THE JUNCTION EAGLE

Volume 46 Junction, Kimble County, Texas, Thursday, August 29, 1929 Number 20

KIMBLE CO. C. OF C. OFFERS PRIZES VALUED AT \$225.00

Beginning September 11 the Kimble County Chamber of Commerce will launch a membership campaign which will continue until November 11. To stimulate interest in the campaign and to aid the 4H club boys and girls in Kimble County, \$225 worth of prizes will be offered as follows:

1. A fine Jersey heifer, valued at \$75, will be given to the boy or girl in Kimble County securing the largest number of paid memberships.
2. A Hereford calf, valued at \$50, to be entered in the baby beef club. The county agent will assist in selecting both the Jersey calf and the Hereford baby beef.
3. A pair of registered lambs, valued at \$40, bred and raised by F. H. Russell of Wakeman, Ohio.
4. A big boned Poland China pig, valued at \$20.
5. A pen of certified KI-WI chickens consisting of four hens and one cockerel, valued at \$15. These chickens are peculiar in that they have no wings and will stay seemingly docile and contented anywhere.
6. A pen of certified Brahma chickens, valued at \$10.
7. A big breeder lamb, valued at \$8.
8. \$5.00 in gold.

Any boy or girl between the ages of 10 and 18 years, living in Kimble County is eligible to enter this contest. The memberships are \$6 and any person is eligible to membership in the Kimble County Chamber of Commerce. The payment of \$6 entitles anyone to a full year's membership with all the privileges of the organization. Any person can buy as many memberships as he or she desires.

In launching this campaign the Kimble County Chamber of Commerce hopes to be of service to the boys and girls of the county by distributing among them some fine livestock and poultry. While the boys and girls are contesting for these valuable prizes they will be rendering material assistance to the chamber of commerce. This organization realizes that the future of the country is in the hands of the boys and girls of today and that they should be encouraged to own the best livestock and poultry. Since the coming of the county agent interest in extension work has increased and the chamber of commerce is co-operating to the fullest extent with Mr. Homann in his work. He will organize clubs in as many communities as his time will permit.

Secretary E. V. Stewart will distribute membership cards, and any boy or girl interested may see either Mr. Stewart or Mr. Homann who can give full particulars of the movement. Information will be given in the Junction Eagle from week to week. The prizes will be on exhibition on some downtown street each Saturday so that the contestants may be able to see the quality of prizes offered. The contest will close on November 11 with a big day at Junction. Many forms of entertainment will be staged on that day including a foot ball game if it can be arranged. Watch for further information from week to week about the big day November 11, but let the boys and girls get busy today securing memberships to the Kimble County Chamber of Commerce and win one of the valuable prizes listed above. The workers are winners.

CORRECTION

On page five is a notice that Dr. Fred R. Baker of San Angelo will be at the Fritz Hotel Friday, August 30 to serve those needing the services of an eye specialist. Dr. Baker will be at the hotel on Saturday, August 31, instead of Friday, August 30.

SCHOOLS OPEN ON MONDAY SEPT. 2nd

Superintendent Guy E. Moses announces that the Junction Schools will open at nine o'clock Monday morning, September 2. A brief program will be rendered and after the enrollment of the pupils they will be dismissed for the day. Mr. Moses will hold conferences with the teachers during the remainder of the day on the plans for the year's work.

There will be some minor changes made in the organization of the work, one of which will be the placing of the intermediate work on the departmental plan as is done in most schools. The general plan of the work as pursued in the past will be followed. As many unders as can be accommodated will be accepted this year so that the congestion in the first grade will be lessened next year when the scholastic age will be lowered to six years instead of seven as at the present time. A tuition charge of \$3.00 will be made for children under age. In accepting unders those nearest seven will be given preference. The school officials and teachers ask the co-operation of all friends of the school in making this the best session in the history of the school.

The following compose the literary teachers for the season: Guy C. Moses, Superintendent; Ross Brison, Principal; Earl Bowers, Coach; Miss Nellie Bennett; Mrs. Effie Roy Felps; Mrs. Margaret Dutton; Mrs. Grady Kendrick; Mrs. Mary Ellis Blackburn; Mrs. Earl Bowers; Miss Mary Willis; Miss Natalie Lawry; Miss Ruby Newman; Miss Austin Durst; Mrs. Conde Hardeman has announced classes in the Speech Arts and Mrs. Guy E. Wynne and Mrs. Irene Brown have announced classes in piano. These special teachers will be present at the opening of school Monday to confer with their pupils.

Oil Companies Buy Leases in Kimble

Interest in the oil situation in this county is still making itself felt in various parts of the county. There has been some drilling with gas and oil showings in the London community. We understand that arrangements have been made to deepen the Cannon well in the London territory.

J. D. Collett of Fort Worth is planning to put down a test near the Lambert No. 1 which will soon be completed. The Sun Oil Company will drill in the northwest part of the county near the Farmer and Murr Ranches.

The Empire Company, The Tidal Oil Company, and the Black Arrow Company have acquired leases in the Southwest part of the county. Ridenhower Brothers have leased their ranch to the Continental Oil Company. Ricker and Dodson have secured a ten year lease on the Dunbar Ranch. Large oil companies are buying leases in all parts of the county which makes this territory look good. Good showings of oil and gas have been found in this and adjoining counties and some of these times a good pool will be uncovered.

The Ed Fleming Ranch near Telegraph has been sold to J. M. Livingston who is moving his stock on same. Chester Stapp bought the Livingston ranch south of Junction some time ago.

World Tour of the Graf Zeppelin

This map graphically illustrates the route of the Graf Zeppelin in its tour around the world completed today.

GRAF ZEPPELIN COMPLETES FIRST TRIP AROUND WORLD

With the landing of the Graf Zeppelin in Lakehurst, New Jersey, Thursday morning, the greatest achievement in air navigation has been completed. This monster dirigible, 771 feet long, with fifty-two people aboard left Lakehurst, New Jersey, on August 8 with Dr. Hugo Eckener in charge. The first lap of the around the world flight was from Lakehurst to Friedrichshafen, Germany, where after a brief stop the big air ship started on the second lap across the unknown lands of Siberia to Tokyo, Japan. Minor repairs and bad winds caused a brief delay at Japan. With these completed the big air machine started its non-stop flight across the Pacific, landing at Los Angeles Monday morning after a trip of less than seventy-five hours. The last lap from Los Angeles to Lakehurst was completed Thursday morning, thus finishing the trip around the

world in a giant dirigible. Just as Magellan circumnavigated the globe for the first time in a sailing vessel, Dr. Hugo Eckener has made the first trip around the globe in an airship. He is another maker of history.

When the Graf left Germany to come to the United States to make the around the world flight there was some difficulty in getting the desired number to make the trip, but by the time the ship had returned to Germany, Dr. Hugo Eckener had to refuse literally hundreds who wished to join the passenger list for the remainder of the trip. The return to Germany had so conclusively proved the comfort and safety of this mode of travel that persons hesitant before had lost all their fears.

A cartoon in this issue of the paper shows that airships have made the world really a small planet. The last fifty years has seen many advances in travel on sea, land and in the air.

Awbrey-Bell Drug Co. Is Staging Big Sale

Mr. G. T. Van Ripper of San Antonio, merchandising consultant of the San Antonio Drug Company, was here this week assisting the Awbrey-Bell Drug Company get the Big Diamond Jubilee Sale in order. Mr. M. Awbrey made a trip to San Antonio recently and arranged for this giant merchandising event which opens in Junction today and continues until Saturday night, September 7.

Among the manufacturers of national prominence co-operating with the San Antonio Drug Company, the retail druggists of South and West Texas and the Awbrey-Bell Drug Company, are Coty, manufacturers of perfumes; Amity Leather Products Co.; Dupont Pyralin Co.; Wahl Pen Co.; Miller Rubber Co.; Kalamazoo Stationery Co.; and other manufacturers of nationally advertised lines.

This big Diamond Jubilee Sale which begins at the Awbrey-Bell Drug Company today is made possible by the coordination of activities of the above named manufacturers and the San Antonio Drug Company whereby the Awbrey-Bell Drug Company will give free \$104.50 worth of valuable prizes at the close of this sale. Mr. Awbrey invites the people of Kimble County to come in and inspect his unusually large stock of seasonable merchandise.

Mr. and Mrs. A. N. Wood and son, Tunney, visited Mrs. Wood's parents, Mr. and Mrs. J. P. Riddle, at Big Spring last week. Misses Latha and Minta Riddle accompanied them home for a short visit.

Widows Not 75 Will Receive No Pension

Widows under 75 years old, who are the wives of Confederate soldiers, are receiving letters from the state comptroller that they will not receive a pension at the expiration of the quarter ending August 31.

Veterans placed in the "preferred class" by the 41st Legislature will get \$67 for the quarter instead of \$75, which the new law stipulated they should receive, because there are insufficient funds available under the seven cents constitutional limit levy to go around. State Comptroller S. H. Terrell said.

Widows of veterans who are 75 years of age and over will get the same amount as men in the preferred class, but younger widows will get nothing for the quarter.

The Attorney General had held the available funds must be granted among those on the preferred list, when the balance in the treasury is insufficient to pay the favored ones the full \$25 monthly for the quarter. Those not on the preferred list can participate only when there is money left after the 75 year olds have been paid off.

ROTARY CLUB

The Junction Rotary Club had an interesting meeting today. Rev. John N. McKay, president of the Rotary Club at Bishop was the principal speaker. Superintendent Guy E. Moses, Paul Scholz of San Antonio, and Z. T. McGuire of Port Arthur made interesting talks. Mr. O. W. Cardwell, a local visitor, made a good talk.

REV. JOHN N. MCKAY BRINGS INSPIRING MESSAGES DAILY

FIRST MEETING LOCAL P.-T. A. MONDAY

With forty members present the Junction Parent-Teachers' Association held its first meeting of the new school year in the high school building Monday afternoon at four o'clock. Mrs. S. A. McDonald was in charge of a brief but interesting program consisting of the singing of America, a devotional service by Rev. John N. McKay of Bishop, Texas, who is conducting revival services at the Methodist Church, a reading by Miss Vernele Tinsley and a song by Mrs. Weaver H. Baker.

After the program the meeting was turned over to Mrs. George Pepper, who is president for the year. The minutes of the last meeting in May was read and various committees made reports. The report of the librarian was especially pleasing to the membership. This is the second summer the library has been kept open and the report showed that a large number of books had been read by the children and also the mothers. The P.-T. A. has taken a great interest in the school library and added many volumes during the past school year.

Mrs. Pepper made an interesting talk reviewing the work of the previous year and telling of the plans and purposes of the organization for the coming year. A book will be given the room each meeting that has the greatest number of mothers present. This plan was followed last year and proved satisfactory. A picture will be presented the room having the greatest number of pencils during the year, and Rev. Milton F. Hill, Mrs. Earl Bowers and Mrs. Lester Hodges were appointed as a committee to buy the picture.

Superintendent Guy E. Moses made an interesting talk giving briefly some of the plans for the year and expressed his appreciation of the good work the P.-T. A. is doing for the schools. He stated that an effort would be made to take care of as many unders as possible and that a tuition charge of three dollars a month would be made for unders. Next year the scholastic age will be dropped to six year and by letting as many unders go this year as can be cared for, the congestion in the first grade will not be so great next year.

The president read the names of the following committees: Program—Messdames S. A. McDonald, Walter Tinsley, Lester Hodges and Earl Bowers.

Ways and Means—Messdames C. W. Atechison, Clay Secret, Chris Schraub, Walter Tinsley, Mattie Patterson and Miss Austin Durst.

Mrs. Frank Cowsett, chairman of the membership committee, is out of the city and the names of this committee could not be secured. The membership was pleased with the large attendance on the initial meeting of the year, and after the membership committee makes its drive it is believed the roll will contain more members than on any previous year.

ROOSEVELT SCHOOL.

Miss Ethel Roberts, principal of the Roosevelt School, announces that the Roosevelt school will open Monday, September 2. Miss Alice Roberts will assist her with the school this year. A program will be arranged and the patrons of the school are invited to attend the opening Monday morning.

Mr. and Mrs. E. G. Hill were in from the Divide Wednesday. Mr. Hill reports his section dry, but livestock holding up well.

Interest in the revival services now being held at the Methodist Church has deepened steadily. Large and attentive congregations have gathered at every service, and there is every evidence that the meeting has caught the interest of the entire community. Rev. John N. McKay of Bishop, Texas, has been bringing the messages. His sermons have one quality that is always esteemed—they are short. But each one is full of interest from beginning to end. Wednesday night's subject was "Excuses." Tuesday a special service was held for the auto salesmen and mechanics with appropriate message. The service Thursday night is a "Father and son" service.

The singing under the leadership of Mr. Geo. P. Bledsoe of San Antonio has been of great help in the meeting. The Junior Choir, divided into two groups, has increased in numbers to sixty, and there has been a fine senior choir. The service Sunday night deserves special mention. Every seat was taken and many were unable to enter the building.

Prayer services among the young people have been held each night and prayer groups among the men and women have been formed with a fine interest.

The meeting will continue through Sunday and all are invited to attend. Sincere thanks are tendered the other churches of the community who have called off their services and to all who have helped make the meeting a success. The services will continue through Sunday night and Brother M. F. Hill and the visiting preacher and singer are anxious that every Christian in this community put aside everything that will hinder the meeting these last few days and make it a great time for Christianity in this section.

PREACHERS DAY

Wednesday was preachers' day at the Lion's luncheon. Rev. John N. McKay, who is conducting revival services at the Methodist Church, was the principal speaker. Local pastors, G. W. Crabbs, G. W. Crofoot and Milton F. Hill, were present. A quartet composed of Messrs. Buster, Stevenson, Randolph and Jones, accompanied at the piano by Mrs. M. F. Hill, furnished some excellent music. Mr. T. E. Preston, manager of the local Telephone Company, made a good talk.

Other visitors present were Mr. George Bledsoe, who is leading the singing at the revival, and Mr. Astor Wallace. Mr. M. Awbrey, manager of the Awbrey-Bell Drug Company, was master of ceremonies. Mr. Awbrey is a past master and always delivers the goods when he has the gavel.

The attendance at the Wednesday's luncheon was large. Coach Earl Bowers is getting his football squad in readiness for games this fall. New uniforms have been received and will be assigned to the players with the opening of school. Only light practice is being indulged in this week, but by next week the boys will get into it in earnest. A game will likely be played with Rocksprings on September 20. The first conference game will be with Sonora at Sonora on September 28. Ten of last year's players will be back and several promising new men are on the field.

Mr. T. H. King of Richland Springs was here Sunday to get his children, Verina and Ruth, who have been visiting their grandparents. Mr. and Mrs. J. A. Heyman, their mother, who has been in a Temple Sanitarium, is able to return home.

Junction streets need paving.

AIRWAY MARKING

Only a few years ago a tire company, at its own expense, put markers along the Pacific highway giving travelers at that time the only authentic information as to the distances along the route.

Today, less than 15 years later, the airplane has brought a new method of travel. Few flyers know anything about navigation or the art of following a course without land marks to guide them. As a result airway beacons are essential for safety in flying, particularly at night.

The Richfield Oil Company has adopted a progressive program of building 8,000,000-can-diepower steel tower beacons in conjunction with its modern gas stations, approximately every 50 miles along the Pacific highway from Canada to Mexico. It is said that these beacons are visible in clear weather for 50 miles and the light which illuminates them will penetrate fog and mist for a great distance.

Thus has a private company again stepped into the breach and marked our newest transportation routes, namely, the airways, and made them more safe and practical for amateur flying as well as mail and transport planes.

These beacons would cost local communities thousands of dollars which could never be raised for a uniform system through several states. Erected as they are they illustrate the duty which private industry feels it owes as a public service in conjunction with the operation of its business which is of such a widespread public character.

CHURCH OF CHRIST

Services in the court house as usual Sunday, September 1. Sunday school at ten o'clock and preaching at 11. There will be no services at night. The pastor will preach at Teacup at 3 p. m., and at London at 8 p. m. The people of the Teacup and London communities are urged to pass the word around about the services in those communities.

PRESBYTERIAN CHURCH

(G. W. CROFOOT, Minister) OUR INVITATION—To you who would worship God, our Father; to you who would serve mankind, our brothers; to you who yearn for greater strength; to you who seek a broader vision; to you who desire forgiveness from sin, comfort in sorrow, victory over failure, and joy in living, in the name of Jesus Christ our Saviour and Friend, we extend our cordial INVITATION. There will be morning worship in the Texan Theater next Sunday at eleven o'clock.

THREE GRASS FIRES DESTROY 13,000 ACRES

Three grass fires during the past week having destroyed approximately 12,000 acres of grass pasture, with the burning Saturday of about 10,000 acres belonging to Johnnie White, and John and Edd Gibbons, located between Rochelle and Richland Springs, and the burning of about 1,000 acres Sunday afternoon on the Ford Ranch, owned by G. R. White, and which is located about 15 miles southwest of Brady.

The first grass fire last week occurred Tuesday afternoon when about 1200 acres burned on the H. H. Sessions and Lewis Brook pastures. In all three cases the chemical truck of the Brady Volunteer Fire Department has made hurried runs to the scenes, and has assisted in extinguishing the fires. Origin of the fires have been undetermined, although it is expected that passersby have dropped lighted cigarettes and which ignited the dry, dead grass.—Brady Standard.

OUTDOOR ETHICS CODE

A condensed code of outdoor ethics issued by the Izaak Walton League of America is as follows:

1. Your outdoor manners tell the world what you are when at home.
2. Do not be a road hog; use only half of the highway.
3. Respect the property of rural residents. Ask before using it.
4. Save fences, close gates and bars, go around planted fields.
5. People, livestock, trees and birds never were meant to be target practice backstops.
6. Respect the law. Catch enough legal fish to eat, then quit.
7. Protect public health. Keep springs and streams clean.
8. Clean your camp and don't litter the highways with trash.
9. Finish what you start. Carelessness with fires is cussedness.
10. Leave flowers and shrubs for others to enjoy. Do your share to keep outdoor America beautiful.

THE METHODIST CHURCH

The Revival will continue through Sunday. Sunday School and the Epworth League will meet at the regular time.

All are cordially invited to attend all the services of the church.

CARD OF THANKS

In the sad hours through which we have just passed we were made to feel more forcibly than ever before the tender sympathy and love of our neighbors and friends who were so faithful and true during the long illness and death of our loved one. He lingered several weeks but our neighbors were ever mindful of us. The many kind deeds, the words of sympathy and beautiful flowers will ever be remembered by us. May God's richest blessings abide upon every one who remembered us in any way.

Round Trip Bus Rates Reduced

10 per cent

In line with the policy of the Kerrville Bus Lines to give only the best in service to the traveling public, the company has secured the permission of the Texas Railroad Commission to offer a 10% reduction on all round trip tickets purchased for a trip to and from any point between Junction and San Antonio.

A little over a year ago, the whole bus schedule was revamped and it is now satisfactory to the community.

The next achievement was the placing in service of the latest sedan type bus which afforded the maximum in comfort and traveling convenience.

Then the Kerrville Bus Lines joined other companies in making the Union Bus Terminal at San Antonio its terminal in that city.

Now comes this latest evidence of service—a reduction in round trip fares between points on the Kerrville Bus Lines.

LONDON LOCALS

Our gin put out its first bale of cotton August 21. Mr. Pauly Herbst was successful in reaching the gin first. We understand Mr. Herbst sold this first bale to T. H. Walton for 18c per pound, and that he received quite a premium from our business men in money and merchandise. Our fine cotton crop is damaged at least 50% by dry weather, boll weevils, worms and other pests. This should teach us to mix cotton, corn and cattle, sheep, sorghum and sudan.

What I am trying to say is diversify by raising some cotton for ready money (as it only requires 14 months to realize on cotton) plenty of corn, maize and other feed crops, cattle, sheep and goats. In speaking of goats, they are like a soulless corporation (and many individuals), they will steal everything in sight then deliver you a nice profitable fleece to cover up their crimes. The corporation delivers their fleece to public institutions to cover their sins and we call them great. Well, the goat has a like trait and he should be called great, too. The old hen is not to be left off the list. If fed properly she produces plenty of noise and nourishment.

Mr. Homann and the Presbyterian pastor were down from Junction Saturday. Mr. Homann informed us that he would soon begin organizing the girls and boys of the county into clubs for work along various lines.

We believe it would be fine to organize the men of the county into a livestock and agricultural club and have regular meetings and discuss the best methods for the development of the natural resources of our county.

The Rev. Mr. Todd of Brownwood conducted the services at the Baptist Church Sunday at 11 and at night. He proved to be an interesting exponent of the Bible truths.

W. L. Kothmann received returns on his recent shipment of fat sheep and was well pleased with the weight of the animals and the price received.

D. G. Adams of Johnson City was a pleasant visitor last week. Dave says Johnson City is all right, but— There is another verse.

M. M. Nelson was in town last week looking fine. We are glad to see him much improved.

Miss Melba Walton has returned from a visit to Roosevelt where she has been spending a few days with her last years school mates.

Mrs. Grace DeSpain is spending her vacation with her mother. Mrs. D. C. Andrews, of Long Mountain. She spent a few days in London last week meeting her many friends here.

Mr. John Henry Weaver of Comanche County called on the writer Tuesday. Mr. Weaver is on a vacation and will spend the time on North Llano and

at Junction with relatives. I believe Mr. Weaver would be easily persuaded to settle in this county and he is the kind and character of men we need.

Mr. J. C. Beckham has returned from his vacation and reports a good time. His mail line No. 50431 from Junction to Mason has been run very satisfactorily by his son, Mr. Bill Beckham, during his absence.

Mrs. Ellis Brown entertained some 8 or 10 young girls at her home last week. They established a camp on the creek and enjoyed camp life for a few days. Her guests were some of Junction and some of London. All declare they had a good time.

The oil interest is about as follows: The Lindsey Bros. well is unchanged. The Carl Bryant well No. 1 has had a fishing job and breakdown, but are about ready to begin drilling at something over 700 feet. The McLean well has reached the contract depth and arrangements are being made to drill it on to a deeper test. If all who are expecting to profit by oil if we reach it will come in and do their part it will not be hard on anyone. The man who holds assignments and the owner of the land is about equally interested or should be. All the business men have already reaped a harvest from the drilling operations and should be willing to contribute a part of it to a deeper test.

Let's all pull together in this well as in all other things that is of interest to our town and county and the load will not be heavy on any.

We could use a general good rain just now.

ROOSEVELT ROUND-UPS

Mr. and Mrs. August Simon and son, Ollie, took in the Fredericksburg Fair last week.

Mrs. Henry Taylor and daughter, Bettie, of Sonora were visitors here Monday.

Mr. and Mrs. Arch Surber and family are visiting in Galveston. Miss Mary Miles is visiting her parents on her vacation from the Northwest Teachers' College at Canyon City.

The Walker family moved to Mullin Tuesday. We regret to have these good people leave us.

Mr. Bruns of Fredericksburg is visiting his daughter, Mrs. Simon.

Mr. R. E. Homann, county agent, was in Roosevelt Wednesday on business.

Mr. Otto Thiers celebrated his fiftieth birthday Sunday with a large gathering of relatives.

Mrs. Jess Ollie and Mr. and Mrs. Clyde Sloan and baby were visitors to Llano Monday.

We are glad indeed that Junction has a real railroad prospect and only wish it could come on.

That new Ford is a Good car. Low FIRST cost. Low UPKEEP. Low DEPRECIATION. Try one and SAVE THE DIFFERENCE. 20c Loeffler Motor Co. 20c

SAYS SARGON PROVED A TRUE BLESSING TO HER

"Sargon has done more for me in a few weeks than all the other medicines I took put together during the ten years I suffered.

"I had awful attacks of nervous indigestion and my stomach was in such a condition I could not eat a good meal. I couldn't even drink a glass of buttermilk without suffering. In fact, for ten years before I started Sargon I had not swallowed one mouthful of solid food; I had lived on orange juice. I had sharp pains in my stomach and was so weak I had to give up and go to bed. My nerves just went all to pieces and I never got a good night's rest.

"Sargon has surely proved a blessing to me. I can now eat most anything I want without bad after effects. My nerves are normal, I sleep fine and never have to use a laxative any more like I did before I started taking the Sargon Soft Mass Pills.

"This remarkable treatment has given me back my health and I feel like telling everybody about it."—Mrs. Lonie Nelms, 3227 Pine Street, Dallas. J. A. Heyman, agent.

up the river and to Sonora. On Sunday Mr. Simon's house came very near burning. Only one corner and some of the roof burned. For a while it looked as if the men would not get it under control. If the wind had been blowing it would have been impossible to stop it. No rain yet. We came near having rain though Tuesday. It sprinkled.

CARD OF THANKS

The Fidelis Class of the Junction Baptist Church desires to thank Mr. O. W. Cardwell, the polo players and everyone who assisted in the program Tuesday and Wednesday.

\$225 IN PRIZES

In order to stimulate interest in the organization of the 4H Clubs in Kimble County by County Agent R. E. Homann, the chamber of commerce is offering \$225 worth of prizes consisting of a Jersey calf, Hereford calf, registered sheep, feeder lamb, Poland China pig, certified chickens and a \$5 gold piece to the boys and girls of Kimble County who secure the greatest number of paid memberships to the Kimble County Chamber of Commerce.

Mr. Homann will organize as many clubs as his time will permit. The work will begin in Junction next Monday night, September 2, when he hopes to perfect the organization at the high school building. Not only the boys and girls are invited to be present at this organization, but the fathers, mothers and friends are urged to attend all these organization meetings to become better acquainted with what our county agent is doing.

The following is Mr. Homann's organization itinerary:
 Junction, Monday, September 2.
 London, Tuesday, September 3.
 Teacup, Wednesday, September 4.
 Ivy, Thursday, September 5.
 Segovia, Friday, September 6.
 Evergreen, Monday, September 9.
 Roosevelt, Tuesday, September 10.
 Coppoeras, Wednesday, September 11.
 Noxville, Thursday, September 12.

All these meetings will be held in the school buildings at 8:00 p. m. on the dates scheduled above. These are the most important meetings ever scheduled in the county, but the value of these meetings will depend upon the interest taken by the respective communities. Every boy and girl in the communities between the ages of 10 and 18 and every citizen interested in the progress of the community should attend. Mr. Homann will explain the purposes of the clubs and perfect the organization. The prizes offered by the Kimble County Chamber of Commerce will be worth working for. Who would not be glad to own a fine Jersey or Hereford calf, fine sheep, pigs and chickens? To win these prizes the boys and girls secure memberships to the Kimble County Chamber of Commerce. The memberships are \$6 each which pays for a year's membership, and any person can buy as many as he wants. Read the Eagle each week for further information. Be present at the time and place mentioned above and be a charter member of your club. The teachers in the various communities are expected to render valuable assistance in maintaining these clubs.

Playing your first game of golf is equivalent to having your salary garnished for the rest of your life.

Many Appointments For Moody to Make

Austin, Aug. 20.—Appointment this week of several of the dozen or more state officials to fill vacancies effective Sept. 1 or earlier was believed probable Tuesday.

Among the appointments Gov. Dan Moody is to make are six members of the state game commission who will take office Sept. 1, the state auditor, already authorized, three members of the state industrial accident board, one to be effective Sept. 1 and the others earlier if made earlier, and a third member of the new pardon and parole board.

Gov. Moody has the appointment of one additional member of the new nine-member board of education, to fill the place originally tendered Mrs. Minnie Fisher Cunningham and declined by her. He also will appoint after the members are nominated to him by the board of water engineers, directors of the all-Brazos superconstruction district.

Term of Mrs. Espa Stanford as a member of the industrial accident board will expire Sept. 1. J. M. Pittilli, Waco publisher, has remained in office on this board two years as a holdover, pending the appointment of a successor. Chairman James W. Swayne recently died, thus leaving all three places on this board for Gov. Moody to fill.

Stanhope Henry and Judge James H. Hamilton of the pardon board are to hold places on the new pardon and parole board which will succeed it. The third member has not been appointed.

Gov. Moody said he has offered the office of state auditor to several persons but has not yet had it accepted. The appointment likely will be effective Sept. 1, when made, beginning with the state's new fiscal year.

Gov. Moody will have an appointment to make in his own office, in naming a successor to J. D. Hall of Georgetown, who has been selected as budget chief of the board of control, effective Sept. 1.

The new game commission will take over administration of the game department Sept. 1, and Will J. Tucker, present commissioner, will become executive secretary, and former Sen. A. E. Wood of Austin chairman of the commission.

The new state board of education composed of nine persons, will, August 24, replace the old ex-officio board composed of the governor, secretary of state and superintendent of education. This board also will take over functions of the present text book commission. It is authorized to select an advisory text book committee of school people to advise it on the school room requirements for various books.

A child born is said to have a fair chance of living a decade longer than its grandparents, not to mention existence at about a mile a minute faster.—Boston Transcript.

RULES FOR KISSING

Here is a list of rules furnished by a doctor who thinks all kissing is dangerous, but knows that the practice cannot and will not be stopped. His object is to reduce the hazard as much as possible.

1. Don't kiss in crowded places.

2. Don't kiss on trains, at fairs and food shows, in theaters, department stores, chain groceries or elevators.

3. Don't kiss in any poorly ventilated room. There must be fresh air. It is a prime necessity.

4. Never kiss in movies or picture houses.

5. Guard against sudden changes in temperature when kissing. Kissing in a coon-skin coat one minute and in lighter apparel the next is extremely dangerous.

6. Don't kiss any person who has chills or fever.

7. Avoid kissing anyone who has flu or any other contagious or hereditary disease.

8. At a party, where post-office and similar games are played, be sure to gargle frequently.

9. If you feel "all in" after kissing or being kissed, take a hot mustard bath and avoid drafts.

10. Be constantly on guard against contracting or disseminating any ailment or disease of any kind or description.

That new Ford is a Good car. Low FIRST cost, Low UPKEEP. Low DEPRECIATION. Try one and SAVE THE DIFFERENCE. 20c Loeffler Motor Co.

WINTER PASTURES

(By R. E. Brown, County Agent)
If you have livestock and you have as much as one acre tillable land that land should be put into some good winter pasture. Livestock and winter pasture. We realize of course that many of our ranchers do not have any tillable land. In this case you should plan a pasture rotation that will enable you to keep livestock on fresh pastures.

Why plant small grains for winter grazing? We hear every day "my stock don't need any winter pasture. I raised so many lambs last year and sheared so many pounds of wool," but did you have a check on the man that planted a small grain patch and grazed his stock?

Here is the conclusion from men who have done it both ways:

Land laid idle; land washed away, consequently less fertile; weeds took crop next spring; pastures short in spring for winter grass never had a chance; bucks in a weakened condition, also ewes; less lambs dropped; ewes in poor flesh; from 3 to 8 per cent lambs were aborted; ewes gave less milk; lambs received a setback; a varying percent of ewes are lost on the range from severe weather conditions which strike during the winter months; ewes shear lighter and more susceptible to stomach worms and other diseases because of hard winter conditions. What is the difference in dollars and cents between the above and the following:

"I had to cull my ewes each winter starting December 1st and fed till April 1st or a period of four months or 120

days. I averaged a pound every three days which figured on the basis of the feeding period, meant that each ewe consumed 40 pounds of cake. One hundred ewes during this period would consume two tons valued at \$80.00 and no labor and teams figured in. Feeding operations carried on in this manner are costly and mean a high production cost on lambs and wool. Furthermore it was an everyday proposition and there could only be considered a getting-by operation."

Small grain sown in the middle of September can be pastured sooner than December 1st and will carry, if allowed to go slightly longer, 10 head of sheep per acre the entire winter season. Ten acres of small grain to produce to a grazing state with all costs of operation would cost at the maximum only half as much as the other method. Daily labor involved is omitted from feeding operations carried on in grazing. Ewes are stronger, lamb crop is greater, more lambs raised, ewes shear heavier, less trouble from stomach worm, pastures better shape to receive stock in spring and range freer from stomach worm. Incidentally the land that was kept grazed was fertilized by manure deposited, less erosion and leaching away of soil elements and the land was put into a state of preparation that made it more valuable for the crop that was to follow.

If you have land that is available for winter pasturage talk the matter of good seed and winter legume crops over with your county agent, Chamber of Commerce office.

FALL GARDENING

Insect pests are one of the limiting factors in fall gardening. Especially is this true in South Texas. Cabbage worms, plant lice and some insects are prevalent throughout the State. For those biting insects which feed upon the foliage of the plant it will be necessary to dust or spray the plant with poison material. Calcium arsenate or arsenate of lead, when dusting over the surface of the plants, will control the plant eating insects. When mixed with water at the rate of two pounds of calcium arsenate to 15 gallons of water or one pound arsenate of lead to 15 gallons of water, good results will be obtained. Poison applied to vegetables at this rate does not make them unfit for table use.

For lice which suck the juice of fall vegetables, best results are obtained by dusting the plants carefully with 1/4 lb. nicotine sulphate (Black Leaf 40) and 5 lbs. slacked lime. An old ice cream freezer may be employed in thoroughly mixing the lime and nicotine sulphate. Place the lime in the container first and then agitate the mixture until it is thoroughly mixed. This material is best applied with a hand duster. One-fourth pound of arsenate of lead can be added to this mixture, and control both the plant chewing insects and the plant lice, if the plants are being damaged by both types.

For taxation purposes realty and personally are rendered on an average basis of 33 1/3 per cent. The approximately \$4,000,000,000 total represents more than \$12,000,000,000 in actual wealth.

As railroad building bonuses Texas gave 35,000,000 acres of its public domain—roughly the equivalent of 43 counties of the average size of 900 square miles.

Junction streets need paving.

WHEN THE COMPOSITOR LEFT TOWN HURRIEDLY

A compositor was requested to set up slogans in an advertising column with the name of the product immediately following the slogan. He got the slogans correct but he was rather mixed up on the product advertised:

"Eventually, Why Not Now?"—National Funeral Directors' Association.
"Keep That School-girl Complexion"—Gem Razors.
"Good to the Last Drop"—Havaland China.
"Has the Strength of Gibraltar"—Kraft Cheese.
"The Quality is Remembered Long After the Price is Forgotten"—Pluto Water.
"The Flavor Lasts"—Squibb's Tasteless Caster Oil.
"The Hams What Am"—Chicago Civic Opera.
"The Danger Line"—Santa Fe Railroad.

Let's pave Junction streets.

TOM GREEN CO. HORSE WINS JUMPING CONTEST

"Dick Waring," greatest of all present-day jumping horses, bred and raised on the Lipan Springs ranch of Richard "Dick" Waring, near San Angelo, has added to his laurels by winning the international military jumping contest at Dublin, Ireland, receiving \$5,000 and a gold cup.

The Tom Green county-bred horse last won the international jumping contest on Long Island, emerging victor over a number of the outstanding mounts of European stables.

The namesake of the San Angelo ranchman was ridden in the Dublin contests by Major Harry Chamberlin, who got the horse from Mr. Waring, and started its successful training course.

In winning the contest at Dublin, "Dick" Waring succeeded in defeating horses representing the best in the armies of the British empire, France, Belgium, Switzerland and Sweden. First place was won after three jump-offs, considered quite speedy in such a difficult course. There were forty horses in the class. The 45 hurdles, over which the horses were ridden are seven feet in height.

The United States Army was officially represented at the Dublin contest to mark this nation's first entry in the International Jumping contests.

Texas leads all the states in variety of bird life with nearly 600 different species.

MAN LIVES WITH TWO WIVES IN ONE ROOM

New York, Aug. 21.—A Brooklyn grocery clerk was under arrest today after police were informed he married two women and resided with both of them in a one-room apartment.

The clerk, Frank Saal, 29, was arrested on complaint of one of the women. She told police that she was married to Saal in June, 1928, the cere-

mony being witnessed by another woman whom Saal introduced as his sister.

Then, she said, all three set up housekeeping and lived happily until yesterday when the two women quarreled and the supposed sister produced a marriage certificate purported to show she had been married to Saal in 1923.

Saal was charged with bigamy.

DRIVERS OF TRUCKS, AUTOS AND OTHER VEHICLES MUST HAVE PERMIT TO HAUL STOCK

For the benefit of those transporting livestock or poultry the full text of House Bill No. 157 which goes into effect about October 2 is given in full below. Some inspectors passed through this section some days ago and made some arrests, but as the law had not gone into effect the fines imposed were returned. To the layman the law seems vague, but that is one of the reasons why we need lawyers. Stockmen and poultry raisers need a law of this kind to protect them from the depredations of thieves. If there are defects in the law, subsequent legislatures will, no doubt, make the proper amendments.

The text of the law follows:
House Bill No. 157
 An act requiring the drivers of trucks, automobiles and other vehicles to have and exhibit to peace officers upon demand written permit covering movements of livestock and domestic fowls contained therein or to make written statement in the absence of said permit, and providing penalties for failing to exhibit the same or to make said statement or for making false statement or having false or forged permit, and declaring an emergency.

SECTION 1. Any person who is the driver of any truck, automobile or other vehicle containing any livestock or domestic fowl which is upon or being driven upon any land of which said driver is not owner, lessee, renter or tenant, or which is upon or being driven upon any highway, public street or thoroughfare, who fails to have in his possession and exhibit to any person or peace officer upon demand a written permit authorizing said movement, signed by owner or caretaker of said livestock or domestic fowl or from the owner or any person in control of the land from which said driver began said movement shall be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement, unless said driver upon demand of any person or peace officer makes, signs and delivers to said person or peace officer a written statement containing the information herein required to be included in permits. Said driver shall

be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement which is not covered by all the following information. Name of place of origin, including name of ranch or other place, point of destination including name of ranch, market center, packing house or other place, number of livestock or fowls with description thereof, including kind, breed, color and also marks and brands if there would be any. Failure or refusal of such driver to exhibit to a person or peace officer or to make said statement, shall constitute probable cause for and peace officer to search said truck or vehicle to ascertain if it contained any stolen livestock or domestic fowls and to detain said movement a reasonable length of time to ascertain whether any livestock or stolen fowls are contained therein.

Any driver who has in his possession any false or forged permit or who makes false statement shall be fined not less than \$200.00 nor more than \$500.00 or he shall be imprisoned in the county jail not less than sixty (60) days nor more than six (6) months, or he shall be punished by both fine and imprisonment. It is further provided that all provisions of this act shall apply to slaughtered livestock and domestic fowls and butchered portions thereof.

SECTION 2. The fact that there are numerous thefts of livestock and domestic fowls and that the said stolen livestock and fowls are being hauled in trucks, automobiles and other vehicles from ranches, pastures and premises along public roads, thoroughfares and highways and that there is no adequate law regulating movements of livestock by trucks, automobiles and other vehicles whereby such thefts may be prevented and detected creates an emergency, and so imperative public necessity exists that the constitutional rule requiring bill to be read on three several days be suspended, and the same is hereby suspended, and this act shall take effect and be in force as set out in its provisions from and after its passage and it is so enacted.

BUILDING MATERIAL. When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair. 48fc

Texas' population per square mile is 20.6 on the basis of the 1928 estimated total, the lowest of any of the Southern States, and lower than all but twelve of the States of the Union. The highest density is in Rhode Island, with 573.5 to the square mile, and the lowest is in Nevada, with 0.7 persons to each mile of area.

After all, things even up more or less. For every girl that makes a fool out of some man, there is a good woman who makes a man out of some fool.

HILL COUNTRY ITEMS

J. E. Robbins and his group of champion amateur polo players of Camp Wood are planning to go into the polo circuit again and to play in the tourney in San Antonio. The team has no competition within 60 miles, most of their string of 20 fine horses have been sold, but they are assembling others now.

A petition bearing the required number of signatures, was filed with the County Judge J. L. Clark, last week-end saw that an election be ordered to determine if London Common School District shall be made an Independent School District.

As a result of interest that has been stimulated through the efforts of the Menard Lions Club and the personal work of J. L. Clark, last week-end saw much enthusiastic aviation development. Prominent men who are closely allied with the aviation work in San Antonio were guests at a joint luncheon of the Lions Club and the Menard Chamber of Commerce Thursday night.

Cost of the proposed new highway system for Kerr County is estimated at \$1,451,000 in tentative plans submitted to the Kerr County Commissioners' Court by the State Highway Commission. The county's share in the expense of providing the network of paved roads extending in four directions from Kerrville has been set at \$650,000.

Construction of a \$150,000 home for O. R. Seagraves is now under way on the ranch property recently acquired by the Houston capitalist in Western Kerr County. The palatial home, a Spanish type hacienda of native stone, is being built by the Russell Brown Co. of Houston.

The only redeeming trait that cockroaches have, according to entomologists of the U. S. Department of Agriculture, is that they sometimes eat bedbugs, but most people don't want to keep roaches around for this purpose. Fortunately it is easy to kill them, by sprinkling powdered sodium fluoride or sodium fluosilicate wherever they appear.

 WHEN BETTER AUTOMOBILES ARE BUILT -- BUICK WILL BUILD THEM

AMONG OUR SUBSCRIBERS

New subscriptions are being added weekly to our list. About 100 new names have been added to the list during the few months since the present manager bought the plant. We appreciate all our subscribers and instead of condemning them for lending their paper to their neighbors we are glad for them to do so, for it means that we will soon have a new subscriber. We would be glad for every subscriber to let some one else have their paper. We are putting forth efforts to make it a good home paper and our readers tell us that we are succeeding. Please watch your label and renew when the time is up. If there is an error please call our attention as we want to correct errors as promptly as possible. We are human and make errors but are glad to correct them.

The following have paid for the Eagle during the past few days:

H. H. Kothmann, Junction; J. A. Browning, Junction; R. N. Weaver, Roosevelt Route; J. H. Byrdston, Hereford; E. A. McCollum, Hereford; Brown King, San Angelo; Mrs. Pearl Hardin, El Paso; J. C. Graham, Fort McKavett; F. Gardner, Junction; N. F. Holland, Roosevelt; R. E. Homann, Junction; E. L. Thornton, Junction; Liberty Cafe, Junction; L. M. Rathbone, Junction; Walker Bros., Houston; Walter W. Parker, Johnson City; Mrs. S. H. McCaleb, Yates.

Of the seventeen names given above eight are new subscriptions. If you have relatives who formerly lived in Kimble County, you could not send them a more appreciated gift than the Eagle for a year. Help us make the Eagle better by sending in news items.

SOME BOY AT 102

Fairmont, W. Va.—On his 102nd birthday John Skinner walked a mile, danced a lively jig, performed his daily dozen with a 160-pound blacksmith's anvil and did a few chores around the house to work up an appetite for his birthday dinner.

A motor bus recently built has an electric kitchen for use of passengers.

Babe Hits 500th

Babe Ruth carved an important milestone in his career at Cleveland when he hit the 500th homer of his career and his 30th of the season.

FIFTY HORSES SIGNED: MORE TO COME TO FAIR

Jimmy Morton, in charge of the racing program for the Fair, returned last week-end from the San Saba Fair and from Brownwood and other points where he met owners of the fastest race animals in the state and completed arrangements with them to bring their entries here for the Fair. He says there are fifty horses already booked for entry here, among them the winners at the San Saba Fair and others that are known to be the fastest things "on four feet." Mr. Morton offers the further assurance that there will be no faster racing in Texas this year than will be seen here. He backs up this statement with the names of some of the owners and the animals they will bring. As stated a number of times previously, the reason so many good horses are available is due to the close connection of Mr. Morton with the horse raisers all over the state, and to the fact that the mounts will be brought here from the Brownwood races enroute to the San Angelo Fair. With the fifty secured for certain, the number of entries that will drop in between now and Fair time will bring the list well over sixty, the management is sure. Stall space will be arranged for all entries, whether at the Fair or in private barns. —Eden Echo.

HOW WEST TEXAS IS PRODUCING WEALTH

In the first six months of 1929, West Texas produced 102,872,400 barrels of oil with a value of \$133,734,120.00.

Gasoline production totalled 9,696,415 barrels, with an estimated value of \$20,600,477.

Fuel oil produced amounted to 15,861,821 barrels with an estimated value of \$10,585,753.

Forty-one Panhandle counties produced 45,000,000 bushels of wheat with a value of \$45,000,000.

Cattle, calves, hogs and sheep received at Fort Worth stockyards totalled 1,905,482 head with a value of \$27,538,038. (most of this came from West Texas.)

Thus it will be seen in four lines of business, West Texas has contributed for the first six months of 1929, \$209,920,350 wealth to the Lone Star State.

Other spring crops estimated value of several million dollars. —West Texas Today.

JERSEY HEN LAYS EGG WHILE ALOFT IN PLANE

Atlantic City, N. J.—The first chicken to lay an egg in a flying airplane is "Petunia," a local hen. Jack Brogan of Mays Landing is her owner. He took her for a ride in a sightseeing plane and when the trip was over "Petunia" left an egg behind her. Brogan says the hen wanted to show her appreciation to the pilot for his able handling of the plane.

WHAT IS GOOD

What is the real good? I asked in musing mood. Order, said the court; Knowledge, said the school; Truth, said the wise man; Pleasure, said the fool; Love, said the maiden; Beauty, said the page; Freedom, said the dreamer; Home, said the sage; Fame, said the soldier; Equity, said the seer; Spake my heart full sadly The answer is not here. Then within my bosom Softly this I hear, "Each heart holds the secret, KINDNESS is the word." —Selected.

GENDER

A woman on a railroad station platform was watching the device for picking up mail sacks by fast moving trains. "Is she working all right?" asked an official of the clerk. The lady said, "Pardon me, my good man, but why do you call it 'She'?" "Because, madam, it's a mail catcher."

The Wahl Eversharp Pen and Pencil Set. To be given to the School or College Boy.

The Diamond Jubilee Sale is being conducted in Junction by Awbrey-Bell Drug Co.

Junction Trade Notes

(By G. G. Co.)

During the month of July, 1928, automobiles from 36 States of the U. S. travelled the Old Spanish Trail in Texas, according to registrations in San Antonio; and, of course, all tourists do not take the trouble to register. The list of registrations included 6 cars from Mexico, 4 from Canada, 6 from England, 2 from Panama, 1 from Ireland, 2 from France.

While it is generally recognized that green vegetables are needed to develop red blood corpuscles, the experiments of food scientists reporting to the International Physiological Congress may be interesting to vegetarians. The food scientists report that experiments conducted among children is favorable to a meat or protein diet to effect growth. Two series of experiments show that without exception the rate of growth among children receiving the high protein diet was more than double the growth of those receiving the low protein diet.

In stock: Texas grapefruit in tins, ready to serve; boneless pigsteeft, in sanitary jars; cranberry sauce, in tins. Gann Grocery Company. And we still have a few gallons pure country sorghum at 65c.

A K. C. woman, who found her derelict husband in the park with another woman, took him home and shot him in both legs. That ought to keep him around home for awhile.

Something else to worry over: American women in 1928 used 4000 tons face powder, 25,000 tons skin lotion, 6,652 tons bath powder, 2,275 tons rouge, 17,500 tons nourishing cream.

Sam McKnight, a prominent Sutton ranchman, was a visitor to Junction Saturday, en route from Winter Garden district. His business was to buy a ranch near Crystal City, which he did. A. I. Mudge has received notice of the birth of a granddaughter, born to Mr. and Mrs. Jack Moleworth of Sierra Blanca. Judge Marvin Simpson of Fort Worth is arranging plans for construction of a summer home up South Llano River.

A. I. Ehlbrecht of Noxville community marketed milo maize in Junction Saturday through Gann Grocery Company. Mrs. E. V. Stewart of London has joined Mr. Stewart in Junction. They are occupying the Albert Bierschwale residence.

School days are just ahead, when millions of school children will be on their way to the school room, thus creating a new traffic hazard. Prevention of motor accidents involving school children is largely within the province of the motorist, and the exercise of extreme caution will go far in reducing accidents and fatalities.

School supplies in stock next week. Gann Grocery Company.

Low wind currents is causing Divide ranchmen additional work in getting stock water to the surface. Notwithstanding dry weather, sheep and goats are in splendid physical condition and the fall clip of mohair now coming off is said to be a fine sample. Schooled in hard knocks, it takes something more serious than a pumpjack to cause a West Texan much worry.

Gann Grocery Company "Everybody's Store."

RODEO EVENTS ENTERTAIN PEOPLE

Presbyterian and Baptist ladies who sponsored the polo, goat and calf roping and races on Skaggs field Tuesday and Wednesday were well pleased with the results and feel indebted to Mr. O. W. Cardwell and the boys who played polo and helped with the races and roping.

The Edwards Plateau and Noxville polo teams played both days. The first day the Plateau won 4 to 3 and on the second day the score was reported 5 to 1 in favor of the Plateau. On the Plateau team were O. W. Cardwell, Billie Cardwell, Mitchell Cardwell, Slavtor Fleming, Bill Oliver and Jack Richardson, while the Noxville team consisted of Omar Wright, Rudolph Tatum, H. I. Taylor, Stafford Thomas and Aubrey Hill. The boys played good games not to have practiced any since in June.

One feature of the two days entertainment that was pleasing was the large number of Shetland ponies owned by O. W. Cardwell and H. F. Bossman ridden by beautiful little children. These ponies and other horses ridden by women and girls in a parade each day through the business district attracted attention and brought forth much favorable comment. These parades were led by O. W. Cardwell, Mr. Cardwell's two little girls, Mary Virginia and Etnel Ruth, four and six years old, were in all the riding events and did as well as the older riders. There were about fifty horses entered in the various features.

The goat and calf roping and tying furnished much fun and amusement. The goats have been roped on so many occasions that they have learned how to evade the rope and in some instances were hard to catch.

Several races were pulled off, and while no records were made it was interesting to watch such riders as Albert Rieck and Blackstone Smith entertaining the crowd. The pony races by the children were beautiful.

We were unable to secure the names of the women who were on horses, but suffice it to say that their presence on the field added much to the entertainment. The afternoons were enjoyed and the ladies who sponsored the affair thank all who aided in any way.

KNOW TEXAS

Texas products—from farm, ranch, mine and forest—in 1929 are expected to total \$2,000,000,000 with agriculture, on present prospects, counted on to produce half of it.

In the period from 1849 to 1929—79 crop years—Texas has produced 154,255,204 bales of cotton, according to Stuart McGregor, editor of the Dallas News Texas Almanac.

Although its development is comparatively new, Texas is fourth State in the production of gypsum with total sales value of \$3,094,145 last year. New York, Iowa and Michigan led Texas.

Texas' wealth is increasing at the rate of \$1,400,000 a day.

A business man succeeds in proportion to his ability to satisfy the desires of his customers.

Society

BRIDGE PARTY

Mrs. Joe Turner and Mrs. Luther McDonald were joint hostesses Wednesday evening at a bridge party in the Hodges Hotel, complimenting Mrs. Milton Carson of Fort Worth and Mrs. H. C. O'Donnell of Corpus Christi. The large living room was artistically decorated with Japanese lanterns and festoons of regina, corona and ferns, while the color schemes of pink and green were carried out in the refreshments and favors. Mints and punch were served throughout the evening.

The out of town guests were Mrs. Warren, Misses Loleta and Inez Warren of Houston; Mrs. S. L. Overstreet of San Antonio; Mrs. Roy Spiller of Menard; Miss Carmen Lewis of Houston; Mrs. R. C. Smith of San Antonio; Mrs. Milton Carson of Fort Worth and Mrs. H. C. O'Donnell of Corpus Christi.

Sixty guests were served at six o'clock with a plate lunch of chicken salad, stuffed olives, peach jelly salad, potato chips, saltine wafers and orange ice and cake.

Mrs. J. M. Livingston was awarded high score prize, an Italian imported vase.

Loleta Warren high cut prize, an Italian cake plate. The honorees, Mrs. Milton Carson, a Chinese tray, Mrs. H. C. O'Donnell, a Chinese dinner chime, and the booty went to Miss Mary Hubert, a box of linen handkerchiefs.

Home Grown Dinner Served in Kerr Co.

The home demonstration work in Kerr County scored a "home run" recently when the agent with the assistance of her workers served 73 varieties of Kerr County products.

The menu for the home grown dinner included 73 varieties of food products, as follows: Fried chicken, roast mutton, barbecued goat, baked pork, roast beef, sweet milk, butter, buttermilk, cream, cottage cheese, goat milk, eggs, pecans, corn meal, whole wheat, watermelon, cantaloupe, peaches, plums, pears, apples, crabapples, figs, grapes, strawberries, dewberries, water cress, mint, parsley, lemons, oranges, currants, apricots, cucumbers, cabbage, lettuce, chili peppers, sweet peppers, Irish potatoes, cauliflower, beets, carrots, spinach, squash, bush beans, butter beans, vine beans, English peas, black-eyed peas, crowder peas, peanuts, pumpkin, kershaw, Swiss chard, turnips, shallots, onions, garlic, egg plant, molasses, tomatoes, popcorn, sweet corn, okra, mustard, rhubarb, tujube, vinegar, ice, ice cream, honey.

All of the eight home demonstration clubs in the county, located at Center Point, Cypress Creek, Ingram, Hunt, Grape Creek, Mountain Home, Kerrville and White School assisted in the banquet arrangements. Every speaker on the program commended Miss Veta Culppepper, home demonstration agent, and the club members for their splendid work in food preservation and home building.

Miss Veta Culppepper touched briefly on the home demonstration work as organized in Kerr County and said that all of the eight clubs represented in the county council were responsible for the harvest banquet plans. She thanked the business men for their continued interest and assistance in carrying out the club program.

Pleasure butts in even where everything is supposed to be business.

George P. Curtis, a native of Marrietta, Mich., now a resident of Altoona, Pa., recently celebrated his one hundredth birthday. He has been a member of the Masonic Fraternity since 1864 and is one of the oldest Masons in the state.

At a show, concert or lecture, if your chair seems uncomfortable, it's a sign that the entertainment is below standard.

The 1929 commercial tomato crop of Texas brought an estimated return of \$5,500,000, more than twice the value of the 1928 crop.
