"They Give Their Lives -- You Lend Your Money!"

Three New Members Elected on Local School Board

Hudson is New Board President

L. D. Stinson, E. W. Hearn and Stanly Key on Board

Three new members were elected to the Board of Trustees of the Perryton Independent School in election Saturday in which more than usual interest was manifested. New members are L. D. Stinson, E. W. Hearn and Stanly Key. They replaced J. H. Neuhd, Dr. Manse Wood and W. C. Ryan.

Mr. Stinson, who led the ticket with 229 votes, is the manager and owner of the Perryton Implement Co. dealers for the John Deere line of farm machinery. Mr. Hearn is a former of the Farnsworth community. Mr. Key is a member of the firm of Key & Burton.

At the regular meeting of the board, Tuesday night, the three new members were seated and the organization for the coming year completed. H. I. Hudson, a holdover member with two years to serve, was named as president. Mrs. H. C. Gilliland who has one year remaining of her present term was named as secretary of the board. Calvin Powers, another member with two years to serve, was elected vice president. W. M. Boston is the seventh trustee. He has one more year of his present term.

There were two polling places in Saturday's election, Perryton schoolhouse and Farnsworth. Vote as follows:

	P.	F.	Tot.
Neufeld	84	3	87
Wood	86	4	90
Ryan	66	3	69
Stinson	204	25	229
Hearn	193	27	220
Key	169	25	194

Wheat Now Available for Livestock Feed

Release of 100,000,000 bushels of wheat for feeding purposes has recently been provided for by Congress. This will enable Ochiltree county feeders to secure wheat at good prices for feeding out the large number of hogs now on the farms of the county. The Act provides that 1941 loan wheat in the elevators may be sold for $1.04 per bushel in this area.

Local elevators are purchasing the stocks in their respective elevators and distributing it to the feeders with a small handling charge in addition to the base price. Farmers having wheat stored on their farms under CCC loan may redeem the wheat for feeding purposes at $1.04 per bushel. This may be either 1941 or 1942 wheat.

Wheat has proven to be as valuable as any other grain for feeding hogs and in the case of the high protein 1941 wheat is probably of considerably higher value for feeding than either barley or grain sorghums, which average about 10 per cent protein. Our 1941 wheat runs about 15 per cent and 1942 wheat generally averaged about 13 per cent. A heavy demand for this wheat is anticipated and the 100,000,000 bushel allotment for feed purposes will likely be exhausted in a very few weeks.

Ralph's Snack Shack to Reopen Monday

Ralph Adams announced today that Ralph's Snack Shack would reopen for business Monday, April 12 after being closed for a week.

Mr. Adams, when he closed his doors last Saturday night, was contemplating a change in business but after a thorough consideration has decided that there is a need in Perryton for an eating place such as this.

2ND WAR LOAN "THEY GIVE THEIR LIVES—YOU LEND YOUR MONEY" Buy More War Bonds Today

Rain Breaks Winter Long Drought

With .06 of an inch late Tuesday and .51 inch Wednesday afternoon ,it appears that the winter long drought is broken. As the Herald goes to press shortly after dusk Wednesday night ,the sky is heavily overcast with every promise of more moisture. This moisture is one of the best things that could happen to this area. While there remains an abundance of subsoil moisture, the top moisture is gone and prospects for a wheat crop were beginning to look slim. Practically all oats are gone and the same is true of barley. Wheat has carried through an extremely dry winter in fine shape due to the abundance of moisture stored in the sub-soil.

Car and Truck Registration Exceeds 1942

Sheriff Talley's Office Issues 1469 Tags to April 6

Sheriff Talley and his office deputies Freeman L. Garrett and Fred Huston, were much surprised when a checkup of new 1943 license tabs at noon Tuesday, showed that more cars and trucks had been registered than at the same time a year ago. They thought that the rationing of gasoline and the very limited sale of new sars would cause a decrease over 1942.

The 1943 registration is as follows: passenger cars, 972; farm trucks, 379; commercial trucks, 118; a total of 1469 vehicles exclusive of trailers registered.

At the same date one year ago, the registration was 1004 passenger cars, 292 farm trucks and 117 commercials for a total of 1413 vehicles.

Owners of cars and trucks are warned that it is now illegal to operate a motor vehicle on a public highway or road unless the car is registered and carries the 1943 license tab.

State Fire Official Here Wed., April 14

Chief Frank Williams, field inspector of the Firemen's Training School of Texas, will be in Perryton, Wednesday, April 14, so announces W B. Lilly, acting chief of the Perryton Fire Department. Chief Lilly, head of the local department for over 20 years, is now retired on pension under the Texas state firemen retirement plan. He is serving as acting chief in the absence of Chief E. M. Allen, who is employed as a civilian instructor with the army at San Antonio.

The state fire official will conduct meetings of firemen and auxiliary firemen from Perryton, Booker, Darrouzett and Follett at the City Hall at 4 p. m. and 8:30 p. m. The purpose of the meeting will be to discuss the methods of training firemen and auxiliary firemen for war time operations.

The general public is invited to attend the evening meeting.

Earl Miller is Pushing Farm Scrap Collection

Earl L. Miller, John Deere field representative for the counties of Ochiltree, Hansford and Lipscomb, has been appointed by the Texas Salvage Committee to supervise the collection of farm repair parts at all implement dealers and shops in his three county territory.

Mr. Miller is having large signs prepared which will be placed on barrels or bins in each dealers place of business for the collection of old parts. All proceeds from the collection of the scrap parts will go to the Red Cross.

Here Are the Securities You Can Buy in Second War Loan, April 12 to April 30

Securities to fit every class and type of investor will be sold to the American people during the Second War Loan campaign opening April 12.

Salient facts about each type of bond follows:

United States War Savings Bonds Series E: Now the most widely sold security in America. Known as the People's Bond the Series E War Bonds are issued to meet the needs of the small investor. No one person may buy more than $5000 maturity value ($3750 purchase price) in any one calendar year. (Additional purchases in coownership are permitted in certain cases.) For every $3 invested in Series E Bonds you receive $4 at the end of 10 years. They are dated the first day of the month in which payment is received by an authorized issuing agent. Due 10 years from issuing date. Interest return: equivalent to 2.9 per cent compounded semi-annually, if held to maturity. Denominations: $25, $100, $500 and $1000. Issue price is 75 per cent of maturity value. Owners may redeem bond in whole or part at any time 60 days after issue date without notice at stated redemption values. Cannot be used as collateral for loans.

United States Savings Bonds Series F and G: For larger investors. Series F, issued at a discount, are commonly known as 12-year appreciation bonds. Redeemable at option of owner at increased redemption values. Increase in value represents the interest return, which is approximately 2.53 per cent if bonds are held to maturity. Issue price is 74 per cent of maturity value. Issued in $25, $100, $500, $1000 $5000 and $10,000 denominations. Limit on holdings: $100,000 (issue price), of either series or a combination of both F and G, in any one calendar year. **Who may buy:** All classes of purchasers other than commercial banks accepting demand deposits. **Redemption:** On first of any month, six months after issue date upon one month's written notice.

Series G Bonds are issued at par: They bear interest at the rate of 21/2 per cent at year, the interest being payable semi-annually by Treasury check. They mature 12 years from issue date. They are redeemable prior to maturity at option of owner, at fixed redemption prices, which are less than the face amount of the bonds. In the matter of who may buy, limit on holdings, and redemptions they are similar to the F Series. Denominations are $100, $500, $1000, $5000 and $10,000.

Tax Savings Notes of Series C: Issued at par in $1000, $5000, $10,000, $100,000, $500,000 and $1,000,000 denominations. Designed for Federal tax payments and short term investment. Due three years from issue date. Interest rate is 1.07 per cent a year if held to maturity; lesser yield if redeemed for cash or tendered in payment of taxes at earlier dates. May be re-

Rules for Farm Meat Slaughterers

Highlights of interest to farmers in the campaign to stamp out the black market on meats are as follows:

(1) To slaughter meat for sale after April 1, a farmer must get a permit from the county USDA war board. F. B. Sumpter is the slaughter permit issuing agent.

(2) He must stamp or tag the permit number on every primary cut of animal sold to a wholesaler.

(3) If he sells a home slaughtered animal direct to the consumer, he needs only attach a tag with his permit number.

(4) To sell meat wholesale, he must collect stamps according to the trade chart of point value.

(5) To sell retail cuts direct to consumers, he must collect stamps according to the retail chart.

(6) At the end of the month, he must send stamps collected, along with a simple report, to the local War Price and Rationing Board.

Both the wholesale and retail point charts are available at the rationing office.

Announce Grain Loan Regulations

Due to erroneous reports that are circulating regarding loans on grain made by the Commodity Credit Corporation, Earl Waide of the local office is announcing the present status of loans.

All loans on warehouse stored wheat will be taken over April 30 if not paid. Owners can repay these loans in usual manner until April 25. After that date until April 30, payment must be sent direct to the CCC. Notes on these loans are being called for inspection.

All loans on farm stored barley and rye are due April 30 and cannot be renewed.

All loans on 1941 wheat and barley (extended loans) must be paid by April 30 or grain delivered.

On 1942 farm stored wheat, the notes were made payable April 30, 1944, and it is optional with owner as to selling wheat and paying off loan or delivering wheat to CCC. The 1942 wheat, farm stored, can be delivered any time up to July 1.

Let Co-Op serve you better. 9-tfc

Ellis Theatre Collects $225 For Red Cross

During the past week collections have been made at the local theatre at each show performance to be added to the county Red Cross War Fund. Over $225 has been raised in this manner. Exact figures will be given after the final collection Wednesday night.

Virby Conley, manager of the Ellis Theatre, extends his thanks to the public for this generous amount coming at the close of the March War drive which netted the Red Cross over double their $1800 quota.

Murder Charge In Colorado

T. J. Crunk, farmer who for the past two years has resided on a farm just across the state line in Oklahoma and about 15 miles northwest of Perryton, is being held in Lamar, Colo., charged with the killing of his wife, Ada Crunk. Crunk is about 60 years of age and his wife was about 50.

Details of the tragedy that have filtered back to Perryton are meager. Crunk recently sold his farm in this area and left last Friday to go on a place 35 miles southeast of Lamar, owned by J. R. Anderson of northwest of Perryton.

Mr. Anderson and the Crunk family arrived at the Anderson place in Colorado late Friday afternoon. Anderson and the five Crunk children, three girls and two boys, the oldest 13 years, were asleep on the second floor of the two story farm house when they were awakened by shots, about 10:30 p. m. They rushed downstairs and found Mrs. Crunk dead.

Crunk disappeared but was arrested shortly before dawn. He was apprehended while walking along the highway toward Lamar.

Mrs. Crunk is survived by a son, age 18, and a married daughter, both by a previous marriage, in addition to the five small children.

Reopens Deluxe Barber Shop

Cal Goforth returned to Perryton recently after a two months vacation spent at Dourghty, Okla., where he has been visiting friends.

Mr. Goforth has operated the Deluxe Barber Shop which was closed during his absence. He has reopened the shop.

Herald Staff to Press Convention

The entire Herald staff with the exception of Mrs. Seldon Caradine, who will keep the front office open excepting during the noon hour, will be in Amarillo for the two day annual convention of the Panhandle Press Association, Friday and Saturday, April 9-10. In the party from the Herald office will be James F. Bray, Miss Myrtie Mae Conley, Mr. and Mrs. O. W. Dunkle, J. W. Payne, Mr. and Mrs. Chas. W. Claybaugh and Mr. and Mrs. Van W. Stewart. Mr. Claybaugh, for many years advertising manager of the Herald and now associated with the Brigham, Utah News, is on a vacation from the Hays, Kansas air field where he is a flying instructor of future U. S. Army pilots.

Bond Quota For March Is Exceeded

Ochiltree county loyal and patriotic citizens backed up their boys "in the service" by again exceeding the March quota of $36,300 in War Bonds. Actual sales, issue price were $41,589, for bonds with a face value at maturity of $54,700.

Carl Ellis, chairman of the Ochiltree County War Bond committee, expressed much pleasure at such a wonderful response coming in the midst of payment of Federal income taxes. He is calling for the greatest effort of the war in meeting the Second War Loan quota of $199,000 assigned to this county for the month of April.

Bond selling agencies report March sales as follows: First National Bank, $44,175; Perryton National Bank, $4,750; Perryton post office, $5,775. These figures are maturity value of bonds.

Name Rationing Board Food Panel

L. L. Lance, chairman of the Ochiltree War Price and Rationing Board, announces that a Food Panel for the handling of food rationing has been added to the OPA set-up in this county.

On the Food Panel are Dan E. Archer, Mrs. W. B. LaMaster and Mrs. R. H. Holland.

Try Co-Op Gasoline. 9-tfc

JUST HERE and THERE

It's pretty hard to get up much interest in an election. We Americans are prone to let the other fellow elect our officials and then holler like hell if their official actions do not please us.

But the voters of the Perryton Independent District did a little better than usual in Saturday's election to chose three trustees. Out of a possible 1,200 voters in the district, almost 300 voted. This is fine and a much higher per centage than usual.

Thirteen billion dollars . . . the goal of the Second War Loan drive of the Treasury Department . . . is the sum Americans spent for new automobiles in the five years from 1937 to 1941 inclusive.

Ochiltree county's quota for the Second War Loan, starting April 12, and closing April 30, is $199,000. Pretty steep but we can make it. Here's some quotas of other Panhandle counties: Wheeler, $183,000; Donley, $142,000; Swisher, $139,000; Lipscomb, $89,000; Roberts, $138,000; Hemphill, $124,-

See No. 4, Back Page

Ochiltree County Assigned Quota of $199,000 in Second War Loan Drive, April 12-30

The people of Ochiltree county will be put to the acid test during the Second War Loan drive, beginning April 12 and ending April 30, it was announced today by the Second War Loan Committee. Co-chairmen for the Second War Loan are Van W. Stewart, Carl Ellis and W. B. LaMaster. Mr. Ellis is chairman of the Ochiltree County War Savings Staff and Mr. LaMaster is chairman of the Ochiltree County Victory Fund Committee.

The United States must raise $13 billion during the Second War Loan and a substantial part of this money must be loaned to our Government by people in ordinary walks of life, you and us and and the fellow next door and on the adjoining farm, the chairmen declared. It is obvious to every thinking man and woman that as the United Nations take the offensive against the Axis dictators, the cost of war operations increase in proportion.

The quota for Ochiltree county for the Second War Loan, April 12-30, amounts to $47.27 for every man woman and child in the county. This average quota is based on the 1940 census. To attain our quota, the purchase of many times the average quota will have to be made by those that have the money. Many are unable financially to buy their quota and the ones that have must make up for them.

The staggering sums of money necessary for the victory drive of the American and other Allied armies and navies . . . the task and the cost of providing food, transportation and munitions for millions of men, over and above the cost of equipment in planes, guns, tanks, ships and other material . . . must be borne, in large measure, by the American people left here at home.

It is not only necessary and right that we should assume this additional participation in the war effort—it is an honor to do so. We who are left here on the home front can do no less than attempt to approach the sacrifices of those brave men out on the fighting fronts to whom the last great measure of sacrifice is but a daily offering. They give their lives. We lend our money.

While it is true—and this to the everlasting credit of the American people—that there are more people today who own Government securities than at any time in the history of the nation—or the history of the world—the simple facts of the matter are, it is not enough.

If the people of Ochiltree county, and every county and town in the nation, are to meet their full measure of responsibility, they must loan their Government every cent not needed for the essentials of living—and we have to revise downward our ideas about what are essentials.

To Protest Centralization Loan Agency

Stockholders Meet Pampa April 15 to Organize Entire State

At the request of the Lipscomb and Ochiltree National Farm Loan Associations, F. B. Sumpter, Sec.-Treas., is attempting to organize the National Farm Loan Associations of Texas and has called a district meeting to be held at the courthouse at Pampa on April 15 at 8:30 p. m. All borrowers, as well as anyone else interested in the Federal Land Bank system are urged to attend.

A state meeting has been called at Fort Worth to be held in the Hotel Texas on May 4 at 10:00 a. m., at which time the organization will be completed. The Pampa meeting is being held for the purpose of discussing plans for the state meeting and getting as many to attend as possible.

The local association as well as many others have felt for some time that there is a movement on to take the control from the local associations. There is also a bill filed with Congress which if passed would retire stock at par value of $5 per share, instead of book value, which would be in excess of $19

See No. 5, Back Page

USO Committee Meets Monday

T. V. Ellzey chairman of the Ochiltree County USO-Victory Committee, has called a meeting of the executive committee for next Monday, April 12. The committee will meet at 8:30 p. m. in the offices of F. B. Sumpter in the Champlin Building.

Members of the executive board are Tom Ellbey, chairman; Van W. Stewart, 1st vice chairman; W. B. LaMaster, 2nd vice chairman; C. B. Rogers, treasurer; Mrs. Dewey R. Allen, secretary; F. B. Sumpter, Rev. S. R. McCung, Rev. William E. Fisher, L. R. Conner, Mrs. A. R. Hoghland and Mrs. C. L. Craig.

Rationing at a Glance

Ration Books

War Ration Book No. 1—Used for sugar, coffee and shoes.

War Ration Book No. 2—Blue stamps used for rationed processed foods. Red stamps used for meats, edible fats and oils, cheese, and canned fish.

Mileage Ration Books—Books A, B, and C used for passenger car gasoline; E and R books for non-highway uses; D. for motorcycles; T for trucks and commercial vehicles.

Rationed Commodities

SUGAR—Stamp No. 12 in Book No. 1 good for five pounds from March 16 until midnight May 31, 1943.

COFFEE—Stamp No. 26 in Book No. 1 (for those 14 or older on the date the book was issued) good for 1 pound until midnight, April 25.

SHOES—Stamp No. 17 in Book No. 1 good for 1 pair of shoes thru June 15.

MEAT, EDIBLE FATS AND OILS (including butter), CHEESES, CANNED FISH—Red stamps in War Ration Book 2 used. Each holder of Book 2 allowed 16 points per week in first month. Red stamps will become valid and will expire as follows: Week beginning March 29, A stamps worth (16 points) expire April 30; week beginning April 4, B stamp (16 points) expires April 30; week beginning April 11, C stamp (16 points) expires April 30; week beginning April 25, E stamp (16 points) expires at date not yet announced.

PROCESSED FOODS—Blue D, E and F stamps (48 points) in War Ration Book Two good for purchase of rationed processed foods until midnight, April 30.

Mileage Rationing

GASOLINE—Value of each coupon in A, B and C books is 4 gallons. Third 8 coupons in A book good to midnight May 21, 1943. Those who think they are eligible for supplemental rations should also see their local ration board.

TIRE INSPECTION—All "A" book holders must have second official tire inspections by Sept. 30, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have second official tire inspection May 31, 1943. Second official tire inspection for "T" book holders must be made 60 days from Feb. 28, 1943, or every 5,000 miles, whichever comes first.

Tires—If official tire inspector recommends a tire replacement, apply to local ration board for tire ration certificate. Tires will be rationed to all on the basis of tire inspections and county quotas available with most essential mileage to come first. Recaps can now be secured without rationing certificates.

Other Rationing

Eligible purchasers needing new automobiles, bicycles, typewriters, rubber foot-wear, and other commodities on which sales might be restricted should see their local ration board.

Address of the local board for this county is Ochiltree Building, Perryton; Chairman: L. L. Lance.

Three to Leave For Fort Sill

Three young men from Ochiltree county will leave today for induction into the armed forces of the United States at Fort Sill, Okla. They are Cline Eugene Oates, Levi Henry Heidrich transferree from St. Louis, Mo.; and Glen Ray Martin, transferee from Wichita Falls, Tex.

There has been a decided drop in the number of men being called to arms. This is the first contingent to leave from this county in several weeks.

Reelect All City Officers

The Perryton city election Tuesday was a quiet affair with all officers being reelected. Only 125 votes were cast. A few hours before the polls closed a write-in campaign netted City Alderman Sam Hergert 42 votes against present Mayor W. H. Lance, running for reelection.

Lance was reelected with 83 votes. Howard Holt and Rufus Boleriack, running for relection as aldermen, received 125 and 123 votes respectively. City Clerk Milam Cudd, who was unopposed for reelection as city clerk, got 125 votes.

Holdover aldermen with one more year to serve are Sam Hergert, G. T. Leatherman and J. A. Graves.

FARM AND RANCH NEWS

Farmers Urged to Plant More Feed Grain This Year

COLLEGE STATION.—Texas farmers were asked this week to plan for maximum production of all feed grain crops during 1943.

Citing increases in cattle, sheep, hogs and chickens throughout the state for 1943, B. F. Vance, chairman, Texas USDA War Board, declared this week that it would take maximum production of all grain crops to see them through this year and provide a backlog of feed for 1944.

According to state statistics, producers had a total of 7,518,000 head of cattle on hand Jan. 1, 1943, compared to 7,444,000 head at the same time in 1942 while the ten year average from 1932-41 indicates only 7,272,000 head.

He pointed out that on Jan. 1, 1943, Texas producers had a total of 10,677,000 sheep compared to 10,552,000 on Jan. 1, 1942. From 1932-41 producers stocked only 8,462,000 head.

Indicating the increase in hogs, the chairman explained that this year's total was approximately 2,655,000 head compared to 2,042,000 last year and that the average during the past 10 years was only 1,836,000 head. The biggest increase for Texas shows in production of chickens, according to statistics. Last year, a total of 31,681,000 chickens were shown while the tabulation of Jan. 1, 1943, indicates a total of 36,975,000 head. During the last 10 years, the average was 25,624,000.

"We now have 812,000 more cattle, hogs and sheep and over five million more chickens than we had during 1942 and for these reasons we are going to need enormous amounts of feed grains this year."

For Health Have A Victory Garden

AUSTIN, Texas. — Commending the patriotic spirit shown by thousands of Texans who are enthusiastically raising victory gardens, Dr. Geo. W. Cox, State Health Officer, declared today that health insurance is included in the crops which will be harvested.

"Point rationing will not be too much of a hardship for the family with a garden," Dr. Cox said. "Using greater quantities and varieties of fresh vegetables in the menu will make for better health conditions in general."

Dr. Cox stressed the fact that malnutrition can lead to serious illneses, such as beri-beri, rickets, scurvy, and pellagra, and that it will certainly result in a lowering of vitality and capacity to work.

"Carrots, beets, lettuce, onions, greens, and all other fresh vegetables supply needed vitamins to the daily diet," Dr. Cox said. "In addition to the beneficial outdoor exercise resulting from the gardening, every individual with a victory garden can be assured of a healthful, well balanced diet.

"You can supply all your nutrition requirements, and your health need not suffer, if you can supplement your meat allowance with a pleasing and healthful variety of fresh garden vegetables."

HOME DEMONSTRATION CLUB NEWS

● Black Club

The Black Home Demonstration club, met in the home of Mrs. C. U. Pope, Thursday, April 1, at 2:30 o'clock.

Miss Sadie Seward, county home demonstration agent, gave a demonstration on dyeing and tinting materials. She stated, "if you are not sure of the material you were to dye use all purpose dye. Be sure to have the material clean." She gave a demonstration on tie dyeing, place a marble or spool either, in the material then tie with a string. They will make design in your material. She had dyed different kinds of material and the all purpose dye did the best work. The way to tell pure wool and pure silk is by brunning it.

The Black club voted to have a recreation night, every third Tuesday, of each month. The next date will be April 20, at 8:30. All are urged to be present. Each family will bring a covered dish.

Members present for the meeting were: Mrs. W. Schubert, Mrs. L. A. Lakinhorst, Mrs. C. F. Moses, Carter and Miss Seward. Miss Seward and Mrs. Pope.

—FOR VICTORY! BUY BONDS—

● Ochiltree Club

The Ochiltree Home Demonstration club, met with Mrs. Leon Shrader Friday, April 2.

Miss Seward gave a demonstration on dyeing and tinting. She also explained how to add new appearances to old materials, by tying, using marbles, pennies or just tying the material with cord, wrapping it about ten or twelve times, and placing the wrapping about 3 inches apart, gathering the material evenly.

The club voted to have a window display in April, using "Gardens," as their theme.

Mrs. Robert Thurman was elected as a delegate to go to Amarillo.

Those present were the visitors: Mrs. A. K. Wilson, Mrs. James Brillhart and Mrs. W. M. Shrader. Members were Mrs. Leonard Wright, Mrs. Ed Terhune, Mrs. W. T. Lackey, Mrs. James Blasingame, Mrs. Ben Graham, Mrs. Robert Thurman, Mrs. Claud Crouch, Mrs. A. L.

Price of Feed Wheat Announced

COLLEGE STATION. — Feed wheat in Texas from the 100,000,000 bushel appropriation made by Congress several days ago will be $1.04 in Texas during April, the state AAA office announced this week.

Operating under the same principles as last year's program in which 125,000,000 bushels of Government-owned wheat were released for feeding purposes, the new appropriation now is available and should help materially to ease feed shortages developing in many parts of the nation. The last of the 125,000,000 bushel allocation, of which Texas received 2,800,000 bushels, was sold the early part of March.

To provide equitable distribution of the wheat, feeders, feed mixers, and dealers are limited as to the amount they can have on hand during a specific period.

Livestock producers, dairymen, poultrymen and other feeders, who purchase wheat through dealers, direct from Commodity Credit Corporation, or through county AAA committees, must state the quantity of feed on hand and their estimated monthly requirements. Orders will be accepted for a quantity which together with the quantity on hand will not exceed a three month's supply.

Local feed mixers and dealers, who also are being asked to itemize monthly requirements, cannot have more than a two month's supply, including the quantity on hand. Orders for large mixed feed manufacturers, distributors and county AAA committees will be limited to a two month's supply, which includes the quantity on hand unsold when orders are placed.

Feed wheat may be ordered direct from CCC, Kansas City, or purchased through county committees in counties in which Government-owned wheat is located at bin sites. Under the latter procedure, committee may sell direct from county stock without contacting CCC.

Under the 1942 program, the price of feed wheat was based on 85 per cent of parity price for corn while the new allocation will be sold at 100 per cent of parity price for corn.

How to Control Vegetable Insects

COLLEGE STATION—Control of vegetable insects is not as difficult as many persons seem to think, says Dr. H. G. Johnston, entomologist for the A. and H. College Extension Service.

The ideal strategy is to wage an offensive battle, beginning as soon as the first invaders appear in the garden and never giving them a chance to become established. This battle should continue at intervals of four or five days until the enemy is mopped up.

Insecticides necessary for the job include cryolite and calcium arsenate to control flea beetles, cucumber beetles, cabbage worms and other insects which feed upon the fruit and foliage of the plants; nicotine sulfate or pyrocide for plant lice, stink bugs, squash bugs and others which suck the juices from leaves and stems; and paris green to make baits for cutworms, sow bugs and mole crickets.

Generally, it is easier to control garden insects with a duster, but good results also can be obtained with a sprayer if done thoroughly. Information on constructing a simple home made duster from a tin can, broomhandle and cheesecloth may be obtained from the county extension agents.

Plant lice, Dr. Johnson says, are probably the most common and destructive vegetable pests. They attack almost all crops, especially turnips, radishes, mustard, cabbage and other similar plants. They may be controlled by using a five per cent rotenone-sulphur mixture, or nicotine sulfate, as a spray or dust. Begin as soon as the pests appear and thoroughly cover the lower surface of the leaves. These insects are killed only when actually hit by the insecticide. In addition, destroy stalks as soon as the crop is harvested in order to eliminate breeding places for lice and bugs.

Pressure Cookers To Be Rationed

COLLEGE STATION.—Because the supply of pressure cookers is so far short of meeting the demand, all pressure cookers produced in 1943 will be rationed.

The U. S. Department of Agriculture will allocate pressures to the states, but no other details of this phase of the rationing program have been announced, according to Winifred Jones, specialist in food preservation for the A. and M. College Extension Service. She says during 1943 material for only 150,000 pressure canners has been released by the War Production Board to three manufacturers, through the efforts of the USDA. Because of the rationing plan, the manufacturers will fill no orders from individual users.

Miss Jones says the war-time cookers will be made of steel rather than aluminum, and will be equipped with a flat rack but no basket or pans. The cover will have a protective tin coating, while the body will be enameled. Capacity of the cookers will be seven quart jars.

The specialist emphasizes that these tin and enamel coatings scratch more easily than aluminum, so they must be given special care. Scratches cause the steel base to rust, and rust weakens the walls of the cooker.

"Avoid sharp blows, over-heating, boiling dry, or cleaning your cooker with hard, abrasive powders," Miss Jones warns. Heating grease or fat at high temperatures in a tin plated cooker may cause the tin to melt, so the cooker should not be used for rendering lard or searing meat.

No shortage in glass jars or jar seals is foreseen unless the greatly expanded food preservation program causes a "run" on canning supplies. There is no restriction on the number of tin cans that may be sold to home canners.

KENNETH MUNGER, Owner

Jim was a lineman and a good one. But Uncle Sam needed men of his calibre in the Army, so now he's in North Africa.

Jim is only one of 100 employees of this company who are serving in the armed forces. Their departure leaves a gap in our ranks that is hard to fill. Men who have spent years learning the know-how of the electric business aren't easy to replace in times like these.

Already the pinch of the manpower shortage is making itself felt in certain phases of our operations. Despite the fact that we are constantly training new men, we are being forced to operate shorthanded in some localities. Wartime restrictions on the use of automotive equipment and shortages of materials, repair parts and supplies are also complicating the problem of rendering first-class service, but like other concerns in all lines of business, we're doing the best we can with what we have.

While things may not be quite the same with so many of our men away — and more going all the time — we intend to safeguard the adequacy of your electric supply and see that you get the best service possible under the prevailing conditions. You can help by keeping your electrical equipment in good condition, by learning to replace your own fuses and by avoiding rush calls and requests for special trips except in cases of genuine emergency.

Your cooperation will help conserve manpower, materials and rubber and will enable us to serve you better.

Ignition key in your pocket— ACID locked in your engine

You can't "pull the cork" to clear out every cylinder after pocketing that key. A chemical mixture always lingers inside. The corner druggist would tell you that the cylinders hold the acid products of combustion . . . the makings of corrosion.

You didn't have all that worry heretofore, when the worst acid was chased out again and again, by repeated driving—and by continued speed that thoroughly heated the engine. Now however, when you're counting every coupon, how long will it be till you next use your car and drive it far enough to make the engine stay real warm? Meanwhile, with acid in your one and only engine, as it stands for long stretches, you'd better take the precaution of having it internally OIL-PLATED by changing to Conoco Nth motor oil this Spring.

OIL-PLATING is really a close cousin of platings you see every day retarding corrosion. Conoco Nth oil—at a popular price—includes the costly synthetic that makes OIL-PLATING come between acids and inner engine surfaces. Unlike mere liquid lubricant, ready to drain down to the crankcase promptly, OIL-PLATING tends to stay at its topmost point in your inactive engine, strongly opposing acid attack on inner parts that can't always be replaced these days. The simple key to OIL-PLATING is Conoco Nth oil for your needed Spring change — at Your Mileage Merchant's Conoco station today. Continental Oil Co.

Something of peculiar spiritual significance transpires in the life of the indivdual when he joins himself with others in a congregation to worship and commune with God. Jesus clearly pointed out this great spiritual and psychological law when He said, "Where two or three are gathered together in my name there am I in their midst."

Go to Church somewhere Sunday. A welcome awaits you here.

SERMONETTE

Rev. Dan L. Blickenstaff
Waka Church of the Brethren

"Growth or Decay"
Proverbs 24:30-32

In every age the sluggard and the fool have had a place, as well as the laborer and the wise man. Our text tells us that if we will not have flowers and fruits, we shall certainly have thorns and nettles. We cannot set aside the laws of nature. There is a law of growth in the very ground. If we do not sow flowers or fruits or gains and let the ground go, this law of nature will go on and produce thorns and nettles. It is the same with the character of man. We cannot simply do nothing. Life has its laws. We pay them no attention, but they will assert themselves notwithstanding and show by painful proofs that neglect is crime.

One may decide not to cultivate his mind. What then? Is his mind simply a blank? The weeds of false notions, the thorns and nettles of prejudice and the food of false propaganda governing his actions will all prove his intellectual laziness. Then he blames other people of other nations for the mess he finds himself in.

One may neglect his moral nature. He may despise religious services and warnings. He may say he is too busy to attend divine services. He makes fun of a future life or death. What then? Can he keep himself in a strictly neutral condition? At the end of ten years is he the innocent man he proposed to himself to become? Look at his false misinformed ideas, his superstitions, his want of veneration, his superficial judgments, and see how far he has succeeded.

The lazy and the foolish one cannot hide the results of their neglect. The results are observed and effect their fellowmen. The drunkard makes wrong decisions, perhaps he is drunk to the extent of only one glass of beer, but it may bias his judgment; so will a small amount of nicotine or any other narcotic, perhaps effecting many lives. We thus have not the right to do with what we call our own as we please. Life itself is not our own. It is a trust, for which we must give an accounting sometime.

Public sentiment protests weeds gone to seed blowing everywhere; dogs and chickens running loose destroying property. It is not enough to possess. One has no right to be dirty (morally or physically), to be ignorant, to be careless of life. The good man is an example. The bad man is a warning. Wickedness always moves in the direction of destruction. It is its nature. Ones life bears fruit. The state of the vineyard tells the story. There is character in everything. We either produce grapes or thornes. Which will it be?

Seniors Observe 'Kid Day,' Apr. 1

The dignified seniors forgot their dignity and donned short skirts and trousers, Thursday, April 1. Those muscle-bound football players exhibited their bird-like legs in little short pants trimmed in lace. The belles of the class looked very sweet in short skirts, pigtails and freckles.

That usually bashful Ruby McGarraugh, forgot her shyness for the day and with long curls and a baby doll looked very sweet. Lorrine Littau looked quite charming in a little pink bonnet that matched her dress. We'll have to admit that Don Schuster's short pants with buttons up the side were very cute. The class as a whole made very nice looking children.

—FOR VICTORY! BUY BONDS—

EL TORO

Have you heard about the quarrel between Margarette Jean Orrel and Darrell Hill? It seems as if it was quite severe.

Glen Waggoner seems to be doing all right with the ex-students of P. H. S.

June Lance, is it a lot of fun to dance bare-footed? Did you have a very hard time explaining the situation?

"Francie" Calhoun kept insisting that Lucille Jackson take the hem out of her "kid day" dress. I wonder why?

Billie Fae Bell has Johnnie Fogelsong in a trap now and he doesn't want to get out.

Bill Allen was in the show the other night without Pauline. He was with Wilbur, trying to influence him.

Leon Engleman was seen serenading Mayme Nitschke with his big bass violin the other day.

Peggy Thomas "Dad may I borrow your car for the "kid day" picnic." Mr. Thomas "I thought the girls were taking the food, why can't the boys take their cars?" Peggy "But Daddy, we're darn lucky to get them to go at any price."

John Plummer was caught w-a-y-down the river with a certain senior girl. John, didn't you know that it's not right to hold hands with people who are engaged.

Prof. Dub Burleson was rapidly gaining in the race for that beautiful Princess of the Junior Class, Hope Wagnon, when he fell from a horse and injured his leg. Really, Dub, women are sympathetic, so don't feel so bad.

Why does Sammy Phelps just love to attend assembly, could it be Barbara Buckley?

"Wilkie" Ellis and John Fogelsong went fishing "kid day" at the dam so they said. Are we supposed to believe that.

"Donald, Donald Ellis." "What, Ma?" "Are you spitting in the fishbowl?" "No, Ma, but I'm coming pretty close."

Of Education' 'My Philosophy

By Nellie Wingren

The school should educate the child so that he is and will be an efficient, useful, and happy citizen. To accomplish this the child should be trained in some trade or profession so that he can earn his living. He should be taught to adjust himself to other people and to respect their rights in order to live in a democracy. He should learn to play and to enjoy music, art, literature, drama, etc., so that he will know how to use profitably his leisure time.

AT FIRST SIGN OF A COLD USE 666
666 TABLETS. SALVE. NOSE DROPS

Junior Play was Big Success

Those play-acting students of Perryton High have done it again! This time in the form of the Junior Play entitled, "She's A Soldier's Sweetheart," given Friday, April 2, at the high school auditorium.

Sue Hargrave, a movie star, became engaged to Bill Allen, local heart throb, for a publicity stunt to please her press agent, Bill Parker. Joan Boston and Danny Ellis played a wicked hand in the entanglements and misunderstandings that followed. The play ended with everyone happy and a loud burst of applause from the audience.

Special mention should be made of Joan Boston, Gale Rogers, Danny Ellis, Jean Ruth Mullins, and Bob Zenor, who were hits in their first play. Also making a good showing were Ann Herndon, Bill Parker, Edwin Pletcher, Opal Pearl Murray, and Sue Hargrave, members of "Wings Over Washington." Bill Allen's performance in the leading role deserves every praise possible. Robert Holland, Kathleen Brillhart, Pauline Cotner, Billie Fae Bell, and Donald Enterline also did a good job of acting. Miss Harris, director, should feel truly proud of these Juniors, and justly satisfied with her own work.

—FOR VICTORY! BUY BONDS—

Meet the Seniors

On August 1, 1924, **GLEN WAGGONER** was born in Duke, Okla. Glen is a happy, jolly-go-lucky senior who's ambition is to become a general in the U. S. Army. When food is ordered, he will always pick steak and ice cream. Glen plays the harmonica and often swings out in study hall on his favorite tune, "I'm Walking the Floor Over You." In his opinion Ann Sheridan and Tyrone Power have first place in the acting world. His favorite movie was that silly and yet very entertaining one, "Two Weeks to Live." Being very good natured, Glen has no pet peeve and his pet saying is "Sa-a-ay that's alright." He is unable to participate in many school activities because all his time is spent working at Virtue's Store. Glen is one of the seniors who has a good time doing anything and will surely be a big success in this world and win many friends.

LUCILLE JACKSON was born in Perryton, Texas, in 1928. She is another member of the senior class who really and truly enjoys laughing and her pet peeve is a joy killer. "They were Expendable" is her favorite book. Lucille prefers double thick malts when she is hungry. She has chosen a very interesting ambition, and that is becoming a radio star. Lucille enjoys dramatics and was a hit in the speech class play "So Wonderful In White." When speaking of movies she prefers "In This Our Life." However she prefers the acting of Spencer Tracy and Paulette Goddard. Everyone has learned to love and enjoy Lucille, and we hope that she will be a great success as a radio star. Good luck, Lucille.

CARMEN EULENE WADE was born in Perryton in 1926, and has lived in the same house all her life. She is a very brilliant member of the senior class and is also a member of the Ranger Band, Order of Rainbow, a member of the Dramatics Club, and is secretary of the National Honor Society. Her favorite actors are Bette Davis and Ronald Reagan, but "Philadelphia Story" was her favorite movie. Fried chicken hits the spot when she's looking for something to eat. Eulene has a wonderful ambition and that is becoming a private secretary in a large company. She likes "Gone With The Wind" when it comes to books. Eulene expects to enter C. W. C. in Denver, Colo., next fall. Eulene has a wonderful future ahead of her and we all wish her all the luck and happiness in the world.

Work on Annual Ended Last Week

The annual staff reported last week that the annual is completed and has been sent to be printed. It should return about the 15th of May. If you have not already heard, the annual will only cost you $1.00 more.

The staff has worked hard to make it a book that P. H. S. would be proud of. They all hope that you will enjoy your copy and will be satisfied with it.

Well, until sometime in May, when you receive your copy, the annual staff can take life easy, again.

SHADE OF THE HAT

Mrs. S. N. Henry went to Wichita Falls last week-end to visit Mr. Henry, who is stationed in Gainsville. Miss Mayme Holcomb accompanied her as far as Wichita Falls and then went on to her home in Seymour, Texas.

Clayton Schollenbarger, withdrew from school last Friday. He is leaving for the army, April 20.

Frankie Dodson is a new student enrolled last week in Junior High. She came to Perryton from Texhoma, Texas.

Miss Frances Fitch visited her sister Miss Helen Fitch last week-end. Miss Fitch is from Denton.

Darrell Seymour, a former P. H. S. student, visited in Perryton last Thursday.

Dan Carmichael visited in Higgins last week-end.

G. K. Rupprecht was absent from school part of last week because of a cold.

Bobby Chase withdrew from school Monday. He is going to the army.

Mrs. Roy Ratliff is Superintendent C. Wedgeworth's new secretary.

Vernon Day is a new student entered in High School last Monday. He is a Junior and comes to Perryton from Cheyenne, Okla.

Why You Didn't Make 'Who's Who'

Who puts up a reference book that someone else has left lying on a desk, and who picks up the paper from the floors? Who hangs up the absentee slip for a teacher and closes a carelessly left open locker door? These are the whos that make "Who's Who" along with those whos that are good scholars and leaders and have good, strong characters.

Suppose you are a senior, have an A average, are president of your homeroom, and hold another office or two, and don't paint the town red too often; yet you weren't among the seven from this high school elected to "Who's Who in Texas High Schools. Naturally you'd like to know why, and here's the answer: your service record was just a bunch of blank lines. In looking at the forest you forgot to notice the trees, passed up innumerable but invaluable little opportunities to create good will and help the general welfare of the school, opportunities to serve.

Out of a senior class of 70 members this year 33 were nominated by their teachers as potential "Who's Who" members, however only seven made the grade. Why? Simply because they were in the right places at the right time, and did and said the right things in the right way.

Seniors who have shrugged their shoulders and said, "Oh, well, its too late now," please take notice. There are plenty of who's whos to be met later on. You may not even consider them as goals, but you have to have a good portion of what it takes just to consistently feed the pigs and milk the cows, or to keep putting in a bolt as the pieces come rolling down the assembly line.

Remember too, you can't be successful by only developing one part of you anymore than a horse can walk on only one foot. Spread out your interests; don't put your eggs all in one basket, you might drop that one basket. Resolve to do the best you can in as many fields as you can, and if success is not sure, then it is at least probable.

To do a common thing uncommonly well is a real goal, and sidestepping only gets you farther from any goal you hope to reach.

To have a high service record is not a hard thing to do. It doesn't mean you have to grab every job that comes along. It doesn't mean you have to be aggressive and conspicious. It just means; keep your eyes open and willingly lend a helping hand whenever and wherever aid is needed, without hiding behind someone's back and hoping they won't ask you to help.

Dr. Sanford Speaks To Senior High

In the line of vocational studies recently taken up by senior hi home rooms, Dr. Roy Sanford spoke to senior high in the auditorium during activity period Monday, April 5. Dr. Sanford discussed several fields of science including: technical, research, specialist, general practice and nursing.

He stressed the point "Stay out of a scientific rut. Take more liberal arts subjects." After speaking briefly, Dr. Sanford conducted a sort of panel discussion, answering questions from teachers and students.

High school principal, M. L. Stevens, announced that more of these interesting and helpful occupational studies are in store.

Sports

Spring training for football has started in full swing for the fall of '43." Coach Slack announced that training would continue for about two months, ending with the annual Junior-Senior game.

Possibilities look good next year with the exception that there will be nearly 100 per cent green material for the coming season. There has been no schedule dated as yet, because of gas and transportation shortages.

Coach Slack's commando squad will entertain at Chapel tomorrow, Friday, April 9, with numbers such as boxing, flips, and other forms of exercises.

Chapel Program Given By 7A Room, Friday

Mrs. Jake Dunkle's home room, 7A, presented the chapel program, Friday, April 2. Lila Sue Kerr presided as master of ceremonies and Annabelle Daniels read the scripture. Color guards were Thomas Deaver and Bobby Stone.

The orchestra appeared for the first time since they were re-organized, with a well prepared program. Numbers played were Over The Waves, In Apollo's Temple, Country Garden, Jenricksha.

The Junior play cast was introduced by Gloria Goettsche and they presented a few skits from their play.

Conservation Check-Up:
1. Repack front wheel bearings. Prevent bearing wear—results in wheel misalignment and wobbling.
2. Clean spark plugs—regap if necessary. Dirty and worn plugs waste gas.
3. Switch wheels and tires often. Extremely important in gaining maximum mileage for all tires.
4. Examine tires for bruises, cuts, etc.
5. Check oil filter. Important to keep dirt out of motor.
6. Fill battery to proper level. This care helps to prolong battery life.
7. Check oil level. Prolongs engine life by maintaining proper oil level.
8. Complete chassis lubrication. Saves wear. Reduces need for part replacements.
9. Wax and polish to make finish last indefinitely.
10. Drain and refill crank case. Draining out dirty oil and refilling with clean oil will prolong engine life.
It's Spring!
TIME TO CHECK YOUR CAR
For Warm Weather Driving
Motorists! Your country needs your help. Here's how you can be of service. TAKE CARE OF YOUR CAR! Prolong its working life by keeping it in first class mechanical condition. Have The Perryton Motor Co. check vital points of your car's engine, chassis, and body. Save wear, and make it last by giving it regular lubrication. Stretch the life of your tires by having them checked frequently for correct pressure. NEVER FORGET that we must conserve all available rubber and steel at home. So car owners, do your part. The Perryton Motor Co. stands ready to help you. Make a habit of having your car thoroughly checked at regular intervals. Start TODAY!

They Give Their Lives! You Lend Your Money!

We on the home front face one of the most personal challenges of this war to date. That challenge is whether or not we are willing to sacrifice to a sufficient extent to lend our government thirteen billion dollars within the next few weeks.

To do the job, you and I, an deveryone we know, are going to have to dig down in our sock—to dig out some of those dollars we have salted away for a rainy day.

This is a job that has to be done. Sure, we on the home front are feeling the pinch of war. We have gasoline rationing, food rationing, higher taxes and a lot of other little discomforts. But they are nothing compared with the agonies faced daily by our men—men from this community among them—out there on the fighting fronts of the world.

Yes, we know that this constant demand for more money out of our pockets and out of our paychecks—an increasing amount each month—is monotonous. But so is sitting in a fox-hole or lying in a slit-trench day after day, slogging through the hell of a humid jungle or that of Sahara sand.

Our sons, friends, brothers, husbands and others we know are doing that for us. They are facing something more terrible than cutting down on a few things that we once thought were essentials to the American standard of living in order to do it, too. As Secretary Morgenthau has said: "Shall we be more tender with our dollars than with the lives of our sons?"

The Second War Loan is an order to the home front to go on a new offensive. Your dollars are the weapons in this attack. They will make possible the passing of the ammunition to those boys up there in the front lines. To win this war is going to cost more and more money—and more and more lives. But the price of freedom is high. We can not; we dare not let our fighting men down.

You can't let George do this for you. You must pitch in with your dollars. Just kee pin mind those boys in the front lines. They give their lives—you lend your money! Don't wait for someone to come around and ask you to do it. Do it today—and do it until you feel worthy of them.

Quota Restrictions Removed On Tractor, Implement Tires

The farmers' job of keeping tractors and other farm implements opertaing full time on the "food front" has been simplified by two recent actions, which are summarized as follows:

(1) County quota restrictions on farm tractor implement tires have been lifted and farmers may now obtain sufficient tires for farm use by simply applying to their local rationing boards. Local boards have been advised by the Office of Price Administration that substantial district, State and regional reserves have been established on tractor and implement tires. Furthermore, a national reserve is maintained to augment any of the field office supplies of this type of tire.

(2) Restrictions of recapping also have been revised so that farmers may now get their tractor and implement tires recapped with reclaimed rubber without a rationing certificate. It was pointed out that the desire to have farmers recap their tires in time to prevent total loss of worn tire casings was the chief reason for freeing this type of recapping from rationing restrictions. As a move to conserve rubber, replacements will not be issued for tires that can be recapped.

Previously, recapping of rear wheel tractor tires was not required, and replacements were granted even though the tire to be replaced was suitable for recapping; and recapping of implement tires formerly could have been done with a material which contained a large portion of crude rubber.

Tractor and implement tires will now be recapped with Grade F camel back. "Camelback", is any rubber compound designed for application to a worn tire to make a new tread. Grade F contains no crude rubber.

Tomato Important In Victory Garden

Tomatoes are of such great importance in gardens that they are entitled to special consideration at this time, says County Agent E. W. Thomas. The tomato is classified as a fruit rather than a vegetable and as such serves a special purpose in the diet. Nearly everyone likes the fruit and since this section is naturally short on tree fruits the tomato may be well substituted for the tree fruits.

A dozen plants is usually sufficient for a family garden and if well cared for will furnish additional fruit for canning. We believe tomato plants should be put out in the garden right away. The plants should be protected from the wind and from drying out by placing quart cans with top and bottom cut out around them and planting somewhat below the level of the soil. In case frost threatens, the plants may be covered to prevent freezing. Planting should not be delayed until all danger of frost is past as that would place the fruiting season up into the hot summer when fruit usually does not set well on the plants in this climate. Even if the plants should be killed by frost they can be replanted at little expense. Cans around the plants should also prevent cutworm damage.

Cut-worms are already causing damage in town. In case some one overlooked the instructions in last week's garden story, formula for bran mash used in controlling cutworms is given again as follows: 1 quart bran; 1 teaspoonful Paris green or white arsenic; 1 tablespoon cheap molasses; enough water to make a crumbly mash. Sow thinly on the ground late in the evening.

Cameron County n Texas lower Rio Grande Valley is one of the most intensively cultivated areas in the United States, producing citrus fruits in great quantities, beans, peas, tomatoes, broccoli, lettuce, beets, sweet corn, cabbage, spinach and numerous other vegetables, the heavy shipping season extending from October until April.

Loan Rate on Barley and Sorghums Higher

Loan rates on this year's grain sorghums will be from 25 to 32 cents higher than they were in 1942 and barley loans will be from 15 to 20 cents higher.

Rates for farm stored barley are as follows: No. 1 barley, 75 cents per bushel; No. 2, 73 cents per bushel; No. 3, 70 cents; No. 4, 67 cents and No. 5, 60 cents. Farm-stored grain sorghum rates have been scheduled at No. 2 or better, 85 cents per 56-pound bushel; No. 3, 80 cents and No. 4, 70 cents.

Discounts at 2 cents per bushel will apply on grain sorghums and barley grading mixed. If crops are warehouse stored, loan rates are 7 cents less than the farm-stored price.

If stored on farms, loans will be secured by chattel mortgage and if stored in approved warehouses the security will be warehouse receipts. Loans will mature on demand, but not later than April 30, 1944 for barley, and not later than June 30, 1944, for grain sorghums.

L. O. Seedig Heart Victim

The sudden death of L. O. Seedig, age 52, a resident of this county for fourteen years, at the farm home Sunday morning came as a shock to the family and friends. Though Mr. Seedig had been in poor health the past year, he appeared to be greatly improved the past few weeks.

Funeral services were conducted Wednesday afternoon, 3 o'clock, in the home for the relatives and at 4 p. m. public services were held at the Baptist Church. Rev. Ash, Lutheran pastor of Hooker, officiated. Burial was in the Ochiltree Cemetery.

Survivors are the wife and seven children, Pfc. Julius G., Camp Rucker, Ga., Hilda, Adolph, Louis Lee, Bessie, Wilbert and Martha Lou, all at home; four brothers, Emil of Wheeler, John of Taos, N. M., Walter R. of Fillmore, Calif. and Richard of Ardmore, Okla.; three sisters, Mrs. Emma Sonntag, Meridian, Mrs. Lizzie Sonntag, Frisco, and Mrs. Mary Hansen, Boonville, Ark., and many other relatives and friends.

★

SPECIAL ANNOUNCEMENT TO THE PETROLEUM USERS OF THIS AREA!

I have recently purchased the stock and equipment of the Champlin Wholesale in Perryton from D. C. Wilson. It is my intention to give the same efficient service that has been maintained hertofore in Perryton and the surrounding farm territory.

Champlin products are not a new line with me as I have sold them for a number of years, having recently operated what is known now as Smith's Champlin Service. It is my hope that the many customers who are now using Champlin products will continue to do so. If you haven't tried Champlin Products I invite you to give them a trial. For complete car lubrication . . . a spring change over . . . washing and other services go to Smith's Champlin Service on South Main or to Burk's Champlin Service north of the tracks.

If you need Champlin Products of any kind for your farm equipment phone 234.

WESLEY BRYAN, Distributor

Thanks to Customers and Friends!

I take this means of thanking my many customers and friends who for many years have bought Champlin Products from me. It has been a pleasure to serve so many farmers of this area during the time that I have been agent for Champlin Products.

It is my hope that you will continue to give your support to Wesley Bryan the way that you have me. I know the service that Mr. Bryan will render will merit your business. Again we say thanks and hope you all a continued success.

Methodist Ladies Met Sanford Home

The Methodist Woman's Society of Christian Service met Thursday afternoon, April 1, in the home of Mrs. H. C. Sanford.

Mrs. McMillen presided. The song, "I Need Thee Every Hour" opened the meeting. Mrs. Fisher gave the devotional on the theme "What Doth God Require of Thee." In the business session, officers of the executive board gave monthly reports.

Ladies present included Mesdames T. V. Elizey, W. G. Evins, Chas. Garrett, M. L. Brillhart, C. B. Rogers, J. M. Bull, J. W. Richardson, Wm. E. Fisher, H. W. Ragan, Jack Allen, Claud Carmichael, Glen Shrader, Floyd Coffin, Anna Obuch, James Bray, W. E. McMillen, J. W. Chase, Fred Butler and the hostess, Mrs. Sanford.

Wins Praise for WAAC Recruiting

LUBBOCK, Texas.—(Special)—Mrs. Van W. Stewart, county chairman for WAAC Recruiting, and the Ochiltree County Herald were praised today by Lieut. Col. Marvin B. Durrette, commanding officer of the West Texas Recruiting and Induction District, for work done during the past three months in recruiting for the Women's Army Auxiliary Corps.

Without the splendid help of our county chairmen, newspapers and other civilian workers, the WAAC Recruiting Drive for the quarter just concluded, would have been a dismal failure," Col. Durrette stated.

New quotas are soon to be announced for the months of April, May, and June, Col. Durrette said, and it has already been indicated that hundreds more capable women are needed from this district for the Women's Army Auxiliary Corps. Women interested in joining the WAAC were asked to contact either their county chairman nearest U. S. Army Sub-Station, or visit the Headquarters Office of the West Texas Recruiting and Induction District in Lubbock.

Col. Durrette reminded West Texas that the Women's Army Auxiliary Corps is open to all women between the ages of twenty-one and forty-four, inclusive, who are citizens of the United States by birth or naturalization, and have no dependents or children under 14 years

Hospital Notes

Carl Carter underwent an appendectomy Wednesday evening, Mar. 31. He is doing nicely and will probably be able to be moved home in a few days.

Mrs. P. D. Theissen was a medical patient several days, going home Sunday.

Mrs. L. P. Brown of the southwest part of the county entered the hospital Friday. Her condition is improved and she is able to have company.

Tildon Scroggs, Spearman, receiving treatment for a leg fracture, is doing nicely.

Mrs. Oscar Blank, a surgery patient, will probably be able to leave the hospital this weekend.

A daughter was born to Mr. and Mrs. Loren Fausset of Darrouzett, April 4. The child, who weighed six and three fourth pounds, has been named Oleta Marie. The father is serving with the armed forces, stationed at present in New York state.

Mr. and Mrs. O. C. Watson Jr. are the parents of an eight pound son born Tuesday morning, April 6. He has been named Jackson Lawler.

Mrs. E. A. Winters, Booker, entered the hospital for medical care on April 14.

Jesse Lee Moege, Booker, was brought to the hospital Monday. He was severely burned on the arms and legs when a gasoline torch exploded.

Mrs. C. H. Wagnor, Farnsworth, is a medical patient.

L. R. Blair is doing nicely. He is receiving treatments for chest injuries sustained in a truck crash.

The condition of Mrs. Alma Bond remains the same.

C. F. Jones was able to be moved home Tuesday following several days hospital stay.

Mrs. Ben Cooley underwent a major operation Wednesday morning.

Our Defenders Speak!

The Herald asks that men and women from this community serving in the armed forces write letters to this department for publication. Letters to relatives that would be of interest to the public will be published under this heading.

Casual Detachment
4th WAAC Training Center
Ft. Devens, Mass.

Dear Mr. and Mrs. Stewart:

Again I wish to tell you the paper is greatly appreciated. It is the best looking paper I've seen in the past seven weeks. At Ft. Oglethorpe, I looked forward to Mondays mail call, and the Ochiltree Herald.

Coming here was a very pleasant surprise. We were called from class before we finished our basic training. When the orders came we had two hours to pack our barracks bags, they left Friday, but our train didn't leave until Sunday morning. The troop train came to the Fort for us, after we started we only got off the train at Washington, D. C. for drill.

The country was beautiful. We came from the "deep south" where spring was well under way. April showers and flowers to the land of snow and ice. This cold north wind reminds one of Panhandle days. I am surprised to find it so windy here.

We are 35 miles from Boston. The closest town is Ayers and it is two miles away.

I've been assigned to the processing department. That is issuing clothing to the new trainees, we started to work this morning. Eleven of us, and have such a nice Lt. The trainees haven't arrived yet and we will have some class work within the next two weeks. Making out clothing reports etc., then will work with supplies in storeroom.

Last night I heard Jascha Heifetz, he was here at the post.

I enjoyed Ft. Oglethorpe very much, but we were so busy we didn't have time for a thing except drill, classes and eat. Now my hours will not be so long and I hope to be able to take advantage of the wonderful programs that will be on the post.

People are very friendly here on the post. I met a girl working in the post exchange and she said, you are from Texas. I told her "yes, from Perryton" and she went to C. I. A. with Virginia Correll. I was happy to know she knew where Perytron was located.

My best regards to the folks there, and one can't back the Red Cross enough. It is wonderful, and so helpful to all.

I wish you could have gotten some of that Georgia rain.

Sincerely,
Kathryn LaMaster

March 6, 1943

Dear Mr. Sanford:

I thought I would write and tell you my address has changed again. My address will be on the envelope, it is too long to write here.

The last few days I have been looking over this place. It sure is a beautiful place. Tell Mrs. Sanford some of the most beautiful flowers you ever saw grow here, the year round. Everybody has a flower garden here. With the beautiful homes and gardens it is worth looking over. I have visited a few parks and they are pretty.

There isn't much here for a person to do, there is not much to go to when he is off duty. The USO club is small but they do the best they can.

I will write later when I find something to write about.

Yours truly,
Harry Stumpf

Winters, Texas.—"I am being very well treated and am getting plenty to eat. The Red Cross is doing magnificent work and any time you happen to have a little spare cash it would be a good idea to contribute it to same."

Somewhere in North Africa
March 5, 1943

Hello Mr. Stewart:

I have the opportunity to write some here today, so I'll take advantage of it, and try to get caught up. I'm way past due on a few of them, but I think they will understand.

We have been pulled back from the front for a few days rest, and a chance to clean up a bit, and I must say we deserved the cleaning, if not the resting? Most everyone is trying to catch up on their letters home while we are back here, and it really throws a load on the troop censors' neck. I heard him say the other day if the letter writing didn't show a decrease soon he was going to see if he couldn't arrange a twenty-five mile hike each day to help occupy come of this spare time.

Yes Mr. Stewart it was quite a "erumby" bunch that pulled in here the other night, scarcely any of us had had a bath in the past two months, and many, I dare say, had even had their clothing off further than the boots. We only carried one suit of O. D. and a "Zoot Suit" (the "Zoot Suit" is a wool lined over-all suit, complete with helmet and zipper, equipped through-out, and makes excellent pajamas when slipped on right over your regular clothing. So its a matter of adding clothing rather than undressing.) up to the front. Since landing here our barracks bags have found their way back to us, and now everything is lovely once more. The engineer's here have improvised a shower that's a complete knock-out. It surely must take plenty of engineering skill to figure out such a tricky contraption. You get it all regulated, just the right temperature, then "bang" there comes a dash of scalding or ice water, you can never tell which it's going to be until its too late to jump. Oh its a masterpiece alright and seems to partly excuse one's desire to remain filthy, ha! ha!

We are camped here in kind of a mountain pass, and it is pretty well covered with scrub pines. They never seem to get more than about thirty or forty feet in height, but it is really nice looking country compared to some I've seen over here. We have been living the life of Riley since our arrival here, scarcely any duty at all, only a night guard or two, and the regular K. P. duty. Most of the time is spent washing clothes, cutting each other's hair, etc. You should see some of the hair cuts. You'd swear they were turned out with an entrenching tool. But the "old man" says either get it cut or buy yourself a violin, so that's that.

There's an iron mine just over the mountain from us, so I spent one afternoon going over there and giving it the once over. It is shut down now, but the last to operate it was the Heinies, before we came along. It's quite a large affair and is worked on six different levels. Each level seems to have a ledge of some thirty feet or more of iron ore. Rumor says it's a very rich mine, but the problem of getting it to a smelter, is quite grave, especially right now.

Van a few days ago we were camped next to a French cavalry unit and three of us chanced to pass through their camp right at meal time. One of our party speaks French so we stopped and swapped yarns with them for a few minutes. They insisted that we eat with them, at least a steak sandwich and a cup of wine. They had gotten a horse (so we thought) wounded, so were having steak for dinner. I told them it was my first offense at horse meat, but so long as they were baiting their trap with good French wine, that I would spring it for them. It wasn't at all bad, just a little tough, we ate and thanked them "bou coupe," and started towards our own camp, but hadn't gone far until we came across a fresh mule carcass. You could tell it had been a mule from the head and hoofs and I've had a suspicion ever since, that I know where the rest of him went too. Oh well whats the difference so long as I had him pickled in wine? The French asked what we did with cavalry mounts in the States when they got crippled? They seemed surprised that we never ate them.

Mr. Stewart, since we landed here we have never been short on food and ammunition, sometimes it may not have been just what you would have ordered in a "Cafe' de Luxe," but always plenty of it to chase away any hunger you might have. Not all the peoples of this earth could make such a statement. Yes, I'm glad I'm American and growing "gladder" each day. It takes a war to make one realize it I guess. He must see the other half of the world.

The mail just came in and I got three nice letters from Perryton. Now that's the way to fight a war. I had to call time out on this until I could read my mail.

Van I got my Xmas box from home on Feb. 28. I figured it out, it was in the mail 128 days. They completely swamped the shipping centers with packages. I've no doubt that my package had been in Africa since maybe Nov. 15, but they just couldn't handle the Xmas mail any faster. When I did get it, it was delivered to me right up on the front, a most remarkable place to be getting Xmas packages, eh?

Well Mr. Stewart, my papers finally got to me also, I skip a few weeks, then get a bunch of them, but it can't be helped. Anyway they are appreciated when they do come.

I'm out of news (if this can be classed that high) and have some more people on my list, so maybe "more better" I close now.

My regards to all.

Ever,
Sgt. E. W. (Buck) Garrison
1st. Recon. Troop. APO 1.
New York, N. Y.

March 29, 1943

Dear Mr. Stewart:

I want to thank you and the USO for sending me the paper each week. I really enjoy it, and I can tell where my friends are and what they are doing.

Last week when I was in Memphis I ran into Bill Philyaw. He is stationed across the road from the air station. Wilson Brillhart is also over there, but I haven't seen him yet.

We get a lot of flying here and the weather is excellent for flying. We get some night flying and formation flying here but the most of it comes later at Pensacola.

Pensacola seems a long ways off yet actually I'll be sent there in 8 more weeks if I finish on time. I'm looking forward to flying faster and heavier ships.

The training I've been through has really been good as well as hard. In Georgia, physical conditioning was the biggest part on the program and ground school took very little time. We were required to do so much when we entered there, and if you couldn't, you were able to do it by the time you left. Here at Memphis the primary thing is flying and everything else comes next. We have very little time here for relaxation, but there is one evening a week we can go to a show and do as we please.

My new address is.

Av. Cdt. H. D. Hearn
2B Right Wing Sec. 3
U. S. Naval Air Station
Memphis, Tenn.

Yours truly,
A/C H. D. Hearn

March 29, 1943

Dear Mr. Stewart and members of USO:

I received my first paper today and I certainly do want to thank you. I appreciate it, in every way I know how.

I have been in three weeks Saturday, and that means just four more weeks of boot camp. The reason they call it boot camp, is because they treat you like a boot for the first 7 weeks.

We have reveille at 5:30 march all day with a 9½ lb. rifle, and hit the bunk at 9:00. You are really glad to hit the bunk too. I wore holes in my shoes the first two weeks.

If you call your rifle a gun they make you sleep with it. I haven't as yet, though.

I have learned how to wash, iron, make my bunk up and down, sweep, mop and clean a rifle twice a day. We have been practicing with the bayonet, drilling with gas masks in gas, and practicing mock battle the last few days.

We go swimming, play baseball, box and go to a large amount of good shows for recreation.

We see a few stars here at the post. Tyrone Power is here in the Marines. He has been out of boot camp for about three weeks.

I want to thank you again for the paper. It is some of the best news I could get. I am always glad to hear from my dear old home town.

I would appreciate any letter from home, of those who care to write and I will always answer sooner or later. You know you don't have too much time to write, but I will take every opportunity I have.

I signed up for aerial gunner, because I thought I could do more good there than any place else.

Well it is about time for taps so I guess I had better sign off for this time. Give my best regards to everyone in Perryton and thanks again.

Sincerely,
Pvt. Billy D. Patton
U. S. M. C. Plt. 229-R. D.
M. C. B. San Diego, Calif.

Camp Howze, Texas
March 29, 1943

Dear Sir:

I have been receiving the Ochiltree paper every week, and I like to get it. There isn't anything like getting the news from home.

I am in the 309th Engineers Combat Bn., Company A, here at Goodville, Texas.

I am a truck driver in my company. I like my job fine. I expect to get a furlough soon.

Yours truly,
Virgil Lee Holt

In Briscoe County, Texas, which lies partly on high level plains and partly on the Cap Rock escarpment the elevation drops as much as 1,000 feet within the distance of a few miles.

The world price of rubber was 22½ cents a pound before the treacherous Japs seized the East Indies and obtained control of the rich rubber supplies of the Far East.

Today they are offering the rubber for ¾ of a cent to 1 cent a pound . . . with no takers, even by Nippon's Axis partners, because the United Nations blockade has cut off shipping from Singapore.

As an American whose driving has been coupon-rationed . . . *not* because of lack of gasoline . . . but by a serious shortage of rubber . . . be thankful for the blockade which has made the Jap bargain sale of rubber a flop. Be thankful too that there is no U.S. blockade on research.

Long before the war, the Phillips research laboratories, always engaged in seeking new and better things from petroleum, was learning the secrets of synthetic rubber and 100 octane aviation motor fuel.

This knowledge and Phillips great resources of raw materials are now teamed in the war effort.

Our part in winning the war is to expand enormously the production of synthetic rubber and 100 octane aviation motor fuel. Your part is to reduce driving and thus conserve rubber, until midsummer 1944 . . . the date on which Rubber Director William H. Jeffers predicts that with your help" . . . the American people will be over the hump of the rubber problem."

When victory comes, when you can again *PHILL-UP with PHILLIPS* to your heart's content, we confidently promise you that today's concentration on petroleum research will bring you almost undreamed of improvement in Phillips 66 Gasoline.

James Woodworth in Aviation Training

DENVER, Colo., Mar. 30—Private James Russell Woodworth, 19, son of Mr. and Mrs. J. W. Woodworth of Perryton, Texas, has arrived at the University of Denver for a course of instruction to last approximately five months prior to his appointment as an Aviation Cadet in the Army Air Forces Flying Training Command. During this period he will study numerous academic subjects and receive elementary flying training. Upon completion of the course he will be classified as a navigator, pilot or bombardier and go on to schools of the Flying Training Command for training in these specialties.

"They Give Their Lives—You Lend Your Money"

A Week of the War

The German Afrika Korps, retreating up the Tunisian coast toward the Tunis-Bizerte triangle, has been playing a series of delaying actions. Having made a safe exit through the Gabes bottleneck before the American and British armies could effect a junction, Rommel last week turned to make a stand at prepared positions north of Oudref. Attacking Allied forces found their advance hindered by mine fields laid to cover the Axis retreat.

According to OWI Director Elmer Davis, Rommel's withdrawal from the Mareth Line was made under cover of a sandstorm, which saved Rommel from the devastating air pounding the Allies had been prepared to inflict on him and allowed him to get out with most of his material intact. As a consequence, the Afrika Korps will now be in a position to fight a good delaying action, Mr. Davis said, and the more delaying actions it can fight, the longer it will postpone "the eventful invasion of Europe."

Reports of Axis losses so far are incomplete, but Secretary of War Stimson said the Axis has lost large numbers of Germans and Italians killed, several thousands made prisoners, and large quantities of guns, tanks and vehicles. He said that several American divisions are on this front, to take part in the expulsion of the Axis from North Africa, and predicted that before the final phase of the campaign is over there will probably be a great deal of fighting.

Eighth Army Success

The Allied success at the Mareth line—forcing Rommel to abandon his defense system and flee to the north—was attributed, by both Director Davis and Secretary Stimson, to the leadership of General Sir B. J. Montgomery and the skill of the British Eighth Army. Mr. Stimson explained that what forced the Axis retreat was the Eighth Army strategy of sending a flanking force to the rear of Rommel's troops, but said that coordinated operations of American and French troops in Central Tunisia and the British First Army in the north, plus the able support of American and British fliers, contributed substantially to the Eighth Army's success.

All week Allied Air Forces have been harassing the retreating enemy columns, and a cordon of British, American and French ground troops continues to press the Axis forces into an ever-narrowing area in Eastern Tunisia. Through this gap, Secretary Stimson said, Rommel must try to move his forces. And apparently this is what he is trying to do, heading for a union with the Axis forces in Northern Tunisia under Col. Gen. Von Arnim. Union of Rommel's and Von Arnim's troops would give the Axis a strong army in good defensive positions—the defense perimeter of Bizerte.

Reports from the Pacific

The recent conference held in Washington between high commanders from the Pacific combat theaters and the U. S. chiefs of staff brought out valuable first-hand reports of developments in the Pacific. There is evidence, Secretary Stimson said, that Japan is augmenting her front line air strength in Burma, China and the Southwest Pacific, but on the basis of the commanders' reports the Army and Navy are preparing detailed plans for forthcoming operations.

All week Japanese positions in the Aleutians and in the South Pacific have been under attack by American planes. In the North, Navy planes hit at Kiska and at Holtz Bay, Attu Island, and the Army Defense Command announced that American bombers in one attack dropped more than 80 tons of bombs on the uncompleted Japanese runway in the Salmon Lagoon.

To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives—you lend your money.

Waka PTA Hold April Meeting

The Waka Parent Teacher Association met Friday evening, April 2, in the school building.

The program was opened by singing "America the Beatiful". During the business session, it was reported that 19 boxes of paint had been used in repainting the interior of the school house. Delegates were chosen to attend the Twentieth Annual Conference of Parents and Teachers to be held in Amarillo, April 9. They are Mrs. C. A. Igou, Mrs. Harley Elledge, and Mrs. Alan Dennison with Mrs. Sam Jansen as alternate.

The high points of the evening was the entertainment planned by the men of the community. This consisted of numerous songs and stunts, three clever songs were given by Ernest Jansen, Curtis Leicht, Cleo Jansen and Donald Lee Gurley. Three reels of pictures, "Logging in Oregon" were shown in keeping with the scheduled travelog for each meeting.

After the program, the men served pie, cookies and coffee.

• Waka Club

The April meeting of the Waka Home Demonstration club was held April 6, 3 p. m. in the home of Mrs. D. L. Blickenstaff.

Miss Sadie Seward, county home demonstrator, gave a talk and demonstration on tinting and dyeing of materials. Synthetic fibers are hard to dye and if the garments can be worn as is, that is advisable. Dyeing is especially difficult with the mixture of weaves that are now on the warket. Commercial dyers say it is almost impossible to obtain the dyes. The safest is the All Purpose Rit. The first requisite in dyeing is to have the garment clean and it is best to remove the color.

A white elephant exchange was enjoyed. A variety of things were brought ranging from quilt scraps to onion sets. A good report was given by the members who had made cheese. Mrs. Dan Manning was selected as delegate to the District Convention to be held in Amarillo, May 11. It was voted to have a window display in September, using "Preservation of Food" as the theme. The members favored an Achievement Day to be held late in the fall within the individual clubs. Miss Seward gave a report on the Atlantic Charter and the Four Freedoms. As an Easter program, Mrs. Jim Davis read Luke 24.

Refreshments were served to the following: Mesdames J. R. Stump, O. C. Rogers, Lee Carter, Dan Teater, L. R. Conner, Mart Wagner, Philo Harris, Pete Wermske, Walt Preston, Dan Manning, Jim Davis, D. B. Stump, T. E. Miller, M. J. Groves, C. B. Barber, Miss Maude Stump, Miss Sadie Seward and the hostess.

Aid to Enemy

"Any American who wilfully neglects to pay his taxes on time or to invest every cent he can in War Bonds is surely giving aid and comfort to the enemy . . . We have a job to do and we are all called for service to our country. Our dollars are called to service too. Let us all ask ourselves, **'Shall we be more tender with our dollars than with the lives of our sons?'** " — Secretary Morgenthau.

That Extra Something!
...You can spot it every time

THE Civil Air Patrol has recruited more than a third of the nation's 100,000 civilian pilots to fly for national defense. Coming from every walk of life, they are putting forth an extra something to do their trained part. To them and to you, in its own way, ice-cold Coca-Cola offers something extra, too. More than just quenching thirst it brings refreshment . . . refreshment that goes into energy.

Made with a finished art and with a taste all its own, Coca-Cola has quality that sets it apart. Here is something in refreshment that was, and still is, original. Coca-Cola offers all the difference between something really refreshing and just something to drink. There's no comparison.

Even on the ground, pilots know that thirst takes wings when you drink ice-cold Coca-Cola. Refreshment comes to take its place.

5¢

The best is always the better buy!

Wartime limits the supply of Coca-Cola. Those times when you cannot get it, remember Coke, being first choice, sells out first. Ask for it each time.

'Town and Farm in Wartime'

Men Over 38 Will Not Be Discharged

The War Department on March 31 stopped the discharging of men over 38 years old. Hereafter, such individuals will be transferred to an inactive status in the enlisted reserve corps, subject to the following conditions:

The man must request transfer to an inactive status to enter an essential industry, including agriculture, and accompany his request by a statement from the War Manpower Commission to the effect that his release is desired.

The man will be recalled to active duty upon request of the War Manpower Commission.

Tires and Farm Equipment

Tire dealers or persons selling or servicing farm equipment are now entitled to keep on hand a maximum of six rear-wheel tractor tires. Dealers who have the replenishment portions (part B) of rationing certificates calling for truck tires may restock with tires suitable for farm equipment instead.

Gas for School Busses

School bus operators who did not receive revised Certificates of War Necessity before April 1 may obtain supplemental gasoline allowances if necessary, ODT has announced. An appeal form may be obtained from the nearest ODT district office.

Relief for Battery Shortage

Some relief is anticipated in the current farm radio battery shortage, the WPB has announced. Lack of batteries has been acute in those farm areas where radio reception depends solely on battery sets. In some sections of these areas, reports have indicated that as many as one-third of the farm radios have been inoperative due to a lack of batteries.

More Ice Boxes

About 400,000 household refrigerators, 148,847 electric and gas-operated and the rest "ice-boxes," will be available to the general public this spring, according to the WPB. Only those who cannot be served by other types of refrigeration are eligible to buy gas or electric refrigerators, the order provides.

Legal Help for Soldiers

Free legal assistance will be available for all military personnel under a plan sponsored jointly by the American Bar Association and the War Department. Legal assistance offices will be established at each post, camp and station in the U. S. A qualified commissioned officer who is also a licensed attorney is to be appointed by the commanding officer of the post as the legal assistance officer. Volunteer civilian lawyers from nearby communities will help.

Advance Payment of Points

Payment of points "in advance" for home deliveries of butter and cheese by dairymen or salesmen operating mobile conveyances over a regular delivery route has been authorized by OPA. For example, the housewife who on Monday wants a pound of butter left at her home the following Thursday, can give the deliveryman eight currently valid stamps to cover the later delivery.

Ceilings on Veal

Maximum prices have been established for veal at packer and wholesale levels in all parts of the country as the government continues its nation-wide campaign to protect housewives against excessive prices and black markets. Veal is outranked only by pork and beef in national meat sales.

Reclassification of Manpower

The Bureau of Selective Service of the War Manpower Commission began on April 1 to reclassify registrants in certain activities and occupations designated on February 2 as "non-deferrable" regardless of dependents. This order affects only registrants of military age.

2,000 Sacks of Army Mail Lost

Through enemy action more than two thousand sacks of U. S. mails carried on United Nations ships and destined for American soldiers overseas in recent weeks have been lost, the Army postal service reports. In making this announcement, the War Department said that the loss of these mails was a striking illustration of why V-mail should be more fully utilized in communicating with soldiers overseas since 30,000,000 pieces of such mail have been handled thus far without the loss of a single letter. This is made posible by holding the originals at the ports of embarkation until the duplicate copies arrive safely at their overseas destinations.

Ceilings on Used Vehicles

Used commercial motor vehicles have been brought under price control by OPA. By establishing ceilings at a percentage of the value of the vehicle when new, the new regulation is expected to halt the activities of speculators which have resulted in some instances in prices that are 200 per cent or more over the normal value of the used truck.

Farm Trailer Shortage

An increasing shortage of trailers to handle farm produce is reported by the truck trailer industry advisory committee. The need for trucking facilities to transport farm products is now pressing in some sections of the country and will increase with the coming of warm weather and harvesting. The committee pointed out as an example the situation in Texas where there are some 2,600 towns not served by any railroad.

Price on Baked Goods

Housewives who buy pastries, doughnuts, pies, cakes and sweet yeast raised goods from producers who sell direct to ultimate consumers may expect to see a printed retail ceiling price on the wrappers. The price is now required to be printed on the package or wrapper.

More New Cars

A quota of 38,000 new passenger automobiles was set by the OPA for rationing in April. By states, the quotas include 2,690 for Texas, 650 for Oklahoma and 578 for Louisiana.

Increase in Bicycle Quota

A quota of 88,200 new bicycles for rationing in April was announced by OPA.

Textiles "Essential"

An order establishing textile yarn and fabric as "essential" for military and civilian needs and classifying important positions in cotton, wool, and rayon plants as "necessary" will soon be issued by the War Manpower Commission. The cotton fabric and yarn industry has been urged to increase its 1943 production by at least 10 per cent.

Transportation Rumors False

Rumors now circulating to the effect that the Office of Defense Transportation intends to apply priorities to civilian train and bus travel are completely and entirely false, says Joseph B. Eastment. However, passenger transportation facilities are under severe strain, and people who have no real need to travel should stay off trains and buses.

More Can Openers

Production of can openers for civilian purposes will be more than twice as much as previously allowed. The quota, previously held to 85 per cent of the base period rate including Army orders, has been increased to 50 per cent, not including military requirements.

Reduced Vehicle Speeds

State support of the nation-wide 35-mile limit has effectively reduced motor-vehicle speeds on rural roads. Fifty-three percent of all cars still travel in excess of 35 miles per hour; ninety-one per cent were exceeding this limit about a year ago. Rationing had little effect on speeds, but the appeal for a 40-mile limit about a year ago reduced average pasenger-car speed from 47 to 44 miles per hour. The federal order for a 35-mile limit, effective last October, brought the average down to about 37 miles per hour.

The Circus is Coming

The ODT has issued a general permit authorizing railroads to transport the employes and property of circuses, carnivals, or similar shows in railway cars owned or leased by the circus or carnival companies. The first movement under the general permit was that of Ringling Brothers-Barnum & Bailey combined shows, which left its winter quarters at Sarasota, Fla., on March 29.

One of Texas' oldest counties is Bexar County, which was created in 1836 and organized the following year.

New Lunch Program Spreads

COLLEGE STATION — Nineteen Texas counties have changed from the old method of operating the school lunch program to the new indemnity program offered by the U. S. Department of Agriculture, E. L. Upshaw State Food Distribution representative has notified the A. and M. College Extension Service. Organization meetings have been held in 107 other counties.

Bastrop, Blanco, Brazos, Callahan, Clay, Denton, Eastland, Henderson, Leon, Palo Pinto, Parker, Rains, Scurry, Smith, Somervell, Tarrant, Travis, Wichita, and Wise are the counties in which the new payment plan was operating late in March. Schools in these counties will purchase for school lunches, locally or otherwise, foods designated by the Food Distribution Administration. The USDA will then reimburse the schools up to a specified amount for each child.

Under the old plan of operation, foods were purchased by the FDA and distributed to schools through the state welfare department. Upshaw estimates that more than 10,800 children are getting school lunches in the 19 counties operating under the new program.

Leaflets explaining the new plan recently have been sent to all county home demonstration agents in the state so they may help acquaint rural people with the program, says Bess Edwards, assistant state agent of the Extension Service. Home demonstration clubs and other groups are providing labor, fresh and canned foods to many lunch room projects in order to assure adequate noon meals for the school children.

Mrs. Willie Belle Wilson, field representative of the FDA, and Miss Gladys Short of the Homemaking Division, State Department of Education, are assisting local schools in setting up the new community school lunch program.

000; and Hutchinson, a rich industrial county with enormous war industry payrolls, $219,000, only $20,000 more than Ochiltree county.

We do not know what kind of a yard stick they used to arrive at these quotas. If it was money and the ability to buy bonds, we feel that they've got us a little high. If it was measured on patriotism and the desire to go all-out for the war efort, then they were right in giving us such a high quota, for we honestly feel that with but few exceptions, Ochiltree county folks are 100 per cent on the "Home Front."

They gave their lives. Are you lending your money? This is war!

Even got a little interest stirred up in a city election. With the mayor, city clerk and two aldermen on the ballot for reelection, things warmed up late Tuesday afternoon when a write-in threat caused the mayor, his very self, to start hustling voters to the polls. But at that only 125 votes were cast. Not so hot, eh!

It's easier to buy a Second War Loan Bond today than to think of one good reason why you couldn't.

More power to F. B. Sumpter and the members of the Ochiltree and Lipscomb National Farm Loan Associations in their fight against the scuttling of their profits, dividends and control of their farmer owned loan organizations. The war is certainly giving the power crazed bureaucrats the opportunity for more and more centralization in Washington. If the government with its ever increasing loan agencies and more and more going into competition with private business doesn't call a halt, there will soon be no business to pay taxes for the politicians to fight about.

Our enemies are fighting for all they're worth. Of your own free will, are you? Buy Second War Loan Bonds today.

No. 5 Continued from Front Page

per share of $5. Most of the associations of Texas have been operated successfully under the management of the local boards of directors, even through the depression and drouth, and the Federal Land Bank of Houston is in better financial condition than any Federal Land Bank in the United States. It has a surplus of over $30,000,000, and there is danger of the borrowers losing this surplus if some action is not taken soon.

There is also a matter of paying dividends on stock, which has not been done for years, contrary to the agreement when the associations were organized.

Everyone who can possibly do so should make up a car load and attend these meetings. Plans are being made to have some very able speakers at both meetings.

—FOR VICTORY! BUY BONDS—

Wes Bryan Buys Champlin Wholesale

Wesley Bryan announced this week the purchase of the Champlin Wholesale distributorship from D. C. "Dude" Wilson. Mr. Bryan, in taking over the property and franchise for the distribution of products of the Champlin Refining Co. in this area, is planning on enlarging the facilities. He has already puchased a large transport truck and contemplates other improvements that will enable him to better serve his filling stations and the farmers of this community.

In retiring from business life in Perryton, Mr. Wilson states that his plans are to continue residing in this city, devoting his time to farming interests in Ochiltree and Lipscomb counties.

Mrs. Edna Watson left Friday for a ten day visit with relatives in Pampa and Hereford.

Ask Me About My Business

CECIL DODD

No. 1 Continued from Front Page

In other words, you, and you must go on an all-out war basis.

There are at the present time many billions in liquid funds—cash and commercial bank deposits—in the hands of the American people over and above taxes, debt repayment, insurance and their present investment in Government bonds . . . over and above what they can buy this year because of the restrictions or unavailability of consumer goods. This may amount to as much as $40 billion this year.

It should be the objective of every American to invest these "loose" billions in Government securities. Now, during this Second War Loan, is the time to invest liquid funds from both current income and from past accumulations in your Government. This Second War Loan makes available to you a type of security for every pocketbook.

This is not only a patriotic duty, but a duty to yourself as well. Every dollar which you have available now and do not invest in Government securities is a "wild" dollar which may, together with its billions of brothers, turn into a Frankenstein which will raise your cost of living to the point where your dollar will be worth no more than the paper it is written on. In short, this loose money is likely to be the cause of a wild inflation that will sweep away your savings and send the price of a loaf of bread beyond what you now make in a year. It can't happen! It did in Germany! And that could happen here.

On the other hand, the dollar loaned to your Government will work for you in three ways: (1) it will help hold down inflation because it will be harnessed to war work; (2) it will help buy the food, the transportation, the munitions that our boys out there in the front lines need to win the good fight, and (3) it will be earning interest that, together with your original loan, will come back to you later to help you buy the things you can't buy today—to insure your piece of the future.

So let's not quibble about it. Let's not shilly-shally and debate. Let's dig down into our pockets; let's root those dollars out of the dark today and invest them in this Second War Loan. Remember those boys out there. They give their lives—you lend your money.

WAAC Recruiters Here Today

United States Army recruiters will be in Perryton this afternoon, Thursday, April 8, from 3 p. m. to 7 p. m., to interview and enroll young women in the Women's Army Auxiliary Corps. These recruiters will be at the courthouse and will furnish information on the work and qualifications for enrollment in the WAACs.

Many opportunities are offered women between 21 and 44 years of age, inclusive. As an enrolled member of the WAAC, you will receive the monthly pay of comparable grade in the Army. Any enrolled member of the WAAC will have an equal opportunity to compete for appointment and attendance at Officer Candidate School. All officers candidates are now selected from the ranks of enrolled members.

Application blanks and information may also be obtained from the county committee. Members of the county WAAC Volunteer Recruiting Committee are: Mrs. Van W. Stewart, chairman; Mrs. G. W. Acker, vice chairman; Mrs. Cecil Dodd, secretary; Mrs. Sibley Jines, Mrs. F. B. Sumpter, Mrs. A. L. Carter and Miss Sadie Seward.

2ND WAR LOAN

No. 2 Continued from Front Page

deemed at par and accrued interest, after six months from purchase date upon 30 days' notice. May be used as collateral for loans from banking institutions only. May be purchased in unlimited amount by any individual, or bank, corporation or other entity. Funds invested in these notes will reduce future tax loads, earn a return as long as money remains invested, up to maturity, assure that tomorrow's taxes are taken care of and supply the Treasury with funds now to meet current war costs.

Treasury Certificates of Indebtednes: Dated April 15, 1943, due April 1, 1944, paying 7/8 per cent. This security will be available for subscription by commercial banks for their own account for the first three days of the drive, namely, April 12, 13 and 14. They will be available for subscription by all other classes of investors during the entire period of the drive. Sales to commercial banks will be limited to $2,000,000,000 or thereabouts. Applications from commercial banks up to $100,000 will be allotted in full and larger bank subscriptions on an equal percentage basis, and all applications from other than commercial banks will be allotted in full. The certificates will be in denominations $1,000 to $1,000,000 and will be issued in coupon form only.

Two per cent Treasury Bonds: Dated April 15, 1943, due September 15, 1952, callable September 15, 1950. This security will be available for subscription by commercial banks for their own account for the period April 28, 29 and 30 It will be available for subscription by all other classes of investors for the entire period of the drive. Sales to commercial banks will be limited to $2,000,000,000 or thereabouts. Applications from commercial banks in amounts up to $100,000 will be allotted in full and larger bank subscrptions on an equal percentage basis. All applications from other than commercial banks will be alloted in full. These bonds will be in denominations of from $500 to $1,000,000 and will be issued in coupon or registered form at the option of the buyer.

Twenty-six Year 21/2 Per Cent Bonds: Dated April 15, 1943, due June 16, 1969, callable June 15, 1964, to be issued in coupon or registered form at the option of the buyers. Commercial banks, which are defined for this purpose as banks accepting demand deposits, will not be permitted to oun these bonds until April 15, 1953. There will be no limit to the amount of this issue and no restriction upon the issuance excepting the temporary exclusion of commercial banks from ownership for their own account. Subscription books will be opened April 12 and will remain open several weeks. The bonds will be sold in denominations of from $500 to $1,000,000.
