Many Eligible County Voters Still Unsigned

With three weeks left for voters to register in Texas, about half of the potential voters in Hale County have registered, according to County Tax Assessor-Collector Bill Hollars.

As of Friday, Hollars noted that about 6,600 persons had registered, about half of the record 13,624 who registered in 1968. Total registrations last year were 10,389.

Hollars said the majority of the persons registered so far were among those who received registration blanks with tax bills in 1969.

To Stay Open Late

The tax assessor-collector's office will remain open until midnight on Jan. 31, a Saturday, to give a potential voter a last chance to sign up. Hollars said that those persons registering by mail would be registered if their letters to his office are postmarked before midnight, Jan. 31.

The 1970 political primary races in Hale County are beginning to shape up, with 11 county, district and precinct officials up for election this year.

GSPA Asks Nixon To Reconsider Advance Pay

The Grain Sorghum Producers Association asked President Nixon and the Budget Bureau this week to reconsider their stand on not making advance payments to Farmers, who comply with the 1970 Feed Grain Program. It has been the practice in the past for farmers to receive one-half of their diversion payment at the time they signed up in the program.

In his letter to the President, Harp said, "The discontinuance of these payments and the tight money situation will prevent many of our banks from financing farmers for this crop year. This will force many of our farmers out of business."

Harp asked the President and the Budget Bureau, "to reconsider this issue, that is so important to many of our grain farmers, and afterwards to continue the advance payments for the 1970 Feed Grain Program."

It was common knowledge that the Secretary of Agriculture, Clifford M. Hardin, held out to continue the advance payments for 1970, but was vetoed by the Budget Bureau and the White House.

Copies of this letter were mailed to USDA officials and Congressmen.

District Water Depletion Maps Are Available

Frank Raymer, manager of the High Plains Underground Water Conservation District No. 1, announced that the 1969 cost-in-water-depletion, income-tax allowance maps have been released by the District.

These maps are constructed annually by the District and are used to claim an income tax allowance on the amount of the depletion of the underground water supply beneath their property.

Although the District charges \$1 plus postage for each map, covering an entire county, the income from such map sales goes only to defray the cost of printing and mailing the maps and to pay for the land appraisers fee for developing cost in water tables for each county.

These tables can be secured without cost from the District. This is a non profit service that is provided for the District's property owners. In Hale County, this applies to property owners in County Precinct 2.

Maps and cost in water tables can be secured through the District's office at 1628 15th Street, Lubbock, Texas 79401.

ESTHER SEPEDA GIVES CHRISTMAS REPORT FROM CENTER HERE

We can truly say that Abernathy was enveloped by the Christmas Spirit for this past Christmas season and I am proud to say that I am a member of such a fine community.

I myself witnessed what people can do when they stop thinking about themselves only and start thinking of those around us who are less privileged.

Due to the fine response and cooperation of Churches, Clubs and interested individuals there were about 30 families taken care of in one way or another. Some were supplied with toys for the children, others with food or clothing and some even with a little money. I thank God first and then these fine people for sharing what the Lord has given them and thus making it a more happy and merry season for all. I am sure that the people who gave found as great a joy as those who received.

My wish is that we won't forget the Christmas Spirit we should maintain as Christians and Gods Children.

The Christmas Party at the Center on Dec. 22nd was a tremendous success with over 200 people present. The Christmas singing led by Mrs. L. A. Suttle was enjoyed by everyone, but especially the children who weren't ready to quit even after 6 or 8 songs. The Christmas story told by Bro. Murry Brewer and translated by Bro. Velasquez added just the right touch of Spirit to it all.

Refreshments were served to everyone and our thanks go to the following people who made this party possible with their donations, Mmes. Frank Megna, Chris Benn, Cecil Gartin, C. V. Cunningham, Mr. Samuel H. Lebow, Wesleyan Sunday School and the Carlton S. S. Class. There was a total of \$49.00 donated. The cost of the fruit nuts, candy and other supplies was about \$40.00 and the balance of the money will be used for the girls Art & Craft class which is in need of supplies to work with.

Out thanks also go to Smith Thriftway for our beautiful Christmas tree which was put up at the Center for the Holidays and by Mrs. James Pace for the fine decorating job she performed with the help of several other ladies.

We also express our appreciation to the F. H. A. girls who gave a beautiful party at the center Dec. 22, at 7:30 p.m. about 60 children attended where they all sang, ate and had a very good time with about 40 F. H. A. girls. The girls who also had a special treat for the children in store and this was a special visit from Santa Claus along with presents for every child who attended. I believe the girls were just as thrilled and excited as the children. May The Lord Bless them for their thoughtfulness in wanting to make these children during Christmas. Our thanks to their president Marilyn McAllister and their teacher Judy Herring.

Now, citizens of Abernathy don't you agree that our Community was Enveloped by the Christmas Spirit? May this be the start of a wonderful and beautiful relationship among all people in Abernathy. Lets work together towards making Abernathy a place we can be proud of. Where there will be justice, Love and Peace for everyone.

Thank You
Esther Sepeda,
P.S. Our girls Arts & Crafts class needs old jewelry and cigar boxes to work with if you have some please bring them down.
Esther

Director Cautions Farmers Redeem Grain Before June 30

USDA announced the 1970 feed grain program this week. According to the Grain Sorghum Producers Association, there are two changes for 1970 which will hurt the farmers in the High Plains area. They are:

(1) There will be no advance payments. Farmers have been able to get 50 per cent of the diversion payment in advance by signing up in the feed grain program.

(2) The diversion payment will be cut from 45 per cent of the total county price support payment, as in 1969, to 40 per cent in 1970. This is about 10 cents per hundred times the

farms projected yield of 5,000 pounds per acre, the cut is \$5.00 per acre.

The loan and price support level will remain the same as in 1969.

All 1967-68 grain sorghum in the commercial resale program will be called in on June 30, however, the 1969 crop of grain sorghum placed under government loan may be placed under resale on June 30. The resale program is where farmers retain ownership past the normal take-over date by the government extending the loan period.

GSPA has been working with USDA officials trying to get an

extension of at least the same payment levels for 1970 as 1969 and to extend the resale program. USDA gave budgetary problems as reasons for the cut in the diversion payment.

GSPA Executive Director, Elbert Harp, cautioned all farmers who are currently carrying their 1967-68 grain under the resale program to take necessary steps to redeem their grain prior to the June 30 take-over date. Substantial losses would occur to the farmer if it is not redeemed. Harp also stated that GSPA was pleased that USDA did authorize the resale program for 1969 grain. This should tend to strengthen our market price.

THD Makes Car Registration Easier

Texas drivers will find registering their motor vehicles for 1970 easier than ever before, thanks to a new registration system devised by the Texas Highway Department.

The Department expects more than seven million vehicles to be registered during the year and there will be several new wrinkles.

First, license plates will have a new color scheme — light blue on a reflective white background.

Second, for the first time, motor vehicle registration renewal applications will be mailed to every vehicle owner in Texas during January. The registration period begins February 1.

The renewal application will arrive in the mail in a slender envelope marked, "Important—This is Your License Plate Renewal Application."

The application itself has instructions printed on it. It is a three-part form "Which should not be torn apart."

When the registration period begins, the vehicle owner need only take the application—and the fee—to the county tax office. Or he can order his plates by mail.

With the application, he will no longer need to present his certificate of title or the last year's registration receipt.

If he decides to go to the county tax office or a substa-

tion, he will find shorter waiting lines. With the application, the clerk will need only to receive the fee, affix to the application a sticker showing the registration number and other data and hand over the 1970 plates.

Some vehicle owners may find it even more convenient to go through the registration process by mail.

Although owners can register their vehicles in person until April 1, there is a March 1 cutoff date for mail registration. This allows 30 days for delivery before 1970 plates must be displayed on vehicles.

If the vehicle owner wants his plates mailed to him, he should send his registration ap-

plication to his county tax collector, with the registration fee plus \$1, which is the statutory charge for handling and postage.

If the address on the renewal application is incorrect, the vehicle owner should print his correct residence address on all three parts of the application.

The new registration renewal system is the product of an extensive computerization of the

Highway Department's motor vehicle registration records.

Initiation of the new system means Texas now has one of the most efficient systems in the nation for filing and registering motor vehicle registrations.

Motorist convenience will be one of the greatest dividends of the new system.

SOAP and ELECTRICITY

Blackouts and Outages

■ There's a difference between soap and electricity. There's a difference between blackouts and outages. The famous soap prides itself on being 99 and 44/100% pure. That's pretty close to perfect, isn't it. But does it surprise you when we tell you that electricity—the electricity we provide for you—that you use here has a reliability record of 99.997% ... which is almost 100% pure. That's the difference between soap and the electricity you use. But, you say, what about blackouts? Well, it's this way. We define a blackout as a shortage of power. A situation when you, as a group of people, are using more electricity than the equipment that generates, transmits and distributes it can provide.

■ We don't have that here. We will not have that in 1970 here. Sure, there might be some isolated service interruptions which we call outages. Despite our 99.997% reliability record, there still may be some lightning strikes on a transformer, or a squirrel getting confused in a substation, or a careless driver knocking down some of our equipment, and, yes ... we may have an equipment failure or a human failure ... we're still not perfect ... even though we try to be. In most cases we'll have your power back within the hour.

■ We're concerned with reliability and with the cost of our service. That's why we've averaged spending \$20 million a year on new, modern and more efficient equipment. This year we'll invest another \$25 million. We expect to give you all the electric power you need with more purity than the famous soap and at the lowest possible cost. That's our pledge for 1970.

SOCIAL SECURITY Questions and Answers

By MANCIE KING
Social Security Representative

Q. What papers do I need to take with me when I go to the social security office to apply for my social security retirement benefits?

A. Bring your social security card and your last Form W-2, statement of your wages for last

ed, bring a copy of your most recent income tax return. In addition, you will need some evidence to prove your age. A birth or baptismal certificate recorded before you were 5 years old is the best evidence. If neither of these is available, however, other documents can be used, generally the older, the better. If you have a question about a particular record, call your social security office. If your wife will be applying for social security wife's benefits at the same time, she should bring her social security card and evidence of her age.
