Communists Make No Move To Resume Armistice Talk

TO ENFORCE WESTERN GARB

Go Western starting Monday if you don't want to pay a fine. This is the order of Myron Fenton, left, president of the Junior Chamber of Commerce, being sworn in by Vernie Head, chief deputy sheriff of Scurry County. The Jaycees are sponsors of "Western Wear Week" beginning Monday, in connection with the rodeo next week. Persons to escape the fine must have at least two pieces of western articles on them, said Deputy Fenton. All monies collected will go to the Sweeney Diabetic Foundation. —(Joe Dave Scott photograph).

Feeble Hopes Held In Washington For Iranian Settlement

By JOHN M. HIGHTOWER

WASHINGTON, July 12. (AP)—W. Averell Harriman will leave for Iran in a day or so to see whether there is any posibility of salvaging an Anglo-Iranian settlement out of a situation which most officials here regard as little short of desperate.

The White House announced late Wednesday that Iranian premier Mohamed Mosadegh had accepted President Truman's offer to send Harriman out to discuss the dispute over oil nationalization.

Highly placed officials said Harriman will carry no instructions that would serve as a magic key to end the impase and restore harmonious Iranian - British relations. Instead, they said, Harriman's initial task will be to try to determine whether there is any possibility of working out an arrangement.

The most hopeful thing about his mission, it was said, is the fact that he will be what diplomatic authorities call a 'new element" in the situation. A fresh viewpoint, a different personality, a man with Harriman's prestige and special relationship to the President may perhaps turn up an approach which no one else could have opened. That is official Washington's hope.

In the meantime it was learned from wholly reloable sources that Henry F. Grady, United States ambassador to Iran, is retiring and will be succeeded in six or eight weeks by Ambassador Loy Henderson, present envoy to India, and considered to be one of the nation's best qualified career diplomats.

Flickering hope for a settlement of the Iranian oil dispute was dimmed further, July 5, when Mosadegh turned down the findings of the International Court of Justice. The court proposed freezing the British oil company's bank accounts but continuing company operation of the big Iranian oil installations while new efforts were being made to negotiate on the question of ownership and legal control.

Peace Parleys Imperiled By Red Publicity

By JOHN M. HIGHTOWER

WASHINGTON, July 12. (AP)—Communist propaganda treatment of the Kaesong truce talks was described by top officials today as evidence that the outlook for peace in Korea is far from bright.

They held this view even before a new incident led to at least temporary breaking off of cease-fire talks.

CAUTION DEEPENS

The caution with which official Washington approached the opening of the negotiations earlier this week has been deepened by the Red use of publicity as a weapon at the bargaining table.

One informed source who may not be named told a reporter the present situation gives no cause for optimism. In fact, he said, if any emotion is justified as to the eventual outcome it is pessimism.

Adding to this feeling was the temporary snag the Reds threw into the talks today by barring 20 Allied newsmen from going to Kaesong. Gen. Matthew B. Ridgway, supreme Allied commander, said the talks have been broken off temporarily because Allied newsmen were not allowed to pass a Communist roadblock.

LITTLE AGREEMENT

Washington authorities emphasized that nothing has been agreed on so far except some prodecures for future meetings, that the Communists are already fixing their negotiating position by public statements and that meanwhile the military buildup in the field continues.

State Department authorities have been most deeply disturbed by the Pyongyang and Peiping radio broadcasts of a three-point demand for a cease-fire agreement which the Red negotiators assertedly introduced at Kaesong.

The terms thus presented call for a buffer zone on the 38th Parallel, reestablishment of the conditions existing just before the war started (the division of Korea) and withdrawal or all "foreign troops."

'NEGOTIATION POINT

These specific points are all the subject of negotiation, or will have to be negotiated. It has been understood that the United Nations side has had in mind a buffer zone not on the 38th parallel but along the present battle line north of the parallel. Furthermore there is no intention to withdraw all "foreign troops" and leave south Korea open to another attempt at conquest.

But the significance of the Red statement is not so much in the specific issues as in the general implication that the Reds are trying by publicity to bring into the negotiations pressures which may in the end wreck the talks.

Allies Call Halt When Part Of Their Convoy Challenged

BULLETIN

TOKYO, Friday, July 13. (AP)—The Chinese Red radio in Peiping today confirmed the suspension of cease-fire talks in Korea and said there was no indication United Nations representatives would continue the negotiations.

The broadcast, heard in Tokyo by the Japanese Kyodo (News) agency, quoted a Chinese Red New China News Agency correspondent under a Pyongyang dateline. The correspondent was said to have talked to Red negotiators.

The broadcast said the talks were suspended "without taking into due consideration our formal reply."

This apparently meant the Communist reply to Vice Adm. C. Turner Joy's request that Allied press representatives be permitted to visit Kaesong.

"The American delegates arbitrarily brought in their news correspondents," said the Peiping broadcast. "It therefore seems there is doubt whether the Americans have sincerity in the peace talks."

By JIM BECKER

MUNSAN, KOREA, July 12. (AP) — The United Nations broke off cease-fire negotiations today over the question of press representation at Kaesong after Red guards challenged part of a U. N. convoy.

The Allied command put the next move up to the Communists.

Up to 10 p. m. tonight, 6 a. m. CST, a United States Eighth Army communique said, the Reds had not replied to an Allied ultimatum that U. N. peace convoys pass unchallenged.

There was no indication when talks would be resumed.

Sessions scheduled for today were cancelled after Communist guards refused to let a truck load of 20 newspapermen pass a check point with a U. N. convoy.

JOY ADAMANT

Vice Adm. C. Turner Joy, chief U. N. delegate, said there would be no more cease-fire talk until the Reds agreed that "my convoy, bearing the personnel of my choosing, including such press representation as I consider necessary, will be cleared to the conference site."

Joy ordered the entire 17-vehicle convoy to turn back from the Red check point where the newsmen were halted.

The U. N. commander Gen. Matthew B. Ridgway, said it was "all or nothing."

General Ridgway informed the Communists Wednesday that the "presence of a selected number of newsmen at a conference of such major importance is considered an inherent right by members of the United Nations."

At that time he said flatly they would be "an integral part of the United Nations command delegation to any and all future sessions beginning 12 July."

". . . BUT NOT YET"

Thursday morning the Communists replied that they would like to have press representatives — but not yet. The convoy, including newsmen, already was on its way.

When armed Red guards insisted, politely but firmly, on cutting the newsmen out of the convoy, all vehicles were ordered back and talks were broken off.

The general impression here was that the break was temporary.

The opinion among many military men and some correspondents was that the whole situation was the result of a Communist misunderstanding, although delegates have been arguing over press representation since talks started Tuesday.

There was a feeling that talks might be resumed later in the week.

ADMIRAL'S MESSAGE

Admiral Joy's message, dispatched immediately after the convoy returned, read:

At 0930 12 July 1951 (6:30 p.m. EST Wednesday) my motor convoy, proceeding along the Munsan-Kaesong road, bearing personnel desired by me at the conference site, was refused passage to pass your control post by your armed guards.

I have ordered this convoy to return to the United Nations lines.

I am prepared to return with my delegation and continue the discussions which were recessed yesterday upon notification from you that my convoy, bearing the personnel of my choosng, including such press representation as I consider necessary, will be cleared to the conference site."

CENSOR SECOND-GUESSING

Army censorship second-guessed itself in releasing Admiral Joy's message. Eighth Army censors approved a story containing the text of the message. Subsequently, Army censors at general headquarters in Tokyo asked press services to "withhold the information."

The officer asking that it be withheld said he did so at the request of Eighth Army censors. The story already had been broadcast and set in type in the U. S. Informed of this, censors withdrew their withholding request.

Almost simultaneously, censorship agreed to pass stories that Kaesong is in Communist hands. Previously the official position was that the city was no-man's-land.

Communists have occupied the Kaesong area all year, but prior to the cease-fire talks a U. N. patrol entered the town without seeing any Red troops inside it.

The present peace route lies through unquestioned no-man's-land and a stretch of Red-guarded road. The areas are divided by the checkpoint where Thursday's convoy was halted.

Depletion For Coal Urged In New Tax Bill

WASHINGTON, July 12. (AP)—The National Coal Association today urged the Senate Finance Committee to retain the tax advantage for coal included in the house-approved $7.2 billion tax increase bill.

James W. Haley of Washington, representing the association, said coal is "easily the most important natural resource in the country."

But, he added, it has been victimized by "a gross and aggravated inequity running against coal and in favor of coal's competitors."

Haley asked the senators to ratify the doubling of the depletion rate for coal as voted by the House. The rate was set at 10 per cent instead of five as in the present law.

The committee probably will decide soon whether to knock out a $732 million excess profits tax hike voted by the House.

The excess profits levy boost amounts to more than one-tenth of the additional revenue in the $7.2 billion House bill, but among members of the Senate group there is known to be strong support for its elimination.

Chairman George (D-Ga) of the committee told a reporter today he will try to get the full membership together as soon as possible to decide whether to make a detailed study of excess profits.

Meanwhile the group continues its open hearings on the bill today.

"If we do go into it at all, we're going to have to take testimony on the inequities arising out of the excess profits bill voted last year," George said.

He made clear he felt a committee decision not to go into excess profits taxes would mean the Senators would eliminate a provision in the House bill lowering to 75 per cent the base period net income used in figuring the excess profits tax.

This change accounts for much of the increased revenue the House and Treasury expect to get from the excess profits levy.

The base period used in computing the excess profits tax is the three best out of the four years, 1946 through 1949.

Under the law passed last year, all income over 85 per cent of earnings in the base period was made taxable at the 77 per cent excess profits rate. The new House bill cuts the 85 per cent down to 75 and also hikes the rate to 82 per cent.

Water Supply Still Too Low For Safety

The water supply was still critically low this morning, although a little water was gained in storage during the night.

W. J. Ramsey, city superintendent, said this morning there were 300,000 gallons in storage at 8 o'clock last night.

"This would not have been enough to fight a big fire," he stated, pointing out that 300,000 gallons would last the fire department only two and one-half or three hours, provided there were no other consumption on the lines.

"We are just managing to keep water in the mains," he continued. "It is up to the people of Snyder. We do not have enough water to sprinkle lawns freely.

"The only way we can be safe from danger of fires is for everyone to cut watering of lawns and shrubs to a minimum, and if possible, to refrain from all watering for a few days.

"If we want water in the summer months ahead, we must use less now."

Ramsey pointed out that it is hoped that voluntary conservation measures will be effective and that enough water can be built up in storage through conservation that no fire would catch the city in a critical water shortage.

Worst Flood in Kansas History Takes 5 Lives, Others Missing

TOPEKA, Kas., July 12. (AP)—Flood waters poured over Eastern and Central Kansas in the greatest torrent in the state's history today and lapped over into parts of Missouri leaving seven dead and five to eight missing.

At least five persons were dead in Kansas, and two in Missouri. Two more were killed by lightning at Fort Leonard Wood, Mo., which was not affected by floods.

Hundreds of residents of North Topeka who ignored evacuation orders Wednesday were trapped by water that poured through two levee breaks and covered the area to a depth of six feet or more. Two more breaks poured water into North Lawrence, 30 miles downstream. The State University is on a high hill and was not affected by the flood.

Thirty-eight persons died in a similar flood at Topeka in 1903.

Surface travel in Eastern Kansas was virtually halted except for short highways spans on hilltops.

DAMAGES HIGH

The Army Engineers office at Kansas City estimated damages at $85 million from the present and recent floods along the Kansas and its tributaries.

Trains were stranded. Motorists were marooned. The National Guard, the Air Force, Marines, Coast Guard and Red Cross all joined volunteers in aiding evacuees and patroling dikes.

BOAT, BY PARACHUTE

Boats were flown to some flooded areas and dropped by parachute.

The majority of 10,000 residents of North Topeka, across the river from this state capital, evacuated the area.

Breaks in dikes sent flood waters of the Kansas River pouring into North Topeka early today. Water stood knee-high in the business district and deeper in some areas close to the river.

The river — the state's greatest — is expected to reach it highest level in history of 33 feet at Topeka tonight. North Topeka merchants sandbagged stores and carried stocks to second floors before fleeing.

Flooding already has inundated large sections of many towns. Ottawa, Council Grove, Manhattan, Marion, Strong City and Florence are among the hardest hit.

"WIPED OUT"

This was the picture in just one small town — Marion:

Muddy waters 16 feet deep flowed over 15 blocks of main street. The town's water supply was cut off. Windows in virtually every building in the business district were shattered.

Cows and pigs floated down the streets occasionally bumping against boats, merchandise and tree limbs.

Marion County Sheriff Jim Kline said the damage was "tremendous", then added:

"Figure the number of stores and houses in a town of 2,300 and figure them all wiped out, and you've got it."

In addition to damages suffered by towns, farmers have lost millions of dollars in crops and the use of rich bottomland for the remainder of the growing season. The wet weather has bogged down the wheat harvest.

SEVERAL DEATHS

A car plunged into a flooded creek at Ellsworth, drowning three San Diego, Calif., tourists. They were Gerald V. Whipple, Mrs. F. W. Veickeleer and her daughter Mae.

At Emporia, E. V. Lindmood, a meat packinghouse employee, drowned when his boat overturned as he was leaving work. Capt. Eugene Duffy, Ft. Riley, Kas., died of a heart attack in a flooded area at Manhattan.

Two men — Jack Hawthorne and Gus Howard — were reported missing after their boat capsized on a rescue mission near Strong City. At Junction City, 12-year-old James Harding was reported missing.

A car was swept downstream in the Verdisgris River near Toronto and witnesses said at least two persons, and possibly five, were in it. Darkness interrupted a search for them.

TRAINS STRANDED

At Empiria, 130 miles southwest of Kansas City, six Santa Fe trains were stranded with more than 1,000 passengers. Passenger trains and freights were halted in other sections also.

The high waters in Kansas caused a train snarl at Kansas City, a major rail center. Hundreds of flood-stranded passengers jammed the city's union station.

In addition to the Kansas, rivers causing severe flooding included the Cottonwood, Neosho, Marais des Cygne.

The neighboring state of Missouri, which suffered from floods last month, also fought high waters again. At Kansas City, Mo., Robert Roy Freeman 21, and Alva Mitchell 21, drowned in the rampaging Blue River while attempting to fish.

LIGHTNING KILLS TWO

Two soldiers were killed by lightning and 10 other hospitalized during a storm at Fort Leonard Wood in South Central Missouri Wednesday. The names were withheld pending notification of relatives.

There was little optimism at the weather bureau.

Showers and thunderstorms were forecast for both states today and Friday.

And the forecaster indicated worst flooding is yet to come.

West Scurry Wildcat To Be No. 1 Parks

Bankline Oil Co., has staked location for its No. 1 Joe Parks as a wildcat in Central-West Scurry County.

Location is 2,140.8 feet from east and 660 feet from south lines of section 219-97-H&TC, and 14 miles west of Snyder.

Projected depth is 8,400 feet to the Ellenburger. George P. Livermore, of Lubbock has the rotary contract.

L. F. Peterson, W. O. Keller and V. G. Feather, all of Midland, assembled an undisclosed number of acres and turned the deal to Bankline to drill the wildcat. The three kept an interest.

Others contributing to the drilling of the project are Westbrook Oil Corp. of Fort Worth, Honolulu Oil Corp., Cascade Oil Corp., The Texas Co., Amerada Petroleum Corp., and Fowler & Dennison.

KENT PRODUCER

Sun Oil Co. has completed its No. 1 H. W. Davis as a one-half mile south extension to the Clairemont-Lower Pennsylvanian field in Central Kent County.

The well flowed 24 hours through a one-quarter inch choke to make an initial production of 193 barrels of oil. Gas-oil ratio was 500-1. No water was present.

Production is from open hole between the bottom of five and one-half inch casing cemented at 6,742 feet and total depth of 6,750 feet.

The well is located one mile south of Clairemont and 660 feet from north and 671.1 feet from east lines of the southwest quarter of section 9-98-H&TC.

Narrow Escape For Parolmen

Charges of assault with intent to murder and breaking and entering are slated to be filed against 33-year-old night club owner in the court of W. C. Davidson, justice of the peace, later today, according to Chester Bairrington, chief of police.

About 2:30 o'clock this morning, Ted Somerville, police lieutenant, and Ed McCain and Harold Williams, police officers, were parked near the Terry Service Station on Big Spring highway at Thirty-seventh Street when they heard a woman scream and went to her aid in a nearby trailer.

When the officers got there, they saw a man with a pistol, which later proved to be a .41 calibre type, attempting to fire it. The man the police said, had already snapped the pistol at a woman and a man, but the weapon had failed to fire.

When McCain called on the man to surrender, the night club owner snapped the pistol in McCain's face, and again the gun failed to fire. McCain then seized the gun from the man, and he was placed in the city jail.

"Had the man fired the gun once more, somebody would have been killed. The gun had three loaded shells in it," Bairrington said.

First Rodeo Tickets Go On Sale Today At Fenton-Thompson Store

Tickets for the annual Scurry County rodeo are now on sale at the Fenton-Thompson Shoe Store on the southeast corner of the square, Myron Fenton, president of the Junior Chamber of Commerce, has announced. Tickets are to go on sale Monday at the Scholing Drug in the Diamond M building on Twenty-fifth Street.

Adult tickets for the rodeo are $1.50, with children's tickets 75 cents.

The first rodeo performance will be at 8 o'clock Wednesday night, following the parade at 6 o'clock. No afternoon shows are planned this year. Dancing to the music of the Light Crust Doughboys will follow the rodeo every night.

Actress Out on Bond After Fatal Crash

LEHIGHTON, Pa., July 12. (AP)—Actress Carol Bruce was charged with involuntary manslaughter today in the death of a truck driver in a highway crash.

Miss Bruce, who gave her age as 31, was freed in $1,000 bail.

High of 100 Recorded

Clear skies and plenty of West Texas sunshine brought Snyder a maximum temperature of 100 degrees yesterday. The minimum recorded before dawn today was 74 degrees, with the mercury rising four degrees by the time of the 7:30 reading.

House Will Not Abandon Its Rule to Cut Federal Payroll

WASHINGTON, July 12. (AP)—The House stood pat today in its insistence that as a general rule only one out of every four vacancies in federal jobs be filled during this fiscal year.

It sent back to a Senate-House conference the $2,510,000,000 Labor Department-Federal Security appropriation bill with instructions to its conferees to insist on retaining the job-cutting plan in the final version.

The Senate had junked the House proposal in favor of one of its own, and Senate-House conferees recommended that the house provision, known as the Jensen amendment, be left out of the bill.

The Jensen amendment generally "forbids the filling of more than one out of every four civil service vacancies during the present fiscal year." There are some exceptions, mainly in key positions.

The labor-federal security bill was the first of the regular appropriation measures to get through a Senate-House conference and today's house vote indicated that the house will insist on retention of the Jensen amendment in all the bills.

The roll-call vote that sent the measure back to conference was 222 to 169.

Man, 35, Faces Rape Charge

DALLAS, July 12. (AP)—A Dallas machinist admitted Wednesday the abduction and rape of a pretty 14-year-old farm girl near here Tuesday.

Dallas County Sheriff Bill Decker said John William Price, 35, admitted in a statement he forced the girl to accompany him on an auto trip from her home near Mesquite and ended when he finally released her 7½ hours later near Quitman. He has been charged with rape.

The girl identified Price in a police lineup late Wednesday after Price had been found and arrested through information based on his license number.

Price admitted in a recorded confession that he had committed the rape following a drinking bout that began Monday morning when he checked out from his job.

After forcing her to accompany him, he told officers that he raped her one time before releasing her. The girl said she was asaulted three times.

CITY SHOWS JUNE PROFIT

The financial report of the city, completed yesterday, showed a net gain in overall funds of $1,216.68 for the month of June. Total income being $24,121.68, while expenditures totaled $23,905.

The general fund, however—which has caused much concern the last few months—had a net loss of $6,946. Income totaled $4,106.92, and disbursements were $11,053.62. Income in the water and sewer fund totaled $20,014.76, and disbursements were $12,851.38.

Friday Deadline On Miss Snyder Contest

Friday is the last day on which entries for the Miss Snyder contest can be accepted, Dick Roberts, chairman of the Junior Chamber of Commerce contest committee, said today.

Arrangements for entering the contest may be made by contacting Myron Fenton, club president, at the Fenton-Thompson Shoe Store on the southeast corner of the square.

WEATHER

WEST TEXAS: Partly cloudy tonight and Friday with a few widely scattered afternoon and evening thundershowers. Not so warm in Upper Panhandle and tonight.

EAST TEXAS: Partly cloudy tonight and Friday with a few widely scattered thundershowers. Not much change in temperatures.

Next Two Weeks Crucial To 4 Teams Battling in American

By JOHN CHANDLER
By The Associated Press

Major league baseball, after taking time out for three days to settle the annual all-star game swings back into action today with most of the interest centered on four teams battling for the American League lead.

The next two weeks in the American race will go a long way toward settling the pennant, and the Chicago White Sox, Boston Red Sox, New York Yankees and Cleveland Indians well know it.

Boston, one game back of the leading White Sox, tackles Chicago in the main dish as hostilities resume with a twi-night doubleheader at Comiskey Park. Chicago has a 14-game home stand, meeting all four of the Eastern clubs on their Western tour.

YANKS AT CLEVELAND

The other top drawer attraction is a night game at Cleveland, where the New York Yankees hope to get back on the victory trail after their disastrous experience at Boston where they dropped three straight last week-end. New York is two games behind Chicago, while the Indians are four.

Meanwhile, the high - stepping Brooklyn Dodgers, riding on an eight and one-half game edge over the second place New York Giants in the National loop, open a 12-game home stand. The Chicago Cubs, beaten seven times in 11 games this year by the Bums, start the Ebbets Fields festivities tonight.

Over in the Polo grounds, the Giants are prepared to defend their second place against the St. Louis Cardinals in an afternoon encounter. The Cards are in third, one game back of the Giants.

The Indians and Yankees have played 15 games this year, and Cleveland has won eight. Cleveland also entertains the other three Eastern clubs in a 13-game home stand, then moves east, July 24, to start the whole thing over again in Yankee Stadium. After departing Cleveland, New York has a pair of three-game series at Detroit and Chicago, then winds up the trip with four at St. Louis.

In another National League game, Cincinnati is at Boston and Pittsburgh at Philadelphia tonight. In the American circuit, Washington plays a day game at Detroit, while Philadelphia is in St. Louis for a twi-night double bill.

South Favored In Texas All-Star Contest

By The Associated Press

The Texas League unreels its all-star game at Houston tonight and the South — dominated by pace-setting Houston — is an easy favorite to make it three in a row over the boys from the northern half of the circuit.

The teams knocked off for the tilt Wednesday night with these results:

Dallas beat Tulsa twice, 7-3, 6-3; San Antonio nudged Beaumont, 4-2; Fort Worth squeezed by Oklahoma City, 4-3, and Houston walloped Shreveport, 9-2.

Tonight's game could very well be just another ball game between Houston and Dallas.

The South, managed by Houston pilot Al Hollingsworth, has nine players off the Houston team.

The North, guided by Dallas' L. D. (Little Dutch) Meyer, has eight of his second-place Dallas team members.

Meyer is expected to start either Ray Narleski or Bill Abernathie on the mound. Both are off his Dallas staff.

For Houston it will be Bob Turley of San Antonio or Wilmer (Vinegar Ben) Mizell of Houston.

Veteran knuckleballer Al Papai won his 13th game Wednesday night in pitching Houston to a clean sweep over Shreveport.

Dallas used 19 hits for the twin victory over Tulsa and pulled itself within five games of the top.

San Antonio bounced into third place in beating Beaumont, bunching hits for two runs in the second and two more in the fifth.

Three runs off two hits, two walks and a squeeze bunt were enough to insure Fort Worth its victory.

In a prelude to the Houston-Shreveport game, a team of former Houston players beat a bunch of old-time Texas League stars, 3-2.

Roswell Hurler Out Front In Longhorn Loop

By The Associated Press

Dean Franks, Roswell's ace pitcher in the Longhorn league, has turned in 18 wins already this season and the halfway mark has just past.

Franks turned in his 17th and 18th victories Wednesday night as the Rockets defeated Midland twice. He limited the Indians to four hits to win the first game, 7-1, then came back in a relief role to be credited with another as Roswell won, 11-4.

Franks tangled with Ed Jacome for the league leadership in the first game. Both had won 16 games prior to starting the contest. A six-run third inning gave Franks the verdict.

The twin victories moved Roswell into third place, breaking a three-way tie. Odessa defeated Sweetwater, 8-6, to hang on to fourth but Vernon, the third club in the triangle, lost to San Angelo, 6-3, to fall to fifth.

One game, Big Spring at Artesia, was rained out.

Leo Eastham's triple with two men on base in the eighth inning gave Odessa its margin over Sweetwater. Les Palmer had homered in the first with a mate aboard to give the Oilers a brief lead but Hal Hart had duplicated the feat in the fourth and it was nip-and-tuck all the way.

Bob Crues blasted a three-run homer in the fifth inning to provide the winning margin for San Angelo. San Angelo had 14 hits off two Vernon pitchers but couldn't score after the fifth.

Although the American population increased by 14 per cent from 1941 to 1950, the domestic food consumption per person in 1950 was three per cent larger than in 1941.

NBA Rule Widens Foul Lane From 6 to 12 Feet

SYRACUSE, N. Y., July 12 (AP)—The foul lane on the National Basketball Association's courts will be widened from six to 12 feet, under a new rules change.

"We believe the change will streamline the game," President Maurice Podoloff said Tuesday. "It will open up the game underneath the basket, giving the fleet 'small' man a better opportunity to compete with the outside huskies who have been dominating the sport," Podoloff added.

American cows produced 120,000,000 pounds of milk last year, a near record. The best year was 1945 when 121,000,000 were produced.

During the past 10 years, the number of horses and mules in this country has decreased by 52 per cent.

Airport Zone Law Prohibits Building Hazards to Flight

The recently organized county airport zoning board has put into effect its recommended county ordinance prohibiting the building of structures that would create flying hazards in the vicinity of the airport.

A resolution adopting the ordinance was passed by the board Monday night in a public hearing held for the purpose of possible contesting or altering the proposed act, but no opposition was stated, according to Robert E. Collins, chairman.

The ordinance prohibits construction or placement of any buildings, towers, smokestacks, overhead transmission lines, and other man-made obstructions reaching a height of 2,577 feet above sea level within a radius of 11,000 feet from the approximate center of the airport, and the allowed height is less at distances nearer the airport.

The spot from which the radius is measured is called "point A" in the ordinance and is 1,637.4 feet east and 1,400 feet south of the southwest corner of section 13 and the northwest corner of section 12 of block 1 of the J. P. Smith survey.

Existing structures within the radius are not prohibited, regardless of height.

The maximum allowable height of 2,577 feet above sea level may be roughly determined by consideration of the sea level figures of places lying within the radius. Most of the residential area of Snyder is 2,370 feet, and the airport is 2,420 feet.

The height allowed is graduated from the maximum at the circumference to zero at "point A." The graduation of the allowed height varies also depending upon the direction from the point and the situation in regard to runway approaches.

In the approaches to the north-south runway, the scale graduates one foot in height for each 40 feet of horizontal distance from the point. The graduation slope on the shorter east-west runway is one foot vertically for 20 feet of distance from the point. For transition zones between approaches, the scale of graduation is on a seven to one slope.

The scales were approved by the Civil Aeronautics Administration in its approval of the ordinance, Collins said. Engineering work on the scales was done by the Ash-Wilson & Associates Engineering Co., of Snyder, engineers on the airport project.

The zoning board is composed of Dr. John Blum and Dr. John Broaddus, both representing the city; J. J. Dyer, Jr., and H. R. Williamson, both representing the county; and Collins, who was chosen by the other four to serve as chairman representing both the city and the county.

Priest's 17th Straight Win

By The Associated Press

Jessie Priest, hottest thing in the West Texas-New Mexico League, pitched the Albuquerque Dukes to a 5-4 victory over the Lamesa Oilers Wednesday night.

It was his 17th straight triumph and tied the present league record.

The Dukes moved into a tie with Lamesa for second place.

Lubbock, also in the thick of the fight, missed a chance to move up. The Hubbers split a doubleheader with the Borger Gassers. Lubbock whammed the Gassers, 16-8, in the first game of the card but dropped the second, 7-4.

Ray Machado was raked for 13 hits by Borger but his mates were collecting 21 and he coasted to the win in the opener. In the second game, both clubs had seven hits but the Gassers used their quota to better advantage.

The Amarillo Gold Sox slaughtered Pampa pitching for an 18-5 triumph. The Sox collected 20 hits off Red Dial, Ken Kavanaugh and George Mathews, getting stronger as they went along.

Abilene, already far out in front, added another game to its margin with a 17-8 frolic against Clovis. Both clubs hit hard. Abilene had 18 hits, Clovis 17, but the Pioneers couldn't hit in the clutch.

Tahitian Woman Sues After Private Film Of Dance Is Used in Movie

LOS ANGELES, July 12. (AP)—A hula dance performed privately is worth $150,000 if correct relations, a Tahitian woman claims in a damage suit.

Mrs. Arlette Puren Reasin, wife of John Russell Reasin, plantation operator at Papeete, Tahiti, made the claim against R-K-O Pictures, Inc., Sol Lesser Productions, Inc., producer and distributor of the film "Kon-Tiki," and author Thor Keyerdahl.

Her complaint related that after Heyerdahl and his companions on a raft journey across the South Pacific arrived in Tahiti in 1947, she gave the dance at a party for them. She said had not authorized commercial use, in the film, of movies Heyerdahl took of her dance.

Why Worry Congress? Children Adopt Uniform Without Help

By HAL BOYLE

NEW YORK, (AP) — Should children be made to dress alike?

This question has our British cousins in a mild tizzy at the moment.

The grownups over there have been doing a lot of things alike for years, sharing their wealth and health, watching the same government radio programs and eating the same number of eggs a week.

But there are signs of rebellion. The British army has come up with a new rifle that sneers at the standard-sized ammunition used by the rifles of other Atlantic powers. And there was instant reaction against a proposal by Tory Sir William Darling that British children up to the age of 14 wear a "standard uniform" in order to cut the cost of clothing.

Chief crier against this idea was John Taylor, the aptly named editor of "Tailor and Cutter," a London trade journal.

"If all children are to wear the same uniform," he said, "then the fundamental advantage of a uniform—that other people are not eligible to wear it—will immediately vanish."

I don't think this argument holds water at all. It is typical of another old-fashioned British idea — that parents have any choice in what their children will wear.

Here in America the kids tell Papa what they want, and Mama goes out and buys it for them—and there's no nonsense about Congress having any influence in the matter.

COWBOY SUIT

Without the lawmakers ever even considering the subject, American children have pretty much achieved Sir William Darling's goal in this country. They have adopted a uniform—the cowboy suit.

It is now standard with both sexes from the ages of two to about 16. Up to about 8 they seem to gallop about in full regalia — guns, bandanas, chaps, lassos and sombreros. After that they go around like cowboys off-duty, wearing only a pair of battered blue levis and a sloppy shirt with the tail sticking out.

More and more the girls after the age of 10 are cutting their hair short like the boys, and how they tell each other apart is a mystery to me—and, of course, none of my business. What difference does it make anyway? Girls will be boys if they want to.

HARASSED PARENTS

The problem of even identifying their offspring at all is a task growing more harassing to the parents of small offspring. Under a 10-gallon hat how can you tell one small cowboy from another? It takes a real knowledge of movie horse operas.

Returning to my tenement home the other day, I met a worried mother who asked if I had passed her little son. She said he was wearing a cowboy suit.

"One gun or two guns?" I asked.

"One."

"Roy Rogers, Gene Autry, or the Cisco Kid?"

"I believe he calls himself the Cisco Kid," she said.

"Certainly, madam," I told her. "The Cisco Kid is on the other side of the playground. A young lady who calls herself Miss Hopalong Cassidy has got him down and is beating his head on the pavement. She says he is a horse thief, and maybe you had better hurry."

My advice to the British people is that if they do vote their kids into a standard uniform they chose something beside the cowboy suit. Maybe a nice durable straitjacket—and peaceful—and save bloodshed.

Rustling Petticoat, Flare Skirts Top Fall Fashions

By The Associated Press

NEW YORK, July 12. (AP)—The rustling, flirtatious petticoats of grandmother's day are with us again, ar even the most ardent devotees of blue jeans and bobby sox soon will be aware.

No less a designer than Jane Derby, noted for elegance and conservative good taste, s showing full-skirted suits for fall, accompanied by petticoats not only beruffled and stiffened with horsehair hems but also quilted.

TWEED SENSATION

A sensation of her collection, shown today to the visiting fashion press, is a suit of mauve tweed with plum velvet collar and cuffs. The skirt flares like a morning glory at the bottom and there is petticoat of plum-colored quilted satin, designed to peek out in a beguiling manner when the wearer mounts a high step or crosses her knees.

Startling after a year of straight-line, skin-tight skirts, the new silhouette may be all to the good. It may make girls study up on the feminine arts and graces once more, learn how to swish a petticoat and flirt a fan and stop borrowing all the clothes from their brothers' wardrobes.

DIOR IS BACK

While most designers are showing one or two full-skirted suits for fall, Mrs. Derby shows a majority of her styles with flaring hemlines and makes petticoats to go with all of them.

Also in today's fashion lineup was Christian Dior, the Parisian credited with fathering the "new look" of several years ago. Dior now appears to prefer the pared-down look, showing suits with skirts still straight and narrow and even deserting his beloved hip-padding. He does, however, achive a roudd-feminine line in suits by means of pockets, peplums and such, and keeps the shoulders in natural dimensions.

This year Dior calls it the "arched silhouette" — and it's all done without benefit of cage, bones or hidden girders."

Mrs. G. Edward Bolger, 2300 Thirty-second Street, returned home yesterday after visiting her sister and husband, Mr. and Mrs. Leo Haney, in Dallas, and relatives, Mr. and Mrs. John T. Bolger, in Waco.

Mr. Bolger met his wife in Abilene, and they attended a barbecue Monday night given by Pete Elliot, who is the funeral director in Abilene, for a group of West Texas funeral directors.

Mr. and Mrs. Hugh Rodgers, 102 Milburn, have returned from a two weeks' vacation in Arizona. Mr. Rodgers is employed with Dunigan Tool & Supply Co.

ASK MILDRED

(Send your questions to Ask Mildred, care of The Snyder Daily News)

Please give me directions for washing colored, pure silk shirts. Mrs. C. W. S.

Silk should be washed as quickly as possible, never soak, rub or twist. Cup the hands and squeeze suds repeatedly through the soiled parts. Rinse thoroughly, squeeze out excess water. Place colored silks on turkish towel so that no part of the fabric touches another part. Roll up and knead to remove all water possible.

Remove garment from towel immediately and shake until almost dry and then press. Press silk on the right side unless it is solid color. In that case press on the wrong side. Never sprinkle silk; if it is too dry cover with a damp cloth and press.

Flocks of birds light on the power lines back of our home and come to the ground. We think they are eating all our grass seed. Can you tell me if that is what they are eating? Mrs. A. B.

Sparrows are noted seed eaters but they do not by any means confine themselves to a vegetable diet. F. E. Beal, Biologist, Bureau of Biological survey, states that during the summer months many injurious bugs and beetles are eaten by the sparrow. Their vegetable food is limited almost exclusively to hard seeds. According to Mr. Beal their winter food is almost all weed and grass seed and the amount consumed is immense.

When making brine pickles could you tell me what causes them sometimes to be soft and slippery. Mrs. R. W.

There are several different things that could cause a pickle to become soft and slippery. Some of them are that the pickles become exposed above the brine, the brine is too weak, the pickles are stored in too warm a place, or that pickles are cooked to long. Soft pickles cannot be made firm again.

* * *

Will my ornamental plant form more bulbs naturally? A. A. M.

Bulbs often divide naturally into two or more parts, or they may be divided artificially.

A corm resembles a bulb but it differs from it in being solid throughout. Examples of corm producing plants are the Indian turnip, crocus, gladiolus and caladium.

For more information write to the U.S.D.A. Superintendent of Documents, Washington, D. C., for Bulletin 157, The Propagation of Plants, which is for sale for five cents.

Can unbaked yeast bread be frozen successfully? Tell me how to prepare rolls for freezing? Mrs. D.D.A.

If unbaked rolls are put into the freezer, the results cannot always be predicted. There is still much to learn about the effect of freezing on yeast.

Unbaked dough seems to lose some of its rising capacity after being frozen and thawed, and the texture of the rolls may be tougher and the volume smaller. For freezing baked rolls and bread, use a favorite plain or sweet dough recipe and bake in the usual manner. After baking remove from pans and cool to room temperature.

Wrap in moisture proof paper or package in frozen food containers. Reheat frozen baked rolls in their sealed wrappings in a 250 to 300 degree F. oven for 15 minutes, or remove them to a paper bag or aluminum foil and heat them in the oven in the same manner as day old rolls except for a longer time. Do not store baked products longer than about 3 months.

Mr. and Mrs. James George, 3726 Highland Drive, are the parents of a son, Danny George, born July 1 at the St. Anthony Hospital in Amarillo. The child weighed nine pounds and four ounces. Mrs. George and her son returned home Sunday.

Allocation of Sulphur Supply by International Raw Material Conference

WASHINGTON, July 12. (AP)—The free world's supplies of crude sulphur are to be allocated among 30 countries and areas.

Under an agreement reached Wednesday by the international United States will get 1,050,000 tons—two per-cent of available supplies — during the three months ending Oct. 1.

Sulphur is valuable in the manufacture of newsprint, textiles, dyestuff, rayon, rubber explosives and other materials. The U. S. is a heavy producer of sulphur.

Food Prices Steady In New Government Survey

WASHINGTON, July 12. (AP) — A government survey today showed no change in food prices during the first two weeks of June.

The special food index of the Bureau of Labor Statistics put retail food prices in mid-June at three-tenths of one per cent lower than in mid-May, but 12 per cent higher than a year earlier.

The Bureau said prices went up during the first half of June for pork, fish and eggs, but these were offset by price cuts for poultry, fruits and vegetables, and fats and oils.

Shrine Temple For This Area Is Chartered

Suez Temple at San Angelo was granted a permanent charter by the Imperial Council of the Shrine at the convention being held at New York City, according to a telegram received yesterday by Hilton Lambert, president of the Snyder Shrine.

Heretofore, the Suez Temple had been only temporary charter. But since it has met the requirements of the Imperial Council, with a total of 1,508 members, many from this area, a permanent charter was granted by vote of the 48 states, Lambert said.

The telegram was sent by Ray [illegible] potentate of the Suez Temple, and J. N. Clark, chief rabban, who are attending the national meeting.

James P. Billingsley is secretary of the local Shrine Club.

Legion And DeMolay Win Big Margins

Ted Masters Legion pitcher, got 15 strikeouts last night at Memorial Park to lead his team to a 13-5 victory over their Industrial league rivals, the VFW.

The game was uneven from the start, with the Legion piling up runs in almost every inning, culminating in a big rally in the sixth when they got six runs.

VFW had only one run until the seventh when they ran up four more to bring their final score to 5.

Allen Cavitt was losing pitcher, Masters winning. The Legion has 12 hits, 13 runs, two errors, and six men left on base. VFW had five hits five runs, seven errors and 10 men left on base.

In the second game DeMolay ran away from the West Texas State Bankers 21 to 5.

The DeMolays had three homers, one by Stokes in the second, and two in the fifth, by Hanks and Minton. The only Bankers' homer was by McGrew. The game ended in the fifth when the DeMolays were more than 10 points ahead of their rivals.

DeMolay statistics were 11 hits, 21 runs, no errors, and four men left on base. The Bankers had five hits, five runs, eight errors and six men left on base. Losing pitcher was Crook winning pitcher, Westbrook.

Tonight there will be a practice game, VFW vs. Pasotex. Parker Drilling Co. was trying to match a game last night, and probably will play in the latter part of the period tonight.

Tomorrow night the final playoffs will begin in each league. The American Legion vs. Sunray (Industrial league) will be the first playoff, with DeMolay vs Hermleigh (City league) to follow.

Need for Park And New Jail Told to Club

After Harold Bennett, manager of the Scurry County Chamber of Commerce, cited the benefits to be derived from a recreational park, and the need for an addition to the courthouse and a new jail, practically all members of the Kiwanis Club yesterday signed both bond election petitions.

While no definite site for the proposed park has been made public, several offers are now under consideration, Bennett said.

Large oil companies in their area are heartily in favor of such a recreational center that would benefit their employes, who now have to go to other cities for swimming and other amusement, Bennett stated.

The Kiwanians also voted to sponsor a float in the rodeo parade July 18.

Three new members were introduced. They were Riley Foster, W. James, and Joe R. Shell.

Through the courtesy of C. L. Dennis and Charles Westbrook, a technicolor film, "Rubber River" was shown. The movie told the story of rubber production in Mexico and Central America.

The club voted to hold its future luncheon meeting at the Sage and Sand Cafe on the East Highway.
