NUMBER 24.

CHAUTAUQUA OPENS NEXT WEEK

Next Friday afternoon, July 27, the Chautauqua will open with their first number. The Radio Orchestra will entertain the people with a concert.

There will be an entire change of program each afternoon and night for the whole five days.

A meeting of the Chautauqua directors on Monday night, the following officers were elected:

Wilson, President.
Nellie Perry, Secretary.
B. Rogers, Treasurer.
Mont Meade, Chairman Ticket
Littleton, Chairman Grounds
Jack Allen, Local Junior Supervisor.

CHAUTAUQUA TO HAVE HOSPITAL

F. W. Huddleston of Liberal was Monday and Tuesday of this week and has closed a deal in which he will get the residence across the street from H. C. Coffee's residence which will be remodeled for a hospital.

There will be two trained nurses in charge and Dr. Huddleston will be on duty one or more days every week.

It is one thing we certainly do not want here as we were too far away from any hospital, and we certainly appreciate having such doctors as Huddleston in charge.

RUSSELL TO HOLD JERSEY COW SALE

Next Saturday afternoon at two o'clock J. A. Russell will sell a carload of purebred Jersey cows at Lilly's.

Russell says these are some of the best purebreds and milkers that have been in the country. He will have several Jersey Heifers and Jersey Bull for sale.

Ed Littleton will do the auctioning and the First National Bank will be the clerk. Mr. Russell is giving twelve months time on stock.

PERRYTON GUN CLUB

The regular shoot on last Sunday afternoon the high five men a total of 106 birds out of 125. High men were Lewellen, 22; G. Coffee, 21; M. Coffee, 20.

THE PANHANDLE HERALD CHANGES OWNERSHIP

Mr. J. Sid O'Keefe, publisher of the Panhandle Herald, last week sold his paper to Hon. Lee Satterwhite, representative in the state legislature from this district.

Mr. Satterwhite formerly owned and published the Herald and is well and favorably known in this section as a newspaper man. We feel sure that he will receive the hearty support of his former patrons, and wish him unbounded success.

A. T. Millick of the Kansas City, Missouri Union Equity Grain Company was here the first part of this week attending to some business of the Wheat Growers Association.

MAKING MONEY GO A LONG WAY

George Washington, it is related threw a silver dollar across the Potomac River. At the spot where the feat is said to have been performed, the stream is approximately a mile in width. But, admittedly, a dollar went farther then than now.

You can make your dollar go farther than it otherwise would by reading the advertisements. Guided by advertising, you buy merchandise of established reputation. If it's clothing you know how well it should wear and what the style should be.

It pays to read advertising. It will save you time, money, and effort. It will help you dress better, eat better, sleep better and live better.

Make every dollar travel far. Read the advertisements.

R. L. TEURMAN FALLS FROM A WINDMILL

Last Saturday afternoon while up on his windmill tower fixing his mill R. L. Teurman in some manner lost his hold and fell to the ground, 34 feet below.

Mr. Teurman received a dislocated shoulder, one broken rib and severely bruised back, but at this writing was getting along fine.

CARD OF THANKS

We wish to express our sincere thanks and appreciation through the columns of this paper for many kind deeds that our friends and neighbors bestowed upon us during the sickness and death of our baby.

Mr. and Mrs. A. C. Spangler,
Mr. and Mrs. H. K. Smith,
Mr. and Mrs. W. L. Smith.

WHAT THE PRESIDENT WILL SEE

The president will see about everything that is "visible" in Alaska, for that is the prime purpose of his visit. And there will be a great deal to see in this "Ice Box" of Secretary Seward, an empire in itself, with its area of 586,000 square miles, approximately five times that of Missouri and Kansas combined.

He will see a country with a coastline 4,750 miles long, or, if the innumerable bays, islands and inlets are included, 26,000 miles long. Along the "Panhandle," in southern Alaska, the thermometer rarely goes below zero or above 75 Fahrenheit. East of the mountains, the temperature ranges from minus 14 to 92. In the interior the summers are warm, but the winters become more severe.

He will find vast fishing grounds where herring and cod are abundant, and he will find regions where the number of fur-bearing animals is large.

Sables, ermines, wolverines, minks, land otters, beavers, black bears, grizzlies, polar bears, kadiak bears, glacier bears, and the gray wolf, red fox, white fox, blue fox, and black fox, and whale and the walrus and the sea otter and the fur seal are still to be found.

The judicious development of this wonderful country, without exploitation by the "grabbers," involves problems of vital concern to the whole country and the president's trip is certain to result in an equitable solution which will amply justify the trip.—Kansas City Post.

HOME-TOWN COMMANDMENTS

Thou shalt honor thy home town with a neighborhood house. Thou shalt meet thy neighbors there on equal footing. Thou shalt work with them there for the common welfare. Thou shalt play with them there with all thy heart and strength and mind. Thou shalt know thy fellows better and friendships shall multiply.

FINE RAIN LAST FRIDAY NIGHT

Ochiltree county was visited by a fine rain last Friday night which amounted to about half an inch of moisture. It certainly did come in good time, as the row crops certainly did need it.

And Sunday night, west and south of Perryton had another good rain.

E. L. Whippo was in town Monday on business.

Gould Myers was a shopper here last Monday.

PERRYTON HIGH SCHOOL AFFILIATED IN 8 UNITS

The following two communications from the State Department of Education, received since the close of school, are self explanatory and are of particular interest to the High School students and to the patrons in general. It will be noticed that the school has been given first classification and, at the same time, has attained eight units of affiliation. When it is remembered that this standing and recognition was accomplished during one term of school, the record made during the past year can all the more be appreciated. Ordinarily it takes one year to classify a school and another year to start on affiliation. Both the teachers and the students of the High School should be commended for their excellent service and for the hard work they have done.

It will be noticed that the subjects for which affiliation was given are fundamental subjects in which all of the graduates of the High School will participate. If as good a record is made next year as has been made this year, the Perryton High School will be fully affiliated school in every way and those graduating will be received into any college or university without examination.

L. L. PRICE,
Superintendent.

State Department of Education
Austin, Texas, May 16, 1923.
Supt. L. L. Price,
Perryton, Texas.

My dear Mr. Price:
Enclosed you will find a certificate recognizing the Perryton High School as a high school of the first class. Allow me to congratulate the community on this evidence of educational progress.

Sincerely,
A. W. EVANS,
Chief Supervisor of High Schools, Department of Education.

June 10, 1923.

From the report of the supervisor who visited your school, and from the organization of your courses and from the material and exhibits submitted, affiliation is granted to the Perryton School as follows: English, 2 credits; Ancient History 1 credit; Modern History, 1 credit; American History, (Conditional); Algebra, 2 credits; Plane Geometry, 1 credit.

(Signed) A. W. EVANS,
Chief Supervisor, High Schools.

ONE EDITOR'S SCHEDULE

We recently came across a schedule of prices charged by a country weekly editor, who offers to give a per cent of his earnings each year to founding an asylum for those feeble-minded people who believe that an editor has a soft snap. Here is the schedule—read it closely:

For telling the public a man is a successful citizen when everybody knows he is as lazy as a hired hand—\$2.70.

For referring to some gallivanting fellow as one who is mourned by the entire community, when he will only be missed by the boozers—\$10.18.

Referring to some gossiping female as an estimable lady whom it is a pleasure to meet and to know when every man in town would rather see satan coming—\$8.10.

Calling an ordinary preacher an obiturn divine—60 cents.

Lambasting the daylight out of John Barleycorn at the behest of the dry forces—\$6.77.

Whooping 'em up for the recall of the Volstead law in the interest of the members of the local Funnel Club—\$6.77.

Attorney Jack Allen and wife recently returned from California and while there visited in the home of James D. Wyman and family of South Pasadena and also visited William Redding and family of Glendale. Mr. Wyman is building a handsome new home in Santa Monica a few blocks from the Pacific ocean and it will soon be ready for occupancy. While visiting in the Redding home picking peaches and apricots from their large orchard was a great delight. Both the Wyman and Redding families formerly lived here and their many friends will be glad to learn that they like California and are enjoying happiness and prosperity.

SAVING THE MOISTURE FOR YOUR WHEAT CROP

"Now that all of the wheat belt of the Southwest has had an abundance of rain and many fields will not be planted to anything this season, it is an excellent time to begin plowing or listing to kill the weeds and save the moisture for a wheat crop this coming year."

The foregoing statement has just been issued by H. M. Bainer, director of the Southwestern Wheat Improvement Association, at the conclusion of an extensive trip throughout much of the wheat territory of the Southwest.

Mr. Bainer continued to say "Land that can be plowed between now and August 1 and all weeds kept down will be the same as summer fallowed. There are thousands of fields in the Southwest growing to weeds where the recent floods or last winter's drought killed the wheat. These fields are all well soaked and carry an extra supply of deep moisture; but the weeds will draw out the moisture rapidly, and in a few weeks the greater part of the moisture will be gone. It is claimed on good authority that one big weed in its development will use a barrel of water. And while the weeds are drinking the moisture, they are also using plant food.

"Listing is as good as plowing for wheat, providing the weeds are not too large and can all be covered, and also providing the ground is relisted and leveled soon thereafter. For best results some sort of packer should follow the plow.

"Early plowing has always shown an increased yield of wheat per acre, and if it can be done now it will cork up a good supply of this accumulated moisture and make more plant food available, thus practically assuring a wheat crop next year. Ground that is plowed now should be double disked lightly, or should be harrowed about twice between the time of plowing and the time of sowing, just enough to keep down weeds.

ARE YOU READY FOR THE CANNING SEASON?

In preparing for the summer campaign of canning, too much emphasis cannot be laid on the advantage of having a full line of sizes in preserving kettles of enameled ware, which is not effected by the acids in fruit juices. In always having on hand just the right size of kettle for a certain piece of work, there is economy of labor, fuel and material. From three to four sizes of kettles will be found ample for most families. Where the family is not large, a good-sized saucepan will be found useful for putting up small quantities of fruit or preparing left-over juices. The adjuncts of canning should not be forgotten. Enameled ware skimmers are invaluable. The enameled ware dipper or ladles with their long handles are a great help and the big enameled ware spoons for stirring the cooking fruit would never willingly be dispensed with. To have these utensils on hand, to be sure they are all in good condition is to have begun the canning operations under the best of auspices.

COUNTRY MAN'S AUTOMOBILE

Many people seem to think that the possession of great numbers of automobiles by the country folks is a sign that they are making a lot of money and that the difficulties that the farmer is supposed to encounter are largely imaginary. Many living in outlying districts, however, can testify that the automobile is an absolute necessity for them. With their old team of horses is might have taken them a day to get to the market town and back again. But with the automobile, they can usually do it in half the time. Time is worth a great deal of money to the farmer now, with the high prices that must be paid for help. Gasoline and tires, on his fliiver are cheaper than the pay of a farm hand. But when the use of an automobile is abused the upkeep overbalances their usefulness.

Mrs. R. B. Harnel of Houston was here last week visiting at the home of her sister, Mrs. J. M. Bull.

Mr. and Mrs. E. H. Williams are visiting friends and relatives at Medicine Lodge, Oklahoma this week.

AMENDMENT ELECTION HAS BEEN CALLED OFF

J. M. Grigsby, county judge, has received official notice from Lieutenant Governor W. T. Davidson, acting governor in the absence of Governor Pat M. Neff from the state, that the election called for July 28th, to vote on the amendment putting the designated highways under state control and maintenance, had been annulled because of the question concerning the legality of the election. It is claimed that the secretary of State failed to give the published notices the sixty days time required under the constitution. The first publication should have been made in May, but the notices were not issued until June.

INVESTIGATE BEFORE YOU INVEST MONEY

Your well-earned savings are worth keeping and guarded against a poor investment. Beware of the rapid-fire stock salesman, and his easy and oily promise of making you rich quick. Don't put your savings into any stock or loan proposition without having it investigated. If you are asked to buy stock in a proposition you know nothing about, we suggest that you turn the name of the company and salesman over to your banker, and he will look into it for you. Investigate, before you sign for an investment.

BUSINESS SECTION OF TOWN IS BURNED

One of the largest fires that has ever occurred in Boise City, was looked upon Monday morning.

The origin of the fire is not known but it is supposed by the people of this vicinity to have started in the residence house of Bent McGowan in the north part of the block and was fought against the wind until it had burned its way through.

The fire had gained so much headway before anyone knew about it that very little was saved.

The creamery and poultry house and Blue Goose Cafe was completely destroyed, nothing saved, and no insurance. The men succeeded in saving some merchandise from the Mercantile Store. We understand very little insurance was carried on this building.—Cimarron News.

THE ROMANCE OF EXPLORATION

Who said that the romance of exploration is dead, that there remain no worlds to conquer? Here is Captain Edward A. Salisbury just back from a tour of the world, made mostly in an eighty-three-ton sailing yacht and he has experiences to relate as interesting and as thrilling as anything that ever befell Captain Cook.

Perhaps general attention will be more especially focused on the account given of Andaman Island. Here the natives are a race of nomadic pigmies, living in jungles, among whom crime is almost unknown and the only punishment for it, when it is committed, is the disdain of their fellow tribesmen. Such harmony prevails that a domestic fight is considered an event of national importance and causes all the natives to turn out. They live principally on turtles, which they hunt from canoes paddled by women.

When Captain Salisbury comes to write the inevitable book, he will have a tale to tell which in Sir Philip Sidney's words, will lure children from play and old men from the chimney corner.

THE FRIENDLY SPIRIT

The friendly spirit is something worth cultivating. Such a spirit is a compliment to any town, when people can say of Perryton her people are courteous and sociable.

Just this week we heard a man say that the people of Perryton are more sociable than they used to be, that there are less of the clannish and special society than there were a few years ago. You don't hear much more about the "400 set" in Perryton, said this same man. Can a higher compliment be given Perryton?

The big things we want to happen sometimes fail to happen unless there is someone pulling and pushing. Perryton is now working along the pulling and pushing lines as never before. Glory be!

HEAVY LOSSES OF THE WHEAT FARMERS

Pressure from creditors is compelling farmers of Nebraska, Iowa, Oklahoma, and in certain districts of the Middle West to sell their wheat at prices ranging from 70 to 90 cents a bushel, although this figure is well below the cost of production. As the farmer's dollar is worth only 60 cents, compared with 1913, the loss to the producer of wheat is even larger than appears to be at first glance. Recent reports of the Department of Labor and the Department of Commerce reveal no decline in the prices of commodities the farmers have to buy—sugar, groceries, clothing, furniture, paints, hardware, implements, etc. On the contrary, these necessities are growing costlier and in the case of many—notably the articles comprehended in the "building materials"—have risen two and three times higher than agricultural products.

ROAD NOTICE TO NON-RESIDENT LAND OWNERS

State of Texas, Ochiltree County: ss. We, the undersigned Jury of Freeholders, citizens of said Ochiltree County, Texas, duly appointed by the Commissioners' Court of Ochiltree County, Texas, at its May Term, 1923, to view and establish a First Class 40 Road as hereinafter designated and having been duly sworn as the law directs, hereby give notice that we will, on the 11th day of August, 1923, assemble at Beginning of said road and thence proceed to survey, locate, view, mark out and establish said road, Beginning at a point in the north line of survey six in block four in Ochiltree County, Texas, due south of the southwest corner of the Hickman Headright, in same county. Thence due north to the said southwest corner of said Hickman survey; thence due north along the west lines of the Hickman, Tomlinson and Edwards Headrights or survey to the south line of survey 14 in Block Z. The foregoing line described being the east line of said 40 foot road to and including this point, Said point being also the N. W. Corner of the Edward Headright.

Thence due east along the north line of the said Edwards Survey to the Southeast corner of survey 14, in block Z. Thence due north along the line between the said survey 14, and survey 5, both being in block Z. The line described from the northwest corner of the Edwards survey to be the center of said 40 foot road. Also; a road from the point last above described, being the N. E. Cor. of Sec. 14, Blk. Z, thence due west along the north line of the State of Texas 1 1/2 mi., or approximately that distance to connect with a public road running from in the State of Oklahoma to the State's line. Said road to be Sixty Feet wide and the north line of said road to be the State line of Oklahoma and the east end to extend to the east side of the road first above described. And we do hereby notify any and all persons owning lands through which said road may run, that we will at the same time proceed to assess the damages incidental to the opening and establishment of said road, when they may, either in person or by agent or attorney, present to us a written statement of the amount of damages, if any, claimed by them.

Witness our hands, this 23rd day of June, A. D. 1923.

DELICIOUS VEAL BY-PRODUCTS

Among what might be called the by-products of veal at this season of the year are sweetbreads and tongue. Sweetbreads can be either an expensive luxury or one of the cheapest forms of food, depending on where a housewife lives. In a city sweetbreads always command a good price, but a country butcher is glad to get a quarter for a pair and not infrequently will give them away.

Take the sweetbreads and wash carefully. Put into an enameled ware saucepan just covered with boiling water. Cook until parboiled. Take out of the water and, when cool enough to handle, skin and remove the little threadlike artilages running through them.

In an enameled ware double-boiler make a white sauce of milk thickened slightly with flour and butter rubbed together. When the sauce is ready cut the sweetbreads in small pieces and coog in the sauce until thoroughly done. Season with salt and black or red pepper as may be preferred. This makes not only a delicious but very nourishing dish.

Fresh tongue is often to be had for almost nothing from a country butcher. Parboil that as was done with the sweetbreads except remember to add a heaping teaspoonful of salt to the hot water. Skin and trim carefully when cool. Then return to the enameled ware saucepan, cover with hot water and cook very slowly until perfectly cooked through. Spinach is very good served with the tongue. Should cold tongue be preferred, grated horseradish sauce will be found an addition.

SEVEN DAYS' WORK

Seven days' work a week is good for nobody.

When a notice was recently published about a railroad employee who had never missed a day's work in fifty years, including Sunday and holidays, B. C. Forbes was not impressed. He asked the question, "How far did he get?" The answer, of course, was that he had never gotten very far.

The old rule, "Six days shalt thou labor and do all thy work," is not primarily a religious one. It is one of the best health rules and success rules ever devised.

WEBER WAGONS

WEBER GEARS—Between Roads and Load Over, rough, muddy or frozen roads, the heavy load jolts along delivering mighty blows to the axles and bolsters. Unless these are made of carefully selected material and are well ironed, they are likely to give away under the crushing blows of heavy loads. Weber gear parts carry their loads over the roads with less breakage and wear because of the careful attention and inspection that is given them during their manufacture.

WEBER WAGON BOX—Best Quality Material. Realizing that a wagon box is called upon to withstand a great deal of severe use, the builders of the Weber have given the same careful attention to the box construction that they have to the gears.

the best goods will not, as a rule,
reach the public. And without hon-
est goods, advertising will bring no
permanent success—nor will any other
operation. But together they make
an unbeatable team.

Where There's a will—there was a
way to make money.

If we just had our own way for
awhile we would make more money—
But would we?

Take farming—it has been proved
beyond a doubt that better livestock
pays. Especially do pure bred hogs
have it all over the "scrubs" as mon-
ey makers.

Yet Ochiltree county has plenty of
room for more pure bred hogs.

Which means that SOMEONE isn't
making the most of his opportunity.
And if you are that "someone", we
can help you get started by loaning
you money to finance the introduc-
tion of better stock on your farm.

In fact, let the Perryton National
Bank handle all of your finances, you
will find that it pays.

CHICAGO RADIO ORCHESTRA.

The Chicago Radio Orchestra will be the opening day musical attraction at our Chautauqua. The personnel and instrumentation of this excellent playing organization consists of Fannie Weinstock, first violin, Armand Roth, second violin, Valborg Lillegord, cello, Maude Delst, cornet, Lucy Westgate, flute, and Clarence Zalkkoffer pianist. All are splendid musicians of many years' experience. Their program is planned to please all lovers of music, embracing the most interesting of the orchestra classics, and plenty of the lighter popular numbers. Miss Westgate is also a very pleasing reader and entertainer.

THE WRONG PICTURE

It seems ridiculous to hear politicians and labor agitators get up and tear the air expounding on the fight between labor and capital. To hear their speeches and public utterances, an un-informed person would have a vision of the wealthy men in this nation hiding behind breastworks of money bags fighting off starving millions who are trying to scale this wall of gold.

In the next breath, we read in our daily papers that rich employer in New York has turned over his clothing business to a few employees. Automatically these employees must become the hated capitalists and take their places behind the barriers of gold, which in turn the workmen they hire will strive to tear down.

Is not this the wrong picture to flash constantly before the eyes of millions? Is not a capitalist any individual who has saved fifty dollars and through wise investment, either in a peanut wagon, a bootblack stand or an industrial or government bond, caused that money to earn more dollars?

Is the man who saves one hundred dollars which he puts in a public utility or a sawmill property, when, with money contributed by hundreds of other like himself, it employs thousands of people at good wages, a bad citizen? Yet he is a capitalist just as truly as the man who invests a hundred thousand or a million dollars.

When there is removed the incentive for the man who has one hundred dollars to increase that amount to one thousand and then to ten thousand dollars, and so on, there is also removed the chance of reward that is the stake for which the average able-bodied American strives.

The majority of capitalists today started as hand workers, and yet, according to the radical politicians and labor agitators, the salvation of the country lies in denying to others the chance which these men had to benefit themselves and, incidentally humanity in general through the modern conveniences they have given to the humblest American citizen.

Chas Orr of east of Ochiltree, was a pleasant caller at the Herald office last Saturday and says he got a fine rain in his neighborhood Friday night.

F. M. McGee of Webb City, Oklahoma, is here this week looking after his property here. "Fount" is in the drug store business at Webb City.

R. E. Harmond of Wawaka was a pleasant caller at the Herald office Saturday and while here had his date on his paper moved up a year.

Hands Quicker Than Eye.

After seeing Kater at our Chautauqua one would hardly play the shell game at the circus or gamble at cards, for Kater demonstrates to the fun of an audience that the hand can be quicker than the eye.

CAMPING DE LUXE

It is a far cry from the camper of early Texas days to the camper of 1923. The average camper takes along enough "junk" on his annual outing to have supplied a small army of Texas pioneers who knew what life in the open really meant.

The camper of today is a sort of camper de luxe. He carries along a tent, a refrigerating plant, gasoline stove, a folding bed and enough bedding for a small hotel. He has a lantern or an electric flashlight or both, an array of knives and forks, spoons and tableware including plates, cups and saucers, paper napkins and shades of the pioneers—even a tablecloth and a folding table! Who could not go camping that way?

Less than half a century ago, the forbears of the campers of today knew what life in the open really meant. They carried one blanket strapped to the back of the saddle if the weather was cold and they had the blanket handy. They took along a rifle and they counted on that rifle feeding them until they got back. A Bowie knife was their cutlery and if they felt very prosperous, they might add a little flour or meal in a sack tied to the saddle iron. Thus equipped they fared forth afraid of no man and fearful of no hardships. They made such shelter as they found at hand when it rained and slept peacefully at night on hard ground and enjoyed it.

TWO APPETISING SAUCES

Enameled ware, always useful, is never more appreciated than when preparing some dish which depends not only on its flavor, but also on its pretty coloring for its success. The porcelain-like surface of this ware will not darken nor change the most delicate shades.

Here are two pretty sauces which are especially good just now. The first parsley sauce is excellent with that cheap cut of veal called breast of veal. Cook the veal slowly in an enameled ware saucepan, drain off all water carefully and cover with the sauce. Put a cup of milk in an enameled ware double-boiler; as it warms add a pinch of salt and thicken slightly with either farina or cornstarch; when hot add a cupful of parsley cut very fine. Let all cook until the parsley is perfectly tender. This delicate green sauce is always appreciated.

Another green sauce is good either hot or cold. Take two or three sup-pis of the common sorrel that grows in every yard, wash and crop very fine. Place in a small enameled ware saucepan, add a cup of hot water and cook very slowly until it is a smooth paste. Those who find the sorrel alone too acid can add a little spinach. This sauce is especially good with rather rich, fat meat such as fresh tongue.

We thank all the people that are using Home Flour. We are now getting the best equipped mill in this territory and our flour is better than ever. Try a sack. \$1.50 at stores or at Mill. 23-tf-c

NEW HOPE NEWS

(Too Late for Last Week.)

Everybody is busy with harvest now. We haven't got the harvest we had last year, but barley and oats are good.

Bro. Hitchcock, and two daughters, and Judge Grigsby went to Farnsworth Sunday, where Bro. Hitchcock preached and then motored to W. G. Year's to visit with Grandpa Cook who is in ill health.

The Judge told Grandpa all about the oil well, and from his talk the well can't be a failure. It will be a boost to the country if all the Judge told will come to pass.

Milam Cudd came in last week from Greenville, New Mexico, to help Jess Cudd through harvest.

J. H. Rhodes from Farmington, New Mexico, is here on business and visiting old friends. He spent Saturday night and Sunday with Mr. E. C. Cudd.

Grandpa Cook is still ill from a bad sick spell which he had some time ago. During that time all of his children came to see him. He has one daughter, Mrs. D. A. Abernathy, from Artesia, New Mexico, and Mrs. Sam Crider of Hebron, Texas. The remainder of the children live here. They were all together one Sunday the first time in sixteen years.

A quiet wedding took place June 30th at Liberal Kansas. Mrs. Nora Glaspie, was married to Fred Furnish. Mr. and Mrs. Furnish are well known in the community, and everybody is wishing them a prosperous and happy wedlock.

Wayne Cudd is suffering from tonsillitis this week.

We have decided we will not have Sunday School again until the fourth Sunday, July 22nd. Everybody is busy harvesting and will be through by that time. Bro. Hitchcock will be out. Everybody come.

Seraphine Cain is helping Mrs. Jones through harvest.

C. R. Cudd made a business trip to Perryton Monday.

SWEET POTATOES A LA MARSHMALLOW

Here is a tasty dish that will go well with any luncheon or dinner. If the portions of meat are scanty this will help to make up the deficit. First boil the sweet potatoes in an enameled ware saucepan. Then remove the skins and mash the potatoes seasoning them to taste with a little salt and pepper and putting in a lump of butter about the size of a walnut and a little milk.

Butter an enameled ware baking dish, which will not discolor the potatoes in this, patting them level with a spoon. Now put marshmallows on top and put the dish into a hot oven. Cook until the marshmallows are brown and beginning to melt.
