Two More Wells Spur Oil Activity In County

Find Oil and Gas In Cutter, Russell Wells

Another oil discovery and a gasser in the Perryton area this week boosted the excitement set off a week ago by the Woodson Oil Co. Perry unit, which came in as a good oil well with lots of gas.

Since then, the Union Oil Co. No. 1 J. Russell, located five miles south of Farnsworth, recovered 101 barrels of 39 gravity oil on a 13-hour test through perforations from 7,954 to 7,962 feet.

Through perforations from 7,888 to 7,902 feet after 500 gallons of acid, it made 10,000 to 50,000 cubic feet of gas per day and swabbed two barrels of 38 gravity oil per hour for 10 hours.

The day after the Woodson well came in, the Texas Co. announced that their No. 1 Cutter-A, located five miles southeast of Perryton, flowed gas at the rate of 4,090,000 cubic feet in a one-hour test from 7,936 to 7,952 feet in Morrow sand. Recovery of 110 feet of gas cut mud and one gallon distillate.

Meanwhile at the Woodson well, located just south of the city limits, testing is continuing on a pay zone just below the one which flowed 56 barrels per hour through a 5-8 inch choke. The oil was 45 gravity and was produced from 7,470 to 7,503 feet. Gas volume was 500,000 cubic feet.

Unofficial reports from the Woodson Company indicate that their next well will be on the 77 acres owned by the City of Perryton. The Woodson-Perry well will be developed as a dual producer and the company plans to drill at least 43 wells in the block of approximately 5,000 acres southeast of Perryton.

Company officials are in Perryton this week and say they plan to move their field headquarters from Breckenridge to Perryton.

Saturday Party

The Veterans of Foreign Wars post and auxiliary unit will hold a party at the Veterans Memorial Building on Saturday night, October 1, for all members and prospective members.

Supper will be served and entertainment provided for the event which begins at 8 p. m.

Rangers Have Open Date This Friday

There will be no football game in Perryton this week end, both the Rangers and the B team having an open date. The Rangers have two victories and a tie on their season record and will meet the Canyon Eagles in Perryton on Oct. 7. The B team will play Borger in Perryton on October 6. Other district games this week, some of which will draw some Ranger fans, will be Tulia at Canyon; Dalhart at Clayton; Olton at Dumas; Portales at Hereford; and Phillips at Slaton.

Wet Weather Slows Play In Golf Tourney

Wet weather disrupted the Perryton Country Club golf tournament this week, as dripping skies prevented the "Sunday golfers" from completing their schedules on Sunday afternoon.

However, one match was played during the week and a new club champion has been named. Frank Ferguson won the championship trophy by defeating O. C. Rogers. Ferguson had eliminated Carroll McClung, defending champion, in the semifinals.

Pairings in the finals of all flights have been made and most championships will be determined this Sunday afternoon.

In the consolation bracket of the championship flight, Dan Farley will meet Charley Pyles.

In a flight, Jake LeMaster meets Porky Holland while Harold Hudson and Dean McCutcheon clash for the consolation title.

Gordon Shackelford and Joe Champion play for the title in B flight, while the consolation title will go to the winner of Ernest Dye, Buster Brown and L. R. Con-

Two Men Go for Induction Oct. 19

Two men will be sent for induction into the armed forces on Oct. 19 from local Selective Service board No. 99, reports Mrs. Norma G. Phelps, clerk of the board. Names of the two men will be announced next week.

There will be a physical examination call for November and the November induction call in Texas will be the largest since January of this year. There will be 1,006 sent from Texas in November compared to 534 in October.

There are 14 registrants on the local board list who have had their physicals and are waiting for induction call. Mrs. Phelps said. The November call will be filled with men 21 years and older wherever possible.

WHAT'S THIS GADGET?—G. K. Rupprecht, one of the visitors at the showing of the 1956 Ford, inspects this safety belt, one of the new safety devices on the new automobile. Showing Rupprecht how to fasten the belt is Joe Schollenbarger, left, of the A & B Motor Co.

One Building Permit Issued

The only building permit registered in September was a residential permit issued to Dr. Roy Sanford in the amount of \$25,000. The new home is being built at 1501 S. Fordham.

Total building permits in August were \$34,700, with three residences and one business building planned.

Bonita Dunnihoo Places Second In District Contest

Ochiltree county's 4-H Baking Queen, Bonita Dunnihoo of Waka, placed second in the district Baking Queen contest held at the Tri-State Fair in Amarillo last week.

She was awarded an electric mixer at the Rural Youth Day program Saturday morning.

Entries in the contest were winners of county 4-H baking contests from 20 Panhandle counties. Each girl entered a Swedish Tea Ring, a plate of Brownies, and her 4-H record. Bonita was one point below the winner with a score of 198 out of a possible 200.

Last week Bonita also took the greatest number of honors for young homemakers in the Junior Culinary Division of the Tri-State Fair.

No Loans Made On Milo Crop

No grain sorghum storage loans have been made through the local ASC office, reports secretary Elliott Lee. Since the cash price of milo is more than the loan, after storage charges, most of the grain is going into the cash market thus far.

Lee said that to be eligible for loans on farm storage, the grain must be in storage for 30 days. Grain with moisture in excess of 13 per cent is not eligible for the loan.

For grain produced by a tenant, the producer must obtain a lien waiver from the landlord before the loan will be made.

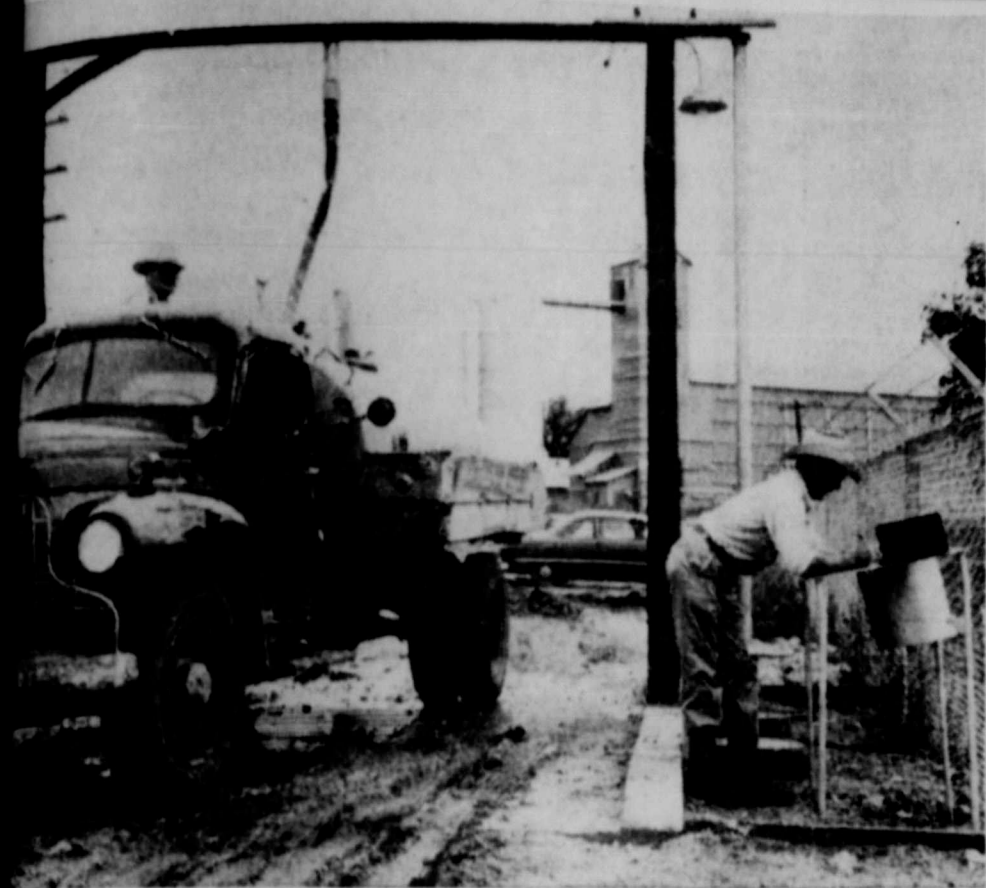

Loan rate for Ochiltree county is \$1.62 per hundredweight. Storage charges come off at a sliding scale rate. The storage is 16 cents per hundredweight until October 3, plus 1¢ per hundredweight service charge. This makes the net \$1.45 per hundredweight, less than the cash value.

Laverne Woman Is Ideal Winner

Mrs. Henry Baumgartner of Laverne, Okla., is the grand winner of the Ideal Food Stores contest, according to Hank Cornelius, local Ideal manager. Mrs. Baumgartner won a trip to the West Indies in a drawing held Tuesday night at the Hotel Dale in Guyton.

Names of the 27 local Ideal winners were placed in the drawing for the grand prize.

Mrs. Andrew Caldwell of Perryton was the local winner. She received a roaster and had her name placed in the drawing for the grand prize.

SERVICE—Al Ries, right, fills out his card showing he loaded 1,000 gallons of water into this station at the city's new self-service water station north of the tracks. Standing on the truck is Walter. The men are hauling water for cattle for Dan Archer. This station was built to serve cattle and well drilling crews.

Planting Time Is Here General Rains In Area

Planting time is set for fall wheat following four days of general rains in the Perryton area. This was the first moisture consequence in this area since July.

Heavy rain came in Friday with the season's first rain, which dropped the temperature from 92 down to 52 in a matter of hours, and the rain came Friday night.

Approves Miles of Pavement

Highway Commission approved the paving of a four-mile farm-to-market road in Ochiltree county, and work will begin as soon as final plans are completed and right-of-way secured.

The paving is to extend west end of FM 1267, from 15 near Farnsworth, a distance of 13.6 miles.

Engineer L. K. Canadian will be in charge of the work in this area, according to James G. Lott, district engineer from Amarillo.

The paving will be a part of a two-year farm-to-market program for Texas. Funds derived from the fund established by Senate Bill 287, 1953.

It is authorized that the state will serve the dual purpose of aiding in the paving of the entire area.

Garrison Tuesday of Attack

"Buck" Garrison, a long resident of Perryton, died Tuesday afternoon at age, 910 S. Baylor, after a heart attack. He was 80 years old.

Mr. Garrison, who lived with his wife, Mrs. Mattie Garrison, was home about 5:30 o'clock Tuesday morning complaining of feeling ill. Garrison was gone on a trip to his home in the early part of the war, and continuing to live in his home during his military service.

Garrison had been on a trip into Montana and was expected to be on her way home.

Plans Made for Annual Boy Scout Campaign

Plans for "Operation Greenback," the annual Boy Scout fund drive, were outlined to workers of the Adobe Walls Council Sunday afternoon at a meeting at Camp Ki-O-Wah, near Canadian.

Attending from Perryton were Sidney Jines, local drive chairman, Dean McCutcheon and Robert D. Lemon.

The drive will open on Tuesday, October 25, throughout the Adobe Walls Council, which consists of 35 communities in the Panhandles of Texas and Oklahoma.

Goal for the council is \$12,000 to be raised among these 35 communities.

Jines has appointed a number of local chairmen, including J. B. Whigham, general solicitation; Harold Hudson, publicity; Max W. Boyer, arrangements; Jack M. Allen, prospect and rating; Vance Apple, advance gifts.

Services Held Wednesday for Buell S. Holmes

Funeral services were held Wednesday morning in the First Christian church for Buell S. Holmes, 28, who died in the Perryton hospital Monday after a long illness.

Holmes was born in Perryton and had made his home here all his life, except for time spent in service during World War II. He had been seriously ill for several months.

Rev. W. O. Harmon and Rev. Calvin Cook conducted the final rites. Pallbearers were Weldon Bull, Robert Earl Bowles, Dean Bennett, Milton Todd, Jack Williams, and Grady Yeary.

He is survived by his mother, Mrs. Roy Enfield; his father, Alvin L. Holmes, Fresno, Calif.; a brother, Bruce Holmes of Perryton; a sister, Mrs. Jack Hell of Follett; and his maternal grandmother, Mrs. Polly Bull of Lefors, Texas.

Interment was made in the Ochiltree cemetery.

Collection of Taxes To Begin October 1 In Ochiltree County

Collection of 1955 taxes by the three tax collection agencies in Ochiltree county will begin Saturday, October 1, with very little change in tax payments from last year. Tax rates for the county and school district remain the same, while valuations are down slightly for the city and school.

A three per cent discount will be offered for payment of county and state taxes during October. All three agencies reported better than 95 per cent collections of taxes last year, thus maintaining a splendid tax collection record in spite of dry weather and poor crops.

County and State Taxes
The tax rate for county and state property is \$1.72, the same as last year except for the 5¢ additional voted for the Water Conservation District. This tax rate is broken down into the following: County, 95¢; State, 42¢; Farm-to-Market road tax, 30¢; Water District, 5¢.

County valuations this year are

\$9,370,940 compared to \$9,250,700 a year ago. State valuations, which are the same as the county except for the homestead exemption, are \$8,437,190.

The county will collect \$153,964.69 in taxes this year, broken down into the following: County, \$89,026.58; State, \$35,435.91; Farm-to-Market, \$23,311.58; Water District, \$4,190.67.

City Taxes

The city tax rate is \$1.15 per \$100 valuation, same as last year. The total valuation is \$6,783,020.

Rummage Sale To Aid Band

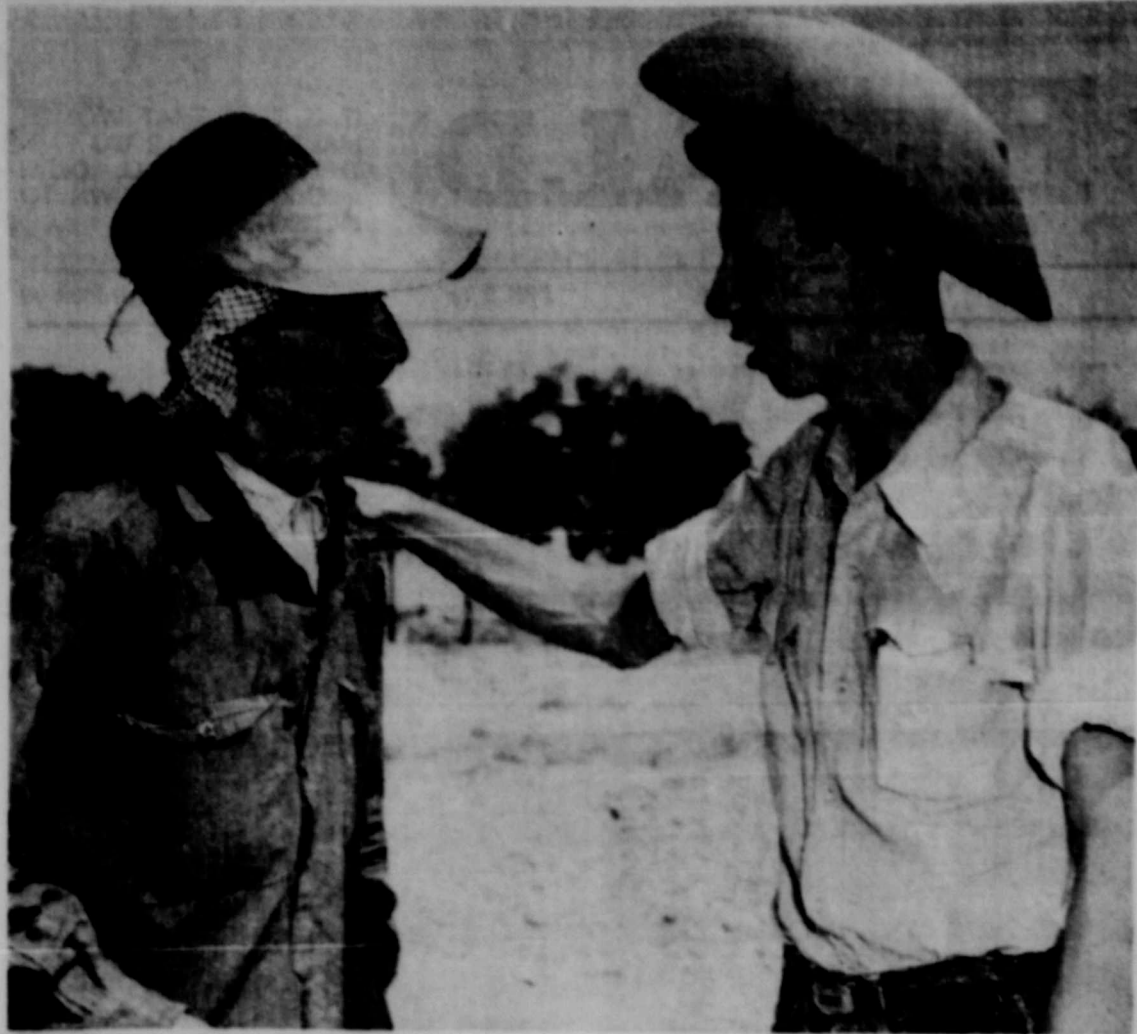

The Ranger Band Parents Club will hold a rummage sale in the Gaither building on Friday and Saturday, trying to raise enough money to provide rooms for two nights and meals on the road for the 90 members of the Ranger Band who will go to the State Fair in Dallas on Oct. 10-11-12.

The band was invited to the State Fair to participate in the Cotton Bowl Music Festival.

The school board has voted to charter buses to take the band to Dallas and the Band Parents have chartered one for parents.

Anyone having rummage they will give to this sale are asked to bring it to the Gaither building today, Thursday.

CECIL REGIER AND FRIEND—Cecil Regier, right, Ochiltree county's IFYE delegate to Iran is shown talking with a friend of his, Samet Manoyan, in Iran. Cecil has learned a lot about primitive farming methods and desert life during his stay in Iran.

Exchange Student Cecil Regier Makes Good Impression In U. S. Offices

County agent Delbert Timmons received a letter this week from Ray G. Johnson, chief of the Agriculture Division, U. S. Operations Mission to Iran, complimenting Cecil Regier, IFYE delegate from Ochiltree county, on a recent visit to his office. His letter follows:

"Cecil Regier, an IFYE delegate from your county to Iran was in this office this morning, accompanied by another exchange youth from Montana. The boys have just completed two months of rural visiting and observation in southwest Iran. This included a little time with tribes people even. I am sure that Cecil will have much to tell you and your people of his impressions and experiences when he gets home. The boys tell me they have some two months more in

this country before returning home."

"Both boys looked hale and hearty. Their reactions were enthusiastic and they gave the impression of having enjoyed most of their experiences to date. It is very fortunate that two westerners were sent to Iran, since a western boy can appreciate dry range land where some of our eastern youth would be merely irritated and lost. Congratulations on the kind of boy who was sent out, and please convey my congratulations to his family and please tell them that Cecil is turning into a good ambassador from the American farm youth to the people of this country. We need more boys of the type of the two who were in my office this morning on our foreign programs. Very sincerely yours, Ray G. Johnson, Chief, Agriculture Division."

FIFTH TOUCHDOWN—Dan Pearson, Ranger halfback, is shown scoring the fifth touchdown of the evening against Sayre Friday night, while Bill Jines, Ranger guard, opens up the hole. Pearson scored from the one-yard-line. Final score was 50-6 for the Rangers.

EPP SCORES AGAIN—Wayman Epp, Ranger halfback, is shown scoring the final touchdown of the victory against Sayre Friday night, which made the score 49-0. He is being tackled by Sayre tackle L. Dunlap. Assisting in the play are Rangers Bill Jines (66) and Dempsey Gyger (69).

Herald SPORTS

Rangers Coast To 50-6 Victory Over Sayre Eagles Friday

The Rangers coasted to a 50-6 victory over the visiting Sayre Eagles Friday night as coach Pete Peterson cleared his bench in the second half to avoid even more of a runaway. The Rangers scored on the fourth play of the game and set the pattern for the lop-sided contest.

Wayman Epp led the scoring parade with three touchdowns, while Dempsey Gyger chalked up two touchdowns.

Ranger blocking and tackling showed a decided improvement over the previous game at Canadon. About the only weakness they showed against Sayre was in kicking extra points.

After taking the opening kickoff, the Rangers drove to the Sayre 46 in three plays. Dempsey Gyger then set sail around left end and galloped all the way for a 46-yard touchdown sprint. The try for extra point was fumbled and no good.

A few plays later Wayman Epp returned a Sayre punt 80 yards for a touchdown, only to have the play called back and the Rangers penalized to their 29.

The next touchdown drive started on the Ranger 30, with Gyger, Epp, Bulls and Johnson carrying the ball to the 18, where Epp broke through left tackle for the touchdown. This made it 12-0, and there it remained when the attempt at extra point was fumbled again.

In the second quarter, a fumble recovery by tackle Bob Williams on the Sayre 44 set the stage for the next score. Dempsey Gyger ran around right end for these 44 yards on the next play and made it 18-0. The try for extra point was fumbled again.

A pass interception by Dan Pearson set up the next score. He snatched the pass on the Sayre 29, and on the next play Charles Bulls hammered over left tackle for the touchdown to make it 24-0. Again the extra point was no good.

A blocked kick set up the next touchdown, still in the third quarter. The ball was recovered on the Sayre 11, and it took four plays before Pearson drove over from the one-yard-line to make it 30-0 at the half.

As the half ended, the Rangers were inside the Sayre 10-yard line, with a first down before time ran out.

The Rangers opened the second half with a fumble recovery of their kickoff, on the Sayre 49. After being slowed down by penalties, the Rangers got the ball on the Sayre 36, and Kent Apple, quarterback, scampered through right tackle for 36 yards and a touchdown which put the score 36-0. The kick for extra point was no good.

The Rangers scored again just before the third quarter ended, when Wayman Epp broke over right tackle from the 25 and made it 42-0. Bulls plunged for the extra point and it was 43-0.

With the reserves in the Ranger lineup, Sayre drove down to the Ranger 18 late in the third, only to have their scoring threat snuffed out by a pass interception by Lanny Hargrove. Then, after an exchange of fumbles, Sayre made their only score of the night when quarterback Carl Allison intercepted a pass and ran into the end zone from the 20. The attempt for extra point was no good.

The Rangers scored late in the game when Wayman Epp ran

25 yards to the 4, then drove across for the touchdown which made it 49-6. Dempsey Gyger plunged for the extra point to make the final score 50-6.

The game with few injuries, and with an open date this week, should be in the best physical shape of the season when they meet Canyon on Oct. 7.

Biggest Entertainment Slate Outlined for State Fair

All the ingredients for 16 thrilling days and 17 nights of big fun and excitement are cooking on the front burner for the 1955 State Fair of Texas, which will dish up its most impressive menu of things to do and sights to see, Oct. 7-23. The program includes:

Mr. and Mrs. Bill Morgan a son, Dennis James Morgan, born September 23.

Mr. and Mrs. Robert Irby a son, Robert Hudson, born September 26.

Mr. and Mrs. Bryant E. Batman a daughter, Roberta Jean, born September 25.

Mr. and Mrs. Jim Henry a daughter, Rebecca Susanne, born September 27.

Mr. and Mrs. Carl Sargent a son born September 27.

For Americans

PARIS (AP)—American tourists make a lot of food, drink and laundry business for the French. The Compagnie Internationale des Wagons-Lits et des Grands Express Européens—which operates the familiar blue railroad dining cars—says that during the season it serves American tourists each month with:

A half million meals, 17,000 half bottles of fine wines (hardly anyone ever buys a full bottle); 15,000 bottles of champagne, 8,000 bottles of cognac.

In addition, Wagon-Lits launders 55,000 table covers a month, 530,000 napkins and 100,000 bed-sheets. Crockery makers do all right, too. Each year, the company replaces 100,000 plates, 74,000 glasses, 93,000 saucers and 10,000 broken cups.

New Reserve Forces Act Will Change Lives of Young Men

The Reserve Forces Act of 1955, which went into effect on August 9, will affect the lives of young Americans even more than the draft laws which have affected their lives since the beginning of World War II.

Local Selective Service boards will have more functions and more responsibilities and have been put on a permanent basis.

Following is a summary of the principal provisions of the Reserve Forces Act of 1955:

1. The heart of the legislation is a 6 months' training program.

Under this program persons less than 18½ years of age may enlist directly into units of the reserve for a total period of 8 years, 6 months of which they must serve on active duty for training. Persons so enlisted are not subject to induction after completion of 8 years, nor during the 8-year period of reserve service, so long as they continue to satisfactorily participate in required training.

2. Provision in the Universal Military Training and Service Act for the deferment of persons who enlist in the National Guard before attaining the age of 18½ years is continued, but is modified by reducing the age of liability from age 35 to age 28. This program was further modified by reducing the period of obligation to 8 years for those members of the National Guard who during the 8 years serve on active duty for training for a minimum period of 3 consecutive months.

3. The Reserve Act created an additional enlistment program for persons enlisted in the reserve units before age 18½. This program extends to reserve units the program already in existence for the National Guard.

4. The act also establishes a program whereby a person who

★★★★★★★★★
HERGERT'S
CAMERA SHOP
The Man Behind
Your Memories
★★★★★★★★★

agrees to go on active duty may enlist directly into the reserves for a period of 2 years. Such enlistment, however, does not establish grounds for deferment, and unless such a person is placed on active duty prior to being ordered to report for induction, he will be inducted by the local board.

5. The act relieves all persons who were members of the Armed Forces prior to its effective date of liability from participation in reserve training following release from active duty.

Persons who became members of the Armed Forces subsequent to the effective date of the act, August 9, 1955, except persons who enter the 6 months' training program are liable for a total obligation of 6 years, and upon release from active duty must participate in reserve training.

These persons, however, may shorten their period of reserve service following release from active duty by serving additional periods of time on active duty.

6. Persons who enter on active duty subsequent to August 9, 1955, would normally be released from active duty beginning in 1957. In order to bridge this gap and insure that the reserve will continue to get a supply of veterans, the act offers an incentive to persons who are released from active duty and not required to participate.

Four Cub Scout Packs Organized For Perryton

Four Cub Scout Packs have been organized and the program is under way for the season, following the organizational meeting held two weeks ago.

There will be a pack meeting on the fourth Tuesday of every month and all the Cub Scouts invite their parents and friends to attend these meetings.

Anyone desiring information about the Cub Scout dens or packs may call Mrs. Preston McDaniel at 8873.

The following packs have been organized: Pack No. 56, Joe Culp, Pack Master, Preston McDaniel, assistant. Den mothers are Mrs. Boxwell, Mrs. Butler, Mrs. McClung, Mrs. McDaniel, Mrs. Robinson and Mrs. Settles.

Pack No. 55: Giltner LaMaster, Pack Master, J. W. Folley, assistant. Den mothers are Mrs. Gordon Shackleford, Mrs. Collingsworth, Mrs. Clennan and Mrs. Clifton Bell.

Pack No. 54: Joe Champion, Packmaster. Den mothers are Mrs. Dean McCutcheon, Mrs. Neil McGarragh, Mrs. Betty Cunningham and Mrs. Dale Kerns.

Pack No. 49: Joe Watson, Pack Master, Clarence Wall, assistant. Den mothers are Mrs. Alma Dobbs, Mrs. W. B. Barclay and Mrs. Roth.

Emu On The Way

DECATUR, Ill. (AP)—Ed Cummings, hatchery manager, has a very important job—the hatching of an emu egg.

Brought from a California zoo, the emu egg is from one of the largest birds in the world. Cummings believes the egg is in very delicate condition now and to move it for X-ray examination might be fatal.

The issue will be in doubt for a while. Comparing incubation periods of the emu (56 days) with a chicken (21 days), Cummings figures his rare charge is about one-third on the way to hatching.

Rare Chance

NORFOLK, Va. (AP)—Norfolk seafarers may have wanted to heckle Arthur (Big Swede) Ronning, but they had to consider discretion.

Then Ronning got locked up in the Seafarers International Union hall and had to yell through the steel bars which serve as a door. He had to spend several hours there before the only man with a key could be located. He took a lot of ribbing.

Big Swede is 6 feet five inches and weighs 300 pounds.

GUEST SPEAKERS—These members of the White Deer school faculty, David Grayson, Morcene Weeks and Dalton Shaw, were guests of the Ochiltree County Teachers Association Tuesday night at the First Christian Church and spoke to the group about the new guidance program now in operation at the local schools. More than 61 faculty members of Perryton and Waka attended the meeting. Mrs. Paul Lottin, first grade instructor, is president of the local chapter.

Perryton Is Host Sunday for Area Chinchilla Meet

Perryton will be host to a meeting of the Panhandle Chinchilla Club Sunday afternoon, when Dr. A. E. Schumacher of Liberty, Mo., nationally known chinchilla expert, will be guest speaker.

Dr. Schumacher, who is a director of the National Chinchilla Breeders Assn., will give a report on the national chinchilla pelt sale, and also highlights of the industry.

Following his talk, he will conduct a pelting school, demonstrating the proper methods. Dr. Schumacher is reported to be able to skin a chinchilla and have the pelt stretched on a board in seven minutes flat.

The meeting will be held in the Northern Natural Gas Co. warehouse on the Uncle Sam highway and the meeting begins at 1 p. m. The Panhandle Chinchilla Club covers the Panhandle of Texas as far south as Kermit, and as far east as Altus, Okla. Approximately 65 chinchilla ranchers are expected to attend.

There are seven local chinchilla breeders who are taking part in this meeting. They are Drew Ellis, Jim Wright, Dr. Blufford Johnson and Elmo Bennett, Jack Voorhees, Travis Baker, W. A. Pearson, Willard Witt and Clarence Neufeld.

Local Members At Convention

Six members of the Pierce Johnson Post, American Legion, attended the district convention in Clarendon Saturday and Sunday.

Attending from Perryton were post commander John Stubblefield, Omar Truax, E. W. Thomas, Tom Davis, Ross Tucker and Other Hickey.

The Perryton post reported 96 memberships paid for 1956.

PTA Attendance Near Record for Monday Meeting

One of the largest first night crowds in the history of Parent-Teacher Association thronged into the school auditorium Monday night to give PTA a flying start this year.

Supt. Gilbert Mize said that he estimated the audience at about 450, and said "so far as I remember, this is the largest initial PTA meeting that I have ever attended."

Mrs. Clifton Bell, PTA president reported that another record may be broken this year, that of PTA membership. "I understand that our membership has already passed the 350 mark and with continued cooperation, we hope to pass the 400 count by our October meeting."

Mrs. Thelma Davis, elementary instructor, gave a colorful picture tour of her trip this summer to Europe and the Near East. Her descriptions were outstanding and caused much favorable comment.

She almost broke up the meeting when she said "while we were in France, seems that the folks over there just don't drink much water, and we would have to wait every time for the waiter to remove the wine from the tables. Since I'm a dry Baptist, I just didn't care for the wine."

A child health clinic was announced by Mrs. Jim Anderson for October 12-13.

Mrs. H. M. Firestone, nursery director, reported that 77 children were entertained in the nursery during the meeting.

Members of the faculty and school board were seated on the stage until introduced and Supt. Mize had this to say about the group: "I know that this is the strongest group of teachers we have ever had, and I have never worked with a school board that had the interest of parent and teacher more at heart."

He also revealed that school enrollment as of Monday afternoon was 1,115, an increase of 135 over the same period last year.

Mrs. Max W. Boyer was program director.

The first grade room of Mrs. Paul Loftin won the parent room count.

Pronghorns, the only antelope native to North America and among the swiftest of four-legged animals, have declined to only thousands.

At Eldorado, on Beaverlodge Lake in northern Saskatchewan, a main shaft descends 1,300 feet into one of Canada's largest uranium deposits.

St. Augustine, Fla., will celebrate its 400th birthday on only 10 years.

PTA RECEPTION—Punch and cookies were served to the more than 450 Parent Teacher Association members, faculty and school board after the first meeting Monday night at the school auditorium. Here Ed Puls gets a cup of punch from Mrs. Clifton Bell, PTA president and Mrs. Vance Apple.

AD-A-LINE

by Paul Loftin

Dodge will have at least 230 HP plus an electric gear shifting gadget, according to Harold Littau, local dealer.

Try Perryton Merchants First — Mrs. C. B. Trew, Herald correspondent for the southern (y'll) part of this great free state of Ochiltree, has plum flattered the Adman by admitting in public that she reads Ad A Line every week. That works a hardship on the Adman, because with so many known regular readers (four, my wife, mother, Mrs. Trew and my father-in-law, Dr. C. H. Hale) this practice of just throwing a column together has got to stop.

Try Perryton Merchants First — Mrs. Trew brought this bit of humor for your consideration: "Those who 'gas' about their neighbors hour by hour around the clock, nearly always use the 'reglar' rather than the 'anti-knock'."

Try Perryton Merchants First — Construction has begun on the Dr. Roy Sanford home at the corner of 15th and Fordham.

Try Perryton Merchants First — Some grocers think that coffee is headed back to the dollar level. Most implement and automotive parts took a 7 to 10% increase, television costs about 7% more as of today and the only new car shown so far for '56, Ford, was up as much as \$184.

Try Perryton Merchants First — Ralph W. Yarborough, two-time candidate for governor, was a Perryton visitor Friday. He was accompanied by Jim Crow, Canadian attorney, Yarborough said that he was "just out visiting friends to see if he should be

a candidate for a third time."

Try Perryton Merchants First — Yarborough seems to be 100 percent sincere and is certainly an agreeable sort of man. With a bit of training, he could pass for a citizen of the North Plains of Texas. He probably needs to get away from Austin and find out that it's no disgrace to vote Republican if the occasion demands.

Try Perryton Merchants First — The Adman is riding the "warm-up" period of this year's football season with plenty of plain luck. His record for the season is 28 correct guesses and four losses. Last week he had a 11-1 venture and was forced out of the perfect column because Notre Dame wanted to win more than SMU.

Try Perryton Merchants First — Perryton's Rangers have an open date this week-end to prepare for the first conference game at home with Canyon. Other district contests could turn out like this: Dalhart over Clayton, Canyon over Tulla, Dumas over tough Olton, Hereford over Portales and Phillips by six TDs over Slaton.

Try Perryton Merchants First — TCU over Arkansas, Maryland over Baylor, Rice over LSU, SMU over Georgia Tech, to play the game they should have against Notre Dame last week; Texas over Southern Cal with the sophomore signal caller in action; Texas A&M to revenge last year's defeat by Houston, Notre Dame over Indiana, Oklahoma, fumbles and all, over Pittsburgh and Texas Tech in their second football game of the season (they appeared against TCU, but didn't play) over Oklahoma A&M.

Lowest recorded temperature in Canada was registered in the Yukon in 1947—81 degrees below zero.

Ralph Yarborough Visits Perryton

Ralph Yarborough of Austin, the man who has been defeated twice by Allan Shivers for the governorship of Texas, was in Perryton Friday, visiting friends. He was accompanied by Jim Crow of Canadian.

Yarborough said this was his first visit to this part of the state. He declined to confirm reports that he is laying the groundwork for another campaign for the governorship, but appeared to be available.

and less than a year ago due to a reduction in the personal property valuation. The real estate is valued at \$4,682,280 and the personal property valued at \$2,100,740 this year. The city will collect \$78,004.73 as compared with \$78,846.30 a year ago.

School Taxes
The Perryton Independent School District has a total valuation this year of \$22,000,000 as compared with \$23,000,000 a year ago.

The tax rate is 95 cents on the \$100 valuation, the same as last year, and the amount to be collected is \$214,000.

Last year the district collected \$219,000. Statements have been mailed out to all school taxpayers.

Merchants Plan Christmas Event

Further plans for the Christmas activities program were made by the retail merchants committee of the Chamber of Commerce in a meeting held Monday.

Date for the big school band parade will be on Dec. 1 or Dec. 3, depending upon the outcome of a survey now being made among school bands in this region. High school choruses also will be invited to Perryton that day to compete for attractive trophies.

Bruce Baumann, Tom Knighton and Frank Gipson were named to the parade committee.

New lights will be put up through the cooperation of the city of Perryton and Community Public Service Co. crews and a Santa Claus headquarters will be established.

The C. of C. is securing 2,000 sacks of candy for kiddies.

of cooperation, and to extend opportunities through education, along lines of industrial, scientific and vocational activities.

Club projects include aid to Teen Town, a \$100 scholarship to a high school "Girl of the Year" civil defense, and donations to Girls Town at Whiteface, Texas.

The club meets on the first and third Thursdays at 6:30 p. m. in the Harvester Room of Hotel Perryton. Frances Foster was the club's first president and is now a nominee for District 9 director.

Local Teachers Attend Workshop

Four members of the Perryton school faculty and administration attended the Texas State Teachers Association Fall Workshop in Amarillo Wednesday.

Attending the session, held at the Polk Street Methodist church, were Supt. Gilbert Mize, who was chairman of the section on "Professional Ethics," Mrs. Paul Loftin, Joe Champion and Mrs. Joe Champion.

Lion Governor Visits Perryton Club Tuesday

Dub Nelson of Childress, District Lions Club governor, district 27-1, paid his official visit to the Perryton club at noon Tuesday. Nelson was accompanied by Ralph Thomas of Pampa, zone chairman.

In his talk to the local Lions, Nelson emphasized that the Lions Club is a service institution and not a "eat and meet" club. He pointed out the work being done at the Lions Club Crippled Childrens Camp in Kerrville, where several hundred children learn to work and play together.

Michigan Lions provide Seeing Eye dogs for blind persons, Nelson said, and in California Lions recently built a home for the widow of a pilot killed in a jet plane.

Sight conservation is one of the major Lion projects everywhere, and he commented on the number of pairs of glasses provided each year by the Perryton Lions to school children unable to buy them.

Nelson also complimented the Perryton Lions on their sending Cecil Regier to Iran as an International Foreign Youth Exchange visitor.

Zone chairman Thomas presented perfect attendance pins to nine Lions. Receiving these pins were Jim Anderson, Travis Baker, Irvin Hergert, Elliott Lee, Don Thurman, A. P. Spicer, Paul Loftin, Coke Harlow and Harold Hudson.

Ochiltree County Teachers Hear Guest Speakers

Ochiltree county teachers had their first associational meeting Tuesday night at the First Christian church with more than 61 members in attendance, according to Mrs. Paul Loftin, chapter president.

"Child Guidance" was the theme of the meeting and three speakers from the White Deer school system, Morcove Weeks, Dalton Shaw and David Grayson, discussed various phases of the guidance program.

The guidance program is new in Perryton schools and is devised to offer "assistance to pupils and adults on such things as vocation, higher education selections, part time employment, etc." Supt. Gilbert Mize pointed out.

Mrs. Raymond Powell heads the local guidance council, other faculty council members are: Mize, Joe Champion, Troy Sullivan, Josh Hopkins, James Peterson, Mrs. Ralph Headlee and Mrs. John Barnes.

Wednesday, local association officers, Mrs. Loftin, Mrs. Joe Champion, Joe Champion, and Mize, and John Barnes of Booker, attended a regional meeting of the Texas State Teachers Association at Amarillo.

Following the meeting the group was served pie and coffee by "volunteer waiters" Sam Judice, Tom Waugh, Paul Loftin, E. N. Flathers and Guy Allen.

Prof. Ray Kumar Coube, 59, of Banaras University, India, says he has 15 separate M. A. degrees and plans to acquire at least one more.

Bill Coner meets Joe Ogden in C flight, while Herschel Sweeney meets Ed Klein for the consolation in that flight.

Winners of the trophies in the various flights are asked to pick these up at the Perryton Furniture Co. showroom. It had been planned to hold a presentation ceremony, but this has been called off due to the busy wheat sowing season, according to Clinton Hearn, member of the tournament committee.

Wet Weather Halts Paving

The highly unusual wet weather has delayed the small scale paving project of the Lee Milligan Co. of Amarillo, but the work is due to begin this week.

The company will give a double coat asphalt treatment to a number of "leave out" gaps in existing pavement, and will put the same topping on newly created parking areas around the Baptist and Methodist churches.

Sheriff Seeks Check Forger

Sheriff Ray Phagan has Amarillo police looking for Glen Childs, wanted for forging a check in Perryton last week.

The check, in the amount of \$30, was given at the Bryan Food Store, signed by Charles Price and endorsed by Glen Childs. The signature was a forgery and the check was turned down by the First National Bank.

Price told Sheriff Phagan that a Glen Childs had formerly worked for him. The sheriff learned that warrants had been issued in Guymon for the same charge, where checks bearing the endorsement "Glen Childs" had been passed.

A LAMP FOR DOAK WALKER—Roland Hawkins, one of the youths attending Camp Woodland Springs near Dallas, presents a handmade lamp to Doak Walker at the Cotton Bowl in Dallas as the Detroit Lions star was honored at the half-time of the Lions-Philadelphia game. The boys' camp is maintained by the Salesmanship Club which sponsored the pro football exhibition game in Dallas. The game was the last in Texas for Walker, former Southern Methodist star, who retires from football after this season with the Lions.

O'Quin Purchases Davis Station

Devo O'Quin has announced the purchase of the Davis Service Station at Main and Second avenue and a change in name from Davis Service to Champlin Service.

O'Quin said that he chose the name Champlin Service because for many years the station was known by that name.

The new owner has had more than 15 years service station experience. Shamrock products, Goodyear tires and all popular brands of oil will be stocked. Hours will be from 6:30 a. m. to 10 p. m.

Tiny Tunnel Really Gets The Wind Up

(AP Newsfeatures)
ANN ARBOR, Mich.—It's so powerful it can shear off a man's head or his arm—but it looks like a harmless metal box with air tanks at both ends. It's not a torture chamber—it's a super-sonic wind tunnel.

Wilbur C. Nelson, who heads the University of Michigan Aeronautical Department, explains that this is just one part of the new laboratories where scientists will work out the principles which keep men in the air.

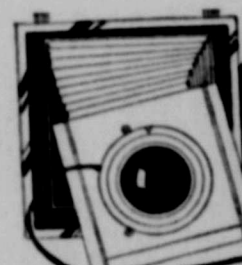

The largest supersonic wind tunnel in the lab will be only 8½ inches high and 13 inches wide in the middle. But enough air can pass through in 20 seconds to raise the air speed to match four times the speed of sound or about 3,000 miles per hour and Nelson hopes to get much higher speed later.

Nelson explains that men working with this particular tunnel have to use extreme safety precautions because the power of the air could pull a carelessly placed hand or other extremity against sharp metal sides.

The lab will contain \$700,000 in pumping apparatus, allocated from the atomic energy commission. Air will be supplied for several types of small wind tunnels.

The pumps will take all the air out of vacuum tanks on one side of the super sonic air chambers. On the other side, air will be gathered into a large collapsible sphere and dehydrated. Then, when a test is ready, the air from the sphere will be released through the wind tunnel into the vacuum tanks.

Alexander-Allen Vows Read

Of interest to friends in Perryton is the recent wedding of Miss Bettie Alexander, daughter of Mr. and Mrs. Gene Alexander of New Boston, Texas, and Ralph Allen, son of Mr. and Mrs. E. M. Allen of New Boston, formerly of Perryton, and the grandson of Mrs. Anna F. Wilson, 305 East Center Ave.

The wedding took place on August 6 to 6 p. m. in the little Chapel of Tapp Memorial Methodist Church in New Boston.

For her wedding the bride chose a dress of white printed organza fashioned with a fitted bodice and full skirt which fell to ballerina length. Her corsage was of blue carnations.

Mr. Allen is employed by the LeTourneau Sub-let Construction Company in New Boston.

The bride was honored with a miscellaneous showed on August 5.

Fifty-five guests registered during the evening.

There are compensations in being a housewife, as movie actress Carolyn Craig illustrates here. Exercise every day is assured if one makes a career of the homemaking role. Gripe you might about dusting, washing and mopping but it does whittle inches. Unlike well-heeled friends who may have their figures smoothed and patted into shape by experts, you save money by doing your own work and melt off pounds thereby.

The carpet sweeper, vacuum cleaner and mop will shake any torso out of the doldrums. High and low dusting from bookcase tops to chair legs will help pay off in a streamlined chassis too. And who will dispute the thinning possibilities of the wash board?

Whether you wear your old A or H designs out of last season's wardrobe or have gone into the Y and whereof a new wardrobe, you'll want to be slim and attractive.

HOUSEWORK PAYS OFF... As illustrated here by movie actress Carolyn Craig, who advises feather dusting for stretching a sagging middle, using a mop handle to help whittle the waistline and a telephone book to strengthen arches and calves.

Family Dinner Held Wednesday

Mr. and Mrs. Walter LaMaster were hosts for a family dinner Wednesday evening, September 21, in the backyard of their home at 902 South Drake.

The dinner honored Mr. and Mrs. Roger Tandy of Deweyville, who visited in the W. E. LaMaster home last Wednesday and Thursday.

Those present were the honored couple and Mr. and Mrs. W. R. LaMaster, Mrs. C. F. Tandy, Mr. and Mrs. Giltner LaMaster, Connie and Joe, Mr. and Mrs. Phil LaMaster, Denise and Belinda, Mr. and Mrs. Ellis Kelly, Carolyn, Charles and Kenny, Mr. and Mrs. Bill Tandy, Dick and Kevin, Mr. and Mrs. Sam Judice, Kay and Sammy and the host and hostess.

Fourth Birthday Observed Friday

James Allen Cunningham, son of Mr. and Mrs. Charles Cunningham, celebrated his fourth birthday with a party at his home Friday morning.

A cowboy motif was carried out in the decorations.

Ice cream and cake were served.

Plastic animals were given as favors.

Those present were David Wilson, Del and Jim Lemon, Jerry Isley, Steve Johnson, Jimmy and Johnnie Hudson, Julianne Cunningham and the honoree.

Adults present were Mrs. Maurice Wilson, Mrs. Roy Johnson, Mrs. Bob Lemon, Mrs. Harold Hudson and the hostess.

Civil Service Exams Are Set

Senator Lyndon B. Johnson has announced that Civil Service examinations for Texas boys seeking appointment to the Army, Navy and Air Force service schools will be held November 14 at 71 cities and towns throughout the state.

Senator Johnson uses the results of these examinations as a guide in making his appointments to the military academies.

Entrance requirements vary, but all three academies require that appointees be United States citizens. In the case of applicants to be considered by Senator Johnson, they must be residents of Texas. They must be between the ages of 17 and 21 years upon entry, must be single and must pass a rigid medical examination and a physical aptitude test. Candidates for the Air Force Academy must be able to pass the medical examination

for flying training and a pilot aptitude test. Persons interested in taking the competitive examination on November 14 are advised to write Senator Lyndon B. Johnson, Senate Office Building, Washington, D. C., not later than October 15.

Recent sample measurements indicate that 14-year-old American boys average 5.9 inches taller and 31.3 pounds heavier than 14-year-old boys in 1877.

Farm Good Example of Irrigated Crops, Cattle

Hawk farm, located west and three miles from Perryton, was the subject of the week's Herald photo tour. The farm, owned by Mr. and Mrs. Hawk, has been a model of efficient irrigation since 1927.

Hawk is a firm believer in irrigation — says it takes the gamble out of farming. It is no project for a man who dislikes hard work, however, as the Hawks have worked harder on their irrigation farm than ever before.

This year the farm has produced a wheat crop, the milo looks excellent, and right now they are harvesting a bumper ensilage crop. The ensilage is producing 22½ tons per acre, about four times what the best dry land ensilage is making this year.

Since the irrigation well has been in operation, the Hawks have averaged from 40 to 100 bushels per acre on milo.

A new type of ensilage crop—Honey Cane — has produced more than any other type ever tried and Hawk is enthusiastic about it. While his mixture of corn and sorgho and corn and he-gari produces good ensilage, it can't compare with this Honey Corn, which grows about 11 feet high.

Best dry land crop year for the Hawks was 1944, when the farm averaged 28 bushels per acre, with some fields making 50. Poorest year was 1934, when the wheat was a failure and all the farm raised was a little rough feed for the cattle.

Hawk has been a member of the Soil Conservation District board for the past eight years. He served two terms as Ochiltree county commissioner from precinct two and is a member of the Methodist church, Masonic Lodge, Farm Bureau, Southwestern Cattle Raisers Assn.

Widows, Children May Have Some SS Benefits

A considerable number of widows, and young children of working people who died between June 1940 and September 1950 have failed to claim the monthly benefits payable to them under a 1954 change in the social security law, announced John R. Sanderson, Manager of the Amarillo Social Security Office. Those who do not apply for their benefits before October 1, he pointed out, will not be able to receive benefits for all the months back to September 1954, the effective date of the new provision in the law.

Under this provision, it is now possible to pay monthly social security benefits to the qualified survivors of workers who died between June 1940 and September 1950 if the deceased wage earner had credit for as little as a year and a half under social security work or World War II Military Service. The families of many of these workers applied for benefits at the time of the worker's death. Mr. Sanderson said, but were told that they could not receive payments because under the law, as it was then, the worker had not earned enough social security credit to provide survivors benefits for his family.

"Announcements of the change in the law were made in all newspapers, in pamphlets, and on radio and television," Mr. Sanderson said, "and 52 persons in the Panhandle area have applied for these benefits since September 1, 1954." It is believed there are many others in this area who are now entitled to these payments. In order to receive all such payments, claim should be filed before October 1. Inquiries should be made at the Social Security Office, Amarillo, Texas.

A representative of the Amarillo office will be in Perryton, at the Courthouse, Tuesday, 9:00 a. m. September 27, 1955.

Return To Religion

The increase in total membership of American churches to a record of 97,482,611, or six of every 10 persons in the United States, is a significant development in an age of materialism. membership are merely "card carriers," seen only at Christmas time and perhaps again at Easter. They are usually absent when the time comes to contribute to the annual church budget. about this rise in membership. Too large a percentage of the membership are merely "card carriers," seen only at Christmas time and perhaps again at Easter. They are usually absent when the time comes to contribute to the annual church budget.

Church membership is fine—expressed in impressive figures—but the most significant figure is church attendance. And there the Americans do not stack up so well in this department, if we are to believe our minister friends.

Another Cause of Farm Surpluses

America occupies a place unique in world history—the only nation in history that had to cope with the problem of food surpluses as a major issue.

One aspect of the problem is that farm surpluses are not due entirely to overproduction—declining consumption is equally as important. The ability of the farmer to produce has outstripped the growth of the country's population and per capita consumption of certain foods has dropped sharply.

Latest reports show, for example, that the per person consumption of wheat—in the form of bread and other cereal products—is one-third less than in the late 1920's.

The average American now eats 32 per cent less potatoes than 30 years ago and 50 per cent less butter.

Part of this decline is due to diet consciousness—the fear of getting fat—and this, too, is a peculiar American problem. In most countries, the problem is getting enough to eat—here it is how to avoid eating too much.

While bread and potato consumption is down, the consumption of lettuce, tomatoes and other salad vegetables has risen 20 per cent. The consumption of meat, poultry and eggs has risen, as has the demand for milk.

One of the main criticisms of the farm program of the past 20 years, with its high price supports for basic agricultural products, is that it has taken no account of the change in American eating habits. Guaranteed high prices have tended to freeze farm production into an outmoded pattern, encouraging heavy production of wheat, potatoes, etc., when demand was shifting away from these foods.

Farmers have been producing for the government instead of the market—it is more profitable and a whole lot safer that way.

It would appear that the farm problem is basically economic—but we continue to get a political solution.

The U. S. Pays and Pays

A news story from Duiseldorf, Germany, recently concerning the rebuilding of the giant Krupp steel works and the emergence of Germany as a postwar industrial power, brings to mind a fact all too familiar to Americans as they view the "deducts" from their pay checks each week.

"You see how foolish politics are," said the manager of this Krupp works. "You take away all our old machines and replace them with new ones. We are very satisfied."

It was a sage commentary on the ironic chain of events that has brought Germany surging back to industrial power.

Both the U. S. and Russia waged war in Germany. The Russians hauled off everything that could be moved, while the United States poured millions of dollars into rebuilding Germany's industrial machine. Our statesmen said that this way we could get them off our back, quit sending them money for food, and they would be less likely to go communistic.

We give the Germans credit for more sense. Any German watching the Russians operate in one sector, and the Americans in the other, would be crazy to go communistic. And we don't think Germans are crazy—they seem to be making out very well, for a defeated nation.

HARDWARE COMPANY

From the SIDELINE with HAROLD HUDSON

The El Sombrero, student newspaper of Perryton high school, was printed last week and we think this initial issue is a credit to the staff and sponsor. The El Sombrero is printed in the Herald shop, and we have occasion to inspect the copy. We find the copy this year to be well written, the words spelled correctly, it is neat, and the staff met their deadline quite handily. Editor Marilyn Reitz, assistant Jo Morris and sponsor Mrs. Yolanda Thomas are doing an outstanding job, we think.

A teen-ager told us recently that a drive-in theatre is a place where a fellow turns off the ignition so he can try out the clutch.

This department rode to Lubbock Saturday to see this wonder of wonders—the Texas Tech Red Raiders—in action. We should have stood in bed, as the old saying goes. To paraphrase Churchill, "Never have so many traveled so far to see so little."

About half of Perryton attended the game, or so it seemed, and we wish the game had been a good one. As it turned out of course, and we believe this was the TCU won quite handily, 32-0. first time Tech has been shut out in a football game in years. To put it bluntly, they looked about as inept as the Sayre team which played the Fangers Friday night. After seeing the Tech team in action against TCU—we are horrified. Texas U. must certainly have a miserable excuse for a team this season—Tech beat them, 20-14, you remember.

Nowadays everything in the home is controlled by a switch, except the children.

We made the trip to Lubbock with coach Pete Peterson, and Rangers Bob Williams, Hobart Buxton, Tommy Johnson and Russ Thomas. This was the first time any of these boys had seen a big league college football game. In order to make sure they saw one, all of us stopped at Canyon that night to see West Texas and McMurry play in the mud. West Texas won, 6-0.

At Canyon, it looked like a coaches convention. We don't know whether they gather like this every week, but the men's room at the Buffalo stadium was packed with coaches of this area, all of whom were singing the blues. If they had won their game the previous night, they were lucky. If they lost, they were lucky it wasn't by a bigger margin. Coaches who were to meet each other this week implored the other to "take it easy on my pore lil' boys." We never saw so much weeping in our lives.

Pete and Canyon coach Guy Harrison spent most of the game telling each other what a good team the other guy had. We were thoroughly confused when the game was over.

Last week the Herald had one of the few good breaks in our career. The Woodson oil well came in on Wednesday, just right for us to get out with the news before our daily competition. In fact, we had the news of the new oil strike in a banner headline on Thursday and it took the Amarillo Daily News until Sunday to get it in their paper.

This was a refreshing experience for us. Oil people are traditionally close mouthed, want to clear everything with the head office at Houston or New York or somewhere before putting out any information. Not so this Woodson bunch. Company geologist Bill Dukes gave us all the in-

Wolf Creek Philosopher Doesn't Want Job Past 40

(Ed. note: The Wolf Creek Philosopher is talking about not working, and we can't think of a better subject for him.)

Dear editor:
When a politician sets out to help the voters, I always pay

attention, but sometimes the thing can be overdone. Over-enthusiasm is sometimes worse than uninterest.

Last night I was reading in a newspaper which some outfit sent me as a free sample where a government official in Washington said he was worried over the plight of older men, which he described as men over 40.

According to him, business is reluctant to employ a man over 40, even more reluctant to hire one over 50, and when he gets 60, it's harder than ever to get business interested.

This, he said, was a deplorable situation, to use his words, and something ought to be done about it. Business ought to be encouraged to hire older men too.

I want you to know I appreciate this man's concern, but as far as I'm concerned, he's talking when he ought to be listening. If big business says when a man gets over 40 he ought to slow down, then you ain't gonna catch me questioning his business. If an older man wants to keep on working, or quit his present job and start another one, that's his business. I'm in favor of it, but when you start making blanket statements taking in everybody, I'm one fellow who wants out from under the cover.

You keep up this agitation for hiring older people and somebody will take you seriously and before long somebody will get the idea an old age pension check shouldn't start till a man's 70, then they'll raise it to 80, and finally wind up allowing you a small burial fee.

Retirement age is not a fixed age. If Winston Churchill wants to keep on forging ahead at 81, that's his business, but if I want to hang up my hoe a lot sooner, that's my business, and the last thing I want is some Washington official out shaking the bushes to find me a job. I don't think he could do it, but there's always the possibility he might.

The right to retire when you feel like it and not have somebody hunting up a job for you is one of the fundamental rights of free enterprise which gives a man not only the right to be energetic but also to sit down and watch other people being energetic.

Yours faithfully
J. A.

Harold:

There is no excuse for not writing to add my congratulations to the many others for splendid achievement and as the best weekly newspaper in the country. We have thought that you were the mediocre work of the small town newspaper. We have known that you are ahead of anything that has been seen. So, may I say, congratulations for a well-deserved honor!

We are now in Dallas and in process of organizing a new paper. We are located temporarily in the 6500 block of Royal and our building site is the corner of Preston Road and Northaven Road. We held our first worship service on the 21st of September with 99 people (counting children) and there are lots of them! We received 48 members in our initial meeting. Last Sunday we grew to 124 present and were added to the fellowship of the church.

Extending an invitation through your paper or to the people of Perryton, to visit our church when we are in Dallas on Sunday, sure there will be a number for the Texas-Oklahoma Texas-SMU games, and we welcome visitors at any time.

Two miles north of 12 between Preston Road and 12th and three miles from SMU, so we are easily accessible for anyone coming or going from Dallas from the north. Madolyn join me in expression of love to you and your family, and to all our friends in Perryton.

Sincerely,
Addison Cutter

But, as you look closer at the beggars on the streets and the filth that the people in Isfahan began to doubt that

West Texas to Hold Homecoming On October 22

CANYON, (Special) — Homecoming for ex-students of West Texas State College has been set Oct. 22, when annual festivities will again draw thousands of West Texans back to the campus. A program of events has been drawn and preparations are already underway.

Among top features for the day is the silver anniversary reunion of the Class of 1930, which will receive special recognition and honor.

Schedule opens at 8 a. m. with registration in the Administration Building, and a general assembly, climaxed with the crowning of WT's Homecoming Queen, will be at 10:45 a. m. From noon until 3:30 p. m., campus organizations and clubs will honor exes at teas, smokers and parties. The big parade through Canyon is at 4 p. m., and the barbecue, which last year drew nearly 3,000 persons, is to be at 5:30 p. m.

Football attraction at 8 p. m. in Buffalo Stadium will pit the Buffs against arch rivals, the Hardin-Simmons Cowboys. A dance following the game will close the Homecoming celebration.

"Western Days", when cowboy attire is in vogue on the campus, will be opened Oct. 19 and continue through the 21st. Students will have a Western Dance and their traditional Homecoming Assembly on Oct. 20, and a bonfire and pep rally on Oct. 21.

Time to Plant Winter Pasture For Livestock

COLLEGE STATION—There is no substitute for winter temporary pastures. They are the only dependable source of green grazing during the late fall, winter and early spring, says E. M. Trew, extension pasture specialist.

Winter pastures should be planted early in order to increase the amount of grazing which in turn can mean cheaper gains on beef cattle, more milk from the dairy herd and lower hay grain and veterinary bills. Early planting may mean dry planting. Oats and barley may be safely dry planted but there is a risk, says Trew, with wheat and rye. If small grains are dry planted, put the seed deep enough to prevent germination from light rains, advises the specialist.

Because the inoculant used on legume seed may be killed if the seed remain in dry soil for a long period, Trew says it is sometimes advisable to make separate plantings when the grain is dry planted.

Early planted pastures, September 12-20, last year gave almost three times the net return per acre for four East Texas dairymen as did pastures planted in late October and early November. The value came from increased milk and hay saved. Grazing days were 143 against 80 for the late planted pastures.

Trew suggests to farmers and stockmen interested in planting grasses and legumes for winter temporary pastures a visit with the local county agent. Pick up a copy of brand new Extension Leaflet-258, Winter Temporary Pastures. The leaflet lists recommended plants, date and rate of seeding and gives information on earliness and disease susceptibility of the different grasses.

Finally, Trew reminds, for the soil's sake give it some winter protection either in form of temporary pastures or a winter cover crop. Both are soil improvers.

Seasonal Economy

HARTFORD, Conn. (AP)—A mild winter saved Hartford taxpayers \$100,000. Only about \$20,000 of the \$120,000 set aside for snow removal was spent.

IT'S AN UPSIDE WORLD—This horse and boy end up in the same position during the Boys' Ranch Rodeo. This year's Rodeo is to be held at the Ranch on Labor Day weekend, Sept. 4 and 5, at 2:30 p. m. each day. The boys will participate in all events and several special acts and several hundred ex-Boys' Ranchers are expected for the Homecoming event.

W. O. HARMON

Minister, First Christian Church
Perryton, Texas

The following is the first in a series of messages written by ministers of this trade area. This week's message was written by W. O. Harmon, minister of the First Christian Church, Perryton.

"THE EARTH IS THE LORD'S"

Stewardship of property was one of the earliest teachings of the Scriptures, and all during man's long history of existence on the earth, he has been taught that God is Creator and Owner of all things. The law of sharing the title was fair and equitable, for in good times and bad, the ratio is ever the same and unchanging. As we are blessed, so are we to give. In time of famine, or in time of great plenty, always the opportunity to give in direct proportion to our possession, is there. Now that oil and plenty seem all about us, that the harvests have not been too bad, and our incomes have not decreased, what do we think of first? New cars, new houses, new clothes for me—me, with no thought for God and sharing in the building of new places of worship or sending the Gospel further around the world?

"The earth is the Lord's, and the fulness thereof." It's a wonderful, abundant God who blesses us each day. Can we be so selfish with our lives as never to give a thought to attending the Worship Service of the Church? It all works itself out into a simple pattern of honesty and fairness. God gives you seven days—six for yourself, one for Him. Yet, you use both yours and His for your own selfish reasons.

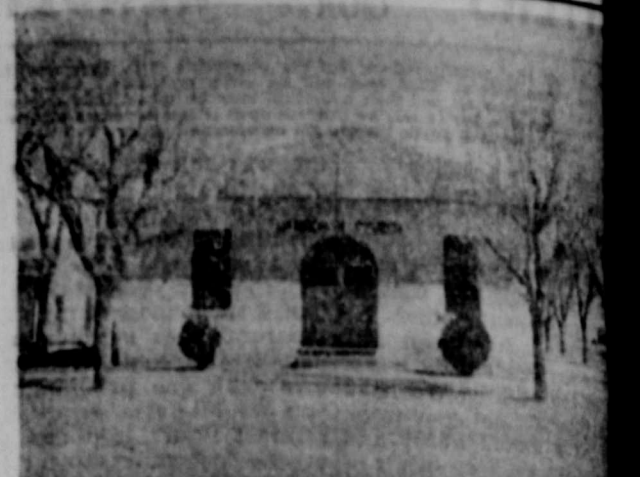

God gave you a voice, a mind, or some other ability—"talents," the Bible calls them. You can use them both for yourself and for Him, but above all, you are not to clutch them selfishly.

So, whether wealth, time, or talent, all are God's, and he expects an accounting from you. Are you playing fair with God?

For when the one Great Scorer comes
To write against your name:
He writes not that you won, or lost,
But how you played the game.

Disney Hit Is Mighty Film

"20,000 Leagues Under the Sea," based on the celebrated novel by Jules Verne, is the mightiest film in the Walt Disney career. The lavish production is in CinemaScope and Technicolor, with an impressive cast starting Kirk Douglas, James Mason, Paul Lukas and Peter Lorre.

The picture comes to the Ellis Theatre on Friday and Saturday, Sept. 30-Oct. 1.

More than a year of pre-production planning was required to bring this classic to the screen. Much of that time was spent on the design and construction of a perfect duplicate of Verne's famous submarine, the Nautilus, for which the U. S. Navy's first atom-powered sub is named. To recreate the sets and inventions conceived by the famed French novelist cost producer Disney nearly a quarter of a million dollars.

The release features the most extensive under-water footage ever seen on the screen. These sequences were filmed on location at Nassau, in the Bahama Islands, where the troupe worked 30 feet below the surface of the Caribbean. Following that two-month stretch, another three months were spent on the sets at the Burbank studio to complete the epic film.

Mr. and Mrs. Russell R. Summers of Whitehouse, Texas are guests in the Arch Talley home. Mrs. Summers and Mrs. Talley are sisters.

Wichita, gateway to the west and doorway to hell! There was Shane, there was High Noon, and now the memorable story of another man of cold courage, whom fate decreed should meet the terrible furies of an untamed land. The true savage story of Wyatt Earp.

Famed Kansas Lawman Seen In New Film

A hard hitting story in CinemaScope is "Wichita," starring Joel McCrea, Vera Miles, Lloyd Bridges, Edgar Buchanan, Wallace Ford and Peter Graves. The picture comes to the Ellis Theatre on Tuesday-Thursday, Oct. 4-6.

"Wichita" tells the story of one of the most exciting eras in American frontier history, the taming of Wichita, Kansas, when it was a brawling, riotous cattle town shortly after the Civil War. It is based on an episode in the life of Wyatt Earp, long-famed peace officer of the frontier, who became marshal of Wichita and declared open warfare on the gunmen, outlaws and killers who terrorized the town.

McCrea has one of the great dramatic scenes in the picture when he faces the crazed mob, armed only with a shotgun, and restores law and order.

Lloyd Bridges, as the gunman who vows to run the marshal out of Wichita, registers an equally effective performance.

One of the most exciting scenes of "Wichita" occurs when a mob of wild, drunken, half-crazed cowhands and gunmen "Hurry" the town. This social pastime of early western days usually started with a saloon brawl and reached its height when scores of gunmen ran wild throughout the town, firing their six-guns at random and killing or wounding innocent residents.

CELEBRATE WEDDING ANNIVERSARY—The celebration of a 40th wedding anniversary isn't unusual, but in the case of Mr. and Mrs. R. L. Ammann of San Angelo, Texas, it is different; for Mrs. Ammann has been blind since she was 13 years old. Her handicap hasn't prevented her from leading a happy normal life, for in her 40 years of marriage Mrs. Ammann has raised a daughter—now married with a family—and managed a home the same as any other housewife. Here Mrs. Ammann places a plate of homemade cookies on the table for her husband, just a daily routine in her active though sightless life.—L.P. Photo.

Veterans Forum

Q. My deadline for starting school under the Korean GI Bill comes in November. I applied to start class this fall, in plenty of time. A family problem has come up so that I won't be able to begin until around the first of the year. Will I still be able to get in under the Korean GI Bill, since my deadline will have passed?

A. No. Under the law, a veteran actually must begin his Korean GI training before his starting deadline. Filing an application alone is not sufficient and the law grants no exceptions.

Q. A friend of mine applied to VA for disability compensation about two years ago, then failed to report for a physical examination when he was asked. He now would like to reopen his claim. Is it too late?

A. It is too late to reopen the original claim, since VA considers that claims are abandoned when the veteran takes no action to comply with VA's request within a one-year period. However, the veteran may file a new application. If he does, and if it is approved, his payments may begin from the date of the new application, not the old one.

Q. If I buy a house with a GI loan, I understand I will have to make a down payment of two percent. Does the lender have any right to ask for a larger down payment?

A. Yes. The lender has the right to request a larger down payment than the two percent minimum.

Q. I am a disabled Korean veteran. If I apply for vocational rehabilitation training, will I receive the same GI allowances as a veteran training under the Korean GI Bill?

A. No. The vocational rehabilitation training program operates differently than the Korean GI Bill program. Under the former, VA will pay all training costs directly to your school and, in addition, pay you a monthly subsistence allowance. Veterans under the latter program receive a single check each month, out of which they must meet their own costs of training.
