## TEACHERS' INSTITUTE HAS INTERESTING SESSION

Monday's Institute Work

"Prof. C. O. Britt led in an interesting discussion on 'The Teacher's Part in Improving Country Life,' and then Mrs. Emma Burrows told the Institute 'What Good Discipline Is.'"

In the afternoon Miss Juliet Holland read a paper on a "Model Reading Lesson," and Miss Austin Durst conducted a "Model Recitation" in reading and then Ed. F. Gibson read his paper on, "To what extent should Athletics Be Encouraged." His ideas met with very serious objections from J. B. Randolph and also from J. P. Kountz.

But the climax of the day's work was reached when Mrs. Emma Burrows and Ed. F. Gibson crossed swords on the subject of "Home Study."

The day's work was finished by the following parties making talks or reading papers on various school problems: J. P. Kountz, Misses Stella Felps, Henrietta Fairchild, Hannah Mahoney, Alice Heyman, Austin Durst, J. H. Lewis.

Tuesday's Work.

Rev. R. T. Deel opened the day's work with devotional exercises and gave the teachers a very encouraging talk on, "Be Not Weary in Well Doing."

If any one is of the opinion that teachers can't laugh you should have heard them after Miss Jettie Edwards read her paper on, "The Country School."

Other parties on the program for the day were, Miss Grace Ray, Alice Heyman, Jessie Cropper, Ellen Delavan, Florence Sheppard, Mrs. Winnie Kountz, Messrs. Orlan Stewart, T. C. Hall.

At 3:30 p.m. the conductor appointed J. P. Kountz and Miss Austin Durst to choose up for a spelling match and Miss Henrietta Fairchild spelled down the Institute, and thereby won two pounds of chocolate candy; and she was good enough to divide with all the teachers.

Wednesday's Work

The teachers were highly entertained by Hon. M. E. Blackburn and Hon. J. B. Randolph who had a hot discussion on, "Local Taxation."

The day's program was made very profitable by papers and talks from H. E. Wilson, Miss Edith Young, Ruth Maxwell, Mae Tubey, Austin Durst, Juliet Holland, Mrs. Emma Burrows, Messrs. Ed. F. Gibson, C. O. Britt.

By special request duet was rendered by Orlan Stewart and J. H. Lewis.

Thursday's Work.

The day's work was made very interesting and profitable by talks and papers delivered by Misses Alice Heyman, Bessie Robinson, Stella Felps, Bonnie Oliver, Fannie Willis, Grace Ray, Henrietta Fairchild, Hannah Mahoney, Jettie Edwards, Mrs. Winnie Kountz, Messrs. C. O. Britt, J. H. Lewis, Orlan Stewart, and Dr. Fred Burt.

The Kimble County Teachers Institute received an invitation to co-operate with the Mason County teachers in a summer Normal to be held at Mason and by motion and second the invitation was accepted and Prof. C. O. Britt was nominated and elected to be a member of the faculty of the above Normal. In a spelling match held at 3 p.m. Miss Grace Ray and T. C. Hall stood up the longest.

Friday

Friday's work closed the Institute, and the following parties

read interesting papers: Messrs. Orlan Stewart, Ed. F. Gibson, Misses Henrietta Fairchild and Stella Hodges. Messrs. Orlan Stewart and J. H. Lewis sang two songs for the Institute. Mrs. H. E. Wilson read an interesting paper on "The Teacher and the Community." Hon. J. B. Randolph delivered the closing address.

Resolutions of

Kimble County Teachers' Institute

Whereas the teachers of the Institute of Kimble County, state of Texas, recognize the efforts and efficiency of our Hon. County Supt., Judge Randolph in the position he occupies

Therefore, be it resolved that we offer a vote of thanks and appreciation of his untiring endeavors in behalf of the furthering of education in our land.

Whereas we, the teachers of Kimble County see the need of better school equipments and buildings in the county; be it resolved that we tender our aid in improving the condition of same.

Whereas the members of this Institute have had the pleasure of listening to the addresses on live and important subjects given by Mrs. H. E. Wilson and the professional men of our town.

Therefore be it resolved that we offer a vote of thanks to them for their able assistance and encouragement in the cause of education.

Whereas the teachers of Kimble county deem it necessary to have a summer normal convenient for a majority of our teachers.

Be it resolved that this Institute endorse Mason as the proper place for holding such normal the ensuing year and pledge as far as possible our hearty co-operation and support; also C. O. Britt, Principal of the Junction school, is named as our representative in said normal.

Whereas every teacher in the county and in the great State of Texas realizes so much the need of educating every child in our State so that we may be able to live up to and cope with this advanced age of civilization and development, and whereas this education can only be had through the public free schools, and whereas there are so many parents who do not appreciate the value of an education and cause their children to work or idle their time away and thus grow up in ignorance, therefore,

Be it resolved that this County Institute assembled endorse that a law be passed pertaining to compulsory education, and be it further resolved that we ask our worthy State Superintendent to communicate with every County Superintendent in the State before time for the holding of Institutes in 1914 and have them place upon their programs one period, preferably a night session, which shall be devoted to the subject of compulsory education, and that the County Supt. have an able man present at that time to represent the cause and invite the public to hear the discussion.

Committee: Miss Grace Ray, C. O. Britt, J. P. Kountz, Ed. F. Gibson.

On the first, second and third Sundays in each month there will be preaching at Junction Baptist Church. Morning service at 11 o'clock, evening service at 7:15. You are urged to be present at these services.

Jan. 30—"The Quaker Girl."  
Jan. 31—"The Quaker Girl."

The musical adjunct is under the leadership of Edward W. Caputo. With this roster of principals the new program is certain to be well rendered. The opening scene of "First Part" is a transformation picture and first shows "Summer Time in Japan" with the music and atmosphere of the Orient predominant. "Summer Time in Hawaii" is the next scene and the musical characteristics of the Hawaiian Isles are heard. The picture fades away into "Summer Time in Dixie" and then is introduced the opening part which has been titled "The Good Old Summer Time." Other features are "Scenes from the Sunny South," "Dinah's Wedding Day," and the usual Evans minstrel comedy which this year is titled "The Blackville Balladeer." It is in this afterpiece that the "Honey Boy" usually shows to the best advantage as an

Victor Morley and chorus group in the big musical comedy success, "The Quaker Girl," which comes to the Grand, San Antonio, Monday, January 5th.

George Evans Honey Boy Minstrel's artistic portrayal of negro roles. As with an old production of "Sweetie Jones" this year, Evans scenery, costumes and special feat will be found funnier than ever. The three George Evans Honey Boy Minstrel's with its accompanying musical troupe will be seen at the Grand on Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday, January 3-4, Evans. There is no olio of vaudeville Saturday. Headed by the only "Honey Boy" of the show are introduced in the comedians of the organization of the several feature comedians. Of course, "Honey Boy" Evans will

Leighton, and Will Cawley. The principal vocalists are Vaughn Combs, James Meehan, William H. Thompson, Joseph Columbus, Ed L. Downum and the little Swin Yoder. Master Paul Van Dyke. There is also a choir of twenty picked singers. The dancing corps is headed by Tommy Hyde, the soft show dancer and includes "Rags" Leighton, America's cleverest eccentric dancer, Charles Ufer, Eddie Gorton, Will Newsum and other capable aides.

York comes to the Grand Monday and Tuesday, January 3-4. John P. Shum is sending the entire company of over 85 singers, headed by Victor Morley who will play Tony Chute, the role of the young American who sings and dances his way into the heart of the Quaker lass during three acts of tuneful and amusing entertainment. Not much need be said of the history of this musical hit of three continents, as most people know that it ran two years in London and a year in Paris before coming to America and is now being played in Australia and South America. It is all about a demure Quakeress who chafes under the stern restriction of her religion and finally forsakes her home in an English Quaker village for gayest Paris. There she becomes a model in a fashionable modiste's saloon and straightway is taken up by society and nobility and her demure frocks become the rage of the town. She is involved in state's intrigue, saves a prime minister from disgrace and is finally won by a gay American after he has made love to her audaciously for three acts and has overcome the usual musical comedy obstacle to the path of true love. "Lovelace Monckton's" score is a masterpiece and the "Come to the Ball" waltz excels that of "The Merry Widow" in seductive rhythm. The "Tony" song and dance solo has become almost equally popular and there are a dozen other sing hits.

"Little Women." An interesting insight of the literary taste of a large mixed gathering of men and women, some old enough to venture into the hectic novels of today and others so small that the reading of a book is a great event in their lives, is afforded in the results of a recent census of the 1500 Sunday school students of the Elm Park Methodist church of Scranton, Pa.

The census was conducted by the pastor, the Rev. George Wood Anderson, D.D., while he was convalescing from an illness.

"I told them I wanted to read some good books while recuperating," said the pastor, explaining his undertaking, "and I asked them to recommend to me one book each. I knew of course that each student would recommend the book he or she liked the best."

Somewhat to the surprise of Dr. Anderson, a story of almost fifty years ago outranked all other in popularity. It was "Little Women," a quaint story of New England home life which has endeared Louisa M. Alcott to millions of readers in three generations. The book established Miss Alcott as a favorite American authoress and the result of the voting indicates that it has lost none of its charm in competition with the books of today.

"Little Women" got six votes to one of the book that finished second in the results," said Dr. Anderson, "and it led a long list by a wide margin."

"Rebecca of Sunnybrook Farm" ran second, and "The Shepherd of the Hills" came third with great majorities over stories of reigning popularity. In an interview to the Scranton Times Dr. Anderson stated that the showing made by "Little Women" was most gratifying as he regards the story as one of the most wholesome in American literature. The fact that children as well as grown-ups of three generations have been enthralled by Miss Alcott in her quaint, simple story of New England home life affords striking proof, says the doctor, that a good book, like Tennyson's book, goes on forever.

That "Little Women" still enthralls tremendous popularity in the larger cities was shown by the reception accorded Marian DeForest's dramatization of the piece, which William A. Brady produced at the Plymouth in New York last season. The play was one of the biggest successes of the theatrical season, being kept at the Plymouth all winter to satisfy the demand of playgoers who had been surfeited with so-called "problem" plays and torrid musical shows.

Mr. Brady will present "Little Women" at the Grand Opera House for three days beginning Thursday, January 8, with the complete Play-

house production and a cast of representative players. In the light of the phenomenal success of the play wherever it has been seen, its engagement is forecasted as one of the distinct events of the local theatrical season.

Those who suffer from the "Honey Boy" of the show are introduced in the comedians of the organization of the several feature comedians. Of course, "Honey Boy" Evans will

## RADIUM WORTH \$100,000 TO KILL A CANCER

Baltimore, Md., Dec. 29.—It was learned today that Congressman Robert G. Bremner of New Jersey spent his Christmas in Baltimore with \$100,000 worth of radium temporarily imbedded in his left shoulder in the hope it would destroy a cancerous growth.

The radium was imbedded in the Congressman's shoulder by Dr. Howarth, an American person, who, verily, and was left there long enough to send its properties into every part of the cancer.

Dr. Kelly placed the radium in eleven tubes coated with a covering of rubber, and these tubes, each measuring about two and a half inches in length and about one-third of an inch in diameter, were planted in as many incisions that were made in the cancer. The tubes were inserted at 11 o'clock Thursday morning and were removed twelve hours later. The result was carefully observed, and it is understood the radium will be applied again tomorrow.

The operation is said to be one of the most important that has been performed in this country and, if successful, will mark a decisive step in the advancement of the treatment of cancer by radio-active therapeutic methods.

## LOVE MAKES BANDIT

Los Angeles, Cal., Dec. 29.—It was for a Los Angeles chambermaid, who has since fled the city, that John Bostick, the youthful bandit, held up the Sunset Limited at El Monte, December 1. The murder of Horace E. Montague, a railroad station agent, who was killed by the robber as he entered a Pullman car, was an afterthought incident which spoiled Bostick's plans for the girl.

Bostick laid bare this feature of his crime to Sheriff Hammel today. He told the sheriff he wanted funds for the girl, who is now supposed to be in Phoenix, Ariz., and he added he had intended to return to Los Angeles and take her away on a trip as soon as he had excitement over the murder and train robbery had died down.

The girl worked in a downtown hotel until Wednesday, when she disappeared.

## TO REGULATE EXCHANGES.

Bills Are Being Planned by Congressmen.

Washington, D. C., Dec. 25.—Legislation to regulate stock exchange transactions and prohibit dealings in futures will be the subject of hearings before the house committee on agriculture early in the new year. Kansas bills are pending before the committee on which action will be asked and as to which stock exchange officials, Congressmen, representatives of the farming interests and other will be given an opportunity to air their views.

Chairman Lever of the committee purposes to press a bill of his own dealing broadly with the subject. Representative Ferris of Oklahoma has a bill to prohibit gambling transactions in grain and cotton; Representative Griffin of Alabama has one to regulate cotton futures; Representative Hays of Mississippi, Byrne of South Carolina, Foster of Illinois and Wingo, Goodwin and Oldfield of Arkansas have anti-option bills pending.

## NEW FRENCH PARTY FORMS.

Aristide Briand Leader of the Latest Faction.

Paris, Dec. 29.—The "Briandist" party, a new political organization, was formed today by 165 Republican Senators and members of the chamber. As its name indicates, the party is headed by Aristide Briand, former premier. It includes among its prominent members J. Louis Barthou, Stephen Pichon, Alexandre Miller, Jean Dupuy and L. L. Klotz, all of whom have served as cabinet ministers. The party is expected to draw supporters from all sections of the Left who refuse to obey the newly organized radical party.

Placards containing the program of the new party will be posted in the constituencies and a big speech-making campaign inaugurated in preparation for general elections to be held in May, 1931, when the Briandists will strongly oppose the "Gaillardists," as the radicals, led by Joseph Caillaux, minister of finance, are now known.

This is the incident which has caused so much talk. So many people are telling how it has been done. It is truly a new remedy. Every drugstore has it.

## CARDINALS LAST WILL BEING SOUGHT FOR

One Will Found, But Later One Is Sought—No One Compelling.

ROME, Dec. 29.—The apartments occupied by the late Cardinal Rampolla have been sealed in consequence of a request made by Mr. Di Bisogno, administrator of St. Peter's. This step was urged to guarantee the safety of documents of great interest to the church, the possible loss of which was suggested by persistent reports regarding the disappearance of Cardinal Rampolla's last will and testament.

That a will was executed by Cardinal Rampolla hearing a later date than the will found is considered most certain because the cardinal left a key with a tag attached, on which was inscribed in his own handwriting the statement that the key opened a box containing his will, and those close to the cardinal think it incredible that he would not alter his testament of 1889, explaining that his estate had grown fourfold since that date.

The box referred to has not been found and no one has come forward to say he has absolute knowledge of the existence of the testament reported missing. There is no evidence that it was stolen and no claims have been set up by any one that he has sustained damage by loss of the will. The authorities, therefore, are not in a position to take action.

## COUNTRY GIRLS FIND MANY PITFALLS IN CITY

Mrs. Nan Sperry Issues List of Instructions to Country Girls Not to Come to the Cities Unless It Can Not Be Avoided.

Chicago, Ill., Dec. 29.—A list of instructions for the girl who comes alone to a big city was set forth by Mrs. Nan Sperry, assistant labor commissioner of Missouri, at the convention of the Association of Public Employment Officers. Mrs. Sperry's hints for the guidance of the country girl were gleaned from her experience at the Kansas City office of the bureau, and as a preliminary she first advised girls not to come to cities unless it can not be avoided. Other instructions were:

If you must come, don't ask any stranger for information. Find a policeman, go to a police station for information, or go to the Y. W. C. A. or some place that is known to you.

Have enough money for at least a month.

Keep your money in your stocking; it is safer than a purse.

Beware of the stranger who offers to guide you or carry your trip. Maybe he has horns under his hat. Have some relative meet you if possible.

Go back to the country as soon as you can.

"The greatest problem I have to confront in my work," said Mrs. Sperry, "is the task of coping with the great number of country girls who come to the city seeking employment. Many have no notions whatever of conditions they must meet."

## THREE INDIANS ARRESTED.

They Are Charged With Counterfeiting and Are Held for Trial.

ABERDEEN, Wash., Dec. 25.—Frank Walton, Cleveland Jackson and Linley Fowler, all Indians, arrested last night at Tacoma, capital of the Quinault reservation, charged with counterfeiting, were brought here today and bound over by United States commissioner, all being fined at \$1000 each. They will be taken to Tacoma to await trial. The Indians, government officials allege, and a counterfeiting plant in a shed and were manufacturing silver dollars.

## TEXAS POSTOFFICES RAISED.

Eleven Fourth-Class Offices Will Be Placed in Presidential Class, Effective Jan. 1.

Washington, Dec. 29.—The following fourth-class postoffices in Texas will become presidential offices on Jan. 1: Buckhoffs, Campbell, Carban, Chapel, Hill, Cleveland, Frisco, Quitman, Sunset, Brownsville and Willis, with salaries at \$1100; also Normange, with a salary at \$1200.

## BIG EXCURSION PLANNED

Corpus Christi Will Celebrate Entry of San Antonio, Uvalde & Gulf Railroad.

Corpus Christi, Tex., Dec. 29.—Corpus Christi will celebrate the entry of the San Antonio, Uvalde & Gulf Railway into this city by a boisterous excursion to San Antonio in a special train, which will be the first to be run over the line between Corpus Christi and San Antonio. President Ponder has advised that within all probability trains will be in operation between the two cities not later than January 25, and just as soon as the exact date is learned the Commercial Club will make all the arrangements for the trade trip. It is the expectation of the club officials that more than 200 persons will make the trip, which it is estimated will require three days to complete, as stops will be made at all points and a good part of one day will be spent in San Antonio.

By Monday morning the San Antonio, Uvalde & Gulf Railway will have completed the laying of steel as far south as Odem, twenty miles west of Corpus Christi, and the operation of passenger and freight trains from San Antonio to Odem will be immediately thereafter inaugurated, according to officials of the road. At present Matthis is the southern terminus.

A part of the grade between Corpus Christi and Odem has been finished, and contractors are now engaged in grading work. The crew laying steel will begin operations within another week.

The San Antonio, Uvalde & Gulf Railroad will be the fourth for Corpus Christi. It is admitted that the building of the St. Louis, Brownsville & Mexico through this section transformed Corpus Christi from a quiet, peaceful fishing town to one of the best small cities in Texas, and business men generally believe that the building of the Franklin line will work wonders for this city and section.

## SERBIA AND BULGARIA NOW FRIENDS AGAIN

Serbia and Bulgaria, Who Quarreled Over Spills Forest Differences, Have Resumed Relations.

SOFIA, Dec. 29.—Diplomatic relations between Serbia and Bulgaria have been resumed. The second Balkan war grew out of quarrels over the division of Ottoman territory among the allies after they had conquered the Turks in Europe. Serbia was first to turn on Bulgaria and was followed by Greece and Roumania. Montenegro also declared hostility to Bulgaria, but did not actually fight. Bulgaria accepted Roumania's conditions and agreed to the terms of peace proposed by Serbia and Greece last July.

## LIVESAVERS PRESERVE \$18,860,000 FOR OWNERS DURING YEAR OF 1913.

Washington, D. C., Dec. 29.—Out of a total of 1743 casualties at sea during the fiscal year ending June 30 last, the highest in the history of the life-saving service, only sixty-nine vessels were lost and seventy-three persons were drowned, according to the annual report of I. I. Kimball, general superintendent of the service, made public today.

Through efforts of the service, vessels and their cargoes valued at \$13,860,000 were saved. The crews of the service, with the assistance of revenue cutters and wrecking vessels assisted 1564 vessels, valued with their cargoes at \$4,302,265, and carrying 5168 persons. The crews also warned 1250 vessels that were running into danger, practically all of this work being done at night. It also extended aid to 288 vessels by furnishing emergency pilots, carrying off persons to and from ships to shore and caring for injured officers and men.

Of the total of accidents, small motor boats comprise 68 per cent, more than two-thirds of all the persons exposed to danger from the sea being on board this class of craft. The danger in handling small pleasure craft, thus is shown to be excessive. The use of power boats instead of the old-fashioned sail craft is recommended by the showing that of 4655 persons endangered 2748 were rescued in the power boat.

For Cold on Lunges. Rub the chest well with Hest's Lightning Oil. You will be really surprised how much better you feel. Cold on lunges is dangerous, often developing pneumonia. Rub Hest's Lightning Oil in time is important. Sold by all reputable druggists everywhere in 25c and 50c bottles.

For Tax Assessor:

J. W. RAGLAND

### Our New Year Wish

May this bright new year  
come to you laden with richest  
blessings and golden opportuni-  
ties. If it be best for you, may  
your heart's dearest wish be ful-  
filled.

And when you look upon the  
sinking sun of this year's race  
may you be happy in the realiza-  
tion that you are nearer than  
ever before to the accomplishment  
of your highest aims, to the real-  
ization of your noblest ambitions,  
to your soul's ideal.

Just what about the wool  
proposition in the San Angelo  
country is hard to say. The  
writer has two brother-in-laws  
in the sheep business; one  
markets his wool at San Angelo,  
the other at Junction. The one  
marketing at San Angelo had a  
five-month clip, and the sheep  
had never been dipped; he re-  
ceived for his wool 11 1/2c. The  
man marketing at Junction had  
a four-month clip, his sheep  
were dipped twice during the  
growth and he sold his wool off  
the wagon in Junction at 13 1/2c.  
Being familiar with both parties  
and both flocks of sheep, it looks  
like if the San Angelo wool  
buyers expect to hold their busi-  
ness they had better try to  
compete with the inland town of  
Junction.—Eldorado Success.

### A GOOD ENTERTAINMENT.

On the evening of December  
24th, in the home of Mr. and  
Mrs. Horace E. Wilson, among a  
large number of guests, the King  
and Queen of entertainment  
supremely reigned.

After our enterprising words  
of greeting in various divisions  
of this good home, decorated  
with short branches of cedar  
and mistletoe and warmed with  
welcoming red embers, partners  
were chosen. A drop curtain in  
the doorway, enmeshing the  
ladies and gentlemen, secluded  
the ladies in a dark room from  
the gentlemen in a lighted room,  
in the darkened apartment be-  
hind the curtain a dainty foot  
protruded from underneath the  
woolen fabric intervention. By  
this little shoe a gentleman  
chose his partner.

The hostess gracefully super-  
vised four exceedingly interest-  
ing games, while the host (Hon.  
Wilson) resembling an Italian  
artistic genius at the piano,  
wafted to our souls sweet  
melodious strains that harmonized  
with our merry-making hearts.

After merrily concluding  
these good games, rich refresh-  
ments were served.

Time, not dulness, calling us  
home, we dispersed, knowing  
that it was good to be thus enter-  
tained.

This treat was given to the two  
Bible classes of Junction Baptist  
Church.

### Married

Mr. Lane Hodges and Miss  
Vivie Furry, of South Llano, came  
to the Baptist parsonage here  
Wednesday evening at 7:15 and  
were united in matrimony. Rev.  
R. T. Deel, Baptist pastor, per-  
forming the nuptial ceremony.

The Citizen joins the many  
friends of this happy young  
couple in wishing for, and  
Hodges a long and happy life.

As the new year opens, Mr.  
J. W. Ragland opens up the politi-  
cal campaign by having his  
name inserted by the announce-  
ment column as candidate for  
Tax Assessor of Kimble County.  
Mr. Ragland has been in the race  
for this office for many years  
and has been elected as often as  
he has been defeated. He is a  
standing candidate as he is in  
the race to stay with the  
office. He has many friends  
everywhere and places he can  
deliberate before them with the  
promise that he will give them  
the best service in his power.

# Start the New Year Right. Resolved:

That as the doors of the new year open we strive harder than ever be-  
fore to practice out the Golden Rule spirit in all dealings with our fellow-  
man.

That we put forth more earnest effort than ever before for the upbuild-  
ing and progress of Junction and Kimble county; that we stand shoulder  
to shoulder in making our town and county a bigger and better place  
on the map.

That we give more and better values to our customers than ever before  
known in the history of Junction, and thereby show our appreciation for  
the patronage we receive; and thus demonstrate more clearly the force-  
fulness of the following slogan:

"Prices Talk"

Letter From Rev. B. W. N. Simms

Editor Citizen

We have been in  
Washington, D. C. for a month,  
but I have not redeemed my  
pledge to "let you hear from me."  
We had a most delightful and  
happy trip from Texas to Wash-  
ington; all the way from Menard  
in sleepers, making fine connec-  
tion, and always on time. We  
are now going up into the moun-  
tains of Madison, County, Va.  
for a visit of a few weeks. The  
writer was up there three weeks  
since and he had such a fine time  
he is going back to take his wife  
that she may enjoy with him  
some of the rich luxuries of soft  
apples and mellow chestnuts; of  
rich old hickory bark cured hams;  
fat possums, sweet potatoes,  
and black heart cherry roll.

I have preached several times  
since I came to Washington; have  
received a call to locate as pastor  
but I go Sunday to another call  
as "a supply that we may see,"  
while I have every assurance of  
any one of several excellent lo-  
cations, when I get ready to lo-  
cate. I am actually having a fine  
time and Mrs. Simms is rapidly  
getting fat, all of her dresses be-  
ing already too small. I am not  
yet "too large for my breeches,"  
but the way I do enjoy my days  
of sight seeing and my nights of  
sleep think soon shall be.

Washington is a great, rich,  
wicked city; and yet I find it far  
more moral and Sabbath-abiding  
than many of our western and  
southwestern cities. It is grow-  
ing wonderfully. I have visited  
Mt. Vernon, George Washing-  
ton's home, took in its wonders,  
his own designs everywhere be-  
ing seen. His bedroom as he  
left it, his desk, his chair, the  
furniture, and all kept by the  
government in perfect order.  
We see where he died, the very  
bedstead upon which he died is  
seen, and the room just above  
where this is found is "where  
Martha Washington died 25  
months after her husband."  
Washington's axioms are seen,  
his clothes, uniforms, etc. Then  
as we stood in front of his tomb,  
through the iron barred door, of  
which we clearly saw the marble  
coffins of these two immortals  
side by side resting upon marble  
blocks, we could but lift the hat  
from our head in reverential awe.

The *Bowditch*, the evergreen  
the forest trees there are all  
seen as he planted them. Won-  
derful!

Then we visited Arlington,  
the erstwhile home of Lee the  
immortal. But this is not kept  
as it is Mt. Vernon. It is a national  
cemetery. But the houses and  
premises are supposed to be as  
he left them. Though discon-  
nected by the government for  
the United States Government  
does not wish Gen. Lee's name to

be remembered. But it will be  
done! As long as the river flows,  
as long as the mountains stand  
and the trees grow Gen. Lee's  
name will be remembered.

We have also visited other  
places of note; the National Mu-  
seum, Art Gallery, Bureau of  
Printing and Engraving, etc. I  
did not get half over any of them.  
But I went to Congress. I saw  
the houses both in session. Mr.  
Clark's voice and face I easily  
recognized as "the Speaker of  
the House," as I am personally  
acquainted with him. Each of  
us has heard the other preach as  
he sometimes preached in Mis-  
souri years ago, though not or-  
dained.

I find living in Washington  
really much cheaper than in West  
Texas. Pork 12 1/2c; only and  
only 9c in the country. Beef 12 1/2c  
to 14c; good breakfast bacon, 17c  
and 15c; hams 16c and 17c; su-  
gar 35c and 40c; lard 12 1/2c. But  
rabbits are 25c each everywhere.  
Turkeys, chickens and eggs are  
17c, 12c, and 30c. One gets a  
fine cup of coffee and a ham sand-  
wich for 10c; or two hot rolls,  
butter, coffee and two eggs for  
10c. Oysters and fish are cheap  
and good. I am living easy and  
having a good rest, and lay-off.  
But I am packing up to go out  
on a preaching tour now. Mrs.  
Simms and I to live at ease a few  
more weeks until we settle down  
to regular work in our new pas-  
torate.

B. W. N. Simms.

### Shooting Affray Results Seriously

J. T. Cox Succumbs From  
Bullet Wounds.

In a little difficulty over the  
dipping of some sheep, Sheep  
Scab Inspector, J. T. Cox was  
shot by A. S. Ethridge near the  
Ethridge ranch home on South  
Llano Wednesday, and this morn-  
ing at 5 o'clock Mr. Cox died  
of a wound in the effects of wounds re-  
ceived.

According to report six shots  
were fired at Mr. Cox, four of  
which took effect. First a shot  
entered left groin; second, right  
hip; third in back near spine;  
fourth entered right knee.

Dr. Stone was hastily summon-  
ed and brought Mr. Cox to town  
when most faithful work was  
done to save the man's life, but  
all to no avail. Ethridge was  
brought to Junction and placed  
under \$2500 bond.

The children were all present  
at their father's death. Miss Lin-  
nie who has been teaching as gov-  
erness in Edwards county was  
the last to arrive; she came in  
about two hours before her father's  
death. The other daughter,  
Miss Minnie had been teaching  
in Sutton county, but was home  
for the holidays and had not  
yet returned to her school. The  
two boys make their home here.  
Other relatives present were a  
brother, Jim Cox, and family,  
of Menard, another, Frank Cox,  
of Eden; a cousin, one Mr. Owens  
of Edwards county.

Funeral services will be held  
this afternoon at 5 o'clock, and  
interment be made in Junction  
Cemetery.

### ROOSEVELT ROUNDUP

Here I am again wishing the  
Citizen and its many readers a  
Happy New Year.

Mr. Hayden Lawler was in  
our midst Sunday.

Julius Heyman Jr. of Junction  
was a guest in Roosevelt  
Monday.

Mrs. E. O. Dunbar visited  
friends in Roosevelt a few days  
the past week.

Mr. Oscar Weaver and family  
were guests in Roosevelt a few  
days the past week.

The party at the home of Mrs.  
Surber on the evening of Dec. 24  
was enjoyed by a large crowd.

Miss Mae Tobey returned to  
Roosevelt Sunday. She was ac-  
companied by Mr. Arthur Wilson  
(a pupil you know?).

Santa Claus visited in the city  
of Roosevelt last Wednesday  
night which the entire city appre-  
ciated very much.

Misses Mae, Agnes and Allen  
Tobey accompanied by Claud  
Roe attended the Xmas tree and  
party at Roosevelt Wednesday  
night.

The dance Christmas night at  
the home of Mr. Buri Fisher was  
a grand success, as was also the  
ball at Mr. John Gardner's last  
Monday night a week ago.

Mr. Hop Allison took Mrs.  
Buck Gardner and little daugh-  
ter Janie to Sonora Wednesday.  
Mrs. Gardner will visit her moth-  
er Mrs. Parkerson of that place.

If the parties who took Miss  
Mina Adams and Mr. Nugent  
Weaver's hats Thursday night  
at the dance will return to them  
the owners will appreciate it.

Miss Vida Anderson attended  
the Institute at Junction two  
days; she will teach on South Llano.  
We wish her much success.

The birthday party given at  
Mr. Oscar Weaver's on Friday  
night in honor of Miss Blanche  
Dunbar was largely attended; all  
reports very pleasant evening,  
and hoping for many more such.

### Married

As usual Cupid has been busy  
during the holidays; Christmas  
is the season of love and joy and  
it is but proper that the little God  
of love climax some of his efforts  
at this time. Mr. Lee Bode of  
the Copera community returned  
yesterday from a trip to Streeter.  
Nothing astonishing about his  
making a trip to Streeter for  
that has gotten to be a practice  
of his; but there is a reason, and  
this time he did not return alone  
but was accompanied by that  
"reason" in the person of a very  
charming young lady who until  
Wednesday evening was known  
as Miss Bertha Looney. On that  
day, the last day of the old year,  
Miss Looney and Mr. Lee  
Bode became man and wife. They  
arrived here Thursday enroute  
to the Copera community where  
Lee is a prosperous ranchman,  
and where they will make their  
home. This paper joins in ex-  
tending congratulations and a  
good wishes.

Bring all your turkeys to the  
Meat Market. I have made  
arrangements to handle any  
number at highest cash price.  
—F. S. Bissett.

### To Our Patrons and Friends

The school work has been mov-  
ing along so pleasantly this far  
that we wish to express our ap-  
preciation for the interest mani-  
fested by all, teachers, trustees,  
patrons, and patrons.

The teachers are all faithfully  
striving in one accord for the up-  
building of the entire school  
first, then working earnestly  
with each individual pupil that  
comes under their charge be-  
cause she may be benefited. It is  
the sincere endeavor of every one  
of our teachers to see every child  
grow and develop mentally and  
grow and develop morally also;  
however this is cannot be accom-  
plished as it should without the  
cooperation of the parent.

The trustees have done all that  
they could, with the funds they  
have to make the building com-  
plete and convenient. They  
have changed and repaired the  
house, and have bought stores  
blackboards, desks, and etc.

They visit the school once each  
month and do all they can to  
build up and give Junction the  
best school possible.

The pupils have been kind,  
courteous, respectful, and obedi-  
ent. Most of them have worked  
faithfully and courageously and  
are advancing rapidly, while a  
few have not done the work  
they could have done, the work  
and play of the school as a whole  
has been of a high standard and  
we wish to commend the pupils  
for this.

Patrons who have visited our  
school have at all times received  
a hearty welcome, come again  
and often. Patrons who have  
wanted to come but could not we  
regret you were so unfortunate,  
come when you can. We sincerely  
desire the cooperation of every  
parent and would be glad to  
have you visit the school and talk  
with the teachers about your  
child. If your child is not pro-  
gressing satisfactorily it is your  
privilege and duty to confer  
with the teacher in regard to  
the work.

We must not fail to mention  
the valuable and efficient work  
that Mr. Bissett is doing for us.  
Let us all work together to  
give Junction the best school  
possible.

Yours for a better school,  
O. O. Britt.

### Married

Mr. Berne Ligon and Miss  
Pet Smith were happily united  
in wedlock at Baptist parsonage  
here Friday evening, December  
19th, Rev. R. T. Deel officiating.

Miss Pet is the daughter of  
Mr. and Mrs. John Smith of this  
place and is one of the choic-  
est young ladies of our community.

Mr. Ligon is a prominent ranch  
man of Ft. Stockton, and the  
following day after their mar-  
riage the couple left for that  
place where they make their fu-  
ture home. The Citizen voices  
the sentiment of a large circle  
of friends waits to Mr. and Mrs.  
Ligon sincere good wishes for  
all happiness.

### Railway Promoter Visits Junction

Bird M. Robinson, railway promoter and builder, of New York, was here last Saturday accompanied by his Chief Engineer, Mr. Dyre, and on viewing the prospective route for the proposed line of railway from San Angelo to San Antonio via Junction were very favorably impressed and gave every encouragement that the work would be pushed into rapid activity.

Mr. Robinson and his companion were met at Live Oak ranch by the following Junction citizens and escorted to our city: H. E. Wilson, W. H. Johnson, W. P. Riley. At the Hanks and Riley Hall Saturday evening H. E. Wilson with appropriate remarks on the subject in hand introduced Mr. Robinson who made a short talk concerning the proposed railroad. The railway promoter stated that he was not yet quite ready to make our country a definite proposition but that he would do so very soon. Sunday morning Mr. Robinson and his engineer accompanied by J. N. Hodges, W. P. Riley and Alex J. Hamer went out to halfway between Junction and Ft. McKavitt where they had an interview with Col. Black of McKavitt. Returning to Junction Mr. Robinson and his companion went on to Live Oak ranch and to Kerrville. There is to be a big railroad meeting in San Antonio about January 10th, when committees from the several towns on the proposed line are to be present and matters will assume a more definite aspect.

### Married

The new year had hardly made its bow of greeting when more of Cupid's work became in evidence. The year of '13 is looked upon by some as a hoodoo number, so when 1914 arrived the little match-maker got busy. On Thursday evening, January 1st, Mr. Frank Bissett and Miss Ina Davis stole quietly over to the Methodist parsonage and were united in marriage. Rev. C. W. Rylander performing the ceremony. Both of these young people are well known and have a host of friends whose circle we join in wishing for Mr. and Mrs. Frank Bissett the best that life can give.

## AT THE MAJESTIC

San Antonio  
Week of Jan. 4th to 10th

Manager Raymond of the Majestic. Defiantly burlesquing probable conditions in the near future, the men are shown in a feminized light and the women portrayed as fine examples of the "stronger" sex.

"Pat Rooney and Marion Bent headline the week's bill at the Majestic. Pat Rooney is one of the most famous dancers of today and is the son of the famous Pat Rooney of yesterday, who was the most popular dancer and comedian of his generation. Rooney will appear with his wife, Marion Bent, in one of the merriest and cleverest mixtures of nonsense, singing and dancing in vaudeville. Rooney is the dancer of whom Allen Dale wrote that if a man could be found to whistle 'Swanee River' for four hours at a stretch Pat Rooney knew enough steps to dance him down and out."

"When Women Rule" is the extravagant farce that made such a tremendous hit in the recent production of Lew Fields. That inimitable comedian, together with Joe Barnett, made a classic of the little burlesque and as a result, it has been put into the hands of eminently capable players in order to amuse the vaudeville patrons over the big circuit.

"Lloyd and Whitehouse. Lloyd and Whitehouse will appear in a clever musical hit called 'Bills of Travesty.' The reputation of Mr. Lloyd as a writer of popular songs will make for success, and the winning personality of Miss Whitehouse, who is doing a distinctive bit of operatic burlesque, will assure it. Mr. Lloyd is an exceedingly clever pianist."

## DEATH DEALING STORM SWEEPS EAST COAST

Twelve Men Believed Drowned in Vicinity of New York and Others Are Frozen to Death—The Property Damage Totals Large Sum.

NEW YORK, Dec. 29.—Two men drowned in East river and ten men—the crews of two barges wrecked on the New Jersey coast—given up as lost, is the cost in human lives of the storm which swept over this city and vicinity early this morning.

At Seabright, N. J., a fashionable summer resort, twenty miles south of here, most of the houses have either been wrecked or are under water. Several hotels and many fine residences were among those damaged and badly damaged. Seventy families are homeless.

The damage done to property is estimated at \$1,000,000, most of it borne by Seabright and other points along the northern section of the New Jersey coast. Most of the property losses are due to bulkheads giving way under the onslaught of waves lashed into fury by a gale which at one time reached a velocity of ninety miles an hour.

The two three-masted barges whose crews have been given up as lost were in tow of the seagoing tug Edgar F. Lockhart, which was wrecked at its worst. The barge broke away and then drifted in shore midway between life saving stations No. 15 and No. 16, about five miles south of Seaside Park, N. J. At 9:30 o'clock this morning only one of the masts of the barges was visible and no one was seen on board. A man and a woman and a child, and a mast disappeared. Heroic efforts on the part of the life saving crews have so far failed to reveal a single man or woman or child. The tug was reported safe in this port late tonight.

The two men drowned were longshoremen whose boats were caught in the storm and swamped. Small craft here and there broke away from their moorings and were either damaged or lost. A car float which was rushed to the rescue, sinking eight motor boats, and the Erie Station at Jersey City was flooded. A driving rain in the storm belt gave way to snow for a time this afternoon.

All Hope Abandoned. All doubt as to the fate of the crew of the wrecked barges was removed late tonight, when the revenue cutters Seneca and Onondaga, which were rushed to the rescue, today reported that no trace of the men had been found. Life savers on shore had not been able to reach the wrecks, and they declared it was impossible for any of those who have lived in such a sea as prevailed today.

At Seabright fear was expressed that another pair of the sea at high tide tonight might work further havoc. Mayor George W. Elliott said:

"Unless the wind shifts or the storm abates, great damage is threatened."

About \$100,000 damage has been done the fishing industry along the New Jersey coast. Some distance south from Seaside Park, at Arverne, the water swept in and flooded cottages, and the owners tonight prepared to move out should the rise continue.

Wind Changes at Last. The wished for change in the wind came to Seabright's relief late tonight and the marine observers expressed the belief that the worst was over.

Lifelines from the two barges wrecked near Seaside park were swept ashore tonight. One has been pounded to pieces by the waves and the other was on the verge of breaking up.

Providence, R. I., Dec. 29.—Two barges wrecked on the New Jersey coast in today's storm were the "Undanant" and A. C. Rome, both bound to this port. Captain William H. Pickett of the "Undanant" commanded the "Undanant" and Captain O. Olsen of Providence was in charge of the A. C. Rome. Captain Pickett has a wife and child at Chelsea.

They played the accordion. They have splendid voices and they no doubt take their audiences by storm as has been their custom so far.

Melnotte Twins. "The Melnotte Twins are a dainty pair who sing and dance equally well and puzzle their onlookers as to which of the girls is which. It appears at times that Pearl is Coral and again only is convinced that Coral must be Pearl. The girls claim that they were interchanged in their cradle and really do not know which of them is which, but however that may be, they are exceptional entertainers and are often offering an act that is delightfully free from anything questionable and bubbling over with new things and good."

Five Martels. "The Five Martels are a family of bicyclists who are well known to circus and vaudeville fans. The world over, having appeared before enthusiastic audiences in the United States, Canada, Mexico and the West Indies. They do the cleanest and swiftest as well as the most sensational act now before the public."

Lockhart and Leddy. "Lockhart and Leddy are comedy men who offer some unusual and difficult stunts in a novel manner. They style their act 'A Brave Attempt At Suicide.'"

## JAP OFFICIALS SEEK TO AID HUERTA

Double Lines of Depositors Extend Out Into the Streets For Half a Block, but the Payment on Their Checks Is Again Restricted.

City of Mexico, Dec. 29.—Fifty Japanese military officers have requested permission through the Mexican embassy to travel in Mexico to enlist in the services of the Mexican army, according to information at the war office here. The request, it is said, is being given consideration.

It is reported that a five-hour skirmish took place today between federalists and followers of Zapata on the edge of the federal district. The federal commander claims that forty-five of the enemy were killed and fifteen others captured.

The run on the Bank of London and Mexico was in no way diminished today, double lines of depositors extending out into the streets for half a block. Payment on checks was restricted as on previous days to 200 pesos, except for payrolls and other urgent requirements.

W. R. Mitchell, the manager of the bank, expressed confidence in the ability of the institution to weather the drain upon it. He declared the bank's financial condition was such that if all deposits were paid out, there still would remain 41,000,000 pesos in assets. The run on the Bank of London and Mexico was restricted, but in a very minor degree, on the other banks of the capital.

Bank Holiday Extended. The bank holiday decreed by President Huerta to be in effect until January 2 probably will be extended beyond that time. A bank banking authority today said it was unlikely that the period in which no bank papers would be presented will be fixed at sixty days beyond the first of the year. He said also that within that period the banks probably would be relieved from obligations to make any specie payments and that all state bank bills, in addition to those recently indicated by the presidential decree, would be made legal tender.

The government's success in obtaining additional funds from Paris bankers, recently announced, is not expected to afford the administration any relief in procuring cash. Those familiar with conditions explained that the loan merely means that bankers who hold securities on which interest is falling due, will accept bonds in lieu of cash, knowing there is no other alternative.

LEMON TRUST ALLEGED. Charges of Maintenance of Lobby at Washington Are Made.

NEW YORK, Dec. 29.—Charges that a lemon trust exists in New York and has maintained a lobby in Washington to reduce the tariff on lemons are made in a suit filed here today by William S. Armstrong, receiver for the Mercantile-Brean Co., importers of lemons.

Armstrong seeks to recover damages from the Steam-American Steamship company, which he says entered into an agreement in 1911 with the Fruit Importers' Union and other importers of lemons to add 23 English miles to the regular freight rate on every box of lemons brought here by the line.

The plaintiff alleges that this extra fee was to be used to maintain a lobby for a reduction of the tariff on Italian lemons in opposition to the efforts of the California lemon growers, who wanted the tariff retained.

TWO MEN FREEZE TO DEATH. Heavy Snow Also Stops Operation of Philadelphia Coal Mines.

PHILADELPHIA, Dec. 29.—Death and considerable property loss resulted from storms which raged throughout Eastern Pennsylvania last night and today.

Michael Clark, an inmate at the Schuylkill County Almshouse, and Ennis McFadden, a farmer, were found frozen to death today in snowdrifts near Pottsville.

High winds, heavy snow and low temperature at Reading and Hazleton demoralized wire communication and seriously delayed trolley and railroad traffic.

Shamokin reported all coal mines in the region idle as the result of a severe drop in temperature and a five-inch snowfall.

CALIFORNIA COAST ALSO SWIFT. At Venice Houses Along Beach Are Held in Line by Waves.

LOS ANGELES, Cal., Dec. 29.—A hundred miles of beach towns and summer homes from Long Beach to Santa Barbara showed the effects tonight of a storm which swept the Southern California coast early today.

The Malibu Highlands above Los Angeles and other cliffs were unaffected, but miles of streets on the low beaches in the summer towns west of Los Angeles were inundated. In today's flood tide 200 feet of beach wall was taken out at Santa Barbara, the winter home of many wealthy Easterners, and the ocean boulevard was piled with sand and kelp.

At Venice houses along the beach were held in line with ropes and an amusement pier was weakened. At Santa Monica the sea climbed over a road well above the usual high tide.

The force of the tide and waves scoured out the beach for rods and heaped it with wreckage.

## INSURGENTS ARE HONORED BY AMERICAN SHIPS

Cruiser Pittsburg Fires Official Salute as Constitutionalists.

Culiacan, Sinaloa, Dec. 29.—Constitutionalist officials of Sinaloa were accorded official honors when they visited the United States cruiser Pittsburg at San Blas, according to details of the visit relayed today when the party returned here.

The insurgent state officials had visited the Pittsburg upon request of Rear Admiral Cowles, whom they had entertained at the state capital at Culiacan. The insurgent version of the visit was that when Governor Riveros and General Iturbide boarded the Pittsburg they were received by a salute of sixteen guns. The Mexican colors floated with the Stars and Stripes over the American ship of war. The visitors were entertained at luncheon and inspected the ship and crew.

Hermosillo, Mex., Dec. 29.—News of the reception of the Sinaloa Constitutionalist officers on the United States cruiser Pittsburg was received by General Carranza and his advisers with an unusual show of interest. The event was considered by officials here to be the best proof yet offered of the good feeling of the Washington government toward the revolutionary party of Mexico.

Washington, D. C., Dec. 29.—Hon-

ors accorded Governor Riveros and his party by Rear Admiral Cowles as on board the cruiser Pittsburg at San Blas were in recognition of the legally elected officials of the State of Sinaloa and not of members of the Constitutional forces opposing the Huerta government in Mexico.

"As the duly elected governor, Mr. Riveros was entitled to a salute of seventeen guns," said Franklin D. Roosevelt, acting secretary of the navy, tonight. "But," he added, "in no sense of the word were the Mexican officials received as representatives of the Constitutional forces."

Mr. Roosevelt explained that Rear Admiral Cowles had, previous to the visit of the governor and his party to the Pittsburg, paid formal courtesy to the state authorities. Governor Riveros was elected in 1911 and has been the recognized head of the State of Sinaloa since that time.

## BRAN AND CORN ARE BEST MILK MAKERS

Washington, D. C., Dec. 29.—The department of agriculture has just concluded a series of interesting experiments to determine the effect on the flavor of milk of feeding different kinds of rations to cows. The department has decided in favor of bran and corn as producing the finest flavored milk.

The experiments were conducted to ascertain the correctness of the theory of some dairy men that the feeding of crushed oats to cows would improve the flavor of milk. Six cows were used in the experiments. In all fifty opinions were passed on the various samples of milk from these cows. Of these sixteen showed preference for the milk of cows fed on crushed oats, twenty-five from those fed on corn ration, while nine expressed no choice.

"The results," said a statement issued by the department, "show that in these rations not only was there no marked difference in favor of the crushed oats as a feed to improve flavor, but if anything, the ration containing bran and corn was more successful in producing finely flavored milk."

**TEXAN WINS HONORS**  
AS COLUMBIAN DEBATER

**DOUGLAS TOMLINSON OF HILLSBORO NOW ONE OF TEAM.**

Will Be One of Representatives of That School in Contest With Other Colleges.

New York, Dec. 29.—A Texan, Douglas Tomlinson, of Hillsboro, won a place on the Columbia University debating team in the contest held here, on the highest university debating honors of America. He will be one of Columbia's representatives in the Columbia-Pennsylvania-Cornell meets early in March.

With the largest student enrollment in the United States, nearly 11,000, Columbia also keeps her record in debate, having won both events last year by unanimous decisions. Minimum wage laws for women and children in industry was the question discussed at the last debate.

Forty-two men—some of them the strongest from their respective sections of the country—had entered the contest originally, but three preliminaries had reduced this number to the twelve, who were pitted

against each other in the final test. Aggressive, argument and brilliant rebuttal marked the whole course of the hard-fought contest. The features of Tomlinson's effort were his impetuous delivery and quick telling sentences at critical points in the debate, carrying conviction along with the laughter he seemed able to command.

Winner of first honors in Texas University debating last year, Douglas Tomlinson has been under fire before. He received a B. A. degree from Texas Christian University and a LL. B. from the University of Texas last June, successfully representing both schools in several oratorical events, and making the state debating teams every year of his university career at Austin. He will receive his degree in Journalism this year from Columbia University, and has arranged to complete his studies next year in Europe.

## TROOPS GATHERING FOR ATTACK ON MONTERREY

City of Mexico Also Hears That Constitutionalists Again Are Becoming Active Around Tampico—Federalists Await Attack at Ojinaga.

City of Mexico, Dec. 29.—Reports still persist of Constitutional activity near Tampico, although there have been no clashes of late with the federalists.

Brownsville, Tex., Dec. 29.—During yesterday and today there has been a considerable troop movement toward the State of Tamaulipas. Jefe Matamoros carrying 2000 soldiers having been sent out. General Pablo Gonzalez for the State of Tamaulipas, Jefe Matamoros this morning to conduct the campaign against Monterrey.

Constitutionalist officers today announced that they expected the city to be attacked by next Sunday. General Gonzalez expects his forces to be reinforced by a large detachment from the force now about Tampico, the assault upon that place having been abandoned for the present, as well as a column from Torreon, and stated that he will have fully 5000 men with which to attack Monterrey.

The forces leaving Matamoros today carried with them six cannon. The railroad is now operated as far as Huerfano, from which place the army will march overland to Monterrey.

General Gonzalez carried with him an abundance of supplies and ammunition. It is believed here it will take at least a week for the constitutionalists to reach Monterrey from Ramones, to which point the Mexican National branch line is operating. The country from there to Monterrey is very rough for overland traveling.

The Mexican consulate here today was informed that a battle was in progress at Zacatecas, midway between Matamoros and Monterrey. This was denied by the Constitutionalists in Matamoros. They stated there are no federalists between Matamoros and points twenty miles this side of Monterrey.

During the progress of the conference there will be a comprehensive mental and physical classification of several hundred school children, which will take into consideration the effect of heredity and environment upon the offspring.

Standards of mental and physical perfection will be determined and a general campaign to secure the world-wide adoption of these standards as a true test of mankind will be among the other topics to be considered by the conference.

**DIAMOND SET IN GOLD**  
TOOTH; LOCAL WAITRESS SETS FASHION

San Antonio, Tex., Dec. 29.—An exceedingly pretty young woman, who is employed as a waitress at a local restaurant, may be the originator of a new fad, that of wearing diamonds in the mouth. She is probably the only person in the world to flash a gem of value and brilliancy from her pearly teeth. The young woman has had a operation where a diamond set in a gold bridge of her front teeth. The operation was performed last week by Dr. W. H. Matthews, 206 East Houston st., better known as Painless Matthews.

The diamond, a trifle smaller than the setting of a ring, gleams out of the gold in front right where the red lips part in that cheering little smile which greets the patrons of the restaurant.

It was at the young woman's request in having dental work done that Dr. Matthews set the diamond in the gold bridge. There is no chance for the owner to lose the diamond unless she falls down and knocks her teeth out. The local girl has gone the New York society woman one better who wore diamond-studded anklets, also the St. Louis belle who recently broke into prison by wearing a diamond in her bright red garter, and still another who wore slippers with diamonds set in the heels.

## FOR PERFECT RACE

Battle Creek, Mich., Dec. 29.—A working plan having as its ultimate purpose the building of a perfect race of mortals is to be formulated at the National Conference on Race Betterment to be held in Battle Creek, January 3, 9, 10, 11 and 12, 1914.

Intermediately the plan contemplates gradual betterment of living conditions, the achievement of increased human efficiency; and higher degrees of physical and mental development.

For several years increasing interest has been centered upon the problems which the conference has elected to consider. The much-discussed eugenics movement is one of the channels in which this interest has been manifested. The well-defined feminist movement and the out-cropping of the general groping for new race ideals. These and correlated topics will be considered at the coming conference.

The organization of a national body to continue the work inaugurated by the conference itself will be anticipated. This national body, it is anticipated, will arrange for annual meetings and in a very short time will lay the foundation for a world movement for an improved race.

Dr. Stephen Smith, vice-president of the New York state board of charities, is the president of the national conference on race betterment. His advising vice-presidents are Prof. Irving Fisher of Yale, Rev. Newell Dwight Hillis of Brooklyn, Hon. Robert L. Owen of the United States Senate and J. N. Hurty, president of the Indiana state board of health. The executive committee in addition to the vice-presidents, includes Right Honorable Sir Horace Plunket, formerly minister of agriculture for Ireland; Dr. J. H. Kellogg, superintendent of the Battle Creek Sanatorium, and members of the Michigan state board of health; Jacob Rius, social worker of New York, and Judge Ben B. Lindsey.

The list of those who will take part in the conference includes many men and women of national prominence.

During the progress of the conference there will be a comprehensive mental and physical classification of several hundred school children, which will take into consideration the effect of heredity and environment upon the offspring.

Standards of mental and physical perfection will be determined and a general campaign to secure the world-wide adoption of these standards as a true test of mankind will be among the other topics to be considered by the conference.

## RUNS DOWN A CHILD AUTOIST KEEPS GOING

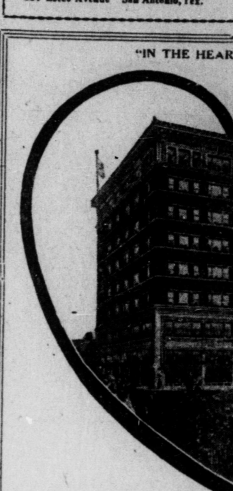

San Francisco, Cal., Dec. 29.—After plowing through a little group of children on their way home on Christmas night from a moving picture party, J. G. Cassell, chief engineer for a manufacturing company, did not stop his motor car and did not see, when he was arrested today, why he should have stopped.

"I knew I had hit one of the little girls," he said, "but when I looked back I saw that somebody had picked her up. I saw she was all right and kept on."

The little girl is dying today. Her skull was fractured and her body crushed. She is Carmela Sarra, 7 years old. Two other children were rounded their houses they had to flee.

## TWO THOUSAND STUDENTS

We have just been informed  
 that the slogan of the Tyler Com-  
 mercial College of Tyler, Texas  
 for 1914 is 2,222. It's record for  
 1913 passed the 2,000 mark.

You may take the editor's  
 word for it that our young peo-  
 ple could not do better than to  
 spend from \$30 to \$100 for board  
 tuition and books, completing a  
 course of shorthand, bookkeep-  
 ing or telegraphy in this famous  
 institution or better still, spend  
 about \$175 for two of these  
 courses. What young person  
 can place a hundred or two hun-  
 dred dollars and three or five  
 months time to a better advan-  
 tage than to invest it in a thor-  
 ough business training that will  
 bless the remaining years of his  
 business life? Young people in  
 this community, who a few years  
 ago borrowed the money to at-  
 tend this institution, are today  
 out of debt and on the road to  
 success as a result of having the  
 courage and determination to  
 make an effort to do something,  
 to be somebody and add further  
 proof to the old saying, "Where  
 there is a will there is a way."  
 There is plenty doing for those  
 who are prepared. Be ambi-  
 tious. Be one of the 2,222 to en-  
 ter this famous institution dur-  
 ing 1914 that you may go into a  
 good salaried position or into a  
 business of your own with some  
 assurance of success.

No institution could attain such  
 a wonderful enrollment and lead  
 all other American business  
 training schools unless it merit-  
 ed it. It cost no more to attend  
 the best school, with a nation  
 wide reputation, than it does the  
 next best.

## TEXAS NEEDS GREAT MEN

XXXVII. POWER

CYRUS THE GREAT founded the Persian Empire and ex-  
 ercised absolute power over a larger number of people  
 than any other human. From a wandering horde he or-  
 ganized a vast wave of human power and grandeur which swelled  
 and rolled on in undiminished magnitude and glory for many  
 centuries. This powerful man was able to lift the soul of human-  
 ity into the heights of reason and by his compelling and persua-  
 sive power lead them into higher altitudes of civilization.

No event of importance in the human race was ever accom-  
 plished without the guiding hand of a spirit of great power.

CYRUS THE GREAT ORGANIZING GOVERNMENT.

Let those who search for authority understand that power  
 is permanent only when the product of principle, that ability will  
 attract the homage of the masses like a lodestar, and that the  
 rare qualities of initiative leadership have always quieted seeth-  
 ing humanity and organized turbulent masses into peaceful and  
 happy communities where civilization can yield its golden fruit.  
 Texas Needs Great Men.
