A BODY IS FOUND

Proved to Be That of Alfred Berry of Hamilton Murdered Within the Past Two Weeks.

The badly decomposed remains of a man were found yesterday morning buried in the cotton seed in one of the large cotton seed storage sheds at the oil mill. The body has since been positively identified as that of Alfred Berry, a young man about twenty-five years of age, whose residence was at Hamilton and who was raised there and where his mother and sister now reside.

The body was discovered by a negro workman who was at the time engaged in oiling a long seed conveyor, which extended from one end of the shed to the other up near the roof. The seed was piled up nearly to the conveyor. When the nergo jumped off the conveyor into the seed his foot struck some object which he took to be an old shoe. It was, but when he attempted to pick it up he found it was on the foot of a dead body. The nergo at once reported the matter to the oil mill officials and they to Justice J. G. Conner, who immediately went to the scene and held an inquest resulting in a verdict that the man had been murdered.

His forehead had been crushed in by a heavy blow from some blunt instrument, supposed to have been the broken off handle of a cotton seed shovel which was found near by in the seed. One of the hands of the unfortunate man was grasping a handful of cotton seed, making it apparant that the deed was committed where the body was found, as the blow on the forehead evidently was followed by almost instantaneous death. The body was in such an advanced state of decomposition that the features were unrecognizable. It was dressed in working garb with a heavy blue duck jumper and overalls as though he was at work or had intended to go to work. In the jumper pocket was found a letter from a young lady at Hamilton addressed to him at Stamford and bearing the Stamford postmark "7 p. m., November 23rd," indicating that he could not have reached Dublin ealier than the 24th and that the murder has of course been committed since then. Another letter from his sister written previous to the one mentioned was also found.

Justice Conner took charge of the remains and immediately 'phoned a description of the body to parties at Hamilton, resulting in an immediate claim of the body as that of Alfred Berry, who was the head of a little family consisting of mother and sister and himself. He was a young man of exemplary habits, industrious and hard working and had lately been at work in the oil mill at Stamford, having gone there from Hamilton in October, but late in November he had written home not to write him further at Stamford, as he was going to Oklahoma.

The body was tenderly laid in a neat coffin yesterday aftrenoon and sent across the country to Carlton, where parties from Hamilton were to meet and carry it on to that place.

There is not so far what may be called a definite clue as to who the perpretrator of the awful crime was, but some of the employes of the mill have a theory that it was a mulatto negro whom they think came with Berry from Stamford.

Some of the mill men recall that about November 23rd or 24th a man answering, as well as they recollected, the description of the murdered man, came into the mill accompanied by an apparantly very shrewd mulatto negro, who said they had been working at Stamford and that the white man was going to Hamilton to get some money that was coming to him. The white man had a grip and they asked for permission to leave the grip in the engine room and to sleep in the seed house. This request, which is not an unusual one, especially upon cold nights as this one happened to be, was granted with the provision that they take no matches in the house and both men are said to have taken a number of matches out of their pockets and left them in the engine room, before going to the seed house. The white man was never again seen but the negro returned and got the grip.

It is believed that this negro killed him, probably while he slept, and robbed him of his money. When found there was but three nickles in his pocket.

News of Eastern War.

The Japanese are still slowly advancing upon Port Arthur, the latest forward movement being the capture of what is known as 203-metre hill which gives the Japanese land batteries a sweeping range of the harbor. Since this was accomplished two of the crippled Russian battleships within the harbor have been sunk by the Japanese fire and all the other vessels in that port more or less injured. The Japs also continue to shell the surrounding promontories and fortifications, inflicting much damage.

The situation on the Shakhe river remains unchanged and brief conflicts are occurring each day all along the twenty-five mile front of the two armies. The Japanese soldiers are building houses along their front, which would indicate their expectation of a winters stay at that point.

In the meantime the Russian Black sea fleet is each day drawing nearer to the scene of hostilities and the Japanese are rapidly putting everyone of their floating craft in the best fighting condition preparatory to dealing to the enemy their best licks as soon as the Russians arrive. They are also rapidly landing large quantities of ammunition, clothing, medicine, food and other stores on the Manchuria mainland in order to make the army independent of communication with Japan. It is said but not confirmed that the Japanese lost fifteen thousand killed in the fighting at 203-metre hill.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

222 South Peoria St.,
CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Georgia Dunbar

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?

WINE of CARDUI

WHAT IS OSTEOPATHY?

Osteopatny is a system of treating disease, without drugs, by the use of the hands, to adjust all parts of the human mechanism to perfect mechanical relations. It is that science which finds in disturbed mechanical relations of the anatomical parts of the body the cause of disease, and which is employed to cure disease by applying technical knowledge and high manual skill to the correction of all disturbed relations occurring in the mechanical arrangement of the body. It is a science founded upon the principles of anatomy and physiology.

Our method is one of common sense. If your watch fails to keep correct time, you know that its parts are out of adjustment. If your body does not feel or work as it should, its muscles, nerves, bones or vessels are out of their normal condition. Fix the body as you would the watch, and health will be the result." This is Osteopathy. This method of examination and treatment will cure often when others have failed. It has cured thousands who had been given up as incureables by other systems of treatment.

Do not confound Osteopathic practice with any of the methods that aim to reach and cure disease through the patients mind. Our work is wholly with the body, dealing directly with bones muscles, nerves and vessels, and bears no relation whatever to Christian Science, magnetic healing, mind cure, hypnotism or or any like cult. As many people do not distinguish between our science and these methods, we feel warranted in putting special emphasis on the fact that they are utterly opposed.

Osteopathic treatment is particularly adapted to female complaints, including painful, suppressed or excessive menstruation. Here positive results are promptly shown, and the treatment is given with the least possible annoyance and no suffering. We almost invariably find some interference with the blood or nerve supply causing lack of tone in the supports of the organ, rather than affectation of the organ itself. It has truly been said that Osteopathy is the greatest boon of the century to womankind. Every woman ever treated by it for female troubles received benefit, and the record shows that more than ninety out of every hundred were completely cured.

CURES.—Among the many diseases sucessfully treated by Osteopathy we mention the following: Asthma, Atrophied Limbs, Bright's Disease, Bronchitis, Chronic Diarrhoea, Constipation, Catarrh, Cold Extremities, Dropsy, Eye Troubles, Flux, Female Troubles, Granulated Eye Lids, Debility, Goitre, Gall Stones, Headache, Hay Fever, Heart Disease, Irregularities of the Heart, Indigestion, Insomnia, Lumbago, Liver Troubles, Nervousness, Neuralgia, Piles, Pain in the Back, Paralysis, Rheumatism, Stomach Troubles, Sciatical, Stiffness of Joints, St. Vitas Dance, Spinal Curvature, Throat Troubles, Torpid Liver, Varicose Veins. We frequently cure these and other ailments after every other known remedy has been tried and failed.

PRINCIPLES.

1. The frame work must be perfectly adjusted.
2. The circulation must not be obstructed.
3. We must have a free and uninterrupted circuit between the brain and each organ and muscle of the body.
4. By stimulating, or desensatizing, certain nerve-centers, the action of the heart, stomach liver, bowels, kidneys and other organs may be easily controlled.

Has a patient ever been injured by Osteopathy? We answer, that while many thousands have been cured or benefitted by the treatment, we have never heard of a single instance in which a patient was injured.

When we take into consideration the fact that nearly all cases treated by the Osteopath are chronic, in which nearly every other known method of treatment has been tried and failed, the results obtained by Osteopathic treatment are indeed surprising.

Letters to Santa Claus.

Letters to Santa Claus should reach us not later than Wednesday noon to insure insertion in the paper for Friday of the same week. They should be addressed to Santa Claus, Dublin, Texas, in care of the Progress. We shall try to see that all are published when received in time. The little folks are requested, however, to be brief in their remarks and to try to write their letter in full themselves, at least to word it—but write plain as possible.—Editor.

School Superiutendency Muddle.

State Superintendent Lefevre has ruled that the action of the late commissioners court in creating the office of county spuerintendent of public instruction and appointing Judge Franks to that position was illegal and that he recognized County Judge Thompson as ex-officio superintendent. Judge Thompson has appointed the following board of examiners for the year: Profs. Tummins of Lingleville, Odie Wright of Dublin and — — Wharton of Alexander.

There is some talk of litigation regarding the action of the state superintendent, Judge Frank contending the action of the court was regular and clearly within their domain.

WHEN THE KIDNEYS ARE AILING.

The Urgent Need of Prompt Restorative Measures is Something That Every One Should Understand.

"A Stitch in Time Saves Nine."

Slight disorders in the kidneys or urinary organs are more serious than most people think. The first warning symptoms should receive prompt medical treatment to ward off Bright's Disease or some other dangerous malady. When the kidneys are ailing and the symptoms become sufficiently pronounced to be noticeable the condition calls at once for prompt measures to stay the progress of the disease. Prickly Ash Bitters is the remedy needed. Taken on the appearance of the first symptoms, such as pain in the back, puffiness under the eyes, irregularities in the urine, digestive disorders, it will save the victim incalculable misery and suffering, mental torture and expense. Used at the beginning of the trouble it cures quickly. Used in the more advanced stages it will win back health and strength as rapidly as circumstances will possibly permit.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 3 in red on the front label.

W. H. Armstrong, the veteran gin man of Dublin, declares that he has served his time in the gin business and that he has now retired and will go on the farm. In pursuance of this object Mr. Armstrong closed his gin last Saturday after an agreement with Mr. Rosamond to finish the crop here and he has since purchased a farm of one hundred acres three miles south of town from W. H. Pipes, for a consideration of $3,000. He says his gin is now for sale and that he will move to his farm and make a crop next year. Mr. Armstrong has been in the gin business here since 1879, a period of twenty-five years, and in that time has ginned about 75,000 bales of cotton, of which 2,942 were ginned this year. There has never been and doubtless never will be another gin man in this section so popular with all the people and with the cotton raisers in particular as "Bill" Armstrong. We hope that his shadow may never grow less and that he may meet as large or larger a measure of success on the farm as he has in the gin.

KILLS CATARRH GERMS.

Breathe Hyomei and Be Cured of Catarrh—Costs Nothing if It Fails.

Breathe Hyomei for a few minutes four times a day, through the neat pocket inhaler that comes with every outfit, and benefit will be seen at once. Continue this treatment for a short time, and your catarrh will have been cured by Hyomei.

There is no roundabout way in Hyomei's medicinal action; it does not try to cure a disease of the head by putting medicine in the stomach. It fills the air you breathe with balsamic healing, that soothes the irritated and smarting membrane, destroys the germs of catarrh that are present in the head and throat, and this is the only treatment that can be relied upon to cure.

When using Hyomei the air you breathe will be like that on the level, filled with volatile, antiseptic fragrance that heals and cures the irritated mucous membrane of the air passages.

This treatment has been so successful, curing ninety-nine per cent of all who have used it, that Hyomei is now sold by Overton Drug Co. under an absolute guarantee to refund the money if it does not benefit. You run no risk whatever in buying Hyomei. It it did not possess unusual powers to cure, it could not be sold upon this plan.

The complete Hyomei outfit costs $1.00 and comprises a hard rubber inhaler, a bottle of Hyomei and a dropper. The inhaler will last a life time; and additional bottles of Hyomei can be obtained for 50c.

Carrie Nation says she is fighting intemperance. Carrie, like some other people, needs to first remove the mote from her own eye. Her methods are very intemperate, to speak temperately.—Glen Rose Herald.

The Herald received a check a few days ago for $7.50 from a subscriber in another county with instructions to credit the amount on his subscription. As he was a little less than one year in arrears his account now stands paid to the year 1910.—Hamilton Herald.

The San Angelo Standard says: The Jeff Davis case, wherein Mr. Davis is charged with murdering Mr. Smith several months ago on the line of Coke and Nolan, while acting in the capacity of deputy sheriff, resulted in a mistrial at Sweetwater last week.

As near as we can estimate, the vote of the several counties of this (twelfth) congressional district will be as follows in the convention of 1906: Comanche 5, Erath 6, Hood 2, Johnson 7, Parker 6, Somervell 1, and Tarrant 14.—Glen Rose Herald.

The Abilene Reporter remarks' "We approve the resolution introduced at the meeting of the national irrigatoin congress at El Paso asking that congress include Texas in the list of states that may benefit from the national irrigation funds; one urging legislation appropriating funds to the creation of additional forest reserves, and another repeating and emphasizing the resolutions of previous congresses in favor of consolidating all goverment foresty work in the department of agriculture." Yet, the Reporter's democratic governor of Texas slapped the irrigation congress in the face while it was meeting within Texas territory. The incivility shown by Gov. Lanham was equal to Vardaman's show of discourtesy.

Mose Arnold, sentenced last week to seven years in the penitentiary for killing Shirley Stewart, decided not to appeal. Sheriff Sandlin, of Hood county, was here after Arnold Saturday and took him to the Steiner Valley convict farm above Whitney.—Glen Rose Herald.

The San Angelo Standard says: R. M. Stephens of Miles was in the city this week. While here Mr. Stephens closed a contract with Willis Johnson for the extermination of all prairie dogs in the Crows Nest and Rivers pastures, comprising about forty thousand acres.

The Carbon Herald says, Mrs. J. A. Heron narrowly escaped being burned to death last Saturday evening. She was helping dress some pork when her dress caught fire by the pot. The flame ran as high as her waist but was soon extinguished by Mr. Hearn and Porter.

The San Angelo Standard says Rev. Jesse W. Siler bagged a large, blue crane Wednesday morning while out hunting on the Sherwood road near that city. The bird's wings measured six feet from tip to tip. Rev. Mr. Siler will keep the pretty wings of the huge "balearica pavonia" as a trophy of the hunt.

The Chronicle says that Cleburne, under local option, has eleven "joints," but the state, county and city don't get anything out of them; while under the license system Cleburne had twelve saloons that paid $7,500 per year to the state, county and city. Will Nichols who lives about four miles south of town on the Bosque, had his barn destroyed by fire last Tuesday night. HAPPY CHILDHOOD.

Right Food Makes Happy Children Because They are Healthy.

Sometimes milk does not agree with children or adults. The same thing is true of other articles of food. What agrees with one sometimes does not agree with others.

But food can be so prepared that it will agree with the weakest stomach. As an illustration—anyone, no matter how weak the stomach, can eat, relish and digest a nice hot cup of Postum coffee with a spoonful or two of Grape-Nuts poured in, and such a combination contains nourisment to carry one a number of hours, for almost every particle of it will be digested and taken up by the system and be made use of.

A lady writes from the land of the Magnolia and the mocking bird way down in Alabama and says: "I was led to drink Postum because coffee gave me sour stomach and made me nervous. Again Postum was recommended by two well known physicians for my children, and I feel especially grateful for the benefit derived.

"Milk does not argee with either child, so to the eldset aged four and one-half years, I give Postum with plenty of sweet cream. It agrees with her splendidly, regulating her bowels perfectly although she is of a constipated habit.

"For the youngest, aged two and one-half years, I use one half Postum and one half skimmed milk. I have not given any medicine since the children began using Postum, and they enjoy every drop of it.

"A neighbor of mine is giving Postum to her baby lately weaned, with splendid results. The little fellow is thriving famously." Name given by Postum Co., Battle Creek, Mich.

Postum agrees perfectly with children and supplies adults with the hot, invigorating beverage in place of coffee. Literally thousands of Americans have been helped out of stomach and nervous diseases by leaving off coffee and using Postum Food Coffee. Look in each package for the little book, "The Road to Wellville."

Gallon of Salt Water in His Veins.

Maurice Crews of Ballinger well known here as a base ball pitcher, had a terrible accident at Ballinger Saturday night. A wagon load of young people were out hay riding and the wagon struck a stump throwing Crews out and both wheels of the heavily loaded wagon passed over his body. For several hours small hope was entertained for his recovery, for his heart had been wrenched considerably out of place and he was frightfully injured otherwise internally. The physicians used every means possible to save him and it is thought now he will recover. One gallon of salt water has been injected into his veins. Brownwood News.

BLOOMING GROVE, TEX., Nov. 13, 1902.
I was suffering terribly with indigestion and kidney trouble and sent to my druggist for something to relieve me.
In lieu he sent me a package of Dr. Thacher's Liver and Blood Syrup I concluded to try it, and now I am deeply grateful to my druggist as well as to you.
I had been a sufferer from these things and general run-down condition for ten years, and had only received temporary relief from other medicines. I feel no symptoms whatever of kidney trouble, and my digestion is as good as any living man's. I can now eat whatever I choose.
I never had any remedy give me such quick and permanent relief, and I can not put a correct estimate on the value your medicine has been to me. I would not take any amount of money for it. Very gratefully yours

Mr. Ely Herndon, one of the most generally popular young men who has ever resided in Dublin, returned last week from an extended trip to Roswell, New Mexico, at which place he has for some time been managing a lumber business for his brother, J. B. Herndon, and in which he also owned some stock. Mr. Herndon become dissatisfied with the lumber business in that section and has purchased the interest of Mrs. Will McCampbell in the thriving grocery business of McCampbell & Sons and will hereafter be identified with that institution which will hereafter be known as McCampbell & Herndon. The McCampbell grocery business has for a long time been one of the foremost, and the addition of the energy, popularity and capital of Mr. Herndon will without any doubt be an additional stimulant.

R. W. Talley of Clarendon is here this week with a car load of Colorado apples for sale direct to consumers. Mr. Talley was a citizen of Dublin about fourteen years ago, having come to this place from Tennessee. After remaining here about two months he removed to Proctor and built the first business house erected in what is now known as the new town of Proctor and in this building he opened a general merchandising stock with his brother under the firm name of Talley Bros. Two years later their business was swept away by a disasterous fire, after which they did not rebuild.

The supreme court at Austin granted the application of A. L. Douthit for a writ of error and the case is set for December 8th, says the Glen Rose Herald. The court made this notation in granting the application: "We think the undisputed testimony shows that the boy did not 'remain' in the saloon within the meaning of the statute." This is a case where the state had secured judgment against a liquor dealer for permitting a minor to remain in his place of business but the court inclines to think the testimony does not support the verdict. Douthit is very well known in Dublin and formerly resided here.

Edmonds' Studio

A Texas Affair.

Friday, December 2nd, as the "shades of night were falling fast" an unwonted throng might have been seen along Dublin's great thoroughfare, Patrick Street. This night equipped for some a pleasant oasis in the busy expanse of duty and business. It budded and blossomed in the home of Mr. and Mrs. J. R. St. Clair whose unfailing kindliness has always a welcome for the coming guest. The dark plumes of the night were thrust aside by the electric stars throwing their brilliant light on hall and colonade to typify the warmth of greeting awaiting the members of the Woman's Thursday Club, their escorts and a few other friends and relatives.

Within chrysanthemums lingered to lend their color and fragrance to the vernal green of asparagus and fern. From a window a Lone Star flag bore silent witness to the subject of the evening. Thoughtful ingenuity had devised for Texas' sons and daughters an entertainment wherein Texas should be the theme of information and glorification.

The queenly president, Mrs. Rufus Higginbotham, called upon each club member present to contribute to the general fund by a "talk," oral or written, on selected subjects.

Miss Caswell discoursed on the forests of Texas: Mrs. Flack spoke of the rivers and bays: Miss Herndon told excellently of the schools: Mrs. John Higginbotham set forth the wealth of production: Mrs. Farmer and Miss Pearl Moore, the ever-willing and efficient musician, sang "The Hymn of the Alamo;" Mrs. Parker talked on the abundant growth of manufactures; Mrs. Spencer feelingly recited "The Alamo;" Mrs. Reese gave an excellent account of the principal cities and towns; Mrs. Lattimore wrote of the flowers of Texas and also of its literature; Mrs. Wasson read a rarely humorous and appropriately, Shakspearian paper—awhile on Texas, awhile on the members of the Thursday Club, giving to each one her portion from Hamlet.

The partners for the evening were determined by giving out slips of paper containing names of Texas counties and others having their capitals. After such a feast of reason and flow of punch came refreshments more substantial, prettily arranged and charmingly served. Here also the Lone Star idea was mantained. The five pointed cakes and wafers, as well as the star of violets occupying the center of the table, betokened the loyalty of a fertile inventive talent.

Having admired and eaten, and eaten and admired, the guests betook themselves to the parlors and each received a pretty decorated booklet of punning questions on Texas towns. A reward of a beautiful white silk star shaped sachet, painted with violets, the club flower, was given the successful solver.

Next, each participant obeyed the direction to write a description of his partner. Amid much merriment, these compositions, more or less witty and correct, were read aloud, each couple standing together as they read. The vote for having the best was given to Mr. C. G. Foust, who may hereafter carry about with him a handsome shopping bag, having the letters W. T. C. burned on it.

The "wee, sma' hours ayant the twal" were approaching and each guest in departing gave hearty expression to his appreciation of the pleasures of the evening.

The whole evening was blessed with the presence of the venerable mother of the hostess, Mrs. L. A. Higginbotham, and enlivened by the sweet litle daughter, Julia, whose blue eyes did contrive to keep open to the last.

Those present were Misses Caswell, Herndon, Moore, May Williams; Mesdames Jackson, Fry, John Jordan, Harrit Wasson, Will Wasson, Farmer, Parker, Flack, Lattimore and Rufus Higginbotham: Mr. and Mrs. Joe Higginbotham, Mr. and Mrs. John Higginbotham, Mr. and Mrs. Elbert St. Clair, Mr. and Mrs. Jepp Reese, Mr. and Mrs. J. H. Latham, Mr. and Mrs. D. L. Harris, Mr. and Mrs. R. B. Spencer, Mr. and Mrs. C. G. Foust, Mr. and Mrs. Akard and James Jackson.—One of 'Em.

Saved $70 by using Devoe.

One of those painters ought to have got that money. Yours truly,

OTHER WORLDS.

Our sole knowledge of the people on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "KNOW THYSELF" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to **teach** the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is *absorbed* and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy state. If disease of the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these *signs* may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, by reason of the nerves not being fed on pure blood, they become starved, and we receive a *warning* in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that an Alterative Extract, which he named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system.

Business is business. No time for headaches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by curing the cause. Laxative and mild.

GORMAN

From the Progress.

Dec. 2nd.—George Northcutt and Alex Alsobrook went to Dublin Sunday.

Meager reports reached town last Monday of a very serious affray, the principals being two boys by the names of Heathington and Hasley, each about seventeen years of age and live near Ninevah, between Sipe Springs and De Leon, in Comanche county. The altercation occurred at an entertainment, the nature of which we did not learn. Both the boys were badly cut and it is thought that young Hasley may not recover.

Sheriff Bedford was in town last Saturday and played a little joke on Frank Morrow, by summoning him to attend court on last Wednesday, the day he was to be married. After a short time Frank's agony was relieved when the sheriff told him it was only a joke.

Lost Mind in Search for Health.

Charles E. Hastings, aged about forty years, a wealthy citizen of Hartford, Conn. who was spending some time at San Angelo, for his health, suddenly lost his mind, November 26th. He was taken to the state insane asylum and died at that institution last Saturday night. Communication with a well known undertaking firm at Hartford soon brought a reply for them to spare no expense in preparing the body for burial. It was shipped to the home

THE FARMERS' UNION

President W. T. Loudermilk has called a meeting of the county union in Comanche county to take place next Wednesday, December 7th at Comanche.

The Hood county union recently passed a resolution requesting credit merchants to "co-operate with the union in making obligations payable later in the year."

The Farmers' Union Life Insurance association, with principal offices at Mineola, was chartered last week, with the following incorporators: O. P. Pyle of Mineola, J. D. Montgomery of Gordon, Texas; Newt Gresham of Point, Texas; N. C. Murray of Kingston, Texas, and others.

A. S. Chapman, a former citizen of this place, and A. M. Parker, both of Polk county, Arkansas, were visitors in our little city Wednesday, leaving for their home Thursday, says the Alba News. They had been selected as a committee by the farmers' union in their section to go to Greenville, Texas, to confer with the officials at the national farmers' union headquarters and through prominent cotton buyers of this and other places secure a channel by which they can sell the cotton of their section to the best advantage.

M. A. Drinkfard, formerly of near Dublin, now a prominent union man in Somervell county, had the following to say in a recent issue of the Granbury Graphic Truth: Some of the members of the farmer's union are feeling like that if they were to loose a little in the price of their cotton by holding that the Union would be to blame. Say Bro! Didn't you rush your cotton on the market early in 1903, and sold it for nine and ten cents and afterward the price went to seventeen cents? Who was the cause of your loss then? We tell you the same speculator that ran up the price in 1903 is now trying to run it down—while in the hands of the farmer in 1904. And after the crop of cotton is pretty well out of the hands of the farmer, then the price will go up. Mark the prediction. Everything is being brought to bear upon the farmers to cause them to put their cotton on the market. Even some merchants are predicting seven cent cotton and some of these same merchants are holding cotton who predict it. Let every union member who can, hold until he gets his price. To break ranks and sell now is to weaken the system we have inaugurated and go back in the hands of those who are robbing us of the products of our labor.

Body Mangled by Central Passenger.

The Texas Central passenger train in charge of Conductor Hardy Holt, which passed Whitney at 11:20 a. m., Wednesady, says the Whitney Messenger of December 2nd., ran over and killed an unknown Mexican near Ross, the body being completely decapitated and rendered unrecognizable. The Mexican's head was lying on the rail, his body being outside, and the first stroke of the engine pilot severed his head and threw the body to one side. From the clothing worn by the corpse, he is thought to have been a Mexican who was observed at Waco the night before in a state of intoxication. The engineer states that from the position of the body he could not recognize it as a human form and was right upon him before he knew otherwise. The dismembered body was loaded on the baggage car and carried to Waco, where a coroner inquested the remains. The man was about five feet, eight inches in height, had on brown overalls, reddish tan shoes and a blue sweater. There were no papers of any kind on his person.

A Costly Mistake.

Wealthy Dallas Visitor Robbed.

The body of Charles Goldstein, a resident of Dallas was found lying on the Santa Fe track in south Dallas early Tuesday morning.

There was a deep wound in the back of the head and other bruises that indicated that he was a victim of foul play. Lying by his side was a revolver, one chamber of which had been discharged. The sum of $1.50 in small change was found scattered around where the body had been found.

Charles Goldstein was a brother of Newman Goldstein, a Dallas pawnbroker.

He had been visiting Dallas for a short time from Alaska and was reputed to be wealthy.

The police department is working on the case. It has caused great excitement in Dallas, as robberies and killings in Dallas have been frequent during the past few weeks.

Boy Confesses to Horrible Crime.

The arrest of nineteen-year-old Thomas J. Furlong, put an end to the mystery which had surrounded the brutal murder of Mrs. Margaret Keeler, at her home in New York November 30th.. When he found himself in the hands of the police, the boy made a clean breast of it. He did not resist the officers and in fact practically delivered himself to them while visiting one of his old haunts, a pool room, which has been under surveilance ever since the crime was committed and suspicion pointed to him.

He showed no signs of remorse and calmly told the horribe story of the crime.

"I had made up my mind to kill my aunt if she did not give me any money," he said. "And so I went to a junk dealer and got an iron bar which I kept under my coat. Then I waited until the old man and the kids were gone and I went up stairs. She was alone and I asked her for something to eat. She gave me coffee and bread and then I asked her for money. She said she would not give me any money and she talked a while and went back in the kitchen. When I saw her back turned, the idea of killing her came back to me. I slid from the chair, grabbed the bar and sneaked after her. I hit her a blow on the head and she dropped without a sound. I took her diamond ear rings from her ears, and two small rings and her silver watch. I went out and tried to have a friend pawn the stuff for me. He would not, and so I went to a panwshop myself and got $18."

Three months ago Furlong, according to his own story, took his first drink. It was the craving of whiskey which apparently drove him to murder to get money. Every line of his face tells of recent debauchery.

Roasts Her Own Child.

Ida Englehardt, a young German woman, under arrest in Patterson, N. J., has confessed that she roasted her infant before a furnace until it had been fatally burned.

The infant was found in an ash barrel by her employer.

The child was alive when found but parts of its body were badly burned and the little one died in a hospital. Investigation resulted in the arrest of the woman, who said she was the mother of the babe, and confessed that she carried it into the cellar and exposed the body to the heat of the furnace.

RECTOR OF ST. LUKE'S

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ont., April 19, 1903. —I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy has produced. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, as my voice was almost choked by the cough. The same day I received an order from you for a bottle of your Cough Remedy. I at once procured a sample bottle, and took about three doses of the medicine. To my great relief the cough and cold had entirely disappeared and I was able to preach three times on Easter Day.

I know that this rapid and effective cure was due to your Cough Remedy. I make this testimonial without solicitation, being thankful to have found such a God-sent remedy.

Respectfully yours,
E. A. Langfelf, M. A.,
Rector of St. Luke's Church.

John Harrod, aged about twenty years, died at the family home in old Dublin yesterday afternoon after an illness of some time with typhoid fever. He will be buried at 1 p. m. today at the old Dublin cemetery. The bereaved relatives have the sympathy of all in the loss of this honorable young man.

Mrs. Wiley, wife of Mr. G. C. Wiley of Greens Creek, died last Sunday at the age of thirty-seven years and after an illness of considerable duration with tuberculoses and kindred complaints. She was buried Tuesday afternoon at the Moore's school house cemetery on Green's Creek. The deceased was the daughter of Prof. N. G. Mulloy and a sister to our fellow townsman, Dr. J. J. Mulloy and was one of eight children, only four of whom now survive. Besides her affectionate husband she leaves four children of ages ranging from about five to sixteen years. To all of the bereaved the Progress extends its warmest sympathy.
