Project Show Stock Premium List Announced

The premium list of the livestock division of the annual Youth Project Show was announced this week by Cameron Beam, show superintendent.

At the same time it was announced that the 4-H Club girls had asked permission to withdraw from the show and hold an exhibit of their work at the end of the club year, in the fall. It was explained by Miss Mary Trammel, county home demonstration agent, that the Youth Project Show comes at a time when the girls sewing projects are incomplete, and when their garden and home canning projects are not started, consequently, they have only limited material to exhibit at this time of year.

This request has been granted and the 4-H girls portion of the prize money will be set aside for their fall show. Separate prizes have always been awarded the 4-H girls and Future Homemakers.

A cut has been made in prize monies in most classes, County Agent J. W. Thomas said. This set-up will be followed:

There will be two classes in the beef calf division, with prizes offered in each division as follows: first, $10.00; second, $8.00; third, $6.00; fourth, $4.00.

In the dairy cattle division, three classes have been set up; Dairy cows, any age; dairy heifers under two years; and dairy bulls, any age. Prize monies in each division will be: first, $8.00; second, $6.00; third, $4.00; and fourth, $2.00.

There will be four classes of swine, junior gilts, senior gilts, light barrows weighing from 150 to 250 pounds, and heavy barrows weighing 250 pounds and up. Prize money in each class will be

SOIL JUDGING WINNERS
Winners of the adult and student divisions of the Soil Judging Contest held Monday, Mrach 23, are shown here as they receive their awards. R. L. Mabery, left, was top man in the adult division, and is receiving a check for $2.50 from J. B. Stevenson, owner of Stevenson Implement Company. Next is Clark Anderson, immediate past presdient of the Wellington Chamber of Commerce, who is presenting $5.00 to Buddy Wynn of Dodson, who had the top grade in the student division. Wynn was a member of the Dodson 4-H soil judging team that by winning this juding event, became eligible to represent Extension District 1 in the state 4-H soil judging contest in June. A hole in the ground was the center of interest for the lower group, for it was this soil that they judged in the judging contest of the first Soil Fertility Day for Collingsworth.

$1350 Reported

Less Than Half Red Cross Quota Raised; Campaign Extended

Collingsworth County's Red Cross is lagging to the point that less than one-half of the $3,000 quota has been raised, and the month allotted for the campaign is almost gone, B. W. Beaird, county drive chairman, announced this week.

Faced with this situation, Mr. Beaird announced that the drive will be extended through the first week of April.

To date, approximately $1,350 has been reported, according to Miss Katherine Boverie. Monday, when a meeting of drive chairmen was called, only $1,200 had been turned in.

"We need Red Cross funds this year more than at any time since the end of the war," Mr. Beaird said. "We are having more calls for help locally — and all of the local funds must come out of the drive — and we are having more calls nationally. These are regular calls, and do not include emergencies which may come to any community — emergencies in which Red Cross is always there to help."

Mrs. Cal Sugg urged all rural workers to complete their solicitation, and at the same time she urged that they see everyone in their districts.

A number of rural communities have not yet reported any collections, and several sections in Wellington are still out.

Among the contributors to date are:

She Captures TV Audiences, Too

Tiny Miss From Grand Old Oprie Invited to Play in Washington

Sylvia Ann Hogg, five year old favorite of Collingsworth County Grand Old Oprie fans, is captivating audiences far beyond the Southeastern Panhandle - Southwestern Oklahoma area where she appears.

The tiny miss, who plays the piano and sings, was taken to Dallas by Dr. and Mrs. C. B. Jones March 14, and to appear on to appear on the Big D. Jamboree KRLD-TV March 15 and 16.

From these appearances came an invitation from Gib Sandefer concert tour director of the United States Navy Band that she come to Washington some time this spring to appear on programs.

Sylvia Ann is the daughter of Mr. and Mrs. Herschel Hogg of Granite, Oklahoma. She has appeared on the Oprie three times and is a general favorite of all who have heard her. She plays and sings about 75 songs, including religious, boogie woogie and westerns. So tiny is she that the oprie directors, Mr. and Mrs. Bill King must stack cushions on the piano bench when she plays.

Sylvia Ann has been playing the piano for a year.

Friends tell the story that her 16 year old sister, a music student, offered to teach her to play.

C. M. Terry, One Of Area's Earliest Settlers, Dies

C. M. Terry, 69, whose family was one of the first to settle in this area, and who spent almost his entire life here, died Sunday afternoon, March 22, about 8:00 p. m., at Lewisville, where he and Mrs. Terry were visiting in the home of a daughter, Mrs. R. E. Whitmire.

A prominent farmer and stock man of the Loco area, Mr. Terry had been in ill health since suffering a stroke about four years ago. His death, however, came unexpectedly.

He and Mrs. Terry left here only a few weeks ago for an extended visit in Dallas.

Clarence Mercer Terry was born July 2, 1883, at Bonham, the son of John F, and Mary Salter Terry. When he was only five years of age, the family moved to this area, to become pioneers in the developement of the fertile farming land in southeastern Collingsworth and northern Chidress counties.

He was married on June 28, 1914, to Miss Lena McKinney.

Mr. Terry had been active in many farm and community enterprises during the years.

Except for brief periods spent away from here, the farm on which he and Mrs. Terry lived had been his home for nearly 65 years, for it was here that his parents settled when they came to the area — long before there was a Loco community.

He had been a member of the Church of Christ at Dodson since 1928.

Funeral services were held at that church Tuesday afternoon at 3.00 p. m., with Minister Alva Johnson of Turkey, a friend of the family, officiating, assisted by Bro. Herbert Gibson of Amarillo.

Active pall bearers were Raymond Scott, Tom Scott, Ross Swift,

Funeral Service Held Friday For C. L. Lloyd

C. L. Lloyd, a Wellington resident for the last ten years, died in St. Joseph's Hospital Thursday, March 19. He had been in failing health for some months, and seriously ill for about six days.

Funeral services were held Friday afternoon, March 20, at the Kelso Chapel, with the Rev. J. F. Michael. pastor of the First Methodist Church, officiating.

Pall bearers were Melvin Zeck, Pete Scott, Paul Little, Johnny Linville, Malcolm Dobbs and Carl Bullington. Burial was in the family plot of the Childress cemetery, under the direction of the Kelso Funeral Home.

Mr. Lloyd was born in Bannin county April 17, 1873.

He was a long time resident of Childress county, and served as a constable there for a number of years. He had lived at both Tell and Childress. After coming to Wellington, Mr. Lloyd engaged in the real estate business for several years before retiring.

He was a member of the Methodist Church and the Woodmen of the World Lodge.

He is survived by a daughter, Mrs. L. H. Harcum of Houston; a brother, S. C. Lloyd of Hugo, Oklahoma, and two grandchildren, C. D. Ward of Austin and Louis Ledbetter of Scotts Bluff, Nebraska. Mrs. Lloyd preceded him in death several years ago.

Four-County Group Asks Dam on Salt Fork River

Steps toward securing a dam across Salt Fork River in either Collingsworth or Donley counties got under way the middle of last week with the appointment of a committee to select an engineer to survey the river from its source in Armstrong County to the point where it enters Oklahoma 11 miles due east of Wellington. County Judge R. L. Templeton of Wellington is the committee chairman.

The work is being undertaken by the Upper Basin of Salt Fork and Red River Association, which has as its president Cap Morris of Clarendon and secretary Rayburn L. Smith, also of that city.

This action was taken after a group composed of Judge R. L. Templeton of Wellington, Mr. Morris, County Judge Jack Gray of Donley county, and Clifford Farmer, manager of the Chamber of Commerce at Memphis, had appeared before the Board of Water Engineers in Austin, asking a renewal of the association's presentation to hold the waters of Salt Fork for the dam.

An extension until September 19 was granted, and in the meantime the Association must take another presentation to hold the waters for another three years, the time limit granted by the board.

The Upper Basin of Salt Fork and Red River Association is composed of Collingsworth, Donley, Hall and Armstrong counties and was formed several years ago when it seemed possible that Oklahoma counties through which Salt Fork flows would ask that a dam be built there. This would eliminate future development of the river in the Texas counties.

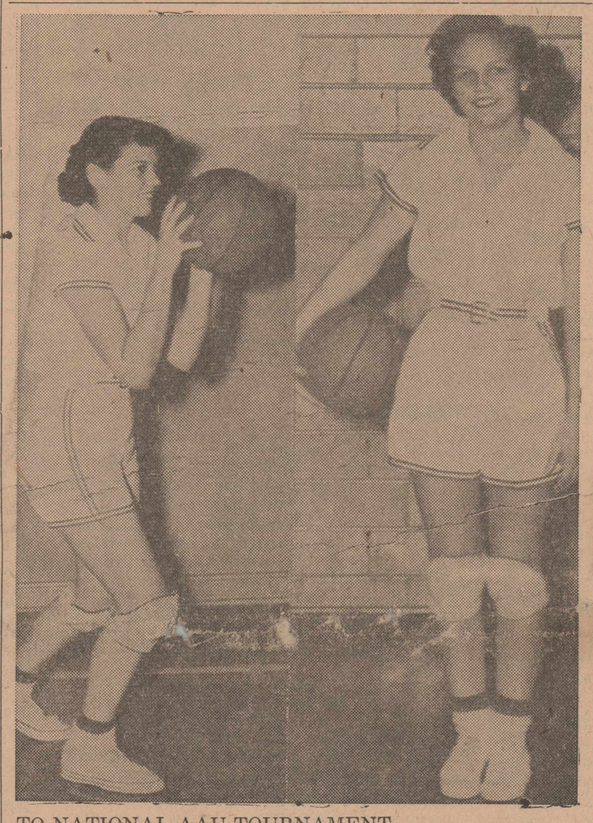

Serving with Judge Templeton on the committee are Carroll Knarpp of Clarendon and Mr. Dunbar of Memphis.

Judge Templeton said Wednesday that they hope to hire an engineer in April and survey work will begin immediately. The four counties in the association will share the $1,500 cost necessary for the survey, with Collingsworth and Donley paying $500 each and Hall and Armstrong, who would benefit less from the proposed dam, $250 each.

Such a dam, Judge Templeton pointed out, could provide water for the towns in the four counties, could provide for irrigation over a considerable acreage, and could be used to promote recreation and industry.

No cost of the proposed dam has been set, but a figure of $11,000,000 has been mentioned, this to include not only the dam, but also the purchase of land flooded, flood gates, pipes, and irrigation channels and other items.

Three sources of funds for construction have been considered by the association: (1) asking for federal help; (2) help by the State of Texas; and (3) Creation of a water district and issuance of bonds. In any event, it is proposed that the dam be self-liquidating.

TO NATIONAL AAU TOURNAMENT
Two members of the Quail Bobwhites, Jo White, left, and Fern Neeley, will play with the Dowell's Dolls of Amarillo in the National AAU basketball taurnament in Wichita, Kansas, this week end.

Daffrons Hurt in Car Accident

Mr. and Mrs. Henry Daffron of Samnorwood were painfully injured Sunday morning, March 22, when their pickup was crashed into from behind by a car driven by a young soldier from Paducah, Sheriff Claude McKinney reported.

A Mexican man, Jesse Lemmer, who was working for Mr. Daffron, and riding with them, was uninjured.

The accident occurred eight miles south of Shamrock on Highway 83 about 9:45 a.m., Sheriff McKinney said.

The driver of the car, Richard Harold Cheek, told officers he was returning to his Army camp in Missouri.

Both Mr. and Mrs. Daffron are under treatment in the Shamrock hospital, he for a cracked hip bone and she for possible broken ribs, according to Mr. McKinney.

Cheek paid a $14 fine in Justice Court here on a charge of failing to pass to the left in safety.

Both vehicles had considerable damage, Mr. McKinney said.

Listen for Two Long Blasts

Storm Warning Signal For City Announced

Wellington's storm warning signal will be two long blasts of the fire department siren, Bura Handley, city manager and fire chief, said this week.

"This will not necessarily mean that an actual storm or cyclone is about to strike Wellington. It can mean that, or it can mean that there's possibly a reason you should get out and take a look at the clouds," Mr. Handley explained.

Jim Williams, who is in charge at the Fire Station, will keep a constant watch during storm periods.

For information in distinguishing siren signals, Mr. Handley pointed out that one long, even blast means a fire department meeting, or some other emergency when firemen should report to the station.

The long pulsating siren blast is fire notice.

EDITORIAL COMMENT — THE WELLINGTON LEADER

Cleaning Up Wellington is a Job for Everybody

House cleaning time is almost here on a city wide basis.

Wellington will hold its clean-up, paint-up and fix-up campaign on Monday through Thursday, April 6 to 9.

The City makes this request:

The public — meaning each individual, is urged to inspect his respective premises and give it a thorough spring cleaning. With hot weather on the way, it will not be long before flies, mosquitoes and weeds begin to plague us.

If proper steps are taken now, before the regular season for them, they can be kept to a minumum.

While you are cleaning up, pile the things you want hauled away either in the alley or where the trucks can get to them to haul them away.

Please burn everything possible to make the hauling job quicker and lighter.

If you own a vacant lot or there is one next to you, please give it a good cleaning at the same time you clean your premises. It may not belong to you, but if there is a lot of trash upon it, the flies and mosquitoes that breed there will give you much trouble as if you were the owner.

There are many lots in town owned by out of town people and we cannot depend on them to clean the property, so we are calling on the public to do that job. We know everyone will want to co-operate in this campaign.

This clean-up campaign means more than just cleaning up the rubbish. It is the spur for a better community and better living. It will improve living conditons and contribute to better health and safety.

The Red Cross Needs Your Help Now

Collingsworth County to date has raised only a little more than one-third of its $3,000 quota in the current drive. There was just $1,200 when Red Cross chairmen checked up Monday afternoon, with probably a little more collected and not yet turned in.

The Red Cross is a personal thing. Its request for money should be taken as a personal request by each one of us. Red Cross is a big organization, biggest in the world devoted entirely to helping those in need of help. But it is big because of the support of people like us, those who run businesses and farms and work for wages.

The one dollar or five dollars or ten dollars that we give to the Red Cross wouldn't be a drop in the bucket of alleviating the need of even one human being if we tried to practice philanthrophy on our own. But those same dollars, given by many people and administered by men and women who know how to put out money to the best use, reach out to places of disaster and need, to the armed services and on to the battlefield an the overseas camps. Thus, by proxy, we put our money on the barrelhead for things that count.

The remarkable efficiency of the Red Cross was shown just two weeks ago when a cyclone struck in the Archer City and O'Brien area, leaving besides 13 persons dead, much property destroyed.

The Collingsworth County chapter is asking you to consider carefully the contribution you make this year. If the workers have missed you, get in touch with some Red Cross chairman or worker. If you have given once, consider what you gave and see if you can't give again.

For always, The Red Cross is a personal thing, both to those who give and those who receive its help.

OTHER EDITORS SAY:—

We, Too, Extend Congratulations

(Editor's Note: The following editorial appeared in the Hereford Brand and concerns a Texas religious leader, the Rev. R. H. Cagle, who grew up in Collingsworth County. People here who knew him as a youth and who have followed his career join his Hereford friends in w[illegible]ing him well in his new pastorate at Ballinger.)

In the history of every community rest unseen landmarks of many things, likewise unsung tributes to many people. Hereford is no exception.

Since 1901 this community has included thousands of fine, honest people. Some have stayed here to die, others have been leaders, others have been followers; a few have been free riders. Never, down through the years, though, has Hereford possessed a more honest, sincere, progressive couple than Rev. and Mrs. R. H. Cagle.

As pastor of the First Baptist, Rev. Cagle has established an enviable record of progress in which can be cited creation of three district missions, one now a full-fledged church. Rev. Cagle, though not a disturbance maker by any means, has also found time to take part in organizations and affairs of the community. He has almost as many friends outside of the church as he has in the church.

Most important of all, however, is the fact that he conducts himself as a Christian outside, as well as in the church. As a result, the church rolls have grown steadily during his seven years as pastor here and many members who previously did not attend church are once again in the habit.

In addition to substantial growth to the church which he served as pastor, Rev. and Mrs. Cagle leave Hereford a better, more liveable community than that which they moved into in 1945. They have scores of close friends who will treasure their relationship down through the years. These people realize and approve of the Cagles moving into another field where they can continue to serve, possibly to an even greater extent, though they will be soely missed here.

All in all, the situation can best be summed up by saying, "Congratulations to the people of Ballinger, Texas."

The Buck Creek Philosopher

Editor's note. The Buck Creek Philosopher on his Johnson grass farm on Buck Creek may know a little something about what he's talking about this week, as it envolves words, and he seems to have plenty of that commodity.

Dear editar:

I was out here the other afternoon watchin my cattle graze, there's nothin more satisfyin than watchin your own cattle graze on your own land, although I'll admit it was a little more satisfyin this time last year, about 40 per cent more satisfyin, to be exact, as that's how much the price of the things has dropped, and I stumbled onto a copy of a newspaper which was several days old but readin an out-of-date newspaper is a lot more interestin than dozens of things I can think of to do around this place and I took it to the shade and read where a Congressman in Washington was demandin that a resolution denouncin Russia for enslavin people be worded a lot stronger.

As I understand it, the Congressman wanted to re-write the resolution and put in some words at least four times as strong as the ones under consideration, but I'm afraid he's up against an impossible situation. What would he do with the words after he put em together?

If I tried right hard I could think up some words a lot stronger to call Russia, but you wouldn't print em and I wouldn't blame you. Nobody on the radio could use em, either.

Moreover, I don't believe there are any words, printable or unprintable, which we could get hold of which would have any effect on Russia. Anybody who's figurin on settin up a bunch of scientists on a research project to invent stronger words to call Russia, is sure barkin up the wrong rain spout. In an atomic age, a word bombardment is about as effective as a barrage of arrows against the 12-foot-thick walls of the Kremlin. The pen may be mightier than the sword, but it ain't mightier than a jet bomber loaded with an atom bomb. The man who could fell a thousand with a phrase, ought to see what they're doin now with jellied gasoline. Congress may be able to solve domestic problems with words and there's no recognizable shortage of ammunition in that department, but oratory is a mighty poor weapon to throw against a tank.

I've heard of people who could annihilate an enemy with a word, but there's just not many of them people left, or else they're just not makin words as srong these days.

Yours faithfully,

BIBLE COMMENT
FOR MARCH 29

Jesus Defines the Moral in the Law

The Jewish law reached its peak in the ten commandments and in the verses from Deuteronomy, known as the "Shema," which were recited every Sabbath in the synagogue.

They must have left a profound impression on the minds of sensitive and serious youths who listened to them over and over again. We cannot overestimate their importance in the development of Jesus when He was an impressionable youth.

Also, we cannot underestimate the moral and spiritual inheritance the world has received from the Jewish law.

Thus, when Jesus said: "Think not that I am come to destroy the law, or the prophets," he added, "I am not come to destroy, but to fulfill."

The law Jesus came to fulfill was the old Jewish law which was a mass of rules and regulations that must seem bewildering to the average reader. Jesus made a distinction between the moral precepts of the law and the petty regulations.

This distinction is revealed, for example, in the conversation Jesus had with the lawyer who asked how to inherit eternal life.

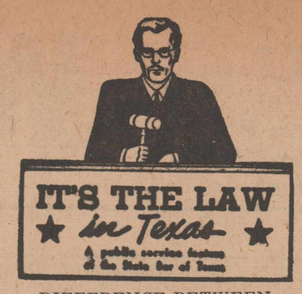

"What is written in the law?" asked.

When he lawyer replied, reciting the two commandments which tell us to love God and to love our neighbor, Jesus affirmed the answer. "Thou hast answered right; this do and thou shalt live."

But the lawyer needed a clearer definition. He asked, "Who is my neighbor?"

Jesus said, "You can be a neighbor to anyone who needs your help." In these last words lies the true moral of the law. It directs the hearer to practice neighborliness-unlimited.

A still deeper meaning lies in this sentence. That is the fact that it means neighborliness, not in terms of the other fellow who might benefit from your good deeds, but in terms of yourself.

DIFFERENCE BETWEEN PATENT AND COPYRIGHT EXPLAINED

Alert observers frequently notice that some goods or articles are patented, whereas other seemingly similar items are copyrighted. The question accordingly arises as to what constitutes the difference between a patent and a copyright.

Broadly speaking, patents relate to discoveries that promote the useful arts, while copyrights relate to writings or other works that promote knowledge in any field.

Patents are granted to inventors on new and useful articles of manufacture, compositions of matter, methods and processes, ornamental designs of articles of manufacture and certain types of plants.

Copyrights are granted to authors, composers or artists on works such as books (which includes not only bound volumes, but also pamphlets, leaflets and even single sheets), periodicals, speeches, plays, musical compositions, phonograph records, works of art, maps, photographs and motion pictures.

Some articles are difficult for an untrained observer to classify. Printed forms are an example of such an article.

If the form is a card or sheet having a peculiar shape or physical structure (such as perforations or notches in certain positions) that adapts the card or sheet for a particular use, so that it amounts to a new article of manufacture, the card or sheet would constitute a subject for coverage by patent rather than by copyright.

If the same or another card or sheet bears graphic matter such as a written text, a compilation of figures or of other data, a chart, or a diagram, the graphic matter (as distinguished from the card or sheet itself) would be subject to coverage by copyright rather than by patent.

The function of a patent or copyright is to give its owner the right to exclude all others from infringing the patent or copyright — that is, from practicing the invention or copying the copyrighted material. Patents give protection against any infringer who makes, uses or sells the invention, regardless of whether he is a copyist and regardless of whether he actually knew of the patent. Copyrights, on the other hand, give protection only against a copyist and not against one who independently does the same thing.

A patent runs for seventeen years and cannot be renewed. A copyright runs twenty-eight years and may be renewed once for an additional period of twenty-eight years.

An inventor or author may himself apply for a patent or copyright. However, only persons trained in such work should prepare and prosecute the necessary applications, since it often happens that an unskilled person, because of his lack of knowledge of the law and the procedure, will do irreparable damage to the rights to which the inventor or author was originally entitled. Sometimes rights are forfeited completely through the mistakes of such unskilled persons.

Looking Ahead With George S.Benson

THE NEW SECRETARY OF INTERIOR

WASHINGTON — "If the American people ever lose their self-reliance in any great numbers," Secretary of Interior Douglas McKay said to me, "our nation will be destroyed." We were seated in his office in the Interior Department for the second in this series of interviews with key people in the Eisenhower administration. The key word in the American language Secretary McKay feels is "opportunity." The government's primary responsibility is to protect and expand it.

Secretary McKay considers the number one job of the Interior Department to be the safeguarding of the natural resources so their development may enrich the lives of all Americans. He believes that in most cases private enterprise can best serve in such developments. At my request Mr. McKay related a bit of his life story, but the most interesting details came from talks with some of his intimate associates in the department.

SCHOOL OF HARD KNOCKS

Douglas McKay's Scotch forebears helped settle the West, but his parents were of such modest means that young Doug, at 14, was driving a butcher's delivery wagon while getting his high school education piecemeal. He worked his way through Oregon State College, but the beginning of his career was cut short by World War I. He enlisted. In the historic battle of the Argonne Forest, his outfit engaged in the fiercest action. Of its 201 men, only 28 survived. McKay, his right shoulder terribly shattered, was given little chance for life. He was hospitalized for months and had to adjust to a lifetime of being handicapped.

At war's end he got a job selling Ford cars in his home town, Portland, Ore. He lived thriftily, saved his money, and in 1928 bought a small Chevrolet dealership in Salem. Some of his capital was borrowed money and this he paid back early in the depression because he felt the future was so uncertain he might not have it later. He weathered the depression by cutting expenses to the bone. Today his automobile business, built up gradually over 25 years, is prospering.

"PUT SOMETHING BACK"

Larry Smyth, veteran writer on the Oregon Journal, was persuaded by the new Secretary to take a leave of absence and work with him for a time in Washington. Smyth covered McKay's political career in Oregon. "When Douglas McKay got in business for himself and began to progress in Salem, he also got into civic work," Smyth told me. "His theory was, and still is, that those who take something out of a community should put something back." McKay's civic work led to his being elected mayor. He next was sent to the state senate.

When World War II started he cut short any further political career and, although handicapped and over-age, he enlisted in the Army again. He remained in service until the Japanese had capitulated. Back in his Salem automobile dealership once more, he was stunned one day in 1947 when the Governor, the Senate President, and the House Speaker all were killed in an airplane accident. A few days later the Oregon Republicans tossed in McKay's hat for governor. He was elected. In 1950, he was re-elected to a four-year term with the biggest vote any Oregon gubernatorial candidate ever received. He left the governorship to join President Eisenhower's "team."

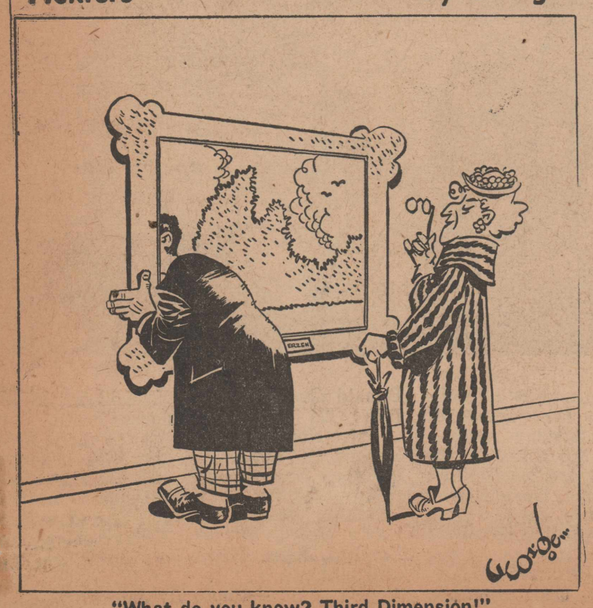

HIS PHILOSOPHY

At 59, Douglas McKay feels that the Interior Secretaryship now gives him an opportunity to "put something back into America" for what America has given him. Two actions as Governor of Oregon characterize his governmental philosophy. He closed Oregon Indian reservation schools, and brought the Indian youngsters into the public schools, and at the same time repealed all state laws discriminating against Indians. And when a vast acreage of Oregon timberland was denuded and left barren, he organized a great locally-financed and locally-managed reforestation project, sowing seed with helicopters, instead of relying on the federal government to do it.

As Interior Secretary he wants gradually to end the government's jurisdiction over the Indians, give them full citizenship reponsibilities and let them become self-reliant. Paternalism for anyone, he thinks, is destructive.

"I believe in private enterprise," he said at the close of the interview. "But it must earn its way. For instance, atomic energy is being developed by our government. It holds great promise for the future. At the proper time, I believe it should be gradually transferred to private industry — but not as a gift. There are, on the other hand, some individual projects that seem fitted to public ownership, and in such cases I think public ownership and private ownership can and must work side by side."

Robert Webb New Pastor of Faith Baptist Mission

The Rev. Robert L. Webb, pastor of the Baptist Church at Lutie for the last two years, has been called as pastor of Faith Baptist Mission in Wellington, and Sunday, March 22, he preached his first sermon to his new congregation.

At the same time, it was announced that the Mission has bought the home of Leburn Goswick at 202 Bowie St., as a parsonage, and Rev. Webb and his family have already moved there.

During his pastorate at Lutie, Rev. Webb added 37 members to the church by baptism, as well as others by transfer of membership.

Improvements to the physical plant of the church marked his tenure there. An addition to house Sunday School classes was built onto the church, and the parsonage was enlarged and modernized.

Both Rev. and Mrs. Webb were reared in the Mayfield community near Sayre, Oklahoma.

He is a Marine Corps veteran of three years service.

He later attended Texas Technological College at Lubbock, then did two years seminary work at Fort Worth.

Rev. and Mrs. Webb have three children, Jimmy, six; Janice, five; and Tommy, three.

As pastor of the mission, Rev. Webb succeeds the Rev. Bill Saunders, who was recalled to service in the Navy and commissioned a lieutenant in the Chaplains Corps.

Quail Seniors Give Play Thursday

By JAMES GLASSCOCK

Fun and drama combined give the Quail Senior play, "Star Crazy," the needed push to make it one of the best plays for this 1953 play season.

The plot is filled with comedy and suspense and when the impossible happens somehow a way if found to get by the "rock in the road."

However, his fiancee, Joan Mayberry, (Elizabeth Wilson) comes home with him, too, to only make matters worse. Jerry's little sister, Donna (Loreta Kindrick) sets-out to make Jerry and Dick see eye to eye. From there on it three-acts of fun and entertainment.

RITZ TO HOLD SPECIAL SHOWING ON COMMUNIST DOCUMENTARY

Showing at the Ritz Theatre "The Hoaxters," described as 37 minutes of shock treatment. This M-G-M documentary film was designed for one purpose, to present a factual and pictorial review of Communism since its bloody beginning in Moscow in 1917, down to the present time.

A special free showing of this picture is set for Friday morning, for the high school students and teachers, ministers of the county and the press.

It will then be shown with the regular film on Sunday, Monday and Tuesday, March 29 through 31.

The picture was assembled from more than 2,000,000 feet of film, newsreels, Army and Navy films, captured enemy film, and film from behind the Iron Curtain. No scene was "staged," nor was any attempt made to inject a story line. The facts are presented bluntly. For older members of the audience the growth of Nazism and Fascism, with its counterpart in the militarism of Japan, will have a remembered ring. Here are the headlines of the past three decades.

For younger members of the audience "The Hoaxters" will present for the first time a panoramic history of Communism, its insidious methods of operation and infiltration, and the deadly parallel between the aggressive Communism of today with the forces of evil which only recently threatened the world.

The picture was produced by Dore Schary, M-G-M's vice president in charge of production. It was written by Herman Hoffman, its associate producer. Audiences will be intrigued identifying the eight voices narrating the commentary. Of the eight, Marilyn Erskine, Howard Keel, George Murphy, Walter Pidgeon, Barry Sullivan, Robert Taylor, James Whitmore, probably the only unfamiliar voice is that of Producer Schary, who narrates the final sequence.

"It must be emphasized that the Tot Show will be divided into three groups and prizes will be offered in each division. The first age group is from one to three years, three to six, and from 6 to 10. This is not merely a local Tot Review but all children in the county in this age limits will be able to compete for the prizes. We would like to see a lot of people out for this evening of fun and see the new Easter styles," she concluded.

Deck's DIDACTICS

—By Deskins Wells

On the front page of this issue is a picture of Sylvia Ann Hogg, who first gained attention at the Grand Old Oprie in Wellington. She has been invited to appear on a program in Washington. She is only five years of age and has been playing the piano only one year. About a year ago her sixteen year old sister who was taking music decided to show her a few notes. The little girl looked on and then said: "Move over — maybe I can play myself." And she did too. Her sister quit.

Am cleaning up my desk to some extent and here are some of the interesting things going into the waste basket: 1—Three flower catalogs — can't grow flowers on account of the trees; 2—A letter from the ex-students association of the University of Texas reminding me that my class graduated 30 years ago. Who wants to be reminded of that? 3—A letter from the Texas Research Institute saying that "Texas is NOT running out of gas." Wes Izzard and The Dallas News says we are. 4—A notice from the Readers Digest saying my subscription has expired. What did they do with the money I sent them last year? 5-6-7-8-9-10 — Requests for donations to something or other.

Andy Rogers reports from Austin that the idea of prohibiting television in automobiles is gaining ground.

More things for the waste basket: Three advertisements of women's clothes addressed to my wife and an invitation to join the National Travel Club.

The Texas Press Association warns that the old coupon book racket is being used again in Texas. Wellington merchants took a bad licking on this in the twenties.

The City is sponsoring clean up week for April 6-7-8. Trucks will run constantly all three days until all the trash has been hauled away — so make your plans now to get your yards and alleys clean before this date.

Dodson and Turkey have dial telephone systems; but Wellington still waits on central to say "number, please." But there are some advantages to the present system. The other morning I was trying to get a number on a party line. Tried five or six times over a period of twenty minutes to get connections. The last time I tried I asked central if those two old professional gossips were still visiting on the phone. Evidently she had plugged me in on their line so they could hear; for a second later she rang back and she was laughing and she said: "They have hung up — I can get your number now."

Oprie to Benefit Quail Singers

This week's Grand Old Oprie performance, Friday night, March 27, will help send seven Quail girls to San Antonio to sing in the state Future Homemakers talent contest, Mr. and Mrs. Bill King, sponsors, have announced.

A portion of the program will be given by Quail students, including the FHA girls, who recently won the district competition at Lubbock.

The Quail High School Girls Chorus will also sing, and there will be numbers by a boy's quartet — boys who are also enrolled in the homemaking course of that school.

In addition to this, the regular oprie numbers will be featured, Mrs. King said.

Rocket Trackmen To Panhandle

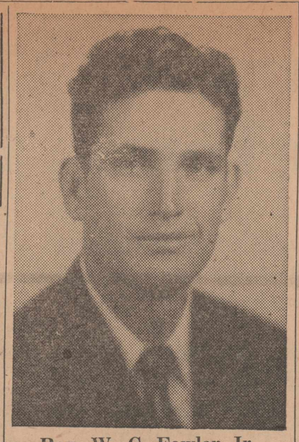

By JAMES GLASSCOCK

The cinders fly this coming Saturday, March 28, at Panhandle as two of the county's schools will go to take part in the meet. Wellington and Quail will enter in some of the events.

Coach Maxey McKnight of Wellington plans to take about 15 to 20 boys to take part in this meet. "We will run into some good competition and we hope to be able to dish-it-out as much as they do to us. About 20 schools from a wide area will get into the starting blocks for the speedy event," he declared.

Quail has only one boy entered in this meet. Wallace Blasingame will carry the Maroon and White colors for the Quail high school in probably two or more events. Coach W. F. Howard plans to take a typing team up to the meet, also.

Mrs. M. L. Robertson is a patient in St. Josephs Hospital. She is being treated for an injuried leg.

Missionaries to Speak at Church Of the Nazarene

Members of the Church of the Nazarene in Wellington will hear two returned missionaries, the Rev. and Mrs. W. C. Fowler Jr. here Sunday night, March 29, at 7:30, the Rev. Samuel Sparks, pastor, has announced.

Missionaries for the Church of the Nazarene in British Honduras, Central America, Rev. and Mrs. Fowler, have recently arrived in the United States for their first furlough, which will be spent in extensive deputation work.

Leaving for this field in 1948, the Fowlers have proved capable in a variety of positions. Rev. Fowler pastored at El Cayo and Belize, and then opened the work in the Toledo district, serving as pastor and evangelist. He has also taught in the Nazarene day schools and supervised the organization of three new schools.

Mrs. Fowler has been active teaching school, working in Sunday school and women's missionary groups, and rearing the two Fowler children, Flo Ann, 4, and Robert Mark, 2.

Both of the Fowlers attended Bethany-Peniel College, Bethany, Oklahoma, and Rev. Fowler received the bachelor of thology degree. After graduation Rev. Fowler pastored two years and traveled as an evangelistic singer another year.

No other light trucks have all this

YOU don't expect polo-pony agility from a truck in traffic — *but the new GMC's have it.*

You'd like to have passenger-car pace and economy on the highway — *and you'll get it from the 1953 GMC's.*

For there are two tremendous advances that step the new GMC's far ahead of all previous truck performance:

One: Dual-Range Hydra-Matic Drive*—the fully automatic shift with 3 speeds for traffic, 4 for the open road — available on 19 models throughout the ½-, ¾- and 1-ton capacity range.

Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1— *the highest of any gasoline truck engine ever built.* Here's pile-driver power behind every piston stroke — flashing response and better mileage squeezed from regular fuel.

A number of chassis advances too, add to the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you—these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones" — the heavy-duty GMC's that lead the world in sales.

That's saying a lot. But just come in — and we'll *prove* it.

Rocket Trackmen In Practice Meet at Memphis

Wellington track stars had their first practice track meet of the new 1953 season last Thursday, March 19. They went to Memphis to compete in the practice run. The inexperienced Red Rockets had men placed in every event but only collected four first places. They did have a lot of second and third places in the events.

"Clyde Ingram placed in the 100 yard dash and the low hurdles. Charlie Johnson took the first place honors in the shot and the discus," according to Maxey McKnight, head coach.

"Most of the boys don't have any background and have never run track before and we were satisfied with this first showing, he commented.

Letters From The PEOPLE

Mr. Deskins Wells, Editor
The Wellington Leader
Wellington, Texas

Dear Deck:

Here is a definition of your local groceryman.

A grocery merchant is one of the most underrated, the hardest headed, the most obstinate, the most realistic man, who knows for certain that the Lord helps only him who tires. Yes, the fellow who has to keep his finger on the public pulse at all times. The fellow who, from necessity, is eager, alert, courteous — who knows that a smile and a cheerful disposition, an open mind, and a soft answer turneth away wrath. The fellow who forgets himself more hours per day than any group of public servants, the fellow that answers more questions every day than an electric tabulator could possibly count. The fellow who knows better than anybody that politics and business won't mix, that he must tread lightly where civic strife exists.

The fellow who must know what each individual customer prefers (and bought yesterday and maybe the day before that) and what that fellow likes to talk about most. How much of his quarter Junior should invest in junk that his mother tells him not to eat, because he sure won't eat his lunch later.

The groceryman is the fellow who smiles wistfully when a "Faithful Customer" takes up his time and lists his faults, his shortcomings, his shiftlessness, the fact that he never works, craves only money, and will cheat, hoodwink and short change — all before a houseful of customers that are waiting to pay their bills maybe or to get checked out.

He's the fellow who knows what charity is in reality, the fellow who knows first hand the kind of neighbors you have, how much corn an Allis Chalmers, a Ford, a Ferguson, an H or M will plant per acre with a 3-hole corn plate mixed with black eyed peas, at a speed of two knots per hour. What the trouble is bound to be when your baby chicks cheep in a certain tone. What is the matter with your banker, your Post Office employees, what should be done with a company that puts out poor milk — yeah, what Truman should have done, what Ike had better do, what Stalin — pardon me, it's Malenkov now — is up to, what we should do with Russia.

Folks, it's a full rich life — a profession distinctly within itself. I enjoy every hour of it and look forward with eager anticipation to the future — a future that has, is and always will improve, because we are all Americans, and Improvement is synonymous with America.

You guessed it.
Just an Humble Groceryman.

Mrs. Archie Copeland of Lubbock is visiting her parents, Mr. and Mrs. A. Y. Bell. Mrs. Copeland and Mrs. Bell visited in Fort Worth and Weatherford, Wednesday and Thursday. Mrs. Bell's sister, Mrs. Josie Conway of Weatherford returned with them.

Mr. and Mrs. Tom Draper and Mr. and Mrs. Bill Elliott of Hereford visited Sunday with Mrs. E. M. Hix.

Fire Destroys Prince House

Fire which broke out about 6:00 a. m. Saturday, March 21, destroyed the four room house occupied by the Earl Prince family on the Holly farm a mile and a fourth north of the Lillie Church.

The fire caused by an oil cook stove.

Mr. and Mrs. Prince and their five children barely escaped, and everything was burned except one mattress. They were able also to drive their car and tractors away from the house before they caught fire.

This place is known to old timers of the area as the Aunt Clare Selby farm. The family had lived there only a few weeks.

Cason Bruised in Tractor Accident

Donald Gene Cason , 15 year old son of Mr. and Mrs. Charles Cason Sr., was painfully bruised when he fell from the tractor he was driving and the dual wheels passed over his shoulders.

The accident occurred Monday evening, March 23, about a quarter of a mile from the Cason home, northwest of Wellington, as the youth was driving to the home of his uncle, Clarence Cason.

Mrs. Cason, the boy's mother, said that he lost consciousness and fell from the tractor, and doctors who examined him believe he may have been gassed by fumes from the engine. The fact that he was driving in sand prevented his being more seriously hurt. After he was injured, Cason got back onto the tractor and drove to the Clarence Cason home.

Although he is badly bruised, doctors said no bones are broken, but he will be away from his classes in Wellington high school several days yet.

LILLIE

By MRS. G. D. THOMAS

The roads in the Lillie community surely are getting bad, since last week sand storms.

Miss Chase and James Sullivan Marry Sunday

In a ceremony of dignity and beauty Sunday, March 22, Miss Priscilla Chase, daughter of Mr. and Mrs. Hollis B. Chase of Royalston, Massachusetts, became the bride of James Wells Sullivan, son of Mrs. Pink Sullivan and the late Mr. Sullivan. The double ring ceremony was read by the Rev. J. F. Michael in the First Methodist Church of Wellington.

A screen of greenery, interspersed by arrangements of white gladiolus and seven-branched candelabra holding lighted cathedral tapers, formed the setting before which the bridal party stood. Palm, tied with white satin ribbon, marked the aisle pews.

A group of organ selections by Mrs. Kelly Pigg preceded the ceremony, and the traditional wedding marches were used. She also accompanied Mrs. George Kopp as she sang Greig's "I Love Thee."

Frank Anderson gave the bride in marriage. Her dress of white chantilly lace over satin was fashioned with a fitted bodice, featuring a tucked net inset outlined in scalloped lace, while tiny lace covered buttons extended from the rolled collar to the waist, and the fitted sleeves came to a point over her hands. Scallops again accented the waist as it was joined to a band of pleated net, and the full floor-length skirt was worn over hoops. Her double veil of illusion fell to fingertip length from her Juliet cap of lace and illusion, outlined in seed pearls.

She carried a white Bible, topped by an arrangement of white gardenias, with white satin shower streamers tied with stephanotis. Her only jewelry was a string of pearls, a gift from the groom.

Mrs. Stanley Mankowski of Northfield, Massachusetts, was her sister's only attendant. Wearing orchid, her dress was designed with a chantilly lace bodice softly shirred at the front, a scalloped peplum and a lace capelet with a tiny collar. The full net skirt was floor length. She wore a garland of pink roses and sweet peas in her hair, and these flowers were also used in the nosegay she carried.

Henry Sullivan, brother of the groom, was best man, while the ushers were Vernon Ratzlow of Phillips, brother-in-law of the groom, and Bobo Castleberry.

Mrs. Frank Anderson, acting in the place of the bride's mother, chose a grey dress with blue accessories, while Mrs. Sullivan wore a grey dress with soft rose trim and accessories. Both had corsages of Dutch Iris.

A reception in the home of the groom's mother followed the ceremony.

The bride's table was laid with a lace cloth and centered with an arrangement including a white wedding bell, in which were clustered yellow roses and pink snapdragons, flanked by pink candles. Before this stood a miniature bride and groom.

After the couple had cut the first slice of the three-tiered wedding cake, the guests were served by Mrs. Vernon Ratzlow and Mrs. Henry Sullivan, while Miss Dora Elizabeth McClaskey and Miss Lucille Bennett alternated at the punch service.

Guests were registered by Miss Anna Lee Graham.

As the couple left on their wedding trip to points in California, the bride was wearing a toast linen suit with Navy accessories. Her corsage was of gardenias.

Mrs. Sullivan is a graduate of Murdock High School at Winchendon, Massachusetts, and received her bachelor of journalism degree from the University of Texas in 1946. She came here as society editor of The Wellington Leader, and later taught in Wellington high school. For the past two years she has been secretary of the Wellington Chamber of Commerce.

The groom is a member of a pioneer family prominent in the development of Wellington. He is the grandson of Mrs. Lucy B. Wells and the late Henry Wells. After graduating from Wellington high school, he attended Texas Technological College and the University of Texas. He is now a partner in the Sullivan Hardware and Furniture Company.

Upon returning here, Mr. and Mrs. Sullivan will make their home at 1111 El Paso Street.

By MRS. GEORGE ADKINS

Our community was saddened by the death of a long time resident Sunday afternoon. C. M. Terry, who was reared here, married to Miss Lena McKinney, reared his children here and for many years was an outstanding farmer and cattleman, died suddenly Sunday afternoon in Dallas, where he and Mrs. Terry were visiting their children there. Mr. Terry suffered a stroke about two years ago, just after completing a nice, modern home here on his farm. He has been in fading health since that time.

We extend to Mrs. Terry and other members of the family our deepest sympathy at the death of Mr. Terry.

Mr. and Mrs. Roland Mayhugh and daughters visited Mr. and Mrs. C. T. Motsenbocker and children in Wellington, Monday.

Maw Mitchell, mother of Ray and Frank Mitchell, has been moved from Lefors to the hospital at Hollis. Mrs. Mitchell suffered a stroke about three weeks ago, but is a little better now.

The baby of Mr. and Mrs. Clarence Wood is also a patient in the Hollis hospital.

J. R. Taylor made a business trip to Dallas last week.

Mrs. Leta Baird and Mrs. Jake Lawrence were in Amarillo Friday and Saturday. They attended the funeral of a cousin.

Neva Jo Wolf of Pampa and Mrs. Clinton Rodgers of Borger spent Wednesday and Thursday with Mr. and Mrs. L. H. Wolf. Mrs. Rodgers, granddaughter of Mr. and Mrs. Wolf, has returned from Los Angeles, California, to Borger to make her home with her parents, Mr. and Mrs. Frank Hall. Mr. Rodgers, who is with the U. S. Navy, sailed for overseas duty March 16.

Dump trucks make up most of the traffic here these days. Crushed rock, hauled from near Fresno, is being put on the new F. M. road bed to Arlie.

Mr. and Mrs. B. A. Bledsoe of Wellington visited Mr. and Mrs. E. B. McClendon Thursday night.

The fruit trees here are in full leaf after a mass of pink and white blossoms. If they come to no harm, we should have a bountiful fruit crop this year.

Bill Adkins of Amarillo, who was recently examined for military service received a three-months deferment.

We extend our sympathy to Mr. and Mrs. L. C. Leathers and sons at the death of his father who lived near Paris, Texas. Mr. Leathers broke a hip in a fall and with other complications caused his death. He died last Sunday. L. C. Leathers had been at his fathers bedside since the time of the accident.

Fred Cox marketed his sheep last week. The flock was a victim of "disease X."

Mr. and Mrs. E. V. McClendon visited friends and relatives at Dodson Thursday.

Clinton Childress of Wellington was in Loco Thursday on business.

Mrs. G. K. Patterson of Wellington spent several days in the home of her daughter and family, Mr. and Mrs. Jack Brown. The Brown children have the measles.

Mr. and Mrs. R. H. Lacy, Calvin and Virginia, of Lefors spent the week end visiting friends and relatives here and at Wellington.

Mrs. Loyd King and Lynn were business visitors in Vinson, Monday.

An early resident of this community, Mrs. Maggie Donnell, died Monday morning at the home of her daughter, Mrs. Jess Hunsaker, in Wellington. She was 89. Also surviving Mrs. Donnell, in addition to Mrs. Hunsaker, is a son C. T. Donnell of Wellington. Such a true Christian person as Mrs. Donnell will surely be missed among her many friends.

George Adkins and Merritt Durfey were business visitors in Childress Monday.

Cecil Cayton, Jr. of Vega was a dinner guest in the G. W. Adkins home Wednesday. While in this vicinity, Mr. Cayton also transacted some business in Childress. In the afternoon he visited Mr. and Mrs. J. C. Wolf and Jimmy in Wellington.

Mr. and Mrs. Howard Fike and Trena Kay of Amarillo, Mr. and Mrs. Medford Crowder of Fort Worth and Mr. and Mrs. Tiffin Young Jr. and Irene of Wellington visited Mr. and Mrs. Tiffin Young Sr. and Glenn over the week end.

Most everyone here attended the St. Patrick's celebration at Shamrouk Tuesday. Several remarked at the absence of the Wellington band.

Mr. and Mrs. B. F. King of Wellington visited Mr. and Mrs. G. W. Adkins, Mrs. W. D. Durfey, and Mr. and Mrs. W. M. Durfey and family Wednesday afternoon.

W. M. Durfey had a well drilled just north of his home. He got a fine well, testing the same as the Wellington city water, at 60 feet. He plans to install an electric pump and irrigate their yards and large garden.

So many families have moved away or are attending church in town that the churches here have very small attendance these days.

Mr. and Mrs. Henry Wolf of Wellington spent Sunday afternoon in the L. H. Wolf and Bill Wolf homes.

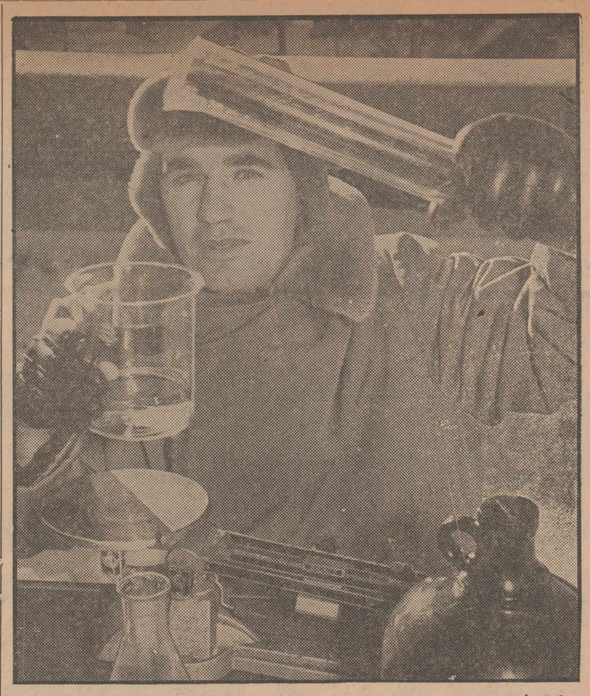

Mr. and Mrs. Loyd King and family have been visiting her parents, Mr. and Mrs. H. B. Martindale in Wellington. They are reported a little better.

Mr. and Mrs. George Patterson and Judy of Buck Creek visited in the Jack Brown and George Adkins homes Sunday afternoon. Also visiting Mr. and Mrs. Adkisn were Mr. and Mrs. J. C. Wolf and Jimmy of Wellington and Mr. and Mrs. B. Hammon.

Mr. and Mrs. G. T. Austin built a nice front walk at their home this week. They have recently added a lot of nice sized Chinese elm trees for future shade.

Mr. and Mrs. D. A. Preston are also doing some yard work. They hauled several loads of dirt in to build up their yard. They also removed some dead trees from near the house.

Mrs. J. P. Sullivan who has been ill, is reported improving now and is able to be up.

WORKING UP A GOOD SWEAT—Working in an outdoor lab making honest sweat for experimental purposes is this Minneapolis chemist. The artificial perspiration is made of acid and salt. It is used to test its effects on many kinds of finished surfaces.

Attend Southern Clinical Meeting

Dr. and Mrs. C. B. Jones were in Dallas last week to attend the 23rd annual Dallas Southern Clinical Conference, which opened March 16 and continued through March 19.

Sixteen guest speakers from some of the nation's largest medical centers were featured.

Singers Re-Elect W. S. Brewer

W. S. Brewer was re-elected president of the Third Sunday Singing convention Sunday, Mar. 15, when singers of the area met at the First Christian Church.

MAYBE you didn't know just how easy it is to own a new Buick.

Henard Heads Methodist Men

A new organization of Methodist Men in the First Methodist church, Wellington, Texas, has been chartered by Methodism's General Lay Board of Lay Activities in Chicago.

The local group will become one of 10,000 Methodist Men organizations which the Board plans to charter by 1956.

It is estimated that 2,000,000 men in The Methodist Church are prospective members of Methodist Men clubs. According to Robert G. Mayfield, executive secretary of the Board, "We seek to mobilize through Methodist Men the tremendous power and enthusiasm of the men of the church. Our purpose is to give strength to the program of Christ and His Church through consecrated service of men in every local church of Methodism."

Dan Henard is president of the newly formed group and Mack Saied, Jr., secretary.

Bee Association Hears Simonds

James M. Simonds, entomologist for the Stauffer Chemical Company of Lubbock, explained to members of the Collingsworth County Beekeepers Association the effect of bees on alfalfa pollination and also the effect different insecticides on bees, when that group met recently.

The speaker explained the different ways the bee uses the pollen it collects and the means by which nature attracts the bees to certain flowers .He quoted statistics on the value of honey bee pollination on vetch, alfalfa and clover.

Turning to insecticides and their effects on bees, Mr. Simonds explained that three-fourths of the honey crop in the United States comes from alfalfa, clover and cotton, three crops in which spraying with insecticides is of prime importance.

He pointed out, however, that the poison may kill the bees, it does not show up in the honey, due to the process in which ie is produced.

In the bracket of poisons safe for bees are toxaphene, methaxychlro and sulphur; those classed as safety questionable are DDT and chlordane; and those regarded as unsafe are BHC, lindane and aldrine. Very destructive to bees are parathion, dieldrin and all arsenates.

Following Mr. Simonds talk, J. B. Stevenson, association president, discussed hobby beekeeping, and John Thomas, secretary, told of the Honey Industry Council and its plans.

HOT HOUSE—Raised in a deadly atmosphere of radio-active gases, these flowers are tended by a well-protected gardener, entomologist A. C. Miller, who is clad in gas mask, gloves and protective clothing. Located in Pittsburgh, Pa., the "hot" house is used by the Gulf Oil Corp. to raise pyrethrum flowers from which insecticides are made. Miller will use radio-detection equipment and the plants to trace processes by which the drug kills insects.
