GIFT TEA—Miss Annette Hock, bride-elect of Weldon Smith was honored with a gift tea Saturday evening in fellowship hall of Avenue D Baptist Church. Parents of the couple are Mr. and Mrs. Roy Hock, and Mr. and Mrs. Earl Smith. A pastel green and white color theme was

carried out in the decor of the hall and the table service. The couple will exchange vows on January 21 in the Hock home, 3305 Avenue A. Pictured above are Mrs. Hock, Annette and Mrs. Smith.

Fluvanna News

BY MRS. J. R. JONES

Mr. and Mrs. Bob Davenport of San Angelo visited Mr. and Mrs. Pete Sampson Sunday.

Mr. and Mrs. Arch Lavender of Snyder, Mrs. Exie Finch of Flagstaff, Ariz., and Mr. and Mrs. W. T. Steel and daughter of Dermott visited the Lee Lavenders Sunday.

Mr. and Mrs. Neil Holder attended the funeral of Loyd Forehand in San Angelo Monday.

Mrs. Patsy Aaron is in a Fort Worth Hospital for a checkup.

Mr. and Mrs. Fowler Mathis were dinner guests of the Wayland Mathis family of Snyder Sunday.

Mr. and Mrs. J. R. Jones, Rodney and Royce, and as their guest Sunday the Ethridge Stricklands of Odessa, Simon Best, Mrs. Odessa Armstrong, and Judy Buchanan all of Snyder.

Mr. and Mrs. T. W. Ellis of Lubbock visited relatives in Union Sunday.

Mr. and Mrs. Keith Collier and children of Snyder visited her parents, Mr. and Mrs. T. M. Hughes Sunday.

Mrs. Guy Turner and Suzanne went to Abilene Wednesday for Suzanne's weekly therapy.

Those having supper Saturday night with the Robert Warrens were Mr. and Mrs. Jim Sullenger and children of Snyder, Mr. and Mrs. Noble Oliver and children of Maljamar, N.M., Mrs. and Mrs. Jake Warren and son of Gallup, N.M. and Mr. and Mrs. Ralph Price and girls of Fluvanna.

Tuesday night supper guests in the Fowler Mathis home were Mr. and Mrs. Wayland Mathis and children, Mr. and Mrs. Bill Hurley and son, Marjorie Price, Debbie and Marsha of Snyder, and Orval Mathis of Fluvanna.

Central P-TA chili supper starting at 6:30 p.m. in school cafeteria. Games and entertainment for all will follow. A door prize will also be given.

Mr. and Mrs. Ethan Ball, Mrs. Dean Ball and Zenda visited the O. Z. Balls of Slaton Tuesday.

Mrs. Ray Fulford is home from the hospital and doing nicely after

having surgery two weeks ago.

Mr. and Mrs. J. A. Reiger from Clyde visited her sister and Mrs. Marshall Gleghorn and family last weekend.

Those visiting Mr. and Mrs. Wallace Jones last Sunday were Mr. and Mrs. Jesse Young of Hamlin, Mr. and Mrs. I. W. Proctor of San Francisco, Calif., Mr. and Mrs. Webb Sewall of Jayton and Mrs. Ola Staveley of Fluvanna.

Mr. and Mrs. Hurston Lemons visited Bobby and Darlene Lemons of Lubbock Wednesday. Mr. Lemons attended a tractor sale.

Duke Ball visited friends in Sweetwater Sunday.

Orval Mathis of Fluvanna and Mrs. Marjorie Price, Debbie and Marsha of Snyder visited her mother in Wichita Falls last weekend.

Mr. and Mrs. Ethan Ball visited her sister, Mrs. Punch Kennedy and family this week. Mrs. Kennedy came home with them to visit several days.

WOMEN'S CALENDAR

THURSDAY

The three Snyder garden clubs will hold a show on flower design by Don Johnson of Texas Tech at the Lamar Junior High School auditorium from 2 p.m. to 4 p.m. Gamma Upsilon Chapter of ESA will hold a "Hobo" party at 7:30 p.m. at the county barn. Husbands will be guests.

FRIDAY

Ladies Golf Association meets at Country Club 1 p.m.

The Central Elementary P-TA will have a chili supper and game night in the school cafeteria starting at 6:30 p.m.

The Altrurian Club will meet at the Martha Ann Womans Club at 3 p.m. with Mrs. Frank Butler as hostess.

Central P-TA chili supper starting at 6:30 p.m. in school cafeteria. Games and entertainment for all will follow. A door prize will also be given.

Mr. and Mrs. Ethan Ball, Mrs. Dean Ball and Zenda visited the O. Z. Balls of Slaton Tuesday.

Mrs. Ray Fulford is home from the hospital and doing nicely after

UNION News

BY MRS. J. B. ADAMS

Rev. R. N. Tucker attended the Baptist Evangelism conference in Fort Worth last week.

Mr. and Mrs. Bill Cook of Colorado City were visitors with the J. A. Martin family Sunday.

The Intermediate G. A. S. met in the home of Mr. and Mrs. Reid Saturday for a mission program with president Judy Hall in charge and Patricia Massingill as program chairman. The group sang "We've a Story to Tell The Nation" and Elaine Massingill led in prayer. In the business meeting they started plans for the sweet-heart banquet. For their January community mission they planned to visit the Snyder Rest Home. Refreshments of cake, cookies and coffee were served to Judy Hall, Cheryl Reid, Janice, Eva and Neva Fowler, Patricia and Elaine Massingill and the G. A. S. Counselors, Mrs. J. A. Martin and Mrs. Morgan.

Linda Sanders is spending two weeks in the home of Mr. and Mrs. Jack Martin while her mother, Mrs. A. B. Sanders is in a Houston hospital for treatment.

Mrs. J. B. Adams visited Friday and Saturday with Mr. and Mrs. E. M. Boies in Lamesa.

Mrs. Bill Walker of Odessa visited recently in the Howard Hogue home.

A pink and blue shower was given Tuesday afternoon in the fellowship hall of the Methodist church for Mrs. Jack Hill.

Dean Powledge was returned Tuesday from Root Memorial Hospital in Colorado City. Earl Beatty returned also.

Mr. and Mrs. Johnnie Langford attended a birthday dinner recently for his sister in Aspermont.

Mr. and Mrs. Paul Williams of Lubbock visited Sunday with Mr. and Mrs. J. H. Carter.

Mr. and Mrs. Jack White visited Sunday with their daughter and family, Mr. and Mrs. Jess

DeBond of Lubbock. Their granddaughter, Sheryl, returned with them.

Junior G. A. S. and primary Sunbeams of Union Baptist Church met Tuesday evening for their regular mission program. Mrs. Linda Clark led the Sunbeams and Mrs. J. A. Martin led the G. A. S. Mrs. Bill Nedifer and children of Pampano visited Monday in the home of Mrs. J. A. Martin.

DON J. JOHNSON

Thursday Is Special Day For Flowers

Tomorrow is the day when all women of the area interested in flower arranging will have their day. Don J. Johnson, instructor in Landscape Design and Park Management at Texas Tech will be the highlight of a gathering of women—and men if they are interested—at Lamar Junior High School.

Starting at 2 p.m. Mr. Johnson will emphasize the necessity of simple mechanics, choice of containers, interpretations and themes in making beautiful and yet simple arrangements.

Sponsored by the Snyder, Town and Country and Twilight Garden Clubs of Snyder, special invitations have been extended to all area clubs and individuals who care to attend.

featuring

AMERICA'S POPULAR PAIR

The best selling

CHEVROLET & CORVAIR!

Overwhelming acceptance of the new 1961 models introduced last fall—together with the tremendous success of the '60 Chevrolets—has sent Chevrolet passenger car sales to an all-time yearly high. More new Chevrolets and new Corvairs were delivered to more people during the past year than ever bought any make of car in a single year before. We and your Chevrolet dealer

thank you for your continuing confidence in, and preference for, Chevrolet. Your record-breaking purchases of Chevrolets have significance to everyone thinking of buying a new car this year, and—since sales of new 1961 Chevrolets and Corvairs continue at record-breaking levels—are a healthy indication of the inherent strength and vigor of our national economy.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

Good News Still Is Able To Rate Spot On Page One

BY INEZ ROBB

One of the most common criticisms leveled against newspapers is that they publish only the bad and the sensational news, especially on Page One.

If it seems that way at times, it is because the bad and sensational news predominate in this revolutionary century, with bad and sensational news from all over the world, from the Congo, Cuba, Algeria, Belgium to the sad amazement of all the admirers of that small, doughy nation, et al. You name it, and it's got bad, sensational troubles!

But good news and news of good deeds and action still manage to get on Page One. One of the most notable instances occurred only last week when the front pages in New York carried long stories on the Christian conduct of the Rev. George French Kennedy Jr., rector of the Protestant Episcopal Church of St. James the Less in Scarsdale, a semi-demi-fashionable suburb of New York.

The Rev. Kennedy valiantly took his position on the side of decency and the angels when he firmly announced that any of his parishioners who played a part in bawling from the country club Christmas dance a young convert from Judaism would not be welcome at holy communion.

And bar the young Jewish convert is exactly what the pompous addle-pates, who comprise the board of governors of the Scarsdale Country Club, did. There has always been an awful fascination for me about organizations, such as this wretched club, that feel that their premises would be polluted by any member of the great racial strain that produced Jesus Christ, to whom they pay at least lip service.

But bar the young man who did and from the club's annual debutante or Holly Ball, where daughters of club members come out in bunches, like asparagus or rhubarb. A committee of the ball ruled the young man was unacceptable "because he is Jewish" and the board solemnly concurred.

There are two other unsung heroes, or rather heroines, in this saga. The debutante who invited to the ball the Jewish convert to Christianity cancelled her debut and did not attend. Her mother, a member of the dance committee, withdrew, too. So the Scarsdale Country Club scored a clean sweep. It not only eliminated from the dance the offending convert but the two members who have defiled the club.

It is tragic that the young convert was so upset by the barbarian behavior of the club that he stayed away from church and communion on Christmas morning.

He should realize that country clubs are havens for the socially insecure and unsure. There they can huddle together, safe in their ignorance and arrogance, and practice, in privacy, eating peas with a fork.

There they can exercise conformity, play golf and look down on their betters. Members of country clubs are all alike in that their members are so uncertain of their social background and position that the idea of extending a welcoming hand to a Jew or any other person not an exact replica of their own dull, cookie-cutter selves makes them reach frantically for the panic button.

The young man who was rejected doesn't know how lucky he was to be barred. Country clubs, in my experience are dullsville and filled with the people who make them so.

My only fear in this affair is that the cruel, unchristian behavior of the club may turn the convert forever in disgust and revulsion from the gentle, compassionate teaching of another young Jew who came to the world to bring the light and salvation that has not yet penetrated into country clubs.

For whatever comfort it is to

Time Plays No Favorites In Its March

By HAL BOYLE
KANSAS CITY, Mo. (AP)—He looked familiar across the crowded ballroom, but for a moment I couldn't place him.

Then it came back to me. Why, of course. How could I ever forget? I had known his son well in high school, and had visited in his house several times then.

"It's a real pleasure to see you again, sir," I said, stepping up and wringing him by the hand. "You probably don't remember me, but I used to know your son Joe real well—years and years ago."

The man stared at me, then said: "You really are lost. I am Joe. I wondered when you were going to say hello."

Well, that's the way it is. They say you can't come home again. This isn't true. You can come home again.

But if you meet high school classmates after a quarter of a century or more you find something has happened to them.

You feel you are still the razzle-dazzle kid who used to drive the study hall teacher crazy. Nothing has changed you. But your classmates are different.

The girls look like their mothers, the boys like their fathers. What has time done to them? It is very hard to understand.

It is now 24 years this very month that I left this lovely home town of mine—the heart of America—to storm New York City with empty pockets and a head full of dreams.

Through the years I have come back home as often as I could, as most sons of the Midwest do, and signs of decay in things I deepest in the center of our continent.

On each visit I could see signs of vital change in terms of expansion and new building, but also signs of decay in things I would like to remain fixed forever as I had known them in my childhood.

The city was getting younger and fresher and taller, but the people and houses I had known were getting older and more tired.

On this trip, for example, Punky, the family dog, who is 9 years old, didn't bark when my cab rolled up to the house. She stood there waiting, like a cinnamon-colored duchess—she's mostly Chinese chow—until I patted her on the head. Then she smiled gravely and moved heavily after me to the front door.

"Poor Punky," said my mother later. "She has a bad cyst on her leg. We've given her X rays, and she's had two operations, and the doctor says a third won't do any good."

"It may be necessary later to put her to sleep, and I just can't think about it. None of us can. She has been such a good dog."

When you come home again, news like that depresses you. You feel the weight of mortality pressing on others. But somehow you feel impervious to change yourself. You are still as young as the day you left town. Nothing has happened to you.

The other night I went to a social occasion and overheard a couple talking.

"He's beginning to look more and more like his father," he said. "It's almost creepy."

"Oh, no," she disagreed. "His father never lost that much hair—and he would never have set himself get that fat."

Fort Worth Wins Award

BOSTON, Mass. (AP)—Fort Worth received top ranking in its population group in the National Fire Protection Association's annual fire prevention contest.

Fort Worth received its ranking in the 250,000 to 499,000 population group.

Also winning first, in the 20,000 to 49,000 population group, was Killeen.

Awarded honorable mention were Austin and Abilene.

National rankings place Fort Worth sixth and Killeen 11th.

In the Army division, the Red River Arsenal at Texarkana won second place in the nation, with Ft. Sam Houston at San Antonio ranked third.

Air Force rankings placed Biggs AFB at El Paso seventh; Ellington AFB at Houston 15th and Hurlingham AFB 16th.

The awards, with nearly 1,800 cities or installations competing, are based on year-round efforts to reduce fire and to educate citizens in fire safety.

Say U. S. Makes Most Achievements

By MARSHALL COMERER
DALLAS, Tex. (AP)—Russia's achievements are more spectacular but the United States leads in the knowledge and discoveries that will conquer space, a panel of scientists said Tuesday night.

They called this country's weather and communications satellites, Tires and Echo, and discovery of the Van Allen radiation belts around the earth tremendous advances in space exploration.

While confident that they can put a man in orbit, they cautioned that much more research is needed before we can travel to the moon or the planets.

This appraisal of the nation's space program was made by Werner von Braun, director of the George C. Marshall Space Flight Center, National Aeronautics and Space Administration; Fred L. Whipple, director of the Smithsonian Astrophysical Observatory; Lt. Gen. Bernard A. Schriever, head of the Air Force Air Research and Development Command; and Rep. Olin Teague, D-Tex., of the House Committee on Space and Aeronautics. They appeared on a forum sponsored by the American Astronautical Society and the Dallas Council on World Affairs.

Of Russia's contribution to space knowledge, Whipple said, "If we had only our own data, and not that which Russia has contributed, we would not notice much difference."

Both he and von Braun stressed the need of basic research in such fields as gravity, solar flares, effects of radiation and how to enable man to live and work effectively in space.

To provide more boost power for rockets that will launch deep

space probes, von Braun said a liquid hydrogen engine capable of 1.5 million pound thrust and the Rover project, using liquid hydrogen and an atomic reactor, promise the best results. Both are under development.

Schriever conceded that Russia has more missiles than the United States but that this country is ahead in developing solid propellant and missiles that are easier to operate and maintain and probably are more reliable.

The panelists frowned on a suggestion that the space program be concentrated under a national science academy.

They felt that an academy could be most useful in coordinating research and experiments through a system of study groups reaching down to the men who do the work.

"I worry about entrenched old men with too much power," said Whipple. "I am convinced that the best ideas come up from the bottom and not from the men at the top."

In this respect Schriever said he is confident that the American Space Council under Vice President-elect Lyndon B. Johnson will provide the high policy decisions and guidance the space program needs.

Area Cadets Going To Inauguration

Tarleton State College's Wainwright Rifles, a precision march and drill team, has been chosen as one of six units from the state of Texas to take part in the inaugural parade of Friday in Washington.

Forty Tarleton cadets will march in the 2 1/2 mile parade. Their unit was one of some 300 organizations making application to appear in the parade, with the other participating Texas groups chosen being the Texas A & M College Band, the University of Texas Longhorn Band Southwest Texas State Teachers College Band (San Marcos), Nederland High School Band, and the Fisher County Mounted Sheriff's Posse.

Two area cadets will be among the Wainwright Rifles organization which will perform in the colorful inaugural ceremonies. They are: Cadet Major "Bo" Brown, son of Mr. and Mrs. H. P. Brown of 2500 Avenue U, and Cadet Captain Bobby Stewart, son of Mr. and Mrs. S. P. Stewart of Gail.

Katydid Reveal Regional Accents

BY THE ASSOCIATED PRESS
Science this week looks at katydids with accents, sailing in space, and a mystery about forest and prairie fires.

Animal Talk

A new long-playing record for scientists has been tuned in on katydids with Northern and Southern accents: toadish growling when an intruder comes along, the grunt of a grouper fish, and the trill of a tree frog, plus many other attractions.

The record and a book, "Animal Sounds and Communications," issued by the American Institute of Biological Sciences, are the latest aid in research to understand how animals and insects really communicate. Their 10th concerns mating, availability of food, danger warnings, and other signals.

Sailing in Space
The pressure of sunlight affects the orbit of Echo I, the big balloon satellite launched to explore future means of communications.

This fact confirms the feasibility of another idea: that a satellite could be equipped with a huge sail, made of similar aluminized fabric, so it could be maneuvered by sunlight pressure much like an ordinary sailboat responds to wind pressure, report scientists of the Los Alamos Scientific Laboratory.

Earlier, they had worked out means of keeping a sail open and maneuvering it in relation to the sun and gravitational forces, acting on an idea advanced by Dr. Richard L. Garwin of Columbia University.

Housewife's Tip
Scientists were looking for some method of storing uranium in small, water-tight containers with lock-on lids.

The containers had to be small and water-tight. Too much uranium in one pot could create dan-

gers and they should not ever spill.

A housewife-employee solved their problem, suggesting they use a type of pressure cooker, says a release from the Aerojet-General Corp.'s nuclear plant, Azusa, Calif.

Fire Effects
Forest and prairie fires cause intense heat, as everyone knows. But the temperature an inch or so below the surface of the ground can be changed very little, or not at all, University of Wisconsin botanists report from studies using special thermometers.

This explains why seeds existing just below the surface can be little affected, and then take over in the re-growth after a fire. The knowledge can be helpful in intentional burning and control of various areas to promote game preserves for forms of wildlife, by encouraging the kind of plants and cover they prefer, say Richard and Prof. John T. Curtis.

June Allyson Set To File For Divorce
SANTA MONICA, Calif. (AP)—Producer Dick Powell reportedly is agreeable to a \$2.5-million property settlement and his actress-wife, June Allyson, is suing him for divorce—alleging mental cruelty.

The suit was filed Tuesday by attorney Jerry Giesler, who said property settlement papers were signed last Dec. 30 in Europe. Powell said in London he is flying home. He is not contesting the divorce.

The couple's separation was announced earlier this month by Giesler. They have been married 15 years. They separated in 1957 but were reconciled within 30 days. Powell is 56, Miss Allyson 37.

Installation Set For Sons Of Hermann

Fritz Schilo, San Antonio, grand president of the 32,000-member Sons of Hermann fraternal order, will serve as the installing officer at the installation of officers of nine West Texas Sons of Hermann lodges in Snyder Sunday, Jan. 22, at 2 p.m.

The ceremony is set for the Village Restaurant in Snyder.

Assisting Schilo will be two other San Antonians, E. H. (Ike) Niemeyer, special grand lodge representative, and M. O. Gold, grand lodge district supervisor.

Officers of the following lodges will be installed for 1961: Lubbock Lodge No. 16, Lubbock; Odessa Lodge No. 38, Odessa; San Angelo Lodge No. 177, San Angelo; Rowena Lodge No. 216, Rowena; Brazos Lodge No. 228, Old Glory, Tex.; Paint Creek Lodge No. 241, Haskell; Roland Lodge No. 256, Hermleigh; Roscoe Lodge No. 257, Roscoe; and Pep Lodge No. 311, Pep, Tex.

The Old Glory lodge will serve as host group. The Sons of Hermann has a youth summer camp for its junior members and a home for the aged, both at Comfort, Tex. Home offices of the big Texas fraternal order are in San Antonio.

Float Will Depict Johnson's Career
WASHINGTON (AP)—Vice President-elect Lyndon Johnson's career will be depicted Friday in Texas' float in the inaugural parade.

The float's theme, "From the Lone Star to the Stars of Space," will portray transitions from the old frontiers of the ranch country where Johnson was born to the space age.

The Texas State Society of Washington will sponsor the float. Three Texas beauties will ride on the float with its huge world revolving in space and circled by space ships and stars. The beauties will be Miss Martha Miller, daughter of Mr. and Mrs. Dale Miller of Dallas; Catherine Cabell, daughter of Gen. C. P. Cabell; and Susan Rogers, daughter of Rep. Walter Rogers, Democrat of Tampa, Tex., and Mrs. Rogers.

\$2-Million Embezzlement Shakes Up Town In Iowa

By WILLIAM E. EBERLINE
SHELDON, Iowa (AP)—The economy of this small town in northwest Iowa was in a state of confusion today as the result of a \$2-million embezzlement from the Sheldon National Bank.

There were payrolls to be met, outstanding checks that seemed sure to encounter trouble, citizens without funds and local business records in financial disarray.

In jail, beyond the reach of persons seeking public answers to the questions of how and why it all happened, was Burnice Geiger, 58, daughter of the bank president.

The U.S. district attorney's office in Sioux City said Mrs. Geiger—a director and assistant cashier of the bank—admitted the embezzlement. A prominent citizen, she was known for her char-

itable works. Her father, W.P. Iverson, 83, president of the bank for 45 years, could only say: "I'm all choked up."

The bank was closed for liquidation by the Federal Deposit Insurance Corp. after a routine audit by federal bank examiners turned up the shortage Monday night.

Officials of the FDIC were checking the records of deposits which were insured up to \$10,000 each. The bank's last statement on Dec. 31 listed total assets at \$1,995,000. The embezzlements were estimated at \$2,126,839.

The sentiments among businessmen was summarized by the comment of one: "We've heard the boom, now we're waiting for the echo."

The manager of a big soybean processing company which distributes products in the Midwest said that his company has "out-standing checks all over the country."

The only financial institution remaining in Sheldon, the Security State Bank, was deluged with requests for aid in solving money needs.

Townpeople had great difficulty believing Mrs. Geiger embezzled the bank funds. Many whom she had personally aided refused to credit the report.

Mrs. Geiger was held at Sioux City on a charge of embezzlement for a grand jury set to convene there Jan. 30. She waived a hearing and did not immediately make bail set at \$10,000.

COURSE OF STUDY—Manning C. Clements, special agent of the FBI, points to an outline of the course of study for a three-day law enforcement school now in progress at the Snyder Police Dept. Police Chief T. L. Steele looks on as Clements makes a point. The school represents one of the services offered local and regional law enforcement agencies by the FBI at no cost to local citizens.

Law Enforcement School Underway

A three-day school on law enforcement is being conducted by the Federal Bureau of Investigation for the Snyder Police Department.

Police Chief T. L. Steele said the school will be concluded Thursday.

The instructor is Manning C. Clements, special agent of the Dallas Division of the FBI.

Instruction and discussions concern primarily crime scene searches, collection and preservation of evidence and scientific aids to crime detection.

Nixon Packs For Trip From Washington

By JACK BELL
WASHINGTON (AP) — Vice President Richard M. Nixon packed today for his departure from Washington with the assurances of GOP colleagues that future national service awaits him.

Nixon was said by aides to be undecided yet on which of several offers he will accept from law firms in California.

The Nixon home in a fashionable Washington residential district is up for sale. Whether his two daughters will remain in school here until June hasn't been decided.

Several of his Republican senatorial colleagues told Nixon Tuesday that though he may be leaving office Friday because of his narrow defeat in the presidential race, they expect him to be back in harness again.

Nixon is regarded as one of the likely contenders for the 1964 Republican presidential nomination. He has indicated he does not plan to run in 1962 for any California office.

Nixon touched off a 75-minute series of tributes—including some from Democrats—when he said goodbye to the Senate Tuesday.

The vice president left behind a gift of two three-minute glass sand timers. He said subsequent presiding officers could juggle them to enforce the three-minute rule on speakers in what the Senate knows as its "morning hour."

Senate Republican Leader Everett M. Dirksen of Illinois praised Nixon as "one of the most distinguished vice presidents of this country."

Nixon sat quietly, twisting a ball of paper in his hand as others joined in tributes.

15-Year-Old Bride Leaves Husband, 65

SAN ANTONIO, Tex. (AP) — Jose M. Moreno, 65, says he and his bride of 15 have separated after 15 days of marriage.

"She called me and told me she wasn't coming back," Moreno said Tuesday night.

He said he came home Friday to find his wife, the former Maria Diana Candia, missing.

Moreno, who owns a small grocery, said the trouble started four days after the Jan. 6 marriage when the bride's father brought his family of nine "temporarily" into Moreno's four-room home.

"Thursday, I asked him to move," Moreno said, "because the house wasn't big enough for us."

Moreno said he thinks the bride's father is "pressuring" her.

The men who pilot tourists over the fast rapids of the jungle rivers of Surinam are said to be the world's most expert canoeists.

Vice Curbing Plan Drafted By Ministers

BEAUMONT (AP)—The Beaumont Ministers' Association Tuesday suggested to the City Council a program to curb vice in this southeast coastal city.

The proposal, delivered by Rabbi Newton Friedman of Temple Emanuel, came on the heels of the formation Monday night of the United Citizens for Law Enforcement Committee, a 24-man group.

The clergymen, representing 35,000 Christian and Jewish citizens, proposed:

1. A periodic written report to the City Council on vice conditions to "determine that our city police are enforcing the laws in regard to . . . previous neglected areas of gambling, liquor violations, narcotics and houses of prostitution."

2. A member of the newly formed United Citizens for Law Enforcement Committee be present at such report meetings to amplify and comment on the written reports with "such information as may come to the committee from citizens in the community."

3. Dismissal of other officials "who have testified to wrong doing before the House General Investigating Committee, or whose illegal activities have been revealed by other agencies."

Rabbi Friedman told the group that "We do not feel that the dismissal of former Police Chief Jim Mulligan is the sole solution to this deeply imbedded corrupt situation."

The Rabbi said the "public hearings indicated at least one other member of the police department was deeply involved, namely Chief of Detectives Jim Stafford."

Mulligan and Stafford testified two weeks ago before the House committee that they were aware of brothels, gambling and open saloons in the city but made no arrests. Mulligan was fired shortly after he suspended Stafford, then withdrew the suspension.

The fastest animal in America is the pronghorn, an antelope with bursts of speed up to 40 or 50 miles an hour.

JFK Regime Needs Breather To Prepare Foreign Policy

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The incoming Kennedy administration needs a foreign policy breathing spell of several months after inauguration to get its policies in shape for major negotiations with the Soviet Union.

Well-informed diplomats believe President-elect John F. Kennedy and his secretary of state-designate, Dean Rusk, will seek to avoid any important new foreign commitments or proposals until next spring or summer.

Meanwhile Kennedy and Rusk will have to deal with crises as they arise. The most urgent of these at present is the civil war in Laos where both the United States and the Soviet Union are involved through aid to the contending factions.

The breathing spell, as the diplomats see it, will be a period of intensive policy review in Washington and probably top-level Allied consultation. There is some speculation that after a period of months Kennedy might be interested in arranging a completely informal, brief, talk with Soviet Premier Khrushchev.

Certainly, it is believed here, Kennedy would want to meet with Allied leaders briefly and informally before any get-together with Khrushchev. There also is speculation that perhaps in the spring he would undertake a flying visit to Europe to see such men as British Prime Minister Harold Macmillan, French President Charles de Gaulle and Chancellor Konrad Adenauer of West Germany.

Kennedy has been in frequent touch with Rusk, whose headquarters are in the State Department. Their conferences are understood to have been primarily concerned with developments in Laos, Cuba, and other trouble spots and with the selection of chief officials for the State Department.

One early move which the experts consider probable is the recall from Moscow of Ambassador Llewellyn Thompson for consultation. Kennedy is sure to be under steady pressure from Khrushchev to say whether he would support the proposed state action for abolition of the poll tax.

Air Mail Letter Makes Rapid Trip

KNOWVILLE, Tenn. (AP) — An air mail letter, posted at 3:15 p.m., Monday in Limerick, Ireland, was delivered here at 2:45 p.m., Tuesday.

Postmaster C. Edwin Graves personally delivered the letter to Mrs. William M. Bigelow after post office employees called his attention to the recent postmark.

Graves said the letter was flown to the United States by a jet airplane and apparently made all the connections at the right time.

Man Injured In Oil Rig Mishap

George Crow of Snyder is in Cogdell Memorial Hospital recovering from injuries received in an oil rig accident near Cuthbert Tuesday.

A separator fell and knocked Crow into some pipe, injuring his back.

Taken to Cogdell by a Bell Funeral Home ambulance, he was given emergency treatment and admitted to the hospital.

No Negligence In Frisco Hotel Fire

SAN FRANCISCO (AP) — No criminal negligence was involved in the Thomas Hotel fire Jan. 6 which took 20 lives, a coroner's jury ruled Tuesday.

Ray Gorman, 61, in whose room the fire started, admitted he had been drinking just before the fire started, but he testified: "I'm on the wagon—for good."

Says Education To Help Integration

HOLLYWOOD (AP) — Education is the route to integration in the South, says novelist Erskine Caldwell, 56, a Southerner.

"We need to school young people in the idea of equal rights for everyone," Caldwell told newsmen Tuesday. "The old ones don't matter. They'll die off anyway."

The Combined Purchasing Power Of Hundreds Of Home Town Dealers Like Phil's Auto Associated With Walter H. Allen Co. Means QUALITY AT LOW PRICES!

BIG SALE STARTS THURSDAY!

Your Opportunity To Take Advantage Of Our Special Buying

PHIL'S AUTO

Is Proud Of It's Association With

Walter H. Allen Co.

We are proud to be a part of the over four hundred stockholders which represent about one thousand Hardware and Auto stores in all parts of Texas, Oklahoma, Arkansas, Louisiana, Missouri, and New Mexico.

One can well imagine how an organization like the Walter H. Allen Company, with their tremendous buying power backed by so many retail hardware stores can bring to the public QUALITY merchandise at competitive prices.

You'll always find the best market provides in home needs and hardware at Phil's, priced as low and in many cases lower than you can find it elsewhere. Yes, indeed, our buying connection with Walter H. Allen Company, makes it possible for our customers here in Snyder to enjoy the privilege of buying their home and hardware needs at competitive prices. Phil's is one of the oldest hardware stores in Snyder and proud to be a stockholder in this large organization.

EACH MONTH

We will mail you a circular listing many outstanding values. Be sure to watch for the many wonderful offerings all at most attractive prices . . .

Our January Early Bird Sale Specials will be in your mail box soon. Watch For Them.

the hardware stock of one of the oldest hardware dealers in Dallas. This quality merchandise was bought at a very big savings . . . a savings that will be passed on to our customers. Visit Phil's often and get your choice of this merchandise as it arrives.

Pictured here is the new Walter H. Allen Company building, located in Brook Hollow, the new industrial area in Dallas, Texas. The building covers approximately sixteen acres and affords over 200,000 square feet of storage space. The land, buildings and equipment represents an outlay of \$1,389,000.00.

Daniel Goes To Bat For Penny Tax On Payrolls

By DAVE CHAPMAN

AUSTIN (AP)—Gov. Price Daniel today urged the one cent payroll tax as the least painful way to provide for the state's growth need of \$36 million new revenue for the next two years.

The governor told a joint session of the Legislature that with retirement of the \$63 million general fund deficit, Texas actually needs \$270 million now to balance the budget and care for continuing state services in the next two years.

Legislators assembled to hear Daniel's first strictly-business recommendations of his third term also studied a Budget Board recommendation for general revenue fund spending of \$356 million in the next fiscal period. The Budget Board's suggestions for spending \$36 million more than now was dropped on the lawmaker's desk overnight while they dined at the inaugural ball.

It is about \$20 million under the governor's original budget suggestions. Daniel recommended a \$600 a year public school teachers pay raise, provision of funds for medical aid to the needy aged, and immediate liquidation of the general fund deficit as an emergency, high priority job for the new Legislature.

The payroll tax, to be shared equally by employers and workers, would be easier to collect, less expensive, and less burdensome on both individuals and business than either a general retail sales tax or a graduated state income tax, Daniel told the lawmakers.

He recommended an alternative to the broadened excise tax plan brought up by his finance advisory commission. "I realize that neither of these proposals will be welcomed with any widespread enthusiasm," Daniel said.

"I have not yet found any tax which has been so received. Usually it is a case of centering on the lesser of two evils, but center on one we must if we are to discharge our responsibilities to our state and our people."

He said the time has come when

a broader based growth tax must be passed to meet Texas' present and future needs.

Daniel suggested that the \$63 million general revenue deficit be rubbed out on an emergency basis to give the state a clean financial slate on which to write a tax bill.

To erase the deficit, he recommended:

1. An additional three per cent tax on the value of natural gas production for one year. Payments on it would be credited on the contested pipeline tax. He estimated this would bring in \$22.5

million to apply on the deficit.

2. Passage of a property-receipts formula for figuring the base of the corporation franchise tax on companies engaged in interstate business. He figured this would bring in \$10 million for the first year.

3. Financing farm-market roads out of a gasoline taxes (highway fund) rather than the general revenue fund, relieving that all-purpose money pool of an annual \$15 million burden. As an alternative he suggested a one cent per gallon increase in the gasoline tax if the extra federal levy expires. It will not, he said, if the states do not show a need for the revenue.

4. Another stab at writing an abandoned property or escheat law by tightening up on enforcement procedures in the existing statute. He said this would produce \$17 million now.

The governor then reviewed his Dec. 15 budget estimates showing a need for \$376,045,734 from the general fund in the next two years.

This he emphasized, is for continuing present services with provisions of "minimum increases" for improvement and growth.

The governor's message was not restricted to finances. He also offered these legislative recommendations:

The Hale-Akin public school improvement report insofar as it can be financed, in addition to the \$200 a year teacher pay raise, including a driver education program.

Enactment of 24 proposals to improve the criminal code and law enforcement; setting up of a juvenile parole supervision plan.

Laws to remove from the highways drivers whose records prove they are unsafe; a chemical test law for intoxication in driving; a new system of traffic courts; 100 additional highway patrolmen.

Legislation to remove the present limitation on state financial assistance of one-third of water project costs; raising the loan ceiling on water projects from \$5 million to \$15 million; liberalize water board investment procedures; constitutional amendment to provide acquisition of conservation storage in reservoirs undertaken by federal or state agencies.

Board reorganization; further study of pollution problems; study of a water use fee system.

Small loan legislation to "carry the interest" of the recession loan shark constitutional amendment.

Fulltime insurance board salaries.

Constitutional revision to modernize and increase its efficiency, plus an equal legal rights provision for women.

Adequate financing for the advertisement Texas program.

Increase in the present \$28 maximum unemployment compensation.

A state radiation control act.

Legislative, congressional and judicial redistricting.

A complete study of reorganization of state government and its agencies.

Protection and development of coastal beaches and submerged lands.

Daniel urged as much speed as possible.

The earlier we arrive at our solutions, especially with regard to taxes, the better they will be received by the people who elected us to do this job," the governor said.

NAVY DEPERMING DOCK BURNS—Navy fire boats go into action in the Cooper River at Charleston S. C., as a Navy deperming dock at the east end of the Charleston Naval Station burns. Several men were injured and six were unaccounted for in the spectacular fire. (AP Wirephoto)

Ike Considers Peace His Top Achievement

WASHINGTON (AP) — President Eisenhower suddenly grinned and said that Nov. 8 was another great disappointment.

As for achievements, Eisenhower declined to give his version of what went wrong in the presidential election which cost the Republican party control of the White House.

But his comments were not completely free from political implications as he gave these replies to the cross-fire of questions.

THE FUTURE — The greatest problem facing President-elect John F. Kennedy when he takes office Friday will be that of dealing with the intransigent and unreasonable attitude of the Communist powers.

The basic difficulty will be in keeping this country strong and firm, and yet conciliatory, in trying to meet the Soviet attitude.

ECONOMIC POLICY — The President slapped at the proposal of Kennedy's economic task force that federal spending be boosted by \$3 billion to \$5 billion to combat recession and unemployment.

Eisenhower said he is no economic prophet, but he believes the economy will be swinging upward gradually but steadily, and will provide more government revenues than it is now generating.

Public works and other spending programs generally don't take effect until 18 months after they are started—by which time the boom usually has begun again, Eisenhower said. But the billions of dollars spent, seem to stay forever in the public debt, he added.

Further exploration of the storm-wrecked tower was held up until "hard hat" deep sea divers could stand by at the openings to assist divers using self-contained breathing units.

The skindivers descended 160 feet to the stricken station, which is apparently resting on the ocean floor at a 45-degree angle.

The Navy Tuesday reluctantly abandoned all hope of finding any of the tower occupants alive. Dead or missing are the 14 Air Force men and 14 civilian workers who were aboard the station when it collapsed Sunday night under pounding seas and gale-force winds.

Rescuers had been spurred by mysterious tapping sounds from the tower, indicating survivors might be trapped in watertight compartments.

"It is now a salvage operation," said Rear Adm. Allen M. Shinn, who directed the fruitless rescue attempt from aboard the aircraft carrier Wasp.

Death Sentence Of Mrs. Morgan Upheld

AUSTIN (AP)—The Court of Criminal Appeals today affirmed the death sentence of Maggie Morgan in the slaying of Mrs. Joseph Selby of Houston.

Mrs. Morgan was found guilty for a part in the pistol slaying of Mrs. Selby in her fashionable home.

The Criminal Appeals Court finding was unanimous, rejecting the claims of the middle aged Negro woman that the evidence in her trial was insufficient to convict.

Patra Mae Bounds, a Negro massage parlor operator, testified in Mrs. Morgan's trial that Mrs. Morgan had masterminded the slaying of Mrs. Selby after Mrs. Selby's husband had hired the Negroes to get rid of his wife.

Selby was sentenced to life imprisonment.

The core of the industrial relations problem in the steel industry, the study says, "is the shrinking work force required to produce enough steel to fill the industry's needs."

BIDDING SCHEDULED ON NEW POST OFFICE HERE

Postmaster Henry D. Moreland said today he has been advised by the Office of Postmaster General Arthur E. Summerfield that the Post Office Department is now asking for bids to build and lease to the department a new building for the Post Office in Snyder. Advertising will be posted from Jan. 20 to March 20, 1961.

Specifications call for a structure containing approximately 7,500 square feet with an outside loading platform and adequate space for parking and truck maneuvering. The proposed building will be located on Twenty-fourth Street and Avenue R.

Moreland said the Post Office Department will enter into a lease agreement with the successful bidder which will run for 10 years, with four consecutive five-year renewal options.

Bids should be submitted, the Postmaster advised to Real Estate Officer V. E. Bell, Post Office Box 1386, Lubbock, Texas. The Real Estate Officer will supply information with regard to bidding forms, building specifications, lease provisions, etc.

CHECKING UP ON THE FLOOD—Three neighborhood children join Harlo McNeel, a resident of the Pierpont Beach community near Vintura, Calif., as he inspects a flooded street where high Pacific waves have flooded and damaged more than 30 homes. The kids' lack of apparel is due, in part, to air temperature in the 80s. (AP Wirephoto)

Texas Skies Mostly Clear

BY THE ASSOCIATED PRESS

Skies continued clear over most of Texas early Wednesday although considerable high cloudiness began to appear in various areas of the state.

Fair and warm weather spread over the state and Texans again experienced an unseasonably pleasant night.

There were no reports of rain Wednesday but fog drifted in the Beaumont area.

Temperatures near dawn ranged from 25 at Lubbock to the upper 50s at Brownsville. Most locations recorded above normal readings.

Maximum temperatures Tuesday ranged from 59 at El Paso to 77 at Brownsville and Laredo. No precipitation was reported.

The Weather Bureau Wednesday issued a long-range forecast calling for temperatures in North Central Texas to average 6 to 11 degrees below normal. The forecast, which extends through Monday, said temperatures will average 2 to 7 degrees below normal in the northwest area of the state and 1 to 3 below normal in South Texas.

Reds Menace Laotian Units

By ROY ESSOYAN

THA THOM, Laos (AP)—Pro-Communist rebels bore down on two key government positions in south central Laos today, and the outnumbered defenders prepared to take to the jungle for guerrilla operations.

"The Reds are coming—there is no question about it," said Maj. Phong Kave, commander of the understrength battalion at Tha Thom.

"We are reverting back to guerrilla warfare," said Col. Kham Khong at Paksane.

Swarming through the jungles, two rebel columns struck out across the narrow waist of this tiny Buddhist kingdom.

The double-barreled attack scattered government forces massing at Paksane, 90 miles northeast of Vientiane, and this forward outpost 40 miles to the north. The rebel advance spelled doom, at least for the present, to

government plans to mount an attack from Paksane and Tha Thom on the rebel-held Plaine des Jarres and Xieng Khouang Province to the north and northeast.

Col. Kham, who was to have led the offensive from Paksane, said his defense forces for the entire area totaled two battalions, half of them in Tha Thom and the other half scattered through the mountains. He had only 70 men in Paksane itself Tuesday.

On the western front government forces were meeting with more success.

The capture of Vang Vieng, on the road to Luang Prabang, the royal seat 140 miles north of Vientiane, cleared the way for a flanking movement against the Plaine des Jarres.

Rebel commander Kong Le offered only token resistance in Vang Vieng. His forces pulled back to guard the plateau, which is the rebel's important air and communications area.

Krush Hurls New Threat Of Treaty With East Germany

By STANLEY JOHNSON

MOSCOW (AP)—Nikita Khrushchev has hurled a new threat to sign a separate peace treaty with the East German Communist regime in a move to end Western occupation of West Berlin.

The Soviet premier says the Big Three powers' position in West Berlin is "especially vulnerable."

Khrushchev's fresh threat was made in a speech delivered to party leaders in Moscow Jan. 4 and published in the current issue of the magazine Kommunist.

His speech constituted an interpretation of the declaration adopted at the Communist party summit conference in Moscow last fall.

Ranging across the field of foreign policy, he divided wars into three classes and said the world Communist movement fully supports those of the third class—"sacred" wars of national liberation. As examples, he cited the Algerian rebellion and Fidel Castro's revolution.

But it is to communism's advantage, he said, to avoid total first class wars of the total ther-

monuclear variety and second-class "brush fire" wars such as the Indochina fighting of 1953-54 and the British-French action in the Suez in 1956. He made no mention of the current fighting in Laos.

The Soviet leader confidently predicted that a victory for world communism "is not far off." He said this could be achieved without war. But he warned that war will come if the capitalist nations try to resist communism's victory—a victory he said is "inevitable" by the laws of historical development.

A prodigious victory over the United States, he said, will be a factor in bringing about the triumph of world communism.

Khrushchev held firmly to previous Soviet policy toward West Berlin and once again denounced what he called "renegade West German militarism."

"The position of the U. S. A., Britain and France has proved to be especially vulnerable in West Berlin," he said. "These powers still try to cling to the old position, but they cannot fail to re-

alize that the occupation regime in that city will end sooner or later.

"It is necessary to continue, step by step, to bring aggressive-minded imperialists to their senses, to compel them to reckon with the real situation. And if they balk, we shall take resolute measures. We shall sign a peace treaty with the (East) German Democratic Republic, for we are fully determined to conclude a German peace treaty, at long last, in order to pull out the thorn that is the occupation regime in West Berlin."

The Soviet premier once more voiced his support for a policy of peaceful coexistence, which he said "facilitates the activities of the Communist party and other progressive organizations of the working class in the capitalist countries."

"The policy of peaceful coexistence," he continued, "is thus, so far as its social content is concerned, a form of intense economic, political and ideological struggle between the proletariat and the aggressive forces of imperialism in the world arena."

"The policy of peaceful coexistence," he continued, "is thus, so far as its social content is concerned, a form of intense economic, political and ideological struggle between the proletariat and the aggressive forces of imperialism in the world arena."

DON J. JOHNSON

Thursday Is Special Day For Flowers

Tomorrow is the day when all women of the area interested in flower arranging will have their day. Don J. Johnson, instructor in Landscape Design and Park Management at Texas Tech will be the highlight of a gathering of women—and men if they are interested—at Lamar Junior High School. Starting at 2 p.m. Mr. Johnson will emphasize the necessity of simple mechanics, choice of containers, interpretations and themes in making beautiful and yet simple arrangements.

Sponsored by the Snyder, Town and Country and Twilight Garden Clubs of Snyder, special invitations have been extended to all area clubs and individuals who care to attend.

WOMEN

The Snyder (Texas) Daily News, Wed., Jan. 18, 1961 3

Central P-TA Chili Supper Friday Night

The Central Parent-Teachers Association will hold a chili supper Friday evening in the school cafeteria. The public is cordially invited and an evening of fun has been planned to follow the supper. It will enable mothers to get out of the kitchen Friday evening and have an evening of entertainment as well as being assured the family will have a good meal. A door prize will be awarded during the evening activities.

Nora Circle Meets With Mrs. Blalock

The Nora Circle of Colonial Hill Baptist Church met at the home of Mrs. Aubrey Blalock recently. The meeting was opened with prayer by Mrs. Newton.

Minutes were read and approved, roll call was answered with scripture.

Discussion was led by Mrs. Blalock on the playlet "Wait A Minute" which will be presented Jan. 28 at Colorado City for the Association WMU meeting.

Refreshments of coffee, punch and doughnuts were served to Mrs. Willard Delis, Darrell Miller, Donnie Leverette, Daryl Heard, Odell Cox, Jimmie Nelson, Billy Bob Hardee, Buford Newton, Aubrey Blalock and Gene McGee.

Say U. S. Makes Most Achievements

By MARSHALL CONERER
DALLAS, Tex. (AP)—Russia's achievements are more spectacular but the United States leads in the knowledge and discoveries that will conquer space, a panel of scientists said Tuesday night.

They called this country's weather and communications satellites, Tiro and Echo, and discovery of the Van Allen radiation belts around the earth tremendous advances in space exploration.

While confident that they can put a man in orbit, they cautioned that much more research is needed before we can travel to the moon or the planets.

This appraisal of the nation's space program was made by Werner von Braun, director of the George C. Marshall Space Flight Center, National Aeronautics and Space Administration; Fred L. Whipple, director of the Smithsonian Astrophysical Observatory; Lt. Gen. Bernard A. Schriever, head of the Air Force Air Research and Development Command; and Rep. Olin Teague, D-Tex., of the House Committee on Space and Astronautics. They appeared on a forum sponsored by the American Astronautical Society and the Dallas Council on World Affairs.

Of Russia's contribution to space knowledge, Whipple said, "If we had only our own data, and not that which Russia has contributed, we would not notice much difference."

Both he and von Braun stressed the need of basic research in such fields as gravity, solar flares, effects of radiation and how to enable man to live and work effectively in space.

To provide more boost power for rockets that will launch deep

space probes, von Braun said a liquid hydrogen engine capable of 1.5 million pound thrust and the Rover project, using liquid hydrogen and an atomic reactor, promise the best results. Both are under development.

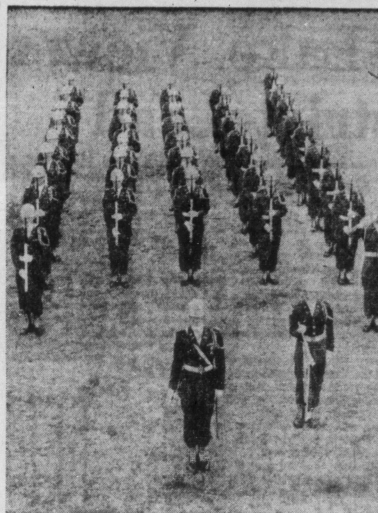

Schriever conceded that Russia has more missiles than the United States but that this country is ahead in developing solid propellant and missiles that are easier to operate and maintain and probably are more reliable.

The panelists frowned on a suggestion that the space program be concentrated under a national science academy.

They felt that an academy could be most useful in coordinating research and experiments through a system of study groups reaching down to the men who do the work.

"I worry about entrenched old men with too much power," said Whipple. "I am convinced that the best ideas come up from the bottom and not from the men at the top."

In this respect Schriever said he is confident that the National Space Council under Vice President-elect Lyndon B. Johnson will provide the high policy decisions and guidance the space program needs.

Area Cadets Going To Inauguration

Tarleton State College's Wainwright Rifles, a precision march and drill team, has been chosen as one of six units from the state of Texas to take part in the inaugural parade of Friday in Washington.

Forty Tarleton cadets will march in the 2 1/2 mile parade. Their unit was one of some 300 organizations making application to appear in the parade, with the other participating Texas groups chosen being the Texas A & M College Band, the University of Texas Longhorn Band Southwest Texas State Teachers College Band (San Marcos), Nederland High School Band, and the Fisher County Mounted Sheriff's Posse.

Two area cadets will be among the Wainwright Rifles organization which will perform in the colorful inaugural ceremonies. They are: Cadet Major "Bo" Brown, son of Mr. and Mrs. H. P. Brown, son of 2900 Avenue U, and Cadet Captain Bobby Stewart, son of Mr. and Mrs. S. P. Stewart of Gall.

Katydid Reveal Regional Accents

BY THE ASSOCIATED PRESS
Science this week looks at katydids with accents; sailing in space, and a mystery about forest and prairie fires.

Animal Talk
A new long-playing record for scientists has been tuned in on katydids with Northern and Southern accents: toadfish growling when an intruder comes along; the grunt of a grouper fish, and the trill of a tree frog, plus many other attractions.

The record and a book, "Animal Sounds and Communications," issued by the American Institute of Biological Sciences, are the latest aid in research to understand how animals and insects really communicate. Their talk concerns mating, availability of food, danger warnings, and other signals.

Sailing in Space
The pressure of sunlight affects the orbit of Echo I, the big balloon satellite launched to explore future means of communications. This fact confirms the feasibility of another idea: that a satellite could be equipped with a huge sail, made of similar aluminized fabric, so it could be maneuvered by sunlight pressure much like an ordinary sailboat responds to wind pressure, report scientists of the Los Alamos Scientific Laboratory.

Earlier, they had worked out means of keeping a sail open and maneuvering it in relation to the sun and gravitational forces, acting on an idea advanced by Dr. Richard L. Garwin of Columbia University.

Housewife's Tip
Scientists were looking for some method of storing uranium in small, water-tight containers with lock-on lids.

The containers had to be small and water-tight. Too much uranium in one pot could create dan-

gers and they should not ever spill.

A housewife-employee solved their problem, suggesting they use a type of pressure cooker, says a release from the Aerojet-General Corp.'s nuclear plant, Azusa, Calif.

Fire Effects
Forest and prairie fires cause intense heat, as everyone knows. But the temperature an inch or so below the surface of the ground can be changed very little, or not at all, University of Wisconsin botanists report from studies using special thermometers.

This explains why seeds existing just below the surface can be little affected, and then take over in the re-growth after a fire. The knowledge can be helpful in intentional burning and control of various areas to promote game preserves for forms of wildlife, by encouraging the kind of plants and cover they prefer, say Richard Vogl and Prof. John T. Curtis.

June Allyson Set To File For Divorce

SANTA MONICA, Calif. (AP)—Producer Dick Powell reportedly is agreeable to a \$2.5-million property settlement and his actress-wife, June Allyson, is suing him for divorce—alleging mental cruelty.

The suit was filed Tuesday by attorney Jerry Giesler, who said property settlement papers were signed last Dec. 30 in Europe. Powell said in London he is flying home. He is not contesting the divorce.

The couple's separation was announced last month by Giesler. They have been married 15 years. They separated in 1957 but were reconciled within 30 days. Powell is 56, Miss Allyson 37.

Installation Set For Sons Of Hermann

Fritz Schilo, San Antonio, grand president of the 52,000-member Sons of Hermann fraternal order, will serve as the installing officer at the installation of officers of nine West Texas Sons of Hermann lodges in Snyder Sunday, Jan. 22, at 2 p.m.

The ceremony is set for the Village Restaurant in Snyder.

Assisting Schilo will be two other San Antonians, E. H. (Ike) Niemeyer, special grand lodge representative, and M. O. Gold, grand lodge district supervisor.

Officers of the following lodges will be installed for 1961: Lubbock Lodge No. 16, Lubbock; Odessa Lodge No. 38, Odessa; San Angelo Lodge No. 177, San Angelo; Rowena Lodge No. 216, Rowena; Brazos Lodge No. 228, Old Glory, Tex.; Paint Creek Lodge No. 241, Haskell; Roland Lodge No. 286, Hermleigh; Roscoe Lodge No. 257, Roscoe; and Pep Lodge No. 311, Pep, Tex.

The Old Glory lodge will serve as host group. The Sons of Hermann has a youth summer camp for its junior members and a home for the aged, both at Comfort, Tex. Home offices of the big Texas fraternal order are in San Antonio.

Float Will Depict Johnson's Career

WASHINGTON (AP)—Vice President-elect Lyndon Johnson's career will be depicted Friday in Texas' float in the inaugural parade.

The float's theme, "From the Lone Star to the Stars of Space," will portray transitions from the old frontiers of the ranch country where Johnson was born to the space age.

The Texas State Society of Washington will sponsor the float. Three Texas beauties will ride on the float with its huge world-revolving in space and circled by space ships and stars. The beauties will be Miss Martha Miller, daughter of Mr. and Mrs. Dale Miller of Dallas; Catherine Cabell, daughter of Gen. C. P. Cabell, and Susan Rogers, daughter of Rep. Walter Rogers, Democrat of Pampa, Tex., and Mrs. Rogers.

\$2-Million Embezzlement Shakes Up Town In Iowa

By WILLIAM E. EBERLINE
SHELTON, Iowa (AP)—The economy of this small town in northwest Iowa was in a state of confusion today as the result of a \$2-million embezzlement from the Sheldon National Bank.

There were payrolls to be met, outstanding checks that seemed sure to encounter trouble, citizens without funds and local business records in financial disarray.

In jail, beyond the reach of persons seeking public answers to the questions of how and why it all happened, was Bernice Geiger, 58, daughter of the bank president. The U.S. district attorney's office in Sioux City said Mrs. Geiger—a director and assistant cashier of the bank—admitted the embezzlement. A prominent citizen, she was known for her char-

itable works. Her father, W.P. Iverson, 83, president of the bank for 45 years, could only say: "I'm all choked up."

The bank was closed for liquidation by the Federal Deposit Insurance Corp. after a routine audit by federal bank examiners turned up the shortage Monday night.

Officials of the FDIC were checking the records of deposits which were insured up to \$10,000 each. The bank's last statement on Dec. 31 listed total assets at \$1,995,000. The embezzlements were estimated at \$2,126,859.

The sentiments among business men was summarized by the comment of one: "We've heard the boom, now we're waiting for the echo."

The manager of a big soybean processing company which distributes products in the Midwest said that his company has "outstanding checks all over the country."

The only financial institution remaining in Sheldon, the Security State Bank, was deluged with requests for aid in solving money needs.

Townpeople had great difficulty believing Mrs. Geiger embezzled the bank funds. Many whom she had personally aided refused to credit the report.

Mrs. Geiger was held at Sioux City on a charge of embezzlement for a grand jury set to convene there Jan. 30. She waived a hearing and did not immediately make bail set at \$10,000.

Snyder Shells Lake View; Bolts Into District Lead

SAN ANGELO—Steve Free, pep-py Snyder Tiger guard, sunk a pair of free throws with a minute to play last night, then followed it up by taking a pass from teammate Eddie Fy and banked in a two-point shot in close to boost his team over the 80-point mark and into an 81-36 district victory over outclassed San Angelo Lake View.

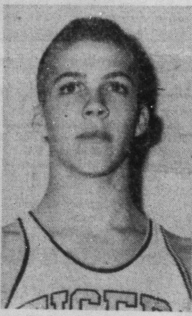

It was the second conference victory without loss for the Bengals of Coach J. P. Ward, and represented the highest point total of the season as marked up by the team. The previous high of 73 was realized in the final non-district tilt of the season against Big Spring, as Snyder won out by 73-49.

The win shot the Tigers into the district lead with a 2-0 mark, and plummeted the losers into a tie for the cellar slot with Colorado City, which was bombed by Lamesa, 90-46, in other action last night. It was Lamesa's first district outing, and placed them in a tie for second with Sweetwater at 1-1. The Tigers travel to Sweetwater Friday for a game which could go a long way towards determining the eventual 3-A outcome.

The "B" team, paced by up 20-point outburst of Larry McNair, also came through to victory, rolling to a 50-50 triumph.

Snyder was never behind or even in any real danger throughout last night's contest, although the Chiefs came alive to play them on fairly even terms early in the second quarter to close the gap to 26-11 after the Tigers had moved out to a 14-4 first stanza lead.

Charlie Gladson scored on a tip-in with only 30 seconds gone in the

FREE
Free Throw Wizard

game to put Snyder into a 2-0 lead, which it held throughout the game. Weldon Ware, who was top Tiger in the scoring department with 21 for the evening, followed up shortly by pushing one in from the

side from 20 feet out, then gathered in a pass from Bubba Fleming and fast-broke for another bucket to up the count to 6-0 before a free throw broke the scoring ice for the Chiefs and brought the count to 6-1.

The Trojans went into the game without the services of starter Jimmy Dan Robinson, who has been sick and wasn't able to make the trip. However, he is back in school today and should be ready for full-time action Friday against Sweetwater.

Every Bengal squadman other than the scoring column, with Free following Ware in scoring with 11 and Gladson being only a point behind with 10. Free had a perfect night at the free throw line once again, sinking 3 of 5, while Mike Hale collected 5 of 6. The last Tiger outing against Colorado City saw Free canning another perfect 4 for 4 in that area. As a team, Snyder dropped off slightly from previous performances free throw-wise, however, making good on 23 of 40, for an average of 57 per cent. The Chiefs were ice cold with only 8 of 21, or 38 per cent.

SPORTS

The Snyder (Texas) Daily News, Wed., Jan. 18, 1961

Franchise At Houston Is Purchased

HOUSTON, Tex. (AP)—The Houston Sports Association bought the American Association franchise here Tuesday night—clearing the biggest obstacle between Houston and major league baseball.

An official of HSA said a big factor in the purchase was an agreement between the Minneapolis-St. Paul entry in the American League and the American Association.

The official, who asked his name not be used, said the estimated \$100,000 indemnity the Houston Buffs get from Minneapolis-St. Paul owner Calvin Griffith's payment to the league helped sway the Buffs into selling its franchise to the HSA.

The HSA holds a National League franchise for Houston in 1962.

The purchase price was not disclosed, but estimates put it near \$100,000.

The HSA made what it called a final offer of \$362,500 last Oct. 21, after almost two years' of dickering. W. H. (Bill) Hopkins, president of the Buffs, turned it down and demanded \$600,000. The team lost \$180,000 in 1960 and \$135,000 in 1959.

A week ago the agreement between Griffith and the minor league was announced.

The HSA bought the Buffs' American Association franchise and will operate the Class AAA team in 1961. The group also bought the two players the Buffs own, the physical equipment of the team and the equity in the American Association.

The HSA still must satisfy the American Association, but that isn't regarded as a major problem now because the HSA will have a vote on any indemnity as a league member.

The only other problem facing the HSA now is where the unnamed team will play.

Harris County has set a second bond election for Jan. 31 to seek approval from voters to build the stadium with \$22 million tax-backed bonds.

The 18th spot will be decided today in a sudden death playoff between 11 golfers who dead-locked at 75.

GAIL—First round firing in the Gail Invitational Cage Tournament will unfold here Thursday, when the Southland and Gerard girls meet at 3 p. m.

Other Thursday games include those of the Southland and Gerard girls at 4:15, the Klondike and Loop girls at 5:30, the Klondike and Loop boys at 6:45, the Dawson and Gail girls at 8:15, and the Dawson and Gail boys at 9:15.

Additional first round action slated for Friday will see the Wilson and Lorenzo girls clashing at 3 o'clock and the Wilson and Gail "B" boys locking horns at 4:15.

The tourney will last through Saturday, with finals slated for Saturday night.

BANQUET SPEAKER — J. T. King, who is embarking on his first year as head coach at Texas Tech following the resignation of DeWitt Weaver, will be the featured speaker here Thursday night for the annual Snyder Quarterback Club Banquet. The yearly fee honors all athletes within the local school system, and tickets for it may be purchased from Club members for \$1.50.

Lincoln Raps Angelo, 59-33

The Trojans of Lincoln High won their sixth game in 10 during last night, as they rocked San Angelo by a 59-33 tab.

The Lincoln "B" team also posted a victory, winning its preliminary encounter by 40-20.

Joe Phillips, with 25 points was the big man in the Lincoln attack, while Ronald Green tended to the bulk of the remainder of the barrage with 19. Randolph Williams and Linwood Durst each chipped in 4. Tommy Davis 3, and Buford Thompson and Raymond Johnson 2 apiece to complete the local point-making.

Angelo's Jackie Coleman was high for his team with 1. Spurring the "B" team to victory was Bonnie McLaughlin and his 14 points. Durst had 9 in that one, Kenneth McClain 6, John Austin 7, and Lonzell Brown 4 in other Lincoln scoring.

Woodson To Instruct

DALLAS (AP)—Warren Woodson of New Mexico State will be one of the coaches who will instruct at the annual Coach of the Year Football Clinic here Feb. 24-25.

Others who will lecture will be Bud Wilkinson, Oklahoma; Duffy Daugherty, Michigan State; Murray Warmath, Minnesota; Frank Broyles, Arkansas; and Chuck Moser, Abilene, Tex., high school athletic director.

ON WINNING NOTE—Hermleigh's girls upped their district won-lost record at 2-2 last night with a 38-24 nipping of Loraine. Composing the team, from left to right, front row: Ramona May, Neil Hudgins, Kay Glass, Dianne Holdridge, and manager Carolyn Clift. Included in the back row are Marianne Reeves, Helen Stirl, Wanda Hudgins, Judy Etheridge, Linda Dardin, and Sue Wilcox. (Photo by Jackson)

Between You And Me

BY JERRY JACKSON

Nomination for the Most Miserable of Mortals: Bob Cole.

Now, this has nothing to do with his recent marital merger of late last month, in which he and one Ann Heinen "took the leap," as Miss Heinen is a most charming young lady. Goodness knows, it's during times such as these that a fellow needs an understanding frau on whom to lean and tell his troubles. For it is times such as these, dear readers, that try men's souls.

The trouble arose Monday night during league bowling play. Cole, bespectacled and crew-cut, started his first line like unto a house afire. Spare, strike, spare, and then a pesky split. Split the following frame, too. Visibly shaken, but still undaunted, he tried again. Rabbit ears. He shuffled back to the bench disconsolately. The third time definitely was not the charm.

The fourth attempt also ended in failure, as still another split struck back at him. By this time he was muttering to himself. The fifth in a row wasn't completely unexpected, and he returned with an empty half-smile.

As he stepped up to go for number six the overall mood had changed from one of sympathy to one of encouragement. All were silently and secretly rooting for him to keep up the bad work, with the thought being that some sort record must surely be in the making, and that it couldn't happen to a nicer guy. But the bubble burst at that point, as he ended the string by leaving the 6-10, which is "easy pickins" and, of course, not a split.

Five splits in succession (and no pick-ups) may not be a record. But it's above (or below) average, without a doubt. A matter of perspective.

Mallotons Mischief?

Persistent rumors have been floating around to the effect that Tiger coach John Conley just might be headed for the top post at the new Midland High School which is presently in the construction stages.

Seems that some editorial gossip-bodies just might be on the prowl. The question as to the feasibility of the assumption was posed, and he spilled the whole business with, "You know as much as I do about it. The first I heard about it," he confided, "is when I read it in the paper myself."

Seems that some editorial gossip-bodies just might be on the prowl. The question as to the feasibility of the assumption was posed, and he spilled the whole business with, "You know as much as I do about it. The first I heard about it," he confided, "is when I read it in the paper myself."

Ira And Hermleigh In District Wins

The Ira Bulldogs and Bulldogettes both continued their onslaught on District 92-B opponents in action of last night, as the boys bopped Hobbs, 71-48, and the girls won by 50-40. The Westbrook Wildcats kept pace by winning a pair, also, with the boys coming through to smash Fluvanna by 70-24 and the girls slipping by the Fluvanna ferns, 62-60.

The Hermleigh Cardinals, paced by the shooting of Ken Bell and Wallace Wall, who had 18 and 13, respectively, roared to a 64-29 victory over Loraine's Bulldogs in still other action. Marianne Reeves poured in 16 points in the girls game to lead her teammates to a 38-24 victory to complete the sweep of the evening for Hermleigh.

Tommy Sterling led Ira to its victory with 24 points, while Hobbs' Ruben Majares had 23.

Lena Farmer meshed 18 for the victorious Ira girls in its victory. Rabbits ears. He shuffled back to the bench disconsolately. The third time definitely was not the charm.

The fourth attempt also ended in failure, as still another split struck back at him. By this time he was muttering to himself. The fifth in a row wasn't completely unexpected, and he returned with an empty half-smile.

As he stepped up to go for number six the overall mood had changed from one of sympathy to one of encouragement. All were silently and secretly rooting for him to keep up the bad work, with the thought being that some sort record must surely be in the making, and that it couldn't happen to a nicer guy. PTA Congress Picks Four New Chairmen

AUSTIN (AP)—Four new state chairmen were elected Tuesday by the managers board of the Texas Congress of Parents and Teachers.

They are Mrs. James Lewis, Pampa, civil defense; Mrs. J. C. McLaughlin, Bryan, health; Mrs. Angus McDonald, Austin, publications; and R. H. McKay, Dallas, workshop.

The board also approved the establishment of four scholarships to be set up each year for young men and women to enter college seeking a degree in teaching.

The 1962 convention will be held in Fort Worth and the board selected Galveston as the site for the 1963 meeting. A summer workshop will be held in Austin, June 5-9.

Gail Tourney Beginning Tomorrow

GAIL—First round firing in the Gail Invitational Cage Tournament will unfold here Thursday, when the Southland and Gerard girls meet at 3 p. m.

Other Thursday games include those of the Southland and Gerard girls at 4:15, the Klondike and Loop girls at 5:30, the Klondike and Loop boys at 6:45, the Dawson and Gail girls at 8:15, and the Dawson and Gail boys at 9:15.

Additional first round action slated for Friday will see the Wilson and Lorenzo girls clashing at 3 o'clock and the Wilson and Gail "B" boys locking horns at 4:15.

The tourney will last through Saturday, with finals slated for Saturday night.

Golfer Arnold Palmer broke all single season money-earning marks in 1960 by collecting \$75,282 in official PGA events.

Braulte Baeza led stakes winning jockeys during the 1960 racing season in Chicago. He captured five stakes.

West Romps To Big Win

SYRACUSE, N.Y. (AP)—Oscar Robertson neatly summed up in four little words today the West's record-breaking victory over the East in the National Basketball Association all-star game.

"We beat 'em good," said Cincinnati's "Big O," voted the most valuable player in Tuesday night's dream game in the War Memorial Auditorium. The West, a 6-point underdog, won 153-131.

Robertson scored 23 points and hit a record 14 assists. Bob Pettit and Clyde Lovellette, both of St. Louis, and Elgin Baylor of Los Angeles, also starred for the winners.

All four pitched in during a furious assault that carried the Westerners to a 47-19 lead at the first-quarter mark. The closest the East came after that was 14 points, 131-117, midway in the fourth quarter.

The usual high-scoring Wilt Chamberlain and Bob Cousy were held far below their average. Philadelphia's Chamberlain had only 12 points. Cousy, the veteran Boston forward, had only four.

Junior Editors Quiz on HORSES

QUESTION: What do Shetland ponies and Shetland cattle have in common?

ANSWER: Ponies are small horses, and Shetland ponies are among the smallest of them all. A Shetland may stand only three feet high and weigh only 300 pounds. Shetland ponies have shaggy coats. They are very gentle, intelligent, and make very good companions for children. They can be ridden or harnessed to a small cart. The Shetland pony gets its name from its original home, the Shetland Islands. These islands belong to Great Britain. They are located in the Atlantic Ocean, about 50 miles northeast of Scotland and 210 miles west of Norway. There are about a hundred islands in the group, but only about 30 of them have people living on them. Besides the small ponies, the islands also have unusually small breeds of cattle and their own breed of sheep. People who live in the Shetland Islands fish and raise cattle, sheep and ponies.

FOR YOU TO DO: Visit the horse barns during the next county or state fair in your area, and see the ponies. Or perhaps there is a pony farm nearby that you can visit. Maybe you will see a Shetland pony there.

Jimmy Jackson of Rock Hill, S.C., wins \$10 for this question. Mail your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will choose the winner. 1-18

Rooney's No. 5 Tells Of Threats By No. 4

SANTA MONICA, Calif. (AP)—Wife No. 5 claims that wife No. 4 used threats to force Mickey Rooney into a support agreement. The actor's present wife, Barbara, in an affidavit filed Tuesday, said Rooney agreed to pay \$1,500 monthly to Elaine Mahkne Rooney—wife No. 4—only after Elaine threatened to destroy Barbara's good name and Mickey's career.

Elaine has sued Rooney for \$36,432 she says he owes in back support installments. Rooney has counter-sued, asking Elaine to show cause why his payments should not be reduced to \$150 monthly.

COURSE OF STUDY—Manning C. Clements, special agent of the FBI, points to an outline of the course of study for a three-day law enforcement school now in progress at the Snyder Police Dept. Police Chief T. L. Steele looks on as Clements makes a point. The school represents one of the services offered local and regional law enforcement agencies by the FBI at no cost to local citizens.

Law Enforcement School Underway

A three-day school on law enforcement is being conducted by the Federal Bureau of Investigation for the Snyder Police Department.

Police Chief T. L. Steele said the school will be concluded Thursday.

The instructor is Manning C. Clements, special agent of the Dallas Division of the FBI.

Instruction and discussions concern primarily crime scene searches, collection and preservation of evidence and scientific aids to crime detection.

The FBI conducts several hundred schools annually throughout the nation at the request of city, county and state law enforcement agencies.

"Assistance in law enforcement schools is one of the services of the FBI by which we can repay in part the excellent cooperation extended by other agencies to us," said Clements.

Other services include FBI laboratory examinations, testimony of expert witnesses in criminal trials, and the FBI Identification Division, which now includes 160,000-000 fingerprint cards, all at no cost to local and state police agencies.

Clements is a veteran of 20 years of service in the FBI. A native of Texas, he has served in numerous field divisions throughout the United States and the Washington, D. C., headquarters of the FBI prior to the assignment to the Dallas Division.

The schools such as the one being held here are conducted at no cost to local citizens.

Nixon Packs For Trip From Washington

By JACK BELL
WASHINGTON (AP) — Vice President Richard M. Nixon packed today for his departure from Washington with the assurance of GOP colleagues that future national service awaits him.

Nixon was said by aides to be undecided yet on which of several offers he will accept from law firms in California.

The Nixon home in a fashionable Washington residential district is up for sale. Whether his two daughters will remain in school here until June hasn't been decided.

Several of his Republican senatorial colleagues told Nixon Tuesday that though he may be leaving office Friday because of his narrow defeat in the presidential race, they expect him to be back in harness again.

Nixon is regarded as one of the likely contenders for the 1964 Republican presidential nomination. He has indicated he does not plan to run in 1962 for any California office.

Nixon touched off a 75-minute series of tributes—including some from Democrats—when he said goodbye to the Senate Tuesday.

The vice president left behind a gift of two three-minute glass sand timers. He said subsequent presiding officers could juggle them to enforce the three-minute rule on speakers in what the Senate knows as its "morning hour."

Senate Republican Leader Everett M. Dirksen of Illinois praised Nixon as "one of the most distinguished vice presidents of this country."

Nixon sat quietly, twisting a ball of paper in his hand as others joined in tributes.

15-Year-Old Bride Leaves Husband, 65
SAN ANTONIO, Tex. (AP) — Jose M. Moreno, 65, says he and his bride of 15 have separated after 12 days of marriage.

"She called me and told me she wasn't coming back," Moreno said Tuesday night.

He said he came home Friday to find his wife, the former Maria Diana Corda, missing.

Moreno, who owns a small grocery, said the trouble started four days after the Jan. 6 marriage when the bride's father brought his family of nine "temporarily" into Moreno's four-room home.

"Thursday, I asked him to move," Moreno said, "because the house wasn't big enough for us." Moreno said he thinks the bride's father is "pressuring" her.

The men who pilot tourists over the fast rapids of the jungle rivers of Surinam are said to be the world's most expert canoeists.

Vice Curbing Plan Drafted By Ministers

BEAUMONT (AP)—The Beaumont Ministers' Association Tuesday suggested to the City Council a program to curb vice in this southeast coastal city.

The proposal, delivered by Rabbi Newton Friedman of Temple Emanuel, came on the heels of the formation Monday night of the United Citizens for Law Enforcement Committee, a 24-man group.

The clergymen, representing 35,000 Christian and Jewish citizens, proposed:

1. A periodic written report to the City Council on vice conditions to "determine that our city police are enforcing the laws in regard to . . . previous neglected areas of gambling, liquor violations, narcotics and houses of prostitution."
2. A member of the newly formed United Citizens for Law Enforcement Committee be present at such report meetings to amplify and comment on the written reports with "such information as may come to the committee from citizens in the community."
3. Dismissal of other officials "who have testified to wrong doing before the House General Investigating Committee, or whose illegal activities have been revealed by other agencies."

Rabbi Friedman told the group that "We do not feel that the dismissal of former Police Chief Jim Mulligan is the sole solution to this deeply imbedded corrupt situation."

The Rabbi said the "public hearings indicated at least one other member of the police department was deeply involved, namely Chief of Detectives Jim Stafford."

Mulligan and Stafford testified two weeks ago above the House committee that they were aware of brothels, gambling and open saloons in the city but made no arrests. Mulligan was fired shortly after he suspended Stafford, then withdrew the suspension.

The fastest animal in America is the porcupine, an antelope with bursts of speed up to 40 or 50 miles an hour.

JFK Regime Needs Breather To Prepare Foreign Policy

By JOHN M. HIGHTOWER
WASHINGTON (AP) — The incoming Kennedy administration needs a foreign policy breathing spell of several months after inauguration to get its policies in shape for major negotiations with the Soviet Union.

Well-informed diplomats believe President-elect John F. Kennedy and his secretary of state-designate, Dean Rusk, will seek to avoid any important new foreign commitments or proposals until next spring or summer.

Meanwhile Kennedy and Rusk will have to deal with crises as they arise. The most urgent of these at present is the civil war in Laos where both the United States and the Soviet Union are involved through aid to the contending factions.

The breathing spell, as the diplomats see it, will be a period of intensive policy review in Washington and probably top-level Allied consultation. There is some speculation that after a period of months Kennedy might be interested in arranging a completely informal, "brain" talk with Soviet Premier Khrushchev.

Certainly, it is believed here, Kennedy would want to meet with Allied leaders briefly and informally before any get-together with Khrushchev. There also is speculation that perhaps in the spring he would undertake a flying visit to Europe to see such men as British Prime Minister Harold Macmillan, French President Charles de Gaulle and Chancellor Konrad Adenauer of West Germany.

Kennedy has been in frequent touch with Rusk, whose headquarters are in the State Department. Their conferences are understood to have been primarily concerned with developments in Laos, Cuba, and other trouble spots and with the selection of chief officials for the State Department.

One early move which the experts consider probable is the recall from Moscow of Ambassador Llewellyn Thompson for consultation. Kennedy is sure to be under steady pressure from Khrushchev to say whether he would eventually be willing to have a summit conference.

His inauguration speech Friday and his first news conference next Wednesday will be carefully examined abroad not only in the Soviet Union but in Allied and neutral countries for indications of his intentions.

While Khrushchev has made a number of statements since November asserting a desire for better relations with the United States since President Eisenhower has left the White House, officials here see no basis at all for believing that he is planning to make concessions in the interest of East-West agreements.

Man Injured In Oil Rig Mishap
George Crow of Snyder is in Cogdell Memorial Hospital recovering from injuries received in an oil rig accident near Cuthbert Tuesday.

A separator fell and knocked Crow into some pipe, injuring his back.

Taken to Cogdell by a Bell Funeral Home ambulance, he was given emergency treatment and admitted to the hospital.

No Negligence In Frisco Hotel Fire
SAN FRANCISCO (AP) — No criminal negligence was involved in the Thomas Hotel fire Jan. 6 which took 20 lives, a coroner's jury ruled Tuesday.

Ray Gorman, 61, in whose room the fire started, admitted he had been drinking just before the fire started, but he testified: "I'm on the wagon—for good."

Says Education To Help Integration

HOLLYWOOD (AP) — Education is the route to integration in the South, says novelist Erskine Caldwell, 56, a Southerner.

"We need to school young people in the idea of equal rights for everyone," Caldwell told newsmen Tuesday. "The old ones don't matter. They'll die off anyway."
