Civic Leaders To Discuss Superhighway Aug. 2

Proposals for the construction of the superhighway through Artesia, will be discussed at a meeting of the Artesia Chamber of Commerce, at 12 noon Thursday, at the Roof Garden of the Hotel.

President of the Chamber of Commerce, and civic leaders, will be present for the meeting.

The meeting is being held at the Hotel, and will be held at 12 noon Thursday.

The meeting is being held at the Hotel, and will be held at 12 noon Thursday.

ARTESIA, NEW MEXICO, THURSDAY, JULY 26, 1945

NUMBER 30

Fire Lane Streets Designated

The designation of certain streets in Artesia as fire lanes was made Monday evening at the weekly meeting of firemen.

So designated were Main Street, North and South First, South Fifth and South Eighth, over which the fire trucks and firemen are to travel as far in the direction of the scene of a fire as possible, it was announced.

by Fire Chief Albert Richards, who was re-elected to that post a week prior.

The move was introduced by Elmo Naylor, who was elected last week, succeeding Lee Francis.

ing the streets named as fire lanes.

The chief said that when the order becomes effective, which will be in the near future, all traffic is to stop on the fire lane streets until after the fire trucks have gone by and firemen have had an opportunity to go to the scene of a fire, or until it is determined with certainty that the trucks and firemen have taken some other street.

The move is being made, Chief Richards said, both to speed up the response of department equipment and members and as a safety measure, with the lives of firemen as well as others considered.

As yet special tags for firemen's cars, not already so equipped, have not arrived. They have been ordered a number of weeks and were expected some time ago. The appearance of such tags will identify cars carrying them as those owned or driven by department members, who have the right of way.

Chief Richards said the department also has been trying to buy sirens for firemen's cars, to help them in clearing traffic when going to a fire or on any other emergency call for which firemen or life saving equipment are requested. This would include members of the first-aid squad.

Artesia Woman's Club Cookbooks Are Ready

The approximately 92 page cookbook containing the receipts of the members of the Artesia Woman's Club and published by that organization has now been received and is to be placed on sale here on Monday, it has been announced by Mrs. H. R. Paton, chairman of the committee in charge.

Although it was originally planned to have the book ready for distribution early in May, it was impossible to get it printed by that date.

The actual sale of the book is expected to be opened here on Monday and club members are hopeful that the 500 copies, which have been published, can be sold within a short period of time.

It is from the sale of the books that the ladies now hope to pay for the publication of the cookbook. They are also hoping they will have funds left for their club organization. A small fund was secured from the sale of a limited

number of advertisements, which appear in the book, but far from sufficient to pay the total cost.

The cookbook is divided into a total of 20 sections with the various receipts appearing under their respective classifications. These include beverages, breads, cakes and fillings, cookies and doughnuts, candies, desserts and puddings, eggs, fish and sauces, ice creams, sherbets, meats, pickles and preserved.

Artesia Legionnaires Come Back at Roswell Record as to Commander

Members of Clarence Keppeler Post No. 41, American Legion, maintain The Roswell Daily Record was somewhat off the beam Monday, when it ran a picture of Robert Bacon, newly elected commander of the American Legion in Roswell, declaring he is 'the only World War II veteran now commanding an American Legion post in New Mexico and probably one of a very small number in the United States.'

By way of setting The Record straight, members of the Artesia post present Charles Denton, who was discharged at Fort Bliss June 2, after running up an enviable record as a pilot in Europe, and who was elected commander of the local post three days later, on Tuesday, June 5. He was installed commander June 26 and is again doing a bang-up job, fellow legionnaires declare.

Just so Commander Bacon of Roswell and his post members and The Record can see what Commander Denton looks like, here is a picture of him taken at the time

CHARLES DENTON
he received his commission in July, 1943.

General Clean-Up Campaign in Offing

With the passage of the recent city ordinance requiring the removal of all livestock outside the city and with the plans for the employment of a city sanitation indications are that the city may be in for a real "clean-up."

The fact is that some effort is under way at the present time to clean up in the business areas, see that all rubbish and trash are removed as quickly as possible, and eliminate not only unsanitary conditions but fire hazards as well.

City Manager P. V. Morris in his rounds during the past week made several calls checking on conditions and urging and requesting complete and full cooperation in the clean-up program.

The city, of course, has encountered difficulties in its garbage collection program and in the securing of sufficient and competent help in carrying on this program. Plans call for an expansion of this program as soon as possible, it was stated.

The city also has placed its order for a street sweeper and this will aid and help here in improving the appearance of the city and in keeping the city clean.

The action was taken to endeavor to try to eliminate the fly hazard here, but city officials have pointed out that unless complete and full cooperation is given, even the removal of livestock from the city limits will not solve the problem.

Now and then complaints, of course, are heard regarding the removal of garbage, but city officials appreciate reports on these here and will seek to correct any situation, which is not in keeping with the service the city is seeking to give.

Those in the business residence districts, of course, pay for this service and the city is anxious, it was pointed out, to make it as

Certificates for Stoves Become Void on Tuesday

Next Tuesday, July 31, is the last day that you can submit a stove rationing certificate either to purchase a stove or to apply on a stove if you have such a certificate.

Stove certificates, of course, will continue to be issued to those, who can qualify for them, but if you obtained a certificate and it is outstanding and you haven't used it and plan to use it — then surrender it to your merchant before or not later than Tuesday, July 31.

Merchants, of course, are giving additional time either to use the certificate in purchasing stoves or to turn it in for new certificates.

But all stove certificates now held by individuals become void and invalid on Tuesday, July 31.

Watson Again to Head War Fund in North Eddy

Hollis Watson, co-chairman of the North Eddy County Red Cross chapter and active civic worker and leader, has again been elected chairman of the North Eddy County War Fund campaign to be conducted this fall, according to announcements from the state office.

Chairman Watson is expected with his coworkers to organize the campaign to raise funds for the various agencies, which are included in the War Fund. More than 20 organizations participate in sharing the funds, which are raised during the annual campaign.

It is expected that even a larger quota will probably have to be raised this fall than has been raised before, since the work of these various groups include the Salvation Army and the war prisoners' aid fund, and other work among the service men is heavier than ever.

The amount of the quota as well as the exact date for the annual drive will be announced here in the near future. It is also expected that Chairman Watson will have his organization complete and will make full announcement regarding plans for the annual campaign.

The deaths of Lt. Joseph Dallas Thorpe and Pfc. David C. Savoie, both prisoners of war of the Japanese, were reported here this week by the War Department, and the death of Pvt. Jack Kithley Coor of the Marine Corps was reported by the Navy Department, bringing to 48 the number of deaths by action or otherwise known to be officially listed among North Eddy County men in World War II.

Lieutenant Thorpe's wife, Mrs. Fay Thorpe, and his parents, Dr. and Mrs. B. B. Thorpe, are united in their belief their husband and son is alive.

Dr. Thorpe said some of the men known to have been on the ship on which it was reported Lieutenant Thorpe was being evacuated from the Philippines have been heard of in Japan since the date of the sinking last Dec. 15. Other factors enter into their belief, the father said.

However, the message informing Lieutenant Thorpe's wife and parents was official and indicated that he has been entered officially as dead on the records of the War Department. The ship was bombed from the air, the message said.

Lieutenant Thorpe's immediate relatives are his parents and wife and a sister, Mrs. Eulalia Dice of Kokomo, Ind., who arrived here two weeks ago Wednesday to visit her parents.

Joseph Dallas Thorpe was born at Carterville, Mo., Jan. 12, 1915. He moved to Artesia with his parents from Farmington in November, 1939, but spent the greater part of his time at Las Cruces, where he had graduated in the engineering department of State College, pursuing his profession.

He had been commissioned in the ROTC and was a reserve officer, but when he enlisted in the National Guard company at Carlsbad, which later became a part of the 200th, he failed to retain his commission. He shipped out in September, 1941, as an acting sergeant. In the Philippines, prior to the fall of Bataan, he was made a second lieutenant and later a first lieutenant.

A few days before the 200th shipped out, Lieutenant Thorpe, as a sergeant, married Fay Jewell of Grady, N. M. Ever since the 200th left, she has made her home here with Dr. and Mrs. Thorpe.

Pfc. David C. Savoie
The message of the death of Private Savoie was addressed to his parents, Mr. and Mrs. George Savoie. (Turn to last page, please)

Petitions Congratulate City Dads on 'Livestock Ordinance'

A movement has been started among Artesia citizens to get a large percentage of their fellow townsmen to extend their congratulations to Mayor Emery Carper and members of the City Council for that body's recent action in passing an ordinance under which livestock must be removed from within the city limits by Aug. 1.

Sponsors have been circulating petitions to be presented the mayor and council and in addition a copy of the petition is being run in this issue of The Advocate as a paid advertisement, with spaces for a few names and a request that readers clip, sign, and mail it to Mayor Carper.

It was explained that the task of contacting all citizens with the petition would be a big one and that the use of the advertisement would guarantee that a large percentage of the people of Artesia would be reached.

All postoffice box holders today received postals calling attention to the advertisement, which is on the back page of this issue.

Both the petitions being circulated and the one appearing in The Advocate read:

"To the Mayor and City Council of Artesia: The undersigned citizens of Artesia wish hereby to commend and congratulate the mayor and City Council for their alertness and keen foresight in so promptly passing the 'Livestock Ordinance' to our city laws at their recent council meeting, thereby insuring sanitary conditions in our beautiful little city, and on their resolution to appoint a sanitary officer to enforce this and other sanitary ordinances."

Under the conditions of the ordinance, which was passed July 9 after a petition bearing the names of 205 citizens of Artesia had been presented the City Council, all cows, horses, mules, hogs, sheep, goats, and other livestock are to be excluded from within the city limits on and after Aug. 1.

Penalties of not more than \$50 for a first offense and not more than \$100 for a subsequent offense were provided by the ordinance.

Already many owners of cows and other livestock have moved them from the city or made arrangements for their removal before the ordinance becomes effective next Wednesday.

Chickens and rabbits are not mentioned in the ordinance, but it is the intention of the council to

(Turn to last page, please)

Start Move to Widen Fourth Street Adjacent to Main

A movement is now on foot here for the widening of the remaining half block of Fourth Street in the downtown section to practically the same width as the street a half block south of Texas and a half block north of Quay.

The east side of Fourth Street between Texas and Main has already been widened, but needs to be paved. There remains the full block on the west side of Fourth Street including that east of the Artesia Pharmacy and that by the Artesia Laundry and Cleaners.

P. V. Morris, city manager, stated that an effort is being made to secure the approval of the taxpayers to pay for the moving of the curbing, the laying of this curbing and gutter and the additional pavement. The plan calls for moving the curbing back to within two feet of the sidewalk. This would leave two feet of ground space for the water and gas lines.

The additional space is badly needed and at the same time this project, if carried out, would eliminate the difference in the half

Loco Hills Boy Scouts to Get Charter Friday

A special Boy Scout program, including the presentation of the charter to the Loco Hills Boy Scout troop by Strother Moore, field executive of the Eastern New Mexico Council area, will be held at 7:30 o'clock Friday night at the Methodist Church in the Loco Hills community.

Present plans call for a supper on the grounds during the evening. The program will be given by the Boy Scouts and will be about an hour in length, it was announced by Earnest Thompson, scoutmaster of the troop.

Scouting friends and scout officials in Artesia have been invited to attend and enjoy the program on Friday evening.

Alleged Kidnappers Of Artesia Man Are Bound Over in Chaves

At a preliminary hearing before Justice of the Peace Harry Puryear in Roswell Wednesday of last week, Noland Carl Leach entered a plea of guilty to a charge of armed robbery and kidnapping of Roy Watson of Artesia some weeks ago.

Emmett W. Harrell, arraigned on the same charge, waived hearing. Each was placed under \$10,000 bond. They will be tried in District Court.

The men are alleged to have stolen a 1939 Ford automobile from Watson, after robbing him of \$100 in cash. They were apprehended at Dallas, Tex., and returned to Chaves County for trial.

Highway Most Important

IT APPEARS TO BE the consensus of opinion among business and professional men of Artesia as well as all citizens that the most important project, which has been proposed here in many years is the new Superhighway through Artesia and west to Cloudcroft.

All, who have discussed it, have declared it is vitally important to the future of Artesia.

Many think that such a highway will accomplish for Artesia, North Eddy County, and New Mexico are being cited by business and professional men. They can enumerate not one but many fine things, which will result from the construction of this highway.

And there seems to be a general agreement that we should go after this highway and stay at the job until we secure it.

The securing of this highway is not a task for Tom, Dick and Harry. The fact is that Tom, Dick and Harry can not secure this highway.

It is going to take effort, united effort on the part of all business and professional men of Artesia as well as the citizens. It is going to take the aid and help of our neighboring cities, all of whom will profit from such a highway. It is going to take the assistance of our friends in neighboring states. It is going to take the aid of the highway. It is going to take what it can mean to New Mexico.

The question remains as to whether each one of us is willing to put our shoulder to the wheel and help pay the price that such a highway is going to take in work and effort.

And it will only be obtained with work and energy.

It is not something, which can be secured in a few days, a few weeks or perhaps a few months. It is going to take planning, effort and it will require a great deal of energy.

And we should be busy on that planning now. We should get together, work together and stay at this job until we get it accomplished.

A good place to start is at the regular monthly luncheon of the Artesia Chamber of Commerce to be held on Thursday noon, Aug. 2 in the Roof Garden of the Artesia Hotel.

If you believe in the highway; think we should go after the highway; believe we should start planning and working now and if you believe all you have said or are saying and are willing to do your part — then call Arba Green, secretary-manager of the Chamber of Commerce, and tell him you will be present for this luncheon to be held by the Chamber of Commerce on Thursday, Aug. 2.

Let's start work on this project we have all called the most important project we have discussed here in many years.—O. E. P.

Why Can't They?

WE HAVE that the American Army Engineers have been building the highway in the world. They have proven that fact during the last years.

They have sit and write this there. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

They have used our highways. Every state in the nation has used our highways. We know that the highway is going to be a reality.

binding books, organizing writer's clubs, directing bands, forming dramatic clubs to do much of the highway building, which needs to be done under our WPA programs.

Yes, we wasted much of that money that could have been used to build something constructive.

And it probably would amaze us to know how many highways we could have constructed with war prisoners we have fed since their capture if we had employed them for this instead of only employing them part of the time. We could have had them do something constructive when they were not helping with the farm and harvest work.

But we haven't and we didn't.

Yet the highways of this nation are inadequate; they are not sufficient or even satisfactory for military highways.

But we could build those highways through the months to come, build them easily, satisfactorily and make them the best in the world by utilizing the skill we have, reducing the cost and eliminating the graft of politicians.

The opportunity is ours. We could build the finest highways in the world, have them available for use now and for use if and when the need, which has ruled during the past more than three years, prevails again.

But we have never as a nation made the most of our opportunities and we probably won't this time.—O. E. P.

No Sugar, No Canning

ARTESIA and North Eddy county residents have done little canning of fruits and vegetables.

And prospects are not very bright to do any.

Approximately 1000 applications for canning sugar were not processed at the local office until the past week. The delay was all due to lack of help in processing them and due to the failure of the state office to grant additional help. These were completed during the past week because of volunteer workers.

These were all submitted after or at least were cut on the reduction in the sugar allowance for canning. Only about 200 applications went through the local office calling for the 15 pounds per person.

These 1000 applications were delayed because of lack of clerical help and because efforts to secure additional help with the OPA paying for it failed.

It is still hoped that sugar quotas may be increased and that these 1000 or more families, who up to now have been able to secure only a limited amount of sugar, may obtain more.

The local board members have studied the instructions and regulations but it appears there was about as much bungling in these as there was in handling the canning sugar program.

We have seen the letters and telegrams. We don't know what they mean. The board members have just as much trouble understanding them. We wonder whether those, who wrote them, could explain what they mean.

We know it is not your local or county rationing board which is to blame for 15 pounds of sugar being granted per person to some families and only 5 being granted to others. They wish they might grant 15 pounds to each person in every family and would do it if they could.

They are still hoping sugar may be made available to all and that those, who are or will only receive five pounds may be granted another 10 pounds per person.

But right now they don't know just what is going to happen in the sugar program and they are kinda inclined to believe judging solely on the mess, which has been made by the higher ups on the sugar program, that those, who have sent out the regulations are right sure what they are talking about.

They are still hoping and trying anyway.—O. E. P.

New Mexico's Future

THE NEW BOOK, "New Mexico's Future," by E. L. Moulton, we have been going over with considerable interest from two standpoints, because it is clear and concise and of interest to everyone having any business or economic connections with New Mexico, and because we were privileged to have two prefaces of it.

First we heard Moulton discuss his studies—those which he has incorporated in his book—at the New Mexico Press Association meeting in Santa Fe last January. Then, at our invitation, with the other members of the Rotary Club joining in, Moulton came to Artesia and repeated his discussions on "New Mexico's Future."

One of the greatest disappointments we have had this year was that only a handful of people turned out here to hear the guest speaker, who is a busy man and was kind enough to give up his time and make a trip here from Albuquerque. Everyone who heard him at that time was agreed that the discussion should have been heard by every business and professional man in Artesia and by everyone who has any economic interest in the future of New Mexico.

But they didn't. So now we recommend for everyone's reading "New Mexico's Future" by E. L. Moulton.

The book will not be found in bookstores or on the market; it was not written and published for financial gain, but at considerable expense.

—A. L. B.

Thanks for Kind Words

MANY FAVORABLE comments have come to our ears regarding the change in format and size instituted last week, about which we commented in this department under the caption, "Now We Go All the Way."

Among the many comments, none was more welcome than one from our old friend, the Rev. Joseph H. Harvey of Roswell, vicar of St. Paul's Episcopal Church in Artesia, who wrote:

"You've been 'going all the way' ever since I've known your paper, and ahead of most other towns of the same size, or larger.

"Only difference I see is that there is more of you, and you are not only 'streamline,' but always 'come in on the beam' and make a perfect landing. Congratulations!"—A. L. B.

Up and Down Main Street

PLANS FOR ARTESIA
UP AND DOWN MAIN
WE MUST PLAN IT

Recently we spent more than an hour with an Artesia citizen, who has plans for Artesia for the future. He discussed these plans with us; his hopes, his dreams. He openly declared he wanted to do something to aid and help Artesia. He wants to help meet one of the real needs of our city. In our opinion we need more individuals like this one. Whether his dream will work out remains to be seen but he is planning and if everything goes along as he hopes, expects and wishes — then it will. You know as we think of our city, its future and its needs there are many things we can do as individuals. We can do things, which will aid and help Artesia and at the same time do things, which will aid and help us. We can enumerate many things we need. And we know that in many instances money invested in these things would pay off and pay off handsomely. The individual would not only be doing something, which would aid and help him and give him real returns on his money invested but he would be doing something, which would aid and help our city. We believe that the average citizen and business and professional man in Artesia is firmly convinced of the future of Artesia. We believe he would rather have his investment here than any other city this size he could name anywhere. Many of the business men are now planning for the future. They have their plans made for the growth and development of their business. There is in Artesia much money, private wealth, which properly invested would not only bring real returns to that person but would provide needs in our city.

"Fats" Aaron busy using an adding machine in The Advocate office — Ralph Petty declaring he was a "working man" as he headed for the bank to make a deposit — C. J. Dexter still just transacting business and visiting with friends in California and admitting he kinda misses Artesia — Artesia misses "Chet" Dexter a plenty too — Bert Muncy all set for the Rotary program on Tuesday noon — Bill Dunnam visiting with friends but not feeling so extra good early in the week — Owen Hensley and Bill Maxwell at least appearing very busy down at the Midwest Auto Supply Store — Bill Terpening busy working on plans for his new business — J. L. Truett visiting with a friend near the postoffice — O. J. Carson answering questions at the bus station — David Blue headed for Carter's for that cup of coffee — Cecil Booker and Max Schultz enjoying their game of golf — Don and O. S. Jensen absent from the store while attending Camp Philmont, the Boy Scout camp — P. V. Sheldon explaining they were waiting for window frames for his new home at the corner of Texas and Ninth street — Homer Borland doing a little selling as he headed back for the Western Auto Supply store — A. H. Hover discussing an oil well, which was shot at 6 o'clock Saturday evening — John Gates headed down Main on a business call — Howard Whitson extremely busy at the laundry — J. S. Ward going toward his insurance office — W. W. Batie waiting on customers at Batie's food center — Pete Loving greeting friends as he hurried down the street — Mark Whelan going toward his offices in the Ward building — Chuck Aston saying he still had plenty of work to do — Dallas Golden visiting with friends during the week as he transacted business for the fire department — Clare Meisinger extremely busy and in need of some job work — Elmer Perry traveling at his usual fast pace — M. E. Balsh greeting friends as he went toward the Carper building — G. V. Price waiting on customers at the Peoples Mercantile company — That was Up and Down Main this week.

And if we will check into the opportunities, which are offered here and study the matter we will find opportunities for providing something, which this city really needs and would appreciate and which would give us a wise investment, which will bring us real returns. We have said before and we will repeat it many times in the coming months, that only we in Artesia will build our city. We must provide the energy, the plans, the hopes and the money. And we believe that a real authority on city growth and expansion who recently declared small industries owned and developed by citizens in a community are the finest industries any community can have. We have seen communities, which sit back and waited for industry in the east to come into that community, make investments and provide needed payrolls. As a rule

THE OLD FERRET
A smile is better far
Than forced hilarity:
Its memory
Lasts much longer.—A. L. B.

Our neighbor, "Up and Down Main Street," last week mentioned a certain local fellow "enjoying his coffee along with his ham at Carter's."

His wife read it first and had considerable fun with him by telling him that the column had him coming out of a beer joint, which made him sore angry, to the extent that he was going to have the liver of the author of "Up and Down Main Street."

Then he read The Advocate and had a good laugh himself. And he turned the joke back on his wife, by adding, "It's a fine note, when even the newspaper knows I have to go downtown to eat breakfast."

And then, saplike, he told The Old Ferret about it!

Fellow went through the Carlsbad Caverns the other day, after which a friend commented to him about the darkness during the Rock of Ages ceremony.

"Yes," he agreed, "it's so dark you can break it off and feel it."

A local father and one of his two daughters happened to be in a larger city a few days ago and the young lady suggested that they shop around to see if they could find some underthings for herself and her sister, they being among the scarce items these days and sometimes a little hard to get in Artesia stores.

And sure enough, they found some, but the saleswoman explained that she could sell only two of the steps, and not two each for the girl shopper and her sister.

Then up spoke the father, "Well, I wear pants, don't I? Can't you sell me two pairs?"

And, sure enough, he did. And, sure enough, she did.

Since which we noticed an Associated Press release from Washington, declaring that in Detroit, where women's scanties evidently are not as scarce as some places, men have been buying them — for themselves.

So now we wonder whether the other daughter ever received her two pairs.

You have heard, no doubt, about the girl who married a serviceman some months ago, after a very short courtship and with whom she had a very short honeymoon before he shipped out.

Well, it seems he is due home soon and she is worried about whether she will recognize him or not, for she fears she has forgotten what he looks like!

FARM WAGE RATES REACH NEW PEAK

Farm wage rates are at a new record level, the U. S. Department of Agriculture reports. June 1 rates were about double those paid three years ago, with monthly rates averaging \$81.30 with board and \$93.10 without board.

those communities are still waiting for those industries to come to those communities. We have seen other communities where local men and local capital were invested to provide the industries. In such instances the community not only has the industry and the payroll but the community receives the profits and the returns from that business and this remains in the community. It is possible, of course, there are many planning to provide something which the community needs. Many are quietly planning what they are going to do when the war ends. This one individual has his plans made now if they only work out. And we can have the other things we need if and when we plan if we will only check investments and invest our money not only in those things, which will bring returns but which will also provide one of the many needs of our city.

NOTICE

STATE ENGINEER'S OFFICE

Number of Application RA-304 Santa Fe, N. M., July 17, 1945.
Notice is hereby given that on the 30th day of June, 1945, in accordance with Chapter 131 of the Session Laws of 1931, H. E. Kissinger of Artesia, County of Eddy, State of New Mexico, made application to the State Engineer of New Mexico for a permit to change location of artesian well RA-304 from present location in NW¼ SW¼ NW¼ of Section 10, Township 18 South, Range 26 East, N. M. P. M. to a location in the SW¼ NW¼ NW¼ of said Section 10, where applicant proposes to drill a 10 inch diameter well approximately 800 feet in depth for the purpose of continuing the irrigation of 154 acres of land with rights under File RA-304.

Any person, firm, association, corporation, the State of New Mexico or the United States of America, deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source, may protest in writing the State Engineer's granting of approval of said application. The protest shall set forth all protestant's reasons why the application should not be approved and shall be accompanied by supporting affidavits and by proof that a copy of the protest has been served upon the applicant. Said protest and proof of service must be filed with the State Engineer within ten (10) days after the date of the last publication of this notice. Unless protested, the application will be given final consideration for approval by the State Engineer on the 27th day of August, 1945.

Thomas M. McClure,
State Engineer.

Conservation Of Soil in North Eddy

President Harry Truman, by proclamation, has designated July 22 to 28 as "National Farm Safety Week." In line with his request, representatives of the Soil Conservation Service, Extension Service, Farm Security Administration, and other agencies dealing directly with farm people are doing everything possible during this week to impress on farm people the importance of taking precautions necessary to eliminate farm hazards insofar as is possible. The purpose of the week is to stimulate a nationwide determination to stop needless waste of irreplaceable farm manpower and property.

Although not generally realized, statistics show that farming is the world's most dangerous occupation. The frequency of accidental deaths on farms is estimated to be one and a half times the all-industry average. Agriculture normally employs only about 16 per cent of the nation's workers, but has 24 per cent of all occupational deaths.

More than 17,000 farm people are killed and more than 1,500,000 are injured each year. Of the injured, approximately 15,000 are crippled for life. The annual monetary loss from accidents totals more than a billion dollars.

Farm fires are a serious source of accident. Approximately 35,000 farm people lose their lives annually, and more than 90 million dollars in property is destroyed by fire losses each year. Surveys reveal that 29 per cent of all farm accidents are caused by machinery, 26 per cent by livestock, 10 per cent by falls, 9 per cent by excessive heat, 6 per cent by lightning, and 20 per cent from all other causes.

Officials cite records showing that the farm accident rate has remained high for the last 30 years, while the number of industrial accidents has been reduced by 67 per cent and the industrial accident severity rate has been cut in half. At present, the farm accident frequency rate is nearly three times that of industry.

The National Safety Council is leading the effort, with agencies of the U. S. Department of Agriculture cooperating to the fullest extent. L. H. Gould, College of Agriculture, State College, is New Mexico state chairman in charge of the "Farm Safety Week" campaign.

The office of the Soil Conservation Service located in Artesia is distributing a "Farm Hazard List." It is thought that the farm hazards listed in this list will help the farmer to become safety conscious, thereby lessening the number of accidents that might occur.

There is a growing conviction among farmers that farming is a hazardous occupation. They are paying out more for farm insurance than ever before.

In New Mexico alone, AAA assistance for contour practices was given on 385,000 acres on 2500 farms, according to C. V. Hemphill, chairman of the State AAA Committee. In the nation as a whole, the Agricultural Adjustment Agency gave assistance on a record total of 29,217,806 acres.

Hemphill is a firm believer in contour farming. "Contour furrows slow down erosion by stopping and holding rainfall," he says. "This prevents loss of fertility by soil erosion and conserves moisture. Moreover, farming on the contour conserves tractor and animal energy."

Upper Cottonwood (Mrs. D. A. Bradley)

Mrs. O. A. Pearson was hostess at her home on Cottonwood last Thursday morning, honoring Mrs. Walter Riggs and daughter, Janie, with an early morning coffee. Invited guests were the honorees; Mrs. Ross McDonald and son, Howard, of Tularosa; Mrs. Ralph Pearson, and daughter, Abbie, Mrs. Clarence Pearson, and daughter, Alma Lynn; Miss Ludgreen of Roswell, Misses Wanda and Jo Ann Funk, Miss Phyllis Nelson, and Miss Prock.

Mrs. Roy Ingram was hostess at her new home last Thursday afternoon, when the Ladies' Aid Society held its regular July meeting. Bouquets of seasonal flowers were placed throughout the new beautifully decorated rooms. The president, Mrs. Ralph Pearson, opened the meeting, after which the devotional leader, Mrs. Carl Manda, had charge. The opening song was "Work for the Night Is Coming" and the subject was "The Door of Understanding." Mrs. Manda led the group in prayer. Mrs. Douglas O'Bannon then had charge of the program, with Mrs. Jesse Funk, Mrs. Roy Ingram, Mrs. O. A. Pearson, and Miss Mary Frances O'Bannon assisting her. A poem was given by Mrs. Melvin Mayberry. During the visiting hour, the hostess, assisted by Miss Alma Lynn Pearson and Miss Phyllis Nelson, served delicious refreshments to Mrs. James Buck, Mrs. Douglas O'Bannon, Mrs. Ralph Pearson, Mrs. Clarence Pearson, Mrs. James Thigpen, Mrs. Jesse Funk, Mrs. Carl Manda, Mrs. Glenn O'Bannon, Mrs. B. E. Green, Mrs. O. A. Pearson, Mrs. John Knowles, Mrs. Melvin Mayberry, Mrs. H. V. Parker, Mrs. Whit Knowles of Beaumont, Tex., and Miss Lundgreen of Roswell.

Mrs. Winnie Smith and Mr. and Mrs. Jim Norton and daughter, Eleanor, who were houseguests of Mr. and Mrs. Fred Chambers, left for their home at Kerns, Tex., Saturday.

Pfc. J. D. Sammons of Fort Lewis, Wash., has arrived home to spend a 15-day furlough with his mother and other relatives.

Mr. and Mrs. Horace Worley of Roswell visited in the homes of their sons, Mervin and Orval, last Thursday. Mrs. Worley returned home recently from visiting her son, Pvt. Austin Worley, who is stationed at Denver, Colo.

Mrs. Zeke Robinson and daughter, Nan, and son, Jack, are attending a Baptist convention in the Montezuma Mountains at this time. They plan to stay two weeks.

Ready for the Japs

Official U. S. Signal Corps Photo
A squadron of P-38's on the "Hill" fighter strip near San Jose, Mindoro Island. These Nip busters are always ready to back up the infantry. You can back up our fighting men with heavy purchases of War Bonds.
From U. S. Treasury

Mrs. Clarence Renshaw of Cottonwood and her sister-in-law, Mrs. M. D. Brown, of Roswell returned to their homes last week after visiting Mrs. Brown's parents, Mr. and Mrs. Renshaw, at Luther, Okla., two weeks.

Mrs. Basel Bobo and son, Melton, who visited relatives in Oklahoma three weeks, returned home last week.

Mrs. Walter Riggs and daughter, Janie, and son, Walter, of Tucson, Ariz., former residents of this community, and Mrs. Riggs' sister and family, Mr. and Mrs. Ross McDonald and son Howard, of Tularosa visited friends on Cottonwood last Thursday and Friday.

Mrs. John Knowles was hostess Sunday, July 22, honoring her husband with a 1 o'clock chicken fried dinner which was served from a lovely long dining table, centered

with a beautiful birthday cake. Plates were laid for the honoree's sisters and their families, Mr. and Mrs. Archie McDonald and their children, Juanita, Dorothy, and Raymond of Artesia; Mr. and Mrs. Glenn O'Bannon, and daughter, Charlotte Sue; Mr. and Mrs. B. E. Green, Miss Mary B. Kimbrough of Lake Arthur, Miss Lena Ruth Bradley and brother, L. B. Bradley, of Cottonwood and Mr. and Mrs. John Knowles and daughter, Betty.

Mrs. J. L. Taylor and son, Kenneth, and Misses Alice and Dorothy Norris are spending this week at Ruidoso.

Your waste fat is still needed in the war effort.

HEMPHILL CALLS FOR HIGH WHEAT PRODUCTION

New Mexico wheat farmers will have another big job next year if they meet the state goal of 400,000 acres. In announcing the state goal, AAA Chairman C. V. Hemphill said the national wheat goal for 1946 is from 67 to 70 million acres.

"This means full production," he said. "Farmers expect to harvest 68,600,000 acres this year."

Acute Gas Pains Stomach Distress?

Try Hot Water To Which A Little Neutracid Has Been Added

At the first sign of distress smart men and women now know just what to do. They put a teaspoonful of Neutracid in half a glass of real hot water and drink it after meals, that's all. Neutracid is new — it's made especially for the symptomatic relief of gastric hyperacidity. Nothing quite like Neutracid to bring fast, quick relief to the sufferer of stomach distress, acid indigestion, gas pains, heartburn, burning sensation, and other conditions when caused by excessive stomach acidity.

Ask for Neutracid at Artesia Pharmacy and all druggists.

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 52

Effective 12:01 am, June 30, 1945

"No carrier shall reserve, assign or allocate seating or sleeping space on a passenger train more than 120 hours in advance of scheduled departure time of such train. No carrier shall issue a ticket for a reserved seat or sleeping space on a passenger train more than 120 hours in advance of scheduled departure of such train, except in the case of tickets for reservations made prior to the effective date of this Order which have not been picked up."

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 53

"On and after 12 o'clock noon, July 15, 1945, no common carrier by railroad or sleeping car company shall operate or transport any railway car containing sleeping space or sleeping accommodations to a point of distance 450 miles or less from the point of origin of such car, such distance being measured by the shortest distance by railroad over which sleeping cars are operated between such points. Each common carrier by railroad shall forthwith cancel all reservations for space after 12 o'clock noon on July 15, 1945."

What about Travel now....

under the new Government rulings?

The Government has curtailed civilian travel by ordering the railroads not to make reservations on passenger trains more than five days in advance of departure and by banning sleeping car service on trips of 450 miles or less.

A lot of people are assuming that, with the European war over, the travel situation on trains should have eased up by now.

But they are finding out that it's harder than ever to get space. They're asking themselves, "Why?"

The reason is simply that the railroads are being called upon to repeat a job of moving over 3,000,000 soldiers. But this time it is to be done in 6 to 9 months whereas originally it took more than 2 years to move these men.

The railroads are still operating with the same number of passenger cars that they had when the war started. Building new passenger cars has not been permitted since Pearl Harbor.

Many Pullman cars have been converted into

hospital cars, and, of course, more Pullmans and coaches than ever are being withdrawn from civilian service to use in the movement of men to the Pacific.

The great bulk of traffic for the Pacific funnels into 4 railroads to ports of embarkation in California. Santa Fe, with its improved facilities, is carrying a large part of this traffic.

This all adds up to the fact that only a very limited amount of space is left over for civilian travel.

Of course we like to accommodate our friends and make new acquaintances. But you, too, agree that the troops and materials needed to whip Japan must come first.

New cars are now on order. Santa Fe has enough new chair cars on order to seat 3186 people. 16 new lunch counter-diners are also on order. A substantial number of new sleeping cars will be placed in service on the Santa Fe as soon as War Production Board orders permit.

Side by Side at Corregidor

Russell S. Berkeley, USN, hails an Australian cruiser from the bridge of a U. S. Navy cruiser. He is electrically powered megaphone to be heard above the noise of the bombardment of Corregidor. The ship is pushing the Japs back and your united power is needed in the continued heavy purchase.

of State by E. L. Moulton Economic Possibilities

to every citizen and in New Mexico is "New Mexico's Future," Moulton, just released by the University of New Mexico, is president of the company, a member of the Moulton family. Moulton has been a leader in the commercial and financial years.

the Artesia community an opportunity last year to get a preview on the Moulton was the guest of a public meeting at the school sponsored by the club.

he augmented his large charts, which are in the book, "New Mexico's Future," a survey of the state's varied resources through Moulton's with the local Committee for Economic Development.

time is a part of the art toward a stimulation in postwar America. The creation of jobs for veterans through a selection of national industries. The study was in March. Shortages of delays have held up the plan.

with the economic surge by this committee, in his years of business and his intimate knowledge of Mexico's economic has presented a careful study of the factors that produce returns in terms of investment.

points out that New Mexico's natural conditions, peculiar problems that are solved by the experience of other states of the world and in many places. Due to lack of moisture in agriculture, opportunities in agriculture are indefinitely circumscribed.

materials it produces in such as ore, meat, wool, are largely shipped to plants for processing. The state's deposits of low-grade minerals, thus far, no market has been found. It has undeveloped resources of lumber, and meat products, the possibilities for small industries are unexplored. Moulton is successful but it has been established.

ed here within the last 10 years. He thoroughly surveys the possibilities of development in a variety of fields. Among many noteworthy suggestions, he counsels the creation and maintenance of a scientific, experimental group whose duty shall be the investigation of the many natural resources of the state with an eye toward their future development.

"New Mexico's Future" is being distributed free by the Committee for Economic Development to newspapers, commerce organizations, libraries, and related groups, for the information of persons in business in the state, or contemplating the investment of funds in New Mexico.

All persons interested in what the coming years may mean in terms of economic and industrial development in New Mexico will find a wealth of information in Moulton's book, "New Mexico's Future."

IN THE PROBATE COURT OF EDDY COUNTY, STATE OF NEW MEXICO

IN THE MATTER OF THE LAST WILL AND TESTAMENT OF ELIZABETH SCHNEIDER, DECEASED.

No. 1177
NOTICE OF HEARING ON FINAL ACCOUNT AND REPORT

THE STATE OF NEW MEXICO TO William R. Schneider; Russell Schneider; Mrs. Hester Terpening; George Schneider; Master Sergeant Earl Schneider; and Myrtle Schneider, widow of Arthur D. Schneider; unknown heirs of Arthur D. Schneider; all unknown heirs of Elizabeth Schneider, Deceased; and all unknown persons claiming any lien upon, or right, title or interest in or to the estate of said decedent, GREETING:

NOTICE IS HEREBY GIVEN that William R. Schneider, executor, has filed his final account and report as executor of the last will and testament and filed his petition for discharge as such; that the Honorable Xury White, Probate Judge of Eddy County, New Mexico, has set the 30th day of August, 1945 at the hour of 10:00 A. M. at the Probate Court room in Carlsbad, New Mexico as the day, time and place for hearing said final account and report and any objections thereto.

At the same time and place, the

Probate Court will proceed to determine the heirship of said decedent, the ownership of her estate, and the interest of each respective claimant thereto, and therein, and the persons entitled to the distribution thereof. Any objections to said final account and report should be filed on or before the time set for hearing.

Neil B. Watson, whose address is Artesia, New Mexico, is attorney for the executor.

WITNESS my hand and the seal of said court on this 18th day of July, 1945.

(SEAL)

R. A. Wilcox,
County Clerk and ex-officio
Clerk of the Probate Court.
29-41-32

DAIRY PAYMENTS INCREASED

Rates for dairy production payments went on summer schedule July 1.

The government payments, designed to encourage production of milk and butterfat, were boosted for the summer quarter to help meet increased production costs. During July, August, and September, 55 cents a hundredweight will be paid for milk produced in New Mexico and 13 cents a pound for butterfat, according to County AAA Chairman Roy Forehand.

Agronomist Warns That Hormone Weed Sprays May Injure Cotton

A warning that some of the most promising of the new weed killers may also injure a cotton crop was sounded by Glen Staten, associate agronomist of the New Mexico Experiment Station. He specifically referred to 2-4-D sprays containing 2-4 dichlorophenoxyacetic acid.

"Until more is known about the effect of the sprays on cotton plants, don't run the risk of getting the material on your cotton land," he advised farmers.

"It's even dangerous to spray ditches that will later carry water to cotton fields. Apparently irrigation water leaches enough spray from dead weeds to effect the growth of cotton plants."

According to preliminary experiments, cotton is unusually sensitive to the hormone sprays, showing a tendency toward a wild top growth and blistered leaves in plants even slightly affected. When

plants are more severely damaged, the young top leaves curl, develop parallel veins, and become long and narrow with deep cuts at the ends. The leaves resemble the bracts surrounding the normal cotton boll.

"At present we don't know whether the affected plants will resume normal growth," Staten concluded. "Until the sprays are thoroughly tested, they should be used with care."

Sam pays you for saving when you buy War Bonds.

Further Honors Come to Local Legion Auxiliary at State Meet

Further honors for Clarence Keppie Unit No. 41, American Legion Auxiliary, were won at the annual convention in Albuquerque Saturday and Sunday, when Mrs. Alex McGonagill, who was completing her year as department president, was elected national committeewoman from New Mexico and Mrs. P. V. Morris was named "le petite chapeau"—president—of the 8 and 40, and Mrs. Earl Darst, secretary.

Mrs. McGonagill also automatically became president of the Past Presidents' Parley for a year at a business session of that group after a luncheon for past presidents Saturday noon. Mrs. Darst, who served as department child welfare chairman the last year, became secretary of the Past Presidents' Parley.

At a session of the American Legion Auxiliary Sunday morning, the local unit was given a number of citations and awards. They included the national citation membership award, for having the greatest number of paid-up members of any unit in the department; publicity award, child welfare and scrapbook award, community service award, Pan-American award, two personal awards to Mrs. Darst, for having the most outstanding district reports on child welfare, and an award to Mrs. J. B. Muncy for the most outstanding report on national defense.

Mrs. F. E. Painter, unit president, accepted the unit awards. Mrs. P. V. Morris of Artesia was in charge of memorial services Saturday afternoon for members of the auxiliary who died during the last year. Mrs. J. B. Muncy, also of Artesia, served as chaplain.

At the concluding session of the convention, Mrs. McGonagill was succeeded as president by Mrs. R. L. Burrow of Roswell. The new president named Mrs. McGonagill department national defense and war activities chairman.

Delegates from Artesia reported 23 units from the department were represented at the convention.

Shower at Mrs. Dozier

Mrs. Clarence Dozier was honored with a wedding shower at the home of Mr. and Mrs. Taylor at Maljamar Tuesday 17. Mrs. Dozier is the daughter of Mrs. Vera Cooper, owner of the Grocery Store.

A presentation of coffee which refreshments of and coffee were served. A cake was presented to the bride by Mr. and Mrs. Glen Taylor.

Those attending were Mr. and Mrs. Taylor, Mr. and Mrs. Robert Taylor, Mr. and Mrs. Robert Taylor, Mrs. Pearl Patterson, Mr. and Mrs. Dan Yancey and daughter, Ruth; Mr. and Mrs. Garet West and daughter, Sandy; Mr. and Mrs. J. Will Taylor, Mr. and Mrs. Vowell and daughter, Peggy; Mr. and Mrs. Dick Taylor, Mr. and Mrs. Fred Edington and children; Mr. and Mrs. F. B. Warner, Mr. and Mrs. Kenneth Shields, Mr. and Mrs. Glen Westall.

Mrs. Clifford Aldridge, Mr. and Mrs. J. P. Murphy and daughter; Mr. and Mrs. George Westall and daughter; Don K. Carter, A. C. Taylor, Mr. and Mrs. Luther Kelley and daughter; Mr. and Mrs. Ed Taylor, and Mrs. O. H. Bryan.

Mrs. Fred Cole entertained Monday with a 1 o'clock luncheon honoring her daughter, Miss Hattie Ruth, on her birthday.

Bouquets of lovely summer flowers were placed throughout the house. A bouquet of pink rose buds were the centerpiece for the luncheon table.

Covers were laid for Misses Janice Mann, Betty Blue, Joy Fern Ferguson, Rose Mary Martin, Doris Exum, Mary Lou Cunningham, Martha Harelson, and Betty Booker, and Mrs. Lewis Means, Mrs. R. D. Wright, and Mrs. Robert Hazards, and the honoree.

CUNNINGHAMS SERVE GUESTS FRIED CHICKEN

Mr. and Mrs. W. C. Cunningham entertained with a fried chicken dinner at their home last Thursday evening.

Mrs. Cunningham's parents, Mrs. and Mrs. D. W. Watkins, and family of Roswell were among the 35 guests.

Mrs. Ned Wells and children, Billy Ray and Barbara Sue, returned home Sunday evening after visiting their husband and father, Corporal Wells, who is stationed at Wichita Falls, Tex.

Those attending were Mr. and Mrs. Taylor, Mr. and Mrs. Robert Taylor, Mr. and Mrs. Robert Taylor, Mrs. Pearl Patterson, Mr. and Mrs. Dan Yancey and daughter, Ruth; Mr. and Mrs. Garet West and daughter, Sandy; Mr. and Mrs. J. Will Taylor, Mr. and Mrs. Vowell and daughter, Peggy; Mr. and Mrs. Dick Taylor, Mr. and Mrs. Fred Edington and children; Mr. and Mrs. F. B. Warner, Mr. and Mrs. Kenneth Shields, Mr. and Mrs. Glen Westall.

Mrs. Clifford Aldridge, Mr. and Mrs. J. P. Murphy and daughter; Mr. and Mrs. George Westall and daughter; Don K. Carter, A. C. Taylor, Mr. and Mrs. Luther Kelley and daughter; Mr. and Mrs. Ed Taylor, and Mrs. O. H. Bryan.

Girl Scout Notes

The Artesia Girl Scout Association was highly congratulated by their field advisor, Miss Capitola J. Hill, on the successful conclusion of the first Artesia Girl Scout camp in the Sacramento Mountains and the girls' cooperation and steady advancement in the association Friday evening when they held a special call meeting in the office of P. V. Sheldon with Mrs. Mark A. Corbin presiding.

A yearly budget was outlined and a fund established for a permanent camp, with which Artesia can be host to smaller towns and provide a summer camp for this immediate area. Artesia residents who are interested in this phase of scouting may help by contributing to the fund for which Mrs. Mittie Hamill is in charge.

Present at the meeting were Mrs. Mark A. Corbin, Miss Hill, Mr. and Mrs. Sheldon, Mrs. Niven Baird, Mrs. Hamill, Miss Catherine Walterscheid, Mrs. Raymond Bartless, Mrs. Robert Fuller, and Mrs. Howard Gissler.

Miss Hill announced that Artesia had the greatest number of girls per capita attending camp this year.

The next meeting of the association will be September 10, and the leaders of the club will meet the first week in that month.

Mr. and Mrs. P. V. Sheldon took their niece, Priscilla Kohl, and Louise Folkner to Camp Mary White Wednesday and upon their return to Artesia were to be accompanied by Miss Fid Hamill and Miss Virginia Green, members of Troop No. 1, who have been at the camp.

All Girl Scouts are reminded of a "sing-song" to be held at 7:30 o'clock Tuesday evening at the city park. Watermelon will be served and new songs will be taught.

Mrs. George Beadle, leader of the intermediate troop, and Mrs. Fred Jacobs entertained the girls at the Jacobs home last week. Telling of stories and singing prevailed and soft drinks and cookies were served to nineteen girls.

Mrs. George Lane Entertains Friday, Honoring Husband

Mrs. George Lane entertained with a dinner Friday evening, honoring her husband on his birthday. A four-course dinner was enjoyed in the large candlelight dining room from a long antique dining table covered with lovely, old white lace, which once belonged to Mrs. Lane's great-grandmother. A tall, white, crystal vase holding two pink rosebuds was at the center of the table and at each end, a candle holder of matching crystal was placed. In the candle holders blue candles were burning.

After the dinner, Mr. Lane blew out the candles from his beautiful, white, tiered birthday cake. The cake was cut in the dining room, after which it was served with coffee by the hostess in the living room.

About 18 guests were present and among them were the hostess and honoree's son and his wife, Mr. and Mrs. George Lane, Jr., of Los Angeles, Calif.

Mrs. W. W. Ports returned home Saturday night from Texas, where she had been visiting about six weeks. After visiting at Dallas, Houston, and Galveston, she was met by Mr. Ports' son, Wilson, who had been in San Antonio, and they came home together.

Betty Blue Is Named President Of Sub-Deb Club

Miss Betty Blue was elected president of the Sub-Deb Club which is sponsored by the Artesia Junior and Senior Women's Clubs, when the club met Tuesday morning at the home of Mrs. E. J. Foster.

The business meeting was presided over by the outgoing president, Miss Hattie Ruth Cole, and the following officers were installed: First vice president, Miss Doris Exum; second vice president, Miss Carol Hensley; recording secretary, Miss Mary Lou Cunningham; corresponding secretary, Miss Joy Fern Ferguson; treasurer, Miss Joann Livingston, parliamentarian, Miss Rosemary Martin, and reporter, Miss Betty Booker.

After the business meeting, Mrs. Foster, president of the Senior Women's Club, Mrs. Garland Rideout, president of the Junior Women's Club, and Mrs. Fred Cole, sponsor of the Junior Women's Club, served the Sub-Debs Club members iced coffee, melon cocktails and Danish rolls.

Clyde Dunn, son of Mr. and Mrs. Calvin Dunn, has been promoted from pharmacist's mate third class to second class. He recently had a visit with Widd Boyce, storekeeper first class, who is stationed on the same Pacific island about five miles away.

To Discuss 'Gas Measurements' At Tech Meet

C. C. Clover, mid-continent representative of the American Meter Company, will be the principal speaker for the regular monthly meeting of the Technical Society of Artesia on the Roof Garden of the Artesia Hotel here on Wednesday night, Aug. 1.

Clover is to discuss "Gas Measurements" and the society has extended a cordial invitation to the public interested in the message to be presented.

The society will meet for their regular meeting. Following this, they will open the meeting to the public and those who wish to hear the special speaker invited to be present at the meeting.

All members of the society are urged to be present, as they are to be named at the next Wednesday.

A Great Big
Thank You
Tell Your Friends

Christmas Greetings

A LITTLE OUT OF SEASON WE ADMIT . . .
BUT NOW IS THE TIME TO PLACE THAT
ORDER FOR THOSE . . .

Christmas Cards

We have just received our First catalog of Christmas Greeting and New Year's cards. It is now available for your inspection and for you to make your selection. You can pick out your cards, order them now and this will be one bit of your Christmas shopping, which will be completed — one thing you won't have to worry about when the Christmas rush gets underway.

Then too if that order is placed now, you are more likely to secure the particular Christmas card that you want and there will be no waits and no delays. It will not only afford time to secure them for you, but will give us time to print your name or names on them.

Later Could Be To Late

But the big reason that you should place your order for Christmas Cards now is in order to secure cards. We have been advised the supply of Christmas Cards will be short. Manufacturers predict their supply will soon be exhausted. We have the one catalog of cards. We have been promised others between now and September 1, but the supply of cards of those companies can be sold out even before the catalog is received. Now is the time to order your cards if you expect to have them for Christmas.

War Ration Book 5 and Gas 'A' Slated for December Distribution

War ration book 5, "smaller than a dollar bill," and containing just half as many stamps as the last book issued, will be distributed through the public schools in December, Chester Bowles, administrator of the office of Price Administration, announced. At the same time, the new "A" gasoline ration book will be issued.

Distribution will take place at schools, or other public buildings throughout the nation from Dec. 5 through Dec. 15. OPA district offices will fix the exact time for each local area.

The new "A" gasoline book will go into use Dec. 22, and ration book 5 will be used soon after the first of the year for food rationing and for rationing shoes.

Bowles said, "It takes a long time to plan, print, and distribute a war ration book. That's why we must arrange now for a book that will not be used until early in 1946. We are sure, too, that distribution of the book will be well handled."

The United States Office of Education has assured us that America's school teachers, who have become experienced hands at distributing ration books quickly and efficiently, again can be counted on to do this distribution job as a patriotic service of 150,000,000 of their fellow citizens. I really don't know how we could get along without their help. Practically every man, woman and child in the country, including military personnel who live at home, is eligible for war ration book 5.

About 23,000,000 motorists are entitled to receive the new "A" gasoline book. The gigantic nature of this task is obvious. Probably it is the biggest distribution job ever undertaken in this or any other country. But we know from experience that the teachers and school officers are fully equal to the task.

"Many people will remember the smooth, efficient way in which they handled the distribution of war ration book 4. This time they are called on to do an even bigger job. We are grateful to them. We believe, too, that millions of Americans will appreciate and applaud their patriotic wartime service."

Dogs Killing Geese On Bill Twilley Farm North of Artesia

Bill Twilley, a farmer residing about 3 1/2 miles north of Artesia, has lost approximately 20 of his flock of 230 geese from attacks on them by dogs. Following his loss he has issued a warning to all who own dogs that are running loose, that he is now shooting those dogs, which visit his farm.

Twilley stated that a pack of about eight dogs led by a large German police dog, has been attacking his geese between daylight and sunup now for several mornings. Three mornings he has endeavored to watch the dogs and he has attempted to shoot them. He explained that the dogs head back toward Artesia when he starts shooting.

He explained that he did not want to kill anybody's dog but that he was tired of having his geese killed and had to take this action to protect them. He expressed the hope the owners of the dogs would keep them up so they would not visit his farm and destroy his geese. He stated the dogs attack the geese and injure them, but do not attempt to eat them. Later the geese die from the attack.

Wanted—Washing to do in my home, 50 cents per hour, 50 cents extra for electricity. Jesse Chase, 107 B Avenue, one block north of colored Baptist Church. 30-2tp-31

WARDEN INFANT DIES SHORTLY AFTER BIRTH

A daughter born Wednesday of last week in Carlsbad to Mr. and Mrs. James F. Warden of Carlsbad, formerly of Artesia, died five hours after birth.

The baby was baptised Mary Johanna Warden shortly after she was born.

JACK FROST, JR., ABOARD HANCOCK WHEN PICTURED

A Navy photo in last week's Advocate, showing the U. S. S. Hancock just after a bomb from an Avenger plane had exploded suddenly over the carrier, was of special interest to Mr. and Mrs. Jack Frost of Artesia, for their son, Jack Frost, Jr., a yeoman on Admiral McCain's staff, was aboard her at the time of the explosion.

The Hancock was McCain's flagship at that time.

FRANK HERBOLD LEASES PARKMORE LAUNDRY

Frank J. Herbold has leased the Parkmore Laundry at Tenth and Grand for a year from Mr. and Mrs. Carl Daniels and will take charge Monday morning. Herbold announced this week.

Herbold has been employed the last few years by Malco Refineries, Inc.

Locals

Mrs. Julia Warden of Tenafly, New Jersey arrived in Carlsbad Wednesday to be with her son, James Warden and family. Mrs. Warden is well known here having visited with her son, who formerly was of Artesia.

Mrs. O. T. Mays and Mrs. Lonnie Edmondson returned home Friday from Albuquerque, where they went Wednesday of last week to see Mr. Mays, a patient in the Veterans' Hospital. They found him somewhat improved.

Mrs. David Barnette of Englewood, Calif., a daughter of Mr. and Mrs. C. E. Mann of Artesia, went through Albuquerque Sunday on her way to Wisconsin to attend a course for Baptist educational directors. She was met in Albuquerque by Mr. and Mrs. Mann, who brought home their little granddaughter, Sharon, who will remain here until her mother returns from Wisconsin.

Mr. and Mrs. Fred Higgins and family left Monday to visit friends and relatives at Nowata, Okla.

Mr. and Mrs. Roy Hall left Sunday morning to spend a vacation of a week at Denver, Colo.

Locals

Sgt. Lon Phillips, who has been in the China-Burma-India theater 16 months with the 20th Bomber Command and now is stationed on Guam, has been awarded a fourth battle star.

Mr. and Mrs. George Lane, Jr., of Los Angeles, Calif., are spending two weeks visiting Mr. Lane's parents, Mr. and Mrs. George Lane.

Mrs. Bea Thomas, an operator at the Modernistic Beauty Shoppe, has returned from a two-week visit at Bartlesville, Okla.

Mr. and Mrs. Earnest Thompson of the Loco Hills community were business visitors in Artesia on Tuesday afternoon.

Mrs. Harry Dobyns of El Monte, Calif., and Mr. and Mrs. Bert Adams of Long Beach, Calif., left this week after visiting their parents, Mr. and Mrs. R. G. Adams of Lakewood.

Mrs. Robert Chipman and two children of Globe, Ariz., are visiting Mrs. Chipman's mother-in-law, Mrs. Mark A. Corbin, and Mr. Corbin this week.

Miss Tommie Darnell of Midland, Tex., has been a guest of the Byers family on the Scharbauer ranch west of Hope and now is here visiting Mr. and Mrs. Andy Corbin.

S/Sgt. S. S. Swiontek, who had been home a month, reported Wednesday at Fort Bliss. He recently returned home from England. Sergeant Swiontek has been awarded a unit citation with three clusters and the Air Medal and six stars. He is the husband of the former Jimmie Wheeler.

Mrs. Helen Thorpe of San Diego, Calif., left Wednesday for her home after visiting her uncle, F. L. Wilson, and Mrs. Wilson about two weeks. She planned to stop in El Paso to visit Mr. and Mrs. Wilson's son, Lt. Leland Wittkopf, a patient in William Beaumont Hospital, where he was brought from the European theater. Lieutenant Wittkopf was seriously wounded in April.

Mrs. W. M. Crockett of Sunland, Calif., formerly of Artesia, left this week to return to her home after visiting her brother, Dale Gleghorn, and friends about a month. Her son, Paul Crockett, who was recently discharged from the Army and who came to Artesia with Mrs. Crockett, left a few days prior for Sunland, where he plans to make his home with her.

Strother Moore, field executive for the Eastern New Mexico area of the Boy Scouts of America and from Carlsbad, was in Artesia Tuesday.

The Rev. and Mrs. Lee P. Phillips of Hobbs, former residents of Artesia, when the Rev. Mr. Phillips was pastor of the Church of the Nazarene, were here the first of the week. They left Artesia at Eastertime, 1942, and had been living at Pasadena, Calif., about two years, until moving to Hobbs a month ago.

Sgt. Elvin Adams is here on a furlough after being released from a German prison camp. He will report to Santa Barbara, Calif., at the end of his furlough for a rest.

Mrs. Chester Mayes has returned from Lubbock, Tex., after visiting two weeks with her parents, Mr. and Mrs. W. W. Atwood. Mrs. Mayes was accompanied home by her mother, who plans to spend a short time visiting.

Bob Everts, son of Mr. and Mrs. Jim Everts, returned home Sunday after visiting his aunt, Miss Margaret Horner, at Albuquerque a week.

Miss Marie Manley has had as her guest for a week Miss Louise Taylor of Midland, Tex. Miss Taylor left for her home last Thursday morning.

Mr. and Mrs. Paul Kelton of Lubbock, Tex., visited with friends in Artesia Sunday afternoon while en route to El Paso, Tex. They expect to return to Artesia on their way home later this week.

Mr. and Mrs. C. J. Horne left Sunday for Paris, Ark., called there because of the serious illness of Mrs. Horne's mother.

Mr. and Mrs. T. C. Donnell returned home Sunday after attending the wedding of their granddaughter, the former Miss Grace Doss, at Colorado City, Tex. She has been a frequent visitor in Artesia.

Pat Briscoe and Ernest Dunn left Wednesday evening for Oklahoma City to spend a week before they join the Navy.

J. B. Champlon returned home Tuesday after spending several days at El Paso, where he underwent a nose operation. He stayed at the home of his sister, Mrs. John R. Walker.

Mr. and Mrs. L. M. Vaughn spent the week end at El Paso visiting their son-in-law and daughter, Lt. and Mrs. Dwayne Atwill.

Gene Felton, torpedoman second class on a PT boat, will leave Sunday for San Diego, Calif., where he will go to a gyro school several months.

Mrs. Dwayne Atwill of El Paso, the former Katherine McDermott of Artesia, is here visiting her mother, Mrs. L. M. Vaughn.

Lt. and Mrs. Howard J. Rutz of Belin, formerly of Artesia, were visiting friends in Artesia and Carlsbad this week. Lieutenant Rutz, who returned to this country June 29 from the European theater formerly represented the government in the unemployment office here. Mrs. Rutz, daughter of Dr. and Mrs. O. E. Puckett of Carlsbad, was a teacher in the Artesia schools when they were married.

Ray Malone of Albuquerque is here visiting his father, Morris Malone.

Miss Delpha Smith left Sunday to visit with friends at Las Cruces. She planned to stay a week.

Mrs. Pearl Johnson left Monday for a visit with her daughter, Mrs. L. C. Shuman, at Odessa, Tex.

President Receives Trophy

A statue modeled after the famed photograph of the Mt. Suribachi (Two Jima) flag raising taken by Joe Rosenthal of the Associated Press, is presented to President Harry S. Truman. At the ceremony, left to right: The President; Felix de Weldon, Navy painter, second class; Joe Rosenthal, AP photographer; Ted R. Gamble, National Director, War Finance Division, U. S. Treasury, and Marine Lieut. Col. E. R. Hagenah. Our flag must still be raised on many more bitterly contested battlefields. Your purchase of more and bigger War Bonds is needed to help further advances.

From U. S. Treasury

Ceiling Prices On Sorghums Established

1945 crop grain sorghum in Union, Harding, Quay, Curry, and Roosevelt Counties — the heaviest producers in the state — is \$2.16 per hundredweight. In other New Mexico counties prices will range from \$2.16 to \$2.36 per hundredweight. The prices apply to grain sorghums grading No. 2 or better at interior rail points.

Deductions from the maximum base prices will be made for other grades and qualities of grain sorghums and for various methods and points of delivery. A. E. Triviz, extension economist of New Mexico A. & M., said. No. 3 grain sorghums will be 2 cents a hundred pounds less than No. 2, and 4 grade 4 cents less than No. 3. Grain sorghums marked "weevil," "discolored," "sour," "smutted," or "rusty" will be discounted 2 cents a hundred from the base price for a hundred from the base price for standard sorghums. Maximum farm prices for standard grade or No. 2 sorghums will be 13 cents a hundred pounds less than the base price. A complete schedule of discounts from the base price for various methods of delivery and points of delivery is being prepared by local war price and board officers.

Freeze for Keeping

Storage temperature and packaging are the secrets for keeping frozen poultry for more than three months. The low temperature in the locker, however, the poultry will keep becoming rancid.

Chickens are to be stored only eight months, a temperature of 10 degrees is satisfactory; for a longer time a temperature of 10 degrees below zero should be maintained.

There are two reasons why it's difficult to package poultry properly than other meats. First, the bird's irregular shape is a problem. Second, underneath the skin most birds there's a layer of fat which easily becomes rancid if they are not kept during freezing and cold storage.

Freezing poultry, follow these steps: Select healthy, well-fed birds, pluck them away from food and water 24 hours before they're frozen. Singe, and draw the feathers from 12 to 24 hours before freezing. Pluck the bird from 12 to 24 hours before freezing.

For years LOWE BROTHERS MELLO-GLOSS has been the first choice for semi-gloss beauty in thousands of homes, schools, and hospitals throughout the nation. Lots 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 of Block 7 of the Chisum Addition to the Town (now City) of Artesia, New Mexico, as the same appear on the official plat thereof. And to bar and forever estop you, and each of you, said defendants from having or claiming any lien upon, or right, title, or interest in or to the above described lands ad-

verse to the plaintiff and to forever quiet and set at rest the title of the plaintiff to a fee simple estate therein.

If you, or any of you, said defendants fail to enter your appearance in said cause on or before the 30th day of August, 1945, judgment by default will be rendered in said cause against each of you failing to enter your appearance, and plaintiff will apply to the Court for the relief demanded in the Complaint.

Neil B. Watson, Artesia, New Mexico, is attorney for plaintiff. WITNESS my hand and the seal of the District Court of Eddy County, New Mexico this 9th day of July, A. D., 1945. (SEAL)

Marguerite E. Waller, Clerk of the District Court. 28-41-31

RECORD WHEAT CROP IN SIGHT

The outlook for a record-breaking billion-bushel wheat harvest continues bright, according to a forecast of the Department of Agriculture. The prospective total wheat production is 1,058,000,000 bushels, about eight million above last year's record crop. Oats and hay also promise above average production, with oats running 14 per cent ahead of 1944.

Meanwhile, USDA forecasts on other crops contain little reason for gloom. A record crop of early potatoes is predicted, and the tonnage of vegetable truck crops is expected to be about the same as last year's. Total fruit production will be nearly equal to last year's record harvest, with prospects for record crops of peaches and sweet cherries.

G. I. Joes at Kirtland Field Answer To Wide Variety of Famous Names

It was Shakespeare who said, "What's in a name?" Well, Shakespeare is a G. I. at the Superfort base at Kirtland Field, Albuquerque, along with Edgar Allen Poe, Jesse James, 56 Smiths, 37 Joneses, 31 Johnsons, and 26 Browns.

Shakespeare keeps company at Kirtland with such great military names as Grant, Lee, Sherman, Marshall, Arnold, M(a)cArthur, Stilwell, and Patton. Churchill is there, too, but the Big Three can't meet until a Stalin and a Truman show up.

And speaking of weather these days, look what this base has to offer: Winters, Summers, Blizzard, Freeze, Frost, Reins, Showers, Wind, Snow, Wetter, and Hott. It may be Fair, Good, or Mild.

Want to change the subject? Okay. There's a Bell and a Toll. There's a Hitch, a Halter, and a Harness — but no Horse. There's a Northern, East and West — but no South. There's a Barnum and a Bailey. There's a Parson, a Groom, a (Mc)Bride — with Rice to throw at them.

George Washington never slept here, but Adams, Monroe, Jefferson, Jackson, Harrison, Pierce, Hayes, Cleveland, Wilson, Harding, and Hoover have — to name just a few.

Superforts are the accepted mode of transportation around Kirtland. However, they're pretty busy, so they also furnish a Ford, a Packard, a Nash — or even a Maxwell.

For international flavor, these names were drawn from the files: England, Holland, Denmark, Canada, French, Scott, Irish, and Turk. There are Cousins, Brothers, a Brother-in-law, and a Daddysman.

Bacon and Ham both register plenty of points — but they're toward discharges — not meat purchases. Makes you hungry? Well, Kirtland has Pease, Bean, Lamb, Weiner, Lemon, and Hash, with Sugar and Pepper. And to prepare it are Bakers, Cooks, and Butchers, with Carvers and Butlers to set it before you. Maybe in a few months, there will be turnips, too, because Kirtland has Turnipsed now.

Let's skip at random: There's Junior and Senior; Karp, Sturgeon, and Trout (with Gill and Finn); there's Drew and Blood; there's Sage and Wise and Smart; Spitz and Collie; Soule and Angell; Journey and Tripp; Card and Gamble; Beard and Shaver; Love and Bliss.

Kirtland has royalty, too—King, Queen, Prince, and Duke.

If this story makes dry reading, Kirtland offers Beers, Ginn, Grandy (berry), Grogg, and Booze — a veritable Bender. You don't drink? Bring in Waters then!

And, girls, there also a Wolf!

Members PCA Are on Way to Total Ownership

Farmers and stockmen who are members of the five production credit associations in New Mexico now own 82 per cent of the total stock and reserves of the associations and are well on the way to complete member ownership of their own cooperative credit organizations, D. L. Mullendore, president of the Production Credit Corporation of Wichita, Kan., announced.

In 11½ years of operation, the 1155 PCA members in New Mexico have invested \$393,850 in stock and the associations have accumulated more than a million dollars in reserves. The remaining 18 per cent of stock outstanding is owned by the Production Credit Corporation, which originally organized and furnished the entire capital stock for the associations when they were set up in 1933. Stock and reserves owned by members of the 41 production credit associations in the ninth farm credit district — which also includes Colorado, Kansas, and Oklahoma — average 60 per cent member owned, Mullendore said.

Total capital and reserves of the New Mexico PCA's now amounts to \$1,319,785. Approximately \$56,398,000 has been loaned to farmers and stockmen in the state since organization. The associations are located in Albuquerque, Clovis, Roswell, Las Cruces, and Springerville.

HOLD THOSE MILK RECEIPTS

Acceptable evidence of farm milk production has been limited to milk statements or sales receipts. The revision became effective on July 1, when payments on April-May-June production began.

The new regulation, which doesn't apply to producer-distributors, defines acceptable evidence as milk statements or sales receipts issued by cooperatives, dairies, creameries, and others, showing the amount of milk or butterfat purchased, the date of purchase, and the names of the sellers and buyers. Producer-distributors may personally certify the amount of milk and butterfat sold, number of cows milked, amount and type of feed used, and customers served, provided that the report is consistent with the AAA county committee's knowledge of the individual producer-distributor's business.

BUGS IN YOUR FOOD

Not a pleasant thought, is it? You know how quickly you would act if you discovered insects destroying scarce, rationed food in your pantry!

But, what about this?—

296,822,000 pounds of COTTONSEED OIL, badly needed for rationed shortening, margarine and other foods, are lost annually because the Cotton Crop is not properly protected against Cotton Insects.

864,000,000 pounds of COTTONSEED MEAL AND CAKE, needed to produce scarce, rationed meats, are lost yearly, on the average, because of damage to the cotton crop by cotton insects.

520,000,000 pounds of COTTONSEED HULLS, also needed by livestock and war industries — COTTON LINTERS needed for munitions — Cotton Fiber needed for thousands of uses — are lost annually through insect damage to the crop.

Neither you nor Uncle Sam can afford such losses in 1945 — More than ever before, it is necessary and profitable to save your Cash, Food and Feed Crop from Cotton Insects this season.

MORE QUALITY BEEF GOING TO MARKET

Market reports indicate that producers are sending considerably more quality beef to market than they usually do. In the first week in June, more than 16,000 choice and prime steers arrived at Chicago — more than four times as many as for same week in 1944. In April, feeders sent to the Chicago market twice as many choice and prime steers as in the same month last year.

Reports from other markets also indicate unusually large marketings of finished cattle.

NOR ANY DROP TO DRINK

They don't figure corn production in terms of gallons per acre any more.

To protect corn supplies for essential feed and processing uses, WFA has restricted the distribution and use of corn for manufacture of alcohol or for export. WFA officials say that although there's enough corn in the country for essential uses, it's moving to market very slowly.

NURSE LOSES FAT SAFELY AYDS WAY

Get slimmer without exercise. Eat starches, potatoes, gravy, just cut down. AYDS plan is safe, sensible, easier. No exercise. No drugs. No laxatives.

Nurse was one of more than 100 persons losing 14 to 15 lbs. average in a few weeks in clinical tests with Ayds Plan conducted by medical doctors.

Delicious AYDS before each meal dulls the appetite. Yet you get vitamins, minerals, essential nutrients in Ayds. Start the Ayds way to lose weight now. 30 day supply of Ayds, \$2.25. MONEY BACK on the very first box if you don't get results. Phone MANN DRUG CO. Phone 87

WHY WORRY WITH A Leaky Roof?

THE J. E. BALL Roofing Co.

Now Located in Artesia

Will inspect your roof free of charge. All Work Guaranteed. CALL 123

—The New Mexico State Game Commission last week recommended to the Fish and Wildlife Service a six-week season, Sept. 1 to Oct. 12.

—Hope we get it, as well as a pheasant season, the last of which, being non-migratory, is up to the commissioners. The commissioners will meet Aug. 27 to discuss a pheasant season.

—And the Old Sportsman is informed that on that date—the commission has docketed the setting of a special deer, and elk seasons.

—In the meantime, The Westerner has ordered a pretty lot of ammunition, both rifle and shotgun, which you watch for. The Old Sportsman and George and Paul are expecting it in ample time for you fellows.

—By the way, The Westerner has 75 casting reels coming. 're expected in about two weeks.

Main Line of Power

IN WEST TEXAS AND EASTERN NEW MEXICO

Serving electricity the "high-line" way assures you of an adequate supply of cheap electric power 24 hours a day. From town to town—from factory to factory—from farm to farm, electricity from our power stations, strategically located in the territory we serve, comes to you at a lower cost than ever before.

Cities and towns that receive their electric service the "high-line" way have a definite advantage. With adequate and dependable power, new industries are more attracted; better service for all. Yes, the "high-line" way is the modern way!

Farmers Get AA-2 Priority, WPB Announces

Though the shortage of farm machinery and supplies continues, government agencies are doing what they can to give farmers a break.

A new War Production Board regulation gives farmers a priority of AA-2 on farm supplies and repair service. When a farmer needs a priority, he must give his dealer a signed certificate indicating that the supplies or repairs are needed in the operation of his farm.

In emergencies, WPB has arranged to give the farmer priority of AA-1 by letter, telegram, telephone, or personal visit.

According to A. E. Triviz, extension economist, farmers can buy most of the items covered by the new regulation without certificates. "However, for certain items, a priority is necessary," he said. "A dealer may be unable to replace certain stock unless he can turn in certificates. Furthermore, a farmer who presents a certificate can buy any farm supplies a dealer has in stock."

SAVE—to Save America!

TRUCK ALLOCATION IS SIMPLIFIED

With new light and medium trucks scheduled to come off the assembly lines in increasing numbers, the Office of Defense Transportation has simplified allocation procedures.

After July, ODT district managers will have full authority to allocate light and medium trucks and to issue certificates of transfer. At present, applications are forwarded to Washington for approval.

Farmers now make truck applications directly to ODT offices instead of applying through county AAA offices.

Get in the scrap!

Extension Specialist Recommends Use of Water Softeners

As the soap shortage becomes more critical, Miss Veda Strong, home management specialist of the New Mexico Extension Service, urges housewives to use water softeners. She specifically recommends the use of tetra-sodium pyrophosphate or the use of tri-sodium-phosphate and sal soda.

"It's more convenient if the water softener is mixed with water and kept in a jar always ready to use," Miss Strong says.

Handle Livestock Carefully Is Council Advice

Almost as dangerous as machinery, livestock help make farming the world's most hazardous industry. One run-away can wipe out years of training, besides injuring a good team. A bull, an old boar, a sow with pigs, or even a vicious goat or ram can cause a serious injury.

Here are a few practical hints from Lee Gould, state chairman for the National Safety Council.

Handle young work stock gently but firmly before breaking and during training. A mean horse or mule is sometimes docile when handled by a person in whom it has confidence.

Speak to an animal before entering the stall; if it's too nervous, stroke its neck or back.

Keep gear and harness in good repair.

Ring the nose of the bull, and use a leader. A safekeeper bull pen can also save lives.

Human beings are susceptible to many animal diseases; use every precaution in treating sick animals and disposing of dead ones.

Send a Prayer Over There—Through War Bonds! Money Is Needed! The Call Must Be Heeded!

KNOW YOUR NEIGHBOR

HIPOLITO UNANUE, DOCTOR HERO OF PERU

Sometimes a man is given to his country as an instrument to help accomplish that country's destiny, born to it equipped with every faculty which may contribute to the progress and well-being of the nation. Hipolito Unanue was such a man and, by his life of continuous service to Peru, he fully deserves the title of "Father of His Country" which has been bestowed upon him, together with that of "Father of American Medicine."

He was born in Arica Aug. 13, 1875, of a Peruvian mother and a Basque father. Destined to the priesthood from an early age, Hipolito received his primary education to seek the advice and protection in finishing his studies of his uncle, a respected and admired priest, Father Papon. Recognizing that his nephew had no real religious vocation, this intelligent man encouraged young Unanue to take up the study of medicine, there being at the time in Peru very few doctors of good standing and reputation. To support himself during the years that followed, the medical student became tutor in one of the most distinguished and fashionable households of Lima where he had the opportunity of coming in contact with the elite of the capital, among whom he was noted for his wit, vivacity, refinement, and charm of manners. Some of the friends made at this time helped him in his career and he in turn became their beloved and renowned physician. After studying under some of the best doctors of his day, Hipolito graduated brilliantly from medical school and set forth on a career which he was to ennoble by his extraordinary qualities as a man and as a physician. The five-foot, blue-eyed young doctor soon became a familiar figure at the bedside of both rich and poor, to whom he gave the best of his knowledge and of his kindness. A few years later, having proved to be a great practitioner and surgeon and a superb teacher of medicine, he was appointed professor of anatomy at the University of San Marcos, and at the age of 40 was considered the foremost scientific man of Peru. Possessing a vast general knowledge, Unanue was interested in a great variety of subjects. Together with a group of other intellectually prominent men, he established the "Society of Friends of the Country," who started to publish the "Mercurio Peruano," a periodical for which he wrote "acute and pithy" articles on topics, such as Peruvian archeology, geography, and botany. Other important studies were made by him on common diseases of his country, on its climatology — his book "The Climate of Lima" still being considered a classic on the subject — and on the development and uses of vaccines which he was the first in Peru to promote.

Every time and everywhere that there could be some public improvement, that progress could be achieved not only in the scientific field but in that of education, sociology, or politics, Unanue generously and intelligently devoted himself to bringing about that improvement. In 1811 he founded the San Fernando School of Medicine, which is today San Marcos University's medical school, and there he introduced modern methods of teaching medicine. Several years before, he had helped found the Anatomical Amphitheatre, an institution which indicated no little progress in America and was an imitation of the Academy of Surgery established in France about 1733. Appointed physician-in-chief of the vicerealty, Unanue was later elected deputy from Arequipa to the Cortes of Cadiz and sailed for Spain in 1814 as a representative of his country to the central government. Two years later he was back in Lima and caught, so to speak, in the web of the political and revolutionary agitation of the times. A document written by the great little doctor to urge that Peruvians be given the same political rights as the Spanish so moved one of the patriots that he knelt down to sign it. Although convinced that the best solution to the problem of his country would be a separation from Spain under a prince of Spanish dynasty, Unanue finally decided against this plan, embraced fully the cause of independence and went over to General San Martin, who had come from the south to liberate Peru. When independence was attained, Unanue was made secretary of the treasury in the republic which San Martin organized, being the only Peruvian in the cabinet formed to govern Peru. Later, when Bolivar had taken over the government, he had such absolute confidence in the public-spirited Peruvian physician, that he gave him several missions of importance, such as the portfolios of finance and education. Unanue also temporarily performed the duties of chief executive in the absence of Bolivar. Furthermore, he was president of the first constituent congress and helped draw up the constitution

of 1823. An able statesman, he managed to balance the budget, interested himself in agriculture, in mining and in industry, gave thought to irrigation and to the rapid increase in population, as well as proposing the gradual abolition of slavery. At the age of 70 he retired to his estates in Lima to die peacefully on July 15, 1833, after a life in which he had helped shape the soul of the nation.

Rubber Bands and Window Envelopes Are Now Available

A shipment of rubber bands was received this past week at The Advocate office. They are available to those, who may need rubber bands.

They are far from the best quality or from prewar quality, but will probably serve the purpose.

Those, who may need rubber bands, can now secure them.

This week's shipments also brought some 25,000 window envelopes (the type used for mailing out statements). They are now available in any quantity that local firms may need or require.

Another arrival at The Advocate office during the past week was a Christmas Greeting Card catalog. It is the first to be received. Others are expected, but salesmen and manufacturers have warned that the Christmas greeting cards are going to be short this year.

Those desiring Christmas cards are being urged to check the catalog, make their selections, and place their orders now. Only in this way can they be sure of obtaining their cards. The other catalogs are slated to be received between now and Sept. 1.

Predictions are made, however, that all greeting cards will probably be sold out between now and the middle of November. It will be too late then to obtain them, it has been explained.

There is nothing new on typewriters. Information received by The Advocate is that they are just as hard to secure as they were before the priority was removed.

The envelope situation is a little more difficult today. It has been impossible to obtain New Mexico Bond envelopes but a limited supply of envelopes, which match New Mexico Bond letterheads, has been received.

The plea was being continued for local firms to endeavor to anticipate their commercial printing needs and place their orders so that the job work will be ready when they need it.

COTTON PURCHASE PROGRAM PLANNED

If necessary legislation is continued, a cotton purchase program resulting in parity prices for 1945 cotton is planned, according to War Food Administrator Marvin Jones. The program would be similar to the purchase program for last year's crop.

"In addition," Judge Jones said, "I recommend that not later than June 30, 1946, consideration be given to a new program that would take into consideration competition from cotton grown in other countries, as well as domestic and foreign competition in synthetic fabrics."

Cruisers cost the United States government an average of \$12,500,000.

Time is the measurement of the earth's rotation on its axis.

Farming World's Most Dangerous Occupation

Today 40 to 45 farm people may die as a result of accidents. That's the daily average.

The yearly toll in the United States is between 15,000 and 17,000 members of farm household killed and 1,500,000 injured.

Thus national statistics support Eddy County Agent Dallas Rierson's argument that farming is the world's most dangerous occupation.

The frequency of accidents on the farm is estimated times the all industry average. "Agriculture employed 10 per cent of the nation's workforce in 1943, but had 24 per cent of the fatal accidents," Rierson says. "Furthermore, the farm was the highest of the major industries, amounting to 30 per cent of all deaths."

Rierson advises farm ranchers to make a safe up at least once a year.

Sunday services, 11 a. m.
Wednesday services, 7:30 p. m.
"Truth" is the subject of the
lesson-sermon which will be read
in all Churches of Christ, Scien-
tist, on Sunday, July 29, 1945.
The Golden Text is: "O Lord
God of hosts, who is a strong Lord
like unto thee? — Justice and
judgment are the habitation of thy
throne: mercy and truth shall go
before thy face." (Ps. 89:8, 14)
Among the citations which com-
prise the lesson-sermon is the fol-
lowing from the Bible: "For the
word of the Lord is right; and all
his works are done in truth." (Ps.
33:4)
The lesson-sermon also includes
the following passage from the
Christian Science text book, "Sci-
ence and Health with Key to the
Scriptures," by Mary Baker Eddy:
"Truth cannot be contaminated by
error. The statement that Truth
is real necessarily includes the
correlated statement, that error,
Truth's unlikeness, is unreal."
Visitors always welcome.

Clothing Shortage
Still Serious, But
Increase Expected

Though the clothing shortage is
still serious, housewives can ex-
pect increased supplies by next
winter. In fact, according to Miss
Pearle Chapman, extension cloth-
ing specialist of New Mexico A.
& M. College, women's dresses,
children's clothes, and men's ray-
on shirts are likely to be more
plentiful by autumn.

In the meantime, unless mili-
tary requirements are reduced,
shortages of certain items may be-
come even more acute this fall.
"It now looks as if men's woolen
and worsted suits and overcoats
will be scarce for at least six
months," Miss Chapman said. "Cot-
ton shirts, shoes, nylon hosiery,
men's underwear, and socks are
also trouble spots."

"Military demands are the key
to the shortage. Once they're met
or reduced, homemakers can look
for a change for the better."

You do more than help the gov-
ernment when you buy bonds—you
help yourself to save.

U. S. DEPARTMENT OF THE
INTERIOR, General Land Office,
Washington 25, D. C. Notice is
hereby given that sealed bids will
be received until, and opened at
noon on Tuesday, August 14, 1945,
for land described herein situated
within the known geologic struc-
ture of the Leo oil field, New Mex-
ico. This land is offered to quali-
fied bidders of the highest cash
amounts per acre as a bonus for
the privilege of leasing the land
under section 17 of the leasing act
as amended by the Act of August
21, 1935 (49 Stat. 674, 30 U. S. C.
sec. 226), in the following parcels
all in T. 18 S., R. 30 E., N.M.P.M.:
Parcel No. 1, sec. 15, E $\frac{1}{2}$ SE $\frac{1}{4}$, 80
acres. Parcel No. 2, sec. 15, W $\frac{1}{2}$
SW $\frac{1}{4}$, 80 acres. Parcel No. 3, sec.
22, E $\frac{1}{2}$ NE $\frac{1}{4}$, sec. 23, W $\frac{1}{2}$ NW $\frac{1}{4}$,
160 acres. Parcel No. 4, sec. 22,
SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, 80 acres.
Parcel No. 5, sec. 22, SE $\frac{1}{4}$ SW $\frac{1}{4}$,
SW $\frac{1}{4}$ SE $\frac{1}{4}$, 80 acres. Parcel No. 6,
sec. 23, E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, 160
acres. Total, 640 acres. Bids must
be submitted on each parcel sep-
arately, but if two or more parcels
are awarded to the same bidder
they may be included in a single
lease. Each bidder must submit
with the bid one-fifth of the amount
bid in cash, or by certified check
made payable to the order of the
Treasurer of the United States,
and file the showing of qualifica-
tions to receive a lease required
by section 7 of Circular 1386. The
envelopes should be plainly mark-

PALE? WEAK?

Four Producing Oil Wells Brought In; Locate Two Rank Wildcats

Eddy County oil operators the last week completed four producing wells and staked five new locations, of which two are rank wildcats in the southern part of the county.

Three other wells reported as completed were dry holes and were plugged and abandoned.

The completions:
Dale Resler, Jones-Stat 5, SW SE 14-18-27; total depth 1835 feet; flowed 300 barrels of oil per day, after shot.

Neil H. Wills, Wills 10, NW SW 13-20-28; total depth 807 feet; pumped 35 barrels of oil in six hours, after shot.

Danciger Oil & Refining Co., Turner 18-B, NW SE 20-17-31; total depth 2067 feet; flowed 80 barrels of oil per day, after shot.

Skelly Oil Co., Lea 6-A, NW SE 14-17-31; total depth 3876 feet; plugged back to 3721 feet; pumped 76 barrels of oil per day, after shot.

Burnham Oil Co., Brooks 1-A, SW NE 19-17-28; total depth 2733 feet; plugged and abandoned.

Red Lake Oil Co., Williams 3-A, SE NW 21-17-28; total depth 2100 feet; plugged and abandoned.

R. L. Harrison, Crockett-Spencer 1, NE NE 19-18-26; total depth 1602 feet; plugged and abandoned.

Rank wildcat locations: J. D. McGurt, Simpson 1, SW NE 20-21-27, east of Carlsbad; Culbertson & Irwin, McNutt 1, NW NE 11-20-31, northeast of Carlsbad.

Other locations: Flynn, Welch & Yates, Powell 1, SW SW 14-18-27; D. D. Thomas, Johnson 5, SE SE 28-16-31; Skelly Oil Co., Lea 7-A, NE NE 23-17-31.

Drilling Report
McKenzie Drilling Co., Root 2, SW SW 6-17-30.

Total depth 2809; cleaning out after shot.

P. B. English, A. N. Etz 1, SE NE 24-16-30.

Drilling at 3315.

Malco Refineries, Inc., State 1, NW SE 16-19-27.

Total depth 1785; fishing tools.

Repello Oil Co., Keel 7-A, NW SW 7-17-31.

Drilling at 2740.

B. English, Barton 1, SE NE 22-19-31.

total depth 2450; preparing to plug back.

Union Gas Co., Reid 2, NW NE 20-17-28.

Total depth 1992; preparing to shoot.

Western Production Co., Keely 23-C, SW SW 25-17-29.

Drilling at 2851.

Robert McKee, State 6, SE SE 32-17-30.

Drilling at 2685.

Reaper Oil Co., Puckett 10-B, SW NE 25-17-31.

Drilling at 3340.

Miller & Brown, Vick-son, NW 24-20-28.

shut down for 270; shut down for 270.

State 2, NE NW 20-17-28.

shut down for 270; shut down for 270.

State 4-B, NW 10-30-31.

shut down for 270; testing.

Bluminger, Anderson, NW 21-19-28.

shut down for 270; testing.

Miller & Brown, Gissler, NW 11-17-30.

shut down for 270; testing.

depth 3048; cleaning out after shot.

Arnold 7-A, SE NE 27-28.

depth 2968; waiting on 270.

Aston & Fair, Canfield, NW 18-18-30.

shut down for 2695.

Republies Corp., Robin-son, NE NE 35-17-29.

depth 3191; fishing tools.

Flynn, Welch & Yates, Powell 1, SW SW 14-18-27.

Drilling at 80.

Jamison & Pollard, Crosby 4, NW SE 12-20-28.

Drilling at 330.

Neil Wills, Wills 11, NW NE 13-20-28.

Total depth 720; shut down for orders.

Report Three—

(Continued from Page One)

voie, formerly of Artesia and Dayton, who now live at Pixley, Calif., where they moved in February, 1944.

It said that Private Savoie had been reported missing in action on May 7, 1942, and that now an official message had been received saying he died July 14, 1942, a little more than two months after the fall of the islands.

Private Savoie was born Nov. 4, 1915, at Muenster, Tex., and came with his parents to the Pecos Valley at the age of 2 years. He lived at Artesia and Dayton then until entering the service in March, 1941.

He was shipped out with the 200th in September of that year.

Besides his parents, Private Savoie is survived by seven sisters and three brothers, including two sisters, Mrs. Jimmie Rowland and Mrs. C. T. Burrows of Artesia, and a brother, Cpl. Leon L. Savoie, who is hospitalized at Palm Spring, Calif., after two years of service overseas.

Pvt. Jack Kithley Coor

Private Coor was killed in action on Okinawa June 21, according to a message to his sister here, Mrs. Jewell Welch Tuesday.

He entered the Marine Corps Nov. 15, 1944, and was shipped to Pearl Harbor last February. Private Coor went on from Pearl Harbor only recently and the action on Okinawa was his first.

He is survived by his mother and brother, Mrs. Ida Coor of Pueblo, Calif., and the sister here, Mrs. Welch. Mr. and Mrs. R. E. Barnett of Artesia are an uncle and aunt.

A son of the late D. K. Coor, who died July 5, 1943, and Ida Coor, Jack Kithley Coor was born at Brownfield, Tex., Sept. 9, 1925.

He moved to Artesia about 10 years ago with his parents and was working in the oil fields at the time he went into the Marine Corps.

Volunteers—

(Continued from Page One)

sugar, but it is also the deadline for those who seek additional sugar, to file their applications. Previously the deadline had been set as Oct. 31. The new ruling, however, advanced this deadline for sugar applications to Aug. 4.

Whether or how much additional sugar may be given those who have not received five pounds per person, remains to be determined. Local board members, who have studied the regulations have found the instructions rather confusing. However, the general belief is that additional sugar will be issued those, who can qualify and who show an absolute need for sugar for canning.

Instructions point out, however, that the second issuance is not to be made until reports on the number of applications and apparent need is in evidence and until this data has been filed with the state office.

This information is to be sent into the state office from all of the rationing boards in the state.

With the deadline for all applications for sugar Aug. 4, the state office hopes to have full information and make the second issuance of canning sugar available to the boards as of July 10. If this proves to be the case then shortly after this date or on this date if sufficient help is available the issuing of stamps for canning sugar to those, who only received five pounds per person, can be started.

However, no additional sugar will be available prior to that time. The fact also was emphasized that those approximately 200 families, who received the maximum of 15 pounds per person when the first sugar stamps were issued, are not eligible for additional sugar.

The maximum amount to be issued this year is 15 pounds per person.

Deep appreciation was voiced here by the members of the local rationing board for the fine response for the plea for volunteers to assist in issuing the sugar stamps and processing the applications. This made it possible, they pointed out, for all of the applications to be handled and processed.

Several of the applications have been in the local office for several weeks, but there was not sufficient office help to handle these and conduct the office too.

Petitions—

instruct the sanitary officer to cite under the sanitary code owners who permit their chicken yards and pens and rabbit hutches to become unsanitary, offensive, and fly breeding places.

Hitchhiker Is Killed Wednesday In Car Wreck

A man about 35 years old, identified by papers on his person as Terry Copeland Brown of Brownfield, Tex., was instantly killed about 4 o'clock Wednesday afternoon a short distance south of the South Seven Rivers bridge on the Carlsbad highway, when the automobile in which he had hitched a ride overturned.

He was riding with Cecil La Fever of the Dr. Pepper Bottling Company plant of Pecos, Tex., who had with him Garland McBray, a Dr. Pepper man of Mangum, Okla. The two had been in Artesia on business at the local Dr. Pepper plant and were returning to Pecos. Both suffered only minor injuries.

La Fever told Eddy County officers he had picked up Brown at the south edge of Artesia and that the hitchhiker had grabbed at the wheel several times. Just after they had crossed the highway bridge, Brown again grabbed the wheel and threw the car, a roadster, out of control.

J. C. Floore, deputy sheriff, in reconstructing the accident, said the La Fever car went off the highway to the right and progressed for 67 feet. It then cut back across the highway, rolled over, and came to rest on its wheels, with Brown underneath.

Bayless Funeral Home of Artesia, where the body of Brown was taken, and officers were attempting this morning to locate relatives of the dead man.

Civic Leaders—

(Continued from Page One)

Artesia and North Eddy County business people and citizens back the movement wholeheartedly, but the assistance of other communities in this area will be needed as well as the assistance from neighboring states.

The proposed plan calls for a highway extending west from Dallas through Breckenridge, then west through Snyder and Lamesa, Tex., into New Mexico by Hobbs and then west to Artesia. From Artesia the highway would extend on west over State Highway No. 83 through the mountains to Cloudcroft and on to Alamogordo and Las Cruces to join Highway No. 90, which extends west to the coast.

The proposed route, it has been pointed out, reduces the distance to the West Coast approximately 150 miles and at the same time provides a more scenic route than the southern route, which is used at this time.

The route also would serve to feed the highways north and south from here and particularly to Carlsbad and to the Caverns. The northern route now, requires a trip back of 150 miles to Carlsbad from one point in Texas or it requires such a trip back to the southern route if the Caverns are included on a visit to the west. It has been pointed out this is through uninteresting and almost desert country.

Local business people, who have commented on the proposed superhighway, have declared that it is the most important project, which has ever been submitted here.

They have stressed its importance and expressed the great need for the highway here. Indications are that Artesia will back the project 100 per cent.

But civic leaders have emphasized the fact that it will take much work and effort, many meetings here and with other groups if the project is to be secured.

And they stress the fact that those, who want to see the highway project carried out must give their complete and full support to the undertaking.

Their first opportunity, of course, to participate in the planning for the highway will be at the meeting here on Thursday, Aug. 2.

Other matters are scheduled to come before the organization here. These will include discussion and reports on memberships and membership dues, committee reports, and other civic projects now before the organization.

Leaders have stressed the fact that not only members but non-members of the Chamber of Commerce and invited and urged to be present for the luncheon meeting Thursday, Aug. 2.

General Clean-Up—

(Continued from Page One)

good service as possible. Besides the removal of trash, rubbish, and unsanitary conditions, their are indications that the near future may see a determined effort to clear up other unsightly conditions in the business district, or at least a half block off of Main Street.

There are lots within the business district piled high or with large quantities of various kinds of junk, which should be moved from the business area, it was pointed out. It is hoped that when the general clean-up campaign here gets under way that this can be removed also.

Tire Quota—

(Continued from Page One)

No information is available now as to the August quota or when it will be available, but the belief has been expressed that the announcement of this quota will be later, meaning, of course, it will be late in August then before tires will be available.

Members announced they would be glad to accept applications and to approve applications of those eligible for tires. However, they pointed out there was not a single thing they can do about securing tires during the remainder of this month.

They also stated that anyone, who wanted to take his application into the county board at Carlsbad, could do that, but they stated since the July quota was exhausted and no tires were available it wouldn't do them any good.

They made it clear they would continue to approve applications of all eligible applicants and that they couldn't do any more than this until tires were available.

Jig-Saw Puzzles—

(Continued from Page One)

cards were recently sent to the William Beaumont Hospital in El Paso. The next collection of cards is expected to be sent to Bruns General Hospital in Santa Fe.

The fact has been stressed that the boys need these cards to help them pass away the time and for amusement in the hospitals.

Reports received in Artesia have indicated there is a great shortage of playing cards in all of the hospitals.

Those desiring to donate one or more decks of playing cards and/or who have jig-saw puzzles they desire to donate can leave these at the gas office, the public service company office or at The Advocate office.

Start Move—

(Turn to last page, please)

block north and south of Main on Fourth Street. The half block south from Texas and north from Quay on this street was widened many months ago.

Cost for the work, of course, is to be paid by the property owners. There would be actually a block and a half on which the curbing and gutter would have to be moved and then approximately three blocks of new curbing and gutter to be run and paving to be laid.

Beef Producers

Have to Aug. 31

For Payments

Eddy County beef producers have until Aug. 31 to apply for their beef production payments on sales of eligible beef animals made between May 19 and June 20, Roy Forehand, chairman of the county AAA committee reported.

For sales after June 30, applications for payment must be filed within 60 days of the date of sale, Forehand said. Only one application may be filed in each calendar month, although one application can cover several sales. To date only one county feeder has applied at the county AAA office for the 50 cents a hundredweight payment. The applications covered sales of 29 head of beef cattle.

Reviewing the provisions of the program, the chairman said that the payments are made to feeders and feeder-slaughterers who have owned and fed the cattle for not less than 30 days. To be eligible, a beef animal must weigh at least 800 pounds and must bring at least the minimum price established for grade "A" or "AA" cattle for the zone in which the sale is made. For sales in New Mexico, the minimum price is \$13.85 a hundred.

The animals must be sold to a

'Soapbox Derby' Here Friday Has Seven Racers

From a field of seven starters, the first "Soapbox Derby" ever run in Artesia was won Friday morning by John Green, who a week prior came up with the champion in a horned toad race, staged as part of the summer playground activities.

Motivated by a relay of boy pushers, young Green's homemade racer crossed the finish line after a 400-yard course about 25 feet ahead of the vehicle piloted by Freddie Sanders. Third and fourth places were close, with Donald DeWitt finishing only a car's length ahead of Tommie Bryan.

The other racers were Linton Woodside, Buddy McQuay, and Lyle Bert.

In the race, which was staged in Richardson Avenue from adjacent to the swimming pool to the corner of Tenth, each boy had the privilege of using from one to three pushers, but only one at a time. Most of them took advantage of the relay privilege, but several of the racers were pushed by only one puffing, worn-out boy.

It is unlikely any motor powered race of only seven drivers ever had such a variety of cars entered. Some had the appearance of conventional racers and were steered by wheels, while others had unique methods of steering. One had two levers, giving the racer the appearance, as to control at least, of a caterpillar tractor having two motors, while another was steered by the boy's feet on a bar, which controlled a single rear wheel, airplane style.

Coach F. L. Green, who is in charge of the boys' activities in the summer playground program, expressed the hope the "Soapbox Derby" will be made an annual affair and that in future years it may be built up into a big affair with prizes offered. No prizes were given for the race Friday.

Green and Mrs. Flora Thompson, girls' leader, are attending a Kellogg Foundation workshop at State College this week, during which the program has been inactive. The fun for boys and girls each morning will be resumed Monday.

BETTER LUNCHEONS

FOR MORE CHILDREN

WFA's School lunch program in New Mexico reached a peak of 226 schools and child-care centers serving lunches to 22,410 school children last year.

According to Gordon Wood, WFA's district representative, participating schools received approximately \$158,000 from the War Food Administration through May 31. Non-profit, child-care centers had about \$15,750 to show for their cooperation in the program.

"The program showed marked improvement in interest and in the number of schools participating," Wood said.

A Ford Jackson, S. C., soldier found love's pathway troublesome — every time he kissed his beloved he was seized with a violent sneezing spell. After several tests the post hospital laboratory told him he was allergic to the type of face powder his girl friend used. There was no report whether she changed her brand.

legally authorized slaughterer, Forehand said. Sales through a third party will qualify, provided the buyer certifies that the animals have been or will be sold and delivered to a licensed slaughterer within 29 days of the date of the sale and supplies the name of the slaughterer.

Sales receipts, invoices, scale tickets, or accounts sales are required as evidence for submitting an application. Payments are in the form of sight drafts on Commodity Credit issued by the county committee.

Navy Address Changes Cause Advocate Delay

The Advocate is encountering considerable trouble in making delivery of Advocates to members of the United States Navy at this time.

Numerous addresses from those in the Navy are now being returned to The Advocate by the fleet postoffice, San Francisco, with the request that the correct addresses be placed on the papers and explaining that the papers cannot be forwarded. All that can be done, it was explained here, is to stop the papers and wait until correct addresses are received.

Parents, relatives, and friends of those boys in service receiving The Advocate and who have new addresses are urged to report these addresses to The Advocate.

As quickly as this can be done then the papers will be started again.

The complete and full cooperation in this respect is being requested.

Denver firemen are a bit dubious about a meat shortage. Twice within three hours they were called to residences where smoke billowed from windows. In each case they traced the smoke to neglected meat roasts.

To The

Mayor and City Council

Of Artesia, New Mexico

The undersigned citizens of Artesia wish hereby to commend and congratulate the Mayor and Members of the City Council for the alertness and keen foresight in so promptly passing the "Livestock Ordinance" to our City Laws at their recent meeting, thereby insuring sanitary conditions in our beautiful little City, and on their resolution to appoint a sanitary officer to enforce this and other sanitary ordinances.

If you approve of this action—and you probably do—clip, sign, and mail the above to Emery Carper, Mayor of Artesia, Carper Building, Artesia, New Mexico. If your family and neighbors require more lines than are provided, attach additional piece of paper.
