WOULD BUILD LINE INTO THIS CITY

The Wichita Falls & North-Western Offer Come to this City. Sieps Taken To Secure this Railroad.

Some days ago a letter was received by Major M. W. Deavenport of this city from the builders of the Wichita Falls & North western Rail Road, which has just completed its line into Altus, stating that they had an option through the month of December 1909 on the grade of the Altus Roswell & El Paso Rail Road from Altus to Wellington inclusive, and that the Wichita Falls & North Western people would extend their line from Altus to Wellington, provided the towns from Altus to Wellington inclusive would raise bonuses to the amount of $100,000 and that Wellington's part would be about $35,000. The letter further stated that the company would be glad to meet a comittee of representative citizens from this city on last Monday, in Altus. This committee was appointed, and was composed of Maj. Deavenport, R. H. Templeton and A. V. Cocke accompainied by Sam D. Rude, who went to Altus, and met with this Co, who made the offer above stated, in writing to the town of Wellington.

Now that there is $20,000 already subscribed to the Kenedy project to be paid when the trains are run into this town, it leaves us only $15,000 more to raise in order to get this road.

Upon the return of the committee from Altus a mas meeting of the citizens was called at the court house for two o'clock Thursday afternoon. At this meeting an effort and plan to raise this additional $15,000 was made and discussed, and as a result about $3000 was subscribed and a committee of citizens were appointed to take subscriptions and raise the balance of the amount wanted which it is hoped will be raised by next Monday, that day being the time allowed Wellington to raise the required amount, and at which time the committee will report to the mass meeting of the citizens of the town and county, at the court house at 2 o'clock p. m.

This company does not want a cent of money until they complete the line and establish both passenger snd freight services on the road, and then they will give until October or later if necessary for payment though they expect if a contract is made with Wellington to complete the road and run trains here by June 1, 1910, and very likely sooner.

Hollis and all the towns from there to Altus have already contracted for the road and now it is up to the citizens of this town and county to get up and get this additional $15,000, to get a road. If we sit still and do not secure this proposition we are likely, forever doomed for a rail road; which will mean a heavy decrease in property values in this city and throughout the county.

There are many who have not contributed any thing, who should now show their color if they are interested in the welfare of the town and county, infact it is the duty of every property owner to come up and help those who have already contributed liberally, and thereby have shown that they are interested in the development of the town and county. If we sucure the rail road it will increase the value of every man's farm from $5.00 to $15.00 per acre and it would therefore be to the interest of every land owner to contribute something towards securing this much needed enterprise, yes this most needed enterprise, so when a member of this committee approaches you think well before you turn them donwn, and if they should fail to see you, come in next Monday and hear the report of the committee to a mass meeting of the citizens.

No Paper Next Week.

This issue of the Leader has been rushed ont a little earlier than usual, in order that some of our force might spend the holidays with friends and relatives at a distance and therefore may be a little short on local news. And as it is usual customary with the average county newspapers to take a rest during Chrlstmas by not putting out a paper, we will therefore not put out a paper next week. We therefore wish to thank all Wellington and Collingsworth county for the very liberal patronage that has been accorded the Leader during its past career, and we feel from the many kind words of praise and encouragement that we have by your very liberal support been able to give you a fairly good paper, and if our good patronage is continued throughout the comming year, will continue to give you equally as good if not better paper all along the line; therefore if you want Wellington to continue to boast a good paper patronize us, and at the same time help your own interest.

Again thanking each and all who have in any manner aided us in trying to publish a good paper, will extend to all a most happy Christmas and a pleasant and profitable year throughout 1910.

A Noble Outcast.

The above play was pulled off according to announcement and was a grond success in every particular. A resitation by Miss Anna Jackson was also enjoyed by all present.

Mrs. Sam Neeley who has been visiting Mr. and Mrs. T. A. Keith for the past three weeks will leave today for Chillicothe her home.

THE BRASS BAND HAS BEEN ORGANIZED

With Messrs. Thomes Bros. the Organization is Completed With Sixteen Charter Members.

And the band is an assured fact for Wellington. It has been organized with some fifteen or twenty members. Instruments have been ordered and we shall soon see the uniformed and instrumental ones playing Dixie and other favorite airs, on our street corners.

The band has acted wisely and elected some directors. This is a splendid scheme; for nothing can thrive without some one to lead. With competent directors a band can accomplish wonders.

This band, we feel sure, has competent and experienced directors in the Messrs. Thomas' One of these gentlemen has for some time lived with us. He has inspired the respect of his fellow townsmen as a stirling citizen and he will easily comand a good following in this line. Likewise of his brother, who lives a few miles north and who will in the near future become, too, one of our townsmen. He will be welcomed among us and his talents, we are sure, will be appreciated.

Let all Wellington fall in line with this movement. Let the band progress. Let them be in good shape to welcome the first train which will soon be rolling into Wellington.

$23,000 Worth Property Sold.

Since our last issue realty values have been soaring a little and dealers quite active. First came the sale through Pritchard Bros. and Brown, of 200 acres of T. J. Graham's fine farm one mile south, to Messrs. Rude and Pigg, at the handsome price of $45.00 per acre. Now this price may seem a little high to some, but we venture the assertion, that the new purchasers will be able to dispose of the property in less than twelve months for a handsome profit, should they so desire. We are indeed proud to see such men as Messrs. Rude and Pigg have so much faith in the future of Wellington.

Next we learned that L. H. Stall had sold his fine 320 acres lying just across the fence east of Mr. Graham's place, to Mr. Worley for $40.00 per acre. It has been but a little more than a year ago since Mr. Worley purchased a section of land at about $30.00 per acre, and which he sold a few weeks ago at a nice profit, and we predict that he has made equally as good deal this time.

Next we learn that a deal is on foot whereby J. W. Swearingin sells to R. J. Williams 100 residence lots, we understand for about $2,000 for entire bunch, and no doubt this is another deal in which the new owner will profit.

We also learn that T. J. Stall has sold to Earnest Scott, his residence property, located near the Methodist church. This is also splendid property. We learn Mr. Stall will soon begin building a new and handsome home on some lots he owns near Dr. Mooney's suburban home.

That this is but a starter of property changes, as to what will happen when the rail road begins to draw nearer, can readly be seen by almost any one.

Dead

We are indeed sorry to report the death of Harve Maples which occured last Sunday night. The deceased has been suffering for many months. We extend sympathy to the bereived relatives.

TEACHERS' INSTITUTE PRONOUNCED SUCCES

After an Address by School Superintendent, Judge Duke, the Organization was Completed.

This week has witnessed an interesting and profitable gathering of the pedagogues of Collingsworth county. Some thirty or forty have been here in regular attendance. The program had been prepared previously. Those who were on served their parts well. Every day has witnessed a varied feature in the program. Sometimes the work would move along in the regular academic way, and sometimes it would rise to oratorical flights when thoughts would soar on eagle's wings into regions unknown.

We are told there has been some hot air, but that as a rule the discussions have been profitable. Of course there can be no gathering of people where educational qualifications or discussions are held without some little gas. It is natural to the human race. It is really good for us. It is spicy and juicy. It affords a change and rests us for something real and tangible. Nor has the fun been left out, as we are told. Every country has its Washington. Every country has its Websters and its Clays. But we wonder whether every Teachers' Institute has its Baker? We had the good opportunity to attend one of the discussions on Wednesday night, and we must say that Mr. W. R. Baker capped the climax of all. We listened that night to an able discussion on Compulsory Education by several efficient teachers, but when Mr. Baker arose to reply to the various discussions, his dexterous handling and combining of the ridiculous threw the audience into convulsions of laughter and kept it so until he sat down. We do not doubt Mr. Baker's ability as a teacher, but we dare say he would make an arousing success as a platform lecturer. We have heard humorists galore, but we have never heard his equal. We have no wonder the Institute has been declared an enjoyable affair.

We are told that the Institute is a marked improvement over any previous ones held here. There seems to be a considerably larger number ready and able to discuss extensively the various questions brought before the body. We are informed that heretofore only a few have had to lead and bear the burden of the work. Now nearly all do this.

A marked improvement, indeed, do we believe this to be. It shows Collingsworth county is growing educationally as well as otherwise. This is a good sign. Let us so grow. Nothing better could happen than to have good schools, and when we have good teachers we have good schools. These Institutes improve the teachers wonderfully. We hope this county will continue to develop and train good teachers. They are the kind of people we need in the country for the betterment of our youth.

The organization of the Institute took place immediately after the address last Monday morning by the County Superintendent, Judge J. K. Duke. Mr. W. N. Benson was elected chairman and Miss Hudsen was made secretary. Various committees were appointed and the machinery of the affair, we are told, worked on smoothly without greasing.

The Grand Jury in Wichita county returned thirteen true bills some days before adjournment, twelve of which were felonies. Collingsworth county Grand Jury only found one bill after remaining in sesson five days. It is likely that Wichitas many saloons aids in the course of crime. The good people of that county are trying to secure an election for some time in January, the purpose of which is to vote out the degrading saloon. Here is hoping the pros win.

J. C. Stephens and J. B. Somerville and wife, left this week for Wolf City to visit relatives.

Mr. and Mrs. Chas E. Painter left this week for Rule to visit relatives.

Mrs. M. F. Hunter and son left Monday for Graham, Texas, to spend Christmas.

Fred Allgood left this week for Ft. Worth where he will attend Draughon's Business College for the next few months.

Wellington Telephone Co.
J. M. McDaniel, Mgr.

In almost every other line of business the employe is treated with more consideration than in the telephane business. In a store, if the clerk is busy the customer will wait any length of time to be waited upon, and furthermore he will show her every mark of kind consideration and sympathy when he see that she is rushed and has more than she can handle. But if they call up over the phone and are not answered on the instant, they are very indignant and sometimes very abusive, they do not think she might be busy and under the most trying circumstances.

CHRISTIAN PEOPLE TO BUILD CHURCH

At a Meeting of Some Members One Day This Week it Was Decided to Build At a Cost of About $1,200.

The Christian church at this place will erect a building right away. At a meeting of the trustees one day this week the lumber was purchased and arrangements perfected for the carrying out of the plan.

The building is to be located a few blocks west of the square while a modest little house, will be another boon to Wellington and good citizenship. We are proud to see such institutions going up. They enlighten and elevate us, They lift us from the weary toils of life into a better atmosphere, where in holy communion with Him who created all, we can enjoy that fullest and most perfect life. Let more churches go up, Let us encourage such institutions. Wellington is progressing in many good directions.

In mentioning T. A. Glenn for Treasurer in another column a typographical error was made, in stating that Mr. Glenn "is thought to be qualified to fill the office, it should read, he is thoroughly qualified". We make this correction, because we mean to treat each and all alike.

FAMOUS MERCANTILE CO.

The Wellington Leader

THOS. DURHAM, Editor.

PUBLISHED EVERY FRIDAY MORNING

Entered as second-class matter Aug. 25, 1809, at the post office at Wellington, Texas, under the act of March 3, 1879.

Friday Morning, Dec. 24, 1909.

The Wellington country looks good to all prospectors.

We need your help in boosting Wellington. Push! Boost!

Christmas is almost here, and the small boy and his fire crackers are making the air boom.

Why not resolve Now to do something for the advancement of this city. Don't be a mossback.

Don't sleep! Keep awake and work for Wellington. If you want sleep, don't make a hog of yourself. Don't be a Rip Van Winkle.

Viewing the ceaseless strife all over the world, one is almost forced to conclude that civilization has its drawbacks.

Don't wait, Mr. Prospector. Come to this country NOW. In a few years land in this section will be twice as high in price as at present.

Wellington must grow. Look at her opportunities, look at the fertile stretches of cultivated lands surrounding her. She's got to grow.

There is no land in West Texas better adapted to the needs of the farmer who wants to practice diversification than the splendid variety of soil around Wellington.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

The happiest people on earth, the most contented and prosperous, are those who own their homes, who have a place to live in when the winds of adversity blow.

Put your trust in the future of Wellington by investing your money in some of the resources of the county and you will learn in a few years that you made a wise decision.

We believe in the Wellington country, and we take pleasure in landing its resources in such a way that prospectors in and out of Texas will sit up and take notice. We want your co-operation.

Get in the procession. The march to progress and success has begun. Now, don't be a straggler and fall by the wayside. Don't break the ranks; don't lay behind. Now, march. Hep-hep-hepity-hep.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlains Cough Remidy, as it not only cures influenza but counteracts any tendancy of the desease toward pneumonia. Sold by all dealers.

Don't delay! Come at once and investigate the finest country in the North West for diversified farming. Truck farming is proving extraordinarily successful. Why not come and investigate? You will find it exactly as represented.

Wellington merchants are selling lots of Christmas goods. The people know a good thing when they see it, and are trading with those who appreciate their patronage enough to ask for it through the papers, the best advertising medium there is.

Many persons find themselves affected with a persistent cough after an attact of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by all dealers.

A full pantry, an opulent smokehouse, and a stretch of good roadway to the neighboring market —that is the Omar of the Texas farmer who diversifies his crops and whose citizenship responds to progress of the sort that makes for the peace and comfort of mankind. The big red barn and the little red schoolhouse attest that fact.

Now is the time to improve your surroundings. Plant shrubbery, shade trees and flowers, These things will transform your bleak and barren yard into a cozy retreat, where you can sit and bask in the dying rays of the sun, while the sweet song birds sing in the trees overhead and the flowers shed about your presence a fragrance of a la cologne.

M. G. Reddos, ranch owner and practical agriculturiet of the Toyah valley, is one of the new converts to the hog industry and is making arrangements to raise and market 500 head of hogs at Fort Worth next year. He sees big possibiilties in the business and is going at it right. To the Abilene Reporter he said;

"I have but one regret and that is that I did not have a few carloads of hogs to turn loose on the Fort Worth market this year when prices were so good, climbing up to the $8 mark. But they will get there again and I propose to be in at the killing.

"Next year I expect to make money in hogs. I will raise all my own feed by irrigation and all the money that comes from the sale of the porkers will be practically net, I advise farmers generally to raise hogs. They are and will be the best money maker."

Life will always be to the large extent what we ourselves make it. Each mind makes its own little world. The cheerful mind makes it pleasant and the discontented mind makes it miserable. "My mind to me a kingdom is" applies alike to peasant and monarch. Life is for the most part but a mirror of our own individual selves. To the good, the world is good; to the bad, it is bad.

Of all the chronic kickers who make the art a trade, the cranks who kick the papers are the lowest on the grade, they kick if you forget them in a notice of a fight, and lift the very ceiling if their if thir names are not spelled right; they kick because their paper is silent on their fads, and kick a little harder when it has a run of ads, they kick when dunned for money, and when at last they pay they leave you with a blessing which takes your breath away.

There is only one way to advertise, and that is to hammer your name, your location and your business so persistently so thoroughly into people's heads that if they walk in their sleep they will constantly turn their steps toward your store. The newspaper is your friend in spite of criticism. It helps build up the community that supports you. When the day comes that the newspapers are dead, the people are on the edge of the grave with nobody to write the epitaph.

A good deed done is not a thing completed and finished; a good thing done is nothing less than an endless series of good things set in motion. A kindly service rendered is not infrequently far-reaching. A cup of cold water to a famishing life may create many fountains of joy. A flower brought to a chamber of sorrow may set in motion many agencies of the soul. Ministration to a bird of wounded wing may start voices of song that otherwise might never have been heard. A tear wiped away may cause a passing through the clouds into the region of light.

The local paper is the only one identified with home interests. It takes note of every happening in your town, and you will find a weekly record of everything of interest transpiring in the place. It furnishes a complete compendium of its history, and the longer it continues the more are its interests interwoven with yours. It gives your town notoriety and reputation abroad and puts it in close relation with the outside world. It is a living indicator of your daily business and a chronicler of all that transpires from day to day and year by year. Stand by it and encourage it to go on improving and adding to your prosperity.

Kindness and politeness are indispensible to a happy home. There is no place on earth so delicate and sensitive as home, its fires are easily kindled, its flowers are easily bruised. Here our hearts wear no covering, things that in the outside world we would pass by in sport, at home would wound us to the quick. One bitter word would mar the happiness of home for a whole day, while pleasant words and acts will bring peace and pleasure. It is too often the case that kind words and curteous manners are reserved until "company is in," and only careless manners and sometimes harsh, cross words used in the every-day life.

If you are suffering from biliousness, constipation' indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain's Medicine Co., Des Moins, Iowa, with your name and address plainly on the back. and they will forward you a free sample of Chamberlain's Stomach and Liver Tablets. Sold by all dealers.

Every town has its advantages and should make the most of them. Every town is fitted for some enterprise more than another, and as soon as it is ascertained what would be most conductive to the growth and prosperity of the place, the citizens should take hold of the matter and push it for all it's worth. The newspaper cannot do it. But one man or a newspaper with the help of the wide-awake men make a wide difference in a town. Every man who succeeds in a town is a help to it. The more money he makes if he spends it the better for the community. The larger business he builds up the more he advertises, the more attention is called to the town. A man cannot build up an honorable business in a town without the country. The interest of one is the interest of all.

The Girl that Everybody Likes.

She is not beautiful—oh no! Nobody thinks of calling her that. Not one of a dozen can tell whether her eyes are black or blue. If you should ask them to describe her, they would only say, "She is just right," and there it would end. She is a merry-hearted, fun-loving, bewitching maiden, without a spark of envy or malice in her whole composition. She enjoys herself. and wants everybody else to do the same. She has always a kind word and a pleasant smile for the oldest man or woman; in fact, I can think of nothing she resembles more than a sunbeam, which brightens everything it comes in contact with. All pay her marked attention, from rich Mr. Watt who lives in a mansion on the hill, to negro Sam, the sweep. All look after her with an admiring eye, and say to themselves: "She is just the right sort of a girl."

OUR GREAT HOLIDAY SALE

Commencing at 8 O'clock, a. m., Dec. 11, 1909.

On account of our enormous stock of merchandise on hand and heavy obligations to be met Jan. 1st. we have decided to run our stock out at prices never before heard of in Wellington and Collingsworth county. While we don't advertise any cost sale yet we are going to sell the larger portion of our stock at actual manufacturer's cost and a great many articles even below manufacturer's cost. Our loss is your gain. This sale will run all during December and through the Holidays. But our stock is complete now in every line and we also have $3,000.00 worth of merchandise now in transit, bought before the great advance in prices. In this shipment we have both staple and novelty goods in the latest designs and fabrics. Although we could sell these goods at the present manufacturer's prices and make a handsome profit on same. We going to be still better to the people of this town and county and throw these new goods in with our present clean and up-to-date stock and let them all go at prices that will move them beyond a doubt. This means a loss to us and a gain to you. We will show you the largest and most complete line of novelties and holiday goods ever shown in this town or county before during this sale and at prices so everyone can make presents. All we ask is a chance to show you during this Great Sale. If you want Dry Gooes, Clothing, Shoes, Hats, Novelties or a Christmas Present for some dear one we can deliver the goods to you. Remember the date, the hour, the place, a chance to show you means business for us. This is one year the "Great Store That Quality Built" isn't able to carry its stock over and the goods must be sold. Make our store your headquarters while in Wellington. We are always glad to have you with us.

THE WELLINGTON LEADER

OUR REGULAR COUNTY CORRESPONDENCE

Kelley Dots.

Think we are sure for a good crop next year, have a fine season now and that is what we need on the tight land.

Wheat is looking fine but think the cold weather has just about killed the volunteer oats but will leave the land in fine condition for early cotton planting next spring.

Hunters are taking advantage of the quails during the bad weather they are not so easy to scare up and as a consequence they get lots of "pot shots."

O. S. Franks and B. F. Ford made a trip to Mangum last Monday week. Mr. Ford returned with a sick mule.

Mr. and Mrs. G. T. Brown were riding around enjoying the cold air Saturday evening.

Miss Ola Cochran was at home from Hollis Saturday.

Bro. Cornelius will preach at Fairview Friday night, Saturday and Sunday. Every body come out and hear him and spend the Holidays in a way that will be beneficial to you.

Don't this cold weather make a fellow hug the stove though? Makes us think "what has gone with our summer wages."

SHANKS.

China Grove Locals.

We have been having some cold weather since the rain, but seems as if it has moderated some today, Dec. 13.

Jim Walker one of Aberdeen's citizens was visiting in the China Grove community last Tuesday.

Mr. Joplin of near Mangum was up Saturday and Sunday visiting his wife, who is the teacher of the China Grove school, returning to his home Monday morning.

George and John Graves made a flying trip to Wellington last Monday on business.

Messrs. Fred Wyly, Joe Graves and Frank Young were in Texola the first of last week on business.

Jim Richard, Arch and Irvin Mefferd came in last Saturday from Oklahoma to visit their sister Mrs. Mary Wyly, and other relatives and probably will stay a while as they are liking the looks of Collingsworth county.

Little Bonnie and Dona Benton visited home Saturday and Sunday returning back to school Monday morning.

Mr. and Mrs. Frank Young went to Texola Monday to take their baby to the Dr. as it has not been well for a week or more.

Mr. Wattonberger has been having a lot of fence built this week.

Ray Walker was a visitor at Joe Graves Friday.

Albert Walker was in Shamrock the first of the week on business.

Hurrah for the Wellington Leader it gets better every week.

Collingsworth county now has a post office by the name of Collingsworth down here in about two miles of the China Grove school house and a nice community down here in these Gip hills.

GUESS WHO.

House Log.

It seems like Blue Eyed Susie has frozen to death, as we haven't heard from her for some time. We hope to hear from her after Xmas, and we wish her a merry time Xmas.

Health of the community is good.

We have had no Sunday school for the past two weeks.

The remains of Mr. Jim Gideon were interred in the Wellington cemetery on the 12th. We extend our sympathy to the bereaved ones.

Mr. J. D. Smith is going to move to Wellington.

Mr. Tom Somerville has rented the W. I. Smith place.

There will doubtless be many changes in farm circles by the first of the new year.

Clem Maples says he hasn't heard from Mr. McBeth since he left. Poor Clem.

Mr. T. A. Graham sold 200 acres of land last week to Mr. Sam Rude at $45. per acre. This looks "railroady" to me.

Wishing the Leader and its readers a merry Christmas, I will close for fear the waste basket may take this in.

BIG JOHN.

A Prize Winner.

Five reasons why people should trade at Wellington:

On last Trades Day a prize was offered for five of the best reasons why trade at Wellington, and the following are the reasons by the winners, Miss Jan Isbell and Mr. Emmett Dobbs:

1. In order that the home merchants may be encouraged and be able to bring on larger stock, you can't expect your town to live unless you help feed it.

2. Home merchants are more interested in you and your wants than an outsider and will give you better and squarer deals.

3. Wellington merchants want your trade, are striving for it, and trying to please you.

4. You can get everything as cheap, and sometimes cheaper than you can on the railroad.

5. Wellington merchants are accommodating. If they haven't a thing they'll order it, and if it's not right, they'll order again. Besides, charity begins at home.

Five reasons why every resident of Collingsworth county should trade at Wellington:

I think every resident of Collingsworth county should trade in Wellington because:

1. It is your home town and every one should feel enough interest in ones home town, and home industry to help build them up and not tear them down by sending ones money off to some "cheap" mail order house. If you won't boost your town there are no other people who will do it for you. If you wish to have a good town you must help build it up. These business men are in business to help you and for your convenience, and it is your duty to patronize them.

2. Our merchants are a wide-awake set of business men and they will do the best for you they can. There are no Jew's establishments and no stores which do not sell the best grade of goods. All dry goods are the best grade and the drugs and groceries are the purest and the best to be had. You can get anything you wish and rest assured it is the best on the market.

You can come to Wellington and see for yourself just what you are getting, but when you send your money away to a mail order house you can never tell what you will get or whether you will get what you ordered or not. The quality of the mail order goods is never of the best, and it pays to buy where quality is considered before price. The postage, express, or freight usually makes the article which you order cost as much as it would to buy it at home where you know what you are getting.

4. If you are a farmer and have produce to dispose of, you can bring it to Wellington and sell it to our obliging merchants at railroad prices and very often more than is paid at our neighboring railroad towns. You can't send produce off to a mail-order house. If you have no produce or no money you can buy all you want on time. You can't buy on credit from your pet mail-order house. All our merchants ask is a fair, square deal.

5. Lastly, goods can be bought at Wellington as cheap and in nearly every instance cheaper than at the railroad.

On Trades Day the merchants give a large reduction on the usual price and you can come to town and try for one of the prizes and buy all you want at rock-bottom prices. All our merchants guarantee satisfaction and all they ask you to do is to come and see for yourself.

Will Locate Here.

Bentley Pigg, who has been over a good deal of Texas and New Mexico seeking a desireable location to cast his lot, after spending some time here with his brother Bradley Pigg, has decided to make Wellington his future home, having decided that there is a great future for the town, and that a rapid and substantial growth will be given at once. He left this week for Louisville Ky., where he has considerable property which will be disposed of, and investments made here. Mr. Pigg has been in the rail road business for many years, but has decided to quit rail roading and ingage in some line of business here. We welcome him as a citizen of Wellington. and predict for him a successful career here.

A Truthful Assertion.

The worst habit that boys can fall into is that of loafing around on the streets at night. It is then they cast their lot in slippery places where at any moment they are likely to fall from grace. All good and noble lessons taught them by their mothers are there counteracted and nullified. They learn nothing that is good—but everything bad. The boys who spends their evenings in the sacred precincts of home with good books for their companions are the future hope of this republic, they will fill our legislative and congressional hall, and sit in judgment upon men and measures while the boys who run the streets will fill our penitentiaries almshouses and lunatic asylums. Parents who are responsible for these broken laws of decency will have broken hearts and bowed down heads in the awakening years that will inevitably fellow.

Putting Out Trees.

Mr. E. A. Wells has been busy of late, putting out trees and other shrubbery around his already commodious home. It is hoped that other property owners will do likewise and enhance the value of their property, as well as make their property more home-like.

Reformative.

McKinney Courier-Gazette; Please do not write it "Xmas." The Savior of mankind was not known as Jesus X., nor is he so known now. "X" is the symbol for the unknown quanity in mathematics, but is not the symbol for the Son of Man. No one would think of writing "Xians" for Christians, yet it would be no more incorrect or reprehensible than is the custom of writing "Xmas."

Good, very good. It is high time all those who write or speak of "Xmas" were educated out of it. Such a term is unworthy of the dignity of the day which all the world celebrates. And while we are about it, let us urge those who persist in speaking of "Christmas Eve night" to stop it. They had as well refer to "Christmas morn morning" and expect to be absolved.—Dallas News.

WELLINGTON'S YOUNG PEOPLE

BY J. A. DUKEMINIER.

'Tis with pleasure, my Wellington friends,
That I write this of young women and men.
Please do not offend at what I might say,
For this is high tide of Christmas Day.

The first girl to bear in mind
Is a beautiful one and so refined
That Mr. Hix, with all his intellect,
Makes her his choice of all fair sex.

Next to our mind is friendly Wade,
Who, since his girl left him, is beginning to fade,
You, Mr. Wade, should get another so fair,
For you can find them most everywhere.

There is R. L. Scott, however lonely he seems to be
Hear him sing his little song, "They all look good to me.
They all look good to me," as good as I expect to see.
I think I shall stop and try my hand
And see what the results will be.
For Mayor of Wellington Bob won the race—
Justice he will give us in every case;
A candidate for matrimony in the strongest way—
If elected to this place, in Wellington he will stay.

Miss Jewell and De Vic are next to be mentioned.
For they are worthy of any one's attention
His life for her he would almost give—
A century with her he would want to live.

Alone, alone, all, all alone,
Alone as far as I can see.
Not even a girl to take pity on
Horace Jones in agony.
When Mr. Jones is singing this song
As he is working and gliding along,
Then he is consoled beyond any measure
That some girl will pitty him when County Treasurer.

Then to mind is Miss Couch and Mr. Stall
Of many young people they beat them all;
As yet school children, they are very smart,
Perhaps time will come that death only can part.

Jim and Miss Ruby are progressing nicely
He, too, has pitched his tent wisely
Take Jim for what he is and you get a man,
Take him for what he wants, 'tis her heart and hand.

Next to hand and in rotation
Is Homer Myers with his quotation:
"If you don't succeed at first,
Keep on trying until you do better or worse."
Then with his fish net you will see him start
With an uneasy mind and a determined heart
After reaching the lake shore with net in hand
He finds not the fish in water but on dry land.

Then comes Jan, who to Rolla looks so near
That even when he meets her on the streets
It seems to him that Heaven is near,
But 'tis only she who to his heart is so dear.

Wallace and Beryl are not to be slighted
For some day we predict they will be united.
He for her will lay down his life,
For some day he hopes to make her his wife.
As a Hello girl he thinks her superior
As his sweetheart he thinks her sincere.
Now the only question to burden his mind
Is to be a printer and wait the required time.

Mr. Albert Longino, the Wellington meat chopper,
To make him smile you'll speak of the deputy as papa.
To the big red house Jake is always ready to go,
It matters not how hard it rains or how it may snow.

"I am no body's darling on earth,
A Mexico bachelor to be,
Take me for all I am worth—
Clarence Hutchinson is my name;
If it is that you want to learn
To seek a wife is why I came
No matter whom it may concern."

Little Tot Loving is a promising young man
Of about twenty-three years,
He is seeking a wife throughout the land—
He presents his case in tears.
This gentleman is little but somewhat loud,
He lets his presence be known
By singing and playing to entertain the crowd
To which his excellency is shown.

"Somebody in town with golden hair,
Somebody with eyes so brown,
Oh, that I could win this girl so fair
I would be the happiest man in town."
These words from the heart of a young man name,
Though silent words they might have been,
Ernest Kelly is the first letter of my name
This girl's heart I shall try to win.

Next is a few girls without a beau,
Now, boys, is the opportune time
To work your scheme to make a show
By offering yourself, body, heart and mind.

A few of our boys are looking mighty blue,
It seems to them their time o'er
So play your cards, girls, that it might be you
To lead them a happy life evermore.

At the Xmas Tree we hope you will be
To prove these verses true
By presenting a present from the heart so free
We leave the matter to you.

A Merry Christmas.

Since the angels parted the clouds and descended with their harps to Mother Earth, caroling the birth of the Savior in the humble manger at Bethlehem, we have been celebrating the birth of Christ every year. This precious anniversary is again drawing near and everyone welcomes it. The sun of Christmas morn will dawn upon people in every phase of living. There will be many poor men, women and chlldren who will have to depend on charity to get their daily bread, while others will be carving the turkey and feasting upon the luscious repast that only the American housewife knows how to prepare. Upon some the new year will dawn full of disappointments and full of heart-aches. But others will welcome it with glad hearts and open hands and say, like the angels at Bethlehem, "Peace on earth, good will toward men."

To all aliee we wish a Merry Christmas and a Happy New Year.

To the poor and to the rich, to the workman and the employer, each envying the others' freedom from the cares of too little and too much, yet ever learning that without health, without faith and enthusiasm, without love, none can be rich, and with them none can be poor, we extend the best wishes of the season.

To the old and young alike, to the married and to those who have never yet tasted the sweet bliss of married life, treading with glad hearts the pathway made bright by the light that first shone from Bethlehem's lowly manger, even though not always aware that through Him all this was made possible, we extend with a heart over-flowing with good-will—to all

THE WELLINGTON
HARDWARE COMPANY

Editor Johnson at Austin.

The following eye-opener, by Editor W. A. Johnson, of the Hall county Herald, who is a member of the State Board of Regents, which he dropped onto while in Austin one day recently will be very interesting to our many readers.

The editor of the HERALD may have previously stated that at no place in Texas can a man learn more about political and general events than at Austin, where many dignitaries of politics and high finance flutter about the candles. On a recent trip to Austin we stumbled upon some unpublished inner facts about recent trial of Henry Clay Pierce and the sale of the Waters Pierce Oil Co., that opened our eyes about as wide as anything that has recently been brought to our notice.

While chatting with a circle of friends our attention was attracted by an elderly well dressed gentleman who was evidently suffering from an over familiarity with John Barley Corn. He started a conversation by saying that he was for Colquitt for govenor, that Colquitt was the son of a former govenor of Georgia who afterward died while serving as a U. S. Senator from that state, and that he expected to see O. B. Colquitt governor of Texas and die as a U. S. Senator from Texas.

The talkative gentleman then stated that he was an expert on turpentine interests and pine lands, that he had traveled all over Asia, Africa, Cuba, and America in the interests of the turpentine trust connected with the oil company and lumber combine. He further stated that he was a first cousin of Sam Fordyce who recently bought the Waters Pierce Oil properties at public sale. That he and Fordyce were also first cousins to Judge Calhoun who instructed the jury to acquit Henry Clay Pierce of the charge of perjury. That Fordyce had telegraphed to him to come over to Austin and help look after things. That Sam Fordyce was a gentleman and was all right. That the people of Austin were very much wrought up about Judge Calhoun directing the acacquittal of Pierce and the judge was on the war-path about some criticisms.

He said further that Henry Clay Pierce was in facta nephew of old Henry Clay of Kentucky, his mother being a sister of Henry Clay. That Henry Clay and John C. Calhoun were in fact a brother-in-law, having married sisters. That they were always politicial opponents but brithers-in-law. That Judge Calhoun of Austin was a grandson of old John C. Calhoun and hence a second cousin of Henry Clay Pierce. That Pat Calhoun who was recently indicted for crookedness in connection with the Kirby lumber interests, was some of the same stock, and in fact the whole thing was a family affair, that has never before been bronght to light. That when Pierce came to Texas he knew he was not to go to the penitentiary.

This brings to mind that the St. Louis bunch of high financiers know what they are about. They now have a close combine on the oil interests of Texas, the Katy and other Texas railways, the McAlester coal mines, the turpentines of the country, the lumber and pine timber interests.

Take for instance Pierce. Kirby Fordyce, Yoakum and their kin folks, they make a gang that is hard to head off in any sort of a game. They can afford to employ good attorneys even if they do have to turn states evidence on themselves sometimes and then claim immunity under a technicality when they are charged with high crimes and misdemeanors. All the same they don't have to steal a loaf of bread.

We will have a nice assorted line of fine jewelry for Xmas such as bracelets, solid gold set rings, watch fobs, cuff buttons, finest gold plated clocks. Our prices are reasonable call and see us and be convinced.
