covering 40 Sundays. Week-day holidays are used to play off postponed matches.

Championship team for the last three years has been the pomegranate-colored "Devils" of the Turin Runners-up last season were Milan, Triestina and Juventus (of Turin).

This year the tournament finds the Turin team again in first place, followed by Lucas and Gerni's International, which are tied for second place.

Four big Italian cities have two teams in the "A" class: Turin (Juventus and Turin), Milan (Internazionale and Milan Gen-

oa (Stamp-Doria and Genoa) and Rome (Lazio and Rome).

Turin provided nine players in the match with England and ten for the Italo-French contest in Paris, last year.

Even "A" class teams has the right to enlist three foreign players. This international bought Niers from Hungary, while Juventus got Hansen from Denmark and Jordan from Britain. Negotiations are going on to buy Sweden's Karlensson for Turin's Juventus.

Argentine players have always helped Italy's "A" class playing now in Pescara of Rome.

At the end of every annual tournament the two leading teams of the "B" class move into the "A" class, while the two last ones of the "A" are degraded into "B" class.

This year Palermo and Padova teams moved up and are doing well. The Sicilians won their first seven matches.

A complicated system of rating teams by regions also lets strong class "C" teams move into class "B".

Players get 50,000 lire a month—\$85—plus fat bonuses paid by proud Italian footballers in Amadei, whom Rome sold to Inter-

Waka PTA Has Meeting Friday

The Waka PTA met Friday night at the Waka School for a business and social hour. The meeting was opened by group singing.

After the business meeting the following numbers were presented:

Play—"Little Snowflakes," primary room; Reading, Sandra Stump; Talk, Bro. Neufeld of the Meunonite church.

Refreshments of apples and cookies were enjoyed during social hour.

The PTA members enjoyed using the newly "graveled" road leading from the pavement to the school house. Construction of this road was sponsored by the PTA and the work was done by volunteers in the community.

Deaf and Dumb, Publishes Paper

Newsfeatures
DUPREE, S. D.—A newspaper publisher who can neither hear nor speak? Yes, there's one.

He's E. L. Schetnan of Dupree's West River Progress, a balding homesteader in his early 60's. He's done well in his uphill fight.

He came to this country as a penniless Norwegian immigrant boy.

He was stricken almost immediately after arriving with spinal meningitis which deafened him permanently within 15 minutes.

Thus handicapped and alone in a strange land, he managed to learn English while washing dishes for a livelihood.

He entered a school for the deaf in the lowest class, and was graduated two years later at the head of his class.

For two years he studied journalism at St. Olaf's college, Northfield, Minn., took one of the first homesteads in this area, and 27 years ago acquired his

quent impairment in speaking is not so great an obstacle to news-gathering as many persons might surmise, Schetnan scribbled to an interviewer.

"I always carry a pen and a reporter's pad, am not abashed over asking people for news. Since everyone knows me and I know everyone within 50 miles, news-gathering is a lark."

No one ever has accused him

of misquoting. He has marks down in his source's handwriting.

Wampum was a shell of North American Indians to try.

The largest telescope make the moon appear miles away.

Everyone reads the Waka

own newspaper.

Speaker Rayburn Meets a Texan

Linda Brown of San Antonio, March of Dimes Poster Girl, makes herself at home on the desk of Speaker of the House Sam Rayburn in the Capitol at Washington. She greeted the Speaker after opening the 1949 Fight Infantile Paralysis drive during a call on President Truman in the White House. Linda is holding the Speaker's pipe and his pencil.

AUTHOR OF THE WEEK

By W. G. ROGERS

A BROTHER and sister have collaborated to write the often touching and sometimes merry memoirs of their father, mother and 10 other children in a book called "Cheaper by the Dozen." Frank B. Gilbreth, Jr., a Charleston S. C., newspaperman and Mrs. Ernestine Gilbreth Carey, a New York department store buyer wrote about the lively childhood in a family of six boys, six girls and father and mother. The father is the hero of their story, and he proves as efficient, and original, in the home as in his pioneering work as an industrial engineer. The 11 surviving children are college graduates, and married, and all have children of their own. . . . Frank has one and Mrs. Gilbreth two.

CHAIRBORNE SKIERS—Shirley Cane tries out the new chair lift at Mount Morquay, the first in the Canadian Rockies. The lift is 3,000 feet long, and when skiers get to the top they have a vertical descent down Mount Norquay of 1,280 feet. The town of Banff is at the right corner, and Mount Rundle, 9,600 feet high, is in the background.

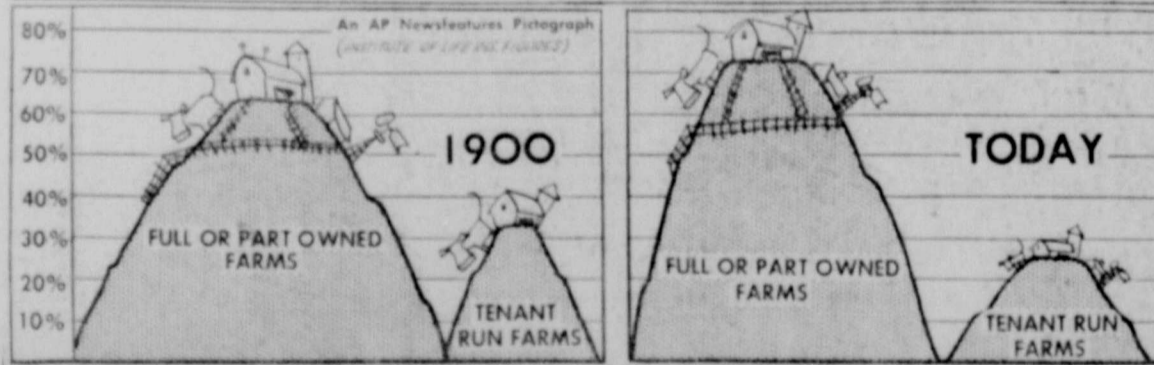

Cultural center of Texas Christian University will be the new Fine Arts Building and Auditorium, now under construction, shown above in architect's sketch form. Scheduled for completion by the opening of the 1949 fall term, the structure is the largest single project in TCU's \$10,000,000 Total Building Program. The structure, which will cost an estimated \$1,500,000, will actually be three buildings in one, including an Auditorium seating more than 1250 persons, occupying the center portion of the building, School of Fine Arts offices, classrooms and practice rooms, built around the outside of the Auditorium, and a Little Theater, seating 224, for campus dramatic productions. Main entrance to the building is shown at left above, with a foyer leading directly into the Auditorium. Entrance to the Little Theater can be seen at the extreme right.

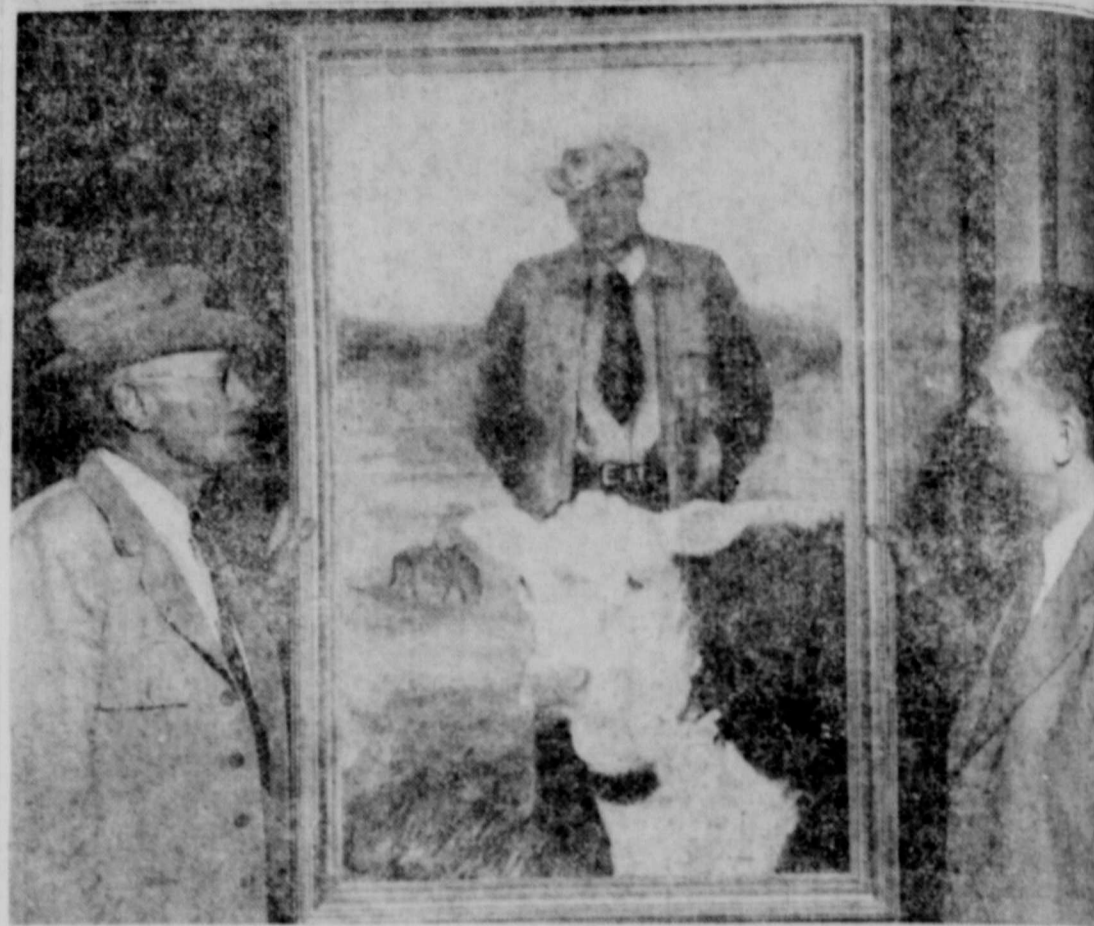

WHEN WEST MEETS EAST—Denver basketball bigwigs going over the cage picture during a meeting with Ned Irish, executive vice-president of Madison Square Garden. They are, left to right, Lou G. Wilke, chairman and manager of the Olympic basketball champion U. S. team; Irish, the man who put college basketball in the Garden, and Ellis Ketchum, Denver U. coach. The Denver Pioneers played three games in the east, losing to St. John's in overtime and Niagara and beating Syracuse. All three games were decided by two points.

TIME FOR BRAILLE Blind See Watches with Fingers

(P) Newsfeatures

First step in teaching the blind to read Braille now is often taken with a watch. Most of the watches with raised dots to show the time are imported from Switzerland, duty and tax free to all blind war veterans and are sold at cost to others by such groups as the American Foundation for the Blind. The Swiss watches have three raised dots at the "12," and two at the "3," "6" and "9."

WATCHING THE TIME—Annette Dinsmore of the American Foundation for the Blind and her seeing-eye dog Betsie (right) check the time. Closeup of a Braille watch (left).

U. S. Hate of Germany Dies, Says Editor

FRANKFURT (AP)—A German editor who toured the United States found that Americans no longer hate the Germans now that Nazism has been destroyed. "But they (the Americans) want to know whether there is still hatred against the Americans in Germany," wrote Heinrich Kierzek in the "Fuldaer Volkszeitung."

Kierzek explains the American attitude towards Germany as follows: "Taxes in America have increased immensely since the end of the war. The American taxpayer is always told by his government and by his press that a great part of these taxes is used for the reconstruction of Western Europe and Western Germany. Since the Americans practically are paying taxes for us they want to know, naturally, what is done with this money and what the effect among the Germans is."

The German editor wrote: "Many Americans we spoke to wanted to know with an almost anxious solicitude whether the U. S. Military Government in Germany does not make any psychological or political mistakes and whether the GI discipline really is so good." The Fulda editor asks himself "how much stupidity and inability was combined by German politicians to conduct two wars against America."

This thought came after he saw "everywhere in the states historical and living signs of active German work which helped America to become this rich and powerful land. Every second or third American we spoke to told us proudly that his mother or his grandfather emigrated from 'good old Germany.'" Kierzek wrote, "and leading Americans even today greatly appreciate the constructive and skillful role Germans or their descendants have played during America's political and economical development."

But not everything was "bright and shining" in the USA for Kierzek's watchful eyes. He noted "a sharp border between white and colored people."

OCHILTREE LODGE No. 911 A. F. & A. M. Regular meeting first Friday night of each month. School and degree work every Wednesday Night. F. L. Gerard, Secretary Frank Winn, W. M.

ALCOHOLICS ANONYMOUS GROUP Meets each Thursday night, V. F. W. Hall—Perryton Write P. O. Box 505

The German newsman was disconcerted by the lavatory problem in the southern states. There are four of them: "White Ladies," "Colored Ladies," "White Men" and "Colored Men," he reported.

The earliest known ceramists, forerunners of modern tile and pottery makers, existed from 12,000 to 18,000 years ago in the Nile Valley of Egypt.

Tell us, we tell others.

China Has "General of the Navy"
SHANGHAI (AP)—In most countries their admirals runs the navy. Not in China. They gave the job to a general.
The general has the title of admiral, but he's still a general, if you can follow this.
The general or admiral is Kwei Chung-shi, commander-in-chief of China's navy, which is made up mainly of gunboats. It's enough to drive an old salt water to drink. It drove a former rear admiral to resign.
As he tells it—and he doesn't want you to use his name because he's still a "loyal servant" of Chiang Kai-shek—the army just moved in.
"This is the one country in the world where a general can get appointed head of the navy," he sighed. He said all experienced "floating officers" were sent off to teach in the naval academies and the army boys picked off all the good jobs. That's when he resigned.
The Navy hasn't had too much to do in the war, but its job is being cut out for it. The Navy has to patrol the Yangtze and try to keep the Communists from crossing it for an attack on Nanking. The former rear admiral doesn't think much of the army-run navy's chances.
"I believe," he added, "that one good English or Yankee (navy) lieutenant, given command of the Chinese navy, would be the fleets salvation."

'Cutthroat Colt' Ready to Run

By JAMES F. FOWLER
(P) Newsfeatures

MIAMI, Fla.—When the dozen or more thoroughbreds parade to the post for the \$10,000 Florida Bred Stakes at Hialeah this winter, a huge bay horse with an odd cleft to his neck probably will command the major part of the crowd's attention.
The horse with the strange appearing neck is Feeffifum, a giant untraced three-year-old once given up for dead after severing one jugular vein on a barbed-wire fence.
The "cutthroat colt" is owned by Hunter Lyon, Miami sportsman, who is amazed that his young racer is alive as the veterinarians who said he couldn't live. Feeffifum is minus six inches of one jugular vein. The other three are perfectly normal. It came about this way.
While a frisky colt, Feeffifum jumped the paddock and rammed into a barbed-wire fence, ripping a wide gash in his neck and severing one of the veins.
Mrs. Lyons, the owner's wife was the only one to see the accident. She called the family doc-

tor, who in turn—when he found the patient was a horse—

Local Boxers Take Golden Gloves Titles

Perryton boxers won three titles in the district Golden Gloves tournament at Borger last week, and a Perryton lad, Dean Maberry, was named the outstanding boxer of the meet.

Titlists from Perryton were Raymond Powell, lightweight, open division; Dean Maberry, welterweight, school division; and Barney Baker, featherweight, school division.

Powell won his weight without having to participate. There were three opponents entered, but the other two withdrew, leaving Powell a clear field.

Maberry, 147-lb. football play-

er who won the PHS tournament last year, won his title by two knockouts. He put Albert Schell of Bunavista away with a technical knockout and knocked out Joe Judd of Borger in the finals.

Baker beat Billy Dickerman of Bunavista for the 126-lb. crown. Kenneth Fuller, fighting in the 160-lb. open division, was decided by Paul Chilton of Phillips.

The district winners:

Open Division
Flyweight (112)—No entrants
Bantamweight (118) — Benny Wilkerson, Bunavista
Featherweight (126) — Carol Huffine, Bunavista
Lightweight (135)—No entrants
Welterweight (147) — Joe Means, Phillips
Middleweight (160)—Jack McFarren, Stinnett
Light-Heavy (175) — Raymond Powell, Perryton
Heavyweight (176) — Virgil Patterson, Borger

School Division
Flyweight (112) — Lonnie Beggs, Stinnett
Bantamweight (118) — Johnny Wilkerson, Bunavista
Featherweight (126) — Barney Baker, Perryton
Lightweight (135)—Lyle Baldwin, Phillips
Welterweight (147)—Dean Maberry, Perryton
Middleweight (160) — Charles Chambliss, Borger
Light-Heavy (175) — Leroy Smith, Borger
Heavyweight (176)—Doyle Porter, Phillips

had to climb out, get a combine jack which had been thrown out, and jack the truck up so Mrs. Smith could be released.

Mrs. Smith suffered a broken arm. Mr. Smith received minor cuts and bruises about the face and head.

Ceramic tiles, used as floor and wall coverings on many modern church buildings, were found on the walls and floors of the excavated palace of Amenhotep IV which served as a shrine to the Sun God 2400 years ago in Egypt.

Expedition to Atlantis Is Planned

By ED L. CAMPBELL

LONDON (AP)—If you have \$25,000—or any reasonable part thereof—to spend on a legend, here's your chance.

It's a good legend. It has been circulating around the civilized world ever since Plato gave it playing time on his ancient Greek conversational circuit.

More than 5,000 books in 17 languages are in print on the subject. Artists have a picnic with the fantastic forms it conjures up.

It is, in brief, the legend of lost Atlantis.

People who believe in it—they call themselves Atlantologists—say it was a continent about the size and shape of Australia. It was supposed to have been inhabited by a partly civilized race. Something cosmic happened—the Biblical flood is the best guess. About 9,600 B. C. Atlantis disappeared. From there you pay your money and you take your choice.

White brings us to Egerton Sykes of London. Mr. Sykes would like you to choose him. He says he is going to the United States next spring in an attempt to raise \$25,000 for a new search for Atlantis.

Sykes is a tall, loose-framed, middle-aged Englishman with a ready smile and a 25-year-old yearning. He used to be in the British diplomatic service. But his heart is under the sea.

That's where he thinks Atlantis is. He has collected 1,400 books on the subject, organized a society of fellow believers and publishes a bi-monthly magazine devoted to the legend. His own qualifications give him membership in the Royal Geological Society. And although the Society will not sponsor an Atlantis hunt, Sykes says he is confident that if he can make the search he will have "their silent blessing."

He belongs to the school that believes Atlantis was located in the Atlantic Ocean about midway between the Straits of Gibraltar and the American continent. Some German and French believers argue that it was in the Mediterranean or off the west coast of Spain.

The members of the Sykes School also believe that Atlantis did not disappear altogether in the great deluge. The Azores, he thinks, are what's left of the lost continent. So, Sykes explains, the place to look for Atlantis is near these Portuguese islands. He proposes to do this on the simplest possible scale.

First, get Sykes's picture of that part of the ocean.

The Azores are a mountain top. The mountain slopes downward beneath the sea to the ocean floor. This floor was once the plains of Atlantis. Now it is covered with a thick layer of mud, the accumulation of thousands of years. Anything that might have survived there is now buried so deeply it cannot be recovered.

But the sides of the mountain, Sykes explains, should have kept comparatively free of mud. So he hopes to find on this slope the remains of some pre-historic town or temple. He figures that if he goes about 15 miles off the east coast of the Azores and down about a mile below sea level, he should reach the mountain side. If the original Atlantians, as he contends, were sun worshippers, then they would have built their temples on the eastside of the mountain.

Sykes plans to do his hunting with a camera. He would just let down photographic equipment, snap a few views and repeat at intervals. He figures he would need only the help of Mrs. Sykes, a photographer, an engineer, an archaeologist and a Portuguese liaison officer.

The one barrier to immediate operations is a little matter of international finance. The Azores are Portuguese. Most of the expenses would have to be paid in Portuguese escudos. The escudo is a "hard" money.

"I don't think it would even be worth while wasting time asking the British government at a time like this to let us exchange our pounds for hard currency to carry out our project," Mr. Sykes said ruefully. But American dollars will buy plenty of escudos. And the way to get dollars, Mr. Sykes is firmly convinced, is to give a series of lectures in the United States.

No. 2 Continued from Front Page

Kelley, Ray Thomas, V. R. Coon, Garland Daley, H. E. Young, Frances Ferguson, Vance Apple, Fred Osborne, L. LaFon, Clint Ragsdale, Sam Hergert, Bob Schuster, Al Tremble, Harry Nail, Gordon Shackelford, I. R. Buchanan and Harry Utz.

Moss plants often are used by birds making nests.

WHAT'S IN A NAME—Yes, they are both Terry Moore. Left is the ex-star fielder—now coach—for the St. Louis Cardinals. Right is the co-star of a new film, "The Return of October." They're no relation.

Legion to Play Beaver Tonight

The Perryton Legion five will go to Beaver Thursday night for a return game with the strong Beaver Independents. In their last meeting, Beaver trounced the locals 87-57.

As the Herald went to press this week no word had been received as to the opponents, sites or times of the NPAA basketball league play-off. Perryton, Gruver and Spearman of the Plains League will meet Cactus, Dumas and Sunray of the Canadian League, but local manager Irvin Hergert has not been notified of the play-off schedule.

Young New Zealand cuckoo birds fly across several thousands of miles of open ocean to winter quarters in Polynesia, with no older birds along to show them the way.

Rover's Mysterious Ancestors

NEW YORK (AP)—Of all household pets, only the dog cannot be traced to its wild state to the full satisfaction of science. The Australian dingo dog, a wild animal, is probably the closest link between dog and wolf or fox. But in the entire world, says The 1949 Book of Knowledge Annual there are no other wild dogs from which the dingo could have sprung. Rover's ancestors have completely disappeared from the earth.

Mosses may look like tiny evergreen trees, roses, ostrich plumes or any of hundreds of bizarre shapes.

The Golden Maidenhair moss once was thought to have the power of strengthening the hair of anyone who used it in a wash.

Paper Advertiser For Advertiser

ATHENS, Texas (AP)—The Athens Daily Review advertised for an advertiser.

The advertiser walked into the Review office and took out an ad, offering his house, rent-free, to anyone who would take care of it. But he failed to leave his name, address or phone number.

The Review office was deluged with applicants.

"As the days wore on, the clamor increased. We were getting pretty desperate," says H. M. Kemp, publisher. So the Review ran a three-column, front-

page story, headlined: "Wanted: One Advertiser." And the story fetched the advertiser. He came in grinning.

Says Farmers Need Help

SHREWSBURY, England (AP)—J. K. Knowles, general secretary of the National Farmers Union, said in a speech here British farmers can reach in 1952 their target of 150 percent of their pre-war output if they get enough help from the government.

He said they need new capital investment, more labor and a bigger allocation of animal food-stuffs.

Malaya Plans Navy

SINGAPORE (AP)—Malaya is the way to having its own navy. A bill to provide for its establishment will be put before the Singapore Legislative Council soon.

Enlistment in the force will open to British subjects and citizens of the Federation of Malaya. The size of the force will be determined by the Governor of Singapore. Singapore will provide funds for the navy.

Mosses are believed to have been among the first forms of plant life on earth.

JUST RIGHT for a score of farm uses

THE STRAN-STEEL "Quonset 24"

Designed on a new principle and built with new materials, the "Quonset 24" is a really modern farm building better for scores of uses. It is 24 feet wide, with the length extendable in sections of 12 feet . . . 24'x24', 24'x36', 24'x48', and so on.

"Quonsets" are the only buildings that combine all-steel construction with great flexibility. Each 12-foot section can be individually equipped as desired. It may be partitioned or not; the front may be enclosed, left open or fitted with roller doors; extra sections may be added whenever required. Additional windows and walk-doors, insulation and other equipment are easily installed. This wide utility is due to a unique, fast construction method, which employs Stran-Steel *rollable* framing members and sheet steel covering that is *nailed directly* to them.

Inexpensive to build, easy to erect and maintain, fire-safe, the "Quonset 24" is a sound building investment. Write us for full details.

"Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation

A & B STEEL CO.
22 S. W. 3rd Ave. Phone 150

Here is one of the countless variations of the "Quonset 24". Three sections are used as an implement shed; the fourth section, enclosed and fitted with walk-door and window in side panel, makes an ideal workshop.

This simple adaptation, with the entire front unenclosed, is used as a loafing barn for livestock.

This sturdy, attractive roadside stand—a four-section "Quonset 24"—furnishes a fitting display for farm produce.

Oldsmobile Means More Car For Your Money

—Futuramic Design, Hydra-Matic Drive, and High-Compression "Rocket" Engine!

OUR PLEDGE TO THE PUBLIC

DELIVERIES—We will deliver all new Oldsmobiles at the earliest possible date consistent with production.

TRADE-INS—We will take your order and deliver your car without requiring a trade-in. However, we have many valued used car customers we would like to supply and we will give you a fair and reasonable allowance on your present car.

FINANCING—You may pay cash for your new Oldsmobile or finance it wherever you wish. We will be glad to furnish low cost financing and insurance terms if you so desire.

ACCESSORIES—All cars are delivered with accessories as ordered, and prices are figured to cover these. We pledge ourselves to add no "extras" except those each customer orders.

Young Jr. and Mr. and Mrs. R. H. Holm, Mr. and Mrs. Rodney Williams, Mr. and Mrs. Bill Parker, and Mrs. J. R. Thomas, Mr. Lawrence and Mr. and Mrs. Ernie Stewart.

Boatman Boys Have Birthday Parties Monday

Bill Boatman celebrated his birthday jointly with his brothers on Monday evening, January 24, in their home. Butch Boatman, four years old on January 23, was three on January 24. The house was colorfully decorated with large peppermint canes and balloons. At the close of the afternoon, refreshments of ice cream and cake were served to Ernie Dean Clark, Howard Terhune, Ron Smith, Byron Murphy, Jan Miller, Gail McLain, Betty Linn, Frankie Humphrey, Ila Ila, Barbara Gail Newman, and Judy Anderson, and the Whippo, and the honor. Hamilton Murphy and Jim Anderson assisted Mrs. Ila.

RECIPE OF THE WEEK

CRANBERRY COCKTAIL

Refreshing and economical drink to be enjoyed by all members of the family features a colorful food in plentiful supply in the southwest.

- 2 cups cranberries
- 2 cups water
- 1 cup gingerale
- 1/2 cup sugar
- 1/8 teaspoon salt

Wash and pick over the cranberries and discard all that are withered, or speckled. Boil the cranberries and water gently until the berries are soft then press through a fine sieve. Add the sugar and salt. Stir until the sugar is dissolved, then chill. Just before serving add the gingerale.

DATE NUT BALLS

- 1 cup sugar
- 1 cup flour
- 1 teaspoon baking powder
- 1/2 teaspoon salt
- 1 teaspoon vanilla
- 1 lb. dates, stoned and cut
- 1/2 cup pecans
- 1 tablespoon milk (optional)
- 3 eggs

Sift dry ingredients together; beat eggs and vanilla thoroughly. Add dry ingredients to egg mixture and mix thoroughly. Add dates and pecans. Add milk if it facilitates mixing. Speed 1/2 inch thick in greased and floured baking pan. Bake 25 to 35 minutes in 325 degree F. oven. While still quite warm, cut in squares, form into balls and roll in granulated sugar. Or when cold, dip into melted chocolate or fondant. If they are not coated in any way, storing in a tightly covered jar for a week enhances the flavor.

Supper Club is In Powell Home

Mr. and Mrs. Raymond Powell were hosts to their supper club in their home Saturday evening, January 22. Following the dinner the evening was spent playing bridge. Those enjoying the evening were Mr. and Mrs. Jack Anderson, Mr. and Mrs. Kenneth Precise, Mr. and Mrs. Louis Emerick, Mr. and Mrs. Gilbert Mize, Mr. and Mrs. J. D. Davis, Mr. and Mrs. Floyd Murry, Mr. and Mrs. John Barnes, Mr. and Mrs. T. O. Pugh of Amarillo and the host and hostess.

"Charm of China" Is Theme for Fine Arts Sorosis

"The Charm of China" was the program theme at the meeting of the Fine Arts department of Sorosis which met Wednesday, January 19, in the home of Mrs. Stanley Key. Mrs. Vance Apple and Mrs. I. R. Buchanan were assistant hostesses. Mrs. Arch Talley presided at the business meeting. Beginning the program, Mrs. W. B. LaMaster spoke on "Historic China of the White House." Mrs. A. P. Spicer discussed "Hidden Treasures in Your China Closet," and illustrated her topic with heirloom pieces of her own china.

Following the program, refreshments were served to Mesdames Clifford Beck, Virgil Castle, Audie Conley, Cecil Dodd, Louis Emerick, Oscar Flowers, Horace Glasgow, W. B. LaMaster, A. P. McElvey, George Parker, C. B. Rogers, A. P. Spicer, J. W. Sammons, H. C. Sanford, Roy K. Sanford, D. D. Shanks, Arch Talley, S. P. Whippo, I. R. Buchanan, Vance Apple, Stanley Key and guest, Mrs. J. H. Key.

Mrs. Symons Is Hostess to Club

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
CREOMULSION
for Coughs, Chest Colds, Bronchitis

men put their trust under the shadow of thy wings" (Psalms

Man-Sized STEAKS

Sizzling he-man steaks . . . the tenderest, most temptingly fragrant you ever sunk a fork into!

Russell Steak House

36-7).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God" (1 John 4:7). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Love is infinite. Therefore all that really exists is in and of God, and manifests His love" (page 340).

Housewives Chatter Dinner

POCKLINGTON, England.—The people of Pocklington, England, were in a hurry for local meat ration for the day and headed for the local moors.

They caught them all last one three villages, and eight hours later. Said a tired housewife would you do? That was day dinner."

LINDA'S THANKS

German Tanks Melted Down

MOSCOW (AP)—German tanks captured during the war are being junked here and melted down. "Evening Moscow" said the tanks—many of them the huge 60-ton Tigers—have been on exhibition in the capital but have now been sent to the junk heap.

The announcement said the same fate awaits all other German tanks, mobile guns and other armament which have been on exhibition.

Mr. and Mrs. W. F. Haggard of Canyon have announced the birth of a daughter, Janet Kay, born January 19. Mr. Haggard is on the faculty of West Texas State College. He and Mrs. Haggard taught in the Perryton schools for a number of years.

Mr. and Mrs. Hiram Sally of Liberal, Kansas spent Sunday visiting in the home of Mrs. Sally's brother, Mr. and Mrs. Claud Allen.

Russia Gives Student Totals

MOSCOW (AP)—This year there are 730,000 full-time students in higher educational institutions in the Soviet Union. In primary and secondary schools of the nation there are now 34,000,000 pupils.

Both of these enrollment figures are official—have been printed in the Soviet press and were repeated by Foreign Minister Molotov in his speech on November 6—and both represent the highest enrollment to date recorded in the Soviet Union.

George Raft Wants to Retire but Won't If He Gets a Good Picture

HOLLYWOOD — George Raft, telling why he wants to retire, sounds sad indeed.

"What the heck! I'm not getting any better pictures. And I figure youth must supplant age."

George is 53. He'd like to keep on setting, all right. With box office names like Rita Hayworth, Joan Crawford, Greer Garson, and Barbara Stanwyck for co-stars. Or Ava Gardner, a virtual unknown when she starred with Raft in "Whistle Stop." "I tried to get her for 'Outpost in Morocco,' George related from the bottom of his voice box. "Metro said they had her lined up for many things. I help everybody but myself. Everybody else gets a break but me. Maybe I'm not any good."

George's recent co-stars have been Marie Windsor, Marilyn Maxwell, and June Haver. "Hoarded," his present assignment, teams him with Nina Foch. All talented, lovely gals but not the boxoffice draw of Crawford or Stanwycks.

After an RKO picture here in March, and a probable picture in Paris in the summer, George wants to retire to a villa on the French Riviera. Maybe he'd fly back occasionally to produce pictures, if it could be arranged. Or as George says: "If anybody had faith in my ability."

Retirement as an actor would end nearly 20 years on the screen in which he has made about 50 pictures. He has never looked at himself on the screen after one quick peek in his first picture. "I ran like the devil."

Raft says unhesitatingly that there are "holes" in his present script. He summed up his feelings this way: "I have plenty of jobs offered me. But I'm like you—you like to get a big assignment don't you?"

Dog Show Slated

NEW YORK (AP)—The 73rd annual dog show of the Westminster Kennel Club will be staged at Madison Square Garden Feb. 14 and 15, with thousands of entries in a hundred breed categories being judged.

Tarleton Stadium to Honor LaMaster, Killed in War

Joseph LaMaster, former student of John Tarleton College who lost his life in World War II, is one of the 184 ex-student war heroes who will be commemorated by the erection of a Memorial stadium.

Joseph, one of the nine children of Mr. and Mrs. W. B. LaMaster who served in the armed forces during World War II, attended Tarleton in 1941-42. He died on Jan. 20, 1945, on a combat mission over Germany.

Sponsored by the Tarleton Ex-students Association, a three-year fund raising plan, now in its second year, has raised approximately \$35,000 toward its \$100,000 goal. The college recently acquired a 38-acre tract west of the present campus for the location of the stadium.

A football field has been leveled and sodded in the new area and games will be played there this fall. Plans for the stadium include a seating capacity of 10,000 with dressing rooms, showers and other facilities located beneath the stands.

The stadium is designed to accommodate agricultural fairs, livestock shows, and for general community use as well as to provide space for athletic contests.

Colleen Milledge Is Initiated Into Sorority

Miss Colleen Milledge, daughter of Mr. and Mrs. A. F. Milledge, has been initiated into Hquto council of Delta Tau Kappa, honorary organization at Colorado Woman's College, Denver.

Church Group Protests Movie Plan

CHAFFHAUSEN, Switzerland—The executive committee of the International Bach Society has protested the contemplated production of a film based on the Matthew Passion of Johann Sebastian Bach.

The committee said Bach's work, written for choirs, orchestra and organ, was "one of the most solemn works in all music and should remain untouched."

Marischka, Vienna production company was reported to be planning production of the film.

How's your inventory on PROTECTION?

Of what good are "goods on hand" if a fire destroys them? Of what value are "unfilled orders" if an interruption of business makes it impossible to fill them?

How can you rely on "assets" that disaster or dishonest employees may impair?

If a fire destroys your building, have you enough insurance protection to permit you to rebuild at today's prices?

Are you sufficiently protected against loss from damage suits that could be devastating?

Are you adequately covered against theft, holdup, embezzlement?

Let us make an inventory of your insurance protection on both your business and personal property. No obligation.

Does This Apply to Perryton?

Two of the desired four highway signboards advertising the city of Childress have been erected—one east and one west of the city limits on Highway 287. Apparently only these two are going up, because sufficient advertising could not be sold by the Lubbock concern which is putting the boards up to build more.

It is now to be decided whether the signboards accomplish what they were originally set out to do—advertise the city. There seems to be some question whether they do.

Undoubtedly, the most effective sign would be one on which nothing else appeared but the five or six words necessary to tell motorists travelling 50 or 60 miles an hour that "Childress welcomes you." Since the boards are erected about one mile outside the city limits, motorists will be travelling at a high speed that five or six words is perhaps the most they can effectively read.

Instead, the two Childress signs have their welcoming message squeezed in between eight advertisements (seven on the west board) which cover twice the space as is given to the welcoming message. The result is a maze of lettering of odd size and colors which make it difficult to say the least for a motorist—particularly a stranger to get much understanding out of the confusion.

A selling point for the present signs was the fluorescent material which makes them readable at night. But a glance at the board at night—even when one knows what he is trying to read—is disheartening.

On both signs the welcoming message shines in red. Advertisements on either side showing up white easily take the eye of the observer first, and effectively outline the comparatively dull welcoming message. At any speed, a motorist could easily pass by before he learns he is entering Childress.

Then there is the question of cost. In order for the city to acquire the two signboards and have them maintained, approximately 13 local merchants will pay \$3559.68 in advertising fees in four years to the Lubbock firm erecting the boards.

In contrast, figures presented to the Board of City Development and Chamber of Commerce indicate the most effective sign (one which would advertise only the city) could be built by the city for one-third the cost that these local merchants reason the Lubbock concern's proposition was accepted—for it meant Childress would be paying for the signs now standing.

It has been intimated, however, that the BCD and C of C cannot afford approximately \$1260 for two signs over a four year period. That was reported as the get the present signboards, or none at all.

Considering the great difference in cost, the money going out of Childress, the effectiveness of the signs now advertising the city, and the overall caliber of the workmanship of the present signs, it is a wonder whether the city might be better off with none.

—Childress Index

DIG POST HOLES FASTER -

EASIER - CHEAPER

with the WINPOWER MODEL U DIGGER

NOW YOU CAN DIG UP TO 600 POST HOLES IN A SINGLE DAY

The Winpower Model U Digger does one of the toughest farm jobs and saves you time and money doing it. Digs a clean hole, up to 40" deep in just 19 seconds. Rear mounting gives you full vision and accurate spotting, and the patented fence guard lets you dig holes in existing fence lines.

May be used for fencing, highway, nursery, and trenching work — wherever holes are needed.

GET THESE PLUS FEATURES AT NO EXTRA COST!

- * Special adjustment for vertical holes on hilly ground.
- * Telescoping carriage guide.
- * Driver seat operation.
- * Power lift with positive brake.
- * Choice of 6", 9", 12" augers.
- * Mounts or demounts in 10 minutes.
- * Heavy pipe welded frame.
- * Sealed-in lubrication.

Come in and let us tell you about the many users who have quickly paid for their diggers with custom work. See for yourself how the Winpower Model U can save you work-time and money in fencing.

Dabson Discusses Tornadoes

ROGER W. BABSON, Editor-in-Chief

BABSON PARK, Fla., Jan. 21—At Warren, Arkansas, a few days ago occurred a tornado which is reported to have killed 59 persons and injured about 250 more. Every few months some such disaster occurs in the U. S. Most of them are in the southern center of the country, but every one of the 48 states has, at some time one of these tornadoes. Therefore, this is a subject in which everyone should be interested.

What About Hurricanes?

Before discussing tornadoes, let me say a word about hurricanes. These originate on the ocean and can be prevented by "killing" them at their birth. For instance, the hurricanes which hit the South Atlantic States and Florida, and the Gulf States, start 2,000 miles or more away, mostly east of the Leeward Islands and the Caribbean Sea. When they hit our Southeastern States, these hurricanes may have a diameter of 100 to 500 miles. This diameter varies with each hurricane, but can easily be measured in each case. We have been hit by about 150 major hurricanes since 1930. These have done tremendous damage.

If our Navy would patrol the waters, with small airplane carriers, where these hurricanes originate, they could easily be detected. As the aviator would come to a small area where the barometer suddenly drops to 28, he would know that this area is a dangerous spot worth watching. It then might not be more than 2000 to 3000 ft. or less than a mile in diameter at its birth. Authorities differ as to how they would kill it, but I say that it can be killed. They are most common in the fall months.

How Tornadoes Can Be Killed

Tornadoes originate on the land, due to a "dead warm spot" of very low pressure, overlaid by a cold high pressure heavy area, held down by gravity. Tornadoes come with less warning and at all times of the year. Often they have a diameter of only a few miles, and the more (which does the damage) may be only a fraction of a mile. Furthermore, they last for a much shorter time than do hurricanes. As tornadoes are more frequent than hurricanes, the nation's total annual loss from tornadoes can equal or exceed the total annual loss from hurricanes.

Scientists now see no way of preventing tornadoes because it takes them such a short time to develop nearby. Tornadoes appear to be born mature and do their damage almost at once. I believe, do believe that all loss of life from tornadoes can be prevented. The people in the tornado area can be notified in time with proper warnings. In other words, every community in the Southern Middle West should be protected with a tornado siren alarm system. This cannot prevent the tornado or its accompanying property damage; but it can adequately prevent loss of life. There is no excuse for the deaths and injury of so many people at Warren. The entire state of Arkansas could have been properly safeguarded against the loss of life from torna-

How to Detect Tornadoes

Every tornado has three features: (1) A very low barometer reading within a hot stagnant area, (2) a gradually increasing wind from five miles upwards to 500 to 500 miles per hour, (3) a dark colored column of rain, dirt and other material. The fire or police station in every southwestern community should always be on the watch for these three signals. Upon seeing them, they should, by radio, immediately notify all surrounding territories. As each community gets the word, it should ring in a Game-well siren alarm, which would give the proper warning to the inhabitants either to enter a cy-

Wolf Creek Philosopher

U. S. Prosperity Is Puzzle to Russians

(Ed. note: The Wolf Creek Philosopher is off on a deep subject this week, which he handles as adequately as he does a simple one, if you get what we mean.)

I was gettin ready to build a fire with a copy of the Amarillo Times the other mornin, as a sort of anniversary present for my wife, although understand this ain't no standard procedure and I don't have no intentions of edg-in in on a woman's province and buildin a fire every mornin, when I noticed a interesting headline and tore that page off and when the room got warm read where Russia held a big meeting last week so its economists and other experts could explain why the United States hasn't had a depression recently.

Accordin to the article, the Russians are baffled over the lack of a depression over here, as their experts had told 'em we'd have one shortly after the war, and when a Russian official tells something to happen, it has to happen, or what does that make Stalin? But here the U. S. is still boom-in, and the Russians is hard-pressed to explain it.

Now it ain't my intention to be of any help to the Russians, but I don't mind sayin I don't see how on earth they expect to understand our economic system from way over there when we don't even understand it ourself, so right here in the middle of it. We got all-sorts of experts, and while most of em are pretty good at recognizin what's already taken place and can explain satisfactorily what happened after it happens, very few of em can tell you any more about what's gonna happen economically in the future than they can about which way a cat will jump, a woman will turn, or a politician will vote after he's elected.

It is possible that the Russians will finally attain the atomic bomb secret, but I doubt they'll ever understand our economic system. It ain't some'bin to be figured out. Just some'bin to be used and enjoyed.

At least, that's the way me and Henry Kaiser and Rockefeller treat it.

Yours faithfully,
J. A.

Death Custom Hits Children

HONG KONG (AP)—One for good measure" turns the tide against death in the family, says an old Chinese superstition among sampan families. When three or four consecutive deaths occur among those seafaring people who beg child born is killed. This goes for one better, the sampanners say, and prevents any further deaths.

This grim custom came to light at a coroner's inquest into the death of a child found floating in Hong Kong Bay recently. "It's murder all the same," said the coroner in passing judgment on the case.

Tell us, we tell others.

Make someone somewhere happy!

Your remembering will be most appreciated when you send a quality card from our complete Gibson selection.

Stewart Printing Co.

Would-Be Burglar Is Grounded

SINGAPORE (AP)—A shot fired in the air brought a would-be burglar effectively to the ground here. He was climbing the fence into a military depot when spotted by a sentry, who fired into the air.

The frightened fence-climber fell down—and fractured his leg. Now he's in the hospital.

Mr. and Mrs. H. E. Young Sr., and Mr. and Mrs. H. E. Young Jr. and Molly were in Berger Sunday visiting Mr. and Mrs. Lloyd Lane.

Ardennes Still Disputed

BRUSSELS (AP)—The Belgian Touring Club wants to erect a special milestone to mark the furthest point west gained by Field Marshal Rundsted's Ardennes offensive in the winter of 1944-45. But here's the snag. No less than three villages claim the honor—Gelles, Foy-Notre-Dame, and Achene. The stone hasn't been erected yet.

Mr. and Mrs. L. T. Tucker were in Amarillo Sunday and Monday visiting Mrs. Tucker's sister, Mrs. C. R. Galleley.

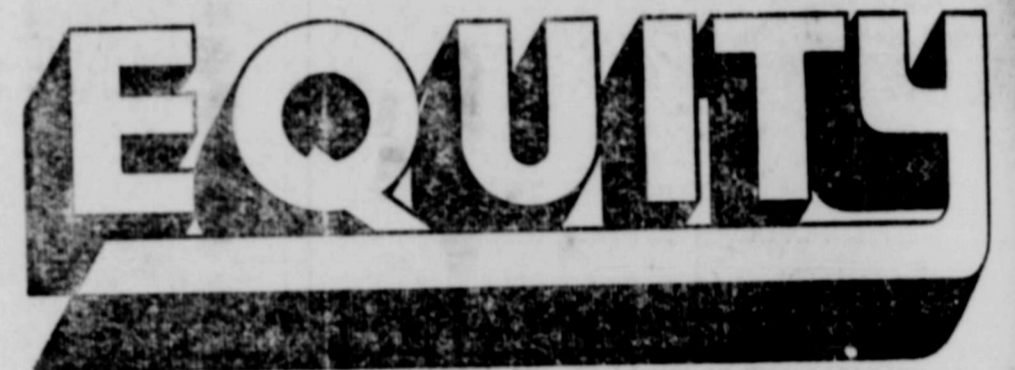

The reindeer is native to northern Europe and Asia, where it has been long domesticated, especially in Russia and Lapland.

HOW THEY GET TO COLLEGE

KAY KYSER'S College of Fun and Knowledge is beating up the air waves these days. The old professor is tackling one of the audience participation programs that now take up 40 per cent of the radio programs. Here is how his show is put together.

THE AUDIENCE what the show is all about. This is where the fun begins. WANT IN THE ACT?—Sure they do. Program men are lucky if they don't get mobbed.

INSTANT, dressed up in stage dainties, gets a back stage staff. JUDGES also chosen from the audience help in awarding of final grand prize of show. ON THE AIR—Barbara Allen tells it to Kyser with guitar. She's had stage experience.

Weekly Swing of Southwest Farm Markets

Only cotton, corn and wool were able to keep the general wave of depression sweeping into trad-southwest farm markets. Reports the Production Marketing Administration, department of Agriculture, slipped again last week farm prices 5 to 10 cents Christmas week. However, markets in this area opened about steady. Current prices ranged from 36 to 40 per dozen. Rising production continued dull demand the chief forces in the market.

hog runs so far this year at southwest markets. Monday's quotations for best butchers ranged from a low of \$20 at Fort Worth to a high of \$22.50 at Denver. Sows brought anywhere from \$15 to \$17.50. Rain, snow and ice helped to broaden the demand for hay last week. Both southwest and mid-west markets were firm. Fort Worth sold U. S. No. 1 grade alfalfa at \$39.50 to \$42.50 per ton, wholesale. Kansas City quoted same grades at \$30 and up.

Most wholesale prices of feeds worked their way lower last week. Cottonseed and alfalfa meal took the sharpest tumble. Bran and shorts withstood the decline fairly well. Since Monday a week ago, corn went up a half to 3 cents per bushel, sorghums a nickel and barley a penny. Oats lost about a half cent and wheat remained the same.

Prices kept an even keel last week under good demand absorbed supplies. About the only weakness of the week was the weakness of fry. Heavy hens remained at 30 to 33 cents. Prices broke around the one cent last week under pressure of several weeks of shipments, dull demand dressed beef trade and decline from increased pork prices. Losses ranged mostly \$1 to \$1.50 per 100 pounds and some stocker cattle and some stocker cattle and some stocker cattle.

The word "plant" originally meant twig, shoot or sapling.

KENTUCKY WIZARD — Wah Wah Jones, ball handling wizard of the national champion Kentucky basketball team, returns for another season. Kentucky lost only one regular from their team. Mrs. Frances Ferguson and Mrs. Ray McWilliams left Sunday to go to Dallas to attend market. They plan to be gone a week.

rebounded Monday with a gain of 25 cents to \$1 per 100. This partially offset last week's losses of mostly 50 cents the result of the heaviest

Swiss Snow Plows Continue

ST. MORITZ, Switzerland (AP)—The private railroad connecting this famous winter-sports center with the outside world appealed to the cantonal (state) government recently to withdraw snow plows operating on the Julier pass, the only road between St. Moritz and the rest of Switzerland.

The appeal stressed the railroad's financial difficulties and pointed out that if the Julier pass were permitted to remain blocked by snow throughout the winter, the railroad could transport automobiles as well as passengers through a tunnel between Switzerland and the St. Moritz district.

The appeal aroused violent opposition among motorists and hotel interests throughout the area. While the government was discussing the railroad's request, a column of automobiles bearing anti-railroad placards toured the district with loudspeakers describing the railroad management as "anti-Swiss" and "strangers of liberty."

The railroad's appeal was rejected.

Student Navigators of the Skies

At Pensacola, Florida, future Navy carrier pilots are taught tricks of navigation on a large-scale model of an aviator's plotting board. Pensacola Naval Air Station, the "Annals of the Air" is the focus of the recently reactivated Naval Aviation Cadet training program, which is open to healthy, single young men between 18 and 25, with at least two years of college. Upon graduation they are commissioned ensigns in the Naval Reserve, or second lieutenants in the Marine Corps Reserve, are awarded their wings and assigned to two years' active duty.

Soviet Swamps Drained

MOSCOW (AP)—The subtropical swamps of the Chulchides are being drained.

Located along the seacoast of Soviet Georgia these swamps were famous in antiquity and entered into Greek mythology and chronicles. They have rich soil but all attempts at drainage of the area formerly undertaken failed because of the fact that the swamps flooded when ever strong western winds forced up the waters of the Black Sea coast and drove them into the swamp areas.

The Soviets have now for years been carrying out a scientifically planned major effort to drain the swamps. Large areas have been reclaimed for citrus and other subtropical cultures.

Why VICKS is Best Known
HOME REMEDY TO RELIEVE
Colds' COUGHING DISTRESS
Only Vicks VapoRub gives you this special Penetrating-Stimulating action when you rub it on throat, chest and back at bedtime.
It PENETRATES to upper bronchial tubes with special medicinal vapors.
It STIMULATES chest and back surfaces like a warming poultice. And it keeps working for hours—even while you sleep!
VICKS

Club Bans Hand Grenades

KUALA LUMPUR (AP)—Guests at the Selanger Club, leading social center of the capital of the Federation of Malaya, henceforth must leave their hand grenades outside.

Many of the planters and business men who make up the Selanger Club's membership have regularly carried arms since Communist-led insurgency broke out in Malaya last June. Because there have been cases of "careless handling of weapons inside the club," the by-law on weapons recently was amended. Weapons in future must be completely unloaded. Hand grenades or other explosive weapons may not

be taken into the premises.

Mr. and Mrs. Roger Walton drove to Oklahoma City Sunday on a business trip. They returned Monday night.

SHOWING TIME
NIGHT: 7:00—9:00 p. m.
SATURDAY MATINEE: 3:00 p. m.
SUNDAY NIGHT: 9:00 p. m.
PREVIEW: 11:30 p. m.

Wednesday-Thursday

January 26-27
DEANNA DURBIN — EDMOND O'BRIEN
Don Taylor and Jeffrey Lynn in—
"For the Love of Mary"
One of the most brightly entertaining comedies to enliven the screen for many a moon... Deanna is seen as a White House telephone operator who becomes chummy with the President, cabinet members, etc. The romance is set in a quadrangle in place of the customary triangle with O'Brien, Taylor and Lynn all eager for Deanna's affection.

Friday-Saturday

January 28-29
SONNY TUFTS — BARBARA BRITTON
George Hayes and Edgar Buchanan in—
"The Untamed Breed"
An amazing action spectacle, filmed in Cinecolor. A savage fight between a wild outlaw stallion and a runaway giant Brahma bull highlights the action. In addition the picture includes thrilling romance, comedy sidelights and a tense struggle between two fighting men who both love the same woman.

SUNDAY - MONDAY - TUESDAY, JAN. 30-31 -- FEB. 2

"Rachel Meets a Stranger"

—with—
DORETTA YOUNG — WILLIAM HOLDEN — ROBERT MITCHUM

Combining rugged drama, intriguing complications, dramatic conflict and appealing touches of humor, all against a picturesque early American background, this film gives its stars a rousing workout and its audiences entertainment for all ages. Loretta Young's unique characterization, of a bondswoman purchased as a bride by William Holden as his cold-blooded choice to rear his motherless son, is enhanced by her reaction to romantic wandering minstrel Robert Mitchum who kindles the flame of love in the forest home.

Wednesday-Thursday

February 2-3
"Criss Cross"
—with—
BURT LANCASTER—YVONNE DeCARLO—DAN DUREA
STEPHEN McNALLY and RICHARD LONG
The picture brings together in an underworld triangle Burt Lancaster, Yvonne De Carlo and Dan Duryea. The story deals with the violent rivalry between a hoodlum, played by Duryea, and an ex-husband, played by Lancaster, for the love of Miss De Carlo.

Friday-Saturday

February 4-5
"The Gallant Blade"
—with—
LARRY PARKS — MARGUERITE CHAPMAN
Victor Jory and George Macready
As the world's greatest swordsman and boldest lover in 17th Century France, an age which boasted of its great fighters and ardent wooers, Parks is his swashbuckling best as he carves a path with sword and dagger through dark intrigue to glory and love.

PERTEX Theatre

FRIDAY-SATURDAY
January 28-29

3 p. m.
SUNDAY NIGHT — 9 p. m.

GOVERNOR DELIVERS ADDRESS—Governor Beauford H. Jester (at speakers rostrum) delivers his inaugural address in the House of Representatives in Austin. Members of the Governor's family and the family of Lt. Gov. Allan Shivers and other notables are among those seated directly before the governor. (P) Wirephoto.

Veteran Forum

Q. Who chooses the institution or establishments in which a veteran trains?
 A. For vocational rehabilitation training under Public Law 16, VA selects the facility with concurrence of the trainee. Under Public Law 346 (GI Bill), the veteran chooses the training institution, but may have the guidance of VA if he desires it.
 Q. Will Veterans Administration accept collect telephone calls from physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A. Yes.
 Q. Does my converted National Service Life Insurance have a cash surrender value?
 A. Yes. All converted policies have cash surrender values, paid-up insurance and automatic extended term insurance values, together with policy loan provisions, effective after the policy has been in force one full year.
 Q. Is VA pension, compensation, or retirement pay reduced during hospitalization for veterans who have dependents?
 A. It is not, provided the necessary proof of relationship has been established. Veterans

should make certain that such proof is established promptly. Any additional allowance or increased compensation for aid and attendance, however, will be discontinued upon hospitalization.
Stadium Contains 'Em
 NEW YORK (AP)—No player ever has hit a ball out of Yankee Stadium but three players have landed drives in the center field bleachers, which are 461 feet away from the plate. The three sluggers were Babe Ruth, Hank Greenberg and Joe DiMaggio.

Mr. and Mrs. A. C. Witt left last week for Florida where they plan to spend three weeks. Mr. and Mrs. John Bolin, who are vacationing, plan to join the Witts there.
 The Italian population of New York City is 1,095,000, almost as great as the Italian population of Rome.

SHOESHINE BOY TO PROSECUTOR—Percy Langster, a Negro, is the first of his race to take the oath of office in the U. S. as a duly elected prosecutor, according to the records of the American Bar Association. He used to be a shoeshine boy. He was sworn in as prosecutor of Lake county, Michigan.

Veterans' NEWS

Ochiltree county veterans are served by county service officer Tom Davis, whose office is in the courthouse annex. The daytime phone number is 36 and at night or in an emergency, the phone number is 487. Veterans who need assistance in any way are urged to make use of the services provided by the county service officer.

The next few years will see an increased demand for college graduates in the fields of medicine, psychology, kindergarten and elementary school teaching and certain phases of electricity. At the same time, competition will grow keener for position in the fields of engineering, chemistry, pharmacy, law and personal relations.

These conclusions were contained in a study prepared for the Veterans Administration by the Occupational Outlook Service, Bureau of Labor Statistics, U. S. Department of Labor.

The study is being used by VA advisement and guidance officers as an aid in counseling disabled veterans planning to take educational and training courses.

Veterans enrolled under the GI Bill in on-the-job training courses, or in schools below the college level who desire leave of absence, should apply for it at their training establishment or school, and not at the Veterans Administration.

In the past, these veterans were required to make application at the appropriate VA reg-

LOUIS OR KENTUCKY?—Arguments rage over which is the better basketball team this season. St. Louis has a potent argument in their favor. They beat Kentucky 42-40 in New Orleans in January. The above action shot shows St. Louis' ace center Ed Macauley demonstrating his play-making. As two players harass him he passes off to free teammate (No. 77) who cuts under basket and scores. The defending team is Long Island University.

What It Means:

Civilian War Claims Litigation

By CLARKE BEACH

WASHINGTON — Among the things left by war is a writer of claims and litigation.

Thousands of civilians demanding redress for injuries and losses, and soon they will be hearing. The 80th Congress authorized a War Claims Commission to go to work on the claims but never appropriated money for it. So the President didn't appoint the commission and nothing has been done.

But Congress is expected to provide the funds soon.

Various types of claims already have been approved by Congress. There are thousands of others, however—questionable cases—of which the commission will investigate. It will then advise the president as to the action which is justified. These are the claims payments which Congress has already authorized:

Detention, injury, disability, death benefits for persons killed or injured on American soil and in the Philippines. These victims of Guam, Wake and the Philippines. The detention benefit amounts to \$60 for a month of internment for persons over 18. Those under 18 \$35 a month.

In addition, employees of government contractors who were injured, primarily the group on the island of Iwo Jima, will be paid the regular wages they would have earned had they been at work instead of in captivity. The federal security administrator is directed to allocate the claims of the government employees.

Military personnel who were in Japanese prison camps not given the quantity and quality of food which is stipulated in the Geneva Convention of 1927, 1929. They get \$1 for each day they were ill fed.

Certain religious organizations remained in Japanese-occupied American territory and supplies to American prisoners will be reimbursed for expenses. These are the on-claims the government has authorized up to now. So the majority are still up in the air. You get an idea of how various they are when you learn that one government claimant has received as many as 1,600 letters a day regarding civilian war claims.

The biggest issue which will be before the commission is: anything be collected by Americans who suffered war damage in Asia or Europe? International law clearly relieves them from any responsibility

for damage inflicted in the course of combat operations. U. S. military units, moreover, have their own claims units which can settle damage claims by natives injured through non-combat activities, such as being hit by a jeep behind the lines.

But what of Americans who continued to live and do business in Europe, in Japan, or on the continent of Asia after they had been advised that war was likely? State Department spokesmen have told Congress that they felt ample warning had been given to such persons and that if they persisted in remaining in the threatened area it was their own responsibility.

They see the situation in the Philippines and the other American islands as entirely different. For fear of alarming the population or unnecessarily disrupting normal activities, no firm warning was given. The government was thus responsible for their being caught in the war.

Another ticklish issue is presented by persons who were injured or suffered property loss in the attack on Pearl Harbor. They contend that as the war had not started, it was not a combat operation. They had not been warned to leave Hawaii. Therefore, they say, they are entitled to damages as persons who were living in the Philippines.

Some limit has to be set on the total damages that can be assessed. The Japanese nation,

Proxy Trades With Students

CARTHAGE, Ill. (AP)—Dr. Erland Nelson, president of Carthage college, and John Bickers, a junior, traded places for a day. The proxy, chewing gum and wearing a pull-over sweater, went to classes. The pupil, stiffish in a starched white shirt and conservative suit, ran the front office.

Commented Bickers: "Being president is easy. I could call on three secretaries to do the work." Countered Nelson: "A student's life is gay and carefree. I didn't realize our coeds were so pretty."

High TB Rate In Singapore

SINGAPORE (AP)—X-rays taken in Singapore's new Anti-Tuberculosis Clinic have disclosed signs of TB in 55 per cent of the cases—a much higher proportion than we expected," said clinic officials.

This result was observed in the first 181 cases examined. The clinic plans to carry out mass X-raying of local school children.

now largely dependent on American dollars to get back on its feet, will not pay the bills. The money will come from a fund in the Treasury derived from liquidation of German and Japanese assets in this country, both government and private property.

It is estimated that the fund, when finally accumulated, will amount to from \$225,000,000 to \$275,000,000.

TEXANS IN WASHINGTON

BY TEX EASLEY
(AP) Special Washington Service

WASHINGTON (AP)—Several Texas congressmen put out weekly newsletters.

Dean of them all is the one issued by Rep. Wright Patman of Texas, who has been at it for almost 16 years. Last week was his 820th week without a miss.

The Rio Grande Valley's new Congressman, Lloyd Bentsen, Jr., of McAllen, started a news letter right after taking the oath of office. A Texas newspaperwoman, who came up from the valley to head his secretarial staff, is helping him put it out. She is Mrs. Celia Hare Martin, formerly of the McAllen Evening Monitor.

Others who mail out regular newsletters include Reps. Bob Poage of Waco, Ed Gossett of Wichita Falls and John E. Lyle of Corpus Christi. Lyle, like Bentsen, gets help from his top secretary. She is Miss Mary Cowles, formerly of the Corpus Christi Caller Times.

While these missives are mimeographed affairs mailed out to daily and weekly publications in the respective congressional districts they are primarily for the benefit of the smaller papers.

Most of the letters are mailed from here on Friday, so they get to the weekly editors in ample time for their editions a week later.

Major legislative items that have been under consideration in Congress frequently are summarized in the newsletters. Sometimes the congressman throws in his views on pending measures. Often they intersperse their comments with paragraphs on varied topics as this from Patman's 820th letter:

"Of the 530 members of the new Congress (one seat is vacant by reason of the death of a member), nine are women, including one United States Senator, and 216 are war veterans, 80 having served in World War Two. The average age of members in 1948 years, one year more than in the 80th Congress."

Senator Lyndon B. Johnson doesn't put out a weekly news column, but he has an alert newspaperman on his staff to help him in getting out his news.

His press relations man is Horace Busby, formerly of Fort Worth. Busby was editor of the Daily Texan at the University of

Texas and then worked as a newspaperman in Austin before joining Johnson's staff.

The new administrative assistant to Senator Lyndon Johnson is John R. Connally, 31, formerly of Floresville.

Before taking over his new \$10,000-a-year job, Connally was manager of an Austin radio station. Several years ago he served for a period as secretary to Johnson when the latter was a member of the house. Then Connally entered the Navy for war service.

Connally was president of the senior class at the University of Texas 10 years ago; his wife to be was chosen as the "Sweetheart of the University" that year. She is the former Ida Nell Brill. They have two children. The tall and handsome 31-year-old Texan is not related to Texas' senior Senator Tom Connally.

Administrative assistant to Senator Connally, incidentally, is Arthur Perry. He lived in Austin 25 years ago before coming to Washington as an attorney in the Justice Department.

English Neglect War Medals

LONDON (AP)—Talk about the Englishman's traditional reserve—The Royal Air Force says only one person in every five who are eligible to wear campaign stars and war medals have so far entered claims for them.

Prayers Asked For Stalin

HASTINGS, England (AP)—Former health minister Ernest Brown wants everyone to pray every day for the conversion of Premier Stalin to Christianity. "It would do more good than the United Nations," he told a church conference.

Suggests Cure for Game Lack In Densely Populated States

By CARL F. BISSELL

Newsfeatures
NEW HAVEN, Conn. — Are sportsmen in densely populated states like Connecticut forever doomed to do their hunting and angling on a "put-and-take" basis?

A member of the Connecticut Board of Fisheries and Game thinks not. "If they will realize what must be done and help do it."

John P. Montgomery, sportsman-industrialist and former president of the Connecticut League of Sportsmen's Clubs, says "artificial reproduction very definitely isn't the answer to the problem."

In this connection he cites Connecticut's expenditure over ten years of more than a million dollars on pheasants, and the state's yearly need to spend more and more to give the gunners an average of less than one bird per gun.

"That is put-and-take with the taker on the losing end," he says.

Montgomery says he thinks "the taker will continue to be the loser" in states like Connecticut "until someone comes up with an educational program designed to dispel popular misconceptions as to rights and privileges, duties and responsibilities."

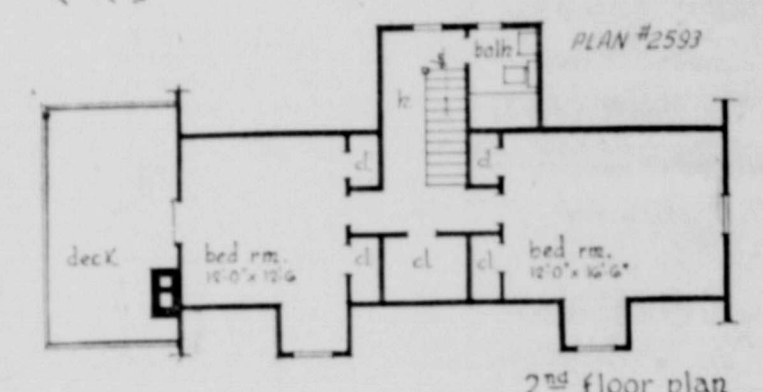

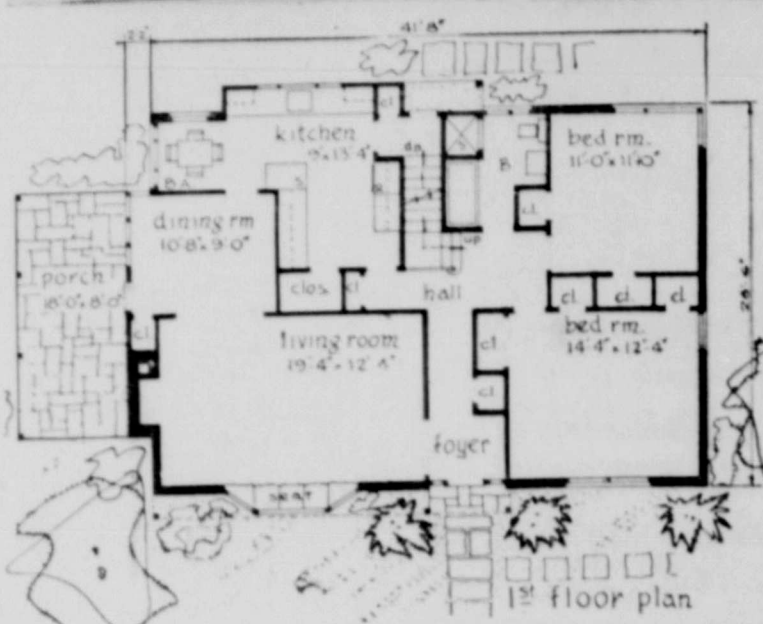

"It is pretty generally agreed that destroyed environment, more than hunting pressure, is responsible for the plight of our wildlife," he says. "It has been pretty thoroughly demonstrated that, given suitable conditions, the valuable wildlife species will reproduce themselves. The better the conditions, the more abundant the reproduction."

"It also has been demonstrated that artificially propagated game cannot be liberated in unsuitable environment except at a loss," Montgomery continued. "That is one reason Connecticut's unsuccessful pheasant program has been so costly."

"What game restorationists are up against in states like this is a 'slum' clearance problem," he went on. "Slums have been created everywhere by pollution of our waters, the lack of flood control, soil erosion and our failure to replace the trees we've cut away."

"The problem will be solved when agreement has been reached as to whose duty it is to clear these slums. Realization by the sportsmen that no wildlife agency, or combination of them, is going to be able to do it, will be an important forward step toward developing an optimum

HOMES FOR AMERICANS

Newsfeatures
AN EXPANSION ATTIC gives this small house an ultimate capacity of four bedrooms and two baths. The plan covers an area of 1211 square feet and the first floor layout is adequate for a small family. There are ten closets on the first floor and five more upstairs. This is Plan 2593, by Rudolph A. Matern, 90-04 161st St., Jamaica 2, N. Y.

game population. "This will take education, and it will require more education to place the responsibility where it belongs, and to convince those who should assume it that it is theirs."

"Restoration of conditions which can produce better hunting and angling is the responsibility of every individual and every public and private agency in this state," Montgomery asserted. "Startling as it is, it is so."

"And that is because the conditions which have depleted our game population affect every man, woman and child, either economically or from a health standpoint," he went on.

"For instance, the pollution of our streams and other waters is a demonstrable health hazard, endangering everyone, and thus a problem for all."

"Erosion, which destroys the soil's fertility, also destroys its tax value, and may spread to damage the property of others. Halting it is the problem of the owner of the land on which it occurs, of all his neighbors, and of the taxing authority of the community."

"And so is the problem of our destroyed woodlands, which must be restored for their economic value, as well as to halt erosion and preserve and increase our ground water."

"The chore for the sportsmen then is to initiate the necessary program which would de-emphasize their interests, and emphasize the general public good which can and will result in slum clearance. The alternative is to spend more for less game each year."

Some kinds of oysters live for 20 years.

Fight Against VD Showing Results Throughout Texas

AUSTIN, Texas — Throughout America men and women have become conscious of the necessity for fighting the menace of venereal diseases, and it is a matter of pride to public health workers that the entire nation now joins in the observance of National Social Hygiene Day, which in this year is dated February 2.

Dr. Geo. W. Cox, State Health Officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocky Mount, and that a total of approximately 15,000 patients per year are being treated in these centers. Ninety-six venereal disease clinics are also in operation throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

In the past two years a blood testing survey of more than 80,000 Texans has disclosed that between seven and ten per cent of that number had positive tests for syphilis and that a large majority of them did not know they had the disease and had never had medical treatment for it.

This vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98% of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until no longer infectious. A continuous educational program carried on by the State Department of Health is another effective means for controlling venereal disease among our people, and reducing the number of crippled, blind and paralyzed persons who are annually the victims of syphilis and other venereal diseases.

According to one source, rheumatic diseases cost the American people about \$750,000,000 a year in lost wages, relief payments and doctor bills.

Crown Jewels Face Housing Problem

LONDON (AP)—Even Britain's crown jewels have housing and queuing problems. Only 6,000 of the 20,000 visitors a day at the Tower of London are able to see them. As a result, efforts are being made to move the display to larger quarters.

Col. E. H. Carkeet-James, governor of the Tower of London, told reporters: "I hope soon we shall have the use of the dungeons of the White Tower (largest in the Tower of London group) for the display of the crown jewels. There we can spread out a bit and there would be plenty of room."

Oyster eggs, once fertilized, quickly become free-swimming larvae and then grow thin shells within 24 hours.

Young oysters are called spat.

Greek Guerrillas Do Much Damage

ATHENS (AP)—Markos has inflicted more than a quarter billion dollars worth of damage and devastation on Greek roads, railways, utilities and buildings since the beginning of the civil war.

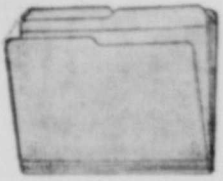

According to the Greek government, the heaviest losses caused by buildings, roads, culture products and equipment and livestock.

ADMITS EMBEZZLEMENT — Joe Allen Mason, 28, (above) Reserve Army captain, has admitted embezzling more than \$10,000 from the First National Bank of Odessa, Texas, Harry Kimball, special agent in charge of the FBI in San Francisco, announced. Mason was arrested in San Francisco while awaiting transportation to Army duty in Japan. (AP Photo)

Finns Ignore Russians

HELSINKI (AP)—The Finns seem to have found something to talk about besides the Russians. There was a time after the war when Russia and Russians appeared to dominate, or at least, weigh down, almost every conversation here.

Not so any more. "Where," asked a Finn, "shall we have dinner?" Recalling his last trip to a restaurant here more than two-years ago, a visitor replied, "Does it make any difference?"

The Finn smiled. "Food isn't rationed anymore, you know." He was proud and justly so. They went to an extremely nice restaurant atop one of Helsinki's fine buildings. Everything went beautifully, especially as a fine pair of lamb chops as you can find this side of Paris.

"During the war," said the Finn, "we didn't dance. We're doing it now."

Hours had passed and the visitor met a lot of Finns and still there hadn't been a word about Russia. It was left to him to bring it up.

"Oh, Russia," said a young engineer. "You Americans get too excited about the Russians. Look, we live beside them and we seem to be getting on."

"That," the visitor remarked, "was quite an observation for a Finn."

Mrs. James Hardy returned recently from spending three weeks with her mother, Mrs. Eliza Winfrey of Kingman, Kansas.

Paul Sargent ORIGINALS

Exquisitely and softly tailored, with the changeless simplicity found only in the finest classics, this PAUL SARGENT original represents lasting good taste, season after season, year after year. Featuring jewelled studs and links, tucked bodice, and the new swing-action back.
