Tuesday night, the Muleshoe Mulettes widened their season basketball record to 17-8 following a 40-36 victory over the Tulia Lady Hornets. Wendy Green was high scorer with 13 points.

Also winning their game over Tulia by the same score, 40-36, was the Mulette JV girls' team.

Despite Johnny Garcia's 13 points and Greg Garcia's 12 points, the Mules fell to a Hornet onslaught 63-54. In overtime, the Mule JV team defeated the JV Hornets, 68-60.

Friday night, the 'hot' hard shooting Mulettes will play Dimmitt at Watson Junior High School gym in Muleshoe.

Although the Mulettes were defeated by Dimmitt in their first go-round, the Mulettes now know the district title will be on the line in the Friday night game.

If the Mulettes get by Dimmitt, there is a very good chance they will win the district title and advance to playoffs this year.

MISD School Facilities Used After Hours For Continuing Education

If you happen to be in the vicinity of the Muleshoe High School and Watson Junior High School parking lots after school hours, you might ask, "What's going on? The gym is dark, so why are all the cars parked around these buildings?"

The answer to the question is -- that adults are continuing their education in several areas of the curriculum.

On Monday evenings, two courses are offered - Spanish 141 from South Plains College, Levelland, with an enrollment of 20 students, and a local course - Introduction to Computers, as taught by James Evans, High School math instructor, which has an enrollment of 20 students.

Government 232 from South Plains College is offered on Tuesday evenings. The enrollment is 27. Also on Tuesdays and Thursday evenings, Adult Basic classes and four classes of E.S.L. are taught in Watson Junior High. The enrollment has reached 137. These adults are learning English as a Second Language, studying to pass the G.E.D. exam and trying to improve their skills in math, English, social studies and science.

In the Muleshoe High School English 4306 - Introduction to Linguistics is offered by Wayland Baptist University. This is the first course of a four-course series to be offered for teachers

Marathon Duo Visit Rotary Club

It was a humorous presentation of the life of a marathon runner, when Terry Hutton and Gene McGuire spoke to the Muleshoe Rotary Club on Tuesday.

Introduced by Bret McCasland, the duo who recently ran in the Dallas White Rock Marathon gave a 'spiced-up' overview of what happens to a marathon runner.

Hutton said, "The best way we ran was -- slow." and Gene McGuire piped in "And we finished -- barely."

McGuire gave a little of the background on marathon racing, saying it was from a Greek Legend about a Greek warrior in the town of Marathon, who ran 26.2 miles to tell about Marathon being the winner in a competition.

He said after the warrior delivered the message, he fell over -- dead. To this day, a marathon course is 26.2 miles long. In 1896, the first marathon was conducted in modern times.

McGuire said the 26.2 miles is the equivalent of running from Valley Grain to the city limit sign at Littlefield; or from the Bailey County Civic Center to Amherst.

They chimed in together that the marathon is divided into two parts -- the first 20 miles, and the last six miles. The first 20 miles is easy, they say, and it takes half the time running to traverse the first 20 miles; the last half of the time is spent trying to complete the final six miles.

According to McGuire, it is a nearly 'o' chance for an American man to win the Olympics and an American woman runner has a better chance at winning.

More Arrests Made Monday On Drug Charge

At presstime, all the original seven local residents in custody since last Friday on charges of Distribution of a Controlled Substance, remained in the Bailey County jail.

On Monday, they were joined in jail by Ronald Kirby of Texico, N.M., who was arrested in Farwell on Monday morning by Parmer County sheriff's officers.

Also jailed on Monday afternoon was another local resident, Eloy Porras, who was charged with possession of a controlled substance. This came about as a result of the arrests of the initial seven persons.

Porras also remained in jail at presstime.

Workshop To Train Child Care Providers

Current trends in employment and family lifestyles are placing new emphasis on the need for reliable, responsible and well-trained persons to provide child care outside the home in rural as well as urban communities.

When the Texas Agricultural Extension Service conducted an intensive survey of each county in 1986 to determine what the citizens consider critical issues facing the people, adequate child care was a common concern across the state, said Dr. Catherine Crawford, South Plains District Extension director for home economics.

"Not only single - parent, households, but families in which both parents are employed have to rely more and more on child care provided outside the home," she said.

Licensed child care facilities are regulated by the Texas Department of Human Services and visited on a regular basis to insure that standards are met. Annual training is required for the directors and staff members of licensed facilities.

Persons who care for a few children in their home may be registered with TDHS. They provide self-certification that certain standards are met, but are visited by TDHS only if there is a complaint about the child care.

To help operators of both licensed and registered child care facilities across the South Plains provide the best possible care and strengthen their businesses, District 2 Extension home economists of the Texas Agricultural Extension Service will provide a one-day workshop

Bailey County Food Box Cares For Low-Income

After working on a project since October, 1987, South Plains Community Action's Bailey County office at 804 West American Blvd., has launched a new venture.

At their location in Tradewinds Plaza, the Community Action office has started the Bailey County Food Box.

Star Martinez, manager, said the Food Box is for the needy and senior citizens.

She explained that since getting the program started, through donations, they helped 100 families during the month of January, 1988. This included 70 families and 30 senior citizens.

The families are aided with food and clothing obtained by donations to the Food Box.

Mrs. Martinez said Community Action follows the federal guidelines for lower income families, and anyone who believes they are eligible may go by the Community Action office and apply. In response to who may be eligible for the assistance, Mrs. Martinez, said most of the recipients are "out of work, or underemployed," to take care of their families.

This is intended to be an ongoing project, and they have now obtained a freezer to keep frozen foods, such as meats; and they have refrigeration for fresh foods.

The Food Box will accept contributions of food or clothing, or money.

It has been suggested that memorial donations be made to the Food Box at 804 West American Blvd.

Baby through adult, including maternity clothing is sought by the Food Box, along with all types of food.

In answer to a question as to "Who is Community Action?" Mrs. Martinez said, "South Plains Community Action Association, Inc., is a private non-profit corporation. The organization is dedicated to addressing human needs in the rural areas of the South Plains of Texas.

"Throughout nineteen years of existence, South Plains Community Action Association, Inc., has developed a format which has the capacity to deal with the problems of low-income individuals and families. At the same time, the organization has an administrative capability that has been responsible for over twelve million dollars on an annual basis. Through regular audits, all funds have been accounted for and not one dollar has been unaccounted."

Some of the things Community Action provide include Community Services Block Grant, available for community assistance including neighborhood center support, staff and general services; Head Start, provides education to four year old children in low-income families, including parent education, social services, limited medical and dental services; Emergeny Food Assistance Program, food distribution, cheese and other food commodities through USDA and Texas Department of Human Resources; Emergency Crisis Intervention, available for emergency payment to utility companies for utility costs of low-income and elderly.

They also have the South Plains Area Regional Transportation Assistance Network, called (SPARTAN) which provides transportation to all citizens for medicaid recipients.

They also provide many other services such as rural health and home health.

Other programs too numerous to name here are available by contacting the Community Action offices.

HOMESTEAD EXEMPTIONS

CAN LOWER THE PROPERTY TAXES ON YOUR HOME

A homestead exemption

lowers the property taxes on your home by lowering its taxable value. For example, if your home is valued at $50,000 and you receive a $5,000 homestead exemption, your home will be taxed as if it were worth only $45,000.

You qualify

for a homestead exemption if you owned your home on January 1 and used it as your primary residence on January 1. It doesn't matter whether your home is a house, a condominium or a mobile home.

Exemptions are available

to all homeowners on their school taxes. Additional exemptions are available to homeowners who are disabled or age 65 and over. Other exemptions may be offered to homeowners by school districts, counties, cities, and special districts. All taxing units offer exemptions to disabled veterans.

Apply to

your local appraisal district office at the address shown below for all exemptions you may qualify for. Application forms are available at this office.

If you received a homestead exemption on your present home in 1987, you won't need to apply again for 1988 unless the chief appraiser requires you to reapply.

However, if you passed your 65th birthday or became disabled before January 1, file a new application to receive the additional exemptions.

If you haven't received an exemption on your present home, of if you've moved to a new home, make a new application for 1988.

The deadline

for applications is April 30, 1988. Contact your appraisal district before then if you need more time.

For more information, get a free copy of the pamphlet, *Taxpayers' Rights, Remedies, Responsibilites*, at your appraisal district office or from the State Property Tax Board in Austin.

No Rain

An Indian had attended services one Sunday morning. The sermon had been very loud in spots and the Indian, though a good Christian, was not greatly impressed.

Later, when asked how he had liked the sermon, he said: "High wind, Big thunder. No rain!"

FORGERY RING THOUGHT OPERATING IN AREA

Muleshoe merchants were being warned this week of the operation of a forgery ring in the area with at least two Mexicans suspected of forging checks on John Purdy. Officers said that checks have been found forged on that name at a local grocery store, and although several clues have been determined, the subjects are still at large.

Sheriff Dee Clements issued a warning to merchants here to make sure of positive identification, febore cashing checks on anyone unknown to them personally.

Clements suggested that drivers license are the best method of identification, and that anyone unable to produce such identification should be denied check cashing privileges.

In pointing up the warning, the sheriff reminded merchants that three persons are in custody in Plainview after confessing to forgery of more than $400 on an Enochs man.

BUSINESS OUTLOOK

By Edward Thorlund

The financial community, and communications network, is overloaded with nervous Nellies as a result of October 19th.

A good example was the fit of fright so many brokerage houses and advisors exhibited after the market sank 140 points one recent Friday. Because the big fall in October followed a heavy drop the preceding Friday, every crystal ball gazer with knocking knees envisioned another black Monday—on January 11th.

It didn't happen. The market, in fact, went up. Yet wire stories circled the world the preceding weekend, predicting trouble, a wild fall, etc. When the Tokyo market, which opens many hours before Wall Street, opened lower that news was flashed to all the world's markets, as if to say: "Here we go!"

In spite of all this projected fear and nervousness the market went up. That's one thing President Reagan was referring to when he charged the media with too much gloom and doom prophesizing about the stock market.

There's good reason to believe Reagan is right about the healthy state of the economy. And corporate taxes are lower this year, which will also improve earnings. The president may have missed the mark in his trade deficit remarks, but it's true that American buying power is at an all-time high. That's what Mr. Reagan was emphasizing.

And unemployment is low, as is inflation—both good signs. So while many still think this may be a bear market, no one knows and 1988 looks like a good year.

BIBLE VERSE

"Know ye that the Lord he is God: it is he that hath made us, and not we ourselves."

1. Who is the author of this verse?
2. What does this verse warn us against?
3. What is the rest of the verse?
4. Where may it be found?

Answers to Bible Verse

1. The Psalmist—probably King David.
2. Against the sin of worry.
3. "We are his people, and the sheep of his pasture."
4. Psalm 100:3.

Mr. And Mrs. R.B. Knox Celebrate Anniversary

Mr. and Mrs. R.B. Knox of Sudan were honored Sunday, Jan. 24 with a golden wedding anniversary reception in the community room of the Sudan First National Bank. A lace table cloth covered the serving table which was accented with a gold candelabra holding gold tapers surrounded with ivory flowers. The three-tierd cake was decorated in ovory and was topped with two wedding bells nestled in ivory lace.

Cake, nuts, gold mints and gold colored punch were served from crystal appointments by the couples' granddaughters, Wendy and Melissa. Curtis and Len served coffee and spiced tea from brass service. Gold flatware, and gold engraved napkins completed the setting.

The gift table was covered with a lace-edged cloth and accented with a gold money tree that was on display with the other gifts and cards the honorees received.

Speical guests included the mother of Mrs. Knox, Daisy Ford of Sudan; and her three sisters, Ruby and Charlie Davis, Joyce and James Raspberry, and Luvois McHenry, all of Dallas; her brothers, Ferroll and Lillian Ford of Seymour, Lowell Ford and his daughter, Carolyn Woodard of Lewisville.

They indicated they will probably try to qualify for the Boston in the future, but their next Marathon will be the New York Marathon.

Ending on a more serious vein, they plugged getting 'good shoes' if anyone plans to take up running. "Don't try to wear shoes you would wear to play tennis," they said.

They also spoke of the enjoyment of running, although Hutton tended to question the 'joy' a little bit.

It is good for your health, and is excellent exercise, they both added.

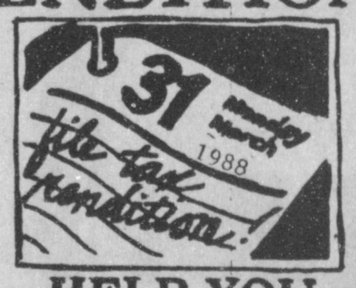
PROPERTY TAX RENDITIONS



HELP YOU PROTECT YOUR RIGHTS AS A TAXPAYER

A rendition is a report to the appraisal district that lists all the taxable property you own or control on January 1, 1988. You may also give your opinion of the property's value, if you wish.

You must file a rendition if you own tangible personal property used to produce income-such as the machinery and equipment used by a business.

The appraisal district may require any taxpayer to file a rendition by sending the taxpayer a written notice and a rendition form.

You may want to file a rendition, even if you aren't required to file, to preserve some of your rights as a taxpayer:

•You put your correct mailing address on record so your tax bills will go to the right address. Even if your bill goes to the wrong address, the law still holds you responsible for paying your taxes on time or else paying extra charges for late payments.

•You can put your own opinion of your property's value on record. If the appraisal district then places a higher value on your property, it must notify you in writing of the higher value and explain how you can protest that value to the appraisal review board.

•By filing a special type of rendition called a *report of decreased value*, you can notify the appraisal district of significant damage to your property that occurred in 1987. The district will send someone to verify the damage and take it into account when assigning a 1988 value to your property.

File renditions with your local appraisal district at the address shown below. Forms are available at this office.

The new deadline for 1988 renditions is March 31. You can get an extra 30 days if you ask for it in writing before the March 31 deadline.

For more information, get a free copy of the pamphlet, *Taxpayers' Rights, Remedies, Responsibilities*, at your appraisal district office or from the State Property Tax Board in Austin.

The Mules trailed 6-14 in the first quarter, and it was 15-23 at the half. The eighth grade players tried to play "catch-up" in the third, but failed, as the end of the third saw the score at 26-32.

Saturday afternoon, the Muleshoe eighth grade boys played for third place, and blasted Hart 73-26.

It was 10-8 at the end of the first quarter, and had widened out to 19-14 at halftime. By the end of the third, the score was 46-19.

The team shot 30-60 from the field for 50 percent and at 11-17 of their free throws, the team hit on 64.7 percent.

"We started off slow, but we finally got things under control and eventually had a good game," said Coach Rupe. "Hart was not very good. We just stayed after them. This was a big win for us, as we prepare to finish the season and start the district tourney in another week."
