Fliers From 8 States Welcomed

One by one, 50 sleek private planes floated down from the sky and landed Oct. 8 at Aransas County Airport. As the 120 flying enthusiasts stepped from their planes, they were welcomed by a large crowd of local people.

The occasion was a "Howdy Stop" as part of the 23rd annual All-Texas Air Tour.

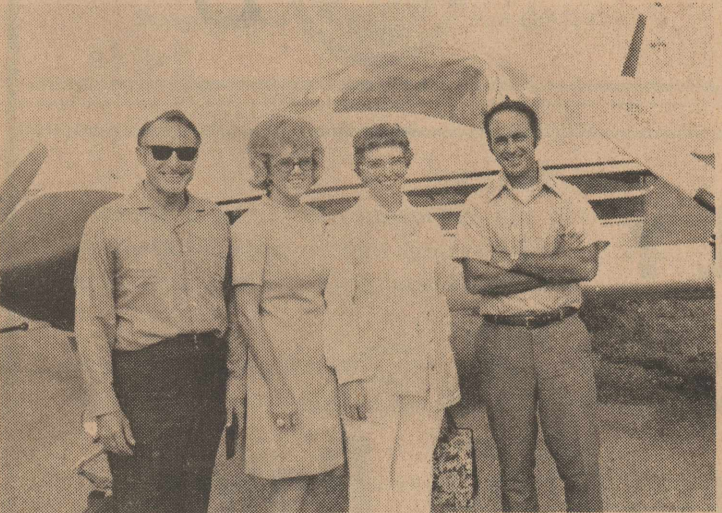

Among the pilots and passengers were doctors, lawyers, ranchers, businessmen, housewives and children from 25 Texas cities and from Michigan, Illinois, Indiana, Wisconsin, Maryland, California and Florida.

After being welcomed by the local people, the Air-Tour folks were served doughnuts and coffee and given packets of literature and information describing and illustrating the

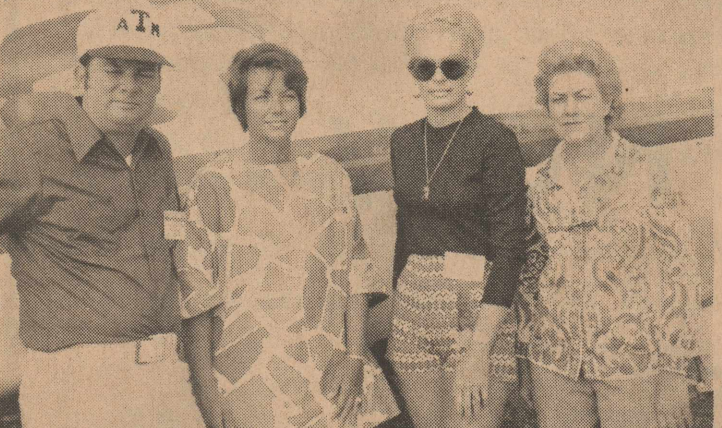

attractions of the Rockport-Fulton-Lamar area.

On hand to greet the fliers were representatives of the Rockport Chamber of Commerce and the Rockport-Fulton Tourist Association and other local residents.

At the risk of leaving out a name or two, here is a list of the local persons who welcomed the Air-Tour caravan: R. L. Eckman, Billy B. Dunlop, Mrs. Denver "Corky" Agler, Mrs. Loyce Landrum, Mr. and Mrs. James Hanzlik, Bill Christian, Mrs. Juanita Wagley, Gordon Stanley, John Kinsey, Mrs. Ginger Duckworth, Mrs. Mary McKnight, Mrs. Veda Tennent, Mrs. Pat Loflin, Carl C. Krueger, Jr., Harry Allen, Bill Bloch, Bill Janacek, Vernon Kleypas, Raymond Owens and Deputy Sheriff Vernon Duke.

Their hosts were Louis Gasche (left) of Victoria, owner and pilot of a Cessna 414, and the Rev. Joe Shelton, co-pilot and pastor of First Christian Church at Victoria.

AIR TOUR FLIERS GREETED — Dr. Hildebrand, 580 Hedwig, Houston, and his wife (second from right) were the first to land at Aransas County Airport near Rockport for the "Howdy Stop" of the annual All-Texas Air Tour. Bob Smith of Rockport, Don Bandy, Tom Andrews and Miller Darce of Aransas Pass have been elected new directors of Live Oak Country Club.

Holdover directors are W. C. Underwood of Rockport, Bob Haywood of Ingleside, Tom D. Moore of Rockport and Bill Ellis of Aransas Pass.

Moore was elected president;

TOM D. MOORE

Ellis vice president; and Bandy secretary.

The directors were elected by ballot of the Country Club membership, and the officers were elected at a dinner meeting of the directors at Little Bob's Restaurant in Aransas Pass.

MENTAL HEALTH PROGRAMS TOLD

Programs designed to help the mentally or emotionally disturbed persons in this area were described by Mrs. R. W. Woolsey, president of the Coastal Bend Association for Mental Health, and Mrs. John Carpenter, executive director, at a luncheon meeting of Rotary club October 6 at Corky's restaurant.

One of the most effective programs of the association is the recruiting and direction of a corps of volunteers who visit and work with hospitalized persons and outpatients undergoing treatment for mental problems, according to Mrs. Woolsey.

The association also conducts vocational and social adjustment classes for restored mental patients and a child development institute for children with emotional problems.

Another profitable program is a series of classes for police cadets on how to recognize and handle abnormal people. Mrs. Woolsey paid tribute to Rev. Lester Hill of St. Peter's Episcopal Church who conducts these classes. Rev. Hill introduced the speakers.

Mrs. Carpenter discussed the possibility of establishing an information center in Rockport where emotionally disturbed persons or members of their families could get information on how to obtain help. This would be a telephone answering service manned by a volunteer who would be acquainted with resources available in the Coastal Bend area. Such programs are in successful operation in several of the smaller communities in the area served by the association, according to Mrs. Carpenter.

Convention At Sandollar Oct. 16-17

Approximately 115 persons representing the Wharton Chamber of Commerce will gather at the Sandollar Resort Motor Hotel in Fulton Oct. 16-17.

Doug Ratcliff, Sandollar executive director, said the Wharton group of civic and business leaders will be beginning Friday night, Oct. 15.

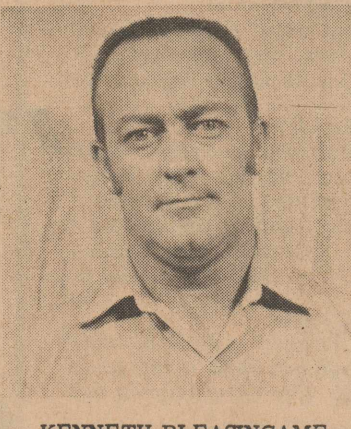

"They have a full schedule of business sessions and time for recreation which will consist primarily of golf fishing trips," he said. "This organization is just one of many we have coming and using the Sandollar as its headquarters in the coming months. Our complete convention facilities plus excellent, and big time entertainment is attracting the interest of groups from all over the state as a place for holding both business and recreation gatherings."

He said his firm is receiving inquiries daily regarding reserving the Sandollar for conclaves and that the Sandollar is also beginning an extensive state-wide public relations and publicity program to bring conventions to the Fulton and Rockport area.

Last weekend, the Sandollar hosted more than 125 military men from Kelly Air Force Base in San Antonio.

County Approves Subdivision Plans

Aransas County Commissioners this week approved plans submitted by Fred Keng to develop a subdivision covering 15 acres between Lazy Acres and West Terrace, south of FM 881 and 1.3 miles west of here. Keng offered to clean out an existing ditch to improve drainage and asked the county to put in the pipe.

The commissioners also instructed county surveyor Tommy Griffith to make a thorough investigation of ways to improve drainage in Peninsula Oaks, Lazy Acres and West Terrace Subdivisions.

In another action the commissioners offered to rent a garage building at the old radar site for \$90 a month to the U.S. Geological Survey, Water Resource Division.

The following monthly fee reports were approved: Justice of Peace J. Paul Rogers, \$120.33; County Clerk Ruby Hart, \$2,311.90; Sheriff Bob Hewes, \$191; and Justice of Peace Lawrence Miller, \$708.50.

The final action was agreement by the county to pave the area around the new fire station, with no charge to the city, as soon as work on drainage problems is completed.

TV NEWSCASTER ADDRESSES LIONS

Bill McDonald, chief newscaster for KIII-TV (Channel 3), spoke at the Oct. 7 luncheon meeting of the Rockport Lions Club and described how he and his staff collect, film, edit and present the news to a potential audience of 205,000 persons in this area.

He said the station has an eight-man news staff and each member does several jobs such as shooting pictures and writing copy.

"We try to present a balance of news," he explained, "presenting a wide assortment of 'good' news such as human interest happenings. We definitely do not place emphasis on 'bad' news and shocking stories and pictures."

When something of major interest happens, such as the recent flooding in Sinton, Channel 3 attempts to present thorough coverage. McDonald said his station dispatched five men to Sinton to cover this story.

The newscaster also said KIII-TV is attempting to broaden its coverage of such human interest events as the Aransas County-Rockport Centennial which, incidentally, received considerable attention by the station.

McDonald paid a compliment to The Rockport Pilot. "Channel 3 subscribes to 28 newspapers published in this area and the Pilot is one of the finest from all standpoints," he told the audience.

The voters of this city will have the opportunity to vote Oct. 29 for issuance of \$120,000 in sewer revenue bonds to make it possible to expand the present sewage treatment plant to serve more people.

The \$120,000 will represent approximately 45 per cent of the cost of this urgently needed project, and a Federal grant will provide the remainder of the funds, or 55 per cent. Total cost of the project will be about \$265,000.

City officials point out that with successful passage of the bond issue election, there will NOT be any increase in taxes. Further, it is explained that the additional users of the expanded sewage treatment facilities will help pay off the cost by paying use fees.

To help voters understand the background and present facts concerning the expansion project, the Pilot offers the following information supplied by City officials:

Until 1968 the City of Rockport treated its waste water by means of an Imhoff tank, trickling filter and lagoon. This facility was close to capacity and not capable of producing a final discharge which would meet the new Water Quality standards. Due to the fact that the discharge from the treatment plant flow, into the Little Bay area, which is a wildlife and recreational area, it was decided that a treatment plant should be designed and built that would produce a high quality discharge.

In 1968 a new contact stabilization treatment plant was con-

structed and placed into operation. This new plant greatly reduced plant odors and discharges water which has almost zero biological oxygen demand and very low suspended solids and is further chlorinated to insure a safe discharge.

At the time the new plant was designed the City's collection system had an average flow of 250,000 gallons of waste water per day. The plant was designed to treat 500,000 gallons of waste water per day with provisions for a planned expansion to 1,000,000 gallons per day. Portions of the units are designed to handle 1,000,000 gallons and all the waste water transmission facilities are designed and built to handle the 1,000,000 capacity. By constructing the plant in planned expansion steps the City could build the treatment plant at a minimum initial cost and expand the plant when the flow increases to where additional capacity is required.

Due to expansion of the collection system to serve more citizens of the City of Rockport, and a continuing growth of sewer customers within the service area of the sewer system, the flow to the City Treatment Plant has reached near design capacity of the present unit and therefore it is necessary to implement the overall flow for the treatment plant and proceed with the expansion of the plant capacity from 500,000 gallons per day to 1,000,000 gallons per day. The proposed expansion is composed of the following improvements:

- 500,000 gallons per day of aeration and mixing unit
- No additional clarifier capacity
- Additional chlorine contact chambers.
- No additional chlorination equipment
- One additional blower to be added to the two (2) existing blowers
- An enlarged lift station

Construction Underway On 650-Unit Mobile Home Park

Construction work is under way on a 650-unit mobile home and travel trailer park on Highway 35, six miles north of here. Named Lakewood, the development will be located on a wooded 110-acre tract of land and is being built by Carl C. Krueger, Jr., and John Lewis.

The construction work now in progress is on the first phase of the development which when completed will accommodate up to 400 mobile homes and 250 travel trailers.

Engineering and site planning calls for the first phase to include 60 mobile home sites and 120 travel trailer spaces. Krueger said all travel trailer sites will have electricity, sewer

hookups and pull-through design.

Also under construction is a large combination recreation and administration building. The first phase of the development is expected to be completed by Nov. 15.

When the entire mobile home-travel trailer park is completed, it will have an additional recreation facility exclusively for the mobile home park, a swimming pool, underground utilities, and a marina on Copano Bay.

Another feature is a 25-acre fresh water lake. The land on which the park is being built has some of the highest elevations in Aransas County.

been approved in amount of \$31,044 for Federal financial assistance under the Federal Disaster Act. At least two-thirds of repair work of damages resulting from recent Tropical Storm Fern should be completed within sixty to seventy-five days.

Sealed bids were opened for emergency repair to piers in Rockport Harbor. Bids were submitted as follows:

Wm. N. Johnson, d/b/a Fulton Boat Yard--\$5,525.00.

Maritime Constructors, Inc.--\$6,179.00.

Ted R. Little & Sons, Inc.--\$7,493.10.

Vermillion Construction Company--\$8,752.00.

Commissioner, Rouquette made motion, seconded by Commissioner Maguigin, and vote carried that contract for emergency repairs to piers in Rockport Harbor be awarded low bidder, Wm. N. Johnson, d/b/a Fulton Boat Yard. Work will begin immediately.

Harbormaster reported on other repairs being done, necessitated by damage from Tropical Storm Fern.

There was discussion of salary scale for employees, as compared with City of Rockport

employees. Consideration of cost of living salary increase was tabled until October 15 special meeting.

Commissioners will make a study of dock rental scale and also begin enforcement of rules concerning delinquent dockage.

Need For—

for lifting the waste water into the treatment plant

g. Additional sludge (solid waste) handling facilities.

With the expansion outlined, the treatment plant will be double the size of the present facility and a major portion of this capacity is available for future system growth.

All phases of the City's growth affect the sewer system. Additional tourists and tourists facilities produce additional waste water and the upgrading of the sanitary sewer system for existing customers. The continuing steady rate of growth will provide increased waste water flows.

Due to the fact that the City's economy is based strongly on its surrounding bays and water oriented activities, the Rockport City Council feels that better waste water treatment is necessary and that adequate advanced planning is necessary

to see that adequate plant capacity is constructed and will be ready for operation as the flow increases.

The City Council has filed an application for a Federal grant for the construction of the plant expansion. The grant will pay for 55% of the cost of the facility, the remaining 45% has to be paid for from local funds. The grant application has been reviewed and accepted and the Revenue Bond Issue now being presented to you will provide the funds for the City's 45% of the construction cost.

Upon completion of the anticipated sewer plant expansion, the City of Rockport's sewer plant will be valued at \$1,250,000, being one of the most efficient in the Coastal Bend area.

Palacios Stomps Pirates 14-0

By Bob Crawford

Finding the ability to score hard to come by, the Rockport-Fulton Pirates took their third defeat of the year at the hands of the Palacios Sharks Friday night at Pirate Stadium. This game was the last warm-up game before the district competition begins this week with Mathis.

The Pirates had numerous chances to score in the first half, but each time they drove deep into Shark territory, the continued streak of bad luck which has plagued the Pirates in the last three weeks was still present.

In their first possession the Pirates put together an 18-play march only to have a tipped pass intercepted in the end

burst for the first score which came with a minute to go in the third quarter. The point-after was no good. Brhlik climaxed the game's scoring with a 1-yard dive with 1:04 left in the game.

Defensively, the Pirate secondary was called on to do much of the tackling. Mark Wright, later replaced by Oscar Pina after an injury, John Vick, and Steve Arispe were in place numerous times to make individual tackles. Travis Bailey who has been a tough line-backer throughout the season was the top defender in the amount of tackles made. Jerry Picton should also be mentioned

for a fine defensive performance, and for going both ways in the game, defensive end on defense and center on offense.

After the first half the Pirates

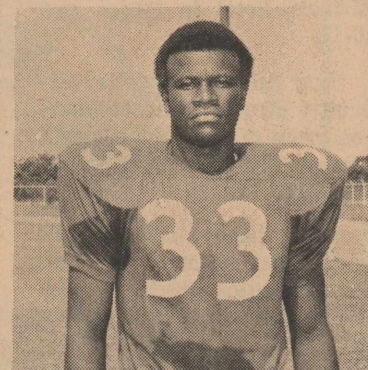

did not have too much statistically, but for the game Sam Morgan lugged the ball 16 times for 52 yards, and many times was only one step from breaking away.

zone to stop the drive. Following a fumble recovery by Jerry Picton, the Pirates set up on the Sharks' 18-yard line, but had to settle for a field goal attempt which went off to the left.

Statistically, the Pirates ruled the scoreless first half, but Shark quarterback Rusty Brhlik soon evened the statistics, and put Palacios out front with his nifty running. Brhlik

Service Above Self---

Probably the most important volunteer job in our community is service on the Aransas County Independent School District Board of Trustees.

The seven members who serve without pay are elected by their fellow citizens and charged with providing a good education for our children. Board members meet once a month and devote their brains and their hearts to establishing and maintaining the best possible school physical facilities manned by an outstanding staff of teachers.

How well they have done their job is indicated by the fact that our public school system is considered one of the best in the state.

Through the years a number of board members have served as many as 20 years at considerable personal sacrifice.

Their compensation is the knowledge they have contributed substantially to the life-long welfare of thousands of our boys and girls.

This is the sixth in a series of messages paying tribute to the hundreds of volunteer workers in this community who make possible so many worthwhile civic projects.

Letter to the Editor

Your last week's paper carried a "Letter to the Editor" pertaining to drainage.

Any intelligent information the article contained as for as I am concerned, was nullified by one uninformed and unwarranted remark contained therein.

The County Commissioners cannot extend the mosquito control tax levy beyond what it is now. This authority is held by the State Government.

County Government, by contact with our State Representatives, have attempted unsuccessfully in the past to raise the maximum.

When you berate the efforts of County Government, please get your facts right.

I think Aransas County residents have suffered less from mosquitos than those of any of the several counties in South Texas which are under a state of emergency because of flooding conditions.

Tom D. Moore is Regional Director of the Texas Parks and Wildlife Department.

Until 1961 the Game and Fish Commission was a relatively minor operation in Rockport. That year the commission was re-organized and five regions were created.

Region V Headquarters was established in Rockport and the staff moved in and commenced work on September 1. In 1963 the state parks system became a part of the operation and additional personnel were added. At that time the name was changed to Texas Parks and Wildlife Department.

The regional headquarters was originally located at the

Marine biologist C. E. Bryant of the Texas Parks and Wildlife Department studies larval specimens.

work is also coordinated out of this office. Other important functions supervised from this headquarters include boat registration, issuance of licenses, boat ramp maintenance, pollution abatement, aerial and ground photography, noxious vegetation control, assistance to local peace officers when called on, rescue and evacuation work during emergencies and, of course, the management of 13 state parks.

Located adjacent to the Marine Laboratory here in Rockport is the maintenance facility where all the coastal boats in the state and many fresh water boats are maintained.

The regional airplane is based at Aransas County Airport. This plane is used in many phases of law enforcement work, aerial census of

superintendents are expected to, and do, present educational programs to schools, civic clubs, sportsmen's clubs, church and youth groups.

Assistance in preparing these presentations and graphic aids such as slides, charts, and movie films are available in the regional headquarters. Radio and TV appearances by these men are frequent and 16 radio programs are produced at regional headquarters each week and delivered to 7 South Texas radio stations.

Once a week news releases are prepared and forwarded to Austin headquarters where they are released statewide. Local interest news releases are sent directly from the regional office to the news media in the area of interest.

All paper work involved in purchases made in the field and all requisitions from the field are processed in regional headquarters before being forwarded to the Austin office. This alone is a full-time job for three people.

Regional Director Tom Moore's staff is made up of M. B. Mullinax, Law Enforcement; E. G. Simmons, Coastal Fisheries; E. M. C. Dietz, Inland Fisheries; C. K. Winkler, Wildlife; Tom McGlathery, Parks Operations; Richard Loden, Parks Maintenance; H. E. McCullough, Fiscal; Don Meek, Pilot; Roy Spears, Chemist; Marvin Townsend, Maintenance; and L. D. Nuckles, Information and Education.

Letter to the Editor

This is the conclusion of a "Letter to the Editor" on drainage. The first part was published in the Pilot last week.

Four times the Fulton Beach Road North has been heavily damaged and hundreds of thousands of federal, state and county money spent on rebuilding it, and do you know that each time it has been rebuilt off center of the 60 feet right-of-way along the west side. By so doing there is not room for an adequate road ditch on the west side to intercept the ground water working to the bay, or adequate culverts to cross the water under the pavement to the bay. This is a prime example of poor planning and no engineering experience. It is a needless waste of the taxpayers' money. Isn't it time for a change from the old way to a better way, a saving of the taxpayers' money way.

they are doing so at \$6,920 a year plus a \$900.00 car allowance. But isn't it about time that the taxpayers got more for their money, than they have been getting? More returns for the dollars collected and spent by the Commissioners of Aransas County?

It is time that first needs come first and this means drainage and mosquito control are long overdue now, and should not be longer deferred.

As a taxpayer, as an appraiser of real estate property, and as an engineer, I believe that a public hearing should be held by the Commissioners so that those who approve an effective County Drainage and Mosquito Control Program can be heard, and likewise those who are for can express themselves.

The Chamber of Commerce is putting the finishing touches on advertisements that will be published in the Sunday travel editions of the Des Moines Register and Minneapolis Star Tribune.

Designed to focus attention on the Rockport area as an ideal place for winter vacations and a wonderful place to live, each ad will feature photos illustrating some of our area's attractions, such as fishing, boating and golf, plus written material stressing reasonable prices, fine accommodations, etc.

The Des Moines Register and Minneapolis Star Tribune have a total paid circulation in excess of 1,000,000. Thus the Rockport story will reach many more than one million people throughout the Middle West and Far North.

Previous checking by the Chamber of Commerce has revealed that ads in the travel editions of these two papers produce results. Hundreds of queries are received and many folks visit our area.

Dove Hunting Popularity Apparently On Decline

Austin--Dove hunting popularity appears to be declining in Texas.

Wildlife specialists for the Texas Parks and Wildlife Department say fewer hunters took to the fields on the opening weekends of both the North and South Zones this month than they did last year.

Likewise, a comparative handful of hunters participated in the two-weekend white-winged dove hunt in the Lower Rio Grande Valley -- an occasion which has drawn hunters by the thousands in the past.

Officials say it's easier to explain the whitewing hunt failure, as Hurricane Fern doubtless caused some hunt cancellations on the second weekend after a rainy and muddy first weekend.

But the poor hunter turnout statewide for mourning dove shooting may be more complicated to analyze. The weather, economics and the scarcity of birds in some areas before the season opened all may have contributed.

And looming over this dove season -- as in other recent seasons -- is the undeniable fact that the nation's overall dove population is continuing its slow but steady decline which began 10 years ago.

The Texas dove situation this year appeared to be not so much a scarcity of birds as a scarcity of hunters. Add to this trend a tendency of the birds to concentrate heavily in certain "pockets" around the state, and you come out with a low overall dove harvest.

"In a lot of cases," said one

biologist, "people went out the first day to their favorite places and didn't see a bird. If they had moved a few miles one way or the other, or if they had come back a week later they might have gotten their limits."

"The birds just haven't been scattered this year," he explained. "Either you see them by the hundreds or you won't see a bird."

This flighty behavior of the mourning dove is part of his makeup, and this unpredictability makes hunting him all the more sporting.

The dove season ends Oct. 30 in the North Zone and winds up Nov. 23 in the South Zone except that in counties having an open season for white-winged doves the season for mourning doves ends Nov. 19.

Biologists have yet to pin down the reasons for the mourning dove's 10-year decline, but the consensus guess is that it results from several factors. Loss of habitat for feeding and nesting, diseases and parasites, pesticides and hunting may all have a share in the bird's statistical slide.

Doves and hunters, if statistics are to be believed, both are on the decline in Texas.

Troy Weight

Troy weight is a standard system used in weighing gold, silver, platinum and coins. It is also used to weigh jewels, except pearls and diamonds, which are weighed in carats.

His topic, filled with much humor and wit, kept the audience spellbound. Other guests were Mike Perez, of Laredo, who is third vice-president of the State Firemen's and Fire Marshals' Association, and Ed Smith, of Channel View, who has been nominated for the office of 4th vice-president of the state association. Volunteer Fire Department Meets

The Rockport Volunteer Fire Department met Oct. 7 at 7:30 p.m. The meeting was called to order by president Gilbert Hill, Sr. Twenty-five men answered roll call. Minutes of previous meeting were read and approved. Department voted in a new member, Henry Hreck. The department has opening for 4 more vacancies on membership list. John Johnson, who works with CPL, visited meeting as a prospective member. Maintenance committee reported all trucks in running order.

The department received certificate from A & M fire school for three men who attended. Those who attended were Fire Marshal Elva Mullinax, Tillman Frizzell and Ray Bodie. This makes it possible to receive 5% on each insurance policy holder, 5 cents on each \$100 worth of insurance by having an efficient volunteer fire department and city water works. It saves every person who had insurance 18% of each \$100 worth of insurance.

A discussion was held on necessary things to do when the department moves into the new fire station.

Mrs. Elva Mullinax and Mrs. Peggy Hunt furnished cakes for refreshments.

The annual Christmas tree was discussed to let the public know donations would be accepted.

The department wishes to thank Miss Vivian and Miss Velma Picton for donations to fire department dues fund.

The Kinsey Report

Between Oct. 25 and 29 you will receive a letter inviting you to give your fair share to make the annual Aransas County United Fund Campaign a success.

As you know, the idea of the

annual United Fund Drive is to have this one big campaign for funds to eliminate the need for each of the benefitting agencies to have its own drive.

This year the United Fund needs \$13,200 to help a dozen worthwhile agencies continue their important work.

The agencies, or organizations to be aided, are American Red Cross, Aransas County Emergency Corps, Aransas County Youth Council, Boy Scouts, Coastal Bend Association for Mental Health, Coastal Bend Council on Alcoholism, Family Counseling Service,

Girl Scouts, Medical Research Foundation of Texas, Salvation Army, Texas Rehabilitation Hospital at Gonzales and United Service Organization (USO).

Each of you knows how much you can afford to give. United Fund leaders ask you to give generously to help those less fortunate than yourself.

Miss Linda Freeman and Miss Cindy Fairchild of Littleton, Colo., have returned home after spending a week with Linda's grandparents, Mr. and Mrs. Austin Smith.

COPANOAKERS NEWS

The next meeting will be October 20 at 2:30 p.m.

The Florida Everglades cover 4,500 square miles.

There will not be a Scotch foursome tournament Sunday, Oct. 17.

Thirty-eight students from Rockport-Fulton High School presently enrolled in advanced math and science courses attended Career Day at Texas A & M University last Saturday.

Exhibits were set up by the University to illustrate the various programs in the Colleges of Engineering, Science and Agriculture. Faculty and student representatives from the University were on hand to answer questions of students regarding the programs.

At the close of Career Day activities, students witnessed an Inter-Sectional football game between Texas A & M and the University of Cincinnati.

New Science Club Is Organized

A new science club has been formed in Room 31 at Rockport Elementary School. The purpose is for performing science investigations.

The president is Lawrence Michulka; secretary Stacey Shipman; program chairmen, Mary Ballou, Jackie Arthur, Jay Carroll and Julio Flores.

One meeting was held and Stacey Shipman and Jackie Arthur did an investigation about how one substance can pass through another.

Art Guild Gatherings

By JAN WENDELL

Next Wednesday, October 20, Nazareth Academy School in Victoria will have its Annual Fall Festival. This is an old-fashioned get-together in which all sorts of things are sold—rummage to cakes & pies as well as a dinner for visitors. This year, the Fall Festival will incorporate an Art Show along with its other offerings and the Festival Committee is hoping that some of our area artists will take this opportunity to journey over to Victoria and sell at their Festival. The entry fee is \$5.00 per artist and there is no commission charged on sales. The hours are from 5 to 9 p.m. and artists may set up at 3 p.m. Nazareth Academy School is located at 206 West Convent in Victoria.

Any artist who is interested in entering this show is asked to send his entry fee to Mrs. Roger Ruth, 11 Jade Drive, Victoria, 77901. The committee has informed us that small works of art or crafts would be especially good to sell at the Festival and although the hours are not very long in duration, last year they had well over 4,000 spectators who bought items there and it is a rather nice old-fashioned festival. We think it might be well worth the effort for some of our artists to enter this show because of the fact that the Victoria people support our Art Shows and Galleries en masse.

If any further information is needed, please contact me at 729-6158 or 729-0059, or call the Ass'n. Gallery, 729-2478.

Church of Christ

Q. Mr. Griffith, what is wrong with the so-called faith cures and laying on of hands, as practiced by some religious groups?

A. I have four objections to so-called faith healers, and faith cures. 1. It is too often associated with fraud and a desire for publicity. 2. It is more concerned about sickness of the body than about sin and the soul. 3. It usually forgets to inquire whether it is the will of God to heal. 4. As to the Bible, divine healers today would be poor exegetes since such a ministry died with the Apostles. However if any protest at this, we invite the so-called healer to visit our hospitals and empty them of their guests.

If one had a proper understanding of the Bible he would also have a proper understanding of the use and purpose of miracles in the Apostolic age.

HISTORICAL DATA IS RESUMED

More social events were described in the following newspaper stories:

The Misses Janie Kennedy and Allie Mallory, two popular society young ladies, were the recipients last night of a most enjoyable soiree and ball given in their honor by the Rockport Social Club. Miss Kennedy has recently returned from a protracted visit to friends in San Antonio, while Miss Mallory is among the sojourners from the Alamo City, and the party last night eloquently testified to the high esteem in which they are deservedly held by their many admirers here.

One of the most delightful social events held here for some weeks came off last night at the residence of Mr. and Mrs. B. M. Sheldon, and was in the nature of a progressive euchre party. The elegant home of the host and hostess was brilliantly lighted up for the occasion, and nothing was omitted from the program that could possibly add to the pleasure of the guests, among whom were the following: Dr. John H. Hardee and Miss Sadie McClung, Albert L. Bruhl and Miss Hattie Ful-

ton, George Barnard and Miss Tiny Smith, Andrew Adams and Miss Georgia Sheldon, Will Miller and Miss Janie Kennedy, James W. Dunlap and Miss Minnie Kennedy, John A. Brackenridge and Miss Myrtle Cornell, Bates Simpson and Miss Maud Seymour, Lee Narquin and Miss Eldred Mallory, P. H. Tansey and Miss Jennie LaVergie of Mobile, Ala; Dick Terry and Miss Alice Benham, Hugh McClung and Miss Daisy Dean, Nott Benham and Miss Daisy Clark, Dr. and Mrs. T. J. Crow, Herbert Booth and Miss Lulu Ware, John Miller and Miss Gertrude Prophet, James Smith and Miss Allie Mallory, Will Oertling and Miss Rosa Dean, W. P. Seymour and Miss L. Estrange of St. Louis, Albert Oertling and Miss Jennie Buford of San Antonio, and several others whose names it was impossible to ascertain.

The contest lasted from about 9 to 12 o'clock, and from beginning to end was a scene of amusing rivalry and merriment. At its close the favors, which were extremely appropriate and handsome, were awarded as follows: First ladies' prize, Miss Minnie Kennedy; second ladies' prize, Miss Daisy Dean; first gentlemen's

prize, Mr. George Barnard; second prize, Mr. Nott Benham. At midnight light refreshments in the shape of cake, ice cream, etc., were served to the well-pleased guests, followed by vocal and instrumental music, and when the party ultimately broke up it was the verdict of all present that Mr. and Mrs. Sheldon are among the most hospitable entertainers of the Seaside City.

On the last page of Mrs. Bell's scrapbook was the following account of a grand ball and installation of newly elected Masonic officials:

DOWN BY THE SEA
Grand Ball With Many Guests At Rockport

Public Installation of Newly Elected Masonic Officials -- Summer Arrivals from Santone and Other Whispers from the Wild, Rollovering Waves.

Rockport, Tex., June 25--A grand ball was given at the Aransas hotel here last night by the Seaside Social club, which numbers among its members many of the best people on the Texas coast. The Corpus Christi band furnished the music for the occasion, and as early as nine o'clock the guests commenced arriving. When the festivities opened seventy couples formed in line for the grand march, which was led by Mr. Perry McCay and Miss Janie Kennedy. So numerous was the gathering that it is impossible to give anything like an accurate list of those present but among those in attendance were the following: Judge W. W. King, Mrs. King and Mrs. General J. H. McLeary, of San Antonio; Miss Hattie Fulton, Captain and Mrs. A. J. Peeler, Mr. and Mrs. Terry and Miss Mate Terry, Mr. and Mrs. Con Roberts, Colonel F. W. Young, Fort Stockton; Colonel and Mrs. William B. Hamilton, San Antonio, accompanied by Mrs. Magruder of Baton Rouge, La.; Editor Carl McFarland, of the Picaune, Beeville; Mr. and Mrs. Edgar Rye, of the Rockport New Era; Mr. and Mrs. W. W. Lott, Goliad; Mayor R. H. Wood, Dr. and Mrs. T. J. Crow, Miss Katie Clark, Miss Violet McKay, Miss Sadie McClung, Miss Boone McCoy, Alderman and Mrs. B. M. Sheldon and Alderman and Mrs. Chas. Johnson, Mrs. J. E. Pettus and the beautiful Miss Lemie Collins of Goliad; Mrs. B. F. The party was a most enjoyable one and dancing was kept up without intermission until 2 o'clock this morning, when the well pleased guests separated for their respective homes.

Due to the interest in historical information published in recent issues of the Pilot, the following data based on minutes of the Civic Improvement League, a ladies organization formed Sept. 2, 1909, is offered.

The Civic League meeting of Oct. 7, 1909, was held in the City Hall.

The minutes of the previous meeting were read and approved.

Mrs. Neuopes reported that the offer of \$75 per month for one year for the rental of the Neenion property had been refused and another offer of the same amount for a period of three years with a possible extension to five years had met the same fate. However, there were still hopes that the refusal was not final, as the lease held by Mr. Keerzfeld has not yet been cancelled. Mr. Keenion had left an alternative that the committee thought ought not to be neglected, viz., that he was

willing to rent the pavilion and art gallery for one year at \$25 per month as it now stood, or \$30 per month if two coats of paint were put on the outside. It was decided to wait further developments.

Dr. Bailey not being present, there was no report from the park committee.

The advertising committee requested more time.

It was decided that after the next rain another day be set aside for general destruction of weeds which would terminate in a basket picnic in one of our groves. Notice would be sent out by telephone calls, or by a colored man on horseback with a megaphone. An invitation was to be extended to all citizens interested in "watching Rockport grow."

The League is desirous of having every lady in the city as a member, and those who have already joined were asked to solicit others.

The treasurer reported \$12 in pledges on hand.

The gentlemen present were so enthusiastic over the efforts made by the ladies that they requested to be made "honorary members." As this same petition had been made before, it was decided that all the men of Rockport who were interested in its growth and prosperity would be extended the same privilege on receipt of application and \$1.00 each.

There being no further business, the meeting adjourned. Gertrude B. Grewe, Rec. Sec'y.

SOCIAL SECURITY NEWS

A representative of the Social Security Administration will be at the Courthouse in Rockport on Tuesday, October 19, 1971, at 9:00 a.m.

You may obtain information about your rights and duties under the Social Security Act. Eligible persons can secure assistance in applying for old-age, survivors, or disability insurance payments, and for Medicare benefits, from the representative at that time.

"The 2436 Coastal Bend workers and 3088 of their dependents who receive disability payments each month are aware of this part of social security," says H. M. Cleveland, Corpus Christi District Manager. "However," he continued, "there are others who may not know about the protection which disability insurance provides for them and their families."

"Disability insurance is paid to workers of all ages. Like social security retirement insurance, the right to disability benefits is earned by working," he says. "The required employment for a disabled worker to qualify depends upon his age. The time varies from a year and a half to five years."

"There is no provision to pay those who become temporarily or partially disabled, and there is no payment for the first six months," according to Cleveland. "But when sickness or accident step in to prevent a worker from working for a year or more, payments continue for the duration of his disability."

"In this area of South Texas, about 12 persons out of every thousand are receiving disability insurance, at this time," Cleveland said. "That is a small percentage of the total population, but the regular income is very important to the family of a worker who suffers a disastrous health problem."

Interested persons can get more information from the Social Security Administration, 1802 South Staples Street, Corpus Christi, Texas.

Fulton Lions

Rummage Sale

A rummage sale will be held at the Fulton Lions Clubhouse, behind Circle K Store in Fulton, on Oct. 29 and 30 from 8 a.m. to 6 p.m.

Anyone wishing to donate surplus items to the Lions are invited to do so. Also, persons who have unneeded eye glasses would be aiding needy people with poor sight by donating discarded glasses to the Lions.

In addition to the above plans, the Fulton Lions also voted recently to paint their clubhouse.

Official Memorandum

By
PRESTON SMITH
Governor of Texas

AUSTIN, TEXAS

GREETINGS:

The State of Texas has more United Fund, Community Chest or United Way organizations than any other state in the Nation. This means that we have more dedicated volunteer leaders contributing to the health, welfare and character-building needs of our communities and state.

Local united funds contribute significantly to the preservation and strengthening of the voluntary approach—the essential ingredient of a free society. They serve as a rallying point for citizen action to help unite and improve the total community.

Last year over 200 United Way Campaigns in Texas raised an unprecedented \$42.3 million to meet our volunteer agency needs.

This year we must make every effort to meet the increasing needs of our voluntary health, welfare and character-building agencies.

THEREFORE, I, as Governor of Texas, do hereby designate the months of September, October and November, 1971, as

UNITED WAY CAMPAIGN MONTHS

in Texas, and urge all people of our state to participate generously in the campaigns in their local communities.

In official recognition whereof, I hereby affix my signature this 14th day of Aug., 1971.
