VOL. 23 NO. 102 SNYDER, TEXAS (79549) SUN., AUG. 27, 1972 42 PAGES-3 SECTIONS 15c

The SDN Column

If you think the month of August has been trying to dominate our rainfall picture lately, you are right. Last year August was one of the wettest months on record--in fact it is the wettest on the official books--with some 15½ inches. Even so, it did not produce the floods that August of this year has.

During the first 25 days of this month in 1972, six have produced enough moisture to measure and through Friday the official total for the month was 6.28 inches.

The official total for the month of June in 1939, when the other big flood occurred in Snyder, was 7.46 inches.

Of course there were heavier rains both times to the north, which fed the creeks and sent high water surging southward.

★ ★ ★

Any word about floods does get around. Mr. and Mrs. N.W. Autry have received clippings from the Paris (France) edition of The Herald Tribune, which has a story about the Aug. 13 flood in it. The Paris newspaper, which is published for English language readers in Europe by the New York Times and Washington Post, carried an Associated Press story with a Snyder dateline on page 2 of its Aug. 14 issue.

The clippings were sent to Mr. and Mrs. Autry by a niece, Mrs. Frank Pounds Jr. Mr. and Mrs. Pounds live in Stavanger, Norway, where he is a driller for Phillips Petroleum Co. of Norway.

★ ★ ★

We are indebted to Bushy Hedges for use of some pictures of the aftermath of the 1939 flood which we had never seen before. He had considerable interest in the rising water at that time, since he was operating a service station on the banks of Deep Creek near the Twenty-fifth Street bridge.

The pictures are reproduced elsewhere in this issue.

★ ★ ★

The aerial spraying Thursday to control mosquitoes didn't create the stir that some of us thought it would. The insecticide was hardly noticeable to the nose and the eye. It didn't attract nearly so much attention as the ground level fogging machine at Lubbock which encircled Jones Stadium while the Coaches All-America football game was in progress.

—WACIL McNAIR.

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, August 27, the 240th day of 1972. There are 126 days left in the year.

Today's highlight in history:

On this date in 1945, American troops began landing in Japan at the end of World War II. It was the first foreign occupation of the country in modern history.

On this date:

In 55 B.C., Roman forces under Julius Caesar invaded Britain.

In 1776, the British were victorious in the Revolutionary War Battle of Long Island.

In 1859, the first oil well in the United States was drilled near Titusvile, Pa.

In 1923, the Kellogg-Briand Pact to outlaw war was signed in Paris. In 1862, the Italian patriot, Giuseppe Garibaldi, was seized on his way to capture Rome.

In 1939, Nazi Germany demanded Danzig and the Polish corridor.

Ten years ago: The United states again urged the Soviet Union to cooperate in ending provocations by East German guards at the Berlin Wall.

Five years ago: 16 skydivers were killed when they fell into Lake Erie off Huron, ohio.

One year ago: Japan bowed to pressure from the U.S. and let the Japanese currency, the yen, float to reach its own higher evaluation.

★ ★ ★

THE WEATHER

SNYDER TEMPERATURES: High Friday, 78 degrees; low, 67 degrees; reading at 7 a.m. Saturday, 67 degrees; precipitation, trace.

Northwest Texas and Southwest Texas: Scattered mainly afternoon and evening showers and thunderstorms west of the Pecos, otherwise partly cloudy Monday through Wednesday. Mild temperatures continuing. High 86 to 95. Low 58 to 68 except lower 50s mountains.

North Central Texas and Northeast Texas: Partly cloudy and mild Monday through Wednesday. High in the upper 80s and lower 90s. Low from 65 to 70.

South Central Texas and Southeast Texas: Partly cloudy and warm with chance of showers and thundershowers all sections Monday and mainly coastal sections Tuesday and Wednesday. Low upper 60s Texas Hill County to mid 70s along coast. Highs upper 80s to mid 90s.

SNYDER
HOME OF
WESTERN TEXAS
COLLEGE

Public Schools, WTC Get Down To Business

Activities in Snyder Public Schools and at Western Texas College will get down to business this week, with classes scheduled to begin Monday in the public schools and registration set for Monday and Tuesday at WTC.

The college will open its dormitory complex at 2 p.m. today for the first time. The new, 192-student facility is the first on-campus housing provided by the local college.

WTC is scheduled to complete registration Tuesday and classes will begin on Wednesday.

The alphabetical registration schedule at WTC will have sophomores whose surnames between letters J through P registering from 1 p.m. to 2 p.m. Monday, Q through Z from 2 p.m. to 3 p.m. and A through I from 3 p.m. to 4 p.m. on Tuesday.

Freshmen will register Tuesday with M through S from 8 a.m. to 9 a.m., T through Z from 9 a.m. to 10 a.m., A through F from 10 a.m. to 11 a.m. and G through L from 11 a.m. to 12 noon.

Evening students will register from 6:30 p.m. to 9 p.m. both days.

The tuition at WTC is $4 per semester hour, which is the rate set by the state for public junior colleges.

Monday will be the first day for all pupils to report to Snyder Public Schools. Registration and other pre-school activities, including teacher orientation, have been underway during the past week.

Candidates Take Weekend Respites From Campaign

By THE ASSOCIATED PRESS

Taking weekend respites from the campaign trail, President Nixon and Democratic nominee George McGovern relaxed at opposite ends of the country.

Before going to his home on Maryland's Eastern Shore, McGovern named five women to his male-dominated campaign staff and took the opportunity to accuse Nixon of "laughing at the rights of women."

President Nixon, relaxing at his San Clemente, Calif., home, was preparing for future stumping and a Hawaii summit meeting next week with Japan's new prime minister.

The Democratic presidential candidate Friday named Ann Martindell, who had been a chairwoman of the New Jersey convention delegation, as deputy campaign director, and Texas liberal Frances "Sissy" Farenthold as co-chairwoman of the largely honorary National Citizens Committee for McGovern-Shriver.

Rep. Bella S. Abzug of New York City and actress Shirley MacLaine were named co-chairwomen of the committee to advise McGovern on women's issues and Anne Wexler, who had been McGovern's convention floor leader, was named head of voter registration efforts, a job McGovern called "the most important single task" of his campaign.

"Do we want another four years of war under Nixon?" McGovern asked. "Another four years of unemployment under Nixon? Another four years of vetoing school bills under Nixon? Another four years of laughing at the rights of women and women's movement under Nixon? Another four years of the Southern strategy? Another four years of loading the Supreme Court with second raters?"

McGovern told a cheering group of some 150 representatives of 29 unions in Washington that the new tax and welfare proposals he'll make next Tuesday won't bring any added burden to middle-income workers.

And, appearing before a group of farm-oriented newspapermen, he backed off somewhat from a promise he made last week in Springfield, Ill., to promptly raise price supports, if elected, to give farmers 90 per cent of parity.

He said that he might instead favor direct cash payments to farmers to make up the difference between the 80 per cent parity price and what they actually receive in the market.

In California, the only event this weekend for the President is to play host late Sunday at a reception for 400 show business performers who back him in his contest with McGovern.

Those in attendance will not be limited to the Hollywood set. A sizable contingent of country and Western performers are also coming from Nashville.

The President plans a number of appearances in September, Press Secretary Ronald L. Ziegler said Friday, but intensive campaigning is expected to come in October and early November.

Nixon spent most of Friday conferring with aides. He was resting from a cross-country swing that took him before friendly audiences in Chicago, a Detroit suburb, San Diego and at the Western White House.

Ziegler said the President was "most satisfied" with his tour.

Seek Actors For Western Production

Ranch Headquarters Association is looking for actors and actresses to take part in a western production planned for Ranch Day here on Sept. 30. The production is to be repeated on Ranch Day at Ranch Headquarters in Lubbock on Oct. 7.

There will be parts for people of all ages in the show, according to Charles Holland, who will be directing the presentation. It is not necessary that the cast members have previous acting experience. Try-outs will be held at 4 p.m. Tuesday and 7 p.m. Wednesday in the Fine Arts Theater at Western Texas College. Rehearsals are to begin soon after casting is completed.

The western production will be staged here in the coliseum along with other Ranch Day activities.

Elementary Level Enrollment Is Up

Pre-registration figures of enrollment for the Snyder elementary schools show an increase of 70 pupils over last year's comparable figures not counting a large increase of kindergarten enrollees. While pre-registration numbers are merely preliminary ones (enrolment on the first day of school and throughout the first week adds to the number,) school administrators were pleasantly surprised. They had feared a decline based on last year's cnesus.

Breakdown of current pre-registration figures, grades 1-6 by elementary school is shown with the comparable 1971 figures in parentheses.

North, 204 (188); Central, 222 (220); East, 267 (298); West, 330 (320) Northeast, 260 (203); Stanfield, 237 (256).

In addition to these pupils, Central has 84 kindergarten children compared with 32 last year. Central was the only school with kindergarten classes during 1971-72. West has 52 kindergarten pupils pre-registered and Stanfield has 46. West and Stanfield have one kindergarten teacher each while Central has three. These classes will be operated on one-half day sessions.

Total elementary pre-registration figures, including kindergarten, show 1702 enrollees compared with 1971's 1482, an increase of 220. Of this increase, 182 are in the kindergarten programs, followed by the sixth grade increase of 41. All grades showed an increase except grade 1 which was down by 21. However, school officials say that there are probably far more than 21 first graders who will not show up until the first day of classes on Monday, Aug. 28.

There are no comparative pre-registration figures for the secondary schools but high school reports 810 pre-registrants; Travis Junior High, 459; and Lamar Junior High, 484.

Two Killed Near Rotan

ROTAN, Tex. (AP) — Two Rotan residents were killed Friday night in a two-car head-on collision on State 70.

Police identified the two victims as Raymond E. Gramet-bauer and Mrs. Jose Flores. Their ages were not known.

GAO Refers To Possible GOP Fund Violation

WASHINGTON (AP) — The General Accounting Office today referred to the Justice Department "apparent and possible violations" of the Federal Election Campaign Act by the Finance Committee to Re-elect the President.

GAO auditors had met a few days earlier with Maurice H. Stans, who said such a meeting was "proper and necessary" to assist them in finishing their probe into Republican campaign fund handling.

"We turned over hundreds of documents, which GAO had requested, and which I believe satisfied their inquiry in those respects. At no time did (Phillip) Hughes show me or anyone a draft of his report," Stans said Friday.

Stans, chief fund raiser for President Nixon's campaign, said criticism of the meeting by Lawrence F. O'Brien, national campaign manager for Democratic presidential nominee George McGovern, was "a cynical attack" and said O'Brien "suffers from the panic of a hatchet man who has to wield his attack with marshmallows."

"Mr. O'Brien's notion that I have some ability to influence the General Accounting Office is ludicrous," Stans said.

O'Brien charged on Wednesday that a delay in releasing the GAO report was part of an "outrageous conspiracy of suppression and called it "an example of the frantic Republican effort to conceal, lock up or otherwise submerge a growing scandal that reaches into the White House itself."

Stans' statement was issued through the Committee for the Re-election of the President. He said he called GAO last Tuesday and asked for an opportunity to meet with them on his return to Washington from the Republican National Convention for a review of information the GAO had requested.

To save time, he said it was decided it would be more expeditious for GAO representatives to meet him in Miami Beach.

The GAO report has not yet been made public. Reports last week said GAO had found violations in the handling of up to $500,000 in Republican campaign funds.

Martin To Issue New Opinion

By LEE JONES
Associated Press Writer

AUSTIN, Tex. (AP) — Atty. Gen. Crawford Martin is about to whittle away some more of the governor's power over state spending.

The attorney general indicated he will issue an opinion early next week declaring the legislature violated the Texas Constitution when it passed appropriations bill riders requiring the governor's prior approval for various expenditures.

"I'm trying to set general rules for the legislature on which riders are valid and which are invalid," Martin said in an interview Friday.

Martin issued an opinion Wednesday declaring unconstitutional an appropriations bill rider authorizing the governor to transfer funds from one agency to another.

Smith used that power to head off welfare cuts in 1970.

Smith was enraged, saying the opinion would reduce the governor to "a ceremonial figurehead."

"I think you can safely say that he's not going to like this one a hell of a lot either," Asst. Atty. Gen. Sam McDaniel said of the forthcoming opinion.

State Comptroller Robert S. Calvert asked for both opinions.

Smith defeated Martin for lieutenant governor in 1962, and Martin was closely allied with Smith's political foes, former Gov. John Connally and Lt. Gov. Ben Barnes.

Fair Plans Take Shape

Plans are making progress for the 1972 Scurry County Fair, the first such event to be held in the Scurry County Coliseum.

It will open Sept. 21 for a three-day run.

Heretofore, the fair has used the exhibit barn and National Guard Armory in Towle Memorial Park for its exhibits.

Darrell Sims, President of the Scurry County Fair Association, said the organization is looking forward to its first show in the coliseum, although there are no facilities there for livestock exhibits. The facilities offer an attractive setting for all other fair activities, however, and Sims said they believed that this year's exhibition will be one of the best ever.

The exhibits will include agriculture products, educational exhibits, community exhibits, textiles, baked goods, canned goods, art, and handicrafts and a flower show.

In addition, there will be excellent facilities for commerical exhibits. Arrangements to rent commercial exhibit space may be made by calling the Snyder Chamber of Commerce office at 573-3558.

Sims said that the possibility of arranging for some special entertainment features during the fair are being explored, and these are expected to add to the interest in the annual event.

In addition to Sims, those serving on the Scurry County Fair Association's board of directors are J.N. Eicke, Carl Williams, Mrs. Jimmy Beck, Mrs. Don Wills, Howard Hogue, R.L. Drum, Mrs. Charles Tyer, Wilson Bright, Mrs. Roy Hanson, Mrs. Doyle Wemken, Donald Tate, Mickey Sterling.

Also, Mrs. Raymond Robinson, Leslie West, Max von Roeder, H.W. Cargile, R.C. Eoff, Mrs. Myron Roe, Buford Browning and E.M. Ashley.

US Jets Near Chinese Border

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — American jets swept to within 35 miles of the Chinese border Friday and smashed four bridges on the northeast railroad supplying North Vietnam from China, the U.S. Air Force announced today.

North Vietnamese antiaircraft guns downed an F4 Phantom flying fighter escort for the bomb attack but its two crewmen—two of the leading U.S. combat pilots in Vietnam—bailed out over the sea and were rescued in minutes.

Capt. Jess S. Feinstein, 27, East Troy, Wis., and Lt. Col. Carl G. Baily, 41, Denver, Colo., managed to ride their crippled plane north and east over the sea before bailing out, the Air Force said. A helicopter from Da Nang Air Base picked them up 20 minutes later.

Feinstein has been credited with four MIG kills, one short of becoming the Air Force's first Vietnam ace. Baily has been credited with downing two MIGs. The pilots fly protective escort missions for the fighter bombers attacking targets on the ground.

The bridges that were knocked out had been attacked several times previously but had been rebuilt, the Air Force said. In the latest raid, three were reported destroyed while a fourth had its approach cratered.

While the U.S. Command acknowledged the loss of the one F4 Phantom, Radio Hanoi claimed a second was shot down during the raids and the pilots captured. The U.S. Command has a policy of withholding announcement of air losses while search and rescue operations are being conducted.

The Command said Air Force, Navy and Marine pilots flew a total of more than 290 tactical strikes throughout North Vietnam Friday, concentrating on the supply routes that carry war material southward.

The main ground fighting was reported centered in the northern part of South Vietnam, at Que Son district 30 miles south of Da Nang.

The Saigon command said the Communists slammed 100 mortar rounds at a Ranger battalion which reoccupied the Que Son military compound Friday afternoon. Spokesmen said several government troops were wounded but none was killed. Light fighting was reported around the district town.

Headquarters said government forces uncovered the bodies of 76 North Vietnamese soldiers killed by U.S. B52 strikes about four miles northeast of Que Son, captured 48 weapons and destroyed five Soviet-built Strela missiles.

Sir Chichester Dies At 70

PLYMOUTH, England (AP) — Britain's grand old man of the sea, Sir Francis Chichester, who defied age and cancer to sail around the world alone, died today at the Royal Naval Hospital here after a long illness. He was 70.

Few men in this century have caught the heart of this seafaring nation more than Chichester. In 1967 at the age of 65, when most men retire, he survived gales, mountainous seas, icebergs and near sinking to circle the globe in his 53-foot yacht Gipsy Moth IV.

His wife, Lady Chichester, and their son Giles were at his bedside.

Bad egg winds up with yoke on him

By Abigail Van Buren

(© 1972 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: I had the same problem as the wife whose husband kicked or slapped her when he lost his temper. I compare that problem with that of a puppy who developed the habit of messing in the house because he got away with it. Any attempt to discipline him on the following morning was useless because by then he had forgotten what he'd done.

I decided that the next time my husband struck me I would pick up the nearest heavy object and let him have it. Unfortunately for him, the last time he hit me I was frying eggs in a cast iron skillet. I'll admit, it was awfully drastic, but as I said, that was the last time he ever laid a hand on me.

How would you have handled it? Sign me

"L" IN ILLINOIS

DEAR L: I don't approve of violence. I'd have hit him with something lighter but more lasting. Like a divorce decree.

DEAR ABBY: I have caught my ten-year-old child stealing cookies and candy in the grocery store. I have immediately made her return the stolen items to the store clerk or manager.

On these occasions I have been completely floored when the managers and clerks smile and say, "Oh, that's okay!"

Abby, please print this letter and point out the possible damage done when adults assume an attitude of acceptance under such circumstances.

DISCOURAGED IN WASHINGTON

DEAR DISCOURAGED: Here's your letter with my added plea: DON'T minimize the seriousness of stealing. Today a cookie . . . tomorrow a car!

DEAR ABBY: You recently published several letters on the question of whether a child should call a stepmother "Mother."

Most were against it. I think this is worth mentioning: If I am not mistaken, when Abraham Lincoln said, "All that I hope to be, I owe to my angel mother," he was referring to his stepmother.

WASHINGTON STAR READER

DEAR READER: Right on! And thanks to the Cinderella fairy tale, what happened to the stepmother image shouldn't happen to a stepdog.

DEAR ABBY: I recently read an article stating that there has been a tremendous increase in wives requesting prescriptions for tranquilizers. I wonder if there could be any connection between that and this new four-day work week the men are going in for?

I wish some efficiency expert would figure out how much more work a wife has to do on the days her husband is home all day. Including the picking up after all the projects he starts but never finishes.

And maybe Women's Lib will get a law passed making it legal to kill a husband who says, "Ah ha, just as I suspected. You women have nothing to do but sit around all day."

What we really need is a bar that's open 24 hours a day for WOMEN ONLY. GAIL IN TITUSVILLE, FLA.

DEAR GAIL: Ha! That will be the day. You could never keep the men out!

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90069 and enclose a stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

HOSPITAL NOTES

ADMISSIONS: Bryan Billingsley, Albuquerque, N.M.; Flossie Burnett, Rt. 2, Hermleigh; Frances Denman, 2811 Thirth-eighth; Celia Hart, Box 337, Snyder; Margaret Miller, 3805 Ave. V; Nettie Starnes, 2105 Twenty-sixth.

DISMISSALS: Olin Horn, Billie Mueller, Margaret Miller, Jessie Cadena, Phyllis Messimer, Redie Sealy, Tennie Collier.

Canada To Mint New Coins

OTTAWA (AP) — The Royal Canadian Mint will strike a new 25-cent piece and a silver dollar in 1973 to mark the 100th anniversary of the Royal Canadian Mounted Police.

Texas Film Panel Is Named

AUSTIN, Tex. (AP) — Gov. Preston Smith named Saturday a nine-member executive committee of the Texas Film Commission to help attract more movie makers to Texas.

"In recent months the film commission has worked with more than 25 feature-length film, television special and documentary productions in Texas," Smith said. "It is estimated that these productions have brought more than $10 million into the Texas economy.

"As a result of the film commission's work, more than 26 productions are already committed to Texas during the next fiscal year. It is our belief that the establishment of the executive committee will assist us even more in the development of a Texas film industry and in the growth of film production in Texas."

The executive committee includes Scott Hardy, San Antonio, executive director of the Texas Hotel and Motel Association, who will serve as chairman; Bill Parsley, Lubbock, vice chairman; Sen. Tom Creighton, Mineral Wells; Rep. Dick Slack, Pecos; Mrs. Norman Elder, Del Rio; Mrs. Gertrude Barnstone, Houston; Mrs. Karen Johnson, Auston; Mrs. Jane Kelton, Dallas, and Houston Daniel, Austin.

Government Will Stop Advertising

PRETORIA, South Africa (AP) — The government will stop printing commercial advertisements on the borders of sheets of postage stamps because public reaction to the practice has been very unfavorable, a Post Office spokesman said.

Phi Theta Kappa Sponsors Concert

The Psi Zeta chapter of Phi Theta Kappa, a national honor fraternity for junior college students, in a continuance of its service to Western Texas College, will host a performance of the Dean Davis Company here Sept. 28. Announcement of the concert came from Joel Dyess, president of the chapter, and Ed Barkowsky, and Rita Colley, faculty sponsors.

Phi Theta Kappa is the largest fraternity on the WTC campus and the only organization that recognizes scholastic merit. PTK is also the only national fraternity of academic excellence specifically for the junior college student.

Last year the members of PTK offered many services on campus, serving as guides for the various open house tours and helping host several of the special programs and activities that were sponsored by the WTC administration and academic departments. Officers for this year are Joel Dyess, president, Keith Dolloff, vice president, Linda Benitez, secretary, Ginger Howell, treasurer, and Nancy Bailey, council member.

The Dean Davis concert is the first special program to be announced this year, and the first performance of a nationally prominent entertainment group to ever take place on the WTC campus. Last year the Dean Davis Company played on over 42 college campuses throughout the nation, including Colorado State University, Illinois State University, Austin College, and Oklahoma State University. The Company's presentations have not been limited to the USA. It has completed a tour of Southeast Asia and has done several shows for USO, including the countries of Viet Nam, Japan, Thailand, and the Philippines. Other countries where the group has performed are Spain, Italy, Australia, and Germany.

The music of the group can be described as Folk-Rock but they are not the kind of performers to enter stage right, sing, exit stage left, and never realize the audience is there. The five members of the group combine humor and professionalism to add personality to their musical talents. Their sound includes special effects such as reverb and organ vibrations as well as the traditional vibes. Their music tells a story of life and its events and happenings. Their style is one of a kind.

Dyess and the Psi Zeta chapter first became interested in the Company after seeing a performance at the state PTK convention last spring. Plans were immediately made to book the group for an appearance on the WTC stage. Dyess stated that the performance here this fall will include a "teaser" or preview performance on campus so that the WTC students and members of the community can become familiar with the talent of the group. A very small admission will be charged for the evening concert, and it is hoped that everyone in the community will have the time and opportunity to attend. An enjoyable and memorable evening is guaranteed.

Members of PTK will be assisting with the registration activities that being Monday, and a table will be set up for any students interested in the organization. Questions concerning the fraternity, its special programs, and its services will be answered. A 3.2 overall grade point average and full-time student status are two of the requirements for the honor fraternity. Other points will be explained by its members.

Cadillacs Recalled

DETROIT (AP) — General Motors' Cadillac Division is recalling nearly 4,000 vehicles, including limousines and hearses, for inspection of possible faulty axles.

The recall announced Friday involves 3,878 of Cadillac's 1972 nine-passenger limousines and commercial vehicles, such as hearses, for which Cadillac built the chassis for other companies.

Cadillac said there had been no injuries in connection with reported axle breaks. The firm explained that if an axle shaft broke and separated a rear wheel from the vehicle, a corner of the vehicle would drop to the rear suspension.

Should the axles break, Cadillac said, "front brakes continue to be entirely operable and by using caution and applying the brakes lightly, the vehicle can be brought to a stop."

Axle shafts on the recalled vehicles will be replaced at no charge to owners, Cadillac

SWEETWATER, TEXAS

TIB Denies Rate Cut Political

SAN ANTONIO, Tex. (AP) — Two members of the Texas Insurance Board denied Friday that the recent cut in auto rates was a political effort to forestall no-fault insurance in Texas.

"The board set rates with data collected by it, utilizing a formula which has served us well for years," said acting chairman Ned Price. "People who think we arbitrarily set rates do not understand how this board functions."

Board member Durwood Manford recalled that when the board recommended an 11 per cent decrease in rates, Gov. Preston Smith called it a "token" move.

"If we had suggested a 20 per cent drop, he would have said we needed a 30 per cent decrease," Manford said.

The two men also said they are against calling a special legislative session to reform the insurance board, which Smith has threatened.

Antique Show Set In Austin

AUSTIN, Tex. (AP) — About 50 antique dealers from across the United States are expected to take part in the eighth annual Antiques Show and Sale, Sept. 22-24, at Austin' Municipal Auditorium.

The show and sale is sponsored by the Heritage Society of Austin and all proceeds go to Austin historic preservation projects of the society.

Building Declines In July

AUSTIN, Tex. (AP) — Total construction in Texas had a sharp drop of 24 per cent during July, the Bureau of Business Research reports, but the yearly total still shows a 24 per cent gain over the same period of 1971.

The Bureau said total construction in Texas for July was $259,410,000 including $117,756,000 in new construction of residential units and $114,084,000 for nonresidential.

Dallas leads the list with total construction authorized in 1972 of $492.7 million, followed closely by Houston with $484.1 million. Fort Worth, Austin, San Antonio and El Paso have all posted total construction values of more than $100 million, the report said.

Patman To Support McGovern, Shriver

AUSTIN, Tex. (AP) — U.S. Rep. Wright Patman, D-Tex., of Texarkana, dean of the Texas Congressional delegation, says he will give "my fullest support" to the McGovern-Shriver ticket.

His letter was released here Saturday by McGovern-Shriver state headquarters.

Pvt. Hodge At Ft. Myers, Va.

Army Pvt. Michael K. Hodge, 20, has been assigned to Fort Myers, Va., following completion of Basic training at the U.S. Army Training Center, Infantry, at Fort Polk, La.

He is the son of Mr. and Mrs. Orval Hodge, Route 3, Snyder.

At Fort Polk, he received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid and Army history and traditions.

Pvt. Hodge is a 1970 graduate of Snyder High School. His wife, Lori, is with him in Virginia.

Colonial Hill Baptist Church Scene Of Dulaney, Rose Vows

Mary Jean Dulaney became the bride of Lt. David Michael Rose at 8 p.m. Aug. 19 in a military ceremony at Colonial Hill Baptist Church with Chaplain Richard K. Knowles, chaplain of Reese Air Force Base, officiating at the double-ring ceremony.

Parents of the couple are Mr. and Mrs. Gene L. Dulaney of Snyder and Mrs. Howard Charles Rose of Idabel, Okla., and the late Colonel Rose.

The altar was centered with a single tall white flower tree. On either side was a large candelabra filled with lemon leaves and accented with 36 pillar candles. Four smaller nine branch candelabras flanked the altar forming the background for the attendants.

Both aisles were decorated with ten foot white piers topped with cascades of wild southern smilax, candles and white flowers to match the bridal arrangement.

The bride, presented in marriage by her father, wore a white organza and Swiss net gown designed on the Juliet silhouette and embellished with white Swiss Guipure snowflower lace. The moulded bodice of Swiss net and organza featured a decollete neckline with a showflower lace bandeau necklace. Juliet sleeves of net were striped in vertical rows of lace and tiny Valencienne lace ruffles fell over the wrists with buttons and loop closures. The trim A-line organza skirt was striped in vertical garlands of the snowflake lace, interspersed with snoflowerlets. Fullness was softly worked to the back to form her chapel-length train. The entire hemline was encircled in a border of the snowflake lace edged in Valencienne lace ruffling. She wore a matching Juliet capulet sprinkled in Valencienne lace medallions and Guipure lace flowerlets with tiny valencienne lace ruffle edging. Tiers of veiling fell from each side and were sprinkled in snowflowers. She carried an old-fashioned bouquet of lily-of-the-valley, agapanthas blossoms, baby's breath and bouvardia.

Miss Dana Murphy of San Angelo served as maid of honor. Bridesmatron was Mrs. William Grimes of Snyder and bridesmaids were Jamie Stehley of Snyder, Susan Moffett of Dallas and Paula Green of Big Spring.

The attendants were attired in dresses fashioned of white dotted voile. They were designed with a v-neckline, short sleeves with ruffled cuffs and pyramid skirts featuring deep flounce hem. Lace enhanced the bodices and skirts and a white satin ribbon marked the empire bodices which ended in a back bow with long streamers. They carried bouquets fashioned from the Victorian era of red miniature carnations, imported blue batchelor buttons and baby's breath.

MRS. DAVID MICHAEL ROSE
(Photo by Craft)

Capt. Howard Charles Rose Jr., of Blytheville Air Force Base, Ark., served as best man and groomsmen and ushers were Lt. Arthur Erickson, Lt. Donald Seese, Capt. Michael Conner, Lt. Albert Tribe, Lt. Thomas Boudette, Lt. Ronald Ryan, all of Reese Air Force Base, and John Dulaney, of Snyder, brother of the bride. Eric Schrader of Snyder served as candlelighter.

The bridegroom and his military attendants were dressed in formal white Air Force dress uniforms. At the close of the ceremony, the bride and groom passed under the arch of swords which was formed by the groom's attendants on the steps leading from the altar.

Ralph Wesson, organist, presented the musical program.

A garden reception followed the ceremony at the home of the bride's parents. Chosen colors of red, white and blue were used throughout the decoratons.

The bride's table was covered with a floor-length cloth of white illusion with an overlay of lace and seed pearls. It was overhung with a canopy of white with a silk tassle valance.

The groom's table was draped in red and trimmed in blue and white. It was placed under a canopy of red, white and blue satin. A canopy of the same colors overhung the champagne fountain.

Before a background of white lattice draped with southern smilax, guests were seated at cafe tables covered with red satin cloths trimmed with white felt in a Victorian design. Table arrangements were of blue and white flowers centered with hurricane candles. The yard was lighted with white Japanese lanterns, tall hurricane lamps, and red, white and blue spotlights, and was accented with clusters of white azaleas and chrysnathemums.

Mrs. Rose is a senior at Texas Tech university. Her husband graduated from Texas A&M University with a Bachelor of Science degree in architecture.

The couple will be at home at Reese Air Force Base where Lt. Rose, an Air Force pilot, is instructor in T-38 Talon jet fighter planes.

Beverage

LAZY DAY LAMB STEW

2 pounds boneless lamb shoulder, cubed
2 tablespoons salad oil
1 cup beer
⅔ cup water
1 envelope (1½ ounces) spaghetti sauce mix
4 carrots, cut into 1½-inch pieces
4 medium onions, sliced
1 can (1 pound) whole potatoes, drained

In a large saucepan brown lamb in oil. Add beer, water and contents of envelope of sauce mix. Simmer, covered, for 1 hour. Add carrots and onion; cook 20 to 30 minutes more, until meat and vegetables are tender. Add potatoes, cook 10 minutes to heat. Makes 5 to 6 servings.

Quotable Women

By THE ASSOCIATED PRESS

Here are some quotable quotes from women during the week:

"The men looked at us askance, they really did. But, the women delegates didn't go into that smoke-filled room where the men were. You could hardly breathe in there. We didn't have to do any of that drinking and sweating to make a decision." Mrs. Byron Coon, 91, a delegate to the 1920 GOP convention that nominated Warren Harding.

"Four years is not long enough to put together what he (Nixon) wants for the good of his country or to carry out his campaign promise. He needs the entire eight years." Mamie Eisenhower in a filmed talk to the current Republican National Convention.

"It's not pornographic. My mother loved it and she wants them for all my aunts and relatives." Carol Fulton, coproducer of what she says is the first all-male nude calendar for liberated females.

"Right now my job is to run the Democratic National Committee. I'll tell you one job I won't have. I won't be treasurer. We're reserving that for a man." Jean Westwood, National Democratic chairman, on speculation that she would have a Cabinet spot in the event of a McGovern victory.

"I think in terms of who is most concerned about whether Eldridge Cleaver lives or dies, who he has been indicted by, who he has been persecuted by, who he has been chased out of the country by. I think it's very clear who is interested in killing him." Kathleen Cleaver in announcing that there was a plot against the life of her Black Panther leader husband, Eldridge.

Banks Hiring More Minorities

WASHINGTON (AP) — Employment of minority groups by banks increased 120 per cent between 1966 and 1970, a U.S. Treasury official told a recent meeting of the American Bankers Assn. here.

Libbers Celebrate Right To Vote

By THE ASSOCIATED PRESS

Workshops, marches and a feminist fair to proclaim the "worst male chauvinist pig of the year" highlight activities planned nationwide today on the 52nd anniversary of the day women established their right to vote.

Several thousand Women's Rights Day demonstrators marched down Fifth Avenue in New York City Friday. A dozen of them had earlier unfurled a "Woman Power" banner in the gallery of the American Stock Exchange, causing a brief flurry among some males on the floor below them.

"Never again will we allow our uteruses to be used as political footballs," said a speaker at the end of the 19-block Fifth Avenue parade. "We want more than the present abortion law. We want repeal of all abortion laws."

Other demands issued under the umbrella of "Women's Liberation" included ratification of the Equal Rights amendment to the Constitution, political power, child care centers, abolition of prostitution laws and allegedly oppressive marriage and divorce laws and an end to discrimination in education and employment.

Feminists in Omaha, Neb., planned today to hold workshops to hail that city's "Mayor's Commission on the Status of Women." Women in Georgia will march to the state capitol to urge adoption of the proposed Constitutional amendment.

Fourteen women's groups in Massachusetts are sponsoring a fair in Cambridge to present an undisclosed prize to the winner of the "worst male chauvinist pig of the year" election.

For 22-year-old Connie Williams of Mexico, Mo., liberation means that today she will be allowed to enter a demolition auto derby. The Missouri Human Rights Commission held that Mrs. Williams cannot be barred from driving in the auto-smashing event.

Ethel Singing For The Lord

By MARY CAMPBELL
AP Newsfeatures Writer

NEW YORK (AP) — Ethel Waters, who has spent most of her life singing many different kinds of songs, these days is singing for the Lord.

Whenever she can, she sings with the Billy Graham Crusade. Her first singing jobs, starting as a teen-ager, were honkytonk, where the lyrics had double meanings. Since she has sung in nightclubs, on the Broadway stage and on other stages across the country. She introduced "Dinah" in 1924 and "Stormy Weather" in 1933.

She was speaking in connection with her autobiography, "To Me It's Wonderful," which she wrote about her rededication to God, after a Billy Graham Crusade in New York in 1957. "It is not a Bible," she says. "There is nothing in the book to scare or annoy or embarrass you. You'll be able to laugh and smile. It is just a human story."

An earlier autobiography, "His Eye Is on the Sparrow," she says she wrote "to show what a person, regardless of status, can overcome."

Miss Waters, who seldom talks to the press, said, "When the crusade came to New York, I was doing summer stock. My weight was monstrous. I hated the world and everybody in it, including me.

"Hate is so cancerous. When you let your temper get the best of you, who has the headaches and high blood pressure? You. That's why I laugh so much now. I'm not going to let the Devil best me.

"I used to listen to Billy Graham on the radio. I had this inner something lacking in my life that I had once experienced when I was 12. I was lonely. I wanted to find that right relationship with God I had once experienced.

"I went to Madison Square Garden to hear Billy. You would have almost thought he was talking to me. What he said seemed to answer questions that I had in my mknd.

"It was the first time I'd been to that kind of thing, though I'd worked in benefits and programs. The spirit don't always thrive but it was thriving with me then.

"After the first week, I asked if I could get a pass to get in. I was so big it was hard to stand in a crowd every night. They gave me a choir pass so I'd be able to sit in the choir. I didn't intend to sing; I just wanted to get in there.

"Then they asked me to sing a solo. I knew I had to make a decision. I knew if I sang 'His Eye Is on the Sparrow' there, I shouldn't sing 'Heat Wave' the next night. I prayed a lot about it. My only livelihood was the theater. I didn't know how I was going to earn a penny. I was thinking about days in the past when I had nothing. But I made my decision. It hasn't been a bed of roses. But if I had it all to do over again, I'd have done it sooner."

Miss Waters now sometimes will sing "Taking a Chance on Love," which she sang on Broadway in 1941 in "Cabin in the Sky," where she also did a cancan choreographed for her by George Balanchine. She says, "I slip in 'His love' at the end. I'm tricky."

MRS. BILLY MAX WEST

(Photo by Craft)

Pamela Odom, Billy Max West Wed In First Methodist Church

Miss Pamela Odom and Billy Max West exchanged wedding vows at 8:30 Friday evening, Aug. 11, in the First United Methodist Church. The Rev. Wallace H. Kirby officiated at the double-ring ceremony.

Parents of the couple are Mr. and Mrs. R.H. Odom, Jr., and Mrs. Max West, all of Snyder. Paternal grandmother is Mrs. R. L. Gray and maternal grandmothers are Mrs. C.V. (Whitt) Thompson Sr., and Mrs. Dewey Odom, all of Snyder.

Wedding music was presented by Mrs. Wendell Rehm. Miss Pam Hartsfield, soloist, sang "One Love," a selection from the Carpenters, accompanied by Miss Barbara Carter, pianist.

The bride was escorted to the altar by her father. She wore a long gown of silk organza and lace in ivory. The Victorian style gown had fitted bodice and long lantern sleeves of lace. Tiny pleated ruffles accented the bodice and shoulders and were repeated on the cuffs and crown collar. An overlay of Alencon lace formed the front of the skirt and double-pleated ruffles and lace scallops encircled the skirt at the hemline, falling to a chapel sweep. The bride wore a pearl necklace belonging to her maternal great-grandmother and which was worn by her mother and grandmother at their weddings. She carried a cascade bouquet of yellow sweetheart roses, white stephanotis and baby's breath, and wore a garland of stephanotis and baby's breath in her hair.

Mrs. Debi Clark served as matron of honor. Other attendents were Mrs. Mary Odom, sister-in-law of the bride, and Miss Carla Clements. They wore long dresses of crepe in chemise red designed with fitted bodice, high necklines and long fitted sleeves. The full skirts had a gathered flounce at hemline. attendants carried cascade bouquets of enchantment lilies, gerba daisies, Spanish roses and yellow statice.

Richard West, brother of the groom, served as best man. R.H. Odom III, of Lueders, brother of the bride, and Bill Jennings of Austin were groomsmen. Ushers were Jimmy Don Everett of Snyder and Weldon Lloyd of Lubbock.

The altar of the church was backed by three nine-branch candle trees filled with woodwardin fern and studded with white pillar candles. Flanking the bride and groom were two twelve-foot candle trees, also draped with woodwardin and filled with pillar candles. On either side of the altar were two sixteen-foot fountains. Arrangements of white and yellow summer flowers were flanked by seven-foot branched candlelabras filled with woodwardin fern and pillar candles. The bride's aisle was draped with white satin roping from which hung cascade bouquets matching the fountain arrangement.

The parents of the bride hosted a reception at their home following the ceremony. Mrs. Donna Holt, Cousin of the bride, and Mrs. Lee Roy Spires presided at the bride's table. The table was covered with an underskirt of tropicana satin and an overskirt of antique lace. The centerpiece was a silver epergne with an arrangement of mixed summer flowers in the bride's chosen colors.

Members of the houseparty were Misses Connie Cogdell, Floydada, Susan Spires, Cindy Spires, Gingy Dulaney, Denise Perry and Deanna Boles.

Mrs. West attended Southwestern University and Howard Payne College and will be a student at Western Texas College this fall. West attended Texas Tech University.

Following a wedding trip through the northwestern states, the couple will be at home in Borden County where the groom is engaged in ranching.

A rehearsal dinner was hosted by the groom's mother, Mrs. Max West, at the Country Club.

Drug Tested To Fight TB

HOUSTON (AP) — A professor at the University of Houston has invented and patented a chemical compound that is being tested for possible benefit against tuberculosis.

Dr. Lindley A. Cates, professor of pharmacy, is the discoverer and he said several pharmaceutical firms either have or are planning to examine the drug.

Cates said a patent was necessary in order to license other laboratories to experiment with it.

Cates said the drug is far from the stage of being tried in humans. In fact, he said, no animal studies have yet been conducted.

He described the new drug as a derivative of isoniazid, a popular antitubercular drug. In a test tube, the new compound appeared to perform slightly better against a sample of tuberculosis germs than the isoniazid, he said.

Cates said the live germs for the test tube experiments were obtained from a city-county hospital.

The new drug "is only at the early stages of screening," he said. "Quite often compounds that are active in glass are not active in the body."

The scientist said he doesn't have a name for the new compound except its proper, complex, chemical name. The new drug actually was one of several compounds he synthesized more than two years ago under the general name of "phosphorothioamides."

Cates said he synthesized the group in searching for anticancer drugs and just happened to test them for antitubercular effectiveness.

Cates said tuberculosis "still is a big problem although it doesn't get the publicity now that it used to get."

Fingerprint Find

HARWELL, England (AP) — Atomic scientists at a Berkshire research station may have made a breakthrough in the fight against crime. They have found radioactive material which shows up fingerprints on clothing.

After the substance is applied to an article of clothing, it is X-rayed and the photographic print outlines the fingerprint clearly. A spokesman for Scotland Yard's Forensic Branch says the new process "would be extremely valuable to the police, especially where cases of sexual or other assaults are involved."

Instant cocoa mix is sweetened and dissolves easily in milk or water. Unsweetened cocoa powder does not dissolve in this way.

Miss Morton, Johnson Say Double Wedding Vows

The Southwest Church of Christ of Amarillo was the scene of the wedding of Penny Marie Morton to Bobby Harlen Johnson. Dr. Fay Shackelford, a member of the church, officiated at the double-ring ceremony which was at 3 p.m. Aug. 26.

The bride is the daughter of Mr. and Mrs. Newt T. Mortion of Amarillo. She is the granddaughter of Mrs. George F. Morton of Snyder. Johnson is the son of Mr. and Mrs. Rod R. Johnson of Clovis, N.M., and the grandson of Mrs. Faye Morrow of Snyder.

Decorations in the church included an archway covered with jade foliage, and yellow flowers, centered by spiraling candelabras. Aisle candles with garlands of greenery and blue streamers completed the decorations.

Given in marriage by her father, the bride wore a formal gown nof silk organza over bridal taffeta designed with a fitted empire bodice, shallow neckline and Juliet sleeves. Her princess-line skirt swept to back fullness cascading into a full chapel train. Re-embroidered Alencon lace in a traced on pattern was over the gown and was accented in seed pearls. She wore a matching lace coif accented in seed pearls and an elbow-length veil of silk illusion. Her bouquet was of gardenias, roses, and stephanotis blossoms with streamers of greenery and white rosebuds caught on ribbon.

Mrs. Paul A. Hendricks of Keller, sister of the bride, served as matron of honor and bridesmatron was Mrs. Ray L. Switzer of Amarillo, sister of the bride. Bridesmaids were Debby Smiley of Lubbock and Zenda Ball of Fluvanna.

The attendants wore soft blue floor-length gowns featuring princess waistline and puff sleeves. They carried nosegay bouquets of yellow roses and carnations.

Serving as best man was Ronnie Johnson of Portales, N.M. brother of the groom. Groomsmen were Kenny Johnson of Abilene, brother of the groom, Ron Baker of Hobbs and Gary Johnson of Clovis, N.M., brother of the groom.

The musical program was directed by Harry Winslow of Amarillo.

A reception followed in the fellowship hall of the church. The table was decorated with candelabras, greenery and

MRS. BOBBY HARLEN JOHNSON

flowers and the four-tiered wedding cake, on pedestals featuring lattice work, was topped with fresh yellow flowers. Mrs. Ronnie Johnson and Mrs. Kenny Johnson presided at the table.

Mrs. Johnson is a 1971 graduate of Tascosa High School in Amarillo. She attended Lubbock Christian College and was a member of Kappa Phi Kappa. Johnson is a 1971 graduate of Clovis High School.

The couple will make their home at 311 W. 13th Street, Clovis, N.M., where the groom is employed by McDaniel Furniture.

Author Describes Work Of Writer

THE WRITER ON HIS OWN. By David Greenhood. University of New Mexico Press, Albuquerque. $7 cloth, $3.95 paperback.

David Greenhood has two novels and a book of poetry to his credit and has taught for several years.

The first half of this book largely is inspirational with considerable discussion of the philosophy of writing. The author does not ignore the work and loneliness that are a part of writing.

Somewhere about the second half of the book, Greenhood becomes more specific about approaches and techniques of creative writing.

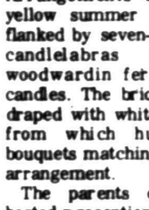

Even here, he is forced to speak in several generalities simply because of the nature of creative writing. Anyone who has tried it knows that there is no step-by-step formula.

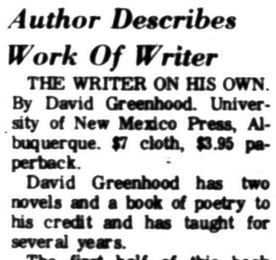

The author now resides in Santa Fe, N.M.—The AP (REF).

Young Idle In Quebec

QUEBEC (AP) — The Quebec statistics bureau says 46 per cent of all Quebec unemployed in 1970 were under 25 years old. The bureau also notes that the labor force has increased faster than the number of working men.

Book Depicts Early London

LONDON IN THE AGE OF CHAUCER. By A.R. Myers. University of Oklahoma Press, Normer. $3.50.

It is difficult to realize, sometimes, that London was hardly more than a small town in the age of Chaucer, who lived from about 1340 to 1400.

This new book by a professor at the University of Liverpool is one of the centers of civilization series of the University of Oklahoma Press.

As such, it has little about Chaucer but tremendous detail about the city which eventually was to have such a profound influence on U.S. customs, laws, tradition and society.

Although London was small, it was well organized by the 14th Century—perhaps too organized.

It was dominated by the wealthy, the guilds and the clergy to an extent difficult to understand today. The laws and regulations were as complex and as stringent as they are in present-day America.

And those who believe that lack of size in a community can solve everything will find that the small town of London of that age had all our current problems.

Pollution was a major issue, as were racial troubles and poverty deeper than any known now.

Yet despite the rigid organization, there were already steps taken toward justice and a social conscience.—The AP (REF).

Shadow Insulted

ISTANBUL (AP) — The moral of this story is to be careful where you walk in Turkey.

An 18-year-old boy in Izmit, western Turkey, took offense when two friends trod on his shadow, considered insulting by Turkish villagers.

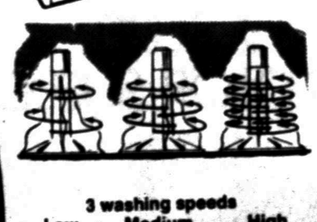

Rahmi Sarpay pulled out a pistol and shot one of them four times and the other five. Both are in a serious condition in an Izmit hospital.

Foundlings Arrive In Mining Towns

By ROBERT E. FORD
Associated Press Writer

FOUNDLINGS ON THE FRONTIER. By A. Blake Brophy. University of Arizona Press, Tucson, $3.95, paperback.

One of the strangest incidents of the West occurred in 1904 when 40 foundlings from 2 to 5 years old arrived at the twin mining towns of Clifton-Morenci in Aizona.

An average of 150 infants a month were abandoned on New York streets. In 1892, city or private institutions were caring for 25,000 foundlings.

The Sisters of Charity operated the massive New York Foundling Hospital, and, as do all such institutions now, sought proper homes for the children anywhere in the United States.

The priest at Clifton-Morenci arranged for 40 children to be sent to the towns.

He was young, inexperienced, a substitute. And he had no concept of what he was doing. The Anglo children were parceled out to Mexican-Americans who generally lived in extreme poverty. Some apparently were prostitutes.

The Anglos in the towns took matters into their own hands and by virtual mob action removed the children from the Mexican-American homes.

In several days and nights, of turmoil, Anglo families simply took 19 children and refused to surrender them. The nuns returned East with the remaining 21.

In the aftermath, the sisters said they understood the children were to be placed with "Castiliams" who could write, read and speak English. The priest admitted he made a very serious error but blamed the resulting dispute, which flared into a national issue, really on racism and anti-Catholic sentiment among the Anglos.

The case went to court and the Anglo families were allowed to retain the youngsters and presumably all the children were adopted although some records are missing. The priest in various assignments became a beloved religious figure. The children grew up just like they never had been the center of the struggle.-The AP (REF)

Hearings Set On Vegetable Marketing

AUSTIN, Tex. (AP) Two public hearings on vegetable marketing will be held the next week in Edinburg and Uvalde, said Rep. John Poerner, Hondo, chairman of the Interim Committee on Vegetable Marketing.

Poerner said State Agriculture commissioner John White will be among the speakers at the hearing for the Edinburg-Harlingen area on Wednesday morning, Aug. 30.

At the Uvalde hearing, Friday, Sept. 1, John E. Hutchison, director of Texas Agricultural Extension Service at Texas A&M University will be a speaker.

Sprinkle canned peach halves with maraschino cherry juice and dot with butter; bake in a hot oven until heated throughout. Serve with poultry or pork.

Topless Trend 'In' Thing In Denmark

By GEORGE BOULTWOOD
Associated Press Writer

COPENHAGEN, Denmark (AP) — A veritable Nordic goddess stood at the prow of the yacht making its way into the small Danish harbor of Hornbaek.

Long blonde hair cascaded over sun-bronzed shoulders. Her tan was total. She wore a wisp of cloth around her hips, the bottom of her bikini—and no top.

She was an eye-catching sample of the droves of girls going topless this summer on public beaches in Europe.

The unabashed topless beauties seem most numerous in Denmark but there have never been so many in St. Tropez, the French resort where Brigitte Bardot started the whole thing.

Even on German beaches, where they prefer things to be tidily organized, an overspill of bare bathers from the reserved nudist beaches is being tolerated.

The topless fashion is sternly prohibited in the Latin countries of Italy, Spain and Portugal. In Britain, too, it is frowned on and can bring the cops into action.

Nor is it on show in Belgium and the Netherlands. Girls are decorous in the Alpine summer resorts of Switzerland and Austria.

But in Denmark you don't have to go very far—or be a Peeping Tom—to see scores of topless girls.

The trend began hesitantly in Denmark last summer and is now the "in" thing among the young.

They are not naturists, models or exhibitionists. They are the girl next door, the girl who sells you a cigar, those typists from the office across the corridor, young teachers and their pupils, or mothers at the beach with their children.

Some beaches have been reserved for nude bathing a long time. But this year it's happening on public beaches.

Cecilia Frank, 18, and Swedish, told a reporter that there was something wrong if the nude look still angered people. "A bikini is distinctly more sexy than the naked body," she said.

Yvonne Christensen, 22, of Copenhagen, looked on the practical side: "It's nice to avoid those white strips made by a bra, so you look good in a light summer dress. Also it's very pleasant to lie in the sun almost nude."

A guess is that about one in seven young Danish women go topless now. There have been few protests, but there are dissidents.

Trine, a shapely Norwegian in her late 30s, does in Denmark what she doesn't dare back home. Looking around a crowded beach she blithely commented: "Breasts are like noses. All different."

The Copenhagen daily Aktuelt printed a picture of a model wearing nothing but cotton briefs. The fashion editor recommended this as cheap beach wear—only 9.98 kroner or less than $1.50.

On France's Mediterranean beaches, where the bikini was born, the postcard shops in St. Tropez are infuriated. They can't display their cards with bare-busted bathing livelies, under an order issued July 14.

They can keep them in a drawer and pull them out when a prospective customer asks—but no more window or rack displays. The order was aimed at guarding against indecencies on the public streets, authorities say.

Meanwhile the real thing is more and more visible in that area. Never before were there so many braless girls on the Pampelonne beach. In Nice or Cannes, the girls don't wear bras under their blouses, but they keep covered up, at least to bikini level, on the beaches.

In Italy, bikinis have become more popular. Sometimes they are so loose or of such thin material they are virtually see-through. Police there no longer comb the beaches to order girls to cover up daring bikinis, but you won't see any topless girls on public beaches. A young Roman commented: "We Italian men like some mystery about women."

The Spanish authorities now do more than tolerate bikinis for tourists—their own women wear them on public beaches. They seem to get smaller every year, but are still modest by most European standards.

"We are fairly tolerant," a tourist official in Westerland, Sylt, said.

Museum Guides Plan Workshop

A workshop has been scheduled for docents or guides for the Museum Room at WTC's Learning Resource Center.

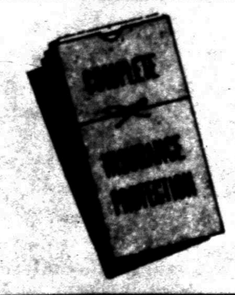

The first training session will be at 10 a.m. Tuesday, Aug. 29, and the second session will be at 7:30 p.m. Thursday, Sept. 1. Meetings will be held in the Museum Room.

Instructors for the course will be Mrs. Wayne Boren, Mrs. Jess Everett, Mrs. G.A. Parks Jr., Mrs. T.D. Cramer, Mrs. Pat Bills, G.A. Parks Jr., and R. J. (Red) Walker.

These instructors will give detailed background and history of each display in the Museum.

In order to have sufficient material for all, it would be helpful to pre-register with Mrs. R.H. Stewart, 573-6898, or Mrs. Don George, 573-3697. When you call to register, Mrs. Stewart or Mrs. George will be glad to answer questions.

ON THE HOUSE

By ANDY LANG

Q. - I have a number of wood projects coming up which will require strong joints. I'm simply no good at making such joints as half laps, middle laps, rabbets, miters and dadoes, even if I had the proper tools to make them. Since this will be rough work, I am thinking of using metal fasteners. Can you tell me something about them?

A.—Metal fasteners are ideal for insuring rigid, strong joints. While most of them necessarily must be visible, some can be hidden or at least made inconspicuous by careful placement. Corner braces are those placed on the inside edges of the wood to be held together. Flat corner fasteners are screwed into place on the faces of the piece to be joined. When one piece of wood is to be joined to another in a T fashion, use what is called a flat tee fastener. A simple mending plate is called for when the two ends of wood are to be held together. Corrugated or skotch(cq) fasteners are for the faces of corners. They go in the same places as the flat corner fasteners previously mentioned but are not as strong. In all cases, the joints can be made even stronger by the use of adhesive, but presumably that is something you also wish to avoid.

Q.—We have had our house 20 years. We paint it every three or four years. Each time we have the same problem. The previous coat of paint begins to blister and peel after two or three years and we have to go through the very tough job of scraping off all the loose paint before putting on a new coat. What causes this and is there a way to stop it?

A.—Peeling paint can be caused by a number of things. It simply may be there are too many coats of paint on the house and that the weight of it is causing the top coat to peel. Poor adhesion of the original coat is another cause, as is the use of inferior paint at any time during the series of paintings. But the most common cause of peeling paint on the outside of a house is moisture which is trapped below the paint. Such moisture can result from water which is getting behind the walls through gaps on the outside, in which cause an extensive caulking job is needed. Or it can come from too much moisture inside the house which, having insufficient openings through which to escape, penetrates the inside walls and settles behind the outer walls. Condensation is formed when this warm, moist air hits the cooler parts of the outer walls and gradually forces its ways under the paint.

To prevent this inside moisture from attacking the outside walls, it must be given a way to escape or it must be trapped. The latter calls for the use of a dehumidifier. The former requires the use of exhaust fans, especially in such places as kitchens and bathrooms; small vents or louvers in the outside walls; and such simple things as opening the windows when excessive moisture is building up.

(For either of Andy Lang's helpful booklets, "Paint Your House Inside and Out," or "Wood Finishing in the Home," send 30 cents and a long, stamped, self-addressed envelope to Know-How, P.O. Box 477, Huntington, N.Y. 11743. Be sure to specify which booklet you want.)

DECISIONS, DECISIONS!

Parties' Platforms Differ On Oil Imports

By Max B. Skelton
AP Oil Writer

HOUSTON (AP) — The new Democratic and Republican platforms differ sharply on the matter of oil imports.

The Democrats, in effect, would abolish oil import controls.

The Republicans recommend caution, saying the nation must not become overly dependent on foreign sources of energy.

Four years ago, the two platforms were in essential agreement, calling for freer trade but opposing unfair competition from imports.

The Democratic platform adopted last month disposed of oil imports briefly and bluntly, saying "Abolish the oil import quota that raises prices for consumers."

The new Republican document is more philosophical.

"National security and the importance of a favorable balance of trade and balance of payments dictate that we must not permit our nation to become overly dependent on foreign energy," the document reads.

"Since more than half our nation's domestic fossil resources now lie under federal lands, high priority must be given to the governmental steps necessary to the development of these resources by private industry."

The Republican position, basically, is in agreement with testimony by numerous oilmen appearing in recent months before congressional committees.

The oilmen have said current trends indicate oil imports will approach 15 million barrels a day by 1985. They have added, however, that such a flood of foreign oil would aggravate the balance of payments problem seriously. Part of the answer, the industry spokesmen have contended, is a national energy program that would provide incentives needed for sharply increased domestic explorations and for maximizing the development of unconventional energy sources.

In May, President Nixon increased oil import quotas for areas east of the Rocky Mountains by 230,000 barrels a day for the full 1972 calendar year, the equivalent of 400,000 barrels a day for June-December period.

George A. Lincoln, chairman of the President's Oil Policy Committee, said the increase was necessary in that domestic demand for petroleum the balance of the year could not be met without additional imports.

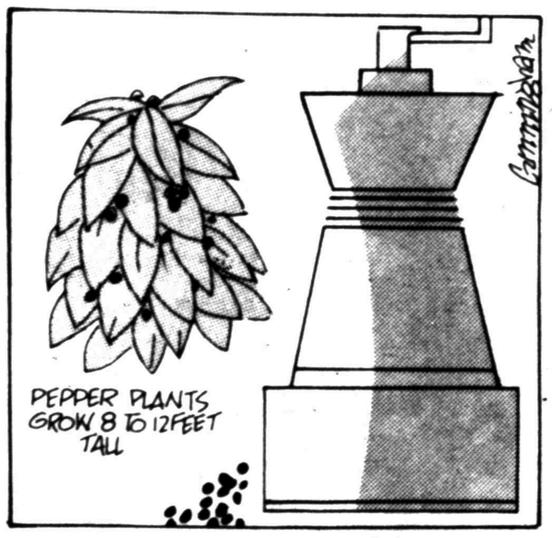

The Republican platform, in effect, called for a national energy program when it said "We need a Department of Natural Resources to continue to develop a national, integrated energy policy..."

Nixon's energy message to Congress last year called for establishment of such a department. Oil spokesmen for the most part have not taken positions on the proposal. During their arguments in behalf of a national energy policy, however, the industry spokesmen have said the current situation is aggravated by the fact that more than 60 federal departments, agencies or offices are involved to some degree in energy matters.

In further agreement with Nixon's energy message, the Republican platform says a liquid metal fast breeder reactor demonstration plant will be built. It also calls for accelerated research on harnessing thermo-nuclear energy and for continued leadership in the production of energy from the sun and the geothermal stream.

The moon revolves about the earth once every 28 days.

Junior Editors' Quiz on PEPPER CORNS

QUESTION: *Where do pepper corns come from?*

* * *

ANSWER: Pepper corns are the fruit of the pepper vine, known botanically as Piper Nigrum. This vine originally grew wild in India and on some of the islands in the East Indies. In its wild state, the vine reached a height of 20 feet, supporting itself on tree trunks. Under cultivation, the vine is kept to a height of 12 feet and is supported on posts. The pepper corns or fruit of the vine grow in long clusters. They are small berries, about the size of a pea. They are first green, then red and finally yellow. The pepper corns are picked just before they turn red. The entire spike is plucked from the vine and dried in the sun or near a low fire. After the pepper corns are dried, they become black in color and very hard. Many persons prefer the whole pepper corns rather than the commercially ground pepper and grind them in a small hand mill to produce an extra flavor for food.

The quest for the pepper corn resulted in many European wars. Taxes, tributes, doweries and rents often included levies of pepper. It was literally worth its weight in gold because of its use in preserving food.

8-26

(Laura Douglas of Danvers, Mass., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Rains Slow Harvest Activities

COLLEGE STATION, Tex. (AP) — Harvest activities once again were slowed by rain triggered by two weather fronts which moved across Texas early last week. Some violent weather also erupted in a few locations.

Showers in Northeast Texas brought a little relief to dry conditions, but moisture is still short in much of that area and in North Central counties, said Dr. John E. Hutchinson, director of the Texas Agriculture Extension Service.

More cotton fields took on a white cast as bolls popped open from the hot summer weather. The cotton harvest continued to move northward—as far as Asa in McLennan County.

More than 200,000 bales of cotton have been harvested in the Rio Grande Valley, but showers delayed harvest in coastal counties.

Harvesting of grain sorghum has started in a few Rolling Plains counties, noted Hutchinson. Yields have been generally good, and crop prospects are good throughout the Plains.

The state's first rice crop is almost in with yields generally good. Soybeans are progressing well in the Plains and in eastern and coastal counties.

According to Hutchinson, the vegetable harvest continued active on the High Plains while fall plantings were active in East Texas, the San Antonio-Winter Garden area and the Rio Grande Valley. Rains have caused some delay and some replanting has been necessary.

Recent rains have boosted range conditions in some areas, but many North Central and Northeast counties have poor grazing conditions due to lack of moisture. Stock water is also short in both areas.

Screwworm cases continued heavy during the week, and no letup is expected until cooler weather arrives.

Wildlife Policies

AUSTIN, Tex. (AP) — The Texas Parks and Wildlife Commission has adopted several new policies intended to protect wildlife threatened by water development projects.

The commission voted to oppose channelization and wetland drainage projects and to seek legislative changes which would make considerations of wildlife resources a part of decisions whether to construct reservoirs.

Noting that the best sites for reservoirs have already been used and that future reservoirs will have to be on much larger land areas to attain the desired water storage, the commission urged that additional land be purchased now to provide for wildlife needs.

"That promise to love her in sickness and in health, for richer or poorer, for better or for worse — is it multiple choice or must I answer YES to all of them?"

AT CONFERENCE—Shown at the leaders conference of American National Insurance Co. are, from left, J.C. Bullion, director of Southwestern division; R.E. Johnson, Snyder agent; Glendon Johnson, president of the company; and Joe McMahon, staff manager of the Sweetwater district.

AT COMPANY SESSION—Shown at the American Insurance Co. leaders Conference are C.L. Williams, district manager, Snyder Agent Bill Neeley, and wife, Syleta.

Local Agents Honored By American National

Local American National Insurance Agents, R.E. (Bob) Johnson and B.W. (Bill) Neeley, returned recently from the National Leaders Conference in Houston and Galveston.

Johnson was awarded membership in the company's "President's Club," and Neeley was awarded membership in the "Centurion Club." These are two of the highest honor clubs in the company. They also were recognized at the company awards banquet held in the grand ballroom of the Astroworld Hotel in Houston for some 2,000 home office personnel and other qualified delegates and wives as charter members of the company's "Executive Eagle Club." This is a district organization and is one of the highest honor clubs in the insurance industry.

Johnson and Neeley, along with their wives, toured American National's new 20-story, $15-million home office building which is one of the most modern of its kind in existence. They were guests at the barbecue and baseball game in the Astrodome hosted by the company executives and heard outstanding speakers, highlighted by Joe Gandolfo, a company consultant who produced over $135 million of insurance in 1971 covering over 500 individuals.

The largest life insurance company west of the Mississippi River, American National Insurance Co. now ranks among the top 20 in size with over $11 billion of life insurance in force. The home office is in Galveston where the company was started in 1906. It is the largest home based company in Texas.

Two Charged With Drug Possession

DEL RIO, Tex. (AP) — Two Chicago area residents have been arrested here and charged with possession of more than 193 pounds of marijuana estimated to be worth $200,000.

The couple was identified as William Hug Schneider, 23, of Highland Park, Ill. and Mrs. Gail Lee Reed, 20, of Fox River Grove, Ill.

The two were arraigned before U.S. magistrate W. P. Wallace on charges of illegal possession of marijuana. Individual bond was set at $25,000.

Officers said the two were stopped Friday on U.S. 90 eight miles east of Del Rio during a routine early morning check for illegal immigrants.

Border patrolmen smelled marijuana in the car and called in U.S. Customs agents. The marijuana was allegedly found wrapped in burlap sacks in the trunk of the car.

It was the second big marijuana arrest here in a week. On Tuesday five men and a woman from North Carolina and Maryland were arrested for the alleged possession of 120 pounds of marijuana.

Al Thompson, 25-year old first baseman-outfielder for Pittsfield, Mass., of the Eastern League leads all Ranger players in home runs with 25.

Delegates Named By Heart Assn.

Joe Sentell, President of the American Heart Association Scurry County Division, has announced that Mrs. Sylvia Voekel,and Bob Manuel will represent the Scurry Division at the 37th Annual Assembly of the American Heart Association, Texas Affiliate, Inc. The 1972 meeting will take place Sept. 22-23-24 at the Astroworld Hotel in Houston. Sentell said the delegates will carry a major responsibility to elect statewide officers for the coming year as well as members of the affiliate board of directors. He said that in addition to electing officers, delegates this year would be asked to act upon proposed amendments to the bylaws of the affiliate.

As always the annual assembly dinner promises to be a highlight of the meeting with the outstanding Houston speaker, Rev. W.P. Deatheridge of the Second Christian Church. Another special and spectacular feature of the evening is to be the "Heartbeats," a band of renown composed of Houston Heart Surgeons, Cardiologists, their families and friends. The band, directed by Dr. Grady Hallman, makes nationwide appearances.

On Saturday, the delegates will participate in workshops designed to strengthen community programs for all divisions in the state. The annual awards luncheon will be conducted on Saturday with awards given to pace-setting counties for programs on public education, professional education and community service. In addition, the affiliate's highest Awards, the Dwight D. Eisenhower Award, given to the lay volunteer most exemplifying the true Eisenhower spirit of volunteerism, and the Paul Ledbetter Award given in recognition of the outstanding professional volunteer, will be presented.

The assembly meeting is preceded by the Heart Association's Annual Scientific Sessions and Nurses Institute. This year's Scientific Session has for its theme "Myocardial Infarction - An Overview of Coronary Heart Disease, 1972" and "The Re-Appraisal of Recent Therapeutic Advances in Cardiology" and will be held in cooperation with the Baylor College of Medicine. Physicians from throughout the State are expected to hear such nationally known physicians as Albert N. Brest, M.D. from Jefferson Medical College and Hospital, Philadelphia, Pa.; Charles W. Frank, M.D., Albert Einstein College of Medicine, The Bronx, New York; Richard Gorlin, M.D., Peter Bent Brigham Hospital, Boston, Mass., who will also present the Alfred W. Harris Memorial Lecture at noon on Friday; Clark H. Millikan, M.D., Mayo Clinic, Rochester, Minn., and Paul Yu, President-Elect of AHA from University of Rochester School of Medicine, Rochester, New York.

Basic Training Is Completed

Army Private Harvey L. Pinkerton, 20, son of Mr. and Mrs. Loyd W. Pinkerton, Route 2, Snyder, recently completed eight weeks of basic training at the U.S. Army Training Center, Infantry, at Fort Polk, La.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid and Army history and traditions. Pvt. Pinkerton is a 1971 graduate of Snyder High School.

Rains Increase Area's Fishing

It seems the recent rains and resulting increases in both Lake E.V. Spence and Lake J.B. Thomas have inspired the fishermen of this area to "head for the 'ole fishing hole."

The only striped bass reported caught last week was by Gloria Presley of Dallas, and weighed in at 6¼ lbs. Paul Graham and his party of Midland caught 28 white bass and 2 black cats averaging 2 lbs. each. Gill Broxson, Midland reported two channel cat at 2 lbs. each. Ten white bass weighing 2 lbs. each were landed by C.W. Coffen of Odessa. J.E. Hollis, Robert Lee, caught three channel cat and six black bass weighing up to 4lbs. Speck Roe of Robert Lee reported catching 5 black bass, up to 2 lbs. J.C. Wallace, also of Robert Lee took home 6 black bass up to 3 lbs.

Joe F. Randolph and his party from Big Lake caught 4 black bass and 2 channel cat, up to 3 lbs. Ten channel cat and 5 black bass weighing up to 4½ lbs, were caught by Stu Racknael of Midland. Another Midland man, Larry Haney, caught 10 channel cat, up to 2½ lbs. Four black bass weighing up to 3 lbs were landed by A.L. Braswell of Odessa. Crane was well represented by Mr. L.D. Herriage with a catch of 9 black bass and 1 channel cat weighing up to 3 lbs. A San Angelo fisherman, Charley Norris, took home six black bass weighing up to 6 lbs.

N.Y. Signs Stars

NEW YORK (AP) — Left wing Craig Reichmuth and defenseman Hal Willis signed today to play with the New York Raiders of the World Hockey Association.

Reichmuth, a Canadian from Russell, Man., played last season with Tidewater in the American Hockey League and Fort Worth in the Central Hockey League. Willis, another Canadian from Edmonton, Alta. played last season with Seattle and Denver in the Western Hockey League.

McClellan Named

KANSAS CITY (AP) — Former Drake University head basketball coach and athletic director Jack McClellan will assume duties of Big Eight Conference assistant commissioner on Sept. 18.

The 52-year-old McClellan, from Indianapolis, Ind., was named to the post Friday. He is to work with conference Commissioner Charles M. Neinas and will supervise the league championship events.

OLYMPIC FLAME IN MUNICH — A Munich athlete lights the Olympic flame on a stand in front of the Propylain at Munich's Konigsplatz, Friday, during a welcoming ceremony as the flame enters the Olympic city. (AP Wirephoto via cable from Munich)

POLO CHAMPS — The Snyder Polo Club captured second in the world championships of Cowboy Polo and here display the trophies that they won. Joe Stanley, left, holds his Most Valuable Player award while coach Rudy Minor, center, and Dwain Davis hold the team trophy.

Olympians Parade Into Stadium, Games Begin

MUNICH (AP) — The finest athletes of 122 nations paraded into Olympic Stadium today to take over the 20th summer games from the rich old men who had spent weeks bickering over power, politics and prestige.

The teams marched in under bright skies that opened up in a sunny greeting for the first time in more than a week of gloom and chill that accompanied the wrangling of the International Olympic Committee.

One of the first official sounds of the games was the mellow baritone mooing of eight Alpine horns, the signal to start the parade. This was followed later by the rattle of old blunderbusses instead of the customary military cannon salute.

A German runner carried in the Olympic torch accompanied by Olympic runners of four other world areas.

The games opened before a crowd of 80,000 crammed into the stadium and uncounted thousands packed on surrounding hills that were built of rubble from World War II.

Absent from the parade were the 43 athletes of white-dominated Rhodesia, voted out of the games when the IOC yielded to the clamor of black African nations to reverse an agreement made a year earlier.

Some of the Rhodesians were watching wistfully among the crowd. They had moved out of Olympic Village to a barracks as guests of a German army battalion, saying they were more comfortable there than in a place where they could no longer mingle on equal terms.

Avery Brundage, retiring this year as president of the IOC, called the eviction of the Rhodesians from competition power politics that did violence to Olympic ideals.

He had sadly noted that it was the first time a vote had gone against him in 20 years as IOC president.

But the parade of athletes, nation by nation, in uniforms of red, blue, gold, orange, every imaginable color, all of them swinging by the reviewing officials with proud steps, turned the games again to what they are supposed to be — man-to-man, woman-to-woman competition for medals.

For 16 days they will run, jump and swim—and do scores of other strong, swift and agile things—in pursuit of 195 gold medals, the highest number ever to be awarded in Olympic competition.

In all, there will be 1,109 gold, bronze and silver medals.

The opening ceremony was a mixture of military precision, dedication to ideals and gestures of friendship carried out within sight of a war memorial of hills or rubble.

West German President Gustav Heinemann, official sponsor of the games, strode slowly, surrounded by other officials, to the dignitaries section.

A military band played the German national anthem as the crowd rose. Then came the signal from the Alpine horns—curved wooden instruments about 20 feet long used for calling from peak to valley to peak in the Alps, which rise within sight of Munich on a clear day. And this was such a day.

Walker Is Fired As Astro Head

HOUSTON (AP) —Houston Astro General Manager Spec Richardson announced today that Manager Harry Walker had been fired and Leo Durocher, former manager of the Chicago Cubs, had been retained to manage the Astros.

Richardson said one of the current Astro coaches will be named to direct the club tonight against the Montreal Expos and that Durocher will be in Houston Sunday to assume control of the team.

The general manager said Walker will be given a chance to remain with the organization.

"I told him to go home and think about it and if he wanted to stay with the club, I would have a place for him," Richardson said.

Richardson said the decision was reached late Friday night following Houston's 4-3 loss to the Expos.

Longhorns Picked To Finish Fourth

By DENNED H. FREEMAN
Associated Press Sports Writer

DALLAS (AP) — Every year the theory in Southwest Conference football camps is that the law of averages will catch Texas.

For four years, the Longhorns have out-butted the L of A.

Arkansas, in particular, put a large lump on the Longhorns last year only to lapse into comatose against Texas A&M and Rice while Texas eased into the cotton patch on New Year's Day.

The football smarts say Texas is headed for the cliff for sure this year. Razorback quarterback Joe Ferguson will see to it, they say, taking a reading on the stars and studying the L of A charts to the Cotton Bowl.

But a senior safety turned quarterback at Texas, Alan Lowry, could put the experts up a tree if he can operate the Longhorn Wishbone—T with the magic of former masters James Street and Eddie Phillips.

That's a large IF indeed.

Arkansas has much more than just Ferguson. It has the runners in Jon Richardson and Dickey Motton. It has the climax receiver in Mike Reppond. It has salty defenders in linebackers Danny Rhodes and Scott Binion. It has offensive blocking in guard Tom Mabry.

Everywhere you look on the Ozark campus there's talent and confidence.

Luck is the imponderable and every champion will admit you have to have a few bounces of the ball your way. For example, if Ferguson is injured, well.....

Texas has quality but so many players were injured in the spring that Coach Darrell Royal is going to have to put across some kind of a crash program in the fall.

The Texas Aggies, Southern Methodist, Texas Christian and Texas Tech can't be counted out of the title picture.

The Aggies are playing under Coach Emory Bellard, the guy who made the Wishbone—T go at Texas and have talented running backs and a solid defense. Again, uncertain quarterbacking clouds up the picture.

Southern Methodist has scatbacks galore, a salty defense and guess what? An unsettled quarterbacking problem.

Same song for the Texas Christian and the Texas Techs.

Rice has an experienced quarterback in Bruce Gadd but not the muscle backup the above mentioned clubs enjoy. Baylor will be troublesome.

There's an air of uncertainty in the conference once you get past Arkansas and Texas.

Will the new coaches—Bellard at A&M, Grant Teaff at Baylor, Al Conover at Rice, and Billy Tonhill at TCU—inject enough enthusiasm into their squads for a title?

Will SMU explode going back to its pro-style attack?

The view from this perch is Arkansas doesn't have any question marks. The picks (Unguaranteed):

1, Arkansas
2, Texas A&M
3, SMU
4, Texas
5, TCU
6, Texas Tech
7, Rice
8, Baylor

Tigers Spirited During First Contact

IT AIN'T LOVE — The embraces of these Snyder Tigers were accompanied by hard knocks as they went through the first day of contact Friday. The hitting was tough and the spirits were high in preparation for the upcoming season.

Attitude And Progress Good

Attitude plays an extremely important role in athletics and if the present attitude and spirit of the Snyder Tigers can be maintained District 4-AAAA may feel some vibrations when its newest member hits the scene.

After a full week of conditioning drills and the first days on contact work head coach Mo Hodges expressed satisfaction with the Tigers' attitude and progress. "Our boys have a great attitude," said Hodges, "and this is what will win for us." Hodges stated that the team was right on schedule with the progression chart. "The fact that we are on schedule is a credit to the kids," he stated. They kept themselves in fair shape during the summer and seemed to retain a good bit from the late spring training that we has. We hope to even get ahead of schedule in conditioning and execution."

Despite a morning drizzle that put a damper on the Friday morning workout, the Tigers were filled with fire for the long evening session. The leather kept popping for over two hours.

"We got quite a bit accomplished in the evening practice," stated Hodges, "the kids hit hard and seemed to be strong the entire two hour workout. I was pleased with what we got done."

After only the first workout, the strengths and weaknesses of the team could be seen. The weaknesses are certainly not in the areas of strength, size, or speed. Strength and size can be found in the interior with the "heavies" such as Mickey Gonzales (248') and Grant Knipe (222').

The backfield could be compared to the Dallas Cowboys; the depth in running backs is extremely good. Jimmy Don Dyess, a 1971 Honorable Mention All-District veteran, will be returning at halfback and will find company in fullback prospects Paul Norred and Tommy Welsh, and the tailback slot will also have speed and size. Hubert Crayton covers the 100 yards of the field in 10.1 while sophomore Welton Cobb moves his 195 lb. frame at 9.7-V.T. Roberson was a stand-out back last year as a sophomore. Tim Holder, a defensive Honorable Mention last year for the Tigers, and Tim Jones are carrying on a battle for the quarterback spot.

Depth is the overall bright spot for the Tigers this year. Last year there were seven players who went both ways, and the added depth this year is expected to pay off in the crucial fourth quarter. A two-platoon system is anticipated to be used this season. Because of this depth, there are several positions that are up in the air, and strong battles are being waged for the starting role. The backfield, defensive secondary, and offensive end positions could develop into real contests before the season arrives.

Hodges was also glad that the Tigers have not been stricken with injuries, although a streak of virus has kept two players out of the last workouts, and weakened some of the others.

The week of contact will be climaxed with a scrimmage against Midland High School in Midland Friday, Sept. 1. All three squads will participate with the sophomores beginning at 5:30 p.m., followed by the junior varsity, and then the varsity about 8:00 p.m.

Buck Returns!

Buck Sitton, the regular sports writer for the paper will return to his position Monday after a layoff resulting from his injury at the July Scurry County Rodeo.

Buck sustained neck and back injuries that kept him out of the scene for a good deal of the summer.

HODGES DIRECTS —Mo Hodges, head football coach directs the action in the Tigers' drills this week. Hodges expressed pleasure with the first contact drills and hopes to continue the progress that has been made.

Florida Wants Olympic Games

MUNICH (AP) — Central Florida has expressed an interest in hosting the Olympic Games in 1980 or 1984.

Will Geiger, chairman of the sports committee of the Orlando area Chamber of Commerce wrote to outgoing International Olympic Committee President Avery Brundage saying: "We would like to advise that sports enthusiasts in our area believe central Florida would be an ideal location for the Olympic Games in 1980 or 1984."

Geiger said he felt central Florida should be considered because of its "developing recreational and entertainment complex."

Carolina Cage Star Leaves The School

CHAPEL HILL, N.C. (AP) — North Carolina basketball coach Dean Smith says Craig Swanson of Merrick, N.Y., has left school and will enroll at C. W. Post College, Greenvale, N.Y., in the fall.

Student Conduct Rules On Buses Are Announced

Reminders of student conduct on buses will be distributed early next week to parents of bus students and to the students who ride school buses of the Snyder schools.

According to school officials, safety of school bus passengers is the most important part of school bus operation and the efficient and effective use of the buses is the most important factor in achieving that purpose.

To provide safety and to make effective use of the buses, certain rules must be followed to regulate the conduct of bus passengers.

1. The bus driver is in full charge of bus and pupils.

2. Pupils waiting for the bus shall wait a sufficient distance from the road to allow room for the bus to pull off the pavement or out of line of the traffic for loading passengers. Passengers should stand back in an orderly line at pickup points until the bus comes to a complete halt.

3. Enter the bus in an orderly fashion, take the first empty seat, and remain seated until leaving the bus.

4. Pupils must keep all of their person inside the bus. Hands or heads protruding from the windows can be torn off by passing vehicles.

5. Loud talking, scuffling, using obscene or profane language, throwing things, using tobacco or alcohol, changing seats, refusing to follow instructions of the driver, threatening physical violence or using physical violence aginst the driver or passengers by passengers or their parents are examples of activities that draw attention of the bus driver from his main task of safe operation of the bus. Such actions or any other action by a rider that creates a safety hazard by demanding unnecessary attention of the driver is called misconduct by a bus rider.

6. When a rider is guilty of misconduct, he will reported to the principal of his school and...

a. The rider and his parent or guardian will be given notice and warning.

b. Upon a second offense of misconduct, the rider may be denied transportation services for a period of time.

c. Upon a third offense of misconduct, the rider may be denied transportation services for the remainder of the school year.

7. Repair of all damage to the bus, wilful or accidental, is to be paid for by the passenger causing the damage.

8. Pupils will not be removed from the bus until they are at home or at school; however, the driver may return the student to the school for a consultation of the student, principal, and parents if an infraction of the rules occurs.

Bus routes on Monday will be approximately the same as those at the end of school last year.

WTC To Expand Its Admissions Services

Snyder High School seniors planning to attend WTC during 1973-74 will have the opportunity to participate in the early admissions program at Western Texas College this fall, according to an announcement by Dr. Duane Hood, Director of Student Services. The experimental program was begun at WTC last fall on a limited basis, with students enrolling primarily in physical education and reading classes. The program will be expanded this fall, with students being allowed to take beginning courses in English, History, Mathematics and Science. These courses are taken for college credit, but the students are admitted conditionally and no credits are awarded until after high school graduation.

According to Dr. Hood, the program of early admissions can be combined with the CLEP program and summer school attendance to help the outstanding student attain college sophomore status by the fall following his graduation from high school. The CLEP program (College Level Examination Program) allows the outstanding student to gain college credits by showing previously acquired competencies on standardized examinations. A number of entering freshmen gained college credits at WTC through CLEP examinations this fall.

Both the counselors at Snyder High School and at WTC work with the students who are concurrently enrolled at WTC and the high school. Students are carefully screened before admission, and approval of the high school principal is required before a high school senior will be considered. Other restrictions placed on the students are:

(1) The student must need be within four credits of high school graduation, and must currently be enrolled for four credits at Snyder High School.

(2) The student will be limited to one academic course at WTC unless specific permission is given by the high school principal allowing the student to take another course. In no case may the student take more than two academic courses per semester.

(3) Upon acceptance by the Director of Student Service-Registrar, the student will be admitted conditionally.

(4) Permission of parents must be secured.

(5) The student must adhere to all college policies.

In order to apply for admission to the program, the following procedure is necessary.

(1) Secure a petition for admission from the principal's office at Snyder High School.

(2) Obtain the required signatures on the petition.

(3) Confer with the high school counselor's concerning the desirability of your entry into the program. They will help you arrange your high school schedule as well as selection of a college course.

(4) Bring the signed petition, a completed application for admission to WTC, and a transcript showing your high school grades through the end of the junior year to the registrar's office at WTC.

Dr. Hood added "The cost for one course would be $29 (plus any lab fees). Registration at WTC will be held on Monday evening, August 28, for these students. Reception of these credits to date by other colleges has been excellent, and no transfer problems are anticipated it the students continues through to the A.A. degree at WTC. However, students should not sacrifice high school activities or required credits to take these course as this is an important time in the facets of their lives aside from the meaningfulness that the last year of high school has for any student. On the contrary, we believe that this program will assist the student in bridging the gap from the high school to college."

How To Handle Job Interview

Career Corner

by Joyce Lain Kennedy

A major reason many people fail to get the jobs they want is because they are unperceptive and unpersuasive in difficult job interview situations. To illustrate, here are two interview hot spots with responses designed to save the day.

THE PAUSE THAT DEPRESSES In this nerve-ending, the interviewer clams up. Silence hangs like black crepe between his questions and your answer. Since you know it's standard to let the interviewer take the lead, you wait. Through an eternity of dead air you wait, desperately hoping the pacing will pick up. When it doesn't, you leave feeling ineffective and insecure. Something just hasn't clicked between the two of you.

WHAT YOU CAN DO Help the silent one out of his shell. You talk. As soon as you realize the interview is dragging, liven it up by saying something like this: "May I take several minutes to tell you a few specifics of my background that I think you'll agree make me a strong candidate for helping to solve the problems your company faces?" Then give effective, specific examples of your accomplishments. Stay away from boastful generalities. (Before the interview, you have made a mental fix on achievements in your current job, past jobs, and if pertinent, your educational background. These achievements, of course, should be related to the prospective job you seek.) Your task is to keep the conversation rolling, keep making points which enhance your candidacy, keep selling.

The interviewer, particularly if he is not a personnel specialist but the man (or woman) you may work for, may be shy, inexperienced in interviewing, or just not much of a talker. For any of these reasons, chances are he'll be relieved to have you step in and fill the conversational void. If you are able to establish friendlier and more relaxed relations, he'll remember that favorably as well as your sales points.

GETTING A WORD IN The interviewer in this opposite situation treats you to a monologue. He talks about the company, its problems past and future. He may veer off into anecdotes about company personnel, or even his family and hobbies. He never shuts up, you never get a chance to sell yourself.

WHAT YOU CAN DO Somehow you have to capture his attention. The first thing you must do is listen attentively, making mental note of several key company problems you feel you can discuss from the strength of your experience and knowledge. The timing's important – you must not seem to interrupt. When you think the interviewer has wound down and appears to be finished talking, then – with as much tact as you can muster – ask if you may review specific achievements in your background which relate to key company problems the interviewer mentioned.

You might approach it along these lines. "The problems and needs you've outlined certainly present an interesting challenge. If I may, I'd like to take a few minutes to discuss several of these problems which directly relate to my experience, and which may help you better evaluate the contributions I might make toward solving those problems." If the interviewer says he's sorry, but he's run out of time, ask for another appointment.

OVERALL SELLING PHILOSOPHY. It's the strategy of handling interview hot spots that will spell the difference in hiring action. Don't try to memorize the phrasing above, but realize that if you fail to present your case strongly, your chances of being singled out from other candidates are slim. You must make a personal sale. It's as simple as that.

Beyond anticipating questions and tough interview situations, it is your attitude that will help you correctly read the situation and make that sale. Psych yourself up before you walk in a prospective boss's door by remembering: "I am selling. He is buying. And, by George, he IS going to buy."

TWENTY-FIFTH STREET BRIDGE AFTER FLOOD OF '39—This is the Twenty-fifth Street bridge across Deep Creek as it looked after floodwaters of 1939 subsided. Note the heavy debris that accumulated along the steel supports of the wood-floored bridge. This picture came from the file of Bushy Hedges, who had a service station on the bank of Deep Creek.

TWENTY-SEVENTH STREET BRIDGE—The flood of 1939 left the Twenty-seventh Street bridge across Deep Creek looking like this.

COUNTY JAIL FLOODED—The Scurry County Jail was damaged on the Deep Creek side by the flood of 1939. This is another picture provided by Bushy Hedges.

Flood Of 1939 Is Recalled As Worst

Things were bad enough on Aug. 13, 1972, but the clouds were not as stormy, the water was not as high and the damage was not as great as in the flood of 1939.

That is the observation of Bushy Hedges, 2601 Westridge, who was operating a service station on the banks of Deep Creek in 1939.

"We didn't have as many tanks, or as many terraces to hold the water," Hedges recalls. "Also, mesquite plowing was not being done then. So we had more runoff then than now.

"And another factor that kept it from being as bad this time — I had to go to A.C. Alexander and borrow money to start all over again after the '39 flood. This time, I went down and made a deposit. I will admit it was not a very large deposit, but a lot better than borrowing," said Hedges, who now operates a station at 700 Twenty-fifth, about a dozen blocks east of Deep Creek.

Hedges said all of the bridges in Snyder were destroyed, or made impassible, by the flood of 1939, except the one called "the Yoder bridge and the low water crossing by the county jail.

The latter was on what was then known as the Round Top road and there was not a real bridge across Deep Creek there. Today, it is College Avenue and its bridge is one of the busiest in town.

Hedges said that water was 52 inches deep in 1939 on Twenty-fifth Street where Snyder Janitorial Supply is now located.

"It was deep enough to float a horse all along there," he declared.

HEDGES STATION IN '39—This is Bushy Hedges' service station in 1939. It was located on the bank of Deep Creek just off the east end of the Twenty-fifth Street Bridge. Hedges said he had to borrow money at the bank and start all over again after the flood of 1939.

Court House Is Being Renovated

HALIFAX (AP) — The century-old Court House is being renovated for use by the Nova Scotia government's libraries and audio-visual services. Built in 1892, the court house was replaced recently by a modern structure on the harbor front. About $100,000 will be spent on repairs and alterations to the old stone building, which is valued in part for its architectural features.

Don't Mix

SEATTLE (AP) — Experts at the University of Washington say crude oil being spilled from a tanker destroys herring larvae, cuts back the size of those that survive and is bad for those who like "kippers" or "bismarcks" for breakfast. The findings came from a study after a recent spill at Cherry Point, Wash., where the larvae, floating passively near the surface, were submerged in oil.
