PUBLIC-WORKS PROGRAM TO CONGRESS

Akron Loss Laid To "Error In Judgment"

NAVY PROGRAM WILL START

PLAN TO BE CARRIED ON UNTIL SOME NEW AGREEMENT MADE

(By The Associated Press)

WASHINGTON, May 17.—The naval building program advanced as a means of increasing employment probably will be started and carried on until such a time as new treaty agreements may be reached.

This was indicated today when it was disclosed that the administration's public works-industrial control bill contains provision for a maximum of $100,000,000 for naval construction.

Navies Not Mentioned

The navy champions in congress who contend that the United States fleet will not be brought up to existing treaty limits even with a three-year building program, were quick to note that President Roosevelt's call for world disarmament did not mention navies or ships.

Chairman Vinson of the house naval committee said he expected the administration to go ahead with its ship construction plans and if an agreement were reached at the Geneva conference to reduce the size of fleets even more, the construction could be halted.

The building program under discussion involves expenditure of $200,000,000 over a three-year period. Big navy men pointed out that his program did not include the 10,000-ton 8-inch gun cruisers generally regarded as offensive weapons.

The ships to be built as soon as possible would include 16 destroyers of 1,500 tons, four of 1,850 tons, submarines of 1,150 tons, 4 6-inch gun cruisers of 10,000 tons, 2 aircraft carriers of 20,000 tons and 2 gunboats of 2,000 tons.

Reorganization Is Aim Of Roosevelt

WASHINGTON, May 17 (AP)—A plan for sweeping reorganization of the government was said today by Lewis W. Douglas, director of the budget, to be contemplated as one of the major messages which President Roosevelt will transmit to congress before adjournment.

It was indicated that not later than next week the far-reaching design for abandonment, shifting and merging of functions, intended to save several hundred millions of dollars in the next fiscal year, would be ready.

- GAS TAX BILL SIGNED

AUSTIN, May 17. (AP)—Governor Miriam A. Ferguson today signed a bill to reappropriate one cent of the state gasoline tax during the next biennium to assume the indebtedness of counties and road districts on state highways.

FRANK McCORD IS NOT CONDEMNED BY NAVY BOARD OF INQUIRY

(By The Associated Press)

WASHINGTON, May 17.—A naval board of inquiry reported today that an "error in judgment" on the part of Commander Frank C. McCord "was a contributory cause" of the loss of the airship Akron.

The report, which was approved in substance by Secretary Swanson, did not condemn the commander who lost his life in the disaster last April 4 along with 72 others.

Little Direct Knowledge

The court explained it had but little "direct knowledge of the considerations" upon which the commander's judgment was based.

"Everything within the knowledge of Commander McCord at the time his decision was made," the report added, "might have pointed to his plan of action being justifiable.

"Certainly we know that many conflicting considerations had to be set one against the other, and what subsequent events show to have been an erroneous decision does not, in the opinion of the court, justify a condemnation without more information of the considerations upon which the plan of action was based. This information was lost with the ship."

"No Further Action"

The court recommended that "no further proceedings be had in the matter."

"The court is of the opinion," it said concerning McCord, "that at about 10 p. m., when the commanding officer observed the weather map which showed a secondary cyclone centered in the vicinity of Washington, D. C., coupled with the previous report of a thunderstorm in that vicinity at 7 p. m., and that since about 8:30 p. m., lightning had been observed to the southward and westward, which lightning approached closer to the ship, the commanding officer committed an error in judgment in not setting such courses as would have kept him in the safe semi-circle thereby probably avoiding the severe conditions finally encountered, and that this error in judgment was a contributary cause of the loss of the Akron."

Hearing Ended On State Income Tax

AUSTIN, May 17 (AP)—The Texas senate state affairs committee today had concluded its public hearing on a house bill to levy a state income tax. The committee will hold its next meeting tomorrow night.

Immediately after the hearing was finished, Senator Ben G. O'Neal of Wichita Falls moved that action be posted until Thursday night so that he might have an opportunity to speak on the bill.

Senator T. J. Holbrook of Galveston made a substitute motion that the senate vote on the bill immediately and give it an adverse report. His motion was defeated after avowed opponents of the proposal had expressed willingness to accede to Senator O'Neal's request.

Texas May Relief Allotment On Way

AUSTIN, May 17 (AP)—Texas' May allotment for unemployment relief work was expected here today in the form of $968,787, furnished by the federal government after the legislature had submitted a $20,000,000 bond issue, proceeds of which would be used for assisting the destitute.

Lawrence Westbrook, director of the Texas Rehabilitation and Relief commission, announced he had been notified that the Texas money had been dispatched by airplane and should be received tonight.

PRAYER MEETING TONIGHT

AUTHORITY TO LAUNCH PLAN REQUESTED

SOLONS ARE ASKED TO FIND NEW TAXES TO UNDERWRITE WORK

(By The Associated Press)

WASHINGTON, May 17.—President Roosevelt sent his all inclusive public-works industrial supervision program today to a congress where his huge Democratic majorities were planning expeditious action.

Requesting full executive authority to inaugurate a $3,300,000,000 public construction program, he asked the legislators to decide before early next week on new taxes to underwrite this project.

Many Recommend Levies

If a decision is not reached by that time, he will submit his own recommendations for levies.

Mr. Roosevelt also asked authority to reduce or eliminate the new taxes, should prohibition repeal become effective or increasing revenues make them unnecessary.

Calling attention to the repeal amendment before the states, Roosevelt said in event it is adopted:

"The pre-prohibition revenue laws would then automatically go into effect and yield enough wholly to eliminate these temporary re-employment taxes."

Recommending government cooperation with industry he said the purpose is to "obtain wide rediscount, to shorten the working week, to pay a decent wage for the shorter week and to prevent unfair competition and disastrous overproduction."

EVIDENCE WOVEN ABOUT MITCHELL

NEW YORK, May 17 (AP)—Government files and archives of the mighty banking house of J. P. Morgan and Company were opened to public gaze today in the government's effort to prove that Charles E. Mitchell, forman chairman of the National City bank, evaded tax on income of more than $4,000,000 by sham and deceit.

Frederick Sommer, a deputy collector of internal revenue, identified Mitchell's tax returns for 1929 and 1930 and they were introduced in evidence. Of those returns Mitchell showed losses through the sale of securities which he claimed exempted him from tax payments. The government charges that those sales, one to his wife and one to W. D. Thornton, president of the Greene Cananea Copper company, were fake transactions entered into with the sole purpose of cheating the government of its due.

Wyoming Votes Six To One For Repeal

CHEYENNE, Wyo., May 17. (AP)—Wyoming has voted 6 to 1 in favor of ratification of a congressional resolution repealing the 18th amendment.

Precinct conventions elected to county conventions 456 delegates favoring repeal to 76 pledged to vote for retention of prohibition.

Rhode Island, Michigan and Wisconsin have voted for repeal. New Jersey yesterday named a virtually solid wet delegation to a convention to consider ratification of the repeal resolution.

Labor Federation Ends Confab Today

AUSTIN, May 17 (AP)—The Texas Federation of Labor planned to adjourn its annual convention today after acting on the report of its legislative committee.

Officers for the ensuing year had been elected and Dallas had been chosen as the 1934 convention city.

J. W. Parks of Dallas was elected president for his fifth consecutive term. George H. Slater of Austin, executive secretary for the past 19 years, was re-elected.

The federation adopted a resolution urging that newspaper and other printed advertising be favored over radio advertising.

IMPROVEMENT IN BUSINESS SHOWN THROUGHOUT U. S.

WASHINGTON, May 17 (AP)—A general improvement in business conditions throughout the country was reported to President Roosevelt today by a special committee of the advisory council of the Federal Reserve board.

The committee, headed by Walter Smith of St. Louis, is in special session here with Secretary Woodin.

Apparently the administration is carefully sizing up the national situation preparatory to the use of any of the new power given the president for inflation.

The group also discussed with Mr. Roosevelt the pending banking reform legislation in congress, which is aimed at preventing the use of Federal Reserve funds in speculation.

Secretary Woodin accompanied the committee to the White House. Melvin Traylor of Chicago said he was optimistic over the present situation.

FRANCE JOINS PEACE PLAN

REACTIONS TO FDR'S PROPOSAL FAVORABLE IN MOST NATIONS

(By The Associated Press)

PARIS, May 17.—Premier Daladier today declared that France will "gladly join in the generous effort of the president of the United States, for which we ardently wish success." He expressed most sincere satisfaction with the president's message to the world issued yesterday.

"The suggestions which the president's message contains," the French premier said, will certainly be susceptible of contributing to the success of the disarmament and economic conferences.

"Once again the United States and France are in accord to under take effective action.

"Upon the success of this action depends peace, by the disappearance of justified fears of which Mr. Roosevelt speaks in such moving terms."

MacDONALD HAILS ROOSEVELT PLAN

LONDON, May 17 (AP)—President Roosevelt's peace plan, hailed by Prime Minister MacDonald as a monument which the future will regard as a great landmark in the march of human progress, was considered by the cabinet today.

As King George was the recipient of the message the British reply will go direct from Buckingham palace to the White House. Prime Minister

Allred To Tell Of Lobby Activities

AUSTIN, May 17 (AP)—James V. Allred, attorney general, who planned to address an audience in his home town of Wichita Falls tonight, said he intended to tell something of activities of lobbyists before the state legislature.

Allred had gone to the North Texas city to answer charges brought against him by speakers at a mass meeting there last week, when he was criticised for his attitude toward certain oil concerns.

CLAIMS ADDED REVENUE TO BE NEEDED

MRS. FERGUSON SAYS LEGISLATURE SHOULD NOT ADJOURN NOW

(By The Associated Press)

AUSTIN, May 17 — Governor Miriam A. Ferguson today sent a message to the legislature suggesting that it remain in session until sufficient revenue has been provided to meet obligations of the state and "balance the budget."

She said it was not her view at the present time that the legislature "ought to adjourn and go home."

Solons Commended

"Instead of having any criticism to offer of the legislature for not adjourning, I want to say that I think the legislature should be commended for staying in session upon reduced compensation for their services, and I trust that you will continue this patriotic endeavor until you have finished the labor of providing revenue to meet the obligations of the state; in other words balance the budget," the governor said.

The legislature has entered upon the fifth month of its work. Until a week ago yesterday the per diem was $10. After the 120th day it dropped to $5.

"As the law makes me the chief budget officer of the state, and as our financial condition is yet one of grave concern, I request your further consideration of how best to restore the credit of the state by paying our debts," the governor said.

Statement Submitted

She submitted a statement of finances prepared at her invitation by George H. Sheppard, state comptroller, and Moore Lynn, state auditor.

The message pointed out that "our total requirements for which the state must provide revenues amount to $118,415,991." She called attention to the fact this amount does not include highway revenue. She said the statement shows prospective revenues, "other than current property taxes or ad valorem

COURT OVERRULES DENISON MOTION

AUSTIN, May 17 (AP)—The supreme court today overruled a petition of Frank L. Denison of Temple, claimant to the chairmanship of the highway commission, for leave to file a motion to mandamus the comptroller to pay him his salary as commissioner. Denison's right to the office had been questioned in court action which remained pending.

Denison twice was appointed by Governor Miriam A. Ferguson. The senate twice refused to approve the appointment by a two-third vote. Denison's attorneys contended that a majority vote was sufficient to confirm a member of the highway commission and that the Temple man received a majority and therefore was entitled to take office.

FROM PAPER-HANGER TO CHANCELLOR; FROM A CORPORAL TO LEADERSHIP IS HIS RECORD

BY MELVIN E. COLEMAN
Associated Press Staff Writer

From paper-hanger in Austria to chancellor of Germany; from corporal in the German army to leadership of a nation of 60,000,000; from discussion of political theories around a table in a Munich beer cellar, to addresses in parliament for which the whole world waits—that is Adolf Hittler.

Germany for the Germans and for only Aryan Germans at that, equality for his adopted country before all the world, erasure of the defeatist doctrine growing out of the World war, union with Austria and leadership of the whole German race from Berlin form his creed.

A medium-sized, compactly built tireless leader, gifted with oratory which sways the multitude, with a flair for showmanship that attracts youth and with a talent for slogan-making which imbues his following with almost fanatical devotion, he has fought his way to power from depths of obscurity. NEGRO FARMER RUNS AMUCK

SLAYS WHITE WOMAN, WOUNDS TWO BEFORE HE IS SHOT DOWN

(By The Associated Press)

GUTHRIE, Okla., May 17 — A negro farmer ran amuck with a shotgun last night, killing a white woman and wounding two persons, one of whom was his mother, and then died at the hands of the white woman's husband.

After dangerously wounding his aged mother at their home, Julius Tillman, 42, walked to the neighboring farm of Cecil Wehrhan, 22, and shot Mrs. Wehrhan to death. Wehrhan, shot in one leg as he climbed a ladder into an attic, fired down upon the negro, fatally wounding him.

Officers said the two families had quarreled over location of a fence between their farms.

Jack Sullivan Is Removed To Prison

Sheriff Tom Abel and Deputy Sheriff Cap Moore left this morning with Jack Sullivan, a former convict and convicted bank robber, for Huntsville, where Sullivan was to enter the state penitentiary.

Sullian, captured in a gun-fight with officers at Mountainair, N. M., and subsequently arrested, after escaping from county jail here, at Vernon, faces a total of 37 years in prison. A Hale county district court jury fixed his punishment for robbery of the Olton State bank at 20 years, and a 72nd district court jury here found him guilty of robbery with firearms in Lubbock and imposed a 17-year term. Sullivan had forced the driver of an automobile to surrender at pistol-point an automobile, which Sullivan used in his escape from Lubbock.

Setback Given New Highway Proposal

AUSTIN, May 17 (AP)— Proposed establishment of an elective highway commission had been given a setback today as a result of action of the senate committee on highways and motor traffic in voting an unfavorable report to a house bill to accomplish this end.

The house engrossed a bill to place gas pipe lines under the intangible assets law and to make companies operating gas pipe lines common carriers. Representative Charles H. Tennyson of Wichita Falls, author of the bill, hoped to obtain final passage yet this week. He said its enactment would give cities relief from high gas rates.

McGLOTHLIN RECOVERING

GASTONIA, N. C., May 17 (AP)—Dr. W. J. McGlothlin, president of Furman university, Greenville, S. C., was reported recovering today from injuries received in an automobile wreck near Kings Mountain which cost the lives of his wife and E. A. McCann, 35, of Charlotte.

BAIL ALLOWED READHIMERS

MURDER SUSPECTS IN FLOYD GIVEN BONDS ON COURT RULING

(By The Associated Press)

AUSTIN, May 17—J. B. and V. A. Readhimer, indicted in Floyd county for the murder of Stokes Campbell, 18, and refused bail by the district court there, were ordered released under $5,000 and $3,000 bond, respectively, by the state court of criminal appeals here this morning.

The Readhimers are father and son. Campbell, a high school senior in Floydada, was a sweetheart of their daughter and sister.

Judge Kenneth Bain in Floyd county district court, May 3, for the second time denied the Readhimers bail. At a hearing on application for writ of habeas corpus, April 13, Judge Bain had denied the men bond and his judgment was sustained by the court of criminal appeals. Defense attorneys appealed from the decision.

Gaston B. Means Is Given 2 More Years

WASHINGTON, May 17 (AP)—Gaston B. Means, already under sentence of 15 years, today faced an additional two-year imprisonment and $10,000 fine.

With Norman T. Whitaker, "The Fox," Means was convicted yesterday by a District of Columbia supreme court jury of conspiring to defraud Mrs. Evalyn Walsh McLean of $35,000 in a ransom hoax involving the kidnaped baby of Colonel Charles A. Lindbergh.

Kent County Man Is Charged Here Today

John Adkins, arrested Tuesday by federal agents at his home, three and a half miles west of Jayton in Kent county, was charged before Victor H. Lindsey, United States commissioner here, this morning with possession and sale of two and a half gallons of whisky and possession of manufacturing equipment.

Commissioner Lindsey set Adkins' bond at $300. Agents who made the arrest said they found a 65-gallon still, not in operation, in a field on the place occupied by Adkins. Adkins, transferred to county jail here late Tuesday, was returned there after the hearing.

Japanese Advance Deeper Into China

TOKYO, May 17 (AP)—While President Roosevelt was pleading for pledges that troops would not cross the boundaries of another country, the Japanese army, already holding 3,000 square miles of territory below the great wall in China, ploughed deeper into that country.

Air scouts reported that Japanese and Manchukuan flags were floating from triumphal arches raised in Tangshan and other towns before the arrival of the invaders.

SAYS GERMANY WILL AID IN PEACE PLAN

CHANCELLOR PRAISES ROOSEVELT PROPOSAL FOR DISARMAMENT

(By The Associated Press)

BERLIN, May 17.—Chancellor Adolf Hitler, in an impassioned speech before the reichstag, today gratefully endorsed President Roosevelt's plan for relieving the international crisis and promised cooperation with Mr. Roosevelt's efforts.

The chancellor agreed that without solution of the disarmament problem lasting economic reconstruction is unthinkable.

Germany To Do Part

In behalf of the entire nation, and especially the young Nazi movement, he pledged that Germany would go as far as any nation in disarming, even to the extent of scrapping her whole military equipment providing other powers did the same.

He declared that his genaration had suffered too much from the insanity of war "to visit the same upon others."

With great emphasis the chancellor declared that his government was dedicated to stamping out communism, providing jobs and reestablishing stable government. His "young Germany," he said, has the deepest understanding for similar aspirations and for the justified claims to life of other peoples.

He particularly offered to refrain from any claims for instruments of aggression so long as other nations scrapped theirs.

Desirous Of Peace

"There is but one great task before the world, namely, to secure the peace of the world," the chancellor exclaimed amid the plaudits of his listeners.

He denied that Germany contemplated an invasion of France or Poland, emphasizing that his nation is devoid of all instruments of aggression.

Germany, the chancellor said, is ready to join any non-aggression pact in the "realization that the high-minded proposal of the Amer-

PIG'S WELL RAZED BY FLAMES TODAY

The Pig's Well, a lunch stand, at Avenue H and Thirty-third street was destroyed by fire early today. Two rear supports of a derrick, erected over the stand, burned and, the front standards unable to withstand the strain fell. The roof caved inward.

Origin of the blaze, which virtually had demolished the stand before fire-fighting apparatus arrived, was undetermined, Fire Chief W. E. Twitty said. The fire department receved an alarm at 2 45 a. m., an estimated 30 minutes after the fire broke out. Firemen laid 500 feet of hose in fighting the blaze.

C. E. Wells was owner of the stand. The structure was not insured, Fire Marshal D. A. Forbess said, although contents possibly were.

Chinese Attempts To Murder Leader

TIENTSIN, May 17 (AP)—An attempt was made today to assassinate Hwang Fu, representative of the national government at Nanking, by a Chinese who threw a bomb as Hwang arrived at the railroad station.

Hwang, reported to be slated as minister to North China from the Nanking government, was unharmed, but his assailant was slightly injured by the blast.

The Chinese said he was a political enemy of Hwang.

NEW YORK, May 17. (AP)—The American Telephone & Telegraph Co. today declared the usual quarterly dividend of 2.25 a share on the capital stock.

TEXAS HOSPITALITY COSTS MANAGER OF RODEO HIS HOUSE, HOME AND JOB

(By The Associated Press)

CHICAGO, May 17—Texas hospitality may be all right in the wide open spaces, but it ate Milt Hinkle out of house, home and his job in the big city.

Milt, cowboy-manager of a rodeo troop, today was on his way back to the Texas plains, broke. His troupe of 75 cowboys and cowgirls was stranded, facing the possibility of riding their mounts back home.

It all came about, said Charles Hall, superintendent of the coliseum where the show was staged, because Milt couldn't see someone go hungry, shortly after the show first opened a couple of hoboes asked for a bite as performers sat down to the grub tables. Milt invited them to eat.

Before the week was over, Hall said, hoboes by the hundred showed up for food and Milt was too soft-hearted to turn them away. The food bill was staggering. Milt paid it with his last cent and did a fade-away.

The performers are staying on to the end of the week, hoping to earn enough to pay their fares home.

But when a tramp appears at meal time they chorus: "Scram!".

High School Seniors Are Continuing To Receive Courtesies; Two Churches Have Parties

Mrs. Nelson Named Head Of OES Unit

Slaton Pair Is To Live In Wellington

SLATON, May 17.—(Special)—Following their marriage last Saturday evening in the home of the bride's parents, Mr. and Mrs. J. C. Champion, Mr. and Mrs. Lawrence Scoles have gone to Wellington, Kans., to reside. The Rev. W. M. Turner, Baptist pastor, married the couple. Before her marriage, the bride was Miss Christine Champion.

Preceding the nuptial ceremony Saturday evening, Miss Pauline Marriot and Herbert Gaithor sang "I Love You Truly," Miss Ruby Teague of Slaton attended the bride and Jerry Briscoe of Lubbock was best man. Mrs. L. B. Haggerman played the wedding march.

The groom's mother, Mrs. Jennie Scoles, resides in Wellington. He has been an employee of the Santa Fe for several years.

Miss Gladys Eads is recovering from an operation in Lubbock sanitarium.

NOW SCIENTISTS EXPLAIN

...precious elements Nature puts in skin to keep it youthful

are actually in this soap

WONDERFULLY soft, smooth skin—this charm is every woman's birthright! For nature has given to skin of every type—to *your* skin, too—precious elements that *keep* it young, softly smooth.

Then why does skin grow dull and drab—old before its time? You've probably often wondered. And now scientists explain . . .

The Secret of Youthful Skin

Skin, science has found, contains certain precious elements. These elements, found in youthful skin of every type, keep it fresh, smooth, attractive, young . . . help guard it when exposed to wind, dust and sun.

The gradual loss of these elements is what makes skin get old looking, dry, rough, unattractive. But scientists give this welcome and all-important message—you can now *check the loss* of these precious elements.

This Soap actually contains Precious Elements found in skin itself

Now scientists attest the fact that Lux Toilet Soap, with its complete freedom from harshness, its ready solubility *and its content of precious elements* is an unquestionable aid in keeping the skin young looking . . . softly smooth.

Small wonder that Lux Toilet Soap is used by the screen stars, and has been for years. 686 of the 694 important Hollywood actresses are enthusiastic in their praise. And women everywhere have been proving for themselves that this fine soap actually keeps skin fresher—younger—more attractive.

The lovely screen stars *must* have radiant, youthful skin. Small wonder that this fragrant, white soap has been made the official soap in all the large film studios.

A Younger Looking YOU

SCIENCE tells you that pure, safe Lux Toilet Soap actually contains precious elements all skin *must have* to look youthful. These elements are found *in* the skin itself—an abundance in fresh, youthful skin, less in skin that is growing old, unlovely.

HOLLYWOOD has proved through years of daily use this soap actually keeps every type of skin younger looking.

MILLIONS of women (and men) everywhere confirm Hollywood's experience.

Won't YOU prove the beautifying effect this fragrant, white Lux Toilet Soap can have on *your* skin?

"I found out the secret of keeping my skin young looking," says Mrs. J. I. Potter, of Montclair, New Jersey

"I found out the secret of keeping my skin young looking—simply by using the same care for my skin that the Hollywood stars use . . . Lux Toilet Soap. I've been using this nice soap for a long time. From the very beginning my skin took on a new freshness and became wonderfully improved."

THE CAPITOL WHIRLIGIG

INTERESTING NEWS, COMMENT FROM AUSTIN

BY R. W. EARRY

AUSTIN, May 17. (AP)—Augustine Celaya, new member of the house from the Brownsville district, "got the hang of things" without delay. He stepped into the "legislative shoes" of Representative Milton West with apparent ease. If Congressman West took the seat in the national house once occupied by the now illustrious John N. Garner as gracefully as young Celaya slid into things here veteran members of the legislature say Texas and the Brownsville district particularly, will not have a complaint to make.

Celaya is an accomplished pianist and is in demand when legislative work is over for the day and groups gather at his hotel seeking relaxation.

Wastes No Words

Senator Albert Stone of Brenham is one of the new senators, but more than one observer has remarked "he looks like an oldtimer." He does not believe in loquaciousness on the floor, but when he wants to make a point he does so without wasting words. He is as well-informed on legislation as any lawmaker who spends his working hours under the well-known "capitol dome." Stone has put through some effective bills of general nature and associates believe he has the makings of a valuable legislator.

Fact is, all the new timber has panned out exceedingly sound. Senator K. M. Regan of Pecos is an effective talker in debate. He does not have anything on Senator Cecil Murphy of Gainesville, who incidentally, is regarded as a fine presiding officer. Already there has been heard "talk" of running "Senator Cecil" for lieutenant governor. Senators E. J. Blackert of Victoria, Winbourne B. Collie of Eastland, Arthur P. Duggan of Littlefield, Ernest Fellbaum, sr., of San Antonio, Will D. Pace of Tyler, John S. Redditt of Lufkin and Roy Sanderford of Belton, all senate novices when they went on the job more than four months ago, have given good account of themselves.

Diplomas Presented Nursing Graduates

Two Littlefield girls and one Brownfield girl, student nurses at the Scott and White hospital in Temple, were graduated from that school Monday night.

Lexie Ruth Dunagin and Elsie Agnes Mitchell of Littlefield and Jaunite Perkins, Brownfield, were among the 35 graduates.

Rev. C. Raymond Gray delivered the commencement address and diplomas were presented by Dr. M. W. Sherwood.

TWO ARE ENDORSED

WASHINGTON, May 17.(AP)—Senators Sheppard and Connally of Texas jointly announced Tuesday they had endorsed W. H. Gilliland, of Port Arthur, for appointment as collector of customs at Port Arthur, and Guy McNamara, of Waco, as United States marshal for the western district of Texas.

SPORTS

Cantrell, Bihl Tie For Honors

SPYING ON SPORTS

BY COLLIER PARRIS

So the Tech Matadors won't go up to Canyon Saturday for the scheduled track and field meet with West Texas Teachers. The reason—official interference, or the application of the qualified right on the part of the college presidents.

• • •

The presidents are perfectly within their rights in calling off the meet, and one reason is as good as another. If a president can't preside, lay down the law and enforce same, then he should not be a president, but a corporal, or a coach.

• • •

The reason, or reasons, for cancelling the meet given by Dr. Knapp of Tech and Dr. Hill of West Texas in their joint statement were because "this meet was set without our knowledge and a time when it will interfere with the final examinations of the two institutions." The reason might have been "because we fear our boys will try to knock each others' heads off, and we don't want blood on our hands," which would have done the work just as surely and would have been almost as plausible.

• • •

There would have been no scrap among athletes at Canyon during or after the track meet. There might have been some lusty booing from the stands, but on the field everything would be peaceful. In regard to final examinations, who studies for final examination on Saturday night?

• • •

But perhaps the presidents were right in cancelling the meet. It saves the Buffaloes considerable embarrassment and would mean just another workout for the Matadors, providing they did anything like repeat their actions of the meet here between the teams.

• • •

We're still unable to figure out Coach Sad Sam Burton's angle to the affair. Why he should want to sever connections with Tech at this time is rather a mystery. They're practically severed anyway, since Tech no longer meets the Buffs during the fall football season. As for basketball, it's nothing more nor less than accommodating on the part of Texas Tech to offer to play the Buffs. It provides four good workouts for the Burton men—the only four, by the way, they get in Texas. The Buffs have to go out of the state for their regular competition during the winter time.

• • •

The following quotation is taken from the regular daily column of Alan Gould, Associated Press sports editor, whose writings appear in all the up-to-date newspapers.

"From my friend Pete Cawthon, coach at Texas Technological college at Lubbock," writes Gould, "comes word that Tech's coaching school, last year the largest in the country in point of attendance, will be bigger and better than ever this summer.

• • •

"It will run two weeks from July 31, and its list of instructors includes such outstanding mentors as Andy Kerr of Colgate, Bernice Bierman of Minnesota, Noble Kizer of Purdue, Harry Kipke of Michigan, Clipper Smith of Santa Clara and Rip Miller of the Navy.

A total of 473 coaches and members of their families from 32 states attended last year's school."

• • •

From Wilburn Page, secretary of the West Texas Golf association, comes the first official announcement regarding the West Texas tournament at Wichita Falls next month.

"Wichita Falls," writes Page, "will on June 1, 2, 3 and 4 have the privilege of entertaining the West Texas Golf association in its annual tournament. All plans are completed locally to really entertain this group and hopes are high that this will be the greatest tournament in the history of the association."

• • •

Local golfers should bear down for the next two weeks and practice a lot of stroke-saving in view of making an impression at the tournament. There should be a score or more golfers from Lubbock at Wichita Falls next month. Almost that many have indicated they will go.

Jimmie Dykes, now starring at third for the Chicago White Sox, handled 17 chances at second base in one game while playing with the Philadelphia Athletics.

28 PLAYERS QUALIFY AT MEADOWBROOK; 31 AT COUNTRY CLUB

Shooting 69's to trim par by one stroke, C. J. Cantrell and Joe Bihl shared medalist honors in the annual Meadowbrook championship tournament qualifying round yesterday. The Texas Tech star and the king of the caddies respectively were on their game all the way, snapping up birdies at regular intervals, to place in the championship flight of twelve golfers.

Twenty-eight golfers qualified yesterday for the Meadowbrook tournament and were divided into three flights.

Thirty-one members of the Country club are registered in the 72-hole medal battle for the President's Cup, an annual tournament instituted last year. Ted Tipps, who hasn't turned in a score so far this week, is defending his title.

The Country club tournament, as does the Meadowbrook championship, ends on Sunday, by which time all players must have posted a 72-hole score. There is no set time for the rounds, some players finding it convenient to play 9 holes one day and 36 the next, or vice versa.

Slaughter Winds Up

Jo Dick Slaughter, one of the team's aces, completed his part of the Country club tournament yesterday, chalking up a 72-hole score of 292, four over par with his handicap. Except for one bad round of 83, Slaughter's medal score was close to par all the way. After playing 54 holes on Monday, he wound up with a final 18-hole score of 76, without handicap, yesterday.

Two other Country club golfers finished the third round yesterday. V. O. Jennings posted an 87 yesterday to go with his 81-83 for a total of 251, without handicap subtracted. J. B. Acton added a 93 yesterday to his 86-96, nor has his handicap been taken off.

John Edmisson, second man on the Country club team, posted a 77 yesterday to go with his first round score of 76. Buster Fluke has completed half the route, shooting 78-80—158 for 36 holes. Bob Harvey fired an 82 yesterday, giving him 85-82—167 for the first 36.

Players who have posted first round scores, and their medal cards, are: Cotton McAfee, 77; W. D. Girand, 84; Kermit Dees, 79; F. L. McRee, 88; Don Mitchell, 93; Parker Prouty, 82; Lee Jones, 102, and W. D. Girand, jr., 100.

Golfers who have played only 9 holes of the 72 are J. A. Dowdle, 46; Hooper Stiles, 46; M. M. Brown, 55; Lewis Price, 47, and J. T. Krueger, 43.

Others registered for the tournament, which must end Sunday, are Ted Tipps, Ed Doherty, Cliff Dean, Guy McAfee, Francis Finberg, T. H. Buckingham, Frank Wright, Frazier McCrummen, Bays Bryant, O. J. Felty, Waldo Trotter and J. O. Smith.

In addition to Cantrell and Bihl, others who made the championship flight at the Meadowbrook and their qualifying scores are:

Billy Holmes, 73; Donald Doherty, 74; Panny Farmer, 74; Walter Pendleton, 76; Carl Nail, 76; John Bell, 78; Neil Vanzant, 78; Si Fluke, 79; Sam Parkinson, 82, and Mendall Hughett, 82.

First flight qualifiers and their medal scores are: Dutch Wiginton, 82; A. E. Jones, 85; D. A. Dowell, 85; Earnest Dye, 85; Jim Shaw, 86; Allan Webb, 88; W. C. Edwards, 89, and Walker Stanton, 92.

The following players qualified for the second flight: James Alls, 92; Vestel Lott, 93; J. W. Branch, 95; Dr. V. V. Clark, 96; Bill Collins, 96; Howard McIlroy, 97; N. L. Ball, 100, and Herb Miller, 100.

Pairings Announced

In the first round of match play today, the following are paired in the championship flight:

Cantrell vs. Hughett; Bihl vs. Parkinson; Holmes vs. Fluke; Doherty vs. Vanzant; Farmer vs. Bell and Pendleton vs. Nail.

First flight: Wiginton vs. Stanton; Jones vs. Edwards; Dowell vs. Webb, and Dye vs. Shaw.

Second flight: Alls vs. Lott; Miller vs. Ball; Branch vs. McIlroy; Clark vs. Collins.

HARRIS EXPECTS A CLOSER RACE

NEW YORK, May 17 (AP)—Stanley (Bucky) Harris, young manager of the Detroit Tigers, still thinks the New York Yankees are the club to beat for the American league pennant even though he's convinced the champions are by no means as formidable as they were a year ago.

On the basis of the first month's results, Harris figures on a much closer race all the way with Washington Senators, Philadelphia Athletics, Cleveland Indians and Chicago White Sox, all good, tough clubs, and the Boston Red Sox a much improved outfit through its numerous player deals.

"As for the Tigers," he said, "we're seventh in hitting and eighth in fielding which just about explains why we haven't started out so well. If we can snap out of it we should get back into the first division. Our pitching has been good but so has everybody else's."

In spite of the national bank holiday, the 1933 Indiana state high school basketball tournaments drew a "gate" of $110,988.

SECOND ROUND MATCHES TO BE TODAY

MRS. CHANDLER WILL MEET MRS. WAGNER IN TOP MATCH

BY BILL PARKER
Associated Press Sports Writer

GALVESTON, May 17 (AP)—Mrs. Dan Chandler, defending champion, against Mrs. R. E. Winger, former Fort Worth champion, was the top match today in the second round competition of the annual women's Texas Golf association state tournament.

Second in importance was the upper bracket match between the long driving Miss Aniela Gorczyca, Fort Worth champion, and the accurate hitting Miss Hilda Urbantke, Austin champion. Although she had never held the state championship, critics ranked Miss Gorczyca on a par with Mrs. Chandler. The Fort Worth champion was medalist with 40-36—76.

Miss Jameson Favored

Miss Betty Jameson, 14-year-old girl who last year won the Texas municipal championship and now is playing as a member of the Dallas Lakewood Country club, faced the veteran star, Mrs. Will E. Looney, in a lower bracket match that favored Miss Jameson by a thread.

Near par golf was turned in by surviving favorites yesterday over the par 38-37—75 course. The finest round was that of Mrs. R. R. Fisk of Wichita Falls who scored a 39-40—79 to eliminate Mrs. George Thompson of Fort Worth, 2 and 1. impressive 6 and 5 victory over Mrs. M. M. Van Wormer of Beaumont today, although Mrs. Van Wormer shot fine golf yesterday to eliminate Mrs. Jed Rose of San Antonio, 4 and 2.

Mrs. Chandler reported at the starting tee yesterday feeling ill, but once under the fire of competition, she blazed away and then walked back to the starting tent with an impressive and 5 victory over Mrs T. B. Brazelton of Waco.

Continues Fine Play

Miss Gorczyca continued the fine play she exhibited in the medal round with a 5 and 4 victory over Mrs. W. L. James of Galveston.

Mrs. R. E. Winger made ready for her battle against Mrs. Chandler by defeating Miss Dorothy Dionne of Houston, 5 and 4. Mrs. Winger slapped tee shots for unusually long distances and carded a splendid 82.

Miss Urbantke defeated Mrs. Harry Croft of Dallas, 4 and 2, and faced Miss Gorczyca today with confidence, although her game yesterday was in the low 90s.

Miss Jameson, hitting long tee shots and working a putting stroke that left nothing to be desired, stayed in the championship running by winning from Mrs. F. P. Dodge of Port Arthur, 5 and 4.

The most enthusiastic comeback yesterday was that of Mrs. O. R. Armstrong, El Paso champion, who, after being 3 down at the turn, played 20 holes eventually to beat Mrs. C. E. Stanfield of Fort Worth, one up. Mrs. Scott Hill, Waco champion, was another who rallied. She was one down at the turn, squared the match at the thirteenth and went on to beat Mrs. C. F. McCauliff of Dallas, 2 and 1.

Mrs. F. C. Rochon, the iron stylist of the tournament and former Texas municipal champion from Wichita Falls, had little trouble beating Mrs. C. F. Sprinkle of Fort Worth, 5 and 3.

Pairings for second round championship matches follow:

Upper bracket:

Miss Aniela Gorczyca, Fort Worth, vs. Miss Hilda Urbantke, Austin. Mrs. Scott Hill, Waco, vs. Mrs. F. B. Hadlock, El Paso. Mrs. R. R. Fisk, Wichita Falls, vs. Mrs. M. M. Van Wormer, Beaumont. Mrs. O. R. Armstrong, El Paso, vs. Mrs. Theo Von Knoop, Houston.

Lower bracket:

Mrs. Dan Chandler, Dallas, vs. Mrs. R. E. Winger, Fort Worth. Mrs. F. C. Rochon, Wichita Falls, vs. Mrs. H. C. Scott, Houston. Miss Betty Jameson, Dallas, vs. Mrs. Willie E. Looney, Dallas. Mrs. C. M. McCullough, Amarillo, vs. Mrs. George B. Stuart, Fort Worth.

NICHOLSON TO BE ELIGIBLE AT RICE

HOUSTON, May 17 (AP)—The Houston Post says Gordon Nicholson, big fullback, will be eligible for participation next fall at Rice institute.

Nicholson had supposed his grid career at Rice closed last fall; but the Southwest conference faculty committee on athletics last Saturday at Austin passed a ruling that may have a vital effect on the 1933 title race, the Post says.

"The committee voted to discount past participation of a football player as a member of a class B team, although in the future such competition will count as varsity competition if it is against a senior college."

"For example, Nicholson's only service as a sophomore in 1930 was on the class B Rice team that played Texas A. and I. here. Had it not been for the ruling last Saturday, that one game would have cost Nicholson an entire season of eligibility.

"It is understood here Texas university has several football players who will be eligible next fall as a result of the new ruling.

"Nicholson has not decided as yet whether he will return."

Cleveland, Sens Stage Slugfest

WASHINGTON WINS BY 11-10 SCORE; TEAMS TIED FOR SECOND

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer

If any "modern" baseball fans—those of the Ruthian era who prefer base hits to inside baseball—are worried about the domination of the flingers this spring, they have only to turn to Washington for hope.

The Senators and the Cleveland Indians put on a slugfest of near record proportions yesterday as they struggled through 12 long innings before Washington earned a 11-10 victory. The result put the teams into a tie a few points behind the New York Yankees, whose idleness regained for them the American league lead. In the long session the teams made a total of 43 hits, good for 51 bases, and nine pitchers marched off to the showers before Al Crowder finally got the decision over "Hard Luck" Mel Harder.

Browns Beat Red Sox

The St. Louis Browns touched their former mate, Lloyd Brown, and Bob Kline, for 13 hits in eleven frames to beat the Boston Red Sox 3 to 2. Catcher Mervin Shea, recently of Boston, scored the winning run on a single, a sacrifice and Carl Reynolds' base hit.

The eastern openers between Detroit and New York and Chicago and Philadelphia were rained out.

Eastern clubs of the National league began their invasion of the western sector by winning three out of four decisions. Pittsburgh's league leading Pirates were the only home team to win. They rapped Cy Moore, Snipe Hansen and Ad Liska for ten hits, including six doubles and a homer by Gus Suhr, and beat the Phillies 8 to 4.

Giants Whip Cubs

The New York Giants, only a half game behind, came through behind Carl Hubbell's left handed flinging to beat the Chicago Cubs 4 to 1 despite four errors. The Giants got only six safeties but Pat Malone walked in two runs in the opening inning.

Joe Mowry, just up from the American association, provided a lot of the punch that enabled the Boston Braves to beat the third place Cincinnati Reds 6 to 3. He accounted for two runs with a single and a triple. The Brooklyn Dodgers kept St. Louis down in the fourth notch, just a point behind Cincinnati, by rallying for two runs in the ninth inning and a 6 to 5 victory.

Southwest Tourney Will Be At Dallas

DALLAS, May 17 (AP)—Dr. J. S. McIntosh of Southern Methodist university has announced that the annual Southwest conference golf tournament would be held here at Brook Hollow Golf club next Thursday, Friday and Saturday, instead of at Worth Hills course, Fort Worth.

The University of Texas won the title last year. In two practice meets this season, the Longhorns and the S. M. U. team finished all square on each occasion, once here and again at Austin.

H. J. Miller, Fresno, Cal., golfer, celebrated his 74th birthday by shooting 79 holes. He began playing 33 years ago and now shoots around 100.

BUFFS RETAIN SLIGHT LEAD

OKLAHOMA CITY WINS OVER HOUSTON AND TULSA BEATS BUCS

(By The Associated Press)

Houston's Texas league-leading Buffaloes found themselves separated from the second-place Galveston Buccaneers by a precarious margin Wednesday, after dropping a 1 to 2 battle Tuesday night to the Oklahoma City Indians, tail-enders in the pennant race.

The game was a pitcher's duel, Al Benton, big right-hander, allowing the Buffs only three hits while Greer and Beckman yielded only five. Beckman, who took the mound in the eighth, was credited with the loss.

Bucs Lose Again

The Buccaneers weren't finding their incursion into Oklahoma so profitable either, dropping their second consecutive game to the Tulsa Oilers, 1 to 8. Cromer and Jorgens both were pounded out of the box, Cromer being nicked for four doubles, a single and five runs in the fifth before Tubbs came to the rescue.

San Antonio's Missions made their fourth-place berth more secure by winning a slugfest with the Fort Worth Cats 14 to 11, to even a two-games series. After the score had been knotted at 9-all, the Missions put over a five-run attack in the eighth which gained the victory.

Happ Morse's Dallas Steers, by losing their fifth consecutive game, dropped to the sixth rung, losing 5 to 7 to Beaumont's Exporters.

MORE FLEXIBLE SYSTEM OF COURSE RATING TO REPLACE PAR IS DEVISED

NEW YORK, May 16. (AP)—A more flexible system of course rating to replace the par which is fixed arbitrarily by the length of each hole is being devised by the Handicap Golfers association of America.

Under the new system, announced by Max R. Marston of Philadelphia, association president, these seven points would be considered in deciding mathematical perfection for any given hole:

1—Playing distance of the hole, not the yardage on the scorecard;
2—Topography of the course;
3—Average condition of the greens;
4—Any decided slope in the greens;
5—Relative width of the fairways;
6—Direction and strength of prevailing wind;
7—Character, location and quantity of traps, bunkers and natural hazards.

With these factors considered the standard score for any hole then would be figured on the basis of a 200-220 yard drive, 175-190 yard midiron shot and others in proportion, plus two putts. Each hole then would be further classified as easy, fair, standard, good or hard.

Drip coffee is "the BERRIES"

Coffee is like conversation. It may sparkle, inspire, animate, or it may be a lament. Personality counts.

Drip coffee is modern,—clean, invigorating, delicious—if you use Admiration Coffee, "Dripkut," in the making.

When the water boils, then use it for the drip coffee pot. Twice boiled water never helped anything.

Let no one tell another to put water twice through drip-pot coffee. If there's plenty of Dripkut Admiration in the pot, it won't be necessary to put the water through twice. If there isn't enough coffee in the pot, it will do no good anyway. Good coffee comes in first editions.

And, remember, Admiration Dripkut is the only coffee you can buy that's ground by the exclusive, patented Dripkut process. If it isn't Admiration, it is isn't Dripkut.

Responsibility

Senator Hamilton F. Kean of New Jersey objects to the provision in the pending federal securities bill which would require directors of companies to sign statements concerning the affairs of their corporations and which would make them civilly liable for losses by stockholders.

Nobody, the senator argued, would want to be a director if he were apt to lose his shirt because some company about whose inner affairs he knew very little should go into a tailspin.

That may be true; and the result might well be that directors would be extremely careful to know just what their companies were doing, which would be a very fine thing indeed. We have had enough of dummy directors in the last few years; if the new law would induce directors really to direct, we should all be better off.

IT begins to commence to get ready to look like the South Plains will get its just Congressional representation by the time another election rolls around. In fact, Governor Ferguson's signature has been slapped on the bill and about two-thirds of our citizens are wondering, in their own minds, what chances they have of being elected.

But be that as it may, and with all monkey business to one side, it's a good thing we're finally going to get what we earned a long time ago—and this is no slap at Marvin Jones.

Marvin is one of the leading members of the national House of Representatives, is one of Mr. Roosevelt's close admirers and has done as good a job with his too-big territory as anyone could have done.

But the fact remains—and Marvin told The Plainsman this years ago—that the present district is too vast for any one man.

It needs to be divided.

THE situation in Europe, which may not cause much of a wrinkle in these parts anytime soon, is never-the-less serious enough to worry the national governments of the world, especially when it be remembered that conditions for peace aren't so good in the Orient or in the Balkan states.

That there is likely to be something happening over there soon is admitted in informed circles and executives of both Associated Press and United Press have gone to Europe to confer with their staffs and to view the setup first hand.

Associated Press thought enough of what might happen that Kent Cooper, the general manager himself in person, made the European trip. He's still over there getting the first hand picture.

Nationally-Known, Colorful Figures Are Engaged In War Against Sweatshops; Main Battleground In Pennsylvania

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, May 17.—Perhaps no such group of nationally-known, colorful characters has ever been involved in a labor dispute as those men and women now directly or indirectly engaged in the war against sweatshops which has been to the fore in Washington and has its chief localized battleground in Pennsylvania.

Dutcher

President Roosevelt, Mrs. Roosevelt and Secretary of Labor Perkins have all participated and Mrs. Gifford Pinchot, wife of the governor, recently dramatized the struggle by parading on a picket line.

Important political implications enter the picture because the legislature which refuses to pass minimum wage and maximum hour laws is dominated by Andrew Mellon, Joe Grundy and Bill Vare. It was Senator Dave Reed, their man in Congress, who led the opposition to the Black 30-hour-week bill in Washington—a fact which will be used against him in his re-election campaign next year.

* * *

A National Problem

The sweatshop has come to be recognized by everyone, including Roosevelt, as a serious national problem. The reason is that sweatshop wages in industry force down wages and purchasing power generally when a majority of manufacturers are forced to meet unscrupulous competition.

The evil already is pronounced in the Keystone State and after the New York and New Jersey minimum wage laws become effective a new influx of sweatshops there is expected. Many newspapers, labor unions, churches and citizen groups are making such a loud howl as to attract widespread attention in other states and in Washington.

The Pennsylvania Security League—which already has 30,000 members and is organized on the theory that economic security is the one thing people need today more than anything else—is the spearhead in the strong state-wide agitation for a special session of the legislature for the passage of wage, hour and old age pension laws. Its members sign a pledge to work against every state official who opposes any such legislation.

During the last session they picketed the houses of state senators, calling attention of all the neighbors to men who were seeking to bury or block the legislation.

* * *

Got Wage Law

The chief founder and moving spirit of the league is Stephen Raushenbush, director of the state Bureau of Industrial Relations. Its chairman is Ralph Turner, a university professor and another effective crusader.

The league and other labor reform organizations in the second largest manufacturing state won their first fight against Grundy-Mellon-Vare members of the legislature in the last session when they pushed a minimum wage law through the House and forced record votes for the first time on some 20 other progressive measures.

Pennsylvania has always been a one-party state in effect and heretofore hard-boiled legislative methods have kept many bills buried so that members would not have to have a record on them when they ran for re-election.

Now the reformers, especially angry at the Grundy senators because they led the fight on an old age pension bill and buried it until it couldn't be voted on in referendum until 1938, think they have ammunition with which to defeat a majority of legislators. And Pennsylvania Democrats believe they can defeat Senator Reed in 1934 on the issue of his labor record.

* * *

Wage Levels Low

"We are in a state of feudalism," says Director Raushenbush, who was here to testify for the 30-hour-week bill. "Sweatshop conditions can be found in all parts of the state. Wages in some factories are down to two and three dollars a week and even on that basis employes are sometimes fined for 'poor work' so that they receive but 60 or 70 cents.

"Pennsylvania wages are lowest in any northern state west of Wisconsin except New Hampshire, which will have a minimum wage law. The other day we found a silk mill worker on 60 hours of night work a week earning from three to five dollars.

"Employers cheat their employes by selling them fake stock or not paying their wages. In one town we found 300 persons, all of whom were owed back wages but none of whom would sue because they feared they couldn't get jobs if their factory ever opened again.

"The courts are largely closed to such victims. They can't sue because they can't afford the constable or other costs that are demanded. Sometimes we find manufacturers who have simply picked up their luggage and moved away overnight, owing their workers large sums in wages."

DARLING FOOL

by MABEL McELLIOTT

BEGIN HERE TODAY

MONNIE O'DARE is secretly engaged to DAN CARDIGAN, heir to a local fortune. Dan doesn't want his parents to know of the engagement as they oppose the marriage. He and Monnie plan to elope in January when he will come into some money of his own. Dan is jealous of CHARLES EUSTACE, handsome newcomer, who shows Monnie marked attention.

NOW GO ON WITH THE STORY

* * *

CHAPTER XXII

Sandra, in a deep chair of stick willow with cushions daringly striped in yellow and orange, leaned back and regarded her caller thoughtfully.

"I think you're perfectly right, Geraldine," she observed, lighting a cigaret with a flick of her long, slim fingers. "I think people are talking and it would be well to get him away."

"But that's just the trouble," protested Dan's sister who, lean and virogous in her white linen riding outfit, lounged in the porch swing. "He won't go. Mother wanted him to go to Yosemite with her. He says he's too busy. Then my cousin May wrote us about this dude ranch. It's what Dan has always been crazy about— and I thought if you'd go along we could make up a party—"

She left the sentence hanging. Sandra's eyes sparkled.

"It would be fun," she said with enthusiasm. "You and I — and Danny and perhaps Lansing Waterman. He gets home next week. I wonder—" her eyes narrowed, considering. "I wonder if Charles Eustace could be persuaded to go, too."

"My dear!" Geraldine's laugh held a touch of malice. "That would be perfect if we could swing it. Two birds with one stone."

"Leave it to me!" Sandra got to her feet, smiling. "I'll see what can be done."

Geraldine's voice held a note of envy.

"You're a wonder," she breathed. "If you can do it, mother will be everlastingly grateful. What she says, of course, is that she could put her foot down—be firm with Dan about seeing her so much—but she would just make him mulish. You know how he can be! Just that touch of opposition," averred Geraldine wisely, "might lead to something serious. Whereas—"

Sandra finished the sentence for her. "Whereas," she cried gayly, "we lure Danny off to this delicious place, have a grand time and meanwhile he forgets all about the girl back home."

"Exactly!" Geraldine's lean brown face, so like Dan's but without the touch of softness which would have made her, as a woman, irresistible, flushed with excitement.

* * *

But they reckoned without their host this time. Dan was mulish, refusing to leave Belvedere for any prospect, however alluring. His father, consulted as to plans, brought pressure to bear, summoning Dan to his private office one golden August morning.

Dan liked and respected his father. The keen-eyed, graying man usually kept his hands out of household affairs, preferring to let his wife decide such matters. This time, however, he had not been allowed to choose the line of least resistance. There had been a conference in Mrs. Cardigan's dressing room the night before. This interview was the result.

"Dan, what's this I hear about you not wanting a vacation with mother and the folks?"

Dan squirmed uncomfortable. "Had enough vacation. Thought I'd stick around and see how things are going. I know they haven't been so good for us lately—"

His father interrupted, rather testily. "Never mind, never mind! It seems your mother's set her heart on this trip and wants you along. I don't know what the notion is, exactly. Bears, maybe. You're to save 'em from dangers on this dude ranch." His eyes twinkled.

"Those places are safe as Main street," Dan muttered, sullenly. "Don't see why I have to to traipsing off with all those women. Anyhow, they'll have plenty of protection. Lance Waterman'll be there and both the Frankin kids. They're grown up now. As for fears," his tone was contemptuous. "Gerry and Sandra can handle a gun as well as I can."

"I know that. I know that." His father's voice was a rumble, deep in his throat. It made the old man uncomfortable to lecture Dan this way. No sense to it, at all. It was rank foolishness, spending all that money on a trip with the market the way it's been. He was worried about money, no mistake about it. No good suggesting it to Mother, though. She'd just flare up and tell him he ought to manage things better. Well, maybe he should have done that. Worried about money, that made him think of something else he'd been meaning to speak to Dan about.

* * *

He cleared his throat, embarrassed. "Dan—eh—what's this I hear about you and Sandra?"

"Me and—?" Dan looked blank for an instant, then smiled. "I'm sure, Dad, I don't know what you've heard."

"Mother thinks Sandra's pretty sweet on you. Now don't get sore, boy. You know how mothers are. Mother'd be mighty pleased to see you make a go of that and so, I might say, would I. Sandra's a fine girl, you know. Slick as a race horse—lots of spirit. Now don't misunderstand me. Dan but she's got lots of money. What passes for a fortune these days. Her father's a shrewd business man and he's done some smart investing. Sandra's all he's got."

Dan had turned in his chair, was looking unseeingly out the window. He did not reply.

"It would be a fine thing for you, every way you look at it," persisted the old man. "I'm not saying this without having given the matter thought." He glanced uneasily at the silent young man. "Well, I'll say no more. I won't bother you about it now. Only—the business isn't what I hoped it would be, son, to pass along to you. You've been brought up to like expensive things. I'd be the last one in the world to suggest you should marry a girl for her money, but there's no question of that in this particular case. No man in his senses could help admiring Sandra."

He waited for affirmation and Dan accorded it, grudgingly. "I suppose not," he said.

"Good. Good! I'm glad you feel that way about it. That's why I agreed to talk to you about this trip. It would please Mother, it would please Sandra and, most of all, it would please me. How about it?"

"Let me think about it, Dad!" Dan pleaded awkwardly.

"Certainly. Certainly." Both men were on their feet now, relieved that the interview was at an end. "But don't make up your mind without thinking about what I've said."

When Dan met Monica that night he told her of it—baldly, not sparing her.

"Dad wants me to go west with Sandra and the crowd. He thinks I ought to fix it up with Sandra—make a go of it."

He could not see how white she had turned in the darkness. Her voice, when it came, was cool, a trifle distant. "What are you going to do about it?"

Dan felt particularly badgered that day. He was thoroughly out of temper. Monnie's dispassionate gentleness only served to irritate him further. He said what he had not meant to say—what he did not really feel.

"Oh, guess I better string along with them, just to please Mother. It might be fun."

Monnie withdrew her hand from his arm where he had tucked it only a moment ago.

"Go by all means if you feel like that," she told him. Her heart was very sore. It was full to bursting. Things had gone along too smoothly of late she reminded herself. Dan had been so sweet and considerate. She had felt so secure, so happy, with the knowledge of their secret troth deep in her heart, with Dan's seal ring in the bottom of her treasure box, a pledge and a promise. Now they were taking him away from her, coolly, deliberately.

"You shouldn't even think of staying here if you want to go," she said aloofly.

"You little fool!" Dan crushed her to him roughly. They were sitting in the shadows on the side porch. "Better not tell me that too often. Maybe I'll take you at your words."

"Oh Dan!" She was in his arms, the salt tears trembling on her lashes. "You hurt me so—I thought you wanted to be with them. The way you said it—and, after all, why shouldn't you? It must be fun. Why should I keep you away from it?"

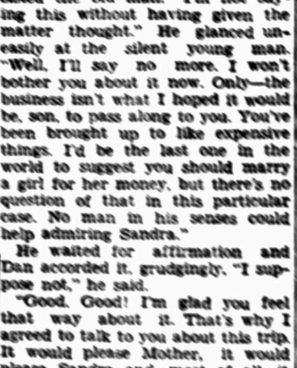

"It'd be rotten without you." Dan told her loyally. "No, I haven't the slightest intention of giving in. I told Father I'd think it over, but my mind's made up."

After he had gone Monnie thought bitterly that all their lives Dan would be giving things up for her. It was the eternal battle between the rich and the poor. He loved her now and so it did not matter. But how would it be later on? Would he hate her for taking him away from the easy life he had loved?

She fell asleep, wondering.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, May 17 (AP)—Cotton opened steady, unchanged to 2 higher on active trade buying which offset lower cables. May unquoted; July 8.63; Oct. 8.88; Dec. 9.01; Jan. 9.09; March 9.21.

Houses with Liverpool connections sold some cotton here early, presumably on the differences, and there was scattered liquidation, but offerings were light and the market continued steady after the call. July advanced to 8.71 and December to 9.12, making net gains of about 9 to 11 points at the end of the first half hour.

There was increased buying later in the morning which was encouraged by action of the stock market. July contracts sold up to 8.66, with active months generally showing net gains of about 23 to 26 points and while this bulge met more realizing, the market at midday was within 4 or five points of the best. The weekly weather report read favorably as to conditions in much of the belt but mentioned continued wetness in north central portions and need of rain in much of Texas.

NEW ORLEANS REPORT

NEW ORLEANS, May 17 (AP)—Cotton had a steady but quiet opening. First trades showed no change on near months and 3 points down on December.

The market eased slightly after the start on a little hedge-selling, July dropping to 8.59, October to 8.83 and December to 8.97, or one to three points under yesterday's close.

As the northern market showed firmness and stocks opened higher, prices soon improved with somewhat broader trade buying. July advanced to 8.68, October to 8.92 and December to 9.06, or 9 points on all months up from the early lows and 6 to 8 points above yesterday's close.

Towards the end of the first hour the market was steady and at the highs.

The market ruled firm all morning with moderately fair trading. A sharp upturn in stocks and a more peaceful Hitler address than looked for were the stimulating influences which induced good trade buying and some speculation on the constructive side. July advanced to 8.81, October to 9.07 and December to 9.20, or 22 to 24 points up from the early lows and 20 to 22 points above yesterday's close.

This advance was in the face of a weekly weather report which was considered favorable and in spite of a storm warning in the gulf which was expected to bring needed rains to Texas.

Around mid-session the market reacted 4 to 5 points from the top on profit-taking.

Grain Market

CHICAGO REPPORT

CHICAGO, May 17 (AP)—Grain prices opened higher today on reports of unwelcome rains in parts of the corn belt and adverse conditions for spring wheat seeding in Canada.

Opening 1-8 to 5-8 higher, wheat afterward held near the initial range. Corn started 1-8 to 1-2 advance and subsequently rose further.

REACTIONS

(Continued from Page One)

MacDonald was expected to make a statement before the house of commons indicating Britain's support of the American proposals.

JAPAN EMBARRASSED BY FDR SUGGESTION

TOKYO, May 17 (AP)—A war office spokesman declared today that Japan, because of her present operations in North China, would be embarrassed by President Roosevelt's suggestion that nations should abstain from sending armed forces outside their borders.

"Japan is second to none in loving real peace," he said, "but if the assurance of peace means the maintenance of status quo regardless of circumstances, Japan would be unable to subscribe to the suggestion."

He expressed the belief, however, that Japan might agree not to increase armaments until a proposed conference could be held.

As Brought Over Associated Press Wires Today

Lauds Toothpick

OMAHA, Neb., May 16. (AP)—Dr. C. O. Simpson says he laments the social decline of the tooth pick.

Dr. Simpson, professor of radiodontia at Washington university, St. Louis, spoke at the Nebraska State Dental society convention.

"Hardy pioneers," he said, "picked their teeth with bowie knives. The elite of the '80's carried folding gold toothpicks, and within the past 20 years toothpicks were quite generally served in homes and at public eating places.

"Now they are confined to primitive rural communities, restaurants and dining cars." The proper manipulation of a toothpick, he said, can be extremely beneficial.

Tub Deserters

CHICAGO — Said Lloyd A. Peck, general manager of the Laundry Owners National association:

"Housewives who did their own washing during the depression are now deserting the tubs. There couldn't be a more reliable sign of improving conditions."

SECRETARY WALLACE CAN TACKLE THE WHEAT PROBLEM IN NUMBER OF WAYS

EDITOR'S NOTE: This if the first of five stories explaining powers centered in the Secretary of Agriculture under the new farm act. It deals with wheat—the other basic commodities covered in the act will be treated in future articles.

• • •

BY ROY F. HENDRICKSON
Associated Press Staff Writer

WASHINGTON, May 17 (AP)—More than 2,000,000 farmers grow wheat in the United States. Farm economists say they grow too much of it—more than a billion bushels in 1915—about 800,000,000 bushels in a normal year.

This year 32.2 per cent of the winter wheat area was abandoned, due to bad weather conditions. As a result output may not exceed normal domestic consumption—about 600,000,000 bushels. But a surplus from former years of 330,000,000 bushels is expected to be on hand July 1.

Thinks Prices Too Low

Secretary Wallace, who believes prices for wheat are too low and that production should be reduced, can approach this problem in several ways under the newly enacted farm adjustment act.

He can lease lands to take them out of production. He can levy processing taxes to be collected from millers who would add the charge to the price of flour and feed, in order to defray leasing costs or expenses involved in any other methods to increase the return to the grower.

Wallace can seek better prices by trade agreement with millers and dealers under which he could enforce agreements to pay minimum prices for wheat and to charge minimum prices for flour.

May Pay Farmers

He can use proceeds from processing taxes to pay the farmer an additional sum for each bushel he markets without requiring any cut in production.

But because Wallace is convinced that a reduction of output and higher prices must go hand in hand if the price is to be permanently improved, his approach is expected to center about the use of the voluntary domestic allotment play

This plan has been worked out in detail by two men, Professor M. L. Wilson of Montana State college and W. R. Ronald, Mitchell, South Dakota, newspaper editor.

Many Ramifications

In its detailed form the plan has many ramifications. In essence, it is aimed at rewarding the grower who reduces his output of wheat from former years by paying him a "benefit" on that portion of his crop needed for domestic consumption. The rest of his crop would be sold at the world price as would all the wheat of farmers who do not participate. The benefit would be paid from the proceeds of processing taxes which would be levied on all wheat used from flour and other products required for domestic consumption.

Wallace does not intend to "dictate" the use of this or any other method. He intends that the plan employed for wheat shall be worked out by representatives of processors, growers, handlers and others and to be a plan on which a majority of interests will agree.

A formal commodity meeting at which this plan will be analyzed will be held in a few weeks. While he is uncertain that any plan can be put into effect dealing with wheat planted this spring, Wallace hopes to have a method adopted in time to apply to the winter wheat crop sown in August and September for harvest next year.

RELIEF PLANS ARE CHANGED

ALTER REGISTRATION METHODS IN COUNTY WORK PROGRAM

A new method of registration of unemployed persons will be used by the Lubbock County Work Relief committee upon receipt of newly drawn blanks for that purpose, the committee announced last night. Payment of a three-day payroll last night had nearly exhausted the fund on hand, the committee said.

About 100 men were given three days work last Saturday, at $1.50 per day, closing Tuesday night. Balance left after the pay day on Saturday was $487.74.

Has No Information

The local committee has "no information regarding when new funds will be obtained," it was said.

The committee has been instructed to reregister every one entitled to relief. The Texas Relief commission announced new forms which the commission is completing and which will eliminate half of those now on the rolls. The local committee has ordered these forms and they were expected today or tomorrow.

Just as soon as the forms are received registration will start. Case records for Lubbock alone number 1,371 cases. An average of 855 persons received employment through the R. F. C. and in April between 550 and 575 active cases were reported.

Lubbock county in April only received $4,000. Because of this limited amount, only this number of persons were aided. The figures of active cases are for the city of Lubbock alone and do not include persons on the rolls in Slaton, Shallowater or Idalou.

Italian Air Armada Will Fly to Chicago

A mass flight of 20 planes from Rome to Chicago will be one of Italy's contributions to the Century of Progress Exposition. The flight is scheduled for late May. The map above shows the scheduled hops by which the fleet of seaplanes will span the Atlantic. At the right is Gen. Italo Balbo, who will lead in the 6300-mile jaunt. At the left is one of the planes.

PLAN MASONIC FEED

LEVELLAND, (Special)—Hockley county Masons will be the guests of the Levelland lodge the night of June 2, it was announced here. A barbecue is being arranged. Ladies will be invited and the Levelland High school band will give a concert.

HELD ON THEFT CHARGE

LITTLEFIELD, (Special)—A man giving his name as Wilson Jones, of Arizona, is in the city jail here facing a charge of the theft of mules from Bill Starkey, who resides near Center. Jones was arrested at Hereford two hours after the theft was reported to Sheriff Ben Irwin.

LITTLEFIELD, (Special)—A. A. Anderson was named city marshal of this city, to act as night watchman. No officer will be selected for the day work for the present, because of financial conditions.

OPERATE ON PASTOR

O'DONNELL, (Special) — Mrs. Pearl Keeton, pastor of the Church of the Nazarene here, underwent both a major and a minor operation in a Lubbock hospital recently. She is expected home soon. During her absence Rev. W. G. Poole is in charge of the church work.

LAMBS IMPROVED

ST. PAUL, Minn. (AP) — Thirty three per cent more lambs bringing packer top price last year was the result, say state university farm officials, of the state-wide lamb grading campaign carried on by state and county agricultural extension services.

Kansas City is the birthplace of the Beery brothers, Noah and Wallace.

"Swimming" of the ... From Constipation

"I used to suffer from spells of swimming in the head," writes Mrs. Carrie Brown, of Meridian, Miss. "Everything would go 'round and 'round. When I stood upon my feet, I would be almost blind with dizziness. My stomach was upset. These spells, I believe, came from constipation. I suffered torture from the effects.

"My mother had taken Thedford's Black-Draught for a long time, and she suggested that I try it. While I was feeling so bad, I took half a teaspoonful, put it in some water and took it. I found it was just the thing to relieve the suffering from constipation. Now I always keep it in my house. I take it whenever I need a laxative.

"I have used Black-Draught in my home now for twelve years, and find it is a great help in keeping my family in a healthy condition."

MRS. ROOSEVELT TO MAKE AIR TRIP ACROSS CONTINENT TO SEE HER SON

BY BESS FURMAN
Associated Press Staff Writer

WASHINGTON, May 17. (AP)—A sky trip across the continent and back to see her west-coast son Elliot in Los Angeles is the next big adventure for Mrs. Franklin D. Roosevelt.

That is, if you don't count having a permanent wave to do honor to the occasion when she sees her east-coast son Franklin, captain of the Groton crew, racing for the honor of his school.

To prepare for the two trips she swept her social slate clean Monday with a gigantic garden party—a thousand guests on the White House lawn.

The race in which Franklin, jr., will figure takes place next Saturday, and Mrs. Roosevelt, with her son, James, and his wife Betsy, will motor to Massachusetts to watch it. The permanent wave will be obtained in New York en route to Groton—there never being time in the White House schedule for such an event.

The cross-continent flight, Mrs. Roosevelt announced, is planned for "the first days in June, probably the second or third," which would make it just another week-end jaunt.

Brief indeed will be her west coast stay—merely to see with her own eyes her son on his new job—it's with an air company—to have a jolly time with him and his chum Charley Seaver, and briefly to visit with her friend Isabel Greenway, of Arizona, in a Los Angeles hotel.

Mrs. Leona Rusk Ihrig

HOW TO USE THE THERMOSTAT ON YOUR COOK STOVE

Directions:

Using the Thermostat is as easy as setting a clock. You simply light the oven burner in the usual way, then set the indicator of the Thermostat at the point prescribed on the guide.

When a temperature of less than 425 degrees is specified, wait 10 minutes for the oven to heat, then put in the food. When a temperature of 425 degrees or higher is specified, wait 15 minutes before putting in the food. The reason for this preheating of the oven is to allow the oven to attain the temperature specified. Food should never be placed in a cold oven. The time required for preheating will vary according to the character and pressure of the gas, but the time specified above is given as a good, safe average. FOR BROILING: Set the Thermostat at 550 degrees or at the point on the dial marked "for Broiling."
