Nineteen Year-olds Must Request For Draft Deferments

A new ruling issued by Selective Service Boards now reads that any 19 year old boy who is a student in either high school or college must request his deferment to finish his year of education, it was announced this week.

The order was received from Major General K. L. Berry, state director of the draft system. Formerly students received automatic deferments. Now they must write a letter to their local draft board and request this time extension.

Mail Date Set On Christmas Gifts To Service Men

Christmas parcels for overseas service men and women must be mailed before November 15 to assure delivery by Christmas, Guy Karr, postmaster said this week.

Karr said a communication from the Post Office Department urged early mailing of gifts to men and women in foreign countries and indicated that the department will cooperate in getting the packages to them on time.

A weight limit of 70 pounds has been set on any single package, and no firearms, intoxicants or inflammable material may be sent.

Packages must be wrapped in regulation parcels, with strong wrappings, and must be securely tied, Karr said.

30,000 Gallon Tank Be Added to Butane Storage of City

Gas users from the City mains will get an extra 30,000 gallon butane storage capacity, according to City Secretary James Cowan.

Mr. Cowan told the Texas Spur that the additional 30,000 gallon storage tank would be added within a few days, and would bring the total storage capacity of the city's butane system to 46,000 gallons. At the present the city has two tanks with a storage of 8,000 gallons each.

The new tank is enroute to Spur and will be installed upon arrival, Mr. Cowan said.

AC Program Nation Wide

Forces that destroy the soil—erosion, depletion, and just plain wearing out—are being met by other forces that are controlling and checking them. More than 3 million farmers participated in the Agricultural Conservation Program in 1947. This means that this many farmers each carried out at least one soil or water conservation practice. The farms of these more than 3 million farmers contain about two-thirds of the nation's farmland. These farms were improved by the conservation carried out. They produced substantially more than two-thirds of the nation's supply of food and fiber.

In making this statement, B. F. Vance, Chairman of the Texas FMA Committee, said that few people realize the work that is being done under the AC Program. The program operates in every Agricultural County in the United States. It has been in operation for 12 years. Many of the practices carried out in the first years of the program are still doing their part to conserve and protect the Nation's soil.

Other practices such as plowing under of green manure and application of lime and phosphate, while not as apparent as dams and terraces, still are serving to protect land in the increased growth of grasses and legumes. The Chairman states, "Through their elected committees, farmers backed and supported by the Nation as a whole are organized in this fight to protect the soil and water resources of the Nation. Much has been done but far more remains—the battle is never ending."

Mr. and Mrs. Andy Hurst Jr. of Borger were week end guests of Mr. and Mrs. Lawie Lee and Mr. and Mrs. Andy Hurst.

STATES' RIGHTS HEADS IN TEXAS CAMPAIGN

Houston, Texas, Oct. 20.—The States' Rights candidates for president and vice-president will join in the whirlwind campaign now under way throughout the State, during the week preceding the November election, it was announced here today by Robert W. Milner, States' Rights campaign director.

Governor Wright will make two speeches in Texas. He will speak at Columbus on Oct. 21, and in Wichita Falls on Oct. 22.

Governor Thurmond will open his Texas campaign in Texarkana Oct. 27. Thursday, Oct. 28, he is scheduled for speeches and appearances in Clarksville, Paris, Bonham, Sherman, Gainesville, Denton, and Fort Worth. His schedule on the following day is Cleburne, Hillsboro, Waco, Temple, Georgetown and Austin. Saturday, Oct. 30, he will wind up his Texas campaign with talks in San Antonio, Corpus Christi, Tyler, and Beaumont.

Carnival Set For October 29

The annual Hallowe'en School Carnival has been set for Friday night, October 29, and festivities will begin at 7 p. m.

The carnival will be set up in downtown Spur in the 400 block of North Harrison and will feature every kind of entertainment. Concessions of the East Ward School will be—Bingo games, country store, cake walk and grab bag. Junior High will offer Milk Bottle rack, Pony Ride, Fish Pond, House of Horror and Fortune Teller. Freshmen of the High School will stage a style show; sophomores the basketball pitch, and bean guess; Juniors, food stands and the seniors the hay ride.

A Queen from Junior High and Spur High School will reign during the one night merriment. Votes for these candidates are being sold on the streets of Spur this week, and will continue up to time for the hallowe'en event.

The affair is sponsored by the business men and clubs of Spur.

Spur Lions Meet

The weekly meeting of the Spur Lions Club was held Tuesday, and honor was paid to the district governor, during the meeting.

Lion Lester Hill was in charge of the program and gave a summary of the duties and activities of the District Governor. One week of each year is set aside in the clubs meeting to pay honor to the head of the Lions for this district.

Further business taken up during the meeting was the announcement of the official date for the annual football banquet. Lion President Fred Kinney announced that the banquet would be held on November 30, and would be in the form of a barbecue for the football team, their coaches and guests.

Plans for the completion of house numbering and street marking were discussed. It is hoped to have this project completed by November 1.

C. E. Fisher, Dale Young and Alvis Bilberry visited the Swenson ranches at Throckmorton, Stamford and Seymour in the interest of mesquite eradication projects.

Tells Story of Fire Prevention Week

CHICAGO—Ted Malone, Westinghouse radio reporter and story-teller, stopped off in Chicago during Fire Prevention Week to talk to school children about importance of home fire safety. Above, Malone examines Fire Prevention Week poster with students of Lake View High School and Battalion Fire Chief George McNamara of Chicago Fire department.

Postal Rates to Increase Jan. 1

In accordance with Act of July 3, 1948, 80th Congress, Postal Rates will be increased, effective January 1, 1949, according to information received by Guy Karr, local postmaster, from the United States Postal Department.

The rates will be effective on all mail, third class matter, 4th class, Special Delivery, money order fees, postal notes, domestic registered mail and registered receipts, and others that will have little or no effect on the local situation.

Air mail will be increased from 5c to 6c with an 8 oz. limit. Under the new set-up postal card may be air-mailed for 4c.

Third-class matter will be increased from 1-1/2c for first two oz. to 2c for the first two oz., with an additional 1c for each oz. thereafter.

Fourth Class, or parcel post, will be increased according to zones. Locally will be increased from 8c to 10c for 1st lb.; third zone, (Dallas - Ft. Worth, for example) from 10c to 12c, first lb.; 5th zone (example) 12c to 15c.

Special delivery will increase from 13c to 15c up to 2 lbs., from 2 lbs. to 10 lbs. will increase from 20 to 25c and over 10 lbs. from 25c to 35c.

Money order fees will be cut from 8 divisions to 4 divisions, and the fees will be 10c, 15c, 25c and 35c, an increase of 4c in each division.

Postal notes increase from 5c to 8c up to \$10.

Domestic Registered mail shows an average increase of 10c and returned receipts on registered mail shows an increase of 1c.

Postmaster Karr has the new regulations and persons that are interested are invited to see them at his office.

Dickens County Farm Bureau Meet Scheduled Friday

S. L. Benefield, chairman of the Dickens County Farm Bureau Federation, announced this week that a meeting of all leaders has been scheduled for Friday night, October 22, at the Dickens County Court House.

Details for the organizational planning will be worked out in conjunction with the Organization Week as proclaimed by Governor Beauford Jester.

Mr. Benefield stated that a cafe supper would be served at the meeting to all organizational leaders.

Girard to Meet Robinson in First Basketball Game

The Girard School will entertain the Robinson School (Lubbock county) in the first basketball game of the 1948 season Friday night, October 22, with game time set for 7 P. M.

Coach Woolley is expecting a good team this year, and is shaping his charges to win the district crown.

The game will be played in the Girard School gym.

Dinner Honors California Visitors

A dinner, given in the honor of Mr. and Mrs. T. L. Holly of Modesto, California, was held in the home of his brother, Mr. and Mrs. Watt Holly of Dickens, Sunday, October 17.

Out-of-town guests included Mr. and Mrs. Lee Marshall, Roaring Springs; Mr. and Mrs. Ben Holly, Spur; Mr. and Mrs. R. D. Holly and daughter, Rose Netta, Glenn; Mr. and Mrs. Jessie Rae Parnell, Glenn; Miss Ruby Dell Overstreet, Lubbock.

Others enjoying the wonderful dinner were: Mr. and Mrs. Elsie Holly, Mr. and Mrs. Hallett Holly, Mr. and Mrs. Grover Overstreet, Mr. and Mrs. James Fabus and Son, James Wayne, Mr. and Mrs. Ernest Noland and children, Ewell, Clayton and John; Mr. and Mrs. Tom Farley and children, Lurline and Gerald and Mr. and Mrs. Watt Holly all of Dickens.

Girl Scouts Meet

All Girl Scouts present at the meeting October 13 passed their first aid and safety tests. They were: Jean Boothe, Jane Ann Albin, Carol Carpenter, Margaret Pierce, Billy Sue Gregory, Dean Regan, Gwendolyn Ford, Patricia Pugh, Sue King, Marilyn Miller, Gale Love, Kathleen Kelley, Sandra Watson, Yvonne Adams and Helen Dean Bingham.

Duck Creek Soil Conservation District News Notes

WILL WRIGHT, JAMES MONTGOMERY, CHAS. WITT, RILEY WOOTEN, Chas. OSCAR McGINTY, Sec.

The rate of new terracing in this district has picked up and more applications for assistance have come in. The Duck Creek Soil Conservation District board of supervisors will consider nine new applications when it meets this week.

Fred Neaves has recently formulated a coordinated plan for conservation of soil and water for his farm which is southeast of Spur. Fred's plan covers 281 acres most of which is in cultivation. As quite a bit of his place is

REA Covers 50% Of Dickens County

The Rural Electrification Administration has grown in importance in Dickens County in the past few years.

Since the first REA line was built in Bartlett, Texas, in 1937, rural electrification in Texas has risen from 2.3 per cent to 66.9 per cent as of October 1.

In our own community 50 per cent of the area is now covered by this service, and will increase as the proposed expansion program goes forward, according to Byrnes Britton, manager of the local REA.

The REA covers 45 states, Alaska and Puerto Rico and more than 290,000 rural establishments in Texas now have electricity thru their rural co-ops.

Dickens County REA has 730 consumers at this time who are using over 485 miles of lines.

The new expansion program in which approximately \$435,000 will be spent will include the addition of another 365 miles of lines in the community.

The local REA office serves seven counties, Dickens, Kent, Motley, Stonewall, King, Garza and Crosby.

First Killing Freeze Reported

The first killing freeze of this fall was reported on the night of October 17, 1948, when the minimum temperature as recorded at the Texas Agricultural Experiment Station, hit 30-degrees.

According to information from the Experiment Station this was the second earliest killing freeze during the past 25 years. In 1943 there was a killing freeze reported on October 16, and a killing freeze was recorded on October 15, 1929. The average date for a killing freeze over the 28 year period is Nov. 4, according to R. A. Parker.

According to reports to the Texas Spur, crops were not seriously damaged by the freeze.

Mrs. Eric Foster Twentieth Century Club Hostess

"There may be thirty five million laws, but no improvement on the Ten Commandments," said Mrs. O. L. Kelly in the opening discussion on "Problems of Modern Marriage", when the Twentieth Century Study Club met Tuesday afternoon in the home of Mrs. Eric Foster at 813 N. Parker.

Halloween decorations and huge vases of pyracantha berries lent a very gay and festive air to the receiving rooms.

At the close of the business session, other speakers who discussed the subject of making marriage work, "What is Marriage?", and "Are you old enough to stay married?", were Mrs. Mansell Bragg and Mrs. Oscar McGinty.

Refreshments of apple pie, topped with small pumpkins of cheese, pickles and hot coffee were served. Plate favors were Halloween chewing gum, harps.

Members present were Mesdames: O. C. Arthur, Cliff Byrd, J. H. Blackwell, Mansell Bragg, F. B. Crockett, Paige E. Gollhar, Henry Gruben, O. L. Kelley, J. A. Koon, E. S. Lee, George S. Link, O. M. McGinty, J. C. McNeill, P. C. Nichols, W. S. Patrick, A. M. Walker, Miss Margaret Elliott and one visitor, Mrs. W. S. Mattox of Dallas.

Mrs. Andy Hurst, Mrs. Lester English and Mrs. Jack Rector accompanied Mrs. George Gabriel on a late fall marketing trip to Lubbock Sunday. They were among the buyers attending the semi-annual Western Wholesale Clothing Market, resumed after a five year war time interruption.

FOOTBALL QUEEN, 1948—Pictured above is Miss Lanell Brahear, Spur High senior who was crowned football Queen of 1948 at pre-game ceremonies last Friday night. Shown with Miss Brahear is captain Joe Simpson, who officially crowned the queen. (Photo by B and H Studio)

JOTS BY JOE

Ladies of the Spur Legion Auxiliary are going to have one of those old fashioned box-suppers come Monday night... the event is for legion members and their families.

And speaking of food, JOTS and the Mrs. were among the invited over by our good neighbors to the north... the city of Dickens, Tuesday night... when they honored our fire dept. ... Jake Varnell, Charlie Taylor, Jack Gibson, Fred Arrington and many others of the city really had a feed that was something... Thanks, Dickens.

W. R. Weaver, the utility man, is getting all ready for a trip up Wisconsin way... to attend his son's wedding...

A. J. Harvey, local bachelor, was eyeing a certain school teacher in Dickens last Tuesday night at the barbecue.

George Gabriel telling his friends of the "Big Bear" that got away...

Prof. Cook reminds JOTS to remind you good people of the annual Hallowe'en carnival slated for night of October 25... there'll be apple bobbin and all that stuff... ghosts, goblins and such.

Just a little plug for the TEXAS SPUR... you folks don't let your subscription expire... renew now.

School Supt. Sets Holiday Dates

Supt. C. F. Cook of the Spur Schools announced this week the holiday dates for the first semester.

The holidays scheduled are: Thursday, Nov. 11, Armistice Day, (one day); Thursday, Nov. 25, Thanksgiving Day, (two days). School Classes will be dismissed for Christmas on December 17 and resume class work on January 3.

The first semester will end on January 21.

"Indian of the Year" Visits Famous Treaty Stone in "Olson Rug" Park

CHICAGO—Archie Phinney, (left) of the Nez Perce tribe, winner of this year's Indian Council Fire's annual achievement award, pays a special visit to the Indian Treaty Stone in Olson Rug Co. Park, one of Chicago's beauty spots. Nearly five million visitors have been thrilled by the 35-foot waterfalls, seen in the background. Whitney Fowles, president of the Indian Council Fire, explains that the Treaty Stone was used by the Potawatomi, Chippewa and Ottawa tribes when they made a treaty with the white man in 1833, giving up their rights to the land around Chicago.

Bulldogs Lose Hard-Fought Game To Lockney

The heavy Lockney line was too much for the Spur Bulldogs last Friday night as they went down in defeat by the score of 13 to 0.

It was a hard-fought battle from start to finish, but the bruising heavy-weight line of the Lockney Longhorns made it possible for the backs to advance thru the Bulldog line for two touchdowns and the ball game.

Coach Hawkes' team fought the Longhorns all the way, but the 32-lb. per man weight was too much.

Lockney scored in the opening of the second quarter when McCullough went over from the 4 yard line. Their other touchdown came as the result of a long pass from McCullough to Pyle good for forty yards and a score.

Spur took to the air in the 2nd half, but their passing attack was stopped by the Longhorns. All of Spur's team was outstanding with the entire line playing bang-up ball.

The Bulldogs travel to Crosbyton Friday night where they meet the Crosbyton Chiefs. Crosbyton and Spur are in a tie for second place in the District.

The Standings

Team	Won	Lost
Lockney	2	0
SPUR	2	1
Crosbyton	2	1
Floydada	2	1

Texans Have More Sugar - Less Honey

During the war, there was a big shortage of sugar and folks in this country became heavy users of syrup, molasses and honey.

The pendulum is swinging back the other way now. This year with a big supply of sugar and prices going down, people just aren't using the honey and syrup and the "lasses on the biscuits as much as they used to, says C. H. Bates, extension farm management specialist of Texas A. and M. College.

The beekeepers don't have as many bee colonies this year as they did last, so there won't be as much honey produced. Last year's production was the second highest on record, but this year, things are a little different—a downward trend in production. The making of sirghum syrup has been dropping off, too for the past several years. This summer's drouthy weather has brought a further cut in sorghum syrup yields.

In the ribbon cane areas of Texas, the picture is still worse. Dry weather and reduced acreage of cane means scanty production of cane syrup on farms in the eastern part of the state. The economists look for a decline in refiner's production of molasses and cane syrup from both domestic and Cuban supplies. Likewise, corn syrup production, which reached an all time high last year, will be down to almost half as much this year.

So, for sweets of all types, it's a pretty spotty picture. But there is enough sugar in sight to keep prices to household and industrial users very near the present levels for the months ahead, says Bates.

Expt. Station Guests

R. E. Dickson and the Texas Agricultural Experiment station were host to a number of prominent guests last week.

Among those visiting at the station were: Howard Kingsberry, head of the Production Marketing Administration, Texas Division; S. B. Aikens, Production Marketing Administration, Washington; Johnnie Stevens, manager of the Matador Ranch; James Wright, Dardoe, Scotland, a director of the Matador Ranch; Mr. Drought, San Antonio; Mr. McKenzie, Denver, Colorado; L. P. Merrill, assistant Range Specialist from Sonora station; Jeff Hooper and Dan Babin, Jennings, La.; Foster Howell, Ft. Worth; Dr. L. A. Kephart, Dept. of Crops Bureau, Maryland; Kenneth Porter, Amarillo; M. N. Beller, Asst. Editor of Cappers Farmer and George Glenn, Southwest Forest Range Service.

Boyce House "Gives You Texas"

Orators don't coin phrases like their predecessors did in the good old days.
For example, the one who referred to a political party with its motley groups as "held together by the cohesive power of plunder."
And Tom Corwin's phrase that if his native land were invaded, "We would welcome them with hospitable hands to bloody graves."
A man who had just listened to a speech said it reminded him of "the peace of God" because "it passes all human understanding."

All that a Texan wants is what is coming to him—not any less but not a bit more. But some are receiving more than they are entitled to because of the greater growth in population of some parts of the state in comparison to others.
Representation in the legislature is not based on today's population as it should be—but what the population was, 20 years ago. The State Constitution calls for redistricting after each census but there has been no redistricting since 1921. A few members of the legislature have blocked

redistricting because they might have to run against each other. They put their own political interest above their oath to carry out the Constitution. They place their selfish individual ambitions above doing justice to 7,500,000 Texans.

The folks back home do not share any such selfish view. Texans believe in a square deal, they are fair minded.

That's the reason why Constitutional Amendment No. 2 should pass in the general election; it provides a sure way of bringing about redistricting every 10 years.

Health Notes

AUSTIN, Oct. 20.—From statistics compiled by the State Health Department, Dr. Geo. W. Cox, State Health officer has disclosed that the lack of proper refrigeration contributes materially to the total diseases outbreaks for on year, caused from foods other than milk and milk products.

During the year, there were 300 outbreaks of diseases from contaminated foods, incapacitating 12,562 persons, 17 of whom died.

The food poisoning was usually caused from contamination through unsanitary conditions, in-

fections of food handlers, or even more significance, lack of early and adequate refrigeration," Dr. Cox said. "Even when contaminated, foods will seldom develop toxins sufficient to cause poisoning if properly refrigerated promptly after preparation. Outbreaks caused from foods have totaled nearly six times the number caused from water or milk."

The State Health Officer pointed out that the consuming public is, in many areas, protected by proper enforcement of sanitation standards for eating establishments such as are set up in the United States, Public Health Service Milk Ordinance and Code. The public is entitled to a good, clean, safe and, wholesome food supply, including milk which has been produced under strict sanitary conditions and properly refrigerated. This is a great protection against disease outbreaks caused by contaminated foods of various kinds, and Dr. Cox said this was especially obvious in view of the fact that our disease outbreak has yet been traced to pasteurized grade A milk which had been adequately refrigerated.

CARD OF THANKS

We take this method of publicly thanking our friends and neighbors for their kindness and thoughtfulness when our dear son and brother passed away. The shock was very great but our friends and neighbors came in with so many comforting words that our great sorrow was greatly relieved. We thank the Ministers, the Undertaker, the ones who made the floral offerings, the ones who helped so much. We want to thank the ministers and members of the First Baptist Church for their kindness and especially the help from the Williams-Puckett Post of the American Legion. May God's Blessing rest on each one.
The Ritchie Family

Rails Banker To Head Scout Drive

Dr. F. B. Malone, President of the South Plains Council, Boy Scouts of America, announced today that Mr. J. Ed McLaughlin of Ralls, Texas, has accepted the Chairmanship of the Scout Council's coming Campaign for their 1949 Budget.

Mr. McLaughlin is well known in business and banking circles all over the state and has been prominent in Rotary Club affairs for many years. Mr. McLaughlin is well versed in the Boy Scout Program. He has served on the Executive Board of the South Plains Council for over twenty years, and has been a member of the Regional Scout Committee for several years. The Council's Campaign to raise their budget of \$46,605.00 for the year 1949 is scheduled to kick off in every community of the twenty county Council on November 8th.

The Steering Committee assisting Mr. McLaughlin in the organization of the Campaign includes: Henry Miller, Tulsa; Jim Hunter, Plainview; C. D. Bass, Levelland; Sam Privitt, Brownfield; H. G. Cook, Wilson; Dr. J. C. Loveless, Lamesa; R. B. Shahan, Denver City; Edgar Hays, Lockney; Jack Godfrey, Spur; Alvin Redin, Silverton; and Joe Hutchinson of Littlefield.

The Council is a participating agency in the Community Chest in Lubbock, Lamesa and Littlefield.

Markets Hold Steady Past Week

Curtailed marketings of livestock reversed price trends at southwest markets during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Hogs recovered some of their recent losses in gains of mainly \$1 at Kansas City, Wichita, Oklahoma City and Denver. Texas markets advanced even more, and remained strong Monday. Most good and choice medium weight butchers ranged from \$26 to \$27.75 at most of the markets, but Denver paid as high as \$27.50. Most cattle sold 50 cents to \$1.50 higher for the week and Monday's markets continued steady to strong. Stockers and feeders shared in the strength. Most good and choice stocker steer calves changed hands at \$22 to \$25 at Fort Worth, while choice light lots reached \$26 to \$27 at Oklahoma City. A light weight light stocker, 140 lbs., yearling back to the pen, sold \$19 to \$24. Kansas stocker steer calves made \$30 at Kansas City. Denver held choice stocker steer calves above \$30.
Lambs sold about unchanged at most terminals, though Denver paid a little bit more. Ewes lost mainly 25 to 50 cents for the

week. Good and choice lambs ranged largely from \$23 to \$25. Medium and good ewes sold at \$9 at Fort Worth, and common and medium at \$8 at Denver. Goats sold steady to weak at San Antonio.

Wool trade reflected a better feeling. Texas growers asked \$25 cents a grease pound for five 12-months staple wool. Mohair sold at 38 for adult and 58 for kid.

With fall frost occurring in many areas, more liberal shipment of winter fruit and vegetables began to replace dwindling supplies of summer types during the past week. Prices trended higher on most summer products, but eased downward on most of the newcomers on the market. Texas oranges and grapefruit began to arrive at many terminal markets. Local beans, squash and cucumbers came to New Orleans. Potatoes, onions and sweet potatoes sold firm to stronger.

Prices of young chickens fell 3 to 6 cents a pound last week. Prices to Arkansas growers dropped to mostly 30 cents for 3 lb. birds. Fort Worth and Dallas paid 30 to 35 cents, and New Orleans around 36. A few turkeys went to market at 35 to 40 cents for toms and 40 to 45 for turkey hens in north Texas. Chicken heads and eggs continued to bring firm to strong prices in the southwest.

Fair demands and limited offerings held rice steady to firm last week. Feed markets showed some recovery from recent losses. Hay strengthened, as the hay season neared a close. Peanuts sold mainly at government support prices.

Wheat showed the only strength in the grain markets, with gains of around 3 1-2 cents a bushel for the week. No. 1 sold \$2.41. White corn lost 5 cents to

Clothing Seminar Be Held At Tech

Trends in clothing construction, which will save sewing time yet produce better tailored garments, will be stressed in the fall clothing seminar series at Texas Technological College for high school home economics teachers in Lubbock's immediate vicinity.

Miss Mabel Erwin, head of the

clothing and textiles department in the home economics division, is conducting the seminar scheduled from 9 a. m. until 11:30 a. m. on Saturday's at the college home economics building.

Short cuts and efficient organization without sacrificing correct styling and finish is most important to "home sewing" today, Miss Erwin pointed out. With the current high cost of clothing more and more women are seeking training in clothing construction.

Home economics teachers who instruct in clothing and textiles in high schools are eligible for the fall seminar series.

After ten years of the average of farm product prices becoming successively higher, it is hard to realize that this same index the next ten years could be successively lower. This possibility is worth thinking about.

FRED ASTAIRE, PETER LAWFORD and JUDY GARLAND in Irving Berlin's "EASTER PARADE," an MGM picture in color by Technicolor.

It's a grand parade of stars, hit tunes and a skylarking story of two people who dance their way to love in Irving Berlin's "Easter Parade," the M-G-M Technicolor musical showing at the Palace Theatre this week, starting Sunday.

This is the picture which brings Fred Astaire back to the screen to co-star with Judy Garland after a two-year retirement, and he is made to order for the role of the breezy vaudeville headliner of the colorful Ziegfield era who picks Judy out of an obscure chorus and puts her into the "Big Time."

There are all sorts of romantic ramifications involving Peter Lawford as a stage door Johnny, and Ann Miller as the dancing partner who walks out on Astaire's act, leaving the field clear for Judy—but the big news is that all these talented performers are singing and dancing to those wonderful Irving Berlin song hits among them a flock of brand new ones expressly written for this picture.

Outstanding among the new numbers are "It Only Happens When I Dance With You," sung by Judy Garland and danced by Astaire and Ann Miller; "Better Luck Next Time," a Garland song; "Steppin' Out With My Baby," a brilliant specialty number in which Astaire reveals three different dance styles with as many different partners; "Drum

Crazy," another number in which Astaire demonstrates his hoofing wizardry; "A Couple of Swells," with Miss Garland and Astaire appearing as a pair of hilarious tramps; and "A Fella With An Umbrella," dueted by Miss Garland and Peter Lawford.

Berlin hits of an earlier day are the nostalgic "Everybody's Doing It," a Garland-Astaire vaudeville montage sequence that includes "Snooky Ookums," "Ragtime Violin" and "Alabama, Choo Choo," and the infectious "Shaking the Blues Away," in which Ann Miller is in the spotlight.

Magnificently staged and costumed, with a special bow to Director Charles Walters and Producer Arthur Freed, "Easter Parade" comes close to being the Perfect Musical. It's a joy from its opening chorus to final fadeout of that unforgettable spectacle, Fifth Avenue's famous Easter Parade.

The Harmony Club will hold its next regular meeting in the home of Mrs. Nell Davis on October twenty-sixth. The time of meeting has been advanced to 7:30 P. M. in order to begin practice on the Christmas cantata. A program on Music and Literature will be presented as well as reports from the District Convention which is to be held in Quannah on October 22 and 23.

Celebrates Birthday

Bobby Britton celebrated his tenth birthday at a party given by his mother, Mrs. Bynum Britton, at the Spur stadium.

Bobby and his little friends played football while the girls acted as their pep squad. Candy, ice cream and cold drinks were served to Rush McGinty, Kent Morgan, Donald Snodgrass, Jerry Don Dunaway, Curtis Patterson, Sharon English, Lois Ann Calan, Dixie Carol Young, Gail Buzbee, Ronny Ensey, Bruce and James Long, Jimmy McAtter, Bobby Dice, Robert Kieth Beason, Paul Warren Bailey, Kathleen Rector and Sandra Karr.

Miss Jonell Addy Takes Vows With Seger I. Jenkins

The home of Rev. C. V. Allen was the setting Saturday, October 16 at 1:45 p. m. for the wedding of Jonell Addy, daughter of Mrs. Cecil Addy, and Seger I. Jenkins, son of Mr. and Mrs. B. B. Jenkins. The Rev. C. V. Allen read the double ring ceremony. The bride was attended by Miss Bertha Nell Walker and Jimmy Koon served the groom as best man.

The bride wore a pearl grey

suit with matching accessories. Her headdress was made of pink tube roses to which a grey shoulder length veil was attached. She carried a white Bible adorned with an orchid surrounded by folds of grey Maline. Her maid of honor wore a yellow crepe dress with matching accessories and carried a corsage of pink carnations.

Following the ceremony the bridal party attended a reception at the home of the bride's mother. Punch and cake were served to the guests after the bride cut the three tiered cake. Mrs. Billy Addy presided at the punch bowl.

The few close friends and relatives attending the ceremony and reception were: Jimmy Koon, Helen Harris, Kenneth Williams, Jimmy Nell Bowman, Bertha Nell Walker, and Mr. and Mrs. Billy Addy.

The bride is a former student of Breckenridge High School and a graduate of the American School of Chicago, Ill.

Mr. Jenkins is a former student of Spur High School. The couple will reside in Spur.

Recent Bride—Shown above is Mrs. Seger Jenkins who before her marriage on Saturday, October 16, was Miss Jonell Addy.

Kathleen Rector Honored With Birthday Party

Kathleen Rector was honored on her tenth birthday, Thursday, October 14, with a party given by her mother, Mrs. Jack Rector. The children were served birthday cake and hot chocolate at a table adorned with Halloween decorations.

After the gifts were opened the group attended the movie, "The Noose Hangs High". Those attending were: Donall Snodgrass, Lenora Wilson, Bobby Britton, Sharon English, Lois Ann Callan, Jerry Don Dunaway and Don Greaves.

Local Delegates Attend State H. D. Meet At Temple

Mrs. Dee McArthur and Mrs. Buck Ballard of Spur, and Mrs. Clark Forbis of Afton attended the Texas Home Demonstration Association meeting at Temple, Thursday, Friday and Saturday of last week. Mrs. McCleskey, also of Afton, accompanied the delegates.

The four left Spur Tuesday morning and spent the afternoon shopping in Fort Worth. Mrs. Forbis and Mrs. McCleskey remained in Fort Worth overnight, while Mrs. McArthur and Mrs. Ballard drove on to Dallas to spend the night with friends. They attended the Dallas State Fair Wednesday morning and arrived in Temple Wednesday night.

The reported that eight hundred and fifty women registered at the Municipal Auditorium Thursday morning for the opening session.

Spur Bank Staff Annual Barbecue

The O. M. McGinty ranch was the scene of a annual Barbecue Thursday evening, October 14, for the officials and employees of the Spur Security Bank, and their invited guests.

Over 125 guests, assembled at a picnic site on the ranch, were served beef barbecue, ranch style beans, cowboy stew, potato salad, pickles and onions, a various assortment of pies and cakes, doughnuts and coffee.

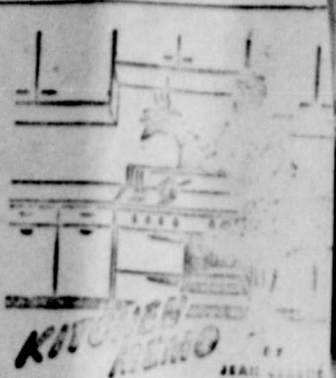

Out-of-town bank officials present were: Clifford B. Jones, Lubbock, president of Spur Security Bank; and Mrs. Jones; W. running against curbs of driving. D. Lacy and Pat Simmons of on rutty roads can get wheels out. Wichita Falls; Mr. and Mrs. B. of alignment before you know it. Hamilton and Bailey Malone

8. How about your tires? Are they properly inflated, well mat- ed, with good treads.

Lamb Situation Looks Brighter

The lamb situation looks a little different for the coming year.

During recent years, and especially since the war, sheep raisers have been sending a bigger share of the lamb crop to the slaughter house than they used to. At the same time they have kept back a smaller number for breeding purposes—to use in flock replacements.

C. H. Bates, extension farm management specialist of Texas A. and M. College, says that with the prospective winter wheat acreage high and with a good supply of moisture in the sheep raising areas, lamb will be in pretty strong demand to put on the wheat pastures. And most ranchmen expect to hold back more ewe lambs than usual this coming year.

A relatively higher price for both mutton lambs and wool is also expected.

Officers Elected For Highway HDC

The Highway Home Demonstration club elected officers for 1948-49 in a meeting October 14, at the home of Mrs. Clark Morgan.

Roll call was answered with a beauty hint. The following officers were installed: Mrs. Clark Morgan, president; Mrs. Ed Denison, vice president; Mrs. Buster Smith, secretary; Mrs. Ray George, reporter; Ms. Donnie Pace, council delegate; Mrs. Shorty Hogan, program leader; Mrs. Cecil Estep, chairman of recreation; Mrs. Donnie Pace, chairman of expansion; Mrs. Ray George, chairman of marketing.

The next meeting will be held October 28 at 2 p. m. in the home of Mrs. Donnie Pace.

Friday October 22 is the last day of the P-TA membership drive.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must take it the way it quickly allays the cough as you are to have your money back.

CREOMULSION For Coughs, Chest Colds, Bronchitis

Mrs. Bass Hostess To Dry Lake Club

Mrs. Lon Bass was hostess to the Dry Lake Home Demonstration in a meeting Wednesday, October 13.

An interesting discussion and demonstration on costume accessories and style trends was given by Mrs. Jewel Robinson, the H. D. agent.

The ladies enjoyed inspecting Mrs. Bass's big new kitchen, in

which they were served a generous and attractive plate of refreshments.

The next meeting will be in the Ivey McMahan home on October 27. All members are asked to bring a written report of their years work.

Dian McClurkin and her roommate at Texas Tech, Helen Strong, spent the week end with her parents, Mr. and Mrs. Leon McClurkin.

and textiles department home economics division, setting the seminar scheduled 9 a. m. until 11:30 a. m. Saturday at the college economics building. Cuts and efficient organization without sacrificing correct and finish is most important, "home sewing" today, was pointed out. With the high cost of clothing, more women are seeking in clothing construction.

Economics teachers who in clothing and textiles schools are eligible for the seminar series. Ten years of the average farm product prices have been successively higher, it is realized that this same increase in the next ten years could be lower. This possibility is worth thinking about.

the Want Ads
Control of ticks and lice on cattle is a problem of the rancher. A pound of 5 percent rotenone and 19 pounds of wettable sulfur for each 100 gallons of water. Or you can use 50 per cent DDT wettable powder to each 130 gallons of water.

Four ticks common to Texas cattle are the Lone Star tick, the spinose ear tick, the Gulf Coast ear tick and the winter tick. All are blood suckers and cause the cattle to lose weight if there are enough ticks.

The Lone Star tick can be controlled by dipping every two weeks, beginning when the first ticks are found and stopping when they are gone. Eight pounds of 50 per cent wettable DDT in 100 gallons of water used as a spray or dip is recommended for tick control. The spinose ear tick is a common cattle parasite throughout most of Texas, and can be controlled by treating the ears of livestock with Stock 1029, using a small paint brush. Also it's important to treat all salt mineral and feed troughs with equal parts of kerosene and lubricating oil.

The Gulf Coast ear ticks are found in a 100 mile area from the coastline along the Gulf of Mexico. A good treatment inside the ear and out with Stock 1937 kills any ticks present and holds them off from three to six weeks. The winter tick is found down around San Antonio. A spray or wash with eight-tenths per cent DDT will get rid of these winter ticks. Farmers and stockmen will notice better and bigger gains on their livestock if they keep lice, ticks and mites away, especially during the winter months, says King.

Retail Sales In Texas Climb 7%

AUSTIN, Oct. 20—September retail sales in Texas were estimated to reach \$459 million as dollar sales of Texas retailers rose 7 per cent from August, the University of Texas Bureau of Business Research reported.

Compared to a year earlier, retail sales stepped up 8 per cent. As is seasonally expected, durable goods store sales fell 6 per cent from August, the first monthly setback since May. Only jewelry and furniture stores re-

ported August-to-September increases, 9 and 4 per cent, respectively. Farm implement dealers turned in the greatest reduction over the month, 21 per cent, while sales of lumber and building materials declined 10 per cent from August.

On the other hand, sales of nondurable goods stores climbed 19 per cent from August to September. Except for declines in filling stations, 10 per cent; eating and drinking places, 4 per cent; and grocery stores (without meat), a fractional decrease, all stores in the nondurable group registered gains from 2 to 25 per cent.

In comparison with September 1947, durable goods sales rose 15 per cent, while sales of nondurable goods gained 4 per cent.

A pound of pecans contains 3,336 calories. A pound of beefsteak contains 1,635, and a pound of turkey has only 1,060. But who would trade a pound of pecans for a big, thick, juicy steak that

Did you know that from 15% to 25% of all the heat from your furnace escapes out the windows? Well, when I recently learned that fact I was amazed—and resolved right then and there to find a solution to that heat leak before winter set in.

I found the answer in Winter Windows! My friend Madge had purchased Winter Windows last year for her home, and told me that the added comfort and warmth from this proper insulation was really surprising. She explained that Winter Windows are actually second windows which fit over the regular ones with a dead air space between. And . . . because this dead air space has been proved one of the best heat insulators there is, these windows form a complete insulation.

One thing Madge cautioned me about—making sure that my Winter Windows were glazed with good glass. She advised "Pennvernon" because it is extremely clear and free from distortion. And . . . of course, clear vision and good looks are important as well as the proper insulation.

Well, I've ordered Winter Windows for every window at our house, too—and we're looking forward to a big saving in fuel costs this year. We feel sure, too, that the children will have fewer colds this winter, with those dangerous draughts eliminated. And they will certainly make our rooms more comfortable on those cold, zero winter days. On warmer days—over for sleeping at night—these windows may be easily adjusted to let in the amount of fresh air you want.

My husband and I are looking forward to a big saving on our fuel bill this year . . . which is good news in these days of high prices, isn't it?

Ranchers Warned About Parasites

Most of the stockmen know there hasn't been much grass in the pastures and on the range this year. There hasn't been enough to feed the cattle, so there sure isn't enough to feed the cattle and parasites too. But lots of farmers and ranchmen are feeling them, and it's costing an awful lot of money to do so, says C. A. King, associate extension entomologist of Texas A. and M.

College. Cattle that are free of parasites have a better appearance, are healthier and more productive than cattle that have to keep switching flies off, or rubbing against the fencepost to scratch the ticks. Cattle lice and four kinds of ticks are the parasites that bother cattle most in the winter time.

Cattle are bothered by lice more in the winter and early spring when the hair is long, so the best time to treat cattle for lice is the fall of the year. Both rotenone and DDT are good for

Window Sun Baths Continue Long After Summer Is Gone

The end of summer should not mean the end of baby's healthful sun baths. When fall winds and temperatures curtail daily promenades, an open window can provide a source of skin-warming sun.

For the new baby who just saw light of day a few months ago, this window-sun session should be brief, a minute front and back, with the time increased a minute each day until baby is being sunned up to 20 minutes front and back.

Each sunning period should start with the recommended beauty routine of an all-over patting of baby's skin with his special baby lotion. This emul-

sion of pure oil and lanolin with an antiseptic ingredient added for greater protection is good insurance against both windburn and sunburn.

The sun-bathing room should be warm and free from draft. A tiny baby may be kept wrapped around the upper part of his body while the legs and feet are sunned.

Mother, too, can use this sunning period to kick off her shoes and relax a bit. If his Nibs is the active kind but doesn't yet walk, he'll delight in some regular exercise, with Mommy helping him raise first one leg, then the other; then one arm, then both.

Brisk Trading In Cotton Markets

Good demand for soft cotton stirred up brisk trading last week at Oklahoma and Texas markets according to reports recently made to the Production and Marketing Administration, U. S. Department of Agriculture.

Sales at Dallas, Houston and Galveston climbed to 129,220 bales, about 4 per cent larger than the previous week. A similar rise in sales occurred at the nation's ten leading spot markets. Prices held firm throughout last week. Highest price paid in the two states for Middling 15/16 inch was 31.20 cents at Galveston and the lowest was 30.60 cents at Dallas. Average price for the ten markets was 31.14 cents last week, only 31 points below the average on the corresponding day last year.

More European countries entered the cotton market last week to improve export demand. Also, inquiries from domestic mills for both prompt and deferred shipments increased. J. E. Cloud and Mrs. J. moderator were guests of Mrs. trade chancellors last week.

Farmers by then than Oklahoma reported crop and crop as More per West Texas Cotton went up Average

at \$64.50 per ton last week, only ten cents lower than the previous week's average. Prices ranged from \$60 to \$70. Cottonseed grades averaged higher in Oklahoma, but lower in Texas last week.

Top o' Texas Rodeo Dates Set

FAMPA, Oct. 19—The Top o' Texas Rodeo and Horse Show Directors have set August 2, 3, 4, 5, and 6 as dates for the 1949 Top o' Texas Rodeo and Horse Show.

The Annual Membership Meeting of the Association will be held on October 29, at which time eleven new directors to the board will be elected. The 1948 show has been declared to have been the most successful in the history of the four year old association. Willis D. Price, local rancher, is president of the Association.

Only Servel gives you the reason why your refrigerator should be a JOHN DEERE

STAYS SILENT LASTS LONGER

So the GAS Refrigerator is Texas' growing favorite

It's the freezing system that measures refrigerator value. And only one refrigerator gives you a ten-year guarantee of silent, trouble-free performance! It's the famous Servel Gas Refrigerator—only refrigerator without a single moving part in its freezing system.

Servel has no motor to wear. No machinery to get noisy. Just a tiny flame

of natural, butane or propane gas makes ice and cold. So Servel stays silent, lasts longer—as more than two million owners know

Come see what wonderful new features you get in the famous Gas Refrigerator. There's a big frozen food compartment, plenty of ice cubes, moist and dry cold for fresh foods. Texas' growing favorite will be last choice for you, too!

Operates anywhere ON NATURAL, BUTANE OR PROPANE GAS

STAYS SILENT... LASTS LONGER

The GAS Refrigerator

McCLAIN APPLIANCE CO.

Spur, Texas

The USDA estimates that over 100 million of the farm families in the United States are using freezer space for preserving home foods, most of it home grown.

Captain of Industry

Meet Butch—Pres, Treas., and Field Force of the One Man Odd Jobs Co., Uninc. Take a good look at him—for Butch is America.

Butch wants a bicycle. Lots of lawn and lemonade and baby-sitting lie between Butch and that bike, but we're betting on the boy. He has energy, vision, and our national habit of working hard for what he wants. He's American business—in miniature.

There are many names for Butch's philosophy. You can call it Free Enterprise, Opportunity, Democracy, or Capitalism, if you want.

But, whatever the name, America owes it much. For our most valuable natural resource lies in the ambition and initiative of Americans like Butch.

As great publications have grown from the dreams of young men with old handpresses—and great industries from the products of grubby little cellar workshops—the electric industry had small beginnings, too. Like our own company. A few men with vision strung the first small lines. People with faith risked their savings. Better and better service, at lower and lower cost, created more and more jobs—and carried the benefits of electric living to more and more people.

Free enterprise and hard work will bring Butch and his bike together. They are what built America and the American way of life, which is the highest standard of living in the world. No nation on earth has found a satisfactory substitute for that combination.

West Texas Utilities Company

Safety Chief Urges Car Check

"To save your life," said Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, "You couldn't think of a more logical traffic safety rule than this: Drive a safe car."

W. J. Elliott, Chief of the Texas Highway Patrol, requests every motorist in the community to "Check your car... check accidents." This is the slogan of the traffic safety program the Texas Highway Patrol is carrying on as part of a year-round safety educational program. The continuing program is part of a nation-wide traffic safety promotion of the National Safety Council.

"When you 'check our car' to 'check accidents,'" Captain Polk Ivy of the Amarillo Dist. Office of the Texas Highway Patrol, said, "Make sure that the following parts either are in safe operating condition or that needed repairs or replacements are made at once: headlights, tail and stop lights, brakes, steering assembly, muffler and exhaust system, glass, windshield wipers, rear-view mirror, tires and horn."

The Texas Highway Patrol suggests these questions to check your car's safety score:

1. Are you a one-eyed driver? Is the light cut down in the air to blind on-coming motorists?

2. Are your tail lights clean and bright, and stop lights in good working order?

3. Is your braking power good enough to stop your car in an emergency—for instance, if a child should run into your path? At 20 m.p.h. you should be able to stop in thirty feet. Brakes should be balanced so they take hold evenly on all wheels without "grabbing."

4. How is your steering and wheel alignment? Too much play in the wheel is a danger sign, and running against curbs of driving on rutty roads can get wheels out of alignment before you know it.

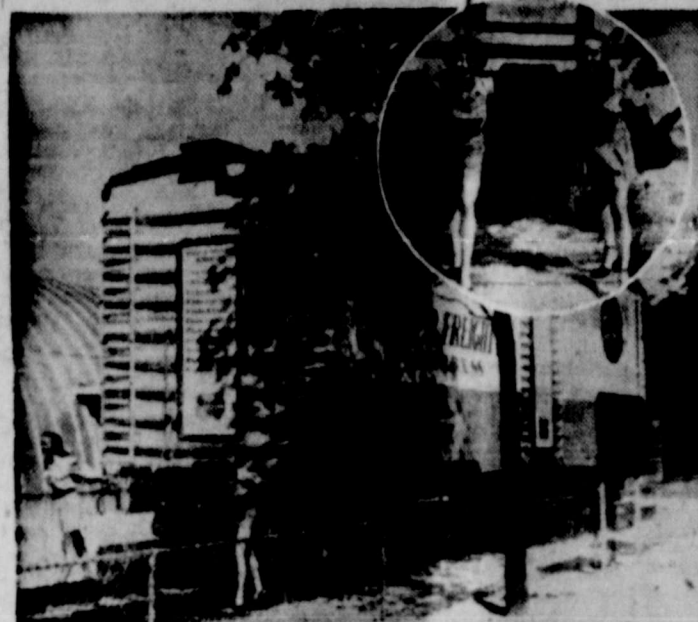

5. What about your muffler and exhaust system? Even if the muffler is not getting noisy—a sure sign of wear—the system should be checked frequently to be sure no carbon monoxide gas is leaking into the car.

6. Are your windshield and windows clean and clear? They're made to see through, you know. So keep them clear of dirt, discoloration and ornamental stickers.

7. And your windshield wipers? It can't always be fair weather. Don't risk having to "drive blind" should a storm catch you with your wipers in need of repair.

8. How about your tires? Are they properly inflated, well mated, with good treads.

BEAUTY AND THE BURDEN

Pert, 101-pound Pat Varner and pretty, 110-pound Elaine Higgins, both of Chicago, demonstrate the ease with which a \$3,600-pound freight car equipped with frictionless roller bearings can be moved. The car, part of The Timken Roller Bearing Company's exhibit at the Chicago Railroad Fair, can be started with only 120 pounds of pressure, a reduction of 88 per cent in starting power, as compared to freight cars equipped with old style friction-type bearings.

Already standard on many railway locomotives and passenger cars, Timken roller bearings can now be used to replace friction bearings on most existing freight cars.

Art Collection Show At San Antonio

Portraits from the fabulous private collections in three San Antonio homes, including the works of El Greco, Rembrandt, Titian, Van Dyck, Picasso, Cezanne, and dozens of other famous artists, will be shown to the public, some for the first time, during the city's first Portrait Parade to be held all day Sunday, October 24, under the auspices of the San Antonio Art League.

Experts say that the show will contain more rare masterpieces than could be assembled from other collections, public or private, in all Texas.

The parade will make four stops: at the homes of Dr. and Mrs. Fredric Oppenheimer, who will exhibit their works of art to the public for the first time; Mr. and Mrs. Leslie Flowers; and Mrs. Marion Koogler McNay, whose collection of modern French paintings is counted as one of the best in the country; and the Witte Museum, where a show of local portrait artists will be on display in the historical Twobigh house on the museum grounds.

Besides the portrait show at the Witte Museum, a display of fine ceramics will be shown at the Ruiz house, also on the museum grounds.

In the Oppenheimer collection paintings on exhibit will range from the work of American 14th-century painters like Gilbert Sargent.

Lamb Situation Looks Brighter

The lamb situation looks a little different for the coming year. During recent years, and especially since the war, sheep raisers have been sending a bigger share of the lamb crop to the slaughter house than they used to. At the same time they have kept back a smaller number for breeding purposes—to use in flock replacements.

C. H. Bates, extension farm management specialist of Texas A. and M. College, says that with the prospective winter wheat acreage high and with a good supply of moisture in the sheep raising areas, lamb will be in pretty strong demand to put on the wheat pastures. And most ranchmen expect to hold back more ewe lambs than usual this coming year.

A relatively higher price for both mutton lambs and wool than was received a year ago along with lower feed costs points toward a big increase in next spring's lamb crop.

On Texas farms and ranches last January there were just over 7 and a half million sheep and lambs. This was a record low, says Bates.

USDA economist say that the wool clip was the smallest it has been in the last quarter of a century. Farmers and ranchmen have averaged about the same amount of wool per fleece as usual, but they just didn't have as many sheep to shear. Sheep numbers can only increase if more lambs are kept for stock purposes. With the high prices of meat, farmers and ranchmen have sent more of their lambs to market than in past years, and have kept fewer for breeding.

stock. Lamb prices have tended to go up right along with other meat prices, says the economist, but the sheep business depends upon the profits from both wool and lambs. And the rise in wool prices has not been as much as the meat price rise during the past several years.

This is why the sheep raisers have kept so few lambs for flock replacements, says Bates and sheep numbers are now the lowest in 75 years of record.

est in 75 years of record.

Tailored to Fit

If ever a bread was tailored to fit a meat, big round sandwiches are suited to serve with slices of bologna. A good sandwich for lunch-boxes consists of a slice of bologna in a sandwich bun with slices of sweet or dill pickle for accent.

NEW DEMANDS

SOARING COSTS
WAGE INCREASES

48 hours pay for 40 hours work
Penalty pay for weekends & holidays
25¢ an hour increase
Total 1½ BILLION DOLLARS

1½ Billion Dollar Road Block!

RAILROADS MUST OPERATE AROUND THE CLOCK every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25¢ an hour for every employee!

You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employees an annual raise which would average \$1000 per employee!

The total cost of this would be no less than \$6 billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

Demands Unreasonable

These employees have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48¢ an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10¢ an hour.

Railroads Run for Everybody—Not Employees Alone

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.

Strike Threat

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

CHOOSE POT-ROASTS TO START FAMILY ON CHEILY-WEATHER MENUS

Pot-roasts are a sure-fire way to start the family on really hearty fall and winter menus. Not only are they filling and satisfying themselves, but they are such a substantial base for other autumn foods.

Just because all pot-roasts are lumped in a general group is no reason they must all be alike, points out Reba Staggs, well-known food authority. First of all there is a variety of cuts to use—beef arm or bladebone or rump cuts are all excellent for pot-roasts. The cooking method used for pot-roasts—known as braising—also offers opportunity for variation, because it employs the use of liquid for best results, and each liquid adds its own particular flavor to that of the meat.

Have you ever tried cooking a pot-roast as you do Swiss steak, as a sort of Swiss-style pot-roast? This is only one example of the many ways you can add different character to a pot-roast.

Dredge the meat with seasoned flour. Brown well on both sides in hot fat, using a heavy utensil such as a Dutch oven or a heavy frying-pan with a cover. Slice 2 or 3 medium onions and place slices on meat. Then all liquid, in the case of the Swiss-style pot-roast, tomato juice or canned tomatoes. (For a 3 to 4 pound pot-roast 1 1-2 to 2 cups tomato will be sufficient.)

Now cover the utensil closely and let the pot-roast cook slowly until tender, about 3 to 4 hours. When pot-roast is done, remove from pan and thicken liquid for gravy, and the pot-roast you'll present to the family will be one they'll truly dub "out of this world."

Eddie Hill Given Role In Production At McMurry
Eddie Hill of Spur has been chosen to fill a role in the first major production of the McMurry college speech department. "The Male Animal". Performance dates are set for Nov. 4 and 5.

The Alpha Psi Omega, national speech fraternity, and the McMurry Theatre are co-sponsoring the drama which was written by James Thurber and Elliot Nugent. Frank Magers, instructor in speech, is directing the play.

Other members of the cast are

Barbara Ann Douglass, Big Spring; John Gordon, Dallas; Bill Crier, Abilene; Elizabeth Perry, Ryan, Oklahoma; James Holdridge, DeLeon; Jerry Powell, Abilene; Eddie Hill, Spur; Joyce Sheerill, Sudan; Harold Fees, Abilene; Jeanne Lofland, Sweetwater; Anetta Parish, Abilene; Joe Parish, Abilene.

You can keep peaches or other light colored fruits from turning dark when preparing them for canning by dropping the peeled fruit into a salt and vinegar water solution. The proportions are two tablespoons of vinegar and two tablespoons of salt to each gallon of water used.

Peace and harmony—like charity—begin at home. Family harmony is the foundation of world harmony and peace.

FARMS FOR SALE

1. 254 acres, 164 in cultivation, 5 room house, small barn, well, good water. REA. Possession January 1, 1949. Price \$50

Dean Allen Will Review "Catalina" Here Nov. 2

Since the announcement last week that James G. Allen, Dean of Men at Texas Technological College, will present a book review on behalf of the Dickens County Library, Mrs. O. M. McGinty has learned that Dean Allen will review W. Somerset Maugham's novel "Catalina". The City Federation is sponsoring the review, which will be held at the Spur Inn on November 2 at 8:00 P. M.

Dean Allen has been a West Texan since 1927 when he joined the faculty at Texas Tech as an instructor in the English Department. He did his undergraduate work at Southern Methodist University where he received the degree of Bachelor of Arts; and then spent three years at Harvard doing graduate work in the field of English literature and psychology. Professor Allen became Dean of Men at the college in 1937.

In choosing Somerset Maugham's "Catalina" as the subject for his review, Dean Allen is reflecting his interest in contemporary literature. It is his firm belief that the teacher of literature should keep informed of the times in which he lives, when literary his-

JAMES G. ALLEN

tory is being made just as much as it was during Chaucer's or Shakespeare's time. He feels that Maugham deserves our critical attention because of his splendid contributions to contemporary fiction. Dean Allen considers Maugham's "Of Human Bondage" one of the dozen greatest novels written during the twentieth cen-

tury. Dean Allen is active in his community being a steward in the Methodist Church, a Rotarian and a Mason. He is also a member of the State and National Associations of Deans and Advisors of Men, and a national officer of Alpha Phi Omega, national men's collegiate service fraternity. His social fraternity is Sigma Alpha Epsilon.

Livestock And Corn Take Drop

Corn and some livestock continued downward at southwest farm markets during the past week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Sheep markets registered scattered weakness, although no major changes occurred. Feeder lambs changed hands at \$13 to \$16 Monday at San Antonio, \$15 to \$18 at Fort Worth, and \$20 to \$21 at Denver. Goats sold firm at San Antonio. Weathers moved mainly from \$7 to \$7.50, nannies \$6 to \$6.75, and kids \$3 to \$4.35. Demand improved for 8-month Texas wools at \$1.30 to \$1.35 per clean pound. Mohair trading slowed, but prices held

steady at 38 cents for adult and 38 for kid.

Hogs closed this week about unchanged at Texas markets but recorded losses of around 50 cents to \$1 at other terminals. Bulk of good and choice medium weight butchers cashed Monday around \$28 at San Antonio and Denver, \$26.25 to \$26.50 at Fort Worth, and \$25.50 to \$26 at Oklahoma City, Wichita and Kansas City.

Cattle prices fell mostly 50 cents to \$1.50 for the week at Texas and Oklahoma markets, although Kansas City and Denver showed little change. Slaughter steers and yearlings were scarce at most terminals. Common and medium cows sold from \$16 to \$18 Monday at Houston and Wichita, and \$15.50 to \$17 at San Antonio. Common to good cows ranged from \$15 to \$20 at Fort Worth, and cutter to medium grades \$14 to \$17 at Oklahoma City, Canners and cutters brought \$14 to \$16.50 at Kansas City.

Sorghums advanced 11 cents a hundred for the week to reach \$2.57 to \$2.62 Monday at Texas common points. Wheat gained two cents a bushel to bring \$2.43 1-4, and oats rose two at 95 to 96 cents at Galveston. Both white and yellow corn dropped 10 to 12 cents. White corn sold Monday at \$1.75 to \$2, and yellow corn \$1.55 to \$1.58.

Rice markets strengthened during the past week, as a large part of the crop was stored for the government loan. Steady to firm trends prevailed on southwest feed markets. Hay values turned firmer as frosty weather came to the southwest. Peanuts sold at support levels as harvesting reached a peak in many areas.

Egg markets continued seasonally firm for the week, with farm prices of fresh eggs especially strong. Prices ranged mostly from 40 to 55 cents a dozen for the different qualities and locations. Turkeys and chicken hens remained firm. Spring chickens declined at recent declines. Arkansas growers received mostly 20 cents.

Many southwest fruits and vegetables sold in firm markets during the week. Increasing shipments of citrus fruits and fall vegetables found their way to consuming centers. Carrots of green beans, cucumbers, oranges, sweet potatoes and mixed vegetables rolled out of Louisiana. Texas shipped grapefruit, oranges, lemons, carrots, lettuce, peppers, cucumbers, egg plant, and mixed vegetables. Colorado moved carloads of apples, pears, potatoes, onions, carrots, cauliflower, celery and mixed lots. Carrots rolled from New Mexico, and Kansas loaded a few onions and pears.

Dyeing Helps Ban Budget Blues

Cover Girl Jackie Coplan is thrilled over way she's eased her budget troubles via home-dyeing. Here she is, proudly exhibiting head-to-toe wardrobe that got new life and color beauty.

Cotton Trading Continues Brisk

Cotton trading in Oklahoma and Texas markets last week even topped the previous week's brisk business, reports the Production and Marketing Administration, U. S. Department of Agriculture.

Dallas, Houston and Galveston sold more cotton last week than in any preceding week in the last few years. Sales reached 188,546 bales. Similar heavy sales were recorded at the other seven spot markets of the country, making a grand total of 403,200 bales for the week, about 19 per cent more than for the previous week, but less than a year ago.

Prices remained firm as demand continued good for current ginnings. Buyers from both domestic mills and exporters were in the market. Qualities most in demand included Strict Low Middling bright and better, ranging in staple lengths from 15/16 inch through 1-1/32 inch. Also demand for Low Middling in the shorter staple lengths was good.

Qualities most in demand in the country embraced Low Middling through Strict Middling White cotton, ranging in staple lengths from 13/16 inch through 15/16 inch.

USDA reports that 1,390,460 bales of cotton have been classed through October 22 in the two states. Of this amount, 900,747 bales were for farmers in Smith-Doxey groups and 183,842 for

loan purposes. Cottonseed prices went up about \$1.00 per ton in Texas. Prices paid to farmers averaged \$66.20 for the state. Oklahoma average price remained unchanged at \$66.60 per ton.

Cotton Farmers To Get Emergency Aid

WASHINGTON—The Agricultural Department announced Thursday an emergency program of financial aid for cotton farmers who have been unable to get government price-supporting loans on their crops.

It will advance \$50 a bale to the farmers on cotton stored in insured warehouses. A similar program for farm-stored cotton will be adopted later, if needed.

The Department said a shortage of government cotton classifiers has greatly delayed the work of making loans to growers on this year's big crop. This shortage was said to be due largely to in-

adequate funds. When the cotton is classified as to grade, the grower will be paid the balance on the loan—that is, the difference between the \$50 advance and the full amount of the loan, which is \$2.5 per cent of parity, or averaging roughly \$155 a bale.

The advances will be made through the county Agricultural Conservation committee offices. Officials said these offices will be prepared to make the advances within a few days.

Mrs. George Barnes reported a very interesting trip to Mexico City when she returned early this week. Mrs. Barnes flew from Dallas to Mexico City for a two week visit with her son, Dr. Charles M. Barnes, who is connected with Joint American Commission for Eradication of Aftosa.

Mr. and Mrs. Lloyd Ball and Barbara of Stephenville spent Saturday night with Mr. and Mrs. Darwin Callahan.

results, and each liquid adds its own particular flavor to that of the meat.

Have you ever tried cooking a pot-roast as you do Swiss steak, as a sort of Swiss-style pot-roast? This is only one example of the many ways you can add different character to a pot-roast.

Dredge the meat with seasoned flour. Brown well on both sides in hot fat, using a heavy utensil such as a Dutch oven or a heavy frying-pan with a cover. Slice 2 or 3 medium onions and place slices on meat. Then all liquid, in the case of the Swiss-style pot-roast, tomato juice or canned tomatoes. (For a 3 to 4 pound pot-roast 1 1-2 to 2 cups tomato will be sufficient.)

Now cover the utensil closely and let the pot-roast cook slowly until tender, about 2 to 4 hours. When pot-roast is done, remove from pan and thicken liquid for gravy, and the pot-roast you'll present to the family will be one they'll truly dub "out of this world."

Eddie Hill Given Role In Production At McMurtry

Eddie Hill of Spur has been chosen to fill a role in the first major production of the McMurtry college speech department. "The Male Animal". Performance dates are set for Nov. 4 and 5.

The Alpha Psi Omega, national speech fraternity, and the McMurtry Theatre are co-sponsoring the drama which was written by James Thurber and Elliot Nugent. Frank Magers, instructor in speech, is directing the play. Other members of the cast are

Barbara Ann Douglass, Big Spring; John Gordon, Dallas; Bill Crier, Abilene; Elizabeth Perry, Ryan, Oklahoma; James Holdridge, DeLeon; Jerry Powell, Abilene; Eddie Hill, Spur; Joyce Sherrill, Sudan; Harold Fees, Abilene; Jeanne Lofland, Sweetwater; Anetta Parish, Abilene, Joe Parish, Abilene.

You can keep peaches or other light colored fruits from turning dark when preparing them for canning by dropping the peeled fruit into a salt and vinegar water solution. The proportions are two tablespoons of vinegar and two tablespoons of salt to each gallon of water used.

The DuraPower Mainpring is in all new Elgins. Eliminates 99% of all repairs due to steel mainpring failure.
